ROCKEFELLER IN THE LIME LIGHT

OIL KING ON WITNESS STAND TELLS STORY OF ORGANIZATION OF STANDARD OIL.

IS PROUD OF LIFE'S WORK

As Witness for Defense Head of Giant Combine Testifies in Ouster Proceedings at New York.

By Associated Press.
New York, Nov. 19.—John D. Rockefeller went on the witness stand when the Standard Oil hearing was resumed this morning. The counsel for the oil company said that Mr. Rockefeller would probably be on the stand all day. It is announced that after Rockefeller's cross examination by the government is concluded, John D. Archbold, vice president of the Standard Oil Co., will take the witness stand.

Mr. Rockefeller will tell his own story of the building up of the Standard Oil company and of his own personal fortune. The appearance of the oil king upon the witness stand has given a tremendous public interest to the long drawn out and often tedious hearings in the government's suit to dissolve the so-called oil trust. The little room in which the hearing is in progress will accommodate scarcely more than a hundred persons and was crowded with eager listeners today as Rockefeller told his story.

Mr. Rockefeller testified to the Standard purchase of the firm of Pratt & Company of Brooklyn, of which H. H. Rogers was a member, and also to the buying of the Warden Frew & Company, which had large plants in Philadelphia and refineries in Pittsburg. The aggregate value of the property purchased, he estimated at \$2,000,000.

Yesterday's Associated Press dispatches, in giving an account of Mr. Rockefeller's testimony, was as follows:

Relating his story with the air of a country gentleman of kindly mien, engaging a host of friends with incidents of days long past, John D. Rockefeller, president of the Standard Oil company, though for nearly ten years retired from the active cares of the company's direction, for over two hours today reviewed the history of the early oil trade and the development of the four companies that later grew into the present so-called oil trust. Mr. Rockefeller was a witness for the defense in the suit to dissolve the Standard Oil company, which is being prosecuted by the United States government, and his appearance at the hearing before Judge Franklin Ferris, the referee, brought a large crowd to the customs building.

The head of the big oil combine was surrounded by an imposing circle of counsel and when he began his testimony he gazed complacently upon a swarm of newspaper men, behind whom pressed close a throng of people that filled the room. Mr. Rockefeller appeared at complete ease and when John G. Milburn, of counsel for the Standard Oil company, propounded the first question, the witness spoke out in full tones as if he desired the most distant spectator in the chamber to hear him. Then, in a manner that indicated a pleasure at what he was about to tell, Mr. Rockefeller spoke of his start in the oil business and how, under adverse conditions, that business grew to the proportions of the Standard Oil company of Ohio, with its capitalization of \$1,000,000. Mr. Rockefeller's eyes sparkled in reflection over that early financial organization and in speaking of its million dollar capitalization said with almost boyish enthusiasm:

"It seemed very large to us, who began with only \$4,000 in 1852."

Flashes of Kindly Humor.

Thus the proceedings lost in a measure their official aspect because of the engaging manner which Mr. Rockefeller displayed in his answers, which now and then contained flashes of kindly humor. A glow of health shined in Mr. Rockefeller's smoothly shaven face and to inquiring newspaper men he replied that he never felt better. The president of the Standard Oil company was dressed in a plain suit of dark material and across his vest was suspended a heavy gold watch chain. A dark purple necktie, in which a large pearl pin was set, snugly closed to a high collar.

The developments of Mr. Rockefeller's testimony today, which carried

him to the organization of the Standard Oil company of Ohio indicated that one of the lines of the defense would be that the Standard Oil company is not the result of an aggressive policy to gain the mastery of the oil trade, as charged, but the natural outcome of the economic development which the exigencies of the oil business demanded.

GATES CONFIRMS PIPE LINE REPORT

CONFIRMS REPORT THAT HE IS PLANNING TO PIPE GAS TO FT. WORTH AND DALLAS.

PLANS NOT COMPLETED

W. B. Worsham, a Henrietta Capitalist, is Also Interested in the Enterprise.

Special to the Times.

Gates of Port Arthur, the multimillionaire, confirming the report that he is planning to pipe gas from the Petrolia field to Dallas and Fort Worth, but saying that the details have not been fully arranged.

Through Texas Company.

