

A BIG CELEBRATION

GREAT CROWD AT FREDERICK TO CELEBRATE STATEHOOD AND COMPLETION OF RAILROAD.

SPECIAL ARRIVED AT 11:30

At 9:20 Statehood Was Greeted With Big Demonstration—Last Spike is Driven.

Staff Special.

Frederick, Okla., Nov. 16.—Frederick is in gala attire today and cheerings crowds, floating flags and the thunder of anvils are combined in a double celebration of two important events, the admittance of Oklahoma to statehood and the completion of the Wichita Falls and Northwestern railway and the formal opening of that line for traffic.

Thousands of people from Tillman county and from the Big Pasture are in Frederick today to celebrate these events and Frederick presents a gay and lively appearance.

President Roosevelt signed the statehood proclamation at 10:16 a. m., Washington time, and a message conveying the news of Oklahoma's statehood was received here at 9:20 a. m.

Instantly the thunder of a score of anvils and the unfurling of thousands of flags and a mighty cheer greeted the announcement.

At 11:30 a. m. the first passenger train over the Wichita Falls and Northwestern, loaded with an enthusiastic delegation of Wichita and Big Pasture people, pulled its way into the city, marking a new epoch in the history of Frederick and the Big Pasture territory.

The train was met at the depot site by about a thousand citizens, who cheered the arrival of the train with a mighty noise, while the crack military band from Snyder, Oklahoma, played a lively patriotic air.

Following the unloading of the train the ceremony of driving the last spike was performed.

R. S. Houssels of this city acted as master of ceremonies and W. A. Stinson, vice president of the First National Bank and chairman of the local railroad committee, placed the spike in position after which it was driven home by Frank Kell of Wichita Falls, vice president and general manager of the new railroad.

Following this R. S. Houssels delivered a happy address of welcome, to which C. C. Huff responded in an equally happy manner. At the conclusion of Mr. Huff's response there were cries for Frank Kell, who was so insistently called for that at last he got up and expressed his gratitude to the people for their co-operation in building the road and predicted a splendid future for not only the railroad, but the towns and country tributary to it.

After this program was carried out, headed by the Snyder band, the Frederick citizens and the visitors fell in and marched through the principal streets of the town.

At 3 o'clock this afternoon the installation of the officers of Tillman county will close an eventful day for Frederick.

The excursion will return to Wichita Falls this afternoon, arriving at about 5:30 o'clock.

Personnel of the Excursion.

Today marked an important event in the history of Wichita Falls. The event was the running of the first through passenger train from Wichita Falls to Frederick, Oklahoma, formally opening traffic over the extension of the Wichita Falls and Northwestern railway from Kell City to Frederick.

Not only does the new road open up a rich and splendid territory tributary in a great measure to Wichita Falls, but also makes traffic connection with the great Frisco railroad system at Frederick.

To the enterprise of home citizens and in a considerable measure to local capital the building of the new railroad is due, so that it was entirely fitting and proper that the first passenger train over the new line should carry a party of business men from this city.

The special to Frederick, consisting of two coaches, left the M. K. & T. depot at 8 o'clock this morning. Among the passengers were Frank Kell, vice president and general manager, and C. L. Fontaine, general freight and passenger agent of the Wichita Falls and Northwestern; G. D. Anderson, Otis T. Bacon, Charles W. Bean, Judge Hodges, Dr. Coons, George Davis, J. R. Eldridge, Mr. Erwin, Mr. Fowler, M. J. Gardner, Lee Jackson, W. F. Jourdan, Alex. Kahn, J. L. Lee, Jr., P. C. Maricle, W. M. McElroy, J. L. Mears, Mr. Richeot, Mr. Morris, W. M. McGregor, H. C. McGlasson, H. J. Bachman, W. M. Dyson, James Marlow, W. E. Ogsten, W. B. Richardson, Mr. Russell, Tom Taylor, W. H. H. Thatcher, Ralph Darnell, J. T. Montgomery, E. B. Gorsline, O. T. Marsh, C. L. Goss, P. W. Nolen and Ed. Howard.

TO LOOK AT DENVER ROAD.

Colquitt, Thompson and Pollard Will Make Inspection.

Austin, Tex., Nov. 15.—Railroad Commissioner Colquitt will spend next week inspecting the Fort Worth and Denver railroad. He will be accompanied by Claud Pollard, assistant attorney general, and R. A. Thompson, engineer to the commission. They will start from Fort Worth on Monday. It will be similar to Chairman Mayfield's inspection of the Texas and Pacific. Following the Fort Worth and Denver inspection, Commissioner Storey and assistants will go over the International and Great Northern.

Our Future Coal Supply.

J. A. Kemp of Wichita Falls had a load of coal hauled from Young county a few days ago. Upon investigation this Young county coal was found to be equally as good as the best product of the Indian territory. From Young county, in all probability, will come our future supply of fuel. It is certain to mean cheaper fuel.—Quannah Tribune-Chief.

FARMERS UNION IS ADDRESSED BY NEIL

D. J. Neill, State president of the Farmers' Union, was in town a few hours today and addressed a called meeting of the members of the Farmers' Union in the Woodmen's hall. After addressing the meeting, President Neill left for Fort Worth, where he has an engagement this evening.

President Neill was very busy during the few hours he spent in the city and could not be interviewed. At 3 o'clock this afternoon the meeting was still in session and the object for which it was called could not be learned.

BEWARE OF KISSING GERMS.

Pyorrhoea Aequalis Will Get You If You Don't Watch Out.

London, Eng., Nov. 16.—Pyorrhoea aequalis, a disease which has long baffled medical men, is caused by kissing, according to the statements of a physician who lectured last night before the dental branch of the National Health Society.

