Wettermark's Bank Failure

Caused us the loss of every dollar in cash that we had collected to pay our spring bills, and enable us to do business this year. Several of our friends hearing of our loss came in and paid their account, these we shall ever remember gratefully and favor in any possible way. Quite a number owe us yet, amounts that are past due, and all of these we must urge to make an immediate settlement. You all know that we now must have money to carry on our business and we are sure a large number will make settlement promptly and pleasantly.

No need to wait longer or wait for another request, do the square thing by us and do it now, we will return the favor if possible.

Yours truly,
Cason, Richardson & Co.

The Houston Post of today contained a notice of the death of Capt. Sims, of Rich Hill, Mo. Capt. Sims was the father of Mrs. E. A. Blount, of this city, and had visited in Nacogdoches several times. He was a fine old gentleman, and was a distinguished and honored citizen of his State. He won many friends while on his visits here who will be grieved sincerely to hear of his death. Mrs. Blount left Monday morning for Rich Hill, but her father had passed away before she reached his bedside. He died in the fullness of years and with a well spent life behind him. "Peace to his earthly ashes, and eternal bliss for his immortal soul."

Bancom & Son say they are bound to have money and the only way to get it is to sell and they will make prices in order to sell. Read their ad this week.

Married at Arp.

From Monday's Daily:
Mr. Lit Herrin, of this city, was married yesterday at 10 o'clock, a. m., at the Methodist church in Arp Texas, to Miss Lizzie Sartain, a most estimable young lady of that place. The wedded couple left immediately after the marriage rites were performed for a bridal trip.

The bride is the step daughter of Mr. Fredricks, a prominent merchant of Arp, and is a highly accomplished and lovable young lady. Mr. Herrin is the junior of the firm of Austin & Herrin, contractors and brick manufacturers, of this city, and is one of the most substantial and useful citizens of Nacogdoches, where he is deservedly and immensely popular and greatly honored for his exemplary character and sterling worth.

The Sentinel joins in the congratulations and well wishes which are universal in Nacogdoches.

Powers-Davis.

From Tuesday's Daily:
Mr. John Powers and Miss Lizzie Davis were married to day at 1 o'clock at the residence of Mrs. G. B. Crain, Rev. W. W. Watts performing the ceremony. Mr. Powers is a prominent citizen of our city. He is proprietor of Rose Lake Nurseries, and no man in Nacogdoches stands higher for his worth, integrity and business ability. Miss Davis is a San Augustine young lady, but for the past year or two she has made her home in Nacogdoches where she was one of Mayer & Schmidt's most popular clerks. She has made hosts of friends in this city who congratulate Mr. Powers sincerely upon his rare good fortune. The wedding was very quiet, only a few guests being present. The bride was married in her traveling dress, a handsome tailor-made suit, and immediately after the ceremony Mr. and Mrs. Powers left for San Augustine where they will spend the honeymoon.

Woodmen Circle Installation.

Notwithstanding the fact that the weather was quite threatening and the streets in a most deplorable condition, two score or more of the members of Stone Fort Grove No. 192 Woodmen Circle defied the elements and "came out to lodge." It being the first regular meeting of the Circle installation of officers was the order of business from the adjourned afternoon session. A few invited guests were present, both ladies and gentlemen.

The beautiful and impressive public installation services were conducted by Mrs. Agnes Geer, State Supreme Deputy of the Woodman Circle, and was assisted by Mrs.

F. E. Lewin, of Huntington Circle, who filled the station of Supreme escort.

After the installation services, Mrs. Geer was called upon for a "short" talk. This charming little lady responded to the invitation and for about fifteen minutes, told the beautiful story of Woodcraft, what it had done in the past, what it was doing now, and what a brilliant future were in prospect.

Mrs. Lewin in a few well chosen remarks responded to the invitation extended under head of "good of the Order." After speechmaking and resolutions were passed over light refreshments, consisting of chocolate cream and cake was served.

All in all the meeting last night was a grand success, socially and otherwise.

Huntington Circle was represented by Mesdames F. E. Lewin, M. E. McPherson and M. E. McBee.

Three Negroes Jailed

Three negroes were brought down from Garrison, yesterday by Duptyes Harde man and Commander and placed in the county jail. Two of the negroes were mere boys and were arrested on a charge of horse theft, it being alleged that they had stolen two horses from the wagon yard at Garrison. The other negro is named James Dewy, probably an alias, and was arrested for striking conductor Whitord, on the head with a six shooter on the H. E. & W. T. mixed train Sunday. The negro was on a general rampage and playing the desperado in great style, which he wound up by striking the conductor, firing his pistol several times and jumping from the train. He was afterward arrested by Deputy Sheriff Sandy Thacker and sent to the county jail. All three of the negroes are still in jail in default of bail.

The General Fund.

County Treasure J. O. Ray informs The Sentinel that he has cash of hand for the payment of all outstanding warrants against the general fund. Warrants will be cashed on presentation at the Commercial National Bank.

Prof. Fred W. Mally, of Garrison, was in the city last night. He was on his return from Manton, where he had been to deliver 50,000 fruit trees to the Angelina Orchard Company. Prof. Mally was in attendance at the Central East Texas Fruit and Truck Growers Association at Lufkin last week and says it was the greatest meeting that association has ever held and that greater and better results will be the outcome. The best of harmony prevailed throughout the meeting.

County Court.

From Monday's Daily:
County court convened this morning, with the usual officers of court and the local bar present. The following jurors were impaneled for the first week:

Eli Fields, W. E. Dorman, Dick Moore, Vard Dale, P. D. Fore, S. W. Day, I. A. King, Charles Miller, Claib Crouch, Dude Stallings, Gus Skillern, Jim Curl, Elmer Burrows, D. J. Fuller, Bob Weaver.

This being the first day of court, very little has been done except to organize and get ready for business.

From Tuesday's Daily:

County court is progressing slowly. It seems hard to get witnesses in attendance and several fines have been imposed.

Only two cases have been disposed of so far, except dismissals.

Will Smith, colored, plead guilty yesterday to carrying a pistol and was fined \$25 and costs.

Col. Benjamin, colored, was tried before a jury on a charge of wife-beating, and was fined fifty dollars and costs.

There was nothing done today up to noon.

Killed at Center.

It is reported that John Rice, a son of Mr. James Rice who has just moved from here to San Augustine, was killed a day or two ago at or near Center. The particulars are not known here, nor is it known who killed the young man, but is alleged the trouble came up over a game of some sort.

Rev. H. M. Hutson will preach at Lone Star Church the 4th Sabbath and Saturday before in January, 1903, at 11 o'clock a. m.

The attendance at the schools is good now, the only trace of the smallpox excitement being a few sore arms. The children are taking even more interest than they did before Christmas in the work, and the teachers are consequently very much encouraged as to the outlook. The debating societies are a great success, the scholars discussing the questions with the keenest enjoyment, and displaying a good deal of cleverness in making points. Altogether the schools have met the adverse circumstances of the fall magnificently, and those in charge have reason to congratulate themselves on both the attendance and the tone.

Bank Failure at Jacksonville.

It was reported that the Fleeger Bank of Jacksonville closed its doors yesterday. Communication by telephone this morning confers the report. Fleeger has fled with everything in the bank. His sons are absent from the city. It is not known yet the amount of the missing funds, the news from there being only the one word "everything."

J. W. Ireson has been spending several days in San Augustine on a business visit. The Banita Manufacturing Plant, of which he is manager, has been doing a great deal of work for the Red Land City since it took on its present boom, and it would be no surprise if Ireson Bros. put in a branch plant there. In any event they will continue to get a good share of the orders in their line from the people who are working in San Augustine. Their work speak for itself.

Nacogdoches has one saloon less. Mr. Tubb has sold the "Miley" saloon to Slay Bros, who are moving it to Sacul.

THE Starndard Oil octopus has invaded Germany and is being so keenly felt that the Reichstag has passed a resolution levying a duty on refined petroleum.

SENATOR BAILEY goes on record as being opposed to making reciprocal trade arrangements by means of treaties, with any country, asserting that it is clearly unconstitutional.

THE executive committee of the Texas farmers, congress recently held a meeting in Dallas and fixed the date of the next session of the congress at College Station for July 7th to 10th, 1903.

No move has yet been made towards any sort of fire protection. It would be worth a lot of any man's money not to have his hair turn gray with anxiety every time a pistol shot is heard in the town, or a lightning bug shines extra bright.

THE SENTINEL is under obligations to Judge Middlebrook for his thoughtfulness in placing us on the "exchange" list for the Legislative Record. He is the first Representative who has ever shown us this courtesy without special request.

THE Venezuelan government has clothed Minister Bowen with plenary powers to act for Venezuela in the adjustment of her difficulties with the powers, and Mr. Bowen has given out the statement that he has strong hopes of a settlement without referring the question to the Hague court.

CONGRESS did a righteous thing when it rose up as one man and put coal on the tree list, or practically so. The conditions demanded this prompt and decisive step, and it is believed this action will bring some of the relief so badly needed by sufferers from the present coal famine in the United States.

THE Alto Herald suggests a good roads convention to be held by the people of Cherokee county and thinks some definite plan might be agreed on for materially improving the public roads. This is the all absorbing topic now, and something will have to be done or travel and traffic will be almost stopped pretty soon.

NACOGDOCHES is surely between two evils. In dry weather it is in imminent danger from a general conflagration, and when it rains the roads are impassable, even in the city limits. The citizens live in a state of alternate apprehension and discomfort and cannot enjoy any sort of weather. How much longer must we endure this state of affairs?

THAT BAPTIST COLLEGE.

Speaking upon the question of moving the East Texas Baptist College from Rusk to Nacogdoches, the Baptist Echo, published at Jacksonville, says:

"We are sorry for Rusk, we are sorry indeed for the Baptists of East Texas who put their money into this enterprise. But we feel most sorrow of all for the parties who are responsible for this deplorable condition. We have always heard that "honesty was the best policy" and this is true of institutions of learning as well as individuals.

