### FEVER AT SHREVEPORT

Reported That There Are Two Well Developed Cases There

Texarkana, Texas, Aug. 1.—The local health board has just received official advices that there are two fully developed cases of yellow fever at Shreveport, La.

A shotgun quarantine will be put on here once. The local authorities have served notice on the Texarkana, Shreveport and Natches and the Kansas City Southern railroads that all traffic between here and Shreveport must cease at once.

A rigid quarantine has been established against Shreveport and all trains into that city from Texas points have been discontinued. The trains yesterday were stopped at Logansport and the mail transferred.

A Gracious Meeting

Editor Sentinel.—It was our pleasure to assist Bro. H. M. Hutson in his meeting at Children's Sunday school while we had no additions to the church nor immediate results what we desired, yet taking it all together, it was a gracious meeting.

Brother Hutson, the Pastor, has sown some good seed and the results will tell in days to come.

The people all treated us royally, taken us into their homes and make us feel that their homes were ours, and I want here to express my appreciation of their many deeds of kindness by saying God bless them and theirs.

During the preaching services the merchants closed their stores and come to church and the memory of these noble people will be an oasis in our lives.

Brother Hutson is a good "yoke fellow" and will make a man feel good to work with him.

When opportunity offers itself, it will be a great pleasure to visit these people again and serve them in any way we can.

Respectfully,  
G. W. Jefferson,  
Missionary.

Notice.

To Truck and Fruit Growers Nacogdoches association:

I have full returns on all cars of peaches shipped. Your checks are ready, you will call at the Commercial National Bank and ask for same. And notice is hereby given for your attendance on next Saturday, August 5, 1905, at the court house. It being the regular monthly meeting—and I earnestly solicit your presence in order that you can inspect my books and see that there has been no foul play at this end of the line. Come and see for yourself.

Respectfully,  
J. A. Pirtle,  
President.

### COUNTY COURT PROCEEDINGS.

Last Week Was Civil Docket, But There Were Several Criminal Cases.

Last week Judge Bergers court was busy with the civil docket and quite a lot of work was done. There were several criminal cases that were brought over from the previous week and they were tried.

The case of J. H. Gunning who was charged with having violated the local option law, was brought up for trial. The cause went to the jury and they returned a verdict of guilty and assed a fine of \$25 and 20 days in jail. The defendant gave notice of appeal when the verdict was rendered and the appeal bond was made right then there and the sheriff did not have a chance to add another boarder to his already long list of local option law violators.

Oliver Dennis was tried on charge of carrying concealed weapons. He was found guilty and was fined \$50, which was paid on the spot and there.

Married at Terrell

The news comes from Terrell that Conrad Rusche and Miss Bertha Pressler, both of this city, were married at the Catholic church in that city on last Sunday.

These young people were raised in this city, and they have been sweethearts since their school days.

Miss Bertha is a daughter of Mrs. John Pressler and is numbered among the sweetest and best girls of our city.

Conrad is an enterprising young man and is well thought of by his associates.

Both have a large circle of friends in this city with whom The Sentinel joins in wishing for them much prosperity and happiness in their married life and that they may never have cause to regret the step that they have taken.

Mr. and Mrs. Conrad Rusche will make their home in Terrell for the present.

The bond holders of the Commercial Telephone Co., at the master in chancery's sale yesterday at Austin, bought in the property of the corporation. The property was sold for \$110,000. The sale was the result of a suit by the bondholders for interest on \$400,000.

I have a good milk cow to trade for dry cattle. d3t wtf Chas Clark

J. E. Barnes returned yesterday from Garrison where he has been assisting A. C. Irwin in putting on a big clearing sale.

M. J. Whitehead of Etoile, was in the city yesterday and was a caller at The Sentinel office.

The Hardware and Vehicle Man

This Means You

Every young person should be trained to do work in a systematic business like manner, to tell the truth, be honest and upright; to write a plain business hand; to figure rapidly and accurately; to write a strong business letter, properly punctuated, capitalized and arranged; to fill out correctly all kinds of commercial papers, such as checks, notes, drafts, deeds, mortgages, etc. draw up contracts, how to keep a correct record of his entire business. These things are essential, no matter what occupation a young man or woman may pursue. If you ever own property, or amount to anything in this world, you will not only need the above, but a thorough business training and a knowledge of bookkeeping, shorthand, typewriting or telegraphy—something that will enable you to enter the office of some reliable business firm at a good salary and get a start in the world.

