BOVINA, TEXAS

VOL. VII, NO. 47

WHITTLIN'

BY DOLPH MOTEN

When you have an astute reader such as Rev. John Ferguson, the Baptist preacher, you need to make every attempt to stay up on your newspapering toes.

Brother John jumped us out this week because there were no figures in the Blade on how Bovina voters marked their first Democratic primary ballots in regard to horseracing.

We offered to bet him a cup of coffee that such information appeared in the issue immediately following the election. That was taking unfair advantage, we'll admit, because we knew our bet wouldn't get called by a good Baptist preacher.

And since there was no bet, which we've heard described as a fool's argument, we discussed the controversy thoroughly.

The conversation ended with the Preacher asking us to check the issue in question and us promising to do just that.

Brother John said he figured people here were against horseracing, but we wanted us to say in the paper just how much they were against it.

We thought we had. But, of course, when we checked, we found that he was right. We hadn't.

In writing the election story, which was a long one—some 21 column inches of straight type besides the headlines—

we tried to write it as interestingly as possible. That was a little hard to do in that the information was 90 per cent names and figures which get pretty dull after so long a time.

In an attempt, evidently, to break the monotony, when we got to the part in the story concerning the horseracing propositions we said that "Bovina voters were decidedly against horseracing." And that was pretty general, we'll admit.

We say all that to say this for the benefit of Brother John and all others who were possibly interested.

A total of 314 Bovina voters expressed an opinion on the proposition of legalizing pari-mutuel betting on horseraces. Of that total 79 were in favor of legalizing it and 235 were against. Since 439 people voted, that left a total of 125 who chose not to mark their ballots either way.

On proposition number two, which was for or against taxing pari-mutuel betting on horseraces, 89 were for the proposed method of taxation while 226 were against it.

As those figures show, most voters who were against pari-mutuel betting were also against the proposed method of taxation. However, a few were against horseracing and pari-mutuel betting but were for the suggested method of taxing it.

That seemed strange to us at first, but the longer we counted ballots during that election day, the better we understood people's reasoning for voting that way. They figured, we suppose, that if the legal betting did carry and go into effect, that it should be taxed and that the suggested way sounded as good as any.

Without a doubt Willie Williams is most outstandingly accurate weatherman any newspaper was ever fortunate enough to have predicting the weather for it.

Last week, for instance, Willie's prediction said, without benefit of any double talk or loop holes, that the rain was coming. He even specified the amount that it would rain.

Sure enough, it was just like he said.

He turned in his weather prediction Tuesday morning of last week, as usual, and the rain was coming before we could get the paper out.

Willie has complained to us from time to time about giving him such an early deadline. That deadline is 24 hours or more before publication time and Willie allows as how that's about half a day too far off if a good weatherman is going to be just real exacting with his predictions.

Coffee conversation in Bovina this week is that times are

(Continued on next page.)

AN INCH AND MORE--

Rain Falls; Some Hail

Rain, marred in some areas south of Bovina by hail, came to Parmer County last week after a lengthy dry spell.

Most places in the immediate area had received an inch or more of moisture by time clouds went away Saturday night.

Showers, and the hail, began falling Wednesday. More came Thursday with the windup being on Saturday.

Bulk of the hail fell with the Wednesday rain. Several farmers south and east of Bovina suffered permanent damages to their wheat and in some cases young cotton and milo were wiped out. There is still sufficient time to replant the latter two crops, however.

No one farmer lost his entire wheat crop, according to reports, as the hail was scattered—even in the areas which it struck. Highest estimated damage to any one field was 80 to 90 per cent. Most wheat which was in path of the hail storm was damaged to a lesser degree.

IN HEREFORD--

Shriners Slate Children's Clinic

Bovina members of Oasis Shrine Club are selling bumper stickers here this week to raise funds for Seventh Annual Oasis Shrine Club Children's Clinic which will be in Hereford June 1 and 2.

Parmer County Shriners are working with members in Deaf Smith and Castro counties to sell the bumper strips to defray costs of the clinic and an allied research program.

Some 80 doctors and medical specialists will be in Hereford for the clinic.

All children in the area who need medical attention are invited to register for the clinic, a Shriener spokesman here says.

Available will be specialists in fields of oral surgery, neurosurgery, eye, ear, nose and throat, laboratory, orthopedics, plastic surgery, audiology and speech and radiology.

The doctors will come from New York to Hawaii and various parts in-between, according to a new release on the clinic.

Selling bumper stickers here this week are Aubrey Brock, Reagan Looney, Harry J. Charles, Tom Bonds, and Carl Rea.

Children may be registered for the clinic by contacting one of those individuals here.

Bovina Woman's Father Dies

Tom Mabry of Commerce, father of Mrs. James McLeroy of Bovina, died unexpectedly Wednesday of last week in McKinney.

Mr. Mabry was 61 years old. Funeral services were conducted Friday afternoon in Commerce.

Weather By Willie

Looks like a chance for some rain this week end. Windy season about over until September.

--Willie

Trophy Shoot Slated

Regular monthly trophy shoot for members of Bovina Gun Club is scheduled for Sunday afternoon.

Trophy for two-month period of May and June will be a shooting jacket with an emblem going to runner-up. Marksman with highest average for these two months will be declared the winner.

The shoot will begin at 1 p. m., Art Mast, club secretary says. All members of the club are eligible to compete in the shoot.

PARADE! --- Vacation Bible School opened at First Baptist Church Saturday morning with a parade complete with fire truck, bicycles and carloads of children. Here the parade is shown making its way down Bovina's main street.

STEEEEEEEE-RIKE!--

Softball Tournament Slated This Weekend

Opening Games Thursday Night

This is Softball Week in Bovina.

Bovina Lions, in an effort to raise funds to help pay indebtedness on new lighted ballfield here, will stage an invitational tournament this weekend which will feature some of top softball teams in the area.

Seven games will be played over a three night period. First game is scheduled to get underway shortly after 7 p. m. Thursday.

Six teams are entered in the tournament with all of them featuring better than average pitching.

Entries include Bovina Lions, Oklahoma Lane Farm Supply, Helton Oil Co. of Texico-Farwell, Swift and Sons of Clovis, Supply Squadron of Cannon Air Force Base and Furniture Mart of Portales.

All six teams will see action Thursday night in three games.

Bovina and the Cannon team will lead off the action. Second game is slated for 8:45 and will be between Helton Oil and Oklahoma Lane Farm Supply. Third game Thursday is slated to begin at 10:30 and will pit Swift and Sons against the Portales entry.

Two games are on tap for both Friday and Saturday nights.

Losers of Thursday's first two games will meet at 8 p. m. Friday with winners of first two games Thursday night playing in Friday's nightcap.

Saturday night, consolation final game will begin at 8 with championship game to follow.

Trophies will be awarded to tournament winner, the runner-up and the consolation winner. Also trophies will be presented to hitter in the tournament with highest average and to pitcher with most strikeouts to his credit.

Members of Bovina Lions Club have been conducting an active advance ticket sale campaign. Family tournament passes are being sold for \$2. Purchase of such a ticket grants admission of an entire family to the three tournament sessions.

