WILL BUILD STORAGE TANK.

Guffey Refining Company, Though Here But One Year, Finds It Necessary To Increase Business Facilities—Work To Begin At Once.

It has only been about one year since the Guffey Refining Company established an office in this city, but so gratifying has the business been, that it is necessary to erect a large storage tank, and work on the affair will begin at once. This city is really to be made the depository for this section and all smaller places, such as Jacksonville, Timpson, Lutkin, Huntington etc, will be supplied from here, instead of by car lots as heretofore. Mr. Kerr, general sales agent for this state and Oklahoma, was here a few days ago in consultation with the local agent, Otis Joplin, and decided on the tank for Nacogdoches. A lot has not yet been secured, but no trouble is anticipated on that score, as there are a number of available places along the tracks of either the T. and N. O. or the H. E. and W. T. The lumber for building the platform, office, tank and other accessories, will be put on the ground at once, and the completion of the improvements will likely be not later than October first or fifteenth. After that date all supplies to the substations will be made by local shipments.

GOLD IN NACOGDOCHES.

Field to be Exploited—Mineral Tested; Found Genuine.

Houston Post.

Every few years some one reports the finding of some valuable mineral in this county, but when it is tested nine times out of ten it is worthless. In the last few months, however, persons have been quietly at work among the big hills near Nacogdoches and they have undoubtedly discovered gold.

It has been assayed by two experts, and they pronounce it genuine. The locality of the field is known only to a few and the extent of its value is not yet known.

The field will be thoroughly exploited, and in a short time it will be known whether it exists in paying quantities.

It has been the opinion of many for years that valuable minerals could be found in the hills of this county, as evidences of smelters on a small scale, are found in isolated places in different parts of the county. By whom they were constructed is not known by any one living at this time. They were found here on the advent of the white man, and tradition has it they looked at that time ancient and had been abandoned for years.

GOOD ROADS MOVEMENT.

Commissioners Court Orders Sand-Clay Repairs on The Teutsch Hill Near Chireno—Work to Commence Wednesday.

The good roads movement seems to have taken root with the people of this county, or at least a portion of them, and more and better highways are going to result. The Commissioners Court has set aside three hundred dollars to be expended in fixing up and repairing the sand bed on Teutsch Hill, near Chireno, while the people of that vicinity have contributed a like amount. When this is completed it will give practically a good road from San Augustine to Alto, former in San Augustine county and latter place in Cherokee county. This work is to be under the supervision of Z. T. Mast, commissioner from that precinct. In speaking of the matter this morning, Mr. Mast said: "We will begin work tomorrow on the Teutsch Hill, reducing the grade and putting that section of the road in first class condition. The road will be sand-clay, the same as the

Government good road, built near Nacogdoches last summer. That has proven a success, so far, and we believe it will do the same on the Teutsch Hill. The county has set aside three hundred dollars and the people of that section have given a similar amount for the purpose of building a mile of good road. The folks out that way are anxious for better roads, and we are going to give them good roads. The plan of the county putting up half and citizens half is a good thing, and will mean much for the farmer folks, if continued. Work will begin tomorrow, Tuesday, and will be pushed to an early completion, so the people may have the benefit for fall and winter travel."

BALTON & BALTON, Proprietors.
GILES M. HALTOM, Manager.

If you can't say a good word for your town, don't say at all.

NACOGDOCHES as a cotton market ought to surpass all other cities on this entire section. It can and will if the business men will.

THERE are some lean streaks in nearly any meats,—and there is always some good in every fellow. Even the devil is entitled to his dues.

LOTS of excitement and comment has been indulged in because San Antonio was "closed last Sunday."—Nacogdoches is closed every Sunday and week days too.

A LONG pay roll will make any city better. That one argument ought to be sufficient to get the business men of Nacogdoches to aid all kinds of enterprises in coming here.

TAKE all of the laws that are not enforced from the statute books, and the covers would look like a very bad fix. Truth is there are too many state laws and city laws that are useless.

JACKSONVILLE people have seen an air ship. They admit it themselves and go even farther by trying to prove it by each other. People who live in some sections of Texas are given to seein' things at night.

EDITOR STUMP of the News continues to boost for Port Arthur and is making some mighty efforts to get that burg before the outside world. Port Arthur may be an awful good town but it's so quiet since Jawn W. crossed the ocean.

GET rid of that sour look and brighten a little. There is no excuse for any one going around with a countenance that borders on lemon flavor,—and besides the effect on your self it puts a damper on your associates.

THREE tobacco warehouses for Nacogdoches sounds powerful good for the industry in this section. More interest in tobacco growing will mean more independent farmers and more money scattered throughout the country.

JUST wondering if Drake, the very versatile Faber user on the Dalhart News, wouldn't like well to slip down to East Texas and get a good view of real prosperity as it exists, for comparison to the conditions of his section of the palpitating, pambulating, personified Panhandle of the big Plains.

THE San Augustine Tribune thinks it commendable that the Sentinel is making a fight for a more sanitary town and to rid the place of the weed patches. Some folks here also think it a pretty good thing, while others are perfectly willing that the grass and weeds grow any and every where,—including in their own yards. Of course to such people all argument is pure buncombe and appears to civic pride are as naught.

EAST TEXAS CUT OVER LANDS.

There appeared in the Chronicle of Monday quite an interesting article from the New York Commercial on East Texas. The article contained much truth, and will serve, at least in some measure, to divert attention to a portion of Texas which may be said to be to a large extent the victim of appearances:

It is a timbered section in the main, and that kind of country does not so appeal to the eye and to the sense of the esthetic and beautiful as does the rolling, dipping billowing prairie landscape.

Then to cut down the timber and clear the land ready for the plow takes hard work, but not as much of it as most people think.

It is a pine country, it is a pine country, it is true, but there is as great difference in pine countries as there are in post oak and red oak countries.

On sandy soil, where the growth is hickory, black jack and red oak, in many parts of Texas fine crops are raised every year, whereas on the same kind of country in appearance and in timber, in states further east, nothing would grow unless fertilized.

Pine lands in the old states are worthlessly poor in their natural state, but in the pine lands of East Texas, at least in a very large part of that area, there is much timber besides pine which never grows except on good land, and large areas of such land can be most profitably farmed.

The indications now are that East Texas is very soon going to come into her own. The cut-over lands of the lumber region are attention, and The Chronicle considers that a most fortunate indication for East and Southeast Texas.

The idea prevalent in many quarters, that those lands upon which the mills have ceased to cut are unproductive and that they can not be profitably subjected to the purposes of agriculture and horticulture, is most erroneous.

The vigorous, luxuriant growth of Japanese persimmons; the tropical rapidity of growth and the size of the cape jessamine, and the vegetable gardens, say of Hardin county, prove what careful culture will do. This is known to be true by everybody who is at all familiar with conditions there.

The land absolutely can not be judged by appearance. Much of it a man accustomed to dark lands would not take as a gift. Yet no man can tell the day when there was an absolute failure of crops in East Texas.

