TRACK LAYING BEGUN.

The Nacogdoches and Southeastern to the Oil Fields.

The ties along the right-of-way have been distributed to a point beyond Woden on the Nacogdoches and Southeastern, and track laying was begun in earnest last Saturday afternoon, and a full construction crew is at the front and the line will be completed into Woden the latter part of next month, if nothing happens to prevent work being continued.

This will then put the Nacogdoches and Southeastern within three-quarters of a mile of the Thresher oil well which is being put down on the property of the Williams Brothers of this city. The completion of the railroad that far will give the oil men an opportunity to get into the Nacogdoches field and fully develop same.

Anniversary.

Sunday, April 16, was the anniversary of the sixty-fifth birthday of Mr. W. A. King, a citizen, whom all his friends delight to honor. On this happy occasion all the children and grand children were present, except Mr. Martin King and wife, who were kept away by sickness. There were present Mr. G. B. Layton and wife, (nee Miss Martha King.) Mr. Jas. Reese and wife, (nee Miss Laura King) Mr. Jas. King and wife, Mr. Wm. King and wife, Mr. John King and Mr. Layton's mother. A most elegant dinner was served, giving pleasure to twenty-four happy participants. It was the wish of all present that this most excellent citizen with his good wife, might be permitted to celebrate many more such occasions. Together they have walked life's pathway for many years, proving a blessing to all who have come within their influence, and it is earnestly hoped that many such occasions will take place. A GUEST.

New Laws.

The regular session of the legislature came to a close Saturday and was immediately called together in special session. The following are the more important bills passed.

Appropriating \$3700 to improve Confederate Home.

Enabling penitentiary board to parole convicts.

Sheriffs in the big counties to receive more ex-officio pay.

Prohibiting drinking in cold storages in prohibition districts.

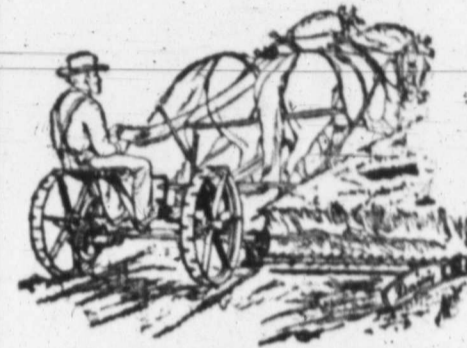

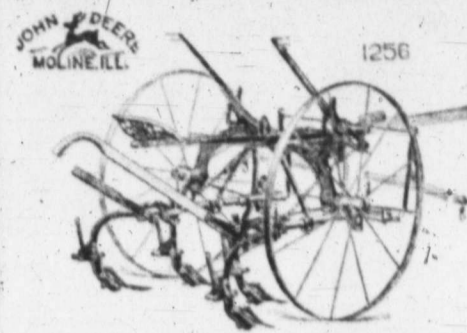

Regulating local option injunctions.

Appropriating \$65,000 to pay for the Alamo.

Children under nine can only be convicted of perjury.

Increasing the salaries of district judges and of members of the board of pardons.

Sunshine and Shadow.

We never know the inestimable blessings of health until we have tossed and tumbled for a season on the bed of disease. We never understand how favored we have been in the joys of the home circle until in some dismal hour the golden bowl is broken and the silver cord is loosed. We can hardly appreciate the smiles of prosperity until we reflect upon its departing comforts from the frowning door of adversity. It is the strange curriculum of nature that we taste of effervescing cup and then of the leaden dregs; that we sleep alternately upon beds of down and irritating thorns; that sorrow shall of experience and his best lessons of life here below that the joys of Heaven may be more acute. Our best teacher is the storm tossed pedagogue only the bright side even of his mistakes are the knotty ones of adversity. —Comanche Chief

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For over a QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Think upon getting the genuine. (Lion head on every package.) (Save the Lion head for valuable premiums.)

THE COTTON SITUATION

Daniel J. Sully has addressed the following to the cotton growers of the South:

If you wish to win your battle and obtain a fair price for your cotton you must reduce your acreage very considerably.

You have surprised the world by the manner in which you have held your cotton.

Surprise it again by cutting down your cotton acreage.

Do not be lead astray by the present steadiness of prices.

Three causes have contributed to bring about this rise of more than a cent a pound.

First: The urgent demand arising from an unprecedented consumption.

Second: Your courage and wisdom in making the buyer meet your terms.

Third: The belief that you would cut your acreage to such an extent that the supplies from this crop and the growth of 1905-6 would make a commercial crop no larger than the world needs.

The first two causes lose their force the moment it is known that there is a prospect for a moderately large crop next year.

Even if the mills take 12,000,000 bales during the current season, this would leave a carry-over of 1,500,000 bales. Hence the necessity of a smaller crop this year.

Do not let prices between now and the end of the planting season deter you from reducing your acreage.

Such an advance would be merely anticipating that you were making the decrease which your friends have advised you to make.

If the June report of the Government shows that you have failed to make sufficient reduction the only persons who would be gainers by the advance would be the speculators who sell out their futures at a profit.

The price of the cotton you produce will be regulated by the actual not the expected reduction.

In this matter of acreage reduction bear in mind three suggestions:

Don't depend on your neighbor to do the reducing.

Don't rely on bad weather to cut down the size of the crop.

Don't put a large acreage into cotton simply because it is too late to plant corn or other diversified crops.

It would be far better to let part of your land lie idle than run the risk of raising a crop so large as to make possible another period of low-priced cotton.

I am making this appeal to you because I regard the few weeks as critical to the South and because I believe every man who is interested in the welfare of the South should urge the importance of a reduced acreage.

WHERE IS THE BLAME.

There is something evidently wrong in the method of returning indictments by grand juries, just where to place the blame The Sentinel is not in a position to state. There is one case in which two indictments have been quashed in this county at the present term of the district court. The first indictment was returned at the fall term of the district court of this county and owing to some defect a new indictment was returned last month. A motion to quash the second indictment was argued and motion was sustained. A special session of the grand jury was convened and a third indictment which was supposed to remedy the defects in the two former indictments was returned. The case was called for trial and after taking evidence in the case for a day and a half, a glaring blunder was found in the indictment. These mistakes are costly—the tax payers are footing up the bills. The question now is, "where is the blame?" Is it the grand jurors, the district attorney, the county attorney, or is it the law? The Sentinel is of the opinion that little legal technicalities in drawing up an indictment should not be sufficient grounds to declare an indictment void. In the case yesterday the little letter "y" was the cause of all the trouble, yet it changed the sense of the heading and when the error was called to the attention of the court, the judge quashed the indictment according to law provided in such cases. While the judge did right under the circumstances, and according to law and usages, yet the state has gone to considerable expense, as has also the defendant, and still the case stands now as it was in the beginning. Our code of criminal procedure should provide a remedy in such cases and the constitution amended.

The bill to raise the ad valorem tax rate to 25 cents was voted down in the House yesterday by a vote of 70 to 36.

