#### Long Staple Cotton At the Fair.

H. M. Carter of Mayotown, has a splendid exhibit of the long staple cotton at the fair this year, and the exhibit is attracting considerable attention. There will be about seventy-five bales of this variety of cotton at the fair, and it is expected that a buyer will be here to make an offer for it.

Mr. Carter is quite an enthusiast with regards the long staple variety of cotton, and the indications are that before a great many seasons have passed he will have enticed a number of our farmers along this same line and Nacogdoches will begin to produce long staple cotton in sufficient quantities to justify the market. Looking about the gin for the long staple will be soon solved, for Mr. Carter says that if some one does not put in a gin to handle it, that he will.

#### Lumber For Sale.

#### THIRD ANNUAL MEETING.

East Texas Fair Opens Gates to Large Crowd Under Ideal Weather Conditions.

The Third Annual Exhibition of the East Texas Fair Association opened its gates yesterday morning for a four days meet, with ideal weather conditions, and with a display in the exhibition hall, the stock pens and poultry coops that is certainly good to look upon.

The agricultural department was not complete the first day of the fair for the reason that some of the exhibits had been received so late that it was impossible to place them the first day and at the same time attend to the other duties that had to be looked after by the committee. This will not be the case the second day, for everything will be in place and a visit to this department will be well worth the while.

At this time it would be difficult to give any detailed account of the several exhibits, for it is certain that some of merit would be overlooked. It is believed by many that the exhibits this year are more varied than at any other fair and represent new departures in agriculture in this county.

The poultry show is full to its capacity, almost, with as fine a display of our feathered friends as you ever saw.

The displays in the hog and live stock department is attracting attention. This cannot be wondered at for some of the exhibits in this department would be a credit to any fair.

The attendance the first day was not as satisfactory, in point of numbers, as could have been wished; but every indication points to a splendid attendance at every other day, up to the close of the fair.

One of the largest carnival companies that has ever visited East Texas is located on the fair grounds and is furnishing lots of amusement to the crowds during the afternoon and late into the night.

The first days racing program carried two harness races and two running races, and each race was a clean exhibition and very exciting. The other days of the races will be equally as good or better, and a great number of fancy bred, fast performers will be seen in these contests.

#### Business Section to Have Ornamental Lights.

The committee who had in charge the lighting of the business section of the city with ornamental light posts carrying cluster lights, have met with very good success and have secured funds sufficient to provide six of these lights. The lights will extend from Hasel's corner to the corner opposite Weeks & Ratliff's drug store, and be spaced so as to furnish the best light for the number to be put up.

The city engineer and the light superintendent were out this morning with the electric light supply people, and were measuring off the distances and indicating the location of the several lights. The ornamental light posts will be fourteen feet high, and will support a cluster of five lights each in ornamental globes. They will be located in the center of the streets one at Hasel's corner, one half way the block, one at the next corner, and three between there and the north west corner of the square.

HALTOM & HALTOM, Proprietors.  
GILES M. HALTOM, Manager.

If cattle are to be fed this winter, be certain to provide an ample water supply and have the feed troughs large enough so that the "bossy" animals cannot prevent the weaker ones from getting enough feed.—The Progressive Farmer.

Arkansas has two mountains which, according to a chart published by the United States Geological Survey, are each 2,800 feet in height—Blue Mountain and Magazine Mountain. The lowest point in the State is 55 feet above sea level.

It now appears that Gen. Huerta is a drunkard, and that he issues all his orders, etc., in the afternoon after he "gets full." No wonder he prefers war to peace, and thinks that he is the whole show. He may sober up some day—and oh! the headache and remorse.

The East Texas Fruit and Truck Growers Association held its annual meeting at Jacksonville recently and several business matters were considered. The old officers were re-elected for another year. A report submitted by the secretary and treasurer shows that the association has on hand at present more than \$2,000, after paying the season's expenses.

It is believed that the will of the late Chas. Gates will be offered for probate in Jefferson county, as Port Arthur was the last place at which he voted, claiming that his home. The wealth of Mr. Gates will be divided equally between his mother and his widow, each receiving \$2,000,000, after other bequests have been paid, to other relatives and friends.

Every now and then our Southern cities get awfully excited over "negro vagrants." Vagrancy in any inhabitant hurts a community, but the vagrancy that hurts the white race most is white vagrancy. We must develop a sentiment which will make every loafer, a parasite, whether he is a millionaire or a pauper. As Dr. Walter Page says, "A man had better make good split bottom chairs than be an unproductive prominent citizen."—The Progressive Farmer.

Some of the district judges of the state believe that the suspended sentence, at the request of the juries, is turning too many criminals loose on the state, and that the district judges are blamed for it. A judge in McLennan county has hit upon a plan that seems feasible, and which at the same time does not go contrary to the recommendation of the jury. A jury brought in a verdict of guilty of forgery, assessed a two years sentence, and recommended the suspended sentence. The judge complied with the recommendation of the jury but required a bond of \$100,000 of the defendant.

It is remarked every day now that the town is filled with strangers, and many are wondering who they are and why they are here. There are several reasons why they are here, but the main reason is that Nacogdoches is the best city in East Texas, they have heard about it and want to come here, either as prospectors, or to make this their home.

Commissioner Muckelroy says that the hardest work he has done since taking the position of county commissioner, was the work he did trying to get some action on Good Road days; but he failed to accomplish anything. He kept the county gangs at work, alright. He believes that within about seven years, when Nacogdoches county has several good roads, that the citizens will begin to appreciate them, and will be willing to go out and work.

It has become a matter of definite knowledge—susceptible of proof by plain, honest figures—that it is cheaper to build good roads than to use bad ones, and that the men who pay the most for their roads are the men who try to get along with the poorest roads. Some readers may doubt this, but it will be only because they have not studied the question. If they will get right down to the actual facts as to what a bad road costs, they will soon see that, strange as it may seem, it is perfectly true that the most expensive road is the unkept road, and that good roads actually do pay for themselves, and a profit besides.—The Progressive Farmer.

