Bankers in Session.

Dallas, June 14.—The bankers and financiers of Texas are here attending the 21st Annual convention of the Texas Bankers association.

E. H. Blount and I. L. Sturdevant of Nacogdoches, are among the delegates.

Remanded Without Bail.

Saturday afternoon the court house was packed to its utmost with people to hear the evidence in the examining trial of Bob Davis who is in jail charged with the murder of George Clevenger.

The state had quite a number of witnesses and the testimony introduced showed that the defendant had committed cold blooded murder, and that after the fatal shot was fired, while the victim was lying on the ground a third shot was fired at him.

Davis was placed on the stand and told his version of the affair, which is about as follows:

"We had a game of craps in the woods, and I was running a table; some white folks, (Mr. Jim) came up and wanted to shoot with us; he refused to pay me for his shot which was a nickle. I asked him not to play any more on my table; he abused me and said he would take the table away and let white folks play on it. He took up the table and started off—I walked off in another direction and when a short distance from where the table was 'it seemed as though the devil was in me and I pulled my gun and shot at him,' some one said Mr. Clevenger was shot. I then took to the woods. Mr. Clevenger was one of the best of white men; he was my friend and I would not have shot him for any thing on earth—he just came up when the row started."

The evidence introduced by the state was such that the defendant was remanded to jail without bail to await the action of the grand jury.

The Pine Top Elsewhere.

San Augustine, Texas, June 14.—The pine top was placed on the San Augustine Wholesale Grocery Company's new brick building, signifying that the brick work had been completed. President R. H. Hall invited several of the company's friends to come down and look at the new building at 6 p. m., to which a goodly number responded, and while there a keg of ice cold beer was rolled out and the crowd invited to help themselves. Everybody drank to their soul's content, wishing the company continued prosperity. It is a large and in every way a modern structure, nothing but pressed brick being used in the front and on all sides up a few feet from the ground. The company's office will be cut off of the front and the balance of the building will be used as a salesroom. Their former building will be used as a warehouse.

Mrs. E. A. Blount will entertain the eucher club this afternoon.

NO CAUSE FOR EXCITEMENT.

The statement that the Negro would be lynched a joke.

It certainly must have been the statement of some one who wanted to play a joke when it was rumored that the negro Bob Davis, who is now in jail charged with the murder of George Clevenger, would be lynched last Saturday night, and that the combined crews of the saw mills located along the Texas & New Orleans railroad in this county would be on hand to see the job well done.

There was not the least scintilla of truth in the report and no foundation whatever for such a rumor. A friend, however, who was supposed to have had a tip informed the sheriff of the proposed "storm party." Not to be caught unawares the sheriff asked Capt. S. M. King to guard the jail. Capt. King complied with the request and the Fort Rifles were called out.

We Need No Schemes.

The school that offers to pay railroad fare, tuition rebates, special summer (all the time) cut rates for time-limited, smattering courses, spelling schemes, giving half tuition, etc., practically admits that it is hard up or is charging more than the tuition is worth. If a student is charged twice as much for a given course as another is, one is manifestly swindled.

A weak school with old methods, cheap teachers, and too little merit to attract students otherwise, will resort to such methods; but what high grade institutions will do so?

Are your trading and banking done with standard, up-to-date solvent firms and banks, with fair prices and just dealing or those that charge what they can get, suiting the charge to the customer and his purse, and resort to questionable schemes, backed by wind-cash guarantees on impossible condition? (Did you ever see a person who graduated in both bookkeeping and shorthand in one of those schools and could show their diplomas?) You generally get what you pay for, and there are today many gold brick schemers in the business college world.

If you are interested in a thorough practical course of bookkeeping, business training, shorthand, typewriting or telegraphy, we advise you to write the Tyler Commercial College of Tyler, Texas, today for their large free catalogue giving full particulars of a school run on up-to-date business principles—a high class school that is prepared to give you a first-class training.

Will Martin a Nacogdoches County Boy Gets a Fellowship.

Ithaca, N. Y. June 10, 1905. Editor Sentinel, Nacogdoches, Texas.

Dear Sir—My year's work in Cornell University will close Wednesday, June 14. I have spent a profitable year here as a graduate scholar in the college of civil engineering and have been awarded the Fellowship in the same college for next session beginning in September. Cornell ranks among the best Universities of the country, and easily takes a foremost position in engineering on which its reputation mainly depends. I deem it quite an honor to be listed as one of the 23 Fellows annually appointed by the faculty. The number of students is about 3400.

During the coming summer I shall work with the hydrographic branch of the U. S. (Geological survey and shall be detailed to California with headquarters perhaps at Los Angeles. On Wednesday evening of June 14th, I shall start for the west via Chicago, Omaha, Cheyenne and Sacramento, expecting to reach Los Angeles Monday, June 19. The distance will be over 3000 miles.

If permanently located I shall want the weekly visits of the Sentinel. Please send the next paper to me at No. 1108 Braly Building, Los Angeles, Cal. Perhaps I shall find time to write a few lines occasionally from the Pacific coast, and tell something of the equable climate and luscious fruit of far famed California. Yours truly, W. F. Martin.

