## WHITTLIN'

BY DOLPH MOTEN

Time for Bovina Businesses Third Annual Football Contest is just a little over 30 days away.

Sponsors for the contest, which has created a lot of interest in this sports-minded community, are now being contacted.

If everything goes well, by that we mean that if enough businesses are interested in sponsoring it, it'll get underway first week in September. And we feel sure it will have sufficient support.

Opening rounds of football games will be played September 7. And as we said earlier, that isn't far off.

Neil Smith, who won the overall contest and an expense-paid trip for two to Cotton Bowl in '60, and Erith Hawkins, who won in '61, are expected to be trying to repeat as winners and the host of other regular participants will be trying for their first overall win.

We've considered barring a previous winner from winning the second time. We get so much protest and reasoning to the contrary from Smith and Hawkins when we mention that, however, that we're about to decide against it. Such action will probably be taken, however, when and if we ever do have a double winner.

Smith and Hawkins point out how tremendously against them the odds are for winning the contest again that it hardly seems feasible. Still...

This year, we're worried about one of the contest's most dependable players over past two years. He's never missed a week of either contest during the two-year period. And he doesn't like for us to tell this, but he's never finished in the weekly prize money. Let us hasten to add, though, that he has always been high in the overall standings.

That would be H. N. Turner, who recently moved to a farm near Abilene.

On his last visit here, he was trying to make a special deal to get his paper early each week for his contest in late so that he would have time to participate in the contest. Seems that his copy of the Blade doesn't arrive there before Friday or possibly Saturday. Getting his paper on Saturday could eliminate Turner as a contestant and we don't know if the contest would go on without him or not. We'll have to figure out some way to overcome this handicap. No better than he's done heretofore, his competitors in the contest may not care if he fudges a day or two on getting his entry in.

It's time again to point out that Bovina's weatherman, Willie Williams, is undoubtedly one of the best in the business. Last three weeks he's been predicting rain in one form or another and it's been falling just as he predicts it will.

When he predicts scattered showers, that's what we get. When he calls the shot for a general rain, here it comes.

His weekly weather predictions appear regularly in the Blade. If you're interested in what the weather's going to do in next few days, read it and find out. It's as simple as that.

J. Vernon Stewart, former Blade news editor, now has the same position with the Liberty Vindicator, which is published in the hometown of Governor Price Daniel.

He accepted the position after receiving his journalism degree from Texas Tech earlier in the summer. A picture of Stewart with his wife and baby daughter appeared on page one of the Vindicator recently along with a story telling of his new position.

In this issue of The Blade there appears the full text of three of the Constitutional Amendments to be voted on at the general election, November 6. So that you may be fully informed, we urge that you read each proposed measure in its entirety, and study all of them carefully before you go to polls to cast your vote.

(Continued on page 2)

HIGHWAY 86--The maintainer in background is preparing for curb and gutter installation on Highway 86. Work shifted to Highway 86 Tuesday morning after weekend rains caused Third Street, where work was started last week, to be too wet.

## AFTER LONG DELAY--

# Street Improvement Construction Starts

After a delay of some 60 days, construction started Thursday of last week on street improvements for Bovina.

The improvements include paving curbs and gutters for some 40 blocks here. The delay was caused by various technicalities in paper work of the project.

Pioneer Pavers, Inc. of Lubbock, the firm which submitted the successful bid for the project, moved its equipment to town last week and construction began.

Weekend rain halted the work Monday, but work was going on as scheduled Tuesday.

Some 20 blocks of the improvements will be made on state-maintained streets which include Third Street, Highway 86 and FM Road 1731 from Highway 86 south to city limits. State will provide additional paving on these streets with property owners paying cost of curbs and gutters.

In residential areas, property owners will pay cost of paving as well as curbs and gutters.

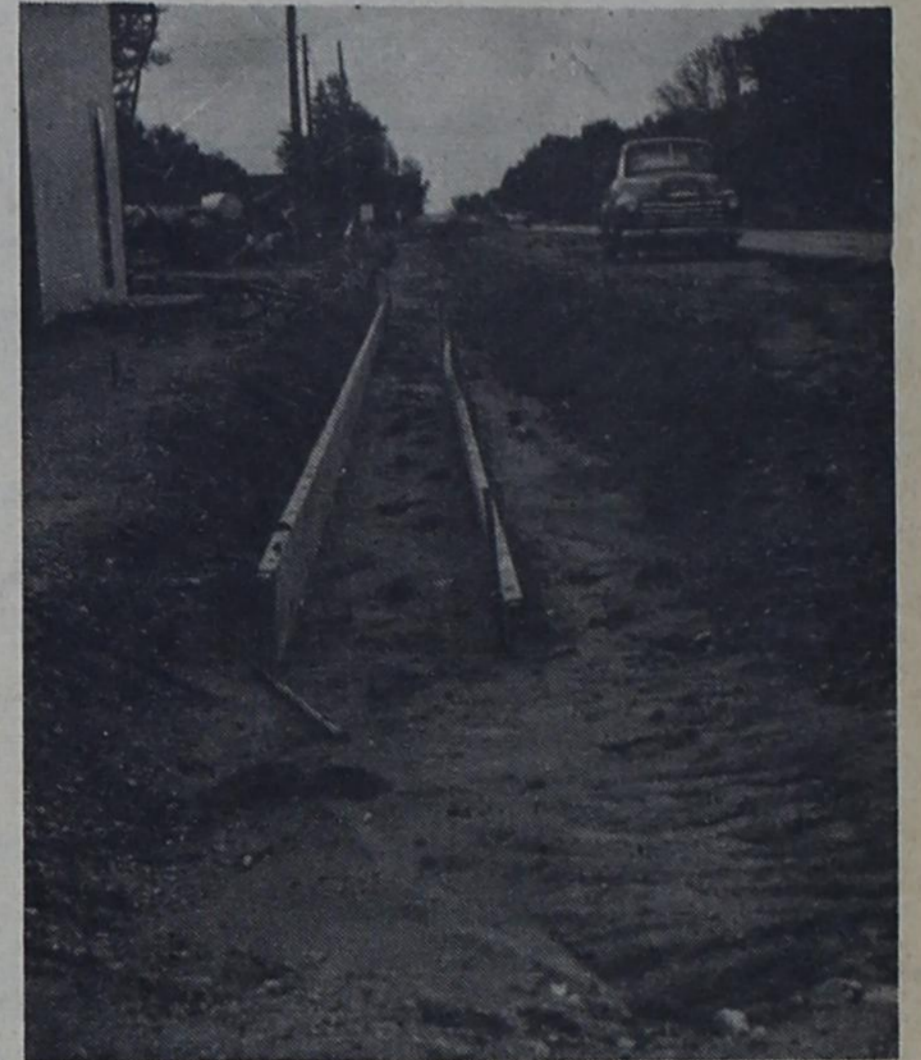

Cost in residential areas to property owners will be \$4.30 per foot. Cost for curbs and gutters only is \$2.

Ralph Douglas, engineer for the project, says that property owners who want more than one driveway into their property should notify city hall. Only standard openings in the curb will be left unless arrangements are made otherwise with the engineer or the contractor.

If property owners notify city hall of their wishes, a representative will call on them to work out details.

Mayor Boyd Gilreath says no estimate of the amount of time needed to complete the project has been made. "It'll go pretty fast now that they've started," he pointed out.

Work started last week on Third Street, near Main. Weekend rains forced the crew to move to Highway 86 this week where the ground was less muddy.

THIRD STREET--Curb and gutter forms were being set by workmen on Third Street last week when weekend rains forced postponement of the work. Pouring of concrete for the curbs and gutters was slated to get underway this week.

## 3 TO 4 INCHES--

# Area Gets Rain

Two good rains, one Saturday afternoon and another Sunday night, brought a good supply of much-needed moisture to the area.

Both of the rains covered the entire Bovina area bringing an estimated three to four inches of moisture.

These were first general rains for the area during this year.

The moisture was accompanied by some hail but it was not enough to be damaging from an overall standpoint. Some farmers received partial crop losses from the hail, however.

## Mrs. Floyd Englant Funeral Thursday

Mrs. Floyd Englant, 46, died Tuesday at 1:30 a. m. at Clovis Memorial Hospital. Mrs. Englant had been seriously ill since March.

Funeral services will be conducted Thursday afternoon at 2:30 at First Baptist Church of Bovina.

Survivors include her husband, a son, Floyd Leon, and a daughter, Debra, all of the

home; her parents, Mr. and Mrs. Lee Golaway of Crume, Texas; two sisters, Mrs. Douglas Landrum of Farwell and Mrs. Bill Douglas of Hawaii; four brothers: Charlie Golaway of Summerton, Ariz.; Andrew Golaway of El Cajon, Calif.; Frank Golaway of San Diego, Calif.; and James Golaway of La Mesa, Calif.

Mrs. Englant had re-entered the hospital Sunday. Burial will be in Bovina Cemetery.

## Crawford To Meet

Roy Crawford, vocational agriculture teacher at Bovina High School, will participate in State-wide In-Service Workshop for Teachers of Vocational Agriculture in San Antonio next week.

## Tire Accident Hurts Rogers

W. H. Rogers received lacerations and bruises to his face, hands and arms when a truck tire he was repairing at Bonds Oil Co., where he is employed, "blew up."

The accident happened Thursday morning. Rogers was taken to Parmer County Community Hospital in Friona for treatment. He was confined there overnight for observation and was released Friday.

## Weather by Willie

More scattered showers over the panhandle this week. Look for about 2 1/2 inches rain in August, any more would be too much.

---Willie

## Firemen Attend School

Fire Chief Bill Denney and Henry Minter attended Texas A&M Firemen's Training School last week at College Station.

Classes began on Friday and were completed Saturday. Both of the members of Bovina Volunteer Fire Department took a course in basic fire fighting.

Their expenses to and at the school were paid by the city.

## Man Fined \$75 On DWI Charge

John Fields, 63, of Liberal, Kansas, was fined \$75 and costs in Judge Loyde Brewer's court last week, after being found guilty of driving while intoxicated. Fields was arrested by Parmer officers between Bovina and Farwell.

Leon Karr, 54, of Seymour, was being held this week for Clovis, N. M. officials for questioning concerning a burglary in that city.

## Local Boys Join Air Force

Delbert Hall, son of Mr. and Mrs. Grady Hall; Jackie Turner, son of Mr. and Mrs. F. O. Turner and John Sikes, son of Mr. and Mrs. John Sikes, were inducted into Air Force Monday.

The boys will take their basic training at Lackland Air Force Base in San Antonio.

## FIVE TEAMS ENTERED--

# Bovina Wins Trophy Shoot

Bovina's team No. 1 captured top honors in a team trophy shoot at trap shooting range

★ ★ ★

TOP TEAM--This quintet of shotgun marksmen, shown with team mascot, Rush Looney, won first place in a team trophy shoot Sunday afternoon at trap shooting range here. Team members are, from left to right, Glenden Sudderth, Sonny Roach, Sam Sudderth, R. L. Hopingardner and Art Mast. Sam Sudderth was high individual in the shoot with 49 hits out of 50 shots.

here Sunday afternoon. The Bovina group bested four other teams of five shooters each with a score of 227 out of a possible 250.

In winning, the Bovina team edged Friona, which finished second with a score of 224.

Edmonson was third with 215. Farwell came in fourth with a score of 187 and Bovina Team No. 2 was fifth with a 173 mark.