All of this and more too can be had at a very reasonable cost and a few months time at the Tyler Commercial College, Tyler, Texas. This school is placing its students into the very best paying positions as fast as they graduate. Business men have learned to appreciate the superior training given by this institution and are continually calling on it for first class office help. If interested, write for free catalogue.

HALTOM & HALTOM, Proprietors.

R. W. HALTOM, Editor

THERE are so many opportunities for the home seekers in this section of Texas that it is impossible for the news papers to tell it all in a single issue, and that is the reason why the papers talk about this country every day in the year, and then they fall short of telling the whole story. If you think that the country has to offer. Texas has one of the finest public school systems in the United States and the town of Nacogdoches has a system that is conceded to be one of the best in the state and Nacogdoches has three school buildings that would be a credit to any city in the state.

ANOTHER scandal in the department of agriculture is about to be developed. It would seem that every department of the government is about to be termed an incubator of graft. The high and low are all mixed up in the graft business and it would be only proper for congress to look into affairs of the departments at Washington and fire the whole works and put in a new set from office boys to chief clerks.

The Sentinel cannot please every one and makes no efforts to do so. If such policy was pursued every one connected with the paper would be fit subjects for the mad house in thirty days. There is something in every issue that you like and there are things that you do not like, but remember there are other readers of the paper who do not like the things that you like and they think the articles you object to are first-class, and if the ideas were carried out it would be a fine thing for the town, so there you are. It would be impossible to please all.—Nacogdoches Sentinel.

The same condition prevails in every town and community, and it is not an exclusive condition with newspapers. Our experience has been that the best policy is to pursue the right as we see it and not worry about the consequences. The "sorehead" will come around when his fancy is tickled, and in the natural order of events he does no one material harm.—Center News.

### The Only Way.

There is no way to maintain the health and strength of mind and body except by nourishment. There is no way to nourish except through the stomach. The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. No appetite, loss of strength, nervousness, headache, constipation, bad breath, sour risings, rifting, indigestion, dyspepsia and all stomach troubles that are curable are quickly cured by the use of Kodol Dyspepsia Cure. Kodol digests what you eat and strengthens the whole digestive apparatus. Sold by Perkins, Kleas & Mast. dw

R. C. Monk has returned from a trip to Alto where he has been on a visit to relatives.

Over in Nacogdoches they are putting cotton in one car and Elberta peaches in another at the same time. Working eight hours a day—eight hours before dinner and eight hours after.—Houston Chronicle.

Nacogdoches is the land where the farmers believe in diversification; they always have something to sell, and they always find that the town of Nacogdoches is the best market in this part of the state, and these facts coupled with the fact that the farmers in this county are in a prosperous condition and have money in the banks, is the basis for the statements which have been made by The Sentinel, that Nacogdoches is "the best what is."

The Nacogdoches Sentinel is mistaken. Center is the "best what is," and Shelby county is the best what ever was. Over here we have "Pete" and "Repeat," and the watermelons have to be planted on the hillsides that they may be caught before they climb the other hill. Now, hush!—Center News.

Nacogdoches can go that story one better. The agricultural editor of The Sentinel planted beets along the line where he wanted to build a fence and when it was time to set the posts, he sent to town for a stump puller to pull up the beets, and he used the holes for post holes. Now be good.—Nacogdoches Sentinel.

If you don't hush the "bad man" will get you.—Center News.

E. F. Chester, manager of the Ritchie Ice company at Nacogdoches, is in Beaumont today for the purpose of making some purchases of fixtures for the office of that company. Mr. Chester believes that Beaumont can offer him as good bargains and equally as good fixtures as can Houston.—Beaumont Journal.

The Sentinel reporter called on Mr. Chester this morning and asked him how much truth there was in the statement above and he said that there was none. He said that he made had been an offer on some second-hand stuff that was for sale in that city, but in view of the fact that this city had two hardwood manufacturing plants, he could get the new stuff in this city at a much better figure than the second-hand stuff could be bought for. Fact of the matter is he was not in the market for furniture and even if he was that he would never think of sending away from home for it.

G. B. Burhans Testifies After Four Years.

G. B. Burhans, of Carlisle Center, N. Y. writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble. ### NACOGDOCHES CIGARS.

Manager of Factory Spends Yesterday in Beaumont.

Mr. L. P. DeMouche, general manager of the Nacogdoches Cigar company, was in the city yesterday. His company makes cigars from tobacco grown in Nacogdoches county, and his business here was to secure a local representative.

In conversation with an Enterprise reporter Mr. DeMouche stated that he had made arrangements with the Garrett Commission company to handle the product of the Nacogdoches cigars in this city, and that a supply would be shipped here at once.

