## Over 300 Attend Field Day

By DORTHY PAYNE Brackett News Staff Write

On August 16, 1991 the First Annual Field Day for our district of Aging Centers was held in Fort Clark Springs from 8:00 a.m. to 4:00

Center was host to the Annual Field Day. The Kinney County ladies and driver under the direction of our Site Director, Tencha Pena, provided a successful and entertaining day. It was quite a sight to see all the buses lined up in a row. There were buses from Dimmit County, Eagle Pass, Asherton, Carrizo Springs, Del Rio, Crystal City, La Pryor, Caterina,

and Kinney County. There were 300 or more members attending.

The visitors met at our Aging Center and upon arrival were directed to the picnic grounds east of the swimming pool on Fort Clark

Each Site Director was responsible for food for their own group. First on the program was free Bingo for prizes from 9:00 a.m. to 10:00 a.m. From 10:00 a.m. to 11:00 a.m. there were horse shoe pitching, frisbee and washer throw contests.

The guests were then taken on a tour of the Fort Clark Springs Museum. Lunch time was from 12:00 to 1:00 p.m. with music and singing and celebrating the August birthday of various members.

Our Kinney County members dined on barbecued chicken cooking and serving was done by our Kinney County Crew. There was corn-on-the-cob, fruit salad, bread and three kinds of cake for dessert. "Scrumptious."

Our first annual Field Day was a great success. Kinney County host and hostess are to be congratulated for a successful field day that went off without a hitch or an injury. See you all next year at our second annual field day wherever that might

## Annual Faculty Bar-B-Que

On the eve of school opening, the Brackettville Lions Club hosted their annual "Welcome To A New School Year" for the Brackett ISD Staff, the School Board, and their families. One hundred sixty people were served barbecued chicken, beans, potato salad, trimmings, cake, iced tea and Kool-Aid on Thursday evening at Rendezvous Park, Fort Clark Springs.

Lions President Tom Faulkenberry extended the welcome, Harold Miller gave the invocation, Larry Sofaly led the Pledge of Allegiance, and Ruby Miller led the group singing of America.

After the meal, Superintendent Bob McCall introduced the School Board members. Central Office Staff, administrators and new staff members. High School Principal Don Sims introduced the high school staff, and Elementary Principal Steve Mills introduced the elementary school staff.

Faulkenberry presented McGruff doll and drug education kit to the third grade teachers, and peace poster contest material to the art department through Mr. Sims.

Staff members expressed sincere appreciation to the Lions providing a relaxing evening for them after they had spent the day in staff development preparing for the opening of school. The Lions expressed pride in the quality of the faculty and pleasure in extending the courtesy to the staff.

## **Boundaries Still Undecided**

At 4:00 p.m. Friday, August 16, Kinney County Judge Tim Ward called the Commissioners Court into special session. Commissioners Alvin McClure and Plunker Sheedy present. Commissioners Ruben Fuentes and Freddie Frerich were out of town on business.

The agenda consisted of two resolutions. The first was to approve/disapprove borrowing \$30,000.00 from the First State Bank of Brackettville to pay for swimming pool work and Sheriff's patrol car and authorize Judge Ward to execute the papers. The loan would be repaid in about three weeks. Commissioner Sheedy moved to approve the resolution, the motion was seconded by Commissioner McClure. Both items were included in certificates of obligation but since the revenue from the bonds has not been received, the County needed to make payment. The loan procedure is a legal transaction. The motion

The second item was to approve/disapprove purchase of a used 1991 patrol car for the Sheriff's department according to Sec. 13.02 (d), Local Government Code, which allows counties with a population of less than 20,000 to make such purchase without advertising for bids. The vehicle is a 1991 Ford 4-door and the cost is \$11,600.00. Commissioner McClure moved to approve the Resolution. It was seconded by Commissioner Sheedy and the motion carried.

Commissioner McClure asked for an executive session and requested that County Attorney Tully Shahan be present.

Commissioner McClure moved to adjourn the special session so that the Court could go into regular recessed meeting and enter into executive session. Commissioner Sheedy seconded the motion and it

Judge Tim Ward called the Commissioners Court into session at 5:00 p.m., Monday, August 19, with all Commissioners and County Attorney Shahan present.

The Commissioners discussed some changes in street paving with contractor Travis Wilson. An agreement was reached to finish the block of Gove Street now being paved (or repaved) then do streets that connect to County facilities to

take best advantage of grant money.

The Texas Department of Human Services has contacted Judge Ward in regard to the lease space they now occupy in the County Annex building and have made a tentative offer of 60¢ per square foot plus paying their own utilities. Janitorial services and structuring of handicap restroom facilities are concerns vet to be addressed. Judge Ward has a meeting with TDHS officials Tuesday and invited Commissioners. to accompany him.

Commissioner McClure moved to amend a line item in the Sheriff's Department budget for the recently purchased patrol car. The motion was seconded by Commissioner Sheedy and carried

Commissioner McClure moved and Commissioner Frerich seconded the motion to pay Bud Conoly \$1200 for caliche taken from the Conoly Ranch for county road repair. The motion carried.

advertise for a County Road Administrator Commissioner Sheedy seconded the motion and it carried.

Since re-districting boundaries have not been established, possible solutions were discussed but an agreement was not reached.

Judge Ward recessed the Court until 1 p.m. Tuesday, August 20, when boundaries and/or minority population percentages will again be discussed. -----

On Tuesday, August 20, the Commissioners Court met at 1:00 p.m. when re-districting was further

The representatives of the Texas Department of Human Services met with the court and discussed the lease on the County Annex Building and pending the drawing up of a Contract the terms agreed upon by both parties, a decision will be made and finalized.

It was decided to meet at a later time to further discuss the redistricting and work on the budget.

## **National Young Leaders Tour** Washington During Conference

By SUSAN HALE

Brackett News Contributing Writer

Since I have gotten back from Washington, people have asked me, "Where did you go while in Washington? What did you do?"

Probably the most asked question of all has been, "What did you think of Washington, D. C?"

The first thing I saw while flying into Washington National Airport was the Capitol Building. This was a very impressive sight from the air it was even more impressive when I was actually standing on the steps of the Capitol.

The National Young Leaders Conference had a tour of the House of Representatives. We got to sit "on the floor." It was very pretty, but you have to see it to believe it because there are no pictures allowed to be taken. This is because a person can figure out a way to plant a bomb or something to hurt the Representatives.

From there, I visited the Library of Congress and the Supreme Court Building. Both were very im-

In the nights to follow, we visited the Vietnam Memorial, the Marine Corps Memorial, and the Jefferson Memorial. These memorials were very moving, especially the Vietnam Memorial. It showed all the names, so far, of the men who died in Vietnam, or are missing in action, or are Prisoners of War.

The Marine Corps Memorial is a memorial that is dedicated to all Marines who have, or will have died, in the service in times when our liberties, beliefs, and other factors are in trouble.

