THINGS GETTING BUSIER.

Court Has Hands Full Today With The Divorce Docket—Many Want Separation.

The Second day of District court passed off quietly enough and while lots of business was transacted and cases disposed of, it was of the nature that little fuss was made over it. Today things have been a little more lively and the "divorce habit" has had right of way. More petitions for separations than for a long time had been filed, and for almost every conceivable cause. The negroes held the majority end of the sack however, though they were not the only complainants. Several divorces were granted by the judge, and one case that went to trial has not yet been decided on.

NEW SPEAKER CHOSEN.

In Brief Speech Kennedy Tenders Back The Gavel—John Marshall Elected.

Austin, March 15.—The house met yesterday afternoon.

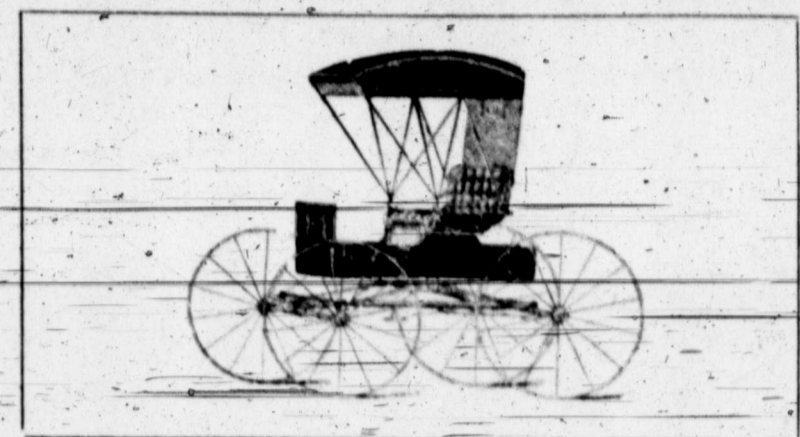

A. M. Kennedy, speaker, tendered his resignation to the house in a brief speech in which he said that in compliance with the wishes of a majority of the house he returned the gavel of the speaker unsullied and untarnished.

He then called Chief Clerk Barker to preside while a new speaker was being elected.

Representative John Marshall of Grayson, was placed in nomination and elected without opposition.

Asks for Auditing Committee.

The Grand Jury made its first report to Judge Perkins just before noon, having found two true bills, one for murder and one for assault with intent to murder. The body asked Judge Perkins to appoint a committee to audit the books of all county officers.

An Ideal Cough Medicine.

"As an ideal cough medicine I regard Chamberlain's Cough Remedy in a class by itself," says Dr. R. A. Wiltshire, of Gwynnesville, Ind. "I take great pleasure in testifying to the result of Chamberlain's Cough Medicines. In fact, I know of no other preparation that meets so fully the expectations of the most exacting in cases of croup and coughs of children. As it contains no opium, chloroform or morphine it certainly makes a most safe, pleasant and efficacious remedy for the ills it is intended." For sale at our drug store.

CLAY MORRISON HURT.

Accidental Discharge of Gun May Cause the Loss of an Eye—Was Loading Magazine

Clay Morrison, who lives in the western part of the city, happened to an accident today about 11:30 o'clock, in which he may lose the sight of an eye. He had just finished cleaning the gun, a Winchester rifle, and was loading it. A bullet, too large for the magazine, was being forced into it when the rifle discharged, powder burning Morrison's face and one eye severely. A physician was summoned, examined and dressed the injuries. The eye is reported in very bad condition and while the sight is not yet lost, the belief is that it will be. Morrison is about 20 or 21 years old.

COURT IS IN SESSION.

Grand Jury Organized and Wheels Begin to Grind—Non-Jury Civil Docket This Week.

From Monday's Daily:

District court for the Spring term convened this morning at nine o'clock. Judge James Perkins on the bench. After charging the grand jury, the body was organized with George W. Eason as foreman and W. E. Thomason, secretary. J. C. Fall was appointed door bailiff, the other appointments to be made this afternoon. Judge Perkins' charge to the grand jury this morning was a very exhaustive one, covering the ground well. Especially did he lay stress on pistol "toters" and boot leggers, the former as towards and the latter a set who deal with people of the same stripe. After completing the charge, the jury adjourned until 1:30 o'clock this afternoon when the non-jury civil docket will be taken up. The following gentlemen compose the grand jury:

George W. Eason, W. U. Perkins, Thomas E. Fall, W. E. Thomason, Mitch G. Holland, Joe M. Fuller, Jesse C. Morrison, Wm. J. Campbell, Rufus W. King, L. N. Lyles, W. A. Paviotti, J. M. Cordell.

COURT GRINDS SLOWLY.

One Case Disposed of Yesterday by Judgement.—Several Dismissed—Number of Damage Suits.

From Tuesday's Daily:

District Court is moving along slowly enough and while a number of dismissal orders were yesterday made, only one case was disposed of by the "judgement route." The cases on the non-jury civil docket are receiving the attention of the court today and several were transferred to the jury list to be called later, in regular turn. There are a number of railroad damage suits that will possibly go to trial this term. It is expected that all orders will have been made this afternoon and tomorrow the court will get to the trials of some. The grand jury completed its organization yesterday afternoon and today began the work of investigating. The following bailiffs were selected:

J. C. Fall, door bailiff; Tom Lambert, D. W. Bruce, Jim Derrick and Taylor Alvis, riding bailiffs.

The Famous Handle Factory. Timpson Times: H. R. Forry, president of the Timpson Handle Factory, says the company is getting all the work it can do and the plant is running full force. A contract has been closed to supply the government railroads with handles. The factory supplies nearly all the handles used in Mexico. Timpson people are hardly aware of the importance of this industry, so quiet is it in its operations, and only a sight of the stacks of materials and the crates of the finished product can give an adequate idea of its enormous output.

I. J. Smith Takes Charge.

The Redlands Hotel is now under the management of Tom J. Smith, formerly of this city but more recently of Lutkin. Mr. Smith took charge yesterday afternoon. Weekly Sentinel

HALTOM & HALTOM, Proprietors.
GILES M. HALTOM, Manager.

A BOSTON doctor says that every body ought to eat one dozen raw eggs each day. A regular "suckers" job!

GOOD roads for Nacogdoches county and sidewalks for Nacogdoches city, is our slogan. And they'll make this country richer.

THE need of a new court house is so evident that it does seem absurd that people will be opposed to such improvement.

"BUSINESS is good and getting better" is the expression heard on every hand. It is thusly in Nacogdoches, the metropolis of the best section in the world.

NOW it is said that a big gathering of Chinese in San Francisco recently banqueted on eggs 100 years old. A case of a bad bunch getting the worst.

KENNEDY asked to resign and Thomas expelled! The political air in Texas seems to be getting a little less dense. Remember Nacogdoches needs sidewalks.

THE Beaumont Enterprise is of the opinion that the Nacogdoches Commercial Club need not a revival,—merely needs to get busy. Come to think of it, the Enterprise is right. Let's get busy now!

THE Show Case Factory is a mighty fine plant, a splendid manufactory, lots of people were employed at the institution, and a resumption of its business would be greatly welcomed by Nacogdoches folks.

IT is really interesting sometimes to hear people stand around and talk about what ought to be done and what "we" would do if "we" were in so-and-so's place. Usually those very fellows wouldn't do anything,—or they would get busy now.

