Dirt, Disease and the Devil

THREE FOES OF MANKIND.

Below we tell you how you may successfully fight the first two.

The germ of disease grow and thrive in dark, damp places, in cellars and musty places, in vaults, drains, cesspools, etc. The only effective way of destroying them is by using disinfectants which have the power of destroying disease germs. There are a number of disinfectants of more or less importance. Below we give a list of the more important ones with suggestions and hints regarding each that will be found useful.

SULPHUR is a valuable disinfectant used by fumigating, and for convenience, we have it put up in a tin for use, nothing to do but light the work.

CHLORIDE OF LIME is an effective disinfectant, but it is not so strong as sulphur.

COPPERAS is a very cheap and powerful disinfectant for all uses and purposes.

Crude Carbolic Acid has a wide range of uses, and is a powerful disinfectant.

Solution of Five Chlorides is a powerful disinfectant and may be used for disinfecting, sterilizing, closets, refrigerators, etc.

THE INDICTMENT QUASHED

Second Indictment in Chas. F. Taylor, Case Quashed.

Judge James I. Perkins, today holds exceptions to second indictment well taken.

On Saturday last, the exceptions to the new indictment found by the present grand jury against Chas. F. Taylor for the alleged swindle of E. A. Blount in May 1904, was presented and argued to the Court. There were numerous exceptions to the indictment, some of which went to the substance of the offense. The entire forenoon was consumed in arguing the exceptions, and presenting authorities.

Judge Perkins withheld his opinion until this morning when upon the convening of court, he announced that he was ready to render his opinion upon the exceptions to the indictment in the Taylor case.

That in his opinion some of the objections were well taken and therefore the motion to quash would be sustained.

The grand jury was then recommended by the court, for Saturday, 8th, but just what will now be done, remains to be seen.

The Melrose Debate.

The debate to be held at Melrose, Friday night, April 7th, will be very interesting, inasmuch as the question. Resolved, that the tendency of this nation is to depart from the principles of its foundation, is one of vital importance to every American. If you have the welfare of your school at heart, come. If you feel concerned about the future destiny of your country, come and learn what America is doing today. You will be given something to talk about.

Excellent music will be furnished and a nice time assured.

The following program will be rendered:

Resolved, That the tendency of this nation is to depart from the principles of its foundation.

Affirmative: Grover C. Smith and Asher Mintz.

Negative: Arthur A. Seale and William A. Wade.

Declamation: Earnest Spradley.

Admission 25 cents to all, half of which will go to paint the school house, the other to the Society to purchase books.

THE BEST YET

The New S. F. B. Morse Cigar a Winner.

The Nacogdoches Cigar factory will put on the market the S. F. B. Morse Cigar. This cigar will certainly prove to be a favorite with the smokers in every city where it will be sold. The Sentinel reporter can boast of smoking the first cigar of this special brand and can state without fear of successful contradiction that there is no better smoke on the market, no matter what the price may be or where the tobacco was grown. Great is Texas, but greater still is the tobacco fields of Nacogdoches.

Bennet Blake is Dead.

This morning at 2 o'clock at his home four miles north east from Nacogdoches, Bennett Blake breathed his last. He was born in Nacogdoches 51 years ago and has resided here all his life. The only son of one of Texas illustrious pioneers whose name is a part of its history and whose memory will endure with the name of "Texas." The death of Bennett Blake marks the passing of the last but one of the old Blake family. Mrs. W. B. McKnight being the last survivor. Mrs. Jas. I. Perkins having preceded her brother to the great beyond but a few weeks ago. The remains will be interred in the city cemetery at 10 o'clock tomorrow morning.

Married.

On Wednesday, March 29, 1905, at the residence of the bride's parents, Mr. and Mrs. R. P. Muckleroy, Mr. J. T. Partin and Miss Nettie Muckleroy, Rev. H. M. Hutson officiating.

Quite a large number of relatives and friends were present to witness the ceremony which made this young couple man and wife, and to wish them a happy and prosperous journey through life.

The Sentinel joins their host of friends in wishing them all the good fortune that may be theirs in life.

Rousing Good Meeting.

The Red Men held a most excellent meeting Monday night and all present were more or less benefited. Three candidates were given a run for their money, while on the sleep of next Monday there will be four candidates for adoption.

One new application was presented to the Tribe and was referred to the proper committee.

Alabama Tribe was organized here two years ago and has always received the highest praise in the great council for the manner in which reports are sent, in and the committee on reports always report "Alabama has a correct and model report."

COLONEL MORSE.

Accompanied by Wife and Child Will Spend a Few Days.

Colonel S. F. B. Morse, accompanied by Mrs. Morse and their child will arrive in Houston tomorrow morning from New Orleans and for a few days will be the guests of Mr. and Mrs. W. D. Cleveland, Jr. It is understood that they will remain only until the first of next week and will then depart for their New York home.

This will be the first visit to Houston by Colonel Morse since he left the city some for the great rice industry, and thing more than a year ago, at the many other branches of which time he resigned the passenger traffic management that succeeded his has borne golden Southern Pacific. Upon his resignation the office was abolished, or rather merged into the general passenger agency for one month, commencing of which Colonel F. J. Ayler, brother of May J. L. Burson is the head.

It is learned that Colonel Morse will spend a part of a day near Nacogdoches while in Texas, and there will inspect the tobacco lands, which have made Texas a known quantity on the tobacco market of the world. The founder of this industry was Colonel Morse and the work was not accomplished in a day, nor without the expenditure of large sums and a vast amount of labor.

AN old corn grower says that when a crop of 60 bushels to the acre is secured the corn costs 13 cents a bushel to produce, for 50 bushels it is 15 cents, for 40 bushels 18 cents, for 35 bushels 22 cts., and for 30 bushels 30 cents. These figures are not far out of the way, and it is thus easy to know when you are selling corn any below the cost of production.—Kaufman Sun.

