TRUST.

There are Three Kinds of Trust.

1. Is or tries to be a monopoly.
2. Means "Charge it."
3. Means "believe in" or "have confidence in;" as for example the relation which exists between our customers and ourselves.

If you want to know why the people have formed this kind of a Trust with us, bring your prescriptions here and get started trading with us, and you will know why.

The Royal Arch Chapter, A. F. & A. M., of this city, which forfeited its charter on account of the per-capita dues being tied up in the Wettermark bank failure, has been re-instated and will be re-organized as soon as practicable. The membership will no doubt be largely increased, as the Master Masons' lodge has increased greatly in membership during the past year with splendid material from which to build up the Chapter. The next regular meeting of the Master Masons' lodge, will take place Saturday night, Dec. 17th, when reports will be heard from the representative to the grand lodge, which has just adjourned at Waco.

P. C. RICHARDSON

Closed His Doors in Voluntary Bankruptcy.

Mr. P. C. Richardson, doing a dry goods business in the Cox building on the corner of Main and Fredonia streets filed a petition in voluntary bankruptcy in the Federal court at Tyler today through his attorneys, Messrs Ingraham, Middlebrook & Hodges.

Mr. Richardson stated to The Sentinel reporter today that he thought his assets would invoice about \$4,500 and his liabilities are \$3,000. His assignment is due to being crowded by creditors at a time when business is demoralized and it being impossible to convert his stock into cash fast enough to meet promptly his obligations.

Samples! Samples!! Samples!!!

I have bought the entire line of samples from A. Lehman & Co., of New Orleans, at a large discount, consisting of ladies' and misses' skirts, ladies', misses' and children's jackets, shawls and facinators, ladies' and gents' underwear, over-shirts, sweaters and gloves; ladies' and children's hose, belts, suspenders, shirtwaists. And all for sale at less than manufacturers price. Don't miss this opportunity as they are not going to last long.

Yours for Bargains.

Simon Mintz.

P. S.—We have a few odds and ends left in each department which will be closed out in this sale. Ladies trimmed and walking hats at half value.

S. M.

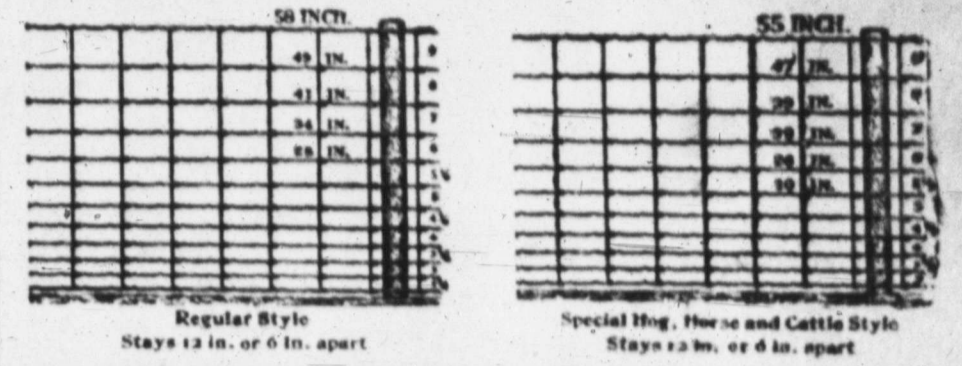

W. W. Perry of this city, has been put in charge of the stock of P. C. Richardson, who yesterday went into voluntary bankruptcy, until a trustee can be appointed at a meeting of creditors.

HALTOM & HALTOM, Proprietors.
R. W. HALTOM, Editor

DALLAS has another murder mystery. That town is rapidly coming up alongside of Shreveport for championship honors as the habitat of the lawless.

Why not lay the responsibility for the fall in cotton on Roosevelt? If Parker had been elected it would certainly have been promptly placed on his innocent shoulders.

Old Ben Tillman has withdrawn his active opposition to the confirmation of Crum, as collector at the port of Charleston, and the lucky darkey will soon be drawing his long deferred salary.

If the depredations of the boll weevil are followed by a 12,000,000-bale crop and 6 1-2 cent cotton what shape would our farmers be in if the much abused bug had not reduced the crop by 2,000,000 bales?

THE LUFKIN TRIBUNE wants to know in what Nacogdoches has the advantage of Lufkin. In many things, brother-soil, scenery, climate, piety, population, plenty of good water and very little bad whiskey. We could extend the list indefinitely, but this is enough for a starter.

THE people of Tyler are up against the exciting issue of the hog law. They are to determine on Dec. 31st whether or not hogs shall run at large in that city. There are more possibilities of trouble, heart-burning, resentments, broils and feuds in a contest of that kind than in a National election to select a President and Congress.

THE warmth of Southern welcome to President Roosevelt next spring when he visits this section will depend very largely upon the extent of his co-operation with Senator Platt in the work of reducing Southern representation in Congress. If Teddy really loves us as he says he does he can prove it by blocking the Platt game.

RIGGINS the irrepressible ex-mayor of Waco, is still on deck with his undying grievance. He has filed suit against Allan Sanford, former city attorney, and who was later mayor of Waco, and the city council for \$20,000 actual and same amount exemplary damages in connection with the proceedings by which Riggins was ousted from the office of mayor over a year ago, alleging malicious prosecution.

IN Philadelphia, the city of brotherly love, (a most appropriate place) the University of Virginia and the University of Pennsylvania, held a public debate Tuesday night on the momentous question: "Resolved that the Fifteenth amendment to the constitution of the United States be repealed." Strange to say the Southerners argued in favor of negro suffrage. We have not heard the result of the great controversy.

