Farmers Meeting.

Pursuant to call as advertised in the local press, thirty farmers met at Alazan last Saturday and passed a resolution demanding that ginners gin cotton for 40 cents a hundred pounds or \$2.00 a bale cash. The resolution was signed by the following named gentlemen, who were present, with a request that it be published in the county papers: J. L. Rushing, S. H. Stone, H. F. McGregor, H. J. Daniels, W. GET in your order quick if you want to plant Elberta peach trees this fall.

PEACHES, potatoes and tomatoes are the money crops for the future in East Texas. Try them.

SEE Edler at once and list your name with those who are going to plant tomatoes for shipment next spring.

THE city council hasn't spent all the money for coffee. There is still over a thousand dollars in cash in the hands of the city treasurer.

THE fruit and vegetable subject is absorbing all East Texas. East Texas will be one solid orchard dotted with truck patches ten years from now.

IT costs forty thousand dollars a week to maintain the strikers now out against the steel trust. The strike is expensive in more ways than one.

A CANNING factory will be established in Nacogdoches in time to can up the surplus vegetables, tomatoes, roasting ears etc. we have on hand next spring.

THE strikers and the trusts are as far apart as ever and it does not look as if a settlement will be agreed upon at all. Strange that neither party has suggested arbitration by disinterested persons.

The judicial apportionment bill passed to engrossment in the house, forms Rusk, Harrison, Panola, Gregg and Shelby counties in the fourth district. If this bill passes finally, it will throw Judge Davis and Judge Graham in the same district, and will bring on a hard fight—Timpson Times.

THE biggest concern in Nacogdoches started out here 24 years ago as one among the smallest in the place. But they had big, broadguaged ideas and followed them. There was nothing of the small calibre about them. And furthermore they used printer's ink, and have continued to use it—barrels of it—and are still at it. A glance at the local press will disclose their identity without our calling names.

DAN CLIFTON advertised a house for rent a few days ago, and within a few hours after the ad appeared the street in front of his house was nearly filled with applicants for the house. Dan says he could have rented at least twenty houses on that advertisement. It simply shows that people can't get houses to live in, and that the progress of the town is retarded by the scarcity of tenant houses. Property is too high—for most of them to buy homes, and as they can't rent houses here they have to either board or go to other towns to locate. New people are coming here in droves a large percent of them willing to remain if they could get houses to live in.

PLANT a few acres of Irish potatoes. If enough are raised for shipment in car lots they will net fine profit to the producer next spring.

THE fellow that is fool enough to "bite off his nose to spite his face," is small potatoes, and there is little chance for him ever to amount to much.

ANARCHISTS should be handled just the same as rapists are. The mere fact that a man is an anarchist should be considered sufficient grounds for hanging him.

THE COMMONER has departed slightly from the rule adopted when it first made its appearance. It is now running several advertisements whereas when it first started it refused to accept ads.

BRO. VEATCH, of the Hemphill Messenger has found a remarkable sale for his little book of poems. He has sold out the first edition completely and has the second edition in press.

THE McKinney nurseries are offering \$100 in cash for the most valuable pecan tree. The proposition is open to the world, and they propose to pay ten dollars a pound for nuts from the tree that gets the prize.

DON'T fail to be present at the mass meeting at the Court House next Saturday. Malley and Dixon and a host of other authorities on fruit culture and tomato culture will be there. It is time everybody was interested in this topic.

THERE is nothing doing in the oil fields of East Texas outside of Beaumont that the newspapers are allowed to talk about, but we will be doing something in Nacogdoches soon, and the newspapers will be talking about it under "scare" headlines.

THE Governor means to hold the legislature together till they do something. They adjourned the other day but he "nabbed" them with another call before they could get out of town and now they are grinding away on some "measures" that failed to get through with the grist that has already been ground.

IN Montana a State law prohibits the sale of public lands for less than ten dollars per acre. At present land can be had in Texas at \$1 an acre on forty years' time at 3 per cent interest. But it is only a matter of time, and not very far in the future at that, until our State law will be amended so as to prohibit lands selling for less than their real market value.

If you want to plant Elberta peaches this fall you'll have to hurry and get your order in. The nurseries are running low on this variety many of them being entirely out. C. G. Monzingo received a letter from a Rome, Ga., nursery to-day stating that no further orders could be filled this fall, at the same time turning down an order for three thousand trees from Mr. Monzingo.

THE farmers of the Red river valley are making a very practical application of alliance in the disposition of a part of their products at least. Hon. C. Stringfellow of Red River parish, was in the city yesterday, and advises that a meeting of the Planters' association was held at Coushatta last week, at which it was decided that the members of the association would not dispose of their cotton seed for less than \$15 per ton, and they earnestly advise all the planters of the Red river valley to adopt the same tariff. This unity of purpose and interest cannot but result in mutual advantage, and may result in convincing planters that a unification of interests in regard to crops, areas and limits of production may be, in the long run the best protective measure that could be adopted and lead to the profit and greater independence of the farming man.—Shreveport Journal.

"QUICK SALES, SMALL PROFITS."

The FALL SEASON Of 1901

Is now approaching and your problem is to decide on the proper place to do your trading. It is to your interest to carefully compare prices and qualities.

"A Dollar Saved is a Dollar Made."

Experience, observation, and common sense should and does teach you that a small merchant takes up less room, pays less house rent, less electric light, less clerk hire, less expensive displays, and less expense generally. Then a common sense proposition is, "Where should you buy? From whom should you buy? Where do you buy?"

