BLACK JACK.

Local Happenings of Interest as Reported by The Sentinel's Special Correspondent.

Attoyac, June, 8 1902.—It seems that the death angel is making his visits in our vicinity quite frequent of late. It becomes my painful duty this time to announce the death of one of Black Jack's bright girls, Miss Emma, daughter of Mr. W. B. Cade, aged about 20 years. The unfortunate young lady retired Friday night in good health and was taken with hemorrhages during the night and was a corpse by 11 o'clock Saturday. The bereaved parents and friends have the sympathy of the entire community. She was buried this evening in the Black Jack cemetery, her interment being witnessed by quite a concourse of sorrowing relatives and friends.

Miss Ethel Fuller, who has been attending the state normal at Huntsville for the past several months has returned, to the delight of her many friends. She was met at Nacogdoches by her father, Mr. J. M. Fuller.

Miss Lillie Speights has gone to Ruston, La., to attend the summer normal at that place. Miss Speights is in the Logansport school, and the state requires all Louisiana teachers in that state to attend the normals. She will return at the end of the month and remain here until she enters upon her duties in the Logansport school.

Mr. Robert Seale is on the sick list. He is having fever.

Mr. Mat Bentley is reported sick as having fever.

Mr. Charlie Cade, of Burkeville, Texas, spent a few days the past week with his brothers, W. B. and Thomas Cade, and sister Mrs. Wood. Mr. Cade is a prominent merchant at Burkeville. This is the first visit Mr. Cade had paid his relatives here; they had not met in twenty years.

Prof. and Mrs. Will Blackshear are visiting Mrs. Blackshear's mother, Mrs. A. P. Stephens at Jacksonville. Prof. Blackshear and wife are teachers in the Jasper College.

Mrs. Alice Barrett and children passed through our berg last Tuesday enroute to Center where her husband has been preparing a home for them. Center is to be congratulated on securing this excellent family as citizens.

Mr. Bob Balch was running his mule in the old Kelly field last Tuesday, when the mule stepped in a hole, throwing the animal down. It fell on Mr. Balch with almost fatal results. He was knocked senseless and remained in that condition for 30 minutes. He is all right now but is somewhat disabitated.

The Black Jack Boys indulged in a game of Base Ball Saturday evening. They have it in their heads they can play the Nacogdoches team.

The citizens of Black Jack vicinity will give a picnic on the 4th day of July. Several prominent speakers will be present to address the crowd. Every body is invited to attend. Judge Middlebrook has a special invitation to address the assembly on the laudable subject, "Independence day." The Nacogdoches cornet band are invited to come out and bring their instruments, and partake in the hospitalities of the Black Jack people.

Camp Raguet.

Camp Raguet of the U. C. V. of Nacogdoches county will meet Saturday the 14th of June, 1902, at 1 o'clock in the court house in the town of Nacogdoches. This is an important meeting, and all comrades are urgently requested to be in attendance.

THE CARRAWAY CASE.

Swift Justice Overtakes A Wicked Women.

The sensational death of W. V. Carraway, which occurred at Dumas, the county site of Moore county on April 27th, has created no little surprise and interest in Nacogdoches, where the family once resided. The following account of the terrible affair was sent out in the associated press reports:

Dumas, Texas, June 7.—At the June term of the district court for Moore county Mrs. Sarah Inez Carraway was sentenced to life imprisonment in the penitentiary for the murder of her husband, W. V. Carraway, on April 27, 1902. She confessed to having put strychnine in a medicine which her husband was taking (a heart tonic). Her confession was made on May 28 and the grand jury returned an indictment against her for murder in first degree on June 4 and having waived all rights allowed her, she was arraigned, tried, convicted and sentenced on June 5 by District Judge H. H. Wallace, she having entered a plea of guilty. W. V. Carraway was a traveling man, representing the J. S. Campbell Lumber company of Houston, and moved here from Belton, Texas, two years ago and settled on four sections of school land, one mile from Dumas. They have six children, the eldest being 17 and the youngest 5 years of age. They seem to have had no property, except the four sections of school land.

Yesterday evening physicians were hastily summoned to Mr. Dick Hall's little girl, Edith, who had been found lying unconscious under the house. The horse was grazing near, and the opinion was that the horse had kicked her. After being restored to consciousness, the little one went to sleep, and on waking up said the horse had kicked her. She is too much of a baby to tell any more as to how it happened, but she appears not to be seriously injured.

THE DOLL'S FLOWER PARADE.

The Children Deserve Praise For Their Creditable Display.

Knowing the children of Nacogdoches as we do, we expected to see a pretty procession, for they succeed in everything they undertake, but we were really astonished at the result of their efforts. Their flower parade, for daintty beauty, artistic design and for the careful work evident, would have been applauded anywhere. It was the prettiest procession that ever passed through Nacogdoches, no apologies to the Karnival either, for it looked like the Karnival procession looked at through the large end of the opera glasses, with fairies for horses, and everyone knows that fairies are prettier than horses. The following order was observed:

1st. The queen's float, which was snow white, arches meeting over the Queen's head all covered with white chrysanthemums. The queen, Bernice Mims' doll, was very haughty. She was undisturbed by the plaudits that greeted her, but did not deign to notice by a glance the homage of her loyal subjects. Her regal beauty excused everything however.

Queen—Bernice Mims' doll, all white; drawn by Roy Bogger and Ellis Weeks.

Addie Woodall, pink and white.

Tannie Stinson, pink.