During the daytime, the NYLC Arlington National Cemetary in Arlington, Virginia.

We visited The Tomb of the Unknown Soldier, and we saw the historic changing of the guard who protects the tomb. The guard is changed every day during all kinds of weather. The NYLC laid a wreath to commerate the spirit of the tomb, showing "we care and believe in what the soldier died for." This was very moving.

From there we visited President John F. Kennedy's Grave, saw the eternal flame and read the words that are around the memorial.

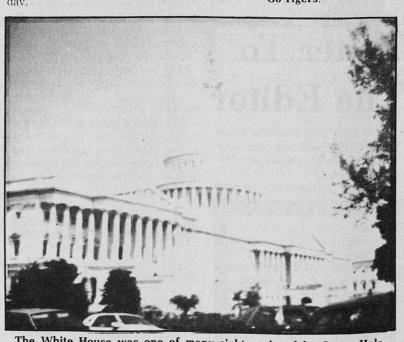

these things make Washington worth seeing. Washington is pretty at night, and so are the monuments. But, you can't visit Arlington Cemetery at night so you have to go during the . Jill.

All in all, I liked Washington. It taught me that in order to really understand our great country you have to visit the spots where government is working, where soldiers are laid to rest, and the monuments that show what our country has accomplished.

Hopefully, I can nominate someone from our school to go and help represent Texas next summer, 1992, in the NYLC Conference. This can happen since I am an alumni representative of the NYLC. So, as the saying is in NYLC, don't ever give up working to be the leaders of tomorrow.

Thanks again, Brackettville, love and peace to everyone. I love you, Lonnie, Mom, Dad, Chris, Tim and

at City Hall I DID NOT make any false statements nor did I mention any suspects by name. Anyone who has over-reacted to my information release would do well to consider the old saying that "the guilty flee when no man pursues." The extreme over-reaction by the city employee involved in the missing funds and the reported over-reaction by the City Council (if true) could lead one to believe that perhaps there is more to this case than meets the eye so far. The public has a right to know about missing public funds.

By this column I want to make it perfectly clear to the owners and staff of "The Kinney Cavalryman" (Les Roper in particular) and to the Brackettville City Council and the citizens and taxpayers of Kinney County that I, as Sheriff of Kinney County, am by Constitutional law the chief law enforcement officer of this county and have by law, full authority to investigate any suspec-

ted or reported criminal activity. including reports of missing public funds. I can, and wili if I see fit, report any suspected or reported criminal activity to the Kinney County Grand Jury for further investigation by that body who can call in whatever force of law enforcement officers deemed necessary including the Texas Rangers, to investigate the suspected criminal activity. And now, due to the reaction of Les Roper and the reported reaction of certain city employees and City Council I fully intend to make a report to the next session of the Kinney County Grand Jury.

It has become extremely obvious to even the most casual reader that Rosemary Slubar, owner/publisher of "The Kinney Cavalryman" has allowed her editor. Les Roper, and other staff members to use the "Cavalryman" as a vehicle for political character assassination. Roper and others associated with the "Cavalryman" long ago crossed the line between good, solid news reporting into the realm of hate and discontent, libel, and slander. For the past several months it has become increasingly obvious that Les Roper has become so infected with hate and discontent that the venomous poison of frustration and hatred literally drips from his written words that he dares to call "reporting." It is beyond comprehension that Ms. Slubar would continue to allow Roper to disgrace her paper with his front page slanhate, and character "The Kinney assassination. Cavalryman" used to be a good source of "REAL NEWS," that,

sadly, is no longer true. I apologize to my readers and supporters for allowing myself to be occasionally drawn into a word game such as this with comeone as shallow and unimportant as Les Roper. I hereby promise that it shall not occur again. I WILL, however, continue to do my job as Sheriff of this county to the best of my ability and to exercise my FULL authority under the Consitution and State law to investigate ANY suspected or reported crimes in Kinney County, INCLUDING reports of missing public funds,

from whatever source! liquor laws Sunday night, August 18, 1991. The pair arrested are: Roger Knox, 28, of Ft. Clark Springs and Daniel McDonald, 18, also of Fort Clark Springs. Knox has been charged with PUR-CHASING ALCOHOL FOR A MINOR, a Class B Misdemeanor. He was released on \$500.00 bond set by Justice of the Peace Alvin Hall. His case will be tried in County Court at a later date. McDonald pled guilty to charges of MINOR IN OF POSSESSION AN ALCOHOLIC BEVERAGE, a Class C Misdemeanor and was assessed a fine of \$200.00 plus court costs. He was released after arrangements were made with Judge Hall to pay out his fine in payments. Notice is hearby served that we will crack down on alcohol abuse in Kinney County by minors and adults alike. Parents should take the time and make the effort to police the actions of your own children and NOT come crying to local law enforcement when your child is caught, tried, and convicted of a violation of the State liquor laws, or worse yet is scooped up off some lonely highway, dead from an alcohol caused accident.

LATE BULLETIN: Another case that was investigated by this writer was that of a reported stabbing that occured on East Veltman Street the night of August 18, 1991. In that incident a local man (Pedro "Pete" Benites) was allegedly stabbed in the abdomen with a pocket knife causing a wound that required 35 stitches to close. Benites filed a complaint with Justice of the Peace Alvin Hall charging another local man, Raymond Aguilar, with a 3rd degree felony, AGGRAVATED ASSAULT. An arrest warrant was issued for Aguilar and the case will be taken before the next meeting of the Grand Jury. Aguilar had not been arrested at the time of this writing but an arrest is expected

#### Between Us

By Joe Townsend

All who voted for Ann Richards can now see the result of the vote. Many people refused to vote for her opponent because they disliked some of his off-the-cuff remarks. Strangely enough they paid no attention to what Richards said. For example, her opponent said he would cut the budget and said how, and that he would not raise taxes. Richards said she would raise taxes but many did not hear or care.

Now we have the largest increase in the State Budget in history and the largest tax increase. Five cents a gallon tax on gasoline. The most vicious tax we can imagine. Every poor person will have to pay more to go to the grocery store or to Church. The bleed down through added cost of transportation and delivery prices will cause everything to increase in

A refusal to increase taxes on cigarettes shows the power of the

tobacco lobby. The decrease in taxes on race horse gambling and dog race gambling reveals the lack

of moral consciousness. Ms. Richards promised to have a lottery. She now has that. Appealing largely to people in the lower socioeconomic class with dreams of sudden wealth for a \$2 ticket it was not difficult to stir the greed of unthinking people to support it.

It's interesting that the amount of money proposed to come to the State for the first year of the Lottery is the same amount promised from horse race gambling. This proved to be as phony as a three dollar bill. The people voted for one amount to go to the state but the Legislature

changed all that and now -- almost no tax. It is patently clear that the company (from out of the state) which will operate the lobby will make more money than the State. At best the pittance from all forms of gambling to the State will not decrease the tax demanded to meet the outrageous budget set by Richards and her compatriots. Bingo (another form of gambling) organizations. Now the State takes a benevolent slice from the organizations in taxes.

