

Baptist Revival Meeting is Now in Progress

The first service of a two weeks revival meeting conducted by the First Baptist church began Sunday morning in the church with the regular services. During the afternoon two pianos and the chairs were moved from the church house to the tabernacle in preparation for the evening service.

Something like a half dozen additions awarded the first service, which was conducted by the pastor, in the absence of Dr. T. V. Neal, who did not arrive from El Paso until Tuesday noon. In the Sunday night service J. D. Riddle of the First Baptist church of Amarillo was introduced as the music director for the meeting.

From the introduction in the beginning of the service Tuesday evening Dr. T. V. Neal, pastor of the First Baptist Church, El Paso, had the attention and admiration of the congregations. His keen wit interspersed in strenuous, well timed thrusts at unrighteousness and his presentation of Bible messages have favor in the hearts of those hungering for the old time gospel preaching. Results are becoming visible.

Prayer meetings of different groups are meeting daily with reports of good work done. Rev. F. G. Rogers, pastor of the church has announced his anticipation of a meeting of far reaching good and continually invites all who will to come to the services, which are conducted under the large tabernacle directly north of the Godfrey and Smart agency building.

Miss Blair and David McAteer Married Last Sunday

Sunday, May 26th, Miss Georgia Mae Blair, daughter of Mr. and Mrs. W. D. Blair, of east of Spur, and David McAteer, son of Mr. and Mrs. W. L. McAteer of north of Spur, were united in marriage, the ceremony being performed at the McAteer home.

Mr. and Mrs. McAteer are prominent young people of the Spur country, and the Texas Spur joins their many friends in extending congratulations and very best wishes, and may they live long and always prosper.

52 Nations of the World Represented by Delegates at Convention

S. H. Twaddell, Geo. S. Link Sr. and Jr., W. B. Lee, Bill Simpson and Mr. and Mrs. V. C. Smart were among those of Spur who attended the International Convention of Rotarians in Dallas this week. At the convention there were fifty two nations of the world represented by delegates.

Stonewall Man Buys Spur Farm at \$80.00 Per Acre

J. A. Suggs, of Stonewall county, last week purchased the Dan Hisey farm two miles southwest of Spur for a consideration of eighty dollars per acre, the farm being comprised of 170 acres.

Mr. Suggs and family this week moved and took possession of their new farm home and are now making changes, additions and improvements on the place. Among other improvements and additions, Mr. and Mrs. Suggs are having the West Texas Utilities Company install electric wires and equipments for light, heat and power on the farm home.

P. Middleton, of Lubbock, has been spending several days of this week in Spur. Mr. Middleton had the sons to graduate this year from high school, junior college and senior college.

Miss Virginia Forbis returned last week from Lubbock where she had been the past school term, teaching in the public schools. She will spend the summer vacation in Spur with her parents, Mr. and Mrs. R. C. Forbis.

County Sing Song In Dickens City On June First Sunday

The Dickens County Singing convention will meet in the auditorium of the Dickens public schools next Saturday night and Sunday, according to an announcement of the president, R. C. James, of Spur.

President James requests that all classes of the county send delegate to the meeting Saturday night for the purpose of attending to matters of business.

The Sunday is scheduled for the entire day with dinner on the ground at the noon hour. As many as can conveniently do so are requested to bring baskets of dinner.

Memorial Day Was Observed in Spur Thursday

The one hundred or more members of the American Legion Thursday observed memorial day. The membership met in the morning at the K. P. Hall and marched from there to the tabernacle and from there to the cemetery where the graves of departed war veterans of both the Civil War and the World War Veterans were decorated with flowers.

In the afternoon the Legionaires went to Dickens and there paid respects to the dead veterans.

Tax Funds Should be Expended in Accord With Precinct Values

In conversation last week with County Commissioner H. O. Albin, he informed us that in view of the multiplied interests of the four commissioners precincts, and the constant demands for expenditures and improvements in each of the four precincts, that in order to properly divide expenditures and give equal representation to tax payers in the disbursement and expenditure of tax moneys, a proposition would be made in the court to divide and apportion the funds in each precinct in accord with the taxable values. With exceptions, of course, of the decision of the whole court in exceptional cases, this is the only fair solution of the disbursement of tax funds. Occasions may arise where one section may at a time need and demand more funds than is apportioned in this manner, but on the whole the tax payers are entitled to value received for taxes paid.

MERCHANTS TO CLOSE STORES AT SIX O'CLOCK

The following merchants have agreed to close their stores at six o'clock, beginning on June 1st, and continuing to September 15th.

Brazelton Lumber Co., Bryant-Link Company, Campbell and Campbell, City Grocery, Dickens County Times, Electric Shoe Shop, The Famous, Inc., Gambill's, Gibson Grocery, Hogan & Patton, Hokus Pokus, Joplin Bros., Kalam's Dry Goods, Inc., Love Dry Goods Company, M. System Grocery, Mussar Lumber Company, Ritter Hardware Company, B. Schwarz & Son, Smith and Bowman, Virgil Smith Grocery, Speer Variety Store, Spot Cash Grocery, Spur Hardware and Furniture Company, Stockton Bros., C. E. Stone Co., Tri-County Lumber Company.

L. A. Grantham, of the Red Hill community to the east of Spur, was among the many business visitors on the streets the past week. Mr. Grantham reports plenty rain and everything now in fine shape in that part of the country.

Marion Hutton was on the streets one day the past week. Mr. Hutton has been one of the 'road hands' the past several years, but is now engaged in farming while his son is doing the road work in his place.

Miss Virginia Forbis returned last week from Lubbock where she had been the past school term, teaching in the public schools. She will spend the summer vacation in Spur with her parents, Mr. and Mrs. R. C. Forbis.