The procession, with the prize winners, marched a second time through town and disbanded at the opera house corner. The little victors, each went to the store giving her the prize and triumphantly received it. The children really each deserved a prize, and the judges task was a difficult one.

THE Plaindealer unloaded a heavy instalment of "contemptible stuff" yesterday.

EVERY car of tomatoes that now goes out from the depot means a clean thousand dollars to Nacogdoches at present prices.

An election has been ordered to be held on July 5th for the purpose of voting upon the proposition to issue \$32,500 school bonds for the Nacogdoches Independent district. It is now in order to discuss the issue. We must do something to improve our school conditions and this seems to be most feasible course to pursue.

The Nacogdoches daily papers have been so busy telling of the big success of the Karnival that they have not yet discovered that Lufkin shipped a car of tomatoes a week ahead of that burg.—Lufkin Tribune.

Oh, yes we did. But we have been too busy shipping tomatoes to think about it since.

From the reports we get the Nacogdoches Karnival was a grand success. Many of our people attended and all came away delighted. While the town can congratulate itself upon its success it should not be forgotten that the papers there deserve a full share of the credit. Aside from the pleasant times enjoyed it will be of incalculable value to the town by way of advertising its important industries.—Garrison Signal.

The East Texas Press association will be held in Lufkin on June 20th and 21st inst. It is hoped all the quill drivers east of the Brazos river will be there to enjoy the splendid programme that enterprising city will have arranged for their entertainment.—Nacogdoches Sentinel.

Lufkin is going to kill the fatted calf for the above occasion and turn the whole thing over to the pencil pushers with the famous Trib band, the best musical organization between Key West and Kalamazoo, thrown in to lead the procession.—Lufkin Tribune

J. C. MILLER, of the firm of G. H. Miller & Son, nurserymen, of Rome, Ga., is now making a tour through East Texas, with the view to establishing some extensive orchards here. He spent several days in Nacogdoches and left Wednesday for Jacksonville. He authorized Mr. Monzingo while here to lease lands to carry out his intentions, and proposes to plant the trees and go halves with all who will furnish the land, lands orchard and all reverting back to the owner of the lands at the expiration of fifteen years. Mr. Miller was very favorably impressed with Nacogdoches and Nacogdoches county and realizes that the fruit industry will in a short time be a leading feature in our commerce. Hence his desire to get an interest here.

BOLL WEEVIL "MEDICINE"

A deluge of correspondence has flooded H. B. Richards, of La Grange, Tex., who recently promulgated a remedy for the boll weevil pest. In reply to the letters he says:

"The destruction of the boll weevil by the use of mineral paint has passed the experimental stage with those of us who have been testing the matter, and is recognized by as an incontestable fact. It kills them by contact only; that is, it is only necessary for a small quantity of it, either wet or dry, to get on their feet and legs and they invariably die in about ten hours. Now, it is possible that in the vain effort to get it off their legs, they get it in their mouths and are poisoned thereby. That I do not feel able to decide. I only know that it never fails to kill and that is sufficient for my purpose.

"Now, it is impossible for a weevil to alight or to crawl on the leaves of a cotton plant that is properly dusted with oxide without getting more or less of it on his feet, and then his doom is sealed. Let any one who doubts try it for himself. Dust a cotton leaf (moist with dew) with oxide of iron, then place one or a dozen healthy weevils gently on a leaf, let them crawl around for, say half a minute, then quietly remove them to a small box well perforated to give them air, and watch the result. Any good dry poison distributing machine will put the powder on rapidly and evenly. Always put it on when the leaves are damp with dew or after a rain.

"An ordinary rain will not wash it off. Use about fifteen to twenty-five pounds to the acre; you can't use too much. I is perfectly harmless to man or beast, is a fertilizer for the land and a stimulant to the plant's growth.

"The dew dissolves the powder every night, thus putting it in good condition to fasten into the feet of any insect that touches it. I believe that cotton well dosed with the oxide is fully insured against weevil for three weeks, when the operation should be repeated, and still repeated again until the plant contains as much fruit as you want on it."

THE Louisiana State Medical Association has closed its annual session at Shreveport. New Orleans was chosen as the place for the next annual meeting.

Saved From an Awful Fate.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa. "I was so low after six months of severe sickness, caused by hay fever and asthma, that few thought I could get well, but I learned of the marvelous merit of Dr King's New Discovery for consumption, used it, and was completely cured." For desperate throat and lung diseases it is the safest cure in the world, and it is infallible for coughs, colds and bronchial affections. Guaranteed bottles 50c and \$1. Trial bottles free at Stripling, Hazelwood & Co.

THE KARNIVAL

Nacogdoches, at the head of navigation on the T. & N. O., is pulling off a Karnival of Kommerce, what ever it is, and excursions are advertised. All that is necessary to attract a crowd is to get up an excursion, toot a brass horn and the gang will start. The old town of Nacogdoches is rich in history and tradition, if not in sentiment. Around it cluster the shades of illustrious dead, heroes of the early days, when all Texas was a howling wilderness; in fact, the town was once "Texas," and has witnessed many stirring scenes. The descendants of many of the early notables are still living there. The historical old Stone Fort has been razed to the ground, but the spirits of Rusk, Houston, and Edwards are still marching on—Kountz Texas News.

The editor of the News missed the event of his life. Every body was here but him. He must be sure to attend our next Karnival of Kommerce and learn what it is. He is the first person we ever heard of that wouldn't come when the horn tooted, especially when there was an excursion on.

LITTLE GIRL BURNED TO DEATH.

Terrible Results of a Coal Oil Accident.

