

BODY OF UNKNOWN

FOUND BY SECTION MEN IN THE DENVER TANK.

WAS BADLY DECOMPOSED

Had Probably Lain in Water A Week—Suicide Theory Advanced.

Caught in the bars of a wire fence which runs through the water of the Denver railroad tank, about a mile and a half east of town, a section gang on the Denver this morning discovered the badly decomposed body of an unknown man.

The discovery was at once reported to the authorities and Sheriff Davis and Coroner Brothers drove out to the tank and with the assistance of Dr. Boger and others threw out lines to which fish hooks were attached and towed the body to shore.

The body was badly swollen and decomposition had set in. From appearances it may have been in the water from five to ten days.

So far no one has been able to identify the body.

The man was evidently about five feet, six or seven inches in height and probably weighed about 165 pounds. He wore a rather dark brown mustache. His clothing was a double breasted coat of black or blue serge with trousers of the same material. The shirt was of blue striped negligee pattern. The coat was buttoned across his breast.

In his pockets were found pieces of newspapers printed in German, a razor, some towels, a pocket knife and a watch, but no money. The watch is a small silver timepiece and engraved in the lid are the names, "R. Duckman, Uhrenfabrik, Urfurt," beneath which is rudely scratched the name "A. Koriath."

These are the only articles by which it can be hoped to establish the man's identity.

The body was removed to Jackson Bros. morgue this morning and will be interred this afternoon unless new developments should arise.

Coroner Brothers is of the opinion that the man either committed suicide or that he fell from the Katy bridge which crosses one end of the tank. No marks have been discovered on the body which would indicate foul play. Mr. Brothers believes that the man had probably been employed at some of the railroad construction camps out of this city.

Rumor Found Untrue.

It was persistently rumored on the streets this afternoon that the body found in the Denver tank was that of Harry Johns, a German farmer living northeast of town. It was reported that Johns had been missing from his little cabin on the river since last Wednesday. An investigation discovered that Johns was alive and in his usual health.

Late this afternoon, the identity of the dead man had not been established.

Postmistress Appointed.

By Associated Press. Oyster Bay, N. Y., Sept. 16.—The president today appointed Mrs. H. K. Felton postmistress at Walnut Springs, Texas.

Mrs. G. L. Talley has returned from a visit to Dallas and is much improved in health. Her son, Spencer, remained there, having secured a good position.

REPORT FIRMLY DENIED AT BERLIN

Berlin, Germany, Sept. 16.—The German office today formally denied the reports that Baron Sprek Von Stornberg is to retire as German ambassador at Washington and authorized the statement that Emperor William and Chancellor Von Buelow have the fullest confidence in the ambassador and desire him to remain at Washington as long as he desires to do so.

CONDEMNNS MODERNISM.

It is the Synthesis of all Heresy, Says the Pope.

By Associated Press. Rome, Italy, Sept. 16.—Obrivatore Romano, the organ of the vatican, today issued an important encyclical of Pope Plus X on modernism, which is really the completion of his recent syllabus. The document sets forth modernism as a serious danger to the church; refers in detail to the various features of modernism; condemns it as dangerous in philosophy, faith, theology, history, criticism and reforms; and arrives at the conclusion that modernism is synthesis of all heresy and must logically lead to atheism.

The encyclical provides that committee censorship be established in every diocese to pass upon the publications which the clergy and the faithful shall be permitted to read.

Schools in Big Pasture.

Lawton, Okla., Sept. 15.—Of the eighty-two school districts in the Big Pasture Indian reservation recently thrown open to settlement, only thirty-five have been organized with the intention of holding school this winter, according to information received by County Superintendent E. B. Nelson. In the other districts it is felt that the population is too scattering to warrant the organization. Many of the schools do not open until the last of November on account of gathering cotton.

PROCLAMATION ISSUED.

Every Camp Modern Woodmen Asked to Initiate Twenty-five Members.

By Associated Press. Lincoln, Neb., Sept. 16.—Supreme Councillor Talbot of the Modern Woodmen today issued from his headquarters at Rock Island, Ill., a proclamation asking the twelve thousand camps of this order to hold an anniversary celebration on January 5. He asks each camp to initiate 25 members on that date, bringing the total membership to more than a million.

"Montana," that new Western song that is making such a big hit everywhere, at the Majestic tonight.

BOTH PARTIES ARE BRACED FOR BATTLE

Oklahoma City, Okla., Sept. 15.—Both parties are bracing themselves for Tuesday's battle of ballots, when the Constitution is to be submitted to the people of the new State, a full State ticket elected thereunder and State-wide prohibition voted upon. Five congressmen and a legislature of 153 members are also to be elected.