Mr. DeMouche stated that the factory is in a prosperous condition, the demand for his product being better than was at first hoped for. The output is now from 75,000 to 80,000 per month, and in response to the demand the capacity of the factory will soon be increased to 150,000 per month.

The tobacco now being used in these cigars was raised under supervision of the government experts as an experimental crop, samples of which were produced equal to the best Cuban product. Some of it was raised on the famous Redfield farm, presided over by Mrs. Webb-Duke of the firm of Taylor, Webb & Co., who has had so many ups and downs in the courts. Mr. DeMouche is well known in Beaumont, having been here before as the representative of the cigar factory at Victoria, Texas. He left on the 6:10 train for Houston.—Beaumont Enterprise.

### Public is Aroused

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerve were wrecked; I could not sleep and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured. Guaranteed at Perkins, Kleas, and Mast drug store; price 50c dw

THE subject of the private car lines operating over the railroads doing business in Texas, and the icing charges that the fruit and truck shippers are forced to pay, will be the subject for an investigation before the railroad commission. It is a matter that should have been looked into some time ago.

### Soothing and Cooling.

The salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. A sure cure for piles and skin diseases. DeWitt's is the only genuine Witch Hazel Salve. Beware of counterfeits. They are dangerous. Sold by Perkins, Kleas & Mast. dw

### WEAK KIDNEYS MAKE WEAK BODIES.

Kidney Diseases Cause Half the Common Aches and Ills of Nacogdoches People.

As one weak link weakens a chain, so weak kidneys weaken the whole body, and hasten the final breaking down.

Overwork, strains, colds and other causes injure the kidneys, and when their activity is lessened the whole body suffers from the excess of uric poison circulated in the blood.

Aches and pains and languor and urinary ills come, and there is an ever increasing tendency towards diabetes and fatal Bright's disease. There is no real help for the sufferer except kidney help.

Doan's Kidney Pills act directly on the kidneys and cure every kidney ill. Nacogdoches cures are the proof.

Geo. Witkorn, contractor and builder, living at the south end of Mound street, Nacogdoches, Texas, says: "For over five years I suffered with acute pains in the small of my back and had difficulty from too frequent passage of the kidney secretions. I saw Doan's Kidney Pills recommended and procured a box at Perkins Kleas & Mast's drug store. After using them I can truthfully state that they cured the pains in my back and I do not have the trouble with my kidneys I had before using Doan's Kidney Pills. I know they cured me and am pleased to recommend them as a good kidney medicine and worthy of a trial by any one troubled as I was. I hope other sufferers will avail themselves of this tried and true kidney remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

THE New Orleans authorities are handling the yellow fever in a way so that there is not much danger of the same becoming an epidemic, is the way the dispatches read from the Crescent City but this should not be cause for the cities of the south to raise the quarantine on passenger traffic out of that city. It is safe to say that it will never get into Texas territory, for a rigid quarantine will be maintained until there is no danger. In the meantime it would be well for every city and town in the state to inaugurate a cleaning up campaign.

### Dangerous and Uncertain.

For sunburn, tetter and all skin and scalp diseases. DeWitt's Witch Hazel Salve has no equal. It is a certain cure for blind, bleeding, itching and protruding piles. It will draw the fire out of a burn and heal without leaving a scar. Boils, old sores, carbuncles, etc., are quickly cured by the use of the genuine DeWitt's Witch Hazel Salve. Accept no substitute as they are often dangerous and uncertain. Sold by Perkins, Kleas & Mast. dw

Mr. and Mrs. D.M. Fussell of Reese, are in the city on a visit, and while here are the guests of Mr. and Mrs. Ed Henderson.

### War Against Consumption.

All nations are endeavoring to check the ravages of consumption, the "white plague" that claims so many victims each year. Foley's Honey and Tar cures coughs and colds perfectly and you are in no danger of consumption. Do not risk your health by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. Ask for Foley's Honey and Tar and insist upon having it. Sold by Perkins, Kleas & Mast. eod

Wiltom Ratcliff returned last night from a trip over East Texas in the interest of the Nacogdoches Cigar Company. He reports trade very good at this season of the year and that the cigars that are made here are making friends in every town that he has visited, and that when a merchant has once tried the goods it is no trouble for him to place the second order. He thinks that when the fall trade opens up that the factory will not be able to take care of the business. As it is, the factory is being run on full time, and if there is any increase in the business, as Mr. Ratcliff has predicted, the factory will have to secure larger quarters.—Nacogdoches Sentinel.

