## SIXTY-FIVE FOUND BY CENSUS TAKERS

### AFTER CANVASSING ONE THIRD OF CITY THEY DISCOVER THAT NUMBER MISSED.

## WORK IS TO CONTINUE

### Many Parents Do Not Know Whether Children are Enumerated or Not—Eight Men At Work.

After going over one-third of the city yesterday afternoon, the census enumerators found a total of sixty-five children not heretofore taken, indicating that there are about two hundred in the city who have not been enumerated. Eight of the ten enumerators appointed were at work and they found forty-four houses where the children had not been listed, and sixty-five children altogether.

The addresses of the unenumerated children have been turned over to Mr. Frieze, the regular census taker, who will call and secure the additional names.

Some of the parents visited yesterday were in doubt as to whether their children had been enumerated or not and it is possible that the sixty-five counted will be cut down to fifty or less when the list is checked over. But there is no doubt that enough were left out to make another census thoroughly worth while.

The enumerators visited about one-third of the city yesterday, making a very thorough canvass of the territory assigned to them. If they continue to find unenumerated children in the same proportion for the entire city, there will be a total of about two hundred. When one stops to calculate that the district is to receive seven dollars for each of these children, the desirability of a complete census will be seen.

### INVESTIGATION BRINGS OUT STARTLING FACTS

New York, June 17.—The report of the committee appointed by Governor Hughes to investigate speculation in securities and commodities and the organizations used in dealings therein was made public today. The New York Stock, the Consolidated Stock, the Cotton, the Produce, the Coffee, the Mercantile and the Metal Exchanges and the curb market were thoroughly investigated and recommendations looking to improvements of existing conditions were made at length by the committee. The most drastic finding is that affecting the Mercantile and Metal Exchanges, as follows: "Under present conditions, we are of the opinion that the Mercantile and Metal Exchanges do actual harm to producers and consumers, and that their charters should be repealed."

Concerning speculation in general, the committee declares that it may be wholly legitimate, pure gambling, or something partaking of the qualities of both, that in some form it is a necessary incident of productive operations; that it tends to steady prices and that for the merchant or manufacturer the speculator performs a service which has the effect of insurance. "In law," says the report, "speculation becomes gambling when the trading which it involves does not lead, and is not intended to lead, to the actual passing from hand to hand of the property that is dealt in."

The rules of all the exchanges forbid gambling as defined by this opinion; but they make so easy a technical delivery of the property contracted for, that the practical effect of much speculation, in point of form legitimate, is not greatly different from that of gambling.

The committee made no presentment against short selling but declares the tendency of such selling is to steady prices. It is recommended that the minimum margin should be 20 per cent and strong disapproval is expressed of branch brokerage offices which supply liquor and resort to other improper means to induce speculation.

### THOUSANDS WILL SEE AUTO RACES AT CHICAGO.

Chicago, Ill., June 17.—All is in readiness for the Cobe cup race over the Crown Point-Lowell circuit in Indiana tomorrow, to be followed Saturday by the Indiana trophy race. Probably no automobile contests aside from the Vanderbilt and Grand Prize events, have ever attracted such widespread interest as have these two contests arranged by the Chicago Automobile Club.

The course is in fine order, grand stands accommodating 10,000 spectators have been completed and the twelve contestants in tomorrow's event have their cars tuned up and ready for the best of which they are capable. The various towns in the vicinity of the course are the mecca for the thousands who are going down in cars or by rail so as to be on hand when the first race is started, as a struggle is in prospect which for skill and daring has never been surpassed in this or any other country.

Following the custom inaugurated in this country at the last Vanderbilt Cup race, a series of pits have been sunk in front of the grand stand. Here will be one of the official tire and gasoline stations, thus enabling spectators in the grand stand to observe the lightning like processes of tire changing and other adjustments, which add so much zest to the competition. Telephone stations have been erect-

ed around the course, so that the progress of the contenders will be known at the stand. Immense score boards will keep the spectators informed at all times. An elaborate signal system will help to make the races safe for contestants and spectators. Several hundred flagmen will be employed, while the guarding of the course will be by the militia.