Houston, Tex., Nov. 18.—A proposition for the construction of a pipe line from Henrietta, Tex., to Dallas and Fort Worth for the purpose of developing the natural gas properties in Clay county and utilizing the gas for the commercial and industrial development of the two North Texas cities has been taken under serious consideration by the officers of the Texas company, operating in the Texas and Oklahoma oil fields.

The matter was considered at the annual meeting of the stockholders held in Port Arthur yesterday, and it is learned that upon the fulfillment of certain requirements by the Dallas and Henrietta interests that submitted the proposition to the Texas Company, some announcement will be made concerning the details of the plan.

W. B. Worsham of Henrietta is interested in the enterprise. In connection with the people at Dallas a plan has been developed whereby it is believed the natural gas deposits near Henrietta may be piped to Fort Worth and Dallas and profitably distributed for commercial use. The plan has been placed before the Texas Company, and the proposition is well advanced. The promoters feel upon the building of such a pipe line the fuel problem will have been solved so far as the points reached are concerned.

J. S. Cullinan, president of the Texas Company, was seen tonight concerning the proposition. Mr. Cullinan stated, he preferred the Dallas and Henrietta promoters of the enterprise give out any information that is given out relating to it. He admitted the company has the proposition under consideration, but does not believe that it would be proper for him to discuss the matter of the company's attitude toward the proposition at the present time.

Merchants Present Plan to Chamber of Commerce to Make City Greater Shopping Center.

From Tuesday's Daily.
The weekly directors' meeting of the Chamber of Commerce was held this morning at 9 o'clock. Dr. Coons appeared before the directors and requested their endorsement and aid in securing the tuberculosis exhibit for Wichita Falls. The cost of bringing the exhibit here would be \$150 or \$200, this expense to be borne by the medical association and subscriptions solicited by the Chamber of Commerce. Dr. Coons was extended the endorsement of the directors with the understanding that the medical association take the proper steps in arranging for the exhibit and depending upon the Chamber of Commerce to co-operate with them in defraying the expense. It was also the sense of the meeting that the Commissioners Court be petitioned to defray all or part of the cost inasmuch as the exhibit was one of instructive qualities in the prevention of the dreaded disease of consumption and could be consistently regarded as an economic expenditure. Dr. Coons was further appointed a committee to lay the matter before the commissioners.

Chairman J. B. Marlow of the committee on Interstate Fair reported to the directors that the general sentiment with reference to the holding of the fair and the support which would be given it was extremely favorable and that his committee would have matters in shape by the next meeting to make a tangible report.

The Fort Worth Telegram made a proposition to the directors to publish a two or more page illustrated writeup of the Wichita Falls country providing they could secure between 150 and 200 annual subscribers at the special reduced rate of \$3.25 per annum. The Telegram would also furnish 1,000 copies of the supplement to the Chamber of Commerce without cost for mailing purposes. This proposition was heartily endorsed for the reason that the Telegram has been more liberal in its space to our interests than any other of the large dailies and that the proposition was a legitimate one. Inasmuch as the Telegram has already a large number of monthly subscribers in this field the matter should be easily accomplished and advantage taken of the free publicity tendered. A. E. Windthorst will canvass the city for subscriptions. A. W. Grant, editor-in-chief, personally visiting the field to write it up after the stated number of subscribers are secured.

P. H. Pennington and E. B. Stevens placed before the directors the plan of refunding railroad fares to out-of-town purchasers of merchandise in Wichita Falls, coming a distance up to fifty miles and purchasing a minimum of \$25.00 worth of merchandise or supplies from the retail merchants. The minimum purchase would not have to be made at one store, but the merchants would pay pro rata their portion of the refund. The plan received the endorsement of the directors and President Bean appointed E. B. Stevens, J. H. Russell, B. J. Bean, Marvin Smith, W. F. Jourdan, E. W. Morris and A. S. Fonville as a committee to work out details and place same into

operation, Mr. Stevens to act as chairman of the committee.

The secretary reported that nearly \$900 had been paid in on the cotton prize fund and that an additional \$100 would have to be subscribed to take care of the full ten weeks distribution. The original committee, composed of P. H. Pennington, W. M. McGregor and J. M. Bland was appointed to complete the fund. The plan is working out to the entire satisfaction of the directors and contributors. On the last drawing day seventy-five bales came to this market from Charlie, one of the owners securing the first prize of \$50.

