SCALE IS SPREADING.

Some Timely Advice From Fruit Inspector Orr.

The law requires all nurseries to be inspected, but San Jose scale will usually get very bad in nearby orchards before it appears in the nursery.

Most of the trees brought from Tennessee nurseries within the last few years are now dying. Many of the owners don't yet know what is the matter.

Examine closely and see if the dying trees haven't an ashy color, especially the smaller twigs. Break the twig and see if the inner bark is not red. Press a knife blade against the twig, rubbed lengthwise and see if a yellow oily substance doesn't follow the path of the blade. These are all evidences of San Jose scale.

Five years from now the San Jose scale will likely be doing for our orchards in Texas, as what the boll weevil is now doing for the cotton patches.

On account of this pest, hundreds and hundreds of Georgia peach orchards are now being cut down and burned.

Nothing can save the fruit belt of East Texas, but prompt and concerted action, for some of our people are going to continue buying what they call cheap trees, from infected districts. This would not be so great a calamity if only the "suckers" were the only victims. But the scale, when once carried into any section scatters rapidly in every direction.

It can be killed, only with the lime and sulphur wash sprayed on the trees, while there are no leaves.

Saw Mill Sold

Mr. Thomas G. Wharton of Minnie, Texas, has bought the Kelly saw mill near Stokes in this county, and has taken charge. Mr. Wharton is an enthusiastic advocate of municipal ownership of water works, and says he cannot understand how any public spirited citizen, especially a property owner, can favor private ownership. He is undecided yet as to whether or not he will move to Nacogdoches county, but the probability is that he will.

Rev. T. N. Fowler says he is expecting a good representation from the city in attendance at Lily Gray church next Saturday and Sunday at which time the Singers Union of this county meets. There will be dinner under the trees on both days. This is one of the best communities in the county, and always acquits itself well, but especially when it comes to curing for the hosts that come up to their gates.

BAPTISTS ENTHUSIASTIC.

They Pledge \$2,500 From Nacogdoches Churches for College

In the meeting of the Executive Board of the Nacogdoches County Association held in the Baptist church Tuesday morning, March 5, the following resolutions were unanimously adopted:

Whereas, the citizens of Nacogdoches and of Nacogdoches county are earnestly desirous of having the East Texas Baptist College located in the town of Nacogdoches, therefore be it resolved,

First, That we pledge to the effort being made to secure this institution our hearty endorsement and earnest co-operation.

Resolved second, That we pledge for the county at large the sum of \$2500, and ask our pastors, churches and missionaries to join in an effort to secure said amount without delay.

From Mr. Earnest Spradley who came in from Kentland Mills this morning. The Sentinel learns of a deplorable accident which occurred there yesterday.

A Mr. Davis, a man about 65 years of age, who was in charge of the logging crews for the Ball Goss Lumber company's mill had both his legs mashed to a pulp by a tree falling on him.

Mr. Spradley states that the accident occurred just as he was leaving for home yesterday afternoon, but that the physician expressed the fear that the man would not live till he reached the operating table.

MR. HARRIMAN has demonstrated a splendid faculty for telling Fish stories.

AND the Center Daily News has let out a tuck, and is now a six column paper.

If you love your town as you should, you will vote for the bond issue for water works.

Don't let the recent heavy rains dampen your ardor for water works. Remember that water, like faith, is of little use without works.

SOME poor deluded country editor has asserted that the 30th legislature has absolutely no grudge against the newspapers. If this is so, the legislators have a poor way of showing it.

Just merely to show his love for the newspapers and newspaper men, Representative Mobley has introduced a bill providing that "if any newspaper or any other publication shall publish any article purporting to be news matter or editorial for which he shall receive any compensation whatsoever and shall fail to insert the word advertisement in equal size type he shall be guilty of a misdemeanor and subject to a fine of \$1000 and one year in jail." Mr. Mobley's opponent before the primaries last July was a newspaper man—Editor Yantis of the Athens Review.

A bill has been introduced in the legislature appropriating \$5,000 for the purpose of erecting a monument over the grave of Sam Houston at Huntsville. The gentleman who introduced the bill is to be commended for his patriotism, but the sum mentioned is niggardly. The State ought to expend not less than double the amount stipulated for a monument for Sam Houston, and if that were doubled again it would not be commensurate with the valiant service this great man rendered to Texas during his lifetime. In fact Sam Houston's worth cannot be computed with figures and characters representing dollars and cents.

By a vote of 67 to 46 the lower house of the Texas legislature defeated an amendment to the anti-pass bill permitting railroads to exchange transportation for advertising in newspapers. The 67 votes were for the amendment, but under the rules it requires two-thirds of the members voting to amend a bill on third reading, and on this occasion the friends of the newspapers were nine votes short of the necessary two-thirds. We regret to note that Representative King of Nacogdoches was absent when the vote was taken. The bill passed the house with a few unimportant amendments, and will now go to a conference committee, unless the amendments are concurred in by the senate.

THE BAILEY WHITWASH.

Del Rio, Texas.—I see that the "Houston Bailey Post," the largest Bailey newspaper printed in Texas, prints all the news while it is (Bailey) news "has got its craw chuck full of the "elder statesman." It didn't take much to satisfy the Post. It was the father of the "elder statesman" idea and preached it to a finish. The Post's influence was so great and the idea so popular that Texas actually elected two new members to the thirtieth legislature from that class. They happened to be on the opposite side from the Post in the Bailey fight, hence the Post wants no more "elder statesmen." If the entire legislature had been elected from that class of statesmen the people would have been vindicated instead of being taxed for a fifty thousand dollar suit of whitewash for the Hon. J. Weldon Bailey.

The greatest farce that was ever pulled off in Texas has ended and Bailey has been exonerated (?) and returned to the United States Senate feeling in his conceit that he is bigger than the entire State of Texas. And it does look like he is just now, but I can't help but believe the people will be able to see through this gauzy mantle that the legislature has thrown around Mr. Bailey, and will show him some things yet that he has not learned. I hope two years from now that every Representative district in the state will run two candidates, one for and the other against Bailey. I want to see a show down and if Bailey is really a bigger thing than the Texas democracy I want to know it so that I can forever hereafter keep my mouth shut. If Bailey is right then why oppose corporation lawyers in our state offices, legislatures and county offices? If it is right for Bailey to take advantage of his official position to amass a great fortune, why should poor Burton of Kansas and Clark of Montana have met such fate. Burton is in prison and Clark escaped by dying. There is just a distinction in these cases in my opinion without a difference.