The Nacogdoches cigar factory is placing the revenue stamps on the cigars ready to be placed on the market Saturday.

ENOUGH surplus cotton is in the hands of the farmers in the cotton growing states to justify the farmers to reduce the acreage about 75 per cent.

It is estimated that the governor will call a special session as soon as the legislature adjourns sine die Saturday, and the special session will meet on next Monday.

Everyone shares more or less in the prosperity of Nacogdoches. Then everyone should back up the business league in its efforts to make Nacogdoches a city of 15,000 souls. All the league requires to accomplish this is your support.—Nacogdoches Sentinel.

Nacogdoches is probably afflicted like Beaumont and other cities with a "let the other fellow do it" citizenship that is continually a drag upon the progressive people of any community.—Beaumont Enterprise.

TAKES EXCEPTIONS.

"Grand juries should thoroughly investigate all matters before them before returning bills of indictment. It is rather expensive to chase a man all over the country and then have the indictment quashed."

The above paragraph appeared in the last issue of The Weekly Sentinel, and the following letter was received, which is published in full giving the grand juror's side of the question:

Linn Flat, Texas, April 8, 1905.—Editor Sentinel, Nacogdoches, Texas. I notice an article firing the grand jury for handing bills in certain cases and then the bills are quashed and that the grand jury ought to be cautious. Now Mr. Editor as you know the county attorney and district attorney is the legal advisers of the grand jury now if the grand jury finds a bill and it is improperly worded who is to blame? The district and county attorney write all of the bills; there is not a word said about the attorneys, the whole blame is on the grand jury.

I suppose you have reference to the Taylor case as you say the county has to chase a man all over the country and then have the bill quashed. Now as I was one of the grand jurors for this term of the court I feel that I discharged my duty and I think that every member of that body did discharge their full duty and I feel it my duty to answer in self defense.

Yours for truth and justice,
G. W. Nettles.

RAISING PEANUTS.

An exchange gives this admonition to farmers, which is well worth reading:

A Texas farmer who knows a good thing when he gets it says; I can not give up this crop as long as I stay on the farm, it has so much advantage over other crops. First, it has no insect enemy. Second, when you plant you are sure of a crop. It withstands more wet and dry weather than any other crop. Third, poor, sandy land that would not pay in any other crop will make a fine crop of peanuts. I have this year about twenty acres of sandy land planted that will easily make fifty bushels to the acre without fertilizer that would not make over eight bushels of corn to the acre. The vines make the finest hay I ever fed when properly cured. If you pull them up in the evening, and the sun shines bright the next day, take them in late in the evening and you will have the sweetest hay you ever saw. My horses will leave alfalfa to eat peanut hay cured in this way. The peanuts are the best hog feed I ever tried, if you want to feed hogs on peanuts have a block in your barn or crib and a sharp hatchet and you can chop off the bunch of peanuts with from a pint to nearly a quart on each root; you can chop off two bushels of peanuts while you would be shelling one bushel of corn. They will fatten hogs faster than anything else and keep them healthy. Some people say there is no money

in peanuts; but I know there is, for I get money the year round for mine, I am now supplying two stores; besides, I fatten my hogs and feed my horses and cows. Brother farmers, try them by all means. Plant the rows three feet apart and the hills one foot apart. Keep clean and you need not worry about the yield. If you plant about April the 20th they will be ready to harvest by August 20th. They are a most valuable crop.

Stranger Than Fiction.

A marvelous case of punishment on earth for the sins of the flesh occurred in Dynor township in this county today.

Twenty years ago Henry Ziegland, then a handsome, wealthy young man, jilted beautiful Maysie Tichnor, to whom he was engaged to be married, and the girl in a fit of despondency committed suicide. He brother, Fillord enraged at the heartlessness of Ziegland, went out to his farm and attempted to shoot him with an old-fashioned army musket, which carried a larger peculiar bullet. The ball grazed Ziegland's temple and buried itself in a tree near by. Ziegland fell to the ground, and Tichnor, thinking he had killed him, immediately took his own life. Ziegland was seriously hurt. He soon recovered fully, married a wealthy widow and prospered wonderfully in his worldly affairs. Today he and his eldest son cut down the tree in which Tichnor's bullet had buried itself, sawed it into cord wood lengths and attempted to split it. The logs were so tough that axes and wedges had no effect upon them, and, therefore, holes were bored into the center, small charges of dynamite were inserted, and in this manner the logs were split apart. The pieces of timber did not fly about much under the force of the explosion, so the men stood only about fifty feet distance. While the section of the tree which for twenty years had held the bullet fired by young Tichnor was blown open, the charge of dynamite near the bullet blew out the leaden ball which, flying across the short intervening space found the mark it sought 20 years before, penetrating the left temple of Henry Ziegland and caused his instant death. All that was mortal of Maysie Tichnor and her frenzied brother has moulded to dust in their lonely tombs. But the bullet that was to have avenged her wrongs finally did its work.—Honey Grove Signal.

CENSUS OF THE PHILIPPINES

The United States Bureau of the Census has just published the first complete census of the Philippine Islands. In accordance with an act of Congress, this census was taken by the Philippine Commission: under the immediate direction of Brig. Gen. J. P. Sanger, U. S. A., assisted by Mr. Henry Gannett, of the United States Geological Survey, and Mr. Victor H. Olmsted, of the United States Department of Agriculture, who have prepared the analytical text of the reports.

As soon as the schedules enumerators they were packed in cases and shipped to the United States Bureau of the Census, at Washington, in compliance with the law which authorized the President to direct this Bureau to compile and publish the results. Upon the arrival of the schedules in Washington, the Bureau of Census began the task of tabulation. Several bulletins were issued some months ago giving advance information.

The final results as now published are comprised in four volumes, aggregating 3,046 pages. These handsome books which have been designed by the Bureau of the Census do not resemble conventional Government reports. They are bound in brocade, stamped in silver, and bear the seal of the Insular Government. Included in these reports is a large map of the Philippine Islands; there are also many small maps and diagrams in colors, and reproductions of 280 photographs, tastefully grouped in 79 full-page half tone cuts (printed in brown), illustrating civilized and wild tribes, towns, habitations, churches, agriculture, shipping, fisheries, transportation, and industries.

From Mr. Power.

Nacogdoches, April 13, 1905.
Editor Sentinel:

I wish to call your attention to an error published in your paper of the 12th inst. under the heading: "Something New for Nacogdoches."

In this article you begin by saying, "The Sentinel recently reported the sale of Rose Lake farm, orchard and Nursery, stock" etc. Further on you add, "and all friends and patrons of Rose Lake will receive most careful and scientific attention."

It seems that the above paragraphs are calculated to leave a false impression and to injure my business. As a matter of fact I have not sold my Nursery stock, only a very small portion of it. From your statement the public would naturally suppose that I had sold my entire Nursery stock and business. You even solicit for the purchasers, a continued patronage of my friends and trade—that which has cost me many years of hard work, careful study and quite a sum of hard cash.

