Mule Kicked Him.

Sunday, Lee Lazerine of the Moral community had an experience with a mule that was anything but pleasant. The mule kicked Lee on the right side of the chin and as a result two teeth were broken and the chin badly bruised.

The case of Hugh Strickland charged with theft was tried yesterday afternoon and the jury returned a verdict of not guilty. The case against A. Strickland on a similar charge was dismissed this morning.

COUNTY CONVICT SHOT.

Robert Shy, Colored, Was Shot at Village Mills.

From Tuesday's Daily:

Sheriff Roberts, of Hardin county wired Nacogdoches authorities yesterday that Robert Shy, colored, who jumped a convict bond here, had been shot while resisting arrest and was perhaps fatally wounded. Constable McMillan left yesterday afternoon for Village Mills and will bring Shy back if he is able to be moved.

LATER—Will McMillan arrived on noon train with Robert Shy and just as he landed him in jail he died.

A Good Lady Gone.

On Tuesday morning, March 14th, 1905, the spirit of Mrs. I. G. Wade, of Nat, Texas, was called before the great white throne of God there to give an accounting of its stewardship during sixty years of life.

Mrs. Wade was 60 years old at the time of her death and had lived in Nacogdoches county all her life. She was a devout Christian woman and was loved by all who had the pleasure of knowing her. To such characters death is only a dream, and the awakening on the final day will reveal all the joys of which the followers of the meek and lowly Jesus have been taught to expect when time shall be no more.

The remains were laid to rest in the neighborhood cemetery at Nat, Wednesday, March 15th. Mrs. Wade was a sister to Robert and B. Paine and also related to Mrs. N. G. Wade of this city.

The Nacogdoches Cigar Co. is manufacturing a cigar designed to be a ten cent straight article to be named in honor of Col. S. F. B. Morse former passenger traffic manager of the Southern Pacific Co. A photograph of Col. Morse has been secured and a steel engraving will adorn the box. Col. Morse is the discover of the East Texas tobacco soil and this cigar will be a special value article to honor the father of the industry in East Texas.

Hon. R. W. Haltom, after an illness of nearly two months, which came near being fatal, was able to be up town Monday for the first time since he took sick. He was stricken down with grippe at Austin after serving only seventeen days in the legislature and has not been able to occupy his seat since. He hopes to be able to return to Austin on April 1st. He is still quite feeble and is improving quite slowly.

Second New Engine.

The second big engine for the Nacogdoches & South-eastern railroad arrived Saturday.

JUDGMENT OBTAINED.

Against Taylor, Webb & Co. and J. W. Saunders.

Dallas, Texas, March 20.—Judge Nash in the Fourteenth district court today made an order in the case styled the Texas National Bank of Dallas vs. Taylor, Webb & Co., C. F. Taylor and Alice Webb and J. W. Saunders, debt and attachment.

The order reads that the case as to Alice Webb (now Mrs. Duke) shall be dismissed. Judgment was obtained against Taylor, Webb & Co. and Charles F. Taylor for the amount sued for, with interest and attorneys' fees and for a foreclosure of lien and personal judgment against J. W. Saunders. This suit grew out of the borrowing of \$5,000 from the Texas National bank some time ago by the parties named above. Taylor, Webb & Co. were the principals on the note, while it was indorsed by J. W. Saunders. Suit was instituted last September for the amount of the loan with interest and attorneys' fees.—Houston Post.

MELROSE.

Melrose, March 20.—Rev. Jacks from Hemphill, passed through our town enroute to Appleby to attend the Free Methodist conference in session at that place.

Prof. Sanders and wife left for their home at Waller, Texas, bidding good bye to their many friends with the appreciating words, "we have had a pleasant stay with you all."

Mrs. Robie Blackwell of the Oak Ridge community is quite sick.

The history of the world is contained in the lives of representative individuals and in this nineteenth hundredth century let us humbly beg for a change in the observation of the Sabbath by the big hearted railroad officials. The Melrose correspondent sends compliments of all the good people to the railroad presidents, entreating them to consider the propriety of ceasing to run the Sunday trains so the employes may have one day of rest and the opportunity of attending the Lord's service. God commanded the Israelites to let their land rest every seventh year and they were kept in bondage for just as many years as they failed to observe that law. "Whatsoever we sow we shall reap."

Startling Mortality.

Statistics show startling mortality, from appendicitis and peritonitis. To prevent and cure these awful diseases, there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, of 14 Custom House Place, Chicago, says: "They have no equal for constipation and biliousness." 25c at Stripling, Haselwood & Co., druggist.

We Sat up the Other Night ... and Figured Some ...

Figured right, too, and find that you can buy 20 inch Hog Proof American Fence (the American the best you know) and put three strands of barbwire above it for less money than you can buy three 6 inch plank and put only two barbwires above it.

You don't have to "figure" to know that the all wire fence wont blow down, burn or rot and that it is hog-proof, mule-proof and cow-proof and that the plank fence soon gives way, is much more trouble to build, is likely to burn and is by no means as good.