BUILDING and improving continues in Nacogdoches, the music of the hammer and the saw being heard on every hand. Nacogdoches is improving, growing, progressing,—but this city is awfully in need of a real live Commercial club.

FRANK PUTMAN, the versatile staff writer for the Houston Chronicle, citrus fruit growing promoter, and prognosticator of Texas politics, has forecasted. According to his view there are already more than half a dozen gubernatorial candidates for two years hence,—and others priming. Land o' Goshen,—in Texas.

THE 31st Texas Legislature met today in special session. In submitting his message Governor Campbell calls attention to a number of things, one of which is the bank guaranty of deposits, and which is likely to receive more attention than any other recommendation. It is quite likely that a fight will occur when the matter gets before the Legislature.

DADDY KNOWS.

Anent the Ruth Bryan-Leavitt divorce, William Allen White wrote this little classic on "Daddy:" "The moral of the Bryan girl's tragedy is that Daddy knows. He sees men every day in all of the aspects. He sees good men. He sees bad men, who have some good in them. He sees designing men and weak men, and all sorts and conditions of men. And he knows. More than that, his heart is just as soft as yours, and if the man is any kind of a man you will be happy, but Daddy knows.

"Trust him. Believe that if there is any show for you at all, Daddy won't object. Daddy is not the crank he seems. Daddy wants you to be happy. He has all the high hopes for you that you have for yourself, and when Daddy says no—Daddy knows. If girls would only remember that, this would be a brighter world. For Daddy, who isn't of much use around the house, and is generally supposed to be considerable of an 'it' one way or another, at home—Daddy, who seems to have forgotten all about the golden land of true romance in which youth lives, old Daddy's memory is long, and his soul is wrapped up in you, my dear—Daddy knows."

"SOUP—grapes and lemon juice" are healthful and are pretty good appetizers, but extreme care should be taken when indulging, as too much some times causes a countenance resembling the cross between a double-tooth saw and an English bull dog. Keep a smiling; it pays.

ONE thousand bills were introduced at the regular session of the Legislature, of which 246 became laws. It was estimated that each bill introduced, whether it became a law or not, cost Texas an average of \$5,000. If such is true, the big state is "much wiser" by having dropped a measly five million.

THE Rusk Commercial Club is offering premiums to the amount of one hundred dollars for the best yields of cotton the present year in that county. The inducement is a most worthy one and ought to result in lots of land well fertilized, intensely farmed. Premiums are good things to offer and nearly always pay much more than the outlay.

WEST Texas is cutting a great caper these days and though many things are naturally against the big country, people who call it home are hustlers. Mighty few things of a detrimental nature but are overcome by the thrifty fellows and as a result the broad prairies and wide valleys are blooming with prosperity. East Texas has more natural advantages than that section but the enterprise is not so evident and proper co-operation is sadly lacking. The assertion is an "extensive" one and were it not backed up by actualities and admitted by the people, it might sound absurd. But it's a fact and no use denying it.

THE Dallas Times Herald continues to cry "lift Dallas out of the mud," a motto—if such it may be called—that has been taken up by many other towns for local purposes. "Lift Nacogdoches out of the mud" would be an awful good one for this city, if the people would act accordingly. The sidewalks proposition is a very important one despite the apathy of the citizenship.

THE fellow who is always harping on what good times there use to be,—how much easier it was to get a start in life and how much faster a person could make money, is usually the identical fellow who will sit around half his time, whittle a pine stick, cuss the government from city to national, and the other half his time, try to knock the props from any and everything for the good of his town.

"THE product map of Texas" showing the product of the counties of the state has been received. The publication is a valuable one and the figures are sufficient to

Mr. Dickenson, the man from Tennessee who has been appointed a member of the Taft portfolio, according to his own statement is a "good Democrat." He claims that he has always been and will continue to be, though he did not vote the National Democratic ticket in the most recent election. It is very possible that he is the only kind of a "good Democrat" who could break into a Republican cabinet!

EVERYTHING looks mighty good in Nacogdoches now. Trees budding; grass pretty and green and growing; shrubbery putting out; homes being repaired and repainted and some new ones going up; yards and lots and alleys undergoing a cleaning up and people stepping about at a lively gait; business pretty good and prospects most excellent,—makes things look powerful prosperous in the metropolis of the great East Texas.

LUFKIN is agitating the erection of a syrup plant, for the purpose of turning out the pure ribbon cane product and

WHAT DRAINS TEXAS?

(From the Arlington Journal)

The Nacogdoches Sentinel says: "In the whole of Texas as there are only 40 dairies, less than a dozen cotton mills and as few furniture factories. Texas folks send out of the state for \$11,000,000 worth of dairy products, \$50,000,000 worth of cotton goods, and half that much furniture annually."

The Sentinel might have added, also, that Texas brings in from other states about \$30,000,000 worth of corn and feed stuffs, about \$40,000,000 worth of hog products, not less than \$20,000,000 of flour, wheat and other breadstuffs, about \$5,000,000 of chemically manufactured syrups—when we can more than supply the state with pure ribbon cane and sorghum syrups—and about \$25,000,000 worth of canned goods. Now the above shows an aggregate of \$206,000,000 sent out of the state annually for stuff that Texas could not only easily supply at present, but could be selling a large surplus to outside states and countries.

Whose fault is this senseless drain upon the state's cash each year? The town people—and a lot of papers—will answer, "The farmers and the truckmen." But the Journal will answer that it is largely the fault of farmers for not intelligently diversifying to meet these demands. But it is more largely the fault of ignorance and its resultant narrow prejudice in our city and town people who demand outside goods of their local merchants and think Texas goods inferior for their cultivated (?) tastes. In proof of above, customers of merchants in Texas cities have refused Texas canned goods and demanded for their

fastidious (?) tastes the best St. Louis, Baltimore and California brands. And, behold, when the Texas merchants ordered the very best for his particular customers, the wholesalers sent them Texas canned goods put up in their own communities! And the wholesalers wrote these merchants:

"These goods are the very best on the market."

The same thing happened with flour. Texas people demand (foolishly) Missouri and Kansas flour. The mills of those states buy Texas wheat, and even Texas flour, brand it with their fancy brands, and re-ship to Texas and sell to our people at a higher price than the same flour sells with an honest home brand. All of this because Texas people stubbornly remain ignorant of the fact that Texas wheat and flour have for more than twenty years been adjudged by experts to be equal to the best in the world—and superior to any shipped into Texas!

The same with bacon and lard. The Journal believes the good people of the great Arlington country will reverse all of this in this section by intelligently diversifying, and by using home products, since they can only live by selling home products.

Texas furnishes the timber to outside states for making furniture, barrels, all kinds of handles, buggy and wagon timbers, etc., which are manufactured and shipped back to us to the value of not less than \$20,000,000 a year—this makes over \$226,000,000 we foolishly send out of the state annually.

The only remedy is intelligence, education, knowing the facts and acting upon them.

SENATOR Bailey—from Texas—finds himself very agreeably surprised in President Taft and actually accuses, in a way, that he's a pretty fair Democrat. Roosevelt, during his tenure of office, is charged with appropriating Democratic ideas,—so between the "has been and is," the Southern Senator's platform is just about "a was." Wonder what Bryan happens to be anyway;—the chances of the Commoner having any platform at all look powerful slim.