There are many streams, creeks and branches, all over that section, with narrow bottoms, and they are very fertile. The upland soil is of such nature that water acts upon it like a fertilizer, and with good seasons every sand hill produces a good crop. It is very dry the bottoms never fail to yield heavily. The cut-over lands are, in the main, level and may require some drainage, but the cost will be but little.

Tens of thousands of acres

can be found in a solid body, and by proper cultivation and proper location of homes most prosperous colonies can be established. There is no surer, safer farming country in the world than that lying between the Trinity and the eastern border of Texas. They do not expect phenomenal crops; they do not plant to get them; but the industrious and even halfway careful farmer is sure of fair returns every year from his farm and orchard.

For peaches, for strawberries, for watermelons, for peanuts, for sure crops of cotton, it is the elected land, while the crops of possums, pumpkins and politicians never fail. Keep your eyes on East Texas.—Houston Chronicle.

DO CREAMERIES PAY?

A dispatch from Gainesville says: "The demand for milk cows in this county has grown so the Commercial Club has taken the matter up, and in both the Daily and Semi-Weekly Galveston-Dallas News will be seen an ad for Jersey milkers in car load lots. It is believed that ten car loads can be sold here in two or three months. The creamery affords a sure market for all the cream that can be bought to town, and there is no danger of overstocking the market, so a large number of people are trying to buy more and better cows."

Better begin now to gather up some milk cows. The McKinney creamery will soon be opened up, when Gainesville's experience may find repetition here.—McKinney Courier-Gazette.

What has been done in Cooke county is a striking refutation of the statement so often heard, that dairying cannot be made to pay in Texas. The industry is certainly flourishing there. The Gainesville creamery is shipping its product 500 miles, and is unable to fill all the orders it gets. Other communities that are trying to establish a dairy industry could doubtless get some valuable points at Gainesville.—Dallas News.

ARE we willing to drift on and on without making any particular effort to better conditions,—to make this a better and busier town? Are we willing to rock along in the same old way, taking things as they come—good or bad? Wouldn't it be a wiser idea to get together—organize—co-operate and do something for Nacogdoches? How about that trades day feature?—It proved a good one last year and would prove a still better one this year. Mr. Business Man—are you wide awake? The time to act is now.

THE farmers are very much interested in the creamery matter, and are waiting developments eagerly. They are willing to take a nice slice of stock in the enterprise as well as furnish the raw material, if the business men will also take stock. The opportunity for securing a plant is at hand and more concern than has been, ought to be shown here in Nacogdoches.

THROWS AWAY HIS SCABBARD.

Austin Callan, editor of the Del Rio Record-News, is out with a brainy editorial, in which he says that for two long years he has tried to unite the warring factions of Del Rio. He has filled the circumambient with white-winged doves and has stripped the olive trees bare to get branches to wave on high. He has worn his pipe out piping and not a man in town has got in for the cotillion. But a change has come over the spirit of Austin's dream of peace. He has discovered that evil and goodness cannot dwell together amicably in the same house top, and that there are not neutral grounds between right and wrong and he puts his readers on notice that hereafter he is going to shake his long-tail duster, roll up his sleeves, spit in his hands and sail into those whose evil practices prove to be a detriment to the weal of the citizens of Del Rio. He says the humblest man in his town is big enough to enjoy every right bestowed upon an American sovereign and the Record News will henceforth be wide open for the combatting of centralized power. It is going to stand for the people and their rights, and is going to be against any man who seeks to be a boss or who can be influenced by a boss. Callan has spoken, and the warning will provoke the enemy to get round in secret places and write him down as a socialist, all of which will but add benzine to the spark of his wrath, and before he gets through with them they will wish they had been caught by a Mexican lynx when they were just one week old. Callan is not an iconoclast. Every pulsation of the rich, old Irish blood flows in his veins beat true to the onward march of law, order, civic rights and equality before the law, and when he uncorks one of his vials of righteous wrath in Del Rio, there's going to be weeping, wailing and gnashing of teeth among the worshipers of Baal in Val Verde. Callan has thrown his scabbard into the Moat.—San Angelo Standard.

It remained for Fuller—gifted in his line and a natural born hustler and co-editor of the Lutkin News—to discover a new industry in angelic Angelina county. He made a trip recently and returns to his desk a wiser man, having discovered a factory way down in the pine thickets that makes post holes. A boon to mankind indeed and will mean the savings of many hours of toil to the builder, to say nothing of the financial gains. San Antonio's snake farm, Liberty's frog ranch and Dalhart's gas factory had as well pull-down their signs.—Angelina county takes the cake with a "post hole plant".

EVERY time any of the West Texas sections get a few showers, these folks herald it to all quarters of the globe "that another soaker has blessed the Plains country". Can't blame them though for advertising pays.

NO TIME TO MAKE MONEY.

WHEN a friend pointed out to Agassiz, the great scientist, that he was poor and might as well make millions out of his knowledge, that great man replied: "I have enough. I have no time to waste in making money. Life is not sufficiently long to enable a man to get rich and do his duty to his fellowmen at the same time."

The anti-Christ, Mammon worshipers, say the successful men are only those who accumulate money; that without the incentive of money there would be no progress; that without it men would not care to exert themselves in any line of useful calling in life; that the earth would resolve back to barbarism; that such incentive has been the cause of all development, and much other such tommyrot. These critics do not know that all the really great workers and minds of the earth have done just as did Agassiz—for the of the work and of humanity. All bad work, such as writing vile looks, making vile paintings, mean houses, shoddy goods and adulterated food, false ideas of God and social ethics—all these have been done for money. That was the incentive. But these ignorant critics do not know what Agassiz was. I have had men whose cunning had put them in position of much money, tell me that education made men cranks and lopsided! That men who studied theories and science were never practical men! That they who had not studied subjects! It is such donkeys who oppose the thinkers in every field of thought and progress. The more ignorant a man is the more certain he knows just a much as Agassiz, though he may never have heard of him or of the subjects that occupied his wonderful life. One Agassiz is worth more to the world than ten millions of the maggots who believe life is made for the purpose of seeing who can gather the most

money, and that the one who gets the most of what he cannot use is the most successful.—Exchange.

THE business men of Dalhart think they have a grievance and proceed to spite themselves by cutting off their nasal organs. Because the News of that city has nerve enough to fight for right and pure water, advertisers are withdrawing patronage. It's the people against a corporation.

If it is against the city ordinance to litter up the sidewalks and throw trash in the alleys, the people who do such things ought to be advised of the violations of these laws. Some side walks in the city are strewn with stuff from morning till night and many times people have to walk around some other way or climb over.

EVERY day rolls round without some concerted action on the part of the business men and citizens of Nacogdoches, for the progress and up-building of this city and section, means just another day lost. Organization and co-operation are the keynotes to success and are just as essential to a city's welfare as to the interest of a business.

THERE are lots of young men in this city who have capital at their command, and who could be making that capital pay them nice dividends every year if it were invested. And there more opportunities for good investments right around us than in any other part of the big state.