Mr. Young's house was a two-story, eight-room structure and was one of the best buildings in town.

WICHITA FALLS' NEW OPERA HOUSE.

It is definitely announced that the new opera house will open on the night of December 21st and Manager Bean today wired the Theatrical Exchange in New York, through which the plays are booked, asking if "His Honor, the Mayor," could be secured for that date.

This play is one of the most brilliant musical comedy success of the season, and if it is brought here the cost of the single performance will be more than a thousand dollars.

If Manager Bean is not successful in getting "His Honor, the Mayor" for the opening night he will try to get "The Blockade" on that date.

The contractors are making satisfactory progress on the building and give the most positive assurance that they will have the building ready for the opening performance on December 21st.

An expert in the employ of the

Texas Fire Protective Association was here last week and examined the electric wiring and the equipment for fire prevention and pronounced everything fully up to the requirements.

Workmen this afternoon will start to nail on the laths and the plasterers will be ready to follow them. The plasterers will be followed immediately by the staff layers and before the staff layers have finished their work the decorators will be on the scene.

Mr. Bean announces that there are still about 100 seats for the first performance unsold. Most of these are \$7.50 seats and he anticipates no trouble in selling them.

The house will be divided into sections according to the prices of the seats sold and the subscribers will draw their seats by lot.

The New York World says that the phrase, "Taking Advice from Teddy," can be abbreviated this way: T-A-F-T.

"Continue to plant hogs and alfalfa," advises an exchange, "and the republican party will furnish the sunshine and rain."

his own country." According to the tally sheets not a single vote was cast though Mr. Debs makes affidavit that both he and his brother cast ballots on election day.

Citizens of Mineral Wells have subscribed \$100,000 in capital stock for a new railroad to the northwest running to Gainesville. The citizens of the latter place are expected to subscribe a similar amount and intermediate towns will give substantial bonuses to aid the project.

While we are thinking about exorbitant railway rates, it may be well to remember that, owing to bad roads, that cost of hauling farm products from the fields to the shipping points is fully three times as great as the railway transportation per ton mile. On some roads it is much more.

In passing an order for the building of cement sidewalks our city council apparently has overlooked two or three stretches in the main business section of the city, or else if the owners of this valuable property have been notified to comply with the ordinance, they have paid no attention to it.

The death of Tse Hi An, the Dowager Empress, and autocratic head of the Chinese government, which she had directed without interference since 1861, has been officially announced, her death occurring yesterday at 2 p. m. Her death followed closely that of the Emperor, Kuang Hoo, who had died the evening before. An edict issued at 6 p. m. yesterday places on the Chinese throne Fu Yi, the 3-year-old son of Prince Chun, the regent of the empire.

The Emperor of China is keeping the Associated Press guessing. Yesterday his death was bulletined two or three times and the same thing has happened again today. It is the only time he has ever been brought prominently before the public and therefore can be excused for not dying on schedule time.

Several instances have been reported lately where fires originating from a bonfire or an ash dump have gotten into dry grass on lawns and conflagrations have been prevented only by prompt and vigorous effort. The high winds that now prevail render it doubly unsafe and perilous to start any kind of a fire out of doors.

Today the citizens of Fort Worth will complete the raising of \$100,000 bonus to secure a new packing house for that city. Recently the citizens of that enterprising city have subscribed \$25,000 for the Polytechnic College and \$50,000 for a new interurban line. Fort Worth is now the liveliest city with the exception of Wichita Falls, in the whole State of Texas.

With movements on foot to secure a hospital, organize an interstate fair and build two more railroads, the Wichita Falls Chamber of Commerce will be kept quite busy this winter. Even with those prospects on hand and with the details not yet worked out, the busy people of Wichita Falls can still find time to go after anything that looks good for the general welfare and advancement of the town.

It begins to look as if Mr. Bryan can never be president, and being a democrat and citizen of a republican State, his chances for a seat in the United States Senate are not over bright. He is a young man yet, and it might be to his advantage to take up his residence in Texas. In time, this State would be proud to honor him with almost any office he might ask for. Mr. Bryan likes Texas and Texas people, and Texas would be proud of Mr. Bryan as one of her statesmen.

