Frank Parsons is Dead

According to the finding of the jury in the Frank Parsons case, which has been on trial in the district court since Tuesday of last week, Frank Parsons was killed in the explosion which wrecked the Lufkin depot on March 2nd this year.

The case was submitted to the jury last night at 11:30 on one special issue only, "Was Frank Parsons Killed by the Explosion in Lufkin on March 2nd, 1913?" to which special issue the jury answered, "Yes," signed C. M. Walters Foreman.

As stated above this case went to trial Tuesday of last week, and has occupied the attention of the court since then, and has been contested by able counsel on both sides. Mrs. Parsons was suing to recover on the insurance policy on the life of Frank Parsons, who was alleged to have been killed when the depot at Lufkin was destroyed by an explosion of dynamite and gasoline on March 2nd this year. The insurance company was defending the suit, claiming that he was not killed.

The argument of attorneys began yesterday afternoon at a few minutes past 8 o'clock, and the court limited the argument to seven hours, or three hours and a half to side. The arguments were concluded last night after eleven o'clock, and the case submitted to the jury, who this morning at 8:30 brought into court their finding.

Uncle Sam Reports on Texas Metals
Washington, D. C. October 14.—Precious and semi-precious metals mined in Texas in 1912 had a value of \$269,274, according to a bulletin issued today by the Geological Survey. These metals consisted of silver, gold, copper, lead and zinc, the most important being silver.

Doing Good Job on Logansport Street.

One of the best pieces of road work that has been done on any of the city streets for quite a while is that now in progress at the corner of Park street on Logansport. At this point there used to be one of the worst mud holes to be found anywhere in the city and at times it was difficult to get a wagon through it. There was no outlet for the water which came down the street and when it reached this point it spread out over the street and remained in a pond.

The old wooden culvert has been taken out, and in its stead Pat Murphey has put in a sewer connection on each side of the street and has connected it with the large storm sewer which extends from the W. T. Wilson property down and across Park street. The street has been filled in several feet and widened, and now the city teams are grading Logansport street to the top of the hill beyond, rounding it up nicely so that it will shed the water to each side so that it will go off into the storm sewer.

Park street from the corner of Mound, past this point and on to Bois d'arc street will be worked, and when the job is completed it will be the best work and the most permanent that has been done in a long time on any of the streets.

Future of Grain Prices in America.

"A careful analysis prepared by the Orange Judd service bureau shows that the price of grain in the United States and Canada is more closely affected by the supply and other conditions in the United States and Canada than by the world's supply or Liverpool prices," remarks Southern Farming, adding: "The area of tall sown oats and other grains will be greatly increased this month throughout the South, as a result of the world-wide shortage. Next year will see more acres devoted to corn and small grains in the South than ever before."

FAIR DATES DETERMINED.

East Texas Fair to be Held November 19th, 20th, 21st and 22nd, Nacogdoches Texas.

At a special meeting of the stock holders of the East Texas Fair Association, held at the city hall Wednesday night the matter of dates for the holding of the East Texas Fair came up for discussion, and it was finally decided that the Fair would be held in Nacogdoches beginning on Wednesday, November 19th and extending through Saturday, November 22nd, and that Woodman Day would be Friday November 21st.

It will be remembered that the fair was postponed on account of the recent continued rains and the consequent damage to the farmers in their crops, which necessitated them staying close on the job after the rains quit in order to save as much of their stuff as possible. The rains have ceased now, the farmers will have their crops all harvested and their fall plowing finished by the time the fair will be held and it is expected that the fair will be much better than it would have been had it not been postponed.

Renewed activity is in evidence on every hand at the fair grounds now and by the dates for the opening everything will be as neat as a pin and a splendid fair will be the outcome.

Grand Methodist Rally and Home Coming.

On the Fourth Sunday of the present month (October 26th) there will be held in the First Methodist Church of this city a Grand "Home Coming" at which it is hoped that every member will be present. Plans have been made to have all the pastors present who have served the Church for many years past, and a time of good fellowship and enthusiastic greeting is anticipated. Let no member be absent, and "Whosoever will may come" as the public is also cordially invited. The exercises of the day will begin at 10:30 a. m.

S. S. McKenney, Pastor.

The Methodist Church.

"The Moral and Religious Obligations of Methodists" will be the subject of the pastor, S. S. McKenney Sunday morning at 11 o'clock.

At 7:30 p. m. he will preach an evangelistic sermon. Sunday school 9:45 a. m. The public is cordially invited to each of the services.

Will Not Run for Sheriff.

In conversation with J. L. Burrows, constable of Precinct No. 1, on the streets Monday he informed us that he had decided not to run for the office of sheriff at the approaching election. The announcement of this decision, he states is to advise his friends whom he had told that he was contemplating running for sheriff so that they would be free to do as they wished with reference to the candidacy of any one who might get into the race.

Mr. Burrows for a time had under advisement the matter of running for sheriff, and had told some of his friends over the county; but since then he has decided that he is not ready to tackle that race, in fact is not in a position to make a good sheriff, but has decided to again offer for the office of constable of Precinct No. 1.

