## BINDERS STARTED IN OAT FIELDS

Binders have been started in many fields of oats in this section and the harvest of this crop has begun in earnest. Winter oats is the crop that is being cut and reports from the men at work in the harvest fields indicate that the yield will be heavy. The stand is generally good and the heads are long and well filled and in different fields the crop will thresh all the way from forty to one hundred bushels per acre.

Before the farmers have finished cutting the winter oats, wheat will be ready for the binders and by the time the wheat is in the sheaf, spring oats will be ripe for the sickle.

Threshermen are getting ready to start out in ten days or two weeks and the next three or four weeks will be busy ones for the farmers.

Harvest hands as well as laborers in the corn and cotton fields will be in great demand and trouble is anticipated in getting enough hands for the work.

### Other Council Proceedings.

From Tuesday's Daily.

In addition to taking action upon the water question last night the city council transacted some other business.

City Marshal, R. V. Gwinn was re-appointed and it was ordered that hereafter that officer appear, while on duty, in regulation uniform, with a brass buttons and a badge upon his coat.

Wylie Wyatt was granted permission to construct a sidewalk eight feet wide in the alley adjoining his new building on Seventh street. He was also given permission to excavate under this sidewalk and to place prism glass in the walk to light the basement. This permission was granted upon the provision that Mr. Wyatt hold the city harmless from any legal damages that might arise from the construction or maintenance of the walk.

The "bull pen" at the rear of the Billy Keys saloon was condemned and was ordered removed.

The water company was given permission to pump water direct from the ditch, while the new settling basins were under construction.

### Kell Merchant Falls.

The Enterprise is informed that on last Friday, E. H. Thomas, engaged in the general merchandise business at Kell, made a general assignment for the benefit of creditors. It is believed that the assets are sufficient to pay a large percentage on all liabilities.—Frederick Enterprise.

## Twenty-Four Years

We have passed the 24th milestone in our existence as a Bank in Wichita Falls. This Bank having been organized May 15, 1884.

Twenty-four years ago Wichita Falls was a frontier town with one railroad outlet via Ft. Worth. No farmers in the surrounding country, with practically no rural districts, and surrounded by sheep and cattle ranches on all sides, and people looked upon the town as only a temporary stopping place.

The organizers of this Bank were among the first to foresee the future development of this country, and today Wichita Falls is a bustling City of 6,000 people, with railroad outlets in seven different directions, rapidly forging to the front as the commercial metropolis of this section.

During this time we have grown from a small beginning to a large and successful business.

We have endeavored to keep abreast of the times, providing for ourselves every modern appliance and up-to-date system to facilitate our office work, providing for our depositors every safe-guard known for their protection and security.

We have given freely to every deserving charity; contributed to every enterprise that would tend to improve or bring trade to our City.

We enjoy the confidence of the people of this community, and take this opportunity to thank our customers whose patronage has helped to make the last year the largest and best in our history.

## RAILROAD ACTIVITY Professional Ads

WICHITA FALLS LINES WILL LAY RAILS INTO NEW TERRITORY.

### CONDITIONS IMPROVING

Money Again Seeks Investment in Railroad Enterprises and Many Developments are Planned.

From Monday's Daily.

It's a mighty dull day when there isn't something doing in railroad construction on lines running out of Wichita Falls.

In helping to build the main lines which radiate in every direction from the city the people of Wichita Falls laid the foundation of a future railroad and commercial center.

Every month is seeing the fuller realization of this fact.

The next twelve months promise to see a great expansion in the area tapped by the railroad lines centering in Wichita Falls.

A local railroad official who is close to the high officials of the Fort Worth and Denver and the Wichita Valley states that he feels certain that the Wichita Falls and Oklahoma, the northern extension of the Wichita Valley, which now terminates at Byers, will be extended across the Red river to Waurika, Okla., within the next twelve months. Splendid connections in several directions can be secured at Waurika.

It is announced that the Abilene-Ballinger line is to be built before another twelve months have passed and it is generally understood that the line is to be operated by the Wichita Valley.

President Bellamy, of the Lawton, Wichita Falls and Northwestern, announces that the grade for that road is practically complete from its junction with the main line of the Wichita Falls and Northwestern to Randall and that the road will be completed into Lawton within the next twelve months. This road will use the Northwestern's tracks from Red river into Wichita Falls.

The Wichita Falls and Southern is now building an extension from Olney, its present terminus, to the coal fields south of that town, and while no official authority can be quoted, it is generally understood that the line will be continued from Olney to a connection with the Texas and Pacific. It is believed here that the connection with the Texas and Pacific will probably be made at Cisco.

It is also highly probable that the Wichita Falls and Northwestern will be extended from Frederick to some Oklahoma point, probably Altus, within the next few months. It is also rumored that the extension will be carried northwest to an important railroad and commercial center.

The financial situation is rapidly improving and it is stated by local men who have made trips to the eastern financial centers within the last few weeks, that money is again seeking investment in good railroad enterprises in the West, and the whole situation is becoming highly favorable for great activity in construction work on the Wichita Falls lines.

The Fort Worth and Denver has had in contemplation the building of a substantial building for a freight depot and offices here. Recent visits of some of the high officials to this city is supposed to have had some connection with this enterprise, but no definite announcements have been made.

The burning of the shops at Childress has revived talk that they might be located here, but this is thought improbable for a number of reasons. However, if the railroad officials give out any intimation that the location of the shops will be changed, the people of Wichita Falls will make an aggressive effort to secure them here.

At any rate, a large force is to be put on at the division shops here, and it is believed that the increase in the working force will be made permanent and that the equipment in the local shops will be increased in order to meet the increasing needs of both the Fort Worth and Denver and Wichita Valley lines.