In justice to the purchasers of Rose Lake farm, let me say that I wish them success in all their undertakings, and should they decide to embark in the Nursery business, I shall extend to them a most hearty welcome; but in justice to myself, I ask you to make the correction referred to. I will continue my business under the name of Rose Lake Nursery Co.

Very respectfully,
J. B. POWER.

Imboden Objects.

Nacogdoches, April 13, 1905.

Editor of The Sentinel:

I really have no objection to The Sentinel reporting court news but when you so flagrantly, as on yesterday you did, misrepresent the court and incidentally and necessarily myself, I most respectfully protest.

In your issue of yesterday referring to the proceedings of the Taylor case states with reference to a defect pointed out in the indictment by defendant's attorney that Judge Perkins made the following statement: "That a case was being tried without an indictment, and had just as well try a case with a blank sheet of paper with the word 'indictment' written across the front page." The above statement clearly perverts the truth, and it is my opinion that you were not authorized to make such statement. This statement would indicate to the public that this defendant was being held upon a worthless indictment as a whole and defective in all its parts, an indictment in fact which has been so bungled and imperfectly prepared as that it represented only a blank sheet of paper. Since as District Attorney of this District I am responsible for indictments presented to the grand jury, the writer could have had no other intention than to aim a blow at me, at the same time creating sympathy for the defendant, Taylor. In order that the public may know the truth about the matter, I ask that you publish this statement as the facts in the case, since you have not seen fit upon your own account to point out the defect in the indictment.

The constitution of the State of Texas prescribes certain forms and conditions controlling felony indictments, one of which is that all prosecutions shall be carried on "in the name and by the authority of the State of Texas." This indictment was so written but was copied on a typewriter, the copier in writing the word "And" spelled it "Any," making a word other than that prescribed by the constitution

to be used, thus destroying the legal sense of the sentence.

Had the letter Y been any letter in the alphabet which would not have spelled a word, for instance, H, F, etc., or been omitted, the error would have been immaterial, but since it made a word with a meaning, the defect was fatal.

In discussing this indictment I stated to the court that while I believed the indictment was fatally defective in this particular, that I thought it would be well to continue the trial of the case, and after the trial had been concluded we could thoroughly investigate the matter, if necessary to do so, when the court could pass upon it. The court replied that "if the indictment is fatally defective we may as well try the case upon a blank sheet of paper and call it an indictment," and that he considered it proper to make the investigation then, and not alter the trial had been concluded. This is an entirely different condition than that which you have attempted to have the public understand as the facts. In justice to myself, and the court, as well as in justice to truth, honesty and common decency, I ask you to publish this explanation. I simply proved myself an imperfect proof-reader, for the failure to discover the letter "y" written in "cap" where the letter "d" should have been, was no more and no less than bad proof-reading. My particular object to your version of the occurrence in court referred to is not so much your disposition to belittle the prosecution against Chas. F. Taylor, but that it conveys the idea that the court "snubbed" the district attorney. I am pleased to say that such was not the case for the official as well as personal relations between said officials is most cordial.

Respectfully,
 W. M. Imboden.

DENMAN CASE CONTINUED.

Two Witnesses Fined \$250 Each in this Case.

The case of the State of Texas vs. Dr. A. M. Denman charged with criminal assault was the first case called this morning, and on account of the serious illness and critical condition of Mrs. A. M. Denman the case was continued until next term of the district court.

The judge had witnesses called and two witnesses being absent for whom process had been issued, each were fined \$250. The absent witnesses are Dr. J. F. Y. Payne a member of the faculty of the State Medical College at Galveston, and Dr. S. P. Cunningham a resident of Angelina county but who is at present attending Medical college in New York.

The special venire in this case was dismissed.

MORSE HAS GONE

Much Pleased With Tobacco Culture in Nacogdoches.

Colonel S. F. B. Morse formerly traffic manager for the Southern Pacific with headquarters in Houston, departed last night via the Texas and New Orleans. Colonel and Mrs. Morse have for the last week been guests of Mr. and Mrs. W. D. Cleveland, Jr., Mrs. Cleveland being Colonel Morse's daughter.

Today will be spent in New Orleans and tomorrow Colonel and Mrs. Morse will leave for their home in New York, where Colonel Morse, as president of the Southern Cotton Warehouse company, makes his headquarters.

Tuesday Colonel Morse spent in Nacogdoches, where he was a witness in the Taylor trial. Incidentally he looked over the conditions of the tobacco lands and culture, and to a reporter of The Post yesterday afternoon he expressed himself as highly pleased with the progress made since he left Texas.

"I was agreeably surprised at the strides those people are making in the raising of tobacco. A government expert told me that this year Nacogdoches county would turn out fully seventy-five or 100 acres of first class Cuban filler and covers. This tobacco is excellent and there is no use trying to discount it.

"I don't know how soon I will visit Texas again. I like to come down here, though, and whenever I have the opportunity you may be sure that I will avail myself of it. While Texas was my adopted State, it always seems like coming back home when I come to Houston.—Houston Post.

A Thousand Dollar's Worth of Good.

"I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain, says A. H. Thurnes, a well known coal operator of Buffalo, Ohio. "I got no relief from medicine until I began taking Foley's Kidney Cure, then the result was surprising. A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me \$1000 worth of good." Foley's Kidney Cure will cure every form of kidney or bladder disease. Sold by Perkins, Kleas & Mast. eodw

THE SECRET OF SUCCESS

"No, Sir! You cannot palm off any substitute on me. I've been using August Flower since I was a boy, and I'll have no other."
 Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing! Isn't that a fine showing of success? Don't it prove that August Flower has had unfailing success in the cure of indigestion and dyspepsia—the worst enemies of health and happiness?
 Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders—that it is the best of all liver regulators?
 August Flower has a matchless record of over 35 years in curing the ailing millions of these distressing complaints. *

Russell's Condition.

A. T. Russell returned yesterday from Nat where he was called by a telephone message announcing that his brother Ernest Russell had been shot.

Mr. Russell states that his brother was not badly wounded, being shot with double barreled shot gun loaded with no. 4 shot. The party doing the shooting was a negro named Gene Davis.

It seems the trouble arose over the settlement of a small account that Ernest Russell was trying to collect.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs, and elderly people buy it for la grippe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. House Burglarized.

The home of P. C. Richardson was entered some time Thursday afternoon by an unknown party who carried off a new pair of shoes, a pistol, some handkerchiefs and some other small articles. The party went down to the creek and tried on the shoes but as they were too small he left them there. Officers are on the trail of the guilty party, it is thought, and he will probably be brought in today or tomorrow.

NACOGDOCHES needs water-works and fire protection.

FUNNY how some people squirm when they are made to look like thirty cents.

SOME cotton acreage reduction is reported in Nacogdoches county.

SOME people are called great, when in fact they use the brains of others to achieve greatness but never let the fact be known.

If the merchants, doctors, lawyers and others organize for protection the farmers should certainly be accorded the same privilege. For a number of years they have been without an organization for mutual protection, but from the reports and the work of the farmers during the past year one is inclined to believe that they have at last solved the problem of protecting their interests.