Charley Austin Suffers Loss of Eye by Gun Shot Wound

Sunday afternoon C. E. (Charley) Austin suffered the loss of one of his eyes by the back-firing of a 22 target rifle. He had gone out from his camp between Paducah and Matador to shoot rabbits. In firing the gun the explosion pushed the shell from the breech of the gun, striking Charley in the eye. He was carried first to Paducah, then to Matador, and then on to Spur before he was given medical attention and relief, being now under the care of Dr. Blackwell who is an eye, ear and nose specialist.

While very little hopes are entertained in saving the eye, yet it is sincerely hoped by his many old time friends that Charley may not lose the eye completely.

DICKENS COUNTY CLUB GIRLS ENJOY PICNIC

The club girls of Dickens met at their usual meeting, Monday, May 27 and after Miss Osborne had given them a demonstration in cooking they fixed their lunch and drove to Roaring Spring and at supper.

They all enjoyed going swimming wading and other things. Mrs. Machee was so kind as to lend them her car to help carry the girls.

Those being present were Callie Jones, Tressie Foreman, Wilma Stephens, Letha Bilberry, Marguerite Gay, Ovary Dooley, Lucinda Bradshaw, Anibel Speer, Opal Bradshaw, Louise Durham and Miss Osborne, our demonstration agent. All report a nice time.—Reporter.

Double Wedding Solemnizes Nuptials Of Two Spur Girls

Bringing to a close a series of pre-nuptial affairs in a double wedding ceremony, Sunday morning at 9:00 o'clock, Miss Lucille Lucas and Alfred J. Van Dyke of Lubbock and Miss Thelma Caraway and Cash C. Wilemon of Stamford were married at the home of Mr. and Mrs. E. L. Caraway, the Rev. A. J. Abbott, pastor of the First Christian church, officiating. Miss Caraway is the only daughter of Mr. and Mrs. E. L. Caraway and a recent student of the Tech College where she was honored by being chosen as queen of the Junior Prom and also selected as one of the college beauties.

Miss Lucas is the only daughter of Mrs. R. R. Wooten and a 1928 graduate of the Tech college. She was English teacher in the Spur Junior High School the past session. Messrs Wilemon and Van Dyke were also students of Texas Tech college and it was there the romances were begun.

Rose entwined trellices flanked by tulle tied baskets of roses with a profusion of palms and ferns as the background formed the altar, above which hung a huge wedding bell adorned with lilies of the valley and tulle.

Miss Nell Parmley of Lubbock, accompanied by Mrs. J. T. Baisden at the piano, sang "At Dawning" preceding the bridal chorus from Lohengrin: little Helen Hale and Helen Grace Dickson, dressed in pink and green formed the pathway for the bridal party by placing baskets of roses with Tulle Bows from the altar to the stairs.

Little Mary Nancy Roberts and Grace Foster, flower girls, wore bouffant frocks of green and pink, respectively, and carried white baskets from which they dropped pink rose petals as they descended the stairs and led the way to the altar.

The ring bearers, Little Pat Wilson and Ted Brannen wore suits of white and carried the rings in the heart of a pink rose.

The brides maids wore gowns of powder blue chiffon crepe; Miss Dorothy Love attending Miss Lucas and Miss Lois Perkins of Stamford, a cousin of Mr. Wilemon, attending Miss Caraway: both carrying pink rose bouquets.

The brides entered on the arms of their fathers. Miss Lucas carried an arm bouquet of roses and gys-

Perkins Dry Goods Company Buy the Barrier Bros.

The sum of \$85,000 was the amount that the nine Barrier brothers brought Wednesday evening, when this property was sold to the highest bidder at Lubbock.

The Perkins Dry Goods Company of Dallas was the purchaser. Marshall Fields Company and the Perkins Dry Goods Company were the two bidders for the nine stores.

It is understood that the Perkins Dry Goods Company intends to sell each stock as it stands at the different towns where located. The Crosbyton stock had not been sold up to the time of going to press.

Mrs. E. C. Edmonds returned of the week from a business trip to Fort Worth where he spent some time looking after the Fort Worth Casket Company in the absence of the general manager who made a business trip to points in South Texas.

Mrs. E. C. Edmonds returned home this week from Fort Worth where she has been visiting several weeks with her mother, Mrs. G. H. Connell. Mrs. Connell had been ill but her health is now very much improved.

Mr. and Mrs. C. S. Adams, of Roaring Springs, were shopping in Spur Tuesday of this week.

Ol Taylor, of south of Spur, was in the city Monday, reporting every thing now in good shape in his part of the country.

Young Cockleburs Found To Be Killing Farmers Baby Turkeys

I dropped by a farm north of Spur the other day where they had been having trouble with young turkeys dying. Every time the poulters were turned out several of them would be found dead in the coop the next morning.

I thought "red ants" when told about the case and expected to cut into them and find these insects to be the cause. However, the coop showed small cocklebur leaves to be the trouble.

This is the first time that I have ever run into a case like this. Little cockleburs are sure death to little pigs but this was a new one on me. Maybe you already knew about it.

E. J. Lassetter Buys Interest in Harkey Motor Company

E. J. Lassetter, of near Spur, this week purchased a one-half interest with Roy Harkey in the Harkey Motor Company, and will hereafter be personally identified with the business.

The Harkey Motor Company is local sales agent for the Chrysler automobiles.

Miss Shockley and Joe Bailey Whitener Were Married Saturday

Miss Lafer Shockley, of north of Spur, and Joe Bailey Whitener of the city, were united in marriage Saturday evening of the past week.

The Texas Spur joins friends in wishing Joe Bailey and bride many years of happy married life.