Members of all parties concede ratification of the Constitution by from 60 to 80 per cent of the total vote. This means anywhere between 90,000 and 120,000 majority for it. Republicans have only made desultory campaigns against ratification.

None of the political parties are making official claims in figures. The Democrats, however, anticipate a healthy vote for the ticket, estimating the majority from 25,000 to 30,000, which is assumed to be the normal democratic majority in the State. Practically no fight has been made against any nominee except C. N. Haskell, nominee for governor. Notwithstanding this, his friends are expecting him to equal the ticket vote, if not lead it.

Killed By Pitched Ball.

By Associated Press. Montreal, Can., Sept. 16.—Henry Pilon was struck over the heart by a pitched ball in a game here Sunday and died almost instantly. After being hit Pilon threw the ball to the short-stop and dropped dead.

Constantine Arraigned.

By Associated Press. Chicago, Ill., Sept. 16.—Frank J. Constantine was arraigned today on a charge of murdering Mrs. Louis Gentry. It is alleged that he cut her throat, but the motive has never been discovered.

CHAOTIC CONDITION

WOULD FOLLOW ENFORCEMENT OF SHERMAN ANTI-TRUST LAW.

KNAPP EXPLAINS VIEWS

Says Prohibited Traffic Associations are Necessary to the Conduct of Railroad Business.

By Associated Press. Chicago, Ill., Sept. 16.—"Co-operation, not competition, is the hope of the future," declared Martin A. Knapp, chairman of the interstate commerce commission yesterday, as he explained his attack upon the Sherman anti-trust law at a meeting of the American Association of freight traffic officers Saturday. "The law defeats the purpose for which it was passed and if railroads did not violate its interpretation by the supreme court we would have chaotic conditions suited only to savagery. I hope to see the supreme court come around to my way of thinking or congress pass a law providing the legal status of these traffic associations all over the country. They are absolutely necessary to the conduct of railroad business."

BADLY INJURED IN MILL ACCIDENT

Cooper Cox, an employe of the Wichita Mill and Elevator Company, was severely injured this morning while at work in the mill. At about 7 o'clock Tom Bright, the second miller, found Cooper lying unconscious on the floor with blood streaming from cuts on the side of his head. Dr. Miller was called to attend the injured man and found that the wounds, while severe, were not serious. The injuries consisted of severe bruises and a couple of bad cuts.

The manner in which Cox came by his injuries is not definitely known. Cox himself has no recollection of how the accident occurred.

He had been oiling some machinery and tightening some belts and it is believed that he fell or was thrown to the floor.

UNNAMED AND UNKNOWN.

Daughter of Poor Irish Woman Substituted for Son of Prince de Chimay.

By Associated Press. Chicago, Ill., Sept. 16.—Mrs. Mary Martin of Oakland, Cal., who spent Sunday in Chicago, is quoted by the Inter-Ocean as saying one of the two children whom Prince de Chimay has in his charge is not the child of his former wife, but of a poor Irish woman. It is asserted that in 1891 when the princess gave birth to a son in a New York hospital she substituted the girl for him, sending the boy out into the world "unnamed and unknown." Mrs. Martin is accompanied by a youth of 16, who, she says, is the princess' son. Princes De Chimay was Clara Ward daughter of a deceased Detroit millionaire. Her divorce from the prince and her escapade with and subsequent divorce from a violinist named Rigo caused an immense amount of gossip.

A special to the Times from Evreux says that a fine son was born to Mr. and Mrs. Charles Ridger at that place yesterday. Both the mother and child are doing nicely.

FURRIER'S STRIKE WAS BEGUN TODAY

By Associated Press. New York, Sept. 16.—A general strike involving eight thousand furriers was ordered at a mass meeting of the furriers' union Saturday night and will begin today throughout the city. The strike order was the result of the lockout of three men and girls employed by the employers' association in the fur trade.

AT THE TENT MEETING.

Large Congregations Listen to Two Most Excellent Sermons.

There was no service held at the tent Saturday night, but in lieu thereof a large throng gathered at the corner of Ohio avenue and Seventh street to hear Rev. Lockhart's discourse on the subject, "Rightly Dividing the Word of God." The crowd listened attentively to the words of the forceful speaker and seemingly enjoyed the sermon.

At 11 o'clock Sunday morning every available seat at the tent, corner of Eighth street and Travis avenue, was occupied. Rev. Lockhart, the evangelist, preached from the text, "The Church of Christ," and was followed closely by his hearers throughout.

At night he preached an exceptionally strong sermon on "The Divinity of Jesus of Nazareth." The congregation was as large or even larger than at the morning service, and at the conclusion of this service two came forward and joined the church.

