Austin, Tex., March 14.—The House spent the entire morning in debating the Texas & New Orleans consolidation bill, and just before quitting for lunch advanced it to third reading. No further amendments were made, efforts to change it proving futile. This measure originated in the Senate and it now seems probable that it will finally passed before the end of the week. It authorizes the Texas & New Orleans to sell its Dallas-Sabine line, conditioned upon the construction within two years of a branch line to Rusk.

DISTRICT COURT PROCEEDINGS

Judge Perkins Opened Court Yesterday.

When Judge Perkins opened court yesterday by Judge Perkins, the sheriff had called the first week, it "fake" in that one of the names as a grand juror, wrote the petit jurors with Mrs. D. The judge order District Clerk R. W. Murphree enter a fine of \$10 against the name of each absent juror.

The grand jury was given explicit instructions and admonished to fearlessly do their duty. From the personnel of the present grand jury it is safe to predict that all violators of the law will be looked after in a thorough manner.

The following cases on the criminal docket was set as follows:

Will Whitaker, Tuesday of fifth week.

Charley Roberts, Monday of fourth week.

Robert Runnels, Monday of third week.

Cal Scott, Tuesday of fourth week.

Cal Scott, (second case) Thursday of fourth week.

Dr. A. M. Denman, Thursday of fifth week.

Simon Spencer, Wednesday of third week.

B. Morris, Monday of fifth week.

Soggy Fletcher, Monday of fifth week.

Chas. F. Taylor, Thursday of third week.

Court then adjourned until nine o'clock this morning.

The Grand Jury.

Following is the grand jury for the present term of district court:

R. D. Whitaker, foreman; J. F. Moore, James Pitts, J. O. Martin, W. J. Shephard, G. W. Nettles, Geo. McMillan, F. P. Perry, J. D. Selman, Duncan Spradley, Geo. Daniels, Austin Muckleroy.

Door Bailiff: W. S. Christian.

Riding Bailiffs: W. B. Smith, A. Houston, H. Hartt, Dave Burrows.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Sold by Perkins, Klease & Mast.

Mrs. Hartt, of San Antonio, organizer of the Lady Macca-bees, is in the city: She will remain here for one month in the interest of the work.

CLOSED IN BANKRUPTCY.

John W. Davis of This City Filed Involuntary Petition.

John W. Davis of this city filed a petition in involuntary bankruptcy in the Tyler Federal court and this morning Dr. J. H. McDaniel arrived in the city from Tyler to take charge of the stock.

Mr. Davis has been in business here the past several years and conducted quite an extensive general merchandising business and had built up a nice business in this and adjoining counties.

The liabilities are estimated at about \$26,000; assets estimated at from \$35,000 to \$40,000.

The Sentinel is reliably informed that Mr. Davis does not owe either of the local banks a dollar, and outside parties hold all the paper.

NEW ROAD FOR CENTER.

The Road to be Built From Center to Tenaha.

Center, Texas, March 14.—It is probable that within a short time active steps will be taken looking to the revival of the old Center and Tenaha railroad company. About six miles of this road was graded several years ago, but was abandoned for lack of funds, and now the project is again being revived for this reason that a connection with the Houston East and West Texas railroad at Tenaha would give a quicker and cheaper outlet to the north and east for the vast quantities of lumber being produced along the line of the Santa Fe between Center and Beaumont.

Some local capitalists have the matter in hand, and it is thought that in a few days they will have something definite to give out.

Track Laying on the Windy.

A Sentinel representative spent yesterday afternoon in Timpson. Several car loads of steel for the extension of the Windy from Timpson to San Augustine has arrived and a large force of workmen are now laying track.

By the Tonic Route.

The pills that act as a tonic and not as a drastic purge, are DeWitt's Little Early Risers. They cure headache, constipation, biliousness, etc. Early Risers are small, easy to take and easy to act—a safe pill. Mack Hamilton, hotel clerk at Valley City, N. D., says: "Two bottles cured me of chronic constipation." Sold by Perkins, Klease & Mast.

Suing for \$15,000 Damages. Mr. Pipkin who was injured at the Hayward mill some time back has a suit in the district court, which is on trial today, whereby Mr. Pipkin seeks damages in the sum of \$15,000. It is claimed that Mr. Pipkin has another suit filed claiming \$10,000 damages.

"The American Wire Fence"

With Hapwood I had many a bout,
His land was joining mine,
For he maintained out "American Fence"
Was clear across the line;
I said that fence was Always right,
Clear to it's very ends,
But he fired up and said he would
Eliminate that fence.

He was a man of mighty mould,
And so he got an ax
And rolled his sleeves up and began
To give it awful whacks,
He chopped and sweat, but did no good,
And scarce made any dents.

The ax flew back against his head,
And laid him long that fence.
And when he came he got a rail
To pry it up by force,
Though he bore down with all his might,
It failed to budge, of course,
He jumped up high and came down hard
Upon the rail, and fence,
The wire sprung back, the rail flew up
And shot him o'er the fence.

He filled his wagon full of rocks,
And against that fence he backed,
But the recoil upset his team
And his own noggin cracked.
Then dynamite he put beneath,
His rage was so intense,
But it went off and he went up,
But still there stood that fence.

His funeral was very large;
The pastor slowly said:
"My friends, I hope that you will take
A lesson from the dead;
He wrongly thought that he could fill
The strong fence full of rents,
But nothing on earth can budge
"The American Wire Fence."

THE NACOGDOCHES CIGARS.

List of the Leading Brands First on the Market.

A large shipment of cigar boxes and labels for the Nacogdoches cigar factory was received Saturday afternoon, and in a few more weeks the product from this enterprise, which is destined to make Nacogdoches famous as a producer of fine cigars, will be put on the market.

The first brands are: Senate Chamber, Dictator and Challenger. These three are the ten cent goods and are excellent goods. The nickle goods are: Nacogdoches, Stone Fort, Red Field and Square Deal. The five cent goods are the creme de la creme of that class are in fact the superior to many ten cent brands on the market.

A trip through the factory this morning was very interesting. There are fifteen

people employed on the upper floor in the factory, all hard at work, while two are at work in the office.

Shortly after the 10,000 order was placed, a syndicate asked for a price on an 100,000 order. The management has taken the matter under consideration and will make an announcement within the next few days.

Death Rate in New York and Chicago.

The fruit trees are beginning to show signs of spring.

While there should be about 150 acres planted in tobacco here this year, only half so much will be planted.

It would be a good thing for Nacogdoches if there were a few decent sidewalks on the streets leading to the square.

There's a big pile of rubbish in front of the Sentinel office that should be removed. Repeated efforts have been made to get it carted off, but it's still there.

The senatorial dead lock in Missouri to fill Senator Cockrell's chair is about as near a solution as it was when the first ballot was taken some weeks ago.

The plant of the American Cereal Company, said to be the largest plant of its kind in the world, was destroyed by fire Tuesday. The plant was located in Cedar Rapids, Iowa, and was valued at \$1,500,000. A million dollars insurance was carried on the plant.

Because he could not see his way clear to make a living for his wife and three children a man living in Arkansas decided the best way to put them out of their misery was to kill them. At least that was his story when confronted with the four dead bodies of his victims.

The Missouri state senate has passed the maximum rate bill by a bare constitutional majority, after having amended the measures as it came from the house. The bill is considered the most important railroad legislation passed by the Missouri legislature in years. The measure reduces the rate in live stock \$4 per car.

For the first time in the memory of man the Supreme Court was late Tuesday in convening. Under its rules the court meets daily at 12 o'clock, but it was 15 minutes past that hour when the day's session began. The delay was due to the fact that there was a misunderstanding among the justices which preventing the prompt attendance of a quorum.

