SENSATIONAL SHOOTING OF CONFEDERATE VETERANS.

T. B. Hardeman Fires Load of Shot at "Slim" Collins.

"Slim" Collins was shot by T. B. Hardeman about noon Friday, the shooting taking place on Pillar street near the Wells-Fargo express office.

The weapon used was a double-barrelled shotgun and only one shot was fired. The shooting grew out of alleged misconduct of Collins at the home of Mr. Hardeman's sister, Mrs. Metteur, last night. Collins holds a position as trainman on the H. E. & W. T. Ry., and had taken a few days off and was on a spree. He became boisterous last night and was arrested and placed in the calaboose. He was released this morning and plead guilty to the offense charged against him in the Mayor's court. The proceedings in the court however, it appears, did not appease Mr. Hardeman, and he took the first opportunity of resenting what he considered to be one of the grossest insults that man commits. The charge from the gun lodged in Collins left arm and side, almost severing the arm about half way between the elbow and shoulder. Several shot entered the left side but were only glance shots. The wounds are not necessarily dangerous, though Mr. Collins will lose his arm.

LATER.—Mr. Collins died late Saturday night from the effects of his wounds. The remains were carried to San Augustine Sunday and interred in the family burying grounds at that place.

THE GENUINE ARTICLE

The Small-pox Situation at Keltys is Becoming somewhat Alarming.

The small-pox situation at Keltys grows worse. People are leaving in a panic, and it is hard to get nurses to insure the sick the proper attention. The disease is of the most virulent type; two men died last week, a lady yesterday and two more patients are dying. There are eleven cases now, two new cases being developed yesterday. The Lufkin Herald has the following in regard to the situation:

"Had you thought about it? We mean the small-pox situation. The editor begins to feel all over in spots as though he had a Keltys case all ready to develop. Two new cases reported from Keltys: four cases at Frost mill and increasing every day. Everybody should be vaccinated at once. Not only this, but pressue should be brought to bear at the proper point to have quarantine regulations."

The Daughters of the Confederacy were assembled en masse each with a bouquet to which was attached by red and white ribbons, a card with the names of the entire membership of the Stone Fort Chapter and each veteran was presented with a bouquet. The Banita Band was in attendance, and alternated with the band on board the train, playing southern music. Some of the business men of the city had a special edition of The Sentinel printed in honor of the ex-confederates, and distributed among the visitors. The special contained a cut of the Old Stone Fort on the first page, a greeting to the veterans, a short sketch of the county, a list of "what we have" and "what we need," and an invitation to attend the Karnival. About nineteen veterans joined the excursionists from Nacogdoches yesterday and seven left this morning for New Orleans.

RESOLUTIONS ADOPTED.

The Fruit and Truck Growers' Association in Regular Session.

At the meeting of the Nacogdoches Fruit and Truck Growers' Association, on Saturday May 16th, 1903, the following resolutions unanimously carried:

Moved, that the association allow outsiders to ship with the association, and that said association charge such shippers 10 per cent. of the net proceeds of their shipments, for handling same; and that the association charge any member of said association who is in arrears with initiation fees or dues, 10 per cent. of net proceeds of shipments made by him, until said initiation fees or dues have been paid.

Any member shipping for an outsider shall pay 10 per cent. of the net proceeds on

all produce shipped, including his own.

Any person who is interested in any produce, or proceeds of produce shipped by the association, shall either become a member of the association or pay 10 per cent. of the net proceeds of his pro rata, or his interest thereon.

These resolutions are to be published by order of this association.

H. W. HALTOM, EDITOR

ALL things come to those who go after them.

WHEN shall we meet again and get together on the school question?

NACOGDOCHES must have on her Sunday clothes during the Karnival

RUSK has a Bachelor Girl Club. Nacogdoches hasn't progressed that far yet.

WHAT do you think of the idea of holding a public mass meeting to discuss the school question?

It is a debatable question as to whether the writer's cramp is more distressing than the reader's itch.

THE city of Shreveport held an election on Tuesday and decided to pave a large portion of the city.

THERE is an urgent necessity for a public mass meeting to discuss the school question. Let it be called at once.

IT is time we knew just where we are at on the school district proposition. Let's hold a big mass meeting and decide it.

IT is said Gov. Hogg absolutely refused to talk politics while in Houston this week. We hope his ailment is not serious.

MISS ETHEL Clark, who was kidnapped twenty-three years ago, has been returned to her parents in Baltimore—quite a grown up girl.

THE sky-scraping gyrations of the cotton market at present would be mighty interesting if there were a few million bales still in the country.

WE have tried to give everybody an opportunity to get in our special edition. We can't call again, and no copy will be received after Monday morning.

ONLY one thing that we can think of Nacogdoches is behind in, and that is the automobile fad. There are plenty of people here able to buy them, but the craze just hasn't happened to strike the town yet.

THE boll weevil is still growing. A writer in the Houston Post wants the farmers to "wrestle with this bug," "Heaven help us" as the heroine in a melodrama is fond of exclaiming, when one bug is a match for a man.

THE jealousy between President Roosevelt and Senator Hanna is apparent in spite of the frequent assertions of "close" friends that "Hanna is in no sense a candidate for the Presidential nomination next year.

WE drew the geography on J. M. Lewis to see if he could be "Born in I-o-way" and still play "Up and down the Missouri." His title is clear. He kin; and we will take as much more of the same sort of poetry as the gifted singer

WE note with pleasure that a number of fences are being painted or whitewashed. Let the good work go on.

HAVE you given the school problem serious thought? If not go to thinking about it. Something must be done without delay.

DIGNITY is a good thing, but it is not necessary to be always standing on it to keep it from getting away. It is liable to injure the quantity of the article.

HOW would you like to hear the hum of a two hundred thousand dollar cotton mill in Nacogdoches? Such a thing is possible within the next twelve months.

EVERYBODY is receiving letters from friends in the distance saying they will be here at the Karnival. It will be necessary to prepare all the room possible to accommodate the visitors.

THE Nacogdoches schools will soon close. The next session will begin in September, but we are apt to have a short term if we don't bestir ourselves on the school question.

IT will not be hard to find a practical solution of the school question if our people will only come together in harmony. Let us reason together in the spirit of harmony and good fellowship and take the proper steps to unravel the knotty problem. Let's do it without delay.

