ABOUT STREET NAMING.

Citizen Strenuously Objects to Changing Main to Kings Highway, But Recommends Other Things.

To the Sentinel.

I know that the city authorities are looking to our best interest and that they are open to suggestions.

I am not pleased with the plans now on foot for the numbering. It looks like a bug is under the chip. It hits the poor men as hard as it hits the richest. I say let the city pay the freight. Then all is pro rata, and as nearly fair as we can get it.

As the name of Main street, I most earnestly say don't change it. There is a Main street in nearly all towns, Main in name, if not in use. So, it comes natural and easy. But who ever heard of a King's Highway street? It is like saying a female man. King's Highway, as this term is generally understood, means any public road outside of town. And the Spanish name which was first used for our original big road from Natchitoches, La. via Nacogdoches to Mexico was called Camino del Rey in that sense. It went through or into San Antonio at the old Alamo as Nacogdoches street, and is so called now.

There are quite a number of our citizens fortunate enough to own homes and lots fronting upon our Main street, I being one of them. And it makes me feel import-

ant to be thus listed. But when it comes to designating my home as being out on the public road or King's Highway, like an R. F. D. N. 23, (skiddoo) excuse me please. I decline to move out, and I prefer to move all suburban residents, from Allan Seals to Roberts Berger's off of the big road, into town, onto, Main street, east and west. No. 1333, instead of having to address them in a long awkward way; like this: John Jackson, Nacogdoches, Tex., R. F. D. No. 13, Box 13, King's Highway (with an apostrophe in King's.)

I like the suggested change that would read "North Rusk" because Gen. Thos. J. Rusk's home was always located on it and it leads to Rusk county. Rusk was a grand Texan. And I like to see such names thus honored. Shall I mention some of them, not all? Houston, Thorn, Sterne, Edwards, Irion, Forbes, Kaufman, Douglass, Starr, Blake, Whitaker, Cave, Moore, Raguet and a galaxy of many more that are equally worthy.

Another very, very, important matter would be the widening and straightening of the streets, which could and should be done now while it can. Just think how this has been neglected, and how ugly it looks, as if we were nobodies.

A TERRIFIC HAIL STORM.

Thousands of Dollars Worth of Damage Done in The Alazan Section Monday Night—Corn Stripped and Cotton Ruined.

The hail storm in the neighborhood of Alazan Monday night did a deal more damage than at first was surmised, according to later reports. The area covered was about one and a quarter miles wide and several miles long. The hail was accompanied by considerable wind and almost a waterspout. Corn was stripped and broken to the ground and cotton so badly beaten that much of it will have to be planted over. Already some of the farmers are getting ready to begin replanting as soon as the ground is dry enough. Not all of the crops in this area are considered a total loss, but most of them are so badly damaged that it will possibly amount

INFORMATION FOR TEACHERS.

The Legal Requirement For Extension of Certificates—Cannot Be Changed by Superintendent.

County Superintendent R. W. Tillery hands us the following in reference to certificates:

1. That the holder has taught or has attended school each scholastic year during the validity of the certificate.
2. That he has attended a teachers' institute each year during its validity. City institute work since 1906 may be accepted where the plan, scope, and quality of the work has been approved by the State Superintendent as provided in Section 38, School Laws, 1907.
3. That he has attended a summer normal each alternate year during its validity. Consecutive attendance can not be taken in lieu of alternate attendance, except in

to several thousand dollars. Henry Spradley is one of the heaviest losers, having one hundred acres of cotton entirely ruined, and to be planted over, and hundred acres of corn that can't make more than half a crop, if it all comes out. Others in that section also report big damages from the hail and rain too.

Here From Austin.

Chester M. Bisbee, an old Confederate soldier and an inmate of the Confederate home at Austin, came in yesterday afternoon to visit Superintendent of the Home, Mr. Reagan, who is sick at his son's, Dr. Reagan, home in this city. Mr. Bisbee is active despite his seventy years, a fluent talker, and a well known writer of reminiscences. He is representing the Statesman while here visiting.

cases of three-year certificates covering only three summer normal periods. In such instances the holder must have attended at least two normal sessions during the three periods.

4. That all the above facts as to teaching, institute attendance are endorsed on the certificate by the County Superintendent in the form prescribed in notes under Section 37, School Laws, 1907.

Application for extension should be made to the authority issuing the certificate.

Certificates may be extended more than one time, provided the requirements have been separately met in each case. It is not within the discretion of the Superintendent to change any of the requirements or to extend a certificate when the holder, from any cause whatever, has been unable to fulfill all the conditions.

You Make a Great Mistake

In trying to farm successfully without the use of

Virginia-Carolina Fertilizer

It is not too late yet to use some on your late cotton. In fact every acre of cotton yet to be planted should be fertilized, thus making a largely increased yield and causing crop to mature early.

Hundreds of good farmers will tell you that it pays to use Virginia-Carolina Fertilizer. They have tried it and know.

Your corn crop yield can be doubled by use of fertilizer just as the stalk bunches for tassel. This is when the stalk needs support to form a good heavy ear.

Try a few acres this way and be convinced. We know that it is for your good.

Place your orders now as our stock is already low.

Directors are Elected.

At the stock holders meeting yesterday afternoon, the following directors for the Farmers and Merchants State bank for the ensuing year were chosen: W. G. Reid, H. T. Mast, George H. Meisner, John N. Gilbert, J. A. Spears, T. H. Nees, R. D. Whittaker, George W. Cavin, W. B. McKnight. The bank guaranty law was discussed and the method chosen for the local institution is what is known as the "Oklahoma plan." This is considered the best that is and based on the past losses from failures the two per cent maximum assessment is just eighty times the amount necessary to cover all. The directors expressed themselves well pleased with the new guaranty law, and are going to abide by it at the very beginning. The directors will meet this afternoon at four

o'clock and elect the officers for the ensuing year.

Seventy Nine Shots Fired.

A telephone message came yesterday afternoon, to the effect that a regular battle had been waged in Sabine county, between the whites, and that six men were injured. It is said that seventy nine shots were fired. The place where the shooting took place is near Hubert, in Sabine county, some twelve or fifteen miles from Center and in toward the river bottom. No particulars have been learned and no cause for the outbreak was mentioned.

HALTOM & HALTOM, Proprietors.
GILES M. HALTOM, Manager.

ONE kind thought spoken is worth a dozen unsaid, and one kind deed performed is worth a carload undone.

THE creamery matter is causing some talk and the farmers are enthusiastic for such an institution. A little push, lots of co-operation, and the thing is landed.

ALTHOUGH it takes almost two to buy a sack of flour, a hatful to buy bank stock and several thousand to get an automobile, the dollar is the biggest thing in the world to some people.

THE fellow who advertises in a neighboring paper that "he has just gotten in his swell pants," is doing a commendable deed by letting the people know it, but we are just wondering what he did before the trousers arrived.

THE guaranty of bank deposits law was passed the last day of the Legislature and is to take effect in ninety days after adjournment. Governor Campbell is well pleased with the affair, and even Tom Love smiled and says, "it'll do."

THE matter of an exhibit at the Dallas Fair is not receiving very much attention at the hands of Nacogdoches folks. By all means this should not go by default. A display of products at the big state institution would result in great good for this section.

