How to Raise Poultry

By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1922. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

BAN THE "GET THE AXE" CURE

Little Excuse for the Widely Prevalent Custom of Killing Chickens at the First Sign of Illness; Use of Simple Home Remedies or Easily Obtainable Commercial Preparations May Save Valuable Birds and Many Dollars of Profits.

Editor's Note—This is another of a series of 52 stories on poultry raising written by the well known national poultry authority, Dr. L. D. LeGear, V. S. of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

The wife of a friend of mine tells with great relish of waking up not long ago and finding him in the throes of a violent nightmare. He was struggling desperately against some imaginary assailant and shouting at the top of his voice, "No no no! Don't! I tell you it's tooth ache, darn you—nothing but tooth ache! Being finally roused up and pressed for an explanation, he admitted rather sheepishly that he had dreamed a huge rooster had him panned up and was preparing to cut his throat with his sharp spurs because he looked so droopy and had a huge swelling on his jaw. Not wishing to lose this advantage, friend wife at once reopened an argument that had been waging for months between them—"Serve you right if it really happened," she snapped. "Any man who is too lazy to save birds that could be saved with just a little trouble ought to have to take his own medicine."

Sometimes I feel much the same way about it, for chickens are much more than a mere hobby with me. But aside from all such sentimental considerations as might influence the enthusiast, there are some good and round reasons why it is unwise to resort to the axe every time a chicken begins to show signs of some more or less serious affliction. For one thing, the first examination doesn't always tell the whole story. Not every snuffle spells roup nor is every droopy, spiritless fowl infested with worms to an incurable degree.

All sick fowls, no matter what their ailment, should be removed at once from the flock and either killed or doctored. Chickens can be cured as well as livestock, or people when sick, and I believe in individual treatment in most cases. I have been doctoring poultry diseases on my experimental farm for more than 20 years and have had excellent results except in the incurable ailments such as T. B., cholera, bacillary white diarrhea and other diseases known to be incurable.

A well protected coop, box or pen, apart from the flock is very necessary in which to place the sick fowls. Sick chickens placed in such quarters can be watched. If they develop unmistakable signs of diseases known to be incurable, kill them.

My many experiments during the past several years have proven to me that Permanganate of Potash, the medicine that turns water a reddish purple color, is of little or no value in preventing or curing diseases of poultry, when used in the drinking water in the regular way. But, I find Epsom Salts very beneficial in preventing and curing many diseases of poultry. Each sick fowl should be given one teaspoonful of Epsom Salts or for flock treatment, one pound mixed with small tempting wet mash feed for each 100 hens.

Sanitation and disinfecting are two of the great secrets of successful poultry raising. Poultry houses and brooder rooms should be thoroughly cleaned often, and sprayed freely with a good dip and disinfectant.

Properly built chicken houses with high open fronts that face the south that are kept clean and free from insects by spraying with a good dip and disinfecting will do more to keep fowls healthy than anything.

In many cases a cure is possible with simple home remedies as easily administered as the flannel rag soaked with camphorated oil on the baby's chest when he has a cold. Furthermore, any druggist or feed merchant carries reliable preparations for the treatment of practically every poultry disease that is amenable to medication. Such medicines are always accompanied by simple, complete instructions, not only for the dosing of the feathered patients but for the general care needed to make treatment successful. Why then let them die or deliberately kill them off when they can be easily cured.

Poultry raising is a business that is or should be run for profit. It is for the poultry raiser to determine, therefore, whether or not any individual cure will justify the labor and expense necessary to effect a cure. It is unquestionably true, however, that many fowls are needlessly sacrificed when a little extra trouble would be repaid many times over. Don't forget that every fowl in your flock represents an investment of both time and money. You throw that away in addition to sacrificing possible future profits every time a bird is subjected to the "get the axe" cure if less drastic methods would have saved it.

(Copyright, 1929 by Dr. L. D. LeGear, V. S.)

WHY HE CAN'T PAY THE BILL

"I have your statement showing that I owe you \$769.80, and I am enclosing a check for \$5.00 for which please send me a receipt. I am sorry that I cannot pay more at the present as I am unable to collect from my customers, as money is so scarce right now. My own living expenses are terrible and I can hardly get along. I will try to send you another \$5.00 when I sell my hay which should be in July. I cannot pay you more at that time for my daughter finishes at Bristol this year, and that costs a heap of money."

"I thought I could send you a check when I got my tobacco money, but it took all I could rake and scrape to put in Delco lights, as my wife didn't have electricity to run the sewing machine and vacuum cleaner. Then, too, we had to build a shed to put the Ford in so we could put the new Cadillac in the garage and build a concrete bridge over the brook in our front lot, as well as a new road so that we could get in and out better."

"I can't send you the corn money in the fall, because my son is going to college, and, although the lads of today are very economical about hats and garters, still a coon skin coat costs the old man a lot and even junk yard Fords come rather high by the time they are decorated for College use. I might send you the hog money but the missus and I have planned a trip to Niagara in the fall, and after working hard all these years, I think she deserves a trip. We can't go before taking out all the red plush and putting in over stuffed cane and mahogany. This is a terrible strain on my finances especially as the new well that was needed closer to the house and the new up-to-date barn have to be paid for."

