On the other side is a figure representing an Indian prepared for burial. This relic was plowed up on Mr. Skillern's farm recently by one of his sons.

UNITY OF ACTION.

Fruit and Vegetable Growers of East Texas Organize a Central Association.

Jacksonville, Texas, March 21.—The East Texas Fruit and Vegetable Association was called to order by President Henry L. Hodges today. The object of the meeting was to organize all the local fruit and vegetable organizations in East Texas into one association for the purpose of acting together in growing fruits and vegetables and assist all interested in distributing and marketing. The committee on credentials reported delegates present from forty-four local organizations. These delegates came from Smith, Cherokee, Anderson, Angelina, Rusk, Henderson, Gregg, Walker, Leon, Houston, Nacogdoches, Limestone, Kaufman and Navarro Counties.

Secretary W. H. Dick of Palestine read a letter from Gov. Sayers expressing his regret that he could not attend on account of important official duties requiring his presence at Austin.

The committee on Constitution and by-laws made its report. Considerable discussion arose and a heated controversy was narrowly averted on the question as to whether the association should exercise authority over the local organizations in controlling the marketing of fruits and vegetables. Some delegates contended that the several local organizations should control the question, for by so doing they could more systematically distribute the shipments and thereby prevent flooding the markets.

On the first vote there was a tie, after which that clause of the constitution was adopted, with a slight change, providing that the local organizations shall act as a unit in all matters outside of marketing, and stipulating that the association should assist in arranging for cars, ice, freight and express rates and the distribution of the products, leaving the question of selling to be controlled by the different organizations.

Much enthusiasm was exhibited by the delegates and considerable interest in the fruit and vegetable industry is shown to be taken in a large number of East Texas counties.

It was impossible to get a definite idea as to what the acreage will be this season by the different organization represented in this meeting, but those who are in a position to know best estimated that the aggregate of individual truck growers within the jurisdiction of this association will run to near 7,000, and on an average each grower will cultivate three acres making a total acreage of over 20,000 acres, a greater portion of which will be in tomatoes.

A number of talks were

made suggesting plans for marketing, shipping and distributing the crop this season. One member thought by next year there should be established a fruit and vegetable exchange, such as now exists in Florida, California and other fruit producing states.

John Howard, immigration agent for the Southern Pacific, said from his knowledge gained by extensive acquaintance with the fruit and vegetable industries in other portions of the country, he thought East Texas had equal if not superior advantages to any other locality. He emphasized the necessity of hearty co-operation in marketing and distributing the crop, saying that many failures to realize the best prices were due to this cause.

Among those present were J. M. Rice, state representative for the American Rapid Transit Company; G. P. Turner, general freight agent of the International and Great Northern Railway Company; John Howard, immigration agent of the Southern Pacific, and J. F. Trimble, traveling freight agent of the Iron Mountain.

More delegates are expected here on the night and morning trains. The association stood adjourned until 9 o'clock tomorrow morning.

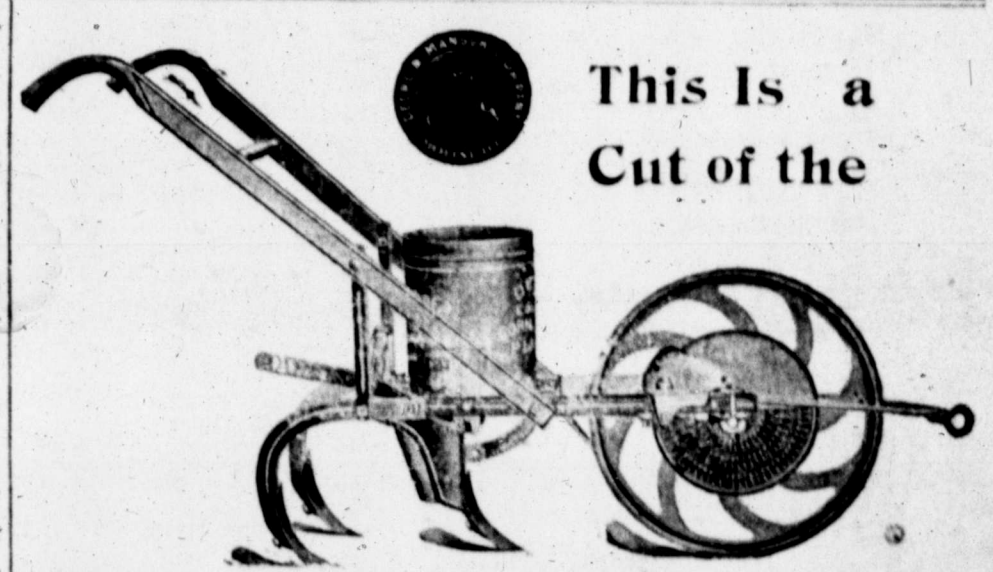

FINISHED THEIR WORK.