Does anybody believe that if Bailey had been just a plain lawyer traveling from Gainesville to Washington that Francis and Pierce would have stopped him to go back and "settle all Texas" for them? Would Pierce have loaned him \$3300 at first sight if he had been plain Lawyer Bailey from Texas? Not on your chromo. When Mr. Bailey was first elected to congress he was a very poor man, according to repute, and he used to love to tell that there was "no meal in the barrel." The barrel is full now, full of gold, every dollar of which has been gained through or from his association with heads of great corporations, such as Francis, Pierce, John W. Gates and John Henry Kirby.

There was no investigation. Bailey refused to let it investigate. He sat in that committee room at Austin with his "big stick," big fist, or big gaff, or whatever it was,

and being backed by a majority of the committee selected by Speaker Love, a pronounced Bailey man, allowed nothing to come to light that would endanger his prospects of obtaining a favorable report. Witnesses were stopped when they had gone as far as Mr. Bailey was willing for them to turn on the light. No lawyer nor member of the committee was allowed to interrogate some of the witnesses, Mr. Bailey in particular, over the gentleman's objection. The whole thing was a farce with Senator Bailey as ring master, and to cap the climax the ring master closed the show with one of the most disgusting, vindictive and vituperative speeches that ever fell from the lips of a man.

Bow to Joe Bailey as a statesman? Not I.

Haltom.

FROM one end of Texas to the other end, and from side to side, and from all four corners of the state, as well as from the great black land middle, come expressions of delight from the press and from the people at the oft promised, long delayed and now present anti-nepotism statute. The people have cause for rejoicing.—Austin Statesman.

And yet there is not such universal elation as the Statesman's bright man has heard there was. Virtually the law is ineffective for two years yet. It does not affect appointments already made, and since the law does not go into effect until 90 days after adjournment of the legislature, every state, district, county and municipal official will have ample opportunity to give all their kinfolks a seat at the pie counter before that time. And when once seated, they can not be choked off by the new law as long as the present incumbents are in office. Really there is little cause for elation.

The Gleaner is four years old today. Are we not a pretty sprightly "four year old?"—Garrison Gleaner.

The Gleaner is not only a sprightly four-year-old, but it is one of the most influential newspapers in East Texas, and one whose usefulness is not only appreciated by the community in which it is published, but is forebly felt and realized by all the people of Nacogdoches county.

To the Country Publishers: Organize! The Times Herald will stay with you for a finish fight against the professional politicians, who are seeking to destroy the freedom of contract.—Dallas Times Herald.

The country newspaper men are organizing all over the State, and Nacogdoches county will join in the fight in due time.

THERE are two conditions in life that sometimes make man bad. One is when a man is broke. Then he sometimes becomes anarchist or thief. The other time is when man is rich. Then it is often he turns commercial pirate and plunders others by unfair methods.—Alto Herald.

And contented should be the man who is able to strike that happy medium.

A Cigar Wrapper Often Covers a Multitude of Sins

You know quite well that there are many cigars sold for five cents that are very poor quality. They are sold on appearance. A fine appearing wrapper, a handsome gold band or a pretty box-lid may cover a multitude of sins, but it is the filler, the inside of a cigar, that determines its smoking quality.

Modern manufacture exemplified in the American Cigar Company's products has grown way above this unfortunate method of doing business and assures a cigar that is honest all through.

The "Triangle A" merit mark on a box of cigars means that every sprig of leaf in every cigar in the box was graded especially by experts for that one brand, two years before it was made; that during this time the leaf has mellowed in great, clean warehouses in a perfect temperature till all its finest qualities are brought to a point of perfection.

These are some of the reasons why "Triangle A" cigars smoke with the fine mellow flavor that you thought was only to be found in expensive brands; why every "Triangle A" cigar has an even flavor and aroma from end to end; why every cigar of each "Triangle A" brand smokes just the same.

"Triangle A" cigars cost you no more than the "mixed" cigars—though they are worth twice as much.

Look for the "A" (Triangle A) when you buy cigars.

"Triangle A" brands offer the widest obtainable range of choice, and absolutely dependable quality in whatever brand suits your taste. You'll never find a better brand to make the test with than

The New CREMO

Every box is now extra-wrapped in glassine paper, sealed at each end with the "Triangle A" in red. The cigars are kept clean, fresh and in perfect smoking condition until the box is opened.

CIGAR MAKING STATISTICS.

Compilation Made Covers Three Years in Northern Texas.

Dallas News.

After a careful compilation of all reports and data in the business, United States Internal Revenue Deputy Collector R. C. Wood, in the office of Collector Col. P. B. Hunt, has made a summary of the cigar making business in the Fourth Internal Revenue District. This includes North Texas and parts of Western and Eastern Texas. His figures are as follows, comparing 1904, 1905 and 1906 to Dec. 31:

Number of Cigar Factories—1905, 45; 1906, 41.

Number in Dallas—1905, 9; 1906, 15.

Total Pounds of Tobacco Used—1904, 115,931 1-6; 1906, 94,540 1-6; 1906, 101,691 1-3.

Total Number of Cigars Made—1904, 5,660,464; 1905, 4,756,773; 1906, 4,817,379.

In previous years since 1892, the fourteen years in which Mr. Wood has kept these statistics, the annual number pounds used has gone considerably higher than in any of the three years shown and the total number of cigars in one or more years has gone as high as 7,000,000.

A reason for the falling off is said to be the advance of trust making in the tobacco business and the operating of the enterprises from large centers. But the advance in 1906 over the year before is said to be due to some extent

to the Texas handling of trusts and to the increased prosperity in this territory with its consequent natural increase in trade with the growth of population. This increase was more than 7,000 pounds of tobacco and 60,606 cigars.

While the reports themselves do not deal in this feature of the matter, it is stated that an increasing portion of the tobaccos used in Texas are grown in Texas. It is cited as a further fact that some of the best Havana filling in the world is grown in Texas and is made up in the larger centers of tobacco manufacturing in the eastern section of the country. Yet it is declared to be a fact that in the making of a Texas cigar, the best of Texas tobaccos are used. This is believed to be an industry that from this time on, with any sort of proper encouragement, will flourish and become a leading enterprise for Texas.

THE "Lost Boy" story, which appeared in the two Panola county papers several weeks ago, is still going the rounds of the press, thanks to its generosity, all papers having been asked to copy. Notice is served that the Register found the young man through one of its subscribers in West Texas the first dash out of the box and all parties concerned are now happy.—Carthage Register.

When the newspapers start after anything or anybody, they generally locate the object of their search. It pays to advertise.

WILL TEST ANTI-PASS LAW.

The newspaper men of Milam county have organized a county press association, and at the meeting held at Rockdale Tuesday, the anti-pass bill was denounced as an unwarranted attack on the press of the state, and, if passed in its present shape, it was the sense of the association that they would co-operate with the State Press Association in testing its constitutionality. The newspaper men in every county should follow the example set by their Milam county brethren, and for this purpose The Sentinel now calls on the editors of the county to meet in the city council chamber in Nacogdoches on Saturday, March 9, at 4 o'clock p. m. If any county newspaper man can not be present, he will please send a representative. This is important.