In the affliction the jaw is first affected. Then the teeth become loose, and finally, although they may be perfectly sound, they will fall out.

What makes the warning all the more dreadful is the assertion that the victim of pyorrhoea aequalis is not likely to recognize the malady in its incipient stages, as outwardly there is no sign to betray its presence.

TEMPORARY RECEIVERS FOR BANKS APPOINTED.

By Associated Press. Kingston, N. Y., Nov. 16.—Temporary receivers were appointed today for the six New York banks and trust companies which recently suspended payment. The banks are the Hamilton bank of New York, the Brooklyn bank and Borough bank of Brooklyn and the trust companies are Williamsburg and Jenkins at Brooklyn and International of New York. Application for receivers was made by William F. Mackey for Attorney General Jackson.

FIRE SWEEPS TOWN

FLAMES AT BAY ST. LOUIS, MISS., DESTROY ALL IN THEIR PATHWAY.

FAMOUS CONVENT BURNS

One of the Best Known Catholic Institutions in the South Burned to the Ground.

By Associated Press. Bay St. Louis, Miss., Nov. 16.—Fire which started here shortly after 5 o'clock this morning, fanned by a high gulf wind, swept through the town, burning to the ground everything in its path and causing a damage of about \$200,000. St. Joseph's convent, one of the most famous institutions of its kind in this section of the South, was totally destroyed and the Catholic church and the priest's home were also burned. Other buildings destroyed were the Oisanch theatre, the Hotel Clifton, the Cumberland Telephone building and the Butter building.

MEETING OF MILLERS.

Defendants in Anti-Trust Suits to Hold Conference in Dallas Monday.

The members of the Texas Millers' Association are preparing to make a vigorous defense against the charges which Attorney General Davidson has brought against them. The attorney general has filed in the district court at Austin suits against 120 members of the association, charging them with having entered into a trust, with a view of doing away with competition in the mill products market.

Citation has been served on most of those against whom suit has been brought. The officers got service on E. W. Morion, Jr., manager of the New Century mills, and on B. R. Neal, manager of the E. O. Stanard-Mills of Dallas, yesterday, and it was reported that citation was served on Waco millers yesterday.

J. T. Burrus of McKinney, president of the Texas Millers' Association, has called the 120 members who are made defendants in these suits to meet in the auditorium of the Dallas Commercial Club at 10 a. m., Monday, Nov. 18, for the purpose of consultation and of agreeing on a line of defense.

The millers declare that while they have an organization it is no part of the object of it to arbitrarily fix the prices of the products of their plants.—Dallas News.

UNCLE SAM GETS READY FOR CHRISTMAS RUSH.

Uncle Sam will help the railroads move the freight. Incidentally he does not intend to have his surplus mail bags and other equipment standing around on sidetracks or in blockaded freight yards.

Orders to prevent this became effective Friday, all postmasters and clerks of the railway mail service being notified to cease forwarding surplus empty mail equipment by freight lines until after Christmas and rush all such matter through by mail.

The order is expressly based on the great increase of mail matter due to the holiday season and says: "This action is taken in view of the probable delays to freight traffic incident to the holiday season and the necessity for promptly placing the empty equipment at points where and when needed for immediate use."

Rebels Attacked Officers.

By Associated Press. Tokio, Japan, Nov. 16.—A dispatch from Talkobu on the island of Formosa says that a band of outlaws belonging to the Aiyou tribe attacked the government officers there and killed ten persons. The rebels were dispersed with great loss of life.

The 7-year-old son of Frank Keihl died last night at his home eight miles north of town. The funeral will take place this afternoon.

Fresh grits in 2-lb packages just received. Phone us your wants in our line. Nutt, Stevens & Hardeman. 159-2

STATE TREASURY HAS A MILLION AND A HALF IN CASH.

Austin, Tex., Nov. 16.—State Treasurer Sam Sparks has prepared his annual report for the fiscal year ending August 31, 1907, and has presented same to the governor. The report shows that on August 31 there was on hand in the State treasury \$1,403,974.52 in cash and \$15,508,601.03 in bonds. Of the cash in the State vaults, \$692,612.91 belonged to the general revenue fund, while the remainder was credited to other accounts.

Is Not Yet Paying Warrants.

Austin, Tex., Nov. 16.—Several thousand dollars have been received by the State treasurer as a result of his call upon the State depositaries for \$1,000 each, and by the end of the week he expects to have this amount from each of these depositaries. He is not yet paying warrants.

SITUATION IN LOUISVILLE'S STREET RAILWAY STRIKE.

By Associated Press. Louisville, Ky., Nov. 16.—The Louisville Street Railway Company was able this morning to give an increased service on all its lines, despite the assertions of the men who struck yesterday that they had won over a large number of the strike breakers.

A fair schedule is maintained on the principal lines and the cars coming down town early this morning carried many passengers. The company will also begin the operation of one of its suburban lines. One hundred and twenty-five additional strike breakers arrived during the morning.

Keen Interest in Maiden Voyage.

By Associated Press. New York, Nov. 16.—Advices from England as to the departure of the huge new Cunard steamer Mauretania from Liverpool this afternoon on her maiden voyage says that the event is attended with interest fully as keen as marked the Lusitania's first departure for America.

NEW BRIDGE ACROSS HOLLIDAY CREEK

The county commissioners adjourned today after a week's session to meet on the 25th of November, when they will receive bids for a new 100 foot span steel bridge across Holliday creek southeast of town near the Wichita Falls laundry.

The old bridge at that point is in bad repair and is too small for the traffic that passes over it.