TEXAS RECORD FOR 1904.

Twenty years ago, says the Beaumont Enterprise, the shipment of a car load of fruit, berries or vegetables from Texas was unheard of for the reason no such thing was done; but since then Texas has been forging to the front in every line, and is shipping out today food stuffs, very little of which was raised in the state two decades back. The Producers Review published at Dallas by Milton Everett, an old railroad man, makes a splendid showing for Texas in the matter of shipments of fruits and vegetables during 1904. The report is not complete as it only refers to car load lots and does not account for shipments of less than car load lots. The Review says:

"The total number of cars shipped was as follows: Berries 143, cabbage 160, cantaloupes 218, mixed fruit and vegetables 88, peaches 1,233, Irish potatoes 2,710, sweet potatoes 22, onions 406, pears and apples 10, tomatoes 795, watermelons 1,768. Total cars 7,771.

"This represents only shipments from stations shipping more than 50,000 pounds of each product and via the following routes: Cotton Belt, International & Great Northern, Texas & Pacific (via Iron Mountain only), San Antonio & Aransas Pass, Texas Central, Houston & Texas Central, Houston, East & West Texas, New York, Texas & Mexican, Texas & New Orleans, Missouri, Kansas and Texas, Texas, Arkansas & Louisiana, and Pacific Express.

"There were shipped from the same stations by express in less than car load lots an estimate of 800 cars.

"The Galveston, Harrisburg & San Antonio railway reports shipments of 143 cars, but it has not prepared a statement showing shipments from each station.

"Jacksonville, Cherokee county, shipped the most peaches, 402 cars; Lindale, Smith county, the most berries, 47 cars; Winnsboro, Wood county, the most cantaloupes, 48 cars; Atlanta, Cass county, the most Irish potatoes, 160 cars; Thornton, Limestone county, the most sweet potatoes, 20 cars; Cotulla, La Salle county, the most onions, 166 cars, and Hempstead, Waller county, the most watermelons, 745 cars.

"The statement shows that the fruit and truck industry is growing rapidly in all sections of the state from Denison and Texarkana on the north and east to Corpus Christi and Laredo on the south and west.

"The growers received for the 7,771 solid cars approximately \$2,350,000."

Nearly \$2,500,000 worth of products shipped in car load lots out of Texas last year, of which less than twenty years ago not enough was raised in the state to supply 1-4 of the home demand; and if express and less than car load shipments were added the total value would approximate \$3,000,000.

The indications are that the total shipments of these products during 1904 will be surpassed by the shipments this year at least 30 per cent.

AN AWFUL TRAGEDY.

Fred Brunsterman Shot Down by George Fuller.

Angelina county has again been stained with human blood and another horrible murder has been added to the criminal records of the county by a man with a gun in his hip pocket, while the murdered man, unarmed, was endeavoring to escape from his slayer to save the life that was so precious to him.

About 12:30 o'clock last Monday afternoon Fred Brunsterman, manager of the Angelina Orchard company, was shot an instantly killed by George Fuller, formerly a conductor on the Houston, East and West Texas railway, and father-in-law of the deceased.

Brunsterman had gone to the Lutkin National bank, evidently to transact some business, when Fuller, who it is presumed, had been watching him, followed and entered another door. Fearing trouble, Brunsterman retreated to the rear door of the office, and entering hastily made for the vault of the bank for protection. He was closely followed by Fuller who fired two shots, he being so close that his victim was powder burned. The first shot missed but the second entered near the temple, passed through the head and on through Brunsterman's arm, which was raised as if for protection, shattering the bone. The unfortunate man fell in the vault of the bank and expired without a word.

There were but two eye witnesses to the tragedy, R. D. Collins and W. R. McMullen, cashier and assistant cashier of the bank, and it was all done so quickly that it was impossible for them to realize that a terrible tragedy was being enacted until it was all over. Brunsterman was in his shirt sleeves and was unarmed.

After the murder had been committed Fuller coolly left the bank and deliberately walked down Lutkin avenue, pistol in hand, and surrendered to Constable Bob Davis on the court house square. He was immediately landed in jail.

The trouble leading up to the tragedy seems to have started soon after Brunsterman was married to Fuller's daughter about three months ago. Their married life is said to not have been congenial and quarrels were of frequent occurrence which led to strained relations between the two men. This state of affairs continued until a separation was agreed on two or three weeks ago, following which Brunsterman filed a petition for divorce in district court.

The deceased was a German and came to this county nearly three years ago as the manager for the Angelina Orchard company, composed of eastern capitalists who had purchased several thousand acres of land a few miles east of Lutkin, and were developing it as an orchard. He was financially interested in the enterprise and had spent a large sum of money developing the property, which is now fairly under way.

Fuller moved here from Houston with his family about

two years ago and for some time did railroad work as stated above.

While it is not the province of the Tribune to pass judgment upon the perpetrator of this most revolting crime, it can truthfully say that the murder and the manner in which it was committed, is severely condemned by all classes of citizens of Lutkin and Angelina county.

While it was evident that Brunsterman was afraid of Fuller, he was looked upon by the community as entirely harmless and a man that would submit to almost any kind of imposition and even abuse without resentment. He was law abiding and wanted peace.

The tragedy is deeply deplored and has put the people of Lutkin and Angelina county to thinking what will take place next.

Fuller has retained O'Quinn & Robb to defend him and an examining trial will be held this week. If attorneys are able to agree on the amount of bail to be furnished the examination will probably be waived, but if not, and the case is taken up today it will probably not be finished before Saturday.

The remains of the dead man were shipped to Groveland, Mass., for interment, accompanied by A. W. Ellis of this city at the instance of the Commercial Club.—Lutkin Tribune.

About Rheumatism.

There are a few diseases that inflict more torture than rheumatism and there is probably no disease for such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? IT'S ALWAYS BAD.

The Best of Backs are Bad When They Ache, And Texas People Know It.