THE Nacogdoches county tobacco raisers are happy. The plants are growing thriftily and they are in good health.

QUESTIONS TO BE CONSIDERED.

What is Expected of Towns Desiring Baptist College.

The Standard editor has received an inquiry like this: "How much is the least money that will secure the location of the school which the Education Commission proposes to establish in East Texas?" Really no one can answer that question. The Standard does not speak by authority, but suggests that while it will be a vastly important consideration, money alone will not secure the location of the school. Accessibility, health, religious atmosphere, and a general sympathetic environment, are things that will be carefully considered by the Education Commission. Such a school, as is contemplated, will be a great blessing to any community, from the financial and several other standpoints. Therefore, the question with each community, desiring to secure the school, should be how much money and property can we afford to put up for it? The town that offers the best environment, the best railroad facilities, and the largest bonus will get the school, no doubt. It may be added that the town that secures the school, no matter how much bonus it gives will never have occasion to regret it. This is as certain as anything can be.

WILTON G. RATCLIFF.

Death Claim of the Distinguished Lawyer and Citizen.

From Saturday's Daily: At 7:45 o'clock last night the spirit of Judge Wilton G. Ratcliff took its flight to the God who gave it.

On last Monday evening, at about the same hour of the night at which he died, Judge Ratcliff was stricken, with apoplexy, and though all was done that medical science suggests to prolong his life, the stroke proved fatal.

Judge Ratcliff was born in the state of Georgia April 19, 1850, and at the age of 5 years he came with his parents to Hill county, Texas. In 1874 young Ratcliff came to Nacogdoches county and after teaching school for about three years, was admitted to the bar. In 1878 he was elected county judge of Nacogdoches county, and served continuously in that office for eight successive years.

He was married to Miss Willie Fleming of Tahuacana, Texas, in 1875, who died in 1888. Of this union there are three children living. In 1892 he was married to Miss Florence Allen, who with four children survives him.

In 1906 Judge Ratcliff was again elected county judge of Nacogdoches county, over four popular opponents, and had already given forcible evidence of his splendid ability and excellent fitness for the responsible position.

Judge Ratcliff was loved and respected by all who knew him, and if he had an enemy no one knew it. His death has cast a gloom over the entire city and county, and the universal expression is, his place will be hard to fill.

The funeral service was conducted at the home at 3 o'clock this afternoon, and at 4 o'clock all that was mortal of Judge Wilton G. Ratcliff was laid to rest in the City cemetery.

The active pall bearers were W. U. Perkins, V. E. Middlebrook, R. W. Tillery, T. E. Baker, I. L. Sturdevant, and A. P. Loden.

The honorary pall bearers were Judge George F. Ingraham, Judge E. B. Lewis, Chas. Hoya, F. H. Hoya, P. M. Sanders and T. J. Hill, old and intimate friends of the deceased jurist.

TIRED AND SICK YET MUST WORK

MRS. AUG. LYON

"Man may work from sun to sun but woman's work is never done." In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to those women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

Lydia E. Pinkham's Vegetable Compound

keeps the feminine organism in a strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for child birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon of East Earl, Pa., writes: "Dear Mrs. Pinkham: For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides, I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

Mrs. Pinkham's Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

Effect of the Food Law.

The Pure Food and Drug Law, which went into effect the first of January, has already shown the good that will follow its enforcement.

Many worthless remedies, that have been advertised for the cure of catarrh, a disease that is universally prevalent, have been driven out of existence by the Pure Food Law.

The effect of this is to increase the sale of remedies that are valuable and that fulfill the provisions of the law. Hyomei, for example, is meeting with a larger sale than ever before, and Stripling, Haselwood & Co. are still selling it under a guarantee that it will cure catarrh or the money will be refunded. Hyomei is a scientific treatment that is recommended by the best physicians. It cures catarrh without stomach dosing, through inhaling medications that go right to the affected spots.

By breathing Hyomei three or four times daily through the neat pocket inhaler that comes with every outfit, its medicated, healing, air penetrates to the most remote parts of the nose, throat and lungs, searches out and kills all catarrhal germs, and soothes and heals any irritation in the mucous membrane.

The complete Hyomei outfit costs \$1.00, extra bottles if needed, 50c, and is sold by Stripling, Haselwood & Co. under the guarantee that it will cure or cost nothing.

Bankrupt Sale of Land of Estate of A. Wettermark & Son, of Nacogdoches.

In compliance with an order of Court issued on February 25th, 1907, by S. D. Reaves, Referee in Bankruptcy, at Tyler, Texas, I will offer for sale by sealed bids to the highest bidder for cash, at Nacogdoches, Texas, on the 11th day of March, A. D. 1907, the following tracts of land, to-wit:

1. Twenty-seven and one half acres of F. Kellett survey of Nacogdoches county, situated at Garrison, Texas, and known as the D. D. Dodd planer site, and valued at \$1000.00.

2. Two acres of Kellett survey situated in Garrison, Texas, and known as the Jack Lewis place, and has situated thereon two story house and is valued at \$400.00.

3. Lot 1 in block 34 of Tenaha, Texas, known as the Hicks place. This is a large lot situated near the railroad station and contains a house with eight rooms, four up stairs and four down stairs, valued at \$1000.00.

4. Two hundred and eighty-eight acres of land in three surveys all under one fence, with cross fences and finest pasture in Nacogdoches county, and known as the Robert Bentley place, and is situated near Melrose in said county. All of this land but about 60 acres is cleared and under cultivation, except that for the past two years it has been used as a pasture exclusively. Valued at \$1600.

5. Eighty-two acres being one half undivided interest with estate of Jas. T. Polly in the J. H. Hooper survey in Shelby county, partly cleared and occupied and in cultivation. Valued at \$250.00.

6. Lots 1 and 2 in block 14, Garrison, Texas, and is known as the Wm. Uzzell place, valued at \$450.00 and included in this sale with said lot 1 will be lot 2 adjoining and known as the Neal Ingraham lot and is of the value of \$75.00, both lots sold together.

7. Ninety acres of land of the survey Rusk county, Tex., and situated between the El King place and Peter Harris place about six miles west of Garrison and known as the J. R. Moore place. Valued at \$360.00.

8. One hundred and sixty acres being a part of the P. F. M. Lucas grant in Nacogdoches county and now occupied by the family of Thos. N. Arnold and situated about 12 miles northeast from Nacogdoches. All but about 30 acres cleared and under cultivation, with farm houses thereon. Valued at \$1000.00.