Although the point where the new bridge will cross the stream has not been definitely determined, it will probably be located a few rods above the present structure.

LAST SPEECH FOR AWHILE.

Governor Campbell to Take a Needed Rest After Today.

Austin, Tex., Nov. 16.—Governor Campbell stated that the speech to be delivered at San Antonio this evening will be the last for a long time. He said that constant speaking over the State has been telling on his strength, and that he will desist for the time being to rest. The governor stated on the platform that he believed it the duty of a governor to speak to the people and tell them what he has done and how he has kept his promise and explain the operation of government and enforcement of the laws by public officials. This, he asserted, was the reason he had been going over the State accepting invitations to address the people.

SWORD, NOT PNEUMONIA, CAUSED PRINCE'S DEATH.

By Associated Press. Vienna, Austria, Nov. 16.—The News Wiener Journal asserts that Prince Arnulf of Baravia, whose death three days ago, it was officially stated, occurred from pneumonia, died from a sword wound received in a duel with the Duke of Genoa, a brother of Queen Marguerite. The duel, it is said, was fought at Murano, near Venice.

NEW STAR IS ADDED

OKLAHOMA AND INDIAN TERRITORIES JOINTLY ADMITTED TO STATEHOOD.

QUILL FROM EAGLE'S WING

Used By President Roosevelt in Signing Statehood Proclamation at 10:16 This Morning.

By Associated Press.

Washington, D. C., Nov. 16.—A new star was added to the American flag today by the admission formally to the Union of the State of Oklahoma.

President Roosevelt at 10:16 this morning signed the proclamation admitting the territories of Oklahoma and Indian Territory jointly as one American State. Little formally attended the ceremony which meant so much to the people of the two territories. In appending his signature to the proclamation, the president used a pen from the quill plucked from the wing of an American eagle. The pen will be deposited with the Oklahoma Historical Society.

The Inaugural at Guthrie.

By Associated Press. Guthrie, Ok., Nov. 16.—With impressive ceremonies befitting the birth of the new State of Oklahoma, the oaths of office were administered to Gov. Haskell and other State officers a few minutes before noon. The oath was given by Leslie G. Niblack, a well known newspaper man. The ceremonies took place on the steps of the Carnegie library, there being no State building here. Following a prayer by a local clergyman, the proclamation of President Roosevelt admitting Oklahoma and Indian Territory into the Union was read by Charles Filson, secretary of Oklahoma Territory.

A band of Cherokee Indians then played the "Star Spangled Banner." Governor Haskell walked forward to the center of the platform, where he was met by Mr. Niblack and took the formal oath of office with uplifted hand. Turning to the crowd that had closed in from every direction, Governor Haskell delivered his inaugural address.

THE ATTORNEYS IN THAW CASE.

Will Examine Reports of Lunacy Commission on Thaw's Competency.

New York, Nov. 16.—District Attorney Jerome and Martin W. Littleton, leading counsel for Harry K. Thaw, held a long conference over the Thaw case yesterday. While neither party to the conference would discuss the matter, it is believed it was agreed that the evidence taken before the board of lunacy commissioners, which examined Thaw as to his competency during his first trial, should be opened for the benefit of counsel on both sides.

The evidence was ordered sealed and has never been seen by either side. It is said that the attorneys will join in a motion that it now be opened.

The case is set for hearing December 2, but it is believed probable that it will be postponed for a month or more.

Rod Oliver Case Monday

Beaumont, Tex., Nov. 16.—The case of the United States against Rod Oliver, president of the defunct Citizens National bank, Beaumont, charged with embezzlement and misapplication of funds of the bank, will be called for trial in the United States district court here next Monday morning.

It was first thought that on account of National Bank Examiner J. M. Logan being appointed receiver for the Woods National bank of San Antonio that he could not attend the trial at this term of the court, and that the government would be unable to go to trial without him. However, United States District Attorney J. W. Ownby took up the matter with Washington and had another party named to relieve Mr. Logan and he reached the city today. E. J. Marshall of Los Angeles, Cal., who was cashier of the defunct bank, also reached the city as a witness in the case.

AN AUTUMN FANCY.

Of all the flowers that cheer the hours
Of autumn's gladsome time;
I love the bold, bright, glistening gold
Chrysanthemums of mine.

Its yellow light shines forth at night,
Out in the moonlight fair;
Lighting the way for fairies gay,
Who seek for pleasure rare.

Its faint perfume droops from each bloom,
The pixie folk to please;
Who gather where the earth's most fair,
And hail the scented breeze.

Its golden gleams blend with moonbeams
To sho wthe brownies where
Their pranks to play till dawn of day
Scatters them here and there.

From underground, without a sound,
The gnomes come up to see
The yellow flower at midnight's hour,
That blooms for people wee.

Silence and night are its delight;
'Tis then its sees and hear
What we for long in tale and song,
Have heard throughout the years.

It guards right well and will not tell
Of what it hears and sees,
To those who doubt and will not scout
Out in the cool night breeze.

But I believe, and always grieve,
Because I cannot find
The people small, although I call
And promise to be kind.

They only come, Chrysanthemum,
When night time comes with dew?
And mortal ken knows not they've been,
Except when told by you.

—Alice Brown.

FOOTBALL WARRIORS
LEAVE FOR VERNON

The Wichita Falls high school foot ball team left at 1:20 o'clock this afternoon over the Denver for Vernon, where they will engage the Vernon high school eleven in a battle for grid-iron honors this afternoon. In the game here two weeks ago Vernon defeated the locals by a score of 11 to 0. Since that time the Wichita team has developed wonderfully and will have some entirely new plays with which they expect to bewilder their opponents and win a victory. The back team of the local team is said to be exceptionally fast and in this particular they outclass their heavier opponents at Vernon. Prof. Gulise accompanied the team to Vernon this afternoon and will act as referee.