THERE is an excursion of Northern newspaper men now on the road making a tour of the South and West. They will pass somewhere near Nacogdoches, possibly through the town. It would be a big advertisement to have them stop off here. They will come as near as Lufkin the last of this month.

THE outlook for our local schools is brightening every day. We will get out of this muddle before long, if every school patron in the erstwhile Nacogdoches Independent district will take the proper interest in the matter. The Sentinel suggests a rousing mass meeting of the citizens real soon to consider this matter.

JUDGE KITTREL, of the sixty-first judicial district, holds that "jail birds" should be made to work the streets and roads, and not be kept for months in the jails at the expense of the people. The putting of Judge Kittrel's idea into practice throughout the state would be a relief to the people who are taxed to feed prisoners in their idleness.

THE Courier Journal is scared over the prospect of Cleveland's nomination for another term as president, and the gifted Henri W. is saying "plain things" about it. He says the milk in Cleveland's cocoanut is Pierport Morgan, and "when Morgan puts his hand to a job, be it railway merger, a ship combine or a presidential boom, it were well that prudent men took note of it."

MRS. ROOSEVELT has asserted her authority as mistress of the White House, and has vetoed the orders of the architect relative to making some changes that did not suit her.

NEAR Hot Springs, Arkansas, Monday, Joseph Adaire, Dave Peddy and John Spivey died from the effects of drinking moonshine whiskey, mixed with concentrated lye. This should be a warning to a Alkali Eye man.

IN Pennsylvania of Henderchild is to be a lay in Nacogdoches. The expense of the 11th is to receive for Austin yes-al and the month the Rede \$50 in cash. Going to play a regular crap game with the kids. Only 7 and 11 win.

THE last government census report shows the value of the farm products of Texas for one year to be, in round numbers, four hundred million dollars. That was for 1900. We do better than that now, with the increase in the rice, fruit and truck crops.

IT is to be hoped that the Editor of the Alkali Eye will favor the Karnival with the honor of his presence. The presentation of a new subscription jug of ample proportions, filled with old tarantula juice, highly flavored with corrosive sublimate, would be one of the touching features of the occasion. Come on Alky and have a good time with us.

THERE are few people within the radius embraced in the Nacogdoches Independent School district that are not thoroughly familiar with the present school situation. Everyone knows that we are "up against it" on the school question. Everyone admits that there is an urgent necessity for prompt and immediate action upon the matter to relieve the schools of Nacogdoches from a tangle that is vexatious and mortifying. We all have ideas about it. Let's get together and exchange them. It will do good and no doubt will result in reaching the aim we all have in view. There should be no delay. A mass meeting has been suggested, and we believe the suggestion is a good one. That is the best way to get those interested together.

THE friends of B. F. Bonner at his native home, Lufkin, tendered him a great banquet last night. Frank Bonner was raised in Lufkin, was educated in the Keachi College of this city, was married in Louisiana to a girl who went to the same school, and moved to Houston to take charge of the Joe Davis Oil Co. His means were limited then, but he had the keen business instinct and foresight and through his shrewd guidance the Joe Davis Oil Company merged into the Southwestern Oil Company, one of the richest concerns in the Southwest. Mr. Bonner is now one of the wealthiest men in Houston, and it is a mark of esteem and recognition of his great success in life that his old home tendered him one of the swellest banquets that ever occurred in East Texas.

MRS BISHOP'S LAST SORROW.

Mrs. Julia Truitt Bishop has a personal friend in every old member of the Press of Texas with which she was for N. Buars so closely identified the city her sweet stories had. Mrs. Bishop, as well, to a daughter of the public of the day. It is, then, with a universal sadness and sympathy that the news is received of her latest great sorrow. Alongside of one of the traditions of Bishop's charming sketches on the editorial page of the New Orleans States last Sunday was this:

"Yesterday afternoon Miss Pearl Truitt, the lovely young daughter of Mrs. Julia Truitt, Bishop, who has for some time been a valued attache of the States, died at the family home near Hammond, La. Miss Pearl had just budded into lovely young womanhood, and all the world looked fair and bright as a reflection from her own pure soul and life, when the grim Destroyer came, and with a cruel blow made desolate the home and hearts of those who loved her. Of sweet and aimable disposition, and possessed of many rare accomplishments, she had a host of friends and admirers who will hear of her death with unfeigned sorrow."

If, just now, we could have our supremest wish gratified it would be to receive the power for but a few moments, to write as Mrs. Bishop would write and to comfort her as she would comfort another. Sweet Hallie died and was left in Texas—the dear land they all loved so well—and now it is Pearl. As a snowflake pure the spirit of the dear girl passed the way to Heaven, leaving desolation in the mother's heart which all the sympathy of numberless friends cannot brighten.

From Monday's States the writer learns that during the past fall and winter Pearl had been teaching the Collinswood school, near the shores of Lake Maurepas. She and the children had worked and played together, and there was a very rare and beautiful devotion between the young teacher and pupils. Not far away she found a little country cemetery, a lovely spot deep hid under oak and pine, and her heart was touched by the forlornness of some of the graves that lay neglected among the others. She and the children made their task for many days to clear and trim and set in order, and after that, every evening, they carried the great loads of flowers which the little ones had brought her in the morning and spread them on the once neglected graves, until they blossomed with the beauty and fragrance. She grew to love the quiet little spot, and said several times afterward, "When I die I would like to be buried in Wetmore cemetery."

And so, on her birthday, they went there with the fragile little waxen semblance of her, "in snowy draperies, like a bride," and all the flowers from all the gardens were heaped high above the little mound with tears shining on many a petal; and they left her there to sleep.—Orange Tribune.

Ex-President Cleveland says the St. Louis Exposition would not be a world's fair without representation from Texas.—Liberty Vindicator.

There certainly will be a great portion of the world left out if Texas is not represented.

The higher a governor's bill is raised in a hotel the more he is esteemed, but it may be that the governor of Indiana is one of those rugged characters who have never been susceptible to praise.—St. Louis Post Dispatch.

That reminds us of the governor who was charged \$2 for an egg at a hotel in Mexico. It was not because eggs were not plentiful, but because governors were scarce at that hotel.