BOLL WEEVIL COMMITTEE REPORTS.

The boll weevil reward committee appointed by Governor Lanham in compliance with the act of the last legislature to examine the many devices offered to destroy the boll weevil and get the \$50,000 reward has just made its report. None of the devices were found effective and the purse is still hanging in the air. The report is interesting and contains some valuable suggestions to cotton raisers. Among other things the committee says: "After the most careful consideration of the subject and from every source of information we could gather, we believe this pest is with us to stay. It will not leave the cotton growing region. The amount of damage done will increase year by year as the territory grows greater over which the boll weevil is spread. The damage that will be done in the cotton growing section of Texas can not be overestimated. The importance of finding some means by which we can make a crop in spite of the boll weevil can not be comprehended by the average planter."

This is discouraging but the committee does not leave the farmer entirely without hope. It further says:

"Many things coming under the observation of the commission incline us to believe that a remedy for this great evil is in sight. Sections of this state where large territories growing cotton have been entirely destroyed by caterpillars, so late in the season that the plant did not afterwards put out squares, have shown that the next year the boll weevil was scarcely found. Other large territories in the southwest, where the drouth has cut the plant short too late in the season for it to put on forms (the fields being pastured so as to become entirely stripped of foliage) have the succeeding year been shown to be almost free from boll weevil. These are object lessons that must convince every thoughtful farmer that the means for destroying the crop of boll weevil must commence with the year preceding the one in which he expects to make a crop of cotton.

"Boll weevils do not feed upon anything but cotton. They do not reproduce in anything but cotton squares and bolls. If the planter can produce a reasonable crop of cotton from some early maturing variety that may be picked and out of the field by the 15th of October—speedily destroying the plant left in the field at that date while it is green, and full of squares, he will not only get the crop of boll weevil that is in the egg, larvae and pupa form, but he will entirely destroy the food of the adult; and by this means leave but few boll weevils to enter hibernating quarters, and those so weakened as to furnish the smallest percentage that would survive the winter.

"Hundreds of farmers have demonstrated during the past two years that we can raise an average crop of cotton and have it out of the fields by the 15th of October, by early

planting, rapid cultivation and the selection of cotton that matures early.

"We may be forced to lessen the acreage in cotton in order to accomplish this, but good will come of this, as it leads to a larger diversification of crops and make the farmer more independent than he has ever been.

ON Tuesday Senator Platt of New York, introduced a bill in the Senate prepared under the direction of the committee on national affairs of the Republican club of the city of New York, having as its purpose the reduction of representation in congress of the Southern states that have disfranchised the negro voters. The measure, if enacted in its present form, would lessen the membership in congress by 19, according to the estimates that have been made by the Republican club, which originated it. The bill and the statement issued by Senator Platt were referred to the committee on census.

PRESIDENT PETERS of the Texas Cotton Growers Association is being much abused just now by people caught in the fall of that staple because he sometime ago advised them to hold for a rise. This is hardly fair. Ours is a free country and advice is cheap. We are not compelled to act on the advice of other people and the man who buys or sells does so on his own responsibility. The disposition to advise generally has its origin in a kindly impulse and in the case of President Peters his motive was beyond impeachment. When we take bad advice in a case like that the moral as well as actual responsibility is ours alone.

ONE of the most cheerful and rational views of the cotton situation that has come to our notice is from Prof. Oswald Wilson, of Ft. Worth, government statisticians for Texas and the Territories. Speaking of the 12,000,000 bale crop Prof. Wilson says in the Houston Post of Friday that he did not see anything to cry over. He believes that is not much cotton for the needs of the world. "In 1897 there was something over 12,250,000 crop. Since that time the consumption of cotton in the South alone has increased more than 1,000,000 bales annually." He does not believe that there is any one now holding cotton but those who are able to hold it. Farmers, he stated, are not business men, and when they gather their cotton they market it, save in instances where they are able to hold, and those who have held so far, he states, will in most instances, continue to hold. In 1892, he stated, when there was a shortage and when cotton was up, something more than 900,000 bales were brought to sight than had been ginned that year. Some of the cotton had been ginned for ten years and had been held that length of time. There were lots of people, he stated, who while the price was down, made their brags that they were going to hold for 10 cents, and many of them did it. He believes that the same thing will trans-

pire this year and that there will be hundreds of thousands of bales that were ginned that will not be brought into sight. Touching upon the scheme to reduce the acreage, he stated that experience had taught that this did not work. The result had been in former years, where farmers got together and decided to reduce the crop, that it transpired they really planted more. One man will figure that his neighbors intend to reduce their acreage and he calculates that if they do he can plant a little more and get the benefit of the short crop price. The result is that all his neighbors figured just like he did. The best thing to do, he says, is to let the farmers alone. Sizing the crop up and the panic which is now on, Prof. Wilson states that things will soon find their level and that no one but the speculators will be injured in the long run.

LOUIS J. WORTHAM, general manager of the Texas exhibit at the World's Fair has been formally notified that Texas had been awarded the following prizes for her horticultural exhibit: State exhibit, grand prize; T. V. Munson, Denison, grapes, gold medal; C. W. Wood, Swan, Smith county, peaches, gold medal; John S. Kerr, Sherman, apples, gold medal; S. N. Thompson, Bowie, apples, gold medal. Texas exhibitors also received sixty-nine silver medals and 136 bronze medals, a total of 211 prizes for Texas in this department. Sam Dixon, who had charge of the Texas horticultural exhibit, received the gold medal for care and skill in preparation and arrangement.