The terrible news of the death of the little girl, Jimmie, aged nine years, daughter of Mr. and Mrs. Warner Linthicum, of Appleby, was received over the telephone early this morning by City Marshal Mat Spradley. Mrs. Spradley, who is a sister of Mr. Linthicum, and her mother left immediately by private conveyance for Appleby. The death of the little girl is the result of a coal oil can explosion.

About 6 o'clock yesterday day evening she went to the kitchen to kindle a fire in the stove and in pouring oil on the fuel the can exploded, setting her clothing on fire and burning her so badly that she died at 12 o'clock last night. In the effort to save the child her mother was severely burned about the arm, and in the excitement the stove room, which also caught fire, was neglected until it was beyond control, and their home and its entire contents were soon reduced to ashes.

Mr. and Mrs. Linthicum

have many friends in Nacogdoches who sincerely sympathize with them in their terrible misfortune.

MEETING OF SCHOOL BOARD.

Superintendent and Teachers Elected for Ensuing Term.

The School Board for Nacogdoches Independent District No. 3 met yesterday afternoon and elected the following officers and teachers:

R. F. Davis, Superintendent.

F. P. Marshall, Principal Nacogdoches High School; Miss Lizzie Wright, teacher intermediate grades.

West Nacogdoches Institute, Miss Zillah Langley, intermediate teacher; Miss Mary Elkins, primary teacher.

This leaves several vacancies yet to be filled, among them the principal of West Nacogdoches Institute.

As far as the positions have been filled, the trustees could not have selected a more efficient corps of teachers. All have taught in Nacogdoches for years, are known to be both capable and popular, and we feel assured in saying we will have a successful year in both our schools.

"Soon They Will Marry."

Invitations are now out to the marriage of Miss Dora McConico of this city, to Mr. Edgar Wade of Nacogdoches. The event will take place at the Baptist church in Lutkin Wednesday evening, June 11. —Lutkin Tribune.

Our worthy townsman is to be congratulated. He has won a priceless gem, a jewel of inestimable value, a life companion that will be an honor to him. May the sunshine of happiness and prosperity ever attend them.

Another Historical Building Gone.

The first market building that was ever put up in Nacogdoches, is being torn away this morning to make room for tee march of progress, otherwise the Blount and Schmidt buildings to be put on the lot it occupies. When Charley Pressler built it twenty-four years ago, the butcher business was so small that it took three days to sell half a yearling, forcing Mr. Pressler to quit that enterprise; now Nacogdoches has expanded till one man can eat half a yearling.

Nacogdoches 6, Lake Charles 12.

Yesterday was an off day for both teams, with Nacogdoches the furthest off. Mooney umpired the first half and Partin the second half of the game. Werner made a home run, knocking the ball into center field, and that's about all the Balm there is in Gilead this time.

Shreveport plays here Tuesday, Wednesday and Thursday of next week. This is a fine amateur team and the series is sure to be interesting.

Mr. and Mrs. Cage have the best wishes and congratulations of their many friends in this place. They will make their home in San Augustine.

The First Watermelon.

Friday's Daily.

Mr. J. M. Jones broke the record for early watermelons this morning. He brought in the first one for this season. It was raised on his farm four miles south from town and weighed 22 pounds. Mr. Jones sold the melon to a negro working on the Perkins building for 50 cents.

Last Friday the first carload of tomatoes from Shelby county passed through Logansport en route to the big markets. The car was loaded between Tenaha and Joaquin, and those who are in position to know, say that the fruit is as fine as can be raised anywhere. This new industry will be of incalculable benefit to that section of Shelby county and this first shipment is the advance guard of greater shipments later on. —Logansport Journal.

To Kill the Bugs.

ED. SENTINEL:

Please publish in THE SENTINEL for the benefit of the truck farmers of your section, the following remedy for tomato and potato bugs, which is vouched for by an experienced truck grower formerly of Mississippi:

Boil walnut leaves in water to a strong ooze; when cold spray vines freely with the ooze, it will kill the bugs and not hurt the tomatoes or potatoes.

The reason why I send this is because I saw in a late SENTINEL that the bugs are damaging the tomato and potato growers there, and I want to give my old friends the benefit of this information.

Keep Well

Blood and iron have really been inseparable since the Creation, and when in perfect harmony mean perfect health and strength. Dr. Harter's Iron Tonic is calculated to preserve this harmony, supplying the blood with iron in proper form and proportion. Iron has always been used as a blood tonic, but it remained for Dr. Harter to discover and perfect a combination of iron and other tonic ingredients. A trial of half a century has proven that Dr. Harter's Iron Tonic is a perfect blood purifier. Most of the ill we are heir to come from impure or impoverished blood. The blood carries necessary supplies to every part of the body. If it fails to do so, some part of the bodily machine will lag. Lagging means sickness. Don't permit lagging. Don't wait until you are down sick. Use

Dr. Harter's Iron Tonic

and keep well. It is a scientific compound (not a "rule," "shake-well-before-using" mixture) of iron with other tonic ingredients—a perfect blood purifier and health builder.

The following is one of thousands of similar endorsements of Dr. Harter's Iron Tonic that we have received, proof positive that this old reliable remedy does all that is claimed for it:

Augusta, Ark., May 10, 1901.

"After having sold Dr. Harter's remedies for thirty years, I can cheerfully recommend them. I might add that I hold in especial favor Dr. Harter's Iron Tonic, and would recommend it as the very best preparation of iron I am acquainted with. To weak, nervous women, and those troubled with nervousness, poor digestion and pain, this blood, I believe it to be a panacea."