We've figured our profits low on the American fence, (that's the good kind) but we figure that we are going to get a great big trade on it. Already got a trade so big that the biggest wire makers in the world can't supply us, but they tell us that they've got some more machinery now and are going to do better. (Can't make wire better than we've got) We figured prices on

Buck's Stoves

down to where you can get wife a new one and hardly miss the money. You know all about Buck's Stoves, they've been the Peace Maker in thousands of homes for 15 years before the war—about 60 years. But honestly, we haven't told you where we've "figured" to save you the most money yet. It's in that tremendous big Buggy stock of ours and in our Farming Implement department. Got the best stock in East Texas to select from, too. That's an item. Come in and figure with

D. K. CASON,

The man whose sold more Hog Fence, Buggies, Wagons, etc., than any man in this country.

The Human Tongue.

The most deadly instrument known to the mortal man is the human tongue. Dynamite is not in it as a trouble breeder. It is the hair trigger of the universe. The less brains back of it the more free the action. It goes off on the slightest provocation.

It strikes heavier blows than a prize fighter or a mule kicking down hill; it causes more heart-aches than a tax collector. A tongue can make a spot for years. The crimes chargeable to the tongue are words of criticism, unkindness, gossip, scandle, lying, malace and hate. The aggregate of sorrow caused by the tongue yearly far exceeds theft and murder.—Ma-(Iowa) Pilot.

Letters received from J. G. Smith, who is at Mineral Wells for his health, state that he is improving.

Bond Was Made.

Elmer Burrows who is before the United States court at Tyler, was put under a \$300 bond. The bond was made yesterday afternoon with Joe P. Clevenger, J. J. Ogg and Geo. S. King. Burrows will be held until the bond reaches Tyler which will be some time today.

Walter Edwards of Groveton who has been in the city several days visiting his sister, Mrs. C. W. Butt, returned this afternoon to his home. Mr. Edwards says we have a most excellent country here and that he will pay this section another visit real soon and will come with a view of investing in property here.

April 24th to 27th the Houston East & West Texas railway will sell round trip tickets to Houston as per Convention Excursion circular on account State Medical association.

"The wearin' o' the green"
was in order today.

The diversification idea is a
great thing for Texas.

The truck farmers of
Orange county will plant fifty
acres in cucumbers.

Few dollars spent in ad-
vertising Nacogdoches county
would be money well spent.

This is St. Patrick's day,
and green neckties and such
were very prominent all day.

Several hundred acres will
be devoted to truck in Nacog-
doches this year.

In the bribery proceedings
against Attorney Warren
Moore at Austin, the jury re-
turned a verdict of not guilty.

In discussing needed im-
provements in Nacogdoches
county to your friend, see
how he stands on a new court
house. The old bar roost that
adorns a 2x4 lot on the south
side of the square that is used
for a court house is about the
worst temple of justice in all of
Eastern Texas.

Many Nacogdoches people
have passed through the city
the past week, enroute to San
Augustine, and if San August-
ine gets the "Windy" many
of them will doubtless move
to the Red Land City.—Center
News.

Who told you so?

Nacogdoches is bound to
get into the oil field class. It
will surprise no one if her
well spouted oil of tobacco.—
Houston Post.

The Nacogdoches wells
produce oil while wells at
other places are producing hot
air and salt water.

As a rule, a newspaper is
regarded as an index of all
the community in which it is
published, and when people at
a distance desire to know or
learn anything about what is
being accomplished in an in-
dustrial way in a given com-
munity, they can refer to the
paper published in that com-
munity. This leads us to re-
mark that from reading the
county papers published north
of Beaumont one would never
learn that there was a saw
mill or lumber enterprise in
it, and the only way to find
out is to read the reports or
letters of some special cor-
respondent who visits such place
on purpose. Take Tyler,
Newton, Jasper, Nacogdoches
and Angelina counties and,
as we said, by reading the pa-
pers published in those coun-
ties one would not know
whether there is a single saw
mill or lumber manufacturing
enterprise within their bounds.
The exception may be an oc-
casional and scattering re-
mark now and then. The moral
is that all kinds of business
should be advertised, and the
country newspaper is the me-
dium through which it should
be done.—Beaumont Journal.

RETURNED DEFRAUDED FUNDS

Secretary Shaw today re-
ceived the following communi-
cation: Dear Sir: I am send-
ing you herewith inclosed \$12,-
000, which is to go for the use
of the government. Years
ago I defrauded the govern-
ment out of the money, but
have returned it all and am
now paying fourfold, accord-
ing to the Scriptures. The
way of the transgressor is
hard, and no one but God
knows how I have suffered
the consequences, and, I
seek to do a bountiful restora-
tion. May God pardon me
while the United States gov-
ernment is benefited.

A Sinner.

The amount, which was in
currency, has been deposited
in the treasury to the credit of
the conscience fund.—Assoc-
iated Press Report.

Wonder if that was a mem-
ber of the Standard Oil Com-
pany? It is stated that Rock-
efeller has a rather peculiar
conscience—at times.