THE Legislature passed a bill, and which was signed by Governor Tom, allowing towns and cities to vote bonds for building sidewalks, crossings and paying streets. Progress is a mighty good thing, and civic improvements are just big bunches of progress.

THE county of Nacogdoches has between \$25,000 and \$30,000 to its credit in the money institutions of the city. A splendid financial showing, but should a county be a hoarder of riches? The time for more and better roads, a new court house and a decent, sanitary jail is at hand.

NAME the streets and number the houses. A step toward mail delivery, the long entitled service due this city. Now fix up the sidewalks,—build street crossings,—and invite Uncle Sam's agent to look things over. It's up to the people to get this benefit.

WITH an abundant supply of water,—enough wasting daily to furnish 100,000 people,—the sewers ought to be flushed occasionally. The odor from some of them is any thing but "cologne" these days. Water belongs to the people and the people ought to be protected.

THE creamery matter is assuming definite shape. Bide the time but Nacogdoches will have an institution that will take care of the surplus milk supply and prove a money maker for the investors. More cows and better cows are needed, and a creamery will hasten both.

THE County Commissioners realize the condition of the jail house, since the recent visit of inspection. The only solution to the matter is a new building.

"PEOPLE who live in glass houses should not throw stones," and folks who kill rats should not throw them in the streets. Folks almost have to hold the nasal attachments when they pass some joints in this city.

THE state law allowing cities to issue bonds to build crossings, walks and pave streets, may be a great thing for some places, but Nacogdoches folks continue to wade the mud,—when it rains.

THE Hemphill Leader says that the grand old governor of grand old Texas has handed the grand old legislature a grand old lemon that ought to hold the grand old Houston Post for a little while.

No. 1, Vol. 1, of the National Monthly greets us this week. Its purpose is to preach Democracy to the people of this nation. A most laudable object and may the ambition of its editor and founder, Norman E. Mack, be realized.

THE story that an old turkey gobbler in Denton county was made drunk and then put on a nest to hatch the little "turks", may be true and correct in every particular, but it has no comparison with the prosperity stories abounding in East Texas. Come to Nacogdoches and grow tobacco. It's a profit crop.

THIS people must not neglect to invite the farmers to have their products exhibit in this city this autumn. Nacogdoches can well afford to furnish space for all displays as well as offer some nice premiums for the various articles. It will mean more than can be said on paper and marks the beginning of a county fair.

THE West Texas papers that have been charging East Texas with being the home of the "peanut politicians" have overlooked a bet regards the sedate old city of Austin. The capital on the Colorado is an incubator for politicians, it seems, and for proof of the pudding, hunt the record.—In the meantime prosperity abounds in the piney woods.

CROPS are fine in Nacogdoches county. Not only one kind,—but all. Tobacco looks well; corn doing nicely despite the cold; cotton growing some; truck is abundant, and prospects in other lines are excellent. This is the report of people who have been in the country the past week, and it causes a degree of satisfaction. The farmer man is king in East Texas, if he but takes advantage of the opportunities.

THE Texas Legislature is a feature of the past,—at last. After a regular session and two extra sessions, the solons of the great Commonwealth have completed their stay in the city of Austin. What has been accomplished remains

to be seen some later, when the new laws get in working and when the effects can be felt. Any way the Legislature is done,—for the present,—a whole lot to be thankful for.

THE Ladonia News say that appendicitis will no doubt cease to be popular. It was once thought that the disease was indigenous to be rich only,—but now the dogs have it. A Bonham preacher had a Honey Grove veterinarian to remove the appendix of his favorite canine the past week. We pass,—the game's blocked.

THE postmasters have been invited to Nacogdoches. That is a settled fact,—and despite the apathy shown by some of the folks. At least fifty business men should have given it a moral encouragement, instead of a half dozen. The meeting will not be till September or October, and it wouldn't have cost a red cent now, to have shown an interest.

the metropolis of the section from which comes the products that feed thousands in less favored spots.

THE Farm and Ranch says: "In few places is it now possible to find 'razorback' hogs. Where hogs must be confined cost of keeping is such that good ones are kept. In whole sections it would be impossible to find other than blooded hogs; yet pure blooded hogs are rare. The tendency is to mix breeds. This does not matter greatly, if the purpose be to produce for the butcher only."

Razor back hogs are almost articles of the days gone by. People are raising better hogs as well as other live stock, and in a few years more the sorry specimens of hogimus will indeed be rare. Just such things as county exhibitions and trades days incite folks to good stock, and that's one reason for the Nacogdoches county fair.

H. T. BURK

The Implement Man

PROGRESS with her staid and steady steps goes marching on and on, and Nacogdoches enjoys the distinction of entertaining her on almost daily occasions. The talk of moss and slowness and grass growing under feet, may sound soothing to oft spoiled ears, but it's a myth pure and simple, and is soon to be "features of unpleasantness" of the past. Nacogdoches is waking from that lethargy, so long accused of being a habit here, and promises the air of hustle and the work of material moving on. Things are changing as they never changed before, and people who have heretofore shown little interest, aside from personal gratification, are feeling the sensations of civic pride, and indicate activity unprecedented. So let it be, and so will it be,—or the signs of a prosperous times place a mantle of hypocrisy over discerning eyes. Nacogdoches to the front, and in the foremost of the procession of little cities, crowding close on the heels of the larger municipalities! Boost for the best city in the big state of Texas.

on earth, the tale bearer holds the record for general cussedness in my estimation. When two men disagree on some proposition and are left alone to settle their differences, they usually do so to each other's satisfaction, but let some tale-bearer step in the game and carry half a dozen hand made messages backwards and forwards, and there is almost sure to be fatal complications. I make a life rule that when a man comes to me and tells me (under promise not to divulge the author) some cock-and-bull story of what some other man said about me to never believe a word of it, or pay the slightest attention to it. Ten to one, the other fellow never said it, or if he did, it was under conditions that amounted to mere idle talk, or perhaps in jest. Many a man has lost his life, and many a true friendship has been ruptured forever through some miserable, lying, groveling, malicious tale-bearer whose stock in trade is to destroy human happiness. Don't believe the infernal whelps. They will lie on a credit when truth would bring cash.

Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Red Banks, Miss.—"Words are inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the doctors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me so much, and I gladly recommend Lydia E. Pinkham's Vegetable Compound."—Mrs. Willie Edwards.

Hampstead, Maryland.—"Before taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous, and could not be on my feet half a day without suffering. The doctors told me I never would be well without an operation, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors, and I hope this valuable medicine may come into the hands of many more suffering women."—Mrs. Joseph H. Dandy.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

Nacogdoches People Can Tell You Why It Is So.

Doan's Kidney Pills cure the cause of disease, and that is why the cures are always lasting. This remedy strengthens and tones up the kidneys, helping them to drive out of the body the liquid poisons that cause backache and distressing kidney and urinary complaints. Nacogdoches people testify to permanent cures.

A. G. Gatlin, living on Cox street, Nacogdoches, Texas, says: "About two years ago I was engaged in contracting and building work and after stooping to lift a heavy timber I was taken with a crick in my back which made it impossible for me to straighten. There was a pain across the small of my back for a few days and my kidneys were disordered. Someone finally told me to give Doan's Kidney Pills a trial, and I procured a box at Mast Bros. & Smith's drug store. As a result of their use, my back was restored to strength and before I could realize it my kidneys were acting properly. Doan's Kidney Pills acted as represented in my case and they have my most heart recommendation at all times."