"The Price of Hair" is the heading of a lengthy item in yesterday's dailies. The item adds to the other tortures incident to hard times and the high prices of living that hair is growing scarcer and prices are advancing rapidly. Most of the store hair comes from Bohemia, where the women make hair growing a business. Buyers just from Bohemia report the hair crop as very light this year and that they were able to purchase only limited quantities. The item did not state whether the shortage of the hair crop in Bohemia is due to drought, weather, boll weevil ravages, or other causes, but the crop is very short. The hair most in demand is the blond shades; which sells at \$600 a pound; the golden and red shades sell nearly as high. This writer is blessed with a fine crop of hair of the most expensive shade, but believing the market will go higher on account of the product, he is not ready to sell just yet.—Ball-Headed Jim Lowry, in Honey Grove Signal.

### Nickel A By-Product

There are no producing nickel mines in the United States. The output of nickel from domestic ores is merely a by product from electrolytes of the copper refineries. Salt and metal equivalent to 328 short tons of metallic nickel were saved in domestic refineries in 1912 from foreign and domestic ores. Nickel ore "imported for consumption," is mostly from the Canadian deposits.

### GIVES MIDNIGHT ALARM

Farmer Stout was awakened from a sound sleep by the ringing of his telephone bell. The barn of his neighbor, three miles down the turnpike, had been broken into and a driving horse stolen. The horse-thieves were headed toward the Stout farm. Calling his hands he armed his forces, lined them upon the turnpike, captured the thieves and held them until the arrival of the Sheriff.

### Plant More Corn.

Mr. Peter Radford has been giving the farmers much valuable information and many agricultural statistics useful in planting the crops, but his recent article on the Texas corn crop is of such unusual interest that we quote the following paragraph: "We have had a corn famine in Texas for the past fifty years and I want to appeal to the Texas farmers to plant more corn. It causes an annual drain of more than \$30,000,000 upon the resources of the farmer and this spectre of want should be driven from the land. The remedy is simply plant more corn." That is good advice and something the farmers of Texas can well afford to think over.

We are exceedingly fortunate that we have discovered that sand-clay roads are not only far cheaper than macadam but that they are very much better. Besides, by the use of a drag—they can be kept in order far more cheaply. If a man is furnished with a motor, gasoline or steam, with a good drag and will go over his mileage once a week, the road can be kept in admirable order, and he can keep in condition probably five to ten times as many miles of road as a man could do with the macadam in Europe. But it is necessary that every man shall have a certain number of miles allotted to him, with the responsibility of keeping it in order.—Walter Clark, in The Progressive Farmer.

The two serials that have been running in Scribner's will both end in the November number. Undine Spragg's career in Mrs. Wharton's "The Custom of the Country" has been followed with keen interest and thousands of readers will wonder "where she is coming out." The denunciation of John Galsworthy's "The Dark Flower (The Love Life of a man)" will probably meet with general approval.

Some married men would be only too glad to settle down if their wives would quit stirring them up.

### SCIENTIFIC FARMER TOPS HOG MARKET

W. B. Wortham Sells Sixty Head Of Blooded Duroc Jerseys At \$7.90.

Sixty head of Blossom Hill Duroc-Jersey hogs topped the Fort Worth market Thursday, going at \$7.90. This consignment of East Texas hogs was of pure type raised on the W. B. Wortham farm five miles from Garrison in Nacogdoches county.

Wortham came to Fort Worth with the consignment and spent most of the day on the market, returning to Garrison Thursday night. The hogs averaged 207 pounds and were composed of barrows and gilts.

More than three years ago Wortham, a member of '07 class of the Texas Agricultural and Mechanical College, acquired the Oxsheer farm.

It was one of the oldest in Nacogdoches county and the soil had almost been worn out. A student of agriculture and horticulture in college, Wortham had his own ideas about building a farm and the rejuvenation of the Oxsheer place was begun.

There was little chance to grow the usual crops for the humus of the soil had been used long ago. "Scratchers" had been planting year after year and had been robbing the soil with each crop. No vegetable or plant life had been allowed to decay and return to the soil. Everything had been cleaned from the land. No livestock had been kept on the place and no fertilizer had been used.

A crop to produce ready cash is what the young college farmer wanted. He knew the value of a hog and he saw the urgent demand for porkers on the Fort Worth market. From Tom Frazier the breeder at Morgan J. J. McLain of Anna and the Hill Crest Breeding Farm at Fort Worth, Wortham obtained two sows, four gilts and a herd board, all registered Duroc Jersey. By planting a series of pastures Wortham increased this herd than seventy head. Sixty-two shoats and gilts were marketed in Ft. Worth in one year's time.

Pasture has been Wortham's hobby in hog production. Cow peas, peanuts, rape and native grasses are used. The top with grains and meat meals. The second year the young Nacogdoches county hog grower marketed eighty-three Duroc-Jersey hogs. Each time his hogs commanded the best the market had to offer.

Thursday's offerings, sixty head, were from nine to twelve months. They grazed on rape, cow peas and peanut pastures and were finished out on rice bran, maize chops and Armour's 60 Per Cent Meat Meal. Every hog was smooth, denoting care and attention and healthy growth, for Wortham takes care of his hogs from farrowing time to the slaughter pen.

The Athletic Team of Garrison High School has a silver loving cup upon which is inscribed the challenge to the world: "Come and Get It." This challenge is extended to all parts of the United States and Nacogdoches and Timpson.—Garrison News.

**All Growing Children**  
are dependent on nourishment for growth. Their health as men and women is largely established in childhood.  
If your child is languid, listless, tired when rising, without ambition or rosy cheeks, Scott's Emulsion is a wonderful help. It possesses nature's grandest body-building fats so delicately predigested that the blood absorbs its strength and carries it to every organ and tissue and fibre.  
First it increases their appetite, then it adds flesh—strengthens the bones—makes them sturdy, active and healthy.  
No alcohol or narcotic in Scott's Emulsion, just purity and strength.