SOME unknown philosopher
says: "We love the man with
the roses on his tongue, the
man who sees the boy's dirty
face, but mentions his bright
eyes; who notices your shabby
coat, but praises your studious
habits, the man who sees all
the faults, but whose tongue
is quick to praise and slow to
blame. We like to meet a
man whose smile will light up
dreariness, whose voice is full
of music of the birds, whose
handshake is an inspiration
and his "God bless you" a
benediction. He makes us
forget our troubles as the raven's
dismal croak is forgotten
when the woodthrush sings,
God bless the man of cheer.
There is plenty of trouble
here, we should not increase
it. There is a lot of dying
done ahead of time."

AN Illinois editor, regarded
as a wise man, printed this:
Now is the time of the year
when the boys and girls sit on
the front porch and look scorn-
fully at the stars. Pretty soon
she says: "What are you
thinking about?" And he says,
"Same thing you are."
"Don't you try it," she says,
"or I'll slap your face."—Mas-
son Herald.

THE business league was ac-
complished much good for
Nacogdoches, and there is
still on hand quite a lot of un-
finished business.

How to Beat The Boll-weevil.

Shepherd, Tex Jan, 16, '05
Nacogdoches Mercantile Co.
Nacogdoches, Texas.

Dear Sirs:

Yours to hand. I send sam-
ple of cotton seed, which are
"Big Boll" as you will see.
This is the fourth year we
have been trying Territory
seed here. This year the peo-
ple will have nothing else.
The bolls are large and picks
easy, bears very prolific and
is only about six days later
than King's Improved. These
seed are grown at Mulhall,
Oklahoma Territory. The
yield from these seed is about
one-third more than from
King's Improved. I have
bought for two years from the
party selling these seed and
know he is O. K.

Respectfully,

E. B. SMITH.

Having bought a car of the
above seed we would call the
attention of all farmers who
are going to plant any cotton
to the fact that Mulhall is in
the extreme northern portion
of the cotton growing section
of the United States, this alone
will insure an early crop.
(About the same difference as
there is between northern
seed corn and our native seed)
while the yield being one-third
more than the King's Improv-
ed. You can well afford to
buy these seed and feed your
native seed to your cows.

We have them put up in
two and a half bushels sacks
at 65 cents per bushel. Don't
miss this chance to "Beat The
Boll Weevil."

A Word to Farmers!

We propose to introduce to
your notice in the near future,
gentlemen, either personally,
or through our representatives
the most practical and meri-
torious little device that has
been brought to your notice
in a long time.

We refer to the S. H.
Clark "Plow Set." This a
thoroughly practical invention
for farmers, by a practical
farmer, used and endorsed by
farmers at home and abroad.

It is needed everywhere, by
every farmer and truck grow-
er. With it you can easily
and readily regulate the "Set"
or adjustment of your plows
at any degree of angle, and
hold them in position.

It works to perfection on
any plow used on any cultiva-
tor or Georgia stock.

See what a few farmers who
have used it have to say about
it:

Rising Star, Texas.

July 1st, 1904.

We the undersigned farm-
ers find by experience that
none of our cultivators feet, or
Georgia Stock are complete
without the Clark "Plow
Set." They have become
about as indispensable to us as
our cultivators:

M G Robertson, T A Har-
dy, Wade Clark, Henry Clark,
S W C Holaman, T W Goss,
S M Charters, Lewis Palmer,
A G Hardin, A B Owen,
Guss Hardy, G W Angel, J
A Looney, Sam Witten, Tom
Palmer, Harvy Nichols, Hen-
ry Brooks.

Rising Star, Texas,

July 1st, 1903.

This certifies that I have
been making and selling the
S. H. Clark "Plow Set" for
about three years and find
they have given the best
satisfaction to the farmers.
All who have used them re-
commend them, and I have yet
to hear of any complaint
against them.

We, the undersigned offi-
cers of Brown county take
pleasure in stating that we
have known S. H. Clark of
this county for the past ten
or twelve years. He is a good
man, a good citizen and
thoroughly reliable in all his
dealings with his fellow man,
and in fact a perfect christian
gentleman.

THERE'S A DIFFERENCE.

Have you ever noticed what a marked difference there
is in Furniture?

You can't always judge good furniture by the price—
some dealers put high prices on cheap stuff because it
happens to show up well. With us it's different—we
have a small percentage we add to the factory cost to
each article alike. We show our customers the differ-
ence, and how the cheap and the good kind of furniture
is made. Come and see us and we'll convince you with
the fact that our goods and prices are right. We'll
appreciate your visit.

JACK KILLED A BABY.

Held Babe by its Clothing and
Shook Child to Death.

Paris, Tex., March 14.—
This afternoon Mrs. May
Helm, the wife of a farmer
living between Ambia and
Roxtan, went out to the barn
to hunt eggs, carrying her 3
month old baby in her arms.
As she entered the lot a
large jack rushed up to her,
seized the baby's clothing in
his teeth and, snatching the
infant from her, ran around
the lot with it. The horrified
mother rushed after the don-
key, and succeeded in snatch-
ing the infant away. The don-
key, however, returned to the
attack and secured the baby a
second time. He ran around
the lot shaking it between his
teeth until its brains were
beaten out. The mother in
trying to rescue the child was
badly kicked and pawed.
When the husband returned
home and learned of the oc-
currence he took his shotgun
and killed the animal.