The Fruit and Vegetable Growers of East Texas Adjourn to meet at Athens, Texas.

Jacksonville, Texas, March 22.—The East Texas Fruit and Vegetable Association, which has been in session here for the last two days, has adjourned and the delegates are now on their way home. All left loud in their praise for the hospitality of Jacksonville and rejoicing that this meeting had been a success in bringing about a unity of action among the fruit and truck growers of Eastern Texas.

There was a good attendance both days, but the crowd was larger today as it was Saturday, and many farmers from the adjoining country who are largely interested in the fruit and vegetable industry came to town and witnessed the proceedings. It was the first meeting of the kind that the majority had ever attended, but it will not be the last, for the interest taken shows unmistakably that this is a permanent organization. A charter is being prepared with a view of incorporating under the laws of the state. At first some of the delegates were slow in joining, as they knew nothing of such an organization and were afraid to tie themselves to something they did not understand, but when they became acquainted with its object and purposes they had their names enrolled as members.

Five additional local organizations joined today, making a total membership of forty-nine. Besides these there

Palestine was chosen general attorney whose duty will be to advise the association on all legal matters and look after claims against railroads and commission houses. In the afternoon the association went into executive session, all not delegates being excluded, after which several talks were made on the different branches of the fruit and vegetable industry, but the absence of speech-making has caused considerable comment among the spectators which is evidence that the association does not care to hear windy speeches.

From the report of the delegates the outlook for the crop this season is highly satisfactory. Prospects are good for a heavy peach crop, while most of the tomato plants have been transferred from the hotbeds to the cold frames. A few sections complain of a shortage in plants. Several towns were candidates for the next place of meeting, but it was finally determined to meet at Athens on the first Monday in September.

THE PRIMARY ELECTION LAW.

Following is the text of the Texas primary election law, passed by the Twenty-Fourth Legislature:

Section 1. Any person voting at any primary election called and held by authority of any political party for the purpose of nominating candidates of such political party for any public office who is not qualified to vote at the next state, county or municipal election, or who shall vote more than once at the same or different precincts or polls on the same day, or different days in the primary election, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not exceeding \$500, or by imprisonment in the county jail not exceeding sixty days, or by both such fine and imprisonment.

Sec. 2. Any person who shall knowingly procure any illegal vote to be cast at any such primary election shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished as provided in the preceding section.

Sec. 3. Any presiding officer, manager, judge or clerk of any primary election called and held by authority of any political party in this state who shall knowingly make or cause to be made or returned, a false statement of the result of any such primary election shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine not exceeding \$500, or by imprisonment in the county jail not exceeding sixty days, or by both such fine and imprisonment.

Sec. 4. Any presiding officer, judge, clerk or any officer of an election who shall divulge how any person voted at such primary election, from an inspection of the tickets, unless in a judicial investigation, shall be fined in any sum not less than \$100 nor more than \$500.

Sec. 5. If any person shall bribe or offer to bribe any presiding officer, manager, judge or clerk of any primary election called and held by authority of any political party for the purpose of nominating candidates of such political party for public office as a consideration for some act done or omitted, to be done, or to be done or omitted, contrary to his duty in such primary election, shall be punished by fine not exceeding \$500.

Sec. 6. If any person shall bribe or offer to bribe any presiding officer, manager, influencing his vote at any primary election called and held by authority of any political party for the purpose of nominating candidates of such political party for any public office, upon conviction thereof he shall be punished by fine not exceeding \$500.

EX-GOV. HOGG did not escape the cartoonist after all. He has been caricatured to represent almost everything except something in knee breeches, both in the English and American press, since he declined to appear before the king in regulation costume.

HON. S. B. COOPER.

THE SENTINEL is authorized to announce Hon. S. B. Cooper for reelection to congress, subject to the action of the democracy of the Second Congressional district. Mr. Cooper is now serving his fifth term and will be returned to the 58th congress without opposition. His superior ability and influence and his great service to the Southeastern portion of Texas has strengthened him with the people and increased his popularity until it would seem useless, or at least hazardous for any one to oppose him. We cannot undertake to enumerate the many measures that he has successfully introduced in congress for the benefit of Texas and particularly Southeast Texas, but they are numerous and have served to place this section in the front of the march of progress. Whatever may be said of Mr. Cooper, he is loyal to his district and true to his friends. His heart has been in the development of the coast country and he has never let an opportunity slip to get an appropriation for any enterprise that would aid in the advancement of the interests of his district or any portion of it. His success in this particular has endeared him to the people of the greater portion, if not the entire district, and makes his return to congress an absolute certainty.