Following is the program for services at the tent this week:

Monday evening "Faith"
Tuesday evening "Repentance"
Wednesday evening "Confession"
Thursday evening "Baptism"
(Bring your Bibles.)

Friday evening "The Temple of Solomon and Its Typical Character."

Saturday evening "Short Bed and Narrow Covering."

Lord's Day, 11 a. m. Primitive Christianity.

Lord's Day, 3 p. m. Sermon to the Children.

Lord's Day, evening "What Church Shall I Join?"

The song service, which is a special feature of this work, will begin each evening at 7:45.

Special readings and investigations each morning at 10 o'clock.

Monroe Allen Tyler, the six-months old son of W. F. Talley and wife, who live in a tent on North Indiana avenue, died at 2 o'clock this morning, after an illness of several weeks. The funeral took place this afternoon.

New pictures and songs at the Majestic tonight.

LOAN SHARKS DROVE HIM TO DESPERATION

Chicago, Sept. 16.—John W. Miller, a railroad clerk, who was arrested Saturday night on a charge of attempting to kill and rob Edgar M. Crumb, a diamond broker, confessed the crime yesterday. Desperation, caused by the hounding of a horde of loan sharks, was given by Miller as his reason for the crime. Miller lured Crumb to his flat by pretending to buy diamonds and beat him over the head with a stove poker and a meat cutter. Crumb is lying near death at the hospital.

AN INVESTIGATION

TO ESTABLISH BLAME FOR TERRIBLE WRECK STARTED.

TWENTY FIVE KILLED

Passenger and Freight in Awful Crash Near Canaan, New Hampshire.

By Associated Press. White River, Vt., Sept. 16.—Twenty-five lives were lost and twenty-seven persons injured in a head-on collision yesterday between the southbound Quebec express and a north bound freight on the Concord division of the Boston and Maine railroad, four miles north of Canaan station, N. H., due to a mistake in the train dispatcher's orders. The baggage car telescoped the passenger coach behind it and most of the killed and injured were in this car. Nearly all those in the death car were returning from the fair at Sherbrooke, Quebec.

The conductor of the freight was given to understand that he had plenty of time to reach a siding beyond Canaan on receiving a copy of the telegraph order from the dispatcher at Concord, which confused train Nos. 30 and 34.

Twelve Leave the Hospital.

By Associated Press. Hanover, N. H., Sept. 16.—Twelve of the twenty-seven persons taken to the Mary Hitchcock hospital, suffering from injuries received in the railroad accident at West Canaan station yesterday, had recovered sufficiently to leave that institution today and but fifteen still remained. None of these are in a dangerous condition.

Investigation Has Started.

By Associated Press. Canaan, N. H., Sept. 16.—An investigation in to the terrible disaster of yesterday was begun today. According to the railroad officials a blunder in handling train orders was the cause of the accident, but the identity of the employe responsible for the error remains to be determined. Station Agent Gereley of Canaan, through whose hands passed the fatal orders for the freight train to proceed on the passenger train's time, was temporarily removed today.

Chamber of Commerce.

All members are urgently requested to be present at a meeting to be held this Monday, night at 8 o'clock in the office of the Chamber, to take the necessary steps looking to an exhibit at the Illinois State fair.

A. E. MYLES, Secretary.

Mrs. R. G. Knowles of Childress is visiting Mesdames V. S. Kay and Clark Fowler of this city.

W. B. Sanders, a well known real estate man of Chillicothe, is here looking after his interests in this city.

THIRD TERM TALK

CONGRESSMEN AND SENATORS PERSISTENT IN ITS REVIVAL.

NEED ANOTHER DENIAL

Believed That President Roosevelt Will Be Impelled to Make Further Statement on the Subject.

Washington, Sept. 14.—Members of the house and senate who are beginning to drift into Washington are showing much unanimity in urging that President Roosevelt be given a third term. It is clear that when the president gets back to Washington there will be a great revival of the third term talk, provided he is given a hearty reception in the West, on his trip to Canton and down the Mississippi. This talk will emanate from members of the house in districts where the third term sentiment is strong and from senators representing States that have a powerful Roosevelt following. Others of congress than these find it politic to talk in favor of a third term whether they desire it or not.

This week there has been a lot of third term talk from senators and representatives, and there is no question that much more of it will be heard when the president gets back to Washington for the season, and the members of congress begin to gather in Washington more thickly to get ready for the opening of congress.

At that time there will be opportunity for judging what the third term advocates are going to accomplish. If the president is disposed to give encouragement to the third term talk, as he is charged with so freely, it will probably develop this fall; if he is set against it, as his friends insist, and is bent on nominating Taft, this fact will probably be made manifest.