J. B. Wilkerson, Druggist.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkszeitung. He knows that this paper aims to advertise only the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me, 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery. This valuable liniment is for sale by Perkins Bros.

The populists held an independent convention at the court house this afternoon. We will give the results Monday.

We had the pleasure of attending the Carnival at Nacogdoches last week. We must say that the old town didn't bring justice in every respect. I attended the Confederate reunion at Memphis last year, and saw more fun and nothing better. Altogether, Jacksonville Banner.

All Knights of Pythias are cordially invited to attend the Fourth Annual Reunion and Picnic of North Texas Knights of Pythias to be held at King's Grove, (two miles south of Terrel, Texas, on the line of Texas Midland R. R.), on Tuesday June, 10, 1902. This will be the largest gathering of Knights of Pythias ever held in Texas and is under the auspices of the lodges at Terrel, Mesquite, Dallas, Kaufman, Commerce, Cooper, Paris, Grand Saline, Mineola and Crandall. All railroads have given liberal excursion rates.

L. E. Whitmore and R. W. Murphy returned last night from an extended trip through Cherokee, Angelina and Houston counties, visiting the big 4-C mill at Kennard in the round. They report that crops are looking unusually well, corn above the average and cotton simply fine. Rain is needed in most places. They found health generally good, but sold some nice drug bills in anticipation of the chills and fever that will follow on later. Mr. Murphy says the scarcity of cattle and hogs was noticeable throughout the territory traveled by them.

With the sounding of much brass, the tooting of horns, the beating of symbols and loud screaming from the housetops, the Plaindealer says that "its columns are filled with news from first hands, one day old—only. It's nobody's business how we get the news, so we get it in a legitimate way. Our idea of an evening paper is to give the public of today everything worth giving that happened since 6 o'clock yesterday evening. We don't wait till its two days old and then rush into print with it because we happened to see it in another paper." We admire the Plaindealer's enterprise, but it ought to quit coming out from two to four hours behind THE SENTINEL. The people have already had the news before it gets out.

TEXAS PETROLEUM.

The following is an extract from a paper read by W. T. Garbade of the graduating class at the Texas Agricultural and Mechanical College, which won the medal for the greatest originality of thesis:

The first development of this industry did not take place in Texas until about thirty-three years ago, when it was accidentally discovered at Oil Springs, Nacogdoches county, Texas about fifteen miles south of Nacogdoches. Many wells were sunk at this time, the oil being found at 100 feet. The yield of the first well, being nearly three hundred barrels the first day but failed to flow afterwards, few succeeding wells flowed and the oil had to be either bailed or pumped to the surface. Upon a careful examination of this product they concluded that it was unsuited for the manufacture of illuminating oil, and from want of interest and capital the industry was prosecuted no further. The oil was found to be of high gravity, having an asphaltum base as all subsequent oils, except the Corsicana light oil, discovered in Texas have, and was well adapted to the manufacture of lubricating oils by removal of asphaltum residue.

From the oil seepages which exist along the Neches river it is safe to say that oil lands of the new Texas oil fields, having the Neches river as a center, include a large part of Nacogdoches, Angelina, San Augustine, Tyler, Jasper, Hardin, Orange and Jefferson counties. There has never been a new oil field when at such an early stage in the development of the oil sand was known to underlie so much territory as in the Beaumont field. While the extreme limits of the field are only conjectured the wells have such a large production that there is no doubt that Texas will be the leading oil state in the union.

Of all the petroleum produced in Texas the Corsicana oil is practically the only one that is refined for illuminating purposes. The oil found near San Antonio is valuable as a lubricating oil and the Nacogdoches and Beaumont oils are excellent for fuel purposes. The daily production of the Texas gushers is more than six times the daily production in California, more than twice as much as those of Pennsylvania and nearly half as much as the aggregate production of all the wells in the United States of which there are about 90,000.

Rusk shipped her first car of tomatoes on the 3rd, and the Journal speaking of it says: "The market so far is good, and prices have remained steady, being from \$1.50 to \$2.50 per crate." Why will tomatoes bring \$2.50 at Rusk and only \$1.10 at Nacogdoches? There is nothing superior, it is said, to the Nacogdoches tomato.

The filthy sewer on North street near Gus Nelson's store has been filled up and the pipe removed in another direction, much to the gratification of passers along that way.

WHAT HAS HE DONE?

"What has President Roosevelt done since he has been president" is answered by the Houston Post, which thinks he has done entirely too much. The Post says:

"What has he done? He invited a negro to his table and he has eaten with him. He slandered Admiral Schley, the hero of Santiago, falsely aspersed his honor and attempted to rob him of the glory of his great victory. He reprimanded Dewey, the man of Manila. He insulted the veteran, General Miles, the ranking officer of the army. Upon every possible occasion he assailed the southern people, forgetting his promises to be the president of the whole country and know no sectionalism, and forgetting the memory of his southern mother, and forgetting the example and earnest precept of all the great men of his party, who have patriotically labored to heal the wounds of war and reunite the people into one of sentiment and affection. The civil service Reform League has cursed him with the curse of Erulphus for his appointment of men like Clarkson and has expostulated him with anathema. He has permitted atrocities in the Philippines and punished the most outrageous cases of cruelty with a reprimand. He has announced that "imperialism is not bounded by the Philippines, but that the shadow of our destiny has already reached to the shores of Asia; the might of our people already looms large against the world-horizon, and will loom ever larger as the years go by." He is turning this country from a peaceful, prosperous republic to a beligerent land-grabbing empire. He has hauled down our Goddess of Liberty from the high seat and put an ogre there."