He wishes to thank his friends for their offered support, and to assure them that he highly appreciates the interest they have shown.

Mexicans Sent Back.

Eagle Pass, Texas, Oct. 13.—On the ground that they were likely to become public charges, American immigration authorities today returned to the Mexican side 200 refugees, who crossed the Rio Grande before the Federal occupation of the Piedras Negras. The refugees protested vigorously declaring they would be killed.

Government Issues Preliminary Clay Product Report.

Waxachachie, Texas, Oct. 13.—Advance chapters of a government bulletin showing detailed data of clay working industries of Texas for 1912, have been received by the producers in this city. The report is issued by the United States Geological Survey and shows that the value of the output of clay products in Texas in 1912 was \$2,886,068, an increase of \$226,150, or 8.5 per cent over 1911. The principal product is common brick valued at \$1,590,960, or 55 per cent of the total output of 1912. Compared with other states, Texas takes eleventh rank, having wrested that position from Washington during the past year. It is the leading producing county in this industry. In the entire state there are 114 operating firms compared with 118 in 1911.

Orton Hill Needs Working.

Since the recent continued rains and the heavy traffic over the road before it had dried out, the road up Orton Hill is in a fearful condition and should be attended to at once. It is now very difficult for a loaded team to come down the hill on account of the washed out places, to say nothing of the effort to ascend.

When this stretch of road was worked last, it seems that a little ridge was left by the grader next to the outside edge of the road and when the rains came the water ran down the middle of the road. There are two springs on the hill and the water from these keeps the road in bad shape.

Onion Worm in America.

Washington, Oct. 8.—The department of agriculture announced today that the tylenchus devesatrix has invaded the United States and the future of the onion industry was in jeopardy. The invader with the imposing name is known also as the onion eel worm. Hitherto it has confined its operations to Europe, Africa and Australia, when it has wreaked havoc.

Government experts in warning growers of onions, do not minimize the gravity of the appearance here of the eel worm. It seems impervious to the chemical remedies that have been tried for its eradication and the egg of the insects the experts declare, will survive two years of complete dryness.

The pests attack all floral and vegetable bulbs and is regarded as highly dangerous. In view of this the department urges that all infected plants be sent to it for microscopical examination.

"ALTON & HALTOM, Proprietors.
GILES M. HALTOM, Manager.

The fact that the party who left a team standing all night on the public square told different stories in explanation, is pretty good evidence that he was either ashamed of his act, or was endeavoring to escape a just punishment for it.

We can't understand just why a number of our exchanges, and those from smaller cities, are giving so much space to criticisms of the latest styles of dress for women. These freakish fashions seldom become popular in the smaller towns, and for this reason the men folk are "shocked" so seldom that they rather enjoy it. There is certainly attractiveness about these slit skirts of flimsy material or transparent, unless they are worn by our wives or daughters.

Even the farmers of Angelina county are offering to donate funds toward the paving of the streets of the city of Lufkin, yet the city is doing nothing toward it themselves. Angelina county is suffering from the effects of bad roads, and the city of Lufkin is suffering from the lack of good streets, still the newspapers of that city are claiming that Angelina is the best county to be found anywhere. Fertile soils, mild climate and good seasons are not all that is required to make a good county that will attract the best immigration, there must be progressive citizens.

Nacogdoches is enjoining the authorities from paving the streets, and Lufkin quit holding the annual county fair, and yet we hear that both places are progressive to beat the band.—Houston County Times.

The Times is in error. Nacogdoches is not enjoining the authorities from paving the streets. Only a very small percent of her citizen ship is opposed to the move, and a few non-progressive citizens are the ones who attempted to enjoin the city; but so far they haven't had any luck at it. The paving will be done, despite their protests, and after it is completed these same citizens will be as proud of the improved appearance of the city as any of the most progressive could be.

In this day and time the world is inclined to accept a man at his face value and he sets the price himself. The world has no patience with the man who surrenders to trouble and manifests his weakness in looks and tone, but admires and is willing to help the plucky fellow who comes up smiling and tries again. Very few men can climb the hill unaided, but it his face is turned towards the summit and his foot-hold is placed on courage and determination he will get all the assistance he needs to help him along. Likewise if he turns his face downward there will be just double the number to assist him on his way.—Timpson Times.

Will Receive His Reward.

Big Tim Sullivan, of New York, a member of congress, was run over and killed by a train several days ago. Sullivan was one of the world's oddities. At the age of nine he was a newsboy in New York. He lived out his days on the Bowery and in other tough districts of the great city, and in ways considered questionable by most of us amassed a great fortune. But he had a great big heart, a heart that was touched by the woes of the unfortunate. He spent hundreds of thousands of dollars clothing and feeding the destitute of the tenement districts of the great city. It is said of him that no one in need of food or clothing or fuel ever appealed to him, in vain—in fact he seldom waited for an appeal, but made inquiry for the needy and sent the things needed to them. It is no wonder that thousands of the poor eastsiders viewed his remains and wept over the loss of their friend. And no matter how imperfect his life in other ways, we cannot but believe that Tim Sullivan received credit in the courts above for his deeds and that it will be better for him in that day than for many who make greater pretensions, but who must hear the Master say the awful words, "inasmuch as ye did it not unto these my brethren ye did it not unto me."—Honey Grove Signal.

