Items From Chireno.

Chireno, March 8.—Winter is past, March with her wild winds and sunshine is here encouraging countless varieties of trees and plants to send forth beautiful foliage and flowers.

From a recent trip to the metropolis our people too are alert to their environment and opportunity. All along the road as we passed farm after farm with new or nicely repaired fences, great stretches of beautifully tilled soil was presented to view. Orchards all in bloom and several gardens well advanced. O that our people may prosper and reap as they are sowing.

The prevalence of measles and lagrippe has greatly diminished the school at this place. Several deaths have occurred, but the malady seems to have spent its force for lack of victims.

Dr. Taylor Mast returned from New Orleans Thursday after several weeks absence.

Mrs. Maurice Wilson of Shreveport is visiting her parents, Mr. and Mrs. J. L. Pack.

Mr. Arthur Seale was in town Friday in the interest of his candidacy. Such visits

are appreciated. Are there not others to come.

Little Flock School Closed.

Editor Sentinel.

Little Flock, March 9.—I never see anything from this community in The Sentinel.

Farming in this neighborhood is very backward.

There is some sickness. That old gripp is a monster, though it could be worse.

Our school closed Friday, February 28. Miss Cleo Lilly was the teacher, and she had the children so well trained that we can but compliment her upon her care and labors while she was with us. We certainly wish to have her to teach our school again.

DOUGLASS HIGH SCHOOL.

Interesting Exercises in Honor of Washington's Birth Day.

Editor Sentinel.

Friday night, February 21, the Joe Bailey Debating club discussed the following subjects: Resolved, That George Washington was a greater man than Robt. E. Lee. The affirmative speakers were Ed Fezell and Luther Loy; the negative, Ollie Justice and Elbert Walters. The young ladies of the Cary club furnished excellent music for the occasion.

At 10 o'clock next morning the school building was filled with students, patrons and visitors from every part of the country, who had assembled to honor the memory of Washington. An excellent and most interesting program, consisting of soul stirring patriotic songs, recitations, orations and addresses by various speakers, was rendered during the morning and afternoon, but owing to the fact that this writer has not the names of the participants of the day's exercises, the publication of the lengthy program is omitted.

A most unique feature of the day's entertainment was the interesting speech of Mr. A. A. Seale of Nacogdoches, who delivered the A. A. Seale Medal for the best original composition from the young ladies of the Douglass High school. Miss Linnie Paine was the honored recipient of the medal. Messrs. Walton Day, W. E. Fezell, George Adams, John Hunt, Joe Day, A. T. Russell and F. P. Marshall, each contributed something to the program.

At night the Nacogdoches County Debaters' Union had a full house to hear the discussion: Resolved, That all political candidates should be elected by direct primaries. Speakers on the affirmative, A. T. Russell, John Hunt; negative, George Adams, W. E. Fezell. The Douglass String band and the Young Ladies' Cary club dispensed excellent music.

Prof. G. M. Hale, principal of the Douglass High school, is not only one of the best known, but also one of the best teachers and school builders in the country, and his large attendance of students from various parts of the county, as well as the cooperation received from the people of Douglass, all bear evidence of his great worth and appreciation.

TOBACCO INDUSTRY.

Largest Acreage in History of the Nacogdoches Field.

The tobacco industry in Nacogdoches county is on a boom, and this year the largest acreage in the history of the Nacogdoches field will be planted.

There will be cultivated 100 acres in Cuban filler tobacco, planted by farmers, and there will be this season 32 acres under shade.

In addition to this the government is going to conduct an experimental farm for the purpose of testing the adaptability of the different kinds of fertilizer to this soil and climate, and to determine which will produce the greatest yield and the best quality of tobacco. On this farm will also be tested forty-eight different kinds of tobacco seeds. Mr. Otto Olson the government expert, will have charge of this demonstration farm, and he will also assist the tobacco growers of the county and instruct them in the cultivation and preparation of their tobacco for market.

All of the filler crop has been contracted for at 17 cents per pound, and 22 acres of the shade tobacco has been sold at 40 cents per pound.

The seed beds have all been sown, and the plants are already coming up nicely.

Truly the prospects for the Nacogdoches county tobacco crop are indeed bright.

Executive Committee Meeting.

The executive committee of the Nacogdoches Commercial Club will meet Thursday evening, March 12, at 8 o'clock, in the city council chamber. There are a number of important matters to come before the club at an early date, and one of the questions to be determined by the executive committee Thursday night will be to fix a date for a meeting of the club for their consideration. A full meeting of the committee is desired.

Everybody else's fertilizer is "No Count" and ours "perfection" is the way some dealers put it. We don't make any such claims. We believe all fertilizers have real merits, and that different lands require different mixtures. We have given the matter some thought, have different mixtures in stock and ask you to call on us. See the state chemist's analysis of the different kinds we offer. Compare with others offered and if we merit your trade—on quality and prices—would be glad to have it. Let Us Reason Together

If by planting the **Genuine Mebane's Cotton Seed** raised at Lockhart, Texas, you get a crop that matures earlier and makes a yield of 15 to 25 per cent more per acre is it not good judgment to buy these seed? These seed are not untried by our own farmers but used by many of the best farmers in the county for two years past and they are buying them again. Call and see the list of customers who have bought them for this season.

Again, whether you use **Mebane's Seed** or not, if you can, by the use of **Virginia Fertilizers**, greatly increase your yield, is it not good judgment to use it?

We have a long list of customers who have used our fertilizers and are buying them again. We want to talk both these matters over with you carefully. Please call. Yours truly,

Putting in Additional Mains.

Mr. M. G. O'Neil, head of the O'Neil Engineering company of Dallas, was in the city a few days ago, closing up the details of his contract with the city council for the construction of the new water works system.

It was agreed between the council and the company that an additional line of pipe be put in on North Fredonia street, and the East Main street line is to be extended from the Redlands hotel to the Mound street line. The six inch main on Fredonia street will be extended to Hospital street, and from that point a three inch line will be extended to a connection with the line on Ratcliff avenue, near the Stone Fort. Three additional fire hydrants will be put in on this line.

The line on East Main street is being put in now, and the whole job will be finished this week if the weather does not interfere with the work.

Union Cotton Yard.

Editor Sentinel.

Please permit me through your paper to say to those who have cotton in the "Union" Cotton Yard that the Nacogdoches and Southeastern railroad track is being run through the cotton yard to the east of the cotton shed, and when completed and operated the liability to fire will be great and the risk very dangerous. Also, I find that since the dry, hot weather has opened up, the paper on the roof of the shed is giving way and will cause leak. I feel it a duty that I owe to apprise you of the condition of matters that you may govern yourselves accordingly. I will endeavor to continue to protect your interest, as best that I can. Numerous friends of W. E. McMillin are urging him to become a candidate for constable of precinct No. 1. While he has not yet decided definitely to enter the race, he is considering the matter seriously. Mr. McMillin served one term as constable of this precinct, and though he was defeated by a small majority for re-election, it is admitted by all that he made a faithful and efficient officer.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. It has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also affected, the mind and judgment are clouded, and many an evil deed or impure thought is almost traced to the impurity of the blood. Equal impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It purifies and enriches the blood, thereby curing pimples, blotches, eruptions and other cutaneous affections, as eczema, dandruff, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist doesn't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 668 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

The forests are putting on their coat of green, and the fisher men have begun to tell what a big fish a minnow is.