The following is the line-up of the Wichita eleven:

Center, Lot McKinley; right guard, Murrel Waggoner; left guard, Preston Caskey; left tackle, Mike Moore; right tackle, Geoffrey Shaw; right end, Norman Bachman; left end, Guy Wilson; quarter, Grady Barnett; right half back, Houston Hodges; left half back, William Bilderback; full back, Carol Smith; substitutes, Claude Cooper and Charles Ingram.

FOR A NATIONAL PARK.

Delegates From Towns on the Plains Meet at Canyon City on Subject.

Canyon City, Tex., Nov. 12.—Delegates here from the different towns on the plains met here today and perfected an organization to urge congress to establish a national park in the Palo Duro canyon. A resolution adopted by the Thirtieth legislature allowing the Federal government to acquire title to the necessary lands for this purpose, and the people of the Panhandle are now getting behind the project with a determination to press the matter to a successful issue.

A strong organization was effected and all necessary committees were appointed. The meeting was enthusiastic, and the visiting delegates were given a banquet prepared by the Methodist ladies of the city under the auspices of the Canyon City Commercial Club.

Fresh grits in 2-lb packages just received. Phone us your wants in our line. Nutt, Stevens & Hardeman. 159-2

Citation By Publication.
THE STATE OF TEXAS.

To the Sheriff or any Constable of Wichita County, Greeting:

You are hereby commanded to summon Lily Bell Dawson by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Wichita County, to be holden at the Court House thereof, in Wichita Falls, on the first Monday in December, A. D. 1907, the same being the 2nd day of December, A. D. 1907, then and there to answer a petition filed in said Court on the 2nd day of November, A. D. 1907, in a suit, numbered on the docket of said Court No. 3664, wherein W. F. Dawson is plaintiff and Lily Bell Dawson is defendant, and said petition alleging that on May 28th, 1905 in Dallas, Texas plaintiff and defendant were lawfully married and thereafter lived together as husband and wife until about July 8th, 1905, when plaintiff was forced to leave defendant because of her acts and conduct, which rendered their living together insupportable. That within two weeks after said marriage defendant kept up a systematic course of utter neglect of plaintiff, his children and all her household duties, and spent almost her entire time conversing and flirting with other men and soliciting their attention and visits to her and among the men whose attention and visits she solicited was Fount Coffee of Farmersville, Texas. That by reason of the above facts plaintiff says he is entitled to a decree of absolute divorce.

Premises considered plaintiff sues, prays for decree of absolute divorce from defendant, for costs and general and special relief.

Herein Fall Not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, W. A. Reid, Clerk of the District Court of Wichita County.

Given under my hand and the Seal of said Court, at office in Wichita Falls, Texas, this the 2nd day of November, A. D. 1907.

W. A. REID,
[L. S.] Clerk District Court, Wichita County.

INTERESTING NOTES FOR WOMEN READERS

Here's the Way for Milady to Walk.

The following rules for the "Art of Pedestrianism" are given by some Parisian experts and contained in one of the leading society papers of Paris:

1. Don't drag the feet along the pavement, and don't throw them forward like soldiers on parade, but allow them to glide lightly over the ground.
2. Walk straight and don't keep stopping to look around; keep the feet showing very little before the front of the dress.
3. Walk slowly—in a word, have the walk of a princess, and not of a girl in a hurry.
4. Don't move the shoulders at every step, and don't balance the arms as if you were practicing to walk the tight rope.
5. Hold the chin well up.
6. Never forget your dignity and remember always that a bad gait will spoil the prettiest costume and make you look a dowdy old frump.

The paper goes on to console its readers by stating that the French women are the best and most graceful walkers in the world.

Shop Notes.

A Chicago paper tells us that combs do not seem to be getting any smaller. A new comb recently seen on a society leader measured fully five inches across and was five inches in height.

Evening slippers made of pompadour taffeta ribbon with jeweled buckles are among the smartest things in evening footwear.

The New York women, so we are told, have started the fad of wearing a single flower with the tailored gown. It may be a rose, gardenia, chrysanthemum—in fact, one may choose a favorite flower as Dame Fashion has not decreed any special one. It is a pretty custom and one we can all take up.

The dotted veils are very popular and can be obtained in shades to match any gown, but the women to whom they are not becoming will display wisdom in letting them alone.

A pretty coiffure ornament for a young girl is a combination of fluffy tulle and flowers—artificial ones.

The washable volles are very popular for waists for school girls. There is so much beauty in the weave and tints that little or no trimming is necessary.

PROFITING BY EXPERIENCE.

Postal Authorities Will Protect Lives of Railway Clerks.

There is still fresh in the minds of the general reading public the harrowing story of the literal burning alive of two railway postal clerks who were caught in a wreck and were prevented from effecting their escape from the car because of the heavy iron gratings at the windows which they reached and through which a helpless throng could see them meet an awful death.

The official bulletin issued yesterday by the superintendent of the eleventh division of the railway mail service comprising Arkansas, Louisiana, Oklahoma, Indian Territory and Texas and in the hands of most of the employees today shows the government has taken cognizance of the barred window menace. The mention in the bulletin is as follows:

"All railroad companies have been requested to have iron bars removed from all windows in full R. P. O. or apartment cars. Information recently received at this office that that has not been done in all cases. Clerks should report to this office immediately, giving the number of any car which has iron bars across windows. Chief clerks will also give this matter careful attention."