THE Crumpacker resolution, which provides for the investigation of elections in the South, and which really has as its object the enactment of a federal election law and a revival of the "bloody shirt," will be pushed through Congress by the republicans, if it is possible to do so. It will be fought to the bitter end by the democratic members. But as it is strictly a partisan move on the part of the republicans leading democrats express the opinion that it will strengthen the democratic party as no other influence will. The bone of contention is, as usual, the negro vote, a damnable curse to the South—"a fungus carrying no moral weight, but on the other hand, the occasion of incalculable corruption," in the words of Henry Watterson.

THE friends of Judge Middlebrook are urging him to become a candidate for the democratic nomination for the legislature. The judge hasn't said that he would or that he would not, but it is safe to predict that his name will appear on the ticket. His popularity and his recognized ability and fitness for such a position makes him a most suitable man to oppose the Honorable Benjamin.

GRAPELAND is to have water works soon. We shouldn't be surprised to see that enterprising little city capture the court house of Houston county one of these days.

THE Daily Tribune has made its appearance at Orange, so we see by the papers. We are at a loss to know why friend Rien hasn't declined to appear before the king in regulation costume.

TEACHER VS. PREACHER.

Garrison, Tex., March 20. ED. SENTINEL.
Some days ago I noticed an article or clipping in THE SENTINEL from the Baptist Advance. Since you copy it without comment, I presume you endorse it. The clipping has no heading but begins by asking what have the school teachers of East Texas been doing for the last half century. The writer found an East Texas town with ruin, decay bats and sand, and proceeded to find the cause, and proceeds to charge the entire matter to the school teacher, who must be "woefully incompetent or criminally negligent." Without replying at length will say that the progress made by teachers of schools compares favorably with that made by preachers. I say the mental training which is the teachers work mainly, surpasses the spiritual condition, which is the preachers work mainly. How does the mental development of the young generation of East Texas compare with the spiritual development? Don't know how it is in your burg, neighbor, but the question is dead easy in these parts.

Now I do not write this because I felt scrappy, but because I dislike to see every ill that besets our progress saddled on the school teacher, whose work under modern ideas or notions is very difficult.

ONE OF THE INCOMPETENTS.

Our Garrison correspondent lands a "solar plexus" at the bat roost commonly called the Nacogdoches University building, as well as the lethargy of our people in school affairs. But still, the experience of this writer leads him to believe that there is something wrong in the system of teaching. For instance, we have three fourteen year old boys around our fireside. Two of them have been in school most of the time since they were seven years old. The third has not been in school for more than a year, and has worked in a printing office most of the time for three years. Now, we recently asked the three boys the question, "who was Jeff Davis?" and to our surprise both the school boys declared they had never heard of Jeff Davis, while the printer boy promptly and correctly answered the question. Just think of a fourteen year old school boy never having heard of Jeff Davis! We do not wish to start a row with the school teachers, nor do we wish to defend the Advance in its strictures upon the teacher, but merely wish to say that these things are what led us to copy the article in question without comment. We cannot say that we endorse the language of the Advance but it struck us as having a good deal of truth in it.

IT is believed that Prince Edwards, the negro who murdered John Gray Foster near Shreveport last year, has been captured in Mexico. A negro bearing his description was arrested a few days ago in Santa Anna Jilotzingo. The Shreveport authorities were at once notified and necessary steps have been taken to have the suspect extradited. The Shreveport Times says there is every reason to believe the captive this time is the real Prince Edwards.

PRINCE HENRY'S COMPLIMENT.

Prince Henry is an adept in the art of flattery as well as diplomacy. He has put the whole nation at his feet by such expressions as the following: "The people are inspiring, if I may judge from the glimpses I have had of them. At the opera I saw refinement and culture pictured in the faces; at the luncheon today, genius and energy; but the crowds on the streets impressed me most. Their faces indicate, it seems to me, activity and ambition not dulled by too much contentment, yet not marred by discontent. Is not this the balance that makes your people so happy and so powerful?" The prince is evidently smart enough to find out that there is nothing the people of this nation is more susceptible to than flattery. Yet he has spoken a truth. The United States are a powerful nation because the people—not the opera goers or the guests at elaborate luncheons—because the people are neither satisfied nor discontented. They are a growing people and while they grow will be great. We may heap up wealth mountain high, maintain the biggest navy on the sea, the biggest army on the land and fortify every inch of coast and frontier with impregnable fortifications, but we shall become a feeble folk if the folk cease to grow. And it goes without saying among reasonable people that wealth and big guns alone cannot be translated into terms of flesh and blood and warm manhood.