OIL LANDS

9. One hundred acres of the J. A. Chireno grant, situated in Nacogdoches county on the Marion road not far from Chireno and partly cleared and has on it a very large and

fine clear water spring. Valued at \$800.00.

10. Fifty-three acres of J. M. Mora grant in Nacogdoches county on the Peunteswils creek and west of the Wm. Smith tract and shown on the map of the oil field as Wettermark land and being the same tract partitioned by A. Currie and myself as trustee. Valued at \$1060.00.

11. Forty-four acres of J. M. Mora grant, situated just South of the above tract on same creek and being the tract partitioned between the heirs of B. S. Wettermark, A. Currie and myself as trustee. The tract partitioned being joining tracts. Valued at \$1000.00.

12. Four acres being a part of the J. A. Chireno grant of Nacogdoches county and being the amount allotted to me as trustee by the District Court of said county out of the tract known as the E. M. Weeks tract. Valued at \$20.00.

13. Lot 5, block 35, Nacogdoches. Valued at \$1,000.00.

All bidders will be permitted to bid on the oil lands in one or more ways, that is they may bid on the land reserving to the estate the oil, mineral, gas and coal rights, with all the rights of ingress and egress and the rights to erect tanks, derricks, machinery, houses, pumping stations pipe lines and all necessary improvements for the developing of same, or they may bid for the lands including all oils, minerals, gases and coal therein, but all bids must designate the reservations. All bids must be accompanied with a certified check for 25 per cent of the amount of the bid or with letter of bank agreeing to pay my draft on them for such an amount. All bids will be subject to rejection or confirmation of Court. Bids may be made for one or more tracts but no bid will be considered for a part of any tract unless the balance in said tract is included in some bid of another bidder.

Nacogdoches Tobacco.

Anderson County bids fair to rival Nacogdoches in the culture of tobacco. One thing can be said in all truth, Nacogdoches sends out a fine cigar.—Rusk County News.

Several counties in East Texas are threatening to rival Nacogdoches in the culture of tobacco, but they all fall down when it comes to showing the goods. Nacogdoches is far in the lead in the production of high-class tobacco, and in the manufacture of cigars this city has no competitor. Still The Sentinel says, plant more tobacco.—Nacogdoches Sentinel.

According to the reports of the Bureau of Soils of the Agricultural Department at Washington, and according to the results of experiments in tobacco culture in the Nacogdoches locality, it has been proved that a grade can be produced there which is not inferior to the best product of Cuba. Indeed, the smokers of cigars made from the Nacogdoches tobacco have passed the final judgment, and it is in all things complimentary to it. But while this fact is known, it must not be forgotten that other localities possess soil especially adapted to raising a high grade of cigar tobacco. Among the counties which are possessed of such land is Anderson. There the people are going into the business in the right way. They sent their best men to Florida to make an examination into the methods of producing the weed, and also to calculate whether its cultivation would be profitable in their county. The report was made by Mr. Hearne, one of the most reliable business men of Palestine, and the result is that this year there will be a good crop put in. It was observed a short time ago by State Press that the Nacogdoches papers were doing much work to get the people there to engage in producing tobacco. Since then, it should be said, evidences are at hand to show that they got many more persons to engage in it than last year. Factories promised to take the crop at a high price, if it was made under Government supervision, and that induced many to agree to make a crop. But there is evidently little enthusiasm in the business among the Nacogdoches farmers, or they would not have to be so strongly appealed to. Enthusiasm is as necessary to develop an industry or to accomplish things as labor or money is.—Dal-Gal. News.

The water works bonds proposition is gaining in favor every day. The more the people understand it, the more they are convinced that the municipal ownership is the safest and best method of obtaining an adequate system of water works.

EVERY property owner within the city limits should do his duty and vote for the bond issue for water works.

FROM MAYOR SHINDLER.

A Plain Practical View of Water Works Question.

To the Voters.

I have been making a careful investigation of the matter of installing a system of water works for our city, and in doing so have made inquiries of other towns, most of them about the size of Nacogdoches, and from the reports from these towns lead me to say the following:

There are two ways in which we may secure the desired water plant.

The first that I will mention is under what is known as "Municipal ownership," which of course means that the city will own and operate its own system. To accomplish this it will be necessary to issue bonds for the purchase of material and also for the purchase of the present plant, if same can be bought for a reasonable price.

If this is done, we have assurance from our engineer, who made careful and exhaustive investigation of all the conditions at this place, that we can construct a complete system of water works, one that will afford adequate fire protection, and which can be counted upon at all times to supply water for domestic and manufacturing purposes.

While at this time we do not know exactly what the revenue from the present system is, we conclude, from all the evidence we are able to get from the other towns, that we will, if the people of Nacogdoches are given an opportunity to purchase water, be able to supply at least four hundred customers with water for their homes.

A plant having this patronage, and in which, during the winter months, half of the required water could be automatically pumped by the hydraulic ram system, and about one third during the summer months, would yield a profit upon its operation of not less than \$3,000.00 per annum over and above all expenses. We may not be able to reach this full running capacity during the first year, but we will certainly after the second year, have tapped on to the mains of the city practically all of the people of Nacogdoches who will use water.

As the interest on our bond issue at 5 per cent would be \$2,500 per annum, it must appear that if we make the least amount of earnings that has been estimated that the plant will make, it would not only pay for its operating expenses but will also keep up the interest on the bonds, and provide a sinking fund with which to retire the bonds at their maturity.

The estimate of our engineer indicates that the earning capacity of this plant will be even greater than that herein mentioned, and indeed it is believed on good authority that the present system of water works is making an earning of almost as much as the interest upon our bonds would amount to.

It must further be borne in mind that the engineer, in

making his estimate to us of the earning capacity of this plant, is doing so with the understanding that the city will reduce the water rates to such an extent that the average rate to families will amount to about \$1.25 per month.

The other method of which I wish to speak is that is owned by private company or operating under a franchise.

We find that to secure a good system of water works under this arrangement the parties offering to put in the system will require the city to enter into a contract to pay an annual rental to them for fire hydrants and the average price per hydrant is to be about \$40.00 or \$45.00 each.

The plant which we are having designed, and which our engineer assures us can be built for the amount of money we will have available, will have seventy fire hydrants, and if the city were required to pay a hydrant rental of \$45.00 per year on each of these, we would annually have to pay out an amount of money which would be more than the interest on our entire bond issue for the new plant.

Not only this, but at the expiration of a thirty year franchise, the city would have paid out as much as the new plant would have cost, together with the interest upon the bonds during their life, and in the end would have nothing to show for it but the protection that had been given during the term of the contract.

The city council will in a few days publish in the papers the estimate of the cost of the proposed plant, backed by a surety bond by the engineer that it will not exceed the amount of the estimate, and exhibit plans and specifications showing where each and every pipe will be placed, and the kind of system that it is proposed to put in, so that you can know just what you are voting for or against.