### The Mexican Situation.

One day the head lines on the Mexican news extend over five columns, only the next day to contract to two. This stretching and shrinking are typical of the fluctuating quality of the situation that has grown up. One day all things portend intervention and war and the next day they are equally pronounced in promising an escape from that dire denouement. It is worthy of remark that news which warns us to expect war comes mostly from Mexico, while that which encourages the hope of peace comes mostly from Washington. Evidently the decision, whatever it may be, will not be one that we are rushing into by impulse. It will be the decision of mature and sober deliberation. The President is showing a forbearance that when we shall be able to look back on it retrospectively, will seem to be one of his highest claims to the Nation's gratitude. His forbearance is testified not only by his refusal to give to the insolence and defiance of Huerta the answer which passion prompts, but in withstanding the taunt which comes mostly from his own countrymen of being wanting in vigor and decisiveness. If a course, which seems so unheroic shall keep us out of war, it will, in after days be lauded by those who are now disposed to ridicule it; and if it shall fail to save us from that calamity, we shall at least have the consolation of feeling that it is a calamity we did not bring on ourselves.—Dallas News.

### The Truth In Advertising

Years ago when the small country store sold everything over the counter, the owner could maintain a personal relation with every customer. Today the newspaper has relieved the merchant of this duty and reduced selling to a game with the chance eliminated. Millions of dollars are spent annually in this manner and a correspondingly more an investment in an expense. That advertising along modern lines pays, does not admit of arguments. It has developed into a science, exact and precise. The eloquence of newspaper advertising is educational and enlightening, and to be potent, it must be based on what is true. If the seller hopes to make good with the public and live up to his eloquent claims for the excellence of the products he has to offer, he must sell the product he advertises, as well as advertise the product he sells.—W. Holt Harris.

If there was as many people in Lufkin today, and as much business doing, as there is in Nacogdoches, that town would be talking about annexing Houston, or probably San Antonio, as a suburb.

### Why Be Honest.

A young man once asked Thomas Carlyle if it pays to be honest. The sturdy old Scotchman knitted his shaggy brows and replied, "Not if you are honest for pay. If you cannot be honest because it is right, because you scorn to do a dishonest deed, then you are a thief and would better not try to be honest." Every day you hear men say that it pays to be honest. We do not know whether it pays or not. The really honest man never stops to see whether it pays to do right, but thinks what he ought to do and does it. Duty by him cannot be disobeyed. Right with him is founded on principle, and he is honest because he loves honesty and hates dishonesty.—Ex.

The Texas Exhibit at the Fifth National Corn Exposition, in Columbia, S. C. last year, which attracted more visitors than any other exhibit, was built around a map of the Lone Star State, which was made of the seeds of different crops grown in the various agricultural regions of the state which was formerly a great live-stock region.

If Texas were turned on its Northern line, the South point would reach into Canada. Turned on its East or West points and the other side would splash the water of the Atlantic or Pacific Ocean. Within this vast area, is found every variety of climates soil and agricultural products that any one could wish for.

The Texas Experiment Station is already working on their exhibit for the Sixth National Exposition, to be held at the Dallas Fair Grounds, Feb. 10-24th, 1914. A permanent feature of this exhibit, will be a display of the products registered under their feed control, with a comparison of adulterated and pure feed products. Magnifying glasses will be provided, and instruction given visitors how to detect the adulterants in feeds bought.

# CRAMPS, HEADACHE, BACKACHE,

Yield to Lydia E. Pinkham's Vegetable Compound.

Cedar Rapids, Iowa.—"I was always tired and weak and my housework was a drag. I was irregular, had cramps so bad that I would have to lie down, also a distressed feeling in lower part of back, and headache. My abdomen was sore and I know I had organic inflammation."

"Lydia E. Pinkham's Vegetable Compound and Blood Purifier have helped me wonderfully. I don't have those pains any more and I am all right now. There are a great many women here who take your remedies and they have told others what they have done for me."—Mrs. CHAS. MCKINNON, 1213 E. 5th St. W., Cedar Rapids, Iowa.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

There are probably hundreds of thousands, perhaps millions of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over 30 years ago by a woman to relieve woman's suffering. If you are sick and need such a medicine, why don't you try it?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## Burglary at Cushing.

The sheriff's department this morning received word that last night burglars entered two stores at Cushing, the store of J. W. Cariker and the store of A. B. Martindale. No particulars were given aside from the fact that some jewelry was taken from one of the stores.

Sheriff Rich secured an automobile and left for Cushing this morning to make an investigation.

## Obituary—T. J. Hill.

For the Sentinel:

I am bound to write this—can't help it. I knew Tom Hill so well and so long. He was so dear to me and to so many others. He was a diamond in the rough, a real man with a heart and a soul that drew him to his fellow. The present generation called him "Uncle Tom," but those who knew him of old called him Tom Hill, a term of more force and fervor. He was Tom and I was Joe.

Tom Hill came from the forks of the creek, Dorr Creek, where good water flows and good blood grows. He showed up when the heroic Henry W. Raguet raised and led his select cavalry company of the best blood of the land to New Mexico in 1861. Tom Hill went all the way and never shirked. He was on the battle field of Glorietta where Major Ranguet gallantly gave up his life, and he went back after the war with Dick Orton and brought Ranguet's remains to their present resting place in the Nacogdoches cemetery among our forefathers.

Tom Hill was in many other battles and always at his post of duty, regardless of danger or distress. I distinctly remember him in the big battle of Mansfield, La. where he was one of the foremost to reach and scale a high new fence in the woods from which we drove the enemy, while the roar of cannons was near and on. I could recite other deeds of bravery, but I will close by saying that in his civilian life he was a model man. He never had a row with one of his numerous tenants on his big farm. He was never regarded as a timid man, yet he was a conservative and courageous peace maker. The world is better by his life. J. E. Mayfield.

## Wants Paving in Front of Property.

J. H. Thomas is in receipt of a letter from D. E. Clifton of San Antonio, advising him that he had withdrawn his complaint against the city on the paving proposition, and that he wanted the paving in front of his property, and to so advise the contractors.