The Texas made cigars is already in the lead. It is the best cigar on the Texas market today. It is new and made of good stock. Tyler people smoke Tyler made cigars. The best cigar ever made in Tyler is now being put up by Jim Dash. He is a perfect gentleman and our people should call for his cigars when they want the best for the money they pay out. Tyler has three cigar factories, and so Nacogdoches need not figure on getting the trade up this way.—Tyler Courier.

Will Bridwell is building a pretty cottage on Oaks avenue and Will's friends say that as he is not a married man they presume that the cottage will be for rent when completed. Will may fool his friends some of these days and get married.

### Was Wasting Away

"I had been troubled with kidney disease for the last five years," writes Robert R. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians, and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. Perkins, Kleas & Mast. eod

KEEP on cleaning up the town.

The weather for the past few days has been hot enough.

MANNERS COUNT for a great deal in business as well as in society.

ONE thing about the yellow fever situation is that there will be no tie up in freight shipments.

BEAUMONT will have on her Sunday clothes next Saturday and will see that all the visitors are properly entertained.

RUSSIA agreed to the peace negotiation in order that her generals could get a chance to "spit on their hands" and take a new start.

LUMBER dealers say that the price of yellow pine is advancing and that the demand is increasing for good stuff. The market is higher than it has ever been.

EAST TEXAS produces the finest fruit of any section in the United States and at the same time raises the finest cigar filler tobacco that can be grown anywhere on earth.

CHINA wants to put into the little game of negotiations for a war indemnity between Japan and Russia, and the amount that she will ask for is enough to cause the Czar's head to turn gray in a night.

THE street loungers in Nacogdoches have to go to church on Sunday now or go fishing. The lid continues to stay closed and the justice of the peace says that he will keep it that way in the future.

DR. TABLER of Roysce City, Texas, it is claimed has invented an envelope that will put the final kibosh to the ticket scalping business in this country. Instead of some one trying to invent a way of beating the scalper, it should be the duty of the law making bodies in cities that are invested with this class of gentry, to pass rigid ordinances and make it a heavy penalty for anyone to engage in that kind of traffic.

If Judge Brooks intends to run for the nomination of governor he should resign and at the same time return his railroad passes and go before the people and tell them what he wants. Tom Campbell pays his way as he goes and has no public office to use as a cloak for campaign purposes.

FROM reading the Associated Press reports from St. Petersburg, purporting to be the sayings of the Czar, leads the average newspaper reader to conclude that Russia is whipped, but she doesn't know it. A recent report says that the Czar has issued the following note: "The Russian people can rely on me. Never will I conclude a shameful peace, or one unworthy of great Russia."

THE Waco-Times Herald thinks that after the next election that the State of Texas will have a good governor, it matters not which one of the boys gets there. There is this much about it, if Tom Campbell is the successful candidate the state will have the best governor that she has had in many years.

THERE is a graft some one is working in the Post Office Department as Washington that is digging a great big hole in the pockets of the printers of the United States, and that is the printing of the envelopes for business concerns. The government furnishes envelopes printed at about what the stock would cost the average printer. There is something wrong somewhere.

THE Nacogdoches Sentinel wants the farmers over there to begin the culture of tobacco. In other words it wants them to grow it instead of chewing it.—Houston Chronicle.

If the tobacco chewers of this county would only raise tobacco as earnestly as they chew it Nacogdoches county would raise enough of the weed to supply the wants of the country.

THE farmers around Nacogdoches are so well pleased with their success with this year's tobacco crop that they are going to increase their acreage to a great extent. They have given it a fair trial and by next year their experience will enable them to achieve much greater success. Their present crop is all gathered and it will soon be ready to turn over to the buyer who has already contracted for it at a good price. An effort is now being made to secure the services of the government expert for another year and they will likely be successful. Cushing must not be behind next year but must come forward with a good acreage. We have the enterprising farmers and they have the soils which are so well adapted to the growth of tobacco. If we intend to plant this crop for 1906 we must get in line as early as is possible and get in touch with the proper source. We must become interested in the culture of tobacco.—Cushing Enterprise.

THE secretary of agriculture is blue over the leaks in his department and he would like for congress to appropriate a little more salary money. He thinks that \$3,500 is not enough to secure the services of an honest man to preside over cotton statistics, and is of the opinion that \$5,000 would get the man that the government needs as chief statistician. The man who would steal on \$3,500 would make a larger steal on a salary of \$5,000, because his services would be worth more to the manipulators of the cotton market. Money will not purchase honor. While a larger salary will secure the services of men better fitted for the position, yet do not lose sight of the fact that some of these men who draw large salaries are many times greater knaves than the man who draws a modest salary, should either be inclined to be rogues.

