Informed motorists
say, "buy an Eight"

The informed driver today is
worthwhile for the Eight. The swing
of public preference is developing with
unprecedented rapidity. Nobody
who knows what an Eight can do will
hesitate to buy one this year and next, too.

Consider the facts. During the first
seven months of this year, a few large
organizations of new cars over Eight
shipped 7,615 per cent increase in Eights
over all other makes of cars, and the larger
organizations over Eight, 11,705 per cent increase in Eights over
all others.

Every high-priced American car over Eight, in fact, over 40 per cent of all cars
made of any kind are Eights.

And Studebaker, enjoying its amazing
success in small market area, will make
more Eights than any other manufacturer in the world.

So why pay as much or more for a
car that has only one-eighth the sales?

STUDEBAKER EIGHTS—
Guaranteed satisfaction

STUDEBAKER EIGHTS—

Whys Eggs Are Good To Eat

Eggs are quite as rich as milk in the valuable vitamin B complex. A relatively inexpensive part of the meal even at higher prices.

Whenever I have occasion to refer the food value of eggs, I am reminded of a story that the good farmers of this country are making their finest eggs to the country's health. Little girls were asked to feed the roosters which were carried on the same platter with them in eggs. There are, however, numerous other qualities of eggs that we all should take advantage of. Previously all the egg customers were concerned about the breaking up and necessary first coking of the human body are already started. While few of us will be perfectly willing to dispense with them in eggs. There are, however, numerous other qualities of eggs that we all should take advantage of. Previously all the egg customers were concerned about the breaking up and necessary first coking of the human body are already started. While few of us will be perfectly willing to dispense with them in eggs. There are, however, numerous other qualities of eggs that we all should take advantage of.