A bad back is always bad—Bad at night when bedtime comes.

Just as bad in the morning. Ever try Doan's Kidney Pills for it?

Know they cure backache—cure every kidney ill? If you don't, some people do.

Read a case of it:

Mrs. A. Sanderson, of Galveston Island, says: "I had kidney complaint off and on for nearly three years, and it could only at times be described as excruciating torture. To stoop or raise after stooping hurt severely and I could scarcely refrain from yelling.

It was hard for me to go up or down stairs or even to lift a light bucket of water. I was always worse in damp and wet weather, or if I caught cold. I wore mustard plasters and tried home remedies, but never found anything to give permanent relief until I got Doan's Kidney Pills. I felt their direct effect on my kidneys the very first night, and in less than a week's time the pain in my back disappeared. A friend of mine was also benefited by using Doan's Kidney Pills. I never met with such a prompt, reliable and effective remedy.

SIMON SPENCER GUILTY.

The Jury Went Full Limit and Assessed Death Penalty.

In the district court yesterday evening a verdict was rendered assessing the death penalty, and is the first time that it has occurred for several years.

Simon Spencer, colored, stood charged with the murder of Isiah Mayfield, colored, and from the evidence introduced it was one of the most atrocious crimes committed in Nacogdoches county. After killing Mayfield and leaving the dead negro in the woods three days hoping that the body might be devoured Spencer went back to the scene of the crime and with an ax chopped up the remains and buried the mutilated body in a deep hole. This and more was revealed at the trial and also in the confession of the condemned man.

As stated in yesterday's Sentinel, Spencer was represented by able council and Judge Middlebrook and Moss Adams did all they could to defend the accused, but District Attorney Imboden and County Attorney Beeman Strong had the prosecution in hand. Mr. Imboden opened up for the State and Beeman Strong closed the argument. Mr. Strong is without any question of a doubt one among the best prosecuting attorney in East Texas and it is doubtful if he has a peer. His talk yesterday clearly demonstrated that he is truly an orator and a brilliant lawyer. For one hour and a half Mr. Strong addressed the jury and the court house was packed with people who were, so to speak, held spell bound by the talk of the County Attorney, and he received the the closest attention.

The judge charged the jury in the case and after being out a short time announced that they were ready to report their verdict. Simon Spencer was brought into the court and the jury came in and rendered the following:

"We, the jury, find the defendant, Simon Spencer, guilty of murder in the first degree and assess punishment at death. "A. Y. Donegan, Foreman."

The jurors were then polled and each answered that the verdict was his own.

Cheated Death.

I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." MOVING TO PALESTINE.

The Nacogdoches Crop of Tobacco Being Moved.
 Superintendent W. M. Hinson is winding up the affairs of the government warehouse in this city, and is shipping the tobacco in the warehouse to Palestine.

Mr. Hinson stated that he was somewhat disappointed with the small acreage to be planted this year; it should have been at least double, after it has been demonstrated that the soil here and the climate is well adapted to the culture of the plant.

Taussig & Co., of Chicago, have closed out a contract with the planters, and will take over all tobacco grown under government supervision here this year, the contract price being 15 cents per pound.

There will be some tobacco grown by the stockholders of the Nacogdoches Cigar Co. under government supervision that will be used by the local factory.

The price agreed upon by Taussig & Co. is for the crop as soon as barn cured.

His "Maiden" Speech.

From Friday's Daily:
 Moss Adams made his "maiden" speech in a district court this morning. He was appointed by the court to defend Simon Spencer, charged with the murder of Isaiah Mayfield. For two hours Mr. Adams addressed the jury in a most able and forcible manner, and while it was his first effort in a district court, yet he handled the evidence as well as an old timer, and much better than some. It is stated by many who were in the court room this morning while Moss was appealing to the jury that it was the best speech delivered since the famous talk of Jack Truitt in the case where Hogan was being tried for the murder of Craig in this county several years ago.

The Sentinel is proud of Moss Adams because he is a Nacogdoches county boy; was born and raised near Garrison and with the start made this morning, there is a future before him that is indeed, very bright. The Sentinel extends congratulations, and compliments the court in appointing such able counsel to defend the accused Simon Spencer. Mr. Adams was ably assisted by Judge V. E. Middlebrook, who also made one of his excellent speeches, but the Judge is old in harness and always does his best.

A Dandy For Burns.

Dr. Bergin, Pana, Ill. writes: "I have used Ballard's Snow Liniment; always recommended it to my friends, as I am confident there is no better made. It is a dandy for burns. CHILD BADLY BURNED

While Playing Near a Burning Trash Pile Clothing Was Fired.

Yesterday afternoon about six o'clock Margurite the seven year old daughter of Mr. and Mrs. J. M. Thrasher met with an accident which may cause the little one to lose its life. She was playing in the yard near a burning trash pile and in some manner her clothing was set on fire. The screams of the little girl brought assistance, but before members of the family reached her her clothing was all burned and her body and face burned to a crisp.

Mr. Thrasher is an oil prospector and is sinking a well in the Nacogdoches field and was away from home at the time of the unfortunate accident to his little daughter. A runner was sent to the field for him and he arrived this morning. The little one was resting as well as could be expected under the circumstances, this morning.

Given Five Years.

The State vs. Monroe Ward was the case before district court yesterday and last night the jury returned a verdict of murder in the second degree and returned a verdict assessing the punishment at five years in the penitentiary. This morning Ward appeared in court and waived the usual time for filing motion for new trial and asked the court to pass sentence. Judge Perkins explained the situation to the negro and then passed the sentence assessing the penalty as found by the jury, and told the sheriff to take charge of Monroe Ward and to turn him over to the agent of the penitentiary.

The crime for which Ward was arrested and found guilty, was the killing of George Copeland in this county, last year.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs, and elderly people buy it for la grippe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Weekly Sentinel.

HALTOM & HALTOM, Proprietors.