THE Nacogdoches correspondent to the Houston Post thus estimates the condition of the farmers of Nacogdoches county: "In some localities the farmers are further advanced in preparing their land for this year's crop than they were at this time last year; in other localities they are not. Five per cent more corn will be planted this year, and with the exception of the bottom lands, the planting will be finished this week. Very little old corn on hand in the cribs. Merchants well supplied. No wheat. No pests. Not as many oats planted this year. The crop reported good. Corn for the past three months has been selling at \$1 per bushel."

IN a conversation with Mr. W. B. Wood Monday he said that he was raised near Brundridge, in Pike county, Ala., and that he would be glad if all those farmers back there could know how much better for them this country is than that. "Why," he said, "those farmers could come here and rent land and just lay by the money that they spend for guano back there, and in four years they would have enough saved up to buy them a home of their own. I naturally love my native country—but truly, this is as far ahead of that as the day is ahead of night, and I am glad to see the Bulletin taking such a deep interest in getting the advantages of Shelby county properly before the outside world.—Timpson Bulletin.

AGAIN, we desire to remind the readers of THE DAILY SENTINEL that it is published for the purpose of recording any event that would in the slightest degree interest them, and we feel that each reader should consider him or herself a special reporter. We have a telephone and some one at hand always to answer it. The more you use it, the better we like it. We wish people would not be so modest about sending in little items in which they are personally interested. They might interest others as well, and it would certainly be appreciated by the editor.

JUDGE CLARK and others of this state who want to see Texas without an anti-trust law, hold that a late decision of the supreme court in an Illinois case will apply to Texas, and make nugatory the one upon the statutes of Texas. He and his satellites, said they just wanted half an hour before the supreme court to knock the railroad commission law into a cocked hat. They have had several years, and have done their best to do away with it, but up to date they have failed. Senator Culberson, who is a profound lawyer, says the anti-trust law of this state will stand the test.—Lockhart Register.

THE Texas items in the rivers and harbors bill were passed by the house Friday, acting in committee of the whole. Only one amendment was offered and it was not adopted. It was offered by Representative Cooper, who asked that the amount appropriated for the improvement of the channel through Sabine Lake to deep water be increased from \$79,000 to \$150,000. Mr. Cooper made a strong appeal in favor of his proposition, but the amendment was voted down by a large majority, as have been all others offered so far. The Buffalo bayou project and all of the others in the bill, with the one exception noted, went through without comment.

THE government will probably establish a cotton bulletin station at Nacogdoches soon. The object is to obtain reports as frequent as may be desired as to the condition of the crops, the maximum and minimum temperature, rainfall, etc., covering a radius of 60 miles in each direction from Nacogdoches.

THE discussion of the doctor's bill of the late President McKinley has had the effect of cutting the bill half in two. The three doctors now ask for \$15.00 apiece and \$5,000 for expenses. If they will cut it in two about twice more they will bring the bill down to a reasonable figure.

THE Patrick trial will end next week. Which side are you betting on? It looks bad for Patrick when the prosecution has the floor and vice versa, but those millions backing him will help a whole lot and there is no telling what the end will be.

THE consolidation of the Southern Pacific and the H. E. & W. T. railroad shops at Houston may mean something to the interest of Nacogdoches. We are watching and waiting.

R. W. HALTOM, Editor.

DR. E. A. BLOUNT, of Dallas, has been appointed secretary of the Medical Committee of the Texas Reunion association.

NEXT Sunday will be Easter Sunday. If we can escape a blizzard for one more week the fruit and vegetable crops will be assured.

THERE are over two hundred acres planted in beans along the line of the H. E. & W. T. Ry, this year, with the view to shipping to foreign markets.

A BOX factory has been completed at Tyler and will begin operation at once in order to supply the fruit and truck growers of Smith county during the shipping season.

THE cholera has broken out in Manila. There were fifteen deaths and sixteen new cases among the natives reported in two day last week. The disease seems to exist chiefly among the natives.

FREQUENT complaint comes from subscribers to the DAILY SENTINEL who get the paper by mail, that they come two or three at a time at intervals of several days. This fault is not with this office, as the paper is mailed promptly every day. They simply accumulate in transit.

ATTENTION, CONFEDERATE VETERANS.

The following letter from Hon. James W. Truit, of Shelby county, explains itself, and is of interest to all who wish to attend the great Reunion at Dallas:

Tenaha, March 25.
R. W. HALTOM:

I am making up a party for the Dallas Reunion of old Confederates, to go via Houston, thence over Texas Central railroad into Dallas. To leave Nacogdoches about 4 a. m. April 21st, on through special excursion train, scheduled to reach Dallas at 6:30 that evening, at \$4.85 for round trip, everything to be first-class.