The Tyler Courier and Times truthfully says that "the man who is least able to help is the man who can be relied on to do something." The Times evidently had Nacogdoches in mind.

The Jersey City Observer suggests Morris Sheppard of Texas as a suitable running mate for W. J. Bryan. Morris is good vice-presidential timber, and would preside over the United States with as much ability as any man in the country.

The Greenville Banner very truthfully contends that the most prosperous people on earth are those who produce what they need at home—grow their necessities first and then what will bring a surplus for spending money or investment.

We often see good things going the rounds of the press without credit to the author being given, and here is one of the gems of that character right here: "The distinguishing characteristic of the youth of the present day is a belief that dad's money will take them through this world and ma's prayers fix things all right for them in the next."

When Nacogdoches has that county fair we expect to see Cushing walk off with several premiums. We can beat the whole county on fine poultry, fruit and vegetables. And we are not short on live stock.—Cushing Enterprise.

Bring on your exhibits, Brother Carter. If Cushing wins all the premiums in the catalogue, it will detract none from the interest in the fair. But she won't do it; there are other pebbles in Nacogdoches county.

NACOGDOCHES HONORED.

At the meeting of the representatives of the agricultural and commercial interests of Southeast Texas, held at Galveston yesterday, Nacogdoches carried off her share of the honors. Mr. Robert Lindsey, president of the Nacogdoches Commercial Club, was made chairman of the meeting. Afterward permanent organization was affected and Mr. Lindsey was elected president. Nacogdoches was chosen as the next meeting place, the date of the meeting to be fixed by the call. Mr. W. T. Wilson of Nacogdoches was one of the leading speakers of the conference.

FIEND IN FROCKS.

"That assistant matron of the Children's home at Canal Dover, Ohio, who drove a carpet tack through the tongue of a little boy to force him to confess to the theft of a pencil, was fined only \$10. And the news item bringing this information failed to say whether or not she was dismissed from the home. It is revolting to know that such a female brute is to be found in a civilized country, and it is horrifying to think of such a woman being left in charge of helpless little boys and girls. The least the state of Ohio could do for its children would be to put this woman where she could never come in contact with a child," says the El Paso Times. The Abilene Reporter reminds us that it was in Ohio where a negro was fined and "severely lectured" for attempted criminal assault upon two small white girls, "the district attorney consenting to the sentence because the defendant was a civil war veteran," according to the press reports at the time. Continuing, the Reporter says: "The old testament method of punishment, an eye for an eye, might prove to be a more salutary lesson for such a tigress than any other kind of punishment. It is quite certain that if she had thought such a punishment possible she would not have inflicted it upon the helpless child, no matter how savage her instincts. Tales of cruelty to orphans in so-called homes that we have always regarded as products of the imagination were no worse than this incident. We sometimes wonder why we call such acts brutal, for no brute is ever guilty of such things." Here we are reminded of that couplet—

O the gladness of woman
When she's glad!
O the sadness of woman
When she's sad!
But her gladness when she's glad,
And her sadness when she's sad,
Do not equal the badness of woman
When she's bad!

November; first Monday in April; Sherman, first Monday in January, third Monday in May; Paris, first Monday in March, third Monday in October; Texarkana, third Monday in March, first Monday in November.

MORGAN boasts now of being a town that is morally and physically clean.—Morgan News.

There has been instances when one man has cleared up a town in a few minutes, and still the sanitary conditions would be in no wise improved. Morally and physically clean is good so far as it goes, but sanitary conditions must also be looked after.

The following from the Greenville Herald is timely and to the point, and applies with equal force to every congressional district in Texas: "Attorney—General Hadley's statement that the people usually change their public officials just at a time when their knowledge and experience render them capable of giving their country the best service is especially applicable to congressmen. In the older states, men remain in Congress for many years, secure important committee assignments and grow in power and effectiveness. In this section we have always changed our congressmen too frequently. Rotation in certain offices may be desirable but not so with congress. When a man proves his capacity and shows himself true to the people he should be retained until there is some reasonable cause for his displacement."

The state of Texas lacks a whole lot of being bankrupt. A recent statement of the state's finances shows the total amount of cash on hand to the credit of the different funds to be \$1,991,203.37 and the total amount of bonds is \$15,926,057.03. Of the total amount of cash on hand, \$1,178,718.50 is the credit of the general revenue fund, \$248,267.27 to the credit of the available school fund, \$194,628.86 to the credit of the permanent school fund, \$41,538.96 to the credit of the available university fund, \$48,001.93 to the credit of the Agricultural and Mechanical college fund, \$129,357.40 to the credit of the pure food account, and \$42,129.96 to the credit of the quarantine station at Galveston. Of the bonds on hand, \$14,676,296.53 is to the credit of the permanent school fund, \$604,400 to the permanent university fund, \$126,500 to the permanent blind asylum land and \$209,000 to the credit of the Agricultural and Mechanical college fund.

A FURNITURE FACTORY.

A Suggestion That Nacogdoches Capitalists Should Consider.

Editor Sentinel.

Fort Worth, Tex., March 3.—In your paper you often speak of what Nacogdoches needs and suggest factories.

Now, as you well know, I have a practical idea of what kind of material there is around about Nacogdoches, and what is best suited for manufacturing purposes.

Since I have been in Fort Worth I have observed the operation of the different factories and find there is no money in manufacturing high grade work, because of Eastern competition on this grade of work; hence, the reason we could never make any money in that class of work. But when you have a straight run of cheap work every day it is a money making proposition.

Now I am working in a large furniture factory, and it has been a paying proposition to the owners. The list of articles made at this plant is: Kitchen cabinets, kitchen safes, extension tables, center tables, folding beds, cots, woven wire mattresses, mattresses, all kinds of boxes, excelsior, and requires nothing but common material, except the oak, which is only plain oak.

The native woods in Nacogdoches county are adapted to these articles, and for kitchen cabinets, tables and safes it would require either red gum, white gum or tupalo gum, and for the legs any kind of wood that is tough—either beech, birch, bay, or red gum; for cots and woven wire mattresses, pine. Of course these safes and cabinets are made of oak too.

A plant like this would place on the market the following woods: Gum, red and white; beech, birch, tupalo gum, cotton wood, bay, magnolia, willow, linn, common oak and hickory, and can be utilized in lengths from 4 to 8 feet and size from 6 inches in diameter up; for these plants have a pony saw mill on the ground and saw factory stock and put it right through the kiln.

All the work for this grade of furniture is done on machine and the bench men have nothing to do but to put it together. Very little skilled labor is required, ranging from \$5 to \$12 per week, and \$13.50 and \$15 is considered high, while the average is \$9 per week.

All plants make a special line of furniture, and these people turn out a nice line of mission work for colleges, lodges, etc., and their bottle crate trade is immense as well as all kinds of shipping boxes and crates. But they turn out no veneer work.

I have given only an outline, and should anyone become interested in this I can give the cost of a modern plant stocked, etc. Hoping this will serve to interest you all, I am,

Yours truly,

J. W. Ireson.

S.S.S. HEALS OLD SORES

No old sore exists merely because the flesh is diseased at that particular spot; if this were true simple cleanliness and local applications would heal them. Whenever a sore or ulcer refuses to heal readily, the blood is at fault; this vital fluid is filled with impurities and poisons which are being constantly discharged into the place, feeding it with noxious matter and irritating and inflaming the nerves and tissues so the sore cannot heal. These impurities in the blood may be the remains of some constitutional trouble, the effect of a debilitating spell of sickness, leaving disease germs in the system, or the absorption by the blood of the fermented refuse matter which the bodily channels of waste have failed to remove. Again the cause may be hereditary, the diseased blood of ancestry being handed down to posterity; but whatever the cause, the fact that the sore will not heal shows the necessity for the very best constitutional treatment. There is nothing that causes more worry and anxiety than an old sore which resists treatment.