Miss Kerley Successfully Operated at the Nichols Sanitarium

Miss Kerley, daughter of Mr. and Mrs. J. A. Kerley, of several miles east of Spur, underwent a surgical operation last week at the Nichols Sanitarium, where she is now recovering doing nicely and recovering very satisfactorily from the operation.

E. H. Blakley, of the Elton section of country, north of Dickens, was in Spur Tuesday afternoon of this week. He reports having had fine rains, that section escaping the big rains falling further to the north the past week, and that everybody in the Elton community were now finishing up their plantings, with good seasons and very promising conditions.

E. B. Shaw, of Croton, was in the city Saturday with the crowds of business visitors here that day from every section of the country. Mr. Shaw reports everything in fine shape now in the Croton section of country.

T. H. Tallent, of the Gilpin section of country, returned last week from an extended trip and visit up in Oklahoma where he had spent several weeks. Mr. Tallent reports plenty of rain in Oklahoma, but stated that but little rain had fallen in the Gilpin territory, the rainfall in that section amounting to only about one half inch.

J. A. Legg, of Croton, was among the business visitors in Spur Tuesday of this week.

Mace Hunter, of east of Spur, was on the streets Tuesday.

Ab Fry, of Cat Fish, was in town Tuesday, trading and meeting with his friends here.

G. B. Erath, of south of Spur, was among the many business visitors in the city Saturday.

J. C. Dopson, of two or three miles north of Spur, was on the streets the past week end. He reports everything all o. k. in that part of the country.

Spur, Jayton and Girard Show Their Patriotism

After three days devoted to selling American Legion poppies, the ladies of the Spur Auxiliary have voted unanimously upon Dickens, Girard, Jayton and Spur as being among the most patriotic towns of Texas. Five hundred poppies were sold to citizens of the above named towns who paid for them cheerfully and willingly both large and small sums.

The American Legion and auxiliary are two of the most outstanding organizations of Spur. Many people do not realize just how far their influence is reaching when aid in any form is given to either of these organizations. Very few citizens of the above named towns, refused to buy one of these flowers which were made by the wounded world war veterans. Those who did refuse, evidently had forgotten the time when millions of our American soldiers were sacrificed upon the battlefields of France.

Many instances of patriotism were noted by our sales ladies, for instance, one man who had seen service either at home or abroad, tried to realize the worth of his money from the Aroma of the Poppy, but rather from the satisfaction which comes from a deed of patriotism done for a worthy cause.

All persons who are eligible for membership in the American Legion Auxiliary are cordially invited to attend the next meeting at K. P. Hall, the first Thursday evening in June at 8 p. m.—Historian.

Plan To Ship Car Of Capons From Spur In January

Over one hundred farmers of the county are planning on producing infertile eggs for the summer. This is the time to figure on what you are going to do with the young cockerels as they come on. Are you going to sell them as broilers or fryers at less than the cost of production or do you want to caponize them at ten weeks of age and raise them as capons for selling next January or February at a fancy price. It will take only 3,000 capons to make a car load. Sixty farmers should easily have that number of extra cockerels to turn into capons in the next few weeks.

A capon is easy to raise and all you will have to do is have him caponized and turn him loose with the pullets. He will not need feed other than range around the farm and grain.

White Leghorns make good capons that come under the head of light capons. They should bring around 25 cents per pound and will weigh six pounds by the time they are sold. The heavier breeds will weigh from seven pounds up and will bring a higher price per pound.

This is worth thinking over. It will bring in a hundred or more dollars next winter when it will look good.

The next question is how can all this caponizing be done? There are two ways. I am going to give a series of caponizing schools over the county. If you are interested get in touch with me and we will arrange to have one in your community. Get two or three neighbors interested and I will come out and get you trained up. It is easy. For those who do not care to learn I am going to train up some men who will caponize for you either for so much per head or on shares. You could easily let some one caponize for you for one fourth of the young birds. You would come out way on the long run at that rate. If you are interested do not put off but get in touch with me at once.

G. W. Justice, of Route One, was in the city recently trading and transacting business affairs.

W. L. Hudson, of the Kalgary country, was in Spur the first of the week.

Heart To Heart Talk
(By Dr. John Joseph Gaines)

INVISIBLE REALITIES

Once a very great editor assured a little girl about the reality of Santa Claus. He said in so many words that the most real things in this world are the things that children and men do not see.

It would be very difficult to find a sentence that holds more of sublime truth.

We cannot see an electric current of 20,000 volts; yet it is there in all its terrible reality.

No one has ever seen carbon monoxide gas. Who does not know of it and fear it?

The deadly spirit in alcohol is invisible. The clear liquid looks as innocent as distilled water; one can not tell them apart, so far as looks are concerned. The smell, taste, and effects on the human constitution go to make the spirit more realistic.

Human beings have learned of these stern, invisible realities, and how to evade their harmful effects, and also how to apply them to useful purposes. Almost every modern home uses illuminating gas, which nobody has ever seen. One of the most deadly elements known, if it gets the upper hand.

Education etai n rhdslue etai on getting the upper hand, and

makes valued friends of them. It is only the ignorant and neglectful that suffer consequences. With proper training man can have dominion over all things; without it he is easily victimized.

The fully trained, intelligent man, guards every portal against the invasion of the invisible foe, which is the kind that kills; the enemy that cannot be seen is very real, and is many times more dangerous than the one we can see. The invisible enemy attacks from behind, as it were. The trained man sees him all around. God pity the man or woman, boy or girl that gropes in ignorance today!

ERETBRAE OF TRIASSIC AGE REPTILE IS DISCOVERED ON CAT FISH CANYON.

Canyon.—What is said to be one of the four fossils of a certain reptile of the Triassic rests today in the museum of the Panhandle-Plains Historical society here. The fossil was found near Catfish creek, in Crosby County and has been given to the museum through George A. Doughty, of Post, who has been much interested in collecting fossil specimens over a long period of years.