CULTIVATING THE SOUTH.

President Taft may cultivate the South without the bestowal of political favors as a reward for political service. The gentlemen who seek such reward are not truly representative of that South which gave Mr. Taft few electoral votes, but a great deal of moral support, and which now looks to him with abiding confidence to steer the ship of state safely and securely in the channels of peace, prosperity and universal good will. Though the South did not vote for Mr. Taft the South has confidence in him and admiration for him, and will accord his administration loyal and hearty support to the fullest extent of its deserts. If the president elect shall rise above his party to the same extent as did thousands of Southern democrats who voted for him from patriotic impulse at the sacrifice of their party fealty the forces that make for enlightened patriotism may be conserved to good advantage. Let the president take the South into his confidence—not the politicians, office-seekers and patronage brokers, but the people—and there will soon be a cordial understanding and a prosperity-promoting entente that will help the country without injuriously affecting his relations with his party.—San Antonio Express.

The thousands of democrats who voted the republican ticket are no longer democrats in any sense of the word, and if given preferment over those who have always been republicans and voted the ticket under any and all circumstances, it would be showing but little appreciation of party loyalty. A "turn-coat" should be made to serve at least a reasonable length of time in the ranks of the party before being elevated to places of honor over the heads of those who have stood up and voted the party ticket straight from the head to the tail of the ticket when they knew they were in a hopeless minority. The South has no use for a "turn-coat" and even if President-elect Taft does conclude to recognize a few of such so-called democrats by appointing them to office, such acts will not have the desired effect. A loyal democrat will think more of Mr. Taft if he will appoint to office only those who are republicans from principle, and have stood by the party through thick and thin. Democrats—those who vote the ticket, are not seeking office under a republican administration; neither will a loyal republican accept office under

a democratic administration, if the accepting of such an office in any wise involves loyalty to his party. "To the victors belong the spoils" of office, and so long as the government is in the control of the republican party, only loyal republicans should fill the offices.

As editorial contributor to The Outlook, a magazine whose principal stockholders are also stockholders in the Standard Oil Company, President Roosevelt will be in no position to make attacks on Foraker, Haskell and others who have been charged with having been influenced by Standard Oil money.

The prospects are that more in the way of building will be accomplished during the next three or four months than ever before. Plans have been drawn and submitted to the owners of

choice business lots for several neat one and two-story brick structures, and many handsome residences will be constructed during the winter.

A visit to the Wichita Falls brick and tile plant will have a tendency to cure one of a bad case of the "dumps." There everything and everybody seems on the move, and within a few weeks pressed brick manufactured at Wichita Falls will be shipped out of here in carload lots. This plant was put in at a cost of \$50,000 and will prove one of the best paying enterprises here!

day, President-elect Taft says that it is his intention to call the sixty-first congress immediately after his inauguration on March 4th, for the purpose of giving the republican party a chance to carry out its pledge to the people for a revision of the tariff. He

did not say whether the revision would be made up or down, but judging by past revisions of the tariff made by republican administrations, the coming revision is likely to have an upward tendency.

Governor Folk of Missouri says his opponent, "Gun Shoe Bill" Stone, defeated him for the senatorial nomination by working a trick. Perhaps so, but it must be remembered that when Governor Folk was elected governor of Missouri the State not only gave its electoral vote to the republican candidate for president, but also elected a legislature which was republican, which retired Senator Cockrell and elected a republican in his stead. That also looked like Folk had played a trick and if he did not succeed this time he should not grumble too much.

Last year farmers were holding their cotton for 15 cents. This year they are demanding 10 cents and selling for a great deal less. A few years more of this Roosevelt prosperity wave will bring cotton down to where 7 cents will be considered the top of the market. Yet there are farmers—cotton raisers, too—in the South and West who support the political ticket that is selected by the trust masters, who fix the price of the farmer's product before it is planted.

The Sixty-First Congress will be composed of 215 republicans and 172 democrats, showing a net gain for the democrats over the last congress of six members. Champ Clark of Missouri will very likely succeed John Sharpe Williams of Mississippi as the leader of the minority, which, for the past few years, seems almost an empty honor.