### THINGS HISTORICAL AND OTHERWISE AT SEATTLE.

Seattle, Wash., June 17.—At the Alaska-Yukon-Pacific exposition at Seattle is displayed a relic of rare interest to the lover of things historical. It has a story to tell of the days when the revolutionary war made friends of Benjamin Franklin and General Lafayette. It will be remembered that after the close of the struggle which brought American liberty, Franklin visited France and was there entertained by Lafayette. The Frenchman asked the American for a parting token of friendship and Franklin gave up his favorite walking stick.

A wealthy resident of New Haven, while traveling in France a few years ago, discovered the cane in the possession of the present Marquis Lafayette to whom it had descended as an heirloom. After much urging he induced the marquis to allow the stick to be returned to the land of its original owner.

University of Pennsylvania authorities heard of the return of the walking stick, and as Franklin was the founder of that institution and closely connected with the history of the State they in turn induced the New Haven man to turn the cane over to them. It was presented formally to the university in 1902 with a speech by then Secretary of War Wm. H. Taft, and is now on display in the institution's exhibit at Seattle.

The cane is dark brown in color, with an ebony head, and the initials "B. F." are carved upon it. The age of the walking stick is estimated at about 150 years.

### MINISTERS HAVE AUTHORITY TO DISPENSE CHARITY FUND.

The ministers of this city wish to correct the impression that the president of the charity organization of this city is the only one who can dispense its funds. Any minister is empowered to use the organization's funds in deserving cases, and while the funds are low, it is thought they are sufficient to last through the summer. Recently while Dr. Bush was out of the city, a deserving case was allowed to suffer when he could have received help by applying to any of the ministers.

# How to Prevent and How to Cure Consumption, Or Tuberculosis

TUBERCULOSIS is a COMMUNICABLE disease.

TUBERCULOSIS is a PREVENTABLE disease.

TUBERCULOSIS is a CURABLE disease.

If you have a steady cough, go to a doctor. Don't waste your money on reputed cures.

Don't give consumption to others.

Don't let others give Consumption to you.

Don't spit on sidewalks; it spreads disease.

Don't spit on the floor of your shop.

When you spit, spit in the gutters, or into a spittoon.

Have your own spittoons half full of water and clean them out at least once a day with hot water.

Don't cough without holding a handkerchief or your hand over your mouth,

Don't live in rooms where there is no fresh air.

Health  
 Rules  
 Given by  
 the  
 National  
 Association  
 for the  
 Prevention  
 and Cure  
 of  
 Tuberculosis

Don't work in rooms where there is no fresh air.

Keep at least one window open in your bedroom day and night.

Fresh air helps to kill the Consumption germ.

Fresh air helps to keep you strong and healthy.

Don't eat with soiled hands; wash them first.

Don't drink intoxicating drinks; they will do you no good, but will make it harder for you to get well,

Don't sleep in the same bed with anyone else and, if possible, not in the same room.

Good food, fresh air and rest are the best cures. Keep in the sunshine as much as possible and keep your windows open, winter and summer, night and day. Fresh air night and day is good for you.

Go to a hospital while you can and before it is too late. There you can get the best treatment, all the rest, all the fresh air and all the food you need.

NOTE—Readers of this notice are requested by the Times to cut out and post conspicuously in order that people may be reminded daily of these simple rules of health. You may save other lives—you may save your own

### WEATHER FORECAST.

For Wichita Falls and Vicinity  
—Tonight and Friday, generally fair.

Wichita Falls, Texas, June 17th, 1909.

Only half a million dollars of improvements now under way in Wonderful Wichita. Gee, but this is a dull year.

The officials of the Stephenville railroad are said to be planning to connect this city with San Antonio. What has Wichita done?

When Campbell saw Owsley's veto editorial, he must have felt like the late J. Caesar of Rome did when he said, "Et tu, Brute!"

To the gentlemen who are said to be planning another daily for Wichita, the Times says: "Come on in, boys; the water's fine." On with the dance, let joy be unconfined.

After the paved streets and the normal, then the packing plant and the railroad to Oklahoma City. In the meantime, come to Wichita Falls, the biggest little city in Texas.

And now comes the St. Louis Post-Dispatch and deposes and says the original Marathon was 150 miles long, instead of twenty-six. But the man who ran it was scared and had a run coming.

The case of the Nebraskan who fell three thousand feet while trying to fly doesn't compare with that of a certain other Nebraskan who has fallen hard three times and is willing to try it again.