To my knowledge Richards has vet to make an appointment that is even remotely qualified for the office. She has simply appointed those who supported her election. Typically she appointed a black to head the Water Commission who has had no experience in the field. She appointed to the Environmental Commission a Hispanic who supported her election but knows nothing about the issues of the Environment.

Richards has never been anything but a politician and any politician sees only one thing, votes for reelection. Those who elected her can rest calmly (?) in the knowledge she has done what she said she'd do-whether they heard or cared or not.

Texas survived Jim and "Ma" Ferguson and "Pappy" Leo O. Daniels and Texas will survive Ann Richards but the price is high -- just because some people did not like

## Birthday of Saint Augustine

By DORTHY PAYNE

Brackett News Staff Writer

On August 25, 1565, the Spanish landed at what is now Saint Augustine, Florida. Saint Augustine is the oldest city in the United States and the citizens celebration on August 25, the anniversary of the founding of the city, is quite a special occasion. Saint Augustine is on Matanzas Sound 37 miles

southeast of Jacksonville.

Its historical remains dating back to the 1500's include the ancient fort of San Marco (now Castillo de San Marcos) and the governor's palace both of which are open to visitors.

The town was burned by Sir Francis Drake in 1586 and sacked by the pirate Captain Davis in 1665. In 1763 it passed with the rest of Florida into English hands, but became Spanish again in 1783. In

1821 it was transferred to the wanted to start playing golf again, United States. During the Civil War not to join Golf Assoc., or Country it was twice captured by Union Armies. It's mild climate makes it a George Foster very popular winter resort.

If you baked Saint Augustine a birthday cake just think how many candles it would have to hold.

Fort Clark with her husband. They built a nice home and settled in. At that time her mother was having problems periodically. Her mother later lost her husband and developed serious health problems. This lady and her husband shared their home with her and cared for her until the Lord called her home. Her husband soon developed serious health problems adding to her anxiety and responsibility. With his improvement the pressure eased. This woman has been employed locally where she is much respected for her work. She is faithful with her husband to her church. She is now president of a sorority. She is a friendy, thoughtful and helpful person. She is well liked by all who know her. Surely Pat McKelvey is an "Unsung Hero."

### Grandma's Kitchen

By Grandma

In the first place, you must understand that ulcers are not normally found in your stomach. To grow one requires much ingenuity and persistence.

If you don't succeed with your first efforts, keep trying. This advice may help.

1. Your stomach is a big and useful organ that is built to take a lot of abuse. You can pour almost-boiling coffee into it, and it will cool the coffee. You can cram frozen milk into it, and it will warm the milk. Its juices will break down solid food, or kill bacteria with equal facility. Three-fourths of it may be removed and the remainder will make up for the defect.

To foul things up, take your meals at irregular intervals and keep fooling your stomach. Try to skip breakfast. Take your lunch on the fly - between conferences, or on your way to the bank. Instead of a meal, take a beer or highball.

2. Try to work up an emotional upset over everything. Keep worrying about the cost of living, the atomic bomb, graft and corruption. If you can't think of something, then worry about the weather.

3. Vacations are a waste of time, don't take them.

If forced to take one, be sure to bring some work with you and keep in telephone touch with your office. 4. Ignore minor symptoms like abdominal pain, or nausea, or spells of dizziness. They'll pass away. Prove that you are a tough guy

5. Stick to your opinion and never accept the possibility that you may be mistaken. Never compromise. A rigid point of view is a sign of great intelligence.

6. Never delegate responsibility, do everything yourself, thus you'll be

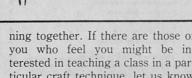

sure it'll be done your way. 7. Don't sleep more than absolutely necessary. After some practice, you'll find you can get along on three or four hours sleep. If you feel sleepy in the office, take coffee - one cup or five - whatever you need to keep bright and alert. When coffee has no more effect, try benzedrine. 8. Keep going, going, going. This

may sound like hard work, but you probably know that an ulcer is a symbol of social distinction demanded by the status seekers. It is almost a membership requirement with the country club, so that by the time you have your second car or a home in the suburbs, you should also have a full-blown ulcer.

Take a long look at yourself and see if your life is filled with all work and no play, if so, try hard to relax and quit worrying.

I knew you'd enjoy this. Now on to some recipes. When I try something delicious and good for you I just have to share it with you. I know how hard it is to resist peach ice cream on a hot summer day, but its high in fat and the cholesterol content is a concern for most of us. Here's a healthier version of a frozen peach dessert

## Library Notes

Ladies and gentlemen...it is time to begin your crafts preparation for all those Christmas gifts you are going to have ready before you get rushed with the Thanksgiving and Christmas holidays. The Fort Clark Springs Annual

Crafts Fair is tentatively planned for the first of November. This event is open to the public and we would encourage you to begin planning what you intend to give for gifts and make extras to sell at this annual event. This writer was on-site last year and was pleasantly pleased with the number of persons there to look and purchase, as well as the high quality of the craft items displayed.

So often, we find that we have a particular person who defies all our attempts at purchasing a suitable gift. Equally often, in the field of crafts, we find the unusual, the useful, and the hilarious gift for those difficult persons on our lists.

If you haven't attempted crafts before, or if you wish to try your hand in a new direction, we welcome you to the library to examine our crafts books. They range from needle crafts, preserving and arranging dried flowers and plants, macrame, jewelry making, paper crafts, quilling and origami to many others

Many of our older craft techniques are becoming popular again. Perhaps several persons would even enjoy working and lear-

ning together. If there are those of you who feel you might be interested in teaching a class in a particular craft technique, let us know and we will offer that information to those coming to the library.

We remind the participants of The Summer Reading Program to get their page numbers to us as soon as possible. The top three readers in the two age categories will be announced at the library on Wednesday, August 21. Their names will be listed in next week's column.

Your librarian wishes to recomend the following as excellent reading you might have missed the first time around: The Eye of the Needle by Ken Follett; The Cradle Will Fall by Mary Higgins Clark; Dear and Glorious Physician by Taylor Caldwell; The Methuselah Enzyme by Fred Mustard Stewart; and Briarpatch by Ross Thomas.

We have received several new best sellers. Some do not have waiting lists. Interesting: The Raven's Bride by Texas author Elizabeth Crook...an historical novel of Sam Houston's first wife, Eliza

Most of the cowboys who took part in the trail drives up the trail from Texas were young and single. When they reached the towns

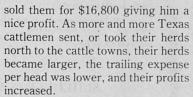

where they would sell their cattle, it was party time. They felt free, for some it was the first time they had been away from home, and they had been planning during the drive what they would do when they arrived in

the cow towns. After a week or two, or after they had spent their wages, they were much wiser cowboys on their second trip up the trail.