Now, can you give me an idea of how many I can get to go with me on such terms, from Nacogdoches town and from Nacogdoches county?

I want a big crowd from over there, including your camp of veterans and yourself, to join the Shelby county contingent of fair women and brave men, and go up to the Reunion together, feeling sure that we can have a great, grand time among the heroes of 1861-5, and the mighty throng who will be assembled in the central city of Dallas. Give me your idea about it, and if there be any prospect of accomplishing such a plan, I will run over and work it up. Write at once, as we are to have a meeting of old veterans in Center next Saturday.

JAMES W. TRUIT.
All those interested will

please leave their names at THE SENTINEL office, or with ex-Adjutant G. B. Crain, or see Adjutant Jno. S. Dough-tie. This will be a splendid opportunity for a cheap rate and a most pleasurable excursion. Don't delay giving in your name, as it will be necessary in advance to get an idea of what the excursion will amount to in order to prepare for its accommodation.

It is a little too early to brag yet, but the prospects do look very favorable for crops in East Texas just at present.

Dallas is making preparations to entertain the largest crowd ever assembled in Texas at the Confederate Reunion in that city April 22-25. Great crowds are coming from every Southern State.

THERE has been an over abundance of rain throughout East Texas the past week and farmers are being delayed with their crops. The last two rains have damaged the farms greatly by washouts and destruction to fences in places.

HON. RHO GARRISON has positively and emphatically declined to enter the race for Representative. He says it requires more of a sacrifice than he is able to make and his closest friends have advised him against taking the step. He has had sufficient encouragement to lead him to feel assured he could get the nomination but he respectfully declines.

THE Nacogdoches County Teachers Institute should have met in this city last Saturday, but as not a single teacher outside of those of the city were present no session was held. The work was designed for the whole county. Why should not all teachers take a part? These institutes could be made of great value to all concerned if the proper interest could be aroused. Let us hope that he next meeting will be more successful.

POLITICIANS in England are copying after the American Congressman. A short time back there was a "scene" in the United States Senate, the result of Tillman calling McLaurin a liar. A similar scene has been enacted in the British parliament, John Dillon, the Irish Nationalist, calling Chamberlain, the Colonial Secretary a "damned liar." There wasn't any noses mashed.

THERE seems to be no doubt that the negro murderer Prince Edwards is under arrest in Mexico, but there is great uneasiness that he will be released before the necessary papers can be made out for his extradition. The treaty with Mexico provides that only forty days shall elapse before persons arrested for crime be released unless the extradition papers, properly made out and authenticated, shall be received at the place of incarceration. Nearly two thirds of the time had elapsed before the interested parties in Louisiana were informed of Edward's capture.

The Woodmen of the World had a good meeting last night and a large attendance. One new Sovereign was taken under the protection of the J. W. Law, of the Appleby Camp. Sovereigns John

Black Jack Budget.

A Newsy Letter from Our Regular Correspondent.

Attoyac, March 23.—Candidates are now abroad in the land. Several were circulating among their friends here during the past week.

Mr. Walter Thurston has been manipulating the yard stick at J. M. Fuller's store during Mr. Fuller's absence at Nacogdoches.

Mr. Ed Stephens came near losing his residence by fire Tuesday morning. A spark from the kitchen flue set the roof and all that saved the building from being consigned to a pile of ashes was the timely aid of the people who came to the rescue. The top of the stove room was burned off and as the roof was old it was hard work to get the fire under control, which was done by tearing off the roof of the ell room and part of the main building. Carpenters are at work putting on a new roof.

Your correspondent has been informed that two former Nacogdoches county citizens, but now residents of Center, Shelby county, Dr. and Mrs. E. E. Leak, with their little daughter Neala, were over on a visit recently to Mrs. Leak's parents, Mr. and Mrs. John Pleasant.

Mr. J. F. Summers, a popular candidate for county treasurer was here Friday. Mr. Summers is a strictly business man and our people are highly impressed with him.

Professor and Mrs. Ivy

Hargis, of Fairview, spent one night last week with Ivy's parents near here, also one night with Mrs. Hargis' parents, Capt. and Mrs. H. A. Hargis.

Miss Elvie Hargis who has been making her home at her brother Ivy's for the past several months, has returned home to the delight of her many friends.

Mrs. Dillard has gone to visit her daughters, Mesdames Murphy and King, in the Nat neighborhood.

The familiar face of our old friend Mr. J. F. Pleasant was seen upon our streets last Friday. Uncle John, as he is generally called, has been in bad health for the past three or four months, but I am glad to note he is greatly improved and will be his old self ere long.

