### Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder diseases in every form, and will build up and strengthen the organs so they will perform their functions properly. No danger of Bright's disease or Diabetes if Foley's Kidney Cure is taken in time. Sold by Perkins, Kleas & Mast.

THE local columns of The Sentinel reveals the fact that there are some farmers in Nacogdoches county who are independent of the meat trust. A local merchant is advertising "country hams, bacon and lard." If every farmer would raise his own meat and a little to sell, it would not be very many years before the meat trust would begin to weaken.

### TRAGEDY AT HEMPSTEAD

Three Dead, Two Fatally Wounded and One Slightly.

From Tuesday's Issue. The news was flashed over the wires last night telling of a most deplorable tragedy at Hempstead. While the full particulars have not been received here yet it is thought the trouble grew out of the local option question.

Mr. E. Hauser received the following telegram this (Tuesday) morning:

Hempstead, April 24. E. Hauser,

Nacogdoches, John Pinckney, H. M. Brown and John Mills killed tonight.

Tom Pinckney fatally wounded; Rowland Brown seriously wounded.

Every thing quiet now. R. A. Campbell.

All the parties connected with this affair are the best citizens of the town of Hempstead. The first named in the telegram is Congressman Pinckney from the Houston Congressional district.

The Sentinel reporter asked Mr. Hauser what could possibly be the matter, to which he replied:

"I am almost sure it was on account of the prohibition question as congressman Pinckney was a strong prohibitionist, and from names in the telegram the other side of the question is represented."

Since the above was put in type another telegram was received stating that Tom Pinckney died this morning.

### Justice Court.

Justice court has been grinding out justice to wrong doers in good big chunks since the last report in these columns.

Gene Davis, the negro, who shot Ernest Russell at Nat a few weeks ago was up before Justice Jones on an examining trial on the charge of assault with attempt to murder. After hearing the evidence in the case Justice Jones placed the bond at \$750 to hold Davis, pending the action of the grand jury. Davis promptly furnished bond with A. J. Spradley and W. M. Hayter as sureties.

A negro crap shooter was up against the real thing when he appeared before the bar of justice on this occasion. Judge Jones chalked up \$20.05 and in default of the necessary wherewith to settle the account, the negro was put out on a convict bond to work out the fine.

A disturbance case was next called on the docket but it proved to be a tame affair and all the revenue the case would produce was \$20.40.

An abusive language case was next up and things got pretty lively for awhile. Judge Jones placed the modest figures of \$26.40 on the docket to square off the account, but the defendant was not satisfied, and gave notice of appeal to the county court.

### BOY BADLY CUT.

Buck Nerren of Lufkin, Attacked by Unknown Parties.

Special to The Sentinel:

Lufkin, April 24.—Yesterday afternoon Buck Nerren, son of City Marshal Nerren, was badly cut by an unknown party. Officers are at work on the case, and it is thought that an arrest will be made today.

Young Nerren is in a critical condition and it is not known at this time just how dangerous the wounds are.

### Lecturers at the Opera House.

The congregation at the opera house are increasing both in number and interest.

Last night Pastor Hale gave a vivid description of the final inheritance of God's people. He said: "Christ came to seek and save that which was lost." Luke 19:10. Then the question came, what was lost?

The man was lost and also his home. When God made everything he gave it to man, Gen. 1:28. But man lost everything by yielding to temptations of the devil. Life, home and all were gone.

Hence Christ calls the devil the prince of this world, John 12:31. Paul calls him God of this world, 2 Cor. 4:4

But Christ gave himself for us, bought our home and now in the judgment will receive from his father the Kingdom, Dan. 7:13, 14. He will come to the earth as King of Kings and Lord of Lords, will smite the nations and they will be carried away and no place found for them, and then Christ's kingdom will fill the earth, Dan. 2:34, 35. This will be the new earth which God has promised in Isaiah 65:17, 22, and also in Rev. 21:1. The theme was beautiful and all seemed to enjoy the discussion.

There will be no meeting tonight, but on Thursday night the prophecy of the 8th chapter of Dan. will be explained.

The East Texas and North-east Texas Teachers associations will meet in Marshall on Friday and Saturday, April 28th and 29th. Quite an elaborate program has been arranged for the joint meeting.

Supt. R. F. Davis of Nacogdoches, is on the program to discuss the "Needs and Results of Supervision." Miss Mattie Vinson, of Nacogdoches, will tell the association "How to Manage the Bad Boy." "Elevation of the Rural Schools" will be discussed by Prof. A. E. Day, of Center.

S. Mrs. Brodie L. Duke (nee Miss Alice Webb) has decided to pay Texas another visit. She is accompanied by her attorney, which is taken to mean that there may be something doing pretty soon.

## YOU WILL MAKE A MISTAKE

if you don't give us your order promptly for a Mower and Hay rake—you will need them before you know it. We sell the two good kinds—DEERING and McCORMICK.

### There are 2 Kinds of Buggies and Surries

The good kind, made to wear and the cheap kind. We have both kinds. Prefer to sell you something good, but if you prefer we can sell you the cheaper. It will be good business on your part to make your selection now while prices are reduced. Pleasant season for driving, too, you know. Perhaps you need some

HARROWS, HOES or other farm tools. You know we are "the people" in these lines. How are you fixed for a Cook Stove? We have been selling Buck's Stoves about 15 years, made lots of friends by it. You will like us too, if you buy of us.

### NEW EXPRESS COMPANY.

J. A. Russ is of the Head of Important Movement.

Fort Worth, Texas, April 24.—J. A. Russ, former superintendent of the Pacific Express Company in Texas, and who recently resigned and was succeeded by T. N. Edgill, of Fort Worth, is now engaged in organizing an independent express company to operate in Texas in opposition to the companies now in the field.

Very little is known here as to the proposition except that the undertaking of Mr. Russ is verified at the local office of the Pacific Express Company. But as to the details nothing is known other than it is the intention of the new company of which Mr. Russ is to be the head, proposes to operate on all railroads now in the state.

It is claimed that under the present anti-trust laws in Texas, the new company has the legal right to do business on all lines and the new company will be organized for the purpose of operating on any railroad line which now permits only one of the present express companies to use its trains.

"A Texas editor, after writing editorials for five years on 'Democratic Success,' for two years on the 'Folly or Populist,' came out last week with only one little editorial, as follows: 'We have at last found the people want the news, and don't care anything more about politics of a weekly news paper, than they do about the warts on the moon.'—Ex.

### MRS. DUKE EN ROUTE.

She is Due to Arrive in Houston Today.

New Orleans, April 24.—Mrs. Brodie Duke, divorced wife of the originator of the Duke Tobacco and Cigarette company and the woman who has figured in several large land deals in Texas, spent today here on her way to Texas, where she hopes to straighten out matters.

She is accompanied by Mrs. Vance and Charles Berry, her attorney. The party left for Houston tonight.—Houston Post.