The Triassic age was the earliest part of the Mesozoic period of the world's history. It was characterized by sand stone rocks, aridity and

HUNTERS FIND SKELETON IN ROCK OF BLANCO CANYON AT CROSBYTON

scant vegetation. It was during this time that reptiles rapidly evolved.

The Panhandle Plains historical society museum also contains a vertebrae and tooth of the Giant Phytosaur, a crocodile-like reptile not unlike the better known dinosaur.

Other specimens secured for the museum from Mr. Doughty include 47 teeth of small, triassic reptiles, glazed pottery from cliff dwellings near Santa Fe, samples of lava and ores from many parts of the earth and arms representative of the past fifty years.

George A. Doughty is a recognized authority on fossil specimens and is frequently consulted from all parts of the United States.

KILLING THE GOOSE THAT LAID THE GOLDEN EGGS

We want good roads—we know they are a necessity. But if the road equipment and road material interests of this county are not careful millions of motorists are going to rebel.

It isn't at all impossible for the paving brick and concrete and stone men, along with the men who make road building machinery, to kill the goose that is laying them their egg of gold.

Tinkering with legislatures in several states and getting gas taxes boosted every time these legislatures meet may be fine for their pocket books now, but there'll be a different song if the motorists become disgusted with such tactics.

Any motorist is willing to pay a fair gas tax. He knows it is the best way yet invented for keeping our roads up to standard. But that does not mean that is forever going to be satisfied with "being the goat."

We don't want to preach, and we have no inclination to predict. But a word of this kind to the wise ought to be sufficient, both now and in the future.—Lamb County Leader.

Why is it that a young widow can get a man hypnotized that he will actually believe her if she says she has never kissed a man before.

If nobody says anything against you there probably isn't very much to say for you.

While out rabbit hunting one day last week, J. B. Brown and Earl Blackwood found a human skeleton in the Blanco canyon north of town.

Mr. Brown said that at the time they discovered the skeleton the dogs were chasing a rabbit down in the canyon north of town.

Mr. Brown said that at the time they discovered the skeleton the dogs were chasing a rabbit down in the canyon while they were standing on top just at the edge, when they looked down close to them and discovered the head lying out on top of the ground, and upon investigation it was found to be the skull, and when they hit it with a stick, it crumbled away with the exception of the forehead, jaws and teeth which remained intact. Curious to know if other parts of the skeleton were there, they began to make an investigation and found back up under a crevice or rock, by removing the rock and dirt, the entire skeleton. Mr. Brown said. He said when they began the excavation and tried to take out the skeleton, only the different bones would lift, as they would come apart from the joints.

There is no way of telling how long this skeleton has been there, or in which way the party met its death. Neither was there any way of telling the sex. Some who saw the head teeth say it must have been a young person, for the teeth were all sound and intact and not one of them had dropped out of the jaw.

The fact that most of the head crumbled when touched with a sick, is evidence that it has been there for a long time, Mr. Brown said.—Crosbyton Review.

Nearly 3,000,000 acres of Texas land has been terraced in the interest of soil conservation.

Making friends is an art, but keeping them is a science.

The man who thinks he can will soon know he can.

Those who really know the most are usually those who appear to know the least.

Years of service in MODEL T FORDS

THE Model T was so strongly and sturdily built that it is still rendering reliable, economical service to motorists in every section of the country. Millions of these cars can be put in shape for two, three and five more years of use at very small cost.

So that you may have this work done economically and satisfactorily, the Ford Motor Company is still devoting a considerable section of its plants to the manufacture of Model T parts. It will continue to do so as long as they are needed by Model T owners. The following list gives the approximate labor charges for reconditioning the Model T Ford:—

Engine	
Tune motor (including replacement of commutator case, brush and vibrator points if necessary)	\$1.00
Grind valves and clean carbon	\$3.75 to 4.00
Overhaul carburetor	1.50
Reline detachable car transmission bands	1.50
Install new pistons or connecting rods	6.00
Tighten all main bearings	6.00
Overhaul motor and transmission	\$20.00 to 25.00
Rear System	
Replace rear axle assembly	2.50
Install universal joint	3.00
Reline brake shoes	1.50
Replace rear axle shaft, drive shaft pinion, or drive gear	5.00
Overhaul complete rear axle assembly	\$5.75 to 7.00
Rebush spring and perches	1.75
Oil and graphite springs	3.00
Front System	
Overhaul front axle	\$4.00 to 5.00
Rebush spindle bodies and arms (both sides)	2.50
Replace or straighten spindle connecting rod	.75
Tighten radius rod or steering ball cap	.60
Tighten all sockets and joints of front end	1.50
Replace front spring tie bolt or new leaf	2.50
Straighten front axle	3.00
Chassis	
Replace rear fender	1.75
Overhaul steering gear	3.50
Repair muffler	1.00
Overhaul radiator	7.50
Repaint Coupe	25.00
Repaint Sedan	25.00
Repaint Touring Car	20.00
Reupholster Runabout	8.00
Reupholster Touring Car	15.00
Replace top deck (Coupe or Sedan)	4.00
Overhaul starting motor	3.00
Overhaul generator	2.60

These prices are approximate and are for labor only, because the need and number of new parts depend on the condition of each car. The charge for these parts is low, however, because of the established Ford policy of manufacturing and selling at a small margin of profit.

FORD MOTOR COMPANY

SPUR FARM LANDS AGAIN OFFERED FOR SALE

We are glad to announce that we are again offering for sale (at no increase in price) farm and small ranch tracts in Dickens, Kent, Crosby and Garza Counties.

Terms: One-fifth cash. Balance on easy terms.