R. W. HALTOM, Editor.

Tomorrow is election day in Nacogdoches.

DON'T lose sight of the ice factory proposition.

THIS is pretty weather for the president's trip through Texas.

THE wet weather has about paralyzed farm work in this section.

EAST TEXAS hens have furnished no small number of eggs for market this spring.

THE Associated Press correspondents report that Russia will grant the demands of Japan.

IT is said the cold winter in Texas killed the Guatemala ants that were imported to do battle with the boll weevil.

SOME of the stock holders of the Nacogdoches Cigar Co. are planting tobacco this year for the use of the Nacogdoches factory.

THE Timpson Times come out last week in a new form; it is now a 5-column quarto and the mechanical appearance of the paper is right "up to now."

IN a few more years, cotton in East Texas will be planted in small patches for pin money, the same as truck is now planted. Fruit and truck farming will be the principal industry here within the next ten years.

THE president left Washington today on his trip to Texas. The various cities on the route through the state have made extensive preparations to receive Mr. Roosevelt in a manner becoming the high position he occupies.

GRAND juries should thoroughly investigate all matters before them before returning bills of indictment. It is rather expensive to chase a man all over the country and then have the indictment quashed.

THE late spring will mean a late cotton crop, which means that if the pesky little boll-weevil puts in its appearance this year that he will get the crop. The big crop of last year was planted early and matured before the weevil had a chance to do much damage.

SINCE there has been so much noise made about patent medicine concerns being put out of business on account of having to publish the formula of the preparations they put up, the proprietors of Ayer's Sarsapilla (J. C. Ayer Company) are the first to make public the formula of a medicine that is a household remedy throughout the Nation. Ayer's preparations have been very popular with the people for many years, and instead of a loss by making known the ingredients in their medicines, they will become more popular.

TIMELY WARNING.

Once upon a time a certain section in Texas was found to be fine for the production of a high-class character of cigar tobacco. Some factories for the manufacture of cigars were established and they did well. The orders came in fast for the Texas cigars, and the manufacturers were put to their stumps to furnish what was asked. In distress because there was not enough home tobacco to fill the orders, and on account of the high price demanded for it, the manufacturers began to put an inferior tobacco, secured out of the State, in the cigars. Result: The factories quit business. This ought to be a warning to the people of Nacogdoches and other localities which are going into the tobacco business. They ought to be just as careful to give in cigars what they represent they will give as they would in any other affair in life. Once they commence to try to impose on the ignorance of people, it will be all off with the business. Their goods will lose their character. It is just as impossible to cheat in tobacco as it is to cheat in peaches. A bad or poor peach can be palmed off on the man who wants a good peach but once, and neither can a poor cigar be palmed off on a man who wants a good cigar more than once. If a man is deceived he resents and will never again patronize. Honesty is the best policy in all things, and dishonesty never won in the long run. Nacogdoches and other sections of the State have lands which are said by experts of the Government to be in no wise inferior to the Cuban lands for the production of a high grade of tobacco. What the Texas lands need is a reputation. Once that is obtained, they will be worth a hundred dollars an acre. But rascality in any form destroys a good reputation. —Galveston News.

TEXAS people know Mr. Roosevelt as the president of the United States.

THE president and Mrs. Roosevelt will receive a loyal reception at every town in Texas.

THERE is more truth than fancy in the Houston Post's cartoon of the "suburban gardener." The cartoon represents an outlay of about \$65 for implements, seed, etc., while the cat on the back fence is supposed to make the remark "we will raise about \$3.00 worth of vegetables."

THE special trade edition of the Trinity County Star, E. H. Robertson, Editor, is quite a creditable piece of work and brim full of good information about Groveton and Trinity county. It is 26 pages and cover.

THE cases of John H. Kirby, A. F. Vandervoort, Joe Eagle, W. B. Wortham, and Frank Glover, charged with conspiracy to bribe a judicial officer, has been set for April 12. Some very interesting reading will be the testimony in these cases.

The School Situation Again.

Editor Sentinel:

According to promise in the Sentinel, I will give a few more reasons why the board of trustees decided to have another month of pay school. A great many good schools in our country have a school term of ten months every year and practically all of our best schools will not have a term of less than nine months, in fact nine months is the standard of length in all our best schools. That then gives our children more than three months for vacation and frolic and usually both parents and pupils are tired, worn out and wishing for school to open before the three months of vacation are gone. Now in view of the foregoing facts, in making our course of study we have put just as much work into each of our grades as it is possible for the average pupil to finish in a term of nine months. Now most pupils miss as much as a week's time and many of them lose more time than that on account of sickness, etc. during the term and for these reasons as well as the fact that most pupils have as much as they can possibly do in the full term we can readily see that our term must be at least nine months long if our pupils are to finish their respective grades and be promoted. They cannot do nine month's work here in eight, any more easily than they can do a like amount of work in any other line.

Now in considering this proposition this question arose, shall we close school a month before the pupils have finished their grades? And the board felt sure that the patrons of this district would be dissatisfied with any such arrangement and this is specially true when we take into consideration the fact that our pupils can do as much work in one month now as they could possibly do in two months at the beginning of next session.

Now this question confronts every patron in this district that has the welfare of his or her child at heart: "Can I afford for my child to lose a year in getting an education simply because he drops out of school one month?" Now that is exactly what it amounts to for if he drops out a month he, in most cases, won't be able to go on with his grade next year. He will either have to stay in the grade where he is and drag over the same work next year or he will go on with his grade and be the drag in his class and in either case it is ruinous to the pupil. He loses interest in his work and will drop out of school and perhaps he will never get an education at all.

What shall we do about it? Is a year of our child's time worth as much as his tuition will be next month? Is an education worth anything to my child? Is it worth enough to him for me to pay a small pittance for his tuition?