All the farmers here are in hard shape financially with strawberries this season at seventy-five cents a quart and the price of gasoline as it is. Then, too, there is an epidemic among the married women to have their plain gold wedding rings platinized and set with diamonds and everyone is having their tonsils and teeth removed."—Tulsa Bulletin.

COW STEALING COMMON IN HOCKLEY COUNTY

Sheriff Williams has asked to see that cow stealing is getting quite common in our county. Parties with trailers locate their prey, park some convenient distance down the road and then drive some good farmer's milch cow down and load in and as far away by milking time. This thing occurred on two different occasions last week. Mr. Williams says his department is determined to break up the little game, and any man pulling a trailer without the proper license number will be intercepted by the sheriff and required to see himself right.

Mr. Williams asks that any one seeing any suspicious character driving around with a trailer, please notify the sheriff's department. We are sure the good people will cooperate with Mr. Williams in suppressing this bold business of robbing the family of its milk.—Hockley County Herald.

J. M. Carlisle, of the Duck Creek country, was in town the first of the week. The Carlisle place was in the rain belt of recent date, and Mr. Carlisle informed us then that prospects of bumper crops were most promising.

A Timely Tip

TELL the people about timely merchandise with good printing and watch your sales volume grow. Other merchants have proved this plan by repeated tests. We'll help with your copy.

JONES CO. PIONEER DIES

Anson, Aug. 5.—Charles H. P'Pool, 64, pioneer citizen and for many years a county official of Jones county, died at his home in Denton Monday afternoon. After retiring from public office, Mr. P'Pool moved with his family, to Denton, where he had made his home for ten years.

CHURCH OF CHRIST REVIVAL BEGINS FRIDAY AT DICKENS

A two weeks revival meeting will begin Friday night at the Church of Christ at Dickens. Rev. W. A. Kercheville will have charge of the services. Every one is cordially invited to attend.

W. D. York, of Dry Lake, was here Saturday of the past week.

J. C. Willis, of Antelope, was in the city Tuesday and while here was a very pleasant caller at the Texas Spur office. Mr. Willis informed us that a Pentecostal revival would begin next Sunday at Antelope, the Rev. Will Cunningham of Spur, having charge of the series of services. Everybody is invited to attend the services, regardless of denominational affiliations.

RAINFALL DATA AT SPUR EXPERIMENT STATION

	1929	17 yr. av.
	inches	inches
January	.27	.31
February	.21	.51
March	1.49	1.04
April	.02	2.37
May	2.80	3.07
June	1.23	2.62
July	1.17	1.95
TOTAL	7.11	11.87

It will be noted that May was the only month in which we had normal rainfall. The months of June and July were very much below normal. The total rainfall for the year has been 7.11 inches which is 4.68 inches below the normal rainfall for this region over a 17 year period.

MID WAY NEWS

The dance given at the home of Pat Peters in honor of Miss Ida Johnston Friday night was a grand success every one reported a good time.

We are very sorry to say that Miss Hazel Williams returned to her home in Oklahoma City this week where she will attend school. She has been visiting with her parents Mr. and Mrs. E. L. Williams of this community for the past two months.

Miss Margaret Markham of this community moved to Spur this week to get ready for school.

Mr. and Mrs. Mike Blanton and son, Lonnie and wife, were transacting business in Lubbock Wednesday and Thursday of this week.

Mr. and Mrs. Pat Peters and daughter Lillian were visiting some friends and relatives in Lubbock one day last week.

Mr. and Mrs. Jack Taylor of the Antelope community are visiting Mr. and Mrs. Lonnie Blanton this week.

Several of the Midway people attended the ball game at Afton Saturday afternoon.

Mr. Kelsey Pettigrew, Dot Blanton and Howard Putman are visiting friends in Haskell the past week.

Mr. Earn and Bud Scott were among the business visitors in Midway Thursday night.

Mrs. Moore and daughter Beverly spent Saturday night with Mr. and Mrs. Pat Peters.

Miss Earl Pettigrew spent Sunday with Ruth and Anne Gentry.

Miss Beverly Moore and Lillian Peters were seen riding around in our city Sunday.

Bunch Williams, Anne, Gentry, Bud Scott, Ruth Gentry and Sammie enjoyed a "chicken roast" at the home of Weldon McSpadden one evening last week. They reported a nice time.

Quite a number of Midway people were among the business visitors in Spur Monday.

Mr. Elmer Ragsdale considers him self a "lucky man". He received \$5 last trades day, which makes \$30 Dickens has given him.

Ernest Mayfield, a leading citizen and business man of Jayton, was in Spur Tuesday of this week, transacting business and meeting with friends. Mr. Mayfield states that Jayton continues to build, several fine residences having just recently been completed and plans now being made for one or more brick business houses.

W. F. Foreman, of Foreman's Chapel, was meeting with his many friends here trades day.

Was Compelled To Stay Home Months

"Stomach trouble and indigestion had me in a terribly nervous, run-down condition. I was so weak and worn out I would have to stay in the house for months at a time. Constipation was helping to make my life miserable and there were times when I didn't care whether I lived or died. A good friend of mine told me about Sargon and how much it helped her so I decided to try it.

"What a blessed relief it is to be free of the troubles that worried me for 12 long years. The Sargon treatment has literally made me feel like a new woman. My stomach is now in perfect condition; my appetite is fine and I eat just anything I want, without any ill effects. My nerves are back to normal and I sleep sound and get up feeling fine. Sargon Soft Mass Pills ended my constipation without griping or nauseating me.