THE merchants and business men are not taking the interest in the proposed creamery that they should. That is one enterprise that this city and section certainly needs, and a great mistake will have been made if the people fail to land it. Boost a butter factory for Nacogdoches.

ANOTHER TOBACCO WAREHOUSE

Robinson & West Enter The Field to Buy and Pack the Product—About 12,000 Pounds Contracted For.

Nacogdoches now has three tobacco warehouses, the third having opened several days ago in the building on Pecan Street occupied by the Wilson Cigar Factory. The proprietors of the new house are young men, Messrs Robinson & West, formerly of Ohio and have been on the Rose Lake farm this year. They came to Texas with the intention of putting in about twenty acres of open field Cuban tobacco, but on account of the lateness and having but few plants did not plant but a few acres. The crop is said to be excellent however, and bids fair to yield well and bring good returns. Next year they will put in a much larger acreage. J. N. Gill, an experienced grower and packer of tobacco, has charge of the new tobacco house and is already at work ricking the new product. The firm will not only pack and sweat tobacco for the farmers but is buying the product, and has already contracted for between ten and twelve thousand pounds, some of which was delivered the past week. These men expect to handle somewhere between twelve and fifteen thousand pounds during the season, all Cuban, and will have the building remodeled in an up-to-date manner to handle the crops.

Letter to Mayor Perkins.
Nacogdoches, Texas.

Dear Sir: You are interested in the prosperity of your town. You can contribute to it materially, and give it a far more prosperous look at the same time.

Perhaps the public property needs a good coat of paint. Devoe will supply that coat with two-thirds of the number of gallons required of any other. Devoe will last twice as long as any other. Devoe is all paint and full measure. Devoe is the strongest paint known. Devoe will take care of the property, in the long run, for half the money required by any other.

The reason is stated above; Devoe is all paint and full measure; the strongest paint known.

E. D. Jewell, Corry, Pa. painted his house 5 years ago with a mixed paint; took 14 gallons. Last Spring he repainted with Devoe; bought 14 gallons and had 4 left. Saved \$15 to \$20, for painting costs two or three times as much as the paint.

Yours truly,
F. W. Devoe & Co.

His present year's receipts were almost twice as much as last year's and he figures on as much again next year as he cured and packed this year. In addition to the crop in this section Mr. McNess will handle quite a deal of the Anderson county tobacco crop. The building into which the gentleman will move is three stories, including the basement. It is to be rearranged and remodeled and more light is to be let in. The building contains about 750 square feet more than the present stand. The buildings to be vacated are not yet rented, but the gentleman who has them in charged stated that he thought they would be occupied soon.

ONLY ONE "BEST"

Nacogdoches People Give Credit Where Credit is Due.

People of Nacogdoches who suffer with sick kidneys and bad backs want a kidney remedy that can be depended upon. The best is Doan's Kidney Pills, a medicine for the kidneys only, made from pure roots and herbs, and the only one that is backed by cures in Nacogdoches. Here's Nacogdoches testimony:

Mrs. H. M. Reid, North street, Nacogdoches, Texas, says: "I have nothing to retract from the public statement I gave over three years ago in favor of Doan's Kidney Pills. Knowing of the value of this remedy and how positively it relieved me of pains in my back, so intense at times that I could hardly sleep or rest, I have on many occasions recommended it to my friends. I had tried every known remedy in an effort to find relief but was unsuccessful until I procured Doan's Kidney Pills at Mast Bros. & Smit's drug store. A few boxes of this remedy gave me great relief and improved my health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

New Combination Book Case.

Mast Brothers & Smith have recently installed a splendid combination book case in their drug store, and are filling it with school books. The case is twelve feet long and seven feet high, having 144 running feet of shelf space. The shelves are 24 inches deep, making the case have a capacity of 288 square feet. This store is the depository for the county for school books, and put in the new case in order to handle the book trade easier, and better, as well for the accommodation of all customers. The shelves are arranged so that different books occupy different sections, and besides plenty of room is available for other supplies such as tablets, inks etc. The case is a splendid accession to the store.

POLICEMAN CAMPBELL KILLED.

Fort Worth People Stirred Over Cowardly Work of Assassin Last Night, in Red Light District—Fifteen Suspects Under Arrest.

Special to Sentinel.

Fort Worth, Texas, August 13.—(12:30 o'clock.) Fifteen suspects are under arrest here today and are undergoing a searching examination by the police following the murder of the policeman A. W. Campbell in the "acre" about ten o'clock last night. Bob Hammond and Stokes Clark, two suspects were today turned over to the county authorities to answer a charge of murder which has been filed against them. Campbell's body will be sent Saturday to his home at Honey Grove for burial. Campbell was shot on Thirteenth street while walking with policeman Jones. A load from a shot gun was emptied in his body near his neck, killing him instantly. The gun was fired from the second floor of the Jockey Club saloon where the weapon was found. The murder of Campbell is the last of a long series of assassinations, in the red light district and the entire city is stirred.

No matter how long you have suffered, Foley's Kidney Remedy will help you. Mrs. S. L. Bowen, of Wayne, W. One dollar bottle and part of the second cured me entirely." It will cure you. Mast Bros. & Smith. eod

Where is Your Hair?

In your comb? Why so? Is not the head a much better place for it? Better keep what is left where it belongs! Ayer's Hair Vigor, new improved formula, quickly stops falling hair. There is not a particle of doubt about it. We speak very positively about this, for we know.

Does not change the color of the hair. Formula with each bottle. Show it to your doctor. Ask him about it. Then do as he says.

Ayer's
Indeed, the one great leading feature of our new Hair Vigor may well be said to be this—it stops falling hair. Then it goes on step further—it aids nature in restoring the hair and scalp to a healthy condition. Ask for "the new kind."

A Big Laundry Deal.

A deal was consummated this morning between Tom Donnell and D. G. Boger, whereby the latter purchases from the former the machinery and business of the Cleburne Steam Laundry. The consideration is private.

Mr. Boger will assume control of the business next Monday morning. He comes from Nacogdoches, and is an experienced business man and will be quite an acquisition to the business and social citizenship of Cleburne.—Cleburne Enterprise.

You can not be well, feel well, or look well if your kidneys are deranged. Foley's Kidney Remedy makes healthy kidneys, and cures backache, rheumatism, and all disorders of the urinary organs. Restores health and strength. Mast Bros. & Smith. eod

A Pastors Association.

The pastors of this city organized themselves into an association this morning the meeting being held at the First Presbyterian church. On account of the absence of one of the pastors from the city, the election of officers was deferred until next meeting. The Association will meet each Monday morning at 10 o'clock at the Presbyterian church, the subject for next Monday will be regards a religious census of the city.

CLAMORING FOR PROGRESS.

Farmers In Every Direction Have Become Enthused For A Creamery And Want Business Men To Act—Country People Will Co-operate.