Price elsewhere, but don't buy. Now to the point, I do not ask for all your, but do ask for a part of it, other things being equal, and if a small profit is an inducement, will get it. I am new in the business and will have to build a trade. I am going to build it. I am going to build it. I must have it. My plan is small profits and quick sales. I aim to do that. I am going to do it. I shall do it. So

If a Bargain Counter is what you want to see, See mine.

If Dry Goods is what you are after, buy mine.

If Shoes and Hats are wanted, take a peep at mine.

If Coffee, Sugar, Tobacco and Snuff are what you have got to have, get mine.

COME AND SEE. If you don't buy, I have no high priced salesmen to worry the life out of you, nor to show the hidden beauties—to mesmerize you—nor any beautiful magnetic displays to draw you in anyhow—but I have the goods to wear and the groceries to eat, and last but not least everything I have is for sale, and I am going to sell; didn't buy 'em to keep. Will go, must go, got to go. Yours for trade,

Chas. A. Hodges.

Shindler's

Purgative Compound Pills,

The Best Pill on Earth for Regulating the Stomach, Bowels and the Alimentary System Generally.

We are indebted to Dr. F. C. Ford, of Nacogdoches, for the valuable formula by which these pills are made. They are fittingly named "de la Roche."

With each style bottle of Shindler's Sarsaparilla, Shindler's Iron Tonic, Shindler's Compound Extract of Celery, Shindler's Kidney and Liver Cure, and Shindler's Woman's Health Restorer, will be found packed inside the carton and in an envelope. The bottle containing about twenty of these pills which are rapidly growing famous.

For Constipation, Sick Headache and as a Cathartic, take 1 pill at night and continue taking one pill at night until the bowels are regular and natural in their operation. In some cases it may be necessary to increase the dose.

For Bilious Attacks and Liver Complaints, 1 to 3 at night and 1 in the morning, until relieved. Some people are harder to make than others, but it is rarely the case that more than ten pills are necessary.

We do not advise constant use of these pills. They are powerful in their effects and anything like constant use is unnecessary. For children and weakly women 1 pill is generally enough, and for small children and infants 1/4 to 1/2 a pill in syrup will do the work.

Yours for Health,
R. C. SHINDLER & SON.

This is to certify that I have had about one-third of a bottle of Shindler's Sarsaparilla on my little girl, which was very badly broken out all over with sores, and that after one week's trial she is greatly well. S. E. BRUCE.

Shindler's Liver Regulator is the best.
C. A. PARTIN.

To R. C. Shindler & Son and the public:

Under a true test I would advise all people who have chills and fevers to be sure and get Shindler's Tasteless Chill Tonic and Shindler's Purgative Compound Pills, and use them according to directions and I will assure a permanent cure, for I have given them a true test. When my family commenced having chills and fever, I tried all other Chill Tonics which had little effect. The first trial of Shindler's Chill Tonic broke them up and I only had twelve hours to commence before chill time, and the chill time failed to come. Since that time my little twelve-year old boy was first taken with a chill in the morning, afterwards fever rose, at bed time that night fever still very high. I gave him one Shindler's Pill, at midnight one at 4 o'clock one more and fever still very high. I still kept up the Chill Tonic according to directions, and the fever remained very high all that day. Wife said I had better go for a doctor. I said, "No, I will try Shindler's Tonic on till morning." So at 12 o'clock in the night the fever commenced going down and by morning he was clear of fever. By using Shindler's Purgative Pills and Chill Tonic, I know by experience that I cannot recommend those two medicines too highly. The best wishes to R. C. Shindler & Son for preparing such good valuable medicines at home for the people.
J. A. BRUCE.

Shindler's Pills.

Mr. Shindler I can with safety recommend you. Iron Tonic, besides being a good blood medicine and health restorer, for I have been trying it with my oldest son at home, who was in such bad health so long, and he hasn't used but about half the bottle yet and is getting back to his natural color, and looks better than he has for several months. I can also recommend Shindler's Electric Liniment by experience, for after my mule threw me and hurt me so badly inside my breast I used nothing else but your Electric Liniment, and in a few days I was healed all right.
Yours as ever,
J. A. BRUCE,
September 10, 1900.

Shindler's Pills.

I have used Shindler's Pills three years and find them the best. I have used them for biliousness and find them a perfect success in every way.
S. A. OLIVER.

Liver Regulator.

I have used Shindler's Liver Regulator ever since it was first brought to this town and find it the best ever used. A one dollar package lasts my family about one year. Light dose night and morning and then another just before dinner with clear you of any cold. Too much cannot be said of its place, and its place is in every household. I have also used Shindler's Pills, Chill Tonic and Iron Tonic and they are the best remedies I ever used for what they are recommended.

Shindler's Pills can't be beat. I use them in my practice and find them the best I ever used in my experience as a doctor of forty-five years. I also use Shindler's Cough Syrup as it is the only medicine I have ever found to substitute my own cough syrup, which has been unexcelled for about thirty-five years. Shindler's Liver Regulator, Flux Mixture, Celery Compound and Sarsaparilla I have used in my practice and find them the best remedies obtainable.
(Doctor) J. M. SPARKS.

I tried Shindler's Liver Regulator and found it to be all O. K. and have tried Shindler's Pills and found them to be good also. I want my friends to try them and be convinced themselves.
M. A. STRUBLING.

Syrup of Tar and Wild Cherry.

Shindler's Syrup of Tar and Wild Cherry I have found to be better than any other cough medicine. I had coughing spells and cough until my nose bled, and since I have used Syrup of Tar and Wild Cherry I have not had any more of those spells. I cannot say too much for your medicine.
W. EISNER.