Mr. Thomas had written him with reference to filling the sidewalk where the curbing had left a space, and in his letter he did not understand about the sidewalk proposition, but wanted the paving.

## Declare War on Colds

A crusade of education which "aims that common colds may become uncommon within the next generation has been begun by prominent New York physicians. Here is a list of the "don'ts" which the doctors say will prevent the annual visitation of the cold:

"Don't sit in a draughty car."

"Don't sleep in hot rooms."

"Don't avoid the fresh air."

"Don't stuff yourself at meal time. Over-eating reduces your resistance."

To which we would add—when you take a cold get rid of it as quickly as possible. To accomplish that you will find Chamberlain's Cough Remedy most excellent. Sold by all Dealers. dw

## A PHYSICIAN'S DIAGNOSIS OF KIDNEY TROUBLE.

A Seemingly Common Disease which Becomes Fatal through Neglect and which May Be Readily Cured by Prompt Attention.

More than two-thirds of the annual death rate, physicians claim, is directly traceable to kidney disorders. Interested by this remarkable assertion and desiring to acquire a better understanding of the origin of the disease, a prominent physician was recently interviewed as to the symptoms of such troubles.

"To what do you attribute the great destructiveness of kidney disease?" was asked.

"The hold which the disease gains in the body before the victim becomes aware of his true condition, and the rapidly with which it eats its way into the vital organs."

"Would not the proverbial 'ounce of prevention' check the progress of the disease?"

"There is no doubt of it. The trouble is that victims of this disease mistake the symptoms for some trifling ailment in the stomach or bowels; therefore they do nothing to arrest the course of the disease until it is well advanced."

"What is the origin of kidney trouble?"

"Almost invariably bad digestion, followed by torpid liver and a constipated habit."

"What are the symptoms?"

"Headache, dizzy spells, sluggish brain, restless nights, pale or sallow skin, bad breath, lack of appetite, heart burn, sour belching, backache or tenderness over the kidneys, nervous weakness, dark rings around the eyes, tired feeling, too much or too little urine, and sediment in urine."

## ITS EFFECT ON THE HEART.

"In what way is the heart affected from kidney trouble?"

"In all cases the heart is disturbed though in many instances the palpitation does not become alarming until the disease has advanced to a serious point. A severe heart throbbing and nervous trembling is noticeable, especially after a little bodily exercise; the victim frequently imagines he has heart disease."

## HOW TO CURE IT.

"What is the proper course of treatment for kidney disease?"

"First, to get rid of uric acid and other poisons in the system. This can be done by stimulating the bladder and bowels, so that they will act more freely. The suffering kidneys must be strengthened, the liver and stomach toned up and the digestion improved."

Prickly Ash Bitters is a remedy that answers these requirements completely. It is not only a system tonic and regulator, but its healing and restorative influence will build up the weakened kidneys and urge them to a better performance of their duties. It gives strength and tone to the liver, stomach and heart and promotes harmony of action throughout the body.

M. W. Burr, village blacksmith and respected citizen of Starks, La., says: "I was troubled with kidney and liver disorder for 18 years. I was in continual misery until I began taking Prickly Ash Bitters which has entirely cured me, and I am now a strong, healthy and hearty man. I give it to my wife and four children and they are in the best of health; too, I feel that Prickly Ash Bitters is the best remedy on earth and that everybody should keep a bottle at home."

Allan Seale and Ellis Gaston went to Dowlan, to Mr. Seale's farm, last Saturday night returning Sunday night. They brought back with them a 12½ pound sweet potato, which is now in the show window.

## A Night of Terror.

Few nights are more terrible than that of a mother looking on her child choking and gasping for breath during an attack of croup, and nothing in the house to relieve it. Many mothers have passed nights of terror in this situation. A little forethought will enable you to avoid all this. Chamberlain's Cough Remedy is a certain cure for croup and has never been known to fail. Keep it at hand. For sale by all dealers.

C. P. Long a prominent citizen of the Garrison country, was a business visitor in the city today.

## From Melrose.

The weather has been so pleasant the past two weeks, giving everyone an opportunity to get well up with the outdoor work; but the house wife is never up.

Cotton gathering seems to be the order of the day.

Mrs. Pace has gone to Ellis county to visit her sick daughter.

Husband and I have just returned from Dallas, where we attended the annual conference of the Free Methodist church. Bishop Pearce was at his best and gave us such good instructive talks. He preached only one time. Friday night they had an educational sermon by the president of the Campbell Female School in Hunt county, also a fine talk from Mrs. Love, the expression teacher, with some extra good readings and solos from her pupils. It is one of the best schools in Texas. They took up collection that night receiving \$15,158.50. No hazing or smoking or chewing tobacco by any of the faculty or pupils.

Our son from Ft. Worth visited us while there.

The Dallas people nicely and cordially entertained the conference. We came home Saturday via Jacksonville on the T. & N. O., and our sister, Mrs. R. A. Gillespie, and daughter spent 20 minutes at the depot with us.

Our hearts always warm up with love when we roll over the red hills into dear old Nacogdoches county.

Mr. John Matteuer from Rockland came through en route to Chireno on business, carrying with him John Wilson to do some surveying.

Health good in this burg. L. W.

## What Would You Do?

In case of a burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and everyone should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal without leaving a scar. For sale by all dealers. dw

## Withdraw Suits Against City.

Sentinel was advised this morning by Mayor Matthews that Perkins Bros., who had a suit against the city with reference to the assessment for paving, had withdrawn the suit, and that the paving would be laid in front of their property.

P. H. Spradley, who owns property on the block just west of the square has also withdrawn his suit, and the paving will go down in front of this property.

## Cause of Insomnia.

The most common cause of insomnia is disorders of the stomach and constipation. Chamberlain's Tablets correct these disorders and enable you to sleep. For sale by all dealers. dw

effort to secure for the city the ornamental lights—posts supporting a cluster of lights, met with fairly good success, securing subscriptions to the amount of about \$500, and they think that the scheme will be put through before they are through. It will require something in the neighborhood of \$1000 to secure all the light posts needed to make the business section and square a thing of beauty.

