IN TO SEE THE SHOW

GREAT CROWD IN TOWN TODAY TO SEE THE SELLS-FLOTO CIRCUS.

STREET PARADE PLEASURES

Local Officers Have Strenuous Time With "Uncle Si" and "Aunt Jerusha."

Deputy Sheriff Vandegriff spent a strenuous half hour this morning during the parade of the Sells-Floto circus in a vain effort to keep "Uncle Si" Jones and his good wife, "Aunt Jerusha," who drove in from Archer county this morning in a one-horse chaise, from getting mixed up with the parade. When first seen by the officer, "Uncle Si" and "Aunt Jerusha" were delaying the progress of the brilliant pageant by driving directly in front of the elephants just before the parade turned into Indiana avenue. The old people were in imminent danger of being trampled upon by the huge elephants when the officer bravely dashed to their rescue and fairly dragged them from the path of the parade.

"Uncle Si" did not seem to realize the gravity of the situation and at the first opportunity again whipped his horse across the line of the parade. The officer was hot on his trail and after pulling his horse out of the parade the second time "reproved the old" gentleman rather severely. "Uncle Si" was intractable and reminded the officer that "this is a free country," and "I've paid my poll tax for thirty years, and have got a right to drive where I goddam please."

Uncle Si stuck up for his rights as a free American citizen and so persistently interfered with the parade that the deputy finally seized his horse and hailed the protesting nestor into a court of justice.

Not until then did it dawn upon the officer that he had contributed no small part to the day's amusement.

The pair were the cleverest clowns ever seen in Wichita Falls and after all the officer is not to be blamed.

The free street parade this morning was exceptionally pleasing and a great crowd is witnessing the performance at the big tent in the Crescent Lake addition this afternoon.

Another performance will be given tonight, after which the show will be loaded for shipment to Vernon.

A. should be separate in a separate building.

Other matters, such as a business men's excursion to Frederick at an early date and a Wichita Falls' Day at the State Fair were endorsed and committees appointed authorized to carry out these plans.

In reply to an inquiry concerning the securing of an amusement resort at the lake with necessary transportation facilities, Mr. Kemp announced his belief that something tangible would result by next spring bringing about the desired end. This matter has been receiving Mr. Kemp's attention during the past summer.

AN EXCITING RUNAWAY.

Two Families on Excursion to Lake Wichita, Meet With Accident. From Monday's Daily.

An exciting runaway with a happy sequel considering the possibilities for a dreadful tragedy was enacted yesterday afternoon about half a mile this side of the lake. A livery rig, drawn by two white horses, in which was seated P. H. Pennington, wife and little girl, F. H. Gohlke, wife and child and Mr. Purnell of New York City became unmanageable because of the dropping of the tongue caused by defective harness. After running madly about fifty yards they dashed into the barb wire fence on the right of the road breaking the pole, the jar almost careening the vehicle and caused Mr. Purnell to fall out of the front seat, the rear wheel passing over his limb. In a moment they made another dash down the road, Mr. Pennington trying in vain to guide the team and keeping his little daughter from jumping out. Another hundred yards the team made to the left, ran along the barb wire two post lengths when the vehicle made a lunge square into a fence post.

The dash board had been broken off by Mr. Purnell's fall and there remained nothing in front to check Mr. Pennington's fall which he saw was inevitable and with presence of mind, seeing the danger of being torn with the barbs, he threw his little girl to the right at the critical moment, the sudden stop precipitating him in a like direction. It was fortunate the team broke loose at this point or else they would have kicked them in a horrible manner.

The occupants of the rear seat escaped without a scratch, although the jar took their breath for a moment. Mr. Gohlke was holding his little girl who slept peacefully until the collision Mr. Pennington was the only one to suffer any injuries which were in the nature of a badly scraped limb. Another vehicle had to be secured for the trip home.

From Friday's Daily. John DePoe, the man who was stabbed with a knife in the hands of C. D. Johnson in this city Tuesday afternoon of this week, died of his injuries at the Wichita sanitarium yesterday afternoon at 7 o'clock.

Just before he died he spoke of a Mrs. Molly Smith of Durant, Oklahoma, and on communication by wire with her this morning it was ascertained that Mrs. Smith was DePoe's sister.

Both men came here with the Gentry Bros. show, but had been discharged on the morning of the day that DePoe received the slash across his throat and a stab in the left side from a knife in the hands of his companion, Johnson.

After receiving their time checks from the manager or paymaster of the show, both men proceeded to a saloon near the coal chutes in the resort district and tanked up considerably. They then quarreled with the result as above stated.