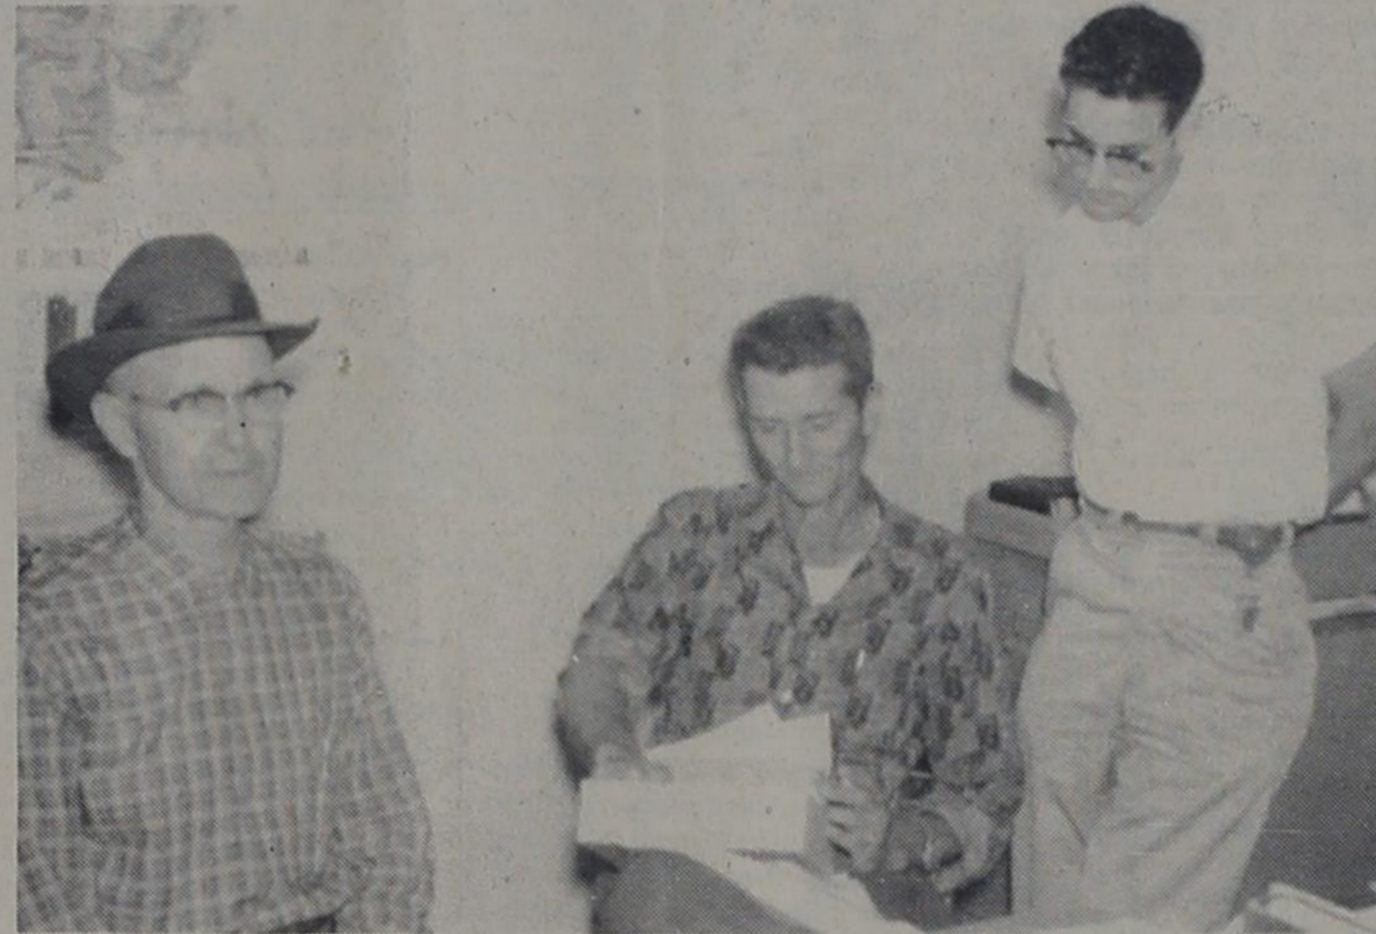

Since it's early in the season no definite tournament favorite can be established. Portales Furniture Mart will feature strong pitching as will Cannon AFB team. Helton Oil always field as strong team. Bovina's hopes will hinge on the strong right arm of big Ray Carter who is one of top softball pitchers in the area. Oklahoma Lane Farm Supply and Swift and Sons are darkhorse entries.

Professional umpires from Cannon AFB have been engaged to officiate the games. Lions Club committees are slated to have the field, bleachers and lights in top condition.

"We feel that we have a first class tournament lined up and that this will be one of the sporting highlights of the year in Bovina," Tom Bonds, Lions Club president, says.

Fred Phillips has been named manager of Bovina's entry in the tourney. Practice sessions have been conducted for past couple of weeks and "we hope to be ready to play come tournament time," Phillips says.

Lions Club will apply all profits from the tournament on the ball park indebtedness which now totals some \$1900.

PAVING---City officials and volunteers have been conducting a paving sign-up campaign this week in an effort to get Bovina's latest proposed paving project off the ground. One of hardest workers in the sign-up campaign has been L. M. Grissom, left. Shown with Grissom looking over property liens are Mayor Boyd Gilreath, center, and City Secretary Virgil Tritsch. Plans are to have the sign-up project completed this week.

HOPE TO FINISH THIS WEEK--

Paving Sign-Up Work Underway

Work continues on Bovina's proposed paving project as members of city council and other volunteers launched a paving sign-up campaign Monday of this week.

Those working on the project concentrated their efforts first on property owners on Third Street and Highway 86. Property owners on these two streets will pay for curbs and gutters

only since state will provide additional paving.

Also sign-ups of property owners in residential sections which are slated for paving are being made.

"We'd like to have all this sign-up work over this week," Mayor Boyd Gilreath says. Contractor, Pioneer Pavers, Inc.

of Lubbock, is reportedly ready to go to work as quickly as sign-up is finished.

There's a possibility that work on Third Street and Highway 86 can begin before that in residential areas if sign-up is completed there earlier.

(Continued on next page.)

IN SPECIAL ASSEMBLY--

Top Students Get School Awards

Jerry Rigdon and Patricia Crawford were awarded Lions Club award for outstanding boy and girl from Senior class Friday afternoon at special assembly at school auditorium.

Other awards presented were Dekalb award to outstanding senior boy in area of vocational agriculture, Olen Johnston; Crisco award for outstanding girl in homemaking, Carole Jean Hastings; soil conservation

essay award by Parmer County Soil Conservation District for best essay, first place in Parmer County, Patricia Crawford, \$50; and Billy Minter, fourth place, \$15.

Special Metal charm awards for the following were English, Vivileigh Steelman; vocational agriculture Pat O'Brien, sportsmanship, Jeanie Ivy;

(Continued on next page.)

Mail Report Cards Monday

Report cards were mailed Monday to students of Bovina Schools, High School Principal James McLeroy announces.

Cards not mailed were those for students who have an obligation to the school unfulfilled, the principal explained.

Such obligations consist of not turning in a required record book or failure to pay debts owed for lunches, assemblies, library books, athletic equipment or other items.

Report cards will be issued when the obligations in question have been fulfilled, McLeroy says.

CHURCH SCHOOL --- This was scene at Vacation Church School at Bovina Methodist Church this week. Shown from left to right are Mrs. Tom Caldwell, Johnny Caldwell, Connie Ware, Rene Charles, Debbie Gilbreath and Dennie Willard. Youngster looking away from camera in foreground is unidentified.

THURSDAY NIGHT--

Eighth Graders Receive Diplomas

Twenty-eight Bovina Elementary school students were graduated at a commencement program Thursday night in school auditorium, Gil Lamb, Muleshoe radio man, was guest speaker.

Valedictory was by Irene Thornton. Margie Carter gave

salutatory.

Coach Hallie Gee, class sponsor, presented diplomas.

Earl Hise, school music instructor, sang a solo, "The Holy City."

Invocation was by Miss Grace Paul, class instructor, with Superintendent Warren Morton giving benediction.

Miss Elaine Fuller played for

professional and recessional.

Members of graduating class were Janie Aragon, Francis Ann Williams, Joe Jordan, Richard Lynn Carson, Patricia Louise Taylor, Marie Arcenia Cano, Carla Jean Meacham, James E. Denney, Dathryn Schafroth, Patsy Ann Cumpton, Connie Beth Vaughn, Marie Louise Dane, Margie Lynn Carter, Cindy Dawn Gaunt, Brenda Marie Pruitt, Carolyn Yvonne Wilkerson, Ofelia Barraza, Aurora Del Toro, Jerry Dale Roach, Carolyn Sue Damron, Billy Lynn Marshall, Linda Aileen Johnston, Gwendolyn Louise Christian, Larry Dean Mayhew, Mary Kathryn Mlny, Martha Irene Thornton, Scotty Dayle Rundell and Bonnie Sue Morris.