ROOSEVELT has shut off a Boston paper from the report of the weather bureau at Washington because said paper charged that the Roosevelt children pulled the feathers out of the Thanksgiving turkey at the White House before killing it. There was a time, when such an act of petty tyranny would have made the country quiver with indignation, but everything goes now. Presidential prerogatives are constantly increasing and the imperial style of doing things grows more pronounced every year.

ONE of the notoriously weak points in the administration of the law in Texas is the jury system, and that it needs some sort of amendment that will improve it is generally admitted. The Houston Chronicle suggests the adoption of the Louisiana system but, as justice miscarries about as frequently in Louisiana as it does in Texas if reports be true, the adoption of the jury system in that state might not be a change for the better. That law as given by the Chronicle provides for placing in a wheel the names of every qualified juror in the county, and when a jury or juries are needed in any court the clerk, under the direction of the judge, draws the number of names needed, and after the list has been prepared for summoning the names are placed in a second wheel, and when the first

wheel is exhausted the jurors are then drawn from the second wheel until it is exhausted, and by that process every man in the county liable to jury service will be some time drawn without fail.

THERE is as much virtue in public sentiment as there is in law, after all, for the suppression of crime and the upbuilding of the moral status of a community. The community that demands its laws be enforced, usually gets its wish, while the community that is indifferent about the matter moves along in a loose, slipshod manner, allowing all minor offenses to go by unnoticed and only taking notice of the capital cases because of the comment that spreads beyond its confines. With this condition—and no one can dispute it—it behooves all lovers of law and order to cooperate in the moral, upbuilding of his community.—Center News.

Wise words opportunely spoken, and they apply to every community in the state. Laws will not enforce themselves nor in many instances will the officers enforce them unless public sentiment gets in behind them and compels them to. The men who complain of hoodlums, rowdyism, pistol toting, boot-legging and other offenses that vex the community have it within their power to stop all such business by publicly and boldly demanding that the officers do their plain duty in enforcing the law; and when this demand is made by good citizens generally and they are not afraid that somebody will hear them say it—it creates public sentiment which can organize itself into an irresistible force that will compel the arrest and punishment of law breakers, white and black, rich and poor, without fear or favor.

THE farmers union has been hit hard in this county. Through the advice of that organization many of its members have been holding cotton for more than a month in this county, and have lost from fifty to one hundred thousand dollars in the doing so. In Texas the members have lost several million dollars as the result of holding for better prices.—Tyler Courier.

This morning before Justice Jones in the court house Joe Bug Roquemore of this city, and B. C. Cochran, of Caro, each charged with assault to murder, growing out of the recent shooting affray in the latter town, appeared and waived examination and were admitted to bond in the sum of \$500 each. They also plead guilty to carrying pistols and were each fined \$25.

Last night in Garrison George F. Rainbolt, the well known merchant, closed his doors and filed a petition in voluntary bankruptcy. His liabilities are estimated at \$15,000 and his assets from \$7,000 to \$10,000. It is said that Mr. Rainbolt has lost very heavily during the past two weeks because of the extraordinary decline in the price of cotton and his failure is charged to that fact.

Revolution Imminent.

TORMENTING RHEUMATISM

Columbus, Ohio, May 20, 1903.

Six years ago I had a severe attack of Inflammatory Rheumatism. I was laid up in bed for six months, and the doctors I had did me no good. They changed medicines every week and nothing they prescribed seemed to help me. Finally I began the use of S. S. S. My knee and elbow joints were swollen terribly, and at one time my joints were so swollen and painful that I could not close them when opened. I was so bad that I could not move knee or foot. I was getting discouraged, you may be sure, when I began S. S. S., but as I saw it was helping me I continued it, and to-day I am a sound well man and have never had a return of the disease. S. S. S. purified my blood and cured me of this severe case of Rheumatism after everything else had failed. I have recommended it to others with good results.

R. H. CHAPMAN.
1355 Mt. Vernon Ave.

The poisonous acids that produce the inflammation and pain are absorbed into the blood and Rheumatism can never be conquered till these are neutralized and filtered out of the blood and system. S. S. S. goes directly into the circulation and attacks the disease itself. It purifies and restores the blood to a healthy, vigorous condition. It contains no potash, alkali or other strong minerals, but is guaranteed entirely vegetable. Write us and our physicians will advise without any charge whatever. Our book on Rheumatism sent free.

It is said they stood five for the plaintiff and one for the defendant.

Fight Will be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beall, of Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her. Guaranteed by Stripling, Haselwood & Co., druggists. Price 50c and \$1. Trial bottles free.

To Meet at Corsicana.

It is the earnest desire of the officers of the Superintendents and Principals as well as those of the Texas State Teachers Association, to have at Corsicana the largest attendance upon these meetings ever known in their history.

That this may be accomplished it is earnestly requested that every teacher, into whose hands a copy of the program may come, urge the matter and endeavor to interest others as well as himself in attending.

Corsicana has made unusual preparations for entertainment and the occasion promises to be one of the most instructive as well as one of the greatest pleasure.

The meeting will be held Dec. 27-28, and Dec. 28-29. One and one third fare on all railroads. Hotel rates \$1 to \$2 a day.

Trusting that we may have the pleasure of meeting you at Corsicana, with the very best wishes, we are,

Faithfully yours,

Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damages they will do to the good you can possibly derive from them. Halls Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Halls Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonial free. Price 75 cents per bottle. Sold by all druggists. Take Halls Family Pills for constipation.

No Case of Pneumonia on Record

There is no case on record of a cold resulting in Pneumonia, or other serious lung trouble, after

FOLEY'S HONEY and TAR

had been taken.

It stops the cough and heals the lungs and prevents serious results from a cold.