That exhibition hall being built at Lake Wichita will be circular in form, with a diameter of about two hundred feet. In other words, any other similar structure in the South could get lost in it. That's the Wichita Way.

There is a man in Wichita who says he never heard of the tariff until a few days ago. He has been married six years and has five children, all of which goes to show that where ignorance is bliss it's a blister to be wise.

The opponents of the "Fat Statute Book" needn't worry about the 161 laws that became effective this week. Just wait till the courts and the attorney general's department get through and the resultant statute book will look like five-ounce gloves had been used on it.

The rent proposition in Wichita Falls is getting to be something fierce. For more than two years there has been a shortage of residence houses, although more than three hundred have been constructed in the city during that time, and so far as the Times is aware every one of them is occupied and netting the owners all the way from 10 to as high as 25 per cent on the money it cost to buy the lots and construct the houses on them. It is a safe proposition that rents will never be cheaper or more reasonable than now until more houses are constructed.

## Bank Talk No. 3

**Our Purpose**  
Is to make this institution a material benefit to the community, and an advantage to every man and woman to you in particular.

We offer every facility consistent with conservative banking. It is our business to accommodate the people.

We invite you to join our growing list of satisfied customers.

### Farmers Bank and Trust Co.

Capital and Surplus, \$80,000.

It is unreasonable for a man who does not make more than from \$2.00 to \$3.00 per day to pay from \$20.00 to \$35.00 per month for an ordinary four or five-room house, and if he has to pay a proportional rate for his dry goods, groceries, water, lights and fuel, he has nothing left at the end of the month for other necessities, such as doctors and drug bills, etc. He is therefore put down as a deadbeat, when, in fact, he is not to blame. Something should be done to relieve this situation, for it has reached that point where it is beginning to hurt bad. The Times believes that money should earn a reasonable rate of interest, but it does not believe in making prices for the necessities of life beyond the reach of men who are doing their utmost to earn an honest living. If those who have the interest of Wichita Falls at heart and want to do something that will not only increase the population, but enable reasonably well paid laborers to live here and pay their honest debts, nothing will go further towards accomplishing this result than to build a sufficient number of houses to be rented at a reasonable rental.

### Politics and Politicians.

Not less than a million dollars is the most conservative estimate of the cost of the city election in New York this fall. This estimate is exclusive of the ballots, the expense of which is now borne by the city. The maintenance of political headquarters and the distribution of campaign literature are the chief items of expense.

It costs considerable to run for office in Virginia under the new law. Harry St. George Tucker has recently given to the chairman of the State Committee a check for \$1,500, which represents the amount Mr. Tucker's assessments for entrance in the State primary of August 5, when a candidate for governor is to be nominated.

The Wisconsin assembly named an investigating committee and empowered it to investigate the conduct of all the State departments under the La Follette regime, particularly the charges relating to the use of game warden at State expense to do political work for La Follette's followers.

It is said that former United States Senator W. A. Clark of New York and Montana is again planning to become a member of the United States Senate. According to report he is already fixing up his fences in Montana and preparing to make the race of his life against Senator Thomas H. Carter, who comes up for reelection one year hence. Montana now has a democratic governor and a republican legislature, but on senatorial fights the complexion of the legislature is always in doubt.

The movement to boom Governor Burke of North Dakota for vice-presidential nomination on the Democratic ticket seems likely to flash in the pan, chiefly because of the attitude of indifference taken by the governor himself in regard to the matter. He has declined to consent to be a candidate for a third term as governor, which his friends deemed necessary in order to keep him in the limelight until the presidential election in 1912. The belief among the governor's most intimate friends is that he would prefer a judicial position to any other public office to which he might be elected.

### Texas Christian Endeavorers.

Waco, Tex., June 17.—All trains arriving here today brought delegations to the twentieth annual convention of the Texas Christian Endeavor Union, which has its formal opening at the Texas Christian University tonight. The large number of delegates already here points to a record-breaking attendance. The evangelical churches and many residences and business houses have been decorated in honor of the occasion.

The opening session is to be devoted to the exchange of greetings. Tomorrow morning the real business of the convention will be taken up and sessions thus begun will continue through the remainder of the week, closing Sunday with special services in many of the churches.