**Three Turkey Hens
Lay Record Number
Kent County Eggs**

(By E. L. Tanner)
H. L. Underwood, who lives just
over the Kent county line south east
of town, was in the office on the
eleventh of this month and said that
he has three turkey hens who have
laid to that date a total of 112 eggs.
He has fifty four of these eggs
setting now and states that the three
settings, which he has taken off,
hatched 100 per cent of the eggs
set.
He says that his turkey hens eat
the laying mash which he keeps out
for his hens all the time.
This is a wonderful record for
both eggs and hatchability.

**Eats Big Steak and
Fried Onions—No Gas**

"Every time I ate I had terrible
stomach gas. Now, thanks to Ad-
lerika, I eat steak and fried onions
and feel fine."—Mrs. J. Julian.
Just ONE spoonful Adlerika re-
lieves gas and that bloated feeling
so that you can eat and sleep well.
Acts on BOTH upper and lower
bowel and removes old waste matter
you never thought was there. No
matter what you have tried for your
stomach and bowels, Adlerika will
surprise you.

**Farmers Appeal For
Reprint Of Eudlay's
Farm Grain Ration**

(By E. L. Tanner)
When you get something good
it just will not stay down. E. F.
Sonamaker of Spur was in my office
the other day to get Eudlay's ration
for cows. He said that he had talk-
ed with several other fellows who
are using it and he just had to have
it.

Good reports are coming in all
the time. It produces the results
which means milk in the pail at a
low cost.
It might be good to repeat it here:
200 pounds of maize heads or corn
or any grain sorghum; 100 pounds
of wheat bran; 100 pounds of cotton
seed meal; 100 pounds of alfalfa
hay; 5 pounds of salt. When cows
are on good pasture this should be
fed at the rate of one half gallon
of the ration to each gallon of milk
the cow gives. When she is on
dry feed give gallon for gallon.
Do not cut off all the grain ration
this summer. She will pay you back
next winter.
Do not let her run her body down
on heavy production on green pas-
ture. Feed her grain and get it
back next winter.

**Shark Chases Fishermen
for Two Days Off Havana**

Havana.—Three excited fishermen
drove a small motor boat into the har-
bor, rushed to the port captain and
told him they had been chased for two
days by a huge shark. A rifle squad
of customs guards was sent out to
give battle to the fish. The men said
they were fishing for sharks when the
big specimen reversed the procedure.
They said the sea tiger had tried to
overturn their craft and had nearly
succeeded several times.

**Dog Sorrows for Master
He Accidentally Killed**

Hillsboro, Ore.—A pet dog is sor-
rowing for his master here, but he
does not realize that he was responsi-
ble for the man's death. All he knows
is that William Ginder does not come
home any more. Mr. Ginder and Mrs.
Ginder were out shooting squirrels.
The dog came sniffing around the rifle
which the man had placed in some
bushes, and it exploded, killing Mr.
Ginder.

It isn't reported how many clerks
answered the ad in a Philadelphia pa-
per for "a young man to sleep in a
store."

So live that at your demise the city
editor won't have to send to head-
quarters, if your photograph is de-
sired.

It is now candidly agreed among
young and old that there is no "Santa
Clans." But there is still the Nobel
prize.

Queen Marie is planning another vis-
it to the United States. Well, we may
not get so red in the neck this time.

Chicago florists do a business of
\$16,000,000 a year, but of course, some
of the flowers are used for weddings.

No matter at how many weddings
a man may serve as usher, he is al-
ways more or less befogged at his
own.

Trotsky is described as being a man
of very few words. After looking at
a Russian dictionary we don't blame
him.

Politicians know they can't fool all
the people all of the time, but that
does not prevent some of them from
trying.

**Hamlin Farmer Is
Killed By Lightning**

Hamlin.—Joe Ben Lewis, 35,
prominent farmer who resided 12
miles northeast of Hamlin, was
struck and instantly killed by light-
ning in an electrical storm which
preceded a heavy rain here late

Saturday afternoon. Lewis was re-
turning home from Hamlin with a
negro boy in a car when the storm
overtook him. The boy was not in-
jured and ran a mile and a half
to seek help. The car in which they
were riding went wild, running into
ditch and overturning.
Lewis was killed instantly, accord-
ing to the negro.

Statisticians have figured it out
that automobile tourists will spend
between three and five million dol-
lars this summer. Regardless of the
opinion held by some of the value of
cross country highways, the localities
so served are going to get their
share of this. It has been estimated
that tourists passing through a town
are worth on the average of a dol-
lar a head to the town.

Just another good
thing added to the
other good things
of life

CAMEL
CIGARETTES

WHY CAMELS
ARE THE BETTER CIGARETTE

Camels contain such tobaccos and such
blending as have never been offered in
any other cigarette.

They are made of the choicest Turkish and
American tobaccos grown.

Camels are always smooth and mild.

Camel quality is jealously maintained . . .
by the world's largest organization of
expert tobacco men . . . it never varies.

Smoke Camels as liberally as you choose . . .
they will never tire your taste.

Nor do they ever leave an unpleasant
after-taste.

THE COMMANDER SIX REGAL SEDAN—Six wire wheels and trunk rack standard equipment—\$1495
at the factory. Bumpers and spare tires extra

TODAY'S Commander has swept to
popularity which eclipses even that of
its illustrious predecessor—the famous
Commander which sped 25,000 miles in
22,968 minutes.

Swung low on a costlier double-drop
frame, The Commander's sweeping lines
suggest the performance which enabled
Studebaker to win every official speed and
endurance record for fully equipped stock
cars. No matter how many cars you may
drive after your first turn at the wheel of a
Commander, you will never forget the
thrill of its champion performance. May
we send you a Commander to drive today?

Who are the people who have made this car such an overwhelming success?