Sam Sudderth was high individual for the shoot with a score of 49 of 50. Other members of first place team were Sonny Roach, Glenden Sudderth, R. L. Hopingardner and Art Mast.

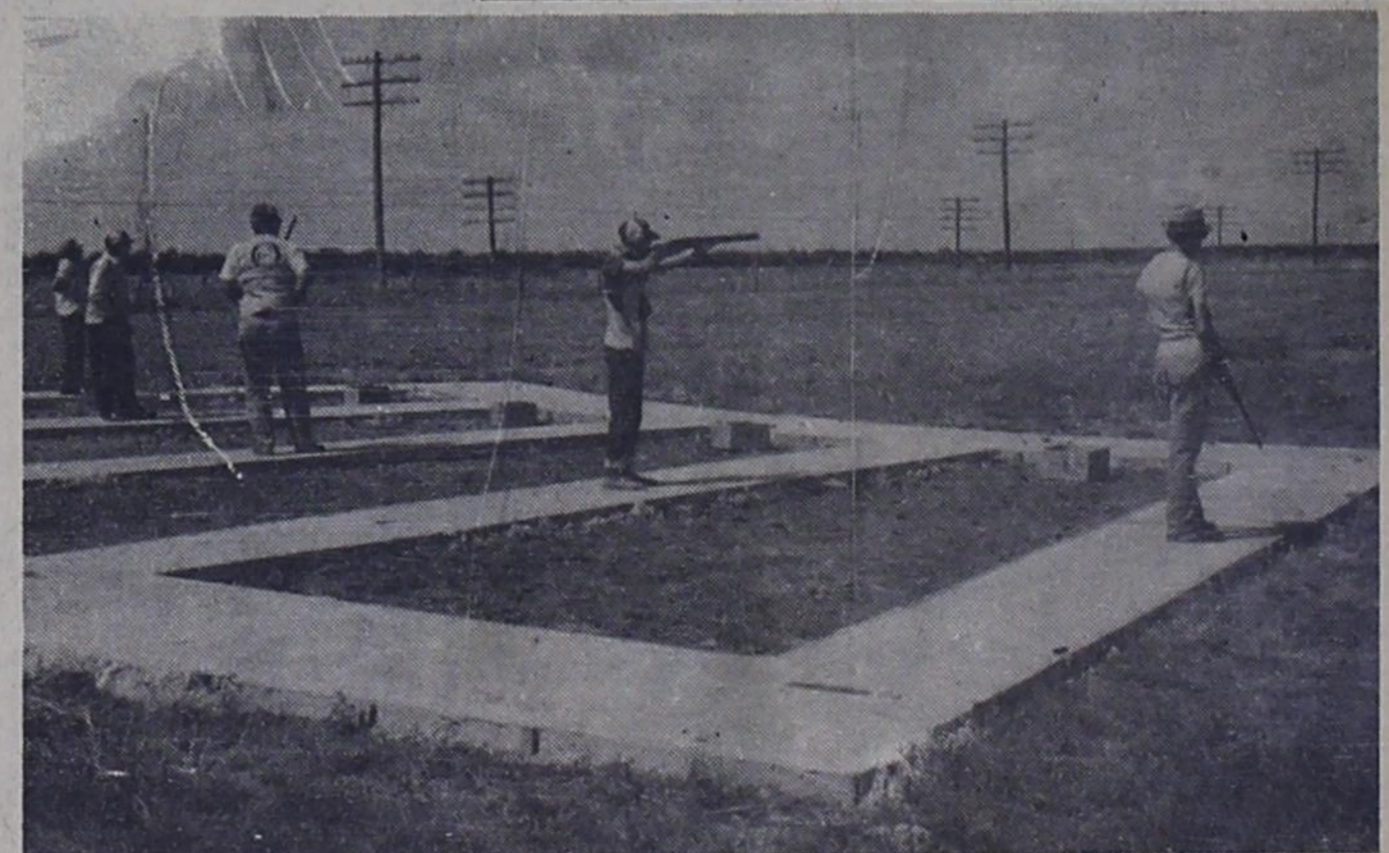

Making up Bovina's second team were Howard Looney, Mark Charles, George Douglas, Jerry Roach and Jimmy Charles.

Ed Hurto of Bovina shot with the fourth place Farwell team. The shoot was sponsored by Bovina Gun Club.

Trophies were presented to each member of the winning

team. Sudderth was also awarded a trophy for being high individual in the shoot.

★ ★ ★

TEAM NO. 2--Shown in action is Bovina's second team which was entered in team trophy shoot here Sunday afternoon. Members of the team are, left to right, Jimmy Charles, George Douglas, Howard Looney, Jerry Roach and Mark Charles. Concrete walks installed at the range last week are also visible.

# Need \$600 To Pay Off Ballfield Note

A final drive for contributions to pay off indebtedness on lighted baseball field here is underway.

Directors of Bovina Lions Club decided to conduct the drive at a called meeting Monday afternoon.

Some \$600 is still owed on a note for the ballpark at First National Bank of Bovina. The note had been paid down to that amount from its original total of \$1950.

Attempts will be made to contact interested businesses and individuals who have not made donations to the community-owned athletic facility so they may have an opportunity to do so.

The ballfield was constructed on school-owned land in August of last year. Total cost for fence, backstop and lighting was in excess of \$5000. Some \$3000 of that total was contributed prior to the beginning of construction. Balance needed was borrowed from First National

at three per cent interest. The note is due today, August 1, 1962, and backers of the ballpark are attempting to get it paid as quickly as possible.

The note was paid down to its present near-\$600 total by profits from a softball tournament in the spring, donations made by fans at Little League all-star game July 4, and profits from concession stand during the season.

Concession stand profits are expected to be at least \$600. Mrs. J. W. Harris, who has been in charge of the stand during the season, estimates.

Donations will be accepted at remaining games at the field this season. These include some make-up games in boys baseball league and possibly some softball games.

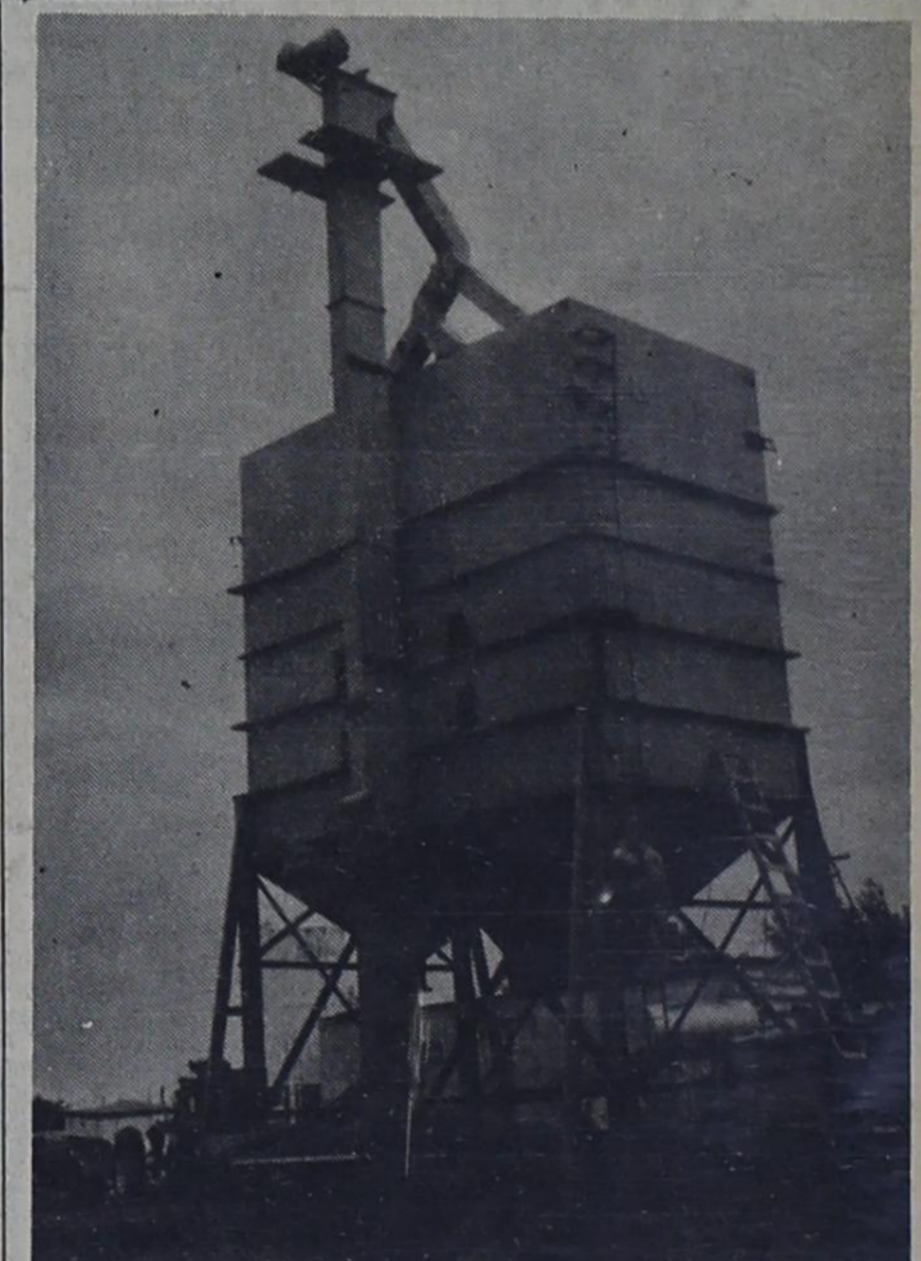

Warren Embree, bank president, told Lions directors at the Monday session, that the note could be renewed for another year. Interest on the unpaid balance for the next year

will be six per cent.

Individuals wishing to make donations should see Embree at the bank or Dean McCallum at McCallum Agency. Also, contributions will be accepted at remaining games this season, as previously pointed out.

In other business at Lions directors meeting, plans were made to have annual broom sale September 14 or September 7.

Date for the sale will be advertised when it becomes official.

SKYLINE ADDITION--Latest addition to Bovina "skyline" is this storage bin for dry fertilizers at Bovina Farm Chemical on Third Street. The facility, nearing completion early this week, dumps, elevates and stores fertilizer, according to Troy Fuller, BFC owner. This set-up will eliminate the use of sacks in handling dry fertilizer and will allow it to be handled in bulk form.

SOFTBALL LEAGUE--

OLFS, Dairy Freeze In Tie For Second

Bovina Wheat Growers, with Bovina softball league title clinched, continued its winning way Friday night with a 29-4 romp over Oklahoma Lane Farm Supply.
Freeze, Dairy Freeze whipped Firemen 7-2 in Friday night's first game to earn the second place tie.
The dispute for second place will be decided in this Friday night's action as Dairy Freeze takes on Oklahoma Lane in the second game.

Table with columns: Team, W, L, Pct.
Wheat Growers 8 0 1,000
OL Farm Supply 4 4 .500
Dairy Freeze 4 4 .500
Firemen 0 8 .000

Blade Sawdust by SUE MOTEN

A recent Saturday was again time to make pictures of youngsters and I imagine some households were disrupted in Bovina. Our own was since this year we had two to keep clean instead of one. One thing that always amuses us about making pictures is that invariably candid pictures of children are cuter than posed one but when the photographer comes to town all of us mothers spend hours cleaning up the little ragamuffins, making them look quite unnatural and angelic when in reality if let alone with just play clothes and innocent if somewhat smudgy faces they would look much more like the little ones we are used to.