The second time, they used their money on baths, haircuts, new clothes, and maybe some souvenirs to take back home to Texas.

Of course, some cowboys saved all year and spent it all during their one or two weeks in a wild cattle

town. The owners of the herds were after the best prices they could get. One owner bought 600 longhorns at \$8 to \$10 a head - he paid \$5,400 for the herd of 600 steers and drove them to Abilene in 1868. There, he

We all know milkshakes contain milk, fruit and flavorings that are whipped in a blender until thickened and frothy. Sodas usually include fruit and milk as well, but they also contain ice cream that makes a thicker texture and carbonated beverages that give the drinks their characteristic "fizz," so use your imagination and keep whipping up these healthful cool desserts. ## Golf News

By Vicki Nichols

Thanks to the Board of Directors, the Golf Club is now the owner of a bright orange, brand new, multiblade mower. Shouldn't the next item be a governor for the tractor that pulls it, so it can't run too fast? I'm told that mowing too fast causes a washboard effect.

There is a notice on the board that the ?? traps on #12 are to be played as ground under repair. Several of the other traps have recently been cleared of all weeds and grass. Things are looking up.

At the last Community Council Meeting on August 7, it was stated by a non-golfer that there seems to be two distinctively different groups of Fort Clark members, golfers and non-golfers. The non-golfers feel that a part of their monthly assessment goes to maintain an activity they are left out of. Some deeply resent this.

In answer to his request I wrote and LouiseWilliamson - 62. The Little Horn. This Community Gordon and Helen Miller - 64. Council publication can be picked up

at the Adult Center after September Here are two excerpts from that article: 1) according to the latest financial report, the Fort Clark Golf Club is the Fort's third greatest money resource. Unlike the Adult Center, Youth Center, Swim Park and recreational activities, which cost the membership over \$100,000 for a 10 month period, the golf course is

partially paid for through dues from its members; 2) our Fort Clark course is not an "exclusive club." It is open to the public, as is the restaurant, and we encourage all

supporting activity. If any of you have suggestions as to how this gap between golfers and non-golfers can be closed, please tell me, I will put it before the Council.

Fall gardening at hand: Although it's the middle of summer, it's time to start getting things in shape for a fall vegetable garden. Many home gardeners have enjoyed a relatively high level of success this spring primarily due to better-than-average growing conditions and relatively mild insect problems.

In this area of Texas, gardening can continue almost year round. The months of July, August and September are times to plant many popular vegetable crops such as tomatoes, peppers, eggplant, beans, potatoes, okra and squash.

Cold hardy vegetables such as broccoli, cabbage, cauliflower, greens, parsley and carrots can be planted at this time for early harvest. Later plantings of these cold hardy crops should supply fresh vegetables well into winter in most areas of Texas.

The serious home gardener should consider several factors prior to establishing a fall garden. If the fall garden follows a spring garden where good fertilization practices have been used, usually little if any additional fertilizer should be applied prior to planting. If the fall garden is a new garden or in a new area, then the application of 2 to 3 pounds of complete fertilizer per 100 square feet worked well into the soil prior to planting should be adequate. Later on, if plant growth seems slow and sluggish, a light application of

fertilizer watered in between the rows is highly advisable.

A very important consideration for successful fall gardening is an adequate supply of water. Since most fall gardens are planted during the heat of late August and September, sufficient water during germination and early growth is vitally important. Avoid letting the soil dry out and crust, even if this means a light application of water several times a week. Water is best applied with a yard sprinkler until the seeds have sprouted, emerged and are making adequate growth. After the plants have had a chance to establish a strong root system, the gardener should consider switching to a flood or furrow method of applying water. Avoid any type of water stress during the early growth of the plant as this seriously affects later yields.

As with spring gardening, the best practice is to transplant most vegetable crops in the garden. It's a good idea to protect transplants from excessive heat and wind when they are first put out in the garden. And also with any Texas garden, fall gardens are subject to many of the same problems you might experience as with spring lambs, namely weeds, diseases and insects. However, the quality and flavor of many vegetable crops grown in fall is superior to those grown during

## Department Of Ag

Texas Agriculture Commissioner

If you care about the food we eat, the water we drink or the air we breathe, agricultural researchers are working for you. If your motto is 'shop till you drop' and your idea of a little bit of heaven is a day at the mall, agricultural researchers are working for you. In fact, agricultural research benefits us all.

Scientific research has given us knowledge of a particular pest's biology, behavior and ecology. The more we know about a pest, the easier it is to attack it and leave in place its natural enemies. In many instances, the research-based solutions eliminate the need to spray pesticides later on. Thanks to the leadership from research facilities at Texas A&M and others, we now look first for least-toxic approaches to solving pest problems, reinforcing our environmental awareness.

Need an example? The best one is probably the near total eradication of the screwworm, once the biggest pest problem a cattle rancher could have. Scientists discovered flooding airways with sterile males effectively eliminated the production of new screwworms. That success story is more than 30 years old, but still relevant today with similar programs on fruit flies underway in the Rio Grande Valley, in California and in Florida.

Sterile fruit flies are being released to mate and neturalize other fruit flies that are threatening citrus crops.

What's new in agricultural research? Bio-engineered cotton plants injected with genes from Bacillus thuringeinsis (Bt), a naturally occuring and environmentally safe bacteria, are producing Bt toxins that knock out tobacco budworms and other pests looking for their next meal inside a boll of cotton. Hybrid sorghum that is resistant to greenbugs is now available, eliminating additional pesticide applications.

Ultra low volume technology has changed the application rates of many chemicals from pounds and quarts of active ingredient per acre, to just ounces and even teaspoons of active ingredient per acre. And

thanks to the integrated pest management scouting systems, there is no need to spray until the targeted pest reaches a scientifically pre-determined economic threshold.

In the case of cotton, the Texas Department of Agriculture enforces cotton planting and cotton stalk destruction deadlines in order to deny cotton's number one pest -- the boll weevil -- food to make it through the winter. Lacking the food it needs to hibernate, there are far fewer pests on hand the following spring and summer, once again greatly reducing the need to spray.

In the area of biological controls, we now have several Texans raising and selling beneficial insects, including lace-wings, lady beetles and trichogramma wasps among others that can effectively keep many pests under control, restoring a natural balance to nature.

One pest not yet under control -but being attacked by biocontrol scientists -- is the sweet potato whitefly, which comes equipped with piercing, sucking mouthparts for feeding on plant sap. It initially caused problems in Texas greenhouses, in 1987 was identified on crops in the Rio Grande Valley and now is a pest on more than 600 plants. Pesticide sprayings are ineffective since they both destroy its natural enemies and have led to a pesticide-resistant strain of whitefly. In addition, whiteflies feed and develop on the underside of the leaves, where pesticides don't always reach them. A team of researchers is exploring which natural enemies exist and the feasibility of importing them as a control agent.