"I'm so happy over regaining my health that I'll be glad to tell anyone what Sargon has meant to me. Just have them 'phone 2-7783 if they want to know what I think of this wonderful treatment."—Mrs. W. H. Higgins, 507 W First St., Ft Worth.

Sargon represents the dawn of a new era in the field of modern medicine. It is turning old fashioned moss-grown health theories upside down and is restoring countless thousands by methods undreamed of only a few years ago.

RED FRONT DRUG STORE, Agts.

W. L. Tant, who is publishing a directory for the city of Spur, made a trip the past weekend to Grandfield, Oklahoma, where he visited with his family. His daughter returned with his as far as Childress where she took the train for Colorado to enter college.

Mr. and Mrs. W. P. Marshall were in Spur Saturday from their Duck Creek Valley farm east of town.

B. F. Simmons was here Saturday from the Midway community.

W. R. Terry, manager for the Williams and Baker gin in Spur, returned this week from a business trip to Hermligh.

Mrs. Sol Davis and son, John A., returned Wednesday from Quitaque where they had been spending the week with Rob Davis and family.

Mr. and Mrs. R. L. Foster, of several miles southwest of Spur, were in the city Wednesday of this week.

Spur defeated Afton Monday in the ball game, with a score of ten to four. It was a good game.

Mr. and Mrs. Tol Merriman of south of the city, were in Spur Wednesday of this week.

J. I. Greer was in the city Monday from his Lone Oak farm and ranch home west of Spur.

Mr. and Mrs. Vermilion passed thru Spur Monday en route to Clarendon where he has a position on one of the newspapers of that city.

S. B. Scott and wife, of Kelgary, spent Monday and Tuesday in Spur with their parents, Ed Lisby and family and Boney Scott and family. S. B. says he has a fine crop but is beginning to need rain.

Buster BuBral was in town Wednesday from Antelope.

Ol Taylor was here Monday from Duck Creek.

Arch Nesbit and family, of Marshall, are visiting E. J. Johnson and family.

DAIRY FACTS

COWS NEED WARM DRINK IN WINTER

Successful winter dairying calls for an adequate supply of water at a temperature that will not paralyze the entire digestive tract of the cow when she drinks.

"Water is equally as important as feed," says Dr. C. H. Eckles, chief of the dairy division of the University of Minnesota. "A cow milking 30 pounds daily drinks close to 100 pounds of water every 24 hours. Sometimes watering the cows means turning them out of the barn once a day to drink what they can stand of ice-cold water. Can we imagine a cow which weighs around 1,100 pounds drinking 100 pounds, or nearly one-tenth of her weight, of ice water at once? Of course she will not do it and consequently will not give her owner 30 pounds of milk even though she has the ability to produce this much and has feed enough as well.

"The milk flow may be cut down quicker by a lack of water, or by the use of ice water, than by poor feed. Individual drinking cups in my judgment pay more dividends to the user than almost anything else in the line of modern barn equipment. Even if the water is not warmed in the cups the cow will take such small amounts at a time, so long as it is above freezing, that no harm results from drinking it cold.

Cows With Records Are Decreasing in Number

Pure bred dairy cows of good type and with high official records are actually getting hard to find.

The shortage, according to Roy T. Harris, supervisor of Wisconsin dairy tests, is caused by the fact that since 1920 there has been a marked decrease in official testing. Up to that time there was an abundance of tested animals, but as the demand for pure breeds slackened with the change in economic conditions many breeders discontinued advanced registry testing.

"The oversupply of animals with records is no longer evident," declared Harris, "in fact, there is an actual shortage of animals combining desirable form with even good advanced registry backing. This situation indicates that the most opportune time to start or renew testing is right this year."

Winter months are particularly favorable for starting cows on test, especially to make semi-official records. Cows freshening in the fall produce as much as 15 to 20 per cent more milk and butterfat than those calving in the summer. Another advantage of starting the test in the fall or winter is that on many farms plenty of help is generally available to care for the cows when production is highest. In short time testing, ranging from seven to thirty days, the best records are usually made in the winter.

Providing Ice Storage for Use in the Summer

As an aid to farmers in providing ice storage, the division of agricultural engineering, department of agriculture, University of Minnesota, has prepared blue prints of a plan for a farm ice house holding 16 tons. The blue print shows just how the ice house should be built, and is distributed through the division of publications, University Farm, St. Paul, at the nominal charge of 10 cents to cover costs. With creameries paying premium prices for sweet cream, more and more farmers are becoming interested in providing ice for use in the summer in order that the cream may be kept cool until it can be marketed.

Efficient Ration for Bull Calf Is Outlined

A good bull calf ration is ten pounds of clover or alfalfa hay, together with a grain mixture of six parts of corn, four parts of oats and one part of linseed meal. The grain mixture should be fed according to the appetite of the calf, the object being to bring about a gain of about two pounds daily or a little better. To start with, five or six pounds of grain daily will be enough for the calf, but it soon can be increased to ten or twelve pounds. In some cases it pays to substitute bran for part of the oats and to increase the linseed meal in the ration to two pounds daily.