Hear via the grapevine that the Vernon Willards and Jimmy Ware built a houseboat. Think this would be unique and a lot of fun. Have never even seen one but feel sure that some of the Tom Sawyer lore would come to life if one could only have a houseboat on a river, only in this instance am sure it would have to be one of the nearby lakes. Perhaps if we hint loud enough they will ask us out to view the product.

Was talking to someone the other day about grandparents keeping grandchildren and this wise person mentioned a fact long forgotten but which was quite worthwhile. Used to, when parents took their kids to Granny's they didn't leave a list of instructions a mile long about what to do and how often to make them take naps, what time to go to bed and how often they should be spanked. Can remember staying with my grandparents and having a wonderful time without any of these restrictions and I don't remember getting any more spankings when I got home than before. It seems the modern trend is to accuse grandparents of spoiling to extremes and not giving them credit for having enough horse sense to take care of the little ones. This same person said grandparents don't get a chance to enjoy the children for fear of breaking one of the rules. Isn't it a shame that this generation is so molded by rules and psychology books that people can't enjoy their grandchildren. We should really just be real grateful that they want to take the children for a time and let them spoil and have fun with them. Also think it is good for the children to have fond memories of grandparents than to remember them as that tyrant who made me mind on vacation.

Mrs. Gaines Has Widow's Club

Highlighting the program Thursday at Widow's Club was a report given by Mrs. J. R. Caldwell of her trip to Worlds Fair at Seattle. Luncheon guests for the covered dish luncheon were Mr. and Mrs. S. A. Barbee and girls, Sheila and Rhonda. Hosting the meeting was Mrs. J. Sam Gaines, Assisting her was Mrs. Lady Armstrong. Attending were Miss Loula Smith, Mrs. Mel Gunn, Mrs. Pearl Hastings, Mrs. J. R. Caldwell and her sister, Mrs. J. A. Siddens of Seymour, Mrs. Minnie McCutchan, Mrs. Margaret Caldwell, Miss Rita Cald-

Locals

Visiting in the home of Mr. and Mrs. R. N. Willford Sunday were his nephew and family, Mr. and Mrs. Afton Willford of Lubbock, Luncheon guests were Mrs. P. A. Adams and Martha. Mr. and Mrs. Travis Lloyd are visiting her mother in Childress.

Farmers Invited To Meeting Friday

All irrigation farmers and landowners in the area are urged to attend a special meeting Friday night, August 3 at the Hub Community Center, beginning at 8 p.m. The farmers are to hear a report from a committee which met July 24 with representatives of the High Plains Underground Water Conservation District. "It is very important for all irrigation farmers and landowners to be there," said T. I. Burleson, who was named chairman of the committee. Burleson said that the committee will report on its talk with Tom McFarland, manager of the High Plains Underground Water Conservation District, and would tell the farmers what the District expects of them in regard to controlling their "tailwater". Other members of the five-man committee in addition to

Burleson are Guy Latta, Lester Cole, Eugene Ellis and Kenyth Cass. "We had a very good meeting with the Water District representatives. We received a lot of information which we need to pass along to the farmers," said Burleson.

Party Fetes Mrs. Stone

Mrs. Don Stone was honored with a surprise birthday party Wednesday evening following church services at Church of Christ parsonage. The refreshment table was laid with a pink cloth and centered with an arrangement of daisies in a crystal bowl. Birthday cake, coffee and punch were served to guests. Approximately 50 guests attended the celebration.

IN BOYS BASEBALL--

Make-Up Tilts Set This Week

In battle for championship of boys baseball league, Bovina Implement climbed back on top last week as only two games were played due to schedule postponements because of rain and other conflicts. Bovina Implement took the top spot from Oklahoma Lane Farm Supply Thursday night as they clipped Lions of Texico-Farwell, 9-4. Friday night, in a make-up of a game postponed from Thursday night Red Tops gave Bovina Implement an assist as they upset Oklahoma Lane Farm Supply, which has been on or near the top all summer, 5-4. With one game remaining on its schedule, OLFS has a record of 10-4. With two games remaining, Bovina Implement stands 10-3.

The league championship rides on the remaining games, but Bovina Implement has the inside track because it can take the championship outright by winning its remaining games. Make-up games are slated to be played Thursday and Saturday nights and Friday afternoon. It is hoped that the league can be completed by Saturday night, mainly to be played, here's way teams stand:

Table with columns: Team, W, L, Pct.
Bov. Imp. 10 3 .761
OLFS 10 4 .714
Charles Oil 6 7 .461
Lions 6 8 .428
PCFS 5 7 .416
Red Tops 3 11 .244

Whittin --

A brief digest of the 14 proposed Amendments follows: NUMBER ONE ON THE BALLOT (HJR 25) -- Provides Workmen's Compensation Insurance for the employees of all political subdivisions. NUMBER TWO ON THE BALLOT (SJR 9) -- Raises the limit on use of state funds to assist needy aged, needy blind and needy children from Forty-seven Million Dollars (\$47,000,000) to Fifty-two Million Dollars (\$52,000,000). NUMBER THREE ON THE BALLOT (SJR 22) -- Permits creation of hospital districts in Ochiltree, Castro, Hansford and Hopkins Counties. NUMBER FOUR ON THE BALLOT (HJR 46) -- Provides for a State program of acquiring conservation storage facilities in reservoirs. NUMBER FIVE ON THE BALLOT (HJR 51) -- Creates hospital districts and limits their power. NUMBER SIX ON THE BALLOT (HJR 36) -- Authorizes retirement, disability, and death benefits for elected and appointive officers and employees of counties and political subdivisions who have served in such capacity for twelve (12) years or more. NUMBER SEVEN ON THE BALLOT (SJR 13) -- Insures continuity of state and local governmental operations in periods of emergency, resulting from disasters caused by enemy attack, by providing for the prompt and temporary succession to the powers and duties of public office, except members of the Legislature. NUMBER EIGHT ON THE BALLOT (SJR 7) -- Establishes a ceiling of Two Million, Five Hundred Thousand Dollars (\$2,500,000) per year on the amount that may be paid out of state funds for assistance payments to the totally and permanently disabled. NUMBER NINE ON THE BALLOT (HJR 70) -- Authorizes the construction, equipping, maintenance and financing of a home for the aged in Titus County and permits the Legislature to authorize the creation of two (2) hospital districts in Brazoria County. SAVE MONEY TWO WAYS WITH PHILGAS \* Philgas, the modern tractor fuel, gives you added power while cutting your operating costs -- actually saves you dollars and cents two ways: Philgas costs less than other tractor fuels. It gives you added power at less cost per gallon. Maintenance costs are less when you use Philgas. You need fewer oil changes. There are no unburned fuel deposits to damage rings, plugs and valves. With Philgas your tractor runs for years before overhaul is needed. Thousands of farmers are saving money by using Philgas as a tractor fuel. We would appreciate the opportunity of showing you the convincing facts of how Philgas can save you money.

Rev. Tidenberg Will Conduct Sunday Services

Rev. James G. Tidenberg, former resident of Bovina, will conduct services at First Baptist Church Sunday morning and evening. Rev. and Mrs. Tidenberg were recently appointed missionaries to East Africa by Southern Baptist Foreign Mission Board. At present he is pastor of Bethesda Baptist Church at Burleson. Tidenberg began his first pastorate while still in high school here and continued to pastor churches during his college and theological seminary years. He is the son of Mr. and Mrs. Hilary Tidenberg of Clovis. Mrs. Tidenberg is the former Parlee Nelson of Brownfield. He is a graduate of Bovina High School and Hardin-Simmons University at Abilene and received his divinity degree from Southwestern Theological Seminary at Fort Worth. She also is a graduate of Hardin-Simmons and attended Texas Tech. They have three children, a daughter, Pal, and twin sons, Jim and Tim. Following services a reception will honor them in Fellowship Hall of Church, Friends of couple are cordially invited.

TV SERVICE The TV Pleasure is all yours . . . if the servicing is all ours! To get the most pleasure out of television, standardize on our expert technicians for all servicing and repairs. We'll keep your set at peak performance always. All work guaranteed. Superior ELECTRIC CO. Bovina Pho. 238-2751

Boost Wheat Yields With Monsanto Anhydrous Ammonia from Parmer County Farm Supply Bovina -Pho.238-2621

Monsanto Monsanto Anhydrous Ammonia packs more nitrogen per pound and per dollar than any other type of fertilizer. It's guaranteed 82.2% nitrogen. It resists leaching. . . remains locked in the soil, ready to work when your small grain needs it most. Monsanto Anhydrous Ammonia is easy to apply. No bags to tear, tip or tote. You can put down all you need for the entire growing season, or use it as a starter--to be followed by a side-dress application. Let us build your program around Monsanto Anhydrous Ammonia.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962. SENATE JOINT RESOLUTION NO. 13 proposing an amendment to Article III of the Constitution of the State of Texas by adding a new Section 2 to be known as Section 62 and which shall empower the Legislature to provide for the temporary succession of public offices so as to insure the continuity of governmental operations in periods of emergency resulting from disasters caused by enemy attack; providing for the proclamation and publication of this proposed amendment by the Governor. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III of the Constitution of the State of Texas is amended by adding thereto a new Section to be known as Section 62 and to read as follows: 'Section 62. In the event of a disaster resulting from an enemy attack which causes the death, disability, or absence of any public officer, the powers and duties of such officer shall be exercised by the Legislature, the incumbents of which may become unavailable. . . . AGAINST the Constitutional Amendment empowering the Legislature to insure continuity of state and local governmental operations in periods of emergency resulting from disasters caused by enemy attack; providing for the prompt and temporary succession to the powers and duties of public office, except members of the Legislature, the incumbents of which may become unavailable. . . . Section 3. The Governor of Texas shall issue the necessary Proclamation for the election and the Amendment shall be published in the manner and for the length of time required by the Constitution and laws of this state.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER NINE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962. HOUSE JOINT RESOLUTION NO. 70 proposing an Amendment to Article IX of the Constitution of the State of Texas by adding thereto a new Section authorizing the creation of two (2) hospital districts in Brazoria County, one to include all or part of the West Columbia, Brazoria and Damon Independent School Districts, and the other coterminous with the Sweeny Independent School District, providing for a possible consolidation of the two, providing a mode of funding and also authorizing construction, equipping, maintaining, and financing of a home for the aged in Titus County. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. Article IX of the Constitution of the State of Texas is amended by adding thereto a new Section to read as follows: 'Section 10(e). The Legislature may authorize the creation of two (2) hospital districts in Brazoria County, one of which shall include all or part of the West Columbia, Brazoria, and Damon Independent School Districts and the other coterminous with the Sweeny Independent School District. The qualified electorate of the hospital districts may, by majority vote of each such hospital district, consolidate the two hospital districts into the Sweeny Hospital District at any time subsequent to the organization of the separate hospital districts. 'Such districts, if created, may be authorized to levy a tax not to exceed twenty-five cents (25c) on the one hundred dollar valuation of taxable property within the districts, provided no tax may be levied until approved by a majority vote of the participating resident, qualified, property taxing voters who may have duly rendered their property for taxation. The maximum rate of tax may be changed at subsequent elections, provided existing obligations are not impaired, but in no event shall any change of rate exceed twenty-five cents (25c) per one hundred dollar valuation. 'The maximum tax rate submitted shall be sufficient to discharge such obligations, liabilities, and responsibilities, and to acquire, construct, maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the acquisition, construction, purchase, repair or renovation of improvements and initially equipping the same and such bonds shall be payable from said twenty-five cent tax. '(b) In addition to all other ad valorem taxes authorized under this Constitution and the laws of the State of Texas, Titus County is hereby authorized and empowered to levy, assess and collect a tax not exceeding twenty-five cents (25c) on the one hundred dollar valuation of taxable property in said County in any one year for the purpose of paying the principal and interest on any bonds issued by said County for the purpose of constructing and equipping a home or homes for the aged in Titus County and for the maintenance and operation expenses thereof, provided said bonds and tax shall have been authorized at an election or elections held for that purpose by a majority of the qualified electors of this County who own taxable property in said County and who have duly rendered the same for taxation, voting at said election. This provision shall be self-enacting and no enabling legislation hereunder shall be required. 'Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this State at the General Election to be held the first Tuesday after the first Monday in November, 1962, at which election all ballots shall have printed thereon: 'FOR the Constitutional Amendment authorizing the construction, equipping, maintaining, and financing of a home for the aged in Titus County and for permitting the Legislature to authorize the creation of two (2) hospital districts in Brazoria County, one of which is to include all or part of the West Columbia, Brazoria and Damon Independent School Districts, and the other coterminous with the Sweeny Independent School District, also providing for a possible consolidation of the two by qualified voters of such districts, and providing for all necessary construction, equipping, maintaining, and financing if authorized. 'Section 3. The Governor shall issue the necessary proclamation for the election and the Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER TWELVE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962. SENATE JOINT RESOLUTION NO. 19 proposing an amendment to Article IX of the Constitution of the State of Texas to add a new Section to be known as Section 1-A which permits the Legislature to delegate certain zoning powers to the governing body of any county bordering on the Gulf of Mexico or the tidewater limits thereof. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article IX of the Constitution of the State of Texas be amended by adding thereto a new Section, immediately following Section 1, to be known as Section 1-A which shall read as follows: 'Section 1-A. The Legislature may authorize the governing body of any county bordering on the Gulf of Mexico or the tidewater limits thereof, to regulate and restrict the speed, parking and level of motor vehicles on beaches available to the public by virtue of public right and the littering of such beaches. 'Nothing in this amendment shall increase the rights of any riparian or littoral landowner with regard to beaches available to the public by virtue of public right or submerged lands. 'Section 2. The Governor of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

