## Winter Pastures Increasing

More and more Texas farmers and ranchers are planting winter pastures, says a forage specialist with the Texas Agricultural Extension Service. The main reasons are that hay supplies are short due to the drought and that winter pastures can provide high quality grazing during the winter and early spring. Planting wheat, oats or ryegrass on a prepared seedbed is best although they can also be seeded into bermudagrass sod.

## Cotton Important

Income from cotton plays a key role in Texas' economy. The production and processing of this natural fiber generates over \$2 billion in the state's economy each year. More than 27,500 businesses in Texas are centered around cotton and provide jobs for 69,448 Texans.

## Utility Sales Tax To Be Dropped

## Card of Thanks

It was the nicest surprise of my life and I hope I can do justice to the crown. Thank!

Sherrie Hill

## Corn, Sorghum Prices Under Pressure

Good corn and sorghum prospects, both in the U.S. and abroad, will keep prices low in the coming months, says a grain marketing specialist with the Texas Ag Extension Service. However, yields will be down in Texas due to drought conditions. Corn and sorghum prices should be near the loan rate in the coming weeks.

## Active Sportswear

Active sportswear for all family members is increasing as a favorite sewing project, reports Becky Culp, clothing specialist with the Texas Ag Extension Service.