Feed for Cows

Use home-grown feeds as far as possible. Alfalfa or other legume hay is best. For most economical production, provide silage. Feed one pound of hay and three pounds of silage for each 100 pounds weight of animal. If silage is not available, feed two pounds of hay for each 100 pounds weight. Use a good grain mixture containing a small amount of cottonseed meal or linseed meal. Feed one pound of grain mixture for each three pounds or pounds of milk produced.

ENJOY AN EXTRA HOLIDAY EACH WEEK

What joy if some great Power right now would extend your life by one-seventh! Yet that is exactly what you gain when you tell us to do all your family washing.

Making us your servant saves you at least one day each week — 52 days, one-seventh of a year! Liberty instead of labor; hard labor that shortens life, takes away beauty. When our driver takes your laundry he also takes away your drudgery. Think of it—a holiday every week for your own. Your youthfulness retained!

Our small charges for family wash, wet wash, finished service, represent your wisest economy. Really, it costs you nothing to have us do all your work when you compare our prices with your own greater happiness of the entire family. A telephone call to us—and the greatest saving in your life begins!

Run-Down

"About seven years ago, I was all run-down, worn-out and never felt good," says Mrs. Harry Cantrell, of Cape Girardeau, Mo. "A chair would be more welcome any time than my work."

"I was so tired when I would arise in the morning. Instead of being rested, I felt terrible.

"At last, mother told me to take Cardui, and I did. After the first bottle, I could tell a difference, and when I had taken five bottles the tired feeling was all gone. I felt like a different person, thanks to Cardui. I hope that other mothers will try Cardui. I have been wonderfully benefited by it."

Try Cardui for your troubles.

Extensive Construction Program Carried on By West Tex Utilities

Abilene, Texas, July.—That West Texas is well under way on its march to break last year's record of \$200,000,000 oil production is evidenced by the great oil field construction program now being carried on by the West Texas Utilities Company.

This company has built since January 1st more than 123 miles of new transmission lines and is engaged in building many more miles at this time. The oil field power load on July 1st was 30,533 horsepower, as compared with 23,470 h p on January 1st showing a net gain of 30 per cent in the first six months of this year.

Anticipating one of the greatest years in the history of the oil industry in West Texas, and to be ready to adequately care for the rapidly increasing oil field load, this company's construction gangs are working overtime building new extensions and strengthening old distribution systems.

Cecil Scott of Duck Creek, was on the streets Saturday meeting with friends and acquaintances and trading with merchants.

W. B. Ford and family of Watson were among the large crowds trading and visiting in Spur Saturday.

Judge O. C. Newberry was here Wednesday from Dickens.

PENNANT SERVICE STATION

Coolidge Kin Ill

The condition of Mrs. Lemira Goodhue, of Northampton, Mass., mother of Mrs. Calvin Coolidge, was described as "very low." Twice a day Mrs. Coolidge visits the sick room.

MRS. MAC WATSON HOSTESS AT BRIDGE

Thursday morning at nine o'clock Mrs. Mac Watson entertained in a most gracious manner with bridge at the home of Mrs. C. L. Love on Trumbull Avenue.

At the conclusion of the games Mrs. James O. Smith received high score and Mrs. David Burns high cut. A delicious salad course with an iced drink was served to the following guests: Mesdames Joe Stotts, Dan H. Zachry, W. E. Flint, James O. Smith, Horace Hyatt, C. L. Love, P. A. Watson, H. O. Wooten, Richard Gibson, E. C. Edmonds, W. D. Wilson, David Burns, R. C. Carter, W. D. Starcher, Sol Davis, M. C. Golding, Charlie Powell and J. S. Robbins; Misses Nell Albin, Nig Lisenby, Hazel Watson, Sybil McDaniel, Faye Jamison, Ernestine Weatherford, Maude Clemmons, Jane Douglas Wilson, Pauline Brown and Jettie Windham.

LEAGUERS ENJOY HAYRIDE

The members of the Epworth League enjoyed a Hay Ride on two trucks last Monday night. The Leaguers were chaperoned by Mrs. J. C. Payne and Mrs. J. R. Laine. Guests, besides league members were Misses Mary Powell, Abilene, Beatrice Thompson, Haskell; Emma Grace Harcrow, Spur.

Mr. and Mrs. D. H. Sullivan returned this week from an extended vacation and visit, spent at Corpus Christi and in Ferris, Texas.

Mr. and Mrs. J. P. Simmons and Woodrow, were in Stamford Wednesday where Mr. Simmons attended a convention of the agents and salesmen for Pierce Oil Company product.

Mack Brown and wife returned this week to Spur. They have been living in Corpus Christi where Mack has been engaged in the sale of Chevrolet cars. Mack stated that within the seven hundred miles travel from Corpus Christi to Spur, the best crops were seen within the Spur territory.

W. H. Condron of northeast of Spur was on the streets Wednesday of this week

FARM NOTES

By E. L. TANNER, County Agent

Millet Ain't the Best Hay in the World

But when you are up against it like many farmers in Dickens county are for a feed crop it sure will pull a fellow out. In case of a rain you can plant it at the rate of 20 pounds of seed to the acre and in forty five days it should be in the bloom at which time it makes its best grade hay. Many people prefer to wait until it is well headed out. However it is dealers choice. The main thing is if you are short of feed it sure would be a fine thing to have the seed on hand or have your eye on some that you could get right off the bat.