Woman Bakes Seventy Miles of Pies and 2,000,000 Doughnuts.

Boston, Mass., Nov. 16.—"Concentrate your mind on the oven," says Miss Theresa McDonald, in explaining the wonders of her art in pastry cooking. She is just celebrating her golden anniversary as a cook, and owns a record of 394,000 pies baked in forty years at one restaurant, besides scores of other delicacies. If all her pies were laid out in a row they would reach seventy miles. She has made 2,000,000 doughnuts in twenty-seven years, and 788,400 puddings.

We offer Richelleu as a pure cream of tartar baking powder, sell a 16-oz can for 40¢ and guarantee satisfaction. Give it a trial.

Citation By Publication. THE STATE OF TEXAS.

To the Sheriff or any Constable of Wichita County, Greeting:

You are hereby commanded to summon J. E. Ellicott by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Wichita County, to be holden at the Court House thereof, in Wichita Falls, on the first Monday in December, A. D. 1907, the same being the 2nd day of December, A. D. 1907, then and there to answer a petition filed in said Court on the 2nd day of November, A. D. 1907, in a suit, numbered on the docket of said Court No. 3665, wherein Mary G. Ellicott is plaintiff and J. E. Ellicott is defendant, and said petition alleging that on or about August 26th, 1904, plaintiff and defendant were lawfully married in Wichita Falls, Texas, and thereafter lived together as husband and wife for about two months; that on or about October 20th, 1904, without the fault of plaintiff, defendant deliberately deserted and abandoned plaintiff and left for parts unknown and has remained away ever since said date; that by reason of the facts above alleged plaintiff says she is entitled to an absolute divorce.

Premises considered plaintiff prays for a decree of absolute divorce, for costs, for restoration to her of her maiden name, Mary G. Brown, and for general and special relief.

Herein Fall Not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, W. A. Reid, Clerk of the District Court of Wichita County.

Given under my hand and the Seal of said Court, at office in Wichita Falls, Texas, this 2nd day of November, A. D. 1907.

Household Remedy in Cotton Seed Oil.

Nearly everybody these days knows
the usefulness of cotton oil as an
edible in place of olive oil, and as a
cooking fat in place of lards and com-
pounds, and as a high-grade butter fat,
but few, indeed, know its value as a
household remedy.

In a booklet recently sent out by the
Texas Cotton Seed Crushers' Associa-
tion the following "home remedies"
are given, and an authority for each
and every one of them.

"Burns, scalds, cuts, wounds of all
kinds are soothed and benefited, and
rapid healing induced by binding with
bandages soaked with cotton oil.

"The most painful earache is fre-
quently relieved by dropping cotton oil
in the ear, and if from cold or catarrh
the nose is raw and sore, drop some
warm cotton oil into the nostrils, hold-
ing the head back to allow it to pen-
etrate the nasal passage.

"Delicate and sick babies and larger
children are rapidly nourished and
fattened by frequent rubbing with cot-
ton oil, and a baby so thin at birth as
to be almost despaired of will rapidly
take on flesh and health with no other
treatment than frequent cotton oil
massages gently administered.

"For stiff joints, either from cold,
fatigue, or strain, or incipient rheu-
matism, or for sore throat a rubbing
with cotton oil offers a quick and
pleasant remedy and for bad colds,
coughs or sore chest, a few doses of
cotton oil will give relief, and, indeed,
has even been recommended and found
effective in tuberculosis troubles.

"Nearly everyone would be bene-
fited by taking two or three table-
spoonfuls of cotton oil a day, for it is
not only a food, but medicine. It adds
nutrition without distress or repletion
and is a gentle and graceful lubricant
to the intestines.

"If you are troubled with constipa-
tion the juice of one orange and two
tablespoonful of cotton oil taken just
before retiring will relieve any but a
very obstinate case, and at the same
time furnish healthful nutrition."

Notice.

I have purchased an interest in the
tin and sheet metal shop of Moore &
Richolt, and wish to say to my friends
and the public in general that we are
well prepared to do tin and sheet met-
al work of every kind in a first class
workmanship manner and at reason-
able prices. All work given us will re-
ceive our prompt attention. We will
appreciate a share of your patronage.
Respectfully,
156-G R. L. BURGESS & CO.

M. L. Hooker of Charlie is here to-
day on business.

AT THE CHURCHES

First Presbyterian Church.
The usual service at the First Pres-
byterian church tomorrow, at 11 a. m.
All members are specially desired at
this service. New members will be
received. Friends and strangers are
cordially invited.

The Christian Church.
All the members are earnestly re-
quested to be present tomorrow, as
matters of great importance are to be
considered. At the close of the ser-
mon a business meeting will be held.
Let all be present.

Bible school at 9:45 a. m. Commu-
nion and sermon at 11 a. m. Subject:
"Finance, as Related to Church
Work." Junior Christian Endeavor at
3 p. m. Senior Christian Endeavor at
3:45 p. m. No services at night on ac-
count of the lecture at the Baptist
church by Mrs. Zehner. Let all be
sure to attend this. Prayer meeting
Wednesday at 7:30 p. m. Ladies' Aid
Society Monday at 3 p. m.
A. J. BUSH, Pastor.

The Episcopal Church.
The Church of the Good Shepherd,
corner of Lamar avenue and Eighth
street. Rector, Rev. Charles A. Eaton.
The Twenty-fifth Sunday after Trin-
ity, 9:30 a. m. Sunday school, 11 a.
m., morning prayer, litany and ser-
mon. Subject, "The Duty of Prayer."
7:45 p. m., evening prayer and sermon.
Subject, work and wages.