Rev. J. D. McLeod, of Leggett, was in the city attending the East Texas Presbytery.

At North Church.

The good people of North church community are becoming enthusiastic over school matters and are working hard to raise funds for the purpose of erecting a public school building.

On July 4, they will have a big picnic, dinner and other good things, in the grove near North church, and expect all their friends to join them on that occasion. Every family in the community is expected to bring a well filled basket as a donation and every person over the age of 15 will have to pay 25 cents for dinner. The proceeds to be placed in the building fund.

A cordial invitation is extended to the public, and to every person interested in school work in Nacogdoches county to be present and help in the good cause.

The stand privileges have been reserved and will be run wholly in the interest of the building fund.

Don't lose sight of that tobacco packing warehouse. We need it in our business.

GEE, but it is wonderful how philanthropic some people can be when it comes to dishing out advice.

The Sentinel doesn't care a continental whether it's hot enough for you or not, it's hot enough for this section.

The other man sees as many faults in your general make up, as you see in his; so it's "hoss and hoss," and there you are.

The city council is to be commended for passing a resolution to have the streets named and the houses numbered.

There remains some \$6000 that the State is entitled to receive from W. M. C. Hill and his bondsmen on account of the Busbee shortage at Rusk penitentiary.

The Houston Chronicle like good wine improves with age. The latest improvement on its editorial page is an exchange column which is edited by Mr. George Mendell.

If the newspaper writers throughout the world could write to please their readers there would be nothing left for the preachers to work on, unless it would be the Russians.

The disabled Russian warships at Manila cannot get in touch with their government. The Czar is playing for time. He's knocked out and is trying to get on his feet before the referee counts him out for good.

The Nacogdoches farmers are beginning to harvest their tobacco crop. While the season has been very unfavorable, yet it is thought that a sufficient margin will be realized by all who planted tobacco this year that the acreage will be doubled next year.

A HARDWOOD saw mill to work up the oak, ash, walnut, and other species of hard timber, is the next enterprise that will be established here. Then will come furniture factories and other hardwood working plants. Oh, there's a good time coming for old Nacogdoches.

The truck situation in Nacogdoches county and the entire Eastern part of the State was greatly damaged this year by the excessive wet spring, and what truck was raised and marketed is not up to what is called standard. Yet a very fair price is being received and The Sentinel has not heard of any one losing money on the truck shipped to market this year.

NACOGDOCHES really is advancing. Better buy now.

BRODIE'S coin didn't get the Red Field plantation after all.

THERE is no room for a knockers association in Nacogdoches.

WHEN new streets are opened up the city council should see that they are properly laid out.

THE Houston Chronicle says the Russian admirals will hereafter wear uniforms made of cork.

THE growing and handling of tobacco on a large scale will be one of the new industries for the old town.

If we could see ourselves as others see us, we would, more than likely be surprised. So much so that we would be more guarded in our act, words, deeds and expressions.

Good schools, good society, good living water, and the finest fruit and truck land in the world is a few of the many reasons why home seekers are coming this way.

THE city council has ordered the streets to be named and the houses numbered. One of these fine days the mail will be delivered to your door by carrier.

It's too early to make a prediction as to how much the boll weevil will cut down the cotton crop this year, but it's safe to say that the crop will not exceed 10,000,000 bales.

LET'S all stick together and give home enterprise the support and encouragement of the town. Remember there is something to do in the way of maintaining enterprises after they are located.

THE beauty about Nacogdoches is that most anybody who is willing to work may come here and live in comparative comfort and ease. Nacogdoches offers every inducement to the home seeker.

RUMOR has it that a large tobacco industry, involving many thousands of dollars, is a possibility for Nacogdoches. Fact is the deal has been made but the particulars cannot be made public now.

R. A. G... teacher who represents a summer nor... Miss Norma Sready carries rose was a visitor in Nacogdoches last week.

The Woodmen cannot make a financial view point a few days.

Woodmen... in any line that he cannot improve. Teachers who spend their time and money in an honest endeavor to better equip themselves for the work should be given preference by every school board in the land when the selection of teachers is considered.—Lufkin Tribune.

That's a regular "Togo" shot, and is a matter that every paper in Texas should thoroughly discuss. As soon as a teacher arrives at the conclusion that he, or she, knows it all and has no further need for instruction, right then and there he, or she, should be given to understand in terms most emphatic that their services are no longer needed as teachers in the schools of Texas.

Nacogdoches has safely landed the big show case, door, sash and blind factory. The business men of that place saw the safety of the investment and we hope to see her safely land other enterprises of this character.—Cushing Enterprise.

The Enterprise, in the above, shows Editor Carter to be a man of broad ideas, and "good hoss sense," and The Sentinel on behalf of the citizens of Nacogdoches, bows acknowledgment. The Enterprise is a good paper, published in a good town in the best county in the grand old state of Texas.

Predicting hard times never helps to make better times.—Rusk Journal.