Death of Bat Bacon.

The painful intelligence of the death of Mr. C. B. Bacon was received by his friends a few days since. Mr. Bacon died at the home of his daughter, in Dallas, Texas, on Sunday, February 17. He had been an invalid for some months.

Mr. Bacon leaves many friends among us who will greatly miss him.

He was a member of the Knights of Pythias, Odd Fellows and Masons.—Logansport News-Boy.

The Sentinel learns of Mr. Bacon's death with sorrow. He was not only an excellent newspaper man, but was a splendid gentleman and a true and devoted friend. In speaking of his death, the San Angelo Standard says:

"C. B. Bacon died at Dallas Sunday morning of dropsy of the heart. Deceased was formerly the editor of the Ozona Enterprise, before which he was a prominent newspaper editor and owner of Logansport, La. Mr. Bacon was well known in San Angelo, where he has a large list of friends. He was a

writer of untiring zeal and good patience, and labored always for the upbuilding of the community in which he lived. Mr. Bacon was popular with the press of West Texas, and his sudden death comes as sad to those of his profession in Angelo, and throughout the Concho Country, all of whom will miss the bright and versatile pen of the man who never grew tired of laboring for the causes he thought were right."

BENEFITS OF COLLEGE.

Brownwood Citizen Says it is Better Than a Railroad.

As is well known, the Baptists have a college at Brownwood, similar to the one it is proposed to establish in East Texas. A few days ago a Tyler lady wrote to Brownwood for a brief statement of the benefits Brownwood had derived from that school, and she received the following reply:

Brownwood, Tex., Feb. 23.—Mrs. Chas. T. Bonner, Tyler; Dear Madam:—Your letter of Feb. 4th to Rev. G. W. McCall, pastor of the Baptist church, has just been referred to me for reply. While I have no figures before me, I have been here since the establishment of Howard Payne College and think that a conservative estimate would be that about 150 students are here each year from out of the city. These will spend an average of \$12.00 a month for board, \$6.00 for tuition in the various departments and \$5.00 for incidental expenses, a total of \$24.00 each per month, or about \$3,500.00 per month that is left in the town. We have another college here with an average attendance from out of town of about 100 students, with about the same average expense account. We have two railroads, to which our city paid liberal bonuses, but I am sure that any well informed citizen would say that a college is better for a town than a railroad. In addition to the students who come here from abroad a large number of the best families have been induced to locate here because it is a college town. They have usually been well-to-do people with ample means to educate their children. The colleges have also greatly built up the moral and religious tone of the city. Brownwood's colleges have been the best investment ever made by our business men.

Will H. Mayes.

Mr. Mayes is editor of the Brownwood Banner-Bulletin, and his statement can be relied on as being conservative and true. A blind person—even a blind mossa-backs ought to be able to see that the proposed college will be of great benefit to Nacogdoches.

The senate investigating committee has appropriated \$1000 to pay the expenses of Judge Poindexter, who represented the senate committee in the Bailey investigation. It is very likely that the amount will be allowed when the matter comes up for disposition in the senate.

The 59th congress adjourned sine die Monday at noon, though thousands of people in the United States hardly knew the august body was in session.

THE town that plants schools and colleges in its midst plants a pillar of progress that time can not efface.—Nacogdoches Sentinel.

That is what Austin did long ago, and it is still doing it. We have schools, colleges and universities, but not one to spare; in fact, we want more. Do you know where we can get them? They are the best things to have.—Austin Statesman.

That Austin has numbers of schools and colleges is to be admitted. For instance, there is the school for deaf mutes, the school for the blind, the state university, all for whites, and the deaf, dumb and blind institute for colored youths. These are all creditable institutions and are worth a great deal to Austin, even if they were planted there by the State. Austin is also fortunate in having located within its confines the State Capitol, in which the legislature assembles at least once in two years, and the State Confederate home is also located at Austin. With St. Edward's college located within four miles of the city, St. Mary's academy and a splendid system of public schools within the city, together with the state institutions located there, Austin has enterprises the capital city should be proud of, and even with the lunatic asylum it isn't likely that she has one to spare.

The Country Editor.

The country editor is eager to print all the news in his paper. Does he do it? Hardly. "This would be a very newsy paper," exclaimed one of them to his subscribers, "were it not for the fact that each of the four men who work on it has many friends. By the time all the items that might injure some of his friends are omitted, very little is left."

"I wish you would print a piece about our school teacher," said a farmer's wife to me one afternoon. "Say that she is the best teacher in the county."

"But I can't do that—two hundred other teachers would be angry. You write the piece, sign it, and I'll print it."

"What are you running a newspaper for if you can't please your subscribers?" she demanded—and canceled her subscription.

So the country editor leaves out certain good things and certain bad things for the very simple reason that the persons most interested are close at hand and can find the individual responsible for the statements. He becomes wise in his generation, and avoids chastisements and libel suits. He finds that there is no lasting regard in a sneer, no satisfaction in gratifying the impulse to say things that brings tears to women's eyes, nothing to gloat over in opening a wound in a man's heart. If he does not learn this as he grows older in the service, he is a poor country editor.—Atlantic Monthly.

Earnst Spradley came up from Kennard mill last night and is spending the day with friends and the home folks.

SOME GOOD EXAMPLES.

From time to time The Sentinel has called attention to instances where different towns and cities have either voted a bond issue for municipal water works, or have ordered elections for that purpose, and in no instance has the bond issue been defeated. These reports have been taken from the Western Contractor, the official organ of the master builder's exchange, and are reliable. From the most recent issue of that journal, dated February 27, is gleaned the following:

"Clinton, Okla.—The Clinton water works \$20,000 bond issue has been voted and the legality of the bonds has been passed upon and approved. The bonds will be sold and the work of constructing the water works system will be rushed. It is the intention to build a system which will be adequate to supply a town of 10,000 people, to complete which another bond issue will be necessary.

"Pine Bluff, Ark.—An ordinance creating an improvement district to include the entire city, and authorizing the city to build, operate and maintain its own waterworks plant, was passed by the City Council, as a result of a movement inaugurated immediately after the fire which destroyed nine blocks in the East End last week. The legislature will be asked to pass a bill to apply specially to this local measure. The agitation for a municipal water plant was started by citizens in the burned district the night of the fire, at a mass meeting at the court house, and the movement became general over the city within 24 hours. It is the opinion of those behind the plan that the construction will begin within 60 days.

"Fremont, Neb.—The detailed plans and specifications for the construction of a new municipal water and light plant have been presented to the city council of Fremont. The proposed plant will cost about \$50,000."