Johnson was arrested and jailed on the charge of assault with intent to murder. Since DePoe's death a new complaint charging murder has been filed against him.

The chaffeurs of that company are on a strike, but it is claimed that they know nothing about the throwing of the bomb. The officers of the company say that a deliberate attempt was made by the strikers to destroy their property.

Good Results From Exhibit.

From Monday's Daily.

John Young returned last night from Oklahoma City where he looked after the exhibit of the Wichita Country at the Oklahoma State Fair. Mr. Young says that the exhibit attracted much attention and believes that good results will follow.

Many prospective investors left their address with Mr. Young to be turned over to Secretary Gohlke to have the Chamber of Commerce booklets and other information sent to them.

Two Nebraska farmers after seeing the exhibit came on to Wichita Falls last night and this morning went out to Burk Burnett to look at some farming land.

An Oklahoma City paper made the

following mention of the Wichita Falls exhibit:

A Northern Texas Exhibit.

Corn, pumpkins, the luscious yam sweet potatoe, peanuts, alfalfa, good cotton that is yielding a bale to the acre, with vegetables and fruits of all kinds, in the highest forms of development, are shown at the fair through the Chamber of Commerce of Wichita Falls, in the northern part of Texas. The exhibit is in charge of J. T. Young. Here also is shown the genuine ribbon cane that produces 500 gallons of syrup per acre and from which sugar is produced. An interesting feature here is a large map of five counties represented by Mr. Young, showing railroads, waterways, etc., made of wheat and corn. This Texas exhibit is certainly an interesting one. Mr. Young states that notwithstanding the great richness and possibilities of his portion of Texas, there are still splendid opportunities for investors and homeseekers there. The fine exhibit at the fair must be seen to be appreciated.

President Roosevelt, says Harper's Weekly, will between now and November 3rd, give out to the press a copy of a letter which he wrote to Secretary Cortelyou directly after he was elected to the presidency, authorizing the foxy secretary to return every cent of the money contributed by the Standard Oil company to the republican campaign fund—after it had all been spent.

The Times has received the first issue of the Newcastle News, published at the new town in the Young county coal fields by L. H. Miller. The new paper fairly bristles with news of the development in that section and its advertising patronage shows that the business men who are seeking prosperity in the new town are alive and up-to-date. The Times wishes for the new paper long life and prosperity.

The anti-prohibitionists are gathered at Houston today and will effect an organization to defeat State-wide prohibition, should the next legislature carry out the democratic platform demand and submit that question to a vote of the whole people some time during the year 1909. The anti hope, by the aid of the republicans, to defeat the pros when it comes down to a matter of voting, and from the make-up of the Houston gathering, it looks as if they will have the support of the republicans in the event the leaders of that party can deliver the goods.

The total number of poll taxes assessed in this county for 1908 is 1,705, an increase over 1907 of 505. This shows a very substantial growth in our population. In assessed values of real and personal property the increase over that of last year is \$1,440,868. The decrease in taxes for 1908 as compared with 1907 is \$541,955. This is a very good financial showing, as well as growth in population, but the condition of our public roads, it seems, is such

that really does not justify the commissioners in making a reduction of taxes. Wichita county is populated with a progressive people and they do not object to paying taxes to keep up the public roads.

Walter Wellman says that if Bryan can carry New York he is as good as elected. Let's see: In 1896 McKinley's majority in New York state was 268,000; in 1900 McKinley's majority over Bryan was cut to 143,000. The increase of Bryan's 1900 vote in that state over the vote polled for him in 1896 was 127,000. If he can make another gain like that in 1908, Mr. Wellman thinks he will be elected. But, as Wellman favors Taft, of course he does not believe that it is possible for Mr. Bryan to make that gain, yet nearly all republican magazine and newspaper writers are conceding that Bryan is nearer the presidency in this campaign than he has ever been before.

President Roosevelt says that if Taft is elected "he will carry out my policies," which means that, if Taft is elected he will order another panic and add to the one million unemployed another million or so. In other words, if Taft is elected, the financiers of the country will be given all the assistance they ask for from the government at Washington to increase their riches. The man of small capital who is conducting a comparative small business will be forced to close his doors and retire, or else buy his goods from trust concerns and dispose of them, if he can, at a price fixed by the trust, which generally speaking leaves the retailer with three-fourth of the work to perform while he receives but about 10 per cent of the net profits. Mr. Roosevelt has made an ideal president for the immensely wealthy. Mr. Taft will follow his example.