### FIFTEEN YEARS OF AGONY.

Will You Continue to Suffer From Catarrh in the Face of This Testimony?

"I suffered for fifteen years with catarrhal troubles so bad that I had to leave the sea. I could not lie down at night to sleep, on account of the constant catarrhal dripping. I went to two different hospitals for treatment, but without any lasting benefit. I was constantly raising yellow and green phlegm, and the trouble was so unbearable and nauseating that I was ashamed to go out in company. I have used only two bottles of Hyomei, and have been cured by the remedy. It has made full and complete recovery."

CAPT. WILLNEE.

Hyomei is a dry, healing, antiseptic air, extracted from the Eucalyptus groves of Australia. It is a pleasure to use Hyomei, because you do not take it into the stomach; you simply breathe in this germ-killing air, and relief is immediate, and complete recovery comes in a few days. Hyomei outfit, including an inhaler that will last a lifetime, costs \$1.00. If it does not cure your catarrh, asthma, bronchitis, coughs or colds, Robertson's Drug Store will give you your money back.

# DESTROYED BY FIRE

FLAMES SWEEP THROUGH FORT WORTH & DENVER SHOPS AT CHILDRESS--HEAVY LOSS.

## MAIN SHOPS WERE BURNED

Six Engines and a Number of Cars in the Fire--Defective Wiring the Cause--Loss Nearly \$200,000.

Childress, Tex., May 16.--The machine, blacksmith and boiler shops of the Fort Worth and Denver City road at Childress were destroyed by fire between 2 and 3 o'clock this morning.

The fire caught in the roof and is supposed to have caught from an electric wire which ran through a bird nest. The blaze was well under way when the alarm was given, but the citizens made heroic efforts to extinguish it and did save the store room, the new car shops, round house and several other smaller buildings. Sixteen box cars were burned. There were six locomotives in the shops, all of which were damaged, but it is thought that only one sustained serious damage.

The fire will cause the company to lay off about 100 skilled mechanics and a like number of helpers.

The shops were erected in 1902, but had recently been overhauled and a large amount of improved machinery added and were among the best shops in the state.

The total loss will reach about \$100,000.

A high official of the road, who was in Childress this morning, stated that the work of rebuilding the shops would be started at once, but that the new shops would be much larger than the ones just destroyed and that they would be built with more attention given to fire protection.

The car shops completed last year were not damaged. Nearly one hundred men were put to work this morning clearing the ruins.

Many of the mechanics will remain in Childress and assist in the rebuilding, as work is scarce in all railroad shops.

Another dispatch from Childress says:

The buildings swept by the fire are a total loss. The men succeeded in getting one engine out of the shops, but engines Nos. 23, 205, 206, 205, and 309, which were in the shops, were badly damaged.

Several cars were also destroyed.

The burning of the shops will cause a serious loss to the Denver aside from the actual damage done by the blaze. At the best it will require several months to get the shops in shape to handle the repair work of the road, and in the meantime the road will experience its heaviest traffic season, one that would tax the capacity of its motive power and rolling stock to the limit under ordinary conditions with a full force at work in the shops.

It is expected that until new shops are built, much of the work that has been sent to Childress will be sent to the round house and repair shops here.

Later today the Times received a message from P. C. Martie who is now located at Childress saying that the loss from the fire is variously estimated at from \$200,000 to \$250,000. It is believed by railroad men here who are familiar with the equipment and the buildings that the loss will be nearer \$200,000 than \$100,000 as given in the special from Childress.

Mrs. Duke Entertains at "500." From Monday's Daily.

Mrs. Albert Rhea Duke entertained a large number of her friends at an enjoyable 500 party last Saturday afternoon in honor of her guests, Mesdames Coon of Fort Worth and Ferris of Waxahatche.

The hostess chose simple decorations of red carnations and pot plants.

Delicious punch was served throughout the game by Mesdames Coon and Collier. The favor of the occasion, a pretty cut glass dish, fell to Mrs. Walsh in a cut. Mesdames Montgomery and Miles assisted the hostess in serving refreshments of ices and cake at the conclusion of the games.

Those present were Mesdames Zundelwitz, Andrews, DuVal, T. W. Roberts, Shumate, Montgomery, Allen, Ralph Darnell, Miles, Kemp, Toney, Woodward, Blair, Hughes, Richolt, McGregor, Smith, Harrington, McCune, Gorsline, Collier, Walsh, Auburn of Houston, Ausbury of Dallas, Miss Eakin of Nocona, Misses Hutchinson and Gaston of Bowie, Misses Cobb, Kemp, Gorsline and Anderson.

## CONFERENCE ENDED

PRESIDENT ROOSEVELT INTRODUCES BRYAN, WHO DELIVERS HIS ADDRESS.

## A THREE DAYS SESSION

Of the Most Notable Gathering of Statesmen Ever Held in the United States Ends.

Washington, D. C., May 15.--The third and last day of the conference with governors was called to order at 10:15 o'clock this morning by President Roosevelt. The conference adopted without an opposing vote a declaration of principles, which suggest that the president call all future conferences, but provides for no permanent organization.

The president thanked the conference for the manner in which it had performed its work, and then presented William J. Bryan, who began his address.

After Mr. Bryan had concluded his address before the conference of governors, a motion prevailed to have all papers which had been prepared to be read before the conference today printed in the records of the proceedings of the meeting without being read, and at 12:45 the conference adjourned sine die.

Among the papers to have been read were those of I. C. White, Andrew Carnegie, George C. Pardee and George M. Kober.

#### A SHAME AND A DISGRACE.

City Prisoner, a White Man, is Kangarooed By Negroes.