Junior Choir Has Cantata

Junior Choir of First Baptist Church presented a cantata, with a candle lighting service, Sunday afternoon.

Choir director is Mrs. Arnold Hromas.

"Jesus is the Light" was theme of choir with opening hymn "The Light of the World is Jesus" played by organist, Mrs. Weldon Moody, and pianist, Mrs. Charles Embry. Mrs. Harold Hawkins sang "Jesus Bids Us Shine" while choir members marched in.

Rev. John Ferguson held candle to light each member's candle to represent him giving them God's word and he also read scripture after which Mrs. Arnold Hromas gave a reading accompanied with organ music.

Earl Hise guest soloist accompanied by Mrs. John Wilson sang "The Lord's Prayer" as concluding number.

Gail Boyd and Larry Riley served as ushers.

Members of choir participating were Martha Adams, Vickie Hawkins, Susan Thornton, Teressa Page, Galen Hromas, Alan Carson, Lynn Murphy, Daryl Kirkpatrick, Rex Cumpton, Linda Riley, Linda Williams, Beth Hutto, Carol Kirkpatrick, Pam Webb, Elaine Mlny, Bonnie Dyer, Gary Lide, Benny Kent, Rodney Murphy, Gary Carson, Toni Phillips, Dala Boyd, Deborah Kirkpatrick, Carrissa England, Donna Garner, Gail Wilborne, Glenda Kelley, Mike Horton, Stuart McMeans, John David Ferguson, Phil Sorley, Deborah Hawkins, Sheryl Moore and Betty Kesler.

Guests of choir were Zeld Donaldson and Suzanne Ferguson.

Whittlin' --

again getting good.

With a group of farmers talking, an agreement was reached that it was getting hard to loan out a tractor that wasn't in real good running condition. One of the men mentioned that nobody would use his tractor until he got it overhauled recently and "now it loans out pretty good."

But then times should be getting better. After all, Democrats have been in office almost a year and a half now. It's time for situation to improve.

It's probably only fair, though, to tell this story to balance out the one just before:

A scrap iron dealer drove to a local farm and asked the man in charge what he'd take for the scrap iron he had on hand.

"Take for it, heck," replied our hero, "I'm still farming with it!"

Awards --

science, Judy Crawford; mathematics, Gary Stevenson; home-making, Mary Ann McKinney; girl athlete, Marilyn Brandon; boy athlete, (tie) Don Cumpton, Buddy Turner; history, Gary Stevenson; choir, Elaine Fuller; citizenship, Billy Minter, Janet Gooch; student council, Floye Smith.

Savings bonds in amount of \$50 each were presented to Valedictorian Jerry Rigdon and Salutatorian Janet Gooch by First National Bank of Bovina.

Students who had been neither absent nor tardy for entire school year were Manuel Hernandez, Rex Cumpton, Alan Carson, Lowell Taylor, Gary Carson, Linda Riley, Cheryl Sisco, Jerry Rigdon, Linda Gilreath, Richard Carson, Jeanie Ivy and Lana Drager.

Paving --

Cost for curb and gutter only is \$2 per foot. On streets which property owners must pay for paving as well as curbs and gutters, cost is \$4.30 per foot. Financing is available through the city on basis of 25 per cent down with three years to pay the balance at seven per cent interest.

Many of the property owners who signed-up early this week paid the entire cost of their street improvements at that time.

Truck Wreck Damages Slight

No injuries and only slight damage were result of a two-truck accident on Highway 60 in Bovina Wednesday afternoon of last week.

Involved in the collision were a two-ton butane truck owned by Lester Rhinehart Butane Gas Co. and driven by Robert McCormick and an Illinois-bound freightliner. The larger truck was a semi-trailer loaded with Arizona potatoes.

The accident occurred as McCormick attempted to turn left while headed east, The semi, also going east, scraped the left hand side of the butane truck.

Damage to the smaller truck was estimated at \$125. Damage to the other truck was slight.

McCormick was issued a ticket for "unsafe change from marked land" by Edward Richards, highway patrolman who investigated the accident.

RELIGION Offer Churches 'Machine' Book

By CLAIRE COX
 United Press International

NEW YORK (UPI) — The teaching machine is going to church.

Religious bodies, ever interested in keeping up with the times, have been using movies, hi-fi, closed-circuit television and other modern educational devices. Now they are beginning to offer courses involving use of the teaching machine principle.

To help them on their way, Association Press, the YMCA's publishing division, has prepared an experimental book that works like a teaching machine.

The first in a series of "step-by-step" books, the initial publication is entitled "Step by Step in Theology," which will appear next week. In the fall, Association Press will issue a step-by-step program for teaching the Old Testament and another dealing with the functioning of boards and committees.

"Religious education leaders have been asking for new kinds of materials with which to teach," a spokesman for Association Press said. "This kind of material seems to answer their needs, for it has been useful in schools."

This first book, prepared by Hal and Jean Vermes, programming experts, is based on "First Steps in Theology," by the Rev. Dr. Jack Finnegan, of the Berkeley Divinity School. It offers a basic, logical sequence aimed at producing clear ideas and understanding of the church, Jesus Christ and God.

"Step by Step in Theology" is described by the publisher as a book with "a kind of built-in instructor." In going through the book the first time, the right-hand pages are studied, while the left-hand pages are upside down. Each page is divided into eight frames, four large and four small. The large frames pose questions, which are answered in the small frames on the next page. The frames are labelled vertically, A, B, C and D. The student goes through all the A frames in the book on the right-hand pages and then turns the book over and goes through the similarly marked frames on the rest of the pages.

Working for Texas

Meet a fellow Texan: Preston Smith.

Preston Smith's story is in the best Texas and American tradition—a farm boy who worked his own way to an education and a place of honor in his business and community life.

Born in the heart of Texas, at Georgetown, he moved with his family to Dawson County in 1923 when he was 10 years old. He went to school at Sunset, Lamesa, and Texas Tech. In his adopted home town of Lubbock, with his wife Ima and their two children, he now carries out the full responsibilities of a typical Texas business and civic leader.

A steward at St. John's Methodist Church—member of the Salvation Army Board, the Kiwanis Club, the Chamber of Commerce, the Texas Farm Bureau—these are some of the activities close to the heart of Preston Smith, citizen.

He did not stop there. In his daily pursuits Preston Smith came to realize that business and government are closely related in the American system—and that without good government we cannot have a favorable climate for good business. A man of direct action, Preston Smith went into the business of government. He served six years in the Texas House of Representatives and six in the Senate.

Senator Smith has supported sound statewide legislation for better schools, roads, welfare and conservation. He took the lead in establishing a permanent building program for state colleges. He had the integrity to support necessary state spending and the courage to oppose extravagance and waste. In government, as in business and at home, Preston Smith believes in meeting our obligations and paying our bills.

Having proved himself as one of the best-rounded, best-equipped, best-informed and most highly respected Texans in both his private and public careers, Preston Smith was a logical candidate to succeed Ben Ramsey as Lieutenant Governor of Texas.

Voters in 102 counties gave Preston the lead over four opponents in the First Democratic Primary. Now he is in the runoff. He got there without the support of any self-serving group or power bloc. His opponent has the endorsement of labor leaders and other special interests who want to dominate our state government.

Preston Smith asks only for the votes of individual Texans who want a Lieutenant Governor without any strings attached. He is depending on independent-minded Texans everywhere to vote for him on June 2.

Elect your independent candidate for Lieutenant Governor—

PRESTON SMITH

Blade Sawdust by SUE MOTEN

If you think President Kennedy is the only one to receive famed red carpet treatment you are mistaken. Anita Anderson had some Amarilloans visiting her Wednesday and they were treated to Bovina's hospitality. They rode the train from Amarillo to Bovina, arrived here about 11:45 and were greeted at train depot by a host of friends, reporters, photographers, etc. Reporter Pat Sherrill, was attired in a most becoming garb, complete with Hedda Hopper hat, with millions of flowers, of different kinds adorning the chapeau. Mary Jane Wilson posed as official photographer, complete with grey wig and beret. Transportation for the ride to Anderson home was the capping climax. Model T. Ford and another car with which I am not familiar, were used to motor honored guests.