# RECORDS

**CONCERT**  
By DELOS SMITH  
United Press International  
NEW YORK (UPI) — It will refresh all Bach fanatics to hear an emotionally un-complicated, almost a naive, approach to the music of their favorite composer. Such an approach belonged to Robert Gerle, violin, and Albert Fuller, harpsichord, in playing the six sonatas for that duo of instruments (Decca-168).

They seem to have nothing in mind except the musicianly task of producing the music as it was conceived by its creator.

To the ears of many who have become accustomed to a more aggressive and a more personalized projection of Bach, this kind of playing may seem rather pedestrian. No reason why it should. Gerle's violin tone is exquisite; he commands it with virtuoso ease and assurance. Fuller's harpsichord playing is impeccably correct.

From dusty archives have been taken three of Handel's cantatas in the Italian style he knew so well and handled so brilliantly, for performance by a chamber orchestra directed (from the harpsichord) by Raymond Leppard and by Helen Watts, a contralto of vocal richness and much emotional savvy for 18th century emotions (L'Oiseau-Lyre-60046).

These cantatas represent the very best of Handel when he was a Saxon youth getting Italianized musically in Italy. They're fragmentary but they're verveful and generally provocative, which make them delightful.

One of the most telling Handel interpreters of our day, George Szell, has recorded the two Handel works most familiar to present-day audiences — the modern suites made from "The Water Music" and "The Royal Fireworks" Music. He conducted the London Symphony Orchestra and while he had nothing unusual to add to the interpreting he interpreted with utmost effectiveness (London-6236).

For pleasant listening you're referred to the four horn concertos of Mozart played by Alan Civil, a hornist of both skill and style, and the Philharmonic Orchestra with Otto Klemperer conducting. There's nothing profound about this music but it is engaging (Angel-35689).

**POPULAR**  
By WILLIAM D. LAFFLER  
United Press International  
NEW YORK (UPI) — When jazz fans talk about trombonists they inevitably get to Kid Ory or George Brunis. Sentimentalists consider Ory as a sort of a Sir Winston Churchill of jazz. Brunis is, like Kid Ory, a great tall-tale trombone player and many consider him the finest of the white sidemen of jazz.

"King of the Tailgate Trombone" by George Brunis (Commodore FL 30.015) should be in every jazz collector's library. This superb LP contains some of the sides Brunis made in the 1940's with Pee Wee Russell, Eddie Condon, Edmond Hall, Max Kaminsky and Wild Bill Davison.

Brunis, in the midst of such a formidable group, had to establish himself. And those who hear this record will feel that he did.

Another great old timer's work may be heard on "Ted Weems' Golden Hits" (Mercury SR 60708). Weems, one of the best of the famed big band leaders, has played back in stereo most of the numbers he popularized, such as "Oh, Moma," "Somebody Stole My Gal" and "You're the Cream in My Coffee." "Nola" is conspicuously missing and so is the undisputed king of the whistlers, Elmo Tanner. But Allen Reynolds, the whistler on "Heartaches" and three other numbers, has his own style and many of Weems' fans won't feel slighted. The arrangements, orchestral work and sound reproduction are excellent.

Movie sound-track addicts probably will flip over "My Geisha" (RCA Victor LSO-1070). The musical score was written for this Steve Parker production by Franz Waxman, who got some help from Puccini in the "Butterfly" sequences. This is one of the best movie sound-tracks.

Selected Singles—"The Twist to End All Twists" by Robby Lawrence (M-G-M K13081), "Caravan of Lonely Men" by Johnny Hallyday (Phillips 40043), "Porgy" by Dakota Staton (Capitol 4790), "I'll Come Running Back to You" by Roy Hamilton (Epic 5-9520), "The Girl That I Love" by Dino Matthews (Dot 16365).

# Of Interest To THE WOMEN

MRS. ALLEN HOMER ESTLACK JR.

## Miss Hartzog, Allen Estlack Exchange Nuptial Vows

Miss Helen Arline Hartzog became the bride of Allen Homer Estlack Jr., in a double ring ceremony Saturday afternoon at Bovina Methodist

Church. Rev. Harold Morris, pastor, officiated. Parents of the couple are Mr. and Mrs. A. L. Hartzog of Bovina and Mr. and Mrs. Allen

Homer Estlack of Clarendon.

Given in marriage by her father, the bride wore a gown of white silk organza over cloud mist taffeta. The fitted bodice featured a scalloped scoop neckline of Alencon lace accented

by butterfly sequins and seed pearls. The bouffant skirt was enhanced with a front panel outlined by applique lace and sequins and flowed into a chapel train. A single strand of pearls, given her by the groom as a wedding present, complemented the brides ensemble.

Her fingertip veil of silk illusion fell from a Juliet cap of lace highlighted by seed pearls. She carried a cascade arrangement of stephanotis centered by a white orchid atop a white Bible.

Miss Dixi Hartzog, sister of the bride, was maid of honor and bridesmatrons were Mrs. Doyce Graham Jr., Lubbock, and Mrs. Jerry Allen, Clarendon, sister of the groom.

They wore identical dresses of pink silk organza over slipper satin with fitted bodices which were accented by scalloped necklines and brief sleeves. Each added a headpiece of tulle caught to a single rose.

The attendants carried bouquets of pink roses on white lace fans.

Best man was Lt. Don Pitts of Clarendon. Groomsmen were Jerry Allen, Clarendon and

## New Arrivals In Howard Family

Mr. and Mrs. Ronnie Howard are the parents of a baby boy born Monday, July 16 at Parmer County Community Hospital in Friona. The new arrival weighed 9 pounds 5 ounces and is named Ronald Chris.

Four days later, Friday, July 20 at Parmer County Community Hospital in Friona a baby girl was born to his brother and wife, Mr. and Mrs. Jim Howard. Trenda Jean weighed 7 pounds 15 ounces at birth.

Mr. and Mrs. Ronnie Howard also have two daughters and

Trenda Jean is the Jim Howards' first child.

Paternal grandparents are Mr. and Mrs. E. G. Howard. Maternal grandparents of Trenda are Mr. and Mrs. M. C. Bresendine of Springfield, Colo. and maternal grandparents of Ronald are Mr. and Mrs. Clifford Bunton of Petersburg.

## Denney Family Has Reunion

Carrizozo, N. M. was scene of a family reunion for members of Denney family recently.

Attending from Bovina were Mr. and Mrs. Jack Woltmon, Mr. and Mrs. Vernon Ward, Mr. and Mrs. H. R. Denney and family. Others present were Mr. and Mrs. Sonny Spurlin, Mr. and Mrs. J. C. Denney of Truth or Consequences, N. M., Mr. and Mrs. Burnet Denney from California and Mr. and Mrs. Homer Martin of Amarillo.

Tommy Lane of Amarillo, Ushers were Doyce Graham and Bob Bell of Clarendon. They also lighted candles. Ring bearer was Roy Hartzog, brother of the bride.

Traditional wedding selections were played by Mrs. John Wilson. She also accompanied soloist, Mrs. Jerry Strawn, sister of the bride.

A reception followed in Fellowship Hall of the church. For travel to points in New Mexico and Colorado, the bride chose a beige silk suit with matching accessories. She added the white orchid from her bridal bouquet.

The bride is a graduate of Bovina High School and Texas Tech and presently teaches in Clarendon School System. He is a graduate of Clarendon High School and Texas Tech and is employed by West Texas Utilities Company in Clarendon.

The couple will be at home in Clarendon.

Out of town guests at the wedding included Mr. and Mrs. Lee Bell, Sam Lowry, Clyde Price, Mr. and Mrs. C. A. Pitts, Mr. and Mrs. G. W. Estlack all of Clarendon, Mr. and Mrs. David Patterson, Hereford; Mr. and Mrs. Louis Peeler, Meadow; Mrs. and Mrs. John Underwood and Janice of Willow, Okla.; Mrs. S. A. Hodges, Jr., Greg and Brent, and Mr. and Mrs. John Irbeck of Happy; Mrs. Edward J. Watson of Lafayette, Ind.; Mr. and Mrs. Harry Morckel, Floydada; Mr. and Mrs. Jerry Hawkins, Ann, Bill and Bob of Groom and Tom DeLoch of Lubbock.

## Hammonds Home From Vacation

Mr. and Mrs. J. T. Hammonds returned Sunday evening following a vacation to points of interest in California, Worlds Fair, Yellowstone, Grand Coulee Dam, Redwood Forest and Victoria, Canada.

## Shower Honors Helen Hartzog

An afternoon shower in the home of Mrs. Norvell Strawn honored bride-elect, Helen Hartzog, recently.

Greeting guests in receiving line were the honoree, her mother, Mrs. A. L. Hartzog, and the groom's mother, Mrs. Homer Estlack of Clarendon.

Presiding at the guest registry were Misses Judy and Vicki Strawn.

The refreshment table was laid with a white linen cloth and centered with a floral arrangement of pink and white flowers in a crystal container. Silver and crystal appointment completed the table. Refreshments of punch, cookies and nuts were served to guests by Mrs. Billy Strawn.