Bro. Maxwell says that "before the school could go anywhere it would be necessary for the State Convention to act on it." We think he is eminently correct but the "Commission" did not take time for Cherokee Association to act on it before it was ruthlessly taken out of her hands. He further adds: "But I say in full confidence this people have it in their power to prevent a removal." This we very much doubt. The "Commission" is boss and when he sayeth "go" Rusk need not say "nay." It may be however that "The Commission" simply wants Rusk to put up a few hundred for repairs and thereby secure the college to themselves, for Hon. J. B. Long well says that the school roll will show that Rusk has furnished four-fifths of the students of the institution, so we conclude that it is not students but something else that the "Commission" wants of Rusk. We shall wait and see what we shall see.

THE legislature convened in 28th regular session Tuesday. After taking sixty-six ballots Pat Neff, of Waco, was elected speaker of the house of representatives. The Sentinel had a mighty leaning toward Schuler, and we are gratified that he made a strong race. But Neff is good enough and neither Schluter or his friends are nursing any sores.

MILLIONAIRES really do die just like common folks some times. T. T. W. Grady, a Canadian millionaire and an extensive grain operator in the United States, died suddenly of apoplexy at the Rice Hotel in Houston yesterday. He was traveling in the interest of the immense elevator company of which he was the head when death took him unawares.

THE local papers of Cherokee county are thrown into a "flurry" verging on frenzy over the talk of moving the East Texas Baptist College from Rusk to Nacogdoches. "Shake not thy hoary locks at us," brethren; "Thou canst not say we did it." We didn't start the row, but Nacogdoches has her net out for all the good things she can catch. If this institute is to be moved we want it. If Rusk succeeds in holding it she will have our congratulations. If she don't succeed, then Nacogdoches will make somebody hustle if she does not secure the prize.

THE most foolish thing a man with political aspirations ever did was to get mad with his local paper.—Palestine Herald.

And the most foolish thing a local paper can do is to care a "dad-blame" if he does

All of Nacogdoches county's money was in Wettermark's Bank.—Center Champion.

Where did you get that information? The county treasurer did not have a cent in that bank, and the tax collector only had about \$700 of the State's money there. Nacogdoches county saved her money by electing a new treasurer, who for personal and other reasons transferred all the county's funds from the Wettermark bank to the Commercial National.

It is gratifying to learn from The Sentinel that the big excursion Monday "went from Nacogdoches to Houston," and will doubtless be interesting news to The Sentinel to state that the excursionists were royally entertained in Lufkin for three hours, during which time they forgot that Nacogdoches was on the map.—Lufkin Tribune.

We do remember, since you mentioned it, that trains stop for "water" at Lutkin. And when a fellow gets full of Lufkin "water" he is liable to forget everything.

SENATOR HENDERSON got sat upon the very first dash out of the box by the state Senate. He wanted to reduce the clerical force in the Senate upon the plan of economy and the only vote his resolution received was his own. If the Senate and house will sit down on all these "economists," who really cost the state more money in time wasted than the adoption of their ideas would save, there would be less talk and more business done, and much shorter sessions.

THE defeat of Schluter for speaker of the house of the present legislature is a blow to the influence of U. S. Senator Joe Bailey, as well as a disappointment to Mr. Schluter and his friends. It has been known for some time that Senator Bailey was "shaking the bushes" for Schluter, and now it is claimed that to the resentment of this outside influence is due Mr. Neff's victory. This incident may serve as a warning to outsiders, and lobbyists generally, that the 28th legislature is determined to manage its own affairs without their assistance.

Dr. Lignoski was here last Saturday, and informed us that he is still working for the release of Mac Stewart from a Mexican prison. It was through the Doctor's efforts that Stewart's sentence of death was reduced to twenty years imprisonment, and if his term of imprisonment is ever reduced it will be through the Doctor's continued efforts.—Rusk Journal.

Poor Stewart. It is more likely that death alone will reduce his term of imprisonment. For ten long years he has been confined in a Mexican dungeon, and it is questionable as to whether it was really a humane act of his dear and zealous friend in saving him from the hands of the executioner.

BLACK MOLASSES.

Few people who eat "store" molasses have any idea of what they are really eating. We have no assurance of the purity of any table syrup outside of that produced by our farmers at home. The home production, however, is largely suppressed by the competition of counterfeit stuff, and the syrup-making industry is rendered unprofitable right here in the heart of a fine cane growing country.

For information of those who may be interested, we reproduce the following extract from the January report of the Texas experimental stations. Speaking of what is called "black strap" molasses, the report says:

"This is the molasses commonly sold as 'feed molasses,' and has for the last few seasons attracted considerable attention. It is the refuse left after all the sugar that will crystallize has been taken out of it, and is known to the sugar manufacturer as the 'third molasses.' It is a thick, black mass having somewhat the appearance of coal tar, but a pleasant odor and a sweet taste. In the past it has found its best sale with the 'syrup mixer,' who takes a quantity of this and a quantity of glucose syrup made from starch, and makes therefrom the attractive and high priced 'golden syrup,' 'sugar house molasses,' etc. This art of the 'syrup mixer' is still going on, much to the detriment of the Southern farmer, who has it in his power to make a genuine cane syrup. Within the last two seasons, especially, there has been some effort made to attract attention to this molasses as feed stuff. Many Louisiana planters, and Col. Ed Cunningham, of Sugarland, Texas, have for several years fed it to their work mules. In some cases it was supplied in feed troughs so that the animal could get all that was wanted. It seems that no bad effects followed this liberal use. It has been tried at various times in a small way as a means of increasing the appetite of fattening cattle, but its value as a real food is still in the experimental stage."

An analysis is given in the report which shows that this refuse is not of a very high value as feed stuff. It sells at 5c and less per gallon. The report closes with the assertion that the state must soon pass a law regulating the indiscriminate sale of this mixed refuse of the sugarhouse with the artificial syrup of the glucose factory.

A DISPATCH from Washington announces that the controller of the currency has approved the application of a number of capitalists, mainly Shreveport men, for a charter to establish a new bank at Nacogdoches. These men saw a fine opening for a banking concern after the collapse of the Wettermark bank, and rushed in on the "ground floor." Had they waited a few days more before presenting their application, they would have probably been "cut out" by another company, as it is generally un-

derstood that there was a move on foot in this direction, in which some Nacogdoches people are interested. The new bank is to be organized with a capital stock of fifty thousand dollars, and will be called the Stone Fort National Bank of Nacogdoches.

Ex-Governor Hogg was very pronounced for Mr. Neff for speaker, and wrote him a strong letter. But then, come to think about it, Governor Hogg and the Courier always line up on the right side.—Tyler Courier.

It must have been the Courier's influence that won for Neff, because they say Hogg's influence in Texas politics is played out.

HON. J. R. WOOTEN, the representative from Fort Bend county, has prepared a bill which he will introduce in the 28th legislature and urge its passage. The bill is for a general road law, providing for the working of the State convicts upon the public roads, and take them out of competition with free labor. The long term convicts should be placed in the walls of the penitentiary and engaged in the manufacture of the best improved road making machinery and implements, and the short term convicts should be placed upon the roads and engaged at making first class roads from one county seat to another. Ultimately, every convict of the State should be engaged as above indicated. However, this will have to be approached gradually. The State is now so extensively engaged in farming and other pursuits that it would be impracticable to abandon all her present employments at once, but a law should be enacted at once providing for the change to take place as rapidly as it is practicable to do so. All county convicts should also be required to labor upon the public roads under direction of the proper county authorities, and should be engaged upon second class or county roads. Let the State build the roads from county seat to county seat, and the county to build all other roads in the county. Mr. Wooten's ideas are in line with the wishes of a great majority of the people of Texas, and his bill will no doubt prove a popular one, though it may not pass at this term.

A Wonderful Tripod.

Mr. Burtow McLendon has presented his office with a nice home-made stool. This stool is constructed on the most modern plans and is made of long leaf curly pine, highly polished and the whole structure is warranted to break any man's neck that tries to run over it. This stool may also be used as a step ladder, and as a scaffold to be used in the construction of a brick house, it has no equal. Burtow has our heart-felt thanks, and we have placed his name on our subscription books as a paid-up, life-time subscriber.—Center Daily Champion.

It may have been as muddy in Nacogdoches at some time in the past, but we haven't run up on any "oldest inhabitant" who ever saw it worse than at this writing.

UP IN THE PICTURES.

Nacogdoches, the Center of Some Important Lumber Deals.

Houston Chronicle:

Mr. Arch McDonald, a prominent timberman, of this city, has just returned from Davenport, Iowa, where he made a deal with the stockholders of the Hayward Timber Company, the Eagle Mill Company and the Cable Lumber Company in which he sold to them a track of land in Nacogdoches county for a little more than \$100,000. This is the second large deal that these people have made in Nacogdoches county in the past 12 months. The first was closed about a year ago. The two tracks embrace an area of something like 40,000 acres.

The parties concerned are prominent in lumber as well as in other industries, and operated extensively in Minnesota and other states, and also in Arkansas, where they have big interests.

In connection with this deal it is learned that the capitalists purchasing the land intend to erect a large lumber mill in Nacogdoches county within the next 18 months or two years. The mill will be the most modern plant of its kind in the south, it is said. It will be similar to the mill at Eagle, Ark., which is at present conceded by many lumbermen to be the most complete mill in the country.

The site of the new plant will be on the extension of the Cotton Belt railroad from Lutkin, somewhere near where it touches the line of Nacogdoches county.

The deal is regarded as a most important one, as it brings capital to Texas which has never operated here before, and also because, with the deal that was made a year ago, it is one of the largest made with northern capital in the past four or five years. There is no doubt that the purchasers represent a large amount of money, and when once in the state they will be likely to invest some of it in Texas enterprises.