A good many believe that the third term movement will be presented to the president before he has been in Washington any length of time in so serious a light that he will be impelled to deal with it in a further statement.

Excursion to Lake Wichita.

The Wichita Falls and Southern railway ran an excursion train from this city to Lake Wichita yesterday, making three trips during the day, the first train leaving here at 8 a. m., the second at 2 p. m. and the third at 7 p. m. Mr. C. L. Fontaine, general freight and passenger agent of the road, in speaking to a reporter of the Times on the subject, said that 274 tickets were sold. The distance is only about six miles and a ticket for the round trip sold for 25c.

Those who went out to the lake spent the day most pleasantly. Refreshment stands, such as cold drinks, sandwiches and ice cream, were on the ground and the little naphtha launch Benton, which carries about twenty-five passengers, was kept busy through the day making its regular trips across and from one end to the other of the big lake, covering a distance of about ten miles.

The crowd was orderly and well-behaved and seemed to enjoy the trip to the fullest extent.

Mr. Fontaine informs the Times that another excursion will be run to the lake on next Sunday, but that the first train will not leave here quite so early, perhaps not until 9 or 10 o'clock. He also said that it is more than likely that excursions will be run to the lake every Sunday from now on.

In the near future a pavilion will be constructed on the banks of the lake and when this is done these excursions will become more popular.

There will be a called meeting of the R. A. M. for Monday and Tuesday nights, Sept. 16th and 17th, for the purpose of work in Mark and Past.

BUSINESS COLLEGE OPENED TODAY

The Wichita Commercial College opened its fall term this morning with about twelve pupils enrolled on the opening day. Other pupils will enroll during the week and those in charge of the new institution expect to have a good enrollment before the end of the week.

A full commercial course is taught, the school being affiliated with the West Texas Business College at Abilene.

The college is located on the second floor of the First National bank building.

The officers are: Gaston Hill, president; Prof. Herbert Townsend, head of the shorthand department and A. M. Beeman, head of the bookkeeping department. The traveling representative is A. M. Vinson, who has been here for several weeks. The new institution will fill a needed want and the Times wishes it success.

In speaking of the departure of President Gaston Hill for this place, the Abilene Reporter says:

"President Gaston Hill of the West Texas Business College and Prof. Herbert Townsend leave tonight for Wichita Falls, where they will be present Monday at the first opening of the Wichita Commercial College. This new institution has been chartered and while it is principally owned by the management of the school here it will be conducted entirely separately. The school will be first class from the start in every respect and Prof. Hill informs us that he has the assurance of a large attendance at the opening. He will spend about ten days at Wichita Falls and see that everything starts off properly."

Esther Eddings, the little 4-year-old daughter of Mr. and Mrs. A. H. Eddings of Petrolia, died at 3 o'clock yesterday afternoon, the result of a complication of diseases. The remains, accompanied by the bereaved parents, were shipped to San Augustine today for burial.

In olive oil we offer S. Rae's Finest Sublime Lucca and guarantee it to be absolutely pure. 35c and 50c bottles. **TREVATHAN & BLAND.**

CALL ROAD THE KATY

MISSOURI, KANSAS AND TEXAS OFFICIALS AGAIN TAKE UP USE OF TERM.

NOT USED FOR TWO YEARS

Management Finds Public Unwilling to Abandon Catchword That Proved to Be Popular.

"Again the Katy Flyer, beginning Sunday, 15th," were the words included in a telegram sent to W. G. Crush, general passenger agent of the Missouri, Kansas and Texas Railway, by the chief clerk in his office, Randolph Daniels, announcing the fact that the term "Katy" will be used in the advertising matter furnished State dailies for Sunday's issue. Mr. Crush is at 645 Market street, Camden, N. J., where Mrs. Crush is visiting. He will not return to Texas for some time.

After having abandoned the term Katy two years ago, the Missouri, Kansas and Texas railway company's management directed the expenditure of thousands of dollars, which was used in changing signboards, many hundreds of which were scattered throughout the Southwestern country and bearing the term "Katy Route" or "Katy Flyer," etc. This "suppression fund" was also applied to purchasing extant copies of the widely known Katy Girl, whose face appeared in lithographic prints, in finer electrotypes, etc., and today the possessor of a copy of this picture considers himself fortunate in having something rare and which is a sort of treasure, owing to the mysterious, sudden abandonment of the term and the picture representing the Missouri, Kansas and Texas railway. In the Dallas general offices are to be seen two that were preserved, one being a copy of the picture of the original Katy Girl, while the other is a copy entitled "A Katy Girl."

Phrase a Popular One.