Calling during the afternoon were Mmes. Haskell Sudderth, Billie Sudderth, Lee H. Sudderth, Janie Fila, Jack Clayton, Ronnie Isham, Connie O'Brien, A. E. Steelman, E. M. Ware, G. D. Turner, Earl Stevenson, W. E. Thornton, J. R. Caldwell, A. B. Wilkinson, Vernon Estes, Gene Ezell, W. E. Williams, John Wilson, Roy Dodson, A. L. Glasscock, Bedford Caldwell, E. H. Moody, Jerry Strawn and Charlie, Jerry Allen of Clarendon and Misses Bonnie Cochran, Dixi Hartzog. Hostesses were Mmes. Norvell Strawn, Earl Richards, E. L. Cochran, Lester Rhinehart, Henry Minter and Dean Hastings.

## Burnam Returns From Germany

Billy Burnam, son of Mr. and Mrs. Bill Burnam, returned Wednesday following an 18-month stay in Germany where he was stationed in the Army. He and his wife and son, Ronnie, are visiting his parents and relatives in Bovina.

## Mrs. Englant Hospitalized

Mrs. Floyd Englant is hospitalized at Memorial Hospital in Clovis. She is reported to be in fair condition.

## Shower Fetes Miss Stanberry

Miss Evelyn Stanberry was honored with a bridal shower recently at Pentecostal Holiness Church.

Corsages fashioned of kitchen gadgets were presented the honoree, her mother, Mrs. Alford Stanberry and the grooms mother, Mrs. Dewey Morris of Farwell.

The refreshment table carried out the brides chosen colors of blue and white. It was laid with a white lace cloth over blue and centered with an arrangement of daisies. Refreshments of sherbet punch and cake were served to guests.

Attending were Mrs. G. D. Anderson, Jr., Mrs. J. W. Crim and Dora, Mrs. J. M. Crim, Mrs. Weldon Crim, Mrs. Buford Stanberry, Mrs. Thogle Stanberry, Mrs. Bessie Webb, Miss Mary Joyce Webb, Mrs. Paul Miller, Mrs. Mildred McCutchan, and Mrs. Bill Ross.

Hosting the party were Mrs. John Crim Jr., Mrs. Max Crim and Mrs. John Fielder.

## Mrs. Lawlis Has WMU Program

Mrs. Ovid Lawlis had charge of program for W.M.U., Tuesday morning at First Baptist Church.

"Enlistment for Missions" was title of program.

Attending were Mrs. P. N. Williford, Mrs. E. H. Moody, Mrs. Bill Bradshaw, Mrs. P. A. Adams and Mrs. Lawlis.

## WSCS Has Mission Program

Christmas in July was theme of W.S.C.S. meeting recently at Methodist Church.

Gifts and money were contributed to Methodist Mission School for Indians in Farmington, N. M., after which a film about life on the reservation was shown to the group.

Mrs. John Dixon was in charge of program.

The luncheon menu featured Christmas dishes in connection with program. Hostesses were Mrs. Mable Newberry and Mrs. Harold Morris.

Attending were Mrs. L. M. Grissom, Miss Lola Grissom, Mrs. Vernon Estes, Mrs. John Dixon, Mrs. P. O. Dixon, Mrs. Wilbur Charles, Mrs. George Turner, Mrs. Billie Sudderth, Mrs. Rouel Barron, Mrs. Oakley Stevenson, Mrs. I. W. Quikell, Miss Ellen Reminsnyder, Mrs. Harold Morris and Mrs. Mable Newberry.

## Party Honors Wesley Hall

Wesley Hall, son of Mr. and Mrs. Gene Hall, celebrated his second birthday with a party Friday afternoon at his home. Birthday cake decorated with a clown theme and matching napkins, cloth and cups with white favors graced the table. Refreshments of ice cream, punch and cake were served to youngsters.

Attending were George and Edward Issacs, Jana and Joni Rogers, Mike Read, Monty Cassidy, Roy and Bill Mayhew and the honoree.

Assisting the hostess was the honoree's grandmother, Mrs. W. C. Mayhew.

Air Conditioning experts agree...  
**WATER cooling is BEST!**

Youngsters learn mighty early about the cooling effect of water when the weather's hot. And air conditioning engineers know that water cooling is far more efficient than air cooling. The reason is simple... 85° water can absorb more heat from your home than 100° air.

That's why ARKLA-SERVEL Sun Valley's GAS air conditioners are WATER cooled! Water cooling, plus Sun Valley's "no moving parts" principle, gives you two big advantages unavailable with other air conditioners. One, a Sun Valley gives you **CONSTANT EFFICIENCY**, while air cooled units lose as much as 15% efficiency. Two, Sun Valley operating **COSTS REMAIN CONSTANT**, while air cooled equipment operating costs rise as much as 23%.

**KING-SIZED FILTER**  
Sun Valley's double filtering easily **STOPS ALL HOUSEHOLD ODORS!** It even tames cigar and fish odors, giving your home Spring-like freshness all year long.

**NO MOVING PARTS**  
... In the heating or cooling cycles of the Sun Valley... nothing to wear out or break down! Sun Valley is year-around comfort for the mortgage life of your home!

**CONSTANT EFFICIENCY**  
Sun Valley has no comfort-robbing friction to run up your operating costs. It doesn't cost a penny more to operate the Sun Valley for an hour when it's 115° than it does when the temperature is 90°.

**SUN VALLEY ALL-YEAR AIR CONDITIONER**  
For sales, service or information, just call...

### Something New In Chocolate

Nine of these new chocolate wafers are a nutritionally complete meal of only 225 calories, and can be eaten with water, coffee, tea or other non-caloric beverage.

A chocolate parfait tempting, rich and luscious — is a sophisticated descendant of a delicacy invented by the Aztecs of ancient Mexico. They called their foaming drink "chocolatl," and made it of ground and roasted cacao beans steamed with peppers and spices.

The Spaniards, who knew a good thing when they tasted it, adopted "chocolatl" took it back to Spain, cut down on the peppers and spices and added sugar. This was the first step toward giving chocolate the taste and richness that make it so popular today.

The Spaniards guarded their recipe so jealously it did not reach England until 1657, when a Frenchman opened a "chocolate shop" in London, about a century after the recipe was developed. The British added milk to the Spanish formula in 1700 and chocolate was well on its way to justifying the scientific name given the cacao plant: "theobroma cacao." Greek meaning "food of the gods."

Chocolate is exceptionally nourishing and sustaining, but

it is also rich and it has never been associated with the idea of reducing. A new development, however, makes it possible to use chocolate — the most popular of all flavors — as a means to help lose weight. Chocolate-flavored wafers, an addition to the Metrecal line of products for weight control, give an ancient delicacy an entirely new use.

Nine of the Metrecal chocolate wafers are a nutritionally complete 225-calorie meal. They can be eaten with water, coffee, tea or other non-caloric beverage for one, two, three or four meals daily. Thirty-six of the wafers provide a complete day's diet of 900 calories.

With chocolate for weight loss, it seems that the historically-favored flavor has added a new dimension.

**TV NOTES**

**NEW YORK (UPI)** -- Hugh Downs will take permanent leave of NBC's "Tonight" program on Aug. 17 when he completes a week as guest host of the show for which he has been the announcer since July, 1957. He will assume his new duties as host of the "Today" program on Sept. 10. He will continue his Monday-through-Friday stint as host of NBC's "Concentration."

Popular Shari Lewis of the NBC Saturday program for children has a real life "puppet" now -- a daughter named Mallory, born July 8. She's the wife of publisher Jeremy Tarcher. Shari will continue her show.

The warm characterization of a police detective created by Norman Fell for "87th Precinct" as Meyer Meyer will be missing from the home screens next fall because the show was cancelled. But Fell will be available in the not too distant future in the motion picture "PT 109," based on the war experiences of President Kennedy. That cast, incidentally, is loaded with actors who gained prominence in video--Cliff Robertson, Ty Hardin, Grant Williams, James Gregory and Robert Culp.

The National Education Association has assigned Prof. Lawrence E. Vredevoe of U.C.L.A. as its liaison with the Screen Gems production of its "Turning Point" series to see that stories and production are authentic from the educational standpoint. Mike Connors will star in it as a science teacher who doubles as athletic coach at a large city high school. The pilot film of the program, which is intended for fall 1963, will be shot next month (August).

No one director is going to leave his trademark on the MGM "Sam Benedict" one-hour lawyer series starring Edmond O'Brien, which will start on NBC Sept. 15. Ten directors already have been signed to supervise the various episodes.

Believe Windows Distract Students

**DETROIT (UPI)** -- A new theory on "Why Johnny Can't Read" will be put to the test at Wayne's Hoover School here next fall.

The theory? Grade school children ignore their studies to watch what's going on outside, particularly in the ultra-modern schools where the emphasis on light is embodied in designs which feature wide expanses of windows.

The windows at Hoover School are being replaced by opaque panels this summer. Educators will watch closely to learn whether youngsters learn faster when they can't look outside.

Education Facilities Laboratories, Inc., the Ford Foundation and the University of Michigan are financing the study. Co-ordinator is Prof. C. Theodore Larson of the University of Michigan.

The school's 120 pupils were tested before summer vacation to determine their achievement level. At the end of the next school year, a similar test will determine what effect the nine months without windows has had.

No-drain Macaroni

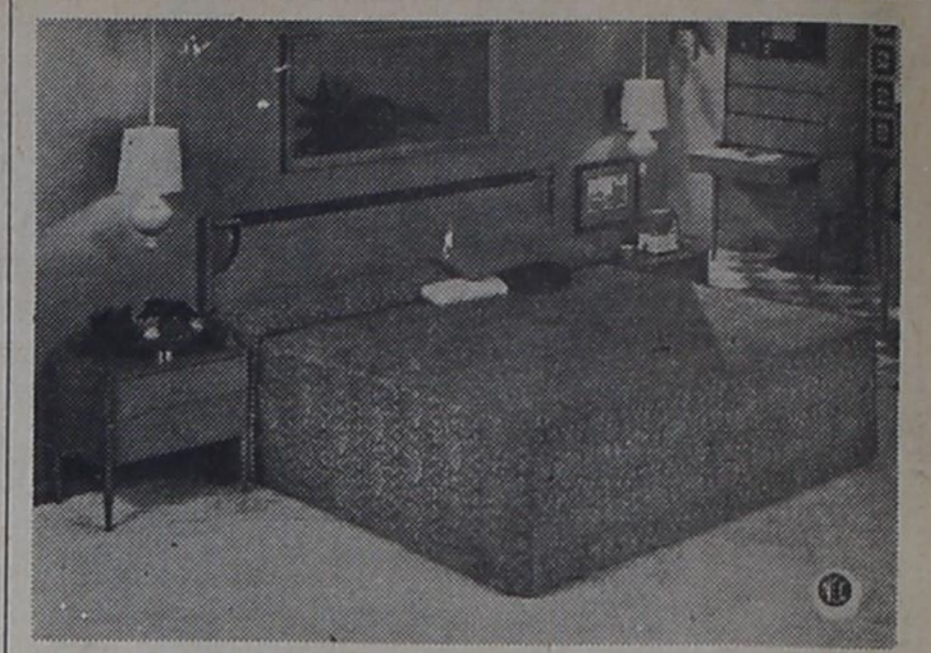

Macaroni can be cooked in its own sauce. Place 2 cups (7 or 8 ounces) of uncooked elbow macaroni in a saucepan with 1/2 cup of safflower oil. Add 1/2 cup each of chopped onion and chopped green pepper, and 1 clove of garlic, crushed. Stir and cook over low heat until macaroni turns slightly yellow. Add 2 1/2 cups of tomato juice, 1 teaspoon of salt, 1/4 teaspoon of pepper and 2 tablespoons of Worcestershire sauce. Bring to boil over high heat. Cover. Reduce heat to low. Cook 20 minutes without stirring.