The arrest of Mr. A. Wettermark at Houston last Thursday created a sensation not only in Henderson but throughout the whole of East Texas. When arrested Mr Wettermark was on his way to Galveston on business, accompanied by Mr. J. H. King, of this place. The arrest was occasioned by a bill of indictment returned by the grand jury charging him with receiving money on deposit when known to be in a failing condition. The deposits in question were made Friday and Saturday before the suspension on Monday. To acquit himself of this charge it will only be necessary for Mr. Wettermark to establish the fact that his bank was in a solvent condition up to closing of business Saturday evening, and his ability to do this is unquestioned by those in a position to know. This being the case the bill of indictment will amount to nothing.—Rusk County News.

U. D. C.

The Nacogdoches Chapter of the U. D. C. is in receipt of a circular letter from the state committee on anniversaries. This letter advises that each chapter President appoint a committee of as many members as is deemed desirable in order to carry out the work of celebrating our Southern anniversaries this committee having the power to appoint sub committees, and the idea being for all to unite in observing Confederate days, and especially to interest Southern children in aiding in celebration. The chapter committee suggests requesting the trustees, Superintendent, and teachers, of the public schools to commemorate the birth-day of Robt. E. Lee, Pres. Jefferson Davis and Hon. John H. Reagan. It further requests that the committee petition our representative and State senator to vote for the bill which will be introduced at this year legislative session, making the birth-day of Jefferson Davis a legal holiday. In pursuance of the requests contained above, the following committee is appointed with full power to appoint sub committees:

Mrs. E. A. Blount.
 Mrs. Leta Matthews.
 Mrs. Chas. Hoya.
 Mrs. S. W. Blount.
 Mrs. J. A. Drewry.
 Mrs. G. B. Crain.
 Mrs. Beatrice Mims.

The celebration of General Lee's birth day being too near at hand for a program to be arranged, the committee are requested to ask Supt. R. F. Davis to have an address made to the scholars telling them what day it is. Memorial day is on Apr. 26th, and June 3rd is the birthday of the Confederacy's president. The last anniversary is one lately and appropriately added to the list by the motion of Mrs. M. M. Rosenberg of Galveston; the birthday of Hon. Jno. H. Reagan;—the last of Jefferson Davis' cabinet still spared to us. The committee is requested to act on the matters referred to above, as soon as possible. The honor due and deserved, paid to the memory of the dead and as a just tribute to the few living heroes left among us, will lead the children of our fair Southland to love them also, and to take up the work with loving eager hands, when we are no longer able to carry on.

The letter of the State Anniversary committee can be seen at any time by any one who wishes to refer to it, as it is too long to publish entire.

Mrs. G. H. Davidson.
 Pres. Stone Fort Chapter,

Who Are They?

Logansport, Journal: Monday afternoon a couple from Nacogdoches came in on the mixed presumably to be married, but the youthful age of the prospective groom and would-be bride prevented further negotiations. The child, for she was nothing else but a child, bore evidence of the direst poverty, and with it was repulsively unkempt, appeared more an object of charity than a prospective bride. The prospective groom, who could not have been over eighteen, was everything else but pleasing to look upon. His face showed brutish indecision and he was lacking in the ordinary intelligence for one of his age. The couple attracted more than ordinary attention from the passengers on the mixed and they were the observed of all observers when they got off the train. They made a mistake in coming to Logansport with the expectation of being married, as both justices unhesitatingly refuse to issue licenses to children, and especially in cases like the one mentioned above.

This couple secured licenses in Mansfield yesterday and were married at the home of J. W. Liles last night, Elder J. F. Simms of Cook performing the marriage ceremony.

MOTHERS
 TESTIFY TO THE BENEFITS THEIR
SICK BABIES
 HAVE RECEIVED FROM THE USE OF
LAXAKOLA

Having received your sample of Laxakola, was very much pleased with it, and have purchased a bottle for my baby. The Laxakola did wonders for my little one of bowel troubles. I have given up pills and give my baby nothing but Laxakola and find it clearest and a great purgative. I got it from C. F. & H. A. Brown, cor. Union and Purchase sts., Bedford, Mass.

Mrs. CLARENCE CASWELL, Smith Mills, Mass. North Dartmouth.

Enclosed please find 5 cents in stamps for a bottle of Laxakola. I used your sample bottle and it did all you claim for. It helped my baby wonderfully.

Mrs. JOSEF PASWACK, Dauphin Co., Pa. Union Deposit.

I wish to thank you very much for the good Laxakola has done my little niece, Marion Lurline Bass. She is only two and one-half years old, and has suffered something awful from constipation. She has never had what you would call a natural movement. Sometimes we were almost afraid of convulsions, it hurt her so much, and she would be so frightened.

LAXAKOLA is a pure, gentle and painless liquid laxative, and contains valuable tonic properties, which not only act upon the bowels, but tone up the entire system and purify the blood. A few drops can be given with safety to very young babies, which will often relieve colic by expelling the wind and gas that cause it. Great relief is experienced when administered to young children suffering from diarrhoea, accompanied with white or green evacuations, as it neutralizes the acidity of the bowels and carries out the cause of the fermentation. LAXAKOLA will aid digestion, relieve restlessness, assist nature and induce sleep. For constipation, simple fevers, coated tongues, and infantile troubles arising from a disordered condition of the stomach, it is invaluable.

Try it Today. Send for a Free Sample. It May Save your Baby's Life or Prevent a Long and Serious Illness. It Costs Nothing! Send for It and mention Your Druggist's Name.

SHOOT the dog-goned boll weevil. That'll kill him.

JIM HOGG was an ardent supporter of Neff for Speaker, while Joe Baily was equally as zealous in Schluter's behalf. "Neff" ced.

THE Standard Oil octopus has invaded Germany and is being so keenly felt that the Reichstag has passed a resolution levying a duty on refined petroleum.

SENATOR BAILEY goes on record as being opposed to making reciprocal trade arrangements by means of treaties, with any country, asserting that it is clearly unconstitutional.

THE executive committee of the Texas farmers, congress recently held a meeting in Dallas and fixed the date of the next session of the congress at College Station for July 7th to 10th, 1903.

No move has yet been made towards any sort of fire protection. It would be worth a lot of any man's money not to have his hair turn gray with anxiety every time a pistol shot is heard in the town, or a lightning bug shines extra bright.

THE SENTINEL is under obligations to Judge Middlebrook for his thoughtfulness in placing us on the "exchange" list for the Legislative Record. He is the first Representative who has ever shown us this courtesy without special request.

THE Venezuelan government has clothed Minister Bowen with plenary powers to act for Venezuela in the adjustment of her difficulties with the powers, and Mr. Bowen has given out the statement that he has strong hopes of a settlement without referring the question to the Hague court.

CONGRESS did a righteous thing when it rose up as one man and put coal on the tree list, or practically so. The conditions demanded this prompt and decisive step, and it is believed this action will bring some of the relief so badly needed by sufferers from the present coal famine in the United States.

THE Alto Herald suggests a good roads convention to be held by the people of Cherokee county and thinks some definite plan might be agreed on for materially improving the public roads. This is the all absorbing topic now, and something will have to be done or travel and traffic will be almost stopped pretty soon.

NACOGDOCHES is surely between two evils. In dry weather it is in imminent danger from a general conflagration, and when it rains the roads are impassable, even in the city limits. The citizens live in a state of alternate apprehension and discomfort and cannot enjoy any sort of weather. How much longer must we endure this state of affairs?

THAT BAPTIST COLLEGE.

Speaking upon the question of moving the East Texas Baptist College from Rusk to Nacogdoches, the Baptist Echo, published at Jacksonville, says:

"We are sorry for Rusk, we are sorry indeed for the Baptists of East Texas who put their money into this enterprise. But we feel most sorrowful for the parties who are responsible for this deplorable condition. We have always heard that "honesty was the best policy" and this is true of institutions of learning as well as individuals:

Bro. Maxwell says that "before the school could go anywhere it would be necessary for the State Convention to act on it." We think he is eminently correct but the "Commission" did not take time for Cherokee Association to act on it before it was ruthlessly taken out of her hands. He further adds: "But I say in full confidence this people have it in their power to prevent a removal." This we very much doubt. The "Commission" is boss and when he sayeth "go" Rusk need not say "nay." It may be however that "The Commission" simply wants Rusk to put up a few hundred for repairs and thereby secure the college to themselves, for Hon. J. B. Long well says that the school roll will show that Rusk has furnished four-fifths of the students of the institution, so we conclude that it is not students but something else that the "Commission" wants of Rusk. We shall wait and see what we shall see.

THE legislature convened in 28th regular session Tuesday. After taking sixty-six ballots Pat Neff, of Waco, was elected speaker of the house of representatives. The Sentinel had a mighty leaning toward Schluter, and we are gratified that he made a strong race. But Neff is good enough and neither Schluter or his friends are nursing any sores.

MILLIONAIRES really do die just like common folks some times. T. T. W. Grady, a Canadian millionaire and an extensive grain operator in the United States, died suddenly of apoplexy at the Rice Hotel in Houston yesterday. He was traveling in the interest of the immense elevator company of which he was the head when death took him unawares.

THE local papers of Cherokee county are thrown into a "flurry" verging on frenzy over the talk of moving the East Texas Baptist College from Rusk to Nacogdoches. "Shake not thy hoary locks at us," brethren; "Thou canst not say we did it." We didn't start the row, but Nacogdoches has her net out for all the good things she can catch. If this institute is to be moved we want it. If Rusk succeeds in holding it she will have our congratulations. If she don't succeed, then Nacogdoches will make somebody hustle if she does not secure the prize.

THE most foolish thing a man with political aspirations ever did was to get mad with his local paper.—Palestine Herald.