The Journal is eminently correct in its conclusions, but to withdraw that sacred (?) subject from some people would deprive them of something to talk about and then they would begin to knock.

Don't knock—avoid the hammer crew. This rule will save you many a shock; push don't knock—Woodman Visitor.

Every man in Nacogdoches would do well to commit the above to memory. Not that we are all knockers, but that we can shoot it into the knocker when he does bob up.

THE Cook Bros. manufacturing plant that was recently destroyed by fire in this city will be re-established in Nacogdoches on a much larger scale than ever before. While the Tribune congratulates the people of Nacogdoches upon the enterprise they have displayed in taking this valuable industry from Lufkin, it is of the opinion that the people of Lufkin have made a serious mistake in permitting them to do. It will require much valuable time, money and labor to repair the damage done to Lufkin by the removal of this plant. But it is gone now and there is no use in speculating on what "might have been."—Lufkin Tribune.

RUSSIA wants to know the terms of peace. The Czar of all the Russia's knows when he's got enough.

JAPS ARE BARRED FROM CITIZENSHIP.

In ruling upon the cases presented from Houston, the attorney general of the United States rules that Japanese can not become naturalized citizens of this country. District Judge Kittrell approved the applications of several Japanese colonists for citizenship, and the matter was called to the attention of a special agent of the federal government, who declare the proceeding invalid. The question was submitted to the attorney general, with the result stated. A Japanese colony has been installed near Houston for the promotion of rice growing, and several hundred families have become members of it. All of them desired American citizenship, and this decision will check the growth of the enterprise. It may also provoke an unfriendly sentiment toward us in the Flowery Kingdom.—The Lantern.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Twenty-Eight Years Ago Today.
From Saturday's Daily:

Editor Sentinel:
Nacogdoches, Tex., June 10.—It sounds a little out of the ordinary to make the following statement, but it is a fact. On the 10th day of June 1877, 28 years ago, this country experienced frost on that date. At that time the writer was farming three miles south from San Augustine on the old Richard Waterhouse plantation, and as it was his first year in Texas, it was indelibly impressed upon his mind that he had struck a remarkable country. The corn was in silk and tassel and the cotton in bloom. The top blades of the corn turned white all over the field, and the cotton was all nipped and turned black in the top. Notwithstanding the frost at this late date, a fine crop of corn was gathered but the cotton crop in that immediate neighborhood was cut short by the army worm.

At the same time and date in several counties in Western Texas the crops were killed to the ground.

Kidney Diseases Are Terrible Sorens For Nacogdoches Delay.

The great dangers that attend kidney troubles that hold their victims in their grasp, are: backache, weakness, soreness, lumbago, urinary troubles, dropsy, diabetes, Bright's disease follow in their wake, and finally, a painless succession. Don't neglect your kidneys. Cure them with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Nacogdoches.

J. D. Cooper, retired, corner of Pillar and Church streets, Nacogdoches, Texas, says: "I suffered for ten or twelve years with most annoying and severe pain in my back right over the kidneys, and when I stooped to lift anything I had great difficulty in straightening up, and the same sore in bending over. I knew it was kidney trouble and knew its end would be complete disablement unless it was speedily cured. I tried all kinds of medicine and prescriptions but to no avail. Finally reading of Doan's Kidney Pills I procured a box at Perkins, Kleas & Mast's drug store. I gladly say that they cured me, not helped, but actually cured an ailment that had bothered me for ten or twelve years. I am glad to recommend such a reliable kidney medicine to others."

PROPOSED CLERICAL REFORMS

From Friday's Daily:

The suggestion by Representative Love of Dallas, that the business of the state departments could be transacted with fewer clerks than are now employed and a large saving to the state thus effected, has provoked much discussion in the press, which has generally been commendatory of Mr. Love's views. An attempt was made in the House to insert a rider on the appropriation bill to provide for the reorganization of the departments under the direction of an expert accountant, but it failed because the proposal had not been discussed sufficiently to impress its merits on the members of the legislature.

The greatest evil in the conduct of the state's business is the multiplication of offices. Separate clerkships are established for duties which could be combined, and many men are employed to perform services which in private business affairs would be easily and properly discharged by half the number of employes. The remedy for this condition is reorganization. It is not to be expected that the heads of departments will bring down on themselves the wrath of an army of clerks and their friends by refusing to fill and to maintain positions created by the legislature, nor can the legislature with the means and time at its command, ever undertake to plan reforms in the operation of the executive departments.

Nothing could be more fallacious than the theory that the government can not transact the public business as economically and as effectively as a private business of a similar nature can be managed. There is no sound reason why the state should not do as well in labor and machinery as any other business. Every dollar it spends in receiving, administering and laxity of affairs explains all the agencies which may be the public service. An overhauling, such as energetic management gives to a private business, should be made in every branch and arm of the state's business affairs.—The Lantern.

REDFIELDS' PLANTATION.

Has Been Sold to Capitalists. From Ohio.

From Friday's Daily:

Redfield, the East Texas tobacco plantation which gained wide fame in the Alice Webb-Duke case, has been sold.