First Baptist Church.
On account of the inclement weather
last Sunday night, the praise service
was postponed until the 11 o'clock
hour Sunday, the 17th. Everybody cor-
dially invited.

M. E. Church South.
Because of the prohibition lecture
tomorrow night, there will be no ser-
vice at the Methodist church at that
hour. I will preach my farewell ser-
mon tomorrow at 11 o'clock. We have
had twenty-two additions to the church
this year, 222 during the two years.
I have taken in 167, or almost
half of the present membership. I am
truly sorry that more has not been ac-
complished and I hope that coming
years may bring greater results, not
only to the Methodist church, but to
every church in Wichita Falls.
With love to all and with best
wishes for all the interests of the town
I am, yours truly,
W. A. STUCKEY.

OUR LARGEST SCALES.

**The Monster Weighing Machine in the
Washington Navy Yard.**

The biggest scales in the country
are in the navy yard at Washington.
They outweigh the largest railway
scales by fifty tons. The latter are
not to be sneezed at, for they easily
weigh as much as a heavily loaded
car. The navy yard scales are so ac-
curate that they come within a pound
of the exact weight. Railway scales
are considered good if they coin, with-
in fifty pounds. All the large ordi-
nance manufactured for the navy is
weighed upon this machine, which is
some ten years old. The scales look
like ordinary hay scales.

The delicate mechanism is invisible,
the most intricate parts being in a
broad pit below the ground. The plat-
form is forty-eight feet long and
twelve feet wide. Beneath the power-
ful machinery is a cement base laid
upon long piles. A solid base being
one of the prime requisites of a pow-
erful weighing machine, it was found
necessary to use a pile driver to se-
cure a stable foundation.

The machine is regarded as the finest
of its kind in the world and is a
splendid achievement of American in-
genuity. In order to show the ac-
curacy of the scales an official picked
up half a brick and tossed it upon the
platform. He then consulted a long
brass lever and found that the brick
weighed just one pound.

The capacity of the scales is 150
tons. Two twelve-inch guns lying on
a forty-eight foot car-truck can be
weighed on the machine without tax-
ing its capacity.—Washington Star.

Blind Justice.
Little Willie—Say, pa, why do they
always have a bandage over the eyes
of Justice?

Pa—Probably because the lawyers
have talked the poor woman blind,
my son.—Exchange.

His Remedy.
"Out of a job?"
"Yes—and they put a woman in my
place."

"Gee! Well, I'll tell you—why don't
you marry the woman?"—Cleveland
Plain Dealer.

ROCK & DUKE

Dry Goods

THE BABY POST.

**A Curious Institution That Once
Flourished in England.**

Although few people are probably
now aware of it, the fact remains that
there once flourished in England a regu-
lar "baby post," the rates of postage
being fixed on a strictly business basis,
according to distances traversed.

The curious institution came into ex-
istence in connection with the found-
ling hospital in Guilford street. When
this charity was first established, it
was understood that its operations
would be confined to London and its
environs. But the people of the coun-
try towns and villages heard of it and
showed a decided disposition to share
in its advantages; hence the "baby
post!"

All over the country there were men
and women who entered vigorously
into the business of carrying chil-
dren to London and depositing them
at the gates of the founding hospital.
The charge was 8 guineas from distant
localities like York and Monmouth,
down to a guinea from places situated
within thirty to fifty miles of the me-
tropolis. The unfortunate infants were
borne on horseback in panniers, two to
each pannier, or in wagons lined with
straw, for which the charge was some-
what less.

Naturally abuses grew up in con-
nection with the traffic. But, even
apart from them, the mortality among
the "posted" babies was terrible. Thus,
out of 14,034 received at the hospital
in four years, only 4,400 lived to be
"apprenticed out," being a mortality of
more than 70 per cent.

Eventually parliament passed a
measure abolishing the practice, and
the "baby post" ceased.—London Ad-
vertiser.

The Boss.
"All right," said Elsie, "we'll play
theater. I'll be the boss."
"No," replied Tommy, "I will." It
takes a man to be manager.
"Of course, that's all right. I mean
I'll be the leading lady."—Kansas City
Independent.

A healthy manner of play is neces-
sary to a healthy manner of work.—
Ruskin.

SELF RELIANCE.

The Lesson That Was Taught to Henry Ward Beecher.

Henry Ward Beecher used to tell this story of the way in which his teacher of mathematics taught him to depend upon himself:

"I was sent to the blackboard and went, uncertain, full of whimpering.

"That lesson must be learned," said my teacher in a very quiet tone, but with a terrible intensity. All explanations and excuses he trod underfoot with utter scornfulness. "I want that problem! I don't want any reasons why you haven't it," he would say.

"I did study two hours."
"That's nothing to me. I want the lesson. You need not study it at all or you may study it ten hours, just to suit yourself. I want the lesson."

"It was tough for a green boy," but it reasoned me. In less than a month I had the most intense sense of intellectual independence and courage to defend my recitations.

"One day his cold calm voice fell upon me in the midst of a demonstration, "No!"

"I hesitated and then went back to the beginning, and on reaching the same point again "No!" uttered in a tone of conviction, barred my progress.

"The next!" And I sat down in red confusion.

"He, too, was stopped with "No!" but went right on, finished, and as he sat down was rewarded with "Very well!"

"Why," whimpered I, "I recited it just as he did and you said "No!"

"Why didn't you say "Yes" and stick to it? It is not enough to know your lesson—you must know that you know it. You have learned nothing till you are sure. If all the world says "No!" your business is to say "Yes" and prove it."

Riding Backward.