Every symptom suggests pollution and disease—the discharge, the red, angry looking flesh, the pain and inflammation, and the discoloration of surrounding parts, all show that deep down in the blood there are morbid and dangerous forces at work, constantly creating poisons which may in the end lead to Cancer. Local applications are valuable only for their cleansing and antiseptic effects; they do not reach the blood, where the real cause is located, and can therefore have no real curative worth. S. S. S. heals old sores by going down to the fountain-head of the trouble and driving out the poison-producing germs and morbid matters which are keeping the ulcer open. It removes every particle of impurity from the circulation and makes this life-stream pure, fresh and health-sustaining. Then as new, rich blood is carried to the place the healing begins, all discharge ceases, the inflammation leaves, new tissue and healthy flesh are formed, and soon the sore or ulcer is well. S. S. S. is the greatest of all blood purifiers and fastest of tonics, just what is needed in the treatment, and in addition to curing the sore will build up and strengthen every part of the system. FACTS FOR SICK WOMEN

LYDIA E. PINKHAM

No other medicine has been so successful in relieving the suffering of women or received so many genuine testimonials as has Lydia E. Pinkham's Vegetable Compound. In every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every one you meet has either been benefited by it, or has friends who have.

In the Pinkham Laboratory at Lynn, Mass., any woman any day may see the files containing over one million one hundred thousand letters from women seeking health, and here are the letters in which they openly state over their own signatures that they were cured by Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made from roots and herbs, without drugs, and is wholesome and harmless.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful is because it contains ingredients which act directly upon the feminine organism, restoring it to a healthy normal condition.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

ROASTED ALIVE.

Awful Fate of School Children at Cleveland, Ohio.

Cleveland, Ohio, March 4.—Fire broke out in the Lakeview public school building at Collinwood, a suburb, this morning and a panic followed. Between 400 and 500 children were in the structure. It is reported that between 75 and 150 children were burned. Scores of others who escaped from the building were injured. The structure was burned to the ground.

The fire was started from an over heated furnace. The flames quickly spread but a panic ensued when the building filled with smoke and 400 children attempted to escape. There are two exits in the building that are available and one of these exits was used by the children but the other soon became choked with the little folks who madly dashed for the open. Those who fell in the doorway were trampled on by those behind and soon the doorway was impassable.

Frightened and panicstricken the children turned to escape by the windows and other means that could be found. Escape was cut off by the flames which by this time had spread throughout the rooms. The building was of brick, yet this did not retard the progress of the flames. In a few minutes the lower floor fell precipitating scores of children into the basement, among the burning embers.

The scene about the building was heartrending. Quickly the news of the terrible catastrophe spread throughout the village and hundreds of parents were soon crowding about the building in search of their girls and boys. In a few minutes 20 bodies had been taken from the ruins. Plainly writhing or the stilled forms of dozens of others could be seen in the debris.

Factories blew their whistles and dismissed their men and closed down, instructing their employes to assist in the rescue. They braved the fire and made every effort to save those who were not dead.

Many of the children rescued are believed to be fatally injured, either by the fire or by being trampled on. Scores of children have been sent to the city hospitals. Three little girls met instant death attempting to jump to safety from the third floor of the burning building.

A man named Dorn, who arrived on the scene early and at the time the children were crowded in the front door, discovered his little girl among the mass of injured and crushed. He caught the girl by her hands and in his frantic effort to save her pulled her arms from her body.

Principal Frank H. Whitney of the Collinwood school estimates the dead at from 75 to 150 pupils, mostly very young.

A CLOSE CALL.

A Pathetic Letter from Rev. Geo. E. Clothier.

Rev. Geo. E. Clothier, pastor of the First Presbyterian church, recently underwent a difficult surgical operation at Galveston, and he has written the following letter to Judge E. B. Lewis of this city, which will be read with interest and much sympathy by Bro. Clothier's many friends in Nacogdoches:

Galveston, Texas, March 4. Judge E. B. Lewis.

Dear Sir and Bro.—It is a great disappointment to me, but it is out of the question for me to leave without a risk that would be hazardous in the extreme. You can never know the close margin that separated me from the living. I had just one chance in a hundred. Dr. Thompson, with his vast skill and experience, said I was a wonder. He hopes to let me off this week, but even then I will not be able for work.

Do the best you can and I will get to you as soon as can. Let the people know they are on my heart, and that I have the deepest appreciation of their kind remembrance. I write with pain and discomfort, but with pleasure. With kindest regards to all.

Fraternally,
Geo. E. Clothier

GOOD WORK

Done Daily in Nacogdoches—Many Citizens Tell of It.

Nearly every reader has heard of Doan's Kidney Pills. Their good work in Nacogdoches still continues, and our citizens are constantly adding endorsement by public testimony. No better proof of merit can be had than the experience of friends and neighbors. Read this case:

Ben Helflin, farmer, living seven miles northeast of Nacogdoches, Tex., says: "Doan's Kidney Pills acted effectively for six years. During that time I tried many different remedies and doctored until I was tired, but still the dull grinding ache in the small of my back was always present. If I stooped or lifted it seemed as though my back would cave in. The secretions from the kidneys at times were as red as blood and accompanied with a burning sensation. I procured Doan's Kidney Pills at Mast Bros. & Smith's drug store and they did me more good and in less time than any other preparation I had tried. In fact, after using one box I felt like a different man."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's,—and take no other.

The Summer Normal.

The following was published in the Cushing Enterprise, and though a copy has not been furnished The Sentinel, it is reproduced without request of any one because of the interest this paper has, and has always shown, in the cause of education and the educational affairs of Nacogdoches county:

Nacogdoches, Tex., March 2. To The Teachers.

On Feb. 29, 1908, a committee composed of R. F. Davis, B. S. Shirley, A. W. Smith, Geo. M. Hale and myself, met a like committee from Angelina county to consider the subject of cooperation in Summer Normal work. We thought it best to join them in this work, but in consideration of our "card" previously sent out, we thought it best to resubmit the matter to the teachers of the county.

Please answer the following questions as you wish, but at once, for we must settle the matter soon:

First. Are you in favor of joining Angelina county in Summer Normal work?

Second. Are you willing for me to appoint a committee to arrange with a like committee of that county, for a faculty, place to hold normal, etc?

Third. If the normal falls to Angelina county will you attend?

Yours for the best,
R. W. Tillery.

Uncle Cal Fall went to Oklahoma last week where he was summoned as a witness in a railroad case.

RELICS PRESENTED.

Mrs. Shindler Makes Gifts to Stone Fort Museum.

Editor Sentinel.

