## Cotton Important

Income from cotton plays a key role in Texas' economy.

## Winter Pastures Increasing

More and more Texas farmers and ranchers are planting winter pastures, says a forage specialist with the Texas Agricultural Extension Service. The main reasons are that hay supplies are short due to the drought and that winter pastures can provide high quality grazing during the winter and early spring. Planting wheat, oats or ryegrass on a prepared seedbed is best although they can also be seeded into bermudagrass sod.

## Corn, Sorghum Prices Under Pressure

Good corn and sorghum prospects, both in the U. S. and abroad, will keep prices low in the coming months, says a grain marketing specialist with the Texas Ag Extension Service. However yields will be down in Texas due to drought conditions. Corn and sorghum prices should be near the low rate in the coming weeks.