There is more at stake my dear people than we think. If you will go into our schools today and see there some pupils who are struggling to get an education and who are from 16 to 20 years of age,

while alongside of them there are other pupils who are from 4 to 8 years younger than themselves doing as well if not better in their work and see the embarrassment that accompanies the effort of these older pupils, and this all comes of the fact that they did not get the advantages of the younger pupils and perhaps in a case similar to the one that confronts us now. I say if you will not visit our schools and see this—it is there too—I am sure there is not one of us who will willingly subject our child to this embarrassment.

Now this is a simple business proposition and it is up to every patron of our schools to decide for himself and knowing at the same time that his decision will affect him and his own family more than any one else and I have such faith in the people of Nacogdoches Independent District that I believe that when they think over this or any other proposition that they will decide alight.

Hoping that you will think seriously over this matter and decide to do the best thing for your child and assuring you that I, as well as every other member of our faculty and every member of our board of trustees, who have labored so untiringly for our district in looking after every school interest and the erection and furnishing of our new buildings and have given so much of their valuable time and money to this work and too without one cent of remuneration, stand ready to help you do anything that means better schools for Nacogdoches, I am

Very respectfully,
R. F. Davis.

Rev. Joseph A. Williams.

"Know ye not that a mighty man in Grace is fallen this day." Closed forever on this earth is a most remarkable career, in the death of Rev. J. A. Williams, the honored pastor of the Cumberland Presbyterian church of Nacogdoches.

Of his early life, I, who am proud to call myself his friend, know nothing. During the civil war he served with distinction as a confederate soldier leaving as a lasting tribute to the lost cause an arm, at the battle field of Shilo, if I remember correctly. After the war he wandered dispirited, disheartened, defeated, and at last fell into bad company. His wounded arm was long in healing, and he suffered intense physical pain from it. The surgeons who amputated the member gave him morphine to lull the severity of the pain. He fell into the morphine habit from having to take the drug so frequently.

We will draw the veil over his life for several succeeding years. It was during the early spring of 1891 that he drifted to Nacogdoches and was providentially led to a protracted meeting then being held in the old Baptist church. He was led to see himself a lost sinner, and he began a persistent struggle for mastery over his morphine habit. His experience is a most remarkable one and shows how God is able to save the uttermost.

A FOOLISH PLAN

It is a joy to eat—I welcome my dinner hour: Because I root indigestion with August Flower.
Constipation is the result of indigestion, biliousness, flatulency, loss of appetite, self-poisoning, anemia, emaciation, uric acid, neuralgia in various parts of the system, catarrhal inflammation of the intestinal canal and numerous other ailments that rob life of its pleasures if they do not finally rob you of life itself.
"I'm bound in the bowels," is a common expression of people who look miserable and are miserable—yet who persist in "letting nature take its course."
What a foolish plan, when nature could be aided by the use of Green's August Flower, which is nature's own remedy for constipation and all stomach ills.
August Flower gives new life to the liver and insures healthy stools.

He found Him of whom Moses and the prophets did unto. He at once manifested a most remarkable and complete change of life. For fourteen years he has lived a most exemplary and conspicuously correct life. He entered the ministry and applied himself most industriously to study. His course of study was thorough and remarkably varied for a man to his age to undertake. He became a scholar of no mean attainments: A scripturarian of eminent ability and a minister of Jesus Christ of devout consecration. He was called to the care of the Cumberland Presbyterian church in Nacogdoches less than ten months ago. Yet in this short time he gathered the scattered congregation of his church and developed their Sunday school, prayer meeting and Christian Endeavor and inspired confidence in the hearts of a discouraged membership. He was the moving spirit in the erection of a beautiful manse of that church, in which he breathed his last. He took hold of the Y. M. C. A. work and by the sheer force of his personality, reinvigorated that excellent institution. But his physical strength was not equal to the task of caring for his church, building his manse and running the Y. M. C. A. all at once and he gave up the latter work.

Right royally did this man of God assisted by his noble wife stand by every duty. Although he had lived out his three score years and ten, yet he worked on as ardently as if he had been thirty-five instead of seventy-five. But his days were numbered. He could not baffle the hand of death. I, his friend, was a thousand miles distance when news of his illness came. Only absolute impossibility prevented me from coming to his aid. I watched the arrival of every mail from Nacogdoches for news from him. Twice during his illness I wrote him to cheer him. But he was gone. Personally I am bereft a friend. But in the bright beyond he will await the coming of one who he said was instrumental in leading him to his Saviour. May he not in turn lead his friend to Him whom we both love. I lay this flower on his grave. He was one

of the truest, noblest, most unselfish and most consecrated men I ever knew. Peace be to his memory. A. J. Holt. Knoxville, Tenn.

Timpson Topics.

Jep Holmes, friends relate that he has originated a new variety of Irish potato—it doesn't produce any vine at all, new tubes just begin and grow right out from the cutting that is put in the ground.

Dr. F. O. Johnson has been appointed by Congressman Broocks a delegate from the second congressional district to the anti-tubercular congress, which meets in Atlanta, Ga., April 17-16. Dr. Johnson is anxious to make the trip, and also to attend the state medical association, which meets in Galveston the latter part of this month, but don't know whether or not he can get away for either trip.

At the regular meeting of the Timpson camp Woodmen of the World, held last night, Sunday, May 7, was set as the time for the unveiling of the monument, recently erected over the grave of J. B. Morrison. One of the tenets of the Woodmen is to erect over the grave of every sovereign who dies in good standing in the order a monument, in addition to the amount of insurance paid to his beneficiaries. At the meeting of the camp next Monday night a program for the exercises will be arranged, and it is hoped to have a large attendance of the members.—Times

BEAUMONT has a united charity carnival this week.

THE canning factory industry is receiving quite a lot of attention of late. Nacogdoches should investigate the subject.