It is no longer a question whether or not a creamery will pay. The time of skepticism along that line has since passed. Actual practice has proven beyond all doubt that money is to be made in a good, sanitary, up-to-date creamery. The plants at Belton, Gainesville, Cuero, Elgin, San Antonio, McKinney and other places in Texas

are as sure for dividends as banks or any other kinds of enterprises. The only thing is to get people in sections where none are, to see the value to the extent of putting in such an institution. The farmers of this county have become enthused with the idea of a creamery here and are restless for one. They are willing and anxious to co-operate. Are willing to put some money into such a thing and are anxious to create a market for their dairy product. It is estimated that there are fully five hundred cows within a radius of ten miles that will furnish cream to the enterprise. It is easy to see that if one were started, in twelve months or less time there would be half as many more cows in that same territory. The creameries in other places claim to pay from four to six dollars per head per month to the farmers. The Donnell creamery at Belton can't get the product as fast as it wants it and is sending a man through the country to talk to the farmers and urge them to get more cows. All patrons say it pays to sell cream. Pays far better than to churn your own milk at home and sell the butter. Two farmers who are watching the creamery business were in the city this morning. They are anxious for one here. One of them says: "I am milking eight cows and all I get from them is what the butter brings at twenty cents a pound. My farm is making something but I had rather have a herd of good cows and a market for the product. If no one else will do it, if the people will organize a creamery, I will run it and will take stock. I know very little about such, but I want to get a creamery here."

We need it and need it now." The other man says: "The farmers in my locality are watching the business men here and wondering why they don't get together for a

As there is only one genuine Syrup of Figs and Elixir of Senna and as the genuine is manufactured by an original method known to the California Fig Syrup Co. only, it is always necessary to buy the genuine to get its beneficial effects.

A knowledge of the above facts enables one to decline imitations or to return them, if, upon viewing the package, the full name of the California Fig Syrup Co. is not found printed on the front thereof.

cremery. They are the ones to take the lead. We farmers will cooperate as best we can and will furnish the cows. A creamery will pay as well or better here than any other place in Texas, because of the large territory to draw from. I am in on any and everything for the upbuilding of this section and I am surprised at the attitude of the business men in reference to such." That is just two opinions. You can get others by inquiring, and if you don't think the farmers of Nacogdoches county are watching this city, talk to them about things. In addition to the direct returns to the city, investors and patrons in and of a creamery, the institution will cause more and better cows. People will grade their stock and do away with the long horns. All ears to the ground now and watch Nacogdoches come through with creamery.

Cured Hay Fever And summer Cold.

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Mast Bros. & Smith. eod

It was "powerful" hot here yesterday, but some folks say they expect it is still hotter in some other places. May be so.

WHEN the people of this country realize the importance of living at home and boarding at the same place, things will go much better and bank accounts will be larger.

Cotton and corn are two mighty good things,—the first necessary and the second a necessary "evil" probably,—but along with these crops, tobacco, grain, cane, peanuts and some other things ought to be grown.

THERE are no more fertile lands in the big state of Texas than the hillsides and bottoms of old East Texas. A good, hustling, resourceful farmer can make the best and easiest living in the world right here, and lots of them are demonstrating this fact these days.

THE Banking Board recently appointed, looks like more political fence building from the line up of the appointees. There are other people in Texas just as competent to sit on that "Board" as the state officials that were named.

THE longer you put it off about the butter factory, the longer will money be sent out of this city that ought to be kept at home. And it is on the increase every day too—more coin sent away this year for butter than was sent last year.

THE Commissioners have taken a wise step in the good roads matter. If there is a county in the world that needs good roads, it is our own Nacogdoches. Push them along Hon. Commissioners,—they are good things and will mean prosperity to the farmers and merchants and everybody else.

HON. GUS SHAW, the Red River planter, banker, merchant and candidate for Governor, has his peepers opened at last. A short spin over the country has put him over 1,000 miles, cost him like blazes and only two speeches to his credit. This thing of running for Governor is a snap,—and no wonder Hon. Gus wants reform.

THE Census business in Texas has stirred the natives. Cecil Lyon, the political pie distributor for this Commonwealth, is not satisfied with the arrangements and wants all of the supervisors to be Republicans,—instead of just half. The game is a great one and the good jobs are passed around to favorites, while the Democrats spat and spew and talk about what a glorious thing it is to be independent.

INFORMATION ABOUT ROADS

County Road Superintendent W. E. McMillin Writes In Reference To The People, Public And Highways—Some Laws On The Subject.

Nacogdoches, Tex., 8-15-'09.
Editor Sentinel:

There has been and seems to be growing considerable controversy concerning the rights of property owners along public highways, the rights of overseers etc., to remove obstructions cut ditches, and build crossings for same, as well as the rights of telegraph and telephone companies to construct and maintain their lines along, in, over and upon the public roads of this state. For the general information of all I have decided to make some explanations through your columns which will possibly, if not probably, be a benefit to all parties concerned.

Art., 48179. Public roads defined.

For the purpose of this act, all public roads or highways that have been heretofore or that may hereafter be laid out and established agreeable to law, and all roads and highways that have been opened to and used by the public for a period of ten years prior to the passage of that chapter, and which have not been discontinued or closed to the use of the public agreeably to law, are hereby declared to be public roads.

Art., 4684. Second class roads shall be clear of all obstructions and not less than thirty feet built, etc.

Art., 4745. Provides for the cutting of ditches along both sides of the road also for the cutting of a ditch to divert water from the road.

Art., 482. Provides that any person who shall knowingly or wilfully destroy any bridge, culvert, ditch, drain, sewer, etc., or anything of like character placed upon any road for the benefit of the same shall be guilty of a misdemeanor and punished by fine not more than five hundred dollars and liable to the county or any person injured for damages. Then it naturally, in my opinion, follows that road overseers or supervisors (the law makes county commissioners supervisors) of public roads undoubtedly do and should have a right to build and repair public roads according to their own ideas unless it could be shown that their ideas were against the best interests of the road.

I have also been asked, and in some instances have built them, who's duty it is to build bridge or culvert across ditches in front of ones premises. The land owners undoubtedly. I have studied this matter carefully and I find nothing whatever in the law which would indicate that the county or road overseer should build them, and courts have held that the burden of responsibility for the construction of approaches, entrances, or drive ways from the highway to private property does not rest on the county authorities. Such drive ways must

be constructed by parties entitled to or desiring to use the same and without injury or obstruction to the highway or any part thereof.

Courts have held further that a ditch necessarily constructed for drainage purposes is a part of the highway, and the owner of adjacent property has no right to fill up the ditch in such a manner as to obstruct or interfere with the purpose for which it was made.

I think this settles the ditch proposition and I think that road overseers, county commissioners, and others, make mistakes when they spend the public's money for these purposes. It is not a matter of choice but a matter of law. The public has some rights and these rights should be respected and as I understand it, no one has a right to donate public moneys to private purposes. I know it sometimes saves hard feelings, but none of us have the legal right to buy for ourselves personal friendship with other peoples money.

Then to the telephone pole issue.