Smith Buys in With the Record.

E. R. Smith, who has been identified with the Morning News at Waco for some time past, and who was secretary of the company publishing same, has bought stock in the Evening Record of this city, taking over the stock of A. M. Cohen, is the announcement made on the street today.

Mr. Smith is a good newspaper man, and an old Palestine boy, and he has some good friends here.

The Herald hopes Mr. Smith will find his new place pleasant and profitable.—Palestine Herald.

Texas Products to Canal Zone.

Galveston, Texas, October, 9.—With a cargo of 300,000 feet of Texas lumber on board, the steamship Sousa left this port Thursday enroute to Colon. The ship also carried fifty tons of fertilizer consigned to the Canal Commission. The lumber was billed to the Isthmian Canal Commission and will be used in construction in the canal zone. This sale of Texas products was made possible by the recent visit of the Texas trade evangelists to the canal zone.

Senator James K. Vardaman of Mississippi has announced that he will oppose vigorously the confirmation of every colored man nominated to a federal office except minister to Liberia. Why exempt Liberia? There are hungry Democrats everywhere who would be willing to accept jobs in darkest Africa, or brownest India or yellowest China. Given the hungry ones a chance.—Fort Worth Record.

DALLAS - TEXAS

Students of the University of Texas are publishing a daily newspaper. "The Daily Texan" is the first College daily ever published in the South. Many of the great State universities of the West publish a daily, but it remained for the energy of the young Texans to inaugurate it in the South. "The Daily Texan" fills a medium of community of over twenty-one hundred persons. Faculty and students are enabled to come in closer contact and unsightly advertising is avoided. After the sixth issue it was found necessary to increase the size of the paper from a five to a six column sheet. All the editing, managing and collecting of news is done by students. The editors and managers receive a salary, most of them being self-supporting students.

Nobody outside of a newspaper office dreams of the number of people there are who never show the least appreciation of the many nice things said about them and their families, but who will jump at the first chance to find fault with the editor should something appear in his paper which they can construe as a reflection on them. And as a general thing the editor never had them in mind when the article was penned.—Florida Parish es.

Those Beaumont Boosters.

From Friday's issue of the Beaumont Enterprise we clip the following from the write-up of the Beaumont Boosters train which tied up here Wednesday night and remained until 9 o'clock Thursday morning, while the boosters paid our city a visit and met some of our business people:

THE STOP AT NACOGDOCHES.

The Beaumont party was due to arrive at Nacogdoches at 9 o'clock on Wednesday night but did not get in until nearly 1 o'clock. The tired excursionists had retired to their berths some time before Nacogdoches was reached. A number of Nacogdoches people had waited at the station until nearly midnight, but all had gone to their homes before the train rolled in.

The train was parked for the remainder of the night at Nacogdoches, and the excursionists were astir early yesterday morning, partaking of a splendid breakfast in the improvised dining car. Breakfast over, the party, headed by the band, marched up a hill to the city and spent an hour mingling with the business men, going into the stores, the banks, the newspaper offices, renewing acquaintances and making new ones.

Just as the party was ready to leave, H. P. Eastman, principal of the high school came to Secretary Larkin and stated that 600 school children, who had just assembled for the day's session, would very much like to hear the band. Mr. Larkin gave the order for the band to proceed to the school building at once, stating that those children should not be disappointed even if it were necessary to revise the train schedule.

The Beaumont people who accompanied the band to the high school there found one of the most modern in this entire section, situated on a beautiful knoll flanked on either side by the gigantic and beautiful elms and oaks which add so much to the attractiveness of Nacogdoches. The children showed by their happy faces and their cheers that they enjoyed the music hugely.

About the most important event that has transpired in the history of that city since Sam Houston further recruited his little body of pioneer soldiers there and started west to engage in a war that made a new nation and later added a new state to the union, was the starting yesterday of the work of paving Nacogdoches streets. Like all other improvements of this character, paving had been agitated for a long time, but yesterday saw it pass out of the plane of agitation toward fruition.

Nacogdoches has many beautiful homes and the handsomest and most commodious courthouses in East Texas.

"Come again" was on the lips of all the people, and the excursionists agreed that a second invitation will not be necessary when another trade excursion is projected.

Wants Home for Re-Cross.