The Sentinel was presented yesterday with an exquisite bouquet of roses that were grown in the yard of Mrs. Lizzie King, on South Fredonia street. The roses were the finest specimens ever presented to this office. One of the flowers measured 6 3/4 inches across and the smallest one 4 inches. The remarkable feature about these flowers is that the young plants were purchased last spring from Rose Lake nursery Co., and this year they are in full bloom. This is evidence that home grown Nursery stock is the best to buy if good and quick results are desired.

The Sentinel returns thanks to Mrs. King for the handsome Easter bouquet.

Mrs. R. H. Kline, of Center, who has been visiting Mrs. Carter Baker of this city for several days past returned to her home today, to attend her husband who was taken quite sick a few days ago at his home in Center.

THERE is nothing grander or more to be desired than a home where love, christianity, and kindness reigns.

TRAINS from Brownsville, will run into Galveston by next April, and Billy Doherty will be happy.

WITH a good crop of ribbon cane, corn and hogs, the East Texas farmer comes pretty near being the master of the situation.

THE Equitable seems to be of Hyde, for Hyde and by Hyde without the consent of the policy holders.

CHICAGO'S new administration has opened negotiations for the purchase of the street railway system of that city.

DISPATCHES from Austin indicate that the balmy atmosphere of spring has thawed out the Hon. M. M. Brooks gubernatorial boom.

IT is noticed that while there isn't much doing in the Nacogdoches oil fields, there isn't any of this land on the bargain counter.

NAN PATTERSON will be tried by a jury of married men next time. We suggest that Nan's counsel object to all of these who are not baldheaded.

IN Italy, where the natives live on boiled strips of wind wrapped up in dough, the natives are reported as suffering for food on account of a railroad strike.

MR. FINLEY, who engineered the Hearst boom in May last year, announces Judge Brook's candidacy for governor. Mr. Finley evidently aspires to the mantle of some old Warwick.

IN the oratory nitch between the Texas Missouri varsity boys, Texas won by a large majority. We have strong lungs and limber tongues in grand old Texas.

IT is a frequent occasion to hear a farmer make the remark, since Nacogdoches cigars have been put on the market, that they wished that they had made arrangements to plant tobacco this year.

THE general agents of the Equitable Life Assurance society have asked Mr. President Hyde to resign. Mr. Hyde's weekly stipend is large enough to burn a wet dog. He has, naturally, refused to be fired.

THE governor has signed a bill permitting any citizen to sue out a writ of injunction to restrain the owners of any building from permitting gambling therein. The law does not exempt the committee rooms in the capitol.

THE editor of a paper, especially of a daily paper, lives a strenuous life. He is continually under pressure. It ought to be borne in mind that his intentions and purposes are patriotic, and that he is laboring for the good of the country, as he sees it. He surely is not working alone for the little money that is in it. But the editor is frequently cheered by the friendly and flattering expressions of appreciation on the part of patrons. It is not always thus, but frequently.—Tyler Courier.

THE state department has advised Ambassador Porter that an American squadron will be sent to take the body of Paul Jones to the United States, probably in June. It is expected that the French government will participate in an imposing funeral pageant when the body leaves Paris. Detailed plans have not yet been made, but it probably will occur before the French national holiday, July 14. Large forces of French soldiers and sailors will form the escort.

SPEAKING on the Equitable situation, Senator Brackett said: "It is now conceded by everyone connected with the nasty mess that there has been the most extravagant waste of corporation money. The corporation is under the same control now. The scene has so far shifted," declared Mr. Brackett, "that whereas the contest on this company began over the control of its millions, it is likely presently to take the form of a race to see who can keep out of State's prison."

THERE are several papers in Texas which brag mightily over their egg receipts and the wealth their localities are laying up from the products of the hen. It is well. But if they would but stop for a moment to give the matter some thoughtful consideration they would modify their boasts and be content with soft self-congratulation. It requires no special energy or ability to gather eggs. The children can do it. The eggs are laid by hens in the natural economy of nature. Wherein is a man warranted in boasting that he has been out gathering eggs or that his children and wife have gathered them? The laziest and most trifling man on earth can do as well in gathering eggs as the most brilliant and energetic. Hence the newspaper which talks about the grandeur and greatness of its people as shown by the number of eggs they gather is not impressing other people with such grandeur and greatness. That newspaper man who thinks that it is to the honor of a man that he can gather a great many eggs, or to the honor of a community that it sells a great many eggs, is the man who will parade one of its citizens at any moment as a great person because he is the best doodlebug caller in the State. Why the egg gatherer now does not even bestir himself to carry the eggs to town. Buyers call at his house for them.—Galveston News.

## Town Pride.

Only a few more weeks and our little city will be full of visitors from the best and most distinguished families of the state. It strikes us that every man, woman and child should feel an interest in their town to the extent that this crowd of intelligent, cultured women who compose this crowd of delegates from the federated clubs, to visit here in May, shall find every one ready and glad to help entertain them. Don't look upon this matter as a small affair, for it is not. There will be fifty cultured women capable of judging whether or not they receive the proper welcome and entertainment while in the city. The ladies of the town cannot do this alone, but men must help them. When a number of distinguished men, bankers, doctors, lawyers and business men generally visit the town every man is out putting forth his best efforts to show them the best side of the town. Then do the ladies of your homes refuse to help you entertain them? The coming of the federation is to these same ladies much more than the coming of your distinguished visitors could ever be to you, for it is an unusual happening for them, you have these things often, they have them seldom.

If these fifty women are properly entertained and receive the proper welcome, they will do more to advertise the town than twice that number of men could do. Get to work on your town pride, and help your wives, sisters mothers, etc., to entertain their guests in the proper manner. Communication.

## The Lunatic's Explanation.

I met a young widow with a grown step-daughter and the widow married me, then my father who was a widower, met my step-daughter and married her, that made my wife the mother-in-law of her father-in-law and my step-daughter my mother, and my father my step son; then my step-mother, the step-daughter of my wife had a son; of course my brother, because he was my father's son, he was also the son of my wife's step-daughter and therefore grandson.

Then my wife had a son. My mother-in-law the step-sister is also its grand mother because he is her step-son's child; my father is the brother-in-law of my child because his step-sister is my wife; I am the brother of my own son who is also the son of my step grand mother, I am my mother's brother-in-law, my wife is the child's aunt, my son is my nephew and I am my own grand-father.

After trying to explain the relationship some seven times for a fortnight, I was brought here—I came of my own will.—Exchange.

THE Odd Fellows all over the state are donating quite liberally to the fund to rebuild the building destroyed at the orphan's home in Corsicana. Nacogdoches Lodge No. 118 made a very liberal donation at its last meeting.

## COTTON ACREAGE REDUCTION

Gov. Blanchard of Louisiana Issues Proclamation to People.

Gov. Newton C. Blanchard has issued an appeal to the people of Louisiana which is believed to be unprecedented, coming from the Chief Executive of a State.

It is directed to the cotton planters, bankers, merchants and business men of Louisiana urging and appealing to them in language potent and eloquent that the planting season is at hand, that the farmers reduce their cotton acreage this year one-fourth or one-fifth from that planted in 1904.