I have had considerable complaint lately about breaking telephone lines caused by cutting timber upon them.

In many instances this has been done not only by myself but others besides and I claim we are entirely justifiable at least so far as I am concerned. I have ever tried to avoid destroying property or causing inconvenience to any one, while it is a physical impossibility to cut all timber necessary to be cut and not sometimes break a telephone line or pole. But sometimes the telephone company is to blame for placing their poles in the traveled way of the road. Ordinarily I merely move these poles and when possible leave them in as good condition as when I found them.

But sometimes it occurs as on a job just finished as well as one just begun that the lines are zig zagged from side to side of the road being mostly fastened to trees, many of which had to be cut and it being an absolute impossibility to properly work these roads without injuring these telephone lines. But for this I have no apology to make. I am working for the people, am paid by the people and so long as this is the case I expect to look after the peoples' interests.

The law says (Art. 698):

Corporation created for the purpose of constructing maintaining etc. telegraph and telephone lines are authorized to set their poles, piers, etc. wires and other fixtures along upon and across any of the public roads, streets, waters, etc. of this state in such a manner as not to discommodate the public in the use of same. Then if a road that is required by law to be 30 feet wide in fact is only ten feet wide undoubtedly we have a right to open it and such telephone poles or other matter would necessarily have to be moved not by the road gang but the owner thereof as I will show later the attorney general in an opinion makes

the following statement. I presume that the telephone poles have been placed upon the highways in pursuance of law etc. Therefore they may be lawfully in the highway although no permission has been obtained to construct them, nevertheless, it has been held that the primary and dominant purpose of a road or street is for public passage and any appropriation of it by legislative sanction to other objects must be deemed to be in subordination of this use unless a contrary use is clearly expressed. There does not seem to be any expression of intention in the law to permit the placing of telephone poles in a highway so as to obstruct public travel or to permit their continuance therein if such continuance results in an obstruction. On the contrary I think that it appears that such poles are so situated in the road as to interfere with the use thereof by the public for passage their removal can be compelled to a place in the highway where they will not obstruct its use for public travel. I do not mean to be understood to hold that the telephone companies have no right to construct and maintain the necessary fixtures to carry on their business but the rule universally established is that the highway must be kept free for public travel and if structures are placed therein they must be so constructed as not to interfere with public travel.

It follows that if telephone poles stood in such portions of the road as to interfere with the utility of the road for public travel it is the duty of the road overseer county commissioner or other person charged with the maintenance of said road to serve written notices upon the owner thereof directing their removal and in the event of their failure to do so such road overseer etc., may summarily remove them. I hope this may forever settle the question of placing telephone poles in the road and ditches. I don't believe individuals have the right to appropriate to the own use property belonging to the public to the detriment of said public's use.

Trully yours,
W. E. McMillin.

SEVEN tenths of the business men do business on a credit or borrowed capital. Seven tenths of that proportion are as successful as the same proportion of the three tenths doing business with their own money. Then why shouldn't a city or county do the same thing? If two hundred thousand dollars were piled up to build a new court house and fix about one hundred miles of good roads in this county, this would be the most progressive and one of the wealthiest sections in Texas in five years. The increase in valuations would pay the debt.

To The People.

I will again represent the Virginia-Carolina Fertilizer Company and solicit the business of the people. The best commercial fertilizer on the market. Also in the market for all your cotton seed.

The L. E. Wolfe Vocational School For Boys

Opens September 7, 1909

There are thousands of mechanically-inclined Texas boys in their teens who are discouraged and antagonized by an attempt to train them in an exclusively book course of study. The L. E. Wolfe Vocational School for Boys which skillfully combines practical book instruction with superior training in a full line of wood and iron working machinery has been established especially for this class of boys. A student may confine himself to one trade, thus more than doubling his earning power in two years, and frequently in one year. No entrance examination. The aptitudes of boys determine their course of study.

All persons legally qualified to vote under the constitution and laws of this State and who are resident freeholders within said subdivision shall be entitled to vote in said election.
J. H. Case is appointed to hold said election, with authority to select such assistants as the law directs.
Within ten days after said election due returns shall be made to the county judge of Nacogdoches county.

In testimony hereof, witness my official signature at Nacogdoches, Texas, this 19 day of August, 1909.

F. P. Marshall,
County Judge of Nacogdoches County, Texas.

To Celebrate Labor Day.

Tyler, Texas, August 17th.
—Last night the different committees on Labor Day celebration held a very enthusiastic meeting at the Bank Barber Shop, to hear reports of the several committees.

The committee on grounds reported that arrangements had been perfected to hold the picnic at Camp Bliss Park, just south of the Railway Hospital in West Tyler, which is an ideal place for such a gathering.

Arrangements have been made with the Tyler Kid Band to furnish music for the day to carry out the plan of patronizing home industry. The committee on speakers have arranged for speeches by Tyler orators, who are, Hons. Cone Johnson, J. Y. Blades Barney Cooney and J. W. Bain.

The lovers of baseball will be pleased to learn that arrangements have been made for a game between the Tyler Cotton Belts and Jacksonville White Sox. This will be one of the features that will be appreciated by all.

The Tyler Gun Club is to give a shoot on this occasion.

Amusements, including a balloon ascension, are being arranged for.

A grand ball is to be given at Harmony Hall at night.

The Cotton Belt has made a rate of one and one-third fare for the round trip, good for the 5th to 7th inclusive for return. The International and Great Northern has also granted the same rate.

The finance committee made a very flattering report, which shows that the finances will be in good shape for the carrying out of the program for this celebration.

The grand parade in the morning will be participated in by every organization in Tyler, with their floats and members in parade. Also, quite a number of the merchants have signified their willingness to participate in the parade.

Taken all in all the reports of the committees shows that Tyler will have the best celebration of this great day that has ever been held in this city.

OUR SEMI-ANNUAL CLEAN-UP SALE

**Beginning Thursday, August 12, 1909
Lasts Until Saturday, August 28, 1909**

During these 15 days we must clean up our entire stock of Summer goods, which represent the cleanest of the most up-to-date merchandise we have ever placed before the public. It has always been our custom to conduct these sales at the end of the season in order not to show the same goods next season. This is due to an unusual large business enjoyed by us. We can afford to give you the benefit of part of our profits, thereby cleaning up our stock and saving you money.

Our Method of Holding This Great Clean-Up Sale

departs somewhat from the ordinary way of cutting prices, as it has always been very unsatisfactory to our people as well as to ourselves to get the proper values before the public. We believe that you will see the advantage of our present sale over our previous sales and we hope that our effort in your behalf will be appreciated by you. During this Clean-Up Sale

A Straight Discount of 20 Per Cent

on all goods in the house. We reserve nothing, but our entire stock is at your disposal at above discount.

We Will Explain to You Its Workings---All customers, after they are through purchasing all they desire and when they are ready to pay for them, the salesman will deduct 20 per cent from your entire amount, *thus saving you 20 cents on every dollar you spend.* All customers that have a monthly account and pay their account every first of the month may deduct 20 per cent on every dollar bought. All customers having goods charged until fall or do not pay at the end of every month our regular prices will hold good and no discount will be allowed. This 20 per cent discount is good only during this sale and will not be allowed on any previous purchases during August.

