The attention of the Times has been called to an inaccuracy in the report of the shooting of Freeman Russell published in this paper yesterday In the Times report it was stated that both bullets were fired through the door of the tool house. This proves to have been incorrect, as one of the bullets did not penetrate the door, but was fired through the wall of the building. It is claimed that this was not the shot which killed Russell. Several other slight inaccuracies in the total consideration of \$82,750. always exist in collecting news.

Officials of the Wichita Falls & Northwestern Deny Allegations Made By Government Officials.

The following dispatch appeared in todays Fort Worth Record: Lawton, O. T., May 20 .- (Special)

The General Attorney of the Wichita Falls & Northwestern Railway Company requests the Times to state that the above dispatch is misleading and untrue in every respect. There is not now and has never been a single business concern, settler or squatter on any of the right of way of the Wichita Falls and Northwestern Railway Co. About twenty business men have congregated of their onw accord in the public road near the end of the track and about a quarter of a mile from the right-of-way, and seem to be doing a ood business. The route of the rail

road was surveyed before the location of any of the government towns was made known to the public or to the San Francisco, Cal., May 21.-The Railway Company, and the Company case of Mayor Engene Schmitz, on filed their map in the General Land trial on a charge of extortion, pro- Office at Washington over a month ceeded today. The Land Office officials knew where the railroad would run, and either from accident or design placed I their town entirely off its line. The Railway Company did not know where this town or any of the others would be, but laid out its route simply with a view of selecting a good grade, and we cannot see where the company can be said to have in the slightest degree antagonized the government towns, as

it is built on its original route. It is probable that the action of the Lawton, Wichita Falls & Northwest, ern Railway Company, which originally was surveyed to run by the town of Randlette, but was afterwards changed so as to miss that town some three or four miles, has been mistaken by the government officials to be the Wichita Falls & Northwestern Railway Company, which is an entirely different company, and which has never deviated in the slightest from its original program and route.

The courts of the Wichita Tennis Club at the corner of Lamar avenue and Seventh street are the scene of some spirited matches these warm afternoons. The local tennis players are getting in training for some big tournaments later on with players Vernon, Bowle, Decatur and other neighboring cities. Challenges will soon begin to fly thick and fast and the Falls city players do not propose any set of prospective champions to allow a challenge to pass unnoticed.

THE CHECK As a Receipt

Sometimes you like to have evidence in writing that you cancelled an obligation-you want a receipt for future reference. The best method is to open a checking account with us. For every bill you pay by check, you have a receipt. You also have a complete record of your business.

Pay by check--it's the systematic way that gives you a receipt in all cases.

Vernon, Tex., May 21.—T. W. Dunk-lin had the misfortune to get his leg broken in a runaway yesterday. While coming from the freight depot his team of mules ran away, throwing Dunklin from the wagon, breaking his leg near the thigh.

The Methodists are conducting one of the biggest revivals ever held in this city. Every store in town closes from 10 to 11 a. m., and the proprietors as well as the clerks attend. All denominations are lending a helping hand. Home preachers are doing the preaching. Not a church building in town will accommodate the people, and a large tent has been ordered.

There are some fine fields of wheat in the county, yet many of the larger fields were totally destroyed by the bu gs Corn, cotton and cantaloupe crops are fine and heavy yield is expected. The fruit crop is something

GREATEST ASSEMBLY

Ever Convened by the Presbyterians is the Meeting at Columbus, Ohio. Columbus, O, May 18, 1907.

Editor Wichita Dail; Times, Wichita Falls, Texas.

I have just received your initial number of the Daily Times and wish to congraulate you on your first issue. Without any inclination whatever to flatter you, I must say that I did not expect to see such a newsy paper at the beginning. Every citizen of our progressive and wide awake town feels a special pride in this new enterprise and should cheerfully give his enthusiastic support in order to maintain its life and usefulness.

Mr. H. T. Canfield and I reached Columbus, a city beautiful to behold, on schedule time Thursday morning, the Memorial Hall to hear the opening sermon of the 119th General Assemsons, Dr. Ira Landrith, now of Nashville. Tenn. This magnificent discourse electrified the great audience, estimated at five thousand people, as he spoke for one hear with his matchless Southern oratory. The large number of Texas delegates were par-Archer G. Tex., May 21.—Sanford donably proud when the moderator, ace in this city was Dr. W. H. Roberts, of Philadelphia,

To Sink Well.

The Pioneer Oil & Tankage Co., with Seymour citizens as stockholders, has recently leased the holdings of J. S. Shultz in the Petrolia oil fields, and are to begin sinking a well on the land within sixty days. W. A. Bennet lately purchased a rotary drill for the company in the Beaumont oil fields and secure dthe services of a Mr. Bell, a very fine drill man to sink a well for the company at Petrolia. The derrick is eighty-two feet high and will put a hole in the ground in a hurry. Another 250-barrel well was brought in last week in this new field and our citizens stand a good chance of striking it rich.-Seymour

The Ladies'. Aid Society tof the Christian church spent a delightful evening Tuesday as the guests at a "fish fry" at the hospitable country home of Mrs. Dr. Tyson, three miles northeast of town. About thirty-five guests were present at the "fish fry" and the occasion was a highly enjoyable one. Over twelve dollars was realized from the offering at the en-

THE CELEBRATED

Warner's Rust-Proof And Redfern Corsets

The pleasure we take in presenting to you the latest models in the Redfern will be exceeded only by the pleasure you will have in wearing one of them. All our salespeople are trained

in corsetry and are qualified to serve you well. There is much to know about corset models this season. There is a nicety in the adjustment that has not been needful before. To fit is one thing-to fit and creste is another. These are the essentials in corset selection this season. The figure must be made and in the vernacular of the day-"it is up to" the corset to build the base, we thought for you and actually have the make of corsets that com-

bine the essentials. These models are here this week in full array and we but await the opportunity to show them to you.

Plumbing County Sunday School Convention, re-

cently held in this city, by Miss Bush.

No officer in the church holds a

more responsible position than the superintendent of the Sunday school, It

requires peculiar qualifications-a rec-

ognition of the proper relation of the

school to the church, a realization of

the tremendous possibilities of the

Sunday school. The superintendent

should recognize fuly his relation to

his pastor to the church, to the times

represented in the Sunday school, to

the officers and teachers and likewise

to the scholars. He should be a man

of generalship, gumption and grace-

a leader, not a driver, a counsellor and

not a dictator. He should be able to

inspire those associated with him and

to encourage those who are bearing

heavy loads. He should be a student

of the Sunday school; read every good

book on the subject that he can se-

cure; go to the places where Sunday

school workers go, thus coming in con-

tact with those who are in the midst

of the work. He should visit other

schools and see how their work is

done, that he may learn thereby. He

should have a clear head and use it

unceasingly and intelligently for the

good of the school, two good eyes to

discern the pressing needs and how

to meet them, frequently wearing the

far-seeing glasses that he may plan

far into the future not forgetting to

put on the near-seeing glasses when

he studies the school itself, two good

ears which will readily detect the

rumbling of approaching trouble, a

tongue not too ready for use, but

never holding back the helpful word,

always complimenting where any

seems deserved and never scolding

or finding fault, two good feet where

help is neded, even though the way be dark, two strong hands, ever ready

to lift the big end of the load-a man