A YOUNG minister in a college town was embarrassed by the thought of criticism in his cultivated congregation. He sought council from his father, an old and wise minister, saying: Father I am hampered in my minister in the pulpit I am now serving. If I cite anything from geology; there is Prof. A., teacher of this science, right before me. If I use an illustration from Roman mythology, there is Prof. B. ready to trip me up for any little inaccuracy. If I mention something in English literature that pleases me, I am cowed by the presence of the learned man that teaches that branch. What shall I do? The sagacious old man replied: "Do not be discourag-

ed. Preach the gospel. They probably know very little of that."—Ex.

THE Panhandle of Texas reports a six inch snow, and rejoices that it's fine for the farmer! No doubt it is and the mantle of pure white snow covering the broad prairie will prove the making of many valuable crops this year. Snow is alright on the Plains, where the folks expect nothing more, but the fascinating sceneries, entrancing climate and wonderfully rich section known as "old East Texas" is a powerful good place to live. Yes the nice snow is alright we sponse, but while the panhandlers are trudging through the beautiful stuff, the folks of the most excellent piney woods country are eating vegetables from this year's gardens and basking in the warm sunshine, viewing the newly budded trees and green grasses and living happily under the influence of the sweetest perfumed flowers in the wide world. Come to East Texas and forget your troubles.

If some people put in as much time boosting as they do knocking, this old town would be a regular blooming garden in the paradise of the South.

H. T. BURK

The Implement Man

cause eyes to open. Texas is a big state and her products amount to more than one would think. The map was issued by the Commercial Secretaries.

LIGHT and shadows tell us that traveling in the winter, we often see some naked, ugly tree, stripped of her foliage, and raising her ugly branches toward the cold gray sky. Not a spark of life is seen, and we wonder why it is spared the woodman's axe. In the spring the sap comes, and the barren limbs grow green and that which marred the landscape becomes a thing of beauty, and even of refuge from the sultry sun. All that was lacking was the season of usefulness—frondescence. Human beings are like that tree. The race is like a forest. Many that are barren need only the warm touch of spring—the season of opportunity, the sap of encouragement and kindness, to bring out their ornamental and beautiful characteristics. —Rusk Co. News.

putting it on the market as is done in many places. East Texas is a leader in the cane raising business and ought to get in harness with syrup making plants. The proposed movement at Lufkin is a most commendable one,—though Nacogdoches ought to start the plan by virtue of this county's pre-eminence as a cane growing section.

DENTON, Texas, is becoming much enthused over the creamery question and proposes to establish a second plant. The first one has not been in operation such a great while but the success of it is so flattering, the people are beginning to see what such means. As an example of what the supply customers make out of the industry, one man with only three cows cleared \$300 last year besides what he used at home. A lady with two cows and sixty hens is averaging \$28 per month, selling eggs and cream. Such a plant would prove a paying investment right here in Nacogdoches; not only would it pay the investors but the patrons.

THE BEST REMEDY

For Women—Lydia E. Pinkham's Vegetable Compound

Noah, Ky. — "I was passing through the Change of Life and suffered from headaches, nervous prostration, and hemorrhages. Lydia E. Pinkham's Vegetable Compound made me well and strong, so that I can do all my housework, and attend to the store and post-office, and I feel much younger than I really am."

Lydia E. Pinkham's Vegetable Compound is the most successful remedy for all kinds of female troubles, and I feel that I can never praise it enough. — Mrs. LIZZIE HOLLAND, Noah, Ky.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—induration, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration. If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

SHOW CASE FACTORY SOLD.

George W. Cavin Buys Bankrupt Property for \$5525—No Plans For Future.

The Nacogdoches Show Case Factory is now the property of George W. Cavin, he having purchased it at the public sale yesterday. This is provided of course that District Judge James I. Perkins approves the sale. At the hour advertised, a crowd of business men were on hand at the property and Guy Blount, receiver, asked for bids for purchase. The first figures named were five thousand dollars, being raised by different parties, a little at a bid, until \$5525 was the highest.

Things came to a standstill right there and despite the coaxing to push the price up, Mr. Cavin was awarded the property. The plant is a good one according to the opinions of all who were present and the sale of the factory is called a bargain indeed.

Lots of the machinery is practically new, the entire plant is modern in every respect, the buildings are good, lands are sufficient for any and all work and the product of the institution has been pronounced superior to that of many similar, though larger ones. The original stock of the concern was \$20,000, 200 shares of \$100 each. Besides this there existed a mortgage of something like \$7,000, making practically a \$27,000 plant sold for \$5525, or less than enough to pay off the mortgage. Mr. Cavin expressed it that his purchase was a surprise to even himself. As to future plans he had nothing to say, awaiting the action of Judge Perkins in the matter. Guy Blount, receiver, stated to a Sentinel reporter, yesterday that there is also on hand several hundred dollars worth of furniture, office fixtures, and stock that will be advertised and sold at public outcry in a few days.

A Religious Author's Statement.

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed some frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. Mast Bros. & Smith. eod

The farmers of this section are jubilant over prospects.

The splendid rains of the past few days have put an excellent season in the grounds. Nearly every one had broken their lands early, some of them have turned them twice. The indications are indeed favorable for good crops and with just fair seasons from now on, the 1909 harvests will be good ones and money makers.

PURCHASES MORE TIMBER.

Henry Millard Buys 1,500,000 Feet From J. G. Orton For \$4,000 — Will Move Mill

A deal was closed yesterday in which Henry Millard becomes the owner of all the timber on the J. G. Orton land, of which there are several hundred acres. The timber is estimated at one and a half million feet and the purchase price is said to have been \$4,000. The lands are located just west of the city and begin with the corporation line. The timber amounts to one of the very best and largest bodies near Nacogdoches and is expected to cut at least one and a half million feet. Mr. Millard will move his mill to the new holdings but just where and when has not yet been decided as it will take some time to close up his affairs where he is now located.

Letter to H. T. Burk, Nacogdoches, Texas.

Dear Sir: Shuffert Hardware Co., Hickory, N. C. bought a car-load of paint; after selling it a few months, found-out it measured seven pints a "gallon."

Returned it to the maker and credited customers with what they had lost from short measure.

What do you think of a short-measure paint? Don't you think it half whitewash? Half the paints are part white-wash.

Go by the name: Devoe lead-and-zinc. No whitening or clay in that; full-measure besides. A gallon Devoe is worth two of white-wash paint.

William Steyh, of Burlington Iowa, Here as a Manager of a Big Orchard—Things We Need.

William Steyh, of Burlington, Iowa, is in the city and paid the Sentinel office a visit. Mr. Steyh has been in Nacogdoches for several weeks, having come here to look after the interests of the Hawkeye Orchard Co., formerly known as the Malley, or Nacogdoches Orchard Co. Mr. Steyh stated—that about 200 acres would be cultivated this year, but next season, if things go along alright, the entire 600 acres will be worked.

In speaking of this city the gentleman seemed very much surprised that no efforts for streets, sidewalks and other improvements are being made, referring to northern cities which have a tax rate of only about two per cent against one and eight tenths here; and which have splendid, uniform sidewalks, good street crossings, paved streets and in many instances own the water, electric light and other utility plants.