John McLendon, formerly of the Shelby Democrat, is assistant editor of the Nacogdoches Sentinel; this insures them a good paper, second to none—but the Herald.—Lufkin Daily Herald.

Glad you can see an improvement. But really Mac is not contributing to The Daily Sentinel and you have seen none of his "thunder" yet. He is at work on a special edition to appear next week and has all he can do keeping copy for three extra printers on that edition. Strange what fancies imagination leads us to.

THE Chairman of the prohibition campaign committee, Rev. W. W. Watts, informs the Sentinel that there will be a prohibition election held in August. The petition will be presented to the Commissioners' court at its session on the 2nd Tuesday in August, if not at a called session in July. In any event the time for holding the election has been decided upon and will not be later than August. Bro. Watts informs us that there are already over five hundred signers to the petition asking for the election, but that the petition was not presented at this term of court for the reason that the committee thought it best to hold the election in August instead of this month. It only requires fifteen days notice after the order is made by the court before the holding of the election.

MESSRS. Wm. Doherty and Sam. H. Dixon, the congenial and popular officials of the H. E. & W. T. Ry., were with the Dallas party that honored this city with a visit yesterday. The polite, courteous treatment from these gentlemen toward all people who travel over their lines, whether excursion parties or individuals, is proverbial. They are always ready to show people East Texas. The urbanity, friendliness and kind treatment on the part of the H. E. & W. T. officials to people visiting this section has wielded a very great influence in keeping visitors here who have only come to take a look at the country. They have done more for this immediate vicinity than our own citizens have and we owe them everything for the rapid advancement this portion of East Texas has made during the past few years.

Uncle Mark Hanna probably could not be induced to run for President. Perhaps he feels that as the "friend of labor" he can be more effective in the Senate or as a mere private citizen. Yes, but Uncle Mark has been ring master too long to be caught playing clown in Tom Johnson's circus.

There is trouble in The Sentinel office this morning. The snake editor came in in a bad temper and on his work being criticized by the sporting editor, said that he was not going to be dictated to by a man who didn't know a bug from a beetle. Instrumental Music in the Church.

There are a great many people and some of them are our best people, who are bitterly opposed to instrumental music in the church. There are others, as many and as good, who are in favor of instrumental music in the church. Now when a pastor is brought between the two and both parties unflinchingly make their demands what is he to do? I know but one thing to do to wit:

- 1st. Go to God in earnest prayer.
- 2nd. Go to God's holy word and seek information.
- 3rd. Use reason and common sense.

As to the first, there is no one but God through his Son to whom we can go when we kneel to pray or steal away in the secret grove. When we do this we always receive help from on high.

As the second we find as follows:

- 1st. Chron. 15:15 and 16, 16:39 and 42. 2nd. Chron. 5:11 and 13. 7:4 and 6. 30:20 and 22. Psa. 38:20 and Psalm from first to the last particularly the last Psalm. There we get our information. Many other places could be given but this should satisfy any unprejudiced mind.
- As to the last. The first time we find any record of any musical instrument being used it was to praise God with. It is only God's people who have a right to use these to his honor and glory.

Is it not best to listen to God rather than man? Paul says so.

We answer some objections and close.

It is said they are in the ballroom and in the saloon. So are cups, glasses, pitchers, mirrors, counters and show-cases. Must we do away with these because they are in these places. Surely not.

It is said again. Those who play these are of the ball room and saloons. Then my brother raise your objection to the performer and not to the instrument.

It is said again. We are not use to such. Perhaps not. Were you used to your cultivated when you first bought it? Why not throw it away because you are not used to it? Again it is said. Churches that use these instruments do not have revivals. This is merely an assertion which is not true. Only last week a revival closed in one of our town where I am sure they used all kinds of musical instruments, with 68 additions to the church and several conversions that will join some other church.

Last, I don't object to the organ but can't bear the violin or "fiddle" as some choose to call it. It is an instrument of strings and the command is as great on that as on any other.

Now I hope and pray that these lines will be read with the same spirit that they are written.

Death at Center.

Special to the Sentinel.

Center, Texas, May 15.—Within the last two days three deaths have occurred in this city. Mr. Theodore Boyd, about 45 years of age, died Tuesday of paralysis. A child of constable Frank E. Hunter died of pneumonia Tuesday night.

This morning Dalton Harrison, a son of Eli Harrison, died suddenly of congestion.

The X-Rays.

Recent experiments by practical tests and examination with the aid of the X-ray, establish it as a fact that Catarrh of the Stomach is not disease of itself, but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure Catarrh of the Stomach. Kodol digests what you eat—makes the stomach sweet. Sold by Perkins Bros.

Mrs. J. W. Davis and children returned with Mr. Davis on his last trip to Abilene and are now located at the Bannockburn. Mrs. Davis has been in bed since her arrival and is better today.

Mr. Davis and his family are also returning to Nacogdoches and we extend their bright and hearty wishes for a speedy recovery to the last Southwestern trip.

Who pays the freight?

You do and always will. Every article brought into your town has had the freight on it paid by somebody so if you don't pay it who does? Goods sent "prepaid" or sold in your home town have the freight charges and a profit on the same included in the price to you. When you buy your supplies from us you pay but one small profit. at his residence on North street at 8 o'clock p. m. W. N. Bailey, aged 37 years. Mr. Bailey had been a sufferer with consumption for the past year, and for months his friends and family knew the fatal termination of his illness was inevitable. Mr. Bailey moved with his family from San Augustine county several years ago and until his failing health compelled him to lay down business cares, was a public spirited citizen, taking the keenest interest in the progress of the city. He leaves a devoted wife and seven children to mourn his loss. He was a comparatively young man and in the ordinary course of human events would have had many more years of usefulness before him. With those who are left to grieve for a kind hearted husband and father. The Sentinel joins with their other friends in their sincerest sympathy.

Traveling is Dangerous.

Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much, suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. E. Hansan, locomotive engineer, Lima, O., writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys and I got no relief until I used Foley's Kidney Cure—Sold by Perkins Bros."

Cures When Doctors Fail.

Mrs. Frank Chiasson, Patterson, La., writes June 8th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing me such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine 50c bottle at Perkins Bros. W.

R. W. HALTOM, Editor

SYBIL SANDERSON, the great opera singer, died in Paris, France, last week.

THE School question has to be settled. Like Banquoss ghost, it will not "down" until it is.