A SPECIAL from Guthrie, Oklahoma, says: "The jury in the damage suit of A. B. Deselms vs. the Waters-Pierce oil Company brought in a verdict today for the plaintiff in the sum of \$14,500. The jury was out just two hours. The suit was brought for \$20,000 for the loss of the plaintiff's wife and two children, through an explosion which burned them and his property at Orland, this county. The plaintiff proved that the coal oil, which the defendant had sold to him was mixed with gasoline and thereby made defective and dangerous.

COTTON MILLS COST.

Small cotton mills are most expensive to operate, because the fixed charges include in the running expense account are large compared with the output. A \$100,000 mill is a small mill. One costing \$500,000 is a moderately large mill. Such a cotton mill requires 1000 operatives to run some 50,000 spindles and 1500 looms.

The cotton mill in the cotton field has come to stay. The farmers in the Atlantic Cotton States invest their savings freely in cotton mills. In this way the farmers actually spin their own cotton. Every large mill has an enormous warehouse connected with it. Branch warehouses are also kept up.

There is no compressing needed on this cotton. Freights are saved. The farmer has a market for meats, fruit and vegetables at his door because every factory operative feeds two mouths besides his or her own. It takes money to build cotton mills, of course. But first it takes confidence—that kind of confidence which does not make two bites of a cherry, and results in a small cotton mill.

About the only chance the small mill has to earn a fair interest on its investment for a long term of operation is to speculate successfully in spot cotton—buying its supplies at low figures and selling cotton goods at high prices. The South doesn't want this. It needs more large mills of \$200,000 capital and over.—Farm and Ranch.

PRESIDENT ROOSEVELT has added a new paragraph to the civil service regulations which permits the appointment of retired army officers as superintendents of Indian schools without competitive examinations. Appointments are to be made by the commissioner of Indian affairs with the approval of the secretary of the interior.

No more dollars of our daddies are to be coined. The coinage of silver dollars in the United States ceased at the beginning of this year. In the year ending June 3, 1904, there was coined 10,101,050 silver dollars, and there were left remaining of the bullion purchased under the act of 1890 only 5,607,938 ounces. In accordance with the act of 1900, amended in 1903, this remainder of the bullion was coined into subsidiary money during the last half of 1904 and only 105 silver dollars were coined. There will be no silver dollars bearing the date 1905. But there will be no dearth of the dollars of the daddies. There are millions upon millions of them piled up in the treasury vaults of the government.

PRESIDENT ROOSEVELT is promised a visit from a very interesting family. It is George F. Dunville and Mrs. Dunville, who lives on a farm out near Yankton, S. D., and who are the parents of twenty-seven children—nine sets of triplets. All of the children are living, too, or were a short time ago, and all but one set are boys. Mrs. Dunville is only about 40 years old and her husband about 50.

How to Beat the Boll Weevil.

Nacogdoches, Texas.

Dear Sirs:
Yours to hand. I send sample of cotton seed, which are "Big Boll" as you will see. This is the fourth year we have been trying Territory seed here. This year the people will have nothing else. The bolls are large and pick easy, bears very prolific and is only about six days later than King's Improved. These seed are grown at Mulhall, Oklahoma Territory. The yield from these seed is about one-third more than from King's Improved. I have bought for two years from the party selling these seed and know he is O. K.

Respectfully,
E. B. SMITH.

Having bought a car of the above seed we would call the attention of all farmers who are going to plant any cotton to the fact that Mulhall is in the extreme northern portion of the cotton growing section of the United States, this alone will insure an early crop. (About the same difference as there is between northern seed corn and our native seed) while the yield being one-third more than the King's Improved. You can well afford to buy these seed and feed your native seed to your cows. We have them put up in two and a half bushels sacks at 65 cents per bushel. Don't miss this chance to "Beat The Boll Weevil."

In quite a lengthy editoria under the caption of "What Depends on the Legislature," the Beaumont Enterprise in the closing paragraph says: "The total of proposed new mileage to be constructed during 1905 and 1906 as now regarded as determined on is considerably over 1000 miles, meaning the opening up and development of a vast territory that up to this time has never contributed one dollar to the wealth of the new state. New people will be brought in to settle up this territory; new towns will be built; the value of land will be increased; the revenues of the state will be swelled if some unfortunate mistake is not made by the law-making body of the state now in session at Austin. There is in the Texas legislature a few professional corporation hunters whose zeal in their hunt and their antipathy to everything corporate might lead them into error; but fortunately for Texas and the best interests of Texas there is also in the legislature level headed, conservative men with good judgment, enough to offset the other element, and this gives rise to the hope that any vicious legislation will be prevented."

BUFFALO BILL has given out the statement that he will not accept a reconciliation with his wife. Mrs. Cody is suing for a divorce, but stated she wanted to make up again. Col. A Word to the Farmers!

We propose to introduce to your notice in the near future, gentlemen, either personally, or through our representatives the most practical and meritorious little device that has been brought to your notice in a long time.

We refer to the S. H. Clark "Plow Set." This a thoroughly practical invention for farmers, by a practical farmer, used and endorsed by farmers at home and abroad. It is a new and better, by every farmer, a ruck grower. With Allie Smith can easily and read in the "Set" or adjust in the cl our plows at any degree angle, and hold them in cutter an.

It works what you want on any plow use em. cultiva-
tor or Georgia stock.

See what a few farmers who have used it have to say about it:

Rising Star, Texas,

July 1st, 1904.

We the undersigned farmers find by experience that none of our cultivators feet, or Georgia Stock are complete without the Clark "Plow Set." They have become about as indispensable to us as our cultivators:

M G Robertson, T A Hardy, Wade Clark, Henry Clark, S W C Holaman, T W Goss, S M Charters, Lewis Palmer, A G Hardin, A B Owen, Guss Hardy, G W Angel, J A Looney, Sam Witten, Tom Palmer, Harvy Nichols, Henry Brooks.

Rising Star, Texas,

July 1st, 1903.

This certifies that I have been making and selling the S. H. Clark "Plow Set" for about three years and find they have given the best satisfaction to the farmers. All who have used them recommend them, and I have yet to hear of any complaint against them.

W. C. White, blacksmith.

S. H. Clark the inventor endorsed:

Th whom it may concern:

We, the undersigned officers of Brown county take pleasure in stating that we have known S. H. Clark of this county for the past ten or twelve years. He is a good man, a good citizen and thoroughly reliable in all his dealings with his fellow man, and in fact a perfect christian gentleman.

He was 10 years old, and when he slipped out of the house at daylight he left a note for his mother, saying he was going to sea to be a pirate. A discouraging combination of circumstances, in which hunger, weariness and fear all played a part, and he returned to the parent's roof at 9:30 p. m. He was not received with open arms. Indeed, the family received him with coldness. The clock ticked, his father's newspaper rattled, his big sister studied obtrusively, even his mother didn't seem to care whether he came back or not. Nicodemus, the cat, not being in the secret, rose and rubbed his soft side caressingly against the culprit's leg. He stooped to pet him, and then, with a last desperate attempt to start the ball of conversation, he demanded, homesickly, "Is this the same old cat you had when I went away?"—Houston News.

CIGARS are now being sold as Nacogdoches (Texas) county tobacco cigars that are rank frauds, the tobacco of which they are made never having been in that county or probably in Texas; but the fraud serves to illustrate the merit of the Nacogdoches product, for unless an article is good it is never counterfeited. In this connection it is worth while to notice the fact that Texas tobacco is bound to make this state as famous as a producer of the product as Cuban tobacco ever did the island of Cuba.—Beaumont Enterprise.