"The appearance of a town," said Mr. Steyh, "impresses a stranger, a visitor, at once, and if these public improvements are lacking, the opinion is bad. Strangers do not pause to enquire as to the wealth and advantages of a place, taking the outward appearance as a reflection of true conditions. You people need a little more thrift, and enterprise and progress with reference to your city and its affairs."

In regard to the future of this section Mr. Steyh talked very optimistic, believing the greatest opportunity to be in stock farming; intense "agriculturing," raise feed stuff at home, good stock, and grow things that will be soil builders as well as yielding profits.

KILLING AT MANNING.

Fathers Take up Sons Quarrel Which Results in Shooting. Affair—Arrest is Made.

Mc. McHenry, foreman of the Carter-Kelley mill at Manning, was shot and killed at that place Saturday. J. H. Bain, woods foreman of the same mill, was arrested and placed in jail that evening, charged with the killing.

The affair followed a fight of the two men's sons. Mc. Henry pulled Bain's boy off of his own son, and when Bain started to interfere, Mc. Henry pulled his pistol, it is stated, Bain went to the meat market, a short distance away, got his rifle and started back. Mc. Henry saw him again started to pull his pistol, when Bain shot him, death ensuing immediately. Both parties are well known.

A young girl visited a cooking school recently and her attention was divided between a dress worn by a friend and directions for making cake. So when she undertook to write the recipe for her mother, the old lady was paralyzed to read the following: "Take two pounds of flour, three rows of plaiting down the front, the whites of two eggs, cut bias, a pint of milk ruffled around the neck, half pound currants, with seventeen yards of head trimming, grated lemon peel with face tie; stir well and add a semi-fitting paletot with the visite sleeves; garnish with icing and pascamentarie. Bake in moderately hot oven until the skirt is tucked from the waist down in either side, finish with large satin rosettes." —Clarendon Chronicle.

Cures Dyspepsia; Trial Is Free

It is a popular mistake that only wealthy people who eat rich and highly-spiced foods suffer from dyspepsia, or, as it is also known, indigestion. The laborer in the street, the worker in the field also finds himself a victim of this disorder. Among the very greatest sufferers from it are women.

Dyspepsia is indicated by a constant feeling of lassitude, by loss of appetite and troubled sleep, by sour stomach and distention after eating, by bad complexion and lusterless eyes. There is no truer and speedier cure for this trouble than Dr. Caldwell's Syrup Pepsin, which dyspeptics have been using successfully for twenty years. This great herb laxative compound cures Constipation, Indigestion, Flatulence, Sour Stomach, Headache, Nervousness, and all the ills that attend indigestion. It is not expensive to be cured with this great remedy, as it can be bought at any drug store in a 50-cent or \$1 bottle. Your very neighbors are probably suffering from this trouble, but if you want to know without expense what it will do for you personally, send your name to Dr. Caldwell and he will be glad to send you a free trial bottle. He is actually anxious to have you make a test of his remedy.

Thousands of families everywhere keep it in the house against such an emergency as constipation, indigestion, flatulence, dyspepsia, heartburn, torpid liver, etc., which may come on a member of the family any day. It is pleasant to take, acts gently and does not grip. It is the great children's laxative tonic.

A Mysterious Affair.

Several days ago a telephone call to Post Master H. H. Cooper from Blooming Grove, sought the information if a registered letter was here for a certain party. There was not, but the next day the missive came. It was called for by another party, who was informed the addressee was the only one that could get the letter, unless a written order was presented. A "mail carrier" for a nearby institution was entrusted with the missive and was admonished to let no one have it but the person addressed. Another offered to take it for the party and see that it was delivered properly, but the "mail carrier" did not see things that way, and returned the letter to the post office. The party to which it is addressed is said to be in the city and just why the letter is not called for is a mystery. The letter is supposed to be the result of an "information want ad" in a city paper, but what paper cannot be detected by the ad.

How can any person risk taking some unknown cough remedy when Foley's Honey and Tar costs them no more? It is a safe remedy, contains no harmful drugs, and cures the most obstinate coughs and colds. Why experiment with your health? Insist upon having the genuine Foley's Honey and Tar. Mast Bros. & Smith. eod

WHENEVER you see a fellow on the pouting list, it's a case for the milk man and a rubber nipple.

THERE is a splendid opportunity in the city for a civic organization to do some sure enough good,—and things that will be appreciated.

WHEN its dry we need a street sprinkler and when its wet we need street crossings. What tunny-folks some people are.

"UNCLE" Joe Cannon was reelected Speaker of the House of Representatives at Washington. The only way you can best the wily old politician from the corn belt is to give him a bad cigar.

MOST troubles in this world are merely imaginary ones—though of course there are some real. The former overshadow the latter to such an extent though, that most folks have no time to really give to the genuine.

GARDEN truck in East Texas is peeping above the earth and with a few more warm, sunshiny days, living in this section will be a luxury when compared to the daily diets of the Panhandlers,—extracted from the shelves of imported canned goods.—Come to East Texas.

SOME folks are already making war on the young weeds and other unnecessary growing stuff, as well as on the trash piles. Such is commendable and those who have not yet begun might get a few excellent lessons in civic righteousness, by looking on.

SENATOR H. Bascom Thomas, who was expelled from the Upper House Saturday, may have been wrong in the entirety, but the people of Texas would like very much to know the inside of the investigation room. The idea of having such affairs behind closed doors, every one sworn to secrecy, it matters not who is the accused or what the charges, doesn't set well. If that august body comes in for a big supply of criticism at the hands of Texas folks,—it will occasion no great surprise.

THE Texas Legislature visited the Fat Stock show at Fort Worth yesterday, the guests of the Panther city. The solons of the big Lone Star State are a jolly bunch anyway and ought to have a little outing once and occasionally,—after such strenuous labors as the past sixty days. There are lots of them down at Austin that need educating and training too, and of course the people of a sovereign commonwealth don't mind paying for such. It's up to the Dallas Times-Herald to keep the record straight.

ARE YOU AFRAID TO TAKE CHANCES.

Many a man falls because he does not dare to take risks, to take the initiative.

When do you expect to do anything distinctive in life? When do you expect to get out of the ranks of mediocrity? The men who do original things are fearless. There is a lot of dare in their makeup, a great deal of boldness. They are not afraid to take chances, to shoulder responsibility, to endure inconvenience and privation.

There never was a time when the quality of courage was so absolutely indispensable in the business world as it is today. It does not matter how many success qualities you possess, young man, if you lack courage you will never get anywhere. Not even honesty or perseverance will take its place. There is no substitute for courage.

It does not matter how well educated you may be, or how good a training you may have had for your vocation, if you are a hesitator, if you lack that courage which dares to risk all on your judgment, you will never get above mediocrity.

The men who stand at the top of their line of endeavor stand there because they have the courage of their convictions. They had the courage to climb, had the nerve to undertake even against the advice of others,—Orison Swett Marden, in Success Magazine.

MAINE'S old maids are to be pensioned at the expense of the bachelors and widowers, is the act which has been introduced in the Legislature. It proposes to mulet every unmarried man of 30 or over at the rate of \$10 a year, the fund thus raised to be applied to the support and relief of such deserving spinsters who are still spinsters, although willing to marry if they get a fair chance. The law has some relief measures for the bachelors or widowers who can show that they have made a reasonable effort to get a wife by proposing three times either to three different women or to one woman three times.—Bartlett Tribune.