One of cars was decorated with red fringe around top and centered with a large red rose and bore a welcome sign. Anyway, we are glad they visited our fair city and hope they appreciate the welcome bestowed upon them. Needless to say Anita worked hard convincing the scheme.

Friday annual-day-of-school flag-raising ceremonies there occurred a rather fateful event. Just as everyone was poised, ready for national anthem, complete with hand over heart, what comes forth on loud speaker but "Mary Had A Little Lamb." Am sure it wasn't intentional and perhaps isn't amusing to everyone but think it was funny in a respectful way, myself.

Have you noticed several of the men crippling around trying to hide the look of pain in their eyes. These are the youthful ones who are limbering up for football play this summer. Think it amusing that first few workouts produce such an astonishing effect.

Shower Fetes Mrs. Jim Howard

Mrs. Jim Howard was honored with a lullaby shower Thursday morning at Baptist Parsonage.

Refreshment table was laid with a lace cloth over pink and centered with an arrangement of pink and blue flowers flanked on either side by pink candles. Silver and crystal appointments completed the table. Refreshments of Spudnuts and coffee were served to guests.

Attending were Mrs. Weldon Moody, Mrs. Buster Howard, Mrs. J. D. Kirkpatrick, Mrs. Dale Harmon, Mrs. Paul Holcomb, Mrs. Dickie Steelman, Mrs. John Ferguson, Mrs. Tommy Williams and Mrs. Billy Don Read.

Hosting the party were members of Mary-Martha Sunday School Class.

C. F. Hastings Has Surgery

C. F. Hastings was released from Memorial Hospital in Clovis Saturday after surgery earlier in week. He is reported to be improving and is receiving visitors.

Final Farewell Fetes Seniors

Home of Mr. and Mrs. Wilfred Sikes was scene of a farewell breakfast for members of senior class and sponsors Saturday morning.

Breakfast was served at 1 a.m. before the class departed for Rockaway Beach, Mo. where they are spending a week on annual senior trip.

Mothers hosting the breakfast were Mrs. John Sikes, Mrs. C. R. Brandon, Mrs. Howard Looney, Mrs. Hodge Rigdon, Mrs. Wes Smith, and Mrs. Boyd Gilreath.

Individual tables were laid with white cloths and centered with arrangements of spring flowers. The breakfast menu consisted of hot biscuits, eggs, link sausage, coffee and juice.

Attending were Mr. and Mrs. Malcolm Kennedy, sponsors, Mr. and Mrs. Frank Wilson, Buddy Turner, Jerry Rigdon, Olen Johnston, John Sikes, Ben Rejno, Karen Lehenbauer, Marilyn Brandon, Kay Looney, Margaret Taylor, Floye Smith, Christine Wassom, Evelyn Stanberry, Linda Gilreath, Patricia Crawford, Janet Gooch, Judy Meacham, Lindy Dean and Bettie Mae Stevens.

Shower To Fete Nancy Cumpton

Miss Nancy Cumpton will be honored with a bridal shower Tuesday, May 29 at home of Mrs. J. D. Kirkpatrick. The come and go affair will be between the hours 3 and 5 p.m.

Friends are cordially invited. Hostesses are Mrs. Johnnie Horn, Mrs. P. A. Admas, Mrs. Ovid Lawlis, Mrs. Bobby Englant, Mrs. Leslie McCain, Mrs. Roy Dodson, Mrs. Travis Lloyd and Mrs. Kirkpatrick.

Methodists Host Sr. Breakfast

Bovina High senior class of 1962 were honored with a breakfast at Bovina Methodist Church Friday morning.

Hosting the annual affair were members of Wesleyan Service Guild and Womens Society of Christian Service.

J. T. Hammonds was speaker for the event.

Rev. Harold Morris opened program with invocation, followed by W.S.C.S. president, Mrs. Billie Sudderth, who gave welcome to class, Janet Gooch gave the response, Mrs. Jimmie Charles and Mrs. Bedford Caldwell, accompanied by Mrs. Margaret Caldwell, sang "Graduation Days."

Menu consisted of orange juice, coffee, pancakes and fruit syrups. Tables were laid with white cloths and featured graduation mementos. Head table was centered with a globe topped with a graduation cap. Pink and white, class colors, also carried out theme.

Mrs. Vernon Estes, Mrs. Rouel Barron and Mrs. Leon Ware were in charge of menu. Mrs. Bedford Caldwell, Mrs. Warren Morton and Mrs. Hallie Gee were on program committee and decoration committee was Mrs. Vernon Willard, Mrs. Richard Baxter and Mrs. Earl Ware.

Honored guests were Mr. and Mrs. Warren Morton, Mrs. Glendon Sudderth and Malcolm Kennedy, class sponsors, Buddy Turner, Jerry Rigdon, Olen Johnston, John Sikes, Ben Rejno, Karen Lehenbauer, Marilyn Brandon, Kay Looney, Margaret Taylor, Floye Smith, Christine Wassom, Evelyn Stanberry, Linda Gilreath, Patricia Crawford, Janet Gooch, Judy Meacham, Lindy Dean and Bettie Mae Stevens.

THE HIGH PLAINS FARM AND HOME

SOIL CONSERVATION DISTRICT NEWS

Men are known by their deeds. So it is that the quality of Soil Stewardship is most evident in the doing. The true spirit for responsible people at work on the land is inevitably tested in the fields.

Soil Stewardship has no definable limits. It may be of an indifferent quality or it may be exceedingly well done. It cannot be measured in acres or hours, or in miles or tons or blades of grass. There is no point at which the steward may step back from his handiwork and say:

"This is it. This is conservation completed."

The requirements of Soil Stewardship are perpetual. In the climate and uses of each tomorrow, the steward meets new challenges to his ingenuity, his skill, and his devotion. How well he meets them can be measured only in terms of the sustained usefulness of the soil he cares for over the years.

The motivation of a responsible man to conserve the soil arises from his faith in God. The valid, tangible expression of this will takes place in the fields--in the doing. It is there that responsible people at work on the land commit their skill, their energy, and their destination--with God's help--to achieving a system of sustained land use without soil damage.

4-H Girls Prepare County Food Show

"Learn to do by doing" is a motto 53 4-H Club girls are practicing during their Foods and Nutrition subject matter groups. All of the 12 groups in the county are completing lessons in preparation for the County 4-H Favorite Foods Show June 19 at 3:00 in Hub Community Center.

Volunteer foods leaders for these groups of two to seven girls were trained earlier by Miss Ettie Musil, County Home Demonstration Agent. Eleven foods lessons were demonstrated according to Unit 1, Favorite Foods member and leader guides.

During these foods group meetings the trained leaders demonstrate how to prepare the salad, dessert, vegetable, or beverage. Then each girl prepares the same food "to learn by doing" using supplies and equipment she has brought from home.

These 4-H Club girls are learning to plan and serve meals as well as learning the importance of different foods in the daily diet. As the girls plan and prepare these foods they are learning to use the oven, broiler, and top of the range. They learn to use the refrigerator and other kitchen equipment, as well as studying table manners and setting the table.

The following girls are taking part in the Foods and Nutrition

subject matter groups in each of the four community 4-H clubs.

Farwell 4-H Club--Leader: Mrs. Johnnie Rundell.

Girls: Tina Rundell, Debra Garner, Rhonda Robertson, Cheryl Kaltwasser, Janie Watkins and Linda Gossett. Leader: Mrs. Lexie Branscum.

Girls: Sharon Williams, Meridith Anderson, Edith Carter, Melody Roberts, Cindy Phillips, and Shelia Garner.

Leader: Mrs. Leon Billingsley.

Girls: Janis Billingsley, Kathryn Gober, Peggy Lesly and La Nell Christian.

Leader: Mrs. U. L. Lesly.

Girls: Reba and Viane Lesly.

Leader: Mrs. Walter Kaltwasser

Girls: Vicky Kaltwasser and Connie Dennis

Frlona 4-H Club--Leader: Mrs. J. R. Bartlett.

Girls: Gall and Lettricia Bartlett.