The history of the term Katy as applied to the road was probably one of the happiest catch words ever introduced in America, because the higher officials of the road have finally admitted themselves unable, through officially ignoring the word, to rid the Missouri, Kansas and Texas of the nickname. The public persists in speaking of the Katy and obstinately calls the road the Katy, and, despite the silent protest, Katy it is and Katy it shall remain so long as it exists. So the officials have at last decided to bow to the inevitable.

The history of the term as applied to the road, shows it to have been one of those particularly fortunate catch words, one that was taken up throughout the United States. The picture of the Katy Girl became, perhaps, as popular as the "Fencing Girl." A mystery seemed by common consent to hang over the identity of the original of the picture. To this mystery were assigned various special writers for Sunday supplements and the Katy Girl was exploited for fair. When the word was left out a silent protest against it by the higher officials or somebody in authority, columns of space were afforded the mysterious event. Clerks, in answering the telephone for months, were exasperated by the eternal query, "Is that the Katy?"

To which the inevitable reply had been instructed to be given: "This is the M. K. & T."

It took long, weary, dragging weeks to persuade the public that the road knew no such term officially as Katy. Even then the people refused to believe it was serious, and after two years the road is still nothing but the Katy, and from sheer exhaustion the officials have decided to accept the situation and it is and as it will probably remain so long as the road shall exist.—Dallas News.

BALLINGER TO ABILENE.

Citizens Subscribe for Stock—Location Work Doing.

Ballinger, Tex., Sept. 13.—For several days a movement has been on foot by local capitalists to organize a company to construct a railroad from this city to Abilene, Texas. The necessary amount of stock was subscribed in a few hours, a civil engineer has been engaged to locate the line and began work today. A preliminary line will be completed within the next two weeks, it is said, and a permanent line will be located and profile made within the next thirty or forty days.

Ed. Howard.....General Manager.
S. D. Donnell.....City Editor

Wichita Falls, Texas, Sept. 16th, 1907.

The Times is in receipt of an offer from the M. O. Publishing Company to furnish it with matter in plate form, one page a week, articles setting forth, as it alleges, "facts and arguments against municipal ownership of public utilities," free of cost to it. The articles are edited by Arthur H. Grant, and the office of the M. O. Publishing Company is given as 119 Nassau street, New York City. Many papers have accepted their proposition and are publishing the matter, but the Times has just written the outfit that it did not desire any of the stuff. The Times has at its command all the evidence it desires on the matter of ownership of public utilities by corporations and by municipalities, and from this evidence it favors municipal ownership of all public utilities. Wichita Falls should own its own waterworks and lighting plants, and that she does not own them is a calamity, the effects of which is now being most keenly felt. She has just voted to bond herself for the purpose of extending the sewerage system, and if this experiment proves satisfactory, she will more than likely purchase from the present owners the water and light plants. In the opinion of the Times, every city should own and control its own public utilities. Statistics show that in a great majority of cases where cities own and control their own public utilities, the results are very satisfactory.

A careful examination of all subscription lists and records of every character, reveals that Sears, Roebuck & Co. and Montgomery, Ward & Co. have to date donated \$600,000 toward various public improvements in Wichita Falls. These firms have also voluntarily offered to donate \$300,000 for public road improvements in Wichita county and the different churches are expecting a gift of something like \$300 during the winter months. Unfortunately neither of these firms have made provisions for local relief charities, such as helping a man in case his home burns or where his family is sick, but it is thought that they will soon create a fund for these purposes and their customers will have still more reason for feeling that they are making a good deal in buying a lot of fire damaged goods at fancy prices.

SHERIFF AND CAPTAIN OF RANGERS HAVE LEFT TUCSON.

TO CAPTURE INDIAN JOHN

Red Men Guard Trail to Village and a Fight is Expected.

By Associated Press.
Tucson, Ariz., Sept. 16.—Sheriff Pachaco and Henry Wheeler, captain of Arizona rangers, left Tucson yesterday at the head of a posse to effect the capture of John Johns, a Papago Indian, who is at Rancho, an Indian village 150 miles southeast of Tucson. Sixteen days ago Johns killed a Mexican. The Indians resisted the officers sent to arrest Johns and now threaten to kill the first white man who appears on the trail to the village which they are guarding. The posse proposed to take Johns dead or alive, and a fight is expected.

But few people can sympathize with Charles E. Letten the defaulting chief clerk in the tax collector's office at New Orleans, in his present trouble. According to his own confession, he stole and gave to his negro mistress during a period of eighteen years \$119,000 and claims he was mesmerized and under her influence during that time. Both he and the negress have attempted to commit suicide since the exposure and the great pity is that they were not allowed to carry out their intentions. The negress, it appears, has invested a greater portion of this stolen money and Letten's employer has brought suit against her to recover a portion of it. The defaulting clerk, it appears, has a wife and son, neither of whom, he claims, knew of his secret relations with the woman. So far, his wife has not visited him in prison, nor has she sent him any message whatever. If she sticks to her determination to cut loose from him entirely the world will think more of her. Any white man who falls as low as Letten has fallen in good morals is entitled neither to the sympathy or respect of decent white people.