**Antidote Unknown For Lead Poison**  
URBANA, Ill. (UPI) -- One in three children poisoned by lead dies, statistics show. Doctors agree there is no really effective antidote for lead poisoning. The responsibility for prevention lies with the family.  
O. L. Hogsett, safety specialist for the University of Illinois College of Agriculture, offered this safety advice to parents:  
Never permit a child to chew on painted surfaces or to eat paint flakes from peeling walls and woodwork. If your house or apartment was painted before you occupied it, remove loose or flaking paint and plaster.  
If possible, repaint your house using an interior paint that contains not more than one per cent lead. The label on the container will list the percentage.  
Never use exterior paints on indoor walls, woodwork, toys or furniture. These paints contain as high as 70 per cent lead.

**Cotton Quiz**  
Who is Little Miss Cotton?  
?   
SHE'S THE COTTON INDUSTRY'S AMBASSADOR TO THE 6-10 YEAR-OLD GROUP

**SPACE FOR SLEEPING**--The average person needs 39 inches of mattress width for proper rest, which explains the popularity of the new super-size bedding. Usually made of cotton batting and resilient springs, the mattresses are from 60 to 78 inches wide, at least 80 inches long.  
(Mat No. 9)

It Takes Space to Sleep Well

Did you know you can get an adequate amount of sleep without getting the rest you really need? You can if you don't have sufficient space for sleeping. Two people in a standard double bed have only 27 inches of space, exactly what a baby has in his crib. Ideal for two people are the new super-sized mattresses, which are as much as 78 inches wide and 80 inches long. Most are scientifically made cotton innerspring mattresses, which give the firm, deep-rooted support your body needs for healthful, restful sleep.

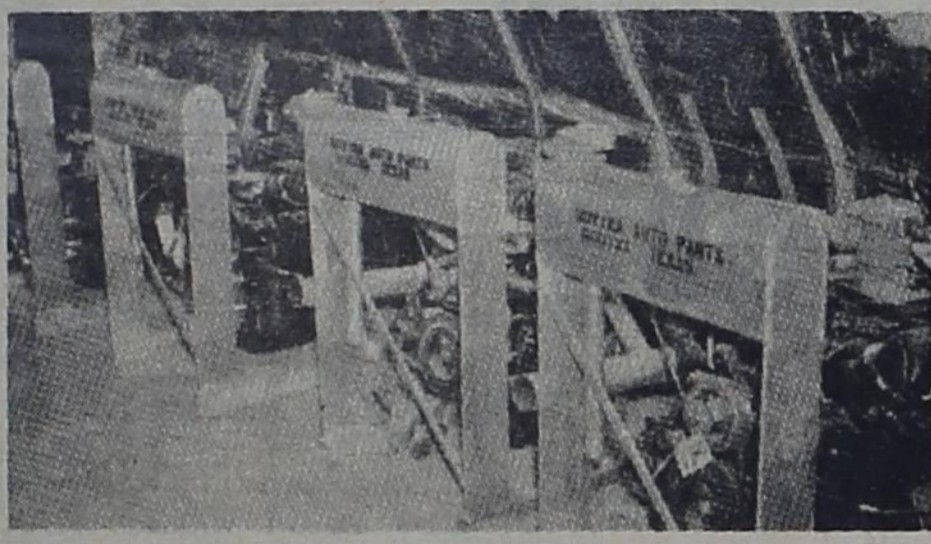

YOU and your DOG

**WHO'S A DIRTY DOG?**  
Dogs may feel as small boys do about being bathed -- reluctant, to say the least! But regular bathing is as essential to the health and well-being of boy's best friend as it is to boy, according to Sergeant's Dog Care Center which has some sound advice to offer on the subject of the dog and his bath.

Periodic bathing should start when the puppy is three months old. A tubbing, every week if necessary, is recommended for the average active dog. But more important than the frequency of the bath is the type of cleanser used in it. The Center warns all dog-lovers that only cleansers created especially for dogs should be used. Ordinary household cleaning agents may contain materials that are irritating to the dog's skin and harsh detergents that can ruin his coat.  
Special dog shampoo or soap add a glossy sheen to the coat and help keep skin soft and healthy. Some cleansers also act as pesticides, killing fleas and lice as well.

Cherry Ice Cubes  
Cherry ice cubes keep fruit drinks and punches from getting that watery taste as ice melts. Four 3 cups of orange juice into 2 ice cube trays. Place one stemmed maraschino cherry in center of each cube compartment and freeze. You'll need about 1 cup of cherries for this much juice.

238-2271 Hwy. 60 Bovina

# Rains Leave Parmer County Farms Well-Soaked

BENEFITTING FROM the rain in Parmer County during the past week were many fields, such as the cotton field above, west of Bovina. Most farmers were ready for warm weather again after heavy falls during the week.

## Some Damaging Hail Reported In Area

Parmer County farmers, for the first time this summer, had "enough" rain this week, with general rains blanketing the entire county during the past week. A few farmers received damaging hail along with the rains last weekend, with estimated loss in some instances approaching the 100 per cent mark. But everyone--it seems--got rain, from as little as one inch in parts of the county, to more than eight inches in other parts. The heaviest fall reported was on the W. F. Gable farm six and one-half miles northeast of Farwell, where eight inches had been measured in the past week as of Monday.

Another area with hail damage was west of Bovina and north of Farwell. Herman Gerles reportedly was the hardest hit in that area. He farms about 13 miles north of Farwell. Others around Farwell reporting hail were Dale McCuan, Lester Norton, Troy Lovett and James Ensor. There was also an area damaged south of the Oklahoma Lane-Lariat area. Some of the larger rain measurements in the Farwell area included 4.90 inches for Ray Tharp, five miles north on the Stateline Road. John Lovelace's farm had five inches of rain through Saturday. The John Hadley farm five miles south and two west of Texico-Farwell measured four inches of rain through Saturday. Melvin Burns, two miles west and one north of Texico reported two inches of rain.

A BATTERED FIELD of cotton on the W. H. Awtrey farm east of Hub showed the damage left by hail in the area from last Saturday's storm. Several farmers in the vicinity reported damage.

## THE HIGH PLAINS FARM AND HOME

### Blackstone Represents County In District Contest

The Parmer County 4-H Dress Revue was held Tuesday evening, July 24 at 8:30 p.m. in the Hub Community Center with approximately 160 friends, parents, and participating girls attending. Katie Blackstone placed first in the senior division of the advanced dresses. She was to represent the county in the District 4-H Dress Revue in Amarillo Wednesday, August 1, at the YWCA. She made and modeled a brown cotton hand-screened print shirtwaist dress with black accessories.

Twenty-eight garments were entered in the judging Tuesday morning at 9 o'clock in the Hub Community Center. After the judging the girls modeled their garments for the public in the evening dress revue. Ribbons were awarded to each of the twenty-eight girls by Miss Ettie Musil, County Home Demonstration Agent, and Miss Celia Patton, Junior Assistant Extension Agent.

Winners in each of the garment divisions are Ann Blackstone, first, and Janie Watkins, alternate, in the elastic gathered skirts division for first year girls. Sharon Martensen was first and Shirley Schuel-

er was alternate in the simple blouse division. In the pleated skirts and blouses division, Karene Milner placed first and Kathryn Gober was alternate. Placing first was Marsha Schumann in the simple dress division. Terri Sue Mabry was the alternate in this division. Judy Koelzer had an alternate-rated advanced dress in the senior division.

Farwell 4-H Club girls were in charge of the punch for refreshments. Each of the other girls brought a dozen cookies that they had made for the refreshments. Judy Billingsley served as narrator. Charlotte Davis played piano during the modeling.

Others participating in the judging and dress revue with high rated garments were: (Elastic Gathered Skirts) -- Vicky Kaltwasser, Patcine Broyles, Tina Rundell, Debbie Burch, Karen King, Sharon Martensen, Linda Gossett, and Kathy

**Pineapple Swizzle**  
Pineapple milk swizzle is easy to make. Just stir 1 1/2 cups of instant nonfat dry milk into 3 cups of ice water. Add 1 (6-ounce) can of frozen pineapple juice concentrate, thawed and undiluted. Beat until foamy. Garnish with pineapple stick stirrers. Serves 4.

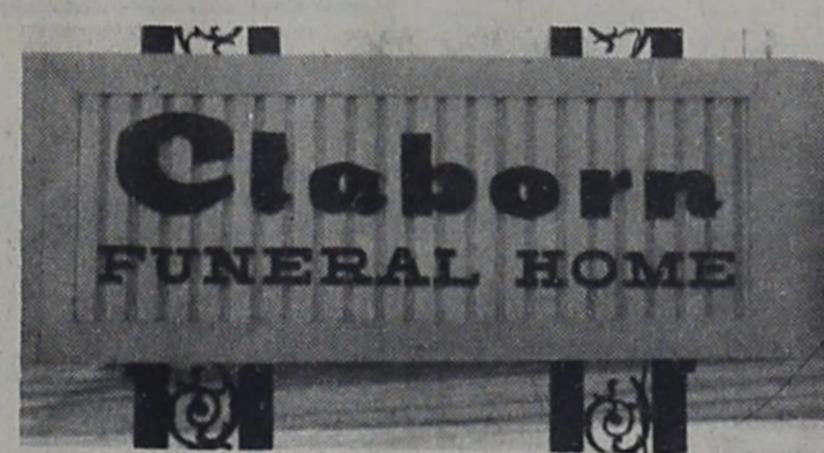

**Blue Cheese Dressing**  
Blue cheese dressing complements sliced or diced fresh cucumbers. Mash 1 cup of blue cheese in about 1/4 cup of olive oil. Blend in 1 tablespoon each of worcestershire sauce and lime juice and 1 teaspoon of tarragon vinegar. Shake well before serving.

Coker. (Simple Blouses) -- Cheryl Ramage and Sheila Vaughan. (Simple Dresses) -- Jill Mims. (Pleated Skirts and Blouses) -- Peggy Lesly, Patricia Tannahill, Sherri Tannahill, Janis Billingsley. (Advanced Dresses) -- Viane Lesly, Mary Coffey, and Reba Lesly.

Gene Ellis, who lives five and a half miles east of Hub and also farms a place two miles east, said his hail damage was relatively light, and he received from two to three inches of moisture on the two places. "It was our first rain to amount to anything this year," he said. Other hail damage was reported in the Lazbuddie area, where Jimmie Seaton and T. L. Gleason were reported as having extensive damage.

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

The new automobile insurance rates, effective August 1st, seems to be much more equitable than anything we have seen in the last two years. In this territory, the premiums for drivers over twenty five with no "merit rating" charges under the old rule will be so little different that it will be hard to notice, and those with charges will be real happy with the reductions affected. Base rates for male drivers under twenty five are a little higher, which is probably justified by the record in most cases.

Many of these that had charges under the old system will find nice reductions in premium. We believe that the elimination of the costly system of recording so much irrelevant information will result in lower rates for everyone in standard classifications within a year or two.