Leader: Mrs. C. W. Tannahill

Girls: Pat and Sherril Tannahill, Karene Milner

Leader: Mrs. Ralph Broyles.

Girls: Ann Blackstone, Christie Ivy, Debbie Burch, Kathy Coker and Patcine Broyles.

Leader: Mrs. Freman Davis

Girls: Charlotte Davis, Sue Hassell, Karen King, Donna Stanberry, Melanie Precure.

Leader: Mrs. Davis Gulley

Girls: Linda Gleason, Judy Koelzer, Katie Blackstone

Leader: Mrs. Gerald Ramage

Girls: Cheryl Ramage, Jill Mimms, Shelia Vaughan, Janis Miller, Nedda Foster, Marsha Schumann, and Karen Johnson.

Rhea 4-H Club--Leaders: Mrs. Cordie Potts and Mrs. Raymond Martensen

Girls: Terri Schueler, Shirley Schueler, Greta Mears, Sharon Martensen, Ruth Armstrong and Connie Schlenker.

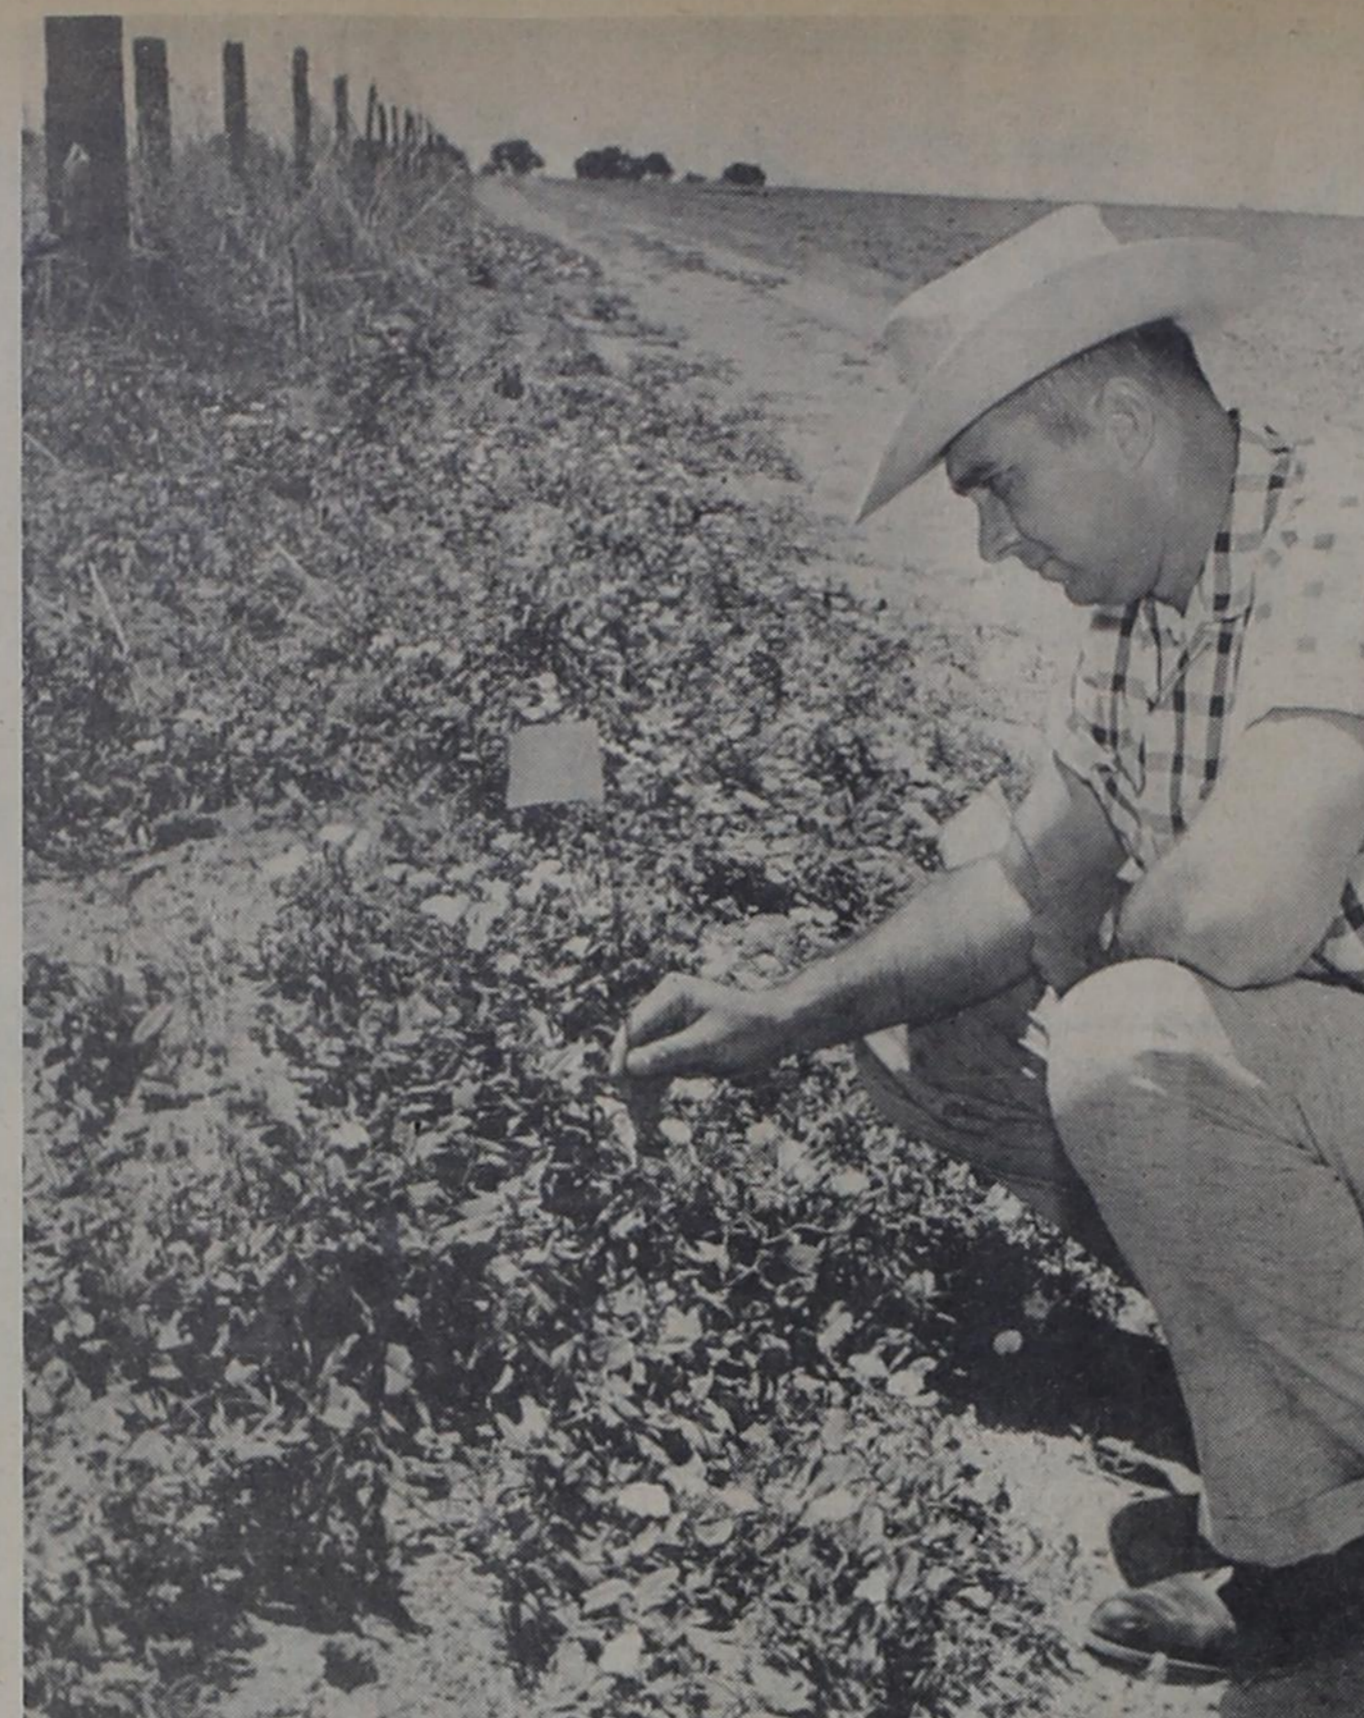

The signup deadline under the 1962 feed grain and wheat stabilization programs has been extended until April 14 in 24 states including Texas. The extension was announced by Secretary of Agriculture Orville Freeman.