A light man, representing a concern which furnishes these ornamental posts and other light equipment, will be here tomorrow to confer with the citizens and to submit samples and make estimates of cost, etc.

## Tonight.

Tonight, if you feel dull and stupid, or bilious and constipated, take a dose of you Chamberlain's Tablets and will feel all right tomorrow. For sale by all dealers. dw

## Council Holds Special Meeting.

The city council held a special meeting last night for the purpose of discussing several matters pertaining to the street curbing and gutters on a number of streets.

It was also decided to do away with the fire bell which now stands on a tower at the back of the fire station, because the tower was decaying, and also because the tower was damaging the building. In the place of the bell a whistle will be installed at the electric light plant. This may require some time before it can be installed and the bell will do service until the whistle is put in.

## Sick Headache.

This distressing results from a disordered condition of the stomach, and can be cured by taking Chamberlain's Tablets. For sale by all dealers. dw

## The Sheriff Balked.

Sheriff Walker this week received a request from a tombstone concern to levy upon a certain tombstone in the Quannah cemetery upon which they had a \$375 mortgage.

This was rather an unusual request, and our sheriff, who is somewhat of a lawyer himself, looked at the case from different sides before he cared to make a move. He reasoned: A grave stone goes to improve real estate, and is therefore, a part of the real estate. When levying upon property of that kind an officer may lay himself liable to a charge of desecrating a grave and a few other charges.

Hence, instead of complying with this request the sheriff wrote to the Fort Worth people wanting an indemnity bond before he was willing to proceed in the matter.—Quannah Tribune.

## N. & S. E. Will Run Special.

Superintendent Will Smith of the Nacogdoches & Southeastern advises us that his road will run a special train on Friday the 21st, on account of Woodmen Day at the Fair.

An effort is being made to get a connection with the Angelina & Naches River railroad from Chireno, to connect with the N. & S. E. at Locardo Junction, five miles from Chirino, and also to secure equipment for the special train on that day, but nothing can be given out definitely now.

In any event the Nacogdoches & Southeastern will leave Locardo Junction at 7 o'clock Friday morning, stopping at its regular stops, Dunham (Frost-Johnson Camp), Dockville, Woden, McClures, Hamptons, and arriving in Nacogdoches at 9 o'clock.

The regular fare will be charged on this train, and passengers may return Saturday morning on the regular schedule train. It was thought not necessary to make the return trip Friday night, from the fact that the Woodmen ceremonies would not likely be over until well after midnight.

## How little we know of life.

The dust under our feet which we think of with scorn, if we think of it at all—to it we owe our life, and the joy that comes when we contemplate the beautiful in nature. The bird on wing, the blade of grass, the worm that crawls across our pathway, each has a knowledge of nature that we can never possess. Exalted as man is, the ruler of all things on earth, his ignorance of the various forms of life is enormous. The further he gets from nature the more stupid he becomes. His joys lessen daily. Are not the joys of life made up of the simple, natural things? Health and love and a clear conscience—these cannot be bought. Without them the world is a prison and a life of burden. In the rush and struggle of a large city, in the fierce fight for place and wealth, it is difficult to keep the conscience untainted and there is little time for love. And for health do we not need the pure, invigorating air that blows across open fields and through pine forests and the quiet, the purity, and serenity of country life?—J. Knox Hall.

Construction of the new physics building of the Rice Institute is under way. It will be two stories in height and 275 x 56 feet square and will cost \$250,000. This is the fourth of the thirty three buildings proposed in the academic group of this \$10,000,000 institution.

#### Trouble at the Oil Well.

The drillers at the J. Thos. Hall oil well, or the well that is being drilled on his place and known as the Rose Lake Oil Co.'s well, have been having considerable trouble for the past week. The drill has been working in a very hard rock, which grinds the bit off so much and so frequently that very little headway can be made. Yesterday the drill worked all day long and only cut eight inches into this rock.

The driller wired to Houston for a drill suitable for this work, and the drill was received today. It is quite an expensive piece of machinery but they had to have it. The drill alone cost \$235.00 and express.

Jasper Cook a prominent farmer of the Nat community, was in the city today on business and to attend the fair.

#### Arm Dislocated

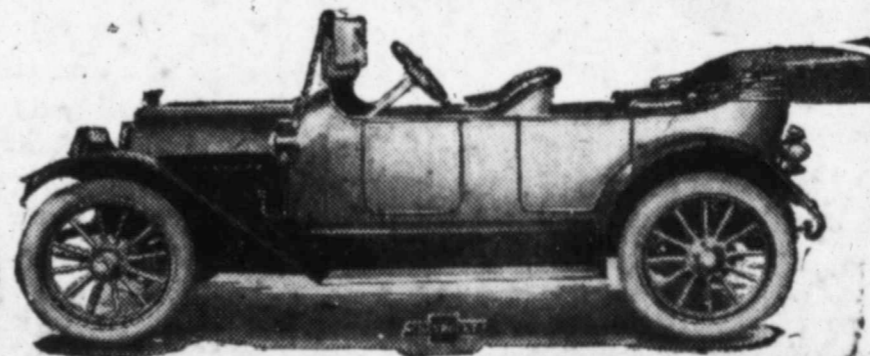

J. S. Rose of Melrose, was in the city this morning on business. When coming to town the horse he was driving became frightened in some way and ran away with him and the buggy, turning it over and throwing Mr. Rose violently to the ground. In the fall Mr. Rose landed on his shoulder, dislocating it. He came on to town and had his shoulder attended by a physician, who reset it and bandaged it securely, and it is believed he will be alright in a few days, but it is certain he will be pretty sore for a few days from the bruise.

#### Strike Called Off.

The Sunset-Central strike was called off at 9 o'clock Monday morning, when the company agreed to meet the joint committee of the four organizations, as demanded by the men, for the purpose of adjusting existing grievances and other matters in controversy.

