The Fruit Crop

is almost a total failure. Dewberries were not plentiful. The consequence is that none of us are able this year to can as much of these good things as we wish.

Now the idea is come to us and get three or four dozen of the Self-Sealing Economy Jars, the kind that you can use to successfully (we guarantee it) put up and keep vegetables such as

Beans, Peas, Tomatoes, Roasting Ears

and all the others in their whole form fresh and good for table use out of season. In other words keep your garden the year round.

Try them. We guarantee them.

Forty-Two Party.

Mrs. K. P. Branch entertained Saturday afternoon in compliment to Mrs. Oscar Crain of Austin, Texas, whose recent visit to her old home was marked by numerous social courtesies. Forty-Two was chosen as the medium of pleasure and four tables of players drawn from Mrs. Crain's most intimate friends assembled at the hour named. The tables were placed in the pretty pink and white sitting room which in its daintiness and freshness reflected the personality of the hostess. Cut flowers were everywhere and carried out the color motif of the room, pink nasturtiums and white roses, while the refreshment course of ices and cakes, were also of the same "couleur de rose." During the games, iced nectar was served, and the score cards, out of deference to the day, "the nineteenth," featured little pickanninies eating the luscious watermelon.

Altogether, it was a most delightful little affair. Mrs. Branch was assisted in entertaining by Mrs. John Weeks and Mrs. W. I. M. Smith. Mrs. John Terry of Sour Lake was an out of town guest.

One of the boys around town came near getting into serious trouble a few days ago on account of signing some other than his own name to an order. Several dollars worth of merchandise was secured on the order, but the stuff was found and returned to the store.

Nervousness.

There are so many of us suffering from intense nervousness that when there is no organic trouble, the cure lies largely in our own hands.

The following article from the Pittsburg Leader gives a few helpful suggestions. The doctor had told her she had no organic trouble and that the cure rested with herself.

She had doctored and drugged for years, so learning this good news, she determined to try a new plan. Here is what she did:

She cut out all medicines. She stopped dieting, that is she tested things till she found out what agreed with her and she ate of them freely.

She ate slowly, laughing and talking much in the process.

She gave up violent physical exercise, but took a brisk walk each day.

She took a cold sponge each morning, going back to bed afterward before beginning to dress.

She stopped overstraining her mind. When her head or eyes began to feel tired, she rested them.

She neglected to worry and cultivated her amusing friend.

In a month she was well.

The tobacco experiment station is seeking a location who can supply it? This is a matter of importance in many respects. Our town should have it and should get busy to secure it.

Melrose Musings.

Had a nice rain Tuesday morning which was appreciated very much.

"Crop prospects in this part of the country are fine. Farmers are mingling with the crap grass now.

Misses Primer and Carrie Durbin left Saturday for Gold-dorma, La., where they go to accept a position in the telegraph office.

Mr. and Mrs. Taylor Mast have sold their home place here to Mr. Kilpatrick of Mississippi. They have been down for several days visiting, selling out household goods and packing up some few things and moving.

Hollis Mast and wife visited here Sunday.

Benton Wilson and family, visited his wife's parents here last week. Mr. and Mrs. L. T. Barrett.

Mrs. Susie Barrett has been on the sick list.

Mrs. Gerrard visited her mother. Mrs. Lovelless of North Church community last week and was taken very sick while there, but was convalescent last report we had from her.

Milton Pike was hastily summoned to Troupe on account of serious illness of his grandmother.

Guy Stripling visited above Nacogdoches last Saturday and Sunday, the guest of Talmage Matthews.

Messrs. Fulton, Fuller, Boone-Justice, Paschal and Shelton Martin visited the fair sex here last Sunday.

Mrs. Sallie Seales entertained her Sunday school class last Sunday afternoon with peaches and cream.

Miss Uera Menetee passed through here enroute to Fairview last Friday in the interest of a school.

Mr. and Mrs. A. T. Russell attended court here last Friday and went from here to Chireno visiting and returning to Nacogdoches Sunday.

Mr. and Mrs. John Cade of Attoyac visited her mother, Mrs. Hattie Hall, here Saturday and Sunday.

Wake up correspondents at all places.

I'll bid you adieu.

Lazy Kid.

Homer Dotson has returned from Austin, where he went to see Governor Campbell and the other members of the committee in regard to establishing one of the experiment farms here. Mr. Dotson is a member of the local committee, and was sent to the capital city by this committee. He feels very confident of getting a station, and thinks there will be no trouble in securing a splendid site, if the farm is established here.

Mr. Robert White of Shreveport came in yesterday afternoon to spend several weeks recuperating and drinking the famous mineral waters.

We Will Give You \$1.00 in Cash

If you will buy a new Buggy, Surrey or Trap during this month or next from any other person or firm, except ourselves, if you will before making your purchase come into our store, ask for our manager and spend 30 minutes in our Buggy department telling him frankly just what you are going to buy.

This is a positive, clear cut proposition that we make deliberately and mean all that we say.

Our reason for such an offer is that with our present stock and with other goods that we have bought we know that no concern in Texas or out of it can sell you good vehicles at a less price than we can and we know that the people of this section of Texas are always willing to spend their money at home if goods and prices merit it. There may be a very few exceptions and to this few we will gladly give the

One Dollar in Cash

if they will let us put our goods before them.

Please call, we will interest you.

Fishing Party Returns

The fishing party that has been on Clear Lake the past week returned Sunday morning and report plenty of fish and an excellent outing. The feature of the occasion was an old time Indian-war dance (in fitting costumes) and a serenade several hours long under the leadership of Fritz Ingraham on Saturday night in honor of the young ladies. Those in the party were: Misses Clytie Harris, Fannie Wade, Willie Brewer, Lorena Middlebrook, Mamie E. Blount, Mattie B. Wade, Maggie Harris, and Alfie Middlebrook. Messrs. Dumas Simpson, Mack Cason, Elbert Summers, Albert Brewer, Fritz Ingraham, Zeno Cox, Chas. Shindler, August Schmidt and Alden Patton. Mr. and Mrs. E. C. Branch, Mr. and Mrs. J. R. McKinney and Master Richard McKinney.

Visitors Complimented.

Another pleasant courtesy shown Mrs. Crain was the informal Forty-Two party tendered her by Mrs. George King on Saturday evening.

About four tables of players also were the recipients of Mrs. King's hospitality, and the party was characterized by the informality that but adds to the pleasure and charm of a social function. Delicious cream and cake was a pleasure aftermath to the several games played. Mrs. Walker King, who is the guest of Mrs. E. M. Dotson was another out of town guest.

P. H. Reese, who died several weeks ago at Buford, Georgia, was 73 years of age and ex-confederate soldier. He had relatives in the county and visited here about three years ago.

HALTOM & HALTOM, Proprietors.
GILES M. HALTOM, Manager.

SEEMS like Nacogdoches gets every thing good. Had another nice shower yesterday afternoon.

C. F. DRAKE, formerly editor of the Herald here, is now in Kingfisher, Okla., with the "Daily Budget."

BELTON has a mail carrier who has purchased a motorcycle to make his daily trips with. That is the result of good roads.

THERE are several things very badly needed for Nacogdoches. A sticking-together-get-up-and-push-sentiment, for instance, for one thing.

The fellow who wants to know "if it's hot enough for you" is just about due. Swat him, when he shows up,—for anybody knows it's not.

THE faithful old New Jersey hen that has had a habit of laying two eggs a day,—is dead. Poor thing—probably a case of too many eggs.

AND by the way,—Nacogdoches is not the only city that allows the weeds to grow. Still that is no excuse for not putting them out of the way here.

THE folks who have neglected to cut the weeds are treading on mighty dangerous grounds. The city ordinance against such is going to be enforced to a letter, according to the officials.

BOOSTERS are born not made, as a rule,—but some times a fellow can be converted from his habits. It pays to boost always, but some people in this funny old world have done so little of it, that they know nothing of the big returns.

THE fact that we have no commercial organization yet, is no reason we should not have one. Nearly all live towns have such and the Metropolis of the great East Texas should not be negligent in this line.

THIS section needs and must have one of the experiment stations. The committee to get it has been appointed, and the citizens should aid them in landing the proposition. It's a good thing,—so is the county fair. Push it along.

TYLER is making some great preparations for the home coming week in July. They will have a three days celebration, and proposes that every body who attends shall have the time of their lives. Tyler never does things by halves,—so they say.

THERE is no more excuse for knockers in any town, and especially is there no cause in the wide world for such things in Nacogdoches. Down with the knockers now,—and put them down for good. And by the way,—if a proposition doesn't suit you, pass it by without comment, and for the sake of little snakes don't pour cold water on at least till you see the result. Then "I told you so" will suffice.

THE crops of this section were never better and the people are appreciative and as proud as can be. Bumper harvests this Autumn will mean great things, and are just what seems due. Boost for Nacogdoches county,—the best in the world.

ANOTHER Richmond has come upon the field already—Charles H. Mills of Corsicana. He has not definitely decided that he will be a candidate for Governor but the little bee is at work, and may make a convert. The way is open to all,—gong will not be sounded for some time,—the race promises lots of fun.

THE gubernatorial race at this stage of the game is rather complex,—but in time it may become more simplified. With politicians, lawyers, state officials, doctors, farmers,—and goodness knows who else,—trying to break into the arena, it's a pastime of flip to venture an opinion. Something doing in Texas in 1910.

THE canning factory at Lufkin has started running, and has given notice to the farmers that stuff is wanted in any quantities. The factory is going to provide a good thing for that city and her people,—and ought to be supported by both tiller of the soil and the merchant. More factories and longer pay rolls will mean a bigger Texas.