The list of participants is headed by Dr. Francis E. Clark of Boston, founder and president of the society. Others who are on the program for addresses are Miss Tyler Wilkinson, field secretary for Oklahoma; Colby D. Hall, of Waco; L. O. Harvey of Dallas, Miss Jennie M. Perrin of San Antonio, and Rev. J. T. Malloy of Mexico.

### ROYAL HONOLULU PALACE REPRODUCED AT SEATTLE.

Seattle, Wash., June 17.—A beautiful part of the Hawaiian exhibit at the Alaska-Yukon-Pacific Exposition is found in the reproduction of the Royal Palace of Honolulu. The structure so well known by all visitors to the Paradise of the Pacific is constructed to correct scale, and its handsome lines are made from pure white sugar. It occupies a space 50x60 feet, and the various halls for parliament meetings and royal receptions are faithfully shown.

It was in this building that the once queen, Lilioukalanui was confined a prisoner in her own land during the tempestuous days of the Hawaiian revolution. To its great hall of State, Kalakaua, king and bon vivant, was brought following his decease in the city of San Francisco, and the royal splendors of the pre-burial ceremonies were conducted.

From the main tower the national flag of the Hawaiian monarchy was lowered for all time by the short-lived Hawaiian republic, and Mark Twain's "Toy Kingdom" became but a few pages of history. It is still the seat of government, however, and its purposes are much the same as they were in the days when the name Hawaiian stood for all that was hospitable, kind and generous.

Stone walls cannot talk, but were the original walls of the building endowed with this power, they could relate the history of a land beloved by all whose lot has been, even for a short time, cast among its people within the borders of its sea-girt shores. It is only one of the beautiful effects brought from our tropical possessions, to show to exposition visitors something of the many attractions of the islands.

For a limited time we are making a special price on Monarch Pork and Beans. Ask about it. 29-2f

### EMPERORS TAKE PART IN IMPERIAL CONFERENCE AT SEA

Reval, June 17.—The harbor of Reval presented an imposing naval spectacle today at the meeting of Emperor Nicholas of Russia and Emperor William of Germany. The German emperor arrived on the imperial yacht Hohenzollern, which was escorted by several German warships and found awaiting him a large contingent of Russia's fighting fleet drawn up in two lines. As the German ships swung into place a series of salutes was fired and the strains of the German national hymn were heard on the quarter deck of the imperial yacht Standart and the Russian warships.

The emperor immediately sent Admiral Von Tirpitz, minister of marine, to welcome Emperor William, and after a short interval the German emperor, accompanied by his suite, on a gorgeous state barge, proceeded to the Standart to greet the Russian ruler.

Emperor Nicholas met his fellow sovereign at the gangway and greeted him with great cordiality. An interchange of visits lasted throughout the greater part of the day and evening, and they furnished occasion for long informal conversations between the two rulers. Participating in the conferences were Prime Minister Stolypin and M. Izolsky, the Russian minister of foreign affairs, and Prince von Buelow, the German imperial chancellor.

#### ALASKAN EXPOSITION ENJOYS GOOD WEATHER.

Seattle, June 17.—The Alaskan-Yu-  
kon-Pacific exposition at Seattle may  
be seen at any time during the summer  
months without fear of sun-stroke.  
The glaring heat that made midway  
promenading all but impossible at all  
previous expositions is unknown in the  
far Northwest where the latest of the  
world's fairs is swinging merrily along  
with success written in every feature.  
It is sunny, bright and summery at  
Seattle, but the unholy thought of  
Hades is not suggested by the extreme  
so many Americans have become habi-  
tuated to during July and August.

When the thermometer reads 75 it  
is warm—yes, hot—to the citizens of  
the exposition city. Located on an  
arm of the sea—the famous Puget  
Sound—this Western metropolis re-  
ceives full benefit from the ocean cur-  
rents and the refreshing sea breezes.  
Three lakes are included in its bound-  
aries and their cool depths fed from  
the snow-crowned Cascade mountains  
freshen the air and make it whole-  
some and sweet.

Mountain ranges surround the am-  
phitheatre in which this latest world's  
congress is being held, and their melt-  
ing snow runs into streams that rush  
down rock-lined gorges to make the  
tranquil river—that flow in and about  
Seattle.