"Let us plant for no more than an 8,000,000 bale crop this year," says Gov. Blanchard. "It is the only means left of rehabilitating the cotton growing industry of the South and again placing it on the profit-bearing basis."

Waco Times-Herald: At the Brownwood meeting of the Texas Press Association the editors will be invited to smoke Texas grown cigars. These will be furnished by the enterprising city of Hallettsville.

Nacogdoches claims to have in its neighborhood as fine tobacco lands as can be found even in Cuba. The cigar factory has been started in that town, and is in full blast. A late issue of the Sentinel stated that at least a dozen families of cigar makers had moved in. Hence, it is hardly probable that Nacogdoches will permit Hallettsville to show the press boys that it alone has good cigars, and thus get the great advertisement this would bring. We all expect to smoke the Nacogdoches and Hallettsville brands at Brownwood, and there decide which can produce the best cigars.—Dallas News.

Nacogdoches not only claims to have, but has the best tobacco lands, and that what The Sentinel has said about the Nacogdoches cigars is true, the Nacogdoches cigar factory will put up the goods for the gang at Brownwood meeting.

An exchange says: "At a Sunday's dinner in a boarding house not far away a young gentleman boarder was asked by the landlady to say grace. He had never done so before, so all were astonished when he bowed his head and said: 'Hebrew, 13th chapter and 8th verse. Amen.' After dinner they all made a frantic rush for the Bible in the parlor, and it is safe to say that the young man is boarding elsewhere. The verse reads: 'Jesus Christ, the same yesterday, today and forever.'"

## Won a Name of Fame.

DeWitt's Little Early Risers, the famous little pills, have been made famous by their certain yet harmless and gentle action upon the bowels and liver. They have no equal for biliousness, constipation, etc. They do not weaken the stomach, gripe or make you feel sick. Once used always preferred. They strengthen. Sold by Perkins, Kleas & Mast. dw

NACOGDOCHES merchants are always in the market for country hams and lard. Hogs are profitable and every farmer should have four or five extra, every year to sell.

EVERY person holding a bale of cotton that they raised should reduce their cotton acreage, or be willing to accept four cents for what they have on hand.

ONE of Dowies missionaries in China was badly beaten up by amateur boxers the other day. The National government will have to ask for indemnity, as the alleged missionary was an American citizen though The Sentinel is of the opinion that the damages should go the other way.

THOS. W. LAWSON of "Frenzied Finance" fame says that he has expended an average of \$70,000 per month for the past ten months in conducting his campaign. He says: "I am now realizing that while my spirit is willing my bank account is weak."

IT's to be hoped that the farmer who is making a feeble stab at diversification this year will find it profitable to such a degree that he will continue in well doing.

THE third number of the Houston Methodist, Rev. Ellis Smith editor in chief, has been received. It is published in magazine form and is "chuck" full of good Methodist reading and is a credit to the Methodists of Houston.

REPRESENTATIVE BLOUNT, who was at one time honored with the accusation of representing Nacogdoches county—though erroneously—announces that he will be a candidate for congress from the seventh district. We don't blame him for feeling puffed up.

MORMON elders are organizing to colonize 46,000 acres in Mexico with a lot of clumps whom the public school system and all the other institutions of this country cannot convince that one wife at a time is a plenty. Mexico is welcome.

THE Standard Oil Company renders two million dollars worth of property for taxation in Kansas. If we had all that stuff in Kansas we would sell out and go to Europe for the summer.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proved catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. Cheney & Co., Toledo, O. Sold by druggists 75c. Hall's Family Pills are the best.

## Profits in Fruit and Truck.

Following is a list of what was grown and sold from a farm of forty-five acres near Nacogdoches, owned by Mr. T. E. Burgess, in 1904, being net prices after all expenses were paid:

- 50 plum trees brought \$55.25
- Four acres peaches 1212 crates, 72c ..... 872.64
- Four and half acres tomatos, 1180 crates, 46c..... 542.80
- Two acres Irish potatoes, 240 bushels, 78c..... 187.20
- One acre strawberries. 172.85
- Three acres sweet potatoes, 375 bushels, 55c..... 206.25
- Three acres in cabbage, beans, peas, onions, turnips, mustard lettuce, egg plants, radishes, peppers, carrots, squash, cucumbers, water-melons, and canteloupes.... 202.45
- Five beeves..... 70.00
- Four pigs..... 20.00

\$2332.44

Produce raised on farm for home consumption, not sold, 185 bushels corn, three acres oats, fifteen tons crab grass, pea vine and peanut hay, sixty-five gallons cane syrup, 800 pounds of pork, 125 pounds lard, 300 pounds beef, eighty-five gallons preserves, jellies and canned goods, all the fruit, vegetables, poultry, eggs milk and butter the family and labor could use. Two mules, four young cows, ten pigs, etc. Estimate value of above is about, \$500—National Rice and Cotton Journal.

## Last Hope Vanished.

When leading physicians said that W. M. Smithart, of Pekin, Ia., had incurable consumption his last hope vanished; but Dr. King's New Discovery for consumption, colds and coughs, kept him out of his grave. He says: "This great specific completely cured me, and saved my life. Since then, I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific cure for coughs, sore throat or colds; sure preventive of pneumonia. Guaranteed, 50c and \$1.00 bottles at Stripling Haselwood & Co.'s drug store. Trial bottles free. dw

IT may be best not to reduce and take four cents for crop. If you think so all you have to do is to plant the same acreage in cotton this year.

## A Daredevil Ride.

often ends in a sad accident. To heal accidental injuries, use Bucklen's Arnica Salve. "A deep wound in my foot, from an accident," writes Theodore Schuele, of Columbus, O., "caused me great pain. Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at Stripling Haselwood & Co.'s druggist. dw

The news comes from Austin that the Governor has received petitions requesting him to veto the Hancock pool room bill because of the exemption in favor of race tracks. Also that some of the pool room people are protesting against the bill. We hope that the Governor will not be influenced by these representations against a meritorious measure. It is passing strange that anybody should oppose the bill upon the ground named. For more than fifty years we had betting at the race tracks in Texas and no one ever thought of having a law passed to stop it until two years ago, when the pool room people offered an amendment to that effect, for the purpose of killing the bill, which meant to put them (the pool room people) out of business. The bill was not killed but the amendment killed the fairs of Texas. Extreme efforts at reform never amount to much. A denial of comparatively innocent amusements invariably results in a resort to vicious substitutes. It has been demonstrated that the fairs can be killed by law. It remains to be seen whether the pool rooms can be put out of business. Thus fighting the fairs if but playing into the hands of the gamblers, and we are astonished to find that many good people should lend themselves to this scheme. Would they prefer that there should be no effective law against the pool rooms rather than that fairs should be exempted?—Dallas News.

### Forget About Your Stomach.

If your digestion is bad the vital organs of your body are not fed and nourished as they should be. They grow weak and invite disease. Kodol Dyspepsia Cure digests what you eat, cures indigestion and all stomach troubles. You forget you had a stomach from the very day you begin taking it. This is because it gets a rest—recuperates and gradually grows so strong and healthy that it troubles you no more. Sold by Perkins, Kleas & Mast.