See what you will save in purchasing your future needs.

Safeguard of Health Free

The army and the navy are the safeguards of the nation, but the individual body also requires its safeguard. By twenty years' use in American homes of every shade and degree of wealth and intelligence, Dr. Caldwell's Syrup Pepsin has been acclaimed "The Nation's Safeguard of Health."

No remedy but a laxative could win this award, for the stomach and the bowels are the basis of all health, and Dr. Caldwell's Syrup Pepsin is for the stomach and bowels. Parents are giving it to their children today who were given it by their parents years ago. It is not only a wonderful cure in constipation, indigestion and dyspepsia, sour stomach, heartburn, flatulency, torpid liver and such complaints, but it contains wonderful tonic properties that build up the muscles of the stomach and intestines so that they again work normally and naturally. It is especially adapted to the uses of women, children, old people and all others who need a gentle laxative and who cannot stand violent salts and cathartic pills. This has made it the family laxative and it can be obtained of any druggist at 50 cents or \$1 a bottle, with the guarantee, but if you are a stranger to it and would rather try it free before buying, send your name to the doctor and a free test bottle will be sent to your home. In this way tens of thousands of people are learning to use Dr. Caldwell's Syrup Pepsin.

Louisa Edwards, of Peoria, Ill., writes the doctor as follows: "I believe in Dr. Caldwell's Syrup Pepsin. I will never use any other medicine for stomach troubles but Dr. Caldwell's Syrup Pepsin. The sample has convinced me of its merits. Now you use it, either in the 50-cent or the regular 50-cent or \$1 bottle, and you will soon share Mr. Edwards' opinion."

If there is anything about your ailment that you don't understand—or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 513 Caldwell bldg., Monticello, Ill.

WOMAN WITH BROKEN SKULL.

Negro Claims Two White Men Assaulted Her With Rocks and a Scantling—Happened at Press.

From Friday's Daily: Victoria Wadkins, a mulatto negro woman, alleged to be kin to the Mexican tribe, came in the city this morning from near Press, for the purpose of filing charges against some parties, who she claims assaulted her yesterday afternoon at that place. The woman's head was bloody and her skull seemed to have been crushed. She claimed to have gone to the commissary at Press yesterday afternoon to purchase a box of baking powder. The change returned to her was less than she thought it ought to have been, and according to her story, she protested. The white man she traded with abused her and followed her out side, where he was joined by his partner and both assaulted her with rocks, sticks etc. She says she stooped to pick up a stick and one of the men struck her across the head with a piece of scantling, knocking her down. The woman claimed to have been beaten and bruised about the body too. A physician examined and dressed the wounds and she returned home, after having supplied the officers with the particulars of the occurrence.

Active At 87. This would be unusual news if men and women would keep themselves free from rheumatism and all aches and pains as well as keeping their muscles and joints limber with Ballard's Snow Liniment. Sold by Mast Bros. & Smith.

Woman's Beauty
Some women retain their beauty to an advanced age. But women, who regularly endure pain, age rapidly, for suffering leaves its lasting marks on them.
Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain—treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.

TAKE CARDUI
It Will Help You

Mrs. Katie Burison, Gorville, Ill., tried Cardui and writes: "I suffered with female troubles, and was so sick I could not stand on my feet. Finally I began to take Cardui, and soon began to mend. Now I am able to do all my housework and am in much better health than I was before." Try it.

HUMORS IN THE BLOOD

When the blood is pure and healthy the skin will be soft, smooth and free from all eruptions or disease, but when the circulation becomes infected with any unhealthy humor the effect is shown by eruptions, pimples, boils, or some more definitely marked skin disorder, such as Eczema, Acne, Tetter, Psoriasis, Salt Rheum, etc.

Humors get into the blood, usually because of an inactive or sluggish condition of those members whose duty it is to collect and carry off the waste matter and refuse of the system. This unhealthy matter is left to sour and ferment and is absorbed into the blood, and soon the circulation becomes filled with an acrid, irritating humor.

The blood then, instead of performing its natural duty of nourishing the skin, regulating its temperature and preserving its uniform softness, pliability and healthfulness, irritates and diseases the delicate tissues and fibers around the pores and glands and produces some of the various forms of skin eruption or disease.

The cause of all skin affections can be traced to some kind of humor in the blood. Healthy cuticles are only possible where the circulation is pure; and therefore the cure of any skin disease can only come from a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., cannot cure. True such treatment relieves some of the itching and discomfort, helps to reduce inflammation, and aids in keeping the affected parts clean, but it does not reach the blood, where the real cause is located, and at best can be only palliative and soothing.

S. S. S. cures skin diseases of every character and kind because it purifies and cleanses the blood. It goes down into the circulation and removes the humors that are causing the trouble, builds up the weak, acrid blood, and completely cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, and all other skin diseases and affections. S. S. S. is made entirely of roots and herbs, a safe vegetable remedy.

For six years I was severely troubled with Eczema, located principally on the shin bones, caused by a humor in the blood. The trouble would appear in the form of small yellow blisters, characterized by itching, etc. I tried sarsaparilla, so-called blood purifiers, salves, ointments, lotions and treatment under a local physician, but nothing did me any good. Becoming discouraged I left off all this treatment, and seeing S. S. S. advertised one day I decided to try it, and after taking it a short while the humor was driven from my blood and I was completely and permanently cured. Some seven months have elapsed since I was cured and have had no indication of a return of the disease. G. C. RECK, 404 Freedom St., Alliance, O.

The gubernatorial race at this stage of the game is rather complex, but in time it may become more simplified. With politicians, lawyers, state officials, doctors, farmers—and goodness knows who else—trying to break into the arena, it is a pastime of flip to venture an opinion. Something doing in Texas in 1910.—Nacogdoches Sentinel.

As good citizens, as plain and unassuming suffragans, we should welcome the candidacy of lawyers, preachers, farmers, bankers, doctors, drummers, editors, chicken peddlers, fishermen and cotton pickers for the offices at our disposal. It gives us opportunity to choose what seems to be the best that is offered, and to wish, a little later, that we had chosen something else.—Dallas News.

If you can show some people where they can get dollars out of a proposition, they are willing to invest a few cents.

from a Farmer.
Editor Sentinel:
A few days ago there was a gentleman here in the interest of a creamery. There is nothing that would pay better than a creamery. If the business men of Nacogdoches will just imagine from two to three thousand dollars turned loose every month among the farmers around this city, it will probably interest them in a creamery. The farmers are asking for this enterprise. We feel interested and are ready to furnish the raw material and to back it up as best we can, and in any way we can. Certainly the business men of this city will not let this opportunity pass, but will aid us in fighting the boll weevil. Let's hear from other farmers and business men on the proposition. A Farmer.