Still waiting for agricultural research to benefit your shopping trips? Well, researchers were called to the rescue after mealybugs were found to be feeding on 49 ficus trees in a Sherman shopping mall. To attack the destructive mealbugs, the researchers released 200 tiny wasps. Within months of the release of the wasps, the mealybug population was under control, again avoiding the need to spray chemicals.

Clearly, agricultural research benefits everyone.

Beginning September 1, 1991 HB #70 allows a Texas driver to take a Texas Education Agency State certified 8-hour driving safety course every year to dismiss most moving traffic tickets.

**Driving Safety Course** 

In 1981 it became mandatory for judges to allow a ticketed driver to take a driving safety course every two years. Since then traffice deaths on Texas highways have decreased by more than 50%.

By allowing a ticketed driver to take the 8-hour course every year the Texas Legislature hopes to reduce driving related deaths even further.

## THINK ABOUT OUR FUTURE ENVIRONMENT

HEADBAND HOLDER - My daughters have a great many headbands and love to wear them. My problem has been with storage — the ones with bows or ruffles would al-

ways get crushed. I took an empty three-liter soft drink bottle, washed it and dried it, then put the headbands on it. They fit perfectly, and it keeps them in good shape. My daughters can choose the ones they want to wear and don't have to sort through all of them in a drawer, so there are fewer requests for my help. Dotti J., Toms River,

**FRIDAY** 

CONTEST SUPPLIES — I enter a lot of contests, and supplies are costly. So, when I receive mail-back envelopes in the mail from charities or other companies, I just tape a colored piece of paper over their return address. Then I write the ad-

dress of where the letter is going. Also, if I am mailing an envelope to someone and mess up the address, I do the same thing. I used to throw out all these envelopes, but now I put them to good use. Debbie P., Reno,

### HANDLING DEALER PRESSURE!

Dealerships work hard to make money, but their hard work shouldn't include unnecessary pressure on you. Follow these suggestions from BORDER FEDERAL CREDIT UNION as you begin the car-buying process.

1. Never buy a car on the first trip to the dealership.

2. Be objective, not emotional. There are lots of cars available to fit

3. Never give a deposit until the seller has agreed in writing to your 4. Always take time to review any sales contract or financing con-

tract objectively and away from the pressure.

5. If you feel pressured or confused at any time, leave the premises.

6. Come to BORDER FEDERAL CREDIT UNION before you go to the dealer and let us provide you with information that will help you save thousands.

#### NOTICE OF PUBLIC HEARING **ON TAX INCREASE**

The Kinney County Commissioners Court will hold a public hearing on a proposal to increase total tax revenues from properties on the tax roll in 1991 by 7.37 percent. Your individual taxes may increase at a greater or lesser rate, or even decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property.

The Public Hearing will be held on August 30, 1991 at the Kinney County Courtroom, Kinney County Courthouse, Brackettville, Texas at

FOR the Proposal:

County Judge Tim Ward Commissioner Freddie Frerich, Precinct 1

Commissioner Plunker Sheedy, Precinct 2 Commissioner Ruben Fuentes, Precinct 3

Commissioner Alvin McClure, Precinct 4

AGAINST the proposal None

PRESENT and not voting

ABSENT

The statement above shows the percentage increase the proposed rate represents over the effective tax rate that the unit published on August 8, 1991. The following table compares taxes on an average home in this taxing unit last year to taxes proposed on the average home this year. Again, your individual taxes may be higher or lower, depending on the taxable value of your property.

	Last Year	This Year
Average home value	20,190	20,190
General exemptions available (amount available on the average home,	5,000	5,000
not including senior citizen's or disabled person's exemptions)		
Average taxable value	15,190	15,190
Tax rate	.6376	.6846
Tax	\$98.85	\$103.99

Under this proposal taxes on the average home would increase by \$7.14 or 7.37 percent compared with last year's taxes.

Comparing tax rates without adjusting for changes in property value, the tax rate would increase by \$.047 per \$100 of taxable value or 7.37 percent compared to last year's tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.

## Vanted You To Be The First To Know

Biking, boarding and blading are the "hot" activities for more and more people this year. Whether it's a means of transportation, an opportunity to exer-

cise or just a pastime, bicycles, skateboards and rollerblades all require proper safety gear and knowledge of safety rules. The cost of ignoring precau-

tions is high. Every year half a million cyclists are injured in bicycling accidents, and over 100,000 people seek emergency room treatment for skateboarding accidents. In the newest sport of the three, rollerblading, accidents have increased an estimated 10 times over last year.

"These types of sports leave us vulnerable to head injury, because we're typically traveling at higher speeds and on hard surfaces," said Dr. James Wasco, medical director of the New Medico Head Injury System. New Medico provides rehab for individuals who have brain injuries from accidents, or from other

serious injury increase significantly. Always wear a helmet when you're bicycling, skateboarding or rollerblading. Helmets are lightweight and are relatively inexpensive.

 Protect yourself by wearing the proper safety gear. Use knee and elbow pads, gloves with padded palms and wrist guards. Avoid poor road conditions.

Rocks, bumps, or ruts in the road can cause serious accidents.

 Go at moderate speeds. The more you increase your speed, the less control you have.

'An active lifestyle is important for a healthy life, but we must be careful that our activities don't cause us harm," said Wasco. For more information about brain injury and rehabilitation, contact New Medico Head Injury System at 1-800-CARE TBI,

Respectfully yours, A.E. (TONY) GUTIERREZ 106 Summit Lane

Teddy's letter came today, and now that I've read it, I will place it in my cedar chest with other things that are important to me

in my life.
"I WANTED YOU TO BE THE FIRST TO KNOW!"

I smiled as I read the words he had written and my heart swell-ed with a pride that I had no right to feel.

I have not seen Teddy Stallard since he was a student in my 5th grade class...and that was 15 years ago. It was early in my career, and I had only been teaching for two years.

From the first day Teddy walked into my classroom, I hated him. Teachers (although everyone knows differently) are not supposed to have favorites in a class, but most especially they are not to show dislike for any child...any child.

Nevertheless, every year there are one or two children that one cannot help but be attached to, for teachers are human, and it is human nature to like bright, pretty, intelligent people whether they are 10 years or 25 years old. And sometimes, not too often, unfortunately, there will be one or two students to whom the teacher just can't seem to relate.

I had thought myself quite capable of handling my personal feelings along that line until Teddy walked into my life. There wasn't a child I particularly liked that year, but Teddy was most assuredly the one I disliked.

He was dirty...not just occasionally, but all the time. His hair hung low over his ears and he actually had to hold it out of his eyes as he wrote his papers in class. Too, he had a peculiar odor about him...I never could iden-

His physical faults were many and his intellect left a lot to be desired. By the end of the first week, I knew he was hopelessly behind the others...not only was behind, he was just plain STUPID...and I began to withdraw from him immediately.