I observe the announcement of a former Black Jackian, Mr. John Balch, as a candidate for constable, beat No. 1. He has the best wishes of our entire population for a successful race.

As I pin these lines the rain is descending and the roar of thunder sounds doleful, especially to the man who has low bottom land.

One of Mr. Will Perrett's children is sick with pneumonia.

Our Sunday school, under the supervision of Mr. Jim Stephens, is progressing finely.

The dusky sons of Ham seem to enjoy the Saturday afternoons in landing the finny tribe from their watery habi-

tation onto terra firma.

The rainfall has been abundant for the past week or two.

Our new postoffice has been delayed in construction on account of lumber, but will soon be completed.

The road leading out from here to Nacogdoches is almost impassible. The supervisor had a bad time "riding over it," if he actually undertook the job. He surely reported it out of repair and the overseer will undoubtedly have to give an account or cause why the road has been improved.

If it is the lack of hands, more hands should be apportioned: if tools, they should be furnished. We want commissioners who will take some interest in our roads as well as bridges. Of course there is \$3 for letting and \$3 for receiving a bridge, while there is only \$3 per diem for inspecting roads. Yet the commissioners should not work altogether for their own pecuniary interest, but for the welfare of their constituents and the public generally. We need good roads and must have them if a tax has to be levied for that purpose.

DOINGS AT DOUGLASS.

Items of Interest, Local, Personal, Social and General.

They come—the cheery spring months of beauty, song and flowers.

Friday night the hospitable home of Dr. and Mrs. R. E. Wilson was thrown open for the entertainment of the young people. The most interest-

ing feature of the occasion was a game known as "this is a solemn affair."

Mr. Len Stripling says "everybody has a sweetheart but me."

Sunday was the "wettest" day we've had in months. The winds blew, the rain descended, the brooks swelled and the ponds overflowed. However, one man was seen wending his way up East street.

"This is the love that comes to stay.

All other love is fleeting. And when it comes just turn away.

"For it is but Cupid's cheating."

Owing to the inclemency of the weather we had no services at the church Sunday. Bro. Hudson came down Saturday evening and returned Sunday. We were sorry to miss the sermon. He was to have preached for us.

Mr. Willie Watkins visited home folks Saturday night.

Mr. L. W. Raney visited his parents at Lillert Saturday night.

Saturday Prof. Mullens visited his wife, who is now teaching at Linn Flat. In consequence of the heavy rain did not get back until Monday.

Mr. J. J. Watkins spent the latter part of last week in Nacogdoches in attendance at court and returned again Monday.

Miss Edith Summers spent several days at Douglass last week, the guest of her sister, Mrs. Belle Wallace.

Mrs. Mary Legg, of Eden, is suffering with lagrippe. We hope for her speedy recovery.

covery.

Saturday night drowsy sleepers were awakened by exquisite strains of music rendered by serenaders. How great is the power of music. This, in ones half sleep and half waking moments, had the power to make all the world appear in rhythm and all life in rhyme.

Mr. J. E. Harrell and family have moved to Nacogdoches. Misses Neval and Evie will be greatly missed in all our circles, especially Sunday school and singing.

The New Schedule.

The new schedule on the H. E. & W. T. Railroad that went into effect yesterday changes the time of the arrival of the trains at Nacogdoches about 45 minutes earlier going west and 30 minutes earlier going east. In other words the east bound gets in at 3:20 and the west bound arrives at 12:27. The mixed trains from this date on will carry express matter. The 12:27 train stops here for dinner. The mixed trains will continue to meet at Lutkin.

L. S. Fox, of Denning, is in the city.

B. K. King, of Douglass, is in the city.

Sheriff John Matthews of San Augustine, was in the city today.

Thad Floyd returned home yesterday from Mincola, where he has been working for Z. F. Mize in the laundry business. He says he will not go back as it is too far from home.

A large number of our Garrison friends are attending district court.

J. P. Coon, of Appleby, was in the city this morning and was a pleasant caller at this office.

J. F. Donegan and daughter, of Linn Flat, were in the city on a shopping tour this morning.

E. L. Ruark, of Mt. Enterprise, was in the city last night. He reports Uncle Billy King seriously sick.

Mr. Hammond Scott, of Long Leaf, San Augustine County, was in Nacogdoches today on a trading trip.

Joe Miller, Tom Roberts, and Tobe Albritton, of San Augustine county, were in the city on a trading trip today.

H. A. Beckham of Melrose, was here this morning. He says too much rain is delaying the farmers in their work in his section of the county.

J. O. Martin, of Martinsville, is one of the jurymen for this week. Mr. Martin says there is an inclination among some of the populists to affiliate again with the democratic party, but that few of them will enter the primaries. Most of them would not participate in the democratic primaries even if the test did not keep them out. He does not think there will be a populist ticket in the field this year.