WE'D like to know what town succeeded in putting salt on the tail of the Baptist College.

IT don't make any difference whether things "come" or not. If you chase them hard enough you will capture them even if they are going the other way.

AN 84-year-old maid laughed herself to death in New York yesterday over a funny story. Funny stories are dangerous and its up to the legislature of New York to suppress them.

CONCERNING the Mass meeting to decide the school matters that are now baring the progress of Nacogdoches schools. "If it tis to be done when tis done t'were well t'were done quickly" for there is plenty of work to do, after the path is smoothed.

A Florida paper wants a cure for consumption in poultry. That problem has long since been solved here. Forty cents a piece has stopped the consumption altogether.—Palestine Herald.

Chickens roost too high for an editor in Palestine. Fortunately we raise our own.

The collapse of another "grand stand" in an Illinois town shows that the ill-luck of the innocent bystanders is almost equalled by that of the innocent bysitters.—Globe Democrat.

"Bysitter" is an awkward word. "Sitbyher" sounds better, and a young man has a better chance to make a "grand stand" talk without falling down.

THE St. Louis Post Dispatch has a calm and placid picture of President Francis, as he will look on the moorish horse which he is soon to receive as a present. That is certainly getting ahead of the bounds. The moorish steed may stand the President on his head in the middle of the road, as General Miles' horse did him at a parade a year or two ago. Any how, we advise the president not to follow Miles' example and take the martingales off. We never did trust "furriners."

A MASS meeting of the citizens of Nacogdoches, to straighten out the school question, is one of the immediate needs of the town. The Schools cannot be neglected, and we have only three months to get them in running order. If the meeting is put off long it will have far too limited a time to develop the plans decided on. Let us call the meeting quickly, have everything smoothed out, and keep the schools going with the same impetus that the fine teaching and management of this year have given them. A back set now will be hard to recover from.

"IT'S UP TO YOU."

To the Business Men of Nacogdoches:

You have heard, I suppose, that beginning May 27th we will have a "Karnival." It has been the impression heretofore that these Karnivals were small, local affairs, but as was pretty well demonstrated to you by the one held last year, they have forced themselves beyond a narrow prescribed limit and are getting to be noted throughout this east Texas country. And the one to be held this year will far surpass all others in attendance as well as to size and attractions. We have a new territory to draw from and with the railroad's reduced rates offered us we will be able to fill this town with new people—merchants, business men and trading men from prosperous little towns along these roads. These people do not have the advantage of the large stocks of goods which our people carry—they will necessarily buy some, and why not pull for this business? Next Wednesday we will begin the distribution of 5000 copies of a special edition of our daily paper, containing not only a writeup of the karnival but it also contains a complete writeup of the business and industrial interests of the town. These copies will be distributed in any town on the T. & N. O., from Beaumont to Dallas, and on the H. E. & W. T., from Houston to Shreveport. Now to say nothing of your duty to make a creditable showing in this parade, can't you see that from a business standpoint, as a trade-getter, you cannot afford that your business be not represented? We advertise our large dry goods, shoes and millinery stocks. These people who may be induced to do their shopping here see nothing of it in the parade. We pride ourselves that we have as large stocks of hardware and machinery as any interior town in Texas—but when mill men visit our karnival they will see no evidence of any such claim. We have a compress, an oil mill, a box factory, two cigar factories, two nurseries, tobacco industry, fruit and vegetable industries, and other and various enterprises that ought to have creditable exhibits in this great parade. You need not fear but that if you all do not come in there will not be a great parade, for there is already enough guaranteed to do this; but we would like to show you that as an investment a few dollars spent this way will beat any advertisement on earth. The town is trying to make a new start—we want to get on a real old fashioned boom for once, and if all our industries were represented in these parades we could point to them with pride when our visitors are here. Think about this from a business standpoint and see if there isn't something in it.

E. C. Branch,
Manager.

AN exciting fox chase engaged the attention of the natives in the Fifth ward in Houston last Monday. The next amusement will be mumble-peg and dollar-pitching.

Keep the suckers off your tomato plants. Every day's delay in taking them off will make you correspondingly later into market. Pruning tomatoes is a part of your work that cannot be put off until "tomorrow." The suckers grow more rapidly than the main stalks and saps the very life out of it. They should be kept off as close as possible and not allowed to grow out and become tough, making it necessary to use a knife to remove them, or risk the danger of bruising or bleeding your plants by breaking them off. When they first appear they are tender and very easily removed with thumb and finger.—Texas Fruit & Truck Journal.

THE subject of "Cleaner Nacogdoches" is attracting attention from the citizens of our town to more purpose than ever before. We will have the town clean for the Karnival, and it is the intention to keep it clean in the future. There is a city ordinance, more or less neglected, that the merchants are to provide barrels or boxes in which to throw trash or refuse, instead of letting it blow about the street. If this ordinance was strictly enforced, it would add greatly to the appearance of the city. On Sunday morning especially the town does not present a very neat appearance, owing to the trash swept into the Main street, to remain till Monday morning when the scavenger gathers up all that he can. There is another ordinance against cleaning yards and throwing the weeds and trash into the street, which is highly unsanitary as well as unsightly. A little care on the part of citizens and a strict enforcement of even these two ordinances would go far toward creating "Cleaner Nacogdoches."

THE Galveston News for Sunday contains a splendid writeup of Nacogdoches county. The article is accurate as well as complimentary and does full justice to the resources of the county. In the article devoted to the opening of the T. & N. O. for business, Nacogdoches is again referred to. We quote from the latter article:

Nacogdoches, 170 miles from Dallas, is one of the oldest and most historic towns in Eastern Texas. It is claimed that the first printing office in Texas was established here in 1819. The county of Nacogdoches is a fine one for general agriculture. Fruit growing and truck growing are now beginning to attract considerable attention. Last fall about 117,000 peach trees were planted around Nacogdoches, the Sentinel of that town says. The Sentinel says further:

"Such fruits as pears, plums, apples, strawberries and blackberries have come in for considerable attention also, but these will not cut much figure for several years to come, the main effort being to develop the peach business."

Tobacco is raised to some extent in Nacogdoches county, and the Cuban cigar varieties seem to grow to perfection here.