OVER one hundred cars of tomatoes have been shipped from Jacksonville, which were grown within a radius of ten miles of that place. The average price brought is \$1,200 per car, with a total of \$120,000.

LUFKIN is expecting at least fifty of the newspaper men of East Texas on the 20th and 21st inst. It is hoped a full attendance will be on hand.

NACOGDOCHES made a grand success with her Karkival of Kommerce, and it is said the old town was crowded to her utmost each day.—Jacksonville Banner.

SOME of these populists ought to be "killed" while they are good. They have got their skins full of "reform."

WE have been trying several days to discover whether Mr. Murphey is chairman of the people's party or the prohibition party. Which?

THE fight for the congressional nomination in the Dallas district has been brought to a close by the nomination of Jack Beall of Ellis county.

THE corn crop is already suffering badly for want of rain, and it is feared that the crop is going to be cut short throughout the entire state.

THE peoples party of Nacogdoches county is dead and buried and its ashes have been bottled up and labeled "citizens ticket." It is movable to be corked and sealed in November, too.

HON. J. F. BEAUMONT has no opponent for the democratic nomination for State Senator from the Fourteenth district, and it is not probable that the convention at Beaumont on 21st inst will attract much of an attendance. There must be prospects of a little scrapping to fetch the boys from the forks.

THE new town of Bronson, which is located at the present terminal of the Gulf, Beaumont & Great Northern railroad, that is the road now heading for San Augustine is on somewhat of a boom, according to the Hemphill Messenger. The first passenger train is scheduled to run up there on July 4th, at which time ten or fifteen thousand dollars worth of town lots, it is expected, will be sold at auction. Some big saw mills are already in course of construction and the Messenger thinks Bronson is destined to become a great lumber manufacturing center.

THE negro, Jim Buchanan, just got up and walked out of jail. There is some consolation in the fact that he did not take his bed with him.—SENTINEL.

THE ring organ wasn't sorry but one time about the negroes escape from jail and that was when it heard that the negro had been headed off at Lufkin and had been landed back in jail.

WHO is responsible for the condition of this old shack any way? It was when Campbell was sheriff that he allowed the prisoners to burn out the floor to the cells by keeping a red hot fire in them during the winter.—Plaindealer.

THE jail organ does us an injustice. We really, sure enough, in fact, positively, indisputably were glad when the negro was recaptured. The jail organ is hard up for excuses for the carelessness of the sheriff, or jailor, or whoever is responsible for Buchanans escape. Campbell certainly had nothing to do with Buchanans not being properly locked up in a safe cell. There are some cells in the jail that have not yet had holes burnt through them.

The friends of Warner Linticum have made up a nice purse for his relief. It will go a good ways in aiding him in his financial losses, but no power on earth can allay the deep distress of the family in the loss of their dear little girl, whose tragic death is the greatest of his misfortunes. With every donation tendered him the profoundest sympathy of the donor is accompanied.

J. W. Carriker, of Panola county, who was in town yesterday, has entered into a contract to purchase from Mr. E. A. Blount several thousand acres of land about 22 miles north of Nacogdoches, and will establish a large saw mill near the town which is located at said point. Mr. Carriker is well known in this section of the country and is connected with the best families, Mr. A. J. Tucker, of Chireno, being his cousin. We are satisfied Mr. Carriker could not make a better choice of a place to locate and we are glad to welcome him in Nacogdoches county.

A young lady visited a cooking school recently and her attention was divided between a dress worn by a friend and directions for making cake. So when she undertook to write the recipe for her mother, the old lady was paralyzed to read the following: "Take two pounds of flour, three rows of plaiting down the front, the whites of two eggs cut bias, a pint of milk ruffled round the neck, half pound currants, with seven yards of bead trimming, graded lemon peel with lace fichu; stir well, and add a semi-fitting paletot with visit sleeves; garnish with icing and pastementerie. Bake in a moderately hot oven until the skirt is tucked from the waist down on either side, and finish with large satan rosettes."—Western Publisher.

A letter has been received from Mrs. Anna Baker Boulurance announcing that she was married, Friday, May 30, 1902, to Mr. I. W. Boulurance, of Fulton, Mo. Miss Anna Baker was a teacher in Nacogdoches University some years ago, and was one of the most popular and attractive young ladies that ever visited Nacogdoches. She made hosts of friends, while here who wish her every joy in life and who congratulate Mr. Boulurance most sincerely on winning his talented and charming bride. Mr. and Mrs. Boulurance are in Louisiana on their wedding journey, and speak of visiting Nacogdoches before they return north. Should they decide to do so, they will receive the warmest of welcomes, for Miss Anna has never been forgotten by the friends she made during her sojourn in the south.

Bert Swatzell and Billy Hughes, have left the Nacogdoches team and are now playing in Joplin, Mo., in the Missouri Valley League. These two make as fine a battery as was in East Texas. Hughes is unequalled as a Catcher and Swatzell is equally good as pitcher. He has a peculiarly baffling delivery.

Eucaline is without an equal.

KILLING AT LUFKIN.

Rush Bell Killed Over a Game of Cards.

The news was received early this morning that Rush Bell, a sporting character known at Nacogdoches, had been shot and killed by Andrew Nelson, who is also known as a gambler. Nelson has been attending bar in N. B. Chancy's saloon for some time past.

From the best information obtained today it seems that the killing occurred over a game of cards, and happened about sunrise in the back of Chancys saloon.