## RACE PREJUDICE UP NORTH.

In the town of Syracuse, Ohio, on the Ohio river, four miles above Pomeroy, a town of about 2,000 inhabitants, no negro is permitted to stay in town over night under any consideration. This is an absolute rule in this year, 1905 and it has existed for several generations. The enforcement of this unwritten law for keeping the negro from staying in the town over a single night is in the hands of the boys from twelve to twenty years of age, while the attempt of a negro to become a resident of the town is resisted by the town en masse.

When the colored man is seen in the town during the day he is generally told of these traditions, if he is so ignorant not to know them already, and is warned to leave before sundown. If he fails to take heed, he is surrounded at about the time that darkness begins, and is addressed by the leaders of the gang in about this language: "No nigger is allowed to stay in this town over night. We don't care what you are here for. Get out of here now and get out quick."

He sees from twenty-five to fifty boys around him talking in subdued voices and waiting to see whether he obeys. If he hesitates, little stones begin to reach him from unseen quarters, and soon persuade him to begin his hegira. He is not allowed to walk, but is told to "get out on his little dog trot." The command is always effective, for it is backed by stones in the ready hands of boys none too friendly. So long as he keeps up a good gait, the crowd which follows just at his heels, and which keeps growing until it sometimes numbers seventy-five to one hundred boys, is good natured and contents itself with yelling, laughing and hurling gibes at its victim. But let him stop his "trot" for one moment, from any cause whatever, and the stones immediately take effect as their chief persuader. Thus they follow him to the farthest limits of the town, where they send him on his way rejoicing.—Franklin U. Quillin in the Independent.

Texas is not dependent on the trusts. She can "live at home"—making her own clothes of course of fine fabric, manufacturing her own farm machinery, home utensils, stoves, hats, shoes, canned goods, carpenters' tools, vehicles, harness, saddles; eat Texas beef, bacon, meal, flour, grits, etc.; burn Texas coal and oil, and use the many other thousand things chiseled out of Texas resources, many of which we buy of the trust and drain our wealth. Trusts thrive on our thirtlessness and republican high tariff and protection against small dealers. Texas must go ahead and show her independence, or suffer from the continued and increasing capacity of these life blood-sucking octopuses.—Crockett Enterprise.

And if he smokes cigars, Nacogdoches can furnish the very best that can be obtained. Great is Texas and the fame of the Nacogdoches cigars will make her greater.

## CHIRENO ITEMS.

Cireno, Texas, July 31.—Mrs. Dr. G. W. Taylor of El Reno, Oklahoma, is visiting relatives here.

Miss Ivy Stripling of Fairview is visiting friends, and is the guest of Mrs. R. R. Wilson.

Miss Eula Bentley of Nacogdoches, is visiting her sister, Mrs. J. F. Tucker.

T. E. Fall who has been in Nacogdoches at work for sometime, is spending a few days with his family.

Miss Annie Lou Summers of Nacogdoches, is here on a visit.

Oliver McCall, who is teaching a summer school at Martinville, spent Saturday and Sunday here with his wife.

Willie Metteauer while plowing in the field of Mrs. A. H. Cronkrite's, near the creek one day last week, plowed up several Indian vessels. There were four of them lying in a row, and varied in size from a gallon to a pint.

Quite a crowd from here attended the Farmers Union picnic at Attoyac Saturday. All report a fine time and plenty of nice dinner.

H. V. Fall has been on the sick list for a week.

### A Tyler Tragedy.

Tyler, Texas, August 1.—Owen Brewster, a young man of about 22 years of age, was shot here this morning about 10 o'clock, his assailant using a double-barrel shotgun, firing both shots at him, striking him in the bowels.

A. J. Pierce did the shooting, he being a highly respected farmer living with his family at Lindale, this county. He stated to a Chronicle representative directly after the shooting and after he had given himself up to the sheriff and was jailed that he shot young Brewster on account of the fact that he had ruined his daughter some months ago, and that of the fact that Brewster persisted in staying close enough around to tantalize his family.

Olen Brewster was carried out to a relative's house here in the city, and it was thought for some hours he was dead.

Doctors who operated on him state that 12 buckshot entered his entrails and that there is but little chance for his recovery.

Young Brewster's father and other relatives have arrived from Lindale and much excitement prevails here over the shooting.—Chronicle.

### Was in Poor Health For Years.

Ira W. Kelley, of Mansfield, Pa., writes: I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians, without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring health to others." Refuse substitutes. Sold by Perkins, Kleas & Mast.