Editor Times:—

In the name of justice I appeal to you for space to protest against existing conditions at our city prison. On Indiana avenue, adjoining the city hall, is a wooden structure, one end of which is used for housing the city teams and the other end is used for housing the city prisoners. There is a partition in the prison part of the structure to separate the male prisoners from the females.

There are no separate compartments for negroes and whites. The prison has doors and windows opening on Indiana avenue. The windows have iron gratings and the shutters are left open for ventilation.

Last night there were nearly a score of whites and blacks in the small room set apart for men. About 10 o'clock quite a crowd was gathered to the windows of the prison to witness a very disgraceful spectacle. The facts are about as follows:

Early last night a white man was put into the prison with the negroes. The justice of his imprisonment I do not question. Some time after his imprisonment he was tried by an improvised court, presided over by a negro judge and found guilty of an imaginary offense and fined \$1.00 or twenty lashes. Being unable to pay the money, he was forcibly taken down and whipped with a leather belt in the hands of a negro. The crowd on the outside witnessed this spectacle.

In the name of the Southland, where the white man boasts that his religion is supreme and where the laws of his making are executed with fairness to all men without regard to color or nationality, is this condition of affairs to be tolerated?

It is a fact that our police officials are aware of these conditions and, I presume, approve of the same, else last night's performance would not have taken place.

The city council should take this matter up at once and remedy the evils. The plea of poverty will not suffice. A citizenship that can subscribe \$25,000 for a playhouse can be depended upon to devise ways and means for abating this nuisance.

A SPECTATOR.

#### K. of P. Lodge at Electra.

At a preliminary meeting of the members of the Knights of Pythias and the local citizens who have petitioned for membership, which was held in the News office Wednesday night, all arrangements were completed for the organization of the Electra Lodge, Knights of Pythias. The meeting was called to order, and Sid W. Smith was elected temporary chairman and W. J. Sheldon temporary secretary. The following officers were elected:

Sid W. Smith, C. C.; W. W. Brown, V. C.; R. H. Cook, prelate; W. J. Sheldon, K. of R. & S. and M. F.; George Ansell, M. A.; A. N. Richardson, M. E.; Dan Moore, M. W.; Charles Priggen, I. G.; P. D. Woodruff, O. G.; E. A. Dale, Dr. S. E. Cramer and A. C. Henson, trustees.

The new brick hall is almost completed and the lodge will be organized just as soon as the warrant for a charter is received. The petition for a warrant is signed by substantial citizens. —Electra News.

Middling cotton sold in Texas at 14c when the 1907 crop promised three and a half million bales, and when the total for this country bid fair to reach thirteen million bales. Now, when the total for the South is known to be two or three million bales shy, cotton goes at about 10c. This is one of the reasons why the farmer knows there is a conspiracy to rob him, and accounts for his determination to fight the conspiracy to a finish. —Southwestern Farmer.

## Royal Worcester Adjusto Corsets for Stout Women

The Adjusto is the ideal corset for every figure inclined to over stoutness. The Adjusto supports the abdomen, reduces the hips and is easily adjusted to make smaller or larger in the "twinkling of an eye." The Adjusto should be worn by every stout woman.

- For County Tax Assessor: W. J. BULLOCK, J. P. JONES.
- For Constable, Precinct No. 1: PETE RANDOLPH.
- For County Attorney: T. B. GREENWOOD.

## IT LIES WITH THE RAILROADS.

B. F. Yoakum, of the Rock Island-Frisco lines, in an address at St. Louis recently, in which he voiced a protest against the present tendency in railroad legislation.

In an editorial discussion of Mr. Yoakum's speech, the Farm and Ranch says:

"Mr. Yoakum, who is well known throughout the Southwest, is commonly regarded as one of the most fair-minded railroad managers in the country. He presents the railway's side of the case very fairly. But of course there is another side—the side of the people who rose in revolt and brought about the stringent legislation against the railroads. The railroads themselves were to blame when the people turned against them. Their treatment of the public—in many cases through minor officials—was anything but courteous and business-like and the manipulation of railway stocks was in part responsible for the late financial panic.

"The people at present are not demanding the enactment of further anti-railroad legislation, but are disposed to allow the roads a chance to make good their claims that they will give more satisfactory service and that they desire to come to a better understanding with the public. There has been no haste to force compliance with the legislation already enacted—the Hepburn law, for instance, is not yet in full effect save such clauses as the railroads have seen fit to obey. The railroads have no ground to complain of lack of time for compliance so far.

"Whether or not more drastic legislation is called for rests mainly with the railroads themselves. The people have halted temporarily. If the roads fail to reform their service and method of doing business; if they put into effect rumored advances in freight rates; if manipulators play football with railway stocks, then the railroads may look for more legislation and that of a more drastic kind than has yet been enacted.

"They are being given their chance."

The editor of the Wichita Falls Times will not attend the Texas Press association meeting because he thinks some of the boys don't reason as he does on some subjects. He should come over and try to reform the members and not sulk in his hole.—Mineral Wells Index.

The Times is not sulking. It has always had an idea that the members of the Texas Press association placed entirely too much value on a railroad pass and too little on the value of their advertising space. The railroads soon became aware of that fact and now, apparently, have come to the conclusion they are entitled to free use of the advertising columns of Texas papers.

The county commissioners of Tom Green county have passed an order prohibiting the painting or tacking of signs on the bridges of that county. This practice not only defaces the bridges, but is dangerous from the fact that it frightens horses and causes many accidents. No county in Texas should permit its bridges to be defaced with signs or advertisements of any character.