Dalhart, Texas, March 5.—I have just read Monday's paper, and among other attractions the writeup of the reception at the Old Stone Fort, by Mrs. G. H. Matthews. As Mrs. Matthews was not present on that evening, on account of illness, she could only relate as 'twas told to her, and in speaking of my little talk it is mentioned that I told the story of how the club had rebuilt the Stone Fort and handed over the keys. For the benefit of those interested I would state that after turning over the keys to the club in behalf of the Stone Fort committee, whose names were all mentioned, I particularly spoke of a guest who was present by invitation, the guest of honor, Mr. R. B. Shearer of Lufkin. The club, through me as chairman of the Old Stone Fort Rebuilding committee, presented Mr. Shearer with a beautiful silver-Loving cup as a token of appreciation in the part he had taken in the work of re-building this historic stone structure whose first building dates, as near as we could learn from the little light history thrown on it and from the tradition of those in position to know, to the years 1777 and 1778. The club has accepted this date as authentic and indorsed it by placing it upon the corner stone. Mr. Shearer gave to the club all expenses attending his business as architect. The committee relied on him entirely for the work done and felt that a sincere recognition of his services was due him and the public, and so this Loving cup, filled to the brim with good wishes and words of appreciation, was presented to him with a few words of explanation and courtesy, and a little history of the origin of the Loving cup.

After this presentation and acceptance I presented to the museum of the Stone Fort a silver castor which had belonged to Sam Houston. On it is the inscription, "Presented by Mrs. Nettie Houston Bringham to Mrs. W. P. Mims, by her presented to Mrs. Emma B. Shindler." A list of the names of those men who fought in the battle of San Jacinto, who went from Nacogdoches county, handsomely framed, the list prepared by Major Arnold and coming into my possession, was also presented to the museum.

Last, but not least, was the presentation of a bead sash which was taken from a dead Indian chief at the battle of Nacogdoches. It was a relic prized by Mr. J. W. Curl for 50 years, and hearing of the museum of the Stone Fort he brought it to me to be added to a collection of relics.

These things of historical value are worthy of mention and I was sorry to see the omission, not for the part I took in my few impromptu words, but for the real historical value of the articles

What to do in Dyspepsia

Dieting has become a great fad in America, and just as, years ago, we, as a nation, over-ate, so now we are under-eating. The one is as bad as the other. Man needs food and plenty of it to sustain life and to give strength to compete in this busy world.

It is not, however, the fact that you may eat too much that hurts you, but that you don't digest what you eat. And if that results in dyspepsia you will not cure the trouble by eating down your food supply. If your digestive organs were creating the proper amount of gastric and peptic juices you would have no dyspepsia. To cure the disease you must create an abundance of these necessary juices.

This can only be done by a reliable tonic laxative, and, as its name indicates, Dr. Caldwell's Syrup Pepsin contains the very ingredients needed to do this. Take it regularly for a while according to the explicit directions on each bottle and you will soon be cured of dyspepsia and any of the accompanying symptoms such as heartburn, sour stomach, bloated stomach, hives, pimples, sallow complexion, wind on the stomach, etc. Every bottle carries with it an absolute guarantee to do what we claim. It is a genuine, pleasant, effective laxative and you will like its taste and be pleased with its action.

One of the great friends of this remedy is Harry F. Keator, a lieutenant in one of the Chicago companies that fought at the battle of San Jacinto. While in the war trenches, and eating the rough food of a soldier, he contracted severe dyspepsia and lost weight rapidly. A friend in the regiment called his attention to Dr. Caldwell's Syrup Pepsin, which he promptly began to use. It not only cured his dyspepsia but increased his weight 25 pounds. Your druggist will sell you a bottle at 50 cents or if you will find it worth a hundred times the price.

FREE TEST Those wishing to try Dr. Caldwell's Syrup Pepsin can have a free sample bottle sent to their home by addressing the company. This offer is to prove that the remedy will do as we claim, and is only open to those who have never taken it. Send for it if you have any symptoms of stomach, liver or bowel disease, heartburn, indigestion, flatulence, or if you are a sufferer from any of the ailments mentioned above. A guaranteed, permanent home cure. THE PURELY VEGETABLE LAXATIVE IN USE BY SOLDIERS AND SEAFARERS. DR. CALDWELL'S SYRUP PEPsin. Guaranteed to give you a pure, healthy, and happy life. Write for a free sample bottle to Dr. Caldwell, P.O. Box 17, Washington, D. C.

which would be highly prized by any museum in Texas. Asking you to publish this addition to the former write-up, believe me.

Sincerely yours,

Emma B. Shindler.

Letter to L. B. Lilly.

Nacogdoches, Texas.

Dear Sir: You are to paint Mr. —'s house for \$— we won't tell your private affairs no matter what figure it's a fair price.

What paint'll you use?

We're thinking of one, all paint and as strong as a paint can be; it'll take about 15 gallons, \$75, for paint and painting.

Another, half paint; it'll take about 30 gallons of that \$150 for paint and painting.

The least-gallons paint, of course, will wear a long time; the other is good while it lasts. Least gallons, least cost, best job.

It isn't every trade that let a man do a cheap job and make money and friends like that.

Yours truly,

F. W. Devoe & Co.

State Sunday School Convention.

Word comes from the State Headquarters of the Texas Sunday School Association, which is the organization of all Sunday schools banded together for mutual helpfulness, that the State Sunday School Convention to be held in Austin, beginning Thursday, March 19, will be the greatest and most enthusiastic ever held in the state. Mr. Marion Lawrence, the leading Sunday school man of the world; Prof. O. E. Excell, the leading song leader of the world; and other world leaders who will be present are: Marshall Hudson, of New York; E. A. Fox, of Kentucky; E. Richmond, of Pennsylvania; Secretaries Ellzey, of Louisiana and Long of Arkansas, and probably W. N. Hartshorn, of Massachusetts; E. K. Warran of Michigan, and John R. Pepper of Tennessee, will be present. The leaders of the various denominational organizations of Texas will also have a part on the program.

THE following from the Beaumont Enterprise is strong argument in favor of peanut culture: "There are some young men who do not seem to grasp the fact that peanut hay and alfalfa furnish a far better torage than wild oats."

THE fixed purpose of the citizens of Bonham is to build another big cotton mill and have it in operation before many long months pass away.—Bonham News.

WONDER if the people who always find the errors in a paper ever see anything else in it? It appears that a mistake creates more comment than philosophical thought.—Caldwell News-Chronicle.

O yes, the people see everything in the paper, but nothing in it creates so much comment as a little mistake or a failure to mention their name.

PAPER money of the Texas republic, issued between 1836 and 1846, is quite rare and but few specimens are in existence. During that time the infant republic was run on paper money and land scrip, both of which were at a heavy discount and ready cash was very scarce. When Texas was admitted into the Union, she received ten million dollars to compensate her claim to New Mexico. Out of this sum, most of the paper money was taken up and destroyed and therefore specimens are quite rare and even unknown to many collectors of such curiosities.—Beaumont Journal.

As the Journal says there is very little of the money issued by the republic of Texas in existence, but a citizen of Nacogdoches, Mr. E. M. Roberts, has in his possession several bills of this old and rare money.

IF Nacogdoches must wait for a new railroad till that proposed Rusk steel plant can manufacture the steel rails with which to lay the track, we fear the Nacogdoches Southeastern, the T. & N. O. and the Rabbit will be our only dependence for a long time to come.—Nacogdoches Sentinel.

Don't wait. Get more railroads whenever and wherever you can. In the meantime you will soon get connection with Rusk by means of the T. & N. O. extension, and thence with the Texas State road westward, and that will give your people a chance to come to town occasionally. When our steel plant gets in operation, which may not be long off, you can buy some heavy rails for your saw mill, road cheap and extend it further into the woods.—Rusk Press Journal.