Notwithstanding the claims made by Mrs. Duke when she came to Texas a short time ago, that she proposed to pay for the plantation and to make good her every promise, etc., it seems that the money for the place was never paid Mr. Fagan and Colonel Morse. And now these gentlemen have sold the place to Ohio capitalists. It is understood that a good price was paid and that the purchasers will at once take steps to make the plantation a money-making proposition.—Houston Post.

The Sentinel gives the Post due credit for being an up-to-date newspaper, but the above paragraph is a piece of news that is somewhat premature. Negotiations are pending for the sale of the Redfield plantation, but the sale has not been made. Messrs. Lindsey & Harris are Col. S. F. B. Morse's representatives in this city and Mr. Harris is authority for the statement that the deal has not been closed.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I here by certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by Perkins, Kleas & Mast. dw

"Peace, peace, sweet peace" is at least a possibility in the Far East. But it appears to be a long ways off in the strike situation in Chicago.

EVERY one can pull for Nacogdoches. If you can't do more than pull weeds you will be doing the city a great service.

RUSSIAN press and people can now commence explanations as to how it all happened.

You can't always tell just where to locate the moss back, and he generally bobs up at a time when least expected. There's a case of this kind in Nacogdoches now.

NACOGDOCHES with her shallow oil wells, like Corsicana, will make the land holder rich when Spindle Top, Batson, and Humble oil wells will be practically a matter of history.

STRANGE how yellow a little rumor can be made by some writers.

EVEN the knocker will occasionally say that Nacogdoches is growing.

FIFTEEN thousand is the population we'll have when the next census is taken.

WITH several good oil wells already in things are running pretty smooth in this part of the state.

FOR the lack of a thorough organization the truck growers in many places are losing money this year.

THE city limits could be extended a little further east and add several hundred population to the town.

COME to think about it in a serious mood and you'll conclude Nacogdoches is a tip toy town to live in.

THE State Bankers association is in session in Dallas. Nacogdoches has two representatives in attendance.

THE result of this year's experiment with tobacco will probably decide the future of the weed as a crop with the Nacogdoches farmers.

BUT is certainly amusing to read the reports on the estimate of 1905 cotton crop as sent out by some of the New York brokers.

GET it fixed in your mind that Nacogdoches is about the best town "what is" and is growing better every day.

R. A. S. Department of who reports has just issued Miss No. 27 which gives a rose was a view of the experiences last week.

The Woodmen department from a financial viewpoint was quite successful. The Woodmen department contains nothing but absolute facts pertaining to the soil, cultivation and climatic conditions as they exist in East Texas and at Havana Cuba, yet there is enough in it to make every man interested in the culture of the weed an enthusiast on the subject. The report contains quite a lot of valuable information to the grower and a copy of same should be in the hand of every tobacco grower in Nacogdoches county. Summing up the situation as a whole the report says:

"The Bureau has every reason to feel encouraged over the results of these experiments. A cigar filler-leaf tobacco of superior quality has been produced, a leaf pronounced by the trade the finest filler so far grown in this country, while the prices received for the crop and a conservative estimate of the cost of production show that there is every opportunity for the commercial development of a new industry in a part of our country needing above all else a greater variety of staple products."

WORK will be started on a hardwood saw mill within sixty days. This is a proposition that came unsolicited and the knocker didn't have an opportunity to use his little hammer.

RUSSIA lost her first stack of chips with Japan, and kept on play with the game of war hoping that the next deal would turn the tide of fortune, but the hoo doo got in its work:

"STRENUOUS TED" is the hero of the hour. The press of the entire world are showering bouquets at the president for the step he took in bringing about a movement for peace in the Far East.

THE Standard Oil Co. it is said has knocked the bottom out of the prices of the Humble product. The Houston Post suggests that refineries established in Houston would be the means of raising the price and protect the small producer.

THE engine took a severe case of the don'ts yesterday and wouldn't budge. The whole force took a turn at coaxing it, but there was nothing doing. Finally the press man said the 13th chapter and 8th verse of Hebrews was his sentiment, and then the measly thing took a notion to run.

THE bears may figure out a large prospective cotton crop, but at gathering time the Texas crop will show a wonderful shrinkage. If Nacogdoches county produces 8000 bales this year it can be counted as a bumper crop. That's only about 6000 bales short of what was produced last year.

THE OIL THAT PAYS.

Many people, and men of good business qualifications, have from time to time made the assertion that shallow oil wells are not paying propositions. It is quite true that the bringing in of a shallow well is not spread across the universe, yet in the even tenor of its way the shallow wells have brought in the past and are bringing their owners to day more wealth than the spouters or gushers. The shallow wells are continuous producers and have been known to produce oil in paying quantities for many successive years. The gusher comes in and within a few months it ceases to gush and in a few more months has been pumped until it is practically a dry hole. It is only necessary to cite the town of Corsicana as a field of shallow wells. The owners of the wells as well as the property holders have made for themselves large fortunes. To verify the statement above The Sentinel has permission to use the following which is from the pen of one of the best informed men in Texas upon all matters pertaining to the oil industry of Texas. This letter was written to a gentleman in this city, and only a part of same can be used.