WEST Texas has at last gone west. That is, bountiful rains have fallen. As a result some of those "prairie folks" are rejoicing greatly and talking muchly about the big harvests and the peerless old treeless plains. East Texas always gets the seasons as needed, and prosperity and fine prospects are just a habit down here. Push it along,—the county fair.

NACOGDOCHES has the finest mineral water in the world, and if every citizen would boost as they should, in a few years Nacogdoches would be the leading resort in the state, and her population would be more than doubled. The opportunity is here if the proper spirit and cooperation is practiced. Fall in line and do what you should for your home town.

DENTON county will receive one million dollars for her wheat crop this year.—a sum much larger than is the usual case. There is more money in wheat than in cotton in north Texas, and there is more money in corn and cane than cotton in East Texas. The demand for something to eat can never be less, while discoveries of things out of which to make wearables, goes on and on.

THE proposition to spend several hundred dollars a month to advertise this city and section,—not only the mineral waters, but in every other way,—is a most commendable one and the only fault is that the movement wasn't started long ago. Every live town ought to have a live-wire organization for the sole purpose of letting the outside world know about the place and its advantages.

WHAT are you doing for Nacogdoches? It's the best little city in the big state of Texas, but folks away from here do not know it. The proper thing to do is tell them—and the only way to tell them is through and by some organization of the business men. Co-operation always means success. The county fair,—push it along.

THE county of Nacogdoches is very muchly in need of a bran new court house and jail and there will be no more opportune time to get them than this Summer. People of this county have grown sick and tired of the dilapidated old structure now used, and the insanitary prison, but unless some movement is made to change things,—they are nor going to change themselves.

THE industrial issue of the San Antonio Express of last Monday was one of the biggest papers ever published in Texas. Not only was it large in paper, but large in other ways,—and carried in it's columns an abundance of information that will prove a multiplication of advertising for Southwest Texas. The only way to do a thing is to do it right,—and those folks in Southwest Texas seems to know the art. And by the way,—it pays to advertise at any and all times and in any and all ways.

Snake Woke Him Up.

A hyponotist struck the little city a few days since and after the usual manner of his kind proceeded to put a subject to sleep in a show window, there to stay 24 hours. The subject very accommodatingly went to sleep and was placed in a show window, where all efforts to wake him proved unavailing. A bad boy in the crowd of gazers thought he would test the sleeper with a snake. He procured a snake, slipped into the window and put the snake around the neck of the sleeper. When that slimy, wiggling snake touched the neck of the aforesaid sleeper he came alive. He not only woke up but got up and got up running. Clad only in his sleeping robes and a look of terror, that sleeper went through the window and up the street at a gait that would have left Tom Longboat at the post. Some kind hearted person stopped the sleeping subject before he ran himself to death, brought him back and got his clothes. After getting on his clothes the sleeper got bad and wanted to lick somebody or everybody. He was very promptly attended to and in a way that left no doubt in his mind as to the thoroughness of the job. Then the crowd got busy and went after the professors, the exponent of hypnotism. It was the intention to duck the great mystifier in a nearby pond, but he had vanished, faded away, and none knew the whereabouts of his whereabouts and he has not been found yet.

Such frauds as these are getting too aged to be sprung on an enlightened public and all of them should be handed the same package that the above two got at Arlington.—Silverton Enterprise.

SOME BACK TALK.

BOLL WEEVILS AND POSSUMS
Over at Nacogdoches the boll weevils and possums are having a bout. The weevil is after the persimon trees, and the possum is sorely distressed.—Bartlett Tribune.

DOWN WITH THE WEEDS.
Nacogdoches city council has passed an ordinance making it a finable offense to allow weeds to grow up within ten feet in front of premises occupied by any family in that city. That is a good ordinance and should be enforced to the letter.—Jacksonville Reformer.

THROWING COLD WATER.
Nacogdoches county is trying to get up a fair. Our neighbor will find by experience that it will be a great deal easier to get an institution of this kind started than it is to keep it going. From some cause country fairs don't live long in Texas. We hope Nacogdoches may prove an exception. We hope you will have great success.—Mount Enterprise Herald.

ON BEING SELFISH.
We are all selfish to a certain extent—very great extent. That's human and no one falls out about it. But there are several kinds of selfishness—a real, selfish niggardly selfishness for instance. It's a bad article.—Nacogdoches Sentinel.

We are selfish, but we ought not to be. The most glorious life that was ever lived was that of the Man of Galilee, who was wholly unselfish. He gave up infinitely more than any other man ever possessed, and voluntarily took upon himself the trials, the sorrows, the sacrifices of life that others might be blessed. He is an example for all men to follow.—Bonham News.

LIVING, BREATHING, BOOSTERS.
Prospects in Nacogdoches county are the finest ever, according to the report of parties who have been in the country the past few days. Nacogdoches county is powerfully good anytime, and right now it looks better than common, Boost for the best place under the sun and push the fair along.—Nacogdoches Sentinel.

If we could only realize the many advantages the country right around us is offering, we would be "walking, living, breathing" boosters for Nacogdoches county. If we organize the fair association, we can show to ourselves and our friends and visitors the variety, value and abundance of red land grown crops.—Cushing Enterprise.

ORANGES, FIGS AND OTHERS
The Houston County Herald sings a truthful song in the following lines, and which it would do well for every one to learn—and to practice. It says: Give us a bowl of soup and a cracker while we live and save the flowers to decorate some hall of amusement for the living, for they will do us no good upon our grave. We can not see their beauty nor smell their odor, but a

bowl of soup and a cracker will stimulate us in life.—Nacogdoches Sentinel.

It is true that more pleasure is to be found in a bowl of soup and a cracker while we are able to enjoy them than in all the flowers of the kingdom after we have passed to another life, but there is no excuse for a man in the Herald's section of the state contenting himself with soup and crackers while there is so great a production of oranges, figs and dozens of varieties of the finest vegetables grown in the world. Soup and crackers should be saved for the unfortunate people of the East and North, who have never enjoyed life in productive South Texas.—Dallas News.

A HORRIBLE TRAGEDY.

Bound, gaged, the maiden was thrust in a gunny sack and unable to move or scream felt herself carried up a flight of stairs from the dungeon, and down the street at a rapid rate.

Ineffectually she struggled to release herself from the gag, but alas, she was bound to securely.

Finally the conveyance stopped. She was again carried into a building, and fainting and gasping for breath the sack was taken from her head. The villain still masked took the gag from her mouth, his eyes gleaming like coals of fire and through his tightly clenched teeth he hissed, "there my pretty bird, scream and yell as long as you like, no human ear can reach you. You are in my power. Do you hear? Totally in my power." "Where am I?" she gasped. "In a store that never advertises," was the cruel response. "Alas! Alas! she moaned, no power on earth can save me; no one will look for me here!" And the poor girl was lost, lost, forever.—Exchange.

THERE is a lot of talk about the East Texas editors going to Tyler July 6th to organize a Press Association. Most of this however, has come from the Tyler Courier and Times, —though there are lots of papers that agree in the matter. The arrangement is alright, and will no doubt prove acceptable, but some definite action with reference to the matter should be taken. It occurs that the edi-

tors at Tyler ought to issue a notice, or an invitation, setting the date for sure, and make some effort to have all the East Texas pencil pushers gather there. There is no use to attempt to form an association unless a representative bunch can be gotten together,—and a dozen or twenty wouldn't fill the bill. If Tyler really wants the gathering let her people manifest it,—and if she does not,—well Nacogdoches can entertain the bunch and do it to a T Y. And right along here it might be mentioned that Nacogdoches wants the next meeting, and will have a big auditorium to accommodate the folks; and features galore to entertain them.

THERE are lots and lots of towns in Texas that have been and are still continuing to build sidewalks. There are others that are making preparations to build,—agitating the movement,—and a few (sorry to say) that have not made the least effort. In just what class the pretty old city of Nacogdoches belongs is left to the people to say, but along the line of such improvements we append the following lines, taken from the Bell County Democrat, and which fits the subject well:

Little blocks of cement,
Water and grains of sand,
Can help to give employment,
To many a working hand.
Little bits of money
For the sidewalk by your gate
Goes to pay for food and clothes
And begins to calculate.
Little bits of sidewalks,
Which you have put down
Makes a wondrous change for good,
And help to build the town.
Little towns with sidewalks,
Neat and clen and wide,
Soon becomes expansionists
And strike the city stride.

Nacogdoches County Leads.

Charles Hoya returned a few days ago from a trip up in central and northeast Texas, where he went on some business matters. He reports conditions fairly good, but no comparison to this section. In fact the crops of Nacogdoches are the best that he has seen anywhere, and prospects in this county were fine,—never better in the history.

THIRD OPERATION PREVENTED

By Lydia E. Pinkham's Vegetable Compound

Chicago, Ill. — "I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me. I was so sick that two of the best doctors in Chicago said I would die if I did not have an operation. I had already had two operations, and they wanted me to go through a third one. I suffered day and night from inflammation and a small tumor, and never thought of seeing a well day again. A friend told me how Lydia E. Pinkham's Vegetable Compound had helped her, and I tried it, and after the third bottle was cured." Mrs. ALYENA SPERLING, 11 Langdon Street, Chicago, Ill.

If you are ill do not drag along at home or in your place of employment until an operation is necessary, but build up the feminine system, and remove the cause of those distressing aches and pains by taking Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

For thirty years it has been the standard remedy for female ills, and has positively restored the health of thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Wedding Announcement.