And the most foolish thing a local paper can do is to care a "dad-blame" if he does

All of Nacogdoches county's money was in Wettermark's Bank.—Center Champion.

Where did you get that information? The county treasurer did not have a cent in that bank, and the tax collector only had about \$700 of the State's money there. Nacogdoches county saved her money by electing a new treasurer, who for personal and other reasons transferred all the county's funds from the Wettermark bank to the Commercial National.

It is gratifying to learn from The Sentinel that the big excursion Monday "went from Nacogdoches to Houston," and will doubtless be interesting news to The Sentinel to state that the excursionists were royally entertained in Lufkin for three hours, during which time they forgot that Nacogdoches was on the map.—Lufkin Tribune.

We do remember, since you mentioned it, that trains stop for "water" at Lufkin. And when a fellow gets full of Lufkin "water" he is liable to forget everything.

SENATOR HENDERSON got sat upon the very first dash out of the box by the state Senate. He wanted to reduce the clerical force in the Senate upon the plan of economy and the only vote his resolution received was his own. If the Senate and house will sit down on all these "economists," who really cost the state more money in time wasted than the adoption of their ideas would save, there would be less talk and more business done, and much shorter sessions.

THE defeat of Schluter for speaker of the house of the present legislature is a blow to the influence of U. S. Senator Joe Bailey, as well as a disappointment to Mr. Schluter and his friends. It has been known for some time that Senator Bailey was "shaking the bushes" for Schluter, and now it is claimed that to the resentment of this outside influence is due Mr. Neff's victory. This incident may serve as a warning to outsiders, and lobbyists generally, that the 28th legislature is determined to manage its own affairs without their assistance.

Dr. Lignoski was here last Saturday, and informed us that he is still working for the release of Mac Stewart from a Mexican prison. It was through the Doctor's efforts that Stewart's sentence of death was reduced to twenty years imprisonment, and if his term of imprisonment is ever reduced it will be through the Doctor's continued efforts.—Rusk Journal.

Poor Stewart. It is more likely that death alone will reduce his term of imprisonment. For ten long years he has been confined in a Mexican dungeon, and it is questionable as to whether it was really a humane act of his dear and zealous friend in saving him from the hands of the executioner.

BLACK MOLASSES.

Few people who eat "store" molasses have any idea of what they are really eating. We have no assurance of the purity of any table syrup outside of that produced by our farmers at home. The home production, however, is largely suppressed by the competition of counterfeit stuff, and the syrup-making industry is rendered unprofitable right here in the heart of a fine cane growing country.

For information of those who may be interested, we reproduce the following extract from the January report of the Texas experimental stations. Speaking of what is called "black strap" molasses, the report says:

"This is the molasses commonly sold as 'feed molasses,' and has for the last few seasons attracted considerable attention. It is the refuse left after all the sugar that will crystallize has been taken out of it, and is known to the sugar manufacturer as the 'third molasses.' It is a thick, black mass having somewhat the appearance of coal tar, but a pleasant odor and a sweet taste. In the past it has found its best sale with the 'syrup mixer,' who takes a quantity of this and a quantity of glucose syrup made from starch, and makes therefrom the attractive and high priced 'golden syrup,' 'sugar house molasses,' etc. This art of the 'syrup mixer' is still going on, much to the detriment of the Southern farmer, who has it in his power to make a genuine cane syrup. Within the last two seasons, especially, there has been some effort made to attract attention to this molasses as feed stuff. Many Louisiana planters, and Col. Ed Cunningham, of Sugarland, Texas, have for several years fed it to their work mules. In some cases it was supplied in feed troughs so that the animal could get all that was wanted. It seems that no bad effects followed this liberal use. It has been tried at various times in a small way as a means of increasing the appetite of fattening cattle, but its value as a real food is still in the experimental stage."

An analysis is given in the report which shows that this refuse is not of a very high value as feed stuff. It sells at 5c and less per gallon. The report closes with the assertion that the state must soon pass a law regulating the indiscriminate sale of this mixed refuse of the sugarhouse with the artificial syrup of the glucose factory.

A DISPATCH from Washington announces that the controller of the currency has approved the application of a number of capitalists, mainly Shreveport men, for a charter to establish a new bank at Nacogdoches. These men saw a fine opening for a banking concern after the collapse of the Wettermark bank, and rushed in on the "ground floor." Had they waited a few days more before presenting their application, they would have probably been "cut out" by another company, as it is generally un-

derstood that there was a move on foot in this direction, in which some Nacogdoches people are interested. The new bank is to be organized with a capital stock of fifty thousand dollars, and will be called the Stone Fort National Bank of Nacogdoches.

Ex-Governor Hogg was very pronounced for Mr. Neff for speaker, and wrote him a strong letter. But then, come to think about it, Governor Hogg and the Courier always line up on the right side.—Tyler Courier.

It must have been the Courier's influence that won for Neff, because they say Hogg's influence in Texas politics is played out.

HON. J. R. WOOTEN, the representative from Fort Bend county, has prepared a bill which he will introduce in the 28th legislature and urge its passage. The bill is for a general road law, providing for the working of the State convicts upon the public roads, and take them out of competition with free labor. The long term convicts should be placed in the walls of the penitentiary and engaged in the manufacture of the best improved road making machinery and implements, and the short term convicts should be placed upon the roads and engaged at making first class roads from one county seat to another. Ultimately, every convict of the State should be engaged as above indicated. However, this will have to be approached gradually. The State is now so extensively engaged in farming and other pursuits that it would be impracticable to abandon all her present employments at once, but a law should be enacted at once providing for the change to take place as rapidly as it is practicable to do so. All county convicts should also be required to labor upon the public roads under direction of the proper county authorities, and should be engaged upon second class or county roads. Let the State build the roads from county seat to county seat, and the county to build all other roads in the county. Mr. Wooten's ideas are in line with the wishes of a great majority of the people of Texas, and his bill will no doubt prove a popular one, though it may not pass at this term.

A Wonderful Tripod.

Mr. Burtow McLendon has presented this office with a nice home-made stool. This stool is constructed on the most modern plans and is made of long leaf curly pine, highly polished and the whole structure is warranted to break any man's neck that tries to run over it. This stool may also be used as a step ladder, and as a scaffold to be used in the construction of a brick house, it has no equal. Burtow has our heart-felt thanks, and we have placed his name on our subscription books as a paid-up, life-time subscriber.—Center Daily Champion.

It may have been as muddy in Nacogdoches at some time in the past, but we haven't run up on any "oldest inhabitant" who ever saw it worse than at this writing.

UP IN THE PICTURE.

Nacogdoches, the Center of Some Important Lumber Deals.

Houston Chronicle:

Mr. Arch McDonald, a prominent timberman, of this city, has just returned from Davenport, Iowa, where he made a deal with the stockholders of the Hayward Timber Company, the Eagle Mill Company and the Cable Lumber Company in which he sold to them a track of land in Nacogdoches county for a little more than \$100,000. This is the second large deal that these people have made in Nacogdoches county in the past 12 months. The first was closed about a year ago. The two tracks embrace an area of something like 40,000 acres.

The parties concerned are prominent in lumber as well as in other industries, and operated extensively in Minnesota and other states, and also in Arkansas, where they have big interests.

In connection with this deal it is learned that the capitalists purchasing the land intend to erect a large lumber mill in Nacogdoches county within the next 18 months or two years. The mill will be the most modern plant of its kind in the south, it is said. It will be similar to the mill at Eagle, Ark., which is at present conceded by many lumbermen to be the most complete mill in the country.

The site of the new plant will be on the extension of the Cotton Belt railroad from Lutkin, somewhere near where it touches the line of Nacogdoches county.

The deal is regarded as a most important one, as it brings capital to Texas which has never operated here before, and also because, with the deal that was made a year ago, it is one of the largest made with northern capital in the past four or five years. There is no doubt that the purchasers represent a large amount of money, and when once in the state they will be likely to invest some of it in Texas enterprises.

The arrest of Mr. A. Wettermark at Houston last Thursday created a sensation not only in Henderson but throughout the whole of East Texas. When arrested Mr. Wettermark was on his way to Galveston on business, accompanied by Mr. J. H. King, of this place. The arrest was occasioned by a bill of indictment returned by the grand jury charging him with receiving money on deposit when known to be in a failing condition. The deposits in question were made Friday and Saturday before the suspension on Monday. To acquit himself of this charge it will only be necessary for Mr. Wettermark to establish the fact that his bank was in a solvent condition up to closing of business Saturday evening, and his ability to do this is unquestioned by those in a position to know. This being the case the bill of indictment will amount to nothing.—Rusk County News.

U. D. C.

The Nacogdoches Chapter of the U. D. C. is in receipt of a circular letter from the state committee on anniversaries. This letter advises that each chapter President appoint a committee of as many members as is deemed desirable in order to carry out the work of celebrating our Southern anniversaries this committee having the power to appoint sub committees, and the idea being for all to unite in observing Confederate days, and especially to interest Southern children in aiding in celebration. The chapter committee suggests requesting the trustees, Superintendent, and teachers, of the public schools to commemorate the birth-day of Robt. E. Lee, Pres. Jefferson Davis and Hon. John H. Reagan. It further requests that the committee petition our representative and State senator to vote for the bill which will be introduced at this year legislative session, making the birth-day of Jefferson Davis a legal holiday. In pursuance of the requests contained above, the following committee is appointed with full power to appoint sub committees:

Mrs. E. A. Blount.
Mrs. Lelia Matthews.
Mrs. Chas. Hoya.
Mrs. S. W. Blount.
Mrs. J. A. Drewry.
Mrs. G. B. Crain.
Mrs. Beatrice Mims.