To be comfortable in summer, always ride with your back toward the engine. Your eyes miss all the smoke and cinders. Insist that the porter make your berth with your pillow toward the engine. This will drive your blood to your feet and keep them warm, winter and summer, and your head cool—which is one of the familiar rules of health, handed down from our forefathers. In case of accident you go in headforemost.—New York Press.

Her Method.

"Uncle Bob—Yes, my wife allus b'lieved in ty'in' a string to her finger to remember things. Uncle Bill—She has one on her finger most of the time, I notice. Uncle Bob—Yes, 'ceptin' when she has somethin' very pertikler to remember; then she leaves off the string, an' when it aint' there she remembers why.

LAWTON WATERWORKS.

Contract Let to Texas Firm to Construct Pipe Line.

Lawton, Ok., Nov. 15.—Late last night, after an all day session, the city council granted the contract for laying the water pipe line from Mount Scott to the city, to McQuatters Plumbing and Machine Company of Dallas, Texas, at a cost of \$179,000. The waterworks bonds were sold to the American Light and Water Company of Kansas City, Mo., at par. These bonds run for thirty years, bearing 6 per cent. The construction of this pipe line must be started within forty-five days and be completed August 1st next year. This line leads to the large reservoir in the mountains, twelve miles from the city. The reservoir is fed by numerous mountain springs. The force of this new water system will come from the high gravity pressure and the supply will be sufficient for a city of 100,000 people.

Oklahoma For Bryan.

Guthrie, Ok., Nov. 16.—The democracy of Oklahoma is for Bryan for President, according to information telegraphed to New York by Governor-elect Haskell today. The new official was in receipt of a query from the New York World asking for an expression as to the feeling of the party in the new State on the next Presidential nomination. Mr. Haskell answered as follows: "The Democracy is for Bryan, and has not at any time considered anyone else."

Miss Flora Anderson returned today from Dallas.

Mr. and Mrs. M. W. Boger of Jolly are in the city.

**OKLAHOMA SALOON MEN
LOOKING FOR A LOOPHOLE.**

Lawton Democrat.

At least one saloon in Lawton will open up or remain open after the new constitution goes into effect by the president's proclamation. This is the plan that has been settled on by the liquor men of the city. A fund has been raised amounting to \$600, with which to fight the prohibitory law and defeat its provisions as adopted by

hundred-dollars of this fund has been used by the saloon men as a retainer to a firm of lawyers in this city and the other hundred of the fund is retained for fall money.

One of the points that will be raised is that the territorial saloon license is a contract and is binding on both parties until its expiration. Another point raised is that the prohibitory clause of the constitution was not passed by the constitutional convention, and is not legally a part of that instrument.

Governor Haskell has promised the enforcement of all laws and it is known that he will not temporize with the violators of the prohibition of the violators of the prohibition law as adopted by the voters.

The members of the constitutional convention intended to make a prohibitory law that could be enforced. They had all the weak points of the laws enacted by other States before them and the result is a law that a man puts his personal liberty in jeopardy when he violates its provisions.

There is no question but what the chance will be taken and as to whether it is worth the price remains to be seen.

SHOWER OF METEORS.

Pyrotechnics Now Visible in the Heavens During the Night.

How many residents of Wichita Falls saw the shower of meteors that were scheduled to strike the earth last night? Perhaps not very many, but the astronomers say that the earth is passing through a bunch of them just now and that tonight and tomorrow night will also be good times for observing the display. In fact most of the showers of meteors are displays of this character. It is only the earth passing through a broken up comet, say the astronomers, but there should be a display really worth while, they declare.

To see the meteors to the best advantage necessitates keeping rather late hours, for the fall is heaviest from midnight until 2 or 3 o'clock.

The annual shower of meteors, or Leonids, as they are technically called, is always the object of intense interest on the part of students of astronomy, whether experts or beginners.

The fact that Encke's, or the lost comet, had a period of thirty-three years account for the fact that every thirty-three years, as the earth passes through it, this meteoric shower is of unusual brilliancy. The year of 1932 is the next date for a display of unusual splendor.

There is also a ring of meteors through which the earth passes in the latter part of November, generally the 27th or 28th of the month. They are supposed to be connected with the lost Biela's comet. Their radiant point is in the constellation of Andromeda, and their period is nine years.

As to the observation of these meteors all the amateur astronomer needs to do is to face due east during the hours specified and he or she will surely see some brilliant showers.

Expert Watch and Jewelry Repairing at the "New Store."

We are making a specialty of watch and jewelry repairing and feel justified in expecting a liberal patronage in these lines. Mr. Heath, who is a most expert repairer, is personally in charge of this department and gives all work his most careful attention.

More watches are ruined, more fine pieces of jewelry spoiled, by poor workmen than in any other way. Do not take any chances with yours. Bring it to us and we assure you prompt and thorough service and reasonable charges. Harrington & Heath, next door to postoffice. 158-31

THE AEROPLANE.

Keeping It Properly Balanced is a Difficult Art.

An aeroplane may be defined as a surface propelled horizontally in such a manner that the resulting pressure of air from beneath prevents its falling. A balloon can remain stationary over a given spot in a calm, but an aeroplane must be kept in motion if it is to remain in the air. Such a plane literally runs on the air like a skater gliding over thin ice. The most familiar example of an aeroplane is the kite of our boyhood days. We all remember how we kept it aloft even in a light breeze by running with it against the wind. Substitute the pull of a propeller for the cord and the aeroplane flying machine is created. If this were all, the problem of artificial flight would have been solved long ago. There remains the supremely difficult art of balancing the plane so that it will skate on an even keel. Even birds find it hard to maintain this stability. In the constant effort to steady himself a hawk sways from side to side as he soars, like an acrobat on a tight rope. Occasionally a bird will catch the wind on the top of his wing, with the result that he will capsize and fall some distance before he can recover himself. If the living aeroplanes of nature find the feat of balancing so difficult, is it any wonder that men have been killed in endeavoring to discover their secret?