Liver Regulator.

I want another package of Shindler's Liver Regulator. It is the best. I want no other.
E. C. MUCKLEBERRY.

Sarsaparilla.

My baby had such a severe cough that I sent for the doctor, and not being able to get him "phoned" for a bottle of Shindler's Syrup of Tar and Wild Cherry which relieved her very soon. In fact it cured the cough.
W. H. HARRIS.

Iron Tonic.

Shindler's Sarsaparilla cured eczema on my two-year old child. It is the best blood purifier ever used by me.
C. A. PARTIN.

My mother used a bottle of your Iron Tonic last fall and it helped her so much I want another. Mother says it is the best medicine she ever used to give her strength and appetite.
W. A. STORCK.

PRESIDENT OUT OF DANGER.

Houston, Sept. 11.—H. H. Cooper, Nacogdoches: President pronounced out of danger. Taking food naturally. S. B. STRONG.

The Cotton Market.

Somewhat easier quotations prevailed, the advance on the strength of injury in Texas apparently being considered excessive. Official figures of condition on September 1st., were not so disheartening and the outlook would be fairly favorable were it not for the danger from frost at the end of the season, owing to the lateness of the crop.

On August 30th 10,316,516 had come into sight, against 9,210,523 last year. This week port receipts have been 57,723 bales, against 51,507 a year ago. Takings by northern spinners on August 30th were 2,040,156 bales against 2,192,671 last year.—Dun's Review.

The Far Seaching Drouth.

Mr. William Dorsett, has returned from Tom Green county to his home at Tatum, accompanied by his wife. He made the entire trip in a wagon and was, therefore, fully enabled to inspect the country and crops through which he passed. He says the trip was made with some difficulty on account of the scarcity of water, as the drouth extended the entire way. The corn and cotton crops are shorter than ever known before. In sections where they have formerly made a bale of cotton to the acre it will require three or four acres to make a bale. It is well enough to state in this connection that Mr. Dorsett's report is verified by all parties who have traveled over the State, and the opinion is general that the cotton crop in Texas is at least a third less than last year. Many believe it is only half as large as the last crop.—Henderson Times.

Stole Horse and buggy.

Last Friday night, at some hour not known to any one, some one stole the buggy and harness of Col. Farris and made his escape. Next morning the buggy was missed and a search was made. Later on the buggy was found about four miles this side of Rusk, out in the brush, but the thief had made his escape.

From those who saw a suspicious looking man, it is thought that the thief was a Mexican. Sheriff Reagan put

Deputy Tom Black on his track, but up to this writing he has not been caught.—Alto Herald.

Referred to Bro: Baucom.

Bro. Gus Bagley is some thing of a "sin killer" himself. On the second Sunday in August he commenced a protracted meeting at Emmaus, which he conducted without the assistance of any other preacher, and before the meeting closed there were 33 conversions, 29 baptisms and 41 additions to the church. On the following Sunday he commenced a meeting at New Hope church, in Nacogdoches county, and made 7 conversions, 4 baptisms and 13 additions to the church. This record is hard to beat.—Rusk Journal.

Lost, Strayed or Stolen.

1 Black mare about 7 years old; 14 hands high, branded NE on top of left hip, and CT low down on left shoulder, last seen about two miles east of Martinsville on Attoyac road. Any information leading to recovery will be liberally rewarded. J. O. MARTIN. W 2t. Martinsville, Texas.

Baxter's Wagon Yard.

I am still running my wagon yard on West Main street. Have lots of room, good stalls and barn; water works and electric lights, comfortable camping houses. Good order is kept and no swearing and carousing allowed. Same old low price. W. E. BAXTER w 3t.

C. J. Childers has opened up an up-to-date saloon at Chireno. See his advertisement in another column.

From Fairview.

Fairview, Sept. 11.—Cotton picking will soon be a thing of the past.

The people are hurrying up with their work generally so as to be ready for school which will begin soon. Fairview people believe in sending to school. They don't lack for interest much. They mean to make a teacher earn his money. I see where they are right. There is but one time when we send children to school. Time spent in that way will never be regretted. People are sometimes sorry they were born, sometimes sorry they are married, but never heard one say he was sorry he went to school.

Mr. S. P. Smith went to Alazan Sunday to preaching. Miss Annie Peppers is very sick at present.

Mr. Joe Stribling, of Cove Spring community, will move to our community soon. He has bought the Summers old place, now occupied by Mr. Menton.

Mr. John Martin, from Attoyac, stayed with I. J. Hargis last night on his way from town with one of Cason, Richardson & Co's new wagons. We had a light shower yesterday evening which cooled the atmosphere and makes things a little more pleasant. CORRESPONDENT.

From Linn Platt.

September 8, 1901.

ED SENTINEL: Dry weather still prevails in this part of the country, cotton picking is the order of the day, the fleecy staple will be short this year, it will take about five acres to make a bale, corn crop is short. Taking the crops all round I don't think there will be an over production.

Health of this community is very good at this time. Mrs. Jack Sitton has been real sick the past week but we are glad to report her better.

Miss Lena Pain has been visiting Miss Dee Lyles this week.

Mr. and Mrs. Grounds, accompanied by Mrs. Griffin and daughters of Mt. Enterprise were visiting here Friday and Saturday the guests of the writer. They came down after Miss Evie Griffin who has been visiting here the last week. They returned home this morning.

A. D. Fountain, of Rusk county, was visiting in this community this week. Mr. Fountain has been up in Oklahoma and reports everything dry and crops sorry up there.