Harry Hamilton, your president is doing well in Deaf Smith County Hospital following surgery. He should be up and around by the time you read this. Mary Ann Stacey, a former PCFB Queen is convalescing following surgery in a Dallas Hospital, we are told. Steve Kaltwasser and Kim Parr are both doing nicely following accidents separated by a month or so. Both of their fathers are former Farm

Bureau Presidents. "Loss of faith in God is our nation's most serious problem. When men lose God, they turn to State. Thus they have to 'destroy' God to make Communism succeed. Unless we Americans are able to change some of our values we will lose freedom of choice with respect to life's values. Our forefathers fought, bled and died to create on this continent the greatest civilization in the history of man, the greatest freedom for the greatest number of people, the most opportunity, the highest standard of living. They bequeathed us the greatest freedom document ever devised by man; the Constitution of the United States."

We believe this quotation from Tom Anderson of Farm & Ranch should command the attention and consideration of every American who considers his responsibility as a citizen of this great country of ours. We are happy to have our office secretary, Nell Davis back from the Annual Farm Bureau Institute in Corpus Christi. She says she had a good time and enjoyed the fellowship of the three hundred or so people who were there.

CONSIDER THIS: There is no wisdom nor understanding nor counsel against the Lord. Proverbs 21:30.

#### Pat's Film Debut

HOLLYWOOD (UPI) — Pat Suzuki, who scored in the New York stage production of "Flower Drum Song" makes her film debut in "Judo", an Allied Artists picture. Frank Blair, New York television actor, has signed for a key role in the film.

## HD Agent's Notes

BY MISS LETTIE MUSIL

Ordinary waxed papers, household aluminum foil and cartons from cottage cheese and ice cream or milk should not be used because they are not moisture - vapor-proof or resistant. Hot water must be used to wash most of the milk bacteria left in empty milk or ice cream cartons. This hot water melts the wax coating, which leaves only the paper of the cartons. Regular paper is not resistant to below zero temperature of the freezer.

Bags and sheets of moisture-vapor-resistant cellophane, heavy aluminum foil, polyethylene, or laminated papers are suitable for dry-packed vegetables, fruits, and meats. The popular polyethylene bags are less costly for the initial cost but should be used only once. Even a tiny pin-point hole that cannot be seen with the eye will cause freezer burn or decrease the quality of the food.

Select fresh, tender vegetables right from the garden for quality food products. Vegetables and fruits that are over-matured are not good for freezing nor canning. During hot weather harvest vegetables in the early morning before they become wilted or absorb much heat from the sun.

It's canning and freezing time! Vegetables, vegetables, everywhere good, fresh vegetables! Many homemakers are taking advantage of this abundant supply by freezing and canning a family supply for the winter and early spring months.

Every year I get many questions about proper freezing of vegetables. You may be among the many who comment each year, "We just couldn't eat the black-eyed peas and beans I froze last summer. I just don't know what happened."

Properly frozen foods slowly change in quality in storage and will not keep indefinitely. Proper handling before freezing, good packaging material used, storage temperature, and quality and kind of food stored are all most important for successful freezing of foods.

Packaging materials should be moisture-vapor-proof to prevent evaporation and to retain the highest quality in frozen foods. Glass jars or soft plastic containers are good for fruit, vegetables, or prepared foods. The initial cost is fairly high, but these containers can be used over and over until a crack or tiny hole ruins its use.

If it is necessary to store vegetables for a short time after harvesting before canning or freezing, spread them out loosely in a cool, well ventilated place, or pack loosely in the refrigerator. The best practice is to freeze or can without delay after the harvesting. Wash the fruits or vegetables thoroughly in cold water, drain and sort; peel, trim and cut as directed for each vegetable.

We have an excellent bulletin

for you free upon your asking. Many good instructions are available for freezing fruits, vegetables, meats, and prepared foods. Call us, write, or come by for a copy. Then follow these instructions to the letter for successful freezing. We also have a bulletin for home canning of fruits and vegetables.

It is most important to heat vegetables before freezing to slow or stop the action of enzymes. Until vegetables are ready to pick, enzymes help them to grow and mature. After that they cause loss of flavor and color. If vegetables are not heated enough, the enzymes continue to be active during frozen storage.

If vegetables are not blanched or heated for the exact time for the vegetable they will develop off-flavors in a few months and may discolor or toughen. Heating also wilts of softens vegetables and makes them easier to pack. Too long a heating period will result in softening of texture and an unnecessary loss of water soluble vitamins and minerals.

Use a large kettle that can be covered. Use a fine-mesh wire basket, blancher, or large, loose cheesecloth bag to hold just enough vegetables for one pint or quart size bag. Too much of the vegetable will cool the water quickly and will not properly heat the vegetables. As soon as the vegetables are lowered into the water, cover with the lid and begin counting the time for the size and kind of vegetable.

Follow exactly the time given for each vegetable. Cool vegetables quickly and thoroughly to stop the cooking. To cool the vegetables, plunge the basket of vegetables immediately into running cold water or a large container of iced water. It takes about as long to cool the food as it does to heat it.

Remove the cooked vegetables and package according to directions on the container. Close the containers immediately and freeze. Put them in the freezer a few packages at a time as they become ready, or keep packages in the refrigerator until all are ready.

Put no more frozen food packages into a freezer than will freeze within 24 hours. Usually this will be about two or three pounds of food per cubic foot of freezer capacity. Overloading slows down rate of freezing, and foods that freeze too slowly may lose quality or spoil.

For quickest freezing, place packages against freezing plates or coils, and leave a little space between packages so air can circulate freely. After fruits, vegetables and meats are frozen, store them at zero degrees F. or below.

If you have any problems in freezing good quality foods, let me know. These free bulletins should be a great help. Before freezing read most of the introductory information for best results.

## OLFS Schedules Bidder's Bonanza

Oklahoma Lane Farm Supply, Case dealer, announced today that they will hold a "Bidder's Bonanza" community auction August 6 through August 11. As the name "Bidder's Bonanza" implies, those attending will have the opportunity to submit sealed bids on both new and used items of all kinds.

All farm and utility tractors and equipment will be on display, and ready for inspection throughout the six-day program. Bids may be submitted at any time from August 6 to noon on August 11. Then on Saturday afternoon, August 11, the sealed bids will be opened and the successful bids announced.

One of the novel features of

Oklahoma Lane Farm Supply's "Bidder's Bonanza" is the fact that those attending may bring their own items of all kinds and put them up for bids as well. Because of space requirements, this is limited to one item per family.

A strong community benefit is contained in the "Bidder's Bonanza" as participants may donate a portion of the proceeds to local clubs, schools or charities. All items up for bid will carry a card indicating terms and conditions, and those eligible for charity will specify the percent to be donated. Customers bringing items for the bidding are invited to name the charity of their choice.

## Census Department Has A Never-Ending Job

Contrary to popular belief, the U. S. Census Bureau does not fold its tents and fade away between the big 10-year population and housing counts, according to Director James W. Stroud of the Bureau's permanent regional field office at Dallas. The Dallas region covers the states of Arkansas, Louisiana, Oklahoma, and Texas.

Mr. Stroud points out that nine major censuses will be conducted between now and the next decennial census in 1970. The first of these major censuses will be the 1962 Census of Governments which is conducted every five years. Then comes the five-year Censuses of Business, Manufactures and Mineral Industries. These will be taken in 1964 and 1969, covering business operations in 1963 and 1968 respectively. The Census of Agriculture will be conducted in 1964 and 1969.

In addition to these major censuses, the Bureau carries out a wide variety of current surveys on a monthly, quarterly, and annual basis. Topics covered in the current surveys include employment and unem-

ployment, population characteristics, health, housing, retail and wholesale trade, manufacturing, and related subjects. The purpose of the current surveys is to supplement and keep up to date the detailed information collected in the major censuses.

The Current Population Survey, conducted 12 times a year, is probably the best known Census Bureau interim activity since it provides monthly information on employment and unemployment. Information obtained by interviews in 333 sample areas of the country is combined to furnish statistics for national estimates. Information on migration, income, school enrollment, and other pertinent subjects is collected from time to time in the Current Population Survey in addition to the facts on employment and unemployment.

Approximately 35,000 households throughout the country are included each month in the Current Population Survey. These households are selected at random under the Census Bureau's scientific sampling program to provide a representative cross-section of all classes of the population, and all types of areas of the country - large cities, small towns, rural areas, and so forth.

The health of Red China's 600 million people is in the hands of "perhaps the most undertrained, medievally oriented, and politically infected medical profession in the world." That's the view of Arturo F. Gonzalez, Jr., of The Asia Magazine, which is published in Hong Kong. Writing in Today's Health, he says that Western-trained physicians, the cream of the country's medical profession, were summarily ordered, in 1958, to revert to traditional Chinese methods of treating patients. These methods include lancing the skin, muscle or other tissue with a long silver needle, the use of herbs which are supposed to cure everything from appendicitis to fractures, breath control, and shadow boxing.

SET TO LEAVE on the 4-H retreat are three of the adult leaders. From the left are Truman Gleason (top), County Agent Deryl Coker and Carl Schlenker.

## Broilers Suggested As Barbecue Main Course

For aromas do a better job of whetting jaded summer appetites than those coming from a backyard barbecue. The backyard chef has a wide array of meats available but because of very favorable prices, F. Z. Beanblossom, poultry marketing specialist for the Texas Agricultural Extension Service, suggests broilers.

In addition to the broilers for chick-n-queing, the specialist says you'll need to plan a complete menu. Potato salad or corn-on-the-cob go good with chicken and a mixed green salad, an appetizer tray, sliced bread or rolls and a beverage will make for eating suited to the taste of just about anyone, adds Beanblossom.

The sauce used during the chick-n-queing process is mighty important. If you don't have a favorite recipe, the specialist suggests you pick up a copy of MP-312, "Let's Have

a Chick-n-que" from your county extension office and try the sauce he likes. The publication also contains other information which outdoor cooks can use to advantage.

And this final reminder from the specialist, don't cook the chicken too fast. Allow plenty of time for the job and when it is finished, you'll put a product on the table that you and your guests will enjoy and discuss for weeks to come.

# The HAPPY HOMEMAKER

BY JUNE FLOYD

Many homemakers feel that there is nothing exciting about cooking. There really isn't any phase of homemaking that offers more opportunity for learning than does meal preparation. In a way it also offers a great challenge to a person who is interested in widening her experiences.

Of course, anyone can follow directions printed in simple recipes, but there is a lot more to being able to turn out an attractive meal that is nourishing than meets the eye. Then, too, it is necessary to know the exact meaning of a lot of words that are not used in everyday conversation.

In a recent issue of a U. S. Department of Agriculture pamphlet entitled "Family Fare," several pages are devoted to explanations of meanings of various cooking terms.

Many of these terms would have been absolutely useless to our grandmothers and will probably be indispensable to our grandchildren. For the benefit of cooks of all ages, we are re-printing this portion of the book.

**COOKING TERMS**  
**BAKE**-To cook in an oven or oven-type appliance. Covered or uncovered containers may be used.

**BARBECUE**-To roast slowly on a spit or rack over coals or under a gas broiler flame or electric broiler unit, usually basting with a highly seasoned sauce. The term is commonly applied also to foods cooked in or served with barbecue sauce.

**BASTE**-To moisten food while cooking by pouring over it melted fat, drippings, or other liquid.

**BOIL**-To cook in water or liquid mostly water, at boiling temperature (212 degrees F. at sea level). Bubbles rise continually and break on the surface.