The American Red Cross Society has been kicked about among the government buildings of Washington, occupying obscure corners because of the friendship of the administration, ever since its organization, and now it has been suggested to Congress that the government should appropriate \$400,000 for a building which might at the same time stand as a memorial of the northern and southern women of the civil war. "The women of the civil war made much of the sacrifice, and have received none of the glory" declares Miss Boardman, the real head of the organization, who adds: "No more suitable memorial of the heroism of the mothers and wives could be arranged than a building dedicated to the perpetuation of the work they did during the war." According to Miss Boardman, the Red Cross has administered fully \$10,000,000 to relief during the past seven and a half years.

Coal Output Breaks All Records.

Bridgeport, Texas, October 9.—In 1912 there were 2,188,612 tons of coal, valued at \$3,755,744, taken from the Texas mines, breaking all previous records both in quantity and value. The average price per ton was \$1.67, the bituminous running \$2.31 and the lignite 89 cents per ton. The mines operated 230 days in 1912, and furnished employment to 5,127 persons. The Texas coal mines were practically free from labor troubles, there being only four instances of idleness from that cause in 1912. Only 238 men were affected, and the average number of days lost was 7. Some of the principal producing mines are located in the vicinity of Bridgeport.

of silence." In this prison everything that human ingenuity can suggest to render the lives of its prisoners a horrible, maddening torture is done. The corridors, piled tier on tier five stories high, extend from a common center like the spokes of a huge wheel.

The cells are narrow, tomb-like and within each stands a coffin. The attendants creep about in felt slippers. No one is allowed to utter a word. The silence is that of the grave. Once a day the cell doors are unlocked and the five hundred wretches marched out, clothed in shrouds and with faces covered by masks, for it is part of this hideous punishment that none may look upon the countenance of his fellow prisoners. Few of them endure this torture for more than ten years.—Baltimore Sun.

Texas Sheep Win First Prize At Indiana

Indianapolis, Ind., Oct. 9.—A herd of Rambouillette sheep owned by Sam Hill of San Angelo, Texas, one of the best known sheep raisers in that state won first prize at the state fair just closed here. These animals competed with some of the best blooded sheep in the county at this exhibition. This prize heard of Rambouilletes will be exhibited at a number of other state fairs before being returned to Texas.

A Spineless Cactus Ranch.

E. Paso, Texas, October, 7.—Spineless cactus is to be grown here on a large scale by Mrs. E. V. Pickerel, a ranch owner of this city. Mrs. Pickerel is 74 years old and is the first person to contemplate establishing a cactus ranch in the southwest. She has ordered 700 of Burbank's samples and will plant these on her property near this place and later largely increase the amount. The product will grow and thrive in almost any kind of soil and requires little attention. It is considered a splendid forage for horses, cattle hogs and poultry.

The Nacogdoches fair, which was to have been held this week, has been postponed on account of continued rains, and the dates of the show will be announced later, as soon as determined upon by the members of the executive committee. The fair management no doubt acted wisely in the matter, and their decision will be appreciated by a great many people who would regret missing same, but could hardly hope to attend under present conditions, especially those from the country. The News hopes fair weather will prevail when the exposition is finally given.—Lufkin News

Women of Middle Age

From 40 to 50 Woman's Critical Period.

Such warning symptoms as sense of suffocation, hot flashes, severe headaches, melancholia, dread of impending evil, palpitation of the heart, irregularity, constipation and dizziness are promptly treated by intelligent women who are approaching the period of life.

This is the most critical period of woman's life and she who neglects the care of her health at this time invites incurable disease and pain. Why not be guided by the experience of others and take Lydia E. Pinkham's Vegetable Compound? It is an indisputable fact that this grand old remedy has helped thousands of women to pass through this trying period with comfort and safety. Thousands of genuine and honest testimonials support this fact.

From Mrs. HENRY HEAVILIN, Cadiz, Ohio.
Port Worth, Texas.—"I have taken Lydia E. Pinkham's Vegetable Compound and derived great benefit from its use. It carried me safely through the Change of Life when I was in bad health. I had that all gone feeling most of the time, and headache constantly, I was very nervous and the hot flashes were very bad. I had tried other remedies and doctors, but did not improve until I began taking Lydia E. Pinkham's Vegetable Compound. It has now been some time since I took the Compound and I have had no return of my old complaints. I always praise your remedies to weak women."—Mrs. HENRY HEAVILIN, R. F. D. No. 5, Cadiz, Ohio.

From Mrs. EDWARD B. HILBERT, Fleetwood, Pa.
Fleetwood, Pa.—"During the Change of Life I was hardly able to be around at all. I always had a headache and I was so dizzy and nervous that I had no rest at night. The flashes of heat were so bad sometimes that I did not know what to do.

"One day a friend advised me to take Lydia E. Pinkham's Vegetable Compound and it made me a strong, well woman. I am very thankful that I followed my friend's advice, and I shall recommend it as long as I live. Before I took the Compound I was always sickly and now I have not had medicine from a doctor for years. You may publish my letter."—Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

From Mrs. F. P. MULLENDORE, Munford, Ala.
Munford, Ala.—"I was so weak and nervous while passing through the Change of Life that I could hardly live. My husband had to nail rubber on all the gates for I could not stand to have a gate slam. I also had backache and a fullness in my stomach. I noticed that Lydia E. Pinkham's Vegetable Compound was advertised for such cases and I sent and got a bottle. It did me so much good that I kept on taking it and found it to be all you claim. I recommend it to all women afflicted as I was."—Mrs. F. P. MULLENDORE, Munford, Ala.