FOLLOWING the meeting of the state executive committee of the Texas division of the Southern Cotton Association, President R. E. Smith issued a letter calling upon planters to reduce acreage, and saying that if reduction in cotton acreage was not practiced cotton would bring four cents this fall. He also called attention to the coming visit of Harvie Jordan to Texas and urges planters to come out and hear him.

REPRESENTATIVE HALTOM was forced to return to his home in Nacogdoches one day last week, on account of sickness. He has been confined to his room ever since but says being near his friends and enjoying occasional visits from them makes him feel much better.—Cushing Enterprise.

The senate committee has reported favorably on the bill to increase the pay of convict guards. The legislature has produced very little revenue, and this fact should not be overlooked by the lawmakers when they vote on the measure, calling for expenditures of the public funds. A convict guard bill was passed two years ago, but was vetoed by the governor.

NEW SUIT AGAINST MRS. DUKE.

Arkansas Bank Enters Judgment for \$10,872 on Notes.

New York, March 6.—The German National Bank of Little Rock Ark., today entered judgment in the County Clerk's office for \$10,872 against Alice L. Webb, known as Alice L. Duke, the wife of B. L. Duke.

The action is taken on two notes made by her on February 8 and 18, 1904, to the Pritchard Neimeyer Lumber company, of Chicago, and endorsed by the lumber company and transferred to the bank. The defendant was served with the summons in the suit on December 27, 1904.—St. Louis Republic.

The Sentinel has made some inquiry in reference to the above article and has been informed that the above mentioned notes were given on contracts which was not carried out and that Mrs. Duke, (Alice L. Webb,) has a counter suit that will considerably more than offset the amount of the notes.

DR. OSLER says that a man over forty years of age is practically useless, and that a man over sixty is so absolutely worthless that a humane dose of chloroform ought to be administered. OF all places in God's country where peace and plenty prevails, Nacogdoches county should stand first. The best of all agricultural and horticultural products can be grown within her grand domain. Tobacco of the finest quality, fruit of the most luscious kind, and of the richest color, tomatoes that surpass anything that was ever sent to a northern market to tempt the morbid appetite of man. Irish and sweet potatoes, and most every variety of vegetables will grow in profusion; corn and other cereal crops and cotton, despite the pesky little boll weevil, can be produced profitably. There is hardly another county in the state with so vast a field for diversification.—Garrison Gleaner.

Early Risers

THE FAMOUS LITTLE PILLS.

For quick relief from Biliousness, Sick Headache, Torpid Liver, Jaundice, Dizziness, and all troubles arising from an inactive or sluggish liver. DeWitt's Little Early Risers are unequalled.

They act promptly and never gripe. They are so dainty that it is a pleasure to take them. One or two act as a mild laxative; two or four act as a pleasant and effective cathartic. They are purely vegetable and absolutely harmless. They tonic the liver.

Eggs.

One dozen eggs per day, at 20c per dozen, is equal to two bales of 7c cotton. One dozen per day can be raised by any farmer, with practically no expense.

The hen is a great diversificationist, and no farmer who expects success and prosperity can do without the hen. She will make a bank account when everything else fails.

FOLEY'S HONEY and TAR CURES Coughs and Colds PREVENTS Pneumonia and Consumption

Foley's Honey and Tar not only stops the cough, but heals and strengthens the lungs and prevents serious results from a cold.

There is no danger of Pneumonia, Consumption or other serious lung trouble if Foley's Honey and Tar is taken, as it will cure the most stubborn coughs—the dangerous kind that settles on the lungs and may develop into pneumonia over night.

If you have a cough or cold do not risk Pneumonia when Foley's Honey and Tar will cure you quickly and strengthen your lungs.

Remember the name—Foley's Honey and Tar—and refuse any substitute offered. Do not take chances with some unknown preparation that costs you the same when you can get Foley's Honey and Tar, that costs you no more and is safe and certain in results. Contains no opiates.

Cured After Physicians Said He Had Consumption.

E. H. Jones, Pastor M. E. Church, Grove, Md., writes: "About seven or eight years ago I had a very severe cold which physicians said was very near pneumonia, and which they afterwards pronounced consumption. Through a friend I was induced to try a sample of Foley's Honey and Tar, which gave me so much relief that I bought some of the regular size. Two or three bottles cured me of what the physicians called consumption, and I have never had any trouble with my throat or lungs since that time."

Three sizes—25c, 50c, \$1.00. The 50 cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

Negro Went to a Dance and Cut Buggy and Harness.

The negroes in the settlement about six miles from town had a dance the other night and during the frolic one negro by the name of Lawrence Thorn became jealous of one of the negro women, and to avenge his wrath he took an ax and smashed up a buggy and done divers and sundry other sorts of deviltry.

Constable Will McMillan was furnished with a warrant for Thorn alleging malicious mischief, and last night brought the negro to town and placed him in jail.

Mr. Spradley Writes a Letter

Nacogdoches, Texas, March 10, 1905.

Editor of Sentinel:

Not as the representative of Mrs. Duke or Mr. Taylor, but to represent what I conceive to be the truth in this matter, I wish to say I went on Mr. Taylor's bond because I believe him to be a gentleman, and that he and Mrs. Webb Duke are being persecuted among strangers. The Sentinel takes exception to Mrs. Duke's letter published in the Houston Chronicle, to the term "fake indictment." Bear in mind that W. M. Imboden wrote the indictment against Mrs. Duke and also wrote District Attorney Jerome at New York, and he published to the world that he would dismiss the case against Mrs. Webb Duke. This was done previous to Mrs. Webb Duke's letter to me. Did that of itself authorize Mrs. Duke to term the indictment "fake?" Bear in mind that the grand jury is an ex-parte proceedings that is superintended by the district attorney. About two-thirds of the grand jury bills are either quashed by the court or the parties indicted acquitted by a jury. If the Sentinel is correct in its position in this matter, the integrity of the grand jury would be attacked in each case.

Now Mr. Sentinel, if Imboden don't ask the court to quash both indictments against Taylor and Mrs. Webb Duke or the court quash them, draw on me for the price of a box of Nacogdoches cigars, and when this is done the integrity of the grand jury will not be attacked.

Mrs. Webb Duke's letter to me was presented to the Nacogdoches Plaindealer for publication, which was accepted and set up in type, but before it was published to the world, some fine "Italian hand" suppressed it. If Mrs. Duke or Mr. Taylor should be foolish enough to publish a lie, it would haunt like a nightmare in the trial of this case. The truth is the thing that every one ought to wish for. Respectfully,

A. J. SPRADLEY.

A quick cure for croup and whooping cough. One Minute Cough Cure relieves a cough in one minute because it acts first on the mucous membrane right where the cough troubles—in the throat or deep-seated on the lungs. Sold by Perkins, Klease & Mast.

Depot Grounds Purchased.

It was rumored yesterday that the Nacogdoches & South-eastern Railway company had purchased a building site from Mr. D. Lee, on South Fredonia street, for a passenger depot. The Sentinel chased the rumor all over town yesterday, but could not get in touch with Mr. Lee, and gives the rumor for what it is worth.

THAT ICE FACTORY.

Several Weeks Ago There Was Some Talk of a New Plant.

The Sentinel made mention of the fact a few weeks ago that there were prospects of a new ice plant being put in here by local capital, but nothing has been heard from the promoters in the past few days.

If there is a town in the state of Texas that needs an ice plant, that town is Nacogdoches. Once upon a time there was a plant here and it did a nice business, but was bought by a foreign brewing and ice company and was closed down. The people now have to get their ice shipped in, and have ever since the local plant was shut down.