As has been repeatedly stated in this paper, there is not an instance on record where municipal ownership of water works has proven unsatisfactory, but the instances where private ownership has been satisfactory to the people are very rare.

W. L. Blanton of Gainesville and W. W. Clopton of Corsicana were elected trustees of the Widows and Orphans' Home.

Obituary.

On Sunday morning, February 24, 1907, little Lillie, the daughter of Mr. and Mrs. Lafayette Singleton, aged 5 years, six months and eleven days, passed from earth to dwell among the angels. For eight weeks she had lain on the bed of affliction; all that loving hands could do was in vain, and as they stood around her when her spirit took its flight, they could only say, "Thy will be done." It is hard, so hard to give her up, but some day we will meet Lillie where there will be no more sad partings. Lillie was a lovely child; by her pleasant, winning ways she won a place in the heart of all who knew her. To her parents she was kind, affectionate and obedient; to her sisters a loving sister and playmate. Only they can know how hard it was to bid her farewell. We know what a vain attempt it is to gild a grief with words, but knowing of her patience, suffering and endurance we can say, weep not for her, dear father and sisters, for she dwells in the land of love. From the lesson her death has taught you pray to meet her in that land above. Her mother who had gone before her is anxiously waiting for you there at the Pearly gates of Glory. She stands with your rose bud fair.

Dearest Lillie thou hast left us, Here thy loss we deeply feel; But 'tis God that hath bereft us, He can all our sorrows heal. Yet again we hope to meet thee, When the day of life is fled; There in heaven to greet thee, Where no farewell tears are shed. A Friend.

VOTE for the bond issue for water works Friday week. You'll never regret it.

Positions Guaranteed.

Positions guaranteed is the head line used in the advertisements of some schools who are endeavoring to secure patronage on this point alone, but we would recommend to our young friends that they select a school that offers something besides merely guaranteeing a position, if you finish a certain course under certain conditions, etc., one that guarantees to give you the most thorough practical modern course to be had and in the least possible time, and one that will duplicate, if asked to, the guaranty contract of any commercial school, after they have explained its contents to the prospective student. Select a school that uses as its headlines. Thorough Practical Courses at a reasonable Expense, and in the shortest time possible, such as the Tyler Commercial College of Tyler, Texas, which has in the short space of seven years grown to be one of the largest commercial schools in the U. S.

Rebates and Discounts are sometimes offered by schools that have not sufficient merit in their courses to draw patronage otherwise. The Tyler Commercial College will, through their modern methods and the famous Byrne systems, save you in the way of time and board more than tribble the discount allowed by any of these schools, and if you doubt their doing this, you may pay them the same amount of cash you would have to pay the inferior school, give them a note for the discount, payable only when they have demonstrated to you that their courses are far cheaper at the regular rate than that of the other schools at a big discount.

Judge Mims at Home.

Hon. C. D. Mims, the new county judge elect of Nacogdoches county, came in from Austin at noon today, and will make his bond and qualify as county judge at once. Judge Mims was the recipient of many congratulatory expressions from his legion of friends upon his selection. The universal verdict is: Judge Mims will make an ideal county judge, and is a fit successor to the lamented Judge Rateliff.

Getting Busy.

District Clerk R. W. Murphy is a very busy man just now, getting out service in cases for the March term of district court. Court convenes next Monday week, March 18, and tomorrow is the last day in which service can be perfected for this term of court.

It Will Stay There.

"In my family medicine chest, no remedy is permitted to remain unless it proves beyond a doubt the best to be obtained for its particular purpose. For treating all manner of skin troubles, such as Eczema, Tetter, Ringworm, etc., Hunt's Cure has held its place for many years. I have failed to find a surer remedy. It cures itching instantly." R. N. Swann, Franklin, La.

requirements of the National Pure Food Law, Guarantee No. 2041, filed at Washington

"Our food was good—Bear steak, flapjacks, fresh bread, etc., but nothing seemed to warm and strengthen us as much as a cup of ARIOSA Coffee, which we kept in the original package and ground as needed." From a gentleman now in Bethlehem.

Arbuckles' ARIOSA was the first roasted packaged coffee,—packaged for the consumer's protection and the paper of each berry sealed after the roasting with fresh eggs and sugar to keep the goodness in and make the coffee settle clear and quickly.

Talk about "roasted fresh daily," the way to get a cup of coffee that tastes like coffee, with all the delicious flavor and aroma intact, is to buy Arbuckles' ARIOSA and grind it as you want to use it. Warning: it a little develops the flavor and

THEY DRANK ARBUCKLES DEEP AND OFTEN, AND IT MADE THEM GREAT

makes the grinding easy. Coffee loses its identity as coffee after being ground or when exposed to the air. Never buy loose coffee out of a bag, bin or tin. If it were good the roaster would not be ashamed to sell it in a package with his name on it.

The sales of Arbuckles' ARIOSA exceed those of all the other packaged coffees combined. It is the best coffee for you, and costs you less.

If your grocer won't supply, write to ARBUCKLE BROS., New York City.

Tomato and Peach Prospects.

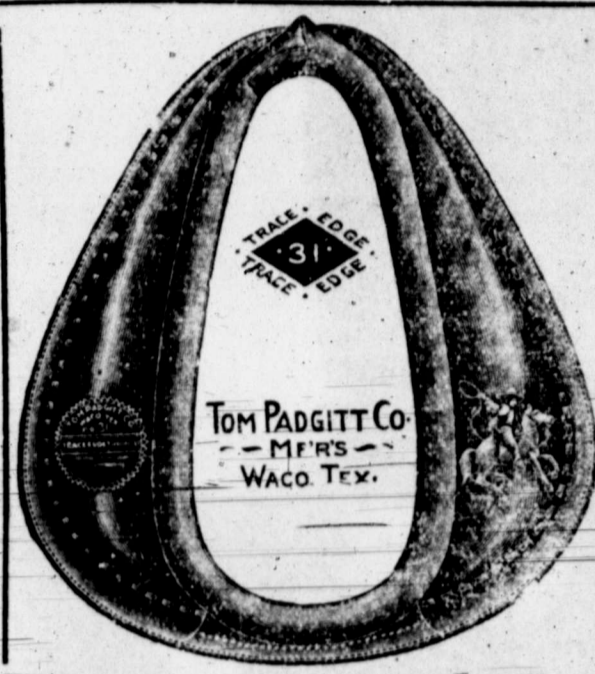

Tomato plants are looking fine the weather having been very favorable up to this time. They are earlier than usual, and many growers have already transplanted from hot bed to cold frame, and others are doing so now. The acreage will be large if the plants meet with no disaster, but of course there are many cold nights to come, and no one can tell how many will yet be killed.