C. H. Scott of Steele Hill says he planted Big German Millet in the fall of '26 about Sept 1, twenty pounds to the acre and got 500 bundles to the acre. He let it head out pretty well before cutting. He bedded and rebudded his land and then harrowed flat, sowed by hand an harrowed in.

Cotton Leaf Worm Appears in Dickens County

The past week saw the cotton leaf worm make its appearance in Dickens county. It has appeared in large numbers in the lighter natured soils where local showers came the third week in July. From all observations it does not seem to have taken to cotton on very tight soil.

From now on, if we are lucky enough to get some good rains the leaf worm will probably give trouble throughout the county. A close watch should be kept on cotton. The main thing is not to wake up some morning and find that it is too late.

Calcium arsenate is the poison to use. A barrel and a barrel spray pump water leads that will cover six or more rows is the surest way. Dusting is fine when there is dew. However dusting will take about 3 times as much poison as spraying and is not always as effective. The saving in poison will usually pay for the pump. The amount of calcium arsenate to use is from three to five pounds to fifty gallons of water or a barrel. You can not burn cotton with this material but you can get so much in the water that the nozzles will clog up on you. Experiments have shown that three pounds to the barrel is just as effective as you need. As a usual thing a gallon of calcium arsenate will weigh about three pounds. Some brands are a little heavier than others. Do not get too much in as you will waste a lot of time cleaning out nozzles. A fifty gallon barrel will cover from two and a half acres up to four. It all depends on the size of the cotton and how fast you pump. Do not try to drench the cotton. All you need it to put a fine mist on the top and sides.

If you get a spray outfit you will need (1) a fifty gallon barrel either oak or metal (2) a barrel spray pump that will fit into the barrel (3) a fine nozzle for each row you wish to cover, that is from six to eight (4) a T for each row and enough 1/2 inch pipe, nipples etc.

Office Visitors

Last Monday the following men were in the office after information about leaf worms: E. R. Harris of Steele Hill, C. R. Bennett of Gilpin, R. F. Harrell of Red Mud, A. A. Fry of Red Mud. These men all have leaf worms now that are thick enough to poison in spots and should rains come they will have to poison in general. They are scattered over an area of twenty five miles and all are in the path of recent showers.

L. A. Boland of Girard was in the office Saturday and bought an infer tile stamp. Mr. Boland is the seventy third man to buy a stamp this year. He says he is going to increase his flock another year as there is money in hens when he can get a good price for them through the summer.

Mrs. W. K. Walker of Highway, community came in to get the formula for the A & M College growing mash for chicks. She has al ready used over eight hundred lbs of it but misplaced her formula when she went to have some more mixed. She is well pleased with the results and says she has 150 young pullets that are coming on fine.

Mrs. John D. Huffstetler of Highway community has a fine young flock of White Leghorns which come from pedigreed stock. She is leg-banding all of the finest young cockerels as they show up and will do the same for the thirty best pullets as they come in to lay. From these pullets next spring she will select the best fifteen and put them in a breeding pen from which she will

MESDAMES HIGHT AND KING ENTERTAIN WITH LAWN PARTY THURSDAY

Mesdames Birl Hight and John King were most delightful and gracious hostesses to members of the Entre Nous and Blue Bonnet Clubs, Thursday evening at the home of Mrs. Hight. Tables were arranged on the lawn, and following a number of pleasant games refreshments were served to Messrs. and Mesdames G. L. Barber, G. R. Elkins, R. R. Wooten, Leland Campbell, W. D. Starcher, S. H. Twaddell, W. R. King, W. R. Lewis; and Mesdames L. R. Barrett, J. M. Foster, Ned Hogan, C. L. Love, Wm. Manning, Robbins, Golding, Senning, McClure D. Y. Twaddell, White, Glasgow, T. A. Johnson, Manning, Laverty.

W. J. GARRETT INJURES HAND

Late Saturday afternoon Mr. W. J. Garrett prominent ranchman of this city badly mangled his right hand when he roped a bull and got his hand caught in the rope. His little finger was badly crushed and two other fingers broken. He was taken to Abilene to have his finger amputated but doctors informed him that it would eventually heal.—Jay ton Chronicle.

MARRIED

C. E. Austin and Mrs. Robertson were married July 23rd, at Altus, Oklahoma, returning immediately to Texas to make their home.

Charlie Austin is one among the early settlers of the Spur country, and has many friends and acquaintances here who will join the Texas Spur in wishing he and bride years of happiness and prosperity.

MARRIED

Jim McDaniel and Miss Addie Biggs were united in the holy bonds of matrimony Sunday. The ceremony was performed by Justice of the Peace Roddy, in their new home just completed in the west part of the city and where they will make their home. Immediately after the marriage ceremony, which was performed at 8:30 in the morning, Mr. and Mrs. McDaniel departed for Lubbock for a short honeymoon trip.

Jim McDaniel is a young man of high character and business ability, while his bride is a young lady of charming personality and womanly accomplishments. The future is bright and promising for them, and here is hoping they may enjoy years of real happiness and much of the prosperity which abounds in West Texas.