The people of Timpson were at the mercy of the ice trust until local capital put in a plant to manufacture ice, and the Timpson people stood by their local man when an ice war was declared by the trust. The trust had ice delivered free of charge to every ice user in Timpson, but the good people of that town would not use it and gave instructions to the delivery boys of the ice trust not to come inside their yard with trust ice. In a short time the trust man retired from business in Timpson.

If the local capitalists who were figuring on putting in the plant in Nacogdoches will put it in, there is doubt but what the people here would be as loyal to the local enterprise, as the people of Timpson were to their home man.

For an Impaired Appetite.

Loss of appetite always results from faulty digestion. All that is needed is a few doses of Chamberlain's Stomach and Liver Tablets. RUSSIA will send another army for Oyama to annihilate.

THE Packers' Trade Extension association will be here tomorrow.

TRUCK growers and farmers of Nacogdoches certainly should take more interest in the question of raising tobacco.

WHY is it that none of our farmers are not taking hold of tobacco? We have some men here that have had experience in this line of farming.—Garrison Gleaner.

EAST TEXAS is attracting the attention of capitalists from all over the country. There is no other section that offers better inducements than Nacogdoches county for investments.

FROM the amount of seed potatoes reported shipped into Texas for this season's planting, if the products when ready for market are not judiciously distributed to various markets; somebody will lose a great deal of money.

DIVERS and sundry cigar makers are placing on the market cigars purporting to be made of Nacogdoches county tobacco. When you buy a Nacogdoches cigar see that it's made in Nacogdoches.

A BOMB artist in St. Petersburg pulled off a rather bum job last Saturday. The bomb was accidentally dropped and exploded killing the man who had the internal machine in charge; wrecking the room and also killing the wife of an army officer in an adjoining room.

WITH Nacogdoches as a first class market for chickens, butter and eggs, there is no reason for the farmers going in debt. If the market here should be over supplied there is Houston, Dallas, Shreveport and Beaumont, that would use the surplus. Raise a big flock of chickens they will more than pay for the little attention given them.

ROOSEVELT stated when he received the nomination last year for the presidency that he would not be a candidate for re-election. This gives him an opportunity to act independently, and he has of late shown a disposition to protect the country from the encroachments of trusts and combinations. He has taken the initiatory steps to bring about "the greatest good to the greatest number." The country is clamoring for relief from the trusts and it is now up to President Roosevelt to bring about his change of conditions.

MAY SUE FOR MILEAGE.

It is stated on the authority of a member of congress that one of the former members of the house whose term closed on the 4th instant, will bring action in the court of claims for the mileage which would have been his had the senate not killed the house's effort to grab \$190,000 on the plea of a "constructive recess," says the Washington correspondent of the Houston Post.

"Some of the house members who voted for the grab and worked for it, are still unwilling to lose the "constructive" sums severally due them and they have found an ex-member who has no future political aspirations and who is willing to push the matter to some sort of a conclusion. He will sue for about \$400, the amount of mileage which would be due him under ordinary circumstances.

It is claimed that the grabbers have a precedent for their proposed action. A clerk not long ago embezzled a sum of money which represented a month's salary for several members, and one who sued for repayment won in the court of claims. It is thought to be absolutely necessary to get the matter before the courts in some shape or other, in order that the status of the negro collector at Charleston, Crum, and the president's special friend, Leonard Wood, may be established.

COL. TOM ANDERSON, general passenger agent of the Southern Pacific, and one of East Texas best friends is to have a Northern Settlers convention in Galveston next month. Col. Anderson will have his guests to visit all the good points of Texas, and one of which will be Nacogdoches. He is in receipt of advices from three governors, indicating their intention to accept the invitation extended them to attend the Northern Settlers' convention at Galveston next month. Governor Blanchard of Louisiana, Governor Terrell of Georgia and Governor Glean of North Carolina are the ones referred to. West Point route will furnish a private car for Governor Terrell. All the governors in the United States have been invited and acceptances from others are looked for.

PERMISSION has been granted labor leaders to organize all government workmen who may wish to become members of labor unions. This announcement was made by Frank Buchanan, president of the National Association of Bridge and Structural Iron Workers, who is here in connection with the hoisting engineers' strike. Mr. Buchanan says President Roosevelt last week, while in conference with a number of labor leaders, gave consent for representatives of the unions to go among the government workmen for the purpose of discussing unionism, but no force is to be used. The men must join the union of their own free will.

OYAMA is chasing Kuropatkin all over Manchuria after that Tie Pass. A tie pass is about the only way for the defeated Russian general to leave and he should be granted that.

RUSSIA may select for a new commander-in-chief of the army in the far east a general by the name of Dragomoff. Oyama, the Japanese general, may change the name to "Drag him off" and not even give him a tie pass.

PRESIDENT ROOSEVELT intends to give the people of New York a chance to demonstrate their sincerity, on the race question. It is announced that he intends to appoint a negro as collector of internal revenue in a New York district.

EVERY member of the Packers' Trade Extension association, while in Nacogdoches expressed themselves as having been royally entertained at every stop in Texas. They all said Texas is a great state and is becoming greater every year.

MRS. CHADWICK was found guilty of conspiracy to defraud the United States by conspiring to secure the certification of checks on the National bank where there were no funds in the bank to her credit. She was found guilty of all seven counts on which the judge was at liberty to judge her.

THE Russian minister of finance, Kurovsoff, at the conclusion of a conference on the national finance a few days ago is said to have tapped the table before him and exclaimed: "We can win the war at this desk." That sounds like frenzied finance.

THAT bribery suit that is being pulled off at Austin is no snide in the way of sensational reading. But the funny part in the proceedings is they have got K. Lamity Bonner mixed up in the deal. A newspaper man—(publisher of the only and original Harpoon)—being a party to a bribery suit where thousands of dollars are alleged to have been put up, is to be taken as a joke. Kay has been guilty of everything else, but not bribery.

News was received here yesterday morning of the death of Jim Legg, of Eden, which occurred last Sunday night, about 7 o'clock. We failed to learn the particulars of his death. NACOGDOCHES county farmers are too busy to organize cotton growers associations. They may have the interest of reducing acreage at heart, but their actions would lead the casual observer to believe that they didn't care a continental whoop whether eight millions or fourteen millions bales of cotton was produced this year.

SENATOR GRIGGS from Houston has introduced a measure in the Texas senate that should become a law. The measure provides that the non-payment of a poll tax shall not act as a disqualification as a juror. Many men distranchise themselves in order to keep from serving as a juror.

A shooting occurred near Waterman Saturday night, in which deputy sheriff Williams is alleged to have been killed by Wiley May. Particulars of the affair are hard to obtain, but seems that the tragedy occurred at a party where the officer had been called to restore peace.—Timpson Times.

Among the visitors to the cigar factory yesterday were the Packer's Excursionists, who highly complimented the smoke they received, and three rousing cheers given by them for the factory came near putting the lady visitors to flight.

Egel Davis, the cattleman who was jailed at Durant, I. T., by Judge Thomas C. Humphrey of the Federal Court for refusing to take the oath and serve on the grand jury with a negro, was arraigned this afternoon and fined \$50 for contempt of court, which was immediately paid by the friends of Mr. Davis, and he was released.