The following might be interesting as both parties are known and have relatives in Nacogdoches.

Dr. and Mrs. Eben Nunn Allen announced the marriage of their daughter Barbara to Mr. Claude S. Dawley, on June thirtieth in McAlisterville, Oklahoma.

Sometimes you may be told that there are other things just as good as DeWitt's Kidney and Bladder Pills. That isn't so. Nothing made is as good as DeWitt's Kidney and Bladder Pills for any ailments of the kidney or bladder, which always results in weak back, urinary disorders. A trial of DeWitt's Kidney and Bladder Pills is sufficient to convince you how good they are. Send your name to E. C. DeWitt & Co., Chicago, for a free trial box. They are sold here by Mast Bros. & Smith.

H. R. Posely of Dallas arrived in the city yesterday afternoon to spend a couple of weeks drinking the mineral water. Mrs. Posely will come down as soon as a suitable boarding place is secured.

There are many imitations of DeWitt's Carbolized Witch Hazel Salve—DeWitt's is the original. Be sure you get DeWitt's Carbolized Witch Hazel Salve when you ask for it. It is good for cuts, burns and bruises, and is especially good for Piles. Sold by Mast Bros. & Smith.

The following young girls left Saturday on the T. & N. O. for Saucil, to be the guests at a house party given by Misses Mary and Samantha Burk; Misses Lizzie Floyd, Ola Clevenger, Naydine Weaver and Irene Clevenger.

CON-WIFE HAS MEETING.

Canvass of the City Being made Today For Purpose of Raising \$4,000 to Erect Auditorium And Advertise City—Will secure String Band.

The Committee appointed at the mass meeting Tuesday afternoon, came together yesterday afternoon at three o'clock, for the purpose of discussing the proposition of erecting an auditorium at the Aqua vitae Park, getting attractions for the Summer season, advertising the city and also securing music for the months of July, August, September and October. The matter was gone into thoroughly and every phase and feature thrashed out. It was finally decided to raise \$4,000 for these purposes. Just how the money is to be divided has not yet been agreed, but more than likely \$2,000 will be for the erection of an auditorium and the other \$2,000 for securing a string band for four months, and advertising Nacogdoches. It is proposed to go into a company, sell the stock at fifty dollars per share, and any and all who put in as much as twenty five dollars will be given stock in the auditorium. The amount less than twenty five dollars will go toward the music and advertising funds. No plans have been put forth, and especially will likely be considered. That is, to erect a two story building,—the down stairs to be fixed up with billiard and pool tables and bowling alleys, also seated for people who care to look on. The upstairs to be seated for entertainments, with a large stage, and also arranged that dances can be had. The structure to be erected "summer design" for comfort. In reference to the music no plans have been discussed, other than a string band of some four or five pieces is to be secured to play in the afternoons, nights and to meet trains. The advertising features have not been discussed either, nor will they be arranged until the money is raised. The committee hopes to complete the soliciting this afternoon or tomorrow, and will immediately have a meeting of all subscribers, elect trustees for the first year, and make all arrangements to get busy on the auditorium so that it will be completed not later than July 1st. The gentlemen soliciting are: R. F. Davis, H. T. Mast and E. H. Blount.

An Enourmous Rattler. J. Tom Brown, a log contractor, was here Saturday from San Augustine county, where he is doing some work. He was exhibiting a large shed of a diamond rattler, the biggest by odds ever seen in Nacogdoches. The shed measured six feet and eight inches in length and about ten inches around. The opinion is that the snakeship is not far from where the shedding was found, and Mr. Brown will take him in it an opportunity presents itself. The rattler is a monster, where ever he may be, and would no doubt find a place in a zoo at a fancy price.

MACCABEES ELECT OFFICERS

Semi-Annual Meeting of Local Tent Last Night, Featured by Social Session and Refreshments.

The semi-annual meeting of the Maccabees was held last night, having the largest attendance in the history of the order. Members who had never attended before are said to have been present, and a splendid time was the result. In reference to business, the election of officers was the important part, and that dispensed with, the social session began. Refreshments of cake and cream, ending with a course of "delightful smokers" was served. The officers for the ensuing six months are as follows:

- Past Commander, Geo. P. Cook.
- Commander, L. D. Barnett.
- Record Keeper, D. C. Tillery.

- Trustee to serve 18 months, J. A. Spears.
- Trustee to serve 12 months, O. E. Hubbard.

Yesterday A Scorche.

According to the thermometer at the government bureau, yesterday afternoon was the hottest day this Summer, registering 91 in the shade. From the way some people were puffing and blowing, the inference might have been that it was just twice that warm though. During the months of July, August and September last year, the hottest weather was 96 in the shade, while June showed only 94,—25th of that month. On the 17th it registered 88, and on the 19th of that month the mercury rose to 92. Eleven days in June and twenty-two days in July showed more than 90. The rainfall in May 1909 was 6.87 and in May this year 4.79.

About The County Fair.

James D. Greer was in the city today from his home near Appleby. In regard to the government demonstration work he stated that it was moving along nicely and people are still as enthusiastic about it as ever. The prospects for crops are excellent and they are well worked and comparatively clean. He has been doing some missionary work for the fair while on his rounds, stating that interest in the proposed institution was growing rapidly, and that there is no question but what a fair will be organized. He has several engagements the next week or two to talk fair, and believes that the meeting here the first Saturday in July will be well attended by the people from all over the county.

Our New Hair Vigor

Ayer's Hair Vigor was good, the best that was made. But Ayer's Hair Vigor, new improved formula, is better. It is the one great specific for falling hair. A new preparation in every way. New bottle. New contents. Ask your druggist to show it to you, "the new kind."

As we now make our new Hair Vigor it does not have the slightest effect upon the color of the hair. You may use it freely and for any length of time without fear of changing the color. Stops falling hair. Cures dandruff.

To Consider County fair.

Mr. Jas. D. Greer who was selected at Nacogdoches last Saturday week by the promoters of the county fair to visit all parts of the county, will be in Cushing next Monday night to talk to the people of this place and surrounding vicinities about the movement. A few short talks will also be made by the citizens and business men of Cushing.—Cushing Enterprise.

TESTED AND PROVEN.

There is a Head of Sclace in Being Able to Depend Upon a Well-Earned Reputation.

For months Nacogdoches readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Geo. Witkorn, living on Mound street, Nacogdoches, Texas, says: "I hold the same high opinion of Doan's Kidney Pills at present as when I testified to their merits in the Spring of 1905. I then stated that I had been a sufferer of kidney trouble and had been cured through the use of this remedy. Doan's Kidney Pills absolutely freed me from all pains across my loins which by spells had caused me a great deal of misery and annoyance. They also corrected the too frequent action of the kidney secretions. I am now able to state that the cure has proven a permanent one and this gives me a higher opinion of this grand old remedy."

LOSES A BUNCH OF MONEY.

Lingo Commissary Relieved of \$87.50 Sometime Saturday Night—Most of it Ticket Sales.

The commissary at Lingo was burglarized sometime Saturday night and a sum of money amounting to eighty seven dollars and fifty cents taken. The entrance to the building was effected through the front, in some way the door being pried open, and evidently by a party or parties who knew all about the commissary and the money. Most of the eighty seven fifty was ticket sales for the H. E. & W. T., made Friday afternoon and Saturday, the money being currency and silver, and was in a small sack but for some reason had been left out of the safe, and was in the cash drawer. Mr. Evans, manager of the commissary and also ticket agent, was called to Lufkin Saturday leaving some of the clerks to attend to the business while he was away. Instead of putting the money in the iron safe, as is the custom, it is said the salesman forgot it. Friday was pay day there too, and several thousand dollars were in the safe, and when the burglary was first discovered, it was feared that the safe had been tapped, but it seems that no effort at all was made to get into it. Officers have taken up the work of locating the burglar and expect to make a landing pretty soon.

In reference to the matter, Deputy Sheriff Mart Andis stated that he went to Lingo Saturday and investigated to some extent. He concludes that no entrance was made to the building, but the burglary was effected on the inside, and whoever did the piece of work was evidently looked in. The sack of money was in the bottom drawer of a thread cabinet while considerable money was in other drawers of the cabinet,—but were left untouched. No clue to the burglary has yet been gotten but it is believed that some trace will be run onto within the next few days.

160 to Lufkin.

The special train to Lufkin Sunday carried one hundred and sixty people from Nacogdoches, in addition to some fifteen or twenty from Mayo and a few from other little stops along the way. The crowd was strictly "pleasure bent" and seemed to enjoy the trip splendidly as well as the ball game. Vocal lessons and voice training occupied a very conspicuous place on the program, both going and coming, adding much to the occasion and aiding in breaking the monotony of the cars.

All Who Would Enjoy

good health, with its blessings, must understand, quite clearly, that it involves the question of right living with all the term implies. With proper knowledge of what is best, each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to living aright. Then the use of medicines may be dispensed with to advantage, but under ordinary conditions in many instances a simple, wholesome remedy may be invaluable if taken at the proper time and the California Fig Syrup Co. holds that it is alike important to prevent the subject truthfully and to supply the one perfect laxative to those desiring it.

Consequently, the Company's Syrup of Figs and Elixir of Senna gives general satisfaction. To get its beneficial effects buy the genuine, manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists.

J. F. Yates of Melrose was in the city today on business. He happened to an accident a few days ago that has proven quite painful though not serious. While attending to his stock a mule kicked him down. That did not hurt him however, but when he got up a plank was brought into play and tossed at the mule. A crooked nail in the plank tore a big hole in several fingers of his right hand, causing him a great deal of pain since.