Andrew Carnegie has contributed \$20,000 to the republican campaign fund. If this money is properly placed—in blocks of five—it means at least 5,000 votes for the republican national ticket in one of the doubtful States. Mr. Carnegie appears to have the discovery that the more education and learning a poor man gets the less inclined is he to vote for the success of a party that will forever and entirely keep him scratching a poor man's back. The best and quickest way is to allow the common, uneducated man to make just enough to keep soul and body together and then—just before election day—make a trade with him for his vote. In that way, the republican party has been kept in power for the last twelve years, during which time men like Carnegie have made more money than they have need of, while the children of the men who helped them to make it are going on half rations in Chicago and other large labor centers.

Use Some of Heinz India Relish On Your Next Roast...

There are two good reasons why a good relish is almost essential on either hot or cold meats.

1st. It adds wonderfully to the taste of any meat or fish whether hot or cold—makes it doubly appetizing.

2nd. The materials from which a good relish—such as *Heinz India Relish*—is made are especially good for digestion. It stimulates a good healthy stomach action and thus aids the whole system.

Heinz India Relish is good and sharp—not too sharp—and has a very delightful and piquant flavor.

You will want and use it often after once trying it. 35c per bottle.

Special to the Times.
Sherman, Tex., Oct. 15.—It was arranged today for a committee of Sherman business men and land owners to go to St. Louis and Kansas City to accompany parties of homeseekers here on October 20th.

Also on the same date he will have a meeting of the Alaska-Yukon Pacific exposition committee, of which he is chairman.

He expects to return to Wichita Falls about the 21st of the month.

An organization of the Lower Panhandle I. O. O. F. and Rebekah Association was organized at the Odd Fellows hall in Vernon Wednesday, Oct. 7. Pipe Line Survey is Completed.

From Wednesday's Daily.
W. H. Page and party of six arrived in the city last night, after completing the survey from the Petrolia gasser for the proposed pipe line into Wichita Falls. The route followed was along the road four miles south of the gasser, thence in a westerly direction to the city, making a total distance of nineteen miles. Mr. Page stated that he would run a survey back another route.

The report sent out from Henrietta that an eight-inch pipe line would be run into Henrietta with a four-inch lateral to Wichita Falls is not given credence by Mr. Page.

GREAT CROWDS HEAR BRYAN.

On Third Day's Tour of Home State, Commoner Meets With Ovation.

By Associated Press.
Wymore, Neb., Oct. 15.—William J. Bryan began his third and last day's tour of Nebraska with a speech at Endicott early today. Although it was nearly midnight when he concluded his tour yesterday he appeared fresh and chipper this morning.

Several hundred farmers drove fifteen miles to hear him speak five minutes.

Mr. Bryan spoke at Fairbury, Diller and Wymore, the latter place turning out a large crowd, including a large number of railway employes.

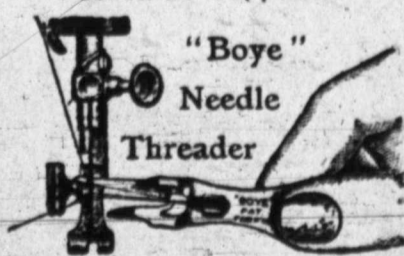

Wanted—More Members.

At the monthly membership meeting Tuesday evening the secretary gave everyone present a blank membership card to be returned with the name of a new member.

Mr. Nat Henderson turned in the name of a new member early Wednesday morning. In the mail the same day came a card which was filled out at the instance of Mr. Frank Kell. Before the day closed Mr. W. A. Strickland turned in two new members. One new member volunteered after the general meeting Tuesday evening, making five converts within twenty-four hours. They are P. C. Maricle, A. A. Hughes, H. A. Allen, E. H. Cox and C. E. Holder. The question is who will be the next booster to round up a few.

HER MILLION FOR W. H. TAFT

WIFE OF CHAS. P. TAFT STANDS READY WITH A FORTUNE OF A MILLION.

3 PEOPLE NOMINATE TAFT

Following Tactics of Hanna and Quay in Previous Campaigns of the Past Few Years.

New York, Oct. 13.—A woman with vast wealth stands ready to finance the political campaign of Judge Taft in the last days before the election if the question of victory or defeat rests on a million dollars.

Democratic managers have heard that Mrs. Charles P. Taft of Cincinnati, sister-in-law of the candidate, whose inherited fortune amounts to perhaps two score of millions, is the financial power that may decide the election, in case of necessity.

The persons most responsible for Judge Taft's candidacy are two, women and one man—Mrs. Taft, Mrs. C. P. Taft and President Roosevelt. The women's part was, perhaps, the more important. They induced him to turn aside from a determination for judicial life and to enter the presidential lists.