Any teacher will tell you that it is more of a pleasure to teach a

bright child. It is definitely more rewarding for one's ego. But any teacher worth her credentials can channel work to the bright child, keeping him challenged and learning, while she puts her major effort on the slower ones. Any teacher can do this. Most teachers do...but I didn't, not this year. In fact, I concentrated on the good students and let the others follow along as best they could. Ashamed as I am to admit it, I took perverse pleasure in using my red pen...and each time I came to Teddy's papers, the cross marks (and there were many) were always a little larger and a little redder than necessary.

"POOR WORK" I would write with a flourish.

While I did not actually ridicule the boy, my attitude was obviously quite apparent for he quickly became the class "goat" the outcast...the unlovable...and

the unloved. The days rolled by. We made it through the Fall Festival and the Thanksgiving holidays...and I continued marking happily with

my red pen. As the Christmas holidays approached, I knew that Teddy would never match up in time to be promoted to the sixth grade.

He would be a repeater. To justify myself, I went to his cumulative folder from time to time. He had very low grades for the first four years, but no grade failure. How had he made it...I didn't know. And I closed my mind to the "personal remarks

on his transcript".
First grade: Teddy shows promise by work and by attitude, but has a poor home situation. Second grade: Teddy could do

better. His Mother is terminally ill. He receives little help at

Third grade: Teddy is a pleasant boy. Helpful, but way too serious. He is a SLOW LEARNER. His Mother passed away at the end of the year.

Fourth grade: Very slow, but well behaved. His Father shows no interest. Well, they passed him four

times, but he was certainly going to repeat the fifth grade...and it would "DO HIM GOOD!" I said to myself.

And then...the last day before the holidays arrived. Our little tree on the reading table sported paper and popcorn chains. Many gifts were heaped underneath waiting for the big moment.

Slowly but surely he caught under the class of the class.

I could hear the snickers and whispers, and I wasn't sure I

could look at Teddy.
"Isn't this lovely?" I asked, placing the bracelet on my wrist. "Teddy, would you help me fasten it?."

He smiled shyly, came forward, and fixed the clasp...I held up my wrist for all of them to admire and they laughed.

Oh, there were a few hesitant "oohs" and "ahhs" when I dabbed the cologne behind my ears, but when I asked all the little girls if they would like some behind their ears; they all declined and laughed.

I continued to open the gifts until I reached the bottom of the THAT?!?! pile. We ate our refreshments and the bell rang. The children filed out with

shouts of "See you next year!" and "Merry Christmas!", but Teddy waited at his desk.

When they all left, he walked toward me, clutching his gift and his books to his chest.

"You smell just like my Mom," he said softly, "And her bracelet looks real pretty on you, too. I'm so glad you liked it."

He left quickly. I locked the door, sat down at my desk, and wept, resolving to make up to Teddy what I had deliberately deprived him of: A TEACHER WHO CARES.

I stayed every afternoon with Teddy from the end of the Christmas holidays until the last day of school. Sometimes we worked together and sometimes, he worked alone while I drew up

#### Public Leadership Forum

"Leaders inspire and teach others and are not afraid of being replaced by those they encourage." Former Texas Attorney General and Secretary of State, John Ben Shepperd not only proclaimed this but lived it. The Seventh Annual Statewide John Ben Shepperd Public Leadership Alumni Forum brings together today's leaders with

The purpose, to encourage and sharpen their leadership skills and to teach them about fulfillment through public and community service. This year's Forum will be held in Houston, Texas at the Stouffer Presidente Hotel on October 4, 5 and 6.

The Forum carefully selects and inspires today's young Texans who exhibit leadership qualities and develops these qualities along with their community service skills says Forum Chairman Wade Turner. "They come in aspiring leaders and leave excited, energetic and highspirited because they have new ideas they want to use to solve problems back home." says Turner, and continues, "They're inspired and believe they can make a difference in their community; This is the Forum's goal.'

200 participants, 40 years of age or younger, are selected from the professional, business, civic, student and volunteer sector. Special emphasis is placed on recruiting outstanding college student leaders.

This year the forum will focus on four issues; education, economic development - free labor trade, environment, poverty - welfare reform. and problems surrounding the school environment.

The Forum is the only conference in Texas that provides one-on-one interaction between participants and statewide public officials and other distinguished leaders. Leaders who have worked in the past with participants include, Lt. Governor Bob Bullock, Senator John Montford, and Texas Supreme Court Chief Justice, Thomas Phillips.

John Ben Shepperd's 50-year career as a public servant exemplifies how one person can make a difference and this concept is perpetuated by the Public Leadership Forum. Shepperd organized the Texas Fine Arts Commission and created the state's official highway markers as Chairman of the Texas Historical Commission. He is also credited with the creation of The University of Texas of the Permian Basin. He served on over 60 commissions, foundations and business. and nonprofit organizations during his lifetime, not only as a member but often leading as the chairman, president or director. He published 7 books and received over 20 honors and

awards. This year 20 scholarships for minority students who need financial assistance to attend the forum are available. The scholarships will cover transportation, registration, and hotel costs.

The Forum is sponsored by The University of Texas of the Permian Basin, Texas Jaycees and the Texas Chamber of Commerce. For more information on the forum please contact Executive Director, Angela Driver at (915) 367-2368 or write to 4901 E. University, Odessa, Texas 79762-0001.

## **VA News For Veterans**

VA TO OFFER TOLL—FREE HELP FOR

VETERANS EXPOSED TO RADIATION

The Department of Veterans Affairs (VA) has inaugurated a special toll-free telephone help-line for veterans who were exposed to radiation during military service.

Current information on VA benefits and services, medical research related to radiation exposure and legislation, as well as assistance in filing or reopening disability compensation claims related to radiation exposure will be offered.

The 24-hour, toll-free number -- 1-800-827-0365 -- is available to veterans and family members weekdays from 8 a.m. to  $5:30~\mathrm{p.m.}$  Eastern time, and is staffed by counselors at the VA Regional Office and Insurance Center in Philadelphia. After-hours and weekend callers may leave a recorded message, which will be returned the following business day.

#### NEW VOICES SPEAK TO VISUALLY IMPAIRED VA EMPLOYEES

The VA is installing new synthesized voice computers for visually impaired employees at 13 offices around the country.

The modification, which upgrades systems installed ten years ago. converts the computer terminal image to sound, enabling visually impaired employees to perform equally with their sighted colleagues.

Earlier voice computers scanned information indiscriminately, but the improved version allows the user to select date. Voice quality is also dramatically enhanced, allowing the user to easily understand the synthesizer as it simultaneously scans the screen.

#### TOBACCO SALES TO BE HALTED AT VA HOSPITALS

Secretary of Veterans Affairs Edward J. Derwinski has ordered the termination of retail sales of tobaco products at all VA medical centers nationwide effective October 1, 1991.