Miss Jewel Bagley of Rusk and Miss Ruth Davis of Trawick arrived in the city this afternoon to spend a week with Mrs. W. G. Davis.

Elderly People Helped Free

The last years of life are the sweetest, and yet the most difficult to prolong. It is then that the greatest care is exercised in maintaining bodily health. But the chief care should always be with regard to the food you eat and whether you are digesting it properly. You should not allow yourself to become constipated. No doubt you have tried salts and cathartic pills, purgative tablets, etc., and have come to the conclusion that they are violent in action and do but temporary good. Listen, then, to the voice of experience with regard to a wonderful and mild laxative, Dr. Caldwell's Syrup Pepsin. It is not new, only we are trying to find new friends for it.

A. A. Fatts, of Johnston City, Ill., suffered from stomach trouble for six years and found his cure in Dr. Caldwell's Syrup Pepsin. His wife uses it too with success. We could name hundreds of others. Some heard of it first through neighbors or friends, others through the doctor's offer to send any sufferer from a stomach, liver or bowel complaint a free sample bottle for trial, without charge. If you will send your name and address we will send you a trial bottle direct to your home. If it proves itself as he claims then continue the treatment by buying a 50-cent or \$1 bottle of your druggist, or all of them sell it. Old people, like children, should look for purity, and it is well to mention that the purity of this remedy is guaranteed by the U. S. government. Also, though a free bottle is sent to prove its merits, results are always guaranteed—return the free bottle bought of druggists, who will refund your money if it does not satisfy you. Send at least for the free-text bottle today.

If there is anything about your ailment that you don't understand—or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 231 Caldwell Bldg., Monticello, Ill.

THE county fair proposition is moving along nicely, and indications are that the organization will be perfected. At least the farmers are in.

ACCORDING to press dispatches, Senator E. I. Kellie is to have opposition, and that his opponent is an attorney by the name of Collins, of Beaumont.

MINERAL WELLS, Marlin, nor no other health resort ever grew to its present size by sitting idly by. The only way to accomplish anything is to work.

DEALERS advise that real estate is picking up. That is more sales are on the hook than for some time, though figures remain unchanged. It will pay to invest in Nacogdoches county lands and Nacogdoches city dirt.

If anything is to be done in the way of advertising the city, the time to get busy is now. Most of the real good towns in Texas are already at just such work. Nacogdoches is one of the good towns that hasn't turned a wheel.

FEW of the folks who say the most about a clean town, and advocate the cutting of weeds etc, have some as dirty premises as can be found anywhere. The tenant places should be looked after same as the fine home places.

HORACE CHILTON comes out with the positive statement that he will not be candidate for governor. Lots of others who have already announced will probably wish they had taken the same step,—after the smoke of the next election has cleared away.

There are too many fathers who will tie up the dog at night and let the boy run loose, says the Nixon-Weekly News. But did you ever notice that boys who are allowed to run loose at night soon go to the dogs and then they too are kept tied?—Shafter Lake Herald.

THE pretty rain continues to come down—much to the satisfaction of the farmer and the merchant and all others. This section gives promise of harvesting the biggest crops for many years. Such is life in the best country in the world—and don't forget the fair proposition.

HARRIMAN, the great railroad magnate, in reviewing the financial situation, well and wisely says that the prosperity of the country is not dependent upon the success of the Republican party or the democratic party, nor upon the revision of the tariff up or down, but upon the industry of the farmer, the sunshine and the rain. These are the causes that send heavily laden trains to either ocean and

bring back return trains equally heavily laden with products from the most remote parts of the earth. Now let the country savers cease howling.—Grand Saline Journal.

SPRING time in East Texas is great. The country of fruits and flowers and vegetables, and before we can hardly catch up on these things, big old watermelons come rolling in. Can't be beat folks,—the best in the world. Don't forget the fair proposition.

THE showers the past few days have been fine on the folks who have growing stuff. Prospects are the best yet in this section, and many a smile will be worn,—that hasn't adorned the countenances for a long, long time. Cut the weeds and push the fair along.

THE clean-up notice by the Mayor seems to have effected some—but not all. It is positively against the city ordinance to allow the condition that exists in some localities, and if the people will not clean-up without calling the law into action—then call it now. Pride is a natural instinct of all,—yet some don't seem to have enough to push them to doing a duty.

WHNE the people of East Texas wean themselves from the thought that cotton is the only crop that can be grown for money, then condition will begin to change for the better much more rapidly than it has been the past year. This section will grow as good wheat as some of the north and central counties—demonstrated years ago—and that's a money crop same as cotton. Tobacco, peanuts, cane, corn and a long list of other stuffs do well here, and bring in just as good, or better returns, than the fleecy staple.

HOW "WON BY A WHISKER" BECAME A TERM OF THE TURF

N. O. Beard, an Old Reporter, Tells Story of Great Race Between Horses Ridden by Jockeys Martin Gale and Cyr Single at Frankfurtersburg

Dallas Times Herald.

The anti-whiskers railbirds held their usual meeting in the barber shop at Gravesend recently, the subject discussed being the origin of the racing term, "Won by a whisker."

N. O. Beard tells as follows how the well-known term originated:

Among the many that continuous racing attracted to Frankfurtersburg on the Hill were Martin Gale and Cyr Single. Curious, wasn't it. No one ever dreamed of giving that fellow the benefit of his full name—Cyrus. But Cyr fitted him like his clothes, for he walked and he talked like a real, live lord. Martin, he hailed from the bad lands of Texas. Both were horsemen. Of their ability to train there was no doubt; in their capability as jockeys there was no doubt. And each had a crackjack "skate" in his barn. Cyr Single's Lightning Express had once beaten a railroad train somewhere down Alexandria way, while Martin Gale's gray mare had breezed her trainer over the quarterstretch tence the very first time out and was instantly named Whirlwind.

SECRETARY CATCHES OWNERS.

The jockey club gave welter-weight races several times a week, which were all won by Whirlwind or Lightning Express, owners up, with alternating, but monotonous and honopolistic regularity, both horses never starting in the same race. But one fine day the secretary framed up a race that caught both owners napping and both horses as entrants.

That is, it would have been a fine day but for the dense fog. The race was a mile and a half, three times around the track. Lightning Express and Whirlwind were equally top-heavy favorites; you could name your own figures about the chances of the other five. The only part of the race "visible" was the thunder of the horses' hoofs down the stretch. Strange it seemed, on afterthought, that Cyr and Martin should have hit upon the same identical plan in an effort to outwit the public and each other, and at the same time gather in a little easy money. But we reporters were wise to the whole frameup, as our patrol over the backstretch telephoned every move the schemers made—and when they didn't move, too.

MISSED A LEAP IN FOG.

Going around the backstretch the second time, Lightning Express and Whirlwind, trailing their field, were pulled up. There, all unbeknown to each other in the murky fog and but a few feet apart, sat Gale and Single like statues on their horses, skipping a lap. As the other horses came behind for the last time around, Lightning Express and Whirlwind were given their heads and going

right along, apparently beat their field several furlongs, but so close together the judges could not separate them and declared the race a dead heat.

Talk about telepathy and mindreading! Would you believe it, the owners, suspecting all would not be as it should, had fastened a pedometer to each of the favorites. (As you naturally surmise, taxis had not at that time been invented.) Charges and counter-charges were made, but the distance registers produced. But it was in the good old days, when racing officials believed in protecting the public. The judges refused to change the decision of dead heat, as announced, averring that it was all right for horses to have to burn, but public money was waged for that purpose.

Before the run-off the fog lifted some, but yet the horses were no more visible than moving shadows. As they turned into the home stretch our telephone bell rang. Our stretch patrol reported gross and intentional foul by both riders. It appears that both horses were racing head and head, and in an effort to stall the other off each jockey, at the very identical moment had instantaneously leaned over and grabbed the bridle rein of his opponent, s horse, their right and left arms crossed as they held on to each other's mount like a vise. On they came, locked together, stride for stride, head and head, while so equal and effective was the strorg arm of each jockey that the horses were actually pulled up just as they reached the finish. So that while neither advanced a pace, there they were, pawing their front legs and nodding their heads in unison just as though they were one and the same.

THEN JUDGES TOOK NOTICE

Another dead heat, and now it was the judges' turn. Gale and Single were summoned and got a pretty nasty piece of tongue-lashing, besides being fined 75 cents each. They were finally sent away with the admonition that the race must be decided strictly on its merits, even though it proved necessary to run a Marathon.

Our paddock sleuth was bright and observant, and all that, but he was a suspicious sort of a fellow; always sent a job. He warned us reporters that something was doing, as the horses were being cooled out. Martin Gale and Cyr Single were skipping around, whispering orders, while their several helpers were darting hither and yon.

The fog had disappeared entirely, and the tens of thousands present crowded around the fence, delighted at being able to see the horses leave the paddock. Our sleuth told us he thought Lightning Express looked somewhat baggy about the

ears, but nobody else noticed it, while the gray mare seemed a trifle more hairy than usual around her nostrils. But that paddock sleuth was a born "snooper." We newspaper men knew that. We just laughed at him.

"They're off!" burst from the myriad of throats, and the pleasure of being able to see the race added to the excitement. It was a waiting contest for a mile. Then Cyr tried to forge ahead with Lightning Express, but Whirlwind clung resolutely on. They turned into the long stretch as one horse, and it was nip and tuck at every bound. As they reached the grand stand, the two were at it, hammer and tongues. Already the nearly frantic crowd began shouting. "Another dead heat." And so, indeed, it seemed, for almost "on top" of the wire a veritable Solomon, or death either, for that matter, could not have divided them. Suddenly, and like one single movement, the whiphand thumb of each rider went to his saddle pommel as though pressing a button. Like a flash the ears of Lightning Express and the whiskers of the gray mare shot out, and both were on even terms.