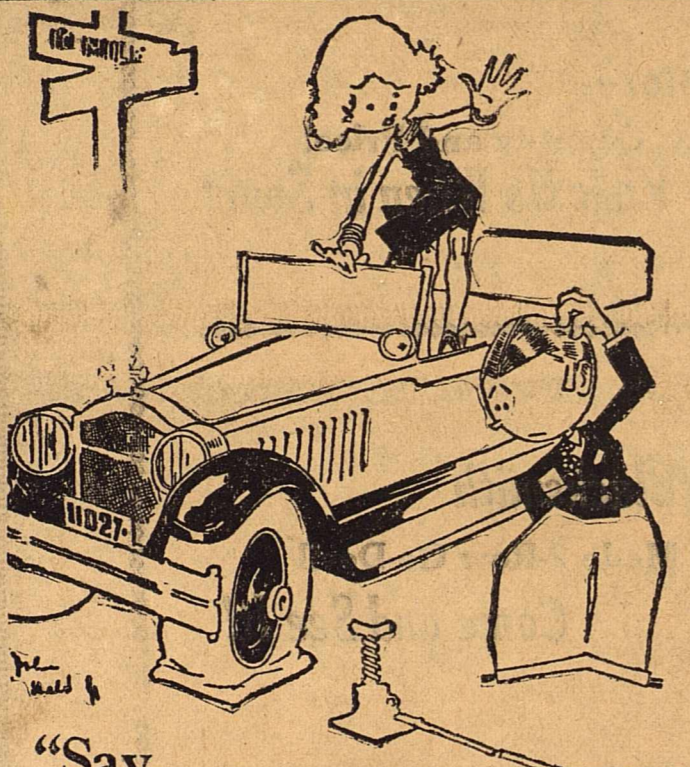

The New Pontiac Big Six is scoring a tremendous success. All previous Pontiac production records have been surpassed. But the most interesting phase of Pontiac's latest and greatest success lies, not in the number of people who are buying it, but in the kind of people. They give the real clue to the value this car provides.

Prices \$745 to \$895, f. o. b. Pontiac, Michigan, plus delivery charges. Bumpers, spring covers and Loveloy shock absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values. . . . Oakland-Pontiac delivered prices include only reasonable charges for delivery and financing.

J. D. POWELL MOTOR CO.

THE NEW PONTIAC BIG SIX \$745 AND UP

The World's Greatest Tires

GOODYEAR

Stands to reason Goodyears are better tires for the same or less money. Goodyear can produce at lowest cost because of building millions more tires than anyone else. The public has discovered this fact—that's why more people now won't buy anything but Goodyears.

GODFREY & SMART

Ten Cows Produce Thirty Five Gallons Cream In Ten Days

By E. L. Tanner
M. S. Faver of Prairie Chapel community has ten cows in milk and is selling thirty five gallons of cream every ten days. All of these cows are registered.

Mr. Faver has been building up his herd for a number of years now. He believes in the best and tries at all times to have it. He has ten acres of alfalfa too. Looks like ten is Mr. Faver's favorite number.

An authority on bridge says there are 3,000,000 people in this country who play the game. "At it" would more properly describe 99 per cent of them.

"A man in New York accidentally dropped a check from a ten-story window and got down to the street before it landed." Or, maybe it was still bouncing.

Good lemonade, the American Chemical society has been told, can be made from xylothydroxyglutaric acid. Er—if it's just the same, we'll take a piece of cake.

A judge suggests that the time has come for the doctors to step in and solve the crime problem. They couldn't make a poorer showing at it than the lawyers have.

The paper perforated out of the sheets of postage stamps has a monetary value of \$6,000 a year. Now is the time to save the perforations of your mail tickets.

Most of the new wrinkles in silk hosiery seem to cluster around skinny knees.

With one more congressman, they would have enough for two tables of bridge.

One way to thaw out a cold personality is to toast his health at a banquet.

The League of Nations holds that a man who writes news is a journalist. Some are, who don't.

It's odd: In the old nursery rhyme it was a cow that jumped over the moon, not a bull market.

Modernism in art won't reach the peak until it gives us a bronze statesman with his feet on a desk.

Einstein needn't be vain about inventing theories no man can understand—any woman can do that.

A Boston essayist extols the poetry of work. We should like to hear more about this from meter readers.

There ought to be some reason for an address over the radio aside from somebody's desire to hear himself talk.

An efficient people would leave it to the judge instead of wasting the time of twelve useful men to decide a \$20 case.

"Hollywood," says a newspaper writer, "blows its own horn." This will be overlooked, so long as it isn't a saxophone.

The life of a California girl was saved by a timely repast of hot dogs. Quite often this has happened to us on the highway.

Another of the compensations of radio is that it helps fill in the time while sitting up for a midnight eclipse of the moon.

Sometimes you fear the world is headed for destruction, and then you read the ads in confession magazines and don't care if it is.

Preaches To Friends The Good Sargon Did

"Since taking Sargon I have felt in better health than in the last five years.

"My stomach was in such an upset condition that most everything I ate soured instead of digesting properly. I would have such bloating pains after each meal that I hated to eat. About twelve years ago I had a fall, injuring my hip and knee, and I have been troubled with rheumatism in my joints ever since.

MRS. LULU E. PETERSON

"An inactive liver caused me to be constipated and I was continually taking laxatives. I had many a restless night from all this suffering and would be as tired in the mornings as though I had never gone to bed. Nothing I took helped me.

"Sargon made me feel like a different woman. My appetite has come back and I enjoy my meals. My stomach is soothed and my digestion improved so I don't suffer bad effects after eating. The rheumatism disappeared and I rest much better at night. I get up in the morning feeling refreshed and full of life and energy.

"Sargon Soft Mass Pills toned up my liver and rid me of constipation in a natural manner. My whole system is reconditioned and filled with new health.