**Nettles—Lang.**  
 Mr. Joe Nettles and Miss Nora Lang were married last night at 8 o'clock at the home of the bride's parents, Mr. and Mrs. Samples, on Pecan street, Judge Berger officiating. Mr. Nettles is an employe of Hayward mill. Immediately after the marriage the bride and groom went to their cottage home awaiting them at Hayward mill.

The Sentinel extends congratulations and best wishes to this young couple.

### Health is Youth, Disease and Sickness Bring Old Age.

Herbme taken every morning before breakfast will keep you in robust health, fit you to ward off disease. It cures constipation, biliousness, dyspepsia, fever, skin, liver and kidney complaints. It purifies the blood and clears the complexion. Mrs. D. W. Smith, Whitney, Texas, writes April 3, 1902: "I have used Herbme and had it the best medicine for constipation and liver trouble. It does all you claim for it. I can highly recommend it." 50c a bottle at Perkins, Kleas & Mast.

### The Right Name is DeWitt.

DeWitt's Witch Hazel Salve cools, soothes and heals cuts, burns, boils, bruises, piles and all skin diseases. K. E. Zickeloose, Adolph, W. Va. says: "My little daughter had white swelling so bad that piece after piece of bone worked out of her leg. DeWitt's Witch Hazel Salve cured her." It is the most wonderful healing salve in the world. Beware of counterfeits. Sold by Perkins, Kleas & Mast.

It is indeed refreshing to visit the schools of our town and note the great improvement which has been made in the past few months. To look over the auditorium filled with bright boys and girls with such beautiful surroundings and to note the interest with which everything is being done, makes us proud of our teachers and our town which have brought about these improvements.

### Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's kidney Cure I feel better than I have for twenty years, although I am now 91 years old. Sold by Perkins, Kleas & Mast. eodw"

HON. M. M. BROOKS wants it understood that he is running on a prohibition platform. We do not object. The Sentinel has always been pro. But, we would call the attention of Judge Brooks to the fact that a great many people who vote the pro ticket keep gallon jugs around their premises, hence it will be unnecessary to preach total abstinence to "stand in."

Make the breath as sweet as a rose by curing indigestion, and sour stomach with Kodol Dyspepsia Cure. A pleasant, palatable, reconstructive tissue-building digestant. E. L. Babeock, Amherst, Minn., says: "I have taken a great many remedies for indigestion but have found nothing equal to Kodol Dyspepsia Cure." Kodol digests what you eat, cures indigestion, dyspepsia, sour stomach, belching, heartburn and all stomach troubles. Great care is used in the preparation of Kodol—the greatest digestant that has ever been discovered. Sold by Perkins, Kleas & Mast. dw

AFTER July 14th, all packages containing intoxicating liquors will come into local option precincts branded: "Intoxicating Liquors" in large letters. No provision is made for packages fused oil, gaso-gasoline and shoeblacking, turpentine and soft soap. Somebody's Pain-Killer and chili gravy, commonly sold in this territory at \$3.20 delivered.

Mrs. E. A. Blount and little son, of San Augustine, was in Nacogdoches this week.

Misses Eva and Rosa Ingraham, Jennie Harris and Ellie Seale, accompanied by Allen Seale, visited Melrose last Sunday.

Misses Emma and Susie Wilms, of Tyler are in the city on their way to visit relatives in Sabine county.

Allen Seale attended the wedding of Mr. Charles Perkins and Rusk county last week.

Messrs. T. H. Summers & Son are now running the bus and mail line to and from the depot.

Judge Ingraham occupied the bench again this week, during the absence of Judge Perkins, who went to Rusk to convey his sick mother.

J. H. Thomas has rigged up a delivery wagon for the convenience of his town customers and desires everyone to remember that goods purchased at his store will be delivered at their residence free of charge.

Misses Ada Simpson and Hittie Clark, two of the brightest and most affable young ladies of Nacogdoches gave The Chronicle a friendly call Monday.

Dr. J. T. Hoya and J. R. Buchanan returned yesterday from Galveston. The Doctor looks much improved in health.

Dr. W. I. M. Smith of Chireno, left last week for New Orleans where he will spend the summer attending medical lectures.

The D. T. S. Club met at the Hart hotel Thursday night with an unusually large attendance. The first lady's prize was won by Mrs. B. S. Wettermark; Booby by Mrs. E. C. Branch. The first gentleman's prize was won by Dr. F. C. Ford; Booby E. A. Wilson. The next meeting will take place at the residence of Judge Ratcliff next Thursday night. Miss Heovel Ratcliff, assisted by Miss Ellie Seale will entertain.

Miss Carrie Baker has returned home from a protracted visit to Miss Ida Martin at Martin City. Miss Ida accompanied her home, and will spend several days with friends in Nacogdoches.

F. L. Ingraham Esq., and his sister, Miss Eva, left last Friday for Tyler to attend the wedding of their friend, Miss Leta Partin. They visited the Spring Palace at Fort Worth also.

John P. Davidson of Dallas is back among his old friends here again. Wonder if he will not return to his first love and resume his abode here.

His wife is still in poor health. He left her in Terrell with his friend Dr. Griffith.

Mr. and Mrs. Geo. H. Matthews returned from Oil Springs Saturday, where they had been for the health of their baby girl. She is much improved.

Judge Ingraham, Ratcliff

### THE SECRET OF SUCCESS

"No, Sir! You cannot palm off any substitute on me. I've been using August Flower since I was a boy, and I'll have no other."  
 Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unflinching success in the cure of indigestion and dyspepsia—the worst enemies of health and happiness? Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders?—that it is the best of all liver regulators? August Flower has a matchless record of over 37 years in curing the ailing millions of these distressing complaints. Two sizes, 25c and 75c. All druggists.

## AWAKENING OF EAST TEXAS.

Mr. Robert Lindsey of Nacogdoches was called upon to make an address. He said that he was born at Nacogdoches, Tex., and thought he knew something of the resources of Texas, but he had been no little instructed by the lecture of Dr. Attwater. He said that Dr. Knapp and the Southern Pacific railroad had done a great deal to develop Texas in showing how the most could be derived from the soil. Four years ago, said Mr. Lindsey, the farmer of East Texas knew nothing but cotton, but now he is growing tobacco at 15c per pound and getting from 600 to 800 pounds per acre, yielding a net profit of \$80. This was accomplished, he said, without shading the tobacco. He adverted to the recent establishment at Nacogdoches of a cigar factory which was selling all of its products. He said that the Texas 5c cigar is as good as the imported article at double the price.

Mr. Lindsey observed that upon the application of a young man he had permitted him to plant Irish potatoes in his Elberta orchard which were disposed of at \$50 net per acre, and which produced 136 bushels per acre. He said that this plot of ground had produced the young man \$942.

At Red Field \$164 per acre had been netted from tobacco culture. Strawberries were producing, Mr. Lindsey said, from \$100 to \$185 per acre. To substantiate this statement Mr. Lindsey declared he could produce affidavits from every business man of Nacogdoches.