It is a tolerably well established fact that there is an immense quantity of natural gas underlying the Petrolia oil field. The mere fact that the well which was capped and which exploded last Sunday morning, throwing over 200 feet of casing out of the well two or three hundred feet in the air shows that the pressure of gas was very great. As the Times understands it, this natural gas well which exploded and is now filled in with mud and water, is the property of the Producers' Oil Company, supposed to be a branch of the Standard Oil Company, and an effort is being made for some purpose to suppress any excitement that might bring new prospectors to Petrolia. Those who claim to have knowledge of natural gas say that the well which exploded last Sunday would furnish a sufficient supply of gas to run a city the size of Wichita Falls. If this is true, then the matter should be investigated. With natural gas piped from Petrolia to Wichita Falls the price of fuel for manufacturing, lighting and domestic purposes could be reduced to less than one-half the price of coal and crude oil, and with cheaper fuel and splendid railroad facilities there is no place in Texas that is more inviting to capital seeking investment in manufacturing enterprises than Wichita Falls. The oil trust does not own near all of the Petrolia oil field and if the right sort of an effort is made Wichita Falls capital can go into the Petrolia field and bore a sufficient number of wells to furnish this city with all the natural gas that can be consumed.

In renewing his subscription to the Times, R. S. Rogers of Bonham, says: "I have read with a great deal of interest of the continued prosperity of your town, which, I believe, is today the best town in the State."

That's the way everybody is feeling and talking about Wichita Falls away from home, and our own people are showing their confidence in the future of the city by the improvements and buildings that are being constructed. At this very moment construction work is going on for nearly if not quite \$300,000 worth of public improvements in this city. Some of these are as follows:

- New sewers ..... \$30,000
- Opera House ..... 40,000
- Brick plant ..... 60,000
- Foundry ..... 15,000
- Cohn's business block ..... 13,000
- Moore & Bateman block ..... 13,000
- Kemp-Kell block ..... 12,000
- W. F. Investment Co. block ..... 12,000
- Brown & Cranmer Planing Mill 8,000
- Hunt Grain Co. elevator ..... 12,000
- Improvements Lory building ..... 4,000
- Wiley Wyatt building ..... 30,000
- John Prang building ..... 4,000
- Water plant improvements ..... 5,000

The above list totals nearly \$260,000 and there are a few small business blocks now under construction and many residences which will easily run the total value of the improvements up to \$300,000.

In all of these improvements the actual construction work is now in progress, excepting the brick plant, for which a switch is now being laid, so that the materials and other supplies can be unloaded on the plant site.

A subscriber residing at Whitesboro writes the Times to give a description of Wichita county lands, what they will produce, the kind of water, and the kind of fruits grown here. In answer to the first question, will say that the soil is of a loose sandy loam; produces wheat, oats, corn, cotton, barley and nearly all kinds of feed crops. As for fruits, the peach and apricot produce best; very few pears and apples are raised; in fact, the soil does not seem adapted to that kind of fruit. All kinds of berries are grown; and those who make it a business find that the berry business is a very profitable one. Good water, in a large majority of cases, can be found at a depth of from 15 to 25 feet. For the past fifteen years most farmers have depended on small grain for their profit crops, and have kept this up so long that the land has become injured from the constant planting of one crop. For the past two or three years, the cotton acreage has been doubled. Farmers have discovered that they could grow more cotton on the same amount of land in Wichita county and with less labor than they could possibly produce in some of the black land or cotton belt districts. Here the boll weevil has not yet made its appearance and those who profess to know by studying the question say this country will never be infested with that pest. For all the above reasons the Times feels safe in assuring its Whitesboro reader that Wichita county lands are as fine as can be found in the State of Texas and can be purchased for just a little more than one-half the price at which the lack waxy lands are selling for. Those seeking farm homes can do no better than to come to Wichita county and invest in her lands, which have nearly doubled in value during the past three years, and in three years more will sell as high as any farm lands in the State. Drouths are a thing of the past in this country and the average rainfall as recorded by the government for the past fifteen years has been a little more than 32 inches per year.

The Fort Worth Record of today is authority for the statement that Attorney General Davidson will pull down and out of the race for re-election to that office, and that by Monday Senator Skinner of Ellis county would be put up in his stead. Yesterday's dispatches from Austin stated that Clarence Ousley and D. W. Odell were in Austin in conference with Governor Campbell for the purpose of pulling down Wynne and putting up a stronger man to run against Davidson. There may or may not be anything to either of these reports.

The Signal must sound the note of alarm to all its lady readers against kissing bearded men. It's positively dangerous, and any woman who allows herself to engage in any such osculatory diversion is liable to die right away of all kinds of diseases. Kissing is all right and is perfectly safe, provided you kiss clean shaved faces only; but the moment you allow your lips to touch whiskers you invite all the deadly diseases. An eminent Paris physician has just proved this great truth. Two young men—one smoothly shaven and the other having whiskers—were taken by him on a tour of the town, from the big shops to the Louvre, riding in all the vehicles that serve the Parisian public. When the tour was finished they were presented to a young woman who allowed each to kiss her once. When the first young man had performed this pleasant duty the doctor pressed a pad of gelatine to the young lady's lips. The same was done after the other had kissed her. Then the pads were submitted to conditions favorable to the development of any microbes that were caught on them. After several days they were examined by expert bacteriologists. The one which registered the smooth-shaven man's kiss was found to contain only a few flocks of totally harmless germs; the other pad swarmed with tubercle bacilli, typhoid germs and tetanus microbes, all ready to go to work. In fact, it was found that the bearded young man had left enough bacilli and things on the young lady's face to start an epidemic or open a sanitarium with patients.—Honey Grove Signal.