Do not take chances on a cold wearing away or experiment with some unknown preparation that costs you the same as Foley's Honey and Tar. Remember the name and get the genuine.

A Severe Cold for Three Months.

The following letter from A. J. Nussbaum, of Batesville, Ind., tells its own story: "I suffered for three months with a severe cold. A druggist prepared me some medicine, and a physician prescribed for me, yet I did not improve. I then tried Foley's Honey and Tar, and eight doses cured me."

Three sizes—25c, 50c, \$1.00. The 50 cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

HILL county will vote next Saturday on prohibition.

It is officially announced that the next annual reunion of the Confederate Veterans of the United States will be in Louisville, Ky., date not yet fixed.

RED RIVER county voted on prohibition last Monday and went "dry" by nearly 1000 majority. The county has been in the prohibition column for two years.

SECRETARY WILSON of the Department of Agriculture has recommended that Congress appropriate the sum of \$225,000 to continue the fight on the boll weevil directly and indirectly, the latter by experimenting with early cotton, diversifications and the like.

FROM information wholly reliable says the Galveston News, it can be announced that the Orange & Northwestern Railway, running from Orange to Buna, has been sold to the Frisco. The deal was consummated in New York during the last part of last week. A construction company was also formed to build the road from Buna to Shreveport. The same information contains the news that the Frisco contemplates branching off from a point near Buna and constructing a line to New Orleans.

Col. Peters to Texas Farmers.

Calvert, Tex., Dec. 12th.—The following letter is sent out by Col. E. S. Peters, president of the Texas-Cotton Growers' Association, to the members of this association and all others interested in the prosperity of the South:

"In view of the fact that the Government's guess of 12,000,000 bales has caused a decline in the price of cotton, you are urged to join the meetings to be held with the Farmers' Union throughout the South on next Saturday, Dec. 17th, to take action as to the best means to protect ourselves at this time. The policy of marketing the remainder of this crop slowly should be adhered to; the beneficial results secured to the South this season have already amounted to millions. In fact, we have already received as much money as the entire crop would have brought had it been dumped on the market and sold as ginned. In other words, we would have had 7c cotton in October instead of December had not the policy of marketing cotton slowly been pursued, and what we have on hand now is practically 'lagniappe,' and we can afford to sit down and wait for them to come and pay our price, which is not high, and only affords the producer a very moderate profit. I would suggest that every cotton producer and ginner be able to state through the press whether or not he is through ginning, and what percentage, if any, he expects to give, so

that when the Government Census Bureau report is issued we can tell exactly what the 1904 crop will be. It is very important, as it will materially affect the price of cotton. I would be glad to hear either by letter or postal what action was taken and what the sentiment of the people is in regard to marketing cotton slowly and securing 10c for what there is on hand, and whether they desire a system of public warehouses."

Notice.

The regular annual meeting of the stockholders of the Stone Fort National Bank of Nacogdoches, Texas, for the election of directors and the transaction of any other business will be held between the hours of 10 o'clock a. m. and 4 o'clock p. m. on the 3rd Tuesday in January, 1905, in the office of said bank.

The people of Attoyac are preparing to give a big Christmas supper on the 27th inst. for the benefit of the new church house, which is not yet completed. The supper will be given at the school house and a program will be arranged for the pleasure and amusement of all, old and young. A prize will be offered for the most popular young lady present. Everybody is invited and promised a good time. The move is headed by the building committee, who are, B. T. Hargis, J. Perritte, W. R. Blackshear, J. E. Sanders and W. H. Cade.

Notice.

Nacogdoches, Tex., Dec. 14th, 1904.—Mr. Blake has lost his mind and is not responsible for anything he does or says. I wish to notify the people that I will not be responsible for any trades that he makes; also that I am not responsible for any trades that my boys make.

Mrs. Clara P. Blake.

Mr. Jno. W. Lewis, who recently moved from LaNana to Appleby for the benefit of the school, was in the city yesterday. He was on his return from his old place where he had been on a hog killing expedition, and he had meat in his wagon.

The creditors of P. C. Richardson are called to meet in Tyler Dec. 22nd to prove their claims and appoint a trustee for the estate.

Jenus Childers, colored, is now in the county jail on the serious charge of passing counterfeit money. Sunday night Jenus went to the home of Jeanette Rivers, colored, in this city and got lodging for the night, for which he offered in payment what looked to Jeanette in the uncertain light to be a silver dollar and got seventy-five cents in change. Next morning the woman discovered that the coin she had taken was a gross counterfeit, so gross in fact that it was an insult to the counterfeiters' art. Jenus was arrested, taken before Squire Jones and in the absence of a \$1000 bond he now rests in jail to await the grand jury. Jenus is a well known boot-legger.

A DIFFERENCE.**

Have you ever noticed what a marked difference there is in Furniture?

You can't always judge good furniture by the price—some dealers put high prices on cheap stuff because it happens to show up well. With us it's different—we have a small percentage we add to the factory cost to each article alike. We show our customers the difference, and how the cheap and the good kind of furniture is made. Come and see us and we'll convince you with the fact that our goods and prices are right. We'll appreciate your visit.

SPECIAL

To have one gallon of the above goods shipped express paid, add 50 cents to the gallon rate. For two or more gallons, 50 cents for the first and 25 cents for each additional gallon.