J. A. Koon and family, of Alpine, are here visiting Mrs. W. M. Winkler and other relatives and friends of the Spur country. Mr. Koon has been engaged in the hardware business at Alpine the past several years, informing us that he had sold his business interests the first of the month, and now has nothing to do nor nowhere to go. Mr. and Mrs. Koon lived in Spur and the Spur country for years, were married here, and have many good, close friends here who would be glad to have them again locate and live here with us.

Mrs. W. T. Andrews, Sr., little Pete Andrews and Bill Daniels, of Stamford, returned home this week after visiting several days with Mr. and Mrs. W. T. Andrews, Jr., of Spur.

GIBSON GROCERY

FOREMAN'S CHAPEL CHURCH CLOSURES SUCCESSFUL REVIVAL

Rev. J. E. Harrell of Avoca has just closed a great revival. His messages were most inspiring. The house was full nearly every night. There was 16 conversions and re-claimations. Our grove prayer meetings were well attended having over a hundred present every evening, with a fine Sun Rise prayer service Saturday. We are indebted to Bros. Jack Horner, Buster Robinson, and B. J. Howell as song leaders and to

Sister Robinson, and Misses Juanita Weaver, Annie May Lasseter and others as Pianists. Our church has been spiritually lifted to higher grounds. The results were very pleasing to the pastor.

S Butler and Shorty Butler, two prominent farmers and stock raisers of the cat fish country were among the crowds here Saturday.

W. C. Stewart, of east of Spur, was greeting friends on the streets Tuesday.

BANDITS GET \$7,500 IN GEMS

Ralls, Aug 4.—Mr. and Mrs. Bruce Spencer were robbed of two diamond rings and one diamond set weighing 10 1/2 karats, valued at \$7,500 about 12:30 o'clock Sunday morning by two masked men.

Spencer, who owns a drug store here, and his wife, were returning home after closing the store for the day, when two men stopped them as they entered their garage at the back of the residence.

After taking their valuables, the robbers locked Mr. and Mrs. Spencer and two children in a closet in the front room.

"Stay in there for 10 minutes, for it will be too bad for you, if you don't," one of the robbers said. The two men made their escape. Local officers are working on the case.

WEST TEXAS UTILITIES WILL INCREASE CAPITAL STOCK BY \$4,800,000 TO EXPAND

Authority to increase its capital stock by about \$4,800,000 to take care of expansion needs has been received by the West Texas Utilities Company. Permission has been received from the secretary of state to issue 50,000 shares of non-par securities, bringing the total issue to 475,000 shares.

Much of the new stock is to be offered to the public at 96, paying \$6 per share on the preferred basis. When the new issue is disposed of the total capital structure of the West Texas Utilities Company will amount to about \$44,000,000, making it one of the largest corporations in the Southwest.

Mrs. Walker Hindman, of Electra, has been here for the past week on a visit to her parents, Mr. and Mrs. J. W. Jennings, of north of Spur six miles. She was accompanied home Tuesday by her father who plans to work in the oil fields until it rains or is necessary for him to return to look after his crops in this section.

John R. Hill of Steel Hill community was here Saturday trading with the merchants and taking advantage of "Spur's Saturday Bargains" which have become famous over this entire section.

Joe Lee, of Antelope, was here Saturday of last week. He reports that worms are working on cotton in some of the farms of that section.

Mr. and Mrs. Con Covey, of Lubbock returned home Sunday after a visit to the bed side of their brother, J. V. Dement, who has been seriously ill.

"I Just Cannot Tell How Grateful I Am" Says Miss Bell

PROMINENT LUBBOCK COUNTY FARMER'S DAUGHTER IS NOW WELL AND HAPPY SINCE TAKING ORGATONE

"I suffered with liver trouble and heart trouble for two years and found no relief until I began taking Orgatone," said Miss Ruby Bell, a daughter of a well known farmer residing on Route 1, Lubbock, Texas, in an interesting interview.

"Everything I would eat," continued Miss Bell, "no matter how little or how much would ferment and fill my stomach with gas and misery. I was continually belching up sour undigested food, had severe heart burn and in a general run-down condition. I felt terrible a great deal of the time and was often so nervous that I thought I would go distracted. I got so I dreaded to eat, everything bothered me so, in fact, I could hardly find anything in the way of dieting that would agree with me. I tell you I was all undone and my condition was anything but comfortable. No treatment or medicine did me any good and I was getting worse all the time.

"One of my personal friends had found relief from troubles like mine by taking Orgatone so I decided to try it myself. Three or four weeks ago I bought a bottle and in a few days I noticed I was getting better and from that time on I improved rapidly. A few doses relieved me of all the gas and every sign of indigestion and gave me a fine appetite. All my nervous feelings left me and I sleep like a baby every night. I have no more heart burn and I can eat any thing I want now, even to the richest food, and I never have a pain or uncomfortable feeling after my meals. I feel perfectly well all the time, and anyone who knows me can readily see the change Orgatone has made in me. I can't understand it, neither can my family, how it is that I have gotten such complete relief from my two years of suffering in so short a time, but I have, and I just can't tell you how grateful I am for what Orgatone has done for me."

Genuine Orgatone is not a so-called patent or secret remedy but a new scientific bile treatment containing no alcohol or other false stimulating drugs and is sold in Spur by the Spur Drug Company who are direct laboratory agents.