It has been said that the people will not object to increasing the pay of members of the legislature provided the number of members is reduced. Probably it would be a good thing to curtail the number whether the increased compensation is ever realized or not. If the membership of the house of representatives were reduced by one-half it would save money and probably be best for the State. The question is not likely to come up until the next apportionment is made, probably in 1911, but then it will not be a bad thing to reduce the membership. Certainly it should not be increased, no matter how much our gain in population may prove to be.—Houston Post.

In an address recently delivered in New York city, Gov. Folk of Missouri said: "The Missouri idea means the enforcement of the law, and if that law be bad, the remedy is to repeal, not to ignore it. Disregard for one law breeds disregard for all law. To allow some laws to go unenforced we reap a harvest in having all laws broken. Good men will observe even bad laws, but bad men will break even good laws. It should be that all men, good and bad, be compelled to keep all law, good and bad, because it is the law. The patriotism of peace is just as necessary as the patriotism of war. The patriotism of the ballot is even more necessary in a free country than the patriotism of the bullet. Plenty of men will die for their country, but the man who will live for his city and state every day is the man the government needs. The government never neglects the people unless the people first neglect the government. No government, city, state or national, was ever better than the people made it, or worse than they suffered it to become. Good citizens make good laws, but no law can make good citizens. States and cities do not consist of mortar and brick and stone, but of the character of their citizenship."

THE GAMBLER'S DOLLAR.

The gambler's dollar will buy just as much bread and meat for the poor; just as much of the necessaries of life as a dollar from any other source. The food purchased with the gambler's dollar will sustain life just as long as the other man's. The education purchased with the gambler's dollar will prepare the young man or woman for the responsible positions in life just as well as the other man's. The gambler's dollar will assist the missionary in heathen lands to preach the gospel just as effectively as the dollar received from any other source. Therefore if the gambler, Mr. Rockefeller, or any other Mr. Man, feels disposed to donate a few hundred spondulas to the church as a sort of a conscience donation it is the part of good business judgment to accept the donation, for the church can take the money and relieve the distress of the poor and needy to a better advantage than any other source. Mr. Rockefeller's gift of \$100,000 has finally been accepted, but not until after much wrangling and exchange of words. This amount of money will assist the church in the great mission of spreading the glad tidings to the world that each and every individual on earth has a personal friend in the meek and lowly Nazarine, as is taught by all the Christian churches. Therefore if much good can be accomplished in redeeming the world for Christ with the conscience donation of Mr. Rockefeller's where is the wisdom in chewing the rag about accepting money with which to do much good?

The legislature is now in special session.

The beet trust it is claimed maintained two sets of backs.

Next Sunday is Easter, then "glad rays" and new bonnets will be in evidence.

SELFISHNESS causes many of us to reflect in sorrow, and often times makes a wound too deep to be healed.

The selfish man lives for self alone, and friendship is considered as a commercial commodity by him.

STUDY the imperfections in your own make up first and correct them, before criticising the shortcomings of others.

The Easter edition of the Palestine Herald was quite creditable and was well patronized by Palestine merchants.

The value of a true friend cannot be estimated, and we never know the true meaning of friendship, until that friend passes from us.

It is quite a while before the school trustees election is held, but it is not too early to pick four good men for the place.

FOUR school trustees are to be elected for Nacogdoches school district on Saturday, May 6. See to it that good men are selected for the position of trustees.

CORN VS. COTTON.

Most of your readers are farmers, and 'tis fair that they should sometimes discuss the best methods of successful farming. We wish to show in this article that corn is a better paying crop than cotton. We give each more than average price, but its fair for each. We put corn at 35 bushels to the acre and cotton at half bale. Corn at 40 cents per bushel, cotton at 8 cents. We note result as follows, cotton first, making our calculation that a farmer can cultivate and gather twice as many acres in corn as he can in cotton, which all will admit.

Cotton.	
Cost of growing—Dr—	
Cash rent on 1 acre ground	\$2.00
Breaking and harrowing ground	2.00
Half day planting, man and horse	.50
Two days' plowing in all	2.00
Cotton chopping in all	2.00
Picking 800 pounds seed-cotton, 75 cents per 100	6.00
Half bale bagging and ties	.50
Hauling to gin and market	1.00
Cost of production	16.50
Crop sold—Cr—	
250 pounds lint, at 8 cents	\$20.00
16 bushel seed 12½ cents	2.00
Value of product	\$22.00
Cost of production	16.50
Profit	5.50
By the same fair standard we try corn.	

Corn.	
Cost of growing—Dr—	
Cash rent 2 acres ground	\$4.00
Breaking and harrowing ground	4.00
Planting	.50
3 plowings	3.00
1 day chopping	.75
Gathering	2.50
Cost of production	14.75
Crop sold—Cr—	
70 bushels corn at 40 cents	\$28.00
Cost of production	14.75

The man who raises corn has three months to pick cotton for the man who raises cotton. I allow nothing for marketing corn, for there is always a demand for it at the crib at that price.—Wm. Robertson in Farm and Ranch.

THE RAILROAD HOG.

According to various newspaper reports the razor-back railroad hog is at last to be controlled and shown how to be polite, even if he don't like it. It is explained that the railroad hog is the fellow with two or three big grips who travels on reduced fare, wags into the first class coach, turns two seats together and deposits his luggage therein. Or it sometimes happens that Sir R. Hog will, after taking two seats in the first-class car, saunter into the smoker and occupy two seats there. It makes no difference to him how many women and children come in and look for seats they can stand up so far as he is concerned. Various and sundry times women and children have been known to walk from one end of the car to the other looking for a seat and finally have to go to the smoker while the unpenned animal above referred to would look, with his feet and grip occupying the extra seat, as if it were a great show. Vigorous protests have gone up from time to time and at last the railroad officials have decided to make the hog buy two tickets, or else check his baggage before passing through the gate or getting on the train. The other plan is to lock every seat so they cannot be turned. All grips will have to be checked and each passenger entitled to one seat only. Of course exceptions will be made to women with little children. The traveling public will be heartily glad when such rules and regulations are adopted, because it has been and is now one of the worst and most disgusting nuisances with which traveling people have to contend.—Beaumont Enterprise.

Duty We Owe Our Parents.

It is an unquestionable fact that the first duty of life is due to our parents. They who have labored making all but a sacrifice of themselves, that we might live to enjoy life in its richest blessings, surely deserve our first love, greatest respect, and deepest devotion.

There is no other love that can equal that of a devoted mother, and I'm glad I can say the same for a loving father. Who is there that will deprive themselves of the luxuries of life that we might enjoy the pleasures thereof in their stead? I must say there is none save that of a devoted father or mother. "We live to learn in life's hard school that few who pass above us; lament their triumph and our loss, just because they love us." Yet our dear parents seek to make us triumph in every effort we make. They labor with hands and heart, seeking daily and hourly some good for us. Then why should we question the fact that life's first and greatest duty is due them? We know of a truth that many boys, and I am sad to say some girls, after they have grown into manhood and womanhood for the love they owe their aged parents, and many times disobey, and must say neglect them. Sad thought indeed this is to me. Girls and boys, you,

who are blessed with living parents, now is the time to realize you love them, now is the time to honor and bless them.