"Sargon has helped me so remarkably that I am preaching to all my friends about its benefits and will continue to praise this wonderful medicine ever chance I get."

The above statement was made recently by Mrs. Lulu E. Peterson, highly respected resident of 7814 Sherman Street, Houston. Mrs. Peterson is a member of the Royal Neighbors Society and also belongs to the Baptist church.

Sargon may be obtained in Spur at the Red Front Drug Store.

Cream Checks Are Recoded In Trade As "Legal Tender"

Two fellows up in the north end of the county got together on a hog deal the other day. One of them wanted to buy a couple of pigs. The price was \$5 each. When he went to pay off he pulled a \$12.50 cream check and handed it to the other. And the seller lived down and brought a dollar bill and a \$1.50 cream check for change.

C. C. Haile was the seller and Mr. Norris of Dundan Flat was the buyer.

Mr. Norris reports that he is milking five cows now and that he is getting twenty gallons of milk per day.

"I wish you'd speak to your daughter," Mrs. Hardup said to her husband. "I caught her kissing the ice man this morning."

"Good heavens," exclaimed the father, "that's awful."

"I should say it is. The idea of wasting time with the ice man when we owe the grocer \$60.

THE TEXAS SPUR
PUBLISHED EVERY FRIDAY

Entered as second class mail matter on November 12, 1909, at the post office at Spur, Texas, under the Act of March 3rd, 1879.

ORAN McCLURE, Publisher.

W. A. Johnson, formerly of the Spur country but now of the Lake View community near Floydada, was in Spur Wednesday. W. A. Johnson served as county commissioner from this precinct a number of years, and in the office made a record and reputation as a public ser-

vant. While he might not have been what is usually termed a "fighter," yet he invariably "carried his point" and secured what he thought was right and for the benefit of his constituents and the people of the county as a whole.

Miss Zell Ellis was shopping and visiting with friends in Spur the past week end.

Joe Gaines, of Afton, was in Spur last week, transacting business and meeting with his friends.

Buster Robinson was in town the past week.

Mr. and Mrs. Tom Cross and son, Tom Griffin, were in the city the past week end from their farm and ranch home in the 24 Ranch community. Tom stated that his section had had plenty rain, so much that up to this time farmers had been unable to plant crops. However, a fine season is in the ground and the present prospects are most promising for bumper fall harvests.

Mr. Ellis, of Swenson, was in last Saturday, meeting with his many friends and acquaintances of this section.

Mrs. W. W. Ellis, of the Rocking Chair Ranch of Kent county, was shopping and visiting in Spur Saturday afternoon of the past week.

Byron Haney, of Afton, was in Spur Wednesday of this week, on business and meeting with his acquaintances and friends. Byron reports that business is good at Afton, and that everything is now most promising of bumper crops and general prosperity this fall.

L. E. Jones and family, of Lubbock, spent several days of last week in Spur visiting with J. H. Boothe and other relatives and friends of this territory. Mr. Jones reports excessive rains up on the Plains, and that notwithstanding the long continued dry weather wheat crops are coming out and will now mature good yields.

Mrs. T. J. Afflerbaugh, of El Centro, California, has been visiting at the home of Mr. and Mrs. Tom Cross, to the southwest of Spur.

Mr. and Mrs. Lon Cross, of Seury county, recently visited Mr. and Mrs. Tom Cross at their farm and ranch home to the southwest of Spur.

White Moore, of west of the city, was on the streets the past week end, meeting with his friends and transacting business affairs.

Mrs. White Moore was shopping in the city the first of the week from their farm and ranch home to the west of Spur.

Mr. Harkey, of Katemcy, spent several days of this week in Spur visiting with his brother, Roy Harkey and wife. He came up from Katemcy to be with his daughter who is finishing her course of study and receiving her degree in Tech College at Lubbock.

C. R. Foreman, of the Highway section of country, was greeting his friends in town the past week end.

A. E. McClain, of Cat Fish, was among the many trading in Spur Saturday. Mr. McClain is in the dairying business to a limited extent, making trips every other day to the Spur markets with cream. He markets sweet cream principally, for which higher prices are paid by the creamery and stations here.

Jim Smith, of Dry Lake, was in the city the first of the week.

John D. Hufsteler, of Dockum Valley, was greeting his friends on the streets one day during the past week.

Mr. Odam, formerly of the Spur country, but now of the Plains section near Floydada, was here Wednesday of this week, trading and meeting with his friends and acquaintances.

OUR INVESTMENT

Every dollar of revenue that has come into this company, and millions more, has been spent in West Texas for new equipment and improvements. No other industry, in proportion to its gross receipts, has so large an investment in permanent local improvements as a public utility.

The West Texas Utilities Company is a part of the community it serves, and can grow and prosper only as West Texas grows and prospers.

This company is your neighbor, and means to deserve not only your business but your confidence and good will.

WHY THEY GET BIG MONEY

There are many advertising writers in this country who command salaries of \$50,000 and even more. Why? Because national advertisers recognize the importance and value of having the message properly presented. They know that advertising pays if it is properly presented. They know that advertising pays when properly handled.

How different is this attitude toward advertising than that of many local business men. To our local friends advertising comes in for a

thought only when there is nothing else to do.

Ads are prepared hastily, specials are selected with but little thought, and then if the advertisement fails to produce satisfactory results, doubts arise as to the efficacy of advertising.

When an ad fails to pull the fault is nine times out of ten in the character of the ad. In the indifferent way in which it is prepared.

Remember, those who study advertising know that it pays to have every ad carefully prepared.

How to Raise Poultry
By Dr. L. D. LeGear, V.S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1922. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

MAKING TURKEYS PAY

"Can't thee provide naught but this eternal turkey for our board, Goodman?" quoth Dame Prudence Pennyfeather in a bit of a pet. "Methinks this gloomy forest is full big enough to have in it all birds and beasts created since the deluge."