And yet, it is said, some girls prefer to be kissed (when they permit such, at all) by the man with a mustache. On that account many young fellows who are not yet quite certain whether the fuzzy little white stuff which is making its appearance on their upper lips is going to turn out to be hair or feathers, are doing their utmost to cultivate the growth, hoping fondly that some day they will be the happy possessors of well developed mustaches that will tickle those with whom they come in contact in such manner as to cause them from being further embarrassed by being twitted with the saying that "a kiss from a boy without a mustache is like eating an egg without salt."

During the first part of 1908, Wichita Falls has secured, among other smaller enterprises, a brick and tile plant with a paid up capital stock of \$60,000; a good foundry and machine shop and an up-to-date opera house to cost \$35,000 or \$40,000. In addition to the above, at least \$75,000 has been spent in the construction of new residences. There are now under construction five brick business structures (four of which are to be two-story structures, and the fifth to be a four-story office building) which when completed will cost more than \$100,000. The city has let a contract for eight miles of sewerage, and the probability is that the contract for a city hall building will be let within a short time. This does fairly well for the first five months of the year. There are other things needed, and they will come, but not unless we go after them. Nothing of much consequence can be secured without an effort. There is no town in Texas that is better located for a large cotton factory than Wichita Falls, and such an enterprise can be landed if the proper effort is made. Our two public school buildings are crowded and a third one is needed badly. It is time these matters were claiming the attention of our enterprising citizens.

Wichita Falls made an effort to land the Fort Worth and Denver shops before they were located at Childress, and by many it is believed that success would have followed our efforts had not some of our leading citizens been too sanguine. Now that fire destroyed this road's shops at Childress last night, entailing a loss estimated at from \$150,000 to \$250,000, it might not be out of place to renew our proposition to secure the location of the shops here.

### Solid Gold Manufacturing Plant

I desire to inform my customers and public in general that I am prepared to manufacture anything that can be constructed of solid gold according to your order such as Brooches, Scarf Pins, Cuff Buttons, Locketts, Charms, Band Rings, Set Rings, Signet Rings, Emblem Rings, Waist Sets, Diamond mountings in any shape or style. Mr. Carl Reading has been engaged to take charge of this department. Samples of his work can now be inspected in my store. It has been my earnest desire to build up a jewelry business in harmony with the growth of our city and I now honestly believe that my business, including the manufacturing of everything of gold would be a credit to a city three times the size of Wichita Falls. I cordially invite you to call and inspect my new machinery handled by skilled workmen. The entire state of Texas cannot furnish you better inducement when you want engraving done, watch or jewelry repaired. Our Motto is "a guarantee with everything turned out." As to prices I ask you to compare workmanship first then with goods of same quality purchased elsewhere.

### ELECTRICIANS

And now a Massachusetts man of the name of Smith has followed the lead of Hiram Maxim and invented an attachment that makes firearms noiseless. Both Smith and Maxim ought to be banished to the ends of the earth and their inventions broken up and cast into the sea. Who but a sneak or an assassin wants a noiseless firearm, anyway? Is there not slaughter enough of beasts and birds and men with guns that make noise and thus give warning of possible shots to follow? The noiseless firearm is not only uncanny, but will be despised by brave and fair-minded men. It is the weapon that would be chosen by the pot hunter who would destroy a whole covey of birds, a whole raft of ducks, or a whole herd of deer in a day, or by the coward who has an enemy that he would like to snoot in the back from the dark and leave no trace behind. Instead of noiseless guns, we ought to have such good pieces as would alarm the township when they were discharged.—Savannah News.

### To Rebuild Shops at Childress.

P. C. Maricle, secretary and manager of the Childress Ice and Light Company, sends the Times a copy of an "extra" edition of the Childress Index printed Sunday afternoon, from which the following relative to the rebuilding of the Denver shops is reprinted:

The Index is authorized by Vice President Keeler of the Fort Worth and Denver railroad to state that the burned shops will be re-erected as fast as men and money can accomplish same.

The Index reporter interviewed Mr. Keeler Sunday morning at the scene of the fire, when he stated that the company had not the least intention of removing the shops, but that the work would be started, or rather was now under way, on the rebuilding of the burned portion. He also stated that the new buildings would be erected upon the old foundations, and would differ from the old shops only in minor details. While the officials had considered the matter of enlarging the shops, yet he did not think it possible at this time.

Mr. Keeler also stated that the company wanted to retain their present employees and with that idea would give them preference in the work of construction, or until the company could use them in their old positions. The company, he said, assessed the position of their employees and wanted to do all they can to assist them during the time the repairs are being made, also to be glad to have the men when work was started in the rebuilt shops.

In concluding his talk Mr. Keeler said for the time to assure the people of Childress, business men, laborers, railroad employees and all others—that the company would rebuild the destroyed shops as quickly as it could be done and that there was not the least intention on the part of the company to take one item of a shop away from Childress.

This should, in the words of a famous telegram, "quiet all parties," not only in Childress, but of our neighboring towns.

Vice President Keeler and Superintendent Coffey will meet the business men of Childress in a conference Monday afternoon, for the purpose of considering the present situation.

### Sunday School Picnic.

From Tuesday's Daily.  
The members of the Presbyterian Sunday school, with their friends, are enjoying an outing at the Red River Spur in Oklahoma.

A special train was run over the Wichita Falls and Northwestern this morning to carry the picnickers. The special consisted of two passenger coaches and a baggage coach to carry the lunch baskets, ice cream freezers, etc. The train was well loaded and the crowd started out in a happy mood.

The picnickers are expected to return at about 5 o'clock this afternoon.