Mrs. Jno. W. Berry Dead.

Mrs. Berry, wife of John W. Berry, a well known citizen of Nacogdoches, died yesterday at the family home on West Main street, after a lingering illness. She was a daughter of O. W. Randell, who was a pioneer citizen, residing about fifteen miles north of here. She was probably sixty years old and born in this county. Her remains were carried to her family burying ground in the country for interment. Mr. Berry is an old confederate, in needy circumstances, and deserves the sympathy of all.

CHANGE STREET NAMES.

Council Committee Proposes to Re-name Several Prominent Thoroughfares—Considered A Wise Move

It is quite probable that North street will pass into history and be succeeded by Rusk. A north North street, and a south North street, are unusual names, are out of place, and despite its prestige on account of age, was never really named, but the North became a custom on account of direction. For many and many years it was the principal residence street and in fact was the only street in the city at one time. Progress and a future of the city demands a change and the best, most suitable, and which also commemorates the name of a Texas hero, is Rusk.—and Rusk street is what the North street will probably be. Main street is out of place, and quite likely it will revert to the old, original King's Highway. This was the name given it by the earliest comers, or settlers. Hospital street is misnamed, and there is no hospital on the street at all. Nor is there a church on Church street. There are lots of thoroughfares that are not named and a great many called by others than the correct ones. These are some of the tasks that the committee of aldermen recently appointed, has to go up against. Church street will likely be called University or Ochiltree,—undecided as yet, and—Hospital will take the name of Crockett, Walker, or that of Edwards maybe. The committee at a meeting this forenoon discussed the matter pretty thoroughly, and while they reached a unanimous conclusion to make some changes, no definite decision will be made till Monday morning, when another meeting will be held. A number of people were spoken to in reference to the proposed changes, and concurred readily. Conditions are such, and the prospects of the city, make it compulsory that changes be made now, instead of allowing the streets to go longer with practically no system. The committee further hints at making north and south thoroughfares as streets, and east and west thoroughfares as avenues. Whether this idea can be carried out in toto is yet to be seen. However that is the custom in all cities and towns now. The house numbers are being made and name plates for the streets will likely be completed next week. They are all uniform in size and style, and will add much to looks as well as convenience. All of these signs and numbers are to be placed under the supervision of the council committee. Solicitors have been out in reference to the names for numbers, and reports tell us that all are falling in line. Some are making application without being solicited. From the present affair it forecasts that Nacogdoches streets will be named and her houses numbered in a fortnight.

Representative Homer Dotson and family returned yesterday afternoon from Austin, where they have been during the sessions of the Legislature. Mrs. Dotson is visiting in the country today pending Mr. Dotson's making arrangements to move here.

FARMERS ARE INTERESTED.

Propose to Have a County Exhibit, Either at Nacogdoches or Garrison—Lands in Fine Condition And Crops Flourishing.

James D. Greer, government agricultural man for this county, was in the city yesterday afternoon, looking after some business matters and also in the interest of his co-operation work. To a Sentinel reporter he stated that conditions were never better in this county, and that the lands are in fine shape, and crops thrifty and growing. The recent cool nights were a draw-back to corn to some extent but not so great as some people might think. It retarded the growth of the stalk, but will not be a detriment to the fruiting. Mr. Greer also stated that farmers in every section are showing more interest in their work this season than ever before, and that lots and lots of them are using fertilizers, something they have never done before. A great many of the farmers are putting in special time growing stuff for an exhibit this fall, and are determined to have one in this county, and later send a display to the Dallas Fair. The talk of a county fair has not subsided in the least with the farmers, and if any difference has increased the past few weeks. They propose to have a street fair, if nothing else, and if arrangements cannot be made to have it in the city of Nacogdoches, they will have it in Garrison. There are more farmers who are co-operating with the government in the work, than ever before, and many of them who heretofore would turn a deaf ear to the methods and plans. As a whole, Mr. Greer said the outlook is most promising and unless seasons and conditions from now on are very unfavorable, this county will harvest the most bountiful crops for many years. He said too, that several farmers in different sections of the county are going to plant a forage, and land builder crop this winter, a feature the government and its men has been agitating for a long time.

Hail Storm Last Night.

James Pitts, who lives about eight miles south from here, on the Spanish Bluff road, was in the city today, and reported a severe hail storm in his neighborhood last night. Other parties north from him, also say that considerable hail fell in their communities. The accounts leave the inference that a strip, possibly a half mile wide and several miles long, was the scene of the storm, the damage to all crops being rather great. Mr. Pitts stated that 15 acres of his corn was stripped almost, and his cotton badly beaten down. He had just started yesterday to lay by, but the damage will cause him to have to wait until he sees whether or not it will recover. It is the opinion that the corn will come out, though will be backward as a result, but the cotton may have to be replanted, or some of it. A heavy rain also fell

Roquemore Gets 15 Years.

Hons. Beeman Strong and George King returned yesterday afternoon from Lutkin where they have been attending court. They were attorneys in the Joe Bug Roquemore case. The defendant was given ten years at the trial there last year, but it was reversed by the higher court, and at this second trial he was given fifteen years. It required two and a half days to try the case and the jury was out five hours. A motion for a new trial has been filed, and it overruled the case will again be carried to the Supreme Court.

The Commissioners court has finished the bills and accounts part of their labors, and are today wrestling with the officers reports. Several were examined this morning and others are in line for the afternoon, though it is doubtful if such is completed before tomorrow. Some of the Court visited the county farm this week, and report matters there running along smoothly enough.

Miss Genia Guilliams, who is employed at Winsfield, La., is home for a few days' visit to her parents. She was accompanied home by Miss Hattie King, who will also visit friends here.

Rev. John W. Strode of Appleby was here, today on business.

Best Stomach Remedy Free

It is an old saying that if the stomach is sound the whole body is safe, because so much depends upon the proper working of the stomach. Many persons find themselves with a disorder of the stomach, which produces dyspepsia or a peculiar state of biliousness.

If you suffer from both stomach trouble and constipation you are on the way to a very serious disease. From just such conditions come appendicitis, rheumatism, skin diseases and similar disorders, because the waste matter that should have been expelled from the system through the bowels has found its way into the blood and vitiated it. What is needed at this point is not simply a violent cathartic tablet or salt, which usually does more harm than good, but a gentle laxative tonic like Dr. Caldwell's Syrup Pepsin, which people have been using for these ailments for nearly a quarter of a century. It cured J. C. Latham, of Warrensburg, Mo., of stomach trouble of long standing, also William Vail, of 903 Edinboro St., Louisville, Ky., who had the trouble for fifteen years.

However, if you have stomach trouble you want to know from personal experience what Dr. Caldwell's Syrup Pepsin will do for you. If so, send your name to the doctor and a free trial bottle will be sent you. You are urged to send for the free bottle, as the results from it will be the best recommendation of Dr. Caldwell's Syrup Pepsin. Then you will do as over two million people did last year—go to your druggist and buy a regular bottle at 50 cents or \$1, according to the size you prefer. We could mention hundreds of families who are never without it. You can never tell when some member of the family will need a laxative, and then no time should be lost taking Dr. Caldwell's Syrup Pepsin. If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 313 Caldwell Bldg., Monticello, Ill.