President Roosevelt applied his political power to bringing about the nomination and furthering the campaign, but it has been one woman's inspiration and another's enthusiasm and wealth that have pushed the man along.

Money Counts More at the End.

Many a presidential election has been decided in the last two weeks, when a dollar properly expended gives far greater practical results than earlier in the campaign. It was the late Senator Hanna's plan to throw the weight of money into the battle at the critical moment, just as a general would concentrate the forces of his army in final overpowering assault.

In the campaign of 1896 a million dollars of republican money were expended in the last two weeks, and the result was instantly felt in half a dozen doubtful States. Even Nebraska was swept from under Bryan in the last seven days by outpouring of cash.

Senator M. S. Quay carried the election of 1888 for Harrison by the use of money during the last week. He applied thousands of dollars of contributed funds to public betting to gain the benefit of manufactured public sentiment. By enormous plunges his commissioners changed adverse odds into

favorable odds for the republican candidate and had considerable effect on the crucial State of New York.

Atrophy for Lack of Coin.
In the present campaign scarcity of funds has atrophied many of the arteries of practical politics. Organization has been neglected; enthusiasm lies dormant. Indifference is so dominant that the Taft managers are inclined to revert to old methods to insure victory. These require money, which the treasury does not afford. This is where Mrs. C. P. Taft's wealth may come in.

It is believed in democratic circles that the Taft family intends to let the regular campaign managers exert their best endeavors first in the financial line. If enough money is raised to carry along the campaign fairly well, and the prospects of victory are encouraging, there will be no need of private assistance. But if a cry for help goes up, if the contest assumes a critical aspect, if there is danger of Judge Taft going down to defeat, then the family purse will open and the wealth that old David Sinton hoarded will be poured out in a golden stream.

A million dollars would be a small expenditure to put the family name in history.

ANTI CONVENTION

FORCES OPPOSED TO SUBMISSION OF PROHIBITION ISSUE GATHER AT HOUSTON.

TWO THOUSAND ATTEND

Said to Be Non-Partisan—But Republicans are Taking a Very Active Part.

Houston, Tex., Oct. 12.—Probably two thousand delegates and visitors are here today to attend the convention of the Anti-Prohibitionists, which aims to defeat State-wide prohibition, as urged in the State democratic platform. The party claims to be non-political, consisting of democrats and some republicans, but its result is likely to be far-reaching upon politics in the future, as the organization expects to be permanent.

The meeting was called to order by C. K. Bell of Fort Worth in the Turner Hall.

Among the prominent men attending are Jake Wolters, State Democratic Chairman, R. N. Stafford, George F. Burgess, Bob Barker, Al Hunnicutt, J. C. Willacy, Sterling Strong, Cecil Lyon and J. N. Smithson.

The convention will likely take up other issues, it is said, but the plan to endorse republican candidates who favor a "wet" State is not confirmed.

FIRE AT COLLEGE.

Roof of Agricultural Building Partially Destroyed.

College Station, Texas, Oct. 9.—Fire caused by defective wiring in the attic of the agricultural building at the Agricultural and Mechanical college tonight burned about half of the roof off this structure, one of the finest on the campus. The fire was discovered at 11 o'clock and before 1 o'clock the flames were extinguished.

The college fire department soon got action and the flames were quickly under control. No other building was damaged. The cadets worked hard and it is due to their heroic efforts that the building was not a total loss.

The fire department from Bryan, five miles away, was sent here by Mayor Maloney on a special train on the International & Great Northern railway.

The agricultural building was built seven years ago at a cost of \$30,000. It is fully equipped with a modern laboratory and also contains a creamery plant.

In addition to class rooms, the offices of the various professors of agriculture and the headquarters of the feed control are located in this building.

The loss will be several thousand dollars. President Miller and L. L. Melms of Bryan, a director, are now at Prairie View.

\$25,000 BOND IS FORFEITED

"WHITE SLAVERS" FLEE, UNDER FEDERAL INDICTMENT, TO FRANCE.

NO TREATY FOR OFFENSE

Federal Government is Defeated in Over Thirty Indictment By the Flight.

Chicago, Ill., Oct. 13.—That the greatest episode that the federal government is waging against the white slave trade, has suffered a defeat became known today when it was learned that Alphonse and Eva Defour, two of the principals indicted last February, had escaped to France. They were held in prison for some time because they were unable to furnish bail, which was fixed at \$25,000 for each of them. In August, however, they succeeded in having the amount reduced to \$25,000 for both of them. This amount was turned over to the government in cash and property, and they were released. They are now in France. The United States has no extradition treaty with France covering the class of offenses with which they are charged.