The time it requires to bake them could be used to better advantage at something else about the house, or what is the matter in taking that time to rest?

We guarantee the quality of both the Heinz and Monarch brands and know that you will be pleased with them, served either hot or cold.

THE JEWELER

WICHITA FALLS, - - - TEXAS

CELEBRATES 79th BIRTHDAY.

From Wednesday's Daily. Mr. and Mrs. A. H. Carrigan Entertain in Honor of Judge J. H. Barwise. Judge and Mrs. A. H. Carrigan entertained a few of Judge J. H. Barwise's "old time" friends last Friday evening at a 6 o'clock dinner, the occasion being the seventy-ninth anniversary of the birth of our venerable townsman—Judge J. H. Barwise, who has the unique distinction of having lived here before there was any city or railroad, and who has been here longer than any other citizen of Wichita Falls.

Mrs. Carrigan had her table tastefully arranged and an appropriate post card designated the place for each guest. Some of the cards had written on them a few lines of original poetry, appropriate to the occasion.

The menu consisted of several courses, novel among which were oysters spiced and served in a bowl of solid ice, and scalloped oysters, served a la Mandy.

The turkey and cranberry sauce were a special feature.

The pleasure of the occasion was enhanced by the informality that pervaded. After some reminiscences of former occasions, on which Judge Barwise and his estimable wife had feasted most of those present in their hospitable home, it was truly remarked that very little change could be discerned in the appearance of the Judge

now and twenty years ago. A happy incident of the evening was the dancing of a jig, participated in by "Isabel," the 18-months-old daughter of Judge and Mrs. Carrigan, and her grandfather in his 80th year, thus proving that there is something in the saying that two are as old as we feel ourselves to be.

All united in wishing their venerable friend many happy returns of the occasion.

Those present were Dr. and Mrs. B. H. Burnside, Dr. and Mrs. Wade Walker, Mr. and Mrs. M. H. Barwise and Mr. and Mrs. J. C. Hunt.

Hill-Humphrey.

From Wednesday's Daily.

Miss Mae Humphrey and Mr. R. S. Hill were united in marriage at the Presbyterian manse at five o'clock Tuesday evening by Dr. J. J. Dalton. After the ceremony the couple repaired to the home on Sixteenth street, near the high school building, recently purchased and furnished by the groom, where they are now at home to their friends.

The bride has lived in this city all her life and is popular and highly esteemed. The groom is a barber employed at Ben Williams' shop, and is a young man of sterling worth.

The Times, with the many other friends of the happy couple, wishes to extend congratulations and good wishes.

NOT A CANDIDATE BUT RECEPTIVE

BRYAN SAYS HE WOULD ACCEPT SENATORSHIP OF NEBRASKA IF HE IS CHOSEN.

NEXT TO THE PRESIDENCY

Nebraskan Says He Considers Office of Senator—Commoner Stops in San Antonio En Route to Mexico.

San Antonio, Tex., Nov. 17.—William Jennings Bryan arrived here this morning en route to Mexico for a vacation. He said that although he was not an active candidate for the United States senatorship from Nebraska, that he would accept if the State legislature should elect him to that office, which, he says, "I consider next to the presidency." This is the first definite statement Mr. Bryan has made as to the senatorship.

State House Deserted Today.
Austin, Tex., Nov. 17.—The State house was almost deserted today by the officials, they having gone to San Antonio to meet Bryan and Senator Culberson, and to attend the session of the Interstate commerce commission. Governor Campbell is expected to return next Sunday from Mineral Wells, according to today's dispatches.

Will Be Asked to Give Address.

Bold Cotton Thieves Arrested.
From Tuesday's Daily.
Upon the complaint of S. G. Lockridge, a farmer living northwest of town, R. L. Landrum and Chas. Owens, two men who live northeast of Iowa Park, were arrested yesterday by Sheriff Walkup and Constable Randolph

and brought to this city, where each plead guilty to a charge of stealing about three hundred pounds of cotton. Their plea was accepted and their fines and costs amounted to about \$30 in each case. They could not raise the amount of their fines this morning and both have a prospect of serving out their fines in the county jail. Sunday afternoon the two men borrowed a team and wagon and drove all night, collecting about 600 pounds of cotton in the seed from wagons standing in the fields. They reached Wichita Falls early Monday morning and sold their stealings to a local dealer.