Mr. Love Tindall has sold

out to H. T. Pitman and has moved to Swift where he will assist in the Swift school. We wish him success in his new school. Prof. Tindal is a good teacher, neighbor and a Christian gentleman.

Profs. Hale and Mullens were visiting in our community the past week. Prof. Hale was working in the interest of the Swift school. Prof. Mullens will teach the school at Flat Wood. L. N. LYLES.

Emma Goldman Arrested

Chicago, Sept. 10.—Emma Goldman was arrested here shortly before noon to-day.

Her manner was defiant as she was led into the office of the chief of police, but she disclaimed any knowledge of Czolgosz and his crime. She admitted having met him here on July 12.

On the subject of the lynching of rapists, the Post prints in another column, this morning two rather remarkable communications. Both advocate and defend the practice of burning the culprits, and it would be difficult to determine which is the more vehement in its contention. One suggests as a last resort the utter extermination of the negro race, the other charges that Governor Sayers, Adjutant General Scurry, the editor of the Post, and all others who oppose the barbarism of the torch and stake, are allies of the rapists. Such expressions as these may be accepted as indicative of the reason why the Post declines a controversy with their authors. In their present frame of mind argument with these gentlemen would be time thrown away.—Houston Post.

It is very pronounced that public sentiment is against the Post in its position upon this question, and it is well that public sentiment should be plain. It will give the courts, juries and officers, of the law to understand that if rapists are not punished promptly by law the people are ready to take the matter in their own hands. Too much delay and defeat of justice is responsible for the present state of affairs, and the courts will have to get down to business and get out of the habit of turning everything scott free that can raise a good lawyer's fee before the people will be satisfied to risk them.

THERE are rumors of some big real estate deals taking place in Nacogdoches. A Beaumont man spent last week here and invested several thousand dollars in city and suburban property.

N. B. Chancey of Lufkin is in the city.

Best Portion of Texas.

Mr. F. W. Mally, of Hulen, ex-president of the Texas State Horticultural Society, after a recent visit to the section of Central East Texas traversed by the H. E. & W. T. said:

"I can state without any hesitation whatever, that this is the best portion of the great State of Texas for the man with the hoe that I know anything about, and I have been a resident of Texas for the past ten years and have traveled pretty well all over the State. To the fruit grower, the general farmer or stock raiser, I know of no locality in these United States which offers greater inducements. Lands are cheap, the soils are fertile and well drained and the climate healthful."

For full information regarding this country write to Sam H. Dixon, passenger and immigration agent, H. E. & W. T. Ry., Houston, Texas.

Men Wanted.

Men of brawn and brain to occupy the rich and fertile valleys of Central East Texas. Men to plow, to hoe, to sow and to reap—to grow fruits and vegetables, to work in factories and develop the natural resources.

They can find here unparalleled opportunities for home building and home comforts. The sluggard, the drone and the shiftless are not wanted, but the industrious and frugal are welcomed by as hospitable a people, occupying as healthful a country, as genial climate and as rich and fertile soil as can be found anywhere.

Write to Sam H. Dixon, Pass. and Imm. agent, H. E. & W. T. Ry., Houston, Texas, for thirty page folder giving full information about the new Eadorado.

Married.

Dr. M. M. Paul and Miss Berta Crawford, of Shelbyville, were married on Sunday, August 25 at the home of the bride's parents, Mr. and Mrs. J. Lee Crawford.

The Democrat tenders congratulations together with best wishes for a happy and prosperous future.—Shelby Democrat.

Dr. Paul has many friends and acquaintances in Nacogdoches county who join the Democrat in extending congratulations and best wishes.

Teacher Wanted.

A good teacher is wanted at once to teach at Red Oak. Address W. A. Parmely, Ike Parmely and Sam Sitton, trustees.

R. W. HALTOM, MANAGING EDITOR.

PRESIDENT MCKINLEY has passed the danger line and the world has the most implicit faith in his complete recovery.

ACCORDING to Dun's Review and the government bureau report, there is little prospect of the cotton going up on the grounds of a short crop. There is over a million more bales raised in the United States this year than there were last.

THE Texas legislature is now in a ridiculous attitude. For days less than a quorum have been present at any session and nothing whatever has been done since the governor called them together for the second special session.

DISTRICT court will convene in Nacogdoches next Monday. The bill which proposed to change the 2nd. judicial district has not passed the legislature yet, consequently there is as yet no change in the terms of court nor the officers.

FIVE hundred acres of tomatoes planted in the vicinity of Nacogdoches, will add a volume to the business of this town next summer when the time comes that cash is usually scarce and business awful dull. The merchants ought to take an especial interest in influencing every farmer to plant out fruit trees and raise tomatoes and potatoes.

CZOLGOZ, the would-be assassin of President McKinley, will answer to the local courts for his crime just the same as if he had assaulted any private citizen. The fact that he attempted to kill a president attaches no more importance to his case than it had been the humblest citizen. That's what great lawyers hold that the constitution says about it. To common folks it looks like it ought to be different.

SNEERS at Teddy are not so numerous now. The vice president is meeting the requirements of his delicate position in a manner absolutely beyond criticism.—Galveston Tribune.

Wonder what was expected of Teddy, anyhow. The papers talk of him as if he was either something unnatural or was expected to do some unnatural thing. It wasn't Teddy that was shot.

Fruit Journal For East Texas.