Drops Dead at Trawick.

A report was received in this city Saturday afternoon to the effect that Jim Watkins of Linn Flat, dropped dead last Friday afternoon, at Trawick, just as he was getting into his wagon preparatory to going to his home. It seems from the report that Mr. Watkins had been to Trawick with a load of cotton, and had finished the trading he had to do and as he started to get into the wagon he staggered backward and fell prone upon the ground. He was taken into a drug store, where he died in a few minutes. Heart failure is supposed to have been the cause.

The many friends of Mr. Roberts will regret to know of his death, though will not be surprised from the fact that he was past 80 years of age.

FIRM FOUNDATION.

Nothing Can Undermine in Nacogdoches.

People are sometimes slow to recognize true merit, and they cannot be blamed, for so many have been humbugged in the past. The experience of hundreds of Nacogdoches residents, expressed publicly through newspapers and other sources, places Doan's Kidney Pills on firm foundation here.

Mrs. E. Astoura, 242 Taylor Ave., Nacogdoches, Texas, says: "Doan's Kidney Pills have been used in my home, being procured at Mast Bros. & Smith's Drug Store. (now Swift Bros. & Smith's Drug Store,) for a dull pain in the small of the back, lameness across the loins and irregular action of the kidneys. They have given great satisfaction. I have seen what Doan's Kidney Pills will do and recommend them to anyone suffering from kidney trouble."

Youthful Miscreants

From Saturday's Daily: Last night City Marshal Weaver and Night Marshal James, caught a youthful miscreant red handed, and after a grilling by the officers he gave the names of his pals, and they too were caught. They will be arraigned before the juvenile court. One of the boys is 13 years old, one is 12 and the other 11.

For some time past the marshal and night watchman have been suspicious that boys were entering stores at night and pilfering, and several weeks ago one boy was caught who had stolen two pocket knives from the store of Gee Bros. He turned the knives over to the officers and on promising to be good was released. Last night the officers secreted themselves in the alley behind the block on the north side of the square and watched. They soon saw a boy go in behind the stores of Tucker, Sittin & Co., and J. M. Spradley, and when he came out they arrested him, and he gave the whole thing away. According to the reports the officers got from the boys they have entered Spradley's store on three occasions, Crosslands store twice and the City Bakery twice, and once each at Taylor Bros., Gee Bros., H. M. Reids blacksmith shop, and also entered the residence of Rev. S. S. McKenney one night.

In their raids the boys took candies, canned goods and cash, and it is stated that they secured in all about \$10 from Spradley. \$9.00 of this amount was recovered.

Entry was made into Spradley's store by removing a pane of glass from the upper sash of one of the back windows, the lower sash being screened and barred. The putty was removed from the glass and it was left so that it could be removed and replaced when they had gotten out of the building.

A Gentle and Effective Laxative

A mild, gentle and effective laxative is what people demand when suffering from constipation. Thousands swear by Dr. King's New Life Pills. Married This Afternoon.

From Monday's Daily: At half past one o'clock this afternoon Judge J. F. Perritte performed the ceremony uniting in marriage Mr. Ellis Hackney and Miss Pearl Wallace.

The young couple drove in from near Attoyac and while seated in their buggy in front of the court house, plighted their vows.

These are very popular young people of the Attoyac country, come of good families, and have bright prospects for a happy and prosperous life before them. The Sentinel joins with their many friends in extending congratulations.

The Family Cough Medicine

In every home there should be a bottle of Dr. King's New Discovery, ready for immediate use when any member of the family contracts a cold or a cough. Prompt use will stop the spread of sickness. S. A. Stid, of Mason, Mich. writes: "My whole family depends upon Dr. King's New Discovery as the best cough and cold medicine in the world. Two 50c. bottles cured me of pneumonia." Thousands of other families have been equally benefitted and depend entirely upon Dr. King's New Discovery to cure their coughs, colds, throat and lung trouble. Every dose helps. Women Who Get Dizzy

Every woman who is troubled with fainting and dizzy spells, headache, weakness, debility, constipation or kidney troubles should use Electric Bitters. They give relief when nothing else will, improve the health, adding strength and vigor from the first dose. Mrs. Laura Gaines of Avoca, La., says: "Four doctors had given me up and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so and they have done me a world of good." Just try them. 50c. and \$1.00 at all druggists or by mail. H. E. Bucklen & Co. Philadelphia or St. Louis dw

Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00. James F. Ballard, Prop. St. Louis, Mo.

Woman's Danger Signals

Hot flashes—dizziness, fainting spells, headache, bearing-down feeling and lills of a kindred nature—are nature's danger signals. The female disturbance or irregularity back of these calls for help, should have immediate care and attention. Otherwise the delicate female constitution soon breaks down.