There need be no long search for  
shade. This Puget Sound country was  
a solid forest when the pioneers in-  
vaded it with their axes and saw, and  
the march of civilization has far from  
destroyed all of the mighty forest of  
primeval days. One of the predomi-  
nant features of the Alaskan-Yukon-  
Pacific exposition's landscaped beauty,  
is the much-talked of skyline of fir  
trees, towering above the classic build-  
ings with their turrets, towers and  
monster domes.

The exposition management wisely  
left these trees wherever it was not  
absolutely necessary to remove them,  
and they separate and surround the  
buildings in such a way as to make  
them cool and inviting. The glare that  
generally attends the courts of the  
world's fairs has been largely obvi-  
ated by using the color of old ivory  
instead of white, as heretofore em-  
ployed.

There are shady walks though bits  
of forest in various parts of the ground  
and beautiful picnicking spots abound  
on the shores of Lake Washington, at  
the exposition's boundaries.

As welcome to Easterners and South-  
erners as the exposition itself is the  
mildness of the climate. Here it is  
sunny enough by day to bring out the  
gaiety of summer dresses, and yet  
cool enough by night for the tired  
sight-seeker to sleep soundly.

There are no mosquitoes or other  
annoying insects to disturb a night's  
rest. But the sun comes up over the  
cascades so cheerily in the morning  
that even the sluggard does not like  
to lie abed.

It rains occasionally, but the show-  
ers are light and refreshing. They  
keep the air sweet and fresh and pure  
and charge the atmosphere with an  
invigorating twang. The eastern  
thunder-storm, with its terrifying  
lightning is almost unknown, as is also  
the tremendous windstorm of the mid-  
dle West. Nature allied comfort with  
beauty when she raised the hills,  
trenched the valleys and filled the  
lakes and rivers of this section which  
by its own industry, capital and la-  
bor has built one of the greatest of  
international expositions.

#### KAISER AND CZAR TO MEET TODAY IN FINNISH GULF.

Berlin, Germany, June 16.—The im-  
perial yacht Hohenzollern with Em-  
peror William on board, is now on its  
way to the Finnish Gulf for the meet-  
ing arranged for tomorrow between the  
emperor and czar. According to ad-  
vices from St. Petersburg the meet-  
ing of the two rulers will take  
place off Reval. Both the emperor and  
the czar are to be accompanied by their  
foreign ministers and other advisers.

Great political significance is at-  
tached to the meeting of the two rul-  
ers. It is fully recognized that Ger-  
man mediation, which brought about a set-  
tlement of the recent Balkan crisis,  
was not altogether to the liking of St.  
Petersburg and that as a consequence  
the support of the Russian government  
in future might be more likely to be  
given Great Britain's continental pol-  
icy than to the German policy. The  
possibility of close relations between  
Russia on the one side and France and  
England on the other has been viewed  
in Germany with some concern.

A determined effort will now be  
made to detach Russia from England  
and France and to engage Russian  
support for Germany. The personal  
element plays a great part in interna-  
tional European policies, and the strik-  
ing personality of the kaiser counts  
for a great deal. The kaiser is ex-  
pected to exert all his personal fasci-  
nation in order to gain the sympa-  
thies of the czar and thereby to in-  
fluence the foreign policy of Russia in  
a direction favorable to Germany.

#### IN FAR NORTH MAY SEE TO- DAY'S DOUBLE ECLIPSE.

Washington, D. C., June 17.—At the  
naval observatory here and among  
American scientists in general much  
disappointment is felt that today's  
eclipse cannot be seen to the best ad-  
vantage on this continent, for the  
eclipse is one of the most interesting  
of the astronomical phenomena. The  
present eclipse is one of the peculiar  
type of solar eclipses which begins as  
annular, becomes total and changes to  
annular again. Although the record of  
eclipses go back hundreds of years the  
history of astronomy fails to show any  
duplicate for the double annular and  
total eclipses such as that which occurs  
today.

The central path of this eclipse lies  
wholly in the far north. It begins in  
Siberia and, crossing the Arctic circle,  
passes nearer the north pole than any  
explorer has yet reached, and leaves  
the earth in Southern Greenland. The  
southern region of partial eclipse in-  
cludes China, Eastern Asia and North  
America as far south as the Gulf of  
Mexico. But throughout practically  
the whole of the North American con-  
tinent observers will be able to see only  
a very small partial eclipse, so small in  
fact as to be hardly noticeable.