The celebration of General Lee's birth-day being too near at hand for a program to be arranged, the committee are requested to ask Supt. R. F. Davis to have an address made to the scholars telling them what day it is. Memorial day is on Apr. 26th. and June 3rd is the birthday of the Confederacy's president. The last anniversary is one lately and appropriately added to the list by the motion of Mrs. M. M. Rosenberg of Galveston; the birthday of Hon. Jno. H. Reagan;—the last of Jefferson Davis' cabinet still spared to us. The committee is requested to act on the matters referred to above, as soon as possible. The honor due and deserved, paid to the memory of the dead and as a just tribute to the few living heroes left among us, will lead the children of our fair Southland to love them also, and to take up the work with loving eager hands, when we are no longer able to carry on.

The letter of the State Anniversary committee can be seen at any time by any one who wishes to refer to it, as it is too long to publish entire. Mrs. G. H. Davidson.
Pres. Stone Fort Chapter,
U. D. C.

Who Are They?

Logansport Journal: Monday afternoon a couple from Nacogdoches came in on the mixed presumably to be married, but the youthful age of the prospective groom and would-be bride prevented further negotiations. The child, for she was nothing else but a child, bore evidence of the direst poverty, and with it was repulsively unkempt, appeared more an object of charity than a prospective bride. The prospective groom, who could not have been over eighteen, was everything else but pleasing to look upon. His face showed brutish indecision and he was lacking in the ordinary intelligence for one of his age. The couple attracted more than ordinary attention from the passengers on the mixed and they were the observed of all observers when they got off the train. They made a mistake in coming to Logansport with the expectation of being married, as both justices unhesitatingly refuse to issue licenses to children, and especially in cases like the one mentioned above.

This couple secured licenses in Mansfield yesterday and were married at the home of J. W. Liles last night, Elder J. F. Simms of Cook performing the marriage ceremony.

Our name isn't Dennis
If the bank did break.
Loss of money's not a menace
When there's plenty more to make.
But till the road inspectors
Make provision against flood,
It's useless to correct us,
Our name is—Mud.

It may not be dishonorable,
but it is certainly not "fare"
to ride on a railroad pass.

ROOSEVELT seems to think
that the office of president of
these United States combines
the characteristics of dictator
and detective.

THE Houston Chronicle refers
to Ex-Gov. Hogg as an
"oil magnet." We always
knew Gov. Hogg had a very
attractive personality.

THE Armour Packing Company
are urging the farmers
of Texas to raise more hogs,
proposing to buy all they may
have to sell for their Fort
Worth packery.

THE chief event at Austin
today is the inauguration of
Gov.-elect Lanham and Lieut.
Gov.-elect Neal. After this
event the legislature will settle
down to business.

WHAT'S the use to fuss
about the mud? Like the
Arkansas Fiddlers' roof, our
streets are as good as any-
body's when it quits raining,
and who is going out in the
rain to fix 'em?

ITS odd, but when a man is
short he has a long face.
When he comes 'round and
settles up, he is straight and
his account is square, and if
he is up against a hard propo-
sition he is down in the mouth
about it.

THE Houston Post says
"it is in the air that trusts are
to be controlled." Well people
can't wait till trusts go up in
the air to control them. The
trusts need controlling while
they are on the earth, and try-
ing to own it.

It looks very much like
Columbia has been thrown
over, and if any interoceanic
canal is ever built it will take
the Nicaragua route. The
department of state has with-
drawn negotiations for the
Panama route.

SINCE the Holt administra-
tion has taken charge of
Houston's affairs, so much
"loose" money has been
found lying around that it has
been decided to raise the
mayor's salary to four thousand
dollars a year.

AUSTIN is infested with an
unusual visitation of tramps,
and the Statesman wants to
put them to work on the streets.
It might be a God send to
Nacogdoches, if a lot of hobos
would hit this town and get
put to work on the streets.

IF San Augustine should
get all of the railroads point-
ing in that direction, Nacog-
doches, or any other town,
will indeed have cause to be
jealous of our Red Land
neighbor. She will be the
railroad center of East Texas.

CUBA'S FINANCES.

The present condition of
Cuba's finances would indi-
cate that she is fully capable of
self-government. We quote
the following from the Cuban
Investor and Guide, a neat
little monthly published at
Havana. The Guide says:

"The Secretary of Finance
has issued his report for De-
cember, 1902, which shows a
decided improvement over the
month preceding and also over
the corresponding month last
year. Custom house collec-
tion during December amount-
ed to \$1,338,942.41, an in-
crease of \$356,792.04 over
November. Internal tax re-
ceipts amounted to \$76,617.54
as against \$66,888.32 for No-
vember. Total receipts for
the month being \$1,134,459.95
an increase of \$366,521.26
over November. The accounts
for the month have not yet
been closed, but the secretary
estimates that after paying off
all obligations there will re-
main a balance in the treasury
of one million six hundred
thousand dollars, being a net
gain of something more than
a million dollars since the
United States surrendered the
treasury to the new republic.
A very healthy feature of the
new government is that some-
thing has been added to the
cash balance every month."

THE shooting of Editor
Gonzales by Lieutenant Gov-
ernor Tillman on the streets of
Columbia, S. C., was a most
brutal and cowardly act, and
all the explaining and whim-
pering of Mr. Tillman will
never justify his act. Gonza-
les was unarmed and endeav-
oring to avoid Tillman when
he was shot down like a
dog without warning, because
he had dared to criticise Till-
man's political acts in his pa-
per.

EDITOR GONZALES, who was
so ruthlessly shot down on the
streets of Columbia, S. C., by
Lieut-Gov. Tillman, is dead,
and the people of South Caro-
lina are in an inflammable frame
of mind which makes the mur-
derer prefer the safety of his
cell to that liberty which
would deliver him into the
hands of the outraged and en-
raged people, well knowing as
they do that Tillman will
never be sufficiently punished
by law for his atrocious
crime against the peace and
dignity of the state.

THE managers of the in-
augural ball liked to have
made that great occasion a
failure by requesting all par-
ticipants to appear in full dress
suits. There wasn't a half
dozen full dress suits in the
whole legislature and they
bucked worse than Joe Bailey
did on a similar occasion in
Washington. The committee
apologized and said they didn't
mean it, and anybody could
come dressed in any style he
pleased and so forth, and har-
mony once more reigned 'sup-
reme and they "went on with
the dance."

AFTER a faithful stewar-
ship of more than sixty years,
Judge John H. Reagan re-
tires from public service today.
He has served his people nobly
and has had a glorious care-
er. He retires to his farm
near Palestine, where he will
devote his time at present to the
completion of "The Life, Let-
ters and Speeches of John H.
Reagan," a book which has
long been promised the public
and which is waited for with
impatience.

THE Rice Growers Associa-
tion of America is in session
in Houston, which is now the
center of the rice fields of
Texas. The rice industry is
quite as big a thing as oil in
Texas now. A vast area of
the coast country that was
formerly considered good for no-
thing except grazing purposes
has turned out to be first-class
rice lands, and millions of dol-
lars are being invested in rice
farms, irrigation plants and
rice mills, bringing in new
people and new capital, and
adding a new impetus to the
rapid development of that sec-
tion.

"FORTY pages today" is the
first line in the Houston Sunday
Post. Just think of a fellow
setting down to forty pages,
two hundred and eighty col-
umns, of reading matter, (of
course we have to look at the
ads.) Then there is the Gal-
veston News with twenty-
eight pages and the Shreveport
Times, twice its usual size, and
a dozen more papers "puffed
up" with their Sunday clothes
on, all tumbling in at once on
a Sunday evening. It's too
much for the exchange editor
to devour all at once; so we
just laid 'em all down last
night and read the Timpson
Times and went to bed.

THE Washington Post has
a long article concerning the
tests now taking place at
Washington to determine
whether borax, as a preserva-
tive of meat, is deleterious to
health. Secretary Wilson
wants to experiment on infants
and invalids, while the doctor
in charge is opposed to the
plan. It seems that Germany
is objecting to our prepared
meats, and the Secretary of
Agriculture is determined to
prove that borax is the elixir
of life. In the meantime,
most of us, like the Germans,
will go on preferring our meat
without borax.

MONDAY, January 19th, was
the birthday of Gen. Robt. E.
Lee. He was celebrated in al-
most every city in the South.
In Virginia the State and City
public offices were closed.
In Atlanta exercises were held
in the Hall of Representatives.
Thomas Nelson. Page deliv-
ered the annual address to the
Virginia society. In Nash-
ville, Gen. Fitzhugh Lee de-
livered an address. Next
year will see Lee's birthday
celebrated in nearly every city
in Texas, and it will be large-
ly due to the influence of the
United Daughters of the Con-
federacy. We all have al-
ways honored and revered
our Southern leaders, but it
takes organization in this as
in everything else to properly
celebrate and pay them the fit-
ting tribute to their greatness.
All honor to the U. D. C., in
every state in the Southland.

This office force drank wa-
ter off of a dead cat all last
week, but it tasted!!!!—Oak-
woods Call.

Wow! Eu-rope! How in the
world did you come to drink
water? In you ignorance of
the taste of water did you
think all water tasted like that?
—Houston Post.

That reminds us that a lot of
Nacogdoches fellows drank
water off a dead negro for
nearly a week last summer.
But the negro was dead drunk
when he fell in the well.

Poor old Nacogdoches!
Your days of supremacy are
about over and you may now
relinquish your proud title to
the "Hub of East Texas!"
Troubles never come singly.
Between new railroads, fires,
floods and bank failures, you
seem to be up against it hard.
Peace to thy ashes.—Shelby
Democrat.

"Up against it" almost as
hard as the editor of the Dem-
ocrat. But just keep your
optics on the "Hub," old man.
We'll give you a spin yet that
will make your head swim.

As one result of failure of
the Wettermarks three whole-
sale houses have withdrawn
their traveling salesman from
this territory. The Nacogdo-
ches Grocery Company, Fos-
ter & Glassell, and W. F. Tay-
lor & Company, have called
off their men.—Shelby Demo-
crat.