Dr. Pierce's Favorite Prescription

For more than 40 years has been leading its health restoring aid to thousands of women year after year throughout its long life.

This wonderfully successful remedy imparts strength to the entire system—particularly to the organs distinctly feminine. Nerves are refreshed. The "stale", overworked business woman, the run-down house-wife, and the weary care-worn mother of a family—all will gain strength from this famous prescription which 40 years has demonstrated its effectiveness—in liquid or tablet form.

Avoid Sedative Cough Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codeine, morphine heroin and other sedative when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. More Than Enough is Too Much. To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Tablets and you will soon be all right again. For sale by all dealers. dw

Pilar Street Registers Kick.

Editor Sentinel:

A week or so ago an article appeared in your paper about cows being allowed to walk on side walks on certain streets in the city.

Down on Pelar Street, which is one of the streets of this town and as public as any street in the town, but not generally known.

The city authorities seems to have no jurisdiction on this street as they have been appealed to time and time again.

Loose horses, cows and pigs find a pleasant resort on Pelar street; bicycle races take place daily, and if a drove of cattle, or any other kind of animals come along with five, six, or eight men driving them all but one hit the side walk.

The city has ordinance which cover all of these violations, and they should be enforced.

City Building Notes.

Rest means rust. Get right with your community. Tell the truth about your city. There is no lethargy in city building. Consequential citizens construct cities. Capital follows the lines of least resistance. There are no growing pains in the growth of a city. The key to success fits the front door of the commercial club. In city building a little optimism is worth more than all the pessimism in the world. Human energy, intelligent activity and breadth of vision are the most necessary essentials in city building. Untie the strings that bind the money bags at home before you go forth looking for foreign capital. Cities are erected where men want them regardless of natural advantages—Salt Lake City was erected in the heart of a desert. Mr. Dry Goods Merchant, if you buy your furniture in another city, can you chide the furniture man if he sends away for his wife's gown? The proper education of

the boys and girls should have as much place in the activities of a commercial organization as the securing of a factory.

The home merchant is entitled to your patronage. He bears the larger part of the local taxes, furnishes labor for the citizens, improves his property and is usually a good neighbor and a credit to the city.—L. M. Ward.

DANGEROUS CALOMEL GOING OUT OF USE.

A Safer, More Reliable Remedy Has Taken Its Place in the Drug Store and in the Home.

A few years ago, men, women and children took calomel for a sluggish liver and for constipation. They took risks when they did so, for calomel is a dangerous drug. Your family doctor will be the first to tell you this if he discovers you dosing yourself with calomel.

But the drug trade has found a safer, more pleasant remedy than calomel in Dodson's Liver Tone.

Stripling Haselwood & Co. tell us that their drug store sells Dodson's Liver Tone in practically every case of biliousness and liver trouble where calomel used to be taken.

Dodson's Liver Tone is a vegetable liver tonic that is absolutely harmless for children and grown people. It sells for 50 cts. a bottle and is guaranteed to be entirely satisfactory by Stripling Haselwood & Co who will refund your money with a smile if it does not give quick gentle relief without any of calomel's unpleasant after-effects.

The Future of the Philippines.

There has been renewed attention to Philippine affairs because of charges appearing to come from reliable sources regarding slavery and peonage. An investigation has been ordered. The United States has been making wonderful progress in the Islands in educating the rising generation so that they will understand the functions of government and know how to preserve their political independence when they obtain it. There is in Congress a considerable element of Democrats who will insist upon action for independence being taken at the winter session in accordance with the declaration of the Baltimore platform, and since there is a wide divergence of opinion upon this subject a spirited fight is certain. The movement will be combatted by the commercial and industrial interests of the Philippines.

The Gentry Bros. Show.

It would be hardly necessary for us to make a report on the performances given by the Gentry Bros. all new feature shows, for about everybody in town was out to see the performances, either in the afternoon or at night, and of course know as much about it as we do, and maybe more. The shows, taken altogether, were clean, clever and very interesting, and some of the acts put on were little short of marvelous. In fact it is difficult to understand how a trainer can handle dumb animals as they are handled and develop such performers. We haven't heard of a single person who attended the shows that was not highly pleased with every feature offered.

There wasn't an objectionable feature anywhere and not a single fake complained of, and the show is much larger than when it was here last, some years ago.

Pull Your Weeds This Fall.

T. Greiner, the well known gardening expert, gives the following advice in the current issue of Farm and Fireside:

"During the latter part of the season I never gather even a small basket of tomatoes or a mess of Limas without having an eye open for weeds, and always stop long enough to pull the weeds from among the tomato or other plants from which I gather the produce. This should be done before the seed on the weed-plant is far enough advanced to have a chance to grow; or if it has, then the weed plant should be removed and destroyed so no seeds will get back on our land."

John W. Norwood Died Suddenly.