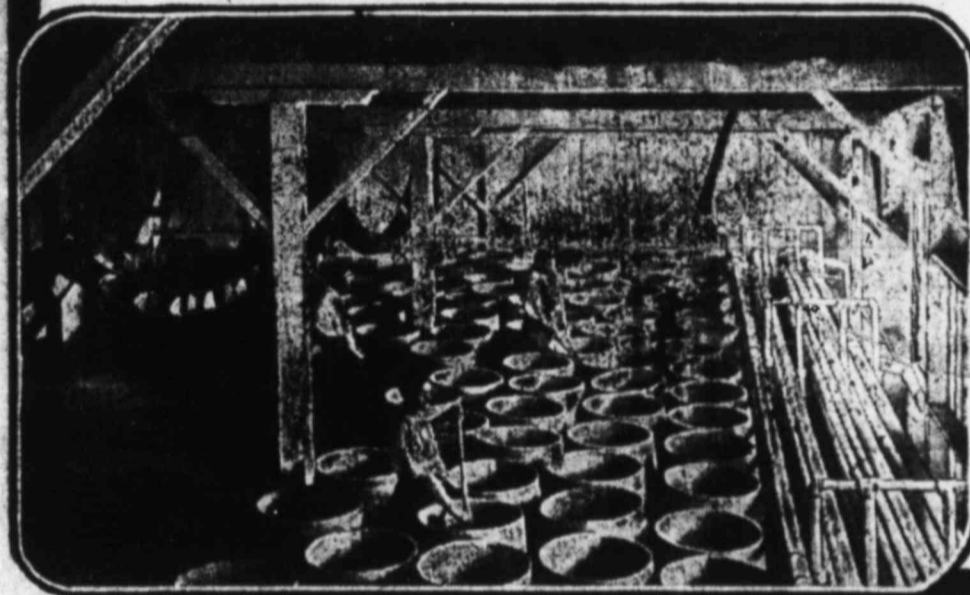

The past twelve months show a grand total for all of our houses of nearly a half million dollars. Considering that we absolutely do not sell to the dealer, this is a very good "showing" and further proves that quality wins. Next year we expect to double it.

We distill RED ROCK and CRESCENT CLUB Whiskies and are largely interested in the production of EARLY TIMES and JACK BEAM, however this fact does not prevent our handling other brands, as well as a complete line of Brandies, Wines, Gins and Cordials. We fully realize that two or three Whiskies will not please every one and our earnest desire is to offer the buyer a variety to choose from, which covers every kind and character of Whiskey on the market. We contract for the entire output of the CLERMONT DISTILLING CO. of Warren Co., Ky., one of the state's foremost fruit distilleries, and in APPLE and PEACH Brandies, our qualities are unsurpassed.

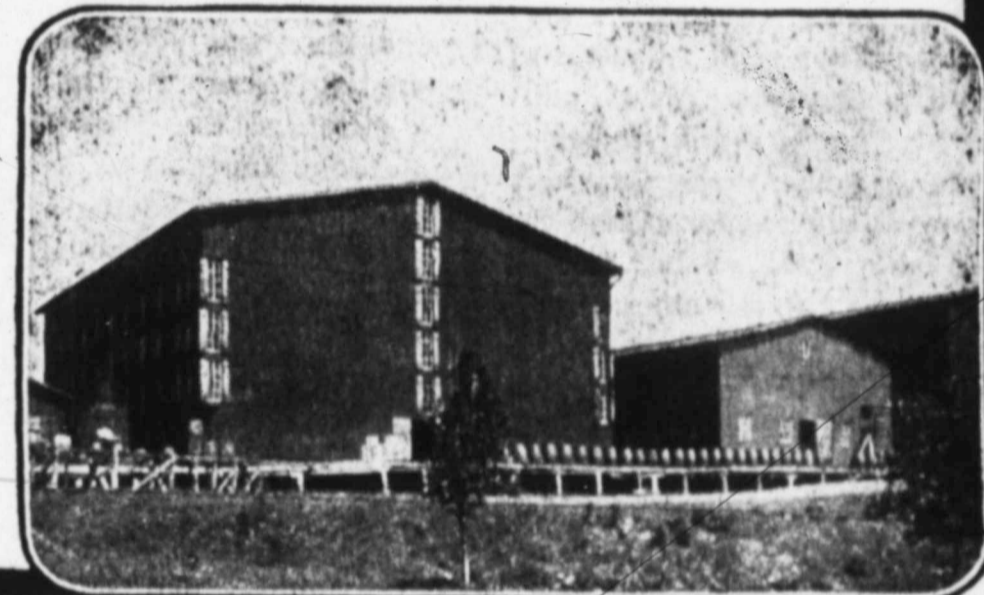

We do not rectify. Most Whiskey houses of prominence carry a "RECTIFIERS LICENSE," which in plain English means a privilege sold by the Government for a heavy consideration, granting the rectifier the right to "MIX" Whiskey with anything and dishonest desire for unfair profits may induce "UNCLE SAM" to offer the consumer of Rectified Whiskey absolutely no protection. We do not carry a RECTIFIERS or MIXERS license and the goods are shipped exactly as received from the Distilleries. In proof of this claim, we refer you to the records of the Internal Revenue Department.

In asking your consideration, we are appealing to your common sense and are not making a lot of extravagant claims, which must appear ridiculous to even a person of limited comprehension. We are "Bona-fide" Distillers and guarantee every drop of Whiskey we sell. We intend to make every transaction so satisfactory to each customer, large or small, that it will be a real pleasure for him to give us his business and should any order not open to your entire satisfaction, we will esteem it a favor if you will return the goods at our expense and the purchase price will be refunded.