**BRAISE**-To cook slowly in a moist atmosphere. The cooking is done in a tightly covered utensil with little or no added liquid. Meat may or may not be browned in a small amount of fat before braising.

**BROIL**-To cook uncovered by direct heat on a rack placed under the source of heat or over an open fire.

**PAN BROIL**-To cook in a lightly greased or ungreased heavy pan on top of range. Fat is poured off as it accumulates so food does not fry.

**CARAMELIZE**-To heat sugar or food containing sugar until a brown color and characteristic flavor develop.

**CREAM**-To work a food or a combination of foods until soft and creamy, using a spoon, wooden paddle, or other implement. Most often applied to fat or a mixture containing fat--for example, shortening and sugar.

**FOLD**-To combine two mixtures or two ingredients, such as beaten egg white and sugar, by cutting down gently through one side of the mixture with a spatula or other implement, bringing the spatula along the bottom of the mixture, and then folding over. This motion is repeated until the mixture is well blended.

**FRICASSE**-To braise individual serving pieces of meat, poultry or game in a little liquid--water, broth or sauce.

**FRY**-To cook in fat without water or cover.

**PAN-FRY (OR SAUTE)**-To cook in a small amount of fat (a few tablespoons, up to 1/2 inch) in fry pan.

**DEEP-FRY** or **FRENCH-FRY**-To cook in a deep kettle, in enough fat to cover or float food.

**GRILL**--Same as broil.

**KNEAD**-To press, stretch and fold dough or similar mixture to make it smooth. During kneading, bread dough becomes elastic, fondant becomes smooth and satiny.

**MARINATE**-To let foods stand in a liquid (usually mixture of oil with vinegar or lemon juice) to add flavor or make more tender.

**PARBOIL**-To boil until partly cooked.

**POACH**-To cook gently in liquid at simmering temperature so that food retains its shape.

**POT-ROAST**-To cook large pieces of meat by braising.

**RECONSTITUTE**-To restore concentrated foods to their original state; for example, to restore frozen concentrated orange juice to liquid form by adding water.

**REHYDRATE**-To soak or cook or use other procedures to make dehydrated foods take up the water they lost during drying.

**ROAST**-To bake in hot air (usually oven) without water or cover.

**SCALD**-To heat liquid to just below the boiling point.

**SIMMER**-To cook in liquid just below the boiling point, at temperatures of 185 degrees to 210 degrees. Bubbles form slowly and break below the surface.

**STEAM**-To cook food in steam, with or without pressure. Food is steamed in a covered container, on a rack or in a perforated pan over boiling water.

**STEW**-To boil or simmer in a small amount of liquid. Meats are stewed at simmering temperature.

4-H DRESS REVUE winners were (1) Marsha Schumann (simple dress); Karene Milner (pleated skirt and blouse); Katie Blackstone (advanced dress); Sharon Martensen (simple blouse) and Ann Blackstone (elastic gathered skirt).

## Bollworm Control Recommendation Stand

College Station, July--Is the cotton bollworm becoming tougher and more resistant to insecticides in Texas? Because some farmers had trouble controlling bollworms last year, it seems they might be developing a tolerance to commonly used chemicals.

But, according to test results contained in Progress Report 2236 of the Texas Agricultural Experiment Station, bollworms show no resistance to the insecticides used for their control.

Bollworm larva for the tests were collected over the state and reared on cotton leaves and an artificial diet. They were then treated with various insecticides at different dosages and the rate of kill recorded.

The insecticides used were DDT, endrin, Sevin, toxaphene-DDT (2 to 1 ratio), and Strobane-DDT (2 to 1 ratio).

The bollworms collected in El Paso, College Station, Eagle Pass, and Laredo showed a good rate of kill from the treatments. However, there was some evidence of tolerance to DDT in bollworms from LaGrange and Rosebud, and Eagle Pass during August. But these data do not show a real resistance of the bollworm to DDT according to the report.

During the study, it was found that the population of tobacco budworms was unusually high and therefore data were kept on both insects as both attack cotton in a similar manner.

Comparative toxicity tests with the bollworm and the tobacco budworm showed the bollworms are harder to kill than cotton bollworms.

The study indicates that bollworms may be controlled with the usually recommended insecticides but if tobacco budworms are present DDT alone will not provide sufficient control.

For more information on the study write the Agricultural Information Office, College Station, and request a copy of Progress Report 2236.

## GSPA Has Mid-Year Director's Meeting

Thirty officers and directors of the Grain Sorghum Producers Association from throughout the High Plains Area, participated in the mid-year Board of Directors meeting of the Association, in the X I T Room of the Herring Hotel, Amarillo, recently.

Elbert Harp of Abernathy, President of the Association, and Frank Moore of Plainview, its Legislative Vice President, recounted the organization's position and activities in connection with the many varied farm bills affecting grain sorghum which have been before Congress this year. It was pointed out that "officers and staff of Grain Sorghum Producers Association worked with the Department of Agriculture and administration officials, as well as with leaders of other farm organizations to get 'the best possible deal for grain sorghum' as new bills or amendments were presented."

The Board directed the continuance of such policy but with added efforts to seek an extension of the basic provisions of the current Emergency Feed Program for 1963. This would allow for a continuation of the approximately \$1.75 per hundred farm price for grain sorghum which is 76 per cent of parity instead of returning to the 65 per cent parity level which will be mandatory unless further Congressional action is taken.

In other business, plans were made for continuation of As-

sociation membership in the U. S. Feed Grains Council through which foreign market development for grain sorghum is conducted around the world. In light of other financial demands on the Association budget, expenditures for this activity will, however, be decreased by over 50 per cent for the coming year.

Bill Nelson, Executive Vice President of the organization reported on his participation in the World Staff Conference of the U.S. Feed Grains Council which he attended in Rome, Italy in mid-June, as well as his analysis of the effect of grain programs within the European Economic Community, on grain sorghum.

**GRASSROOTS OPINION**  
 LENOX, S. DA., INDEPENDENT: "Small business, like farming, is always a risk and is always a political football in election years. We remember a bright young candidate telling us that something must be done about helping small business. So what has been done, the same old cure has been prescribed -- make more government loans. But it occurs to us this hasn't gotten many results. Ten per cent more businesses went broke in 1961 than in 1960 and now the proposal has been made to raise postal rates, raise social security payments, raise wage scales, raise taxes, lower tariffs but keep prices down to avoid inflation and meet foreign competition. Now just how a struggling business can make a go of it to repay a loan if burdened down by more expenses and less income, we don't know."

Before perfection of steering gears for early tractors, many inventors and farmers suggested that it might be safer to guide machines with a team of horses.

## BIG AND BRAUNY

### The International 660 Diesel And the #48 Wing type Disc Harrow

With 82.93 horsepower on the pto, 74.3 hp\* at the draw-bar, the International 660 Diesel deals a knockout punch to your biggest, toughest jobs. It would be seldom that any of your field work would be big enough to say "no" to this mighty six-cylinder power.

**Pulling the 21Ft, 4900 Lb #48 Disc Harrow**

Here's the kind of capacity that makes short work out of big jobs and lets you use the power your large tractors were made to deliver. Twenty-one feet of cutting, churning action digs in to thoroughly work your soil even in toughest, trashiest conditions. And, you'll work with the precise control and ease of handling you're used to with much smaller disk harrows. Dual wheels carry the harrow high for transport, let you pinpoint working depth from hub-deep to just scratching the surface.

# USDA Announces 1962 Crop Grain Sorghum Support Rates

The U. S. Department of Agriculture June 26 announced 1962 crop grain sorghum county and terminal support rates.

These rates are based on the national average support price announced Jan. 9 at \$1.93 per hundredweight for 1962-crop grain sorghum grading No. 2. The national average support for the 1961 crop was also \$1.93 per hundredweight.

The method followed in determining individual county and terminal rates is the same as that used in setting rates in previous years. While the 1962 national average support price is the same as for 1961, Gulf and California terminal rates were increased 1 cent per hundredweight for 1962 to reflect changes in market price relationships.

For most producing areas, as in the past, county support rates reflect terminal rates less the freight and handling charges needed to get the grain sorghum to terminal markets. County and terminal rates are further adjusted by premiums and discounts for grade and quality to determine support prices for individual producers. For 1962, a premium of one cent per hundredweight is included for Grade No. 1 grain sorghum and the basic support rate will be for Grade No. 2 or better as in the past.

The discount schedule is un-

changed except for elimination of the discount for discolored grain sorghum.

Revisions in grain sorghum grade standards which become effective Aug. 1 will be used for the 1962 support operation.

Grain sorghum producers who participate in the 1962 feed grain program will be eligible for price support on their 1962 production.

Under legislation authorizing the program, there will be quantitative limitation on the 1962 production of grain sorghum that can be put under support from eligible farms. The eligible quantity will be equal to the farm's 1959-60 average per acre yield times the 1962 grain sorghum acreage, both as determined by the county Agricultural Stabilization and Conservation (ASC) Committee. The provision was in effect under the 1961 feed grain program.

Producers who do not participate in the 1962 feed grain program will not be eligible for price support on 1962 grain sorghum production.

The Farmer County loan rate on 1962-crop grain sorghum is \$1.90 per cwt. The 1961 support rate in Farmer County was \$1.89 per cwt.

A schedule of premiums, discounts and storage charges are as shown below:

Premiums:	Cents per Cwt.
Grade No. 1 and containing not in excess of 13% moisture.	1
Discounts:	
Grade No. 3 and containing not in excess of 13% moisture	3
Grade No. 4 and containing not in excess of 13% moisture	5
Smutty	5
Mixed Grain Sorghums	3

Schedule Of Deductions For Storage Charges For Maturity Date Of March 31, 1963

Amount of deduction (cents per hundredweight) Date the storage charges start are as follow:

21--Prior to May 28, 1962	19--June 12 - June 26, 1962	9--Nov. 9 - Nov. 23, 1962
20--May 28 - June 11, 1962	18--June 27 - July 11, 1962	8--Nov. 24 - Dec. 8, 1962
	17--July 12 - July 26, 1962	7--Dec. 9 - Dec. 23, 1962
	16--July 27 - Aug. 10, 1962	6--Dec. 24, 1962 - Jan 7, 1963
	15--Aug. 11 - Aug. 25, 1962	5--Jan. 8 - Jan. 22, 1963
	14--Aug. 26 - Sept. 9, 1962	4--Jan. 23 - Feb. 6, 1963
	13--Sept. 10 - Sept. 24, 1962	3--Feb. 7 - Feb. 21, 1963
	12--Sept. 25 - Oct. 9, 1962	2--Feb. 22 - Mar. 8, 1963
	11--Oct. 10 - Oct. 24, 1962	1--Mar. 9 - Mar. 31, 1963
	10--Oct. 25 - Nov. 8, 1962

## BIDDER'S BONANZA

AUGUST 6 THROUGH 11

Just imagine! A treasure trove that includes new and used farm and utility equipment, grandfather's clock, maybe even grandmother's rocker... any of it yours for the price of a winning sealed bid. Starting Monday, August 6th, we're taking sealed bids on many items in our stock of new and used tractors and equipment... a real opportunity to get your machinery needs at a bargain price. And "Bidder's Bonanza" is a two-way street! You and your neighbors are invited to bring any useful item (one per family) and put it up for bids. If you like, a percentage of the sale of your equipment or household items can be set aside for a local club, church, school or charity of your choice.

Opening of Bids... Saturday, August 11, with refreshments for the entire family. Don't miss this day above all!