"It is to be hoped that they will not bring in a big field at Nacogdoches yet for a time on the account of the extreme low price of oil."

"Do you think your people would take any cash for their property and retain a tenth royalty of the oil products, parties agreeing to begin work within four months time (which would be short enough.) Look up this point and write me as early as possible. If your people only knew it, I would rather give a man a lease that would go in there and operate and develop the land on a tenth royalty basis than sell the land for \$100 per acre straight. I have seen this worked out several times at Humble. A friend of mine offered four acres of land in the Humble field for \$3000 cash, at which it was impossible for him to make the sale. He afterwards leased the ground and a well was drilled that when it came in produced 17,000 barrels of oil per day. It has been something over thirty days since this well came in and instead of getting \$3,000 for his property he received from his lease at the present time over \$15,000. Now as I understand the Nacogdoches field, it is the opinion of all the best oil men that I have talked with that the wells that will be found there will not be of the gusher order but will be pumpers and that when practically the oil business of Texas has been exhausted, the oil wells at Nacogdoches will still be producing the same as the Corsicana fields and every man in Texas knows what a lease basis or leases has made Roger Q. Mills. I have been reliably informed that Mr. Mills' income from his oil lands at Corsicana is over \$100,000 per annum. If I owned one foot or 1,000 acres of oil land I never would sell a fee simple title whenever I could get a lease even without a bonus."

Indianapolis, Ind., June 11. Editor Sentinel:

Your paper dated the 8th, reached me this morning, my first news from home and I can assure you every word was eagerly devoured. You speak of hot weather. Well I came very near freezing on the train from here to St. Louis yesterday.

Potatoes seem to have reached the bottom. I saw new potatoes sell in St. Louis at 40c retail; freight from Texas to St. Louis is 20 cents, so you can see what the grower may expect. I have sold nothing for less than 65 cents from that up to 90 cents. The freight to this point is 31 cents. Potatoes here Monday will be worth 50 to 60 cents, tomatoes \$1.00.

Old potatoes are selling here at 24 cents and very few are willing to pay the fancy price for new stock.

Texas tomatoes are very fine and bring much better price than Florida and Mississippi stuff.

We are very pleasantly located and I get Sunday off. We will spend tomorrow in Louisville, Kentucky.

Letter From the West.

Dear Sentinel: Ft. Davis, Tex., June 7.—Fort Davis is the biggest town to its "size" I ever saw. It extends around the foot of the mountains for quite two miles, and yet has a population of four hundred people. The post office, court house and hotel are grouped near each other in the southern part of town. There are three general stores, a drug store and a meat market and grocery store combined. These establishments are scattered over the town covering a distance of a mile. Our camp is a mile from the post-office, and yet we are right in the middle of town. That is, we are in the original Fort Davis. Up to the time the Fort was abandoned by Uncle Sam this was quite a little city. At one time there were ten saloons here and innumerable restaurants, stores and other establishments of barter and trade. The Fort was evacuated in 1890, since which time the immense property comprising fort, barracks, mess halls, hospitals and officers dwellings have been left to go to decay and no repairs have been made on any of the property. The only building used by the soldiers now remaining intact is the hospital, which seems to have been put up of much better material and more substantially built than any of the other buildings. The officer's residences are still in fair state of preservation, but they have been occupied all the time by people who come here for health. All these buildings, even the best preserved, are leaky and are rapidly going to decay. The old barracks, fort, etc. have already tumbled down in ruins. Many of the buildings now in condition to be used at all, are roofed with tin and leak only slightly. We have permission to use as much of the old hospital building as we care to and we find it good shelter from rain and sunshine. Our tent is immediately in front of the building and it is quite convenient as well as comfortable. The building has eight splendid large rooms most of them with fire places, besides two large wards comprising the north and south extremities of the building. Although it is fifteen years since the building was occupied it is still clean and looks as if it had been swept out at the recent date. There is a veranda extending near around the building and easy to find a cool place at any hour of the day on the abandoned government building owned by people here, in San Antonio. I think it is a "gold mine." They have probably never seen and do not know its decaying condition. It is for sale at \$20,000, but no part can be bought without the whole. They owned the land and leased it to the government and when Uncle Sam withdrew his troops from here he surrendered the property to the lessors. After the soldiers left here the town went southward toward the court house which is about one mile from the fort. Some substan-

tial buildings, both business houses and residences, have been erected in the new town. There are several very handsome residences. Tom Hackney, the well known East Texas saw mill man, is just completing a beautiful home here for his wife's health. All houses are made of adobe brick and wood, the same as they are at Marfa.

The population is the most leisurely I have ever seen. Nobody works here, except the business men and they are not rushed by any means. Everybody seems to be in here for health and all are taking it easy. It is the most cheerful lot of "invalids" one ever saw. R. W. H.