COTTON CROP CONDITIONS.

Reports From Nearby Towns. Taken From the Dallas News.

Vernon—The cotton crop in this section will be very light this year on account of the cold, wet weather in the early spring and the hot, dry weather that has prevailed for the last four or five weeks. The plant is putting on very little or no fruit at the present, and picking has not begun. The yield per acre through this section of the country will be at least 50 per cent less than it was last year.

Electra—Cotton in this vicinity is fruiting some, except in certain localities on the tight land, where the fruitage stopped before the rain which fell this morning. The plant has never been injured in those parts by boll weevil or any other insect to any noticeable extent. Picking has not started in this country yet, probably less than a dozen bales having been marketed in the county. Picking will be well under way in about two weeks. The yield is expected to make an average of not more than half a bale per acre, though some fields will far exceed that figure. Cotton is generally full, but the bolls are unusually small, and a majority of the opened bolls show up badly, small and short staple. Not a bale has been picked in this vicinity, though a few were to start today.

Iowa Park—The plant is still fruiting. We have no boll weevils. No picking has been done yet. The average yield is about twenty-five per cent less than it was last year.

Holliday—The plant is now fruiting. There are no boll weevils here. Practically none of the crop has been picked. The yield will be less than 50 per cent of last year's crop.

Archer City—The cotton has not fruited for the last fifteen days, owing to excessive dry weather. There has been no damage by boll weevil. Pick-

Your new Fall clothes are ready for you now in our store and we are going to hold a special Opening Reception to introduce

Copyright 1907 by Hart Schaffner & Marx

you to them. You're invited; and when you come you'll meet a lot of the finest clothes you ever saw. We feel that our good friends and our good clothes ought to know each other better.

These are Hart Schaffner & Marx clothes, and you can put it down as a fact that better clothes, more stylish, more perfectly tailored, never came from the hand of a tailor.

The new suits are in a number of very smart models, and the patterns are varied enough to suit every taste—greys, browns, tans, in stripes, plaids and checks.

The new Fall overcoats are certainly very snappy; you'll find your kind here. It is hardly necessary to say that Hart Schaffner & Marx clothes are always all-wool; you get no cotton mixture stuff under that name.

Other departments are full also of fine seasonable goods; hats on the latest blocks; shirts and neckwear like a regular flower-garden of color and rich design.

WISE COUNTY COTTON.

Government Crop Reporter Figures Severe Recent Loss.
Decatur, Tex., Sept. 14.—J. D. White, veteran Government crop reporter for Wise county, stated today that the deterioration in cotton during the past twenty days had been, according to his estimate, 33 1-3 per cent. He looks for no cotton now but that from fully matured bolls, and thinks there is no chance for the younger growth to fruit.
Mr. White places the estimate of total bales for Wise county for this year at 18,000, whereas beyond 42,000 were marketed from the 1905-1906 crop.

WAYLAI D AND SHOT BY ITALIAN MINERS

By Associated Press.
Pittsburg, Kan., Sept. 16.—At Crowburg, a new mining camp in the northern part of this county, late last night, Charles Gardner, a mine boss, and his sister, Mrs. George Rexford, were waylaid on a lonely road when returning home by a number of Italians and both were shot and fatally wounded. Gardner returned the fire and killed two Italians.

JOYS OF A COLLECTOR.

Picking Up a Valuable Painting at an Auction Sale.
Collecting will always have its romances. I know of one that occurred at the sale at Christie's of the effects of the late Sir Henry Irving. Some one I knew had been to see the collection before the sale. He came across a portrait with which he was familiar because he had seen it thirty years before. On consulting his catalogue he discovered that the portrait was described as being that of a man unknown, and, further, the artist was also unknown. Now, he knew that the portrait was that of a famous actor by a famous English painter. He longed to buy it, but decided that it would go at too high a price. He went to the auction with very little hope. The Whistler and the Sargent were sold, and then it was the turn of this picture. Nobody recognized it. Finally he had to start the bidding himself, and this he did. Only one man bid against him, but he soon stopped, discouraged, and then the picture was knocked down to the man who had never expected to get it. He hurried to the desk to pay the small amount and to carry off his prize. "Do you happen to know anything about that portrait?" the auctioneer asked him as a porter took it down to a cab. "I know it very well," said the new owner, conscious that it was now safely his property. "It is a portrait of Buckstone, the actor, by Daniel Maclise. There is an engraving of it in the Maclise portrait gallery."—Mrs. John Lane in Pearson's Magazine.