Goodman Pennyfeather snatched up his blunderbus and retorted a bit acidly, "Beasts and birds there are aplenty in yon forest and hostile Indians, too—while turkeys in plenty are at our door. Nae-the-less, I shall try again to appease thy impatience."

That might have happened in Pilgrim days. Even right after the Civil War wild turkeys were so numerous in some parts of the country as to constitute an actual pest. They raided grain fields with such devastating effect that it was a problem to cope with them. Now quite the reverse is true.

Of course, no one is surprised to learn that the wild turkey is practically extinct. One would think however, that the periodical demand created by our great national feast days would cause poultry raisers everywhere to devote a considerable part of their time to turkey raising. I believe the reason that such is not the case is to be found in the oft repeated story that turkeys can only be raised successfully on great ranches and that, at best, they are so delicate and temperamental as to make them very hard to handle.

For those who have hesitated to take up turkey raising or who have tried and failed, I want to make a number of recommendations. I shall give a short digest of these recommendations and will be glad to answer further questions from anyone writing me in care of this paper.

For breeding purposes use only thoroughbreds. Elect the strongest and healthiest birds. Do not mate more than 10 or 15 hens with one male. Use incubators for best results. You never have to wait for an incubator to get broody and it will give more uniform results if properly regulated. Use no eggs over ten days old. Practically all the big commercial turkey raisers use artificial brooders. The most up-to-date ones can be closely regulated so that, barring accidents, results are fairly certain. It is always a gamble, however, to brood young poult with such temperamental creatures as turkeys.

A brooder house on skids is ideal as it can be moved about to fresh ground from time to time. Stake off temporary runs, one on each side of the house, and rotate the poults from one run to the other. Leave them about a week in each run. Between 200 and 300 poults can be accommodated in a 12 by 14 brooder house. For heat, use a hard coal stove or any other heating arrangement that will maintain an even temperature of about 80 degrees.

When poults are about eight weeks old they may be transferred to rearing grounds, about an acre being set aside for each 150 or 200. These grounds should be where chickens have not been allowed to run and should be fenced so that chickens cannot get in with the poults.

Feed nothing the first 24 to 36 hours 36 to 48 hours, short grass on the sod, tender greens and buttermilk or sour skim milk; 48 to 60 hours, feed eggs boiled for 30 minutes mixed with equal quantity of dry, stale (never mouldy) bread crumbs. Feed this every two hours, removing it in twenty minutes. On the third day feed as on the second

and continue same diet on the day following with addition of mash composed of finely ground cornmeal, wheat bran, wheat middlings and beef scraps in equal parts by weight, or a baby chick starter commercial mash may be fed instead. Feed the mash in hoppers with plenty of green stuff always available. Continue this mash and feed with plenty of greens at all times. From day to day feed a little scratch grains, gradually increasing, however, as young turkeys do not require a great deal of such feed. See that a good supply of fresh clean water is always near by. Never allow poults to drink from stagnant pools.

When poults are about 8 weeks old, shift to rearing grounds if weather permits, and put on following ration: Equal parts of corn meal, ground oats, wheat middlings, wheat bran and beef scraps fed in hoppers. Give birds plenty of skim-milk to drink. Keep shell and grit before them at all times and never stint on fresh green stuff of suitable kinds. My experiments prove that baby turkeys can be successfully raised on feeds that are successfully fed to baby chicks. If your present method of raising your baby chicks is successful, use the same method with your baby turkeys which should be successful also.

Finally, enlarge your runs from time to time and keep moving flock if possible to provide fresh feeding grounds. (Copyright 1929.)

NEW RATION FOR CALVES WIDELY USED

Reports show that the New Jersey dry mixed calf formula which appeared during March 1929 has been tried out successfully in many parts of the country.

Recently, according to Professor I. R. Jones of the dairy department of the Oregon Agricultural Experiment Station, started 18 calves on the New Jersey ration with very satisfactory results.

Whole milk was fed for only about the first thirty days, according to Mr. Jones, and when about seven days old, the calf was accustomed to a grain mixture of 100 pounds yellow cornmeal, 150 pounds ground oats, 50 pounds each of wheat bran, linseed meal and soluble blood flour and 4 pounds each of finely pulverized limestone, finely pulverized steamed bone meal and salt.

"A good quality clover or alfalfa hay is also placed before the week old calf," he continued. "When the calf is three weeks old the milk is reduced so that at 30 days the calf is receiving nothing but the dry grain mixture, hay and water. The calves should be consuming between one and two pounds of grain daily when 30 days old.

"When calves are five months old they should be consuming about five pounds of grain per day. The need for an abundant supply of clean, fresh water cannot be too

strongly emphasized, especially where the calf receives no liquid food.

"To date the results have been very satisfactory. The calves are growing very well and are noticeably free from intestinal disorders.

There is a saving of \$2.00 per month per calf in feed cost in comparison with calves raised on skim milk. Later results of this experiment will be published by the Oregon Agricultural Experiment Station at a later date."

**Badly
Run-Down**

"Six years ago, I was very much run-down," says Mrs. Olympia Knight of Lovett, Ga. "I did not sleep well, and was weak and restless. I dragged around the house with not enough strength to do my daily tasks. I worried a lot, and this disturbed state of mind reacted on my health."

"I had often read of Cardui, so I thought I would try it. I soon began to improve after I had taken Cardui for a while. It was astonishing how much I picked up. I slept better, my appetite improved, and that awful dragging-down feeling left me."

"I was so much better that I continued taking Cardui until I felt perfectly well." Cardui has been used by women for over 50 years. For sale by all druggists.