All strikers on the Sunset lines from El Paso to New Orleans, were notified by their union leaders to report for work at 1 o'clock Monday

afternoon, at which time they were restored to the service of the company without prejudice, each striker resuming the position held by him before the walkout four days ago.

Every effort is now being made by both the company officials and the employees, assisted by the union leaders, to restore traffic on the Texas and New Orleans and the Galveston, Harrisburg and San Antonio roads to normal conditions.

Settlement of the strike

was brought about by the federal board of mediation and conciliation at Washington, which board conducted negotiations between the company and the strike leaders by wire.—Houston Chronicle.

### DON'T WAIT

Take Advantage of a Nacogdoches Citizen's Experience

When the back begins to ache.

Don't wait until backache becomes chronic.

Till kidney troubles develop.

Till urinary troubles destroy night's rest.

Profit by a Nacogdoches citizen's experience.

Mrs. H. M. Reid, 412 S. North St., Nacogdoches, Texas, says: "I suffered for several years from severe pains in the small of my back. At times I was unable to sleep. I tried nearly every thing, but got no relief until I used Doan's Kidney Pills, procured at Mast Bros. & Smith's Drug Store, (now Swift Bros. & Smith's Drug Store). They cured me and the cure has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other

Work has commenced at Marshall on the roundhouse to be erected by the Texas & Pacific Railway to replace the one recently destroyed by fire. The new roundhouse will be large enough to house twenty-five locomotives and is being built of concrete and steel.

### What is good for Headache.

One lady says after suffering dreadfully for about seven years, she tried Hunt's Lightning Oil, which almost instantly relieved her, and been entirely free from those dreadful headaches since. Ask your druggist.

Uncle Cal Fall advises us that those who wish to pay their county road tax to the county treasurer, are now at liberty to call and hand him \$5.00 and he will issue the required receipt. If the tax is paid to the road overseer it will require \$5.50.

### Pain, Pain, Pain.

To those who suffer pain, let us say Hunt's Lightning Oil is truly wonderful in the way it destroys pain. So many praise it that you cannot doubt. You simply rub it on, and the pain goes away.

### A Painless Headache

Is there such a thing as Painless Headache Painless Neuralgia Painless Rheumatism. Hunt's Lightning Oil will make the pain go away, and the suffering cease. That's why Hunt's Lightning Oil is so popular, and praised so much. Ask your druggist.

Dr. Brown of Linn Flat, Dr. Carriker of Cushing and Dr. Barton of Cushing, were in the city yesterday in connection with the lunacy trial of Jno. Trawick in the county court.

WANTED—A bad case of Rheumatism. If you have Rheumatism, Neuralgia, Headaches, we want you to just try Hunt's Lightning Oil. You will be convinced of the truth of the statement of one customer that "as a reliever of pain it is without an equal." All druggists sell it.

### To the Public

We have again secured the services of Mr. Joe L. Wood, who will have charge of our watenmaking and jewelry department.

Mr. Wood needs no introduction to the people here, he being born and reared in Nacogdoches, and has had experience in the jewelry line practically all of his life; his father (W. H. Wood) being in the jewelry business here for more than fifteen years.

Mr. Wood is an expert in his line and gets the proper results.

We have gone to an extra expense equipping our shop for all kinds of gold soldering, carving, casting, engraving, coloring and plating.

If you have a diamond to be remounted bring it in. Mr. Wood "knows how."

He's a watchmaker we consider second to none in this section of the state.

If your watch isn't giving satisfactory results consult him, he will "show" you why it isn't. Very respectfully, Weeks & Ratcliff.

### Would Make Them Better if They Could

The makers of Foley Kidney Pills know that they have absolutely the best combination of curative and healing medicines for kidney and bladder ailments and urinary irregularities that it is possible to produce. That is why Foleys Kidney Pills are the best medicine for the purpose you can buy. Swift Bros. & Smith.

### Death Near Shady Grove.

Lem Stripling died last night at his home near Shady Grove from tuberculosis, after a lingering illness, and will be buried at Shady Grove this afternoon.

Lem Stripling was 34 years of age and single. He was highly esteemed by all who knew him, and his untimely death is much regretted.

### A Maker of Health.

A good honest medicine like Foley Kidney Pills gives health to many families. Mrs. O. Palmer, 635 Wilow St., Green Bay, Wis. was seriously ill with kidney and bladder trouble. Mr. Palmer writes: "My wife is rapidly recovering her health and strength due solely to the use of Foley Kidney Pills." Swift Bros. & Smith. eod.

According to the report of the Washington Bureau of Statistics, the yield of corn in Texas for the year of 1913 was 24 bushels per acre, as against 21 for the year 1912. The production amounted to 169,944 bushels this year, against 153,300 last year. The price of corn per bushel this year on Nov. 1st was 84 cents, last year it was 63 cents

### More Bottles Sold Each Year.

It is easy to understand why an increasing number of bottles of Foley's Honey and Tar Compound is sold yearly. Thos. Verran, 286 Edward Street, Houghton, Mich., gives an excellent reason when he writes: "Foley's Honey and Tar Compound has always proven an effective remedy, quickly relieving tickling in the throat, and stopping the cough with no bad after effects." Swift Bros. & Smith.

### Tax Collectors Notice.

I will be at the following places on the dates given, for the purpose of collecting the taxes for the year 1913.

### W3U DANGEROUS CATARRH STOPPED BY HYOMEI.

Just as long as you have catarrh, your head will be stopped up, your nose will itch, your breath will be foul, you will hawk and snuffle, you will have dropping in the throat and that choked up feeling in the morning. The germs of catarrh have you in their power; they are continually irritating the membrane of your nose and throat. You must kill these loathsome germs or their desperate assaults will in time leave you a physical wreck.

There is one remedy sold by Stripling, Haselwood & Co., that is guaranteed to kill the germs and stop catarrh, or money back. It is Hyomei—you breathe it. The complete outfit costs \$1.00. There is none just as good or that gives such quick sure and effective relief.