From forty-five acres sold to a coast farmer the speaker said a Mr. Burgess had netted a profit of \$3,232.44, which was produced from various fruits, vegetables, various other crops and live stock (calves and hogs.) The amount above stated did not include some crops reserved for the farmers' own use. This was accomplished, however, by the farmer "keeping busy" and not spending half of his time in talking politics, etc.

The above is from the Galveston News, and is a synopsis of Mr. Robert Lindsey's speech at the Northern Settlers convention which was held in Galveston. In connection with the above The Sentinel will state for the information of its readers in the old states that Mr. Lindsey's statement is exceedingly conservative and is not tinged with exaggeration in the least. In fact there are other farmers and truckers who have banking profits every year from small investments.

THE Austin correspondent of the Houston Post says M. M. Brooks will be the local option candidate for governor. This correspondent is expressing a wish rather than a fact. Judge Brooks is a democrat, and will be a democratic candidate, and if the local optionists support him rather than another, they will merely exercise the right of a democrat to vote for the democrat of his choice.

## "KING COTTON."

Our friends in the south have always been talking about "Cotton being King," and a few months ago it looked like it might be the entire "royal family" from the price it was demanding, but you must bear in mind that it was just before the election, and this "high priced cotton" caused many who would not vote directly for Roosevelt to stay at home and take care of the baby, which enabled Mr. Roosevelt's popular vote to reach what it did, but at the present time "King resembles a petticoated queen of some South American Dynasty—But what's the use of keeping the price of cotton up any longer, as the election is over and the 'con' has been worked.—National Rip Saw.

As the season advances and the rain continues to fall and retard farm work, more and more apparent it is much land—at least in this immediate section—will be planted to cotton that would otherwise have been put in something else. The Chronicle cannot refrain from again raising a warning voice against this. It will result in an increase of acreage but not in an increase of cotton because of the lateness of getting it in and the impossibility to properly prepare the ground. It is not mere newspaper talk to say we have boll weevils here—at least, we did have them and they are scheduled to show up with strong re-inforcements about July 25. The late planted cotton will still be young and the squares younger—and the boll weevil will do the rest. Further, the increased acreage will induce the buyer of cotton to conclude that there will be another big crop and the price will be down till it is proven that the crop is not so large. Better plant the spare land to cow peas, sorghum and other crops. Better let it go uncultivated than plant it to cotton.—Wills Point Chronicle.

### Spring Near in New York.

Spring is hitting the high spots around New York. Mountain-climbers in the nearer wilderness of New York state reported the first pink blooms of trailing arbutus yesterday. Around West Point the buds were not yet fully developed except in favored nooks. On the warmer exposures of the southern and western hills near Turners and Tuxedo the fragrant spring blossom was found in bunches. In City Hall Park the trees are showing green sprouts and the early trees of Central Park are sending out pale green shoots.—Houston Chronicle.

Think of it, nearly May and all East Texas has been robbed in green and enjoying the luxuries of the finest flowers grown on earth for more than a month and our New York friends are just getting their first sight of a "pink blossom."

THE main witnesses in the beef trust cases are disappearing, and the trust officials swear they do not know wherefore. Some enterprising newspaper might secure a competent circulation liar from the trust board of directors.

Santa Anna News: Roosevelt takes the sensible view in directing that his visit to Texas be made as plain an affair as possible. At Dallas he requested that two horses only be used with his carriages, where the committee had decided to have six white horses. The people admire the simple life even in the highest official.

Nothing so commends a man high in place to the American people, and particularly to the Southern people, as what may be termed "naturalness." "In other words, the average man does not like affectation in any one, and particularly in a man who holds a high office. It is one of the most difficult things for a high officeholder to hold himself evenly balanced. Many of them began to squint toward the crown of his head to see if they can not see the halo which they know is there. Roosevelt does not seem to be this kind of a man. He is natural, though unusual. He has ways that makes a man halt between laughter and admiration. He continually protests that he is not better than any other square man in the country, and appears to be honest in that statement. Anyhow, he would not have four horses in Dallas, and he did not want any distinguishing marks anywhere as he rode around.—Dallas News.

IT all depends upon the locality, if the following had occurred in Texas every paper in the north would have editorials a column long condemning the action of Southern men in protecting the fair name of Southern women, by ridding the country of such characters as referred to in the dispatch from Columbus, Ohio: "A mob tried to lynch George Copeland, a negro, today at Mt. Vernon, Ohio. He was arrested by Sheriff Shellenberger for the murder of Miss Miranda Bricker, white. The sheriff hustled him into an automobile and took him to Newark. The mob is still angrily crying for Copeland's blood."

A MILWAUKEE bank president touched his bank for a million and a half and lost it on 'change. ## DEAN OF THE DEATH-HOUSE.

Albert T. Patrick, who was convicted of the murder of Millionaire Rice such a long, long time ago, has again dropped out of sight and fallen away from the public interest. Two years ago a man who remembered the case made a \$10 bet that he had been electrocuted, and lost, of course.

Patrick is yet a long way from the chair, toward which he had seen a score of men walking. Already it has cost the state nearly \$300,000, and no one knows how much it has cost Patrick. Certainly the total cost of the whole wrecked business is equal to the vast sum for which Patrick is said to have murdered the old man. All records have already been broken in this remarkable case.

A number of lawyers employed on both sides of the case have died, and at least three of the jurymen who convicted him have passed either to the place where they thought they had sent him or to the other. Patrick, in the meantime, is still alive and chipper and hopeful.

The case is now in the appellate court and there is a stack of papers as high a haystack to be read before they begin to decide. Then there is another court to which the case may be brought, then the governor. If Patrick ever goes to the un-upholstered chair he will have the satisfaction of knowing that he was summoned thither by the costliest rush telegram ever sent.—Houston Chronicle.

### IT'S ALWAYS BAD.

The Best of Backs are Bad When They Ache, And Texas People Know It.

A bad back is always bad—Bad at night when bedtime comes.

Just as bad in the morning. Ever try Doan's Kidney Pills for it?

Know they cure backache—cure every kidney ill?

If you don't, some people do.

Read a case of it: Mrs. A. Sanderson, of Galveston Island, says: "I had kidney complaint off and on for nearly three years, and it could only at times be described as excruciating torture. To stoop or raise after stooping hurt severely and I could scarcely refrain from yelling. It was hard for me to go up or down stairs or even to lift a light bucket of water. I was always worse in damp and wet weather, or if I caught cold. I wore mustard plasters and tried home remedies, but never found anything to give permanent relief until I got Doan's Kidney Pills. I felt their direct effect on my kidneys the very first night, and in less than a week's time the pain in my back disappeared. A friend of mine was also benefited by using Doan's Kidney Pills. I never met with such a prompt, reliable and effective remedy.