Notice to the Baptists of Nacogdoches county. Rev. S. F. Baucom and Rev. G. W. Jefferson will hold a tent meeting with Mt. Moriah church beginning Friday, July 7, at 8 p. m. Everybody invited. G. W. JEFFERSON, Missionary.

Died.

On last Friday the angel of death visited the home of Mr. and Mrs. J. W. Arthur at Tubbe and took from them their little baby girl. The remains of the little one were laid to rest in the Decoy cemetery on Saturday afternoon. The Sentinel sympathizes with the bereaved parents in the loss of their little darling girl. "The Lord giveth and the Lord taketh away; blessed be the name of the Lord." We must all bow in submission to His will.

The installation ceremonies will be held on Saturday night, June 24.

The committee appointed by the Business League to wait on the representative of Taussig & Co. met with Mr. McFarlin Saturday and that gentleman stated that there would not be enough tobacco raised in Texas this year to justify going to the expense of packing tobacco in this state this year, but that Nacogdoches could submit a written proposition to his company which would be taken up at some time in the future if the tobacco industry should be developed to such an extent as to warrant the expense of erecting a suitable building for tobacco packing purposes.

Had a Big Time.

Friday Red Land Local Farmers Union held a profitable meeting and much good will undoubtedly result from the meeting in future for the Union. Nine new members were added to the already large list of members, and at the close of the meeting harmony prevailed and all who attended the meeting were glad they attended.

After the business session, Hardy Dial, district organizer and lecturer, organized Union No. 2 of Nacogdoches county.

Following are the officers of District No. 2: John T. Garrett, president; John Andrews, vice-president; J. E. Sullivan, secretary-treasurer; W. A. Partin, chaplain; R. O. Bird, door keeper, and T. F. Richardson, conductor. The newly elected officers were installed by Mr. Dial and District Union No. 2 started off under most favorable conditions. The next meeting of District Union No. 2 will be held at Red Oak on Friday, July 14, and to which meeting a general invitation is extended to all to be present.

The noon hour having arrived it was found that the good ladies of Flower Mountain had stormed the place of meeting and with a most sumptuous spread of all the good things eatable capable of appealing to the better judgment of the inner man, and after the men folks had sampled all the good things it was evident to all and plainly to be seen that all the men folks were "Togoed"—they all surrendered and every one to a man said no such excellent dinner had been spread on a similar occasion.

At night Hardy Dial the district lecturer and organizer, delivered one of his grand talks on unionism and of the pressing demand upon the farmers of the nation becoming organized for mutual protection. For over an hour he explained the aims, objects, and benefits of the union to the farmers, and of the benefits to be derived through the district unions. The speaker was given the closest attention and all who heard the talk proclaim it to be the best heard on the subject of the Farmers Union.

On Friday, June 23, a district Union will be organized in the Eastern part of the county at Etoile. The good people of Etoile are looking forward to this day as being a banner day in Unionism in that section. It is also noised abroad that the ladies are making preparations to feed the visitors on that day.

Vice-President Calvin of the Farmers Union will be in Nacogdoches on Saturday, July 1, and will deliver a public lecture here. Mr. Calvin is said to be a fine talker and a well posted Union man. The local Union will no doubt have a big increase in membership following his visit to this section.

Case Reversed.

The attorneys for Charley Roberts, who was convicted at the last term of district court, have received information that the court of criminal appeals have reversed and remanded the cause.

CHIRENO LOCAL NEWS.

A Newsy Letter From a Good Live Town.

Chireno, Texas, June 12.—The Woodman picnic is over. The dinner was here in an abundance. The people were here from all over the country, and it was a great success financially.

Mrs. Overton and nephew, Jessie Matthews, who have been in Henderson for the past three months, have returned to Chireno.

Miss Annie Lou Matthews who has been attending the Baylor University for the past ten months has returned to Chireno. She will teach during the summer months near here.

Percy Wilson, son of Mrs. R. R. Wilson, who has been in Kansas City for the last three years, is here on a ten days visit to his home folks and friends. Willie Maloney, a particular friend of his came with him.

There was a social party at Mr. and Mrs. Sam Thomas on Saturday night.

Mr. Zack Moss and son, Sidney, were here Saturday from Pine Leaf, ten miles below here.

Ellis Hall has been quite sick for the past few days.

Thompson Bros. brought in another fine oil well Friday. Having no tanks or barrels to measure the oil with, its value is not known. This makes three fine wells 1 1/2 miles west of Chireno and three good ones east of Chireno.

Miss Maud Dukes was a visitor from San Augustine county on Sunday.

Quite a crowd from here will spend the day at Sulphur Springs three miles east of here, tomorrow.

TRAWICK TOPICS.

Trawick, Texas, June 14.—Crops in these parts are at a state just now that if it does not rain corn is gone up; and will be light crop at best and cotton is not promising by any means not saying anything of the boll weevil. D. 1897.

