### Steady Cotton Market

Although the U.S. cotton crop will be much smaller this year than last, prices are expected to show little improvement, according to a marketing economist with the Texas Agricultural Extension Service. World cotton supplies remain large, and U.S. cotton in public storage while exports are strong, domestic mill use remains weak. And the competition between man-made fibers and cotton remains intense.

It has been a great privilege to meet and talk to so many of the people in the Hedley area the last four months. You have all been so friendly and receptive. Because I am not financially able to canvass the entire county again as I tried to do before the election in May. I am asking each of you to please remember me when you go to vote in the run-off election June 3. I really want and need this job.

**Announcing GREAT new place to RAISE CANE also Land that's Not hard to BEET.**

A growing country needs lots of growing things. Like sugar for food. Cotton for clothing. Even trees for lumber. And the South was a perfect place to raise just about anything. With acres of fertile land and warm sunshine. Feeding the hungry industrial regions to the north, the South helped make a new and struggling country grow strong and prosperous. Today, America keeps getting stronger every day. Thanks to over 9½ million Americans taking stock in their country by buying U.S. Savings Bonds. They know that as they're working for their future, their Bonds are working hard for America's future, too. So, buy U.S. Savings Bonds through your Payroll Savings Plan. Whether you're raising vegetables or a family, they're a great way to save.

Series E Bonds pay 6% interest when held to maturity of 5 years (4½% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

# There's a future in it for someone.

Your son's education for the future. But by the time he grows up, education may well be a thing of the past. The kind you just don't have lying around under a bed. That's just the reason why you're not doing a great thing going to U.S. Savings Bonds. They won't make you that rich. But they will at least. And it's a guaranteed thing. For you can get into a U.S. Savings Bond when you start. They will grow someone's future. Like your son's.