A KANSAS man has a drove of chickens that are drunkards, he claims, and has set about to reform them. An old whisky barrel was thrown in the barnyard and the fowls became intoxicated by drinking the "spiked water." The next question is, how came a reformer with a whisky barrel? Flush the sewers.

The country editors and others who are charging that most of the tobacco farming in this county is being done on paper, ought to make a visit to the finest section in the world and see for themselves. Nacogdoches has a greater tobacco acreage than all other counties in Texas put together.

The street sprinkling proposition has not yet been closed up, though efforts are daily being made to bring it to a focus. The merchants are losing money every year by allowing the dust to damage their stocks,—and more than enough to pay for sprinkling services for an entire twelve months.

The Sentinel is in receipt of a map from the Commercial Secretaries Association, showing the tax assessment valuations for 1908, as compared with those of 1907. The map is a handy one, and furnishes some important information. It will be sent to any one on an application sent to the president at Fort Worth.

Several of the sewers emptying into the Banita are in a bad way for some cause, and the stench on warm days is almost insufferable. They ought to be flushed a number of times every week, through the Summer, for health's sake if nothing more. Enough water wastes every day from the pond to wash them all,—and never miss the wetness.

It doesn't pay to talk unless there is something back of it, but Nacogdoches' position and her many advantages give a free rein for boasting and pushing and working and talking. A concert of action and uniform efforts will do much. A commercial club and a live one, is just what is needed to start the ball rolling.

REPORTS say that the lumber output must be curtailed; middlemen claim that the cotton market is glutted, causing short prices; produce finds a slow go in lots of places; feed stuff is high as a sky scraper; yet it takes as much to build a house, costs more to wear a cotton checked skirt, garden truck is too expensive, and the stock costs more to feed these days, than when lumber was short, cotton scarce, produce was imported several thousand miles, and feed stuffs came from Kansas. Some thing passing-ly strange about the whole affair!

Reminiscence and Anecdotes of Some Historic Men of Old Nacogdoches

BY TOM RUSK JENNINGS

THE portraits and engravings of our progenitors of some hundred years ago have but very little (if any) resemblance to their descendants of today, and their estimate of humor is in many respects as different from ours as are their venerated phizes.

The old Texans, who fought at San Jacinto, were great, strong men, mentally and physically, who took life in allopathic doses—drank red liquor straight and smoked plug tobacco in clay or corn-cob pipes. They likewise had a strong sense of humor—of strong humor. They were not hair-splitters and indulgers in little quibs and quidiities, but loved broad jokes (the points of which were plainly visible to the naked eye) and which when seen were greeted with roars of boisterous laughter. They enjoyed practical jokes, horse play and humorous stories and were themselves the originators of many a good thing in the way of jokes, stories, fun and humor generally. The writer in his boyhood knew many of the old time Texans (the makers of history). They have had their heroic and chivalrous deeds recorded by historians and sung by poets until their names have become "familiar in our mouths as household words." Synonymous for courage and patriotism. Yet, for all their patriotism and gallantry, they had their lighter moods, when they laughed and joked, and played pranks, as gaily as boys just out of school. It is with this lighter phrase of the pioneer character I shall endeavor to interest the reader; believing,

"That a little nonsense now and then, is relished by the wisest men."

SQUIRE PATTON AT EGGNOG BRANCH.

I shall first try to tell of what befell Squire A. B. Patton at Eggnog branch. Eggnog branch is about one mile and a half east of the old town of Nacogdoches, where the Nacogdoches and San Augustine road crosses it. At that place the little stream spreads out over a broad flat bottom, and after a heavy rain it is from one to two hundred feet wide at the ford and nowhere at the crossing does its greatest depth exceed twelve inches, though it looks like it might swim an elephant, and thus it was in the days of the Republic of Texas, when the lawyers used to ride the circuit. Sam Houston, Tom Rusk, Thomas J. Jennings, Ardry Mayfield, Ochiltree and other members of the bar just after a heavy rain started from Nacogdoches to attend district court in San Augustine. Squire Patton started with the circuit lawyers, but stopped to see some one at the old Orton place on the hill about one-half mile from town. When the others reached Eggnog branch, Patton had not come in sight. The crowd, after

crossing the branch, concluded to play a joke on Patton, and with that end in view dismounted and threw water all over their horses, pulled off their boots and saddles, etc., so as to make it appear they had swum the creek, which, however, was not over twelve inches deep at its deepest place. It must be borne in mind that Squire Patton had never crossed Eggnog branch, and didn't know but what it would swim a giraffe (it looked like it would).

At this juncture Patton rode up and seeing the broad sheet of water before him and the others on the far side of the stream putting on their boots, saddling their horses, etc., he called out, "Is it swimming?" Rusk yelled back to him, "Just try it." Whereupon Squire Patton proceeded to denude himself of all of his clothes, doing them up in a bundle, then remounted his horse and tied his bundle of wearing apparel around his neck and placed his saddlebags over his shoulders, in which condition he proceeded to cross the flood. Words can not express his chagrin and astonishment when he discovered the hoax, of which he was the victim.

Amidst roars of laughter the nude man was welcomed on the farther shore by the circuit riders. A drink all round out of Patton's bottle and they continued their journey without further incident worthy of note.

GENERAL HOUSTON AND THE TICKS.

General Houston, his body servant Sam and several of the general's lawyer friends, once visited Old Neal Martin. Their intent was to make the Martin place their headquarters while on a deer hunt. The general didn't do much hunting. He and his boy Sam stayed at the house and "looked upon the wine when it was red." The general had a horror of ticks; he would strip off his clothes and make Sam tick him every night before he went to bed. One day his legal friends, assisted by Martin's children, picked a cap box full of ticks—deer ticks, dog ticks, seed ticks and every other kind of tick. There must have been a million of them in the box. That night, just as General Houston was getting into his bed, one of his friends surreptitiously emptied the box of ticks into his bed. Exclamations are needed here. ! ! ! He called for S-A-M in capital letters. The readers may conjure his most expressive language, provided it is English, and it won't begin to do justice to General Houston's vocabulary. He himself had to resort to the Injun tongue.

TOM OCHILTREE AND FATHER.

I have heard the following story told, far away from its original habitat, but nevertheless I have heard it told time and again when I was a little boy in old Nacogdoches,

right where the scenes are laid, right where it is said to have occurred. I knew Tom Ochiltree well. When I was a little fellow my father and he were for many years partners in the practice of the law under the firm name of Ochiltree & Jennings, and their office was in the east room, second floor, of the old Stone Fort at Nacogdoches. From all the facts within my knowledge and the mental temperament of Tom being considered, I am inclined to believe the story true, and "as it was told to me I will tell it to you." Tom was a bright, precocious boy, who excelled his young companions in everything, both good and bad. He was enabled by special act of the legislature to practice law before he had attained his majority. His proud father immediately took him into full partnership. The firm name and style of the new law firm was:

W. B. OCHILTREE & SON
Attorneys and Counsellors at Law
Nacogdoches, Texas

The firm had been in existence but a few days when Judge Ochiltree, the senior member, went to attend a term of the district court at a neighboring county site. He left Tom in charge of the office and the business. All went well until one day a peripetetic sign painter came along and solicited a job of Tom, and he gave him one, namely, to alter the firm's sign. When the old senior member of the firm of W. B. Ochiltree & Son returned to the office the first thing his eyes beheld conspicuously placed by the side of the office door was a brand new gaudy, gilt sign bearing the legend:

T. H. OCHILTREE & FATHER
Attorneys and Counsellors at Law
Nacogdoches, Texas

Tom didn't succeed as a lawyer; he was too fond of fun, frolic and good company. But all the same he was a brilliant man, whose friendship was sought and valued by the most distinguished men of his day. He was the intimate friend of General Grant and the dear gossip of the Prince of Wales, now Edward VII, by the grace of God, king of Great Britain and Ireland, emperor of India, defender of the faith, etc. Tom was a gallant and chivalrous soldier, but his fame and success are altogether due to his wonderful powers as a story teller. He was the most glib raconteur of his generation. He often blended sentiment with humor, and not infrequently figured as the hero of his own romances. The following little incident is a genuine Ochiltrean, blown in the bottle and with the hall mark on it.