East Texas and Smith county particularly need a good journal devoted to fruit growing and fruit grower's interests. Mr. Cooper, of the Lindale Reporter, will soon issue a monthly journal devoted to this great and growing industry. Mr. Cooper's practical knowledge of the printing business, and his energy and ability, are guarantees of the success of his enterprise. He will put in a cylinder press and other essential adjuncts to the publication of a first class journal. Lindale is the geographical center of the fruit belt, as it is also the leading fruit and vegetable producing community in East Texas. It is, therefore, the natural site for the home of such an important publication. We congratulate the fruit and vegetable growers on the prospect of having a good monthly magazine to assist them in developing this infant industry. Success to you, brother Cooper.—Tyler Democrat-Reporter.

THE University of Texas has developed more rapidly than any similar institution in the world. In eighteen years it has gained a position in the educational world that other universities have consumed from a quarter to half a century in reaching. It is the head of the public school system of the State. Tuition is free, and co-education on terms of perfect equality is a prominent policy of the institution. Examinations for the 1901-1902 begin Sept. 25th. Candidates must be over sixteen years old, establish a good moral character and be vaccinated. Graduates of State high schools and other specified colleges admitted without examination. A diploma from the University of Texas is well worth striving for.—Farm and Ranch.

THE trend of the rich is toward imperialism and of the poor toward socialism—two isms of which the Stock Farmer is very much afraid. Democracy of the sort promulgated by the Kansas City platform, is good enough for the Stock Farmer. And the fact that the great exponent of this sort of democracy which, by the way, is no new thing, is hated by both the imperialist and the socialist, only causes me to love more this great doctrine of "equal rights to all, and special privileges to none," and likewise its greatest living advocate—the man of mighty and lofty purpose—William Jennings Bryan.—Claredege's Stock Farmer.

The above was written a week before the shooting of President McKinley, which event bears evidence that the writer spoke prophitically and logically.

PLANT fruit trees.

THE Tenaha New Era comes in an 8 page form this week, seven columns to the page. But six patent pages makes a paper look very "woody." Bro. Gibbs.

ASK the doctors of Nacogdoches something about the evil results of the filthy negro dives around this town, and then ask yourself if it isn't time for good people to make a move to exterminate them.

The Waco Times-Herald of Tuesday did not have a word about the Houston Post. This accounts for the sudden drop in the temperature that day.—Tyler Democrat.

And the Tyler Courier hasn't mentioned the Henderson Times for at least two days.

If it is such a horror for white women to run "joints" in a place why is it that we tolerate a hundred negro dives that are a thousand times worse. Will some of our "law and order" people stand up and explain.

Miss Laura Philleo is visiting relatives in Nacogdoches. Miss Laura will be absent during September, and her sister Miss Maggie will teach her school during this month.—Rusk column in Jacksonville Banner.

BRO. THOMPSON of the Alto Herald is bounding up the ladder of fortune by jumps and leaps. First he bought the Herald, then he bought an interest in a road scraper, now he has bought a house and lot for his printing office. The next thing we hear of him he will own the g. o. p. railroad and be offering all us newspaper boys free passes to visit Alto, the foremost town in East Texas.

A WOMAN from Shreveport was present at the last meeting of the city council and asked what the city would do with her if she should open a "sporting house" in Nacogdoches. Of course the council informed her that she would have to answer for violations of the law just the same as any other individual and they gave her no encouragement to carry out her scheme. The incident has given rise to a great deal of general comment, and scores of our best people have pronounced most emphatically against such a demoralizing move. Yet these good people tolerate a worse condition, if worse condition could be possible, in the existence of innumerable low, filthy negro dives. It is time to inaugurate a crusade against the evils that already exist, and while we are ready to put our feet down against the advent of others we are neglecting our duty in tolerating those we have.

The Same Throughout East Texas.

Two or three families moved to Orange last week expecting that when they arrived here they would have no difficulty in securing suitable locations for their families. Upon their arrival they were put to so much inconvenience by reason of the lack of houses for rent in the city. They consequently were obliged to store their household effects and hunt boarding houses. In this they again met with considerable difficulty, as nearly all the boarding houses in the city are taxed to their utmost capacity and not a few of them object to having large families to take care of and an individual informed the Leader man it was almost impossible for them to live at a hotel and pay a rate of \$2.00 a day. This is rather a lamentable state of affairs, that a city the size of Orange is not able to take care of the visitor. We have capitalists, bankers and monied men galore in the city; all desire to increase their stock of worldly goods. If they will build houses, their investment will bring them ten fold.—Orange Tribune.

The country merchant has about as hard a row to handle as anybody on earth, and he has got to look pleasant and hang to the hoe handle, no matter what happens. If the pastor's salary is a little too short the business man must fix it. If John Jones loses a horse he must help him to get another. If a celebration is going on he must dig up some more. If a beggar comes along he is the first man to be touched. If he responds to every call he goes broke. If not he is counted a hog. Still some people buy their goods away from home.—LaGrange Journal.

The Timpson Times indulges in wholesale clipping with never a clip credited. That's one way to run a newspaper.—THE SENTINEL.

Guess again brother. Perhaps your specs were on wrong. It is the unvarying rule of this office to give proper credit to all clipped matter. The fellow who clips matter he deems worthy of reproduction, without giving credit to the author hasn't the first principal of a newspaper man.—Timpson Times.

It was the Herald we were referring to, and we wrote Herald but the priverbial "i. c." hadn't ever heard of The Herald and he changed copy on us, thinking the Times was the "onliest" paper in Shelby county. Sec.

THE Jacksonion Club will hold its annual meeting at Omaha, Neb., on Sept. 21st. Senator Culberson of Texas, Gov. McMillan of Tennessee and Hon. Wm. J. Bryan, are selected as speakers on the occasion.