#### MELROSE MUSINGS.

Melrose, Texas, April 25.— Look there! See? Joseph and a few helpers are laying the body of Jesus away in the tomb! The stone is rolled against the door. Wait! Watch! The morning of the third day is dawning. There is an earthquake! The guards become as dead men! The angel rolls away the stone! The living Christ comes forth; sound the praise of victory all ye people for eternal life is our's through our risen Savior; we call the day Easter Sunday. The little folks are all glad the good lady went on that Island many, many long years ago and taught those poor children the first Easter egg hiding we have on record. The grown up children are glad too. Miss Iva Gilligan gave an egg hiding Sunday evening with three prize eggs which brough the finders all a nice cake apiece. They were cut on the grass and all enjoyed the eating.

Mrs. Gaston was bitten by a rattle snake while hiding eggs.

The church was decorated at Simpson's camp ground Sunday. Rev. John Wilson preached. The people organized a good Sabbath school.

#### Our School To The Front.

It should be a matter of some pride that our schools have been given the recognition and importance of two places on the program at the Marshall Teachers' Meeting. Excepting the State Teachers' Association, which meets next December at San Antonio, this probably is the most prominent convention of teachers in the state, and our representatives, Supt. Davis and Miss Vinson, should feel that it is a not of no little distinction to be assigned places on this program, while our people feel gratified at the progress of school conditions in our midst.

#### THE PER DIEM BILL.

Carrying \$30,000 For Special Session Encored When Introduced.

Austin, Texas, April 24.— The house had a quorum this morning, 100 members being present.

Excuses for absence swamped the speaker. It required half an hour to straighten things out. The per diem bill appropriating \$30,000 to pay members for the extra session was introduced. This caused applause.

Terrel (McLennan) introduced a resolution requesting the governor to submit the democratic platform demands to the special session. It went over.

Resolutions were adopted providing for the appointment of eight clerks and eight porters.

Governor Mickey of Nebraska addressed the house at noon. Governor Lanham in introducing him said he was glad he was here, as he had helped to get a quorum.

The senate did not have a quorum today.

The directors of the Agricultural and Mechanical College are here and say that they will be satisfied with a \$267,000 appropriation, what the college had two years ago.

#### Advantages of Large Schools.

Large Commercial schools have many advantages over small ones, among which are (1) inspiration and enthusiasm of numbers; (2) better instruction—large, well established schools can afford to hire better teachers, a specialist to teach each subject, while in a small school, one or two teachers must teach everything; (3) a wider classification of pupils; (4) more extensive business offices, banks, and other equipments, and more thorough work resulting therefrom (5) a wider range of helpful friendship, wider reputation and better chances for securing good positions. No inferior school ever built up and held a large patronage.

Take for instance, a school like Tyler Commercial College of Tyler, Texas. This school enrolls about 1000 students from all parts of the United States—nearly twice that of any other Southern business college. They have a specialists to teach each subject and such an extensive system of business offices, banks, etc., that when a student finishes there he doesn't have to learn over before he can hold a position. And in spite of the large attendance, it is said they never fail to place every worthy student in a good position. itw

#### APPLEBY LOCALS.

The Farmers Despondent—School Entertainment a Success.

Appleby, Texas, April 24.—The long continued rain has cast a gloom of despondency over the farmers. Very little cotton planted and some not done planting corn yet.

On last Friday Appleby celebrated San Jacinto Day in grand style. The Stong Fort Rifles of Nacogdoches were here and gave an exhibition of their skill in military tactics which was an honor to their leaders and themselves also.

The supper given to raise funds to insure the school building was a grand success. Never was there a time when people responded to a community's call any better, just large quantities of provisions left after the crowd was led. The ring and cake contests were very interesting indeed. Miss Lizzie Caraway won the nice cake, and Miss Annie Jordan won the rubby ring. The total amount received that night was \$58.05 with three or four dollars to come out for expenses. Many thanks to all who assisted in furnishing and patronizing the supper.

The W. O. W. held one of the most interesting meetings Saturday night held for several months.

Mr. Henry Atkinson, postmaster at Caró, is staying here for a few days on the account of an attack of appendicitis.

Dr. W. G. Hartt will leave tomorrow to attend the State Medical convention at Houston. Dr. Samuels may also go.

#### AN OPEN LETTER.

A Few Pertinent Facts Briefly Stated.

To the People of Nacogdoches and Vicinity:

There are some people in this community who are not using Prophylactic Germicidal Tablets. We want it to be different. We want to be able to say before the end of this year that everybody everywhere uses Germicidal Tablets.

We sell Germicidal Tablets first.—They sell themselves afterwards.

—And why, you ask? Simply because every person who is sick wishes to be well, and every person who is well wishes to continue well; and every one who uses Germicidal Tablets knows those very purposes will certainly be accomplished by the use of Germicidal Tablets.

#### PROPHYLACTIC GERMICIDAL TABLETS.

This tablet is the result of many years of scientific and chemical research. In a sense it is the concrete expression of centuries of pathological investigation.—To the scientist who discovered the formula and to this age of marvelous scientific advancement was reserved the honor of perfecting what has been the dream of centuries—a therapeutic agent that would search out, arrest and destroy the cause of diseases. That agent has been discovered and perfected in Germicidal Tablets. It has long been known that a large class of diseases arise in consequence of the settlement of certain plants and animals in the human organism. Only of late years have we discovered that the domain of these parasitic disorders is of so wide and far-reaching extent. We now know that the bacteria (germs) is the cause of the greatest number of our commonest diseases, and the scientific research of the period, indicates an extreme probability that the whole range of human disorders is of bacterial (germ) origin.

Bacteriology (the science of germs) is today the most important subject, and receives more time and attention in all the leading medical colleges throughout the world than any other branch of medical science.

#### DISEASES NOW KNOWN TO BE CAUSED BY GERMS.

Catarrh, consumption, sores, liver troubles, asthma, bad blood, gout, pneumonia, coughs, rheumatism, eczema, skin disease, colds, scrofula, syphilis, tuberculosis, colic, bronchitis, ulcers, hay fever, cancer, biliousness, quinsy, tonsillitis, piles, neuralgia, dropsy, pleurisy, tumors, Bright's disease, chills, gall stones, croup, kidney disease, malaria, erysipelas, fevers, women's diseases, salt rheum, stomach troubles, anaemia, diarrhoea, la grippe, leucorrhoea, abscess, blood poison, weak eyes, throat troubles, influenza, gonorrhoea, dandruff, dyspepsia, sore throat, varicocele, all inflammations, all contagions.

Germicidal Tablets will prevent the inception of any germ disease under normal conditions, and will destroy the dis-

ease germs under all conditions.

When the cause of any disease is removed the disease disappears.

Germicidal Tablets, the most marvelous curative agent produced in the history of the world, will surely, certainly and speedily cure any germ disease, and it is the only remedy on earth that will do so. If you have a germ disease you must take Germicidal Tablets to be certain of a cure. They are their own best advertisement. No other medicine is ever used or recommended by those who have once used Germicidal Tablets. They never fail to cure—they cannot fail. No other principle can destroy disease germs in the human organism, and no other therapeutic agent on earth is based on the principle underlying Germicidal Tablets.

Germicidal Tablets are sold exclusively to the consumer.