From every section of the South come reports that the macdam road is losing favor and that the sand-clay road is by all odds the best and cheapest form of highway for any community—unless it be a community unusually favorably situated for some other form of road construction.—The Progressive Farmer.

### Pain in Back and Rheumatism

Torment thousands of people daily. Don't be one of these sufferers when for so little cost you can get well rid of the cause. Foley Kidney Pills begin their good work from the very first dose. They exert so direct an action on the kidneys and bladder that the pain and torment of backache, rheumatism and kidney trouble is soon dispelled. Swift Bros. & Smith. eod.

You cannot raise yourself by your boot-straps and until we go to work no amount of credit will ever buy a farm. You hit the nail on the head when you said that something to feed stock must come before we raise livestock. I say we must go to work before credit will do us any good.—C. L. Gunn, in The Progressive Farmer.

### For Children there is Nothing Better

A cough medicine for children must help their coughs and colds without bad effects on their little stomachs and bowels. Foley's Honey and Tar exactly fills this need. No opiates, no sour stomach, no constipation follows its use. Stuffy colds, wheezy breathing, coughs and croup are all quickly helped. Swift Bros. & Smith. eod.

**CONSTIPATION**  
Indigestion, Bad Breath, Distressing Vertigo, Blind Stagnation, Headache, Sallow Complexion, a Tired, Discouraged Feeling are all symptoms of a Torpid Liver.

**HERBINE**  
Is an Effective Liver Tonic and Bowel Regulator.

Its powerful reviving influence in the torpid liver brings on an immediate improvement. You feel better at once. The bowels move freely so that the impurities which have clogged up the digestive organs find an outlet. When the system has been thus purified, the bilious, half sick feeling disappears, the complexion clears, the breath becomes sweet, the mind alert and cheerful and there is a fine feeling of exhilaration all through the body.

### A Consumptive Cough.

A cough that bothers you continually is one of the danger signals which warns of consumption. Dr. King's New Discovery stops the cough, loosens the chest, banish fever and let you sleep peacefully. The first dose checks the symptoms and gives prompt relief. Mrs. A. F. Mertz, of Glen Ellyn, Iowa, writes: "Dr. King's New Discovery cured a stubborn cough after six weeks' doctoring failed to help." Try it, as it will do the same for you. Best medicine for coughs, colds, throat and lungs troubles. Money back if it fails. Price 50c & \$1.00. All druggist, by mail. H. E. Bucken & Co. Philadelphia or St. Louis. dw

The commissioners court adjourned Friday, after being in session for several days, it being the regular quarterly session. Several items of more or less importance came up for action aside from the regular routine business. The controversy between citizens of the upper Melrose road over the correct route of the road through a certain section of the bottom, was adjusted satisfactorily to all concerned. The matter of the paving around the court house was discussed but no action was taken.

### Nervous And Sick Headache

Torpid liver, constipated bowels and disordered stomach are the cause of these headaches. Take Dr. King's New Life Pills, you will be surprised how quickly you will get relief. They stimulate the different organs to do their work properly. No better regulator for liver and bowels' Take 25c. and invest in a box to-day. All druggist or by mail. H. E. Bucken & Co. Philadelphia and St. Louis.

B. F. Creel of Cushing, was in the city today to attend the county court.

Birmingham, Ala. F. L. Willis, suffered greatly from asthma and bronchitis. He writes: "I got no relief until I took Foley's Honey and Tar Compound. It entirely removes those choking sensations, and never failed to produce an easy and comfortable condition of the throat and lungs." Swift Bros. & Smith.

### Arrest Made in Cushing Burglary.

Sheriff Rich went up to Cushing yesterday morning to make an investigation into the burglary reported from there by telephone, and arrested a party giving the name of Wm Day, and brought him to the city last night and lodged him in jail charged with burglary.

The party arrested claims to have come recently from Waxahachie. Several articles, a small ring, some neck ties and a watch chain, were found in his possession which are thought to have been taken from Cariker's store, but the bulk of the articles lost from the store have not been recovered.

# It's Right Twist On Rheumatism

Makes Short Work of Cleaning Out Your Entire System—Aches and Pains Go Fast.

In S. S. S. You Get a Twist on Rheumatism That Settles It.

Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S. and been handed something claimed to be "just as good." Truly, to ask for bread and be given a stone is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and note its wonderful influence.

S. S. S. has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every extremity becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflaming atom of poison; it dislodges by irrigation all accumulations in the joints, causes acid accretions to dissolve, renders

them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all this remarkable remedy is welcome to the weakest stomach. If you have drugged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

Get a bottle of S. S. S. today, and ask for S. S. S.

You may depend upon it that the store that sells you what you ask for is a good place to trade. Write to the Swift Specific Co., 294 Swift Bldg., Atlanta, Ga., for their Book on Rheumatism.

## Texas Needs Great Capital.

Texas needs great capital as well as great men. It will take large volumes of money to develop our mineral resources, make needed improvement and extensions in railroads, and build factories necessary to our growth and progress, and this money must come from outside the State.

Investments will follow lines of least resistance and pursue objects most attractive. We have the big attractions and our opportunities loom up in mountainous proportions and when capital feels more secure in Texas than in other states, it will migrate to Texas in large volumes.

Investigations of retail prices in forty cities of the United States conducted by experts of the bureau of labor show that the cost of living June 15th of the present year was approximately 60 per cent higher than the average between 1890 and 1900; more than 8 per cent higher than it was a year ago, and nearly 15 per cent higher than it was two years ago. At the same time prices show virtual stability at the same level as last year, when the high record of the last quarter century were reached.—Ex.

## VALUABLE SUGGESTION IMPORTANT TO EVERYONE

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as lame back, annoying bladder troubles, smarting or burning, brick-dust or sediment, yellow complexion, rheumatism, may be weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

Many physicians claim that an herbal medicine containing no minerals or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root. You may receive a sample bottle of Swamp-Root by Postal Note. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Nacogdoches Weekly Sentinel.