THE papers are announcing in black headlines that "anarchists must go." Of course that means that they must get up and "skedaddle."

A Cotton Belt train was held up and robbed near Texarkana Tuesday night. Five unknown men did the work and they received large booty. No arrests have yet been made.

COL. BOWERS evidently had an eye to the fitness of things when he stuck the head of "The Mule" to one side. The tipical mule always holds his head to one side, when he moves if he moves at all.

Bill Teel went to Nacogdoches on a business trip Saturday, but returned saying he had decided San Augustine was good enough for him and would remain here. That's the way they all do.—San Augustine Visitor.

That's the way all who want to build up their home town ought to do. But they are not all Bill Teels, you see. Nacogdoches knows this, and she has got the finest, juiciest chunks of bait you ever saw, and they will come to it. She pays them the best prices for their cotton and sells them goods at prices that pay them to haul them a long distance.

WHEN Governor Beckam, of Kentucky, objected to the erection of a colored church near the capitol in Frankfort the northern press condemned the young official with all severity. The South has waited one month and been given an opportunity to retaliate. In Brooklyn, N. Y., a colored minister recently moved into a white neighborhood to be close to his church, and has not had a peaceful moment since. Night and day his white neighbors, who denounced the objection of Beckham, gather in front of the preacher's home and sing:

Coon, coon, coon, I wish my color would fade;
Coon, coon, coon, I wish I was of a different shade.
Coon, coon, coon—morning and night and noon,
I wish I was a white man instead of a coon,
coon, coon.

Of course there is no comparison between the New York and Kentucky incidents. One is in the North, the other in the South; one is in a republican community, the other among democrats.—Indianapolis Sentinel.

Those northern republicans have great love for the negro as long as he is "Away down South in Dixie," but when he moves up to be close neighbor to his white brethren in the North it is different.

Tucker, Zeve & Co. have inaugurated a novel plan of awarding a premium on purchases from their shoe department. A ticket entitling the holder to a dozen shoe shines is given with each pair of shoes sold.

IT IS WONDERFUL

The following shows what East Texas has done this year in the fruit and truck business, the report having been made out by the American Refrigerator Transit company:

The first car of tomatoes we shipped this year went to Philadelphia. Next year we expect to make citizens from Cape Cod to Salt Lake and from Winnipeg to New Orleans eat them.

Our statement of the business handled is as follows:

Cars shipped from each station, season 1901:

Arp, 35 cars tomatoes, 2 cars peaches.

Bullard, 22 cars peaches.

Barstow, 14 cars cantaloupes.

Craft, 94 cars tomatoes, 17 cars peaches.

Chandler, 2 cars peaches.

Dialville, 59 cars tomatoes.

Elberta, or Park Switch, 6 cars peaches.

Flint, 9 cars tomatoes.

Goodson Spur, 7 cars tomatoes.

Jacksonville, 13 cars tomatoes, 126 cars peaches.

Lindale, 14 cars strawberries, 32 cars peaches.

League City, 4 cars cucumbers.

LaMarque, 7 cars cucumbers.

Mount Selman, 11 cars tomatoes, 22 cars peaches.

Palestine, 9 cars tomatoes and cantaloupes.

Rusk, 26 cars peaches.

Swan, 6 cars strawberries, 7 cars peaches.

Sulphur Springs, 3 cars tomatoes and cantaloupes.

Shreveport, 9 cars tomatoes, 1 car cabbage.

Tyler, 27 cars tomatoes, 14 cars strawberries, 21 cars peaches.

Total shipment from Texas points named below, season 1901: Strawberries, 34 cars, cantaloupes 14 cars, cucumbers 11 cars, tomatoes 275 cars, peaches 275 cars; total 607 cars.

Total number of packages shipped by freight: Peaches 245,700, tomatoes 247,500, cantaloupes 7,000, cucumbers 4,000, strawberries 17,136.

Over half million crates of fruits in ninety days from fifteen stations. Nearly every car was sold on the track for cash. The tomatoes averaged net 80c per crate, and this king of all vegetables put \$220,000 in the pockets of about 500 people engaged in this industry from Rusk to Tyler on the Cotton Belt, and from Houston to Longview, on the International and Great Northern.

The peach orchardist found nearly as good a market as did the tomato man. Peaches averaged about 70c per crate for 245,700 crates at 70c,

\$181,900, and sold on the track for cash largely.

Buyers from nearly every market were on the ground. The first car of tomatoes shipped from Texas this year went to Philadelphia, for Northern markets, from Butte, Mont., to Toronto, Canada, and Buffalo, N. Y., got a large share.

Two contributors to the Houston Post advocate the burning of every negro rapist, and abuse the Post because it favors dealing with them in a lawful way. The mob spirit is growing stronger in this country and will continue to grow stronger as long as decent men countenance mob rule. We shall wake up some day to a realization of the fact that the mob has grown stronger than the laws and the courts, and that every man's life is in danger if some enemy sees fit to get up a mob to hang him.—Bonham News.

There is no argument in the assertion of the News that "every man's life is in danger" etc. But there is truth in its remark that the mob spirit is growing stronger than the courts. The courts, however, are responsible for it, and unless a little justice is given the people by the prompt and proper punishment of rapists and murderers, the News and its ilk will have greater occasion in the future than ever for sounding the alarm. The courts need a little correcting while they are engaged so strenuously in denouncing mobs.