Nacogdoches Truck Growers.

While at Nacogdoches last week, Mr. Robt. Lindsey, the real estate rustler and secretary of the Fruit and Truck growers' association took the Journal man and Mr. Sam H. Dixon out to the hot beds and cold frames that were put in by the association for this season's crop. It was a pleasure to look at them. Mr. J. C. Sharp, of Craft, was employed by the association to superintend the work and instruct the growers as to best methods of cultivation, and the work he has done proves beyond a doubt that he knows his business, and the association was fortunate in securing his services. They have a sufficient number of hot beds to furnish plants for several hundred acres.

The association is pledged for 300 acres and the Merchants Auxiliary are planting 50 acres more and already had their plants in the cold frames, March 4th.

Mr. Sharp said that he had delivered 256,000 plants in 3 days to members who were buying them from the hot beds, and would put them in their own cold frames, and that he could hardly wait on them fast enough.

Several farmers who were not members had recently developed tomato symptoms and were wanting plants which could not be furnished them until the members had first been supplied.

These Nacogdoches people have gone after the business in a business way and will succeed if success is possible.

We sincerely trust that their most sanguine expectations will be realized, and that we will have the pleasure of being with them again.—East Texas Truck Journal.

THE court of appeals at Dallas has rendered a decision in favor of Col. B. S. Wettermark in a case involving about sixteen thousand dollars. This case has been pending about four years and has been warmly contested on both sides. Messrs. Blount & Garrison are Col. Wettermark's lawyers, assisted by ex-Attorney General M. M. Crane. The recent decision, while made on a technicality is regarded as final, and will end one of the bitterest legal controversies ever started from the district court of Nacogdoches county.

THE four doctors that attended President McKinley from the time he was wounded until his death will, it is said, present a bill to Congress for \$100,000 for their services. If they had been successful in saving his life, in which case Mr. McKinley would have been here to pay his own doctor's bill, it is probable that the bills would not have aggregated very much more than the hundredth part of what Congress will be asked to pay. This is worse than vandalism, and congress should promptly sit down upon such an attempt to rob the Government.

THE CRUMPACKER RESOLUTION.

The news from Washington that the republicans have determined to press the Crumpacker resolution to investigate Southern election laws and support it as a party measure will be received with sincere regret throughout the South.

The regret does not arise from fear of loss of representation or any deprivation of the right of self-government that might be attempted by force bills conceived in the same spirit as the Crumpacker resolution. The south has never shown fear at any contest with the north of any sort. The regret comes sincerely and solemnly from the ruthless revival of sectionalism which we had buried.

The southern states have been doing their part in contributing to the support of the Federal government and the general welfare of the United States. Freely have they given men and money for every national need. In good faith we have cultivated a national sentiment among our people and an affection for our common country.

But the sovereignty of the southern states as to their election laws undoubtedly exists as entirely as when the immortal Declaration of Independence declared the colonies to be free and independent states.

If the southern election laws are unconstitutional, it is for the supreme court and not for congress to so declare. If congress usurps judicial functions and declares the southern election laws unconstitutional and proceeds to inflict this or that punishment on the South, be the punishment light or heavy, the action will be unconstitutional and tyrannical, and the southern states will find a way to defeat and nullify the attempt, and the consequence will be a renewal of sectional strife with all the ill feeling and injury to national and material development that strife engenders. The southern states know their requirements as only experience can teach. They have wrought out in sore travail and self-punishment the greatest problem of sociology that ever confronted civilization, and they will not now tamely submit to having their solution upset and their present domestic peace destroyed.

If the Crumpacker resolution is honest, it aims ultimately to fashion some sort of coercion upon the results of the proposed investigation, and that coercion will meet with evasion or defiance that will preserve southern integrity at the expense of all the good feeling now prevailing. If the resolution is not honest, but is a mere subterfuge for creating an issue to save the republican party from threatened defeat on its record of imperialism and trust collusion, it will nevertheless excite southern antipathy. From either view it is a mischievous measure which the remnant of statesmanship and patriotism in the republican party ought to prevent.—Houston Post.

NACOGDOCHES FIELD.

Operators are Beginning Work in that Section.

Beaumont, Tex., March 19.—Mr. S. J. Thompson of Nacogdoches is in the city to-day. Mr. Thompson is a well contractor and is now drilling in the oil fields 16 miles southeast of Nacogdoches. Speaking of the prospects for a valuable oil field at Nacogdoches to a party of oil men this afternoon, Mr. Thompson said: "Nacogdoches is probably the oldest oil field in Texas. Two wells that have been in existence 14 years are still flowing oil, though not in paying quantities. These two wells are shallow, but it can be truthfully stated that they flow oil. The oil is of a fine lubricating grade and contains about 50 per cent illuminating oil.