The order affects over-the-counter sales at 131 canteens in the VA system, in addition to 41 canteens that had discountinued tobacco sales on their own initiative within the past two years. Special provisions are being implemented that will allow sales to veterans confined to VA longterm or nursing home care units.

#### WORLD WAR II "FLYING TIGERS" **ELIGIBLE FOR VA BENEFITS**

The VA has announced that the famed World War II Flying Tigers have been granted veteran status.

A recent Defense Department decision determined that honorably discharged members of the American Volunteer Group (AVG) (Flying Tigers) who served from December 7, 1941 to July 18, 1942 are potentially eligible for veterans benefits. Individuals must have an AVG discharge certificate or letter, or identification as an honorably discharged AVG member in other credible publications or documents.

Before applying for veterans benefits, individuals must first apply for an Armed Forces discharge certificate by filling out DD Form 2168. which is available from any VA regional office of the Department of the

The completed form, together with any supporting documents, should be sent to HQ AFMPC/DPMARS2, Randolph AFB, TX 78150-6001, Attn: TSGT Williamson. Additional information is available from Lt. Col. Robert Dunlap, Secretary of the Air Force Personnel Council (AFPC). Washington, DC 20330-1000; telephone 703-692-4747.

The discharge certificate must be presented to VA when applying for

#### RETROACTIVE PAYMENTS FOR SOME SENIOR ROTC SERVICE ACADEMY GRADUATES

Some Senior Reserve Officers' Training Corps (ROTC) and service academy graduates from the classes of 1977 and 1978 may be eligible for retroactive education assistance payments as a result of legislation recently passed by Congress, the VA has announced.

Prior to the new legislation, these individuals were not eligible for benefits under the Vietnam Era GI Bill. Instead, they could contribute toward education benefits under the Veterans Educational Assistance Program (VEAP).

The change means that they may receive an amount equal to what they would have received under the Vietnam ERA GI Bill for training pursued before January 1, 1990. Even those individuals who contributed to VEAP may apply for the retroactive benefits

Eligible applicants must file VA Form 22-1990 at the VA regional office in the state where the school they attended is located. All applications must indicate that the individual is filing for "Section 207" benefits. The deadline for applying is December 31, 1991. Contact the nearest VA regional office for more information and assistance in filing the application.

#### VA ELEVATES OFFICE OF NURSING

The VA has announced the elevation of the Office of Nursing to the Assistant Chief Medical Director level, in recognition of the critical role VA nurses play in providing health care to the nation's veterans. The change in the organizational structure of the Veterans Health

Administration, the health-care arm of the VA, was effective in June. VA employs some 62,000 nursing staff nationwide. Of these, 35,895 are registered nurses, 10,962 are licensed practical or vocational nurses, and 15,761 are nursing assistants. #### Scrapbook State Winner

Once again the Nueces Canyon

Volunteer Fire Department Ladies Auxiliary sponsored a scrapbook at the Texas State Firemen's and Fire Marshals' Convention held in Longview this summer. The scrapbook - a chronological history of the '90-'91 year depicts firemen and ladies in all phases of activities. It is first entered in the contest within Wintergarden Firemen's District at which they have been fortunate to have first place for the past 4 years. Then, this year, when taken to the State Convention, it won third place again for the second year in a row. Winners receive a certificate, ribbon, and money. There are only three places given, so the ladies were proud to have captured a winning slot out of approximately 20 entries from over the State of Texas.

#### Resignations Accepted Members of the Nueces Canyon

Board of Education, meeting in regular session on Tuesday, August 13, voted to accept the resignations of four teachers and to employ five teachers and four instructional

Resignations were accepted from Lila Holland, Cynthia Allan, Emma Dean, and Sam Fish. Since the meeting, a resignation has also been received from Linda Fish.

New personnel employed were Dal Kirksey, high school science; Janice Prather, fifth grade; Tonya Owen, fourth grade; Becky Booher, third grade; Lamont Metoyer, jr. high science; and instructional aides Tammy Fish, Beverly Hatley, Jana Mosley, and Kelly Ward.

Board members voted to change the existing dress code to permit students to wear walking shorts to school as per the recommendation of the administration, but made no other changes from last year's policy. They also voted to accept an Athletic Policy as recommended by Coach James Russell with changes in items #1 and 411 as previously discussed with Coach Russell.

estimate from last spring. He also stated that the board would have to meet in special session later this month to formulate the budget for next year, and that insurance costs for faculty and staff members were rising dramatically but he had not been able to find a better plan than that offered by TASB.

By KAREN COLLINS

Board members toured the old administration building and discussed how it could be renovated for use by students. They agreed that Mr. Hatley should have experts check the roof, wiring, floor, windows, and doors to determine what is needed to make the building safe. Another restroom will have to be added also. Board members would like to have the building ready for student use by the end of 1991.

Hatley reported that Dramalla has completed all work on the buildings and should be sending the final warranties in the next few days so that final payment could be made.

Board members then canvassed the returns from the August 10th election and voted to accept the results as recorded by the election judges at each precinct.

Board members were given copies of the Accreditation Report Summary and asked to read it for discussion and/or possible action at Bobby Hatley, superintendent, the next meeting. Hatley stated that he was working with agency officials to correct several areas of

#### Your Horoscope by Charles King Cooper

ARIES (March 21 to April 19) It may cost more than you realize to get a new project off the ground. Cutting corners and making budgets are part of this week's agenda. You have original ideas right now, but don't expect everyone to appreciate or understand your position.

TAURUS (April 20 to May 20) Interruptions may interfere with all you plan to do around home base. Still, there is time to pick up a strikingly new piece of furniture. Perhaps you need a short break from a relationship to catch up with what friends are doing. There's room in your life for more than one

person. GEMINI (May 21 to June 20) No need to throw in the towel if you feel discouraged about a job development now. Delays are only temporary. Keep your hopes high! The same old arguments can recur in a relationship. You may have to compromise for now. Think of new things that you can do together.

CANCER (June 21 to July 22) You've got your dream plans for redecorating, but the budget may require that you move slowly. You can economize without sacrificing beauty. Oh, a vacation would be wonderful, but right now it's difficult to make all the pieces of the puzzle fit. Respect the right of others to disagree with you.

LEO (July 23 to August 22) New job prospects are exciting, but some details remain to be worked out. You probably won't have all the answers now, but do what you can. Have you been caught up on so many activities that you've neglected some friends? Now's the time for a phone call or two.

VIRGO (August 23 to September 22) A desire to get away from it all competes with current obligations. An innovative method of financing is worth pursuing, but it may take some time. Partnerships require more give and take than usual now. Abstract thinking is a plus, but it may be too soon to try out new ideas.

LIBRA (September 23 to October 22) Watch what you say now. There could be some errors in judgment. A friend, though, is a soothing influence. Don't be so easily provoked. There's much going on at home, but not everything runs smoothly. You have mixed

feelings about company. SCORPIO (October 23 to November 21) Romance or recreation may not live up to expectations right now. Though your intentions are good, both friends and loved ones can be the cause of irritation. Though a plan is worthwhile, you can get off on the wrong foot in trying to carry it out.