HISTORY OF MELROSE

Interesting Reminiscences in Early Days of the Nacogdoches Town That Was Destroyed By Fire Last Week.

(Lufkin Tribune)

A day or so ago it was announced by the Tribune that the little town of Melrose, up in Nacogdoches county, had been wiped out by fire. The writer was indeed sorry to hear of this calamity because it must mean a great deal in more ways than one to the good people of the little hamlet that was burned, and as a matter of course, to the surrounding country.

In contemplating the story of Melrose, memory goes back a long, long way—back to the time when good old Dr. Johnson and his good wife came from some of the old states, far away and settled in the wilderness.

Dr. Johnson lived there many years, and so did his good wife. They now sleep side by side "in the shadow of the pine" near the place they redeemed from the wilderness long ago.

Uncle John Matthews was another old time settler and pioneer, and in memory the writer still sees him as he used to toil around the old fashioned horse gin which he built with his own hands. The first cotton the writer ever saw ginned was at this gin and it used to be one of the greatest ambitions of the writer's life, when a child, to get to the point where he could drive the mule that made the gin run, around in the circle all day long. Uncle John Matthews was a good man, a mighty good man. Finally he took sick and lay for months on the bed of affliction. He was a devout member of the Baptist church and knowing that the end was near he expressed a desire to hear one more sermon preached. He was accordingly carried in his bed to the Baptist church at Melrose, and the bed was placed in the church directly in front of the pulpit. Rev. T. S. Reese preached that day and it was a noted sermon, and it was also the last that Uncle Johnnie Matthews ever heard, because he died a few days later. The church house filled with people that day and the sermon was a noted one and preached by a capable preacher. Then there was Squire Sam Hamill, another noted character in his day and generation. There was not a lazy bone in his body and he built a carding factory a mile or so east of Melrose. To this factory people brought wool from far and near, to be carded and Uncle Sam carded it on the "shares," he taking so much of each person's wool for carding the whole. He accumulated a considerable lot of wool in this way, and sent it at various times to Shreveport, Natchitoches and other points to market. The motive power of the carding factory was a thread mill operated by two patient oxen who walked all day long on the ever moving floor, and never made any distance either. The iron works of this old carding factory were brought several years ago by Fayette Muckle-roy and moved to his shop

three miles north of Melrose, and they are probably there till this day.

Uncle Sam Hamill also established a tan yard one mile north of Melrose, on a little branch that still goes by the name of Tan Yard branch.

He tanned hides one-half for the other and did a thriving business. A few years ago, while on a visit to the old home among the red hills, the writer located the exact spot upon which this old tan yard was located, and even the outline of the old vats was still there.

One night a severe storm swept the country and blew down hundreds of oak trees. In order to preserve the bark of the trees, which was used in tanning leather, Uncle Sam Hamill hired every man and boy in the country to peel the bark off the fallen trees and bring it to the tan yard. Uncle June Harris, now living at Garrison, once told the writer that the first money he ever earned, was paid him by Uncle Sam Hamill for peeling the bark of post oak trees after they had fallen.

Uncle Sam Hamill moved away from Melrose and died in a strange land far from the rippling song of the little brook to which he gave a name, but it still bubbles forth just as it did half a century ago and murmurs away in the sunlight and moonlight, singing the songs of other days when the old tan yard brought busy and happy people to taste its clear waters.

Dr. Leak, L. T. Barrett, B. Hardeman, Joe Blakely, E. A. Day, Jack Matthews, Capt. Mast, Jim Lee, Joe Rector, Carr McClure, Lindsey Davis, Doc Simpson, Al Seale, Dick Robinson and a number of other well known names now recur to memory. Many of these mentioned have long since passed over the river.

Another unique character of old Melrose in its earlier days was Jonathan Swift, Grandpa Swift as he was called by all who knew him. He came from North Carolina to Melrose, and the entire distance was traveled in a two wheel home made cart. His daughter, Bettie, accompanied him and married in Nacogdoches county. She became the mother of a large family and lived to be very old. She was buried by the side of her father in the family burying place at old Cross Roads church.

Grandpa Swift was a character. Three miles north of Melrose and Martinsville road he settled and built a chair and bed factory. He worked every day except Saturday and Sunday, and every Saturday he would take his little brown jug and walk to Melrose and have it filled with good whiskey. One Saturday while the old man was in Melrose a terrible hurricane swept through the country, and blew down thousands of trees. On his way home the old man got bewildered in the fallen timbers, and wan-

dered from his course and remained lost in the woods three days. When found he had drunk his jug dry and was almost famished for water.

The old man used to sit for hours at a time whittling and making sharp sticks. It used to be the childish delight of the writer to be given one of these pretty sharp sticks to play with.

Melrose is an old settled place, about as old, in fact, as Shreveport, Louisiana, and is directly on the old San Antonio road that was laid out by St. Dennis in 1714. It is well situated and is surrounded by an excellent farming country, populated by excellent people.

The State of Texas,
To the Sheriff or any Constable of Nacogdoches County, greeting:

Oath having been made as required by law, you are hereby commanded to summon Berry Patton by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Nacogdoches county, to be held at the Court House thereon, on the 2nd Monday in September A. D. 1909, the same being the 13th day of September A. D. 1909, in a suit, numbered on the docket of said Court No. 88, wherein Lula Patton is plaintiff, and Berry Patton is defendant, and said petition alleging that plaintiff is an actual bona fide resident of the county of Nacogdoches and State of Texas, and was for six months next preceding the filing of this suit, and that the whereabouts of defendant are wholly unknown to this plaintiff. That on or about November 5, 1909, plaintiff and defendant were lawfully married to each other in Nacogdoches county, and thereafter lived together as husband and wife until December 10, 1906, when because of harsh, unkind and tyrannical treatment this plaintiff was forced to leave defendant with the intention of never returning to him as his wife. That defendant made, immoral and illegal proposals to this plaintiff, caused her great humiliation and mortification. That immediately after such proposals and propositions plaintiff left defendant and has not lived with him since.

That during the time they so lived together as husband and wife, plaintiff alleges that she was kind and dutiful wife, always performing her marital vows, as best she could.

Wherefore plaintiff prays that Citation issue commanding defendant to answer this petition and that upon final hearing hereof she have judgment, dissolving said marriage and for such other relief that she may be entitled to, all of which is more fully set out in plaintiff's original petition, now on file in this office to which reference is made.

Herein fail not, but have before said Court, as its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, Arthur A. Seale, Clerk of the District Court of Nacogdoches county, Texas, on 2nd day of January 1902, and lived together as husband and wife until on or about the 22nd day of October 1908. When plaintiff abandoned defendant, for cruel, excessive and ill-treatment, inflicted upon her by said defendant, and has not lived with said defendant since said date of their separation. That their further living together as man and wife is unsupported, as fully set out in plaintiff's petition.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, Arthur A. Seale, Clerk of the District Court of Nacogdoches county, Texas, on 10th day of August A. D. 1909.

It troubled with indigestion or constipation give them a trial. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at our drug store.