CHARLES W. MORSE is broke. So says the wife of the former millionaire banker and ice king and she further states that she has disposed of furs, jewelry, "other necessities" and has even dismissed all servants but one. The sale was for the purpose of getting funds to pay the attorney fees. Mrs. Morse reserved an electric brougham, however, to carry her husband meals and proposes to do everything possible for her convicted helpmate. So much for her and her good intentions, if such they be, and no one has a right to question them, but the old question bobs up,—why the cause of all this? Better a poverty stricken laborer in a lowly hut than an ice king in the tombs,—better a silver dollar honestly earned than a pot of gold filched from the hands of others.

Shady Grove News.

The farmers are busy on every side planting corn, preparing tobacco land and building tobacco barns. Every one seems to be well up with their work.

Mr. James Greer, the agricultural agent, has been busy among our farmers the past week. Some eight or ten men in the community are working plots of land under the governments instruction. School is progressing nicely with fairly good attendance. Owing to the fact that every one farms, necessitates some few plow boys quitting school.

Our society rendered an excellent program on the 5th and will render another on the 19th. Several of the young men from here attended the Debaters Union at Nacogdoches and report that the next session will convene with the Shady Grove Society. Some of these citizens are already busy and saying, "we must make the meeting a success." People who know Shady Grove community know what that means. The societies and the public may assured that there will be nothing lacking on the part of the community. Now we hope the program committee will get to work and formulate a good program and that every one on that program will make special preparation.

The Shady Grove Society has accepted another challenge from the Swift society. This will be the third joint discussion between these societies.

Rev. Gerrard filled his regular appointment here last Sunday.

Mr. D. L. Campbell and family spent Saturday and Sunday visiting relatives in this community. Several of the Prairie Grove people attended church and singing here the first Sunday.

Mr. George McCarty has moved to Stoker and his children have entered school here. They are gladly welcomed.

I suspect the editor will not solicit me to write again and will hint for me to write less if I do.

E. W.

THE meeting at the Methodist is drawing pretty nice sized crowds and considerable interest is being manifested. Revs. Smith and Mills are excellent gentlemen, good preachers and deserve even more. The people of Nacogdoches, not only church members but others, should attend and should do so every day. The church building ought to be filled to capacity at every service and will if the proper spirit is shown. Because one can't spend one hour at services is no excuse for not attending; go for half that time, or even ten minutes. The membership and the men conducting the meeting will appreciate it.

THE reports that have gone out to the effect that the fruit crop in this section will be a failure on account of the recent cold snap, are erroneous. The textile old pine belt will come through on time when the Elbertas and other lucious luxuries begin to show up. Boost for Nacogdoches.

STOMACH DISTRESS.

And all Misery From Indigestion Vanishes Five Minutes Later.

Every family here ought to keep some Diapepsin in the house, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a sour stomach five minutes afterwards.

If your meals don't tempt you, or what little you eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your pharmacist for a 50-cent case of Pape's Diapepsin and take one triangle after supper tonight. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in stomach, Nausea, Debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for all stomach misery, because it will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all your stomach misery is at your pharmacist, waiting for you.

These large 50-cent cases contain more than sufficient to cure a case of dyspepsia or indigestion.

Money paid for education is the best investment; time thus spent is wisely used. Time is money and opportunity as well, if it is used aright.

Business men work during the summer; farmers do the same; then what's the sense in big boys and girls spending vacations in idleness, in wasting precious weeks of the few years of preparations for life? Most ambitious boys and girls would rather spend vacation in learning something that will fit them to earn a fine salary than in loafing. Many such spend their vacations with us and find our summer work the most instructive, practical, and useful they have ever had. One vacation spent with us will prepare any young man or woman of average ability to earn a living or more. He who cares more for success than heat sees far ahead of him who waits till cool weather to study. Moreover, our systems can be mastered during vacation, a thing not true of any others.

Complete a course of Bookkeeping and Shorthand or Telegraphy with us, and we will place you in a good position. We enroll 1500 students annually, employ 20 teachers, occupy two large buildings, have over \$19,000 invested in furniture and fixtures, and are prepared to do more for you than any other business college in America.

In Memoriam.

When the news went forth that George Greer was dead many hearts were saddened. All deaths are sad, but in some respects this was a very sad one; not because he was not prepared to go, but because he was just in the midst of young manhood; sad because the wife has lost a loving husband, the two sweet children a kind father, the saintly mother a devoted son and the brother a noble brother.

George was born near old North Church in the year 1878 and was reared in the same community. On the 31st day of August, 1904, he was happily married to Miss Jessie Brown. The writer has been in their home and noted their conjugal affection. It was a home in which love was queen. A wise providence has drawn the curtain before our eyes so that we know not what awaits us in the future.

Little did we think to see their cup of joy so soon be turned to weeping and their day of sunshine into the night of sorrow. But such is the inevitable course of this life. Longfellow has truly said: "Into each life some rain must fall, some days must be dark and dreary." One of his noble traits of character was his home affection. It has never been mine to see a boy more devoted to his mother than he. It was my privilege to spend an afternoon with him a short while before his death. His mind was not on the fleeting things of this world. "Things seen are temporal." He was then conscious of the fact that he was nearing the end of life's journey and his entire conversation was on things above. At his request it was my privilege to read selections of God's word to him and pray with him. The evidences that he gave me of his acceptance of the Lord were very bright and he told me in effect that when the winter was over and the weather admitted that he would unite with the church and follow the Lord in the beautiful ordinance of baptism.

During his long illness he no doubt suffered untold agonies. But in that fair clime where his spirit dwells today, sickness, pain and sorrow are unknown. There sweeps no desolating wind across that calm, serene abode.

His remains were laid to rest by the side of his father in North Church cemetery. The large crowd in attendance was evidence of the high esteem in which he was held. Again we hope to meet thee When the day of life is fled, And in heaven with joy to greet thee.

Where no farewell tears are shed.

"WHAT we need in Nacogdoches," said a prominent business man, when asked the question, "is for the merchants and other business men to get acquainted." He is correct and has been a citizen of this city long enough to know. But what the city needs and what it gets are two entirely different matters. Ever thought of that?

I Cannot Praise Pe-ru-na Highly Enough for the Good it Has Done Me.

MRS. JOHN HOPP.

MRS. JOHN HOPP, Webster Ave., Glendale, L. I., N. Y., writes: "I have been suffering for the past ten years with many symptoms incident to my age, also catarrh and indigestion. I was weak and discouraged, had no ambition, could not sleep at night, and lost greatly in weight. I tried other remedies, but with no success, until I commenced to take Pe-ru-na. I now feel better in every respect, can sleep well, and have gained in weight. I cannot praise Pe-ru-na highly enough for the good it has done me."

"If any women are suffering as I did, I would advise them to try Pe-ru-na and convince themselves. Pe-ru-na has done me good. I know by my experience that it is worth its weight in gold to any one who needs it."

"I also took Manalin, for constipation in connection with Pe-ru-na, and I found it helped me where other laxatives failed."

Now Well of Catarrh.