### From Tuesday's Daily.

Contractor McAbee this morning started work on a new building adjoining the new Kemp & Kell building on Ohio avenue. The structure, it is stated, will have the same dimensions and the same materials will be used as in the Kemp & Kell building. It is being constructed for the Wichita Falls Investment Company.

Miss Lulu Woodward of Archer City has announced as a candidate for county treasurer of Archer County. Miss Woodward has been a clerk in the Archer county pharmacy for several years and is highly esteemed.

**THE COMMENCEMENT**

EXERCISES HELD AT BAPTIST CHURCH ATTENDED BY A LARGE CROWD.

**FIVE WERE GRADUATED**

Eighty-six Pupils Receive Diplomas of Honor—Splendid Program Rendered.

from Saturday's Daily.

A crowd, which not only filled the large auditorium of the First Baptist church, but overflowed into the vestibules and filled the entry porches, attended the annual commencement exercises of the Wichita Falls public schools Friday evening, and by their presence showered honor and regard for the pupils whose faithful efforts were to be crowned with reward.

The front of the rostrum was banked with potted plants. The graduates occupied the rostrum, while the honor pupils were seated in a body at the right of the main auditorium. The graduates were Ruby Morris, Geoffrey Shaw, Lena Gardner, Carol Smith and Mae Kiel.

The exercises were carried out according to the program previously announced, and it is sufficient to say that the part taken by the graduates was highly complimentary not only to themselves, but to the school from which they graduated and to the citizenship of Wichita Falls.

The program was as follows:

Invocation—Rev. J. A. Stafford.  
Music—High School orchestra.  
Greeting chorus—Class.  
Salutatory—The Great West—Geoffrey Shaw.  
Piano Solo—Ruby Morris  
Class history and prophecy—Lena Gardner.  
Essay—Our Debt to Antiquity—Mae Kiel.

Piano duet—Ruby Morris and Lena Gardner.

Oration—"Value of Athletics in High Schools"—Carol Smith.

Music—High School Orchestra.

Valedictory—"Joan of Arc"—Ruby Morris.

Conferring diplomas of honor on 86 pupils—Principal H. A. Fairchild.

Presenting diplomas and scholarships—Supt. E. O. McNew.

Good Night Chorus—Class.

Benediction—Dr. J. J. Dalton.

Honor Diploma Pupils.

The pupils receiving diplomas of honor were as follows: Geoffrey Shaw, Carol Smith, Ralph Mathis, Charles Ingram, Alma Hull, Aileen Waggoner, Lillian Sisk, Lillian Bachman, Birdie Simmons, Mary Byman, Helen Mahoney, Pauline Mears, Franklin Kilander, Joseph Ward, Rhea Howard, Lois Brothers, Ila Cook, Lamar McNew, Katherine Raney, Mamie Hull, Audrey Cooper, Harry Bachman, Edith Mathis, Thora Fore, Una Cook, Jessie Gwinn, Minnie McClellan, Cora Lee Waggoner, Mena Waits, Gladys Herren, Marie Johnson, Vera McNew, Baldwin Montgomery, May Keeley, Annie May Crawford, Edna Duke, Mabel Williams, Arthur Bentley, Joseph K. H. Henry, Robertson, Murray Walker, Russ Carter, Grace Anderson, Flossie Goodwin, Mary Hull, Pauline Harris, Vera Hinckley, Ethel Raney, Zula Keeley, Ila Lawler, Ralph Maricle, Pauline Richolt, Bob Tevis, John Tevis, Ruth Ingram, Blanche Lawler, Ethel Moore, Ruby Moore, Gordon Harris, Leon Cooper, Tommy Williams, Ralph Pond, Reece Carter, Ida Clara Tuttle, Claude Montgomery, Bessie Jane McClellan, Stella May Bachman, Louise Montgomery, Mary Wheeler, Don Ruby, Lucille Dutton, William Coleman, John R. Flack, Tolbert Moore, Albert Robertson, Dot Fooshee, Della Hinckley, Vella May Snyder, Sibel Kell, Lois Harriet Morgan, Bessie Duke, T. J. Waggoner Jr., Louise Tevis, Irma Heath, Bessie Lee Triplett.

**Fined for Fighting.**

From Saturday's Daily.

J. H. White, D. F. Finley and E. F. Finley plead guilty to charges of fighting in the corporation court this morning and were fined. White's fine and costs amounted to \$13.80, D. F. Finley's was \$28.80 and E. F. Finley was assessed \$33.80. Charles Moore, a fourth man connected with the affray, is being held on a charge of vagrancy.

The trouble occurred while the quartette was making the rounds in the red light district early last night. According to White's story, he was tired of the company of his companions and was leaving them when they commanded him to halt, whereupon he set out to run and was pursued. He was overtaken and struck several times, he claims, by the two Finleys, whom he alleges were attempting to rob him. Others came up at this time and the Finleys fled.

White reported the affair to the officers and in a short time the three other men were placed under arrest. The evidence did not warrant filing charges of attempting to rob and the minor charge was filed, to which the three plead guilty.

**Grading Practically Completed.**

President Bellamy of the Wichita Falls, Lawton and Northwestern Railway reports that grading between Randlett and the junction on Red river is now practically completed, that some of the subcontractors had finished up their sections and had been paid off and that the laying of steel will be soon begun. The next contract will be let between Randlett and Emerson. Randlett will now take her place with Kell City as the only two railway towns in the Big Pasture, and the future is very bright for both of them. —Kell City Enterprise.

**The Season's Gaiety Started.**

A number of our young men gave a delightful hay ride on last Saturday evening in honor of the Misses Hutchinson and Gaston of Bowie, who are now the guests of Mrs. Shumate.