TARGET MARKER... In the war against blindweed in Parmer County is being placed on the fringes of a patch of the choking pest east of Farwell by County Agent Deryl Coker. The yellow flags may be obtained from the Farm Bureau office in Frlona, County Agent's office, and J. T. Jones, weed committee chairman.

OF MARKET CATTLE

Mark Indicates Brucellosis Status

Starting June 15, 1962, all cattle sold or consigned through any auction or market place will have to comply with the regulations set forth by the Texas Animal Health Commission pertaining to the Brucellosis status of all cattle.

These regulations require that the brucellosis status of all cattle consigned to the market must be determined as they enter, and they must be identified and penned accordingly.

Since Parmer County is a modified certified county, a consignor can state that his cattle are exempt from testing because they originated from a Modified Certified County. He must record his license number or brucellosis number and give the county of origin on the entrance records and identify the animal according to the color code. They will then be penned in clean pens.

A color code has been established so that they may be identified as to their brucellosis status by marking one hip of each animal so that they may be penned, sold and released according to the regulations.

COLOR CODE NO. 1:

To be used at markets within or around modified certified areas, where cattle EXEMPT from test are in the majority.

NO MARK ON HIP: Cattle that are exempt from testing

and vaccination requirements due to their age, sex, origin or present "clean" brucellosis status will carry NO MARK, WHITE MARK ON HIP: Shall be used to identify cattle which the consignor wishes to have tested prior to the sale, but are subject to test prior to release, unless they go to slaughter or to an approved feedlot. They shall be penned separate from the above two classes of cattle.

COLOR CODE NO. 2:

To be used at markets that are outside of a Modified Certified Brucellosis Area where the cattle that MUST BE TESTED are in the majority:

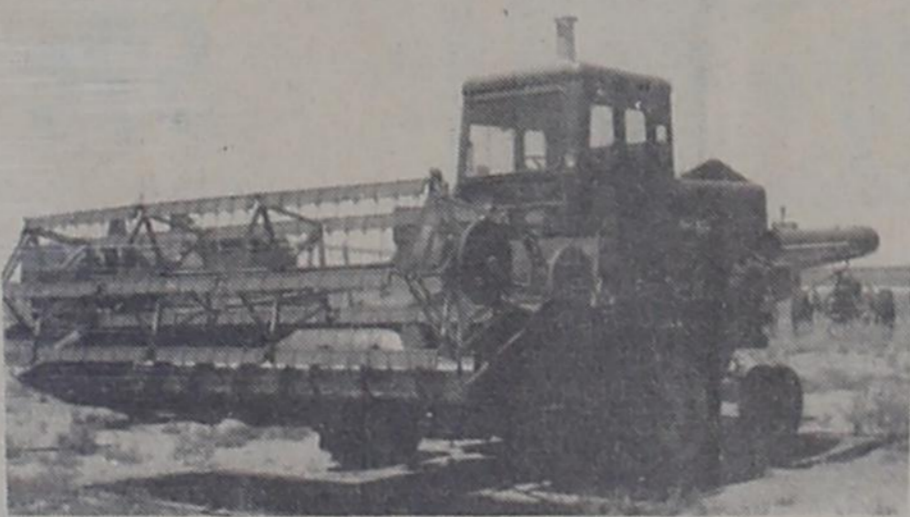

BLUE MARK ON HIP: Shall be used to identify cattle that are EXEMPT from testing or vaccination due to their age, sex, origin or present "clean" brucellosis status. They shall be penned in separate "CLEAN PENS." It shall not be necessary to mark steers and calves under eight (8) months old as their exempt status can be easily determined by physical characteristics.

WHITE MARK ON HIP: Shall be used, as above, for cattle consigned to be tested PRIOR to being offered for sale. They shall be penned, until tested, in "TEST PENS."

NO MARK ON HIP: Shall be used to identify cattle that are NOT TESTED prior to the sale, and must be tested prior to release, unless they go to slaughter or to an approved feedlot. They shall be penned separate from the above two classes of cattle.

Standards for federally inspected smoked hams that were in effect prior to December 30, 1960, have been reinstated. The U. S. Department of Agriculture announced recently.

Five Texas 4-H Club land judging teams, including the 1961 state champions from Somervell County, will participate in the 11th annual International Land, Pasture and Range Judging Contest in Oklahoma City, May 3-4. Other than the Somervell team, Stonewall, Bexar, Midland and Reeves counties will have entries. A team consists of four members.

New Road Seen For Rhea Area

A new Farm to Market road is scheduled for construction in the Rhea Community of Parmer County this year. The 8.8 miles of paving will extend from one end of 2013 north and west to the New Mexico State line. It is a part of the 1962 Farm to Market Road Program which was recently given approval. Under the program, 1,216 miles of newly designated farm and ranch roads will be built at a cost of \$23 1/2 million.

The addition in the Rhea area is not a part of a long range program but is included in a one-year program which includes 266 separate roads in 179 counties. The Highway Department announced that all future FM programs would remain on a one-year basis.

The new addition in Parmer County will close one of the three largest blank spots in the county highway map. The next largest gap is East of Frlona between Highway 60 and State 86.

Oscar Crain, district engineer of Lubbock, said that 75.5 miles in this district will be involved in the program. The work in Parmer County will be under the direction of Rhea E. Bradley, resident engineer.

HD Agent Schedules Canner Workshops

Do you need to have your pressure canner checked before canning time? "Pressure canner gauges should be checked for accurate measuring at least once each year," advises County Home Demonstration Agent, Miss Ettie Musil. Special pressure canner workshops will be conducted next week in Parmer County in each of the four county precincts by Miss Musil. All homemakers are invited to attend these meetings.

Schedule for the workshops are: Monday, May 28 at 2:00 p.m. in the home economics department of the Frlona High School in Frlona, Tuesday, May 29 at 2:00 p.m. in the Oklahoma La ne Community Center, Thursday, May 31 at 2:00 in the Hub Community Center, and Friday, June 1 at 2:00 in American Legion Building in Bovina.

Included on the program will be testing of all pressure canners that are brought, canning by one-step, cold-pack method, equipment needed in canning, and storage of canning equipment and canned food. Miss Musil stated, "This will be the only opportunity to check pressure canners this year since we are borrowing a master gauge to test the pressure canners for these meetings. The master gauge owned by the county has been accidentally misplaced and a new one cannot be purchased since the company is no longer in business."

Farm Facts

Pesticide Regulations Broad

Farmers have long relied on signs to forecast the weather, but today's operations demand more precise information. Bad weather may hinder application or nullify effectiveness of materials in which they have invested heavily.

Broader regulations made effective recently bring under surveillance of the U. S. Department of Agriculture practically all chemicals and devices intended for destroying or repelling pests. An amendment to regulations for enforcing the Federal Insecticide, Fungicide and Rodenticide Act requires fully adequate labeling of several classes of chemicals which were not previously under the jurisdiction of the USDA.

Chemicals used to control many pests of animals and plants and certain viruses not formerly identified as pests under the law must now be registered. Manufacturers of these products must prove them to be effective and must label them adequately as to composition, directions for use and necessary precautions before they can be legally registered and marked in interstate commerce.

These services include an agricultural interpretation of the 30-day and 5-day outlook, as well as hourly reports and information at intervals throughout the day on the kind of weather to expect for the next 36 hours and for 24 additional hours.

Manufacturers of products already on the market but not previously regulated may apply for registration at once, but they have until October 1 to comply with this requirement.

The number of newly classified pesticides is still comparatively small but is increasing rapidly. More of them will be used as the growing population requires more intensive use of U. S. land. Many of these products will not be intended to destroy offending birds, fish or other animals since some of these forms of life are injurious only in limited environments and under special circumstances.

