**REDDY'S
HELPFUL TIPS**

- ★ Your air-conditioner will operate inefficiently if filters are not cleaned regularly. Dirt and lint, collected on the filters, restricts air flow to the coils. Clean filters every two weeks.
- ★ Let nature help you save energy by shading your home with trees and shrubs to help cut down on summer cooling costs. Draw draperies against afternoon sun.
- ★ Remember to keep outside doors, windows, and fireplace dampers closed. If you have window units, close the heating vents near the floor, as cool air falls and can escape through vents.

There's
a future in it
for 
someone.

Your son's education for instance.
But by the time he's ready for college his education may well cost a small fortune.
The kind you just don't have lying around under a bed.
That's just the reason why your government has a great thing going. A U.S. Savings Bond.
In themselves they're not a quick buck. They won't make you that fortune overnight. But in the long run they do pay off. Darn well at that. And at a guaranteed rate. Starting a savings plan is easy. You can join a Payroll Savings Plan where you work. Or get into a Bond-A-Month Plan where you bank. Then watch someone's future grow. Like your son's.

OR how
NORBERT RILLIEUX
was the
original
Sugar Daddy.**

On August 26, 1842, Norbert Rillieux put a patent on a sweet idea. It was a way to refine sugar. To help the sugarcane juices evaporate more quickly, he enclosed condensation coils in a vacuum chamber. A process that's made things a lot sweeter ever since.

You can make your future a little sweeter, too, by buying U.S. Savings Bonds through your Payroll Savings Plan. They're the dependable way to save for an education, vacation, or even retirement. Because they always pay off with interest.

So buy U.S. Savings Bonds. And be a "sugar daddy" in your spare time.

Series E Bonds pay 6% interest when held to maturity of 5 years (4% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.