Don't neglect them today. Tomorrow they may be gone, though they may be waited by the Angels of Mercy to the bright beyond, it will then be too late for them to enjoy and appreciate the flowers that we might scatter for them now. What a halo of light a loving daughter, and obedient and thoughtful son can cast on a home. We sometimes fail to realize the influence we have at home, and often times, let many golden opportunities for doing good pass unobserved. Your dear father, and mine, while living, and our old, yet sweet faced mother's heart is made glad by our happy smiles and cheerful faces, and willingness to assist them in their undertakings.

A parent's love cannot be too highly appreciated, and will never be forgotten.

The hardest, and roughest wanderer while he is tossed on the ocean, or while he scorches his feet in the desert sands recurs in his loneliness and suffering to the smiles of mother and home. The reckless sinner, even in his hardest career often hears the whisperings of those holy precepts instilled by a virtuous mother. The wayward disobedient girl will, despite her efforts, be overtaken by her sin of disobedience and caused to repent. While reflecting on the irrevocable past with sighing heart aches, and burning tears the monster sin will be reflected in her very heart, revealing to her soul the wrongs she has done in disobedience to her parents. Look again on the dutiful son or daughter, view the many gilded blessings that awaits to crown them.

If life is worth living,
It is worth living right;
Let us honor our parents
From morn until night.
Let us strive to be thoughtful,
Be noble in mind,
Remembering the loved ones,
So gentle and kind.
Love them and honor them,
While on earth they stay,
Prepare to walk with them,
On the bright shining way.

The State of Texas, }
vs. }
W. J. Clevenger. }

This day, 28th of March, A. D. 1905, this cause came on to be heard, and the defendant appeared and announced ready for trial and the State offered by her District Attorney asked leave of the court to dismiss the said case for the following reasons filed herein, namely:

The State of Texas, }
vs. }
W. J. Clevenger. }

Now comes W. M. Imboden, the District Attorney, and ask leave of the court to dismiss this cause for the following reasons, to-wit:

1st. Because the evidence shows that the hog claimed to have been stolen by the defendant, W. J. Clevenger was a black hog, with its right ear off and marked with smooth crop on the left ear, that the undisputed evidence further shows that the defendant, W. J. Clevenger had a large number of hogs in the range

from which this hog was taken and that the left ear of the hog alleged to have been stolen by defendant was in the defendant's mark, and that the proof shows that the hog that he is alleged to have stolen in the indictment belonged to the defendant. That the hog was killed in the day time brought to the camp where the defendant and other parties were killing hogs by the defendant, W. J. Clevenger. That the facts further show that the defendant expected John D. Selman, the party who is alleged in the indictment to be the injured party, to be at the camp where the hog claimed to have been stolen was taken and dressed, that when the indictment was returned by the grand jury against this defendant the grand jury was under the impression that the hog claimed to have been stolen by the defendant was a black hog with its left ear off and right ear in the mark of the alleged injured party, namely, John D. Selman. The alleged injured party, John D. Selman being a member of the grand jury and claimed that he had a black hog missing with its left ear off and right ear in his mark, and the witness before the grand jury upon whose evidence the bill was found was under the impression that the hog claimed to have been taken by the defendant, W. J. Clevenger, was a black hog with its left ear off and its right ear in the mark of the alleged injured party, John D. Selman, but the undisputed evidence by a number of responsible witnesses who were present at the time the hog was killed show that the hog did not have its left ear off but its right ear was off, and the left ear in the mark of the defendant, and that the said indictment was returned against the defendant by the grand jury under a misapprehension of the facts.

W. M. IMBODEN,
District Attorney.

Whereupon by an order of the court the district attorney was authorized to dismiss the said cause. It is therefore the order, judgment and decree of the court that said cause be and is hereby dismissed and the defendant discharged, for the reasons filed by the district attorney shows that the defendant was not guilty of the offense charged and that the hog alleged to have been stolen by defendant from John D. Selman was in truth and in fact the property of W. J. Clevenger.

I, R. W. Murphy, clerk of the district court in and for Nacogdoches county, Texas, do certify that the foregoing motion of the district attorney as is true and correct as appears on the minutes of the court. R. W. MURPHY,
Clerk District Court, Nacogdoches county.

Palm Sunday.

The Sunday before Easter, on which the church celebrates Christ's entry into Jerusalem. The verdant palms in the hands of the faithful, vividly present the scene which Jerusalem saw five days before the passion. But the triumphal entry of the Savior into Jerusalem was but a prophetic figure of that other triumph which He would receive in the midst of angelic harmonies in the heavenly Jerusalem.

The gates of the celestial city closed since the sin of Adam, could not open but to the bloody trophy of Calvary. The mass of Palm Sunday is a striking contrast to the inconsistency of the human heart; sadness succeeds the joyous canticles; after the gospel of triumph comes the sorrowful story of the passion; adoration quickly passes to outrage from the chants of Hosanna to the cries of crucify Him. Shooting at Joaquin.

Center News, April 17:

News comes from Joaquin that Bob Stone was shot yesterday morning by Hart Wynne.

From the best information we can get Mr. Stone got offended at Mr. Wynne while he was quelling a disturbance the night before and not being satisfied went to Mr. Wynne's house the next morning to settle the trouble, and entered the premises in a threatening manner, when he was ordered to stop, failing in which he was soon the target of a handy revolver, receiving a bullet in each breast and one in the back. He was still alive today, but the chances for his recovery were thought to be slim.

The parties involved were on good terms up to the night before, and the affair is deeply regretted by all who unite in the hope that the wounded man will recover and that the broken bonds of friendship may soon be mended.

THE COOPER GUARDS.

Company C, 1st C. and C. Regiment, 2nd Indian Brigade.

East Texas Register:

Something of real heart interest to the vanquished of '61, and to those who love the the gallant cause, was the first regular reunion of Cooper Guards, which was held at Beckville last Tuesday. Not at beat of drum nor with banners flying to the breeze did this gallant band march into Beckville, but quietly and with ardor cooled by war's conflicts and the many battles of life.

The occasion was more in the nature of a love feast than of martial display, and the tear and the handshake were more in evidence than the banner and sword.

The beloved Colonel, who went to the war as a Lieutenant and returned the Colonel of the company—Dr. J. W. Wells, of Bryson, Texas—was present and his hoary head and feeble step were convincing evidence of his 73 years.