A very large wagon, drawn by four horses, was partially filled with hay, and the hay covered with heavy robes, thus making soft and springy seats. The party consisted of Misses Hutchinson, Gaston, Anderson, Brooks, Walker, Gorsline, Babcock, Wills, Kemp, and Messrs. Griggs, Felder, Little, Colgan, Walker, Huff, Heath, Freeman, Priddy, and the chaperones, Mr. and Mrs. Shumate.

After a drive all through town, the open prairie was sought, and the game of "Dropping the Handkerchief" indulged in, then the crowd drove to the home of Miss Kemp, where the ladies of the party served a splendid basket supper on the lawn.

The last feature of the evening was a hurried drive through town again, and then the pleasure lovers were forced home on account of the approaching shower.

**Revival Closed.**

From Monday's Daily.

Our meetings closed last night with the largest attendance of the series and great interest. These meetings have done good; only good. I am sure all who have attended have a higher appreciation of Christ and his religion.

We are hoping this series of splendid sermons will bear much fruit in the lives of our people.

The song services led by Prof. Ridgenour were much enjoyed by all who heard him. He is a fine gentleman and an artist in his line.

For the co-operation and kindness shown by all the citizens, especially the various churches and their pastors, we express our appreciation and gratitude.

May the time soon come when God's people shall be one, that the world may believe in Jesus as the Saviour and have Him as Lord and Master.

REV. A. J. BUSH, Pastor.

## 3,500 ATTEND PICNIC

FARMERS AND TOWN PEOPLE ARE SPENDING THE DAY AT LAKE WICHITA.

## PRESIDENT NEIL THERE

Plenty of Fish and Good Things to Eat and Everybody Seems to be Enjoying the Occasion.

From Friday's Daily.

A phone message from Lake Wichita at 2 p. m. states that there are about 3,500 people out there to attend the Farmers' Union picnic, most of the crowd being from the country. Dinner was served beneath the shade of the trees below the dam, and there was an abundance and to spare of everything good to eat, including fish caught from the lake and prepared for the frying pan on yesterday. Hon. Henry Webb of Seymour addressed the crowd before the dinner hour, and was followed this afternoon

by President Neill of the State Farmers' Union, who had written that he was sick, but would attend the picnic if possible. His presence was an agreeable surprise to the crowd, especially the members of the local union, and his address was eagerly listened to, being frequently applauded during its delivery.

At the conclusion of the address of President Neill, Hon. T. B. Taylor of Coleman addressed the crowd.

Among the amusements on the ground is a merry-go-round pulled by a horse and the children are patronizing it to the limit of the machine's capacity and seem to enjoy the sport as much as the horse enjoys the short rest he gets between trips.

Many are out on the lake in boats. The day is a beautiful one and the crowd will probably not leave the picnic grounds before sundown.

### For Lease.

619 acres 3 miles east of Wichita Falls on Big Wichita river. Fifty-eight acres in cultivation and balance in good pasture. Enclosed with good 4-wire fence. Good spring water on same. Apply to Mrs. William H. Jolly, Central Park, Long Island, N. Y. Box 85.

## BASE BALL TEAM WILL BE A WINNER

From Tuesday's Daily.

At a meeting of baseball enthusiasts held at the city hall last night the preliminary organization of a pennant winning ball team was formed.

William Huff was elected captain, but the selection of a manager was not made at this meeting.

A committee was appointed to raise the small amount still needed to complete the repairs of the grand stand and the fence at the ball park.

The following names were turned in as candidates for positions on the team:

Catchers, Ira Brown and Jess Smith; pitchers, Elmer Filgo, Fred K. Smith, Ray Hanks and Will Habern; second base, Carol Smith and Will Bachman; third base, Elmer Filgo; shortstop, Frank Smith; outfielders, Arthur Huff, Joe Jones, Everett Stonecipher, Oscar Black and Clyde Winfrey.

## CURE THE CAUSE.

How to Remedy Much of the Suffering in Wichita Falls.

Half of the sickness and suffering in Wichita Falls comes from a weak stomach.

Cure the cause by using Mi-o-na Stomach Tablets and be well and happy.

Even the most chronic cases yield to Mi-o-na. W. C. Worrell, connected with the Lake Shore Railroad for years says: "For fifteen years I had acute stomach trouble and nothing helped me. A friend recommended Mi-o-na and two boxes entirely cured me."

If the stomach is weak and you have indigestion, flatulence, dizziness, headache, etc., get a 50-cent box of Mi-o-na from Robertson's Drug Store. They the money unless Mi-o-na cures. 24-2t

### The Deering Ideal,

and that all that are in need of repairs we would very much appreciate if you would hand us a list of such parts wanted, that we may be able to accommodate one and all.

### COMPLIMENTS CITY

HENRY SAYLES OF ABILENE SAYS MANY NICE THINGS ABOUT WICHITA FALLS.

### HAS MADE GREAT STRIDES

No Town in Texas Has Made Greater Advancement Toward a Modern and Beautiful City.

From Tuesday's Daily.

In speaking with a Times reporter about the improvements to be made at the water plant and about the growth and prosperity of Wichita Falls, Mr. Henry Sayles said this morning:

"The immediate building of settling basins for the waterworks is a fixed fact. The matter is now up to Messrs. Kemp, Kell, Scurry and Malone, the local directors of the water company. They will have charge of the construction and it is expected that they will push the work through to an early completion.

"The settling basins will be on the same general plan of the Kansas City and St. Louis settling basins, which have proven to be a success."