Geo. King, Esq., resigned his office of County Attorney this morning. Mr. Beeman Strong being appointed in his stead for the unexpired term. Mr. King states that his resignation was purely for business reasons. There are certain business matters that he is obliged to give his entire attention to, so that he had to give up either the business or the office, and as his term would expire in about four months, decided to resign. Mr. King says he can always be found at the old place, and ready to attend to business, that he is out of office, and out of politics for the present, and is devoting himself to the interest of his clients. Sidewalk Stories as Seen By The Sentinel Scribe.

The death of Louis, Ewing has cast a gloom over our whole town. Louis was one of our brightest boys and from the time the news of his illness came from Texarkana, where he was at work for the Southwestern Oil Co., until he was brought home Saturday night, the many messages from friends of this and other towns as to his condition showed in what high esteem he was held. The heartbroken family have the sympathy of the whole town, for this young man who was just merging into manhood had many friends, won by his personal worth and many acquaintances interested in his bright and promising future.

The ice cream supper given by the Rathbone Sisters last week deserves special mention, not only for the creditable manner in which everything was carried out, but for the lovely appearance of Mr. C. N. Humason's lawn, where it was given. It is a beautiful place anyway and at night with just the moonlight softly touching and brightening everything with its radiance. It is a place to be remembered, but add to the moonlight lights shaded with the Rathbone colors, red, blue, yellow and white, and the effect was beautiful. At each end of the grounds was an immense headlight and painted across the face of one was "Good Will Temple No. 40," the other, "Rathbone Sisters." The painting was done by Mr. Schmidt and was very artistic. In the center of the lawn was four large tables, one in red, one in white, one in blue and one in yellow, from which was served the cake and cream. At the right of the tables was the lemonade stand and never was lemonade sold from a prettier place. The four colors were combined and formed a miniature house of "many colors." Mrs. Ed Smith had this stand in charge and standing just inside at the window completed the pretty picture. Mrs. R. V. Watts had the "tete-tete tables" in charge and here was the most interesting part of the grounds, for 'twas such a nice place to sit and "listen to the band." The Trib Band never played better and were kind enough to play the whole evening for "nothing." Most Excellent Chief, Mrs. C. N. Humason and Mrs. C. N. Lurkenheimer, as "Mistresses of ceremonies" carried things through without a flaw and with such such members, "Good Will Temple No. 40" will always be as it has since its organization, one of the best in the state. At the last meeting of the Temple, all the old officers were reelected but two.

A NEW BABE IS BORN.

But It Bears the Mark and Brand of Populism.

Delegates representing most of the populist primaries held a county convention at the court house Saturday evening. A. J. Murphey was chairman and Wirt Boynton secretary. The attendance was good. The old time leaders figured conspicuously and the old time "principles" were enunciated repeatedly by speakers. There seemed to be no little confusion as to what they were there for and where they were at in a political sense. There was no difference upon this point, a county ticket that would catch votes and acquire no votes at all—a church that would take in all creeds—and admitting the fertility of the losing name. Populists, they made it a bond farewell, and wrangled over the old reform move at Louisville, endorsing that platform. They finally organized for the county campaign with the present chairman, secretary and present present chairman as executive committee, and adopted the name, "The Independent Citizens Ticket." Primaries for final candidates or nominees are to be held August 2, and county convention following Saturday. A plurality vote nominates, but they resolved not to support any candidate who uses whiskey or other questionable methods. The speakers referred to corrupt democratic methods. They adjourned sine die.

County Attorney Strong.

Monday's Daily. The resignation of Geo. S. King, Esq., as county attorney, was tendered and accepted by the commissioners' court this morning. Beeman Strong, Esq., was appointed to fill out the unexpired term. The appointment of Mr. Strong meets the universal approval of the people and is a fitting acknowledgement of his merit, ability and qualification for the office. He is a young man of high moral worth and sterling integrity, imbued with energy and push, and has been successful in his practice, his talent as a lawyer having several times received marked recognition. He is the democratic nominee for county attorney and his election in November is conceded beyond any doubt.

Woodmen Circle.

The members of the Woodmen Circle held a very interesting meeting yesterday afternoon, there being only one lady officer absent, which bespeaks well for the order and shows the interest the members have in the welfare of the Grove.

For the benefit of those who wish to become members of the Woodmen Circle, the following excerpt from the Supreme Forrest is copied:

"Gentlemen to become members must be in good standing of a camp of Woodmen of the World. Ladies must be recommended by a deputy or by two members in good standing in the order. Ladies must be 18 and under 52.

To the Press of East Texas: Owing to the fact that the Fourth of July has been fixed as the time for the laying of the corner stone for the new court house at Lufkin, and the citizens of that city having requested that the date of the meeting of the East Texas Press Association be postponed from June 20th and 21st to July 4th and 5th, in order that they may be enabled to better entertain the editors and to prepare a more satisfactory program, I have complied with the request and hereby announce to the Fraternity that the Association will be held at Lufkin on Friday and Saturday, July 4th and 5th, 1902. All the members and those eligible to membership are expected to come loaded with Fourth of July oratory and with the expectation of having a great time.

The debate between Ozro McKnight, representing the Alamo society of Center High school, and Homer Dotson, representing the school society at Nacogdoches, which was to have been pulled off at this place tonight, has been postponed two weeks, or until the night of our school celebration. Mr. Dotson affirms that "England waged a just war against the Boers;" Mr. McKnight denies.—Timpson Times.