That's news with a ven-
geance. As a result of the
establishment of the Nacog-
doches Grocery company,
the other firms mentioned
"called off their men" months
ago. The bank failure did
not effect the Nacogdoches
Grocery company. It is here
to stay.

Judge Davis yesterday fin-
ed a man one hundred dollars
for carrying a gun. It didn't
do the man a bit of good to
plead guilty. Hereafter when
the court gets a lick at a gun
toter, the court is going to
make him remember the cir-
cumstance for days and days
to come.—Center Daily
Champion.

We love to see the courts
stick it to them. But as apt as
any way this fellow was one
of your milk and cider soft-
lings who wouldn't have used
the gun if he had got a chance
and didn't even have nerve
enough to fight his case. It
is the brazen, bragging bullies
that are always on the way to
the "gun shop," or carrying
a gun home and are always
"beating the case" that we are
most anxious to see the courts
get in after.

THE failure of the Fleager
bank at Jacksonville is some-
what after the manner of the
Wettermark delatcation, only
on a smaller scale. The
losses are estimated from
\$75,000 to \$100,000, with a
large number of small credi-
tors. C. N. Fleager and his
two sons, who were connected
with the bank, skipped out on
Thursday and on Monday the
bank closed its doors, giving
them four days' start. They
have not been heard from
since they left Jacksonville.
The creditors have filed a pe-
tition in bankruptcy, and the
same course will be taken with
reference to the bank's affairs
as is pursued in the Wetter-
mark failure. The Jackson-
ville banker is evidently copy-
ing after the Nacogdoches
pattern. Nacogdoches always
leads.

THE Tyler Democrat and
Reporter has just installed a
new Cottrell press in its office
and has donned a new dress.
It had to take two days off to
"adjust its toilet" while putting
on its new clothes, for which
it presented a neat apology,
and is again greeting its read-
ers with a cleaner face, a
brighter smile and a perfect
make-up that makes it indeed
"fair to look upon."

If there ever was an over-
worked, mis-used, worn out
word, it is that Teddyism,
"strenuous," that brings with
it always a vision of rough
riders and a glimmer of false
teeth. The word was a
strong one at first and carried
well, but, weakened by over-
use, is about to take its place
with "innocuous desuetude,"
"dull thud," "high noon" and
other worn out hacks in the
boneyard of worn out vocabu-
laries.

THERE is very little matter
of interest in the proceedings
of the legislature so far. The
usual appropriations for per-
diem and mileage, etc., have
been made, and a few penny
wise and pound foolish fellows
who have "ideas" on econo-
my have been sat upon. The
legislative machinery has to
be "oiled up" during the first
few days of the session, before
it can be put in full motion.
There will be plenty to report
from the State capitol in a
little while.

A CIRCULAR letter has been
issued by the president of the
S. P. C. A. urging objections
to a bill now before the house
of representatives to extend
the time which cattle
may be kept crowded to-
gether during transport with-
out food or water, from 28 to
40 hours. Both common hu-
manity and common sense are
against this extension, and it
is to be hoped that our repre-
sentatives have both. The
letter states what all know to
be true, that the proposed ex-
tension will subject the stock
to needless torture and land
them at their destination ut-
terly unfit for human food.
This society does not believe
that live cattle should be ship-
ped long distances in crowded
cars. This may at times not
be possible to avoid, but at
any rate their sufferings should
not be added to.

"Harpers Weekly suggests
that when the wireless system
of telegraphy has been de-

veloped, if John Smith wishes
to talk to his brother, he may
send out the message "James
where are you?" and receive
immediately the answer, "On
top of Mt. St. Elias," or "In
the Klondyke digging gold,"
or "Am on Chicago limited;
home Sunday." This pre-
diction is probably true, we
would hesitate to challenge its
possibility, if Harpers Week-
ly had prophesied that the an-
swer could be, "Dead." But
one thing we do know, and we
assert it without fear of suc-
cessful contradiction. The
sender of those messages will
always have to put up the cash
for the ten words. They'll
never be sent, "Collect."

We Need Him.

Nacogdoches will have an-
other bank, maybe two of them.
Many of our leading citizens
have expressed themselves as
being heartily in favor of the
proposed bank of the Hon.
Geo. W. Burkett, one of the
strongest men and ablest fi-
nanciers in Texas. He is al-
ready president of three or
four banks, and the leading
spirit in as many more. He
is a broad-gauged progressive
man, with vast interest in the
various interprises that are
pushing Texas to the front.
Besides his banking and other
interests, he is connected with
the big lumber industry of East
Texas and is a very influential
man in railroad circles. Last
year he was the nominee of
the republican party for gov-
ernor of Texas. His influ-
ence among the republicans,
now in control of the national
government, would be exerted
in our behalf at every oppor-
tunity if he had interests here.
It takes all kinds of men to
push and pull to build a city.
He would also be very valu-
able in helping to capture other
railroads and other factories
and other good things. He is
just the kind of man we need
and we will welcome him.

That Queer Couple.

Last Friday a man walked
into the county clerk's office
and asked the clerk, E. M.
Weeks to issue marriage
license to Jesse Mosby and
Miss Alsie Hammond. The
clerk did so, and tearing the
license from the stub in the
record book, handed them to
the man and also informed him
to pass over the price, which
was \$1.50. The man said
he had only \$1.00, but would
step out and get the remain-
der. As he did so, Mr.
Weeks' attention was attracted
to the couple standing in the
corridor outside. The man
was apparently about 20 years
of age and of very rough look-
ing appearance, while the
would-be- bride was a mere
child, not more than 12 years
of age. She was dressed in
the commonest kind of coarse
cloth, her hair was unkempt
and her general appearance
denoted geart poverty. Mr.
Weeks at once sought the man
who came for the license, took
them away from him and re-
fused to issue license at any
price. The couple then left
and went to Logansport,
where they applied to two
different justices of the peace,
and both refused to perform
the marriage ceremony.—

Dr. W. I. M. Smith returned last night from Houston.

K. H. Baxter of Looneyville, is in the city today.

Elmer Weaver is spending a few days in San Augustine.

E. L. Ruark is here with a lot of cotton from Mt. Enterprise.

Bud Furlow, is one of the Rusk boys here with cotton today.

W. N. Bailey is still quite sick, and is reported no better today.

A. Tubbe, from Tubbe's mill, is in the city on a business trip.

Henry Reid spent several days prospecting in San Augustine last week.

Mr. and Mrs. W. M. Vaught, of Looneyville, spent last night in the city.

Mrs. J. M. McCuistian has returned from a two week's visit to San Augustine.

R. R. Loy, of Linn Flat, is trading today with the Nacogdoches Merchants.

Mrs. Ben S. Roberts, of Terrell, is the guest of Mr. and Mrs. Hal Tucker.

Will Baxter, was in town from Looneyville this morning, and called a few minutes at the Sentinel office.

White's Head-Ease is the only reliable headache and neuralgia remedy. For sale by Perkins Bros.

Stonewall Meador, of Geneva, spent last night in the city, the guest of his brother P. C. Meador.

Mrs. G. W. Schumake, of Mt. Enterprise, was shopping in Nacogdoches yesterday and today.

Mrs. R. F. Davis has returned from Center, where she has been visiting relatives since before the holidays.

Mrs. Judge Vasmer, of Houston, arrived on the afternoon train yesterday, and is visiting her sister, Mrs. Henry Garrison, on North street.

J. H. Muckleroy, and his two sons, prosperous and leading citizens of Martinsville, were in Nacogdoches this morning in spite of the bad roads.

Mr. John Burrows, Sr., killed an eight months old pig.

Mr. Burrows says he does not think the pig eats as much as two bushels of corn.

A great deal of cotton was seen on the streets today, though the roads are in such bad condition. The roads are never too bad to reach Nacogdoches with cotton for it is the best market in this section, but it is a pity that coming here cannot be made easier for our farmer friends. We have had an object lesson this fall and winter however, and it school will ever let out, and the weather get favorably, we will have better roads, and look after them more carefully than ever before. Nacogdoches has seen just what poor roads cost a community.

Melrose Letter.

Melrose, Jan. 20th, 1903.—Last Sunday evening quite a large crowd gathered at the residence of Mr. John Wilson to witness a marriage. After waiting a couple of hours a young man drove up with a pretty, sweet girl beside him in the buggy. He handed the license to the preacher with a five dollar bill nicely folded inside. The joyous crowd walked out to the gate and Mr. Will Morgan and Miss Ethel Fuller were joined in the holy bonds of matrimony. Rev. Jno. N. Wilson officiating. After many good wishes from all, they drove off to Black Jack which will be their future home. May their life be full joy and sunshine, and surely will be if they will take Jesus as their Savior and guide, for He is abundantly rich in gifts and wisdom.

Mr. Jim Brewer has moved back from Appleby, where he resided the past year. His many friends are glad to have him with them again.

Mrs. Bourland is visiting her siste, Mrs. D. S. Burk.

The farmers are plowing regardless of the bad weather. We see the merchants of Nacogdoches have a great many cheap things advertised in your paper, but the roads are too bad for country people to travel, and they cant come to town to buy them.

Mr. Henry Thomas is moving out on his farm, and we congratulate those people out there and feel that Melrose has lost while they have gained.

We beg God's best blessings in our dear country and the people.

Rev. E. M. Stephens preached here Saturday night and Sunday at 11 o'clock, and Rev. W. A. Spivey preached Sunday afternoon and night, promising to be with us again on the third Saturday and Sunday.

Farmers are beginning to think about another crop. Some have begun repairing fences, etc.

Messrs. Taylor Perritte and Albert Dean went to Nacogdoches Saturday to attend the Farmers Alliance.