If you will closely take note
of the movements of our city
lawyers during this term of
court, you will see that they
greatly resemble the school
children, especially in the
move they get on them every
morning and noon in getting
to the court room. They
dread a "tardy mark" as much
as the little folks do. Judge
Perkins is on the bench.

Weak Hearts

Are due to indigestion. Ninety-nine of every
one hundred people who have heart trouble
can remember when it was simple indiges-
tion. It is a scientific fact that all cases of
heart disease, not organic, are not only
traceable to, but are the direct result of indig-
estion. All food taken into the stomach
which fails of perfect digestion ferments and
swells the stomach, puffing it up against the
heart. This interferes with the action of
the heart, and in the course of time that
delicate but vital organ becomes diseased.

Mr. D. Kauble, of Nevada, O., says: "I had stomach
trouble and was in a bad state as I had heart trouble
with it. I took Kodol Dyspepsia Cure for about four
months and it cured me."

CURE YOUR KIDNEYS.

Do Not Endanger Your Life and Health
When a Cure is so Easy.

Why will people continue to
suffer the agonies of kidney
complaint, backache, urinary
disorders, lameness and stiff-
ness in the back; why allow
themselves to become chronic
invalids, when a certain cure
is offered them? Doan's Kid-
ney Pills is the remedy to use,
because it gives to the kidneys
the help they need to perform
their work. That Doan's
Kidney Pills cure, and cure
permanently, is proven by a
Texas citizen's statement. If
you have any, even one, of
the numerous symptoms of
kidney complaint, cure your-
self now, before diabetes,
dropsy or Bright's disease sets
in. Read this Texas testi-
mony.

C. H. Hoencke, of 2319
McKinney Ave. Houston,
Tex., manufacturer and deal-
er in barrels since 1872, says:
"For about a year I had more
or less trouble with my kid-
neys. It was caused by a
cold, or by straining my back.
I had much lumbago, and
whenever I made a sudden
movement I felt a sharp dart-
ing pain through my kidneys.
My back was often so lame
and sore that I could not
stoop without suffering se-
verely. The kidney secre-
tions scalded and were scant
in quantity. I used remedy
after remedy but found little
benefit until I got Doan's Kid-
ney Pills on the advice of a
friend who had been cured.
By the time I had taken half
the box the backache had dis-
appeared and the secretions
were clear and natural. I
have advised many others to
use this remedy and always
keep a supply in the house."

The Free Horse.

A FABLE.
 Once upon a time there lived in an East Texas community a rich, good hearted, old christian man. He had a desire to live at peace with his neighbors and made repeated efforts to bring sunshine and gladness to hearts that were sad. In his immediate neighborhood there were several families who were not able to afford a horse and buggy. These people had longed for this luxury, and had discussed it in their own circles, but could not afford to furnish the wherewith to get the much coveted horse and buggy. In the course of time these wishes became known to the generous hearted old man and he reasoned with himself how he could gladden the hearts of his poor neighbors. He concluded the best way to accomplish this would be to buy a good gentle horse and also a buggy, build a barn and let the people use it as a free horse. After arriving at this conclusion he put his plans into operation. The scheme worked nicely—the people had delightful rides and cutings every day, and some times they would take a spin through the country after night fall when the moon was shining bright. There was one family in this particular community who tried to have the free outfit in use all the time which did not please the rest of the community (who by the way had reasoned that the horse might be driven to death.)

The old horse was getting wearied with having to carry the load of one family all the time and as he was a sensible old creature he decided to fix the lay out if the crowd that was trying to ride him to death kept it up much longer. So it happened one day, after the old horse had been driven hard the night before, that the family that had been getting the big end of the free rides decided to take a longer ride than usual and the route selected was rough and hilly. When the free horse saw what was ahead he balked a little, but he was whipped over the

first hill, the next and the next, finally he decided the next hill would be the last that he would pull the ungrateful crowd. So when the next hill was reached he stopped; the whip was brought into use. Say, what that old nag done to that lay out was a plenty. He kicked out of harness, smashed up the rig and ate all the straw hats worn by the party. It is stated that to this day the people who were in the wreck will not even look at the picture of a horse and buggy because they are still wearing sack cloth and ashes trying to atone for the sin of riding a free horse nearly to death.

MORAL—Don't abuse a good thing when it is coming your way, and remember don't ride a free horse to death.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and I was finally compelled to stop. As I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in council." This remedy is for sale by Perkins, Klease & Mast.

Mrs. Duke Sues for Separation.

New York, March 17.—Mrs. Alice Webb Duke, through her counsel, has brought suit in the circuit court for a separation from her husband, Brodie L. Duke, on the ground of abandonment and non-support.

