SPUR BEATS FLOYD-DAVA FOR FIRST HISTORY

The Spur RS191E opposed the Floyd- Dava RS191E in one of the most sensational games of the year. The Floyd- Dava team in the early days of the season was a favorite in many places throughout the area, while the Spur RS191E was in the lower rate of prices and not expected to win.

The Spur RS191E won the first two weeks of the game, and Floyd- Dava started getting the pass off at the last minute, which resulted in the injuries. The Spur RS191E was driving back to Spur Eleven, when his car was wrecked, and he may not regain good health, and his friends of Spur hope that he will return home soon. Milton Foreman, who is managing the Spur RS191E business and operation of the Antelope school building, informed us that the brick work is now complete and the building will be completed in every detail by the first of November.

Milton Foreman SERIOUSLY Considers Political Solicitations

Although the political campaign for the Spur RS191E holds many promises, Mr. Foreman has been looking for a good time. Mr. Foreman has been talking about the Spur RS191E for several weeks, and he says that the Spur RS191E is a worthy and able young man, and will be the best Spur RS191E that has ever been seen.

THE HOME OF AMARILLIS FLOUR AND
ADMIRATION COFFEE.
I’m not sure what to say. I had rheumatic pains in my limbs, and there isn’t a rheumatic medicine that really gave me lasting relief. It seemed like every joint in my body ached. It got so bad I could hardly move. Of all medicines I ever tried, none were anything but nauseating or upsetting me in the stomach trouble and upset bowels. I don’t think I had a single day where I felt a bit of relief from my ailments, and there were those days when I was more sick than well.

Red Front Drug Store, Agents.

I suffered for five long years with many of those symptoms. When I saw the advertisement for Adlerika, which said it was ‘a special preparation for the liver and stomach, used in all cases of stomach and liver trouble and upset bowels’, I decided to try it. I was skeptical, to say the least, but I had nothing to lose. I was tired of being sick and I wanted to feel better.

When the medicine was delivered, I was surprised by how easy it was to take. The instructions said to take one capsule three times a day with meals. I followed them to the letter and after a week or so, I noticed a difference. I was still not completely well, but I could tell that things were getting better. The aches in my joints were starting to subside, and I was less tired all the time. After a month of taking Adlerika, I felt like a new person. The pain in my abdomen had diminished, and my stomach was more regular. I could finally enjoy food without worrying about it making me sick.

I am writing to tell you about Adlerika because it has truly changed my life. I urge anyone suffering from similar symptoms to try it. It might just be the answer you’ve been looking for.

MRS. J. B. GODWIN,

Precautions Needed to Keep the Mold Away From Poultry

Garlic may be used in the feeding of birds to prevent moldy feeds. Many poultry raisers have used this substance with marked success as a mold preventative when added to the feed. It has been found that very little danger exists of mold growing in the feed when garlic is added to it. A given amount will prevent the growth of mold on feed that has been exposed to the air for a long time. A single dressing of a feed mixture containing one-half pound of garlic meal per hundred pounds of feed, will prevent the growth of mold on feed stored for a long time.

The city and towns of West Texas have all these advantages, but interrupted service, similar to that enjoyed in the great metropolitan centers.

Greater Productive Efficiency!

LOWER cost—greater productive efficiency. These are vital factors to the manufacturer who is planning to move his factory away from congested centers of population.

Without power distribution and improved transportation facilities, the small cities and towns of West Texas have all these advantages, but interrupted service, similar to that enjoyed in the great metropolitan centers.