TOM AND THE GERMAN PRINCESS

Tom, in company with some half dozen young German army officers, was sitting on the long veranda of one of the largest and most costly hotels of Baden, when an elegant and stylish barouche was driven up to the front of the veranda and stopped, as though waiting for someone. One of the young officers told Tom that the turnout belong-

Beautiful Spanish Dancer Gives Praise to Pe-ru-na.

NERVOUS prostration is usually the result of a vocation which requires a continual strain on the nervous system. In such cases it would be wise if a change of vocation could be made. But this is not always possible and a good tonic becomes a necessity. Peru-na is a tonic that invigorates without producing a drug habit.

Peru-na is not a beverage nor a bitter, but an honest, straightforward tonic that increases the appetite and encourages digestion. There is a great demand for tonics during the depressing heat of summer, and especially in countries where hot weather is very prevalent. Such a demand is exactly met by Peru-na.

Miss Pilar Monterde Praises Peru-na as a Tonic.
A letter sent to the Peru-na Drug Mfg. Co., from the popular Spanish dancer, Miss Pilar Monterde, is as follows:

Teatro Principal, City of Mexico, Nov. 3, 1905.
Gentlemen: Having used your justly celebrated remedy, "La Peru-na," for some time, I have the pleasure of informing you that I consider it the best tonic I have ever used. It is a wonderful fortifier of the nerves after exhaustion and it increases the vitality of the whole body, and in my own case has produced the most complete and permanent restoration. It is also pleasant to the taste. I do not hesitate, therefore, to recommend this remedy to all women as the best and most pleasant tonic that they can possibly take. Yours very truly, (Miss) P. Monterde.

ed to a feeble old prince, who was at Baden for the benefit of the waters, and that the old fellow's wife was the most beautiful woman in Baden. He further said that she was proud, haughty and exclusive to such an extent that not one of them all had been able to make her acquaintance. Tom replied that he was going to speak to her when she came out for her drive. The officer then said that he would wager Tom 1000 thalers that if he spoke to the princess that she would immediately have him arrested. Tom promptly accepted the bet. Soon, the princess came out to her carriage, and the gallant Tom walked boldly up to her. Imagine the surprise of the officers when they heard the princess exclaim in accents of delight: "Oh, howdy, Tom; howdy!" and Tom's "Oh, Laura, I am sure glad to meet you." Tom was invited to take a seat in the princess' carriage, which he surely did, and they went for a drive over Baden together. Explanation: The princess was Laura Fair, an old Nacogdoches girl, and one time schoolmate of Tom's. She became an actress of considerable note and won the old prince's heart with her charming manner on the stage.

It is needless to say that Tom got the thalers. This reminiscence might be extended ad infinitum, for there is no scarcity of material in old Nacogdoches, but the writer feels his inability to do justice to the subject and will leave it to some more gifted pen.

Let U. S. Congressman Russell Advise You.

Washington, D. C., 1-19-07.

This is to certify that I have personally inspected and observed the methods pursued by the faculty of the Tyler Commercial College, Tyler, Texas, and regard the institution as exceedingly strong, both in faculty and equipment.

I know of no better opportunity for a young man or a young woman to acquire such a business training as will fit him to do successful battle in life.

Gordon Russell, R. C. 3rd Dist. Tex. Mr. Haynes, Mr. Russell's private secretary, is a writer of the Byrne Simplified Shorthand. Mr. Russell's daughter has since finished a course with us.

The Tyler Commercial College can show more endorsements from governors, U. S. Senators, leading business firms and railroads, show more graduates holding positions as official court reporters, government positions, with railroads and large business concerns than any other commercial school in this part of the country. For full particulars, write for our free, 188 page, beautifully illustrated catalog. Address Tyler Commercial College, Tyler Texas. A post card will do, simply state that you want the catalog and in what course or courses you are interested. Do it today. Prepare. Be ready for a good position when the busy fall season opens up.

EAST TEXAS TOBACCO

The tobacco crop of Texas will be much larger than it has ever been. Not only in one section, but in every locality where the industry has taken root, and where found to be a success. Around east Texas clings the real tobacco industry of the big state, though there are other portions still endeavoring to convince the outside world that the product will grow well and yield bountifully—and of a high grade. In Anderson county the acreage is about the same as in 1908. In San Augustine county the acreage has been increased to something like one hundred acres; in Nacogdoches county it has jumped from one hundred and fifty to almost double that number; in Shelby some is being grown; in Houston a few acres are planted; in Orange the increase is slight; some are planting in Jefferson, and even way down in Montgomery county where the industry was first hatched in Texas, efforts are being made to interest and enthrall the people in the growing of tobacco. Altogether there must be near seven hundred acres in the state, sufficient to yield more than five million pounds, with just an average crop of less than eight hundred pounds to the acre. The price of tobacco varies, of course, according to grade, quality and seed planted. The open crop is based at from 15 to 20 cents, the shade at from 40 to 60, but both are doubled in value when cured and packed, ready for the market. This process costs an average of ten cents per pound, thus a small per cent expenditure is worth three times that to the grower. So far there are only two tobacco packing houses in Texas both in Nacogdoches, but one will be built this season at Palestine and at San Augustine, and rumor has it that another will be erected at Orange, or some southeast Texas point. Though the tobacco industry has existed in Texas for a number of years, it is only recently that very much attention has been given it, and more progress has been noted the past twelve months, than the previous five years. The farmers of the redlands are realizing the importance of the crop, and the immense returns on the investment. The average farmer can get ten to fifteen acres of tobacco, making him from fifty to five hundred dollars per acre, while planted in any other crop, the same amount of land will not yield one-fourth as much. Yes, it does take work—lots more than in raising cotton and other strictly money crops—but the worth can be figured in the difference in profits. The recent appropriation of \$2,000 by the state, to aid the industry in the Seventeenth district, has caused a wonderful change already. Men who have never before attempted to grow tobacco, and know nothing whatever of raising it, are becoming interested, and many of these who are a few years experienced, have taken on new

life. East Texas is easily the center of the industry and the thousands of acres, available and adapted, in all the southeast Texas counties, may in a short time be the homes of people who grow tobacco strictly. That the industry is far past the experimental stage is no conjecture. Experts from the north, east and even far west, government and all others, have pronounced it unexcelled. The demand is growing, as is evidenced by the numerous inquiries received by the fosterers in every tobacco section. The excellence is attested by the shipments that have already been made, and to the very commercial tobacco center of the world, New York. In another five years the shipments away from east Texas will be something immense, and the city whose good fortune it is to distribute this valuable product, will be richer as a result. The past year's crop in Texas was worth a million and a half dollars to the people. The crop of 1909 will be worth four times that amount. The farmers will reap the reward.