Just at the crucial moment, while the enormous crowd looked on with bated breath, a brisk breeze blew down the stretch, and unfurling one of Whirlwind's gray whiskers that was twisted, shot it out clear and distinct just at the psychological second that the horses actually crossed the winning line. Judge Berkshire, who was a man of large discernment and remarkably keen vision, afterward stated he mentally measured that gray hair belonging to Whirlwind as sticking out exactly one-quarter of an inch ahead of the ears of Lightning Express.

And so the great race was decided to the satisfaction of all, winners and losers alike, with Whirlwind unquestionably the winner. And this is the simple, unvarnished, but strictly veracious tale of how the racing term "Won by a whisker" originated.

Stories of Colorado and The Rocky Mountains

WHAT DO YOU KNOW ABOUT DISTANCES?

Persons who have never visited the Rocky Mountains of Colorado often find themselves speculating, idly or otherwise, upon distances between the leading localities most prominently named in railroad and other advertisements. Of course, one can look up such information in guide books, but a guide book is not always at hand when discussions over distances arise. Thousands of visitors make the trip between Denver and Colorado Springs without any definite idea whatever concerning the distance between these

the East, North or South, Pike's Peak appears to extend down into the very streets of the city, while as a matter of fact it is seven miles from there to the Cog Road station in Manitou, and nine miles from this point to the summit. The shortest distance by rail from Colorado Springs to Cripple Creek is forty-seven miles, while if a string were stretched on a "bee line" between these points, it would measure less than fifteen miles.

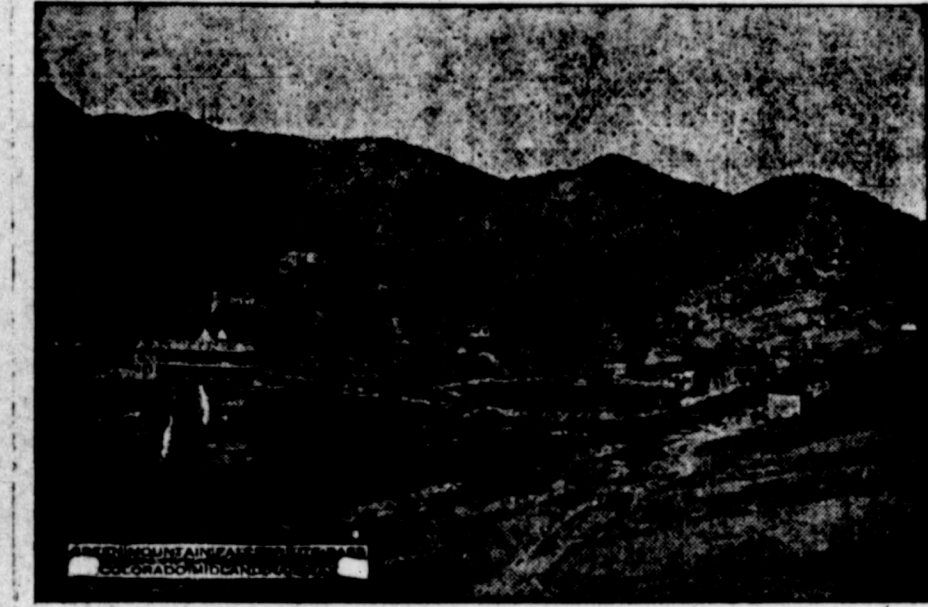

Ute Pass, extending from Manitou to Divide, the top of the front, or Ham-

points. Trains make it in about two hours, but as both speed and distances are deceptive to the eye in the rarified Colorado air, the layman is not sure whether he traveled twenty-five miles or 100 miles in a given time. The traveler knows that Colorado Springs is "somewhere near Denver," but how many strangers know that it is exactly seventy-four miles?

Denver is twenty miles from the foothills, though to the inexperienced eye the distance appears all the way from four to twelve miles. Very few people not posted concerning the distance,

part range, and which forms the most interesting portion of the "Diverse Tour" to Cripple Creek over the Midland Route, is twenty-seven miles long. It was used by the Ute tribe of Indians in the early days as a means of passage from the mountain fastnesses to the plains below. Leadville is 138 miles west of Colorado Springs, Hell Gate, at the crest of the Continental Divide, is 145 miles from Colorado Springs, and Glenwood Springs is 214 miles. The Colorado Midland Railway Company, in line with the great campaign for disseminating information relative to the state's attractions, has this year

guess it more than eight miles. From the State Capitol building in Denver one can see, on a clear day, over 200 miles of snowy mountain range. Pike's Peak, eighty miles to the south, is plainly visible, the contour of this historic mountain, even to the deep crater, or extinct volcano on the northern elevation, may be seen as clearly as from a point of vantage one-half or even one-fourth that distance away. Long's Peak, some fifty miles north of Denver, appears to the untrained eye to be about ten miles distant. As one enters Colorado Springs from

issued a handsome publication in four colors, depicting choice bits of mountain scenery between Denver and Salt Lake City. The book is entitled "Thru Hell Gate in The Colorado Rockies." This booklet is mailed to persons interested in mountain travel free of cost upon application to C. H. Speers, General Passenger Agent, Denver, Colo. Ex-President Roosevelt declared Colorado to be the "backbone of the Republic," and has twice hunted big game on the Western Slope in the vicinities of Rifle, New Castle and Glenwood Springs.

"COLLEGE CHUMS" TOO SLOW

Missionaries Outplay Them at Every Stage of the Contest. Hitting Their Crack Twirler For Eight Clean Ones—Smith Entitled to One-Hit, Shut-out Game.

From Tuesday's Daily:

For the fourth time this season the College Chums, from beyond the placid waters of the angelic Angelina, have gone down in defeat at the hands of the Missionaries, —the fast aggregation of ball tossers of the Metropolis of old East Texas. For the second time this season "Rube" Smith the man who mystifies with his peculiar twirling, has occupied the box against the Lutkinites, and both occasions has positively refused to allow the opposing team any hits that would amount to even one score. The battle yesterday afternoon but emphasized the fact shown by the three others,—that the College bunch is outclassed.

At every stage of the game the visitors were out played, and even when one little ray of hope lit up the countenances of the "use-to-be, some Missionary would trot out a sensational play and bring that same old forelorn, care worn look back again. The Lutkin boys were really not entitled to a score,—and of the three hits credited, one was a scratch. The infield and outfield was sewed as tight as leather and lungs and quick action could make it, while the hitting of the home boys was the same old habit that has won for them nineteen out of twenty-nine games played this season. Yesterday's contest was almost an errorless one,—each team being credited with one bobble,—though the error made by Lutkin proved expensive enough to allow a score. The bobble by a Missionary was a case of being too fast for the ball, and no harm came of the little affair. Features were as plentiful as hits off Moore, and several really sensational plays were made, bringing the fans to their feet and causing round after round of applause.

Crawford is credited with the prettiest play of the season, when he reached his left hand for a hot liner and pulled it in as if it was just a common every day occurrence. Richardson did the same trick on short excepting it was a two-handed catch. Both were beauties, and nipped the big hopes of the little Lutkin fellows,—just as they were getting ready to bloom into a few feelings. Rusche at second played a magnificent game and got several pretty grounders that looked hard. Chellette in right and Hogue in center did great ball and when flies went their directions,—it was change sides immediately. Windom in left, had but two chances, one an exceptionally long run, getting it on a bounce,—and which was finally credited as a hit for the visitors. Sanders struck the pace that makes winning ball and copped a bunch of skinnors that were intended for safe ones. J. Rusche was at his best behind the city plate and Smith had his hand in for the "drouthy"

folks who went to College to learn the game. The team work was as fast as has been seen this season, the game too being the quickest pulled off on the local grounds this year. Squeeze plays were out of question, and only one time did the Lutkinites attempt to pull off the stunt, and then Crawford did the rest. It was lively, snappy, brisk, all the way there and back again, and ginger was a by-word and a condition. As said above,—it was merely a situation of the locals being too fast. The visitors played pretty good ball, close up and careful, but were just a trifle slow. The Nacogdoches boys out-hit them too, while the slab work was one-sided, despite the fact that Moore did his best. He is a good twirler alright, and under ordinary circumstances would win his game, but the Missionaries love these College artists and are always particular to get acquainted with them. This afternoon's game will be about the same lineup except "Nig" Windom will pitch for Nacogdoches and "Kid" Chase for the Chums. Game called at four-thirty sharp. Yesterday's game: Batteries: Lutkin, Moore and Hamilton; Nacogdoches, Smith and Rusche. Hits: off Moore 8; off Smith 3. Strikeouts: Moore 6; Smith 5. Errors: one each. Base on balls: two by each pitcher. Hits singles: Akey, Roberts, Moore, Richardson 2, E. Rusche 2, J. Rusche, Chellette. Two base hits—Hogue and Smith.

By innings:
Lutkin 001 000 000—1
Nacogdoches 000 210 000—3

Umpire, Beamer; time, one hour and fifteen minutes.

Twenty nine games played—nineteen won—ten lost—percentage 65.5—up she goes!