Nacogdoches has long since learned that it is useless to wait on slow pokes. The Nacogdoches and Southeastern is being extended further

into the woods now, and the citizens of Rusk need not be surprised if they should wake up some morning and find that this road has passed through that staid old burg.

Shelby County Normal. Center News.

The committee appointed in the meeting of last Saturday met today with the county superintendent and others and arranged the details for the summer normal to be held in this city in July. Prof. A. E. Day was selected conductor, with Profs. R. W. Persons and G. A. Baker of this city, and Prof. T. H. Postell of Tenaha, and Prof. Hargis of Timpson as teachers, and County Superintendent Whiteside as general "round up" man.

The teachers are receiving much encouragement, and hope to make this the greatest normal in the history of these meetings in Center. The new school building will be in readiness by that time, and with it the new inspiration and old time co-operation, altogether insuring a great and profitable time for those attending.

Opening of New Fort. Galveston News.

On Feb. 28 the Cum Concilio club of Nacogdoches celebrated the completion of the Stone Fort, upon the construction of which they have been most earnestly engaged for the past six years. It was a hard, although pleasant, task, and the ladies deserve great praise for their labors.

The history of the old fort is very interesting. Among other things, it was the scene of Davy Crockett's taking the oath of allegiance to the Government of Texas. It was also the headquarters of Gen. Sam Houston during the Mexican troubles. Six different flags have waved over it.

Mrs. R. C. Shindler, chairman of the building committee, related the story of how the club had worked unceasingly to rebuild the fort, and gave over the keys to Mrs. Charles W. Butt, the president of the Cum Concilio club. In an appropriate address Mrs. Butt commended the persevering efforts of the club, and formally gave the fort into the hands of the board of trustees.

The good work will be one of the things of which the clubs in the fourth district may well feel proud when they sum up the year's work. Mrs. George H. Matthews, who is one of the board which is the custodian of the fort, is also the press representative of the club, and sent in the particulars of the exercises in connection with its opening.

Hon. Beeman Strong, of the law firm of King & Strong of Nacogdoches, was in town last week on legal business. This is one of the strongest law firms in the state. Mr. Strong has a number of friends in this county, having once represented us as district Attorney.—San Augustine Vidette.

FLAVOR OF THE SOIL. Galveston Agricultural and Commercial Conference Was Successful.

The delegation from this city which attended the agricultural conference at Galveston Friday, March 6, report a very successful meeting at which a district association was organized and resolutions passed looking to greater strides for greater Texas.

This was practically the initial meeting of the movement to obtain less discriminating laws, which is gaining so much headway under the guidance of the commercial secretaries. The resolutions recently passed by the legislative committee of the Beaumont Chamber of Commerce were submitted to the Galveston assembly, and with some slight change were endorsed. The Galveston district is now permanently organized, and Secretary Arnold will, after the Fort Worth meeting on March 12 and 13, proceed to organize districts in other sections of Texas, it being the intention to plat the state for this purpose.

The farming community was taken care of at both meetings by resolutions looking toward securing district drainage privileges, which are now enjoyed by only a few counties in the state, also experimental farms, and a general furtherance of agricultural needs by the state.

From the sentiment of the resolutions the movement thus far looks very much like a mobilization of farmers' sentiment, and as the agricultural class has never received too much attention from Texas legislatures, these conferences create an impression that the man behind the plow is about to come into his own, and have something to say concerning the expenditure of state money. There appears to be a general awakening to the long forgotten fact that the soil is the basic source of all wealth and that the farmer, who feeds us all, should be consulted jointly with the commercial interest as to how state money should be expended, and the tenor of laws which are to govern.

The resolutions passed at Galveston will be presented at the Fort Worth assembly, and thus step by step soundings will be taken of the wishes of the masses and finally the legislative committee will take the crystallization of this sentiment and submit it to candidates for approval and try to have it adopted in the party platform, and securing this, the rest is easy. Failing in this the farmer may consider himself once more plowed under.

Among the resolutions passed by both the Beaumont and the Galveston meetings was one feature which will be pleasing to those who find delays of criminal procedure irritating, and affording too much opportunity for wealthy defendants in felony cases to "wear out the prosecution." The resolution emphatically protests against unnecessary array of appeals and reversals and urges fair and speedy trial of violators of criminal law, and less attention paid to

technical and formal matters not affecting the merits of the case.

Fine Peanut Seed.

The peanut industry has taken on new and increasing impetus in Nacogdoches county, and The Sentinel is rejoiced to see it. This is due to the fact that the lands of Nacogdoches county are especially adapted to the growing of peanuts, and to the further fact that the farmers have realized that it is one of the most profitable and useful crops they can raise. In anticipation of the demand for good peanut seed for planting, Spradley Bros. of this city have secured a large supply of the most improved grade of Spanish peanuts, which they can sell to the farmers in any quantity and at a reasonable price.

Anything that is worth doing at all is worth doing well, and especially does this apply to the growing of crops. Nothing adds more to the profits in farming than the planting of the best seeds obtainable, and The Sentinel would advise all who have not yet procured their peanut seed to go to Spradley Brothers at once before the supply is exhausted, as good peanut seed this season is a very rare article.

In The Wrong Flock.

Mrs. Philpots came panting downstairs on her way to the temperance society meeting. She was a short plump woman. "Addie, run up to my room and get my blue ribbon rosette, the temperance badge," she directed her maid. "I have forgotten it. You will know it, Addie—blue ribbon and gold lettering." "Yes'm I knows it right well." Addie could not read, but she knew a blue ribbon with gold lettering when she saw it, and therefore had no trouble in finding it and fastening it properly on the dress of her mistress.

At the meeting Mrs. Philpots was too busy greeting her friends to note that they smiled when they shook hands with her.

When she reached home supper was served, so she went directly to the dining room, where the other members of the family were seated.

"Gracious me, Mother!" exclaimed her son; "that blue ribbon—you haven't been wearing that at the temperance meeting?"

A loud laugh went up on all sides.

"Why, what is it, Harry?" asked the good woman clutching at the ribbon in surprise.

"Why, Mother dear, didn't you know that was the ribbon I won at the show?"

The gold lettering on the ribbon read: "Interstate Poultry Show, First Prize, Bantam."—Ex.

Food for Thought.

The Nacogdoches Sentinel remarks that "It is far better to keep the small factories we have than to spend our energies and waste valuable time trying to get big enterprises and then fail to secure them." There is food for thought in

TO OUR SUBSCRIBERS. After April 1st, according to the ruling of the Postoffice Department, we will not be allowed to extend over one year's credit to our Weekly subscribers, and three months' credit to subscribers to The Daily, on penalty of forfeiting our second class mail rate. Therefore we will ask our subscribers who are one year or more behind to come forward and settle up. It has always been the custom of this paper to extend credit to its subscribers and let them pay as suited their convenience, but this new ruling makes it imperative that we send out bills to all those who are in arrears, so don't feel offended when you receive your subscription account, for we must get all of our subscriptions collected to date by the first of April, or else we will have to cut you off, or put a one cent stamp on every paper we send you, and we can't afford to do that. Uncle Sam says come through, boys, and we guess you'll have to do it.

that paragraph. Too often have we prone to neglect the infant industries that we have and which could be built up to important enterprises with the proper encouragement and support, and devote our time and energies to trying to work up and foster additional new enterprises that often are without merit. What applies to Nacogdoches will apply equally as well to Orange and almost any other city of similar size.