The First Presbyterian Church.
Mrs. L. J. Davis of Beaumont, the Presbyterian Visitor for the Woman's Missionary Union of the Presbytery of Eastern Texas, met with encouraging success to her visit to Nacogdoches. Her talk to the Sunday school on Sunday morning aroused the interest of young and old in mission fields in which she is so thoroughly informed. A Society was organized comprizing the entire school, to be called the S. S. Missionary Society, and will meet one Sunday afternoon in each month. The officers elected are:

President, Miss Etta Jones.
Secretary, Miss Marguerite Graves.
Treasurer, Brutus Spradley.
Organist, Miss Rosa Graham.

Other offices will be filled later.
On Monday afternoon Mrs. Davis addressed the ladies of the church, going more into details of the needs of the work and of the responsibility that lies at the door of every Christian to carry out Christ's last words on earth. Attention was drawn to the fact that each church member is responsible for salvation of at least 100 souls. How are we going to face that on the Judgment Day? The ladies were much impressed and edified and resolved to buckle on their armor tighter and join the great Forward Movement for the Evangelization of the world in this generation. The church already had a Mission Study Class but they expect to attempt something more definite from this good day.

Before closing there was a social half hour over some delectable strawberry ice cream and cake. Nacogdoches has a way of entertaining visitors to perfection, and Mrs. Davis and our ladies formed a sort of Mutual Admiration Society.

The fact that Carrie Nation has decided to quit the platform and go into the poultry business in Arkansas, is no sign the little hatchets have passed out.

COMMON SENSE

Lead's most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the maker of which print every ingredient entering into them upon the bottle wrapper and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulae, he is confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that), yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated, lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scientific medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

He Knew the Texas Heroes.

Lockhart, Tex., May 12.—County Commissioners Court was in session on Tuesday. Among those who appeared for financial help was "Uncle" Owen Keys, an old darkey who lives at Luling. Uncle Owen was born in 1814 and came to Nacogdoches with Ben Milam in 1834. He lived in Nashville, prior to coming to Nacogdoches and knew General Houston when Governor of Tennessee. He has a most remarkable knowledge of affairs of a National interest and is well posted on State happenings since 1834. He is getting feeble now, having fallen some months ago so severely that he can not do any hard work. It is certain that this county will provide abundantly for him.

Never Fails.

There is one remedy, and only one I have ever found, to cure without fail such troubles in my family as eczema, ringworm, and all others of itching character. That remedy is Hunt's Cure. We always use it and it never fails. W. M. Christian, Ruthertford, Tenn. 50c per box. w

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says:—I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby.

KILLED AT WATERMAN.

Dispute Over Domino Game Results in Negro Cutting and Shooting Scrape—Murderer at Large.

Sheriff A. J. Spradley, was advised yesterday afternoon by telephone that there had been a negro killing at Waterman, in Shelby county, and that the murderer was at large and supposedly headed toward Nacogdoches. The deputies and other officers were advised and since, all have been on the lookout, but no trace as yet has been found. The details of the killing were not learned, further than that the perpetrator slipped up behind the other and cut his throat, almost from ear to ear, with a large pocket knife.

The following from the Timpson Times, in reference to the matter, is more full:

Trouble over a domino game at Waterman this morning resulted in death for one of the participants. Henry Sanders and Jim Smith got into a dispute over some point when Sanders whipped out a knife, cut Smith's throat and ran. Smith grabbed a shot gun, shot twice at the fleeing man and dropped dead. Both parties are colored. The fugitive has not been captured.

ABOUT CROP CONDITIONS.

Cotton Planted Early Enough But Cold Has Retarded Growth—Corn Doing Well—Some Sections Need Rain

The opinions in reference to crop conditions vary, according to sections spoken of, but generally speaking Nacogdoches is on an average with other portions of the state. In some parts of this county rain is said to be badly needed,—in others no rain is needed but warm weather would find a welcome,—and in still others this cloudy weather is thought to be the very thing. Some farmers express it that the cotton acreage over the county has been decreased, lots of them think it about the same as last year, and others, of course, say it is larger than in 1908. However, the majority interviewed claim an increase, figured on a basis of about five per cent. Last year's acreage in the county is placed at about fifty thousand; making about fifty-five thousand acres in cultivation this season. Cotton, or most of it, was planted as early as usual, but the growth has been retarded considerably on account of the cool nights and north wind. The plants in some portions are said to look yellow, and are very small to what they ought to be. Most every one in the county has worked their cotton crops over once, and has it all chopped and pretty clean. The corn crop conditions are better than the cotton. The acreage has been increased about ten per cent, running it from thirty-five to almost forty thousand acres. Lots of corn is ready for its last plowing before laying by, but will possibly remain in that state till it rains. Reports have it that many acres, lying out for several years, are in cultivation now, and several acres of new lands have been put in. The state of cultivation is much better than ever before, and the people are paying more attention to "intense" farming than they have done in the history of the county. Despite the backwardness of the crops though, the conditions are fairly good, and if the proper seasons and good work come within the next forty days, the prospects will be greatly brightened. With the exception of the cold, the things are in splendid shape.

No Others.

It is in class by itself. It has no rivals. It cures where others merely relieve. For aches, pains, stiff joints, cuts, burns, bites, etc., it is the quickest and surest remedy ever devised. We mean Hunt's Lighting Oil. 50c and 25c bottles. w

Negro is Dead.

Word has been received here to the effect that the negro who was carved by another of the same hue at Mayo, Friday night, is dead. This word did not come officially, but it is generally understood around the court house. The negro charged with using the knife was brought here Saturday and placed in jail to await the outcome of the injured party, and it is inferred that the county officials will file papers this week. Neither of the negroes names was learned.

CURES OLD SORES

We want to show you in this short, but honest and reasonable talk, how and why S. S. S. cures Old Sores. We do not claim that S. S. S. works wonders, but we do know it will cure sores and ulcers, and its record of forty years past abundantly justifies this confidence.

Any old sore shows an unhealthy and impure condition of the blood. It is a diseased condition of the flesh at that particular spot, caused and kept inflamed and irritated by a continual discharge into it of unhealthy matter from the circulation. In various ways the blood becomes contaminated and polluted. A long spell of fever, or other sickness, breeds disease germs in the system; the failure of nature's eliminative members to remove the waste and refuse matters of the body, the excessive use of minerals in certain diseases, infected wounds, bites and stings of insects, etc., all contaminate the blood with morbid matter and germs which sooner or later manifest their presence by a sore or ulcer which refuses to heal under the ordinary treatment of local applications.

External treatment can never cure a chronic sore or ulcer, because it does not reach the blood. The place will remain open as long as it is used as a drainage for the impurity which is in the blood, and in addition to the worry and anxiety caused by an old sore, there is always danger of its becoming cancerous, if a cure is not effected. Purify the blood, and nourish the flesh with a rich, healthy circulation, and then the place will heal of its own accord.