The roll call was answered by thirteen veterans, some of whom had sacrificed time and money in coming from a great distance. The roll call follows:

Col. J. W. Wells, Bryson; Capt. J. N. Hays, Beckville; Richard Atkinson, Big Sandy; Paul Rettig, E. B. Pruitt, Minden; T. J. Roquemore, Nacogdoches; N. B. Williams, Longstreet, La.; Wm. Smith, Lem Herrin, Timpson; I. D. Youngblood, E. T. Crawford, J. T. Allison, Beckville; John H. Wooten, A. H. Baker, Carthage.

Diligent inquiry was made as to the absent members, whether living or dead. After a few short exercises, "When the roll is called up yonder" was sung and a fervent prayer was breathed in the heart of each that every member of the camp answer to the heavenly roll when called. The members were then assigned to homes and dinner announced. The latter proved a veritable feast and, in point of abundance, would have fed a multitude and in point of quality was fit for any king.

The people of Beckville and surrounding country were out in masses to do honor to the beloved Confederates and to do justice to the dinner.

The editor of the Register

arrived on the scene, as she thought, at the eleventh hour, but was offered food in abundance, and, strange to say, after she had finished there could yet have been gathered up as many as twelve baskets full.

The afternoon held in store for all special devotional exercises, presided over by Rev. Cagle. Quite a fine orchestra furnished music for the entire exercises.

Among the many resolutions of thanks was that of the courtesy of the press of Pano-la county, and especially to the editor of the Register for her presence, a compliment which she acknowledged feebly, but feelingly.

Reminiscences of the war and heart to heart talks finished the day's program, and memorial services the evening's program. Thus was finished the first reunion of Cooper Guards. The next regular reunion will be held at Carthage the 3rd Tuesday in July, 1906. A call meeting will be had in Carthage, 3rd Tuesday in July, 1905. A grand picnic is proposed for that date, and the Register intends to use its influence toward that end. God bless the Confederate Veterans all.

FORTY THOUSAND.

The First Delivery of Nacogdoches Cigars Made this Morning.

This morning the Nacogdoches cigar factory made its first delivery of cigars made from Nacogdoches tobacco. There were twenty-seven orders in the first delivery aggregating forty thousand cigars, and were sold to the following parties:

When the cigars were loaded on the wagon, a photograph was taken which shows several bales of Nacogdoches tobacco and the boxes containing the finished product. The value of this delivery is \$1,500.00.

DON'T let the waterworks proposition die. Keep pounding at it until a system of water works is put in that will furnish an adequate supply for fire protection. Just think of a town with fourteen blocks of brick business houses and no waterworks or fire protection of any kind? Think this matter over—about a mile of good brick buildings, and all occupied. Truly something should be done at the earliest possible date.

APPLEBY NEWS.

A Budget of Good Live News From A Good Town.

Appleby, April 17.—The present spell of nice weather is getting a move on the farmers.

Corn will soon all be planted—some cotton planted.

The potato crops are looking very nicely, but some complaint of not getting a good stand.

The peach crop is plentiful. Mr. Sarett, who has been here for several weeks left last night for Houston.

Mr. T. L. Blacksher visited Nacogdoches yesterday, or at least he went to see some special one in Nacogdoches.

Misses Mollie Baker and Blanche Davis went to Nacogdoches last night on a visit to friends. Miss Davis will go from there to her home at Center.

Mr. Will McMillan was here today on official business.

Mr. L. B. Tindall went to Bronson this week on business.

Rev. R. W. Floyd made his monthly visit to Humble Saturday, where he is pastor of a church. He reports a little volcanic eruption there that sunk one of the derricks at that place, last week.

Mrs. F. F. Skeeters has been quite sick for several days but is better today.

Mrs. W. D. Slay is quite sick with articular rheumatism.

Mr. and Mrs. C. G. Haney are reported real sick at their home on North street. He has pneumonia but is some better at present.

Messrs. Crim and Parris, district managers of the Franklin Life Insurance Co., have been doing a banking business here for a week in writing insurance. They are good hustlers.

A daughter was born to gladden the home of Mr. and Mrs. Wesley Ceal this week. Also a daughter at the home of Mr. and Mrs. Isom Mills.

On next Friday night, April 21, Appleby proposes to have a good old fashion time in the way of amusement and something good to eat for supper. Everybody come and help to insure the school building.

The contests for the prettiest girl and young lady to receive a nice cake and a fine ring, will most likely be a warm contest.

Beyond Expression.

G. W. Farlowe, East Florence, Ala., writes:

"For nearly seven years I was afflicted with a form of skin disease which caused an almost unbearable itching. I could neither work, rest or sleep in peace. Nothing gave me permanent relief until I tried Hunt's Cure. One application relieved me; one box cured me, and although a year has passed, I have stayed cured. I am grateful beyond expression."

Hunt's cure is a guaranteed cure for all itching disease of the skin. Price 50c. w

HOUSEWIVES HEADACHES

You don't know why you suffer from headache and you are apt to believe you have some dire female trouble, but its dollars to doughnuts that you are wrong. Women are prone to put off the duties of Nature to attend to the duties of the home and when they do get time to go, the feeling has passed. Constipation results and then the awful racking headache. Take a spoonful of

Dr. Caldwell's Syrup Pepsin

every night before going to bed. Keep it up for a few weeks.

A. F. Klontz, of Troy, Ohio, writes under date of June 10, 1901: "My wife and self suffered off and on for three or four years with Constipation and Sick Headache, and we received almost instant relief by taking Dr. Caldwell's Syrup Pepsin. The use of several bottles restored our digestive organs to normal condition, and although we are free from any gastric trouble, we do not consider being without a bottle for a minute."

BOUGHT NACOGDOCHES CIGARS

Col. S. F. B. Morse Smoked One and Wanted More.

Monday afternoon when Col. Morse, Col. Anderson, and Mr. Bruce visited the Nacogdoches Cigar factory, Louis P. DeMouche the genial manager, presented the gentlemen with a sample smoke of the cigars that will make the name of Nacogdoches famous with smokers of good cigars.

Yesterday Col. Morse called at the factory and wanted to buy a supply to take home with him to New York, but Mr. DeMouche told him that the product of the Nacogdoches factory was not on the market, and would not be until after April 15. Mr. Morse left his order for a goodly supply and also the cash, and instructed that the cigars be shipped to him at New York.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old. Colonel S. F. B. Morse, Colonel T. J. Anderson, George S. Bruce and Joe Gilpin left yesterday morning for Nacogdoches, where they will look at tobacco and tobacco lands. Colonel Morse is much interested in tobacco culture in Texas, and was the chief advocate of the industry in East Texas during his connection with the Southern Pacific. Colonel Anderson is a witness in the Taylor trial, which is set down for today.—Houston Post.

Timpson Topics.

Mrs. Bruce Hamlett returned this afternoon from a visit to relatives at Nacogdoches.

Mrs. M. E. Runnels went to Nacogdoches this morning to be with Robert whose case is set for tomorrow.

Capt. T. J. Todd returned from his visit to Nacogdoches last night, and Mrs. Todd stopped off for a short visit with her daughter in Garrison.