Assault to Murder.

John Rawlinson had an examining trial before Justice Creel at Cushing a few days ago on a charge of assault to murder and was placed under \$300 bond to await the action of the grand jury. Andrew Kinney, Mr. Rawlinson's son-in-law, waived examination on a similar charge and was also placed under a \$300 bond.

This case has a peculiar history.

On February 8 young Kinney was shot in the face with a load of small shot, and it was reported that Mr. Rawlinson fired the shot but that it was an accident. Recently it has developed that the two men were shooting at each other, and the charge of assault to murder was filed against them.

Deep Water at Beaumont.

Houston Post.

"Sam" Bronson Cooper will be returned to congress by an overwhelming majority of the voters of the second district," said Mark Wiess of Beaumont, who was at the Rice hotel yesterday. "Mr. Cooper has done so much for the district in the way of securing appropriations, and has proven such a faithful representative in every way that the people will be sure to re-elect him. The fact is, the results he has achieved not only for Beaumont, but for the whole district, are so substantial that we will never be able to show our full appreciation of what he has done.

"The canal, which was secured through the efforts of Mr. Cooper, is a big thing for Beaumont, for the second district, and even for the whole

United States. Right at Beaumont we have ten feet of water, and engineers have declared that we will be able to get fifteen more. Twenty-five feet is sufficient to accommodate ocean-going vessels. Beaumont is destined to become a great port."

CALL FOR HELP.

Contribution Wanted for Expenses of Prohibition Campaign.

Dallas, Texas, March 7.—In assuming the management of the campaign for democratic submission of the prohibition question in Texas I realize we need the liberal support of our friends.

Every democrat who wants this question submitted to the people should feel that it is his cause.

If we have State prohibition in Texas it must come through the democratic party. And we are going to need financial aid in this campaign. If you contribute money for this cause be sure you pay it to a person authorized by our committee to collect funds or remit direct to Geo. W. Owens, Dallas, Texas, who is our treasurer.

Any person who does not have a letter signed by me is not authorized to receive money for this campaign.

There are other prohibition workers in the field collecting funds to build up a prohibition party, and other organizations. Of course we do not undertake to deny their right to do such work, but money paid to them does not aid in the campaign I am selected to manage.

Very Respectfully, Sterling P. Strong, Chairman.

Failed to Approve It.

Mayor Perkins has declined to attach his name to the ordinance creating the office of city attorney, and the measure will therefore go dead. The statute under which the city of Nacogdoches is incorporated requires that all ordinances must be approved by the mayor and his signature attested by the city secretary before they can be put in force and effect, and all ordinances affixing a penalty require ten days publication.

Hon. George W. Honey, National Chaplain U. V. U., ex-Chaplain Fourth Wisconsin Cavalry, ex-Treasurer State of Wisconsin, and ex-Quartermaster General State of Texas G. A. R., writes from 1700 First St., N. E., Washington, D. C. as follows:

"I cannot too highly recommend your preparation for the relief of *catarrhal troubles in their various forms*. Some members of my own family have used it with most gratifying results. When other remedies failed, *Peruna* proved most efficacious and I cheerfully certify to its curative excellence."

Mr. Fred L. Hebard, for nine years a leading photographer of Kansas City, Mo., located at the northeast corner of 12th and Grand Aves., cheerfully gives the following testimony: "It is a proven fact that *Peruna* will cure *catarrh and grippe*, and as a *tonic it has no equal*. Druggists have tried to make me take something else 'just as good,' but *Peruna* is good enough for me."

Peruna in Tablet Form.

For two years Dr. Hartman and his assistants have incessantly labored to create *Peruna* in tablet form, and their strenuous labors have just been crowned with success. People who object to liquid medicines can now secure *Peruna* tablets, which represent the solid medicinal ingredients of *Peruna*.

CLUB NOTES

Mrs. Sam Stripling was hostess for the regular meeting of the C. C. club last Thursday, at her beautiful home on North street.

Roll call was responded to with facts about Germany's army.

The minutes of previous meeting were read and approved. The by-laws were also read by the recording secretary, there having been three new ones recently added to those already governing the organization.

So much of the afternoon was consumed with business matters it became necessary to postpone the lesson again.

The following very excellent program was listened to with pleasure by those present:

Paper—Heroes of Koniggratz, Mrs. H. D. Garrison.

Orals—(a) Count Von Moltke, Mrs. Neil Ingraham; (b) Count Von Walderssee, Mrs. Marcus Smith. Both the papers and orals were redolent with interest, and showed the time and thought expended, and thoroughness with which the subjects had been mastered.

Following the program the hostess served refreshments of delightfully delicious angel's cake, of her own making, with strawberry ice cream, bringing to a close a very pleasant afternoon.

A PEEP IN THE FUTURE.

Prophetic Comment on the Health Laws of 1967.

Bill Skies was jailed yesterday for digging postholes without a license. The state superintendent of scientific fencing will prosecute him to the full extent of the law.

A farmer named Smithers is in very serious trouble for killing a pig in the open air food. Ignorance of the law excuses no one. It is plainly stated in Section 3,754,565 of Article 405,567, of the Revised Statutes that fat pigs must bear the inspector's tag and be killed in a vacuum.

Sheriff Bucksnot is now out with his hounds on the trail of a man who came into town yesterday with a boil on his neck in violation of quarantine. Professor Dinkenspiel Dukes has plainly demonstrated that an average boil contains 3,750,565,586 virulent germs and our popular sheriff is determined to land the miscreant in the pickling vat of the county lazaretto.

Bill Scroggins, a suburban milkman, was yesterday fined \$500 and given two years in jail for selling butter made from the milk of a crumpled horn cow. Science long ago demonstrated that crumpled horns are an infallible sign of cowological deterioration, and the law is so plain on the subject that there is no excuse for its violation.

County court was busy yesterday with the case of State vs. Burdock Tolliver, livery man, for carrying a horse in an open stall in violation of the new law. Horse dandruff is known to carry the most dangerous germs, and the law wisely provides that horses must be groomed in medicated compartments built for the purpose.

Harry James Jumbleplate, the famous savant, author of "The Bacteriology of the Breakfast Foods, or How to Live Thirty Minutes Longer," has been indicted for sending an unsterilized copy through the mails. His offense is especially flagrant on account of his perfect knowledge of the danger involved. He will be vigorously prosecuted.

All these cases go to show that in spite of the unflinching efforts of our best people to inculcate the love of high ideals, reckless disregard for law is still prevalent to an extent that is almost discouraging. But eternal vigilance is the price of suppressed liberty and the Vindicator will continue to hold every violator up to scorn except when prevented by consideration of patronage or the size and disposition of the lawbreaker—Goose Creek Vindicator.

Get Vaccinated Now.

I wish to notify the people that there are a number of small pox cases among the negroes of the town and country. The only protection against this is to be vaccinated and have your servants vaccinated. Call on your family physician and have him vaccinate you and your servants. If you are already protected by vaccination it won't take, and if you are not, it may

save you a world of trouble, and can do no harm.

PROHIBITION RALLY.

Meeting Called Throughout the State for March 14.

To The Democracy of Texas, Dallas, Texas, March 8.—At a meeting of Democrats, in the City of Fort Worth, February 29, from all parts of Texas, the following resolution was adopted:

"We, your committee, recommended that the State Democratic Executive Committee be properly petitioned to submit to the Democratic primary election of July 25, 1908, the issue as to whether or not the Democratic party shall incorporate in its platform a demand for the submission of a prohibition amendment to the Constitution of Texas."