STATUS OF COTTON.

Reports Show Indicated Yield for Texas of 61.03.

The Dallas News' cotton report of the condition in Texas and Oklahoma and Indian Territories was published this morning. The report shows that in Texas the crop condition on September 10th was 61.03 per cent as compared with last year. In the two territories a better showing was made, the crop conditions there being thirty per cent better than last year.

The reports indicate that the crop is better in the territory north and west of Wichita Falls than in any other portion of the State.

DECREE MORE STRICT

CATHOLICS MAY WED ONLY BEFORE DELEGATED AUTHORITY.

PARISH PASTOR DEFINED

Willingness of Spiritual Advisor Necessary to Make Contract Legal and Valid.

The new decree on marriages just issued by Pope Pius X., takes a firmer stand on the question of non-ecclesiastical marriages than ever and will make universal, with modifications, the Tametsi, or Council of Trent law, which heretofore has obtained only in Catholic countries and in certain large portions of the United States, notably St. Louis and New Orleans.

By this law, two Catholics may be validly married only before the parish priest or the Bishop of the diocese or a priest delegated by either of these and at least two witnesses.

Archbishop's Opinion.
Archbishop Glennon said last night that the reform measures were considered more binding in certain respects. He has not received formal notice of the decree. Several copies, however, have reached the city in Catholic journals from Rome.

In contradiction of the published assertion that persons other than ecclesiastics can have power to perform marriage, the decree says:

"Those who otherwise than in the presence of the parish priest himself, or another priest acting with the license of the parish priest, or of the ordinary, and in the presence of at least two witnesses, shall attempt to contract matrimony, the Holy Synod renders them altogether incapable of contracting marriage thus, and decrees that contracts of this kind are null and void.

"But, as the same sacred council prescribed that said decree should be published in all the parishes, and was not to have force except in those places in which it has been promulgated, it has happened that many places in which the publication has not been made have been deprived of the benefit of the tridentine law, and are still without it.

"Influenced by these circumstances, Pius X has endeavored to so modify the law as to make its universal enforcement feasible.

"The reform measures in the decree do not relate to any change regarding the attitude toward civil marriages, but refer largely to the definition of a parish priest, it being held formerly that only he was recognized as a parish priest who had been canonically appointed and installed to preside over a given district, specified by his Bishop.

"According to the new law, any priest having the care of souls, who performs parish duties is considered a parish priest, and his presence is valid for the marriage not only of persons living in his district, but of those from other places."

Ban on Surprise Marriages.
Another important change is the doing away with the "surprise marriage," so called, which was considered a marriage if performed in the presence of the parish priest of the parties, whether the pastor was willing or unwilling. The new decree makes the willingness of the priest necessary to the legality and validity of the marriage.

The new decree nowhere binds those outside of the church—except apostates and the ex-communicated—and it binds all those within the church.

The laws are binding on Catholics who contract marriage with non-Catholics, baptized or unbaptized, even after a dispensation has been obtained from the impediment mixta religionis, or disparitas cultus; unless the Holy See decree otherwise for some particular place or region.

The new decree will go into effect Easter of next year.

It has come to our notice that some unscrupulous person or persons who have had amusement attractions in your city have represented that they had with them the original Cole Younger. We desire to say that such representation was false, as we have the one and only Cole Younger with us. We will forfeit \$1,000 if found to the contrary. This is to settle all controversy. Respectfully, Cole Younger-Nichols Amusement Co. 106-11

Ladies' Fancy Hosiery.

The Celebrated "ONYX" Brand.

We have just received our new fall patterns in "Onyx Brand Hosiery." Simple elegance is the key-note to the really stylish hosiery for the coming season. The silk or fine lisle in black, embroidered in buds, sprays and dots, or the white checking are in great favor.

New Fall Silks and Dress Goods.

The choicest production of both American and foreign weaves. Fashion followers will find much to interest them, as the display comprises a grand collection of that which is new. Fashion followers will find much to interest them in our woolen goods, as the displays comprise a represented collection of that which is stylish in colors according to prediction of fashion authorities. Plain shades will have a strong run; brown will be the favorite shade, while blues, greens and garnets in their various hues will be the less prominent. Novelties will be much worn, particularly so in Broadcloth and worsteds.

OF TUBERCULOSIS

REPORTS MUST BE MADE TO THE HEALTH OFFICER.

DOCTOR BRUMBY'S PLAN

Will Treat Consumption as He Does All Infectious and Contagious Diseases.