The Times is authorized by Dr. Whiteside to say that there is absolutely no danger of infection from the two small pox cases in the city. Both patients are convalescent; both have been isolated and have not come in contact with other members of the families, even, and the people need have no fears at all of contracting the disease from them.

A couple of whiskey drummers have been working the town for a day or two and have taken quite a number of orders. The people of Timpson have said, by an overwhelming majority, that they do not want whiskey sold here, but under the rulings of the court of criminal appeals we have no relief in law from these drummers. The court of public sentiment is above any court of criminal appeals; it is the court of last resort, and when other remedies are exhausted the cases of these law-evading gentry will be appealed to this court and woe betide the man who comes under the ban of its disapproval. Timpson people are peaceable and law abiding; they voted for prohibition and they expect to have it. In some communities in Texas these whiskey drummers have been invited to leave, and some of them have not had time to wait for a train; it may become necessary for the good people of Timpson to extend to them some such invitation.—Timpson Times.

"GET RICH QUICK CONCERN."

Good Bye, Suckers, Good Bye Was the Notice to Customers.

The American Mercantile Association, alleged to be a "get rich quick" concern, with offices in a down-town office building, in Kansas City, has been closed and this notice posted on door: "Good-bye, suckers, good-bye."

The whereabouts of the officers of the association is unknown. The company's head office was St. Joseph, Mo., and from there a notice has been sent out to its subscribers announcing the suspension as follows:

"The officers of the American Mercantile Association take this means of announcing to you that business of said corporation has been suspended and that it will be unable to complete or carry out its contracts with you."

When this notice was received by the Kansas City subscribers, a majority of whom are laboring people, they flocked to the concern's office. Many pitiable scenes were enacted. The subscribers had agreed to pay one dollar a week for eighty weeks on a promise that they were to receive one hundred dollars at the end of that period. Many working girls and laborers have been making payments for months past. One woman had paid \$7.50 for sixty-six weeks and expected to soon receive \$720.

The American Mercantile Association began business in May, 1904, and its books were left behind by the officers, and showed that it had many subscribers.

The stationery gave the officers as M. Buening, president and treasurer, W. L. Stamper, secretary; L. H. Miles and M. M. Nerdean, managers.

Turn Them Out.

Some of the convicts in the penitentiary have long since repented of their sins. They are now good men, they have been punished enough, and in some instances too much; and because a strong influence can't be brought to bear upon the Governor; no one wants to take it on himself to take the matter up. It is a shame to keep some men there; they would make good citizens if only they had another chance.

We believe the Governor would place many stars in his crown, if after knowing the facts about some of the inmates would grant them a pardon.

A love that fails to penetrate the prison walls, doesn't reach heaven. There is a great work for some benevolent society. The Superintendent or Chaplain knows the worthy men. Turn them out.—Industrial Press.

Constable's Execution Sale.

The State of Texas, County of Nacogdoches.

In Justice Court, Precinct No. 1, Nacogdoches County, Texas. Seale & Donegan vs. W. R. Greer.

By virtue of a certain writ of alias execution issued out of the justice court of precinct No. 1, Nacogdoches County, Texas on a certain judgment rendered in said court on the 28th day of March, A. D. 1904 in favor of Seale & Donegan against W. R. Greer, I did on the 31st day of March, 1905, at 3 o'clock p. m., levy upon the following tract and parcel of land situated in the County of Nacogdoches, State of Texas, and belonging to the said W. R. Greer, being all of the light title and interest of W. R. Greer in and to the same, to-wit:

Situated one-half mile north from the town of Sacul, in Nacogdoches county, Texas, and is bounded as follows, to-wit:

Beginning at the northeast corner of the Moses Walters one-third league, thence west with the north boundary line 1210 vrs to a rock for corner, thence south 183 6-10 vrs to a rock for corner, thence southeast 1210 vrs to a rock for corner, a sweet gum and a post oak for witness trees, thence north 183 6-10 vrs to the place of beginning, containing 39 1/2 acres of land, more or less, situated in the northwest corner of Nacogdoches county, Texas, on the New Salem and Douglass road. And on the 1st Tuesday in May, A. D. 1905, same being 2nd day of said month, between the hours of 10 a. m. and 4 p. m. at the court house door of Nacogdoches county in the town of Nacogdoches, I will sell at public auction for cash to the highest bidder, all the right, title and interest of the said W. R. Greer in and to the said tract and parcel of land levied upon as the property of said defendant W. R. Greer to satisfy a judgment in favor of Seale & Donegan, plaintiffs, for the sum of \$208.45, together with all cost of said suit. The proceeds of said sale to be applied to the satisfaction of said judgment.

W. E. McMILLIN, Constable, Prec. 1, Nacogdoches County, Texas. This 6th day of April, 1905.

HOARSE COUGHS STUFFY COLDS

QUICKLY CURED BY **Foley's Honey and Tar**

There is no case on record of a cold resulting in Pneumonia, or other serious lung trouble, after **Foley's Honey and Tar** had been taken.

It will cure the most obstinate racking cough, and heals and strengthens the lungs.

Foley's Honey and Tar has cured many cases of incipient Consumption and even in the last stages will always give comfort and relief.

Foley's Honey and Tar gives quick relief to Asthma sufferers, as it relieves the difficult breathing at once.

Remember the name—**Foley's Honey and Tar**—and refuse substitutes that cost you the same as the genuine. Do not take chances with some unknown preparation.

Contains no opiates.

Cured of Terrible Cough on Lungs.

N. Jackson of Danville, Ill., writes: "My daughter had a severe attack of La Grippe and a terrible cough on her lungs. We tried a great many remedies without relief. She tried **Foley's Honey and Tar**, which cured her. She has never been troubled with a cough since."

Consumption Cured.

Foley & Co., Chicago. Dana, Ind. Gentlemen:—**Foley's Honey and Tar** cured me of Consumption after I had suffered two years and was almost desperate. Three physicians failed to give me any relief and the last one said he could do me no good. I tried almost every medicine I heard tell of without benefit, until **Foley's Honey and Tar** was recommended to me. Its effect right from the start was magical. I improved steadily from the first dose and am now sound and well, and think **Foley's Honey and Tar** is a God-send to people with Throat and Lung Trouble. Yours very truly, MRS. MARY AMBROSE.

Three sizes—25c, 50c, \$1.00. The 50 cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

PRIZES OFFERED.

Center News:

"Being desirous to encourage the raising of corn and good hogs in Shelby county I have decided to offer a prize of \$10.00 to the farmer who will raise the greatest amount of corn, on one acre of land, to be not more than 50 bushels to the acre, and a prize of \$10.00 for the largest hog, to weigh not less than 300 pounds net, to be killed at any time between the 1st of December and the 1st of February, and not to be more than fourteen (14) months old when killed. The land and the corn to be measured, and the hog to be weighed by two citizens to be appointed by the justice of the peace of the precinct in which the competitor resides. All persons desiring to compete for either or both prizes will notify the justice of the precinct and request him to appoint the committee. At gathering time the competitor will notify the committee who will gather and measure the corn and report result to me, not later than November 1st.