Rev. S. F. Baum of Sacul was in the city yesterday on a business trip. He reports saw mill business at the present very good.

## OIL MILL SOLD.

Sold to Satisfy a Judgment in Favor of The Banks of This City.

Yesterday afternoon the cotton seed oil mill in this city, the property of the Merchants and Farmers Cotton Oil Co., was sold at constable's sale to satisfy a judgment in favor of the Commercial National bank and the Stone Fort National bank of this city. The sale was made by Constable Will McMillan, and the property was bought by Col. E. A. Blount and Capt. I. L. Sturdevant for the stockholders. There will be a meeting of the stockholders within the next few days and a re-organization will be made and a new board of directors, and officers will also be elected.

The property was bought in for \$18,500 and owing to the fact that there was so much lost on the mill during the past season the constable is to be congratulated upon getting the price that was paid yesterday for the property. The mill buildings and the mill machinery were sold separately. The lots and buildings brought \$9,500, and the machinery \$9,000.

### Cures Sciatica.

Rev. W. L. Riley, L. L. D. Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments I was induced to try Ballard's Snow Liniment; the first application giving my first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c and \$1. Sold by Perkins, Kleas & Mast.

### Union Organized.

Hardy Dial reports that he has just organized a farmers union at Pleasant Grove with 24 members. The following are the officers of the new union:

W. M. Easley, president.  
S. A. Akin, vice-president.  
Miss Rosa Moore, secretary and treasurer.  
P. C. Manning, chaplain.  
D. Easley, door keeper.  
J. L. Barnhart, conductor.  
J. S. Spradley, lecturer.  
Mr. Dial says that the membership of this union when the financial standing of the membership is estimated will aggregate something over \$500,000.

### Rheumatism.

When pains or irritation exist on any part of the body the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. T. writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c, and \$1.00. Sold by Perkins, Kleas & Mast.

T. J. Williams left yesterday afternoon for a trip through old Mexico, and will make the first stop at Chihuahua and from that point he will take a donkey train and will take a trip overland to the Pacific coast. The trip that he has planned to take will require about 30 days.

### Stop That Cough,

When a cough, a tickling or an irritation in the throat makes you feel uncomfortable take Ballard's Horehound Syrup. Don't wait until the disease has gone beyond control. Mr. and Mrs. J. A. Anderson, 354 West 5th St. Salt Lake City, Utah, write:

"We think Ballard's Horehound Syrup the best medicine for coughs, and colds. We have used it for several years; it always gives immediate relief, is very pleasant and gives perfect satisfaction." 25c, 50c, \$1.00. Sold by Perkins, Kleas & Mast.

W. H. Bartholomew of Beaumont, arrived in the city yesterday to close the deal whereby the farm of R. E. Lilly passes into his possession. Mr. Bartholomew says that he will make this town his home, and that he will move his family here just as soon as he can make the necessary arrangements for a house.

### A Touching Story

is the saving from death, of the baby girl of Geo. A. Eyer, Cumberland, Md. He writes: "At the age of eleven months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. Medical Association.

From Thursday's Daily: The Nacogdoches County Medical Association met in this city yesterday and the meeting is said to have been the best within the history of the association. The attendance was also good.

Dr. R. A. Wilson of Douglas presented a most excellent paper on "Dysentery." This paper was discussed by Dr. Barham, Dr. Lockett and Dr. Nelson. The discussion was entered into in a manner that showed that the doctors were well posted upon the subject and that they had given the matter careful consideration.

Dr. Barham presented an excellent "Clinic" which was appreciated by every doctor present.

The next meeting of the association will be held in this city on the fourth Wednesday in next month.

The Sentinel is glad to see the doctors making the association a success, and believes that it is a duty that every doctor owes to his patients to attend the meetings of the association, so that they may see what the doctors of the country are doing, and also that they may keep themselves posted upon the important questions that are constantly arising in the profession as to the best methods of handling diseases of the present time.

Dr. Caldwell's Syrup Pepsin

Pleasant to the taste—contains nothing which can harm the most delicate organism. Physicians will testify to the truth of this statement. See page 21 of our book of "Proofs." Write for it today.

Mr. Allen Jackson, of Farmer City, Ill. writes: "My seven month old baby was troubled a great deal with his stomach and bowels. I had tried numerous remedies with no good results. The baby became so weak that it could not be nursed. A friend recommended Dr. Caldwell's Syrup Pepsin. I purchased a bottle and gave the child a few drops. To my surprise the baby began to improve. It had a good night's sleep. I had not seen the baby so well for a month. With very grateful thanks to the manufacturer and his former agent."