LEAF tobacco dealers are working all kinds of tricks on the public. Not long since a certain firm advertised that they had all kinds of Texas Havana tobacco in stock and invited the trade to test the excellent quality of the leaf. The Nacogdoches Cigar factory sent a request for a sample of the tobacco, but when it came it proved to be a poor quality of Wisconsin tobacco and is known to the trade as Zimmer. Now cigar makers, who are not experts, would buy this stuff and call it Texas tobacco and smokers would soon condemn the Texas product. To get the genuine Nacogdoches cigars see that they are made in Nacogdoches, Texas.

About Rheumatism.

There are a few diseases that inflict more torture than rheumatism and there is probably no disease for such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? SHOT THROUGH BODY.

Frank J. Bell Fatally Wounded by Robert Parker

Dallas, Texas, April 3.—Frank J. Bell was shot and mortally wounded at 12:30 p. m. by Robert R. Parker in the district clerk's office in the Dallas county court house.

Bell was a prominent lawyer, formerly assistant county attorney and is grand chancellor of the Knights of Pythias for Texas.

Parker is assistant district clerk.

The shooting, because of the prominence of the men, has created a tremendous sensation, and it is almost impossible to learn details now or get near the court house because of the crowd.

Bell was shot just above the heart and through the neck. He had no weapon on his person.

Parker has been arrested by Sheriff Ledbetter.

Parker, soon after the excitement began to lull, was taken to the county jail. He would make no statement to Sheriff Ledbetter, the newspapermen or anybody else, with the possible exception of his attorneys. There was but one witness present at the shooting, A. B. Rawlins, the district clerk, for whom Parker is deputy.

Mr. Rawlins said to the correspondent: "As I am the only eye witness in the case, I do not feel that I ought to discuss the tragedy. There was no one in the office at the time of the shooting about 12:30 p. m., but Mr. Bell, Mr. Parker and myself. I will say, however, that the trouble originated over official papers, then grew personal and some hard words passed and the shooting followed. I don't think Mr. Bell ever spoke after being shot."

Mr. Rawlins declined to answer the question, "Did Mr. Bell assault or attempt to assault Mr. Parker before the shooting?"

Mr. Bell about 2 p. m. was removed in an unconscious condition to St. Paul's sanitarium. His wife went with him. They were married only about two years ago and have no children.

At 2:30 Mr. Bell is still alive, but no hope of recovery.

Appleby Literary Society.

Appleby Literary Society met Friday night, March 31, in regular meeting. President and vice president both being absent, Mr. Lang Lewis was appointed temporary chairman.

Officers were elected for spring term as follows:

H. T. Perritte, president.
J. L. Turner, vice president.

Miss Lizzie Covington, secretary.

Miss Lola Brown, treasurer.

All the young people were out and many of the older ones, to hear one of the most interesting programs the society has prepared this season.

The school is progressing satisfactorily, some new pupils still dropping in.

HARRINGTON'S MILL.

An Interesting Letter From a Live Community.

We are having a great deal of rain, and farmers are very badly behind. Corn planting is not over. There will be but very little cotton planted in this part, owing to the boll weevil.

Harrington's mill will be running in full blast in a few days. Foreman Bowden says he will make things hum when he does get started. Mr. Willie Dorsey, of Nacogdoches, is chief book keeper at Harrington's mill.

The closing of the school here was a grand success. We have had a six months school with Miss Irene Justice as teacher, which closed Friday evening. The opening exercises were conducted by Prof. Hanna, followed by the pupils with quite a number of choice recitations and dialogues, which were well rendered by all. The hoop drill by ten little girls, from four to eight years, was most excellently executed. The Martinsville string band, A. E. Hanna leader, furnished music during the evening. Miss Justice leaves for her home at Martinsville. We regret very much to see her leave as she has gained a host of friends while with us and we bespeak for her a great future in school work. The advancement of the pupils here bear witness of the fact.

Deputy Daniel was invited to be on hand but praise to the boys, his services were not needed. The audience in general have our sincere thanks for the best of behavior.

The Nacogdoches County Truck Growers Association met in Nacogdoches Saturday. Much business of importance was transacted. Hon. Wood Francis of Rusk, addressed the meeting, he made many valuable suggestions and urged the united action of the truck growers in an effort to secure rapid transit on the passing of fruit and vegetables of the markets.

Hon. Sam H. Dixon of Houston also addressed the meeting and dwelt upon the importance of proper packing. Mr. Dixon is the pioneer of the industry in this section; his presence is always agreeably felt among the growers.

Mr. H. C. Bailey of Columbus, Ohio, made a very interesting talk and told of the wonderful success of the packers of canned goods in Ohio. His remarks were interesting, well directed and profitable.

In the Spring.

Some maiden's fancies doubtless turn to thoughts of love, but the majority of them, as well as humanity in general, have a want to lay down and stay down feeling. Simmons' Sarsaparilla is the litter. It not only takes hold, it lifts up. The way back, weary feeling vanishes like a dream.

APPLEBY LOCALS.

A Big Batch of Interesting Local Happenings.

The continued rain is delaying farm work very much on the red land. Corn is not all planted yet.

Uncle Bill Collins, of Garrison, is visiting Appleby today.

Mrs. Liles, of Nacogdoches, is visiting this week at J. M. Blacksher's.

Mr. J. M. Blacksher is just back from a business trip to Dallas.

Mrs. Fears and Mrs. Blacksher have been sick for several days but are better now.

Mr. and Mrs. Tindall visited Garrison yesterday.

Dr. Albert Greer is home from Dallas, while his brother, Ed, is quite sick, but reports his brother improving now.

Mr. H. H. Greer's new dwelling will soon be completed.

Our school is getting along just fine.

Quite a number of teachers are taking advantage of the teacher's course.

On April 21st at 7:30 p. m. there will be a supper given by the ladies of our community at the school building to raise funds to insure our school house. They ask every one who feels an interest in our school building to come out and assist in this good work. There will be an entertainment after the supper.

There will be an old harp singing convention next Sunday at Stubblefield, 3 miles east of Appleby.