The same procedure as to weighing the hog, the report to reach me, not later than February 15th. The award for each prize to be made when all reports have been received, and the names of the competitors together with the results will be published. None but those who reside on the farm and follow farming as their principal occupation will be accepted as competitors for either prize. If any widow's son, who lives with and support his mother by farming, and whose age will not exceed eighteen (18) years on January 1st, 1906, wins either or both prizes, the amount will be doubled.

"If a sufficient number compete for these small prizes to satisfy me that my efforts have resulted in substantial good to the county the amount will be increased in 1906.

"Yours for the corn crib and smoke house at home.

PAINFUL PERIODS

Suggestions How to Find Relief from Such Suffering.

While no woman is entirely free from periodical suffering, it does not seem to be the plan of nature that women should suffer so severely. Menstruation is a severe strain on a woman's vitality. If it is painful or irregular something is wrong which should be set right or it will lead to a serious derangement of the whole female organization.

More than fifty thousand women have testified in grateful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes painful and irregular menstruation.

It provides a safe and sure way of escape from distressing and dangerous weaknesses and diseases.

The two following letters tell so convincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Nellie Holmes of 540 N. Davidson Street, Buffalo, N. Y., writes:

Dear Mrs. Pinkham—Your medicine is indeed an ideal medicine for women. I suffered misery for years with painful periods, headache, and bearing-down pains. I consulted two different physicians but failed to get any relief. A friend from the East advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and no longer suffer as I did before. My periods are natural, every ache and pain is gone, and my general health is much improved. I advise all women who suffer to take Lydia E. Pinkham's Vegetable Compound.

Mrs. Tillie Hart, of Larimore, N. D., writes:

Dear Mrs. Pinkham—I might have been spared many months of suffering and pain had I only known of the efficacy of Lydia E. Pinkham's Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

ABOUT RHEUMATISM.

There are a few diseases that inflict more torture than rheumatism and there is probably no disease for such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? SATINOLA is a new discovery, guaranteed, and money refunded if it fails to remove freckles, pimples, liver spots, blackheads, tan, discolorations and disfiguring eruptions. Ordinary cases in 10 days, the worst in 20 days. After these defects are removed the skin will be soft, clear, healthy and beautiful. Price 50c at drug stores or by mail. Thousands of ladies testify to the merits of Satinola.

Miss Beanie Miller writes: Levy's, S. C., Aug. 9, 1904: I am delighted with the results of Satinola. Of the many preparations I have used Satinola is the only one I have found to positively remove freckles and clear the complexion. One of my friends has used it and is very enthusiastic.

SCROFULA A Disease We Inherit

The tainted blood of ancestors lays upon the shoulders of innocent offspring untold suffering by transmitting to them, through the blood, that blighting disease, Scrofula; for in nearly every instance the disease can be traced to some family blood trouble, or blood-kin marriage which is contrary to the laws of nature. Swelling, ulcerating glands of the neck, catarrh, weak eyes, sores, abscesses, skin eruptions, white swelling, hip disease and other deformities, with a wasting of the natural strength and vitality, are some of the ways this miserable disease manifests itself. The poison transmitted through the blood pollutes and weakens that health-sustaining fluid and in place of its nutritive qualities fills the circulation with scrofulous matter and tubercular deposits, often resulting in consumption. A disease which has been in the family blood for generations, perhaps, or at least since the birth of the sufferer, requires constitutional treatment. S. S. S. is the remedy best fitted for this. It cleanses the blood of all scrofulous and tubercular poisons, makes it rich and pure and under the tonic effects of this great blood medicine the general health improves, the symptoms all pass away, there is a sure return to health, the disease is cured permanently while posterity is protected. Book on the blood and any advice wished, furnished by our physicians, without charge.

Scrofula appeared on the head of my little grandchild when only 18 months old, and spread rapidly over her body. The disease next attacked the eyes and we feared she would lose her sight. It was then that we decided to try S. S. S. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return.

IT'S ALWAYS BAD.

The Best of Backs are Bad When They Ache, And Texas People Know It. A bad back is always bad—Bad at night when bedtime comes. Just as bad in the morning. Ever try Doan's Kidney Pills for it? Know they cure backache—cure every kidney ill? If you don't, some people do. Read a case of it: Mrs. A. Sanderson, of Galveston Island, says: "I had kidney complaint off and on for nearly three years, and it could only at times be described as excruciating torture. To stoop or raise after stooping hurt severely and I could scarcely refrain from yelling. It was hard for me to go up or down stairs or even to lift a light bucket of water. I was always worse in damp and wet weather, or if I caught cold. I wore mustard plasters and tried home remedies, but never found anything to give permanent relief until I got Doan's Kidney Pills. I felt their direct effect on my kidneys the very first night, and in less than a week's time the pain in my back disappeared. A friend of mine was also benefited by using Doan's Kidney Pills. I never met with such a prompt, reliable and effective remedy. For sale by Perkins, Kleas & Mast Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Saturday morning the Nacogdoches cigar factory made its first delivery of cigars made from Nacogdoches tobacco. Twenty-seven orders aggregating forty thousand cigars, constituted the first order, and all except two of them went to Nacogdoches firms, and the full order was valued at \$1500. This is the spirit of harmony that has made Nacogdoches what she is already.—Timpson Times. Frightful Suffering Relieved. Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at Stripling, Haselwood & Co.'s drug store, guaranteed. Taken Up. One black horse, 8 or 9 years old, branded S. S. B. on left hip. By R. F. Fain at Red Field.

To Our Friends:

On the 13th day of December, 1903, our College was burned, and along with it records containing the names of our former students. We have regretted the loss of these records more than any other, as this cuts us off from many of our former students in whom we never lose interest; hence, we ask that all students who were enrolled with us in our old building, write us, giving their present address, what they are doing, etc., also the names and addresses of any other former students you may know of. If there are any who have finished our courses of Bookkeeping, Shorthand or Telegraphy and have not good positions, we would like to help them. We have now one of the most extensive employment bureaus ever connected with a commercial school, and we are receiving on an average of one call a day from business firms for our stenographers, bookkeepers, etc. We are always ready to help our old pupils. We know their loyalty to us. Out off the 959 students who enrolled with us in our new building last year, a great per cent of them were sent to us through the influence of former students. Write us a good, long, talking letter right away; we are always glad to hear from you. We always take time to reply. Your friends, Tyler Com'l. College, Tyler, Texas. Won a Name of Fame. DeWitt's Little Early Risers, the famous little pills, have been made famous by their certain yet harmless and gentle action upon the bowels and liver. They have no equal for biliousness, constipation, etc. They do not weaken the stomach, gripe or make you feel sick. Once used always preferred. They strengthen. Sold by Perkins, Kleas & Mast. Dr. and Mrs. W. J. Campbell received a telegram Monday from McLeansboro, Ill. announcing the death of Mrs. Campbell's father, Dr. John Washburn. There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proved catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by druggists 75c. Hall's Family Pills are the best.