So far as we are able to ascertain, the peach crop is still safe, and the trees have remained in a dormant state remarkably well for the warm weather we have had. Growers are beginning to take courage and to hope for a fruit crop in spite of the unfavorable conditions which prevailed during the winter.—Jacksonville Banner.

Cronkite-Lanier.

One of the prettiest home weddings that has occurred in Kirbyville for some time was celebrated on the evening of Feb. 27 at the home of Mr. and Mrs. R. C. Lanier, when their niece, Miss May Lanier, and Mr. John Cronkite were united in the bonds of matrimony.

The ceremony was performed by Rev. M. L. Lanier of Jasper in a most impressive and beautiful manner. The bride is one of the most charming of the young ladies of that town, and by her lovable disposition, agreeable manner and cheery ways has won a large number of friends. The groom is a well known popular young man of this city.

Mr. Cronkite and bride came in this morning from Kirbyville, and are visiting at the home of the groom's mother, on East Main street. Mr. Cronkite has many friends in Nacogdoches who wish for him and his fair bride long life and prosperity.

Saved Her Son's Life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for weeks when he was perfectly well. He has worked steadily since at carpenter's trade. Dr. King's New Discovery saved his life." Had Heart Failure.

Mr. W. F. Watson, a well known citizen residing near Spanish Bluff, was stricken with heart failure at the post-office this morning and came near dying. He was talking to Postmaster Cooper at the money order window when he suddenly threw up his hands and exclaimed: "Oh, my God," and fell to the floor. A physician was called, who applied restoratives to the stricken man, and in a short time he was able to sit up.

For Change in District.

Beaumont, Tex., Feb. 27.—A letter has been received here from Senator E. I. Kellie, saying that the Senate Committee on Judicial Districts had reported favorably upon a bill to put Orange County in the Fifty-Eighth District in this county, take Tyler out of the First and put it in the Second; Shelby, Sabine and San Augustine come out of the Second and into the First. Capt. Kellie stated that he will try to prevent the passage of the bill or have it amended. He says the committee made a favorable report in the face of almost unanimous opposition of the people of every county concerned and over the protest of the Representatives and Senators from the counties transferred. Beaumont lawyers have been especially opposed to putting Orange county into the Jefferson county district court, owing to the congested and crowded condition of the Jefferson county docket now.

How to Remain Young.

To continue young in health and strength, do as Mrs. N. F. Rowan, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as annel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Citation.

The State of Texas, To the Sheriff or any Constable of Nacogdoches County, Greeting: Oath having been made as required by law, you are hereby commanded to summon H. A. Gray and J. W. Chambers by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, in the 2nd Judicial district, to appear at the next regular term of the District Court of Nacogdoches County, to be held at the Court House thereof, in Nacogdoches, on the 3rd Monday in March, A. D. 1907, the same being the 18th day of March, A. D. 1907, then and there to answer a petition filed in said Court on the 19th day of July, A. D. 1906, in a suit, numbered on the docket of said Court No. 2287, wherein E. F. Box is plaintiff, and H. A. Gray, J. W. Chambers, D. H. Russell and J. D. Fussell are defendants, and said petition alleging that on June 9, 1904, Defendant H. A. Gray executed and delivered to M. D. Stephenson his certain promissory note for the sum of \$100.00, with 10 per cent interest from date of note, payable annually. That on or about the 3rd day of Sept. 1904, the said J. W. Chambers made, executed and delivered to H. A. Gray his two certain promissory notes for the sum of \$102.00 each, with 10 per cent interest from date, payable annually, stipulating that if any of the deferred payments or interest thereon was not paid promptly when due then in that event all notes shall become due and payable at the option of the owner. That by the execution and delivery of notes the makers thereof promised and became liable to pay the said H. A. Gray the said sum of \$100.00 with interest thereon at 10 per cent per annum from date of said note, and if failure was made to make payment on the 9th day of June, 1905, then the note and interest became due with an additional 10 per cent as attorney's fees, and the said J. W. Chambers notes for the sum of \$102.00 each, mentioned in each of his two said notes together with 10 per cent interest thereon from date due the one on the first day of January, 1906, and the other on the first day of January, 1907, and in case the year's interest on both or either of said notes was not paid on the 3rd day of September, 1905, then both said notes and all interest thereon became due any day the same were demanded by the holder thereof, and 10 per cent additional as attorney's fees. That on the 3rd day of September, 1904, the said Stephenson and the said Gray, both for a valuable consideration, before said notes were due, transferred and delivered each of them to plaintiff, E. F. Box, and that he had no notice of any offsets, payments or discounts against said notes. That the interest on the said Gray note has not been paid, and that the principal of the Chambers notes have not been paid, and so he says that all said notes are long since due. That the said Chambers, in a trade with said Gray, assumed and promised to pay as a part of the consideration of property he was at that time buying from the said Gray, to pay off and discharge the said \$100.00 note. This promise of the said Chambers was among other things the consideration, causing the said Gray to execute and deliver a deed to the said Chambers, which deed is dated September 3, 1904, and said deed is in the possession of the said defendants and they are hereby notified to produce said deed for the purpose of showing said promise, etc.

Petition further shows that all said notes were given for part of the purchase money, at the date of the two different dates of said notes for, and are a lien on the following described lots or parcels of land, to-wit: Lots Nos. 18, 19, 20 and 21 in block No. 74 in the town of Cushing, Nacogdoches county, and that Defendants Russell and Fussell are in possession of said property, holding same under claim of right, the nature of which the plaintiff is not advised.

Plaintiff further says that though often requested, the defendants have failed to pay any part of said notes or any part thereof except the sum of \$49 paid on the note of the said Chambers due January 1, 1906.

Wherefore plaintiff prays that defendants be cited in terms of law, to answer herein, for judgment for the amount of said notes, interest, attorney's fees and all costs of this suit; for foreclosure of vendor's lien upon said property, and for all such other further and general relief as he may be entitled to receive. All of which facts more fully appear in plaintiff's petition now on file in this office.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, R. W. Murphey, Clerk of the District Court of Nacogdoches County.

Given under my hand and the seal of said Court, at office in Nacogdoches, this 8th day of February, A. D. 1907.

R. W. MURPHEY,
Clerk District Court, Nacogdoches Co.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the **BLOOD CANNOT BE CUT AWAY.** The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood.

I was afflicted with a sore on my face of four years' standing. It was a small pimple at first but it gradually grew larger and worse in every way until I became alarmed about it and consulted several physicians. They all treated me but the sore continued to grow worse. I saw S. S. S. advertised and commenced its use and after taking it a while I was completely cured. My blood is now pure and healthy from the effect of S. S. S., and there has not been any sign of the sore since S. S. S. cured it.

S.S.S. PURELY VEGETABLE

When the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.

NEW COUNTY JUDGE.