Duke's marriage to Miss Webb a few weeks ago was followed by a series of sensational incidents, including the confinement of the groom in a sanitarium for a time upon allegation of his son that he was incompetent to manage his affairs. He was subsequently released after the case had been tried in the supreme court. Later Mrs. Duke was arrested on an indictment returned by a Texas grand jury charging her with obtaining money under false pretenses, but she was soon released at the request of the Texas authorities.

Quarterly Meeting Notice.

Owing to the bad roads and other difficulties, the first quarterly meeting of Melrose circuit has been changed from Chireno to Melrose, and will be held Wednesday, March 29th. Let the members please observe the day before conference in fasting and prayer. This is the disciplinary rule and should be observed. We solicit a good attendance at the meeting.

What Is Osteopathy?

IN 1847 Dr. A. T. Still startled the world by announcing to it that the greatest science of healing that had ever been known, had been discovered by him, and his theories remained to be proved, by time. Since then Osteopathy has spread even beyond the United States, and the largest Osteopathic school of today has enrolled more names than any other medical school in the world.

Osteopathy is that science of healing that is nearest to nature, and as we cannot improve on God's work, let us get as close to it as possible.

Many definitions have been formulated and published to the world. Each one tends to limit one's conception of osteopathy in some particulars. A definition always limits the thing defined, therefore, no definition of osteopathy can be complete, for we are dealing with a principle the universality of which no one knows. Seven years ago it was thought osteopathy was an excellent method of treating chronic ailments. We now find osteopathy working successfully day and night at the bedsides of the acutely sick. Thus is it recognized as a system applicable to all

diseases. The best definition that presents itself to my mind is as follows:

Osteopathy is a complete system of healing, herein only food and water is allowed to enter the stomach and all natural means are employed to place a diseased body under such conditions as will permit nature to effect a cure, including the most effective dietetic and hygienic measures; special use being made of manipulations that normalize the tenacity of muscles, the flow of blood and lymph, the transmission of nerve force and the functioning of bodily organs by replacing deranged anatomical strictures, stretching and pressing muscles, vessels and nerves, freeing the movements of joints and correcting dislocations, and subluxations.

Since the period of osteopathy many of the incurable diseases as, Tuberculosis, Locomotor Ataxia, Cerebrospinal Meningitis, Myelitis, and so on, have yielded to the touch of the osteopath. The death rate has been greatly reduced in the so-called curable diseases of which the osteopath treats them all. M. J. CARSON, D. O.

CROP ROTATION.

Texas has followed the precedent set by other states in practicing extensive agriculture during its developing period, and only within recent years has the state begun to appreciate and to make use of those sections which has especial fitness for intensive agriculture. Evidence of the development in this phase of its industrial life is now found in the large number of men who are practicing fruit and truck growing. During the first period of development of this state cattle raising was a great means for transforming the natural agricultural resources into a product which could be marketed. Following upon the development of the cattle industry came the tendency to develop the production of the staple farm crops, corn, wheat and oats. In the practicing of field agriculture, which would normally include the raising of staple crops, a system of rotation has been found to yield the best results. The practice called crop rotation has been a matter of growth and development due to circumstances and was not in the beginning based upon scientific principles. It should be stated here that by a rotation of crops is meant the planting of different crops on the same piece of land in successive seasons. This planting must involve a change in regular order.

Sheriff Buckner, of Nacogdoches, came up to Logansport after Sol Fletcher a negro, who was arrested the day before by Sheriff Tanner. Sheriff Buckner returned to Nacogdoches Friday morning with the prisoner, where he lodged him in jail. Sol, or "Sorgy" as he is known in Nacogdoches county, is charged with murder committed at Garrison four years ago.—Logansport Newsboy.

In quite a lengthy editorial on "Sell or Consign" the Kansas City Packer in one paragraph says: "It is not our object to comment specially as to the best method, but we wish to sound a note of timely warning. The acreage this year in many of the items included in the general term of fruits, vegetables and produce will be quite large, and while there may not be an overproduction, it properly handled, yet the wholesale trade may be able to secure a goodly portion of what they need on consignment. In all events they are not going to reach out longingly for stuff that can only be had by the buying. When there is a shortage, it is easy enough to sell, because the entire trade are anxiously looking for what is offered, but when everything is plentiful the grower can't afford to be too stiff in the rules and regulations by which he is governed in moving his stuff."

DISHONESTY is a first cousin to selfishness.

HOME-SEEKERS.

The New Orleans Progressive Union announces that a call will be issued for a convention of Mayors of every town in Louisiana and Mississippi, to meet in New Orleans at an early date to discuss the question of turning the tide of immigration into the South through the New Orleans gateway. This is the outcome of the successful effort made to establish at New Orleans a big Southern immigration station where the great overflow of homeseekers from European countries can be received and instead of being turned loose in New York, Boston and Philadelphia and the over crowded east, can be freed at once in the great agricultural sections of the country and is the purpose to enlarge the movement so as to include Texas, Oklahoma and Indian Territory, Alabama, Arkansas, Tennessee, Georgia, Florida, South and North Carolina and even Virginia, despite its proximity to New York. The site for the immigration station has been selected at Port Chalmette, just below the city and the cost of its construction will be largely defrayed by the various trunk lines of railroads.