The sporting scribe of the Longview Clarion is the best yet on hard luck stories. Last week the Cannibals lost their first game on their own diamond to Nacogdoches, and the excuses made by that fellow are really touching. According to his version every one of the Cannibals ought to have been in a hospital undergoing treatment for a series of ailments, ranging from sprained tonsils to enlarged eyeballs,—instead of trying to play the great National game with the fastest aggregation of ball tossers in East Texas. Here is just a part of what the fellow with a reporter's pencil and a rampant imagination had to say:

When you take into consideration that Lacoske would be in the hospital if it were not for his old Irish grit, the finger on his throwing hand being nearly torn off. Spear has been in bed for two or three days with chills and fever and is doing well to keep the ball from hitting him in the head, let alone catching it. Witherspoon, who right now is playing the best ball on the club, has been sick, his arm never has rounded into form and he's out of his regular position at second. White has a badly spiked foot. Ostram is full of malarial fever. Jack Johnston, the best has to play the outfield and above all the club misses the hitting fielding, pitching and base running of big Muncel. That's a hard luck story that few base ball clubs can beat.

SOME DIAMOND DOPE

The Cannibals and the Missionaries, opposing ball teams, played a series of games at Nacogdoches last week and the Sentinel says the Cannibals ate up the Missionaries. Better change the name next time.—Orange Leader.

No, we'll just change the score board next time. The Missionaries expect to convert every team in East Texas before the season is gone.

The Grand Saline bunch is a fast one,—much faster than the College Chums,—so the fans need not expect to see as slow games as have been pulled off the passed two are three days.

It is claimed that Lutkin played an errorless game Monday. The stall that Broadnax made when he threw the ball to Hamilton was counted a "bone head" strictly, and not an error. So much the better,—an errorless game on the part of Lutkin.

Naylor, the crack catcher for the Abilene Maroons, has left the West Texas burg and henceforth will wear a Farmersville uniform. There is another East Texas town that is strengthening.

Taylor has gone back to Jacksonville to join the new aggregation. The tomato town promises a team in the near future that will interest any and all from every where. Well, they need something.

Grand Saline claims as fast a bunch as can be found in East Texas. The fellows from "salt creek" have been tickling themselves so much that they actually believe they can tear down the little play house of the Missionaries. The thing comes off tomorrow afternoon.

"Warhorse" Frank Smith is in Timpson working out as a slab artist. He is strictly a bullet ball artist;—it he gets that control and head work to a fine point.

Street talk has it that Leon Clark, left field for Nacogdoches, will don a uniform pretty soon. Whether he will come to the Missionaries or drift to some other place is not known. He is a splendid outfielder and a safe hitter.

The Timpson base ball nine have received their new uniforms, dark red suits, labeled "Timpson," in blue and the cap sporting a big "T". With as nice a park as Waco or any other city has, good players, enthusiastic fans and nice suits, the Timpson ball team should be able to hold the field against anybody.

Two new players came in last night and two more came in this afternoon.

Arrangements are being made to have games with the Longview, Jacksonville, Nacogdoches and other teams.

If it takes the Lutkin boys 30 minutes to get to first base, how long will it take Nacogdoches to make a home run—a funny question to ask. Just about one tenth as long as it will take the "boys from across the creek" to reorgan-

ize after Nacogdoches takes six straight games. Change of program at the Vaudette tonight.

Hamilton, the big receiver for the Chums is fleet of foot as well as a good catcher and good hitter. Was captain of the A. & M. track team last season and is captain of the foot ball team this season.

Charlie Beamer and Broadnax, former umpire and latter first baseman, went back to Lutkin last night.

Roberts will remain with Lutkin the rest of the season and will not go back to the tomato town, as was reported. "Jimmie" is a pretty good twirler but is having some bad luck. Missionaries pound him unmercifully.

"Pat" Rogers, the auburn haired Irishman, all round infielder and "a single driver", put in his appearance today and takes the short stop position for the Missionaries.

Report has it that the 200-pound-bear-hunter will join forces with the College Chums. Lutkin likes Nacogdoches awful well and would sign the entire Missionary team if she could.—Puff,—push,—p-u-s-h.

Stegall has been transferred to the initial plate for the Lutkinites, and plays the place pretty well. His arm is getting better.

Wasn't it fine team work when the Missionaries closed in on them, and Smith made Hamilton put down a slow grounder? It's the gait that makes a winning team.

Who are the Maroons and where is Abilene nohow? Oh yes—a bunch of luck at a flag station out on the T. & P. rail road. We choose em. Come to East Texas and learn the game.

Big Jim Herrod had not shown up this morning but he may have come in at noon. He is the two-hundred-pound-bear-hunter from the pine thickets. Will wear a Lutkin uniform.

Grand Saline comes tomorrow and will play three games on the local diamond. Grand Saline has one of the best amateur teams in East Texas and is about evenly matched with Longview. The "salty" boys are due here with a sack of ginger and it's up to the Missionaries to get energetically busy. Must have three straight games from them, but is going to take some jam-up base ball to do it.

"Pat" Rodgers, the auburn haired Irishman and new short stop for the Missionaries, made a flying trip to Lutkin last night, returning today. He may be in the game this afternoon,—and he may not.

FOLKS are coming in daily to drink the mineral waters—the best in the world. Don't fail to boost Nacogdoches.

The Ladies Aid Society, of the Main Street Presbyterian Church met at the usual hour Monday afternoon with Mrs. Ike Futch at Hayward. A large attendance than usual marked this meeting, which was also characterized by the number of garments made during the afternoon by the busy hands.

The social hour was emphasized by the acceptable ice cream course that followed the labors of session.

The next meeting will be with Mrs. Will Rulif.

Miss Zirleta Matthews returned today at noon from a six months stay in in Bristol, Tenn., Va., where she has been attending V. I. from which institution she graduated with credit to herself, her family and friends, the latter part of May. Since that time, she has been making a round of visits to school friends, and was the guests of friends in Meridian, Miss., prior to her return home.

Another delightful little party that marked the close of last week was the two tables of "42" with which Mrs. W. F. Price complimented Mrs. Walker King, the guest of Mrs. E. M. Dotson on last Saturday afternoon, other guests being Mrs. E. M. Dotson, Mrs. Boyd Moore of Beaumont, Mrs. B. K. Smith, Mrs. R. P. Lockey, Mrs. Geo. H. Matthews, Mrs. E. A. Blount and Mrs. E. B. Williams.

Several varieties of sandwiches with iced tea was the delicious refreshment course that followed the games, the service plates having on them posies of nasturtiums, adding very much to the attractiveness of the little luncheon, and making most acceptable plate favors.

Miss Alice Harrington accompanied by her father W. G. Harrington, came in yesterday from Dallas to the delight of their many friends.

YOU NEED THEM

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes broadcast and on each bottle-wraps, what his medicines are made of and verifies in plain words. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is the most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuritis, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

Robert Berger, after eight years away from home, returned yesterday to Nacogdoches for an extended visit to his parents. He has been in the following places since he left here: St. Louis, Memphis, Birmingham and Belfontaine.

It Keeps Them Off.

They are pretty bad this year—no mistake—and they bite viciously. We refer to Mosquitoes, but a little Hunt's Lightning Oil applied to the irritated places takes the sting away. It keeps them off if used in time.

Mrs. Baker returned to her home in Nacogdoches Tuesday after several days visit to her daughter, Mrs. E. M. Weatherly. She was accompanied by Mrs. Weatherly and little Miss Mary.—Garrison Gleaner.

The Big Head

is of two kinds—conceit and the big head that comes from a sick headache. Does your head ever feel like a gourd and your brain feels loose and sore? You can cure it in no time by acting on your liver with Ballard's Hefrbine. Isn't it worth trying for the absolute and certain relief you'll get? Sold by Mast Bros. & Smith

Mrs. G. M. Haltom, and Miss Elaine, left this afternoon Vinita, Oklahoma, to visit Mrs. Haltom's brothers, E. N. Ratcliff and J. T. Ratcliff. They will be gone about a month.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure relieves all inflammation of the mucous membranes lining the stomach, protects the nerves and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

Kodol Digests What You Eat Make the Stomach Sweet. Bottles 25c. Regular Price \$1.00, containing 24 times the trial size, which sells for 50c only. Prepared by E. O. DOWITT & CO., Chicago, Ill. For sale by Mast Bros. & Smith

NOTED MURDERER CAPTURED.

Negro Wanted For The Killing of Mack Duke at Ryan's Levee. Louisiana, Arrested in Hamburg, Ark.— Sheriff Spradley Goes After Him.

Jim Anderson, a negro, wanted for one of the coldest blooded murders ever committed in the South, and who has been hiding out from officers since the murder, was captured yesterday in Hamburg, Arkansas, by the sheriff of that place. The arrest was made on the advice of Sheriff Spradley of this city, who a few days sent out descriptions of the negro, flooding the towns in three states almost with the circulars. The murder was committed at Ryan's Levee, Louisiana, some weeks ago, and while Emory Ray of this city, was there. Mack Duke, a white man, who was straw boss under Mr. Ray, was coming out of the pit one morning and meeting this negro, told him to get a move on him and drive faster.

The negro who was driving a scraper team, turned with his gun on Duke and marched him out of the pit. Not going as directed, the negro shot at Duke, who made an effort to draw his gun, but it caught and Anderson fired again, the ball entering his side. Duke was carried to a hospital at New Orleans, and operated on, but died the next morning. The negro, after the shooting, proceeded to hold up another of his race, made for the woods, and had not been heard of, till yesterday when he was arrested. Mr. Ray, on his return here some weeks ago and just after the affair, related it to Mr. Spradley, also giving him a complete description of the negro. Circulars were immediately gotten out, with the result as stated above. There is a reward of \$250 for the capture of the negro, \$100 offered by the contractors and \$150 by the governor of Louisiana. Mr. Spradley offered a reward of \$100 for his arrest,—allowing him a margin of \$150 for his work. He left today for Hamburg to take charge of the murderer.