For a limited time we are making a  
special price on Monarch Pork and  
Beans. Ask about it.      29-21

**DAYTON, OHIO, JOINS IN  
CHEERS FOR WRIGHT BROS.**

Dayton, Ohio, June 17.—Dayton today  
paid its respects to Wilbur and Orville  
Wright, the young inventors of the  
aeroplane who have helped to make  
the Gem City famous. The day marked  
the opening of the festivities that  
have been called "The Wright Brothers'  
Home Celebration." In honor of the  
occasion the city is filled with  
thousands of visitors and decorated  
as never before.

Today's program is largely of a  
preliminary character, a sort of curtain  
raiser for the big events of tomorrow.  
At 7 o'clock this morning the  
celebration was ushered in with the  
firing of cannon, ringing of bells and  
blowing of whistles throughout the  
city. During the forenoon visitors  
poured into the city in large numbers.  
The downtown section was elaborately  
decorated with flags and banners and  
pictures of the famous aeronauts. Buttons  
bearing miniature portraits of the  
Wright brothers were worn by practically  
every citizen of Dayton.

Two regiments of the Ohio national  
guard have arrived to head the parade  
tomorrow afternoon. This parade will  
be one of the big features of the  
celebration. A large reviewing stand has  
been erected in the center of the city,  
where the Wright brothers, their sister  
and father, members of the reception  
committee and prominent guests will  
view the pageant.

Tomorrow morning has been designated  
as the time for presenting the State  
and city medals to the Wright  
brothers. The presentation will be  
made at the county fair grounds in  
view of the thousands who will assemble  
there for the ceremony. Governor  
Harmon will present the State medal  
and Mayor Burkhardt the city medal.

The celebration will be brought to  
close with an elaborate banquet tomorrow  
night. The guests will include  
several hundred representative citizens  
of Dayton and personal friends of the  
Wrights.

**News of the Day in Brief.**

Boston, Mass., June 17.—Boston  
kept its customary holiday today in  
observance of Bunker Hill day. The  
patriotic celebration centered, as usual,  
in Charlestown, the scene of the famous  
fight.

Dawson, Ga., June 17.—Two hundred  
delegates and visitors are here for  
the eighth annual conference of the  
South Georgia Epworth League. The  
sessions were opened today and will  
continue until the end of the present  
week.

Sunbury, Pa., June 17.—The new  
Odd Fellows' Orphans' Home, erected  
near Snyderstown at a cost of more  
than \$40,000, was dedicated today with  
interesting ceremonies. Grand Master  
J. S. Montgomery and other prominent  
members of the order were in  
attendance.

Lansing, Mich., June 17.—The appeal  
of Frank P. Glazier, ex-State  
Treasurer, was up for argument before  
the Supreme Court today. Mr. Glazier  
was convicted of misappropriating about  
\$680,000 of the State funds.

Winona, Minn., June 17.—Winona gave  
a hearty welcome today to the delegates  
assembled for the annual State  
convention of the Free Baptist Church.  
The program covered two days and  
provides for addresses by a number of  
prominent ministers.

Dodham, Mass., June 17.—Several  
hundred descendants of Jonathan Fairbanks,  
who came from England in 1636, and  
settled in this town, came here today  
to celebrate the annual reunion of the  
Fairbanks family in America. The  
reunion was held in the old Fairbanks  
homestead, which is believed to be the  
oldest dwelling in New England.

New York, June 17.—The cases of a  
dock superintendent and six checkers of  
sugar weights, charged with conspiracy  
to defraud the Government in the  
weighing of sugar came up for trial  
in the Federal Court today. The cases  
result from the investigation of custom  
inspectors, which disclosed that  
springs had been used to maintain  
the scales used to weigh sugar imports  
in such a manner as to defraud the  
Government of \$2,000,000 in customs  
duties.

**PRUNES ARE JUST AS GOOD**

In summer as in winter. The only reason you don't serve them often in hot weather is on account of the expense and discomfort of preparing them. We have the celebrated PRESTO Prune in 10c, 15c, 20c and 30c Thin or a No. 10 or so called gallon tin for 75c. They are healthy, wholesome and decidedly delicious. You used to roast your coffee and bake your beans—why worry with the prune question, it's solved for you?