T. J. Lloyd has bought a half interest in the Baucom grocery establishment, and the firm is now Baucom & Lloyd. Mr. Lloyd is a hustler and a man who has had enough business experience to know what it takes to make a success of any undertaking, and he will add strength to the concern, which has enjoyed a splendid business from its first establishment.

Mrs. M. G. Hazle writes from Hot Springs that she finds a good deal of attraction there. She has been taking in the Salvation Army and Methodist meetings and has found many things of interest there, but for all that, life is dreary without the DAILY SENTINEL, which she asks us to send forthwith. They will probably visit Kentucky before their return home.

The work has already begun on the Schmidt and Blount building on Fredonia street. It will contain three stores and will be two stories high.

In the recent democratic primaries of Van Zandt and Hunt counties, women were defeated for the nomination for the office of county clerk.

HOBSON wants to be retired from the United States Navy on account of eye trouble and is asking a special measure of congress for his relief. When a fellow once gets bound up in Uncle Sam's red tape it seems pretty hard to get loose.

OUR friend, Hon. Sam Davis, of San Augustine, failed to carry Polk county, that county going for Hons. T. F. Meece and W. B. O'Quin. San Jacinto also went for Meece but went for Davis instead of O'Quin. The race now stands six for Meece, four for O'Quin and two for Davis. Davis has a cinch on San Augustine's two votes which will give him a tie with Meece. O'Quinn has a cinch on Angelina, which assures his election, and the fight will be between Davis and Meece for that county. Two of the three candidates are to be elected and the race is viewed with much interest, by friends of the candidates from the outside.

THE City counsel held its regular monthly meeting Tuesday night and appointed a new board of equalizers, vice the board appointed at former meeting which resigned in disgust. The new board are P. M. Sanders, J. H. Thomas and C. D. Stinson. The former board were Allan Seale, John T. Garrison and P. M. Sanders. The cause of their resignation was the universal kick against raising assessments and the disagreeableness of the position. The new board will enter into its duties with a determination to fairly and impartially carry out the purposes for which it was created, and to this end it will be far better for all interested to cooperate with them freely and harmoniously.

THE negro, Jeff Ferguson, who was recently white capped by white men near Melrose, was in town Wednesday. He tells a woeful tale of his treatment, and says he is still unable to work, as the result of the severe whipping administered to him. The offence for which Ferguson was thus treated is the alleged throwing of a stone at some little white girls as they passed along near where he was plowing in his field. Ferguson stoutly denies the charge and says it was only hatched up as a pretext for an excuse, the real motive being the desire to run him out of the neighborhood. The negro owns his own home and has become a fixture in the neighborhood. He came to town to file complaint against four white men, and the real facts will be brought out on the investigating trial. It is feared that the trouble is not yet over with, as the negro has white friends who are in sympathy with him and are urging him to prosecute the white cappers.

It is a fact worth mentioning that the first car of tomatoes this season was shipped off the line of the H. E. & W. T. railroad.

WE can't hear anything but tomato talk these days. Half the county hereabouts will be converted into a tomato patch next year.

THE negro, Jim Buchanan, just got up and walked out of jail. There is some consolation in the fact that he did not take his bed with him.

WHEN Campbell was sheriff a jail delivery was a horrible thing in the eyes of the "jail organ." Now it is regarded as very commonplace, which it really is.

IT is time the county was either providing a safe jail or instructing the officers to quit making arrests. No use of putting men in jail just to see how easy they can make their escape.

THE attendance at the next democratic convention will probably be unusually small, owing to the prospect of a very tame affair. There will be no fight on and there is nothing to bring the boys out from "the forks."

THE Woodville News comes to us this week with the name of J. F. Grubbs at its mast head. Friend Grubbs has a beautiful worded salutory at the head of the editorial page, and among other quaint sayings, remarks that in entering newspaper harness he is accuarated primarily by his own pecuniary interests. That proves that there is money in the newspaper business in Woodville. At any rate we wish Grubbs a full gratification of his entire motive and ambition in his new field of duty.

THE T. P., Texas Midland, Gulf, Colorado & Santa Fe and the Frisco railroads have each subscribed five thousand dollars to the Texas World's Fair fund. Nearly all of the other companies have been heard from to the effect that they will subscribe liberally or upon any basis generally agreed to. A satisfactory subscription from the railroads is thus assured, and work is now being done to bring it to a definite and tangible basis. General Manager Wortham, of the Texas World's Fair commission is endeavoring to impress upon all concerned the desirability and necessity of prompt action in order to secure the best results from the expenditure of the proposed fund. To that end the special interests which have proposed to contribute have been urged to push their work. As soon as they have reported, it is proposed to hold a meeting of the executive committee and inaugurate a campaign for the completion of the subscription.

BASE BALL

Nacogdoches Defeated the Lake Charles Team Yesterday.

Thursday's Daily.
Nacogdoches,.....001 020 005-8
Lake Charles,.....000 003 001-4

The per cent of games won by the Nacogdoches team is good in spite of the disastrous meetings with Beaumont, and then they were not outclassed man for man. They played as good or better ball than their opponents; so while it was exasperating it was not discouraging to have them defeated.

Yesterday the bad luck that has followed our boys left them and they beat the team that beat Beaumont. It was a well played game. Nacogdoches only scoring in 3 innings, and the visitors in one.