Miss Malissa Jolley, Parmele, N. C. writes: "I have been taking your Pe-ru-na, and can say that I am well of the catarrh."

"I thank you for your kindness and your advice."

A READER of the Sentinel has been getting next to some "love making" in or near about this famous old city, and the story sounds like a "disappointment" happened. The case however was a very intense one for a time and the poor fellow was evidently led to believe there existed a fine chance for a better half,—so of course proposed. Imagine though the suitors awful awfulness when the pretty maid (not an "old maid") dropped her head to the left, winked the other eye, smiled so bewitchingly,—but replied not. The affirmative side of the question did not give up, even grew oratorical, as—

On bended knee he offered his life
If she would then become his wife
"Go to my father," she said,
When he asked her to wed.

That answer was a surprise in view of the fact that,—
Although she knew that he knew,
That her father was dead,
And she knew that he knew
What a life he had led.

A creepy feeling came over the young man and it was with an effort unusual that carried him to the exit of the home. No time was lost in saying "good bye" this time and as he went down the walk in a wobbly way, he muttered,—

"And she knew that I knew
What she meant
When she said
"Go to my father,"—he's dead."

BET our seat in the Texas Senate that a real live, moving, pushing, working, hustling Commercial Club could do more for the upbuilding of Nacogdoches than anything else that can be mentioned or done.

TIME IS THE TEST.

The Testimon of Nacogdoches People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Nacogdoches people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

Dr. J. A. Drewry, living on South Fredonia street, Nacogdoches, Texas, says: "I used Doan's Kidney Pills with beneficial results, and testified to their merits in 1906. This remedy gave me relief from symptoms which gave evidence of an inflamed condition of my bladder. One of my children also received marked benefit from Doan's Kidney Pills. The results she obtained from the use of this remedy only confirmed the reports made in its favor. I procured Doan's Kidney Pills at Mast Bros. & Smith's drug store and never hesitate to give them my recommendation."

Obituary.

Thursday, March 4th, the death angel visited the home of Mr. and Mrs. W. B. Nations and claimed as his own their little Mamie, aged 11 years, 6 months and 16 days. Her days were short here on earth and many of them filled by the pain of disease, she having spent about three years an invalid, but we have the consolation of knowing she is now free from the pains and troubles of this sin stricken world. Mamie was kind, obedient and affectionate, which made many friends and play mates gather around her bed side to bid her a last farewell. She was laid to rest in the Harmony cemetery Rev. Castleberry conducting the services. Weep not dear parents, for our loss is heavens gain. Only strive that you may meet her in that sweet bye and bye where loved ones can never part.

A Friend.

GALVESTON reports that only five hundred out of town folks visited that city Sunday and charges the weather as being the cause for the falling off of the crowd. The weather may have been a serious drawback to the attendance Sunday but if the "lid was off," as it is said to have been once upon a time, the weather wouldn't have cut much ice in the Sunday excursion business.

TO THE LADIES AND GENTLEMEN OF NACOGDOCHES COUNTY:

We have just recently returned from an extended trip to the Eastern markets, where we purchased our Spring and Summer stock of goods. Since coming home we have been very busy unpacking and placing on display the new stuff, and now that it is ready for your inspection, we take this method of extending to you, one and all, a most courteous invitation to come to our place and look through. We were exceedingly and agreeably surprised while in the markets to find everything so brisk, confidence restored, people buying large stocks, and the prettiest, neatest, nobbiest and newest Spring and Summer goods it has been our good fortune to see in all our years of merchandising. To climax it all, the prices are so much less than we really expected to find and which makes this season's stuff unusual bargains. Especially do we want to call your attention to the dress goods. Undoubtedly there never was a more attractive showing than this year's and the quality is most excellent. Patterns could not be improved on in any way; colors are admirable and for this particular class of merchandise, the prices asked are astonishingly low. We did not neglect any department, however, from notions to millinery, and took the best of care in purchasing only goods that we think will please our customers and give absolute satisfaction. A description of our big stock, beautiful new goods, and values out of the ordinary is beyond anyone, and the only way to really know is to come and see. We again extend to every lady and gentleman in the county a very cordial invitation to call and we will take pleasure in showing the new stuff. Whether or not you want to purchase makes no difference, come anyway and see. Yours to please and always with the best and newest and cheapest in price.

SIMON MINTZ.

P. S. Our stock of ladies', gentlemen's, misses' and children's shoes and low quarters, the newest styles, lasts, and all colors, is as complete as can be. You'll be interested, come in and see for yourself.

SIMON MINTZ.

For the benefit of those who do not know and also those who may have been misled by past remarks in reference to such, we will state that the tax rate for the city of Nacogdoches is 75 cents per \$100. The state and county is about \$1.07 cents, making a total of a little less than \$1.82 per \$100 valuation. The above state-

ment is made on account of a recent article in the Sentinel in which the total rate was given, with out distinction as to the city's pro rata.

Farmers are behind with their work on account of so much rain during the past two or three days.

J. H. Briley has had a real sick child for the past two or three weeks but is some better at this writing. He also had the misfortune of losing his only plow horse Wednesday.

The young folks enjoyed an old time dance at the hospitable home of Mr. and Mrs. Tom Patterson Friday night.

Some of the boys attended the singing at Libby Sunday evening—Ollie Day was also seen going in that direction.

Miss Nancy Stripling has been visiting her sister, Mrs. L. W. Dennis, for the past week.

Ben and Fred Stripling went to town Saturday on business.

F. G. Briley is on the sick list.

Rev. B. W. Floyd failed to fill his regular appointment at Concord Sunday on account of rain.

A. S. Stripling has built a new yard fence and fixed up all his gates. Hurrah for Uncle Abb.

Sam Stripling is breaking his young mules.

Suppose S. S. Arthur is going into the fruit business as he is around getting peach trees-prouts.

The writer was glad to have the pleasure of reading a letter from Sleepy Boy this week for we had just about decided he had slept too long to write.

No surprise weddings from this part of the country this week. Incognite.

The city political prospects are getting a little frisky, and between now and the election date in April things may be interesting—so the saying is. In the mean time boost for Nacogdoches and talk street crossings.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor. There is nothing else to live on or by. When strength is full and spirits high we are being refreshed—bone, muscle and brain, in body and mind—with continual flow of rich blood. This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

MAKES A BIG SALE.

Swift Brothers Get \$3600 From the Waterman Supply Co. For 16 Head of Mules.

Luther and Fritz Swift yesterday sold to the Waterman Supply Co., a branch of the Waterman Lumber Company, sixteen head of mules, at \$225 per head, amounting to a total of \$3600. The mules were recently purchased by Luther Swift, while in North Texas, and are all considered extra good ones. A. Bernette and another gentleman, from Shelby county, representing the Supply Co., were here yesterday and inspected the stock. In speaking of the trade today, the senior member of Swift Bros. said this is the largest sale made since the panic more than a year ago and indicates that business is rapidly improving. The Waterman Company is one of the largest concerns operating in the state.

A Swollen Jaw.

Is not pretty nor pleasant. Whether it's caused by neuralgia, toothache or accident, Ballard's Snow Liniment will reduce the swelling and relieve the pain. The great and sure cure for rheumatism, cuts, burns, bruises, scalds—any and all aches and pains. Sold by Mast Bros. & Smith.