Thus terminates a case that has set this county whirling. It has been the talk of the county and has brought hundreds of people to the jail to see Davis while He was confined. More than a dozen baskets of food, fruit, cigars and everything a man could possibly wish were carried to his cell by friends, and even strangers. Dozens have offered money, their influence and labor his welfare. Ladies have sent several wreaths of flowers and compliments to his cell. Everything anybody could do for the prisoner was done. Davis says he is by no means regretful of his actions in the matter. On the contrary he is glad that he refused to serve on the jury with the negro for the reason that he can yet say that he has never equalized himself with the colored race. The court room was packed to standing room when Mr. Davis was brought before the court this afternoon. No sooner had Judge Humphrey pronounced the penalty than a friend arose and tendered \$50 in payment of the fine. The decision of the court, more especially Mr. Davis, who arose after the passage of the sentence and thanked the court for its leniency and kind consideration.

M. J. Booth went to Nacogdoches this morning. Bill Paul took charge of him on the train, and there is no telling where he will go before he returns home—the only promise he made was that he would not go to Lufkin.—Timpson Times.

Break Down at Hayward Mill.
Yesterday the big gang saw at the Hayward Lumber Co.'s mill got wrecked, and also the edger. That part of the mill will be shut down for several days until necessary repairs can be made.

GYPSIES WITH CASH.

Have Hundred and Fifteen Thousand Dollars to Spend.

Laredo, Texas, March 12.
A company of fifty Gypsies, men, women and children, left Saturday morning in a special car for St. Louis. They arrived in a special coach over the National Railroad of Mexico from Mexico City, with fare paid to St. Louis, their destination. They were held by the immigration department, but were found to possess papers of citizenship of the Mexican republic and \$65,000 in gold and United States currency.

In addition to that, they hold a note on "Banco de Londresy Mexico" for \$50,000. They claim that they will be in the United States about three months buying thoroughbred horses and cattle which they will ship to the republic in carload lots. They are a very gaily and picturesquely dressed lot and carry an extra baggage car of luggage, all of which, on inspection by the customs officers, proved to be almost worthless trash.

The "Packers" at The Factory.

Yesterday while the Packers' Trade Extension Association were taking in the various points of interest in the city, several in the party took advantage of their stop over here and paid the Nacogdoches Cigar factory a visit. Forty-eight gentlemen in the party registered at the business office in the visitor's register. Mr. Louis DeMouche, the general manager of the factory, took charge of the visitors and took them through the factory. Before leaving each was presented with a real Nacogdoches cigar.

Mr. J. A. McCauley, of the Kansas City Packer told the Sentinel reporter that all the visitors had discussed the merits of the cigars presented to them and it was the verdict of each smoker that no better cigar was ever made. One gentleman from New York said such an excellent smoke cannot be bought in New York as this cigar from Nacogdoches.

Butter.

Texas has more cattle than any other state and nearly 1,000,000 milk cows, yet imports \$18,000,000 of creamery butter from the north and west every year.

It seems that a little effort on the part of our farmers would save this \$18,000,000 from other states for Texas butter.

Do you know that we send cotton seed meal to the north every year and get it back in creamery butter? Don't you know that our climate is in our favor? We have no long hard, cold winters; we can raise and feed cheaper and make better butter, at a less cost, than any other state in the Union.

One pound of butter daily at 30c, is equal to two bales of cotton, at 11c per pound, at one tenth the cost.

Justice Court.

Justice Jones and Constable McMillan had their court doing some business Saturday.

Three crap shooters were arraigned before the bar and all entered a plea of guilty. Each were assessed \$18.70.

One case of drunk and bad conduct was settled for \$17.00.

The following is going the rounds of the press, and as it is branded "Ex" its origin cannot be traced, but there is quite a sermon in it: "An old criminal was once asked what the first step was that led him to ruin, and he said: 'The first thing that led me to my downfall was cheating an editor out of two year's subscription. When I had done that, the devil had such a grip on me that I could not shake him off.'"

The Best Cough Syrup.

S. L. Apple, ex-Porbate Judge, Ottawa Co., Kansas, writes: "This is to say that I have used Ballard's Horehound Syrup for years, and that I do not hesitate to recommend it as the best cough syrup I have ever used."

Deaths from the plague in India aggregate 34,000 a week. Statistics show that deaths from bubonic plague in India within a few years reach nearly 3,000,000. In 1903 the mortality in India from the plague alone was 859,000.

Strikes Hidden Rocks.

When your ship of health strikes the hidden rocks of consumption, pneumonia, etc., you are lost, if you don't get help from Dr. King's New Discovery for consumption. J. W. McKinnon, of Talladega Springs, Ala., writes: "I had been very ill with pneumonia, under the care of two doctors, but was getting no better when I began to take Dr. King's New Discovery. The first dose gave relief, and one bottle cured me."

Out of His Jurisdiction.

There was once an Indiana judge who was proud of two things—his stern advocacy of the majesty of the law and the pugilistic ability of his son. It happened that the judge's farm was on the Ohio boundary, and one day he was sitting on the fence that separated the two states. While he was there an acquaintance came along, quarreling, and when immediately in front of the judge, began to fight. The judge straightened himself to his full official dignity and exclaimed: "In behalf of the majesty of the law and in the name of the sovereign state of Indiana, I command you both to keep the peace!"

Lawrence Aldrich who was fined in Justice Jones' court some time back, and slipped off without paying same, was captured yesterday by Constable McMillan. Aldrich rather than be sent to the poor farm put up coin of the realm to the amount of \$17.50 which was the total fine against him.

Nacogdoches county boasts of having a goodly number of public schools. The town of Nacogdoches has three; Garrison two; Cushing two; Appleby one. These towns are under the independent district system. There are 140 schools represented in the "common" and community system, making a total of 148 public schools in Nacogdoches county.

Sweet Shrubs.

McWilliams, Ala., March 7. Editor Sentinel: In mailing a number of boxes of "rare" trees, flowers, and bulbs, to different friends in Nacogdoches county, I remembered the "Editor of the Sentinel" and send you a box containing "Dahlia bulbs," sweet pink (the kind our grandmothers grew) and "Sweet Shrub bushes." I can't give you botanical name. Our foreparents found them here and gave them the name of "Sweet Shrub." The flowers were so fragrant the bush was easily found among the low brush.

Will write again and tell you of my visit to the old home of my grandfather, Britian Mims. The ground was cleared off, the framing of the house that now stands was hewn from the timbers in 1811 and 12, while my grandmother with the children were left in the historic old "Ft. Mims," leaving the fort only a few days before the "massacre." The old home is owned by a granddaughter, the titles having passed through only two hands. There has been only two deaths in the house; our grandfather and the present owner's mother.

Very respectfully, Mrs. MOLLIE RICHARDSON.

THE BUREAU REPORTS.

Are Classed as an Enemy to the Cotton Producer.

It is evident from all reports and places that the cotton people are in the middle of a fix, and all are wondering what will happen next.

It will take the Southern cotton producers five years or more to recover from this great, unexpected disaster, especially striking them at this season of the year, and the future dealers must have lost millions. The farmers at best make small profits, even at fair to high prices, while being compelled to pay the high protected prices for all articles consumed by them.

The boll weevils are devastating and will continue their devastations, and will ere long cover the entire cotton belt, but they will not bring about the losses to the cotton farmers that the iniquitous laws of late years inaugurated by the census cotton bureau have. And, strange to say, our people are ignorantly co-operating without stopping, long enough to think what a trap they have been led into by the frenzied financiers of Asia, Europe and America.

It looks like this whole thing was and is an inquisitorial procedure that the government has no right to engage in, and even if lawful ought not to be tolerated, and if I owned a ginnyery, private or public, would not furnish his information nor allow it to be done, knowing this information would be used to the detriment of myself and neighbors. It is quite right for government to collect all data concerning the products of every kind, and furnish same to all, annually, and at end of each decade an elaborate report, which has always been done.