—Mrs. W. P. Smith, of Lufkin and her little boy, arrived from Lufkin yesterday and will remain over for the Karnival. She is the guest of her mother, Mrs. Amelia Clark.

WATER DOGS.

[BY THE SPORTING EDITOR.]

And now another of our cherished institutions has been attacked.

The Popular Science Monthly states that the "water dog." The giant Salamander or "Eftobranchers Alleghehater") is limited in its habitat to the tributaries of the M. river, and that all specimens sent for inspection on other locations have proved to be the "Necturus" "snout puppy" and being of a different species, can no more grow to be a water dog than a mouse can grow into a rat, or a toad into a frog. We believe that the Texas water dog is the genuine article and copy the description of it that our belief can be verified by others.

"It is a most unprepossessing animal, and probably on that account has the reputation among fishermen of being poisonous, although it is really a most inoffensive and harmless creature. Its jaws are very wide and strong, however, and being armed with numerous small sharp teeth, are probably capable of inflicting a painful wound. Its repulsive appearance appears to be due largely to the curious flatness of the head, the tiny, almost invisible, lidless eyes, and the lateral fold of skin

which extends for the greater part of its length. The tips of its toes, of which there are four on the anterior and five on the posterior feet, are nearly white and are thus in curious contrast to the dark color of the rest to the animal. The adult hell-bender breathes by means of well developed lungs, but there is a gill opening in each side of the throat, from which bubbles of air occasionally escape. The nostrils are two very small openings situated at the extreme tip of the broad snout."

Two points have never been settled satisfactorily about the water dog. Can it bark? and is it subject to hydrophobia? Until these are definitely settled, investigations are incomplete.

The sporting editor was gloomy. "A Spalding has gone and turned theosophist." He announced sadly. "Whats a theosophist?" inquired the snake editor. "Why its a person who is daffy on his own importance;—thinks the only two things in existence are himself and the universe, and that the universe is hanging round waiting till he finds his true place in it, before it goes on." The snake editor remarked that it sounded chesty. "We could have spared an ordinary man" mourned the sporting editor, but at Spalding! They say that that man went all through the civil war with a base ball bat instead of a musket, and was never wounded once, just batted the bullets that came toward him, off into the enemy's field, and more than that swatted them back into left fields so hard that hundreds of their men were killed that way, struck by the batted bullets." and to think that the king of baseball is going off into trances instead of putting the oth-

er team to sleep." And he draped the advertising poster of Spaldings baseball goods with crape and went out to write up a Sunday school picnic.

There has been some changes in the schedule of train service, and the passenger trains now arrive at Nacogdoches on the H. E. & W. T., for Houston at 3:29 a. m.; mixed, 11:45 a. m., for Shreveport, regular passenger 1:33 a. m., mixed 2:44 p. m. On the T. & N. O. for Dallas 1:25 p. m.; for Beaumont 2:50 p. m.

KARNIVAL NOTES.

BY MANAGER.

The bunting in karnival colors has arrived, and will be on sale at the various stores at 4c per yard cash. Don't bother these merchants to charge it, as they do not make a cent out of it but are handling it purely as a matter of accommodation.

Our baseball team has arranged with the Rusk team for three match games of ball during the karnival. The Rusk team is composed of young gentlemen. They have strengthened their team and will no doubt give our boys "a run for their money." Let's give them a hearty welcome.

Arrangements are being made for more eating houses to be put in. So the prospects are for better accommodation in that line than was first expected.

Some new features are being added for the entertainment of the royal party at the opera house the night of the 27th that will make it very interesting.

The Sentinel is in receipt of an invitation to attend the Commencement exercises of the A. & M. College at Bryan. The invitation includes the hop given in honor of the Senior Class. On the cover of Confederate gray tied with the red and white, is a vignette of flag, musket and sword surrounded by bursting bombs; while on the first page at the right hand lower corner is a military camp scene. The smoke from the camp fire ascending blazes out into the star of Texas at the top of the page. The design is original, appropriate and beautiful. On the class roll, which is a fac simile of the writing of each student, are the names of R. E. Barham, son of Dr. J. H. Barham of Nacogdoches, and Phil Sanders, son of Mr. P. M. Sanders, of our city. Mr. Barham being also on the committee of arrangements for the Senior Hop. The Sentinel is proud of the boys representing her at the famous College that has turned out so many men that are a credit to the state and acknowledges the invitation with thanks.

John McLendon, now with the Timpson Times, was in town Monday morning.—Tena.

Mac seems to be "with" quite a number of papers these days. He is as ubiquitous as the "m'skeeter."

FOR DURING MAY.

leasts have it. On each tank will have all the free of charge.—dicator.

New Orleans is to take on to of Nacogdoches. The ur ness men of our town all have icewater tanks on the sidewalks during Karnival time. That fact won't tempt Alkali Eye, however.

The general election law provides—about nine columns of stuff which we don't intend to read.—Orange Tribune.

How will you know if the next general is elected legally if you don't?

The Tyler Democrat-Reporter refers to "our friend Pyle, of Wood." Better get on good terms of friendship with Mr. Chunk of Ice.—Denison Herald.

An'—Heuser. That Chicago judge who issued a restraining order against a woman for talking too much must be a cross-grained, disappointed-in-love old bachelor. It is a shame to take away from the fair sex the one right the world has always accorded them.—Galveston Tribune.

Don't fret. He hasn't taken it away.

In this country it is not respectable for man's wife and daughters to work; but the harder the old man works the more he is admired. They tell cheerful stories about the old man; the little children say "papa is too busy to die," but that is about all he gets out of life in the way of distinction.—Denison Gazeteer.

Wonder when the editor of the Gazeteer dropped on to this antique table, and how he came to believe it? Women are untiring helpers in this locality.

The Willspoint Chronicle is responsible for the story that a Minnesota experimental station has succeeded in growing potatoes and tomatoes on the same vine, and has on exhibition a potato plant which at the roots is putting forth potatoes of high grade, and above ground several well developed tomatoes.—Palestine Herald.

There ought to be a watermelon vine attachment to that plant.

A WHITE girl acting as chamber maid at an Indianapolis hotel, refused to make up a bed that Booker Washington had slept on. She was promptly discharged. The difference in Indianapolis and Nacogdoches is that Washington could not have slept in the hotel.