Hon. Chas. D. Mims Selected by Commissioners.

From Monday's Daily:
The county commissioners met in called session at 10 o'clock this morning to select a successor to the late County Judge W. G. Rateliff. All four of the commissioners were present, and commissioner H. V. Sitton of precinct No. 2 was elected to preside over the court.

There were some half dozen or more applicants for the county judgeship, four of whom had made application in writing. The court repaired to the sheriff's office to consider the matter, and after a short time came out and announced that Hon. C. D. Mims had been unanimously elected county judge.

Mr. Mims is in Austin, but he was notified of his election by wire and he wired his acceptance to the court. Judge Mims will return Wednesday and be sworn in.

Had an Operation Performed.

Mr. T. J. Williams returned Sunday from San Antonio, where he had been to visit his son, Brown, who is attending the Peacock Military school. Mr. Williams reports that Brown is getting along splendidly now since he had an operation performed on his eyes. It was feared for a while that he would have to come home on account of a severe case of granulated eyes, but Brown's many friends here are glad to learn that his eyes are so much improved that he can continue his studies.

Something Wrong Somewhere

A dozen symptoms tell you so. Disordered stomach, unstrung nerves and loss of appetite, a feeling of indifference for the world and everybody in it, including yourself; eruptions that try to force the "badness" out to the skin all tell their tale. It's your blood that's raising all this disturbance. Brown's Iron Bitters will cleanse your system of the cause of these petty sufferings, and fill your veins with new and lively blood, rich in nourishment. Stripling, Haselwood & Co. dw

Schnapps Tobacco is Made ENTIRELY from Tobacco Grown in the Piedmont Cou The Imitation Brands Have Schnapps Quality Only On the Outside Of the Plug

As of imitation brands are OR CONTRA look like Schnapps tobacco. The outside of the imitation plugs of tobacco is flue cured the same as Schnapps, but the inside is filled with cheap, flimsy, heavily sweetened air cured tobacco. One chew of Schnapps will satisfy tobacco hunger longer than two chews of such tobacco. The color, size and shape of the tags, plugs and packages of certain imitation brands of tobacco have been made so much like Schnapps that they have often been accepted by buyers under the belief that they were getting Schnapps. Sufficient proof has been secured to establish the fact that certain brands are infringements and in violation of the trade mark laws, yet the trade will continue to be imposed upon by these infringers until the suit already entered and now pending to protect Schnapps is decided. A great many of these imitations are

claimed to be "just as good" as Schnapps, but there is only one-genuine Schnapps. Be sure the letters on the tag, and stamped on the plug under the tag spell S-C-H-N-A-P-P-S and then you have it—the most wholesome tobacco produced, with just enough sweetening to preserve the mild, juicy, stimulating quality of the leaf tobacco. Expert tests prove that this flue cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than any other and has a wholesome, stimulating, satisfying effect on chewers.

If the tobacco you are chewing don't satisfy you more than the mere habit of expectorating, stop fooling yourself and chew Schnapps tobacco. Schnapps is like the tobacco chewers formerly bought costing from 75c. to \$1.00 per pound; Schnapps is sold at 50c. per pound, in 5c. cuts, strictly 10c. and 15c. plugs.

INSTRUCTION TO COLLECTORS.

Are Notified to Remit All Money to State-Treasurer.

Austin, Texas, Feb. 28.—

At a meeting of the state depository board, composed of the treasurer, comptroller and attorney general, held at Austin, Texas, on February 27, 1907, following order was unanimously adopted:

Whereas, The state treasurer and the state depository board have, under and by authority of an act of the legislature of the state of Texas approved May 1, 1905, proceeded to establishment of state depositories under said act in the several senatorial districts; and

Whereas, Said treasurer and said board have not been able to this time to designate said state depositories in all of said senatorial districts, but only in the following:

- 1. First National bank, Mount Pleasant.
- 2. City National bank, Paris.
- 3. Greenville National bank, Greenville.
- 4. Union National bank and Trust Co. Dallas.
- 5. First National bank, Bryan.
- 6. American National bank, Beaumont.
- 7. Texas Bank and Trust Company, Galveston.
- 8. First National bank, Shiner.
- 9. American National bank, Austin.
- 10. First National bank, Victoria.
- 11. Corpus Christi National bank, Corpus Christi.
- 12. Farmers and Merchants National bank, Abilene.
- 13. First National bank, Canton.

And whereas, Said board finds that it is impracticable

and not to the public interest that the public funds of the state of Texas should be remitted by the officers and other persons charged with the duty of the remission thereof to the said depositories already established and designated until said depositories are established in each of said senatorial districts, or established as required by law.

Therefore be it ordered by said state depository board acting under said act, and by authority contained under section 13 of said act, that until each and all of said depositories are designated and established as aforesaid, all tax collectors in the state of Texas, and all officers charged with the duty of remitting to the state treasurer the state funds, as also any person whose duty it is to pay over to the state of Texas any money belonging thereto, or to any funds of said state, shall continue to remit the same to the state treasurer of Texas.

The Volunteer Cultivator

We originated this type of Voluntary Cultivator. It is especially adapted for the practical farmer, creating such an enormous demand that nearly every farmer of farming implements in the world has endeavored to duplicate it. We are headquarters for everything that is best in implements, wagons and vehicles. If you are a standard implement of any kind, we will have it. Write us.

"In 1897 I had a stomach disease. Some physicians said Dyspepsia, some Consumption. One said I would not live until Spring. For four years I existed on boiled milk, soda biscuits, and doctor's prescriptions. I could not digest anything I ate; then I picked up one of your Almanacs and it happened to be my life-saver. I bought a fifty-cent bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to my work, as a machinist, and in three months I was well and hearty. May you live long and prosper."—C. N. Cornell, Roding, Ga., 1906. The above is only a sample of the great good that is daily done everywhere by Kodol For Dyspepsia. It is sold here by Stripling, Haselwood & Co. dw

When the Children come home from School,

They usually want something from the pantry

You remember the hunger you had—Home cooking counts for much in the child's health; do not imperil

it with *alien* food by the use of poor baking powder.

Have a delicious, pure, home-made muffin, cake or biscuit ready when they come in. To be sure of the purity, you must use

ROYAL BAKING POWDER

Royal makes a difference in your home—a difference in your health—a difference in your cooking.

ROYAL is absolutely Pure.

MILLINERY

We are adding Millinery to our business, and have a first-class trimmer in charge. She is anxious to see you before you buy your spring Hat.

Mr. Williams has returned from St. Louis where he bought an up-to-date stock of goods, and we are ready to show you what we have.

Our store is certainly a beauty. After buying the stock of goods of Tucker, Zeve & Dotson at greatly reduced price, we have many bargains to offer the public. Don't fail to come and see us.