To illustrate: Suppose you were the commander in chief of an army and were ready about to meet your opponent or enemy. Would you advise him of your strength, dispositions and your purpose in detail and expect him not to take advantage of this information? This is just what has been done in this cotton business—foolishly showed your hand and been crushingly defeated.

I know of nothing that approximates it in folly, except perhaps joining in an effort to establish public bonded cotton warehouses throughout the country. But for the information

which has been given out the present cotton crop could have been marketed at a fair price by the producers in the next six months, but, as matters look now, there is enough cotton in the spinners' and speculators hands for six months, and, knowing officially that a large part, say half, was still in sight, will they not take their own time and get at any old price this balance as needed.

Modern commercialism is a great battle—the speculators and consumers on one side and the producers on the other—and it is not policy nor decent strategy to show your strength or weakness in advance.—F. A. Glass, Hearne, Texas, in Houston Post.

Must Stamp Drop Letters.

Postmaster Hall, of Busy-rus, Ohio, has a ruling from the government which is of interest to every community where the rural free delivery system is in force. A local carrier found in his mail box on his route two unstamped letters for the owner of the box that had been put there by some one in passing. The letters were confiscated and sent to the government at Washington with a request for a ruling.

Government approved the action of the carrier, and said that all mail found in any box without stamps or the proper amount of money for postage must be collected and taken to the postoffice from which the route is operated and used for postage. This ruling means that the owner of the mail box has absolutely no control over it.—The Postmaster's Advocate.

Col. T. L. Fairris, of Alto, after spending a few days in our city visiting his daughter, Mrs. J. E. Mayfield, returned home yesterday morning via Lutkin. He is one of the managers of the big truck farm at Morrill four miles south of Alto. He says they have planted 200 acres in potatoes, will plant 40 acres in tomatoes, 60 acres in watermelons, 200 acres in Rockyford cantaloupes, and many acres in squashes, etc. They also have miles of Elberta peach orchards, and grow lots of fine sugar cane and other stuff.

Beautify Your Walls and Ceilings!

A Rock Cement in white tint. Does not rub or scale. Destroys disease germs and vermin. No washing of walls after once applied. Any one can brush it on—mix with cold water. Other finishes, bearing fanciful names and mixed with either hot or cold water, do not have the cementing property of Alabastine. They are stuck on with glue, or other animal matter, which rots, feeding disease germs, rubbing, scaling and spoiling walls, clothing, etc. Such finishes must be washed off every year—expensive, filthy work. Buy Alabastine only in five pound packages, properly labeled. Tint card, pretty wall and ceiling design. "Hints on Decorating" and our artists' services in making color plans, free.

ALABASTINE CO., Grand Rapids, Mich., or 108 Water St., N. Y. Sold in Nacogdoches by Perkins, Kleas & Mast.

CURE YOUR KIDNEYS.

Do Not Endanger Your Life and Health When a Cure is so Easy.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness and stiffness in the back; why allow themselves to become chronic invalids, when a certain cure is offered them? Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work. That Doan's Kidney Pills cure, and cure permanently, is proven by a Texas citizen's statement. If you have any, even one, of the numerous symptoms of kidney complaint, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Texas testimony.

C. H. Hoeneke, of 2310 McKinney Ave., Houston, Tex., manufacturer and dealer in barrels since 1872, says: "For about a year I had more or less trouble with my kidneys. It was caused by a cold, or by straining my back. I had much lumbago, and whenever I made a sudden movement I felt a sharp darting pain through my kidneys. My back was often so lame and sore that I could not stoop without suffering severely. The kidney secretions scalded and were scant in quantity. I used remedy after remedy but found little benefit until I got Doan's Kidney Pills on the advice of a friend who had been cured. By the time I had taken half the box the backache had disappeared and the secretions were clear and natural. I have advised many others to use this remedy and always keep a supply in the house."

For Clerks and Others.

During the spring and summer there is presented to clerks and other young people three to five months comparatively idle season. To the wide awake and progressive, this comes as a blessing—spare time to invest in brains and earn twice as much when the busy season opens up. If they go back and accept their old positions, it is at a much better salary, for they can earn more and are more independent. They have two or three ways of making a living where they had one before.

A pity but merchants would "fire" more of their clerks every summer. It gives them the very opportunity they need to take a business, shorthand, or telegraphy course and earn three times what they received before.

To those who would get most for their time and money Tyler Commercial College of Tyler, Texas, offers the very best advantages. Here you can master the Byrne Simplified Shorthand and Practical Bookkeeping in three to five months under their authors and other experts. Write them for the most interesting catalogue of the largest commercial school in the South.

RIDDLED WITH BULLETS

At a Musical Entertainment Near Aiken Saturday Night.

At a musical entertainment at a home near Aiken, in the southwestern portion of the county, about 8'clock Saturday night a very bad killing occurred—we say bad because a good man was killed and some thoughtless boys are in trouble that it will take them years overcome even if they can prove justifiable homicide.

There is, as is customary in every case of this sort, several stories about the matter, and not much of the truth will be known until the examining trial comes up. The most direct report that has reached us is that Mr. Edwards went to the place to keep peace and Dock Willis and Wylie May came drunk, swearing and using much obscene language. When they attempted to enter the house Mr. Edwards stepped out in front of them and told them they must not enter the house in such manner whereupon a scuffle ensued and Mr. Edwards received several shots from which he died instantly. Mr. Edwards was deputy sheriff under Sheriff Booth, about fifty-five years of age, and is reputed to be a good citizen. The parties who killed him are young men. Mr. May being yet in his teens.—Center News.

TO VISIT GALVESTON.

"The Galveston" Will Receive Silver Service Present by Citizens.

Norfolk, Va., March 9.—The United States cruiser Galveston, recently completed and placed in commission at the Norfolk navy yard, will sail next Wednesday for Galveston, Texas, where she goes to receive the silver service to be presented by the citizens of Galveston.

Upon her return, the cruiser will have her "free route" trail trip over a measured course off Newport, R. I.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in council." This remedy is for sale by Perkins, Klease & Mast.

Last Saturday A. W. Edgings received a message that his father was dead and he hastened to Nacogdoches to be present at the funeral, but on arrival at his father's home 7 miles south of town, he was delighted to find that the aged sufferer was not dead, and is now thought to be on a fair road to the recovery of his health.—Garrison Gleaner.

Invaluable for Rheumatism

I have been suffering for the past few years with a serious attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24th, 1902, John C. Degnan, Kinsman, Ill. 25c, 50c and \$1.00 at Perkins, Klease & Mast's.

H. T. & W. O. Crain.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from liver and kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth and thank God who gave you the knowledge to make them." Sold and guaranteed to cure, dyspepsia, biliousness and kidney disease by Stripling, Haselwood & Co., druggist, at 50c a bottle.

PICKPOCKETS AT FUNERAL.

Two Suspects Arrested Alleged to be Members of Gang.

Palestine, March 9.—Several pickpockets did business here yesterday during the funeral of Judge Reagan. Mrs. J. P. Rylander lost three hundred, S. A. McMeans about twenty, Joe Royal four and a half dollars.

Sheriff Watts and deputies made the rounds and soon had two suspects jailed. In the pockets of one was found fifty dollars in cash and a telegraph receipt for one hundred and fifty dollars which had been sent to a San Antonio woman.

Sheriff Tobin and Constable Stevens arrived from San Antonio this morning and identified them as members of a gang the officers had been shadowing since the wholesale robbery of legislators at Laredo.