The statement is given out from New York that local distributors say there is no likelihood of there being any scarcity of steel cotton ties as a result of the strike. They say the large factories in the south have already received their supply of ties and they are now delivering them to jobbers. The strike, however, may result in an advance in prices equal to about 2 cents a bundle, but as a bundle of ties will cover five bales of cotton, such an advance would not be felt by cotton planters. The short cotton crop, of course has a great deal to do with keeping the prices down.

We observe that our home printing offices are still unable to fix up stationery to the liking of some of the country officers.—SENINEL.

Buy you seme new type, get some good paper, and a good printer to handle it, and then you will get your county printing. If you don't get a new set of officers.—Bonham News.

THE SENTINEL has \$4,000 invested in a printing plant and employs the most skilled labor to be had in its job department.

THE Galveston News says Hon. Tom R. Jennings thinks his Island down in the Gulf of Mexico has a pocket of oil beneath it.

Mr. Roosevelt as a Preacher.

Vice-President Roosevelt has said many foolish things about the "strenuous life" which have been duly recorded and published. He said a wise thing in Chicago Sunday, which should be remembered to his credit.

"Heroism," said Mr. Roosevelt in an address in Trinity Reform Church, "does not consist in striking deeds only. It is in the little things of daily life that the noblest heroism is proved. A man might perform one gallant famous deed and yet be a coward in the worst sense. The greatest heroes are those whose names are unknown of men, but whose thoughts and deeds, though small by the popular measure, are mighty and unselfish in the eyes of God."

That is worth all the strenuous statesman ever said about the manliness of fighting for fighting's sake, about the necessity of war to preserve a nation's self-respect. The boasting speeches glorifying mere physical prowess are inane and dull compared with this one paragraph in which the essentials of heroism are sincerely stated.

As a preacher Mr. Roosevelt is a more pleasing figure than as a strenuous and breathless candidate for the Presidency.—Post-Dispatch.

The election held here last Tuesday for the purpose of levying a tax for school buildings was practically unanimous. There were cast 96 votes for the tax and three against it. This election showed better than any words can express the sentiment of our people in favor of education. The time has been here during the last quarter of a century when such a proposition would have met with serious opposition. The Times has often remarked that on the question of education Henderson is at the front, with no town in the State possessing a more progressive spirit. Let the good work go on.—Henderson Times.

It is now believed that Emma Goldman is the prime mover and instigator of the plot to assassinate President McKinley. The police are after her. She was in Buffalo Monday before the attempted assassination, under an assumed name and there is strong suspicion that she had a great deal to do in influencing Czolzasz to commit the deed. She seems to have utterly disappeared and the police all over the United States are puzzled at her sudden and complete disappearance.

It makes no difference if State Treasurer Robbins was guided by precedent in keeping the State's money in a bank, he knew it was a violation of the law and that should have been enough for him. It is high time that trespassers in high places were being given a dose of justice as it is meted out to the poor unfortunate who gets hold of the wrong yearling by mistake. While he may not be guilty of any criminal intent, Mr. Robbins is morally responsible for the money lost by the State in that transaction and his bondsmen should have to "go dig." That's our ticket.—Wills Point Chronicle.

Now, supposing you were State treasurer, what would you have done? Robbins did not deposit a dollar of cash in any bank, but simply placed checks in the bank for collection. If you had been treasurer you no doubt would have gone traveling all round over the State collecting all that money. If that kind of practice was kept up, what a picnic the foot pads would have. But, maybe you would force the people to come all the way to Austin to pay in the spot cash instead of remitting by checks, drafts, etc. In that case you would hear such a "roar" from the people that would make you think a regular Texas tornado was approaching. The fact is, Mr. Robbins, like his predecessors, has been attending to the business of the treasury department according to ap-

proved business methods, and we doubt if the intent of the law has been violated one centilla. As to Mr. Robbins and his bondsmen being responsible for the losses sustained, there can be no question, but there is not the slightest grounds upon which to question the honor and integrity of the State treasurer.

"QUICK SALES, SMALL PROFITS."

SAVING is MAKING

And also small profits and quick sales are better for me. You ought to consider and profit thereby that small expenses, no old last year accounts to be lost, no new debts to be carried over on account of short crops. No old debts on hand, with which older houses are burdened, which fact enables me to sell as cheap if not cheaper especially so, being a new man in a new business, that must build a trade. I can afford and will offer this inducement. I will do the proper thing and make all wrongs right. So, why can't I sell you a part of your fall dry goods, shoes, hats and groceries?

If Your Soul Sighs for Bargains Come Here and Be Satisfied.

I have pants for you, suits for you, dress goods, shirts, overcoats, shoes for all, ladies' underwear, oh, my! I've got 'em. Just ask for prices to make things lively and I offer special low prices in on Henrietta Cashmere, Worsted Dress Goods and Jeans from 2 to 10c on the yard less than anyone else.

When I say cheap goods, I mean good goods at rock bottom prices.

You will find my goods to correspond with the short crops and I consider one man's dollar as good as any other man's one hundred cents.

I Must Sell You a Part of Your Fall Goods.

Houston, Texas.

HON. S. W. LANHAM has announced himself as a candidate for governor to succeed Governor Sayers. Mr. Lanham's record both as a statesman and a soldier are too well known for repetition in the columns of the Herald. As far as we know his record is stainless, no word of scandal has ever been breathed against him. His friends think that his nomination will be a walk over. In this we do not agree. Ex-Attorney General Crane of Dallas will, from all that can be learned, be a candidate. That he is very strong with the people as the race which he ran a year ago and from which he withdrew stronger than when he entered it proves. Then there may be others. The politicians are at work already and are receiving about as much attention from the legislature as the subject upon which they

called by the governor.—Hal-lettsville Herald.