George E. Brown. In Phoenix, Arizona, on the 21st of November, there passed from Earth to Heavenly rest one of the purest and best of men. George Eugene Brown, the subject of this sketch, was the adopted son of Mr. and Mrs. J. T. Baker, who at the time of his infancy, about forty seven years ago, lived in San Augustine. George was beloved by his foster parents and in return gave them most affectionate appreciation. Mr. Baker having died while serving his country during the war of the Confederacy, the adopted son was the support of the dear mother in her declining years and well did he return the wealth of kindness she had bestowed upon him. He married about twenty-two years ago and after a few years went with his family to Washington, D. C. where he held an honorable position in the Pension Office until three years since when his health giving way he was advised to go to California. He found the climate more agreeable in Arizona and spent the last two years in Phoenix, where he waited the summons and as a little child with hands folded sank to sleep. The aged mother, the wife and seven children miss his loving presence but as one of the children wrote me, "Grandma told us to think of papa as a bright angel in Heaven."

Mr. Brown early became a member of the church and was always faithful to his religious duties. During a two

months sojourn in his home at Washington I knew him well and saw the daily life that was gentle and beautiful, and the Sunday school attendance with his little ones was never neglected; there he taught a class of children who loved him and through him learned the blessed truths of life.

May those who come after remember his virtues and follow the example left by an upright and noble man.

Emma Eugenie B. Shindler.

Beware of Counterfeits.

"De Witt's is the only genuine Witch Hazel Salve," writes J. L. Tucker, of Centre, Ala. "I have used it in my family for piles, cuts and burns for years and can recommend it to be the best salve on the market. Every family should keep it, as it is an invaluable household remedy, and should always be kept on hand for immediate use." Mrs. Samuel Gage, of North Bush, N. Y., says: "I had a fever sore on my ankle for twelve years that the doctors could not cure. All salves and blood remedies proved worthless. I could not walk for over two years. Finally I was persuaded to try DeWitt's Witch Hazel Salve, which has completely cured me. It is a wonderful relief." DeWitt's Witch Hazel Salve cures without leaving a scar.

No More Suffering.

If you are troubled with indigestion get a bottle of Kodol Dyspepsia Cure and see how quickly it will cure you. Geo. A. Thomson, of Spencer, Ia., says: "Have had dyspepsia for twenty years. My case was almost hopeless. Kodol Dyspepsia Cure was recommended and I used a few bottles of it and it is the only thing that has relieved me. Would not be without it. Have doctored with local physicians and also at Chicago, and even went to Norway with hopes of getting some relief, but Kodol Dyspepsia Cure is the only remedy that has done me any good, and I heartily recommend it. Every person suffering with indigestion or dyspepsia should use it." Sold by Perkins Bros.

A. W. Eddings was up from Nacogdoches Monday looking around for a location for his shop. We understand that he was favorably impressed with Garrison and will more than likely move here about Jan. 1st. Mr. Eddings is a good citizen and will be more than welcome to our town.—Garrison Gleaner.

A Pleasant Pill.

No pill is as pleasant and positive as DeWitt's Little Early Risers. DeWitt's Little Early Risers are so mild and effective that children, delicate ladies and weak people enjoy their cleansing effect, while strong people say they are the best liver pill sold.

E. C. King, of Garrison, was in the city today on a business visit.

Doctors Could Not Help Her.

"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure." It makes the diseased kidneys sound so they will eliminate the poisons from the blood. Unless they do this, good health is impossible. Sold by Perkins Bros.

The painful news was received here Monday that Rev. J. W. Bridges, pastor of the Methodist church here, had suddenly become violently insane at Marshall, where he was attending district conference. The good man was taken to the home of his parents at Killgore, where it is hoped he will ultimately recover.—Alto Herald.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. Sold by Perkins Bros.

J. W. Jean, formerly of Nacogdoches county, but late of San Augustine county, is making preparations to establish a large saw mill at Jean's switch near Bronson, in Sabine county, on the Santa Fe railroad. Jean is a saw mill man of experience, and for a time has been associated with his father, Wesley Jean, who is now running a mill four miles north of Bronson, out in the country. In this connection it might not be out of place to mention the fact that Mr. Jean, Sr., helped build and operate one of the first saw mills ever operated in Nacogdoches county—the old John Matthews mill four miles south of Melrose.—Beaumont Journal.

Of Interest to Mothers.

Thousands of little ones die every year of croup. Most of them could have been saved by a few doses of Foley's Honey and Tar, and every family with children should keep it in the house. It contains no opiates and is safe and sure. Mrs. George H. Pickett, San Francisco, Cal., writes: "My baby had a dangerous attack of croup and we thought she would choke to death, but one dose of Foley's Honey and Tar relieved her at once after other remedies had failed. We are never a minute without it in the house." Sold by Perkins Bros.

The brick work on the Hardeman building has been completed, the roof is about finished and the wood work on the inside is being pushed with the expectation of completing the entire contract by January 1st.

Married.

Mr. Charles B. Watkins and Miss Maymie Brown were married at Sacul Wednesday evening, November 30th 1904. Rev. Baucom officiating. Mr. Watkins is a son of Mr. and Mrs. John H. Watkins of Mahl, one of the oldest and best known families in this section. Mr. Charles Watkins is a popular and energetic young man of irreproachable morals and counts as his friends all who know him. His fair bride is a lovely and accomplished young lady, a native of Tennessee, much beloved by those whose pleasure it is to know her intimately. We extend our sincerest congratulations and wish them a life honored, useful and happy, crowned with all the blessings their Heavenly Father bestows on those who walk ever in His love.—Caro Opportunity.

Prating Foley's Honey and Tar

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by Perkins Bros.

THE special election in Houston Saturday to determine the question of commission or no commission to govern the city, settled the matter in favor of a commission by a vote of 7,262 against 815.