SPECIAL NOTICE TO PARTIES ATTENDING COURT.

There are three things you should bring with you when you come to court: Your watch or clock for repairs, your eyes to be fitted with a pair of glasses that suit you perfectly, and a list of such drugs, jewelry and other merchandise as you may need at home. Bring all this to Stripling, Haselwood & Co., who will give you better service for the money.

Will Waterhouse, a negro charged with criminal assault, was given a preliminary hearing before Justice J. F. Perrette yesterday afternoon. The question of bail has not yet been decided.

No Need of Scratching.

Other afflictions may be more painful, but none more annoying than many forms of itching trouble. The quickest and most reliable remedy for itching disease of any character is Hunt's Cure. One application relieves—one box guaranteed to cure.

When attending court bring us your old watch or clock for repairs. Don't forget it.

Alcohol not needed

Ayer's Sarsaparilla is not a strong drink. As now made, there is not a drop of alcohol in it. It is a non-alcoholic tonic and alterative. Ask your own doctor about your taking this medicine for thin, impure blood. Follow his advice every time. He knows.

Ask your doctor, "What is the first great rule of health?" Nine doctors out of ten will quickly reply, "Keep the bowels regular." Then ask him another question, "What do you think of Ayer's Pills for constipation?"

Made by the J. C. Ayer Co., Lowell, Mass.

New Drug Company.

T. M. Harris has sold his interest in the Garrison Drug Co. and Frank Goldsberry and Stripling, Haselwood & Co. of Nacogdoches have formed a co-partnership with Rho Garrison and incorporated the firm for \$7,500.00 with Rho Garrison president and Frank Goldsberry secretary and treasurer.

This will make a strong firm and this already popular business will broaden its scope of usefulness by this new arrangement.—Garrison Gleaner.

Good for The Blues.

Is your appetite on a vacation, your energy absent, and everything else out of "whack?" If so, you had better take something and take it now. Simmons' Sarsaparilla is the king of tonics. It will make you eat all you will want to pay for. Try it and hear yourself laugh again.

A New Candidate.

To the Sentinel: I am a candidate for alderman. I have this platform. Make a ford at the iron bridge on the LaNana in the east part of town. It will cost but a trifle. It will let us water our stock as we go and come. This convenience will be great. The inconvenience as it is now is great. Don't vote against this. The farmers need it too.

Dick.

What's The Use?

Aches, pains, burns, cuts, sprains, and all similar afflictions are always instantly relieved; often entirely cured by an application of the unequalled remedy, Hunt's Lightning oil. Don't suffer. Don't delay. What's the use?

Notice.

I hereby wish to inform my friends that I have purchased the M. D. Stoker stock of general merchandise and intend to keep a general line of merchandise and will appreciate a share of your patronage.

Also have first class heart and sap shingles for sale. D. T. Terry, R. F. D. No. 1, Appleby, Texas.

Cotton Seed For Planting.

I have at the Oil Mill for sale several hundred bushels of the celebrated Triumph cotton seed, grown carefully, selected and sacked by J. B. Stripling.

W. U. Perkins, I have a few farms to rent, John Windsor, Nacogdoches, Tex.

Mr. Cavin Sells Land.

Beaumont Journal.

Roland Simmons, editor of the Kirbyville Banner, was a visitor in the city yesterday. He reports closing a deal whereby George C. Williams of Nacogdoches purchased from George W. Cavin of the same city a tract of 2214 acres of pine land with a 40,000 capacity sawmill and planer thereon, the consideration being between \$25,000 and \$30,000.

The plant and the timber land is located a short distance east of Kirbyville and was purchased by Mr. Cavin several years ago. He operated the mill for some time, but later removed to Nacogdoches, having purchased a lumber plant near that city. The plant is a good one and modern in every way.

The deal has been on for some time past and George E. Anderson of this city is also interested in it. Another deal closed by Mr. Simmons this morning was that of 840 acres of Jasper county pine land to Geo. W. Cavin of Nacogdoches, the party selling being District Judge W. B. Powell of Jasper. The consideration was in the neighborhood of \$10,000.

We handle all the good brands of Stock Food, and this is the best season to use it. It makes your horses slick, your cows give more milk, and your hens lay twice as many eggs.

Did You Ever Notice?

When you have Rheumatism your friends will recommend various remedies, many of which you have already tried without success. Next time you have it get a bottle of Rheumazone and you will not need the other remedies. Rheumazone is just as sure a cure for Rheumatism as White's Head-Ease is for Headache and Neuralgia. Sold by Stripling, Haselwood & Co., at 50 cents and \$1.00 per bottle.

Don't wear glasses unless you need them, and don't wear them then, unless they are properly fitted to your eyes. No one can do this unless they are an expert, and you get the expert service at our store.

Stripling, Haselwood & Co

THE farmer should demand the building of good roads of the government. They bear the brunt of taxation for the support of the government and receive a very small per cent of the money spent by the government on internal improvements. If a goodly portion of the millions spent on the army and navy and other things far removed from the people were spent in building permanent public roads the benefit to the whole country as well as the farmers directly would be incalculable. It is not a good policy to expect the government to do things outside of its function of governing the people, but as the government sees fit to get into many other things for the benefit of other classes, the farmers should secure some help in building public roads. Public money could be spent in no better way.

GERONIMO—"BIG INDIAN CHIEF"

(From Houston Chronicle)

When Geronimo, erstwhile one of the Apache Indian, reputed to be the savage of the race, died at Fort Oklahoma, on February 1909, while a United States prisoner of war on parole, one of the most spectacular characters ever encountered by American arms, passed from the stage of earthly existence. The dogged persistence with which this aged chief, 90 years old at the time of his death, withstood and evaded the attacks and onslaughts of armed squads of the flower of American soldiers furnished the annals of the United States army with a series of episodes which read more like fiction than fact.

Due to the instincts of his fathers, Geronimo fought the advance of the vanguard of the pale face until all hope seemed gone, when, pursued constantly for five months by United States troops in a hunt covering all Arizona and 200 miles in New Mexico, that was left of a once mighty leader of a savage band of Indians surrendered, for his camp had been captured, to General Neleon A. Miles on September 3, 1887. The history of Geronimo is more than passing interest to Texans since on more than one occasion the aged ex-riever has made trips into various sections of the state. He was an enthusiastic admirer of horses and would travel for miles to a horse show or street fair where roded horses were sometimes entered in the races. Over two years ago he returned from the reservation at Sill some 60 odd miles from Comanche, I. T., to participate in local races at a street fair, and with the experience of a youth of 16, he led the race for three weeks and came out second, waving his hat in Indian style.

There are citizens of Houston who knew Geronimo well and their impression of him is that of some ancient knight whose hopes blasted and trailing in the dust. His sad expression constantly spreading his face rarely came off and his thoughts seemed to be far away. When Geronimo was captured W. Higgins, now serving in the city of Houston police force, was a member of the third United States cavalry which had the distinction to capture the wily warrior on several occasions. Mr. Higgins very clearly remembers a clean cut features and bright eyes of this past master in Indian warfare. He says that when his detachment first captured Geronimo the chief of the band refrained from eating for several days and feigned sickness in order to receive the sympathy of the officers which he would promptly take advantage of to make his escape.