SAGITTARIUS (November 22 to December 21) This is one time to listen to your intuition. Put aside ego and will. Be aware of others' feelings. Oh, if everything could work out as planned! But no such luck. Where money is concerned, there is a tendency to quarrel.

CAPRICORN (December 22 to January 19) Stick with those creative ideas of yours and don't get involved in disputes. Surprising news comes from family. An early start is best for travelers, but there still may be problems. Give yourself plenty of time to reach your destination.

AQUARIUS (January 20 to February 18) The aggressive or jealous behavior of others can mar social life now. Friends show their difficult side. Rapport is good, though, with a partner. Morning hours are best for catching up on rest. Making a fuss about interruptions will only make you more tired.

PISCES (February 19 to March 20) It's in the realm of abstract thinking and philosophy where you excel. Downplay ego, though, to avert confrontations. Though monetary prospects improve now, the week is not without arguments over financial matters. Advice comes from an unexpected quarter.

## Long To Speak At Fort Clark

DEL RIO, TX--The insertion of offensive missiles into this hemisphere by the Soviet Union, their discovery and subsequent removal, will be discussed on Saturday, September 28th, at a regular meeting of the Fort Clark Historical Society in the "Bugle Room" at 10:00 A.M.. Making the presentation will be James S. Long, Chairman of the Board of the Laughlin Heritage Foundation. His topic w "The October Surprise" and will be accompanied by photos of U-2 aircraft, actual serial photography of the missile sites, and an aerial map of Cuba autographed by many who flew the strategic reconnaissance missions at extreme altitudes over

the Island of Cuba. On May 23rd, 1987, Long was designated an Honorary Member of the 408th Strategic Reconnaissance Wing for his efforts in preserving the history and traditions of the Wing, including the Lockheed U-2C (56-6707) currently on display at Laughlin Air Force Base. Although he considers himself an amateur historian, Long has done extensive research on Camp Hudson on Devils River and of course, Laughlin Air Force Base. According to Mr. Long, 'Everybody who was or is anybody in the military, has served in South-

west Texas!' The guest speaker was educated in Del Rio public schools and at The University of Texas at Austin. He holds professional licenses as a Real Estate Broker; Insurance Solicitor; Public Water System Operator; and Commercial Pilot. Long is of the Methodist faith and he and his wife Elina have two children.

## Is A Cat Lives In Texas

By DORTHY PAYNE

Brackett News Staff Writer

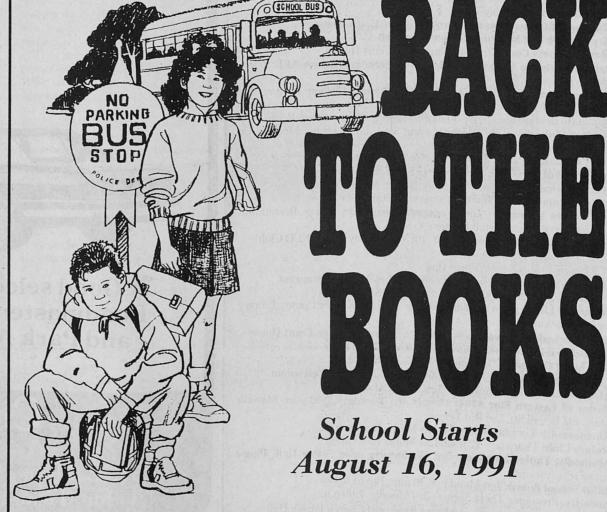

The Jaquarundi is a cat that lives in the Western Hemisphere. It really does not look like a cat at all. It has a long neck, a weasel-shaped head, short ears, stubby legs and a long

This cat stands about one foot high at the shoulders, and is from three to four feet long. It weighs about 20 - 30 pounds. Some jaguarundi are dark grayish-brown

or black. Others are reddish-yellow.

They roam during the day and eat rodents, birds, and farm animals. They are classified as Felis jaguarundi. They live from Southern Arizona and Texas South America.

While driving north of Brackettville, a jaguarundi crossed the road in front of our car. He was as fast as "greased-lightning." Since I had never seen one before, but had heard about the animal, I started researching about him.

Do you know what a **REVIVAL** means? This is a special time in a person's life when genuine spiritual renewal takes place.

A man named Jacob once had a big revival in his life. He wrestled with an angel all night long by the side of a brook or small river. Jacob's name got changed to "Israel" in that early morning hour

because he obtained power with God and with man. Perhaps there are only those who need to wrestle all night long in prayer in our day so that revival may come.

King Josiah had a great revival, too. The Bible had been lost for a iong time. When that Book of God was found in the House of the Lord, the King and religious leaders and people felt the impact of God's message again. Revival broke out. Maybe we need to rediscover the Word of God in our own day!

A revival broke out in Samaria when a sinful woman found the Messiah one day and brought the entire town to the city well to meet Jesus. Maybe there are those who have found forgiveness with Jesus and who need to begin telling others what Christ has done in their lives. That same Christ can bring spiritual renewal to an individual, a Church, and a town.

#### The Bible Says

"You shall not utter a false report, you shall not join hands with a wicked man to be a malicious witness." One does not have to originate a false report to be guilty of violating God's word. Even before the law a person is responsible for what he says, whether he originates or just repeats the statement. God recognizes that the sin is in the statement and on the person who spreads the malicious story.

God cautions about linking one's talk with one who is malicious. To be indentified with such a person carries the stigma of being a malicious witness." God expects each of us to be careful not to utter false statements. People usually believe whom they want to and what they want to. God knows this so he cautions us to be careful about uttering falsity. "You shall not utter a false report. You shall not join hands with a wicked man to be a malicious witness." Exodus 23:1.

## **Equal Rights**

By DORTHY PAYNE

Brackett News Staff Writer

Since the passage of the nineteenth amendment in 1920, state by state legislation has abolished most legal discrimination against women; inequities remain in a few states with respect to jury duty, guardianship of children, marriage and divorce. Unequal pay is still not completely resolved.

Women have made their way slowly in politics, beginning with the election of Jeannette Rankin of Montana to the House of Representatives in 1916; Hattie W. Caraway of Arkansas was the first woman elected to the U.S. Senate in 1932. Nellie W. Ross served as governor of Wyoming; Miriam A. Ferguson, as governor of Texas. The first woman appointed to the Cabinet was Frances Perkins as Secretary of Labor in 1932.

prayer and all hearts join as prayer is made to the Heavenly Father. God's message for the morning is brought by the Pastor for encouragement and blessing to those present. It is a time of touching hearts with God and all depart feeling they have been blessed by worhsip. Everyone is cordially invited to enjoy these blessings. Come and See.