Young Man Hurt.
Word was received here this morning that a young man by the name of Fred Becker, workman at the ice plant at Lufkin, was painfully and maybe seriously hurt. He had just finished loading a car of ice and swung on the car to ride when a switched car struck him, knocking him off and injuring him considerably.

Scared with a Hot Iron.
Or scalded by overturned kettle—cut with a knife—bruised by slammed door—injured by gun or in any other way—the thing needed at once in Bucklers Arnica Salve to subdue inflammation and kill the pain. It's earth's supreme healer, infallible for Boils, Ulcers, Fever, Sores, Eczema and Piles. 25c at Stripling, Haselwood & Co. w

Mrs. Shirley Dead.
Mrs. J. J. Shirley, an old and respected lady died yesterday at her home near Syady Grove and will be buried in that cemetery this afternoon. Mrs. Shirley was about 65 years old. She leaves 7 children all who are grown. The Sentinel with friends extend sympathy to the bereaved family.

The Crime of Idleness.
Idleness means trouble for any one. Its the same with a lazy liver. It causes constipation, headache, jaundice, sal-low complexion, pimples and blotches, loss of appetite, nausea, but Dr. King's New Lite Pills soon banish liver troubles and build up your health. 25c at Stripling, Haselwood & Co. w

E. Hogan and daughter, Miss Emma, of Mahl, were here today en route for Yell county, Arkansas, to visit relatives a week or ten days.

'Twas a Glorious Victory.

There's rejoicing in Federa, Tenn. A man's life has been saved, and now Dr. King's New Discovery is the talk of the town for curing C. V. Pepper of deadly lung hemorrhages. "I could not work nor get about," he writes, "and the doctors did me no good, but, after using Dr. King's New Discovery three weeks, I feel like a new man, and can do good work again." For weak, sore or diseased lungs, coughs and colds, hemorrhages, hay fever, la-grippe, asthma or any bronchial affection it stands unrivaled. Price 50c. and \$1.00. Trial bottle free. Sold and guaranteed by Stripling, Haselwood & Co. w

This good road movement is a mighty good thing for the people of Nacogdoches county. More good roads will mean more farmers and more prosperity for these farmers.

Cholera Infantum Cured.
"Something like two years ago my baby, which was then about a years ago, was taken seriously ill with cholera infantum, vomiting and purging profusely, writes J. F. Dempsey of Dempsev, Ala. I did what I could to relieve her but did her no good, and being very much alarmed about her went for a physician but failed to find one, so I came back by Elder Bros. & Carter's store and Mr. Elder recommended Chamberlain's Colic, Cholera and Diarrhoea remedy. I procured a bottle of it, went home as quickly as possible and gave the baby a dose of the remedy. It relieved her in fifteen minutes and soon cured her intirely. Stripling, Haselwood & Co. w

THREE tobacco ware houses for Nacogdoches ought to make that industry come to the top a whizzing now. And it will if the people will let it and help it. Grow tobacco. It is as staple as cotton and lots more money can be made out of it than all the rest of the crops put together.

Washington's Plague Spots.
Lie in the low, marshy bottoms of the Potomac, the breeding ground of malaria germs. These germs cause chills, fever and aeue, biliousness, jaundice, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malaria troubles. "They are the best all-round tonic and cure for malaria I ever used," writes R. M. James, of Louellen, S. C. They cure Stomach, Liver, Kidney and Blood Troubles and will prevent Typhoid. Try them, 50c. Guaranteed by Stripling, Haselwood & Co. w

TALK up the butter factory Mr. Farmer. Needn't expect the business men to build it for they are not leaning that way. About the only way to get the butter factory or any other "wage giving" plant, is for an outsider to come in or the country people to take the lead. Sure need a creamery.

Another Record Today.

Sweltering old East Texas is the way it is these days, and the more days that come the more sweltering is done. Monday went 100 in the shade, the highest on record, yesterday pushed that small figure to one side with 105 and today at one thirty o'clock the mercury climbed to 106 1-2 with a very flattering offer of 108. That is hot some and please remember. People who are pretty well acquainted with things and conditions say the weather is injuring cotton more than one would imagine, and if the extreme heat does not give way to cooler days, the damage will be great indeed. The weather man in his daily report off-ers no relief as yet, saying "fair tonight and tomorrow". Last night however was some cooler than the night before, but from indications this afternoon, this night will be a hummer in the humidity line.

Wanted Oct. 1st two good men to work for high class proposition that will pay them \$5.00 to \$7.00 per day. Address to Box 264, Nacogdoches, Tex. 6td-1w

Chamberlain's Colic, Cholera and Diarrhoea Remedy Never Known To Fail.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Ind. Ter. LUFKIN is talking about another hotel,—a three story structure. From all reports Lufkin needs more farming lands and more producers rather than more city improvements;—and some more newspapers. Only four there now, two dailies and two weeklies.

Intense Colicky Pains Relieved.
"For some years I suffered from intense colicky pains which would come at times and from which I could find no relief," says I. S. Mason, of Beaver Dam, Ky. "Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me by a friend. After taking a few doses of the remedy I was entirely relieved. That was four years ago and there has been no return of the symptoms since that time." This remedy is for sale by Stripling, Haselwood & Co. w

Miss Gladys Tussell of Glen Fawn arrived today to spend a week with Miss Callie Pearson.

Granulated Sore Eyes Cured.
"For, twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me [any trouble] since." This salve is for sale by Stripling, Haselwood & Co. w

Four Points to be Considered.

There are four points that should be considered in selection a school to attend.

First: The school's financial standing, for the student does not want to attend a school today that will pass out of existence tomorrow. The Tyler Commercial College of Tyler, Texas, has a paid in capital and surplus of over \$60,000.00. It is owned and operated by men who have proven themselves successful business men.

Second: The moral surroundings. Our teachers are ladies and gentlemen of the very highest character. We look after our students while in school, we encourage them in honesty and uprightness. We teach them that true success is built on the foundation of honesty, a square deal to everyone.

Third: The systems and methods used. We use the famous Bryne systems of Shorthand and Bookkeeping, which enables us to turn out a better bookkeeper or stenographer in half the the time at half the cost of other schools teaching other systems. We have the exclusive control of these systems in this state. Therefore, the Bryne systems are a case of "sour grapes" to our competitors. The fact that we turn out better stenographers in three months than they can in six, and place our graduates into better positions than they can, is what should interest the prospective student. Read our catalog, see the indorsements from hundreds of students and business men.

Fourth: Our ability to place you in a good position; after we have thoroughly prepared you, you then need our assistance in securing a good position with a responsible firm, where you can earn a good salary. We realize that in order to succeed, our students must succeed; the greater their success, the

greater our success; their success reflects credit upon our institution and causes their friends to follow in their footsteps. What is the use of your attending a school six months to get an education that can be had in our school in three months? The other fellow hasn't the advantage of our most modern systems, therefore, it is utterly impossible for him to make a good stenographer or bookkeeper of you in three or four months.