One was identified as George Dilley, the other as James Thurlow, alias George Sheridan, alias George Daly, who is wanted all over the country.

The San Antonio officers have two of the gang in jail in that city and have been trying to locate the rest.

The officers claim to have evidence sufficient to send the two over the road. Sheriff Watts turned the prisoners over to Sheriff Tobin because of lack of evidence to convict. They were carried to San Antonio on the noon train.

A Grateful Customer.

I suffered for four years with eczema on the ends of eight of my fingers. Had it so long my fingers drew up and could do nothing at all at times, and I tried almost everything that I ever heard of, including several largely advertised ointments, spending many dollars for them. Never a thing did it any good at all. At last I saw in a home paper Hunt's Cure was being advertised and tried only a part of one box, which cost me only 50c, and it cured them. Now I can wash or do anything which before I could not without my fingers bleeding, burning and paining me very much. If this ever comes back I surely will know just what to get. I wish every friend and stranger that had anything of the kind could have seen my fingers before I used this and see them now. It is the best Ointment on earth. That 50c box was worth a hundred dollars to me. You deserve all thanks that can be given you for that wonderful salve, Hunt's Cure." Mrs. J. I. Blalock, Miles, Texas, July 2, '04. To A. B. Richards Med. Co., Sherman, Texas.

NOT A PATENT MEDICINE.

Hyomei, the Guaranteed Catarrh Cure, Prescribed by Physicians.

No one should confound Hyomei with the patent medicines that are advertised to cure catarrh. It is as far superior to them all as the diamond is more valuable than cheap glass. The composition is secret, but Hyomei gives its formula to all reputable physicians.

Its base is the valuable eucalyptus oil, famous for its antiseptic qualities. This is combined with aromatic and healing gums and balsams, making a pure liquid, which when used in the Hyomei pocket-inhaler, fills the air you breathe with germ-killing, disease-destroying and healing powders that kills all catarrhal germs there may be in the throat, nose and lungs.

How foolish it is to try and cure catarrh by swallowing tablets or liquid. The only natural way to cure this disease and all other diseases of the respiratory organs is to breathe Hyomei.

This treatment has been so successful, curing 99 per cent of all who have used it, that Hyomei is now sold by Stripling, Haselwood & Co. under an absolute guarantee to refund the money if it does not cure. You run no risk whatever in buying Hyomei. If it did not possess unusual powers to cure, it could not be sold upon this plan.

The complete Hyomei outfit costs \$1.00 and comprises an inhaler, a bottle of Hyomei and a dropper. The inhaler will last a life-time; and additional bottles of Hyomei can be obtained for 50 cents.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. For sale by Perkins, Klease & Mast.

Women's Kidneys.

Women are more often afflicted with kidney disorders than men, but attribute the symptoms to diseases peculiar to their sex, while in reality the kidneys are deranged. Nervousness, headache, puffy or dark circles under the eyes, pain in the back are signs of kidney trouble that must not be ignored, or a serious malady will result. Foley's Kidney Cure has restored the health of thousands of weak, nervous, broken down women. It stops irregularities and strengthens the urinary organs. It purifies the blood and benefits the whole system. For sale by Perkins, Klease & Mast.

KILLED ANTI-PASS MEASURE.

House Voted to Postpone Action Until March 30.

Austin, Texas, March 6.—The house voted its sentiments today on the anti-pass bill, after consuming the entire forenoon in arguments on the senate anti pass bill. The measure was postponed until March 30, by a vote of 57 to 46.

This practically kills the bill, as the anti-passers have thrown up the sponge.

The bill was reached in its regular order by substituting the house committee substitute for the senate bill. Murray of Wilson moved to postpone consideration until March 30.

Mays, the leader of the anti-passers, spoke against the motion and gave the history of the democracy on the subject and said the people demanded it.

He was followed by Greenwood and Hancock against the motion.

Kennedy, Beaty and Brown of Wharton favored the motion and opposed the bill. The latter referred to Mays as the cock robin of the anti passers.

Colonel McKinney, speaker pro-tem, was in the chair, and was besieged with points of order and personal privilege matters. He finally ordered a roll call on the Murray motion and it prevailed.

In the senate the "one place" corporation bill was taken up and set for next Tuesday.

WASHED AWAY.

Several Bridges on The Texas and Gulf Line—Trains Tied Up.

Trains on the Texas & Gulf are tied up, and will likely not get in for several days. A small bridge washed away yesterday about three miles north of Carthage, leaving one train on each side. Later in the evening the bridges on Brushy, Murvaud and Six Mile creeks, between Timpson and Carthage, washed away, and the roadbed at these places was damaged. The breaks are almost as bad as those caused by the great June flood, nearly three years ago. The company had a big construction crew organized at Longview already to go to work on the extension of the line, and this crew has been put to work repairing the damage done by the flood, but it will probably be several days before a train can come through.—Timpson Times.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, you have a rumbling sound of imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

ARMY MET DISASTER.

Japanese Have Completely Encircled Kuropatkin's Troops

Tokio, March 10.—The Japanese troops occupied Mukden at 10 o'clock this morning.

Tokio, March 10.—Fushan was occupied by the Japanese last night. Fighting continues on the heights north of Fushan.

Yinkow, March 10.—Mukden fell at 10 o'clock this morning. The Russians are panic stricken. Thousands of prisoners and enormous quantities of stores and guns have been captured.

Nexy Chwang, March 10.—General Kuroki is advancing northwest and forcing the Russians against General Nogi's army. The casualties on both sides have been enormous. The Russian Sixteenth army corps was practically annihilated at Tachekiao and eight thousand Russians fell at Liukuapao.

Washington, March 10.—The Japanese legation today received the following cablegram from Tokio:

"Our troops occupied Mukden at 10 a. m. Friday. Our enveloping movements have proved successful and the bloodiest battle is now proceeding in various places near Mukden.

St. Petersburg, March 10.—The extent of the disaster to General Kuropatkin's army is unknown here, but the most sensational reports receive credence and the public believe Field Marshal Oyama has succeeded in closing the iron ring around at least a large portion of the army.

Communications with Mukden is apparently cut, as no word has arrived dated later than yesterday afternoon, when the situation of General Bilderling, who commands the rear guard, and the thousands who are fighting off the Japanese assaults almost at the walls of the city west and north of Mukden was desperate.

Even from the east General Kuroki pushed through until FuPass, less than eight miles east of where the Hun bends sharply to the northward was under Japanese gun. The opening in the net, was then only twelve miles wide and nothing but a miracle, in the opinion of many experts, could have saved the situation.

To make matters worse General Nogi's left was west of the railroad and Kawamura's army on the east, it was reported, by forced marches northward would be ready to throw themselves across the Russian line of retreat.

All accounts agree that the battle yesterday must have been fought under dreadful conditions. A dust storm of hurricane violence was blowing, concealing friend and foe, while through the opaque yellow veil streams of wounded and camp followers plodded northward.

ALL SICK WOMEN SHOULD READ MRS. FOX'S LETTER

In All Parts of the United States Lydia E. Pinkham's Vegetable Compound Has Effected Similar Cures.

Many wonderful cures of female ills are continually coming to light which have been brought about by Lydia E. Pinkham's Vegetable Compound, and

through the advice of Mrs. Pinkham, of Lynn, Mass., which is given to sick women absolutely free of charge.

Mrs. Pinkham has for many years made a study of the ills of her sex; she has consulted with and advised thousands of suffering women, who to-day owe not only their health but even life to her helpful advice.