Proceedings leading to the forfeiture of their bonds will be started before Judge Landis today. The court will set a day for their trial and if they do not appear at that time, their bond will be declared forfeited. Delijah N. Zoline, their attorney of record, will appear for them, though he claims to know nothing of their whereabouts or intentions.

The Defours were the first "white slavers" indicted by the federal grand jury and last July more than thirty indictments were found against them on July 1, 1907, the statute on which the cases were found went into effect. The cases were deemed highly important and the federal attorneys fought bitterly any attempt to reduce their bail. They were guilty of several offenses and the government announced that it would ask for a maximum sentence of five years in the penitentiary and \$5,000 fine for each offense. They were proprietors of a resort at 201 Armour avenue.

From Monday's Daily. Marriage licenses were issued Saturday to C. R. Williamson and Miss Besse Hermis and to Ray Jackson and Miss Willie Haynes.

ANTI CONVENTION

FORCES OPPOSED TO SUBMISSION OF PROHIBITION ISSUE GATHER AT HOUSTON.

TWO THOUSAND ATTEND

Said to Be Non-Partisan—But Republicans are Taking a Very Active Part.

Houston, Tex., Oct. 12.—Probably two thousand delegates and visitors are here today to attend the convention of the Anti-Prohibitionists, which aims to defeat State-wide prohibition, as urged in the State democratic platform. The party claims to be non-political, consisting of democrats and some republicans, but its result is likely to be far-reaching upon politics in the future, as the organization expects to be permanent.

The meeting was called to order by C. K. Bell of Fort Worth in the Turner Hall.

Among the prominent men attending are Jake Wolfers, State Democratic Chairman, R. N. Stafford, George F. Burgess, Bob Barker, Al Hunnient, J. C. Willacy, Sterling Strong, Cecil Lyon and J. N. Smithson.

The convention will likely take up other issues, it is said, but the plan to endorse republican candidates who favor a "wet" State is not confirmed.

FIRE AT COLLEGE.

Roof of Agricultural Building Partially Destroyed.

College Station, Texas, Oct. 9.—Fire caused by defective wiring in the attic of the agricultural building at the Agricultural and Mechanical college tonight burned about half of the roof of this structure, one of the finest on the campus. The fire was discovered at 11 o'clock and before 1 o'clock the flames were extinguished.

The college fire department soon got action and the flames were quickly under control. No other building was damaged. The cadets worked hard and it is due to their heroic efforts that the building was not a total loss.

The fire department from Bryan, five miles away, was sent here by Mayor Maloney on a special train on the International & Great Northern railway.

The agricultural building was built seven years ago at a cost of \$30,000. It is fully equipped with a modern laboratory and also contains a creamery plant.

In addition to class rooms, the offices of the various professors of agriculture and the headquarters of the feed control are located in this building.

The loss will be several thousand dollars. President Milner and L. L. McInnis of Bryan, a director, are now at Prairie View.

\$25,000 BOND IS FORFEITED

"WHITE SLAVERS" FLEE UNDER FEDERAL INDICTMENT TO FRANCE.

NO TREATY FOR OFFENSE

Federal Government is Defeated in Over Thirty Indictment By the Flight.

Chicago, Ill., Oct. 13.—That the greatest crusade that the federal government is waging against the white slave trade, has suffered a defeat became known today when it was learned that Alphonse and Eva Defour, two of the principals indicted last February, had escaped to France. They were held in prison for some time because they were unable to furnish bail, which was fixed at \$25,000 for each of them. In August, however, they succeeded in having the amount reduced to \$25,000 for both of them. This amount was turned over to the government in cash and property, and they were released. They are now in France. The United States has no extradition treaty with France covering the class of offenses with which they are charged.

Proceedings leading to the forfeiture of their bonds will be started before Judge Landis today. The court will set a day for their trial and if they do not appear at that time, their bond will be declared forfeited. Deljah N. Zolne, their attorney of record, will appear for them, though he claims to know nothing of their whereabouts or intentions.

The Defours were the first "white slavers" indicted by the federal grand jury and last July more than thirty indictments were found against them on July 1, 1907, the statute on which the cases were found went into effect. The cases were deemed highly important and the federal attorneys fought bitterly any attempt to reduce their bail. They were guilty of several offenses and the government announced that it would ask for a maximum sentence of five years in the penitentiary and \$5,000 fine for each offense. They were proprietors of a resort at 201 Armour avenue.