Don't Lie Down.

Spring is here. Your system needs tuning up to fortify against the long summer's debilitating influence. Simmon's Sarsaparilla will build you up, make you strong and carry you through without that usual "want to lie down" feeling. 50c and \$1.00 per bottle.

Be sure to ask Cason Monk & Co. about that dollar in cash that they propose to give you—this is no fake. Cason Monk & Co. don't play any pranks.

Mother is Dead.

A card received yesterday afternoon by R. W. Murphey, from Rev. H. C. Rimmer, states that his mother died at her home in Tennessee, Wednesday, June 15. Mrs. Rimmer was 68 years of age and in splendid health until quite recently when she suffered a stroke of paralysis. Rev. Rimmer stated too that he would not return for several days yet.

The 19th passed off quietly and no disturbance was made by any one at any time. The excursion brought in several hundred from up the road and all seemed to enjoy the day. It is stated that only one drunk negro was seen, and he was going another direction. The colored people of the city set a special table for the white people who attended, but as none accepted the invitation, it was used by the leaders of the festivities. The colored people of the city requested The Sentinel to state that they appreciate very much the sentiment of the citizens and the aid given toward the celebration. Some misunderstanding arose, it is stated, in regard to the school grounds being used for a stand, and those at the head of the day's program desire it known that it was no fault of the trustees nor any other of the white people. The misunderstanding caused some loss of trade at the stand, and considerable comment was made—other than that everything was as smooth and pleasant as could possibly have been.

We will give you a United States silver dollar if you will meet the conditions ask for particulars. Cason Monk & Co.

Miss Virdian Baraham left Thursday afternoon for a splendid summer trip to New York and other points. She was joined at Beaumont by the Misses Lot of El Paso, sister of Mrs. George Barham, from which point they go to New Orleans, leaving there today via Morgan Line for New York.

Every train brings someone to our great Mineral Wells. The fame of Aqua Vitae is fast spreading. The business of the company is growing daily. The Aqua Vitae Mineral Water Co., is receiving applications from people from Houston, Beaumont and other cities for boarding places. Every citizen of Nacogdoches except the knockers, should spread the name of Nacogdoches before the world as a health resort.

If the people of Nacogdoches will unite and wake up, we can make Nacogdoches the most prosperous little city in Texas. Let every body get together and all pull for the town. We can double our population in three years if we try. Let us organize a 20,000 club and go to work to get the people. Silence the knocker if you have to kill him. The Knocker is an enemy to all good work—he opposes thrift and industry and kills prosperity. When you see one strangle him.

Information received in the city yesterday is to the effect that Prof. J. B. Lockey, formerly principal of the Pensacola High school, but who has been taking a course at Columbia University, has been honored by being selected as one of the three American teachers to go to Peru and take charge of the government schools, applying modern methods in the conduct of the schools. The Peruvian government has decided to import a few American teachers, according to the information, and evidently applied to Columbia university for them. One of the teachers is to be superintendent of elementary schools, another is to be a division superintendent and Prof. Lockey is to have charge of the preparatory department at Gandeloupe in Lima. This is a state college and the preparatory department has just been added.

The party will start about June 1, and the friends of Prof. Lockey hope that he will pay Pensacola a short visit before departing.—Pensacola Journal, May 13th.

Woman's Beauty

Some women retain their beauty to an advanced age. But women, who regularly endure pain, age rapidly, for suffering leaves its lasting marks on them. Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain—treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.

TAKE CARDUI

It Will Help You

Mrs. Katie Burlison, Goreville, Ill., tried Cardui and writes: "I suffered with female troubles, and was so sick I could not stand on my feet. Finally I began to take Cardui, and soon began to mend. Now I am able to do all my housework and am in much better health than I was before." Try it.

Huett Makes Long Run. Earle Huett, who is serving a term on the county farm for burglary, made a long run yesterday and an attempt to get away, but was caught and carried back to the farm. The hands were eating breakfast, and all of a sudden Huett darted through the door and disappeared. Mr. McMillan was not at home, so Mrs. McMillan telephoned to Mart Andis to come out. Mr. Andis, likewise eating breakfast, finished his meal and telephoned Mrs. McMillan to learn if Huett had come back. He was informed that Huett had just come in with Geo. Tillery, guard, who also ran,—capturing the fellow several hundred yards from the house.

S.S.S. CURES OLD SORES

We want to show you in this short, but honest and reasonable talk, how and why S. S. S. cures Old Sores. We do not claim that S. S. S. works wonders, but we do know it will cure sores and ulcers, and its record of forty years past abundantly justifies this confidence.

Any old sore shows an unhealthy and impure condition of the blood. It is a diseased condition of the flesh at that particular spot, and kept inflamed and irritated by a continual discharge into the unhealthy matter from the circulation. In various ways the blood becomes contaminated and impure.

A long spell of fever, or other sickness, breeds disease germs in the system; the failure of nature's eliminative members to remove the waste and refuse matters of the body, the excessive use of minerals in certain diseases, infected wounds, bites and stings of insects, etc., all contaminate the blood with morbid matter and germs which sooner or later manifest their presence by a sore or ulcer which refuses to heal under the ordinary treatment of local applications.

External treatment can never cure a chronic sore or ulcer, because it does not reach the blood. The place will remain open as long as it is used as a drainage for the impurity which is in the blood, and in addition to the worry and anxiety caused by an old sore, there is always danger of its becoming cancerous, if a cure is not effected. Purify the blood, and nourish the flesh with a rich, healthy circulation, and then the place will heal of its own accord.

S. S. S. cures old sores by removing the causes which produce them. It goes down into the circulation, drives out all impurities and poisons, and by nourishing the flesh with rich, pure blood causes the place to heal naturally and permanently. S. S. S. does not make a surface cure, but, being the greatest of all blood purifiers, it begins at the bottom and by rebuilding broken down tissue, and supplying healthful, healing qualities to the circulation, causes the place to fill in with firm, healthy flesh, while it steadily but surely removes the cause and effects a permanent cure. The sore cannot remain when the blood is pure, and S. S. S. will thoroughly purify the blood. Book on Sores and Ulcers and any medical advice free to all who write.

S. S. S. is for sale at all drug stores.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Reception.
Coming as a delightful variation among the card and "42" parties, the picnics, etc., that has occupied society of late was the reception tendered Rev. and Mrs. J. W. Bates, and their mother, Mrs. X. T. Bates, by the Ladies Aid Society of the First Baptist church at the very commodious and comfortable lecture room in the Baptist church on last Thursday evening. Very cordial invitations had been extended, not only to the members of the church, but to all friends, which met with as cordial a response from the public. Quite a large number called and were introduced to the guests of honor by Mrs. B. K. Smith, Mrs. Robert Lindsey and Mrs. J. C. Harris, other members of the Society looking after the comfort and pleasure of the guests.

The lecture room presented a very homelike and artistic appearance and was redolent with the perfume of many receptacles of cut flowers, the pretty gowns of the ladies adding to the entire effect.

After some interchange of social amenities, a very pleasing musical program was rendered, for which some of the very best talent of the city had been called on.

The program opened with a very pretty vocal duett by Mrs. Chas. Perkins and Mr. J. H. Williams, and was fol-

lowed by Mrs. M. J. Dooley, who gave "Sunny Boy" in the charming manner that has pleased Nacogdoches audiences so many times.

Quite a pleasure and treat was the vocal number by Miss Eula Mae Monk, who sang "The Rose of Yesterday." Miss Monk has never before appeared as a vocalist and so the really beautiful quality of her voice was a great surprise and no less pleasure, to those who had the pleasure of hearing her. Miss Mintie Blount sang most beautifully "Beloved, it is morn", while Misses Mariam and Louise Dotson's vocal duett, "Sweet is the lite", was also accorded the generous appreciation it so well deserved. Mrs. Chas. Perkins lovely voice was then heard in "Nita Gitana", which was greatly enjoyed. It was a matter of congratulation that Mrs. Dooley then favored the audience with another number, "My Redeemer and My Lord". Mrs. Lindsey's artistic and sympathetic accompaniment added very much to the effectiveness of the vocal numbers. A pleasing feature of the entertainment was the refreshments of sandwiches and iced tea served by the ladies towards the close of the evening.

SLAUGHTER OF THE INNOCENTS

From Monday's Daily:

Jimmie Roberts, the cannon ball artist of big physique and mysterious curves, met his Waterloo for the third time at the hands of the Missionaries yesterday afternoon on the Lufkin diamond, when he was batted out of the box in the fourth inning, succeeded by "Poodle" Holland in the fifth, and sent to the way out-right-field as a punishment for the awful things he had done. The change caused no change in the game and more hits were really gotten off Holland than Roberts, but they were not as effective. Errors were responsible for most of the scores on either side, but after the fourth go-round the Missionaries and College Chums settled down for business and played the game to perfection. The diamond is a slow one,—really too slow for a fast game—as the Missionaries are used to,—but after the first few innings the boys adjusted themselves to conditions and began the terrible "slaughter of the innocents."