MISSES LOUISE AND EVELYN EDMONDS HONORED MONDAY

Mrs. W. D. Wilson and Miss Jane Douglas Wilson were hostesses on Monday afternoon to a bridge party in honor of Misses Louise and Evelyn Edmonds, of Dublin, who are guests of Mr. and Mrs. E. C. Edmonds of this city.

A refreshment of delicious salad and iced lemonade was served to the following: Mesdames E. C. Edmonds, J. T. Sanders, E. L. Tanner, Dalas of Lubbock, Shirley Robbins, W. A. McAlpine, W. T. Andrews, Jr., Oran McClure, Misses Maude Clemmons, Evelyn Edmonds and Louise Edmonds and the hostesses.

Gifts were awarded Mrs. E. L. Tanner, Miss Maude Clemmons and the Misses Edmonds.

Mr. and Mrs. Dallas, of Lubbock, were guests this week of Mr. and Mrs. E. L. Tanner.

DUTIES—RIGHTS

Public Utilities and communities they serve have mutual rights and duties.

It is the utility's duty to render satisfactory service as economically as possible; to reflect the spirit of service in willingness and courtesy; to make itself an agency for community progress.

It is the utility's right to receive a fair and just price for its service; and to be judged as to policies and performance by facts, not prejudice.

The West Texas Utilities Company ranks among the largest taxpayers in every city, town and community which it serves; it prides itself upon giving satisfactory and courteous service; it contributes liberally to civic improvements and in every sense of the word is a community builder.

All crops, 14 head mules, 14 cattle, hogs, chickens, implements, household goods including piano and separator. \$75 acre, immediate possession, terms.—Jim Robertson, McAdoo, Texas. 41-2p

Walter L. Powell, of Dry Lake, was on the streets during the week.

Mrs. Franklin and little son, J. T., returned the last of July from a visit to her aunt, Mrs. Martha Donoho of near Cameron in Milam county, and where she spent her childhood days. While gone Mrs. Franklin also saw her oldest son, Ernest Bussington, making the visit most pleasant and enjoyable.

M. Hargrove, we have just learned, is now confined in a Lubbock sanitarium, having undergone an operation Monday, in having his tonsils and adenoids removed.

Jack Stevens, of Lorenzo, was in Spur this week meeting with his friends. Jack has been serving as chief of police at Lorenzo the past two or three years.

POULTRY

GET CHICKS OUT OF WET HOUSES

Muddy Runs and Yards Encourage Parasites and Ills.

Get the chicks out of the mud. Long-continued sloppy weather, muddy runs and yards, furnish ideal conditions for the parasite which causes the disease coccidiosis, as well as making things unpleasant around the brooder houses for the owners who take care of the flocks.

"The brooder houses ought to be moved to grass sod," says E. L. Dakan, head of the poultry department of the Ohio State university. "Even if the chicks are moved only 50 feet, from bare, muddy soil to grass, they will miss a lot of the infestation of parasites which have made their homes in the old runs where the grass has been destroyed."

Coccidiosis or white diarrhea results from the activities of a parasite which will infest the soil where chickens have been kept for a year or more. Sanitary measures which include moving the flocks away from the infested soil, have been found more satisfactory control measures than trying to treat the disease with medicine after it has started in a flock. Under the conditions which have existed for a month or more, the parasites have been flourishing.

For late chicks which are showing signs of rickets because it has been impossible on account of weather conditions to get them outdoors as much as they should have been, should have their cod-liver oil ration increased to 2 per cent of their feed, Dakan says, in order to counteract the lack of sunlight.

Quality Eggs Can Be Produced on Any Farm
Eggs unfit for food cost farmers from one to three cents per dozen. Approximately 17 out of every 100 eggs marketed are unfit for human consumption, according to the United States Department of Agriculture. This means a loss of about \$4,000,000 annually to farmers. An egg buyer of Clinton county, Indiana, recently reported to Purdue university that one-half of the eggs delivered to him were not good enough to eat.

Two principal causes for the large volume of inedible eggs are as follows: Improper care of eggs at the farm, and neglect in marketing them more frequently, according to E. R. Menefee of Purdue.

Quality eggs can be produced on corn belt farms if producers will follow the suggestions which he makes.

Remove all the males from the flock immediately. Males are not necessary for egg production and fertile eggs will not keep their quality in warm weather.

Remove all broody hens from the nests promptly. The body temperature of a hen is 106 degrees and will reduce the quality of the egg in a few hours' time. Gather the eggs twice a day in hot weather and place them in a cool room promptly. A basement or cellar if not moldy or containing any peculiar odors furnishes about the best place on the farm for holding eggs.

To Distinguish Sex of Guineas Is Hard
There is no sure way to tell the male guinea fowl from the female by looks. Usually the wattles of the male are a little larger than the female's, but this is not always noticeable—nor is it true in every case.

But their cries are different, and will reveal which is which. The female has a two-syllable cry which sounds like "buckwheat, buckwheat," or to some folks "pot rack, pot rack." Anyhow it's a two-syllable cry. But the male has only a one-syllable sort of shriek. Sometimes too, he makes a chattering noise and often says "quit, quit, quit."

But don't try to tell the two apart when they're frightened or excited. Both the male and female then make the one-syllable cry.