Mr. Bob Crawford, who has been quite sick for the past two weeks, is slowly improving.

Mr. J. C. Martin's youngest child is very sick with erysipelas.

Messrs. Carl Blackshear and Erastus Blankenship are attending court at Nacogdoches.

Messrs. Hudson Hall, John Cade and Rufus Helms will leave Thursday for Lone Star, where they have secured employment.

Mr. C. Blankenship, the cotton seed buyer of this section, reports that he has bought about \$6,000 worth of seed this season, or about 300 tons. But he has got about all of them.

Dr. Blackshear has return-

ed from a visit to San Augustine.

The ginning season is about over. The two gins here put up 453 bales—J. C. Martin 150 and W. H. Morgan 203

The people of Black Jack, with one accord, extend congratulations to our worthy townsman, W. H. Morgan, who was married Sunday to Miss Ethel Fuller, one of Attoyac's most beautiful and accomplished young ladies. We all wish them a long and happy life of sunshine and prosperity.

Editor Sentinel—

Omen Texas, Jan. 19, 1903.—Mr. Littleton Herrin, of your town, but formerly of this place, has carried off from our midst one of the richest prizes ever won by man, Miss Lizzie Sartain, of Arp. She is universally admired, a lady of sterling worth, a most excellent christian woman. To know her is to admire her. I hope the people of Nacogdoches will give her a cordial welcome. The Ladies Aid Society of the Methodist church at Arp has lost one of its most active and useful members.

The Omen school is moving along smoothly.

I deeply deplore your bank failure. Would that I could repair your every loss.

Dead But Still Lives.

Mr. Jno. Overall was born Jan. 29, 1879, died Jan. 4, 1903. He had been an invalid for a number of years and really life had but few charms for him. John was a good boy. He had many friends and few enemies. He wanted to, and would have made his mark in the world, could he have only had health. He was a sturdy and studious pupil in school and the pride of his home. To fond parents, relatives, and friends, I would say weep not as those who have not hope. Live for God, be submissive to his will. The Lord giveth and the Lord taketh away. Blessed be the name of the Lord.

Willis Rosson Carr.

The following notice of the death of Mr. Willis Rosson Carr is copied from the Shreveport Elite, and is reproduced by request. The deceased was a brother of Mrs. J. N. Jackson of this city:

DIED

"In this city at 9:30 o'clock Sunday evening; January 11, 1903, Willis Rosson Carr, aged 22 years and 19 days.

Thus hath passed from earth in the prime and strength of young manhood a loved and cherished son, and dutiful husband. In such a sad hour words of consolation fall upon unheeding ears; and Time, the great consoler alone can heal the bruised hearts of the afflicted wife, mother, sisters and brother, and others near and dear who watched the flight of the pure spirit from the tabernacle of clay.

Rosson had many warm friends, who held him in highest esteem. He was a most worthy young man, his business capacity having secured for him a place of responsibility with that staunch firm of C. C. Hardman & Co., where he held the confidence of the entire connection. Five months ago he was married to a charming young lady of Texas, since which time love's dream was crowned with happiness until death invaded the home and borne away the youngest member of the family of a devoted mother.

The funeral took place on Tuesday morning from the family residence on Cotton street, where Rev. Dr. Edw. Mack of the First Presbyterian church, conducted the last sad service. Interment at the new Greenwood cemetery.

Floral offerings in many beautiful designs were placed on and about the grave. The following friends were pall bearers: Messrs. C. C. Hardman, Claude Crane, Frank O'Leary, Will Van Lear, Lee Cage, Scropshire, Smith and Banter. The bereaved have the heartfelt sympathy of the entire community. May the Giver of all Good, through his messenger comfort and console in this most trying hour."

Dont tau to see us before you buy your two horse breaking plows. We are making special prices for a few days. Lucas & Burk.

Mr. Jeff Hayter is in the city, having come in on his annual "squaring up" round. If we hadn't promised not to put his name in the paper we'd quote many humorous, yet philosophic expressions from him about "matters and things." He says he hasn't been as far up town as the opera house block since last February, and although he lives in town, he is almost a stranger on the streets. That sounds like he was entitled to the appellation, "the best farmer in the county."

I will be in our old office in the building now occupied by J. M. Weeks and all parties owing Dotson Bros. will please come and pay me or close their matters by note and secure same payable next fall.

Demosthenes

Could Not Speak

until he had cured himself of an impediment of his speech.

The finest flight of oratory may sound like the mumblings of an insane man, without a clear, distinct and forcible delivery.

So your printed message, however important, vital and interesting it may be, can suffer so from slipshod, careless, blotchy printing that it will fail to deliver its message.

Bad printing is to your advertising what defective, indistinct, enumeration is to an orator. You owe it to yourself to say the best that you have, and to say it the best you can.

Our printing is appropriate to every purpose because there is no sort of printing which should not be done as well as it can be done.

Estimates of all kinds cheerfully and promptly given. New ideas in printing, suggested, or new suggestions met half way.

Mr. L. H. Shelter left today for Cuba, via Houston. He will be gone two weeks or more, and will make a close study of tobacco soils, and other questions pertaining to the tobacco industry, while on the island.

Rev. A. J. Holt returned from Waco yesterday. He says that a committee has been appointed to come to Nacogdoches and report on conditions, and that the proposition made by the people of Nacogdoches was favorably considered.

To my Customers.

On account of short collection I am not able to do credit business for the next 8 months and will not open accounts on Jan. 1st 1903 as I have been doing in the past. All who owe me are requested to come forward and make settlement either with cash or good note.

B. B. Haltom.

Mr. W. H. Platt, of Thomas, county, Ga., is prospecting in Nacogdoches, with a view of moving to this section of Texas. While a young man, Mr. Platt is well versed in the science and experience of farming and is a man of education. He, like all others from his country, is amazed at our manner of making crops without fertilizing or carefully preparing land, and is favorably impressed with this country and its bright future prospects. He will most likely make investments here and at an early date may become a citizen of this community.

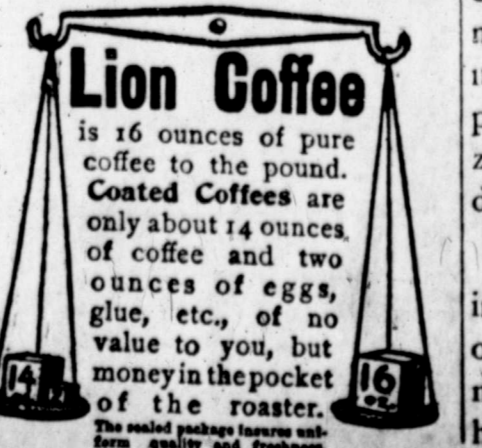

Messrs. G. E. and J. N. Darsey, of Deacon county, Ga., have closed a deal with Hardy Dial of this city for nearly seven hundred acres of land four miles south from Nacogdoches. The Darseys are scientific farmers and expert tobacco men, and will follow their avocation in their new field. They will move here at once and will begin active operations in fruit and tobacco culture. They will plant out five or ten acres immediately in Elberta peaches, and will also cultivate several acres in tobacco. Nacogdoches is fortunate in securing these men as citizens and they are extended a most cordial welcome.

A. A. Sanders, a farmer living near Pine, Texas, says "I have been a constant sufferer from kidney trouble for thirty years. Have tried every thing on the market for that disease, and received no relief until I tried a bottle of Bak-Ake Specific. I can recommend it to anyone suffering from any form of kidney trouble." Stripling, Haselwood & Co.

A letter from Mr. and Mrs. J. P. Sutphen informs us that they have bought a new home in Abilene and have settled at that place for good. Their Nacogdoches friends will be glad to hear of their prosperity and their comfortable surroundings.

Crowned heads of every nation, Rich men, poor men and misers, All join in paying tribute to DeWitt's Little Early Risers, H. Williams, San Antonio, writes: Little Early Riser Pills are the best I ever used in my family. I unhesitatingly recommend them to everybody. They cure constipation, biliousness, sick headache, torpid liver, jaundice, malaria and all other liver troubles. Perkins Bros

Mr. Ed Rumph, of Miami, has written to friends here that he is now cashier of the First National Bank at that place. Mr. Rumph was formerly a resident of Nacogdoches, and his friends are interested in hearing of his welfare.

We sell our medicine on a positive guarantee, if directions are followed, and money will be refunded if cure is not effected. Price 50c and \$1.00. For sale by Perkins Bros.

I. J. Rogers, from the Angelina community—not Angelina county—away out south of Douglass, was in town today, in spite of rain and mud and bad roads. He said there was no news from his section of the county, except that his neighbor H. C. Rich, had moved off up to Sacul, to make his tortue, and he hoped he would succeed. Mr. Rich was about to move to Nacogdoches, but changed his mind and moved to Sacul.

Capt. F. L. McKnight, of Douglass, who has been in the city two or three days, returned home this morning, accompanied by his daughter, Miss Sudie, who has been visiting her sisters, Mrs. P. M. Sanders and Mrs. Bob Weaver since the holidays.

Messrs. Ed Glem, J. H. War, sr., J. H. War, Jr., Bill Holt, J. C. Gilchrist, Horace Calcote and Joe Wilson, all prosperous farmers of Shelby county, were in the city last night. They left today on their return home, dreading the trip on account of the terrible conditions of the roads.

Yesterday a farmer, whose name we failed to learn, left Chireno for Nacogdoches with four bales of cotton and four yoke of oxen. His wagon bogged down however and he was forced to leave two of the cotton bales in the road, and then it was all the oxen could do to haul the other two bales to town. There is one consolation the owner of the cotton has, that no one can steal it, can't haul it off over the roads any more than he could.