S. S. S. cures old sores by removing the causes which produce them. It goes down into the circulation, drives out all impurities and poisons, and by nourishing the flesh with rich, pure blood causes the place to heal naturally and permanently. S. S. S. does not make a surface cure, but, being the greatest of all blood purifiers, it begins at the bottom and by rebuilding broken down tissue, and supplying healthful, healing qualities to the circulation, causes the place to fill in with firm, healthy flesh, while it steadily but surely removes the cause and effects a permanent cure. The sore cannot remain when the blood is pure, and S. S. S. will thoroughly purify the blood. Book on Sores and Ulcers and any medical advice free to all who write.

S. S. S. is for sale at all drug stores.

BAD SORE FROM AN OLD WOUND.

I want to recommend S. S. S. to any who are in need of a blood purifier, and especially as a remedy for sores and obstinate ulcers. In 1877, I had my leg badly cut on the sharp edge of a barrel and having on a blue woolen stocking, the place was badly poisoned from the dye. A great sore formed and for years no one knew what I suffered with the place. I tried, it seemed to me, everything I had ever heard of but I got no relief and I thought I would have to go through life with an angry, discharging sore on my leg. At last I began the use of S. S. S., and it was but a short time until I saw that the place was improving. I continued it until it removed all the poison from my blood and made a complete and permanent cure of the sore.

A CANCEROUS ULCER.

I had a large sore or ulcer on my face and nothing I tried would benefit me. It began with shooting pains and soon the itching was terrible. At first it discharged a watery fluid which soon changed to one of thicker composition and the pain became very severe. It was nearly as large as a dollar and terribly inflamed in all the surrounding parts. It had been there so long and growing worse all the time, I became very much discouraged and alarmed. At last I began the use of S. S. S. At that the ulcer seemed to get worse, but I soon found that the poison was being removed from the blood and I continued to take S. S. S. It was not long before I noted a decided improvement and I kept up the use of the medicine until it was entirely cured of this cancerous ulcer. This has been some time ago and there is no sign of a return of the trouble.

POISONED FROM INSECT BITE.

From the bite of an insect I was poisoned and had a dreadful sore on my ankle and took different treatments with no benefit. I was induced to try S. S. S., and after a few bottles it cleared my system and cleansed my blood and cured the sore. My mother took it for rheumatism, with success. I cheerfully recommend S. S. S. where a blood purifier is needed.

EAST TEXAS TOBACCO

Wheat, oats, clover, alfalfa and cow peas are valuable crops to follow tobacco.

While tobacco is hard on the land yet the stalks add something to the compost head, and are good for mulching trees.

To raise tobacco profitably, one must practically sit up with the crop from the time it is planted till it is in the ware-house.

Old land can be made to produce a better quality of tobacco than new land because in old land the grower can control the growth of the crop better.

The constant cultivation of the land thoroughly prepares the land for any fall or spring crop after the land has been thoroughly top dressed with manure in the fall and again in the spring.

It is of the utmost importance to old land that as soon as the plants are set the crop be fertilized with a mixture whose manurial value is adapted to tobacco. This not only adds value to the crop but saves the land.

Texas made cigars from Texas grown tobacco should be the smoke of Texas smokers.—Beaumont Enterprise

The first shipment of Texas Tobacco from Nacogdoches met with such a ready sale and was altogether so satisfactory that a second shipment is being got in readiness.—Beaumont Journal.

The sweet girl graduate is not here yet, but better prepare to make way for her. Just a few more weeks, and the center of the stage will be a mass of fluttering spotless, handsome gowns adorning the beautiful maidens of "sixteen and up." In the meantime, allay the dust.—Nacogdoches Sentinel.

Yes; allay the dust. It may be well also to make up an extra supply of Nacogdoches-grown cigars, for even if the sweet girl graduates have not learned to smoke while away at school, as their brothers do, they will enjoy the aroma of homespun tobacco when they get back to the scenes of their childhood.—Galveston News.

San Antonio, jealous-hearted Santone, the home of the strongest politician in Texas—Onion—and also the staying place of the awful Mose Harris, must keep in the limelight and to do so has gone Liberty County one better. The tamale city shipped 642 pounds of rattlesnakes to New York this week, and promises more of the commodity later. Snakes by the pound may be all right but they are not near worth the price of Nacogdoches tobacco going to the same center—21.10 per.—Nacogdoches Sentinel.

The Sentinel may be depended upon to perform its full share in boosting the Texas tobacco crop, and with the second shipment, which is now being gathered will have additional facts relative to the crop that will attract the attention of the people of other states, and at the same time instruct Texans in the knowledge of another splendid industry.—Dallas News.

Proposed Amendment to the State Constitution Authorizing Cities and Towns with a Population in Excess of 5,000 to be Incorporated by Special Act.

SENATE JOINT RESOLUTION No. 6.

Joint Resolution to amend Article 11, Sections 4 and 5, of the Constitution of the State, authorizing cities and towns within the State of Texas to be incorporated by special act where the population exceeds five thousand inhabitants.

Be it Resolved by the Legislature of the State of Texas: Section 1. That Article 11, Sections 4 and 5, be amended so that the same shall hereafter read and be as follows:

Sec. 4. Cities and towns having a population of five thousand or less may be chartered alone by general law. They may levy, assess and collect an annual tax to defray the current expenses of their local government, but such tax shall never exceed for any one year one-fourth of one per cent, and shall be collectible only in current money, and all licenses and occupation taxes levied and all fines, forfeitures, penalties and other dues accruing to cities and towns shall be collectible only in current money.

Sec. 5. Cities having more than five thousand inhabitants may have their charters granted or amended by special act of the Legislature and may levy, assess and collect such taxes as may be authorized by law, but no tax for any purposes shall ever be lawful for any one year which shall exceed two and one-half per cent of the taxable property of such city; and no debt shall ever be created by any city or town unless at the same time provision be made to assess and collect annually a sufficient sum to pay the interest thereon and create a sinking fund of at least two per cent thereon.

Sec. 2. That the above and foregoing proposed amendment shall [be] duly published once a week for four weeks commencing at least three months before the purpose of voting upon such proposed amendment on the first Tuesday in August, 1909, in one weekly newspaper of each county in the State of Texas in which such a newspaper may be published, and the Governor be, and he is hereby directed to issue the necessary proclamation for the submission of this proposed amendment to the qualified electors for members of the Legislature. At such election all persons favoring such amendment shall have written or printed on their ballots the words, "For the amendment to Article 7 of the Constitution validating school districts and school district bonds," and those opposed thereto shall have written or printed on their ballots the words, "Against the amendment to Article 7 of the Constitution validating school districts and school district bonds."

Sec. 3. That \$5000.00, or as much thereof as may be necessary, be and the same is hereby appropriated out of any money in the Treasury not otherwise appropriated, to defray the expenses of advertising and holding the election provided for above. W. B. Townsend, Secretary of State.

Proposed Amendment to the State Constitution Validating School Districts and Their Bonded Indebtedness and Authorizing Levy and Collection of Taxes to Pay Such Indebtedness.

HOUSE JOINT RESOLUTION No. 5.

House Joint Resolution to amend Article 7 of the Constitution of the State of Texas by adding thereto Section 3a, validating school districts and the bonded indebtedness of such districts and authorizing the levy and collection of taxes to pay such indebtedness.