TWENTY tons of gold have been produced by the Klondike proper, the district within a radius of fifty miles of Dawson, since January 1 of this year. In other words, the output of the Klondike since the first of this year is \$8,200,000. The royalty col-

lected on the gold by the Canadian government for the year is \$230,260. The baner year in the camp was in 1900, when the output was placed at \$20,000,000. Since that the cream of the richest claims has been taken, and lower grade areas are being worked.

THE human race will be extinct on this earth in the course of a few million years, according to Prof. Samuel Williston, professor of paleontology at the University of Chicago. While lecturing on the future of the earth's inhabitants, Prof. Williston declared that, in his opinion, instead of men at this future date, which he told the students would not come for something like 3,000,000 years, the earth will be dominated by birds.

BAD NEGRO IN JAIL.

Rogers Miller in Jail With a Bullet Hole Through His Body.

Sometime ago Constable Banks Cushing had quite an encounter with a bad "nigger," named Rogers Miller, and when time was called the negro had possession of the gun, and it is alleged that he told the Constable to "hot foot"—which was done. The negro made his escape and his whereabouts were not known until last Sunday night when Constable H. C. Rich of Sacul, was informed of the negro's presence.

Constable Rich got Nelson Wallington to go with him after the negro. When they reached the house where the negro was Wallington suggested that he should go in and Rich stood on the outside. In a few minutes a rough house was started and Rich ran in to see what was the matter and found that the negro was in the act of murdering Wallington and had it not been for the fact that Wallington had thrown up one hand to protect his throat, he would have been a muchly dead man today.

Constable Rich took in the situation for a second and drew his pistol and shot at the negro. The darkey lit a shuck for tall timber and succeeded in getting away while Rich was looking after the injuries of Wallington to see how badly he was hurt.

Nothing was heard of the negro until yesterday when he was found lying in a pond of water but a short distance from where he was shot on Sunday night. He was brought to town and put in jail, and this morning when Dr. Campbell dressed the wound said Miller was doing well and that while the wound was bad that it was not necessarily fatal.

The bullet entered between the shoulders and came out on the right side.

A Grateful Customer.

I suffered for four years with eczema on the ends of eight of my fingers. Had it so long my fingers drew up and could do nothing at all at times, and I tried almost everything that I ever heard of, including several largely advertised ointments, spending many dollars for them. Never a thing did it any good at all. At last I saw in a home paper Hunt's Cure was being advertised and tried only a part of one box, which cost me only 50c, and it cured them. Now I can wash or do anything which before I could not without my fingers bleeding, burning and paining me very much. If this ever comes back I surely will know just what to get. I wish every friend and stranger that had anything of the kind could have seen my fingers before I used this and see them now. It is the best Ointment on earth. That 50c box was worth a hundred dollars to me. You deserve all thanks that can be given you for that wonderful salve, Hunt's Cure." Mrs. J. I. Bialock, Miles, Texas, July 2, '04. To A. B. A Smooth Artist.

Yesterday afternoon there appeared upon our streets a gent, whose business it was to give away cheap jewelry and sell razors, and that he understood his business and accomplished his object, several people we are very certain, will testify. He opened up his business from a dray wagon and by extra loud and forceful talking soon had a crowd of eager listeners. He was out for the purpose of advertising his goods and intended to do this very thing if he had to pay the people to take them. He opened his performance by asking his audience to hand him twenty-five cents each as an evidence that they really wanted his goods, as he didn't care to get them among people who didn't need them. He opened with collar buttons. He required each purchaser to hand him 25 cents as an evidence that they wanted the buttons, and after he had distributed about a dozen sets of buttons he returned their money and said keep the buttons. He repeated the same performance on watch chains and teaspoons, and then seeing they were all ready, he opened up on razors, at \$1 each, going through the same spiel as before, about just advertising the goods, etc. He succeeded in placing about twenty razors, making all his customers say they were satisfied, he then shook hands with each and every one and bid them good evening.

Now, these fellows may have gotten their money's worth, but as their man crawled off the wagon, without making the same arrangements as before about returning their dollar, you could perceive that they were slightly frustrated; but they had all given their word that they needed the razors, and had rather have them than their money back, so all they could do was to pass it off as a joke, while their smooth-tongued artist meandered to his boarding house to grumble about business being dull in Jacksonville. — Jacksonville Reformer.

The same fellow worked his gratt here yesterday.

For Better Prohibition.

Mr. L. G. McLendon is industriously circulating a petition, which is being freely signed, asking the legislature to enact a law prohibiting C. O. D. shipments of liquor, and prevent whisky agents from invading local option territory, and for other relief along this line.

The petition has a lofty purpose in view, and every believer in local option will heartily sanction the move, but it is doubtful if it will be considered at this session of the solons, the time now being so limited, and the division of sentiment there would be on the subject.

The local option Shelby county now has is a farce, and is unfortunately worse than no prohibition at all, this county being under the old law that lets violators off with a small fine.