Married at the Parsonage.

Yesterday afternoon quite a large company of young people assembled at the Methodist parsonage at 2 o'clock and called for Rev. J. T. McClure. The cause of the visit was made known, and Mr. A. J. McAdams and Miss Mary O'Donald were made man and wife.

The bride and groom are new comers to Nacogdoches, but will make this place their home. The Sentinel extends congratulations.

SOUTHERNER'S GOOD FORTUNE

Sam Hoover Finds Something Better Than Gold Mines.

There is no happier man in this whole wide world today than Sam A. Hoover, of Greensboro, N. C., who is receiving the congratulations of his friends upon his fortunate find of something better than gold mines or oil wells. Mr. Hoover in a letter to a friend in Nacogdoches writes:

"Three months ago I was greatly distressed by nasal catarrh and entire deafness in the right ear. The labor of hawking and scraping to get my throat and nasal passages free from the foul secretions deposited there, might be about equal to that of a six mule team with a road scraper to get the earth from the road side to the center.

I purchased an outfit of Hyomei and Hyomei balm, and as a result of its use my head, throat and nasal passages are all free from secretions of any sort, only as Nature designed, and my hearing in both ears is nearly as acute as it ever was."

There is no disagreeable stomach dosing in using Hyomei; just breath it and its fragrance will kill the catarrhal germs in the head, throat and lungs. Hyomei balm used in connection with Hyomei, will cure the worst case of catarrhal deafness.

The complete outfit costs but \$1., and extra bottles are only 50 cents. Ask Stripling Haselwood & Co., to show you the strong guarantee under which they sell Hyomei. It costs nothing unless it cures.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's kidney Cure I feel better than I have for twenty years, although I am now 91 years old. BELL'S SUCCESSOR.

Dr. De Jernett of Commerce Becomes Grand Chancellor, K. of P.

Fort Worth, Texas, April 4.—The death of Frank Bell at Dallas makes Dr. W. B. De Jernett, of Commerce, grand chancellor of the Knights of Pythias. He passed through here last night en route to Dallas to take charge of the office.

Henry Miller, grand keeper of the seal and records, at Weatherford, and Supreme Representative John M. Adams, of Fort Worth, went to Dallas this morning to assist in the arrangements for the burial of Mr. Bell, which will probably occur Thursday.

Adams, while grand chancellor, installed Bell as chancellor commander of Amity Lodge in Dallas in January thirteen years ago.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had Kidney Trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs, and elderly people buy it for la grippe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. NACOGDOCHES CIGARS.

Will be Placed on the Local Market. Praise For the Weed.

J. H. Poulter, a prominent tobacco and fruit grower of Nacogdoches, is in the city on business.

Last night Mr. Poulter stated to a reporter for the Enterprise that the Nacogdoches Cigar company would in the next thirty days have cigars, made of Nacogdoches tobacco, on the market in Texas. Mr. Poulter has much faith in the Nacogdoches country as a tobacco growing territory and says that when a smoker once smokes a cigar made by the Nacogdoches Cigar company that he will be satisfied to smoke them the balance of his smoking days.

Mr. Poulter has already sampled the cigars and declares that they are the best five and ten cent smokers ever placed on the market and is confident they will make a hit on their merit alone.—Beaumont Enterprise.

For two months the Hon. R. W. Haltom, the able representative from Nacogdoches, has been compelled to remain away from his legislative duties at Austin on account of a prolonged and aggravated case of grippe. All East Texas regrets Mr. Haltom's forced absence from Austin, for he is a man of the people and can always be relied upon when it comes to taking care of their interests.—Grapeland Messenger.

WHAT IS CATARRH?

Hyomei Cures this Common and Disagreeable Disease.

Hyomei cures catarrh by the simple method of breathing it into the air passages and lungs. It kills the germs of the catarrhal poison, heals and soothes the irritated mucous membrane, enters the blood with the oxygen and kills the germs present there, effectually driving this disease from the system.

If you have any of the following symptoms, catarrhal germs are at work somewhere in the mucous membrane of the nose, throat, bronchial tubes or tissues of the lungs:

Offensive breath, huskiness of voice, dryness of the nose, discharge from the nose, pain across the eyes, stoppage of the nose at night, pain in back of the head, aching of the body, pain in front of the head, tendency to take cold, burning pain in the throat, hawking to clear the throat, pain in the chest, a cough, stitch in side losing of flesh, variable appetite, low spirited at times, raising of frothy mucus, expectorating yellow matter, difficulty in breathing, frequent sneezing, droppings in the throat, mouth open while sleeping, tickling back of the palate, formation of crusts in the nose, dryness of the throat in the morning, loss of strength, spasms of coughing, cough short and hacking cough worse nights and mornings, loss in vital force, a feeling of tightness across the upper part of the chest.

Hyomei will cure the disease, destroy activity of all germ life in the respiratory organs, enrich and purify the blood with additional ozone, and after a few days use of this treatment the majority of these symptoms will have disappeared. In a few weeks the cure will be complete.

Catarrh or catarrhal colds cannot exist when Hyomei is used. This is a strong statement but Stripling, Haselwood & Co. emphasize it by agreeing to refund your money if Hyomei does not cure.

TO LAST FOUR DAYS

Six Governors to Speak at the Galveston convention.

The program for the Northern Settlers' convention, to be held at Galveston next month, was completed at that city yesterday, the finishing touches being given by Col. T. J. Anderson and Secretary Roussel, who met there with the local committee.

It is full of big names, including the governors of six states. It speaks for itself, as follows:

Election of chairman, president, vice-presidents and secretary.

First session, Friday, April 21, 10 a. m.

Convention called to order and its objects explained by Colonel T. J. Anderson, general passenger agent of the Southern Pacific Railway company.

Address of welcome, Governor S. W. T. Lanham of Texas.

Address of welcome, Governor Newton C. Blanchard of Louisiana.