Game—No runs for two innings. In the 3d Wade reached 1st on error and came in on Bennett's 2 base hit. 4th, no score. 5th, Wade got a safe hit, came home on Werner's 2 bagger, Werner scoring on Swatzell's hit. The 6th inning is deadly to the home team. Lake Charles made 3 runs one earned and 3 on errors. That tied the score with no further tallies till the 9th, when Lake Charles went to pieces and Nacogdoches made 5 runs, 2 earned and 3 on errors. Wilson began the good work done in the 9th by a 2 base hit that brought in two men when two men were out, four safe hits were made in this inning by Nacogdoches, and every error made by the visitors was taken advantage of. Swatzell did some clever playing, bringing home the 5th man by head work. The visiting team made 1 run in the last half of the 9th, leaving the score 8 to 4.

Lyons pitched a splendid game, making some grand stand catches. His record is: fans, 5; safe hits, 4; base on balls, 1; hit by ball, 1.

Page pitched for Lake Charles. Record: Fans, 6; safe hits, 11; base on balls, 1. Nacogdoches got six 2 base hits, three of which belong to Werner.

The Lake Charles team's fielding is nearly faultless and the game was close till the 9th.

Brilliant plays were made by Bennett, Swatzell, Werner, Wilson, Lyons, Waties, Lewis, Rusche and Wade, with a few doubles by the entire team.

Errors don't count when they don't lost the game.

Tom Baker umpired the second game without loss of life.

The home boys played the game better the last half than they did the first.

Obituary.

Cates Ford Muckleroy, little son of Mr. and Mrs. Peyton Muckleroy, of Angelina county, entered into rest May 19th, 1902, aged one year and three months. Though young, Cates had taught all who knew him to love him. He was affectionate and very bright; unusually so for one of his age. No one was a stranger to him. He was the pet of the relatives, was beautiful and pure, and we all shall miss him. All was done that parents, friends and physicians could do, but the Lord wanted him for himself and He took him, and by taking him our interest in heaven is increased. Whenever any of our dear ones leave the walks of men to dwell beyond the blue our interest in the mansions in the sky has added to its value. Let us, Peyton and Reed, so live as to enter into our inheritance when done on earth, and meet little Cates up there.

Finger Cut Off.

Late Tuesday night Mrs. George Muckelroy suffered a painful accident, that of cutting off the forefinger on her left hand. She was cutting some corn for the cow when the knife struck her finger and slitting the flesh down to the second joint. A physician was called in and dressed the wound after taking off the finger at the second joint. Mrs. Muckelroy stood the pain with fine nerve and is getting along nicely.

The above is from a Cleburne paper and is reproduced for the information of relatives and friends of Mr. Muckelroy in Nacogdoches, where he was raised and where he lived some time since he married his present wife.

MOTHERS
TESTIFY TO THE BENEFITS THEIR
SICK BABIES
HAVE RECEIVED FROM THE USE OF
LAXAKOLA

Having received your sample of Laxakola, was very much pleased with it, and have purchased a bottle for my baby. The Laxakola did wonders for my boy in case of bowel troubles. I have given up Laxakola and give my baby nothing but Chamberlain's Colic, Cholera and Diarrhoea Remedy. I got it from C. H. & H. A. Smith, Union and Purchase Sts., Smith Mills, Mass.

Reduced please find cents in stamps for a bottle of Laxakola. I used your sample bottle and it did all you claim for it. It helped my baby wonderfully.
Mrs. JOHN FARWELL, Union Depot, Dauphin Co., Pa.

I wish to thank you very much for the good Laxakola has done my little one, Marion Lucine Bass. She is only two and one-half years old, and has suffered something awful from constipation. She has never had what you would call a natural movement. Sometimes we were almost afraid of convulsions, it hurt her so much, and she would be so frightened.

She's awful pleased to think it doesn't hurt her so now, and she will take Laxakola without a fuss. We are pleased to think it helped her so much.
Mrs. ORA MOFFATT, Gorham, N. H.

"My baby is four months old and is teething. He was sick and I tried a good many things, but nothing seemed to relieve him. I had a doctor, who said it was inflammation of the bowels, and that if it would never pull him through, perhaps. If he were under his care. When I saw he was getting worse I stopped giving him his medicine, as he could keep nothing on his stomach. He was troubled with colic very much, and used to scream when he had a touch of it. I did not know what it was to do my every day or night. I gave him a few drops of Laxakola and it relieved him. I gave it to him a few more, and it worked like a charm, and he now rests pretty fair all night. He is a great deal better looking baby since I gave him Laxakola, and I think if all mothers knew how good it was, they would give nothing else to their sick babies."
Mrs. MARY DALRY, 577 First St., South Boston, Mass.

LAXAKOLA is a pure, gentle and painless liquid laxative, and contains valuable tonic properties, which not only act upon the bowels, but tone up the entire system and purify the blood. A few drops can be given with safety to very young babies, which will often relieve colic by expelling the wind and gas that cause it. Great relief is experienced when administered to young children suffering from diarrhoea, accompanied with white or green evacuations, as it neutralizes the acidity of the bowels and carries out the cause of the fermentation. LAXAKOLA will aid digestion, relieve restlessness, assist nature and induce sleep. For constipation, simple fevers, coated tongues, & any infantile troubles arising from a disordered condition of the stomach, it is invaluable.

Try it Today. Send for a Free Sample. It may Save your Baby's Life or Prevent a Long and Serious Illness. It Costs Nothing; Send For It and mention Your Druggist's Name.

For Sale by
All Druggists 25c and 50c, or we will express on receipt of 50c, all charges prepaid, a large box of LAXAKOLA. Address THE LAXAKOLA CO., 6 Vesey St., N. Y.