It was further resolved that there be a rally of democrats, who favor the submission of this question, at the county seat or other convenient place in each county in Texas on March 14, 1908, and thoroughly organize for work in this campaign by electing county and precinct chairmen; and making such other preparation as may be necessary to carry on a work of education in the interest of the submission to the people of this amendment.

This is, therefore, to urge every democrat who is in favor of submitting this question to the people to assemble at the time and places above mentioned and organize for work.

We hope every democrat in Texas will attend these rallies as no one should object to this question being submitted to the democratic voters of Texas.

Very respectfully,
Sterling P. Strong,
Chairman.

Swift Siftings.

Swift, Texas, March 10.—The health of our community is very good with the exception of Mr. Jim Chamberlain, who is quite sick.

We have had beautiful weather the past week and some of the farmers have planted cotton.

The Swift Debating society met last Friday night. The subject discussed was: Resolved, That the present indications are the downfall of our country. The speakers were, affirmative, Welburn Martin and Tom Briley; negative, Alford Daniels and Horace Briley. After an able discussion the judges rendered their decision in favor of the negative.

Mr. and Mrs. Detee of Shelby county are visiting relatives here this week.

Mrs. Thompson of Waco is visiting her brother, Mr. Jim Chamberlain.

Mr. and Mrs. Arthur Brewer, accompanied by Miss Clyde Brewer, visited relatives at Woden Saturday and Sunday.

SIMPLE HOME RECIPE.

Mix This Helpful Recipe at Home and Try It.

Get from any prescription pharmacist the following: Fluid Extract Dandelion, one half ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered by an eminent authority, who writes in a New York daily paper, as the finest prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism.

Some persons who suffer with the afflictions may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it.

A druggist here at home when asked stated that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

Words From Those Competent to Judge.

What U. S. Congressman Gordon Russell says:

Washington, D. C., Jan. 19, 1907.—This is to certify that I have personally inspected and observed the methods pursued by the faculty of the Tyler Commercial College of Tyler, Texas, and regard the institution as exceedingly strong in faculty and equipment.

I know no better opportunity for a young man or young woman to acquire such a business training as will fit him to do successful battle in life.

Gordon Russell, M. C. 3rd Dist. Texas. Mr. Haynes, Mr. Russell's private secretary, is a writer of the *Byrne Simplified Short-hand*. Mr. Russell's daughter is also preparing herself as a reporter with the *Byrne Simplified*.

Let State Supt. R. B. Cousins advise you:

Department of Education Austin, Texas, Jan. 18, 1907.

—To whom it may concern: It gives me pleasure to say that from personal experience with some of the graduates and ex-students of the Tyler Commercial College, that institution ranks among the best of its kind in the country. Its methods of teaching and of controlling its students are modern and approved. To those who wish such an edu-

cation as is furnished by standard business colleges, I can cordially recommend this institution. R. B. Cousins, State Supt.

Mr. Crawford has served as chief stenographer for Mr. Cousins for the last two years. We secured him the position immediately after his completing a course with us in the famous *Byrne Simplified Short-hand*.

Ambitious young men and women who enter Tyler Commercial College last spring for a course of Bookkeeping, Business Training, Short-hand, Typewriting, or Telegraphy, are now holding excellent positions at good salaries. What will you be doing a year hence? Nothing that you are not prepared to do. Will you let us prepare you, to do something well, and then get you that something to do? ANOTHER SCHOOL BURNS.

None of the 800 Students Present When it Started.

Toledo, Ohio, March 10.—The school building at Napoleon, Ohio, the largest of its kind in the state, was destroyed by fire this morning. The loss is \$110,000. No one was injured.

Superintendent Bemer and Principal White were the only persons in the building when the fire broke out, the other teachers not having arrived. The two men ran to the stairway leading to the attic and were driven back by a shower of sparks and a great volume of smoke. The fire had evidently caught from a defective flue of the furnace chimney, where it ran up through the attic. Eight hundred pupils are enrolled in the school.

For Commissioner.

Mr. J. O. Martin is announced as a candidate for county commissioner in Precinct No. 4, subject to the action of the democratic primary. Mr. Martin has been a citizen of Nacogdoches county all of his life, and he is too well known to the voters of his precinct to need any further commendation from the *Sentinel* than the mere announcement of his candidacy. No better man could be selected for the office.

HOW TO GET THERE.

The following poem has been handed in with request to publish:

Two gay frogs, from inland bogs,
Had spent the night in drinking,
As morning broke and they awoke,
While yet their eyes were blinking,
A farmer's pail came to the swale
And caught them quick as winking.
Ere they could gather scattered senses,
Or breathe a prayer for past offenses,
The granger gave—that guileless man—
He dumped them in the milkman's can:
The can filled up, the cover down,
They soon are started off to town.
The luckless frogs began to quaver,
And sobber up on cold milkshake.
They quickly find their breath will stop,
Unless they swim upon the top.
They swim for life and kick and swim
Until their weary eyes grow dim,
Their muscles ache, their breath grows
short,
And, gasping, speaks one weary sport:
"Say, dear old boy, it's pretty tough
To die so young. But I've enough
Of kicks for life. No more I'll try it,
I was not raised on a milk diet."
"Tut, tut, my lad," the other cries,
"A frog's not dead until he dies;
Let's keep on kicking, that's my plan,
We may yet see outside this can."
"No use, no use," faint heart replied,
Turned up his toes and gently died.
The braver frog, undaunted still,
Kept kicking with a right good will,
Until, with joy too great to utter,
He found he'd churned a lump of butter,
And climbing on that chunk of grease,
He floated round with greatest ease.

MORAL:
When times are hard—no trade in town,
Don't get discouraged and go down
But struggle still—no murmur utter—
A few more kicks may bring the butter.

When a man writes as follows don't you think he means it? Mr. S. G. Williams, Powderly, Texas, says: "I have suffered for years with kidney and bladder trouble, using every preparation I came across and taking my prescriptions all without relief until my attention was called to Pineules. After 30 days' trial (\$100), I am feeling fine." Money refunded if not satisfied. Stripling, Haselwood & Co.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflames the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

We wish to state in a plain and vigorous way as words can express it, that Hunt's Cure will positively, quickly and permanently cure any form of Itching Skin disease known. One box is guaranteed to cure. One application affords relief.

BEST OF PROOF.

That Hyomei Will Cure All Forms of Catarrhal Diseases.

Testimonials could be printed by the thousand, many of them from Nacogdoches and nearby towns, saying that Hyomei absolutely cures all catarrhal troubles. The best proof of its unusual curative powers is the guarantee that Stripling, Haselwood & Co. give with every outfit they sell, "Money back if Hyomei does not do all that is claimed for it."

Hyomei is not a secret remedy. Its formula is freely given to physicians who want to know what they are using when they prescribe Hyomei. It is guaranteed under the Pure Food and Drug Law by Serial No. 1418.

There is no dangerous stomach drugging when Hyomei is used. Its healing medication is breathed through a neat pocket inhaler, reaching every part of the air passages, destroying all catarrhal germs and curing the disease.

EAT WHAT YOU WANT.

Science Has Now Found the True Way to Cure Indigestion.