If you have ever sailed a canoe you will readily understand what this task of balancing an aeroplane really means. As the pressure of the wind on your sail heels your canoe over you must climb out on the outrigger far enough for your weight to counterbalance the wind pressure, so that you will not be upset. The physicist scientifically explains your achievement by stating that you have succeeded in keeping the center of air pressure and the center of gravity on the same straight line. In a canoe the feat is comparatively easy; in an aeroplane it demands constant and fashlike shifting of the body, because the sudden slight variations of the wind must be immediately opposed. — Waldemar Kaempffert in Cosmopolitan.

MAGIC OF THE BASS.

Memories of the Battle That Linger With the Angler.

"The Indians call it 'Me-da Mon-nub-she-gan,' which translated means magic bass. He is said to be much like other black bass in appearance. But his peculiar attributes are these:

"He must be caught by casting, with a surface bait, so that you can see him rise to it. He may be taken in running water where the clear current foams over mossy bowlders and through gurgling, sunlit shallows or in the silent pools where the forest hangs darkly over the stream. He may be taken at some still lake's grassy marge, where the water lilies build him a green and white and golden canopy, or in the open places when the west wind's magic turns the glassy surface into silver.

"But wherever you find him you will see that nature rules supreme. And whether in brawling stream or quiet pool, in some peaceful lilled bay or just beneath the rippled broad expanse, where the wild beauty of the spot makes your heart beat faster, here may you find the magic bass.

"And this is his magic: That when you have fought him inch by inch and have looked upon him as he lay exhausted in your landing net you are his forever. For wherever you go and whatever you do there will come to you ever and often a dream of his first leap into the air, of the tugging line and of his body at your feet, and indistinct behind it all lie the sparkling water and the forest and the blue sky.

"In the dead of winter you will of a sudden hear the soft splash of the bass rising to your fly, you will feel the sudden tautness of the line, and the snow outside your window will melt into a summer landscape. When you are busiest there will come to you the song of the reed and the smell of pine and fir and balsam. That is the magic of the Me-da Mon-nub-she-gan."—Outing Magazine.

Various Kinds of Meteors.

"Meteors" and "meteorologists" have little in common, although their origin is identical. "Meteor" meant a good many more things to Englishmen of a few generations ago than it does now. In accordance with the meaning of the Greek adjective, which signified "up in the air," so that "ta meteora," the things up in the air, meant the heavenly bodies. Winds and whirlwinds were aerial meteors formerly in English, clouds, snow and rain were aqueous meteors, and among luminous meteors were reckoned rainbows and twilight. Meteorology preserves the memory of all this, but the word "meteor" has gone over altogether to the astronomer's sphere.

Just as Fresh.

Mrs. Newwed—Are these eggs as fresh as the ones I got from you last week? The Grocer—Oh, yes'm! Some of the same lot, ma'am. I've been keeping 'em for you.—Pick-Me-Up.

WILL PROHIBITION KILL WICHITA FALLS?

The men who say prohibition will kill the town are trying to fool you, Mister Voter. Every merchant in the city of Wichita Falls will do a better business under prohibition than he does now. Read the following:

Crime has decreased in our county since we voted local option 90 per cent. Property values have increased 50 per cent. Our city has prospered in every way. The city (Denton) is growing. We have no frosty joints, no drunkenness, no gambling, no houses of prostitution. The volume of business has increased 75 per cent. all except the sale of intoxicating liquors. W. S. FREY, Sheriff Denton Co.

Prohibition Speaking.

Mrs. A. C. Zehner, one of the most talented ladies in the South, will speak on prohibition tomorrow night at the Baptist church. Every voter in the city is earnestly invited to be present. Ladies specially invited.

W. J. BULLOCK.

A report from Burkburnett this morning stated that "Doc" Weaver was in a critical condition. No report of his condition was received here this afternoon.

The Porter's Tips.

Milwaukee Sentinel.

"I would rather be head porter in a good New York hotel than a railroad president," said Robert J. Bellis of Baltimore. "I would be making plenty of money and would not be a mark for the muck rakers. I once went on as clerk in a leading hotel there at a salary of \$125 a month, which made me feel quite contented at first. But at

the same time I started an Irishman not long over also began duty as head porter at a salary of \$30 a month. In a few months and while I was plugging away at my \$125 job that Irishman was cleaning up several hundred. I knew that one month it amounted to \$600. Among his tips was a check from George Gould for \$50 and one from Mayor Tom L. Johnson of Cleveland, also for that amount. That fel-

low is still there and is still laying away a neat little sum monthly. And if you tried to get him for anything else you would have to come up with a salary something like that paid a life insurance company's president."

Do You Remember?

The genuinc Serr de Batterie Ribbon Cane Syrup we used to get from Louisiana, years ago. After all these years we have succeeded in securing some--and its just as good as ever--that indescribable new cane flavor is there--its missing in all other cane goods. If you want something extra fine in Syrup, try this. We also have a very fine quality of Genuine East Texas Ribbon Cane; pure South Texas Corn and Extracted Honey; Maple Syrup and Maple Sugar, and all the best sweets. We have some of that Country Style Sausage in shucks and Pork Tenderloins. A nice line of fruits and vegetables for your Sunday dinner. Some very nice grape fruit. Phone your orders early and get the pick.