THE press fraternity throughout the State will sincerely sympathize with Editor Green, of the Tyler Courier in the death of his promising son Horace, a youth of 20 years of age who died in Tyler Friday after a year's illness.

PANOLA county has been "dry" for two years, but the anti-element succeeded in getting another election for last Saturday and the prohibitionists didn't do a thing to them but bury them under a majority of 784. It was a crushing defeat and Panola county may now be put in the permanently arid column.

THE Shreveport Times goes the full length and pronounces Miss Helen Gould "the uncrowned queen of this liberty loving country." Miss Gould is a worthy and sensible young woman who uses her very superior opportunities to do more good to her fellow creatures than other rich women are generally credited with, but it is fulsome gush to declare her the uncrowned queen of America. There are many other women in this country fully the equal of Miss Gould and lacking only her wealth to do fully as much good. Every noble woman is an uncrowned queen in the unofficial sense of the phrase.

CARLOS CAMPANA, late of the San Augustine Reporter, is now at the helm of the Sabine County Index and he sends us a marked copy of his paper in which he gives his San Augustine enemies several paragraphs of hot stuff. Carlos intimates that the blind tiger crowd, with which he wouldn't stand in, had something to do with his departure from San Augustine. No newspaper man can make such a fight alone. If the best element of the town won't back him up he only sacrifices himself and accomplishes no good. If the people of San Augustine prefer blind tigers that is their affair. A town is no better than its people desire it to be.

NACOGDOCHES pulled off a whole week of carnival, day and night, without one instance of rowdiness or disorderly conduct, not even on Saturday night after the jug train had arrived. It is a noteworthy triumph of law and order—Nacogdoches Sentinel.

We don't need to state that we wasn't thar ter meet th' jug train.—Alkali Eye.

And we don't need to state, old boy, that if you had met it and then proceeded to cut up in the way your reputation gives you credit for you would have been judged on the spot, for the "perlice" were mighty thick and mighty watchful that night. Alkali Eye in the Nacogdoches calaboose would have been the crowning glory of the carnival.

THE PECKSNIFF OF STATES.

No part of this Union has lectured the South so persistently and so offensively for the past forty years on its sins of omission and commission as has the pure and pious State of Massachusetts, and if we hadn't known better we might have been tempted to believe that in that puritan commonwealth was to be found the headquarters of all the patriotism and purity in this country. Massachusetts was almost too saintly for mere earthly purposes and nothing but the vulgar laws of gravitation keep her from skooting skyward where she properly belonged. But when thieves fall out there's a whole lot of truth-telling with its resulting exposure of hypocrisy and fraud, and that is just what has happened to Massachusetts. Quite recently Mr. Thomas W. Lawson, he of "Frenzied Finance" confessions, a Boston man and late plutocratic republican, went broke in his big deals and to avenge himself on his pals has been telling tales out of school. In one of his recent magazine chapters he gives us the following picture of the Massachusetts legislature that is enough to make a Southern man accustomed to honest law makers in his State legislatures, sick with disgust and loathing:

"The Massachusetts legislature is bought and sold as are sausages and fish at the markets and wharves; that the largest, wealthiest and most prominent corporations in New England, whose affairs are conducted by our most representative citizens, habitually corrupt the Massachusetts legislature, and the man of wealth among them who would enter protest against the iniquity would be looked on as a 'class anarchist.' I will go further and say that if in New England a man of the type of Folk of Missouri can be found who will give over six months to turning up the legislative and Boston municipal sod of the last ten years, who does not expose to the world a condition of rotteness more rotten than was ever exhibited in any community in the civilized world, it will be because he has been suffocated by the stench of what he exhumes."

It is made perfectly clear says a Washington dispatch that the president's proposed southern trip is dependent upon the final decision regarding the holding of an extraordinary session next spring. If congress should not be in session, it is the president's intention to take a trip as heretofore indicated, but it will not be as at present contemplated. It is intended now that the president will go to San Antonio by the way of Louisville, Ky., and Indian Territory. After the reunion of the Rough Riders, the president hopes to have a hunting trip in the mountains of Colorado. On his return trip he may stop at some points in the South, but it will be some time before the itinerary is determined.

HAYWARD MILL NOTES.

The Hayward mill lacks a great deal yet of being completed, yet the saws are running almost on full time and have been for two weeks. Besides the vast amount of lumber used in construction of platforms, lumber sheds, etc., there are several hundred thousand feet already stacked on the yards.

The waterworks system will soon be completed. The mains are being extended, hydrants for fire protection are being placed at convenient points, the reservoir has been erected and the pipes connecting with the pumps are in place. The water system will be perfect and up-to-date, and on no small scale.

The same may be said of the electric light system. The lights have not been turned on yet, the dynamo not having arrived, but the wires have been placed. There will be a number of arc lights placed at convenient points on the yards and all the buildings will be thoroughly lighted with incandescent lights. The dynamo is expected to arrive this week.

The railroad, over which the mill is being logged, now reaches to within a short distance of Woden and the grade has been completed to that place. It is expected that the track will be laid within the next two weeks, after which the road will be operated as a public carrier between Nacogdoches and Woden. It is also probable that the road will be extended into the city and a depot established convenient to the business portion at an early date. This latter depends upon the success of the move put on foot at the mass meeting of citizens last week. The company is as anxious for a Cotton Belt connection as are the people of this city, and there is no doubt that the Nacogdoches and Southeastern will be pushed as rapidly as possible to a connection with the Cotton Belt at the nearest point practicable. The road will be extended through the Nacogdoches oil field during next year beyond a doubt.