"In speaking of Wichita Falls, Mr. Sayles said that he had been interested in Wichita Falls for the past eight years and had watched with wonder its growth and marked the stages of its prosperity; that in the past eight years he had also kept in close touch with all parts of the State, and that there was no town that had made greater strides towards being a modern and beautiful city than Wichita Falls. The street improvements have simply been marvelous; the sidewalks are better and more extensive than can be found in any city of twenty thousand inhabitants in the State; there are more beautiful homes in Wichita Falls than in any city of its size in the whole country.

Mr. Sayles said that ever since the Galveston storm, which made the necessity for a change of form in the city government there, he had watched the Galveston plan, which has been followed by Houston, Dallas and other places. The cardinal principle of the Galveston plan is the management of the city affairs by strictly business men and consequently on business principles. Speaking of the city government of Wichita Falls, Mr. Sayles commended it most highly and said that the affairs of the city during all of the eight years of his acquaintance here had been watched and managed by first class business men; who had secured for the city more than a dollar's worth of value for every dollar of taxes that had been gathered in. Mr. Sayles believes that Wichita Falls is going to be a great city and speaking to this said:

"You have railroad facilities for a city of thirty thousand people. The country for great distances around is as good as any in the State. The only drawback has been great fields of grain and pasture lands held for herds of common cattle. The change has come. The cotton planter of the South has discovered that this section of the State embraces the best cotton lands of the South, and it will not be long before small farms and a dense country population will aid in building up and maintaining permanently the prosperity of Wichita Falls."

Mr. Sayles said that there is so much that he could say for the Wichita country that he was afraid he might be classed as a "land boomer," and that it was with regrets that he stated that he owned no lands of consequence in this section of the State. That values had passed his expectations long ago.

and that now he was only a looker-on as the country prospered. With a citizenship not surpassed by any in the State for energy, push and intelligence, who possess to a marvelous extent that most valuable of all qualifications—"a unity of purpose for the public good." Wichita Falls must grow and rapidly, too, and it will not be long until it will be classed as an important city of Texas. The most valuable asset any city can have is a band of willing workers. This force in Wichita Falls, will compare in numbers, intelligence, in patriotism, with that of the best of any community in the State and in Wichita Falls, fortunately, embraces men from all classes and lines of business. A city possessing such a power, and blessed as Wichita Falls has been by nature, must become important and great.

### Thornberry Happenings.

Thornberry, Tex., May 19.—Thornberry is infested with measles. One family has seven cases. Mr. C. C. Brown and a number of others have two cases. Mrs. Joseph Stephenson is very low with them.

Mr. Elbert Reed of Wichita Falls, Texas, who has been down with typhoid fever at Mr. Joseph Stephenson's is sitting up.

The Epworth League and B. Y. P. U. of Thornberry will give their annual picnic Saturday, May 23rd, in Mr. C. H. Griswold's pasture on Red river. All of the young people are cordially invited.

Mrs. Levi Carey and Mrs. Lank Thornberry leave today for Tyler for a few days visit and then back to Fort Worth to attend the commencement exercises and banquet of the Fort Worth university.

Rev. Edgar M. Wisdom, pastor of the Thornberry and Frieberg charge of the Methodist Episcopal church, will leave Tuesday with his wife and baby for Dallas and Mabank, Texas, to visit relative and friends for about three weeks.

### Stolen Property Recovered.

From Tuesday's Daily. Marshall Gwinn is getting to be quite an adept at securing confessions from wrong doers.

This morning he secured a confession from Mrs. William Bolton, a chambermaid at the St. Charles hotel, in which she acknowledged her guilt in connection with the theft of some money and other articles belonging to a man who is one of the guests at the hotel.

The man is a horse buyer and on last Saturday he went out of his room, leaving his purse containing \$15 in money, a draft for \$75 and other papers lying on a chair. When he returned, the purse was missing. The woman now under arrest was suspected, but no direct evidence could be secured against her.

This morning Mr. Gwinn secured a partial confession from the woman, who told him the whereabouts of the stolen property, which was recovered.

### Big Gas Strike at Petrolia.

From Tuesday's Daily. Another big gas gusher was struck at Petrolia Saturday morning in a well being put down by the Producers' Company.

It is said that when a strong flow of gas was struck an attempt was made to cap the well so that additional leases could be secured before news of the strike was spread. The cap had been fastened on only a few minutes when there was a blow out, eleven sections of 6-inch casing and one section of an eight inch pipe being shot through the derrick to a height of more than 200 feet. The pipe came down through the derrick again, wrecking the structure.

The gas is escaping with a great roar and the well is said to flow more gas than the one opened last summer.

### Iowa Park Notes.

Special to the Times. Iowa Park, Tex., May 18.—Miss Anna Main of Dallas is the guest of Miss Goffman at Iowa Park.

The Iowa Park schools will close on May 22. Commencement exercises will be held on Thursday and Friday nights.

Mrs. Yathorough died suddenly at her home here Saturday afternoon of apoplexy and was buried Sunday afternoon.

The funeral services were held at the Baptist church and were conducted by Rev. McGhee.

### Broom Factory Stockholders Meet.

From Monday's Daily. The annual meeting of the Wichita Falls Broom Manufacturing Company was held in the Chamber of Commerce rooms this morning. The old board of directors was re-elected with the exception of A. Newby, who was succeeded by J. C. Ward and are as follows: T. B. Noble, J. A. Kemp, R. E. Huff, J. C. Ward and G. D. Anderson.

The directors organized with the following officers: T. B. Noble, president and general manager; J. A.

Kemp, vice president, and J. C. Ward, secretary.

The report of the officers was deferred until in July and the date of the annual meeting was changed to the second Wednesday in January.

### Posted.

All persons trespassing on the river, known as the Jolly pasture, will be prosecuted to the full extent of the law. 21-4t Mrs. WILLIAM H. JOLLY.