They are shipped direct from our laboratory. We take no chances on substitution. The tablets are very expensive to produce. We must get from them ourselves the price at which we sell them. Were they sold through dealers, and the usual profits added, the price would be practically prohibitive. By our method we know you get what you order, and at a price within the reach of all. There are certain houses selling proprietary medicines—some of them long established and of great financial strength—which find it necessary to give away free samples, free trials, free demonstrations, and free what not, to circumvent the enormous sale and growing prestige of Germicidal Tablets. These devices have been distinguished chiefly by their failure to accomplish the purpose intended. They have not fooled the man or woman of experience, for such persons know full well they never get something for nothing in this world. Be not deceived into taking medicines which only affect the symptoms of disease, and afford at best but temporary relief; for with the passing of their temporary effects, all your troubles will begin afresh. The only way to cure a germ disease is to eradicate the cause, root and branch, and Germicidal Tablets is the only medicine that will do it. Wherever Germicidal Tablets are used disease is becoming more and more infrequent. The physician who sticks to old methods is rapidly losing prestige. Those who adopt Germicidal Tablets in their practice grow quickly in reputation and success. The man or woman suffering from any germ trouble who takes Germicidal Tablets gets well—that is the important point to you. If you have a germ trouble of any kind, Germicidal Tablets will cure you as certainly as that the sun will rise again and once cured you will stay cured.

**Tobacco Soils.**

The following is an extract from the report of soil experts sent by the Department of Agriculture to investigate the soils in the different parts of the country as to their adaptability to tobacco culture, as published in the United States Tobacco Journal:

"In their report on the survey of the Nacogdoches area, Texas, Messrs. Hearn and Burgess give as their opinion that the Orangeburg clay is adapted to the growing of 'fine Cuban filler-leaf tobacco.' Expert J. E. Lapham, in charge of the Woodville area, Texas, says that the Orangeburg sandy loam soil in that region 'is believed to be unexcelled for growing the highest type of Cuban filler tobacco.' The same opinion has been reached in regard to the Orangeburg clay on the Jacksonville area in Texas."—National Rice and Cotton Journal.

**Appleby Celebration.**

Appleby is celebrating San Jacinto Day with great eclat and about half our population is in attendance. The Stone Fort Rifles left on the noon train to give some exhibition drills. The Fory Fusileers, of Timpon, are also on the ground to assist in the day's entertainment. A supper will be given at the school house tonight at which time the vexed question of the most beautiful young lady will be settled by ballot, the proceeds to be devoted to the school.

The occasion will doubtless be one of pleasure to all who attend.

**Burglars Arrested.**

Ed Morgan, Oscar Binyon and another man whose name The Tribune failed to learn, were arrested Tuesday afternoon by Sheriff R. V. Watts and a posse of able assistants and landed in jail on a charge of burglary, they having about noon that day entered a building near the railroad in the northern part of the city, and appropriated about \$75 worth of clothing belonging to Dixon F. Abney, he having his house hold goods stored in the building. Sheriff Watts was soon on the scene with his dogs, however, and in a few hours had the bunch behind the bars. They are all young men and not bad looking individuals by any means. They were without money when arrested and doubtless bumming their way through the country in preference to working. Since being arrested one of them told Sheriff Watts that they were all wanted in Dallas for highway robbery and that a reward of \$250 was offered for their arrest.—Lutkin Tribune.

**Rheumatic Pains Quickly Relieved.**

The excruciating pains characteristic of rheumatism and sciatica are quickly relieved by applying Chamberlain's Pain Balm. The great pain relieving power of the liniment has been the surprise and delight of thousands of sufferers. The quick relief from pain which it affords is alone worth many times its cost. **PERFECT ASSIMILATION**

Some people eat heartily, even ravenously, yet nothing seems to "stick to their ribs". Others don't eat much, but assimilate all nutriment in the food and get fat. We have letters from people who say that

**Dr. Caldwell's Syrup Pepsin**

makes them fat. It doesn't. It simply gets their digestive organs in shape to take the nutriment out of the foods which they eat. It also acts as a gentle laxative and tonic. Please try it.

A. C. Jones, of Hortonville, Ind., writes: "I can say for Dr. Caldwell's Syrup Pepsin that it is one of the best medicines I ever have taken; in just sixty days after I began to take your medicine, I had gained 30 pounds in weight, felt like a new man and I can highly recommend it to any one who is troubled with Indigestion or Dyspepsia."

Justice court presented quite a lively appearance yesterday morning and to the casual visitor it looked like district court proceedings. A case from out in the suburbs was up for disturbing the peace, and the number of witnesses, and friends of interested parties, brought a tull house when court was opened.

Several minor cases were on docket and all in all yesterday was "busy day" in the Justice court.

**Chamberlain's Cough Remedy the Best and Most Popular.**

"Mothers buy it for croupy children, railroad men buy it for severe coughs, and elderly people buy it for la grippe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. **SAN JACINTO DAY.**

Appropriate Exercises at the Central School.

Beautiful and appropriate exercises were held at Central school this morning in remembrance of the day on which our grand and noble Texas received its independence.

The Main feature of the occasion was the presentation of a beautiful Texas flag presented by the C. C. Club to the school.

The exercises were opened by a song by the little folks of Central school, after which Prof. R. F. Davis in a pretty and most impressive speech, introduced the representatives of the C. C. Club, Mesdames R. C. Shindler, E. M. Dotson and G. H. Matthews. Mrs. Shindler in a most appropriate and impressing speech presented to the school this pretty flag made by her for this occasion. In her address she stated the fact, that her mother, Mrs. S. W. Blount, Sr., helped make the first Texas flag.

After Mrs. Shindler came Mrs. G. H. Matthews, who in a few most befitting remarks impressed on the school as well as the visitors present the love and honor that should at all times accompany the flag of their state.

Mrs. E. M. Dotson's remarks were of Sam Houston, who made this day possible, and surely no better subject could have been selected and, judging from the appreciation and applause of her audience, no one could have better handled it.

Prof. R. F. Davis read a letter which was written by Sam Houston to David Burnett a few days after the battle of San Jacinto, which was very instructive as well as interesting.

These most interesting exercises were brought to a close by a song, "The Texas Flag," sung by the girls of Central school.

It is the intention of these ladies to give to the schools of this city the six flags under which Texas has lived, this is only a beginning. Mrs. Shindler wishes us to state to the pupils of West End school that she is now at work on a flag to be presented to them as soon as completed. These flags are to be used on all Texas memorial days, by the school.

**For a Weak Digestion.**

No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial. Thousands have been benefited by their use. They only cost a quarter. For sale by Perkins, Kleas & Mast.

**Constable's Execution Sale.**

The State of Texas, County of Nacogdoches.

In Justice Court, Precinct No. 1, Nacogdoches County, Texas. Seale & Donegan vs. W. R. Greer.