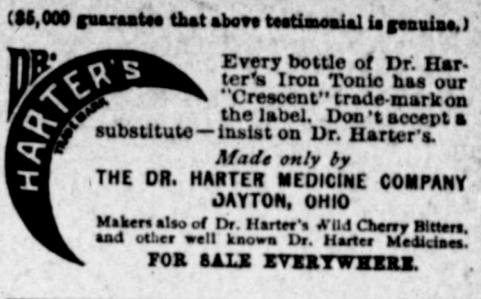

Rev. Carlisle P. B. Martin, L. L. D. Waverly, Texas, writes: "On a morning when first rising, I often find a troublesome collection of phlegm, which produces a cough, and is very hard to dislodge; but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons needing a medicine for throat or lung troubles." Price 25c, 50c and \$1 bottle at Perkins Bros.

Women Need

a constant supply of blood-making material or their systems break down under the constant strain. The very moment there is lack of blood, or when the blood is impoverished, the signal appears upon the face in sallowness or pallor. The remedy needed is Dr. Harter's Iron Tonic. Nothing else meets this particular condition so well. Use of it has made hundreds of thousands of women look younger and made them feel even younger than they looked. It not only restores strength, energy and beauty, but it is a prompt and certain cure for all ailments peculiar to the sex. It cures because it removes the first cause. It supplies just what nature needs to bring health.

Dr. Harter's Iron Tonic

strengthens debilitated organs, gives tone and elasticity to muscles and ligaments, rounds out wasted tissues and renews the vigor of the nervous system. It helps quickly and just as surely and permanently. Loss of appetite, of ambition, nervousness, pain in the head, back, kidneys, limbs, muscles, etc., are all cured by Dr. Harter's Iron Tonic. The following is one of thousands of similar endorsements that we have received:
Houston, Texas, Dec. 4, 1901.
"My father has used your medicine since the War, and when I married in December, 1872, I commenced housekeeping with one bottle of Dr. Harter's Iron Tonic, one bottle of his Wild Cherry Bitters, and two boxes of his Little Liver Pills. I am now nearly sixty-two years of age. Looking backward I feel attached to the old medicines and would not change them for any of the new ones made."

Echos of the Bank Muddle.

Graveland Messenger:
The failure of the Wettermark bank at Nacogdoches last week affords a striking illustration of the evil effects of the spirit of commercialism which seems to pervade every nook and corner of American life.

The craze for wealth seems to have taken possession of the average American citizen. To the exclusion of every other thought, the Goddess of Liberty has been dethroned and the American dollar installed upon the main altar of our hearts where it yields an undisputed scepter over 70 million willing subjects.

How to get rich quickly and effectually is the one and only question, methods are never taken into account so long as results are satisfactory. This same spirit constitutes the main spring that drives the machinery of stock exchanges, bucket shops and all other large gambling institutions.

The slow plodding methods of our fathers are entirely inadequate for the present generation. Everything runs on a mile a minute schedule. We travel fast, live fast, die fast, make money fast, in fact, do everything fast, and the faster the better. As we rush along through life, the demand is ever for greater speed and shorter cuts to the goal, and all means to these ends are eagerly accepted with little reference to justice or equality, so long as wealth, the one end, is in view.

Men are daily putting life, liberty and even their immortal souls against wealth and invariably loose. Yet the world goes right along repeating the experiment. The old miser's advice to his son to make money, make it honest if you can, but make money, seems to have been adopted by every body, and when ordinary methods to this fail, extraordinary ones are adopted, from extraordinary methods to down right thievery is but a step, and the sequel of it all is bankruptcy, ruin and disgrace.

Unconscious From Croup.

During a sudden and terrible attack of croup our little girl was unconscious from strangulation, says A. L. Spafford, postmaster, Cheseter, Mich., and a dose of One Minute Cough Cure was administered and repeated often. It reduced the swelling and inflammation, cut the mucus and

resting and recovered. It cures, coughs, colds, la grippe, and all throat and lung troubles. One Minute Cough Cure lingers in the throat and chest, and enables the lungs to contribute pure, health giving oxygen to the blood. Perkins Bros.

Fighting For Coal.

The appropriation of 16 cars of coal by the citizens of Arcola Saturday morning was a palpable violation of the law, but few will be found to condemn it very hotly.

The conspiracy of the coal operators, one incident of which was the anthracite strike, seems to be holding together with unbroken strength. There is coal in abundance in the earth all over the Ameri-

can continent. The facilities for extracting are of the best and the means of distribution are well nigh perfect.

But thousands of people are freezing to death and some industries are paralyzed by the lack of fuel.

We need something more than partisan maneuvering. If the Arcola lawlessness is not to become the rule, there must be an intelligent, honest, determined effort to find a legal remedy for a condition which is fast becoming chaotic and dangerous. Antitrust bills, designed for use in campaigns, will not do. The question is to be used in petty partisan politics. Senator Vest declared that it is not a question of politics or economics, but of humanity. He expressed the truth exactly, and practical action should proceed speedily along these lines.—St. Louis Post Dispatch.

Finds Way To Live Long.

The startling announcement of a Discovery that will surely lengthen life is made by editor O. H. Downey, of Chorususco, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for Consumption is the most infallible remedy that I have ever known for Coughs, Colds and Grip. It's invaluable to people with weak lungs. Having this wonderful medicine no one need dread Pneumonia or Consumption. Its relief is instant and cure certain." Stripling Hazelwood & Co. guarantee every 50c and \$1.00 bottle, and give trial bottle free.

Brewer-Rawlinson.

Married Wednesday, Jan. 14th, 1903, at 8 p. m. at the residence of the bride's father, Mr. A. D. Rawlinson, Mr. Marion Brewer and Miss Ruth Rawlinson, Rev. J. C. Fonden performing the ceremony. Miss Rawlinson is a lovely girl, the only daughter of the house, and since her mother's death the house-keeper. Mr. Brewer has indeed won a prize in his choice of a wife. Both Mr. and Mrs. Brewer are Nacogdoches people, well known and popular. The bride was dressed in white silk and veil, there were no attendants as the wedding was a home one. After the sumptuous wedding feast, and an evening with happy friends who wished the young couple all possible joy, the bride donned a pretty traveling suit and the newly married pair left for Galveston on their wedding journey.

A Scientific Discovery.

Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or overloaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. Perkins Bros.

For all forms of kidney trouble take only Bak-Ake Specific. Sold and guaranteed by Stripling Hazelwood & Co.

Nacogdoches Pays Her Own Preachers.

Dr. Holt, pastor of the first Baptist Church, has published the following explanatory letter in the Timpson Star:

"I learn from what is supposed to be a reliable source, that it is circulated at Timpson that the pastor of the First Baptist church of Nacogdoches, Texas, receives a supplemental salary from the State Board

In justice to this church, to myself, to the State Board and to Truth, I beg to correct such an impression. The church at Nacogdoches receives no assistance whatever in the payment of the salary of their pastor. He is wholly supported by the liberality of said church. Furthermore the church had not asked, nor intimated that she would receive a supplement from the State Board or elsewhere. They proposed to give their pastor \$1,500 a year, payable monthly. They are doing it promptly and easily. They have a voluntary subscription amounting to about \$2,000, I am told, and others are asking the privilege of subscribing.

Please correct the report."

Children Poisoned.

Many children are poisoned and made nervous and weak, if not killed outright, by mothers giving them cough syrups containing opiates. Foley's Honey and Tar is a safe and certain remedy for coughs, croup and lung trouble, and is the only prominent cough medicine that contains no opiates or other poisons. Sold by Perkins Bros.

The Tyler Bank Cases.

Tyler Courier:
General L. T. Michener of Washington, D. C., is in the city in connection with the Tyler bank cases. General Michener was at one time attorney general of Indiana and was the personal campaign manager of President Harrison. General Michener is a witness in the case and comes to Tyler to testify for the defendants in support of their motion to quash the indictment on the ground of the settlement which the defendants made with the comptroller and the attorney general. It appears that General Michener represented the defendants in making the settlement, and is here to give his testimony as to the facts connected with the settlement.

General Michener is a prominent lawyer of Washington City, and one of the leading politicians of the country. Mr. Michener is a very pleasant gentleman and expresses himself as favorably impressed with our section of the country. Mr. Michener and Governor Hogg, though opposed to each other in politics, seem to have taken up with each other, and General Michener says that President Harrison tell in love with Governor Hogg at the time the President made his trip through Texas.

The Ins and Outs of Soda Crackers

Soda crackers fresh from the oven are good—delicious—
—if exposed to the air they quickly lose that goodness—
—much of it in a few minutes—most of it in an hour—
—all of it in a day.
—That's why the common kind, the paper-bag kind, have lost their flavor before you get them.
—In Uneda Biscuit there's a difference—a big difference because they are packed at the oven door in the famous In-er-seal Package—the package with red and white seal—an invention for preserving the goodness of biscuit; an airtight and germ proof covering which holds within the oven-fresh flavor of Uneda Biscuit—and keeps without the undesirable flavors of all other things—that's one reason why millions buy Uneda Biscuit Another reason is the price—

Knights of Pythias.

From Saturday's Daily:

There was a large attendance at the meeting of LaNana Lodge K. of P., last night, and the session was one of unusual interest and pleasure. The Rank of Knight was conferred upon Mr. W. H. Price, who is a member of the Logansport Lodge, and there were several visiting brothers present from Logansport. As an act of courtesy to our neighboring brethren and in consequence of the contest that is now on between the "Reds" and "Blues" for the best attendance, there were many members present who had not been seen in the lodge room for many months.

A resolution was offered and unanimously adopted exonerating Master of Exchequer J. B. Nelson, who is the custodian of the lodge funds, from any blame for whatever loss the lodge may sustain by the Wettermark bank failure, in which he had deposited the lodge's money amounting to about five hundred dollars. At the close of the session an impromptu "banquet," consisting of coffee, chocolate and cake was enjoyed, thanks to the thoughtfulness of the Chancellor Commander, Prelate and Past Chancellor Davis.