San Augustine and other neighboring counties are subject to a later law, which provides a compulsory jail penalty, and while they will have no advantage of us in the C. O. D. shipments, a jail penalty is dreaded much more than a minimum fine.

The true intents and purposes of local option are lofty, and seek to save the women and children of the country, and all prohibitionists should "hammer away" at the matter until a law is made that will afford the desired protection. —Center News

HOARSE COUGHS STUFFY COLDS QUICKLY CURED BY Foley's Honey and Tar

There is no case on record of a cold resulting in Pneumonia, or other serious lung trouble, after Foley's Honey and Tar had been taken.

It will cure the most obstinate racking cough, and heals and strengthens the lungs.

Foley's Honey and Tar has cured many cases of incipient Consumption and even in the last stages will always give comfort and relief.

Foley's Honey and Tar gives quick relief to Asthma sufferers, as it relieves the difficult breathing at once.

Remember the name—Foley's Honey and Tar—and refuse substitutes that cost you the same as the genuine. Do not take chances with some unknown preparation.

Contains no opiates.

Cured of Terrible Cough on Lungs. N. Jackson of Danville, Ill., writes: "My daughter had a severe attack of La Grippe and a terrible cough on her lungs. We tried a great many remedies without relief. She tried Foley's Honey and Tar, which cured her. She has never been troubled with a cough since."

Consumption Cured.

Foley & Co., Chicago. Dana, Ind. Gentlemen:—Foley's Honey and Tar cured me of Consumption after I had suffered two years and was almost desperate. Three physicians failed to give me any relief and the last one said he could do me no good. I tried almost every medicine I heard tell of without benefit, until Foley's Honey and Tar was recommended to me. Its effect right from the start was magical. I improved steadily from the first dose and am now sound and well, and think Foley's Honey and Tar is a God-send to people with Throat and Lung Trouble. Yours very truly, MRS. MARY AMBROSE.

Three sizes—25c, 50c, \$1.00. The 50 cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

Champion Liniment for Rheumatism.

Chas. Crake, a mail carrier at Chayinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the storekeeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure, for sale by Perkins, Klease & Mast.

Just a Little Late.

The Windy train came in yesterday evening five days late, on account of several heavy washouts caused by the recent rains. Fortunately the company had a big construction crew already organized for work on the extension and were able to get the breaks repaired earlier than they had hoped. The train went out this morning, and services will be uninterrupted now. —Times.

Strikes Hidden Rocks.

When your ship of health strikes the hidden rocks of consumption, pneumonia, etc., you are lost, if you don't get help from Dr. King's New Discovery for consumption. J. W. DREAD OF HUMANITY

I am compelled by a sense of gratitude to tell you the great good your remedy has done me in a case of Contagious Blood Poison. Among other symptoms I was severely afflicted with Rheumatism, and got almost past going. The disease got a firm hold upon my system; my blood was thoroughly poisoned with the virus. I lost in weight, was run down, had sore throat, eruptions, spotsches and other evidences of the disease. I was truly in a bad shape when I began the use of S. S. S., but the persistent use of it brought me out of my trouble safe and sound, and I have the courage to publicly testify to the virtues of your great blood remedy, S. S. S., and to recommend it to all blood-poison sufferers, sincerely believing if it is taken according to directions, and given a fair trial, it will thoroughly eliminate every particle of the virus. JAMES CURRAN, Stark Hotel, Greensburg, Pa.

Painful swellings in the groins, red eruptions upon the skin, sores in the mouth and loss of hair and eyebrows, are some of the symptoms of this vile disease. S. S. S. is an antidote for the awful virus that attacks and destroys even the bones. S. S. S. contains no Mercury, Potash or other mineral ingredient. We offer \$1.00 for proof that it is not absolutely vegetable. Home treatment book giving the symptoms and other interesting and valuable information about this disease, mailed free. HIS FRIENDS SURPRISED.

The Grand Jury Yesterday Returned a New Bill

"The case of the State against Chas. F. Taylor has been set for trial on March 30th of the present term of district court. Process has been issued to Harris county for Col. T. J. Anderson, general passenger agent of the Southern Pacific company; to Dallas county for A. C. Wilson, cashier of the Texas National Bank at Dallas, Texas, and to Center for J. W. Saunders cashier of the First National Bank of that place, to appear as witnesses for the defense. The grand jury, now in session, yesterday returned a new bill of indictment in the case, covering practically the same issues as the one upon which Taylor was extradited. It is presumed that the former indictment is legally defective. Mr. Taylor is out upon bail awaiting the trial and looking after the tobacco interests here. Since his arrival public sentiment has materially changed in his favor."

Cured Consumption.

WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth; but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women.

It is a wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on.

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters received by her prove. Many such grateful letters as the following are constantly pouring in.

MRS. HALL'S MIRACLE.

Experiences Similar to This Have Occasioned Considerable Comment in Nacogdoches.