Friends of the family were shocked this morning on learning of the death of Mr. John W. Norwood, which occurred at the family home, 428 Conrad street at 1:30 o'clock this morning. Death was sudden, resulting it is believed from a ruptured blood vessel. Decedent had been indisposed for several days, but his condition was not thought to be serious. He was a native of this county, and had spent a useful life. He had been a resident of Palestine for a few years, and was an employe of the L. & G. N. Railroad. He is survived by a wife and two children, and two sisters, and other relatives.

The funeral services were conducted from the home this afternoon at 3 o'clock, and the Woodmen of the World had charge of the service at the grave.—Palestine Herald.

This Whole Damm Family Is Working to Beat Hell.

New York, Oct. 5—Adam Damm, Sr., a wealthy man of Sacramento, Cal., has come to New York to rescue his family name from any blight cast upon it by the competitive fame of the newly risen Hell family of Pennsylvania, which is now advancing claims for superior public attention.

Forty-three years ago Adam Damm followed his brother, August Damm, to America, leaving behind him eight sisters and brothers in Germany, which is the home of the whole Damm family.

Two months ago various news services carried reports of the Hell family in Pennsylvania. Immediately Adam Damm Sr. called a family reunion in Chicago, and with his Hell clippings was there met by his nephew, Philip Strauss, a hotel man, who is very proud of his mother's maiden name, and others. Then the uncle and nephews came to New York to see Peter Damm and several other Damms.

Now Peter Damm, Adam Damm Sr. and Philip Strauss are going to Watertown, N. Y. to visit another branch of the Damm family.

August Damm's sons who lived near New York have disappeared, but the other Damms hope to find them. Two Damm brothers also live in the Central West.

Adam Damm Sr. is proud of the fact that the Damm family is large and hopes the other Damms will be found so that he can show more living members than the Hell family.

Foley Kidney Pills Succeed

Gets Right Twist On Rheumatism

Makes Short Work of Cleaning Out Your Entire System—Aches and Pains Go Fast.

In S. S. S. You Get a Twist on Rheumatism That Settles It.

Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S. and been handed something claimed to be "Just as good." Truly, to ask for bread and be given a stone is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and note its wonderful influence.

S. S. S. has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflicting atom of poison; it dislodges by irritation all accumulations in the joints, causes acid accretions to dissolve, renders

them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all this remarkable remedy is welcome to the weakest stomach. If you have drugged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

Get a bottle of S. S. S. today, and ask for S. S. S.

You may depend upon it that the store that sells you what you ask for is a good place to trade. Write to the Swift Specific Co., 294 Swift Bldg., Atlanta, Ga., for their Book on Rheumatism.

Remove the Cause.

A recent press report announces that ten million flies have been killed as a result of a fly swatting campaign inaugurated by the Civic Club of Harrisburg, Pa. Several Texas clubs have advocated swatting campaigns, and our civic organizations are to be commended for the patriotic spirit manifested, but these movements, like some other American ideas, have sought immediate results rather than the removal of the permanent cause. The proper way to get rid of flies is not by swatting, but by putting the "kibosh" on their propagating plans. Every female fly lays 120 eggs every twelve days. Every new born fly is ready to lay 120 eggs after

twelve days and continue indefinitely. The fly renders a greater service to the medical fraternity than all other disease agents combined. To exterminate these disease dealers, it is necessary to destroy their breeding arrangements. Your druggist can suggest a formula for spraying the stables, trash cans, cellars, cupboards and low, dark places where filth accumulates.—Mrs. E. P. Turner, Chairman Homes and School's Committee.

Paving to Start.

From Monday's Daily:

The paving is to start today. Of course the putting down of the creosote blocks cannot start until after the preliminary work is done, such as the curbs and gutters and the grading, but this work will begin today.

The curb and gutter men of the Municipal Paving Company, arrived in the city last night, and this morning was making arrangements with teamsters and draymen to haul the material to the several points on the streets where it will be handy. The gravel and cement will be hauled this afternoon and by tomorrow afternoon the work of pouring concrete will begin.

When the curb and gutter men get a week's start of the pavers, the grading will be started and will be followed immediately by the concrete men, and then wood block men and the work will be pushed as fast as possible.

Mr. LaGrons representing the Creosoted Wooden Block company who are to furnish the blocks for the paving is in the city, and advised the mayor that he had received instruction from the paving contractors to start shipping the blocks at once, and that his company was now loading for shipment Ship's Kittens Start International Row.

International complications are likely to follow the visit of the stork on board the Booth liner Justin, at Brooklyn from Para and Manaus.

On a previous voyage to his port a fine black and white cat boarded the ship and since has made it her home. Several Brooklyn residents have claimed the cat and her four new kittens. The ship's officers have entered them as British subjects since they were born on board a British ship.

Further trouble is expected in Argentina, as the paternal parent of the kittens belongs to that republic.

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

Discovers Gravel Bed

At the extreme end of Park street, below the colored graveyard and just on the bank of LaNana creek, Pat Murphey has discovered a gravel bed, which he thinks will be of great value to the city in the improving of the streets.