The Center Champion has a column editorial on "Our women, one and all." The article is able, but we are inclined to think the Champion tackled too big a job. It would take an entire special edition of The Sentinel to praise the ladies of Nacogdoches as they deserve, and then the half would not be told.—Sentinel.

Well, then why not get it out and not talk so much about it.—Champion.

We will. Just give us time.

TUESDAY'S LOCALS

Quite an improvement is being made on Irion Hill in the way of fixing sidewalks.

Miss Gertrude Siske returned to Sacul yesterday, after a short visit to her sister at this place.

Mr. Robt. Lindsey has sufficiently recovered to spend a little while in town this afternoon.

J. T. Lucas returned to Sacul this afternoon, his little son Charley, who is sick, being better.

Bruce Hamlet, one of the best known traveling men of East Texas is in the city today in the interest of his firm.

W. J. Long, of Trawick, was here this morning and qualified as Justice of the peace of Linn Flat precinct, J. M. Dawson, the justice elected, resigned.

A counterfeiting outfit was discovered in the big thicket last week and two men arrested. The counterfeiters made some sorry looking silver dollars with plaster of paris molds.

Messrs. J. T. Garrison, Henry Garrison, Joe Jackson, and Will Jackson of St. Louis, with their families left early this morning to spend the day at Fern Lake.

The Red Men will have a float in the parade. A committee was appointed at the council last night to see that it was got up in good shape. J. E. Floyd, C. P. Coats, T. J. Smith and J. P. Popp are the committee.

S. J. Treadwell received a telephone message this morning to the effect that his nephew, Ben Clark, son of I. D. Clark, of Burke, was found dead early this morning at his place of work, in Horatio, Ark. A motor car jumped the track and it is thought struck him.—Lufkin Herald.

R. C. Gramling was in the Sentinel office this morning with some fine specimens of onions raised by himself. They are at least five inches in diameter even now, and he is regretting that he did not plant three or four acres instead of a patch.

Quarterly Statement

Of the finances of Nacogdoches county.

Now came Robt. Berger, Jno. W. Byrd, R. L. Williamson J. O. Thomas and state on oath that they have complied with Art. 867 of the Revised Statutes of the state of Texas and that the cash mentioned in the quarterly report of J. O. Ray, treasurer of Nacogdoches county, to the May term 1903 of the commissioners' court of said county, has been fully inspected and counted by them, and that the following is a correct statement of the different county funds:

Jury fund, by balance on hand	\$ 231.03
Road & bridge fund, balance on hand	3,644.73
General county fund, balance on hand	882.33
School fund, balance on hand	11,219.73
County land fund, balance on hand	6,739.04

R L Williamson, Com. prect. 3.	
G L Muckleroy, Com. prect. 4.	

The two songs that are published in the Orage Leader and were to be sung at the temperance lecture at that place on Sunday; are enough to drive every inhabitant of Orange to strong drink.

J. M. Weeks and Baucom & Son have barrels in front of their respective stores in compliance with the city ordinance, to hold the papers and trash.

Jno. W. Davis will give away 5000 lbs. Arbuckle coffee.

A Prohibitionist Bull Dog.

"A horse hates a drunken man," says an old statesman, "but a dog seems to feel that a drunkard isn't responsible for himself and acts accordingly. A dog, no matter how fierce he is, will never bite a drunken man. He seems to know by instinct when a man is under the weather and treats him as he would a child. A horse treats a drunken man with contempt—doesn't want to have anything to do with him."—Cherokee Chief.

Thus evidencing after all that the dog is man's best friend.—Austin Statesman.

And speaking volumes for horse sense.—Nacogdoches Sentinel.

That's where you boys don't understand dogs. I own a bull dog. His name is Patrick Vanlandingham O'Connor Bonner. I mention the name not necessarily for publication, but as an evidence that he will bite anything on earth that breathes, moves, and has its being.

Pat is a prohibitionist. He likes to catch a man with a jag, throw him down, show his teeth and remonstrate with him about drinking booze when it is straight. He won't hurt them much, but seems to enjoy their yells for assistance. Consequently when I take a drink I always manage to get in home before dark. Some dogs may be like women, learn to love and respect a drunken man, but Patrick Vanlandingham O'Connor Bonner refuses positively to allow a drunken man to stagger around in his back yard. Looking at the matter in ten or twelve differ-

ent lights, I cannot find it in my heart to blame Pat very much.

I will state incidentally that I have been offered fabulous sums for Pat by some very prominent married ladies, in Austin, Houston, Galveston, Dallas, San Antonio, Beaumont and Tyler, but my wife would not think of parting with them. She says if Pat was sold, it would be almost the same thing as losing me.—Harpoon.

See Jno. W. Davis' "Arbuckle" shoe sale.

The H. E. & W. T. will make a rate of one and one fifth fare for the round trip to parties of five or more between Nacogdoches and Joaquin on any date between April 15th and August 31st. This to give an opportunity to those who wish to fish at that point. The usual weight of camping outfit will be carried free as baggage.

"Practical Mental Science" announces that a negative thought cannot conquer fear—the method prescribed is "Do not say 'I am not afraid'—that is negative, but say 'I am full of courage, I am courageous' which will produce the effect of courage and kill fear. This is a good theory, but among the fair sex who are the greatest advocates of Mental Science, no amount of positive formulas are going to keep them from climbing on a table when a mouse happens around.

The Nacogdoches Daily Sentinel issued a Confederate Veteran Special yesterday. The Sentinel is doing the right thing for its town and the town is doing the Sentinel right. Thus a harmonious feeling prevails and the Sentinel and its patrons are pleasurable as well as profitable companions.—Lufkin Tribune.

At the funeral of W. N. Baily yesterday afternoon nearly all of the beautiful burial services of the Knights of Pythias had to be omitted, owing to the inclemency of the weather. A large number of Knights were in attendance and a great many people at the cemetery, but the rain rendered any but the briefest services possible.

Mr. and Mrs. John Schmidt and their two sons Herbert and August, left on the noon train for an extended trip. They will visit relatives at Palestine and Tyler; from there will go to Dallas, where Misses Louisa and Emma Schmidt are attending school in that city, and then leave for Belleville Mo. the home of Mrs. Walter Ginz, the oldest daughter of Mr. and Mrs. Schmidt.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of wornout tissue. This waste cannot be replenished and the health and strength kept up with out perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by Perkins Bros.