By virtue of a certain writ of alias execution issued out of the justice court of precinct No. 1, Nacogdoches County, Texas, on a certain judgment rendered in said court on the 28th day of March, A. D. 1904 in favor of Seale & Donegan against W. R. Greer, I did on the 31st day of March, 1905, at 3 o'clock p. m., levy upon the following tract and parcel of land situated in the County of Nacogdoches, State of Texas, and belonging to the said W. R. Greer, being all of the light title and interest of W. R. Greer in and to the same, to-wit:

Situated one-half mile north from the town of Sacul, in Nacogdoches county, Texas, and is bounded as follows, to-wit:

Beginning at the northeast corner of the Moses Walters one-third league, thence west with the north boundary line 1210 vrs to a rock for corner, thence south 183 6-10 vrs to a rock for corner, thence southeast 1210 vrs to a rock for corner, a sweet gum and a post oak for witness trees, thence north 183 6-10 vrs to the place of beginning, containing 39 1/2 acres of land, more or less, situated in the northwest corner of Nacogdoches county, Texas, on the New Salem and Douglass road. And on the 1st Tuesday in May, A. D. 1905, same being 2nd day of said month, between the hours of 10 a. m. and 4 p. m. at the court house door of Nacogdoches county in the town of Nacogdoches, I will sell at public auction for cash to the highest bidder, all the right, title and interest of the said W. R. Greer in and to the said tract and parcel of land levied upon as the property of said defendant W. R. Greer to satisfy a judgment in favor of Seale & Donegan, plaintiffs, for the sum of \$208.45, together with all cost of said suit. The proceeds of said sale to be applied to the satisfaction of said judgment.

### About Rheumatism.

There are a few diseases that inflict more torture than rheumatism and there is probably no disease for such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by Perkins, Kleas & Mast. dw

The following paragraph, which originated in some Eastern journal, is both truthful and timely: "The only sure way for a town to get every good thing and public utility it goes after is for its citizenship to stand solidly together on every question affecting the general good. There is nothing necessary to a town's progress and solid development that cannot be obtained by a united and persistent effort on the part of its citizens. The amount of money one contributes is only secondary to a loyal, sympathetic support. It requires something more than the mere donation of money to secure success, and where the money support is backed by a loyal civic pride, united effort gets whatever it goes after."

The clubs, lodges, and societies are very nice as well as edifying, and all who can should attend, but don't let yourself become so "wrapped up" that your love and duty at home is neglected.

Nacogdoches, Tex., April 22, 1905. The Sentinel—For the advancement of a community it is proper and right that Stock companies be organized. We have situated in the city of Nacogdoches several chartered institutions, and they all seem to be paying investments, and the town is in a prosperous condition, but we have a proposition staring us in the face that is very important to every citizen of this community. We have, as the civilized world know an oil field in this county that surpasses anything known to mankind. The only drawback to which is its isolation, in a short time these disadvantages will be overcome by the Nacogdoches South Eastern railroad penetrating centrally the oil field. Now, if the citizens of the town will get together and subscribe capital enough to develop a portion of this field, the probability is that the town will be greatly benefited by landing headquarters here for the out put of the field otherwise if we await capital from a distance to develop this field, taking Sour Lake, Batson Saratoga and Humble as a criterion, a town will spring up at some point in the oil region not yet known that will outstrip in six months the entire population of the city of Nacogdoches and the product of the field turned to other points. Now is the time to put the ball in motion as, the oil promoters have their eyes on this territory and are watching daily the progress of the Nacogdoches Southeastern railroad.

## Dyspepsia of Women

ABSOLUTELY NECESSARY AGONY  
Caused by Uterine Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by a derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has peculiar uterine-tonic effects also.

As proof of this theory we call attention to the case of Mrs. Maggie Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pinkham's Vegetable Compound after every-thing else had failed. She writes:

"For two years I suffered with dyspepsia which so degenerated my entire system that I was unable to attend to my daily duties. I felt weak and nervous, and nothing that I ate tasted good and it caused a disturbance in my stomach. I tried different dyspepsia cures, but nothing seemed to help me. I was advised to give Lydia E. Pinkham's Vegetable Compound a trial, and was happily surprised to find that it acted like a fine tonic, and in a few days I began to enjoy and properly digest my food. My recovery was rapid, and in five weeks I was a well woman. I have recommended it to many suffering women."

No other medicine in the world has received such widespread and unqualified endorsement, or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

### A Tribute of Respect.

Whereas the Great ruler of the universe has in his infinite wisdom, removed from earthly life our worthy and esteemed example, the Hon. John H. Reagan; and

Whereas, the intimate relationship between him and this Society makes it fitting that we record our appreciation for him, therefore,

Resolved, That the wisdom and ability and liberality he exercised toward both the state and this society will be held in grateful remembrance.

Resolved, That the sudden removal of such a man from our state and such a model from from our Society, by both of which he was honored and esteemed, leaves a vacancy and a shadow which will be deeply realized by the citizens of the state and by members of the Society, and prove a grievous loss to the public.

Resolved, That with deep sympathy for the afflicted relatives and friends of the deceased we express our earnest hope that even so great a bereavement may be overruled for their highest good

Resolved, That a copy of these resolutions be sent to his family, and a copy be spread upon the minutes of the Society and both county and State papers be requested to publish same.

## OLD SORES OFFENSIVE-DANGEROUS

Nothing is more offensive than an old sore that refuses to heal. Patiently, day after day, it is treated and nursed, every salve, powder, etc., that is heard of is tried, but does no good, until the very sight of it grows offensive to the sufferer and he becomes disgusted and morbid. They are not only offensive, but dangerous, because the same germ that produces cancerous ulcers is back of every old sore. The cause is in the blood and as long as it remains the sore will be there and continue to grow worse and more destructive. The fact that thousands of old sores have been cut out and even the bones scraped, and yet they returned, is indisputable evidence that the blood is diseased and responsible for the sore or ulcer.

Some years ago my blood became poisoned, and the doctor told me I would have running sores for life, and that if they were closed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated I would be, neither have the sores ever broken out again. JOHN W. FRENDS, Wheeling, W. Va., May 28, 1903.

Valuable time is lost in experimenting with external treatments, such as salves, powders, washes, etc., because the germs and poisons in the blood must be removed before a cure can be effected. S. S. S. cleanses and purifies the circulation so that it carries rich, new blood to the parts and the sore or ulcer heals permanently. S. S. S. not only removes the germs and poisons, but strengthens the blood and builds up the entire system by stimulating the organs, increasing the appetite and giving energy to the weak, wasted constitution. It is an exhilarating tonic, aids the digestion and puts every part of the body in good healthy condition. Book on the blood, with any medical advice wished, without charge.

Over in Shelby county, four miles south of the old town of Shelbyville, a new oil field has been discovered. It is upon land owned by our old friend, J. C. Boozer, being his present homestead. He sold a part of it to our townsman, Dr. J. E. Mayfield, a few years since. The oil is said to be found oozing from the earth in several places. Dr. Mayfield recently had Mr. W. J. Crossland to investigate it carefully. Mr. Crossland brought back a specimen of the oil and reports that the indications are fine and seem to be genuine. There was a fake find of oil in that county a few years ago, and so the question of a salted mine arises. If this be a fraud it is a shrewd job. Why not a gusher there and here too? The many surface indications warrant the belief of the existence of great reservoirs of oil in this section of the earth, and that they will yet be found.