Only two errors were made by the locals, both exceedingly expensive and happening right in the first of the contest. Crawford let a hot grounder get between his pedestals and Johns made a single hand swipe at a bouncer, but it out bounced him. Both errors allowed runs. The Chums didn't get off quite so light and errors were chalked up till the score book was criss crossed with little black marks. The very best in the team forgot their A B Cs,—went riding in air ships, took trips around the world in broken doses, and did most everything else but play the game. Just a case of too much Missionaries is plainly the whole cause,—nothing but the cause,—so help us Lufkin. Fancy ball, the way they do down to College, is a bad way to get in. Such has resulted in many a game being lost. Merely a reminder and respectfully addressed to the "boys across the creek."

But the game: A crowd variously estimated at between one thousand and fifteen hundred people witnessed Nacogdoches play the game,—saw Lufkin try. Some two hundred of them were rooters for the Missionaries, and about the middle of the battle these were much in the majority. The workout was as pretty as could be, and not a bobble was made. Missionaries to the bat first, failed to do a little bit and Richardson first up had a hole in his bat. That tickled Roberts et al. Lufkin up made the circuit twice,—and bedlam broke loose. Things rocked 2 to 0 till the third inning when Nacogdoches put one across the home plate. In the fourth, things happened so suddenly and with such force that lots of the folks didn't catch breath for an hour after the game was over. The white sand finally settled, the umpire called a change of sides, and the score board was in an awful condition,—6 to 2 in favor of the visitors. That same bedlam refused to break loose any more, either in chunks or on

the instalment plan,—though it came near sounding when the College Chums annexed one more in their half of the fourth.

There is where Roberts quietly and gently retired to the plank fence by the railway, and "Poodle" Holland took his position in the box to offer consolation in the form of a few left handed invitations. Holland did his best, but it wasn't enough to overcome the one-sided comedy that had already been put on the boards. The remainder of the game was you are up,—you are down,—and not one chance was given the Lufkin boys to score. The game was a good one too, despite the one-sidedness of the affair, and seemed to be greatly enjoyed, especially by the folks from East Texas metropolis. The Chums played clean ball and the Missionaries did likewise (as they always do) and no demonstrations not decent were made. It was merely a case of being out classed though the Lufkin boys give promise of developing into a pretty good team, with proper work and some coaching. They were some stronger yesterday than usual, having signed the Missionaries center fielder and a Beaumont weighing in neighborhood of a whole lot. He's a big-un but a trifle slow,—dontherknow. Chellette pitched a splendid game, Rusche caught an errorless one, Sanders got all, E. Rusche did his part and more, Crawford made only one error,—the only one for six games,—Johns missed one bounce but made up on batting, Richardson, as usual, had the goods up his sleeve. Hogue played a star game and Smith in the out field is good as they make 'em. But what's the use. The Missionaries endeavored to convert them, and seeing that it couldn't be done, proceeded to slaughter the entire aggregation,—a veritable "slaughter of the innocent" Colleg boys. The game was a square deal, regular league ball with two umpires, and no one had any objection to the decisions. Today the thing starts over as if nothing had ever happened, and the Missionaries will take three straight on the local diamond, beginning this afternoon. "Big" Smith will possible do the slab work against Moore for Lufkin.

Yesterday's game—
Batteries: Lufkin, Roberts, Holland and Hamilton; Nacogdoches Chellette and Rusche.

Hits: off Roberts 2; of Holland 5; off Chellette 7. Strike-outs: Roberts 3; Holland 1; Chellette 7. Errors: Lufkin 4; Nacogdoches 2.

one. Playing those light teams just spoils folks and causes an over-rating when they get in fast company.

Hogue, the center fielder for the Missionaries, can cover more ground, watch more things about the game, and play an all round place as well as any body you can trot out. Hogue is an Elberta.

"Jimmie" Roberts, the tomato town's terrible twirler took his time,—and had best taken it before the game. The Missionaries made it so uncomfortable that "Poodle" succeeded him in the fourth inning. More hits off Holland than Roberts.

The Abilene Maroons are getting where they imagine they can play ball. Just listen to what the Reporter says about that bunch,—and in the mean time wish they would take a junketing trip to this section. Missionaries will convert the West Texas wind-puffers.

The Nacogdoches Sentinel roasts the Maroons for the latter's desire (?) to stay at home and win games, speaking of the challenge issued by the Maroons to the Nacogdoches Missionaries, the sporting scribe on the Sentinel sagely remarks: "Melrose next!" Melrose is a jerkwater town in the woods where they still play town ball. The Sentinel thinks the Maroons should show their hand, and assures them that a warm welcome is awaiting them in the piney woods of Texas. Maybe so, maybe so. Still, there are those who believe that the Maroons can devour the Missionaries, either in Abilene or in Nacogdoches.

The White Sox ball club is another bunch who wants a fling with the Maroons. Manager Anderson is in correspondence with the Sox, and the deal may result either in Abilene going to El Paso, or vice versa.

If the Maroons can perform at Nacogdoches and El Paso as well as they have during their at home season and especially in the Granbury series, they can beat the world.

SICK HEADACHE.

Sour Stomach, Heartburn, Canker Sore Mouth Cured by Mi-o-na

Sick headaches are caused by indigestion and a general disturbed condition of the stomach.

Cure the indigestion, and the headache, nausea, heartburn, sour stomach, and that "all in" feeling will vanish.

Mi-o-na tablets will cure indigestion or any other stomach trouble. They will relieve almost instantly. Stripling Haselwood & Co. have so much faith in them that they will give your money back if they don't.

Mi-o-na cures by making the stomach strong enough to produce enough gastric juice to digest all the food you want to eat. It promptly puts new life and energy into the overworked and played-out walls of the stomach.

Use Mi-o-na for a week, and you can eat what you want any time you want it, and take pleasure in doing it. Your blood will be richer, redder, purer after taking Mi-o-na, and it only costs 50 cents a large box.

"I was speedily cured of stomach complaint by Mi-o-na. Anything I can say in favor of Mi-o-na is not too strong."—William Hess, Benton Harbor, Mich. 6

The Shakespeare Class Enjoys a Treat.

A most charming courtesy was that tendered the Shakespeare Class on last Friday, when Mrs. Earnest Simpson with characteristic hospitality asked them to "spend the day" with her at her pretty country home. All those who possibly could, availed themselves of this invitation, realizing fully what a treat was in store for them. The day was most auspiciously begun, for the drive out there, six miles, in the early morning was no small part of the pleasures and the remainder of the pleasures arranged for class fully justified their most sanguine and rose colored expectations.

Nature has most liberally bestowed beautiful landscape and enchanting woodland about and throughout the Simpson estate, and when to this was added the beauty of real old fashioned hospitality, combined with the most modern, and up-to-date methods of entertainment the place and occasion took on an added charm.

The guests had all arrived by ten in the morning, and a pleasant hour or two was spent in just plain talk and admiring the place and surroundings. When dinner was announced, halved quotations from Shakespeare were distributed among the party, by means of which their places at the table were

Another Camping party who returned from a week's outing Monday afternoon was that of Dr. and Mrs. F. C. Ford and Mr. Cates Ford, who had as their guests in their camp at Fern Lake Mrs. Evelyn Ford, Miss Jean Ford and Masters Gaylor and Hamilton Ford of Beaumont Texas. They too report an excellent time and much piscatorial success.

Cut Her Husband Up.

Sallie Sims, a negro woman, was brought here yesterday afternoon and placed in jail on a charge of carving her husband with a huge pocket knife at Mayo a few days ago. The man claims that they were not having any fuss at the time and that the cutting was a surprise to him, and that he did not even know his wife was mad. An examining trial will be held but the date has not yet been set.

We are informed that the Lockhart case, on a change of venue to Cherokee county from Nacogdoches, will be called for trial at Rusk next Monday. There are about 100 witnesses in this county who will attend the trial.

found, the other half, attached to exquisite, fragrant carnations, making the place cards. It so happened that Mrs. Wilton Ratcliff (nee Maud Weeks) sat at one end of the table, and Mrs. Oscar Crain, (nee Mary Weeks,) at the other, which accidentally arrangement brought out a very clever bon mot from Mrs. G. F. Ingraham, who spontaneously remarked that she "knew it would be a long dinner, because there were two Weeks from one end of the table to the other." And it was both a long and a good dinner. Mrs. Simpson is famed for her culinary skill, and on this occasion, she more than sustained her reputation, adding new laurels to those already hers.

A most delightful afternoon was then spent, Mrs. Simpson having provided a bright and original Shakespearean story, which while exceedingly entertaining and diverting, taxed the Shakespearean knowledge of even these students. Mrs. G. F. Ingraham successfully solving it, became the possessor of a fine picture of the poet beautifully framed. After some very good music it was time to return to the prosaic every day life, but the happy day spent with Mrs. Simpson will linger in the memory of those who were so fortunate as to be members of the Shakespeare Class like a fragrant memory for years to come.

Those who shared the hospitality of Mrs. Simpson's home were Mrs. J. H. Barham, Mrs. G. F. Ingraham, Mrs. H. C. Fulgham, Mrs. George King, Mrs. E. B. Lewis, Mrs. S. M. Of Interest to Farmers and Mechanics.

Farmers and mechanics frequently meet with slight accidents and injuries which cause them much annoyance and loss of time. A cut or bruise may be cured in about one-third the time usually required by applying Chamberlain's Liniment as soon as the injury is received. This liniment is also valuable for sprains, soreness of the muscles and rheumatic pains. There is no danger of blood poisoning resulting from an injury when Chamberlain's Liniment is applied before the parts become inflamed and swollen. For sale by Stripling, Haselwood & Co. w

A. J. Spradley has returned from a business trip to Arkansas and Louisiana.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It goes directly to the blood and mucous surfaces of the system. They offer One Hundred Dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J.