Miss Georgie Robinson died at her home in Colmesniel a few days since, of consumption. Miss Robinson lived in Nacogdoches years ago and has many friends who loved her for her many lovely qualities and are sincerely grieved to learn of her death. She worked for a long time in the "Star News" office, which was conducted by Maj. Carraway and her intellectual capacity was the highest order. The past few years however failing health had interfered with her work. Her brother Frank H. Robinson is associated with the Port Arthur News. The Sentinel, to the editor of which Miss Robinson was a personal friend, extends its sympathy to the sorrowing family.

S. Z. Alexander left Tuesday night for Laredo to be gone about two weeks looking after Alexander Bros.' truck interest down there. They shipped their first car load of onions Monday to Chicago, where R. B. Alexander has gone to look after their shipments this season. Their onion and cantaloupe crops are looking fine and promise some good money, the little melons being now as large as goose eggs, but their tomatoes are a failure. What plants were not killed by the February freeze have made a good growth but failed to bear fruit. The bloom blights and drops off. This is said to be the common experience with tomatoes down there.—Lufkin Banner.

Nacogdoches Sentinel: As long as the sons, daughters, brothers, sisters and cousins of legislators are eligible to hold office through the influence of that body it seems useless to talk against nepotism.

That is true. For how can a legislator criticize an officer of the state who has subordinate places filled with his relatives when that same legislator has his children running about or sitting around drawing salaries from the taxpayers? The truth of it is that nine times in ten our irritation with these nepotistic servants is greatly modified if but once we can get our own flesh and blood in the salary-drawing business. Some of the officials state that they cannot prevent their children from applying for and holding offices. That is a phase of the case that was evidently not thought of when the platform was drawn. In the future the platform will have to contain a plank against public officers guilty of nepotism, who have the power to pull their relatives away from the public teat, and exemption for those who are too weak to do so.—Galveston News.

...The nerves that govern
...and the muscles of the eye are int
...connected with the stomach, and of
...with all parts of the head. While head
...aches and neuralgia are frequently the result of
...lasses than eye strain, it is well known
...by the medical profession that students persons
...or those whose occupation requires constant and
...severe strain upon the eye are much more sub
...ject to headaches, dizziness and other like ills
...than others whose occupation does not demand
...constant use of the eyes for close work.

Book-keepers, seamstresses, school children,
students of all kinds, artists, draughtsmen, es
pecially if doing their work in a changing or in
sufficient light, almost invariably suffer more or
less with headache, vertigo or other troubles
resulting from constant over-use of this won
derful organ, and in a very large percentage the
strain can be alleviated, and in many cases en
tirely relieved by glasses properly fitted and
adjusted.

The writer when a young man once had a sick
horse—a druggstore was handy, and friends and
neighbors around, with help and advice. One
suggested a remedy for colic, which was given,
but he got sicker, another called it bots, and he
was drenched with another sure cure, and so on
from drench to drench and the poor animal was
doomed, and with the best intentions, tormented
until he died, when probably if he had been left
alone he would have recovered, and no doubt an
experienced veterinary surgeon would have soon
brought him around, sound and well.

In the same way many persons go into a store
and buy a pair of spectacles, trying one pair
after another until they find a pair they can see
through, perhaps with one eye, sometimes with
both, and if the frames accidentally happen to
be the proper width, both eyes alike, the glasses
properly focused, the purchaser goes off and
recommends Jones & Co's. spectacles as being
the real thing.

Other purchasers, however, find something
wrong with the spectacles bought of Jones &
Company, and as their eyes have been irritated
by misfit glasses, they either return them or go
away dissatisfied.

Now, what is an optician? He is not a doctor,
but a person who has made a careful study
of the refraction of the rays of light with the
purpose of correcting errors of refraction in the
eye of those calling upon him. If he is intel
ligent, experienced, patient and honest, and
has all necessary instruments for accurately
measuring errors of refraction, or to say, detect
ing the strain of the eyes, it is well to call on
him, as he makes no charge for examination,
and if glasses are not needed, he will take pleas
ure in saying so to you. In fact, he would be
the last man to recommend glasses, except
where benefit would accrue to the wearer.

The writer finds his eyes benefited by the
constant wear of glasses, yet he assures all that
if he could get along reasonably without them,
he would not go in forty yards of a pair of
"specs," except to benefit someone who really
needed them, for a "consideration" or other
wise.

All intelligent physicians, oculists and opti
cians agree that no person reaches the age of
fifty years without having needed artificial aid
for perfect vision either near and at a distance.
One who has done without spectacles and can
read fine print without them at the age of fifty
or more, was short-sighted in youth, and still
remains so for distant objects. In our south
ern country this error of refraction is rare, and
in many cases of this kind a diseased condition
of the eye exists, though not in all.

The most common error of refraction is Hy
peropia, mis-called farsightedness. Many, like
the writer, reach manhood and early middle
age without discovering the trouble, but oh!
the headaches, dizziness and other worries that
might have been avoided by going to a competent
optician if such had been known thirty
years ago.

Persons suffering from this trouble frequen
tly do without glasses until the age of forty, and
if the error is slight, perhaps forty-five, but if
their occupation demands anything like constant
use of the eyes at the near point, suffering en
sues in proportion to the error, and the constitu
tion of the sufferer.

Astigmatism is an error of refraction much
more common than Myopia or nearsightedness,
but far more uncommon than Hyperopia, the
often combined with it, and studious persons,
or those compelled by their occupation to con
stantly use the eyes for near work, and are
afflicted with either or both of these errors, suf
fer more or less intensely according to their
temperament or the amount of error of refraction.

Strabismus, or crossed eyes, is usually the re
sult of an error of refraction, which ordinarily
if taken in time, can be permanently cured by
properly fitted glasses.

LOST FIFTY DOLLARS.

Eell Victim to Grafters In Shreveport.
Willie Parmelly, son of John
H. Parmelly, who lives near
Nacogdoches, returned this
morning from a trip to Fort
Worth. Will has been off
looking for a job, and in his
anxiety to find lucrative em
ployment fell in easy victim
to grafters in Shreveport as
he was on his way back home.
The following from the
Shreveport Times explains
how he was relieved of over
fifty dollars:

"Parmelly came from Fort
Worth Wednesday afternoon
and took a walk around town.
He then returned to the union
depot where he met a stran
ger who told him he had been
offered a job to drive a street
car for \$60 a month, but was
unable to accept.