USED A SHOT GUN.

Wm. Chancey Was Shot and Killed By His Son-in-Law.

From Friday's Daily: Last night the little town of Caro was the scene of a tragedy wherein one good citizen was compelled to shoot and kill another. Thus adding another chapter to the history of crimes in Nacogdoches county.

From parties who are well informed on the subject The Sentinel reporter was informed this morning that Wm. Chancey and his son-in-law H. A. Poulan, became involved in a difficulty, and Poulan had to shoot Chancey or be killed.

From an eye witness to the tragedy The Sentinel is furnished the following story:

"Mr. Chancey came to the residence of Mr. Poulan last night about 8 o'clock and seemed to be angry with the entire family. He came in and began abusing Mrs. Poulan and her children, and made several demonstrations as if he would do them bodily harm. Seeing Poulan in the room it is alleged that Chancey pulled out a knife and started toward Poulan. Poulan backed off and asked Chancey not to advance, but he kept on coming. Poulan seeing that it was the intention of Chancey to commit murder as he thought, he (Poulan) took down a shot gun and told Chancey that if he took another step that he would be killed. This warning was not heeded and Poulan put the gun to his shoulder and fired. The full charge from the gun hit the intended victim and he was instantly killed."

Immediately after the killing Poulan went to an officer and surrendered and gave bond in the sum of \$500 for his appearance.

Mr. Poulan was in the city this morning and when The Sentinel reporter called on him for a statement of the unfortunate affair, he said that for the present that he did not wish to give out a statement but that his attorneys would do the talking for him.

The reporter called on Mr. A. Chesnut, counsel for Mr. Poulan, but Mr. Chesnut was not in a talkative mood and would not give out a statement.

The remains of Mr. Wm. Chancey will be shipped to Bodan in Angelina county where the funeral services will be held tomorrow.

The Sentinel is glad to see P. M. Sanders out on the streets again. He has been laid up for the past several weeks with a case of fever, and since he has been sick his presence has been missed by all the newspaper boys who make the court house.

Cotton Crop on the Bum.

George Fuller, Esq., of Martinsville, was in the city yesterday on legal business and while here The Sentinel reporter asked about the news and the crop conditions at Martinsville. To the inquiry of the reporter, Mr. Fuller replied:

"News, the kind that you want is very scarce. In fact there is nothing that could be called news that is going on at Martinsville. As to crop conditions you can say that the prospects are very gloomy and I don't like to tell you just how bad they appear at this time. What little crops that were doing fine previous to the recent wet spell have all been ruined by the rains, and what the rain has not ruined the boll weevils have captured and that there will not be a half of a crop raised in this part of the country. The corn crop, however, is very good and will make a good yield. This will give us our bread and they will have a few hogs and we can count on bread and meat at least for another year."

Beyond Expression.

G. W. Farlowe, East Florence, Ala., writes: "For nearly seven years I was afflicted with a form of skin disease which caused an almost unbearable itching. I could neither work, rest or sleep in peace. Nothing gave me permanent relief until I tried Hunt's Cure. One application relieved me; one box cured me, and though a year has passed, I have stayed cured. I am grateful beyond expression."

Hunt's Cure is a guaranteed remedy for all itching diseases of the skin. Price 25c. w

Run Into a Cattle Guard.

Last night as Policeman Turner was about to arrest a negro man at the depot, the negro decided that he did not want to be arrested and started off down the track at a two forty gait, and as he was a stranger here he did not know just where the cattle guards were on the railroad track. When he had run down the track a short distance he ran into one of these contrivances and came pretty near doing himself up in a manner so that his own mother would not know him. He hit the cattle guard and fell to the ground and as he did his face went into the guard, cutting one eye open and also cutting one of his hands open, and otherwise doing himself up. He was taken to the city health officer and had his face and hand patched up.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which falls of perfect digestion ferments and swells the stomach, putting it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased. Mr. D. G. ... I had stomach trouble and was in a bad state. I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me. Kodol Digests What You Eat and relieves the stomach of all nervous strain and the heart of all pressure. Bottles only \$1.00 this holding 2 1/2 times the trial size, which sells for 50c. "Patsy Moran and the Lunatics." It is only once in a while that a comedy hits it off as hilariously as this night's adventure of A. S. Hoffman's burglarious automobilist in the fiction number of McClare's. "Patsy Moran and the Lunatics," besides its side-splitting comedy, is a mystery story that might puzzle Sherlock Holmes. It is a clever reader that will explain Patsy's lunatics before the last word is told.