Also issued are agricultural aviation weather forecasts and summaries during the spraying and dusting seasons. Forecasters are kept posted on "fire weather." Warnings also are issued of unusual disturbances or severe conditions as indicated by radar and other equipment.

Repellents would be intended to move the offenders from areas where they will cause harm, thus preventing damage without destroying the offenders.

An improved method for determining soil phosphorus is now being used by the soil testing laboratories operated in the state by the Agricultural Extension Service. It is the result of several years of research work by Texas Agricultural Experiment Station personnel, Extension Soil Chemist Bill Bennett said.

"Only Spent \$1.75 For Repairs Cutting My Maize Crop!" CASE 600 COMBINE OWNER REPORT FROM

George Douglas, Oklahoma Lane Farmer

...best combine in maize...

Select The Case Combine That's Right For You Now!

"I bought my Case 600 combine the latter part of September, 1961. I cut over a million pounds of maize--260 acres that averaged 6,000 pounds, and 50 acres of dry land maize that averaged 1800 pounds per acre--and spent only \$1.75 on repairs! This is the best combine I have ever used. The 600 combine handles easy and turns around at the end just as easy as my Case 600 tractor. I farm 485 acres of land, and will cut 115 acres of wheat and about 300 acres of maize in 1962 with my 600 combine."

HD Agent's Notes

BY MISS ETTIE MUSIL

Much interest has been created in the county since the special training I had with the Friona Antique Club in refinishing furniture. We now use a penetrating sealer stain to make old furniture look like new.

This sealer stain not only seals the wood by penetrating into the wood but it can stain the wood in any color or finish that you desire. Come by the office sometimes when you are in the courthouse to see the new bulletin rack and high stool we refinished with a fruitwood sealer stain.

The sealer stain is applied with old nylon hose, so it is easy to apply and dries quickly. It is highly resistant to moisture and has a pleasing soft gloss. The sealer penetrates into the wood but leaves no film on the surface. Since it has no surface film it resists scratches and abrasion.

Another good quality about the sealer stain is the ease in patching worn spots. More sealer can be applied to a worn spot without having to remove the old finish. To do this, remove all wax or polish from the area, buff with steel wool and apply the new seal.

If you would like to learn more about this furniture refinishing process, bring a small piece of furniture, certain needed supplies, and come to one of the four precinct meetings in the

county the first two weeks of June. There are more details about the workshops in another news story in this newspaper.

This workshop will be conducted on a county-wide basis for all interested people. In the past three years that I have conducted this workshop a number of men have attended. Men, women, young boys and girls are all welcome to take part in the workshops.

Don't forget the pressure canner and canning workshops to be conducted next week in each of the four precincts. For your convenience we have scheduled these workshops in scattered locations in the county. Bring your pressure canner to be checked, no matter how old it is or how new. We found one new canner that registered one and a half pounds low on the gauge. Look in this newspaper for a detailed story.

The Friona 4-H Club girls were trained last Friday morning in baking two crust fruit pies and sweet milk biscuits. This meeting was the last in a series of four trainings for the Lazbuddie 4-H Club, Rhea 4-H Club, Farwell 4-H Club, and Friona 4-H Club girls for the County Bake Show.

In the training the girls learned how to mix master mixes for pastry and biscuits. Master mixes save so much time in baking morning biscuits or fruit or cream pies. I have a few extra copies of the recipes used for these mixes and delicious recipes for pineapple, cherry, apple, berry, or fresh peach pies.

Attending the training in Friona were Risa and Darla Howell, Pat and Sherril Tannahill, Cecilia Salz, Jan Shirley and Mrs. Charles Howell. The county 4-H Bake Show is scheduled Tuesday, August 7 in the Community Room of the Friona State Bank.

Last Saturday morning I at-

tended an interesting program during the regional Texas Home Economics Association meeting in Amarillo. According to the business meeting we were informed that we have 180 known home economists in this upper Panhandle region.

It was interesting to visit with home economists of different professions. Attending were home economics teachers in high schools and colleges, dietitians, counselors in home economics, home service advisers with electric and gas companies, and home demonstration agents.

During the program we saw an interesting style show of good and poor results of laundering. For example one model wore a faded print dress that had been laundered in hot water with too much detergent. The other model wore another print dress of the same print and color, but her dress was brightly colored and appearing like new.

We saw a perfect example what happens if pockets are not checked before laundering. One model wore a pair of slacks and blouse that had been laundered with a tissue in one pocket. Extra brushing would be required to clear the lint from the slacks.

We also saw results of dingy white clothes that had been washed with colored garments. The other model wore pure white sports clothes that had been laundered with white items only. We all know sad stories of garments that had been washed in too high temperatures, too much detergent, not sorted into colored or white loads, or prepared for laundering by emptying pockets or removing stains.

The HAPPY HOMEMAKER

BY JUNE FLOYD

In all probability there isn't a reader of this column who really wants to "get old". Have you ever stopped to consider why you detest the idea? If we analyzed our feelings on the subject, we might be able to grow older without "getting old."

Growing older is inevitable, so whether you do it gracefully or otherwise depends largely upon YOU. Of course, none of us want to be the kind of older person who is mean, cranky, hard - to - please, demanding, disagreeable or unpleasant.

Someone once said that the way to keep from getting old was to keep learning. Homemakers have a decided advantage of persons in any other profession as far as learning is concerned.

There just isn't any end to the things we can learn that will make us better homemakers and make our work more enjoyable. Even though a lot of home work is the same thing over and over again year in and year out, there are new things to learn every day in every phase of our work.

Right now would be a good time to learn some new methods of preserving and processing vegetables and fruits, which will soon be plentiful in our area, for future use.

If you don't have up-to-date instructions on the canning, freezing and preserving and processing vegetables and fruits, contact your county home demonstration agent's office for booklets and leaflets on the subject.

There are also a number of new techniques for cooking just about anything you want to cook. If you haven't tried some of the newer methods, there is a treat in store for you.

In addition to increasing your knowledge of skills you already possess, you can always add new ones. If you don't sew, paint, knit, crochet and do other kinds of hand work, why not learn how?

Many homemakers derive a lot of pleasure from doing hand work and others enjoy growing

houseplants, outdoor flower and vegetable gardens or both.

Or, if none of these things interest you, you can pursue just about any subject you want to study with very little investment except interest and time.

Like any other project, whatever you accomplish in the future is determined largely by what you do NOW.

For a quick and easy Pizza Pie, try the following: Prepare biscuit dough by your usual method and spread over bottom of baking dish. Cover with sausage, ground beef or a combination of the two.

Pour tomato sauce to which has been added a dash of salt, pepper and oregano over the layer of meat and bake in a slow oven. When meat is thoroughly cooked and biscuit dough is brown on the bottom, remove from oven and sprinkle

with grated cheese. Place in oven until cheese is melted. Serve hot or cold with tossed salad, vegetables and dessert.

Here's a simple strawberry dessert that you will surely want to try.

- Strawberry Charlotte Dessert
- 2 envelopes unflavored gelatin
- 3/4 cup sugar, divided
- 1/4 teaspoon salt
- 4 eggs, separated
- 1/2 cup water
- 2 ten ounce packages frozen sliced strawberries or the equivalent in fresh strawberries.
- 2 tablespoons lemon juice
- 2 teaspoons grated lemon rind
- 8 lady fingers
- 1 cup heavy cream, whipped

Mix gelatin, 1/4 cup of the sugar and salt thoroughly in top of double boiler. Beat egg yolks and water together. Add to gelatin mixture. Add 1/2 the strawberries.

Cook over boiling water, stirring constantly until gelatin is dissolved and strawberries have thawed (if you are using frozen berries), about 8 minutes.

Remove from heat and add

remaining package of strawberries, Lemon juice and rind. Stir until berries are thawed. Chill in refrigerator or in bowl of ice and water, stirring occasionally until the mixture mounds when dropped from spoon.

Split lady fingers in half and stand around edge of an 8 inch spring form pan. Beat egg whites until stiff. Beat in remaining 1/2 cup sugar. Fold in gelatin mixture.