Parmelly bit at the bait like
a crawfish after a piece of
fresh beef. Such a job would
suit him down to the ground.
Would the obliging stranger
put him next.

The obliging stranger
would. Only too glad. And
so the couple sauntered off in
search of that job. On the
way they met the strangers
pal. The pal said: "Mack,
I cant get that job, I have de
cided to go to Houston. Any
idea who I can get to take
it?"

Of course Mack had the
man at his side. Mr. Parmel
ly of Texas would fill the bill
nicely. But there were pro
visos. The candidate must
put up \$10 forfeit and \$15 for
a uniform. Parmelly cheer
fully put up the money and got
a receipt.

He was then conducted to
ward a place where he was as
sured he could get board at
reasonable rates. By this
time it was dark and some
where in St. Paul's Bottom,
the party was set upon by
armed men, who at the pis
tol's point relieved Parmelly
of the \$18 he had left, besides
the receipt for his forfeit
money and uniform deposit.

Parmelly ran to the police
headquarters and reported the
facts and on his description a
bar keeper named Mack
Clarke was arrested. Parmel
ly says Clarke is the man
"Mack" who figured so con
spicuously in the dirty grafting
scheme. Clarke was released
on bond. His supposed ac
complice have not yet been
released."

Not a Sick Day Since.

all sorts of medicines, none of
which relieved me. One day
I saw an ad. of your Electric

that. After taking a few doses
I felt relieved, and soon
thereafter was entirely cured,
and have not been sick a day

In yesterday's Sentinel you
state that the prohibition elec

you are mistaken. The elec

**Three Hours of Social Entercourse
Between Dallas and Nacogdoches.**
From Thursday's Daily:

The special train bearing
the Dallas Commercial Club
and its guests arrived at 11:15
this forenoon. There were
some fifty gentlemen in the
party, representing the lead
ing commercial, industrial
and financial institutions of
"The Metropolis of Texas." In
the absence of a regular
formulated programme of en
tertainment, the citizens un
der the auspices of the local
Business League, met the dis
tinguished visitors at the de
pot with conveyances and
tendered them a ride over
the town and vicinity.

After the return of the ex
cursionists to the city the party
assembled at the opera
house and an address of wel
come was delivered by Geo.
H. Matthew, Esq., briefly
but with fitting and timely
words. Farmer Bill Shaw
acted as spokesman for the
Dallas party, introducing sev
eral speakers, who made in
teresting short speeches. In
this manner the full motive
of the visit of these gentlemen
to our city was brought out
and explained—as drawing out
a chain link by link—which
was for closer business and
social relations between the
great metropolis of Central
North Texas and the coming
Metropolis of East Texas,
which have just been united
by rail. Both visitors and
citizens were deeply impressed
by this informal mixing and
there can be no doubt but that
great good will result to both.

The special left at 1:30 this
afternoon for Garrison, which
will be the next stop.

The following testimonial
was received from Mr. John
Young, an old soldier of Lin
coln, Ill., who says, "I had
a severe cough and cold and
I decided to get some kind of
medicine. I purchased a bot

hound, and am pleased to say
I am now well. I advise any
one suffering from throat or
lung affections to use this val
uable remedy, I cannot recom
mend it too highly." Sold

Cocaine and Morphine Bill.

The regular session of the
legislature passed a bill regu
lating the sale of cocaine and
other like drugs. It goes in
to effect ninety days after the
adjournment of the regular
session or July 1st. Its main
provisions are as follows:

Any person in the state
who sells, causes to be sold or
gives away any morphine, co
caine, opium, chloral or any of
the derivaties thereof, except
upon the written prescription
of a regular, authorized phy
sician, shall be fined not less
than \$25 nor more than \$250,
and may be imprisoned in the
county jail not exceeding six
months.

All the precriptions for
these drugs are to be kept in
a well bound book and open
at all times for public inspec
tion.

Physicians or other persons,
who shall prescribe any of the
drugs named to any person
known to be a habitual user of
same, except in cases of actual
sickness, shall be fined in any
sum not less than \$25 nor
more than \$250 and may be
imprisoned in the county jail
not more than six months.

No prescriptions can be re
lled.

The law doesn't apply to
proprietary medicines contain
ing the drugs mentioned, un
less they are compounded and
sold for the purpose of evad
ing this law. And it does not
apply to the sale of the drugs
from a wholesale to a retail
dealer.

Dr. J. E. Mayfield returned from a short trip to Longview. He came in on the T. & N. O., and trains made close connection at Jacksonville, shortening the trip greatly. A person can leave Longview at 9:30 a. m. and arrive in Nacogdoches at 2:30 the same day.

A tremendous crowd attended the all-day services at Fairview yesterday, including many from Nacogdoches. Dinner was served on the grounds. The afternoon was devoted to a children's meeting. There were several suitable recitations, and the sermons were fine.

A small snake on exhibition at Will Presslers' fruit stand is attracting a good deal of attention just because it can be studied closely. It eats flies and while it strikes viciously at people, is quite harmless. The snake editor was quite interested.

Berry Patton, colored, was arrested and locked up Saturday, charged with assaulting the wife of Austin Curl on Thursday previous, with intent to kill. Berry fell down on the proposition and now meditates in durance vile over the follies of a misspent career.

Yesterday afternoon, the horse attached to the buggy in which were Mrs. Dan Davison and her little girl, got frightened at the train and ran away. The buggy was kicked to pieces, and both Mrs. Davison and daughter, were thrown out, but fortunately neither were injured. The horse was checked at the foot of Irion hill unhurt, but the buggy is kindling wood.

Mr. W. H. Crouch returned yesterday from Galveston, where he attended the State Underwriters' Association. Mr. Crouch was elected one of the vice-presidents of the organization. The Underwriters had a great time eating oysters and sailing. Mr. Crouch reports the sea wall at Galveston making good progress and gave a most interesting description of the way it is being built.

A fire at Ragley last night destroyed one of the company's houses, occupied by a negro laborer and his family. All the occupants of the house, five persons, were more or less burned, and one child is seriously injured.—Timpson Times.