From Tuesday's Daily.
Odd Fellows in a Dilemma.
The local Odd Fellows' lodge is in a perplexing dilemma. Some time ago the lodge leased the second floor of the old Ferguson block on Indiana avenue for a lodge hall. After they had signed their lease, however, the owner of the building leased the first floor room to a man named Green, who is preparing to open up a saloon. The laws of the order strictly prohibit any Odd Fellows' lodge from having lodge rooms over a saloon and to have a lodge room in such a location involves a forfeiture of the lodge's charter.

Just what action will be taken by the lodge has not been determined. They have placed the matter in the hands of attorneys and will probably seek to prevent the saloon from going in.

NORTHWEST TEX. CONFERENCE

To Meet Again at Waco—Sterling P. Strong Urges Poll Tax Payment.
Waco, Tex., Nov. 16.—The Northwest Texas Methodist Conference, South, adjourned today after selecting Waco as the place for holding the next annual conference, Fort Worth being the closest rival.

Sterling P. Strong, at the head of the State-wide prohibition movement, addressed the conference and urged all prohibitionists to pay their poll taxes in order that they may participate in the coming State-wide prohibition contest.

Reported That Emperor Was Poisoned.
Melbourne, Australia, Nov. 16.—A Sydney correspondent of the Age says that the reform party in that city has received a cablegram to the effect that the death of the Chinese emperor was due to foul play and it is feared that a rebellion will break out in China.

The Mighty Power of Mi-o-na.
Mi-o-na, that extraordinary and perfect stomach tonic, will relieve dyspepsia in twenty-four hours.

It will cure, and is guaranteed by E. S. Morris & Co., to the readers of the Weekly Times, to cure the most pitiful cases of dyspepsia, if taken according to directions.

Mi-o-na tablets not only cure dyspepsia, but all stomach disturbances, such as vomiting of pregnancy, sea or car sickness, and the stomach sickness after excessive indulgence.

Mi-o-na cures by strengthening and invigorating the flabby stomach walls and after a course of Mi-o-na treatment, constipation, if there is any, will entirely disappear.

Read this from the president of a New York corporation:
"I have been a terrible sufferer from dyspepsia and gastritis for two years. The most eminent physicians proscribed for me with no effect. I have been absolutely cured by your Mi-o-na tablets. The first one gave me relief almost incredible."—Herbert H. Taylor, 501 West 143 Street, New York City.

Mi-o-na is a most economical treatment—a large box of tablets only costs 50 cents at E. S. Morris & Co., and the dyspeptic, nervous or otherwise, who does not give them a trial, is losing an opportunity to regain health. 47-21

Dundee Station Robbed.
From Friday's Daily.
Early this morning the Wichita Valley's agent at Dundee reported to the offices of that company in this city that the station had been entered by burglars between 11:30 o'clock last night and daybreak and that cash drawer had been rifled, a number of tickets and some goods in the Wells-Fargo express office in the same building had been taken.

The exact amount of money that was taken and the other goods stolen is not known, but it is believed the amount is small.

As soon as the robbery was reported officers were sent out from this city to investigate and are now following clues which may lead to the arrest of the guilty parties.

Within the last few weeks many post offices and railroad stations in Texas have been burglarized and the railroads in this section are prepared to leave no stone unturned to run down the guilty parties.

Sorghum is a cane-like grass, with the stature and habit of broomcorn, or of the table varieties of Indian corn,

but more slender than the latter, without ears, and of a glaucous hue. Sorghum is cultivated throughout Africa chiefly for the sweet juices of the cane. In the United States, it has been employed for many years to make syrup, for which purpose it is more or less grown in every State. It has also been the subject of much experiments in sugar making.

More than 1,000 employees of the electrical engineering works at Loughborough, Leicestershire, England, have been discharged during the last three months and the weekly wage list has been reduced from \$12,000 to \$7,000.

Berlin is said to be the quietest city in Europe. Railway engines are not allowed to blow their whistles within the city limits. There is no loud bawling of hacksters, and a man whose wagon gearing is loose and rattling is subject to a fine.