Fold in whipped cream. Turn into pan and chill until firm. Remove from pan and garnish with additional whipped cream and strawberries.

Speaking of running water in farmers' houses in an 1863 article, an author wrote: "It is water stagnant in a lead pipe which causes mischief, so that every faucet should be allowed to run the water waste for at least one minute the first thing in the morning, especially in the kitchen."

FOOTSAVING EDUCATION

by James E. Edwards

Is it a good idea to buy two pairs of shoes of the same size for a child?

It depends on the age. When youngsters go out of their way to splash through puddles and during the time when the puddles are of their own manufacture, it is almost necessary to have two pairs of shoes. It can be demonstrated that excessively long shoes weaken the arch, so it is better foot-health to have two pairs of the correct size than one pair which the child may or may not grow into before they are worn out. Later in childhood growth seems to be concentrated in the summer months.

In the fall when a child has outgrown all of his pairs I recommend one pair to be worn for everyday and Sunday. If the parents want another pair, I suggest that they wait four to six weeks at which time the shoefitter can tell whether the second pair should be the same size or a half size larger.

DERYL COKER

Most everyone has a stand of cotton and we are off to a good start this year, compared with the average of the last several years.

A lot of farmers used in D-Syston this year, and if you did you shouldn't have to worry about early season control as much as usual, but you should check the cotton 2 or 3 times a week anyway to see if the D-Syston is doing any good.

If you didn't use a systemic insecticide you should be on the look-out for early season insects that could hurt or delay its maturity. Each year there always seems to be some reason why we need more time at frost to get our cotton matured. Early season damaging insects could be one reason.

I was looking at some results on different insecticidal control systems south of us, and where cotton was sprayed every week it made less pounds of cotton than where it was sprayed when it needed it, so it is my belief that a person should check his cotton to keep tab on the insect situation and spray only if you need to.

Every farmer should know how to make insect counts, and be able to recognize the damage caused by the different cotton insects.

A farmer should always have at least a 30 day period between the last spraying for early season control and the first spraying for bollworm control. Some types of insecticides tend to invite boll-

worms. Listed below is what the 1962 cotton guide says on early season control. If you don't have a insect guide it might be a good idea to cut this one out and keep it where you could use it if needed. Guides are available in my office.

THRIPS: Heavy infestation of thrips on young cotton may delay plant maturity for a few days to a few weeks. Thrips normally cause heaviest damage from the time of plant emergence until early squaring. Serious damage may continue for longer periods. The first sign of thrips damage on newly emerged cotton is wilted, wrinkled blackened leaves and terminal growth. The number of thrips and time of occurrence varies from season to season.

FLEAHOPPERS: Fleahoppers usually begin damaging cotton as soon as fruiting starts and continue throughout the season. Control measures should be based on infestation counts and the apparent loss of small, terminal forms as cotton fruiting progresses. The first forms should be protected to allow the cotton to produce early fruit.

Fleahoppers damage only the small squares and do not cause the shedding of the larger squares or bolls. After plants have set more fruit than the cotton is capable of maturing, under a given set of growing conditions, it is not advisable to continue fleahopper control

Wheat selling @ \$2.00 per bu.	\$34.12	\$50.81	\$69.71

because additional forms ordinarily will be shed by the cotton plant. Protection of small forms later in the season, which do not have enough time to mature before frost, is a waste of insecticide. The above conditions vary, depending on the age of the plant, time of first freeze and factors which determine the potential yield.

CUTWORMS and certain armyworms--
A. Toxaphene-DDT (4 lb.-2 lb.) --1 1/3 to 2 qt.
B. Toxaphene (6 lb.)--1 1/3 to 2 qt.
C. Endrin (1.6 lb.)--1 1/2 to 2 qt.
D. DDT (2 lb.)--1 1/2 to 1 gal.

Examine seedling cotton for presence of these pests. Apply treatment as needed.

DARKLING BEETLES--Dusts are effective, but sprays are considered more practical and economical under early season conditions.

A. Heptachlor (2 lb.) 1 qt.
B. Dieldrin (1.5 lb.) 1 qt.
C. Strobane-DDT (4 lb.-2 lb.) --1 1/2 pt. to 1 1/2 qt.
D. Sevin (80% W.P.) .7 to 1.3

lb.
E. Toxaphene-DDT (4 lb.-2 lb.) --1 1/2 pt. to 1 1/2 qt.
F. Heptachlor (2 lb.) plus DDT (2 lb.)--1 to 1 1/2 pt. plus 1 qt.
G. Endrin (1.6 lb.) plus DDT (2 lb.)--1 to 1 1/2 pt. plus 1 qt.

THRIPS--Begin control measures as soon as damage is apparent on seedling plants. Damage is characterized by wilted, deformed and blackened leaves. Silencing of the lower leaf surface also is common. Apply sprays at 7-day intervals. If difficulty is encountered in controlling thrips, substitute methyl parathion (0.25 lb.) 1 pt. per acre for DDT.

Fleahoppers--After cotton is old enough to produce squares, examine the main stem terminal buds (about 3-4 in. of top of plant) of 100 cotton plants at

several representative points in the field. As cotton reaches the fruiting stage, apply control measures when 15-20 fleahoppers are found per 100 terminals. As plants increase in size and fruit load, larger populations may be tolerated without serious damage. Later treatments should be based both on numbers of fleahoppers and on damage as indicated by excessive loss of small squares. Apply sprays at 7-day intervals.

COTTON APHIDS--Dusts are effective, but sprays are considered more practical and economical under early season conditions.
A. Malathion (5 lb.) 1 to 1 1/2 pt.
B. Methyl parathion (2 lb.)--1 to 1 1/2 pt.
C. Parathion (2 lb.)--1 to 1 1/2 pt.
D. Demeton (2 lb.)--1/2 to 1 pt.

FARM BUREAU

BY RAYMOND EULER

Texas Farm Bureau, early in May, exerted particular effort to get letters from interested people to Washington urging early initiation of hearings on the extension of Sugar legislation. Hearings began Tuesday, May 15, and Farm Bureau was to testify on Thursday, May 17. It appears that some improvement in the outlook for domestic producers will result.

At the same time, Farm Bureau was exercising maximum effort to prevent the Administration Farm Bill from being passed out of the House Agriculture Committee. This effort was unsuccessful. The bill being passed out by a vote of 18 to 17. Both Texas Congressmen voted for its passage.

Other people in other lines of business, who see this bill as the beginning of the end of our competitive free enterprise system should also be writing letters to their congressman. Political pressure that is being applied in the effort to get this legislation passed will be whipped only by a strong expression of opposition from American citizens.

Even though some of the worst features were eliminated from both the House and Senate bills, there are so many objectionable features that the only real solution is the elimination of

the bills themselves. One original provision of the bill would have empowered the Executive Branch of the government to turn surplus United States agricultural commodities over to the United Nations for distribution.

Apparently even the most liberal committeemen could not stomach this feature. All commodities distributed under this system would lose their identity of having been produced in the United States, as well as depriving the United States of the privilege of saying who was to get them.

Appreciation is due Lloyd Killough and his crews of the Texas Highway Department for their prompt attack on bindweed on right of ways this season. We hope very farmer will attack each bindweed plant he discovers on his land or adjoining right of ways. County Commissioners have allocated money to furnish the sterilant if you will use it on right of ways.

We have stakes provided from

the ASC office for marking bindweed plots if you need them. They're real handy.

New members continue to come in. You will be welcomed, as a new member. **CONSIDER THIS:** A high look, and a proud heart, and the plowing of the wicked is sin. Proverbs 21:4

From Newsweek: "... government advisers now expect the first quarter GNP to fall well below \$550 billion, several billion behind "schedule." And this meant, officials admitted, that the chances of a \$570 billion GNP for the whole year were now small indeed. It would take a huge spurt with a fourth-quarter rate of some \$590 billion, to attain that level. One government economist said flatly: "We'll do well to hit \$560 billion." Such a \$10 billion plunge below forecasts would cost the Treasury between \$2 billion and \$3 billion in tax revenues and would end all hope of a budget balance."