Crane is the man. It was a mistake in forcing him off the track three years ago in order to take up a "compromise" man. We have naught to say against Governor Sayers, but of the two men we regard Crane as far superior. In fact, Crane has no superior in Texas.

WEEL, that "Mule" has broke out at last. A regular lop-eared son of a gun that carries his head to one side, regular mule fashion. The Mule is an eight page, six column paper, not counting a four page "patent sheet" extra, and has a full assortment of advertisements. It is published at Carthage, and edited by Col. Tom M. Bowers.

LET'S keep agitating the question of morality in Nacogdoches. There is a world of missionary work to do right here at home. We have worse than heathens in our own midst to contend with.

Douglass Letter.

Douglass, Sept. 6.—Dry, hot weather continues at this place. No amount of rain would improve the cotton crop, which will be lighter than for many years. Our ginners are not counting on more than 200 bales each, which will be in total 400 bales less than half of what they have been getting. The corn is sorrier than was expected; more shuck than corn. Potatoes and peas will be a failure unless rain comes soon.

Our people continue in good health, which is a blessing that should be doubly appreciated under the present circumstances.

Misses Fannie Campbell and Tretia Watkins are spending a few days on a visit to friends and relatives here. We wish the girls a very pleasant time.

W. J. Campbell bought the Durrett place on North street some time back and is now fixing it up with the intention of making it his home.

Dr. Mayfield went up to Timpson on the train yesterday evening and met his brother, Dr. Mayfield of Longview. Both returned on next train.

W. N. Hardin, of Tolver, was in the city today. He says it has not rained up in his country to do any good since May, and everything is almost burned up.

Leak Y Barbo and Sam Young of Martinsville, were in the city Saturday on their way to the Moral community where they went to attend the Catholic services in that neighborhood yesterday.

A small wreck of a freight train near Red Field yesterday delayed the south bound passenger train until late in the evening. No one was reported hurt by the wreck.

Gus Simpson passed up on the train yesterday evening. He has been employed on the Sunset railroad in Gonzales county, and is making a hurried visit to his family at Garrison.

C. F. Richardson, of Swift, has gone to work for Kaplan Bros. Mr. Richardson is well known in the eastern portion of the county, is a thorough going, energetic young man, and his services will no doubt prove of great value to his employers.

Little Nellie Augusta Moore, the grand daughter of Mr. David Lee, of this city, died at his home on Pillar street early yesterday morning. Her death was unexpected and was a severe blow to the family. She was buried in the city cemetery this morning at 9 o'clock.

Jackson Parrott, of LaNana was in town Saturday and paid THE SENTINEL a friendly call. He said he had not received a copy of THE SENTINEL since the post office had been suspended at La Nana. The cause proved to be that the paper was mailed to him at Nacogdoches whereas his post office is now Angelina.

J. H. Gunning returned Saturday night from San Augustine. He was present at the hrbeas Corpus trial of the Barker brothers. Osceola the eldest was remanded to jail without bail, while the other two were granted bail in the sum of \$2,500 each which they readily gave. Mr. Gunning says the grand jury has adjourned and that they failed to find a bill against Kurg Borders.

J. M. Sanders, the banker, of Center, was in Nacogdoches today. He was accompanied by Mr. J. T. Williams, also well known in bank circles. They did not say so, but it is guessed that they are prospecting for profitable investments, and if they find anything to their liking in Nacogdoches may drop a few dollars in her lap. They are men of business judgment and financing ability and it is safe to say that nothing but gilt-edged opportunity could induce them to invest.

Discussed Rural Delivery. In response to an invitation from Postmaster Lewis, quite a number of citizens residing on the new rural delivery routes soon to be started met Mr. Lewis in the court room Saturday morning and discussed the plans for the routes and also the kind of boxes to be used on the routes. The men are delighted with the prospects for having free daily mail delivery and did not hesitate to express their thanks to Mr. Lewis for his efforts in their behalf. They decided to purchase an improved mail box. It is made of steel and wood and will cost about \$1.20 each. Postmaster Lewis has ordered several hundred of them and expects to have them here by the time the routes start which will be in a few weeks.—Tyler Courier.

It was this very question of expense for boxes that caused so much indifference on the part of people who ought to have been interested in rural free delivery at Nacogdoches. It is not necessary to go to any expense, as boxes could be made of wood that would answer and so one had to buy an iron box who was not inclined to. It would only require the asking for Nacogdoches to be up with Tyler in the matter of free rural delivery.

It begins to appear that Judge Reagan's "Confederate record" is the head and front of his offending in the eyes of certain editors who are striving to bring his gray hairs in sorrow to the grave. Shame on any paper that would persecute and vilify an old man whose character is unassailed by any act of recreancy to his people, and whose every heart beat throbs with love for his fair southland. If Judge Reagan has erred so grievously as to deserve criticism, let it be done with a chivalrous regard for his old age, and with manly respect for his illustrious services and blameless private life.—Tyler Democrat and Reporter.

If the farmer is so awfully oppressed as his self constituted champions would have him believe, then he ought to be either starving or in rebellion against his government. As we find him peaceful, prosperous and contented, there must be more buncombe than truth in the assertion that he is the victim of the greed of all the trusts, of the railroads, of the commission, and of the merchant.—Tyler Democrat and Reporter.

COL. TOM CAMPBELL has not said yet, and yet the time is ripe for him to speak out.—Tyler Courier.

You'll hear from him. Needn't doubt that.