There was a small fire at the Boger house yesterday morning but it was discovered and extinguished before any damage was done to the building.

Two good old mules and two young ones. Want to see 'em quick. D. K. Cason. The Hardware man.

It is said that the track of the Nacogdoches & South-eastern has been laid into the town of Woden and that work on the depot has been begun. It will be only a few more weeks and the road will be ready for passenger traffic to the oil fields. Then it is expected that there will be something doing in the way of developing the Nacogdoches oil field, as the town of Woden is only a few miles from the wells that were recently brought in by the Williams Brothers. Oil men have been waiting for the railroad to get its tracks extended to the field for a long time, and it is now up to them to get busy.

R. E. Lilly has sold his place four miles north of town to W. H. Bartholomew of Beaumont, and will leave in a few days for Oklahoma where he will go on a prospecting trip. He thinks that he will locate in that country, but wants to see the country first. Mr. Bartholomew will plant about fifty acres on the farm in a peach orchard.

Misses Deedie and Jennie Hoya returned last night from Mineral Wells, where they have been during the past month. They report a most delightful time and very much benefited by the trip.

J. C. Boozer of Shelbyville, is in town today. He used to live out on the Carrisso and still has relatives there. Mrs. Boozer came over with him. He is the owner of land where the new oil field has come into notice, four miles south of Shelbyville, Texas.

The Texas & New Orleans passenger train was tied up by a wreck near Frankston yesterday. A freight car loaded with lumber was ditched and it was seven hours before the passenger reached this city.

The Commercial Telephone Co. of this city will be sold tomorrow by the master in chancery in the city of Austin. The affairs of this company have been in the hands of receiver for quite a while and after the sale it is hoped that the purchasers will make the necessary improvements in the exchange here so that new subscribers can get phones.

Robert Baucom who has been very sick at the home of his parents at Sacul for the past several weeks is reported improving, and he is now past the danger period.

E. Hauser left last night for Houston where he has secured a position with the Fuller-Cook Hardware Company. Just as soon as he can make the necessary arrangements he will move his family to that city.

W. M. Hinson is here today looking after the interests of the farmers who planted tobacco this year under government supervision. He is pleased with the crop, and thinks that the farmers who planted tobacco this year should continue to grow the weed. Nacogdoches county should cultivate about 200 acres next year.

It is reported that there is a family living four miles out of town on the Spradley farm

that is in destitute circumstances. And to make bad matters worse the entire family is sick. The attention of the people in that neighborhood is called to this and they should see that the family is properly cared for. E. L. Cordova has been looking after the wants of these people for several weeks but it is too much to ask one man to do it all.

The tobacco crop that was raised by the farmers this year is being turned over to the Tausig & Co's. representatives today and they are receiving the cash for their crop. The yield is much lighter than at first estimated, but this is attributed to the fact that the season was unfavorable for the successful cultivation of the weed. The quality of the leaf is said by experts to be very fine.

Get ready and take in the excursion to Beaumont on next Saturday. Just think of taking a trip to the oil city for only \$2 and you can stay there three days. The Chamber of Commerce of that city has the matter in charge and they say that the Nacogdoches people will be royally entertained.

T. J. Lloyd remembered The Sentinel force this morning and left a freezer of cream with the positive instructions that no mention of the treat be made in the paper. It was the intention of the reporter not to say anything about the cream, but after the force had sampled the cream and passed it as their judgment that it was the finest that could be made. It being the unanimous verdict of the force that something should be said about the cream, and they promised to see that it the reporter got into trouble over the matter that they would help pay the damages. The cream that was presented the office by Mr. Lloyd was equal to that made in the factories of the cities and was first-class in every particular. The Sentinel will send a man out to Mr. Lloyd's factory one day next week and will tell the readers of this paper just how he makes such excellent cream. Several of the drug stores here are supplied with cream from this factory and they say that it is the kind of cream that their patrons call for.

Good Bye

As it was impossible for me to see all my friends personally, I take this method to bid them farewell—and in doing so, will say that during my four years sojourn in good old Nacogdoches I believe that I have made friends who will ever remember me, and whom I shall never forget.

I fully appreciate the expressions of regret expressed upon my departure by those who bade me good bye and trust that the new position which I will assume will be as pleasant as the one which I have just resigned.

I will be in Houston, Texas, with the Fuller Cook Hardware Co. 410-412 Travis street, and it will afford me pleasure to have any of my old Nacogdoches friends call upon me when visiting in Houston and any favors that I can render them will be cheerfully granted.

Very truly yours, E. Hauser.