Address of welcome for city of Galveston, Hon. M. E. Kleberg.

Second session, Friday, April 21, 3 p. m.

"Opportunities in Texas," by Hon. C. A. Culberson.

"Opportunities in Louisiana," by Hon. James G. Lee, commissioner.

"Undeveloped Resources of the Gulf Coast Country," by Prof. H. P. Attwater.

"Government Experimental Work in the Southwest," by Dr. S. A. Knapp.

Third session, Saturday, April 22, 10 a. m.

Address by visiting governors, as follows: Cummins of Iowa; Mickey of Nebraska, Davis of Arkansas, Glenn of North Carolina and Terrell of Georgia.

Address on behalf of the visitors by Hon. J. W. Foster of Illinois.

Fourth session, Saturday, April 22, 3 p. m.

"What the Railroads Have and Are Doing for the Southwest," by Hon. Norman J. Kittrell.

"Louisiana as a Home for the Homeseeker," by Dr. Stubbs of Louisiana.

"Railroad and Farming Then and Now," by Hon. J. W. Riggins of Texas.

Boat ride on the bay, 10 a. m.

Car ride around city, 3 p. m.

Monday, April 24.

Parade, 10 a. m.

Oyster roast, 3 p. m.

From advance advices Colonel Anderson estimates the attendance at the convention will be 8000 to 10,000 visitors.—Houston Chronicle.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proved Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by druggists 7c. Hall's Family Pills are the best.

THE PUBLIC SCHOOL.

Superintendent Davis Explains the Condition of School Matters.

To the Patrons of Nacogdoches Independent District: Dear Friends:

Having heard from several of you within the past few days relative to the "Pay month of school, which begins next Monday, April 3rd, 1905, I take this method of answering those referred to above and also to give some information that perhaps will prove of interest to them.

Since I have had the honor to serve you as superintendent of your schools, we have witnessed a marvelous improvement of school interests along all lines. This is due, not so much perhaps, to what the faculty has done, as to what you, yourselves, have done. You have erected magnificent school buildings, paid a local tax for the maintenance of schools, and have given great encouragement and assistance to pupils, teachers and trustees and you are sending your pupils to school and without all these things it would have been impossible for our schools to have flourished as they have.

I believe there is not, in all East Texas, a single district in which the people are so much interested and who support their schools more freely than you do and for that very reason I believe that you will make this next month an unqualified success.

But you ask me why we have this month of pay school and my answer is because we haven't money enough to have two more months of public school. Then you say "Why haven't we." There are several reasons for this. In the first place, wouldn't it be better if our local tax was a little more so we wouldn't have to have any "pay school" at all? It will be hard to ever grade our school as it should be until the entire term is public. In the second place, according to our census roll, we have 808 scholastics in our district and according to actual school or attendance enrollment there are over 1000 pupils on the roll, showing almost 200 pupils who have moved into the district but left their school money where they moved from. These pupils according to law must be taught and this forced us to employ extra teachers whose salaries must be paid out of our money and this together with the fact that we have to insure our buildings and that we have had a hard winter necessitating more expense for fuel etc., has made such a hole in our funds that we haven't enough to have the two months of school that are necessary unless we have one month of pay school.

The above reasons together with others that will be given in tomorrow's paper are what have led the board of trustees to decide as they have.

Very Respt.,

R. F. Davis.

East Texas Syrup.

In Louisiana is a factory where they take the black molasses from which nearly all the sugar has been extracted, mix with it a lot of the cheapest brown sugar and water, boil it a few minutes and put it in cans. Their product is sold all over the country and brings seventy-five cents a dollar a gallon. The buyer calls for this brand by name, and thinks he is getting something good. Suppose some enterprising man should take a lot of our pure ribbon cane syrup, put it in cans, advertise it, and send a representative to the wholesale markets. Don't you suppose the entire crop of the county could be sold in a short while.

STOP! WOMEN,

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with woman's diseases covers a great many years. You can talk freely to a woman when it is revealing to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private ills to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Following we publish two letters from a woman who accepted this invitation. Note the result.

First letter.

"Dear Mrs. Pinkham—

"For eight years I have suffered something terrible every month with my periods. The pains are excruciating and I can hardly stand them. My doctor says I have ovarian and womb trouble, and I must go through an operation if I want to get well. I do not want to submit to it if I can possibly help it. Please tell me what to do. I hope you can relieve me." Mrs. Mary Dummick, 50th and E. Capitol St., Benning P. O., Washington, D. C.

Second letter.

"Dear Mrs. Pinkham—

"After following carefully your advice, and taking Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

When a medicine has been successful in restoring to health so many women whose testimony is so unquestionable, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

As you know, I write you that my doctor said I must have an operation or I would not live. I then wrote you, telling you my ailment, and you sent me your medicine, and, truly well, I can walk miles without an ache or pain, and I owe my life to you and to Lydia E. Pinkham's Vegetable Compound. I wish every suffering woman would read this testimonial and realize the value of writing to you and your remedy." Mrs. Mary Dummick, 50th and E. Capitol St., Benning P. O., Washington, D. C.

Dr. Caldwell's Syrup Pepsin

Mrs. Mary O. Hahn, No. 302 Michigan Ave., Chicago, Ill., writes: "For two years I have been troubled with biliousness caused by inactivity of the liver. I had dizzy spells at times, pains across my back and a tired, heavy feeling, with loss of appetite and nervousness. Our family physician prescribed some liver tablets which certainly did not help me in the least. I took A. Collins' and other mineral waters, but my complexion became more yellow and my general health worse. Reading one of your little booklets, I decided to give Dr. Caldwell's Syrup Pepsin a trial and am so glad I did. One bottle did more for me than ten dollars' worth of other remedies. I knew as once I had the right remedy, I kept taking it for several weeks, when I considered myself completely cured. My skin is white and smooth as a baby's and I feel in excellent health and spirits, thanks to your remedy."