Be it Resolved by the Legislature of the State of Texas: Section 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto a new section, to be known as Section 3a, which shall read and be as follows: Sec. 3a. Every school district heretofore formed, whether formed under the general law or by special act, and whether the territory embraced within its boundaries lies wholly within a single county or partly in two or more counties, is hereby declared to be, and from its formation to have been, a valid and lawful district.

All bonds heretofore issued by any such districts which have been approved by the Attorney General and registered by the

Comptroller are hereby declared to be, and at the time of their issuance to have been, issued in conformity with the Constitution and laws of this State, and any and all such bonds are hereby in all things validated and declared to be valid and binding obligations upon the district or districts issuing the same.

Each such district is hereby authorized to, and shall, annually levy and collect an ad valorem tax sufficient to pay the interest on all such bonds and to provide a sinking fund sufficient to redeem the same at maturity, not to exceed such a rate as may be provided by law under other provisions of this Constitution. And all trustees heretofore elected in districts made up from more than one county are hereby declared to have been duly elected, and shall be and are hereby named as trustees of their respective districts, with power to levy the taxes herein authorized until their successor shall be duly elected and qualified as is or may be provided by law.

Sec. 2. That the above and foregoing proposed amendment shall be duly published once a week for four weeks commencing at least three months before a special election to be held for the purpose of voting upon such proposed amendment on the first Tuesday in August, 1909, in one weekly newspaper of each county in the State of Texas in which such a newspaper may be published, and the Governor be, and he is hereby directed to issue the necessary proclamation for the submission of this proposed amendment to the qualified electors for members of the Legislature. At such election all persons favoring such amendment shall have written or printed on their ballots the words, "For the amendment to Article 7 of the Constitution validating school districts and school district bonds," and those opposed thereto shall have written or printed on their ballots the words, "Against the amendment to Section 3 of Article 7 of the Constitution in regard to the formation and taxing power of school districts."

Sec. 3. That \$5000.00, or as much thereof as may be necessary, be and the same is hereby appropriated out of any money in the Treasury not otherwise appropriated, to defray the expenses of advertising and holding the election provided for above. W. B. Townsend, Secretary of State.

Proposed Amendment to the State Constitution in Regard to Formation and Taxing Power of School Districts.

HOUSE JOINT RESOLUTION No. 6.

House Joint Resolution to amend Section 3 of Article 7 of the Constitution of the State of Texas, in regard to the formation and taxing power of school districts.

Be it Resolved by the Legislature of the State of Texas:

Section 1. That Section 3 of Article 7 of the Constitution of the State of Texas be so amended as to hereafter read as follows:

Sec. 3. One-fourth of the revenue derived from the State occupation taxes and a poll tax of \$1 on every male inhabitant of this State between the ages of 21 and 60 years shall be set apart annually for the benefit of the public free school, and in addition thereto there shall be levied and collected an annual ad valorem State tax of such an amount, not to exceed 20 cents on the \$100 valuation, as with the available school fund arising from all other sources, will be sufficient to maintain and support the public free schools of this State for a period of not less than six months in each year, and the Legislature may also provide for the formation of school districts by general or special law, without the local notice required in other cases of special legislation, and all such school districts, whether created by special law, may embrace parts of two or more counties. And the Legislature shall be authorized to pass laws for the assessment and collection of taxes in all said districts and for the management and control of the public school or schools of such districts, whether such districts are composed of territory wholly within a county or in parts of two or more counties. And the Legislature may authorize an additional ad valorem tax to be levied and collected within all school districts, heretofore formed or hereafter formed, for the further maintenance of public free schools, and the erection and equipment of school buildings

therein, provided that a majority of the qualified property-taxpaying voters of the district, voting at an election to be held for that purpose, shall vote such tax, not to exceed in any one year 50 cents on the \$100 valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts.

Sec. 2. That the above and foregoing proposed amendment shall be duly published once a week for four weeks commencing at least three (3) months before a special election to be held for the purpose of voting upon such proposed amendment on the first Tuesday in August, 1909, in one weekly newspaper of each county in the State of Texas in which such newspaper may be published. And the Governor shall and he is hereby directed to issue the necessary proclamation for the submission of this proposed amendment to the qualified electors for members of the Legislature. At such election all persons favoring such amendment shall have written or printed on their ballots the words, "For the amendment to Section 3 of Article 7 of the Constitution in regard to the formation and taxing power of school districts," and those opposed thereto shall have written or printed on their ballots the words, "Against the amendment to Section 3 of Article 7 of the Constitution in regard to the formation and taxing power of school districts."

Sec. 3. That \$5000.00, or as much thereof as may be necessary, be and the same is hereby appropriated out of any money in the Treasury not otherwise appropriated, to defray the expenses of advertising and holding the election provided for above. W. B. Townsend, Secretary of State.

The petition for an election to vote on the new court house and jail proposition hasn't put in appearance yet. The folks who were talking petitions some time since should get busy. There will be no trouble in getting the singers and likewise in having the people express an opinion. Nacogdoches is in the "want" list in reference to these two structures, and the voters know that they are needed. You'll have to hurry before the present one falls down.

NOTWITHSTANDING the fact that Governor Campbell has sent the solons home to rest in quiet and peace, while he endeavors to find where he is and how Texas stands, Old Politician, in the Dallas Times-Herald is poking thorns in the executive's side. In the meantime "The man from Palestine" continues in the saddle. Cut the weeds and down with the dust.

**Prescriptions
Carefully Compounded**

You can't place too much stress on the properly filling of prescriptions. A number of things must be considered.

The prescription man *must know how*. He must be equipped with *active drugs*. He must be *careful*. He must have a *heart* in him and care for the *result* to be accomplished. He ought to be a *Christian gentleman*.

We have all the above equipment, and ask the opportunity of filling your prescriptions.

Biliousness and Constipation.

For years I was troubled, with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlains Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach liver and blood, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. Chamberlain's Liniment.

This is a new preparation and a good one. It is especially valuable as a cure for chronic and muscular rheumatism, and for the relief from pain which it affords in acute inflammatory rheumatism. Those who have used it have invariably spoken of it in the highest terms of praise. Lame back, lame shoulder and stiff neck are due to rheumatism of the muscles, usually brought on by exposure to cold or damp, and are quickly cured by applying this liniment freely and massaging the affected parts. Soreness of the muscles, whether induced by violent exercise or injury, is allayed by this liniment. For sale by Stripling, Haselwood & Co. w

Whooping Cough.

This is a more dangerous disease than is generally presumed. It will be a surprise to many to learn that more deaths result from it than from scarlet fever. Pneumonia often results from it. Chamberlain's Cough Remedy has been used in many epidemics of whooping cough, and always with the best results. Delbert McKeig of Harlan, Iowa, says of it: "My boy took whooping cough when nine months old. He had it in the winter. I got a bottle of Chamberlain's Cough Remedy which proved good. STOMACH DISTRESS.

And all Misery From Indigestion Vanishes five Minutes Later.

Every family here ought to keep some Diapepsin in the house, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a sour stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lay like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your pharmacist for a 50-cent case of Pape's Diapepsin and take one triangle after supper tonight. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for all stomach misery, because it will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all your stomach misery is at your pharmacist, waiting for you.

These large 50-cent cases contain more than sufficient to cure a case of dyspepsia or indigestion.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