County Tax Collector George L. Glass when in Oklahoma before the capture of Geronimo, met the dreaded chief, accompanied by two of his tribesmen while out on

one of his chases which he frequently indulged in before his capture. Mr. Glass says that he will never forget the feeling of satisfaction he had after passing the hunters who seemed to be undecided whether to kill him or not. Mr. Glass encountered the trio out on one of the plains of Oklahoma far removed from any settlement and he considered it a miracle that he was not taken as hostage by the blood thirsty savages.

As the leader of the warring Apaches of the southwestern territories in pioneer days, Geronimo gained a reputation for cruelty and cunning never surpassed by that of any other American Indian chief. For more than 20 years he and his men were the terror of the country, always leaving a trail of bloodshed and devastation. The old chief was captured many times but always got away again, until his final capture in 1886, under Captain H. W. Lawton, who, as major general, was killed at the head of his command in the Philippines, and Assistant Surgeon Leonard Wood, today in command of the department of the East, with headquarters at Governors Island.

The capture was made in the summer, after a long and very trying campaign of many months, in which Lawton and Wood gained a reputation which will be long remembered in the annals of the army. Geronimo was at first sent to Fort Pickens, but was later transferred to Fort Sill. Until a few years ago he did not give up the hope of some day returning to the leadership of the tribes of the Southwest, and in the early years of his imprisonment he made several attempts to escape.

Geronimo was a Chiricahua Apache, the son of Chalorow of Mangus, Colorado, the war chief of the Warm Spring Apaches, whose career of murder and devastation through Arizona, New Mexico and Northern Mexico in his day almost equaled that of his terrible son. According to stories told by the old Indian during his last days, he was crowned war chief of his tribe at the early age of 16. For many years he followed the lead of old Cochise, the hereditary chief of the Apaches, who died in 1875, and was succeeded by Natchez his son, who, however, was soon displaced by Geronimo with his superior cunning and genius for the Indian method of warfare.

After trailing the band led by Geronimo for more than ten years General Crook would probably have captured him in 1875 had he not been transferred to duty among the Utes just as success seemed to be near at hand. For seven years after this situation in the Southwest was the worst ever faced by the settlers. Crook was sent back in 1883. A large body of troops was placed at his disposal, and in a month he had succeeded in driving Geronimo back to his reservation, capturing him and his

Do You Think For Yourself?

Or, do you open your mouth like a parrot and repeat what you hear?

There is an intelligent thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true homeopathic medicine for women's ailments.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

No other medicine for women's ailments has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

men on the Mexican border.

In 1885 Geronimo broke out again and this time he was surrounded by Crook in the Canon de los Embudos. But the Indians succeeded in slipping away, and Crook was removed and Nelson A. Miles placed in command. Miles had already gained a reputation as an Indian fighter, and while he did not exactly cut the field wires behind him to prevent interference from Washington, stories are told of the frequent disregard of troublesome messages.

The Bonham News editor is a philosopher; he talks and writes, boosts for his town and never grows weary because everything around doesn't go to suit. Hope is his guiding star and the future his ambition. It would be well for more people to see the brighter side of life. The editor says:

When luck is against you, and you feel like you were ready to give up, just think about some other person who has a harder battle to fight than you have. Sometimes the clouds are very dark and it seems impossible for a ray of sunshine to penetrate them, yet there is a bright side if we only search for it.

That man "Exchange" says some mighty good things occasionally, and here is one of them. "A newspaper" is like a man—because generally it reflects some man—and it should be judged as a man should be judged; largely and on the whole. No man lives a perfect life; no editor prints a perfect paper. If an editor is honest, he is bound to offend some person every day of his life; if he doesn't offend some one the editor is namby-pamby and flabby. The same thing is true of the average man. A newspaper is bound to make mistakes; in getting news it must necessarily take hearsay. But if, in the long run and in the main, week after week and year after year, a paper stands for decency, for honest thinking and clean living, if it speaks fair for those who are trying to do good, and condemns sneaks and cheats and low persons, that is a good paper.

AN AGE OF TRUSTS.

This is an age of trusts. Nearly every branch of industry is now controlled by some form of combine. One writer aptly portrays life in this era of trusts, thus:

Pierced by the Pin trust.
Chilled by the Ice trust.
Roasted by the Coal trust.
Soaked by the Soap trust.
Doped by the Drug trust.
Wrapped by the Paper trust.
Bullied by the Beef trust.
Lighted by the Oil trust.
Squeezed by the Corset trust.
Soured by the Pickle trust.
This is indeed a "Trustful" life.

THE Orange Leader says:

This is a day of utilization of waste products indeed, and many things common throughout the South and formerly considered nothing more than a nuisance are now being recognized as having great commercial value. For instance, the lowly cocklebur, which has long been despised and reviled, has now become a thing of value. Along Black river in Louisiana, the cocklebur plant is being gathered for shipment to the oil mill at Vidalia, for the purpose of extracting the oil from the weed. The mill temporarily is paying twelve dollars per ton for the weed, but if the experiment prove successful, has agreed to pay a better price than that. Cockleburs grow wild in this country in the greatest profusion and if the weed can be made as valuable as that there is no reason why a great industry in this line should not be built up.

WHEEZER OR SNEEZER.

Have You Heard of Hyomei for Catarrh, Asthma and Hay Fever?

If you wheeze or sneeze, hawk or spit, snuffle or blow, something is the matter with the membrane of your respiratory tract, and you need Hyomei.

And you need Hyomei because it will cure you of any catarrhal or inflammatory condition that exists.

It isn't a stomach medicine, or spray, or douche, but a very pleasant, healing, anti-septic balsam, from the eucalyptus forests of Australia. You breathe this balsamic air through a small, hard rubber inhaler, and it reaches every nook, corner and crevice of the membrane, and promptly kills the catarrh germs.

Stripling, Haselwood & Co. will sell you a complete Hyomei (pronounced High-ome) outfit for \$1.00, on the moneyback plan.

"The use of Hyomei cured Mr. Cutler of Catarrh in 1904. He has strongly endorsed the use of Hyomei in many instances, and we are glad to go on record regarding this marvelous catarrh cure, and endorse it."—Mrs. A. Cutler, 201 Post Ave., Battle Creek, Mich.

EASY TO MIX THIS
Prepare at Home by Shaking Ingredients Well in Bottle.

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription, which is said to be a positive remedy for backache or kidney or bladder derangement, if taken before the stage of Bright's disease:

Fluid Extract, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here at home, when asked regarding this prescription, stated that the ingredients are all harmless and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial."

Stiff Neck.

Stiff neck is caused by rheumatism of the muscles of the neck. It is usually confined to one side, or to the back of the neck and one side. While it is often quite painful, quick relief may be had by applying Chamberlain's Liniment. Not one case of rheumatism in ten requires internal treatment. When there is no fever and no swelling as in muscular and chronic rheumatism, Chamberlain's Liniment will accomplish more than any internal treatment. For sale at our drug store.

B. M. Isaacs has returned from an extensive purchasing tour in the east and north, including the cities of St. Louis, Chicago and New York. He stated that conditions were getting better in the trade line and "confidence" again restored. Mr. Isaacs was delayed on his return trip on account of the recent storm.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, O., by F. J. Cheney & Co. Testimonials free.
Sold by all Druggists, 75c.