The city has sold the old city park property, but the gravel bed begins just at the corner of the property sold and still belongs to the city. The gravel is of fine iron ore rock and is mixed with clay. The strata is some six feet under the surface and is

about eight feet deep. Here-tore the city has been hauling the clay from the surface and using it on the streets, but now the hands have cut down until they have struck the gravel.

One or two bad places in the streets have been fixed with this material and it is found that it packs easily and becomes very hard, and it is believed will make a permanently hard roadbed which will resist the weight of traffic and will not wash or get soft during wet weather.

Will Quit Cotton and Elbertas.

V. N. Matteson of Cushing spent last night in the city and returned to his home this afternoon.

Mr. Matteson has decided that in the future he will raise no more cotton or elberta peaches, and it seems that he will go exclusively into the vegetable business with string beans as his chief crop. We judge this from the report he made on one acre of beans he raised this year. He states that from this one acre he sold 108 bushels of beans and that they netted him more than \$200 per bushel. He planted originally four acres in beans, but three acres of the land overflowed and he lost them all, leaving him only the one acre.

Mr. Matteson has, so he stated 500 Elberta peach trees they are seven years old, and he has only realized \$50.00 from his Elbertas. He states that he is going home and that the first work he will do will be to dig up the five hundred trees and quit trying to raise peaches.

Mrs. Willie Kay an old time resident of this county is visiting Mr. and Mrs. Kline Branch and she and some other friends are being entertained at dinner today by Mrs. Jim Thomas.

Dizziness, spells of blindness headache and sour stomach are caused by torpid liver and constipated bowels. Prickly Ash Bitters removes the cause of the trouble and puts the system in perfect order.—Strippling, Haselwood & Co., special agents.

A CLERGYMAN'S STORY

Came Near Losing His Life—How He Escaped

The following letter was received by The Peruna Co. from Rev. G. W. Roberts, R. R. 2, Box 27, Hartsell, Alabama, under date of April 2, 1904, which is exactly nine years ago. He says: "I take pleasure in informing you of what your Peruna has done for me after three years of suffering. I had tried the treatments of several doctors, also home remedies, but they failed and all hope had gone. My friends, like myself, thought I was in the last stages of consumption."

REV. G. W. ROBERTS, R. R. 2, Box 27, Hartsell, Ala.

"My daughter brought me a bottle of Peruna and plead with me to try it. I had got so weak I had lost my voice, and I thought it no use. That was in May, 1902. I began to take it, according to directions. I wrote to you, and you gave me your kind advice."

"I soon felt better, my cough began to give way, and the expectation lessened. I have taken fourteen bottles. I feel well, eat hearty, sleep soundly, weigh as much as I ever did, do considerable work on my farm, and attend to my other business. My friends seem astonished at my recovery."

"I wish to thank you for your kind advice and the books you have sent me. I shall ever praise your medicine and hope that you may enjoy a long life."

It will be observed that Rev. Roberts waited two years after he began to use Peruna, before he wrote the above letter to The Peruna Co. So that his apparent recovery could not possibly have been temporary relief. In a later letter to The Peruna Co., dated September 22, 1906, Rev. Roberts says: "I am a great friend of Peruna. By the use of Dr. Hartman's advice I am here to-day, able to be with my family and attend to my business."

We quote from another letter, dated December 10, 1906: "I praise Peruna to all the sick. The people know my case, and they praise it also."

In a letter dated November 22, 1909, we quote Rev. Roberts: "Peruna gave me back my life ten years ago. All my acquaintances know that I am certainly thankful to you for your kindness."

In a later letter, dated January 13, 1910, he says: "I shall ever in the future, as in the past, be ready to speak in praise of Peruna to all sufferers. I believe my miraculous cure has been the means of many others being cured in this county."

From a letter of September 5, 1911, we quote a few words: "I am still among the living. As to Peruna, I do not feel that I have words to express the faith I have in its merits. I feel that Peruna has been the means, through the kind providence of God, of prolonging my life for more than ten years."

We quote a still later letter, October 31, 1912. He says: "I took a severe cold three weeks ago. I at once sent for Peruna. Have been taking it two weeks. I am now better. I consider that Peruna has carried me over a dozen years of life. I always stand ready to answer any question in reference to Peruna."

We quote from his last letter, dated January 2, 1913: "Dear Friends, I wish this bright New Year to express my thanks to you for your kindness. Trusting that you may have a successful and happy year, and that your medicine may prove a blessing to many as it has to me, I am yours as ever, G. W. Roberts, Hartsell, Alabama, R. F. D. 2, Box 27."

It is not necessary for us to add any words to this story. The eloquence and pathos of these letters are more convincing than arguments or affidavits. Who can doubt the clergyman's story? Who can doubt that Peruna saved his life?

Every home should be provided with the last edition of the "Ills of Life," sent free by the Peruna Co., Columbus, Ohio.