And on the first Tuesday in July, A. D. 1905, it being the 4th day of said month between the hours of 10 o'clock a. m. and 4 o'clock p. m. at the Court House door of Nacogdoches County, in the city of Nacogdoches, I did proceed to sell for cash to the highest bidder, all the right, title and interest of the said L. M. Jones in and to the said tract and parcel of land levied upon as the property of said L. M. Jones. The proceeds of said sale to be applied to the satisfaction of said judgment for \$77.49 in favor of Will M. Waters and T. W. Vardell, and against L. M. Jones.

Witness my hand this the 22nd day of May, A. D. 1905. W. E. McMILLAN, Constable Precinct No. 1, Nacogdoches Co., Texas. First insertion June 5, expires June 22.

...this morning because it
wont rain to cool that heated
brow and dampen that dry
sand which he is raking around
some cotton that seems to be
as sick as though it were in-
fected with smallpox germs.
Now, come, you were the
very first one that wanted to
go fishing and then you were
the first to become insulted
because a mosquito fancied
your looks and imparted a
kiss upon your cheek. Bet-
ter be thankful that you were
fortunate enough to win the
affection of a mosquito. So
you should be thankful that
farm prospects are as they
are.

How much happier many
would be if they were only
satisfied with what they have
and not trouble about that
which they have not. Sup-
pose you had been aboard one
of Admiral Rojestvnsky's
ships the other morning and
Togo in behind you, then
would you have appreciated
the company of old Beck or
the goose-neck hoe.

While it may not be pleas-
ing you, remember that where
the water has subsided your
neighbor has given the frogs a
terrible fright and is making
things hustle.

"It is my duty to give you a voluntary testi-
monial for Syrup Pepsin. My wife has been
troubled with Chronic Constipation in a most
severe stage. We have tried all remedies
I could hear of, together with prescriptions from
local physicians, and until we finally got to
your remedy, found no relief, but after
using your remedy for a few days only, we had
results that are simply marvelous. I am
entirely satisfied, and will surely
recommend your remedy wherever I can."

Huge Task.

It was a huge task, to un-
dertake the cure of such a bad
case of Kidney disease, as
that of C. F. Collier, of Cher-
okee, Ia., but Electric Bitters
did it. He writes: "My kid-
neys were so far gone, I could
not sit on a chair without a
cushion; and suffered from
dreadful backache, headache,
and depression. In Electric
Bitters, however, I found a
cure, and by toem was restor-

Capt. N. Hughes.

Yesterday afternoon, Capt.
N. Hughes died at his home
six miles north of town in a
result of a hurt sustained
while plowing some five weeks
ago and up to the time of his
death suffered great pain from
the accident.

Capt. Hughes came to Nacog-
doches county in 1900 from
near Ozark, Ala. He was
about 70 years of age and was
a true type of Christian man-
hood and a successful farmer.

In the death of Capt. Hughes
the community has lost one of
its very best and most honor-
able men, and his family a
true and loving husband and
father.

The sympathy of the entire
community, in which he lived,
and the town of Nacogdoches
is extended to the bereaved
ones in their hour of sorrow.

Dying of Famine

is, in its torments, like dying

OD POISON MAN'S GREATEST ENEMY

That has done more to wreck, ruin and destroy than any other disease. It is the most powerful of all poisons; no matter how pure the blood may be, its virus enters, the entire circulation becomes poisoned and its chain of infection is complete. Usually the first sign is a small sore on the face, throat and mouth, and soon the mouth and throat begin to ulcerate, the hair and eyes drop out, a red eruption breaks out on the body, copper-colored spots appear on the face and the nerves. Not only is the disease hereditary, but it is being transmitted from parent to child, in the form of scrofula, weak eyes, soft bones, weak, puny constitutions, etc., but is also so highly contagious that many a life has been ruined by a friendly hand shake, or from using the toilet articles of one infected with the poison.

To cure this blighting, deadly curse the blood must be purified, and nothing will do it so quickly and surely as S. S. S. It goes down to the very bottom of the trouble, drives out every particle of the poison and makes the blood clean and strong. It does not hide or cover up anything, but from the first begins to expel the poison and build up and strengthen the system. S. S. S. is guaranteed purely vegetable. We offer a reward of \$1,000 for proof that it contains a particle of mineral of any kind. Book on the disease, with instructions for home treatment, and any advice desired, without charge.

Mrs. V. A. Redwine, of Henderson, is in the city on a visit to her daughter, Mrs. R. W. Haselwood.

M. H. Hall brought The Sentinel the finest peach that we have seen this season. It is of the Gov. Hogg variety.

Miss Ella May Wade entertained a few friends last night. A most pleasant time was had by all present.

Frank Tucker returned yesterday from a business trip to Dallas. He left today for his home in San Augustine.

The Commercial National Bank, and Emmet Mitchell, the jeweler, both have had handsome gold leaf signs put on the windows of their respective places of business.

Justice of the Peace Jones and Deputy Sheriff Hiram Morris stirred up a little business yesterday. Three "pistol toting" cases were up before his honor—three pleas of guilty, and \$112.55 in fines. Not a very bad day's work.

Mrs. H. S. Connor who has been visiting her mother Mrs. J. J. Lilly, returned to her home at Percell, I. T., yesterday.