Austin, Tex., Sept. 14.—Now that the fever scare is over and all probability of a spread of dengue fever of the entrance into the State from Mexico of yellow fever, State Health Officer Brumby has time to consider the proposition which he was agitating prior to the Brownsville epidemic relative to barring consumptives in the last stages of disease from entering the State.

When he issues his rules for sanitation and disinfection of buildings again he will require houses wherein consumptives have resided to be thoroughly disinfected, the same as if a contagious disease had existed there. In fact, he proposes classing consumption or tuberculosis as a contagious disease, adding to it the following list, viz., smallpox, diphtheria, scarlet fever or scarletina, dengue or breakbone fever, yellow fever, bubonic plague, Asiatic cholera, leprosy, trachoma and typhoid fever.

He will require that cases of tuberculosis in hotels and boarding houses be reported to the city or county health officers the same as other infectious or contagious diseases and will require the county health officer to report to the State health officer all cases of the disease the same as he reports other diseases of a contagious or infectious nature. In this manner he hopes to be in a better position to cope with the disease, which is fast becoming known as the "common man's disease" and is considered quite contagious.

There is no question but what it is a contagious disease, says Dr. Brumby, and where people are exposed in the same house there is no question but what they will soon be infected with tubercular trouble.

LAWTON PEOPLE NOT SATISFIED

The population of Lawton, as shown by the new census is 5,562. The figures hardly come up to the expectation of Lawton people and none of them are satisfied.

Frederick's population is given as 2,036; Hobart, 3,136 and Anadarko 2,190. Frederick will be the seat of government of Tillman county when statehood comes and is expected to grow rapidly in population.

Had Quail for Breakfast.

Ben Nix, who resides on the Rexford Farm, twelve miles north of here, was in town Saturday and called at the Times office to renew his subscription to the weekly, and while doing so told a reporter that he had enjoyed a quail for breakfast.

Being aware that this was not the open season, the reporter asked him how it happened that he could enjoy such a feast at this season of the year without violating the State game law and subjecting himself to the penalty thereof, and he explained by saying that a covey of the birds were getting their breakfast in the barn lot, when something suddenly frightened them and all rose and flew away, except one, which evidently was frightened more than the rest and did not get its bearings right as it started off on its flight and struck the barn with such force as to kill it dead. Mr. Nix saw the accident and picked up the bird and prepared it for his breakfast.

Those who are familiar with the nature of the quail say that it often happens that the birds in their flight come in contact with obstacles with such force as to kill themselves.

Mr. E. Rexford returned yesterday from a month's visit to the States of Oregon, Idaho, Utah and California. He formerly in Oregon and while there visited his old home, which he left thirty-five years ago. He had a most pleasant trip, which he enjoyed to the fullest extent.

A. M. Harrison, the junior editor of the Seymour Banner, was in town last week on his way to Waco, where he will be married this week to one of the charming young women of that place.

D. M. Norwood of the Baylor County Banner, one of the best weekly newspapers published in Texas, visited friends here yesterday, while in town to meet Mrs. Norwood, who had been visiting relatives at Henrietta.

For feed and coal, see the Wichita Grain and Coal Company. d&w-tf

Following Instructions.

"Here, my poor man," said a kind old lady, "here is a shilling for you. Now don't go and spend it in vile drink."

"Thank you, ma'am," answered the tramp heartily. "I'll not. I suppose you was a-referring to the wretched stuff they 'as at the Dun Cow, mum? Ah, but I'll go to the Black Bull. They keep the right sort there!"—London Spectator.

Curios.

Mr. Chow has a passion for curios, but was not able to distinguish a genuine article from a spurious one. One day a dealer came to him wishing to sell the lacquer bowl of Emperor Shun (B. C. 2255), the rod with which the Duke of Chow (about B. C. 1122) flogged Pak Kam, and the mat on which Confucius sat (B. C. 551). Mr. Chow sold all his worldly possessions and purchased them. Holding the bowl in his left hand, clutching the rod in his right hand and carrying the mat upon his back, he went around begging for a copper coin of King Woo (B. C. 1122).—From the Chinese.

Naturally.

Two men met at the gate of the cemetery, and each with excessive politeness bowed to the other to pass in before him. After a few minutes of this, when neither would give way, the younger of the two smiled and said: "You are the elder of the two, so naturally you ought to go first."—Sourire.

Run and Unrun.

"When I first went to housekeeping I tried to run everything. I ended with running nothing."

"Absolutely nothing?"
"Well, perhaps the gamut of the emotions now and then."—New York World.

His Position.

Peckem—My wife referred to me as the head of the family today. Meeker—How did that happen? Peckem—She was talking to a man who called to collect a bill.—Chicago News.

Many a man finds out too late that he cannot hide anything from his own conscience.—Pilay.