Before the last big break in the cotton market a great many of our farmers had determined to hold for better prices. Since the 7c mark has been reached there is no alternative left but to hold the remainder of the crop off the market. A rush on the market at this time could have but one effect and that is to still depress the market. No farmer should offer another bale for sale who is not absolutely forced to sell it. The speculators they have us in a hole, and are aiming to scoop the profits of the cotton crop that the farmer is entitled to and should have. There is only one way to beat him—continue to sit on your cotton.—Panola Watchman.

At their late State meeting in Waxahachie the Texas Daughters of Confederacy voted unanimously to establish a home for the indigent widows of Confederate veterans and locate it in Austin. Nearly \$3,000 has been raised for that purpose.

FROM THE ASHES.

Baltimore Family's Experience Points a Moral to Residents of Nacogdoches.

The visitor to Baltimore today scarcely realizes that less than a year ago the city was almost destroyed by a memorable fire. A similar comparison might be made by George W. Nally, one of the leading citizens of Baltimore, as to the change in his own looks.

A short time ago, Mr. Nally, writing from his home address, 2213 Barclay street, says: "I have been troubled for years with catarrh and had resorted to all remedies that could be thought of. My wife was also afflicted with this terrible disease, but all the treatments we used were an absolute failure until we tried Hyomei. It worked like a charm and has made a complete cure in both our cases."

Stripling, Haselwood & Co. the local agents for Hyomei, have so much faith in the treatment that they give their personal guarantee to refund the money in case it does not benefit. A complete outfit costs one dollar, the extra bottles are but fifty cents. Ask to see the strong guarantee under which Hyomei is sold. 7

Notice.

Notice is hereby given that I will indict all persons entering upon my enclosure, known as the Wettermark pasture, without my consent. E. M. Weeks.

A. W. Eddings has sold his home on South Fredonia hill to Marion Hall, and will move to Garrison Jan. 1st.

A few nights ago Walter Anderson, a substantial and respected farmer living in the suburbs of Appleby lost his home and all its contents by fire and the citizens of Appleby with the generosity characteristic of a Texas community under such circumstances the next day made up a purse to buy lumber enough to build Mr. Anderson a new home. Today Dick Greer and J. E. Hill are in the city with their teams to get the lumber from the Hayward mill and haul it to Appleby.

Wanted at once woodchoppers and renters. Can put in all the time. Have nothing but money to pay. d2w1 Elario Cordova.

OLD FIDDLERS' CONTEST

Was a Grand Success at San Augustine.

The old fiddlers' contest which has been so extensively advertised, was duly pulled off Tuesday night, and was a grand success from every point of view. There was not as many of the old fiddlers present as had been expected, owing to the inclement weather, but the doors of Hollis Hall were thrown open promptly at 7:30, and the guests began to arrive.

The "old fiddlers" entertained the crowd with some very good music until a very late hour, and at the conclusion the prize—\$10 in cash—was awarded to Mr. Black, a one-arm man.

The door receipts amounted to \$52.50, which will go to the cemetery fund.

The good ladies of the Cemetery Association are to be congratulated for furnishing so many delightful entertainments, all of which, like the old fiddler's contest, are a decided success. If the men of San Augustine had the enterprise of the ladies, the town would be much better off.—San Augustine Visitor.

A meeting of the trustees of the East Texas Baptist College has been called to assemble at Lutkin, Dec. 18th. It is supposed that bids will there be received for the removal of the college to a more eligible location. We learn that Henderson is intending to bid for the location. Lutkin, Timpson, Tyler and Nacogdoches are already in the field. The longest pole will probably get the persimmon.

Notice.

The application of the Texas & New Orleans Railroad Company to the Legislature of the State of Texas for the passage of a local or special law.

Notice is hereby given, as required by the Constitution and Statutes of Texas, that the Texas & New Orleans Railroad Company intends to apply to the Twenty-ninth Legislature of Texas, at its first regular session, for a local or special law authorizing it to sell that portion of its lines of railroads extending from the city of Dallas, in Dallas county, through the counties of Dallas, Kaufman, Henderson, Anderson, Cherokee, Rusk, Nacogdoches, Angelina, Jasper, Tyler, Hardin, and Jefferson to or near Sabine Pass, with the franchises and other property thereunto appertaining, to any railroad company incorporated under the laws of Texas, but not owning, operating or controlling a line of railroad parallel or competing with said line, or to any railroad company which may be hereafter incorporated under the laws of Texas with the power to operate a railroad between said points and through said counties; authorizing any such Texas corporation to purchase and operate said line of railroad with its appurtenances and franchises on such terms and conditions as may be prescribed by said Act.

The Connor-Lilly Wedding.

From Tuesday's Daily:

Yesterday at high noon a select company of guests gathered at the residence of Mr. and Mrs. J. J. Lilly, to witness the marriage of Mr. H. S. Conner to Miss Penny Lilly.

The parlor and halls were tastefully decorated, and as Mrs. Robt. Lindsey began playing a beautiful wedding march, the folding doors were thrown open and the bridal party entered, keeping step with the music. The Rev. A. J. Holt pronounced the beautiful ceremony that united the happy bride and groom, and then the congratulations of friends followed.

The bride blushed behind her lovely bridal veil, and the dark traveling costume only added charm to her lovely appearance. This is the fourth young lady of this delightful family of girls that has entered the estate of matrimony this year. Miss Penny is a favorite of a large circle of friends and we can but regret that she is to be taken from us.

The groom is a successful commercial man of Purcell. I. T., with headquarters at Tyler, Texas, where he takes his lovely wife.

The happy couple left on the afternoon train, followed by showers of congratulations. The Sentinel joins their many friends in wishing them a long, happy and prosperous life.