Mrs. Fannie D. Fox, of 7 Chestnut Street, Bradford, Pa., writes:

Dear Mrs. Pinkham—

"I suffered for a long time with womb trouble, and finally was told by my physician that I had a tumor on the womb. I did not want to submit to an operation, so wrote you for advice. I received your letter and did as you told me, and today I am completely cured. My doctor says the tumor has disappeared, and I am once more a well woman. I believe Lydia E. Pinkham's Vegetable Compound is the best medicine in the world for women."

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. She asks nothing in return for her advice. It is absolutely free, and to thousands of women has proved to be more precious than gold.

ing had little consolation to offer to the pitiful inquiries for news. The papers were filled with long lists of those killed in the earlier days of the fighting and churches were crowded with wives, mothers and sisters praying for their loved ones to be spared. At last all classes seem to have joined in the common grief.

All hope of Kuropatkin's waiting for an opportune moment to strike and convert defeat into victory has been abandoned even by the military critics and the papers, in dolorous strains, chronicle the last and worse reverse to the Russian arms.

The only consolation they find is that the Russian troops have been conquered by a wonderful foe, declaring that there is something uncanny about the desperate expedient which the Japanese successfully employed at Dushantun, when, during a storm, the Japanese actually fired about, apparently firing into their own reserves, thus deceiving the Russians and backing into the Russian wire entanglements before the ruse was discovered. History, military men say, does not parallel such desperate, fanatical valor.

The papers at the same time are filled with recriminations. Russian diplomacy is blamed for not including in the theatre of operation the territory west of the Simmuntin road, which Field Marshal Oyama used to accomplish his bold turning movement and hurl himself upon Kuropatkin.

The Russians, however, while admitting Kuropatkin's faults as a strategist insist that the responsibility should not be shouldered by him alone.

BOILS AND ERUPTIONS

Have been suffering from Impure Blood for many years, having Boils and other Eruptions. Having heard of S. S. S. I decided to try it, and am glad to say that it has done me a great deal of good. I intend to continue to use it, as I believe it to be the best Blood Medicine on the market.

Cleveland, Tenn. W. K. DETERS.

For over fifteen years I have suffered more or less from Impure Blood. About a year ago I had a boil appear on my leg below the knee, which was followed by three more on my neck. I saw S. S. S. advertised and decided to try it. After taking three bottles all Boils disappeared and I have not been troubled any since.

GEO. G. FERTIG,
114 W. Jefferson St., Louisville, Ky.

Newark, Ohio, May 23, 1903.

From childhood I had been bothered with bad blood, skin eruptions and boils. I had boils ranging from five to twenty in number each season. The burning accompanying the eruption was terrible. S. S. S. seemed to be just the medicine needed in my case. It drove out all impurities and bad blood, giving me permanent relief from the skin eruption and boils. This has been ten years ago, and I have never had a return of the disease.

Write for our book on blood and skin diseases. Medical advice or any special information about your case will cost you nothing.

IN OLD NACOGDOCHES.

Visitors From the North on the Packers' Excursion.

The Packers' Trade Extension association arrived this afternoon over the Houston, East & West Texas railway. The special left Houston this morning and short stops were made at Cleveland and Lufkin where the party was pleasantly entertained.

This is the second trip of the association to Nacogdoches and quite a number on the present excursion were here last spring. The visitors were entertained by the business league and were supplied with a little folder of Nacogdoches, the truck and fruit center of Eastern Texas.

Many points of interest were visited during the brief stop, and the visitors given much valuable information about the truck industry of this section of which Nacogdoches is the hub.

The newspaper representatives in the party expressed themselves as being "delighted" with the wonderful country, and also incidentally shied a few bouquets at the up-to-dateness of the town. The tobacco situation also come in for a liberal amount of praise and bright future for the old town was predicted as a fruit, truck and tobacco center.

Following is a list of the visitors as furnished the Sentinel:

The personnel of the party is as follows: G. W. Brown and wife, C. O. D. Fifty Years the Standard

D. PRICES' CREAM

BAKING POWDER

Made from pure cream of tartar derived from grapes.

THE BAKING POWDER CO. CHICAGO.

SAYS ONIONS ARE GOLD.

Sends Two Clippings Marked With Blue Pencil.

B. Booker writes from the border that onions are gold, while cabbage and other truck are merely copper and silver.

He says that this will be the greatest onion year the world has ever seen in southwest Texas. By this Tuttle infers that Booker means the crop will be larger and will command a fancy market price.

Enclosed in his letter to Mr. Tuttle are a couple of clippings. One has some tips on the onion market in New York, and is as follows:

"The most important branch of the winter vegetable business just at this time appears to be the onion proposition.

Prices are very high and the feeling seems to be bullish all over the country.

"The arrivals from Cuba have been extremely light. The European demand is good at present and has been extraordinarily large this season on account of the crop there being a failure. One purchase this week for a London account amounted to 5000 barrels, which were of the thin skin yellow variety.

"It is said that this is the first time Europe has called upon us for so many onions during a period of twelve or thirteen years.

"The quality of New York state onions, generally speaking, is rather poor this year.

"The Texas crop this year will nearly double that of last year, and Bermuda is estimated to be at least 25 per cent more this season."

The other clipping is ranged all around with broad blue pencil marks and in Booker's firm handwriting are the following words:

"Now Tuttle, you can see what my preaching has done." The clipping is under a Chicago date line and is as follows:

"Texas is looked forward to as the source of supply for Bermudas for this section. It is a well known fact that the demand for Bermudas is far greater than ever before. The Texas Bermuda is unsurpassed. The Crummer crate will be used almost exclusively for marketing this year's crop."

Mr. and Mrs. H. T. Crain returned yesterday from Galveston where they have been for the past few months for the benefit of Hulen's health. We are glad to state that he was greatly benefitted by his trip.

Stand by Your Guns.

The following clipping from the Galveston News explains the situation. Had this 2,000,000 surplus bales been put on the market, the price of cotton today would be less than 4 cents. Plant less and demand a fair price, "Rah" for the farmers unions.

A. J. Spradley.

New York, March 12.—In the deadlock which exists today in the cotton trade there is presented an analogous condition without a precedent in the record of any staple commodity. With a yield of approximately 13,500,000 bales practically assured, there is an apparent growth of spinning wants of, in round figures, 2,000,000 bales. Such a relation of supply and demand never before occurred, and would in years past have brought about a panic to all and probably made new low record values, but the owner of the cotton today flatly states that a 2,000,000 surplus bears no terrors for him.

"So firm is the farmer's determination to hold until his idea of a fair price is met," said L. L. Fleming, a director of the New York Cotton Exchange, who has just returned from a trip through the South, "and so consistent is his course with the public avowals on the subject that the trade is confronted with these abnormal situations of a positively enormous surplus, and yet merchants who have contracts for delivery to spinners find an actual scarcity of offerings, and what is bought being at a heartbreaking basis, as compared with the futures. The farmer's position financially is better than in years, probably the strongest ever before, and owing to general prosperity in the South, the banking facilities there, are amply competent to take care of his surplus on a reasonable basis."

Statistics show startling mortality, from appendicitis and peritonitis. To prevent and cure these awful diseases, there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, of 14 Custom House Place, Chicago, says: "They have no equal for constipation and biliousness." 25c at Stripling, Haselwood & Co., druggist. dw

Moral Local Matters. The health of this settlement is moderately good at this writing, and the farmers are quite busy making preparations for this year's crop.

J. R. Manchaca who lost a finger in a shingle mill several weeks ago has secured a place as mail rider to Woden.

D. E. Cruze has gone to Carthage on a business trip. Joe Lazerine is still confined to his room on account of sickness. Correspondent.

Incredible Brutality. It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye. Good for burns and ulcers too.