Oats Cause Trouble
The use of ground whole oats containing an abundance of indigestible fiber has caused many losses among young chicks when such material has been included in the home-made starters. A laying mash containing a lot of ground oat hulls has less feeding value than a mash without so much fiber. There should be a good demand for hullless oats for chicken feed if they can be raised as economically and are as good feed as oats which have been hulled.

Remove Litter Daily
Daily removal of soiled litter from the henhouse is important. If the dampened litter is left on the floor, local conditions are created for spreading of disease. The soles of shoes that have come in contact with such litter should be disinfected. Contamination is easy unless every caution is used. This risk can be greatly reduced by wearing a special pair of rubbers and by having a pan of disinfectant outside the brooder house to use when entering and leaving.

INTERESTING CAMPAIGN FOR 1930 BEGINS

Austin, Aug. 5.—Whether the gubernatorial campaign next year will be one of those usual orderly (if mudslinging) oratorical affairs with a big field of candidates actively on the hustings with a little new dope to spread, or a rough and tumble scramble with people's feelings being hurt right and left, all depends.

It depends on the attitude of the state Democratic executive committee, the same body which last fall very emphatically broadcast to all who could read and hear that those who left the party of their fathers to vote for Herbert Hoover for the presidency could count on being excommunicated as far as the 1930 Democratic primaries were concerned.

Dave Wilcox, chairman of the committee and close personal friend of Gov. Dan Moody, backed by virtually every member of the committee, issued several statements during the closing days of the national campaign when some of the other wise "regular" Democrats were going down the line—not so much for Hoover as against Gov. Alfred E. Smith of New York, the Democratic nominee—warning bolters what to expect in the future.

Following this up, an effort was made by members of the 41st legislature to pass a law frankly barring from the 1930 Democratic primaries all those who voted for Hoover last November. It passed the senate, but the house membership turned it down.

A compromise bill giving the party managers authority to proscribe voters who had failed to remain regular was passed by both houses, but Governor Moody vetoed it.

With the matter standing as it is it seems reasonably certain that the party managers will either stand pat and carry out their intentions to bar from the primaries the Democrats who voted for Hoover, or else gracefully resign and permit a new regime to assume charge that will forget about the Hoover debacle and start over again.

Should the present executive committee carry out its threats of last fall, Senator Tom Love of Dallas, candidate for governor on an anti Tammany platform is certain to be the center of the greatest political storm that ever broke over Texas.

It is likely he would fight, the committee order to a standstill, as

ANNOUNCING—

Joe Watson and Wendell Hawk have purchased and taken over the management of the Klassy Kleaner's Tailor Shop.

PHONE 251 FOR PARTICULAR WORK

KLASSY KLEANERS

it were, and losing would lead an other bolt from the party, himself heading an independent ticket. Some observers believe he foresees this development and chooses such a course, believing that he could lead from the party a sufficient number of Democrats who, with the Republicans, would elect him governor in the general election.

Some politicians are opposed to any radical action on the part of the state executive committee. They are advising against any rash procedure believing that if Love is left alone he will run his course and fall far short of making any progress in his alleged effort to stir up animosity which caused the hard inter party feelings of the last presidential election. They argue that any action to bar sinning Democrats would be water over Love's wheel, whereas if the late unpleasantness were left dormant his "anti Tam many" campaign would fall flat.

In this connection it might be interesting to count noses against the governor's race is attracting new timber every day. The list now stands:

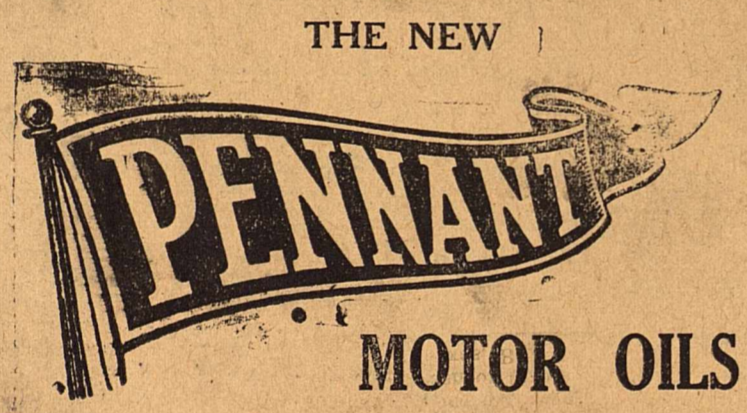

Oscar F Holcombe of Houston, Miss Katie Daffan of Ennis, T. N. Mauritz of Ganado, E. C. Senter, Senator Thomas B Love, Lieut. Gov. Barry Miller; W Gregory Hatcher, and Col. W. E. Easterwood Jr., all of Dallas, and Mayor Charlton Brown of Mineral Wells.

Here is the waiting list:
Walter D. Cline of Wichita Falls; Clarence E. Gilmore of Wills Point, chairman of the railroad commission; R. S. Sterling of Houston, chairman of the highway commission; Claude Pollard of Houston, attorney general Robert Lee Bobbit of Laredo, former speaker of the house of representatives; Sam Houston Terrell of Austin, state comptroller; James Young of Kaufman, former congressman and State Senator Walter Woodward of Coleman.

Pete Perry and wife returned this week from a visit and recuperating trip to Paris, Texas, where they spent two or three weeks. Before leaving, Mr. Perry had suffered an illness from which he has now apparently completely recovered, we are glad to note.