The first thing to do in the case of indigestion and stomach weakness is to strengthen the muscular walls of the stomach and intestines, so that they will care for the food that is eaten. In no other way can this be done as well as by taking a Mi-o-na tablet before each meal. This restores strength to the stomach muscles and stimulates the pouring out of gastric juices, so that the food digests readily and its nourishment is retained in the system to build up energy and vitality.

Use Mi-o-na and you will have no more sick headache, heartburn, bad taste in the mouth, coated tongue, spots before the eyes, sleeplessness and the many other symptoms that are the direct result of indigestion.

Stripling, Haselwood & Co. gives with every 50-cent box of Mi-o-na a guarantee to refund the money unless the remedy cures.

Returned With Bride.

Dr. Geo. E. Barham and bride arrived last night from El Paso, where they were married March 2. George is one of Nacogdoches' most worthy young men, a physician of most promising prospects, and he counts his friends by the score. SUMMER NORMAL.

Nacogdoches and Angelina Counties to Cooperate This Year.

Lufkin Tribune.

If the plans that are now forming do not fail Lufkin will be the home of a Teachers' Summer Normal for Angelina and Nacogdoches counties this year. A committee, headed by County Superintendent G. W. Largent was in the sister city Saturday to discuss matters relative thereto with a like committee from that county, and while nothing definite was arranged, it is quite likely that this city will be selected as the place for holding the Summer Normal, and that Nacogdoches county will select the instructors. The details were gone over thoroughly at Saturday's meeting and while the committee-men were vested with all power to act, it was thought best to refer it to the teachers of both counties before final action is taken. To get an expression from all teachers, Prof. Largent has this week sent out letters asking all to be present at a meeting at the court house at 2 o'clock, March 14.

After Frosty Joints.

The county attorney of Lamar county gives notice that those who contemplate opening "frosty" joints since the law levying a tax on same has been declared invalid, will be prosecuted just the same whenever they sell anything that contains alcohol enough to be intoxicating. He says that an analysis of "Ino," "Uno," "Frosty," etc., has shown that these drinks are intoxicating. If that be true (and we judge it) the repeal of the tax will help the dealer but little.

Prof. A. A. Howell, of Havana, Cuba, Recommends Chamberlain's Cough Remedy.

"As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now," writes Prof. H. A. Howell, of Howell's American School, Havana, Cuba.

"On the night of February 3rd our baby was taken sick with a very severe cold, the next day was worse and the following night his condition was desperate. He could not lie down and it was necessary to have him in the arms every moment. Even then his breathing was difficult. I did not think he would live until morning. At last I thought of my mother's remedy, Chamberlain's Cough Remedy, which we gave, and it afforded prompt relief, and now, three days later, he has fully recovered. Under the circumstances I would not hesitate a moment in saying that Chamberlain's Cough Remedy, and that only, saved the life of our dear little boy." For sale by Mast Bros. & Smith.

Bunk Barbee came in yesterday from New Orleans, where he has been attending Madi Gras, and left today for his home in Crockett.

Good For Everybody.

Mr. Norman R. Coulter, a prominent architect, in the Dalbert Building, San Francisco, says: "I fully endorse all that has been said of Electric Bitters as a tonic medicine. It is good for everybody. It corrects stomach, liver and kidney disorders in a prompt and efficient manner and builds up the system." Electric Bitters is the best spring medicine ever sold over a druggist's counter; as a blood purifier it is unequalled. 50c. at Mast Bros. & Smith. dw

George Rainbolt, candidate for tax collector, was here from Garrison today, shaking hands with friends.

Lame Shoulder.

Whether resulting from a sprain or from rheumatism pains, there is nothing so good for a lame shoulder as Chamberlain's Pain Balm. Apply it freely and rub the parts vigorously at each application and a quick cure is certain. For sale by Mast Bros. & Smith. dw

Mrs. Julia Truitt Bishop came in Saturday night to be present at the Mitchell trial this week, and is the guest of Mrs. T. C. Davis. Mrs. Bishop is now making her home in Chicago, where she has been engaged in some special writing. — Center News.

Do Use to Die.

"I have found out that there is no use to die of lung trouble as long as you can get Dr. King's New Discovery," says Mrs. J. P. White, of Rushboro, Pa. "I would not be alive today only for that wonderful medicine. It loosens up a cough quicker than anything else, and cures lung disease even after the case is pronounced hopeless. This most reliable remedy for coughs and colds, lagrippe, asthma, bronchitis and hoarseness, is sold under guarantee at Mast Bros. & Smith's drug store. 50c. and \$1.00. Trial bottle free. dw

Died at Appleby.

Mrs. Jack Anderson, aged 20 years, died last night at Appleby after a brief illness with congestion. Mrs. Anderson had only been married a few months, and her death is a sad blow to her devoted young husband, who is a student in the Appleby school. The Sentinel extends sympathy.

Do you want some ribbon cane seed, if so write us. Spradley Bros.

What to do When Bilious.

The right thing to do when you feel bilious is to take a dose of Chamberlain's Stomach and Liver Tablets. They will cleanse the stomach and regulate the liver and bowels. Try it. Price, 25 cents. Samples free at Mast Bros. & Smith's drug store. dw

Mr. A. L. Ramsey and wife left today for their old home in Tennessee, where they will visit friends and relatives and will probably make their future home. Mr. Ramsey came to Nacogdoches 13 years ago and has acquired considerable property and has proven a good citizen, and The Sentinel sincerely hopes to see him return to Nacogdoches.

This is what Hon. Jake Moore, State Warden of Georgia, says of Kodol For Dyspepsia: "E. C. DeWitt & Co. Chicago, Ill.—Dear Sirs—

I have suffered more than twenty years from indigestion. About eighteen months ago I had grown so much worse that I could not digest a crust of corn bread and could not retain anything on my stomach. I lost 25 lbs., in fact I made up my mind that I could not live but a short time, when a friend of mine recommended Kodol. I consented to try it to please him and I was better in one day. I now weigh more than I ever did in my life and am in better health than for many years. Kodol did it. I keep a bottle constantly, and write this hoping that humanity will be benefited. Yours very truly, Jake C. Moore, Atlanta, Aug. 10, 1904." Sold by Stripling, Haselwood & Co. dw

Unequaled as a cure for Croup.

"Besides being an excellent remedy for colds and throat troubles, Chamberlain's Cough Remedy is unequalled as a cure for croup," says Harry Wilson of Waynetown, Ind. When given as soon as the croupy cough appears, this remedy will prevent the attack. It is used successfully in many thousands of homes. For Sale by Mast Bros. & Smith. dw

Death of Grandma Weaver.

Mrs. Minerva A. Weaver, known and loved by all as Grandma Weaver, died at the residence of Mr. Jas. A. Weaver in this city Monday night, at a few minutes past midnight, aged 87 years, 2 months and 14 days.

Though not a native of Texas, Grandma had been a resident of Nacogdoches county for sixty years. She was born in Georgia Dec. 24, 1820, and came to Texas when a young woman.

She leaves several children and a number of grand and great grand children, besides hosts of friends to mourn her death.

The funeral was conducted from the residence of Mr. Jas. A. Weaver at 4 o'clock this afternoon, the remains being interred in the City cemetery.

Best Healer in the World.

Rev. F. Starbird, of East Raymond, Maine, says: "I have used Bucklen's Arnica Salve for several years, on my old army wound, and other obstinate sores and find it the best healer in the world. I use it too with great success in my veterinary business." Price 25c. at Mast Bros. & Smith's drug store. dw