Few women are better known in Lockport, N. Y., than Mrs. Pattie D. Hall, as she belongs to one of the best families and has a large circle of friends and acquaintances. In a recent interview Mrs. Hall said:

"The experience I have been through in the last two years seem like a miracle. I was so badly off that life seemed almost unendurable, and deafness increased so that I could scarcely hear anything. The suffocation in my chest and the indigestion caused by my catarrh, produced very severe suffering. I had five different physicians, bought everything that anybody recommended to me, but finally gave up in despair.

One day my milliner asked me if I had ever tried Hyomei. I began the treatment, and can thankfully testify that Hyomei does cure this terrible disease. Since using it my hearing is greatly improved, and the only time I have catarrhal trouble is when I take cold. I now use Hyomei and always get instant relief. My friends and acquaintances marvel at the change in my health and hearing."

Hyomei has made many cures of catarrh, and in connection with Hyomei balm, of catarrhal deafness, in Nacogdoches. Similar experiences to that of Mrs. Hall's have created a large sale for Hyomei with Stripling, Haselwood & Co.

The complete Hyomei outfit costs \$1.00 and comprises an inhaler, a bottle of Hyomei and a dropper. The inhaler will last a life-time; and additional bottles of Hyomei can be obtained for 50 cents.

For the Larger Public School Students.

There is no good reason why young people anxious to be earning something for themselves should be idle three to five months of the year absorbing all the meanness in the country and growing up like rag weeds. Time is money and opportunity too. He who will study only in cold weather robs himself of his best chances of success by taking twice as long as necessary to get ready and beginning so far behind in the race. It's the fellow with nothing else to do, and not the busy man, that suffers most from heat.

Taking a business course shorthand, or telegraphy during this idle season is not half so hard on health or morals as card parties, socials, late hours and bad company. Then, when the literary course is finished, or the business season opens up your education is not 'one legged.' You can earn a handsome salary.

It may not be out of place to suggest that there's no better place to take such a course than Tyler Commercial College of Tyler, Texas. This is a school with a national reputation and patronage—enrolling 1000 students annually.

Had A Good One.

Bailiff Kile was hastily summoned to the home of Mrs. Jennie Richardson by telephone this morning, and found that a stranger had run into the house and barricaded himself in one of the rooms. No persuasion could get him out and the bailiff had to break the door down to get in to him. The stranger was laboring under the hallucination that some one was trying to kill him. He was locked up in the calaboose, and is still trying to escape from "fellows who are trying to kill" him. The young fellow had on him a letter from his father at Hickory Flat, Miss. and a bunch of five or six switch keys from as many different roads; he came down from Longview yesterday and acted queerly all the day.—Timpson Times.

For an Impaired Appetite.

Loss of appetite always results from faulty digestion. All that is needed is a few doses of Chamberlain's Stomach and Liver Tablets. They will invigorate the stomach, strengthen the digestion and give you an appetite like a wolf. These Tablets also act as a gentle laxative. For sale by Perkins, Klease & Mast. dw

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, O. Price 25 cents per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

DROPPED DEAD!

You pick up a paper nearly every day and read that some man or woman is apparently perfect health but dies suddenly at a banquet, on the street, at the theater, of "heart failure," 80 per cent of such cases follow heavy eating. The digestive organs are not in condition, the food ferments in the stomach, forming gases which distend the walls of the stomach—which presses against the heart—crowds—suffocates—Heart failure.

Dr. Caldwell's Syrup Pepsin

after eating. It relieves that "full feeling," stops fermentation, aids digestion and prevents biliousness and constipation.

L. G. HAMMER, Wagoner, Ind. Ter., under date of May 21, 1902, writes: "For over a year I was troubled with my heart. Doctors and medicines were unable to help me; finally I noticed an advertisement of Dr. Caldwell's Syrup Pepsin stating that oftentimes Heart Trouble was caused by indigestion, and that Syrup Pepsin would cure Indigestion and Gas on the Stomach. I tried it and was fully cured and wish to take this means of letting others know of the merit of Dr. Caldwell's Syrup Pepsin."

THE cases of the Cherokee nation of Indians and of individual Cherokees against the United States were decided by the court of claims Monday in Washington. They involve a large amount of money and are of an unusual and extraordinary character. The United States bought the Cherokee outlet, agreeing to pay for it, \$8,300,000, being about \$1 per acre, and also agreeing to reopen a long standing controversy between themselves and the Cherokees. In 1835 a treaty was made under which the Cherokees were to move or be moved from Georgia, Alabama and Tennessee to the Indian Territory. The Cherokees contended before they were removed that under the provisions of the treaty they were not to be made to pay the cost of removing from homes which they did not wish to leave to a country to which they did not wish to go. The government, however, held to the contrary. When the Cherokee outlet was sold, the Indians stipulated that all of their accounts should be reopened and the matter equitably settled, and for that purpose the United States should make out an account and transmit it to the Cherokee nation. If the Cherokee nation adopted it, congress should immediately appropriate for whatever balance might be found due. The act was adopted, but congress did not appropriate the money, and for some time did nothing. In the present suit the court of claims decides that the account transmitted by the secretary of the interior, followed by this inaction of congress, rendered the United States liable for the balance of \$1,111,284 with interest from June 12, 1838, which amounts approximately to \$4,500,000.