"There are about six rigs now operating in this field and it is understood that John H. Kirby's Company is going to put four additional rigs in the field right away, and that their confidence is so well founded in the Nacogdoches oil fields that they propose putting in a pipe line and pumping station on the Texas and New Orleans Railway, seven miles from where they will be drilling."

Mr. Thompson says there is considerable gas pressure encountered in drilling in the Nacogdoches field at a depth of 120 feet, and that at 800 feet a large vein of oil and water was drilled into at the same time, the water finally drowning out the oil flow. The water coming from the well is very hot and contains a large per cent of soda, settlements of which are plainly visible on the ground where the water falls after it has dried off. Mr. Thompson says leases are hard to get around Nacogdoches unless the lessor agrees to begin operations within a very short period after the lease is signed. Nacogdoches is about 125 miles north of Beaumont.—Galveston News.

THE democrats of Cherokee county are asking the executive committee to postpone the primaries a week in order that the Confederate veterans may attend the reunion at Dallas and get back in time to vote, the date of the primaries conflicting with the date for the reunion.

Murder in First Degree.

The grand jury returned an indictment against Joe Bug Roquemore charging him with murder in the first degree. It will be remembered that the Rev. Stewart, a colored preacher, died recently, his death supposed to be the result of a lick on the head with a stick in the hands of the accused, for which he was arrested and gave bond for his appearance before the grand jury. The indictment for murder in the first degree was a surprise to everyone. Roquemore was arrested yesterday and upon habeas corpus trial waived examination and was admitted to bail in the sum of one thousand dollars. He promptly gave his recognizance, with John Schmidt, T. E. Baker and R. T. Shindler as sureties.

Would Smash the Club.

If members of the "Hay Fever Association" would use Dr. King's New Discovery for Consumption the club would go to pieces, for it always cures this malady, and Asthma, the kind that baffles the doctors it wholly drives from the system. Thousands of once-hopeless sufferers from Consumption, Pneumonia, Bronchitis owe their lives and health to it. It conquers Grip, saves little ones from Croup and Whooping Cough and is positively guaranteed for all Throat and Lung troubles, 50c, \$1.00. Trial bottles free at R. T. Shindler drug store.

Fatally Burned.

The Tribune learns with regret of the sad accident that occurred Tuesday at the home of Mr. and Mrs. Chas. Parter, near Huntington. In getting too near the fire the clothing of their little child was ignited and the little one was so badly burned that death resulted in a few hours.

This is their second child to meet a similar death and the parents are naturally almost prostrated with grief over the sad accident.—Lufkin Tribune.

A reasonably dry spring season is very much to be desired by the tomato and fruit shippers of East Texas. If the weather is favorable during the growing and marketing period we will have little trouble in shipping to any point in the United States, but if there is too much rain, produce will not carry satisfactorily to distant points, and we will be compelled to find markets near home.—Jacksonville Banner.

The streets of Nacogdoches are seldom seen in a muddier condition than they are right now. The sidewalks and crossings adjacent to the new buildings now going up and in contemplation are especially bad.

The railroad company is having the dump removed from West Main street and the dirt is being hauled to the crossing on North street, which is being leveled up as it was before it was graded down. This doesn't look much like the road was going to run over the original route.

Married last Thursday at 1:15 at her residence in Rusk, Mrs. R. E. Lee and Mr. Ben Legett of Mexico. They left on the evening train for Nacogdoches County to see relatives. General manager F. B. Goodrich, of the H. E. & W. T. Ry Co., was in the city yesterday shaking hands with friends. He didn't tell us though what was going to be done with those consolidated railroad shops, nor settle the question as to whether the T. & N. O. was going to run over the original line graded through Nacogdoches. There are all sorts of rumors afloat about these things, but no body has been able to tell us what the outcome will be.

The largest stock of family groceries is town. Call and see us.

Wilson, Grimes & Co.

Mr. H. D. Garrison who is now making headquarters at Jacksonville, has been in the city several days on a visit to his family. Mr. Garrison says work is being pushed as rapidly as possible on the grade of the T. & N. O. but that he thinks it will require the full limit of time to complete the gap between here and Jacksonville. It will take until November to complete the grade between here and the Angelina river. The grade on the uncompleted section is exceedingly heavy and the work will necessarily be slow.

A new trial was granted Mrs. Lucetta Wade who was recently adjudged of unsound mind, and the trial consumed the entire day yesterday, resulting in affirming the former judgment.