At the last meeting of the city council a resolution was introduced, and adopted, to name the streets and number the houses. All parties living on unnamed streets will please suggest appropriate names and file same with the city secretary. Streets running east and west will be called streets; those running north and south will be called avenues.

There are some twenty-five or thirty new homes under construction in Nacogdoches. No boom, but a sort of a gradual get there. The town would not stand for a boom; if a boom hit town there are some here who would be trampled to death by the march of progress.

A mouse and a five dollar bill caused J. O. Ray quite a little bit of worry the other day. The mouse got into the cash drawer, and got the five out. Mr. Ray missed the bill and a search was made. A mouse was discovered under the counter with the bill in it's mouth. Jim let a war whoop and the mouse started for a convenient hole in the wall with Jim after it. The bill was secured, but the mouse got away with a portion of it.

Jim Goodin who alleged to have stole a livery stable horse at Tyler a few days ago, was arrested yesterday at Joaquin by Constable J. B. Pursley and turned over to the Smith county authorities.

Monroe Davis has about completed all the necessary details and will open up a first class bakery in the building formerly occupied by Bradley & Son. Mr. Davis will have associated with him a first-class bread and cake maker.

Mrs. D. P. Rook, of Alto, was in the city a short while today en route to San Augustine, where she goes, it is said, to investigate the feasibility of putting in an electric light and power plant. San Augustine is a good town and a good point for a small light and power plant.

Chapter of Accidents.

There was quite a chapter of exciting events in city yesterday: Inmediately following the S. Wilkerson parties faint carried off by a fainting fit, were engaged in dressing the wounds of the parties just named there came a hurry call to go to Charlie Hanks' home, his little girl having fallen off a shed which she was playing and broke her arm; about the same time a soda water bottle exploded at the Bottling Works, a piece of the glass striking a little seven-year old boy who was standing by just over the eye, cutting a severe gash; during this excitement Bob Hairston's dray team became frightened and tried to climb one of those fine shade trees in front of the Jennings hotel.—Timpson Times.

Feared Weevils

A few of the weevils on their skirts; their father went out into his cotton to make an examination and found several of the little pests, which seem to be working now in the bud of the cotton, as but few squares have formed yet.

H. H. Peden brought in a bottle of the weevils from the farm of Henry J. Wilson. He relates that Mr. Wilson started over to a ten acre plot of land to finish planting his cotton crop for the year, and on the way found a few weevils in the cotton that was already up. He carried his cotton seed back and threw them in the pen and planted the balance of his land in corn and instructed the negroes on his place to do likewise.

The action of the farmers themselves reduced the cotton acreage at least twenty per cent, and the floods and continued rains took off another twenty. Now if the boll weevil comes along and destroys twenty per cent of what is left the crop will be short when harvest times comes.—Timpson Times.

For Sale.

240 acres of land, situated 1 1/2 miles north of Nacogdoches, Texas, Arroyola Head right; 150 acres in cultivation, fair improvements, now occupied by J. F. Franks. The soil is largely a red loam and very productive. It is especially adapted to diversified farming and would make an ideal fruit farm. Terms 1/4 cash and balance to suit purchaser. Apply to
Haywood Land Company,

Hon. T. A. Teagle, of

Beaumont, is in the city closing up a land deal. He stated to the Sentinel reporter that he had dabbled in oil stocks, bank stocks, etc., and had come to the conclusion that the safest investment was to buy Texas farms, and that there was no other place that looked as good to him for investment as Nacogdoches county land. He bought the Stucky farm near Mahl and will convert it into a fruit farm.

Alabastine

A Rock Cement in white and beautiful tint. Does not rub or scale. Destroys disease germs and vermin. No washing of walls after once applied. Any one can brush it on—mix with cold water. Pale tinting and whitening; and the most elaborate relief, stencil work and freecasting may be done with it. Other finishes (bearing painful names and mixed with hot water) do not have the cementing property of Alabastine. They are stuck on with glue or other animal matter, which rots, feeding disease germs, rubbing, scaling and spalling walls, clothing, etc. Such finishes must be washed off every year—costly filthy work. Buy Alabastine only in five-pound packages, properly labeled. Tint card, pretty wall and ceiling design. "Hints on Decorating and our artists services in looking over plans, free."

Mrs. Sarah Helms (Lynna) suffered from a great mental depression. I was unable to attend to my house work, and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and all hope. I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, and reading of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided to give it a trial. I felt so discouraged that I had little hope of recovery, and when I began to feel better, after the second week, so thought it only meant temporary relief, but to my great surprise I found that I kept gaining, while the tumor lessened in size.

"The Compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and I was well again. I am so thankful for my recovery that I ask you to publish my letter in newspapers, so that other women may know of the wonderful curative powers of Lydia E. Pinkham's Vegetable Compound."

When women are troubled with irregular or painful menstruation, weakness, leucorrhoea, displacement or obstruction of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such trouble.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynna, Mass.

Health is too valuable to risk in experiments with unknown and untried medicines or methods of treatment. Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.