## Part Mourning.

An Irishman walked into a men's furnishing goods store the other day and said:

"Oi want to get somethin' ter mournin' wear, but Oi don't exactly know what the coostom is. What do they be wearin' now ter mournin'?"

"It depends," explained the salesman, "on how near the relative is for whom you wish to show this mark of respect. For a very near relative you should have an all black suit. For some one not so near you may have a broad band of black on the left arm or a somewhat narrower one for somebody more distant."

"Och! Is that it? Well, thin, gimme a shoestring. It's me woite's mither."—Milwaukee Wisconsin.

## Leave Your Windows Open.

Fresh air is the first requisite to good circulation and pure blood, and these are essential to good health. The season for window closing is approaching, and the question of out-door sleeping should be again brought to mind, as it is no superfluous fad but a hard-shell necessity. While it is true that the people on the farms almost have a "corner" on fresh air, it is still imperative that during the winter months they give due consideration to the ventilation of their sleeping rooms. Leave the windows and doors of your bed room open at night in winter as well as in summer and reap the reward of a system strong enough to combat ills that are so prevalent during the winter months.—Mrs. E. P. Turner.

## Burglars in Town Wednesday Night.

A few of our merchants are unable to entertain all of the people during the day. In addition to the day trade they have night visitors. Mr. Blankenships store was entered through the window Wednesday night and his cash drawer was relieved of a few cents in change. The stock of goods was left in a nice orderly condition. Mr. John Woods store was also entered through the rear window, and a suit of clothes and a few dollars in money taken. It seems to be getting quite the fashion to enter the stores through windows instead of the doors, and at night instead of day light.—Timpson Times.

## A Shrewd Banker

An exchange says that a banker in a Missouri town has hit on a novel way to tell whether an applicant for loans at his bank is reliable or not. He slips to the phone and calls up the publisher of the local paper. If the applicant is a subscriber and his account is paid up he gets the loan at a reasonable rate of interest and if he is in arrears his security must be gilt edged and a few more cents tacked on the note.—Richardson Echo.

**Cures Old Sores, Other Remedies Won't Cure.**

**It Always Helps**  
says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

G. L. Purdy of Trawick, one of the substantial citizens of that section of the county, was here today to see the fair.

Editor W. H. Harris of Hemphill blew in last night and is here to attend the East Texas Fair, and to see his many friends here. From Mr. Harris' general appearance it would seem that he is getting along fairly well in his new field, and that the people are treating him right, he is wearing the smile that won't come off.

W. H. Haltom of Melrose, came in this morning to receive a fine Berkshire male shipped him by express from Miami, Texas. Miami is up in the panhandle country above Amarillo, and the hog shipped to Mr. Haltom is a very fine specimen. Though not a year old this animal is whopper.

#### UNFAIR TO THE DRUGGIST.

The Old Joke about "Something Just as Good," Doesn't Apply to This Drug Store.

You have probably heard dozens of times the old story that a drug store was a place to "get something just as good." There is at least one druggist in the world that you can't say this about.

It is certain that an inferior article will never be substituted for a guaranteed one by Stripling, Haselwood & Co. drug store. Take for instance a safe, reliable remedy for constipation and liver trouble like Dodson's Liver Tone. This harmless vegetable liquid has proved so satisfactory a liver stimulant and reliver of biliousness, and to entirely take the place of calomel without any danger or restriction of habits or diet, that there are dozens of preparations springing up with imitations of its claims.

But Dodson's Liver Tone is guaranteed to do all that is claimed for it, and if you are not satisfied with it, Stripling, Haselwood & Co., will hand your money back with a smile. Any person going to this store for a bottle of Dodson's Liver Tone will be sure of getting a large bottle of this genuine remedy in exchange for his half dollar.

In buying the red cross Christmas Seals you help stamp out tuberculosis. In helping others you might help some one very dear to yourself.

#### The Methodist Church.

The Methodists of this city have again planned a great day for next Sunday, the 23rd instant. It will be "The Grand Methodists Rally and Home Coming" which was scheduled for last month but was defeated by a sudden spell of bad weather. We expect a number of visiting ministers to be with us and the sermon will be preached at 11 a. m. by Presiding Elder J. Walter Mills of Timpson. There will be special music and a splendid program of both services the evening service being at 7:30 o'clock.

We are asking for the largest attendance at the Sunday School we have yet had so as to make the best showing for the Annual Conference which properly begins with the services of the day. It begins at 9:45 a. m. The public is most cordially invited to all the exercises.

Since the settlement of the strike on the Southern Pacific and the resume of freight traffic, things are looking lively in this city, and the dray lines are busy unloading freight for our business firms. Six cars of gravel for the paving company and two or three cars of other material for the company came in during last night, and all available teams are busy unloading it. But for the strike this material should have been here several days ago, and the work on the streets need not have suspended.

### If You are Subject to Colds This Editorial will Interest You.

A Great Majority of People Get One or More Colds Every Season and It is of Vital Interest to All to Learn How to Avoid and Believe Colds Quickly, Since Colds are Said to be Contagious.

Some people think colds are only caught through exposure. This in return is contradicted by the fact that Arctic explorers are peculiarly free from colds. It is more generally accepted that colds are the result of civilized life, due to super-heated rooms and a very rapid change in temperature which causes the nerve centers to be depressed, and still more largely due to contagion—one member of a family imparting a cold to another by sneezing or coughing.

A cold means nothing if relieved quickly. That such a purpose may be accomplished, a quick aid to a cold is an essential. A remedy especially devised to relieve colds quickly is PERUNA.

PERUNA contains such ingredients that have an especially beneficial influence upon the inflamed mucous membranes and the quicker these mucous membranes are given the benefit of a remedy like PERUNA, the quicker the relief and the less contagion.

A neglected cold may become a serious menace to one's own life, and far worse, may endanger one's family.

We insure our homes against fire, our lives against death. Why should we not insure ourselves against colds if possible by having a medicine in the family chest that can be used at once?

PERUNA is a reliable household remedy for colds and should be in every home, for there should be a desire to combat a cold as quickly as possible. This is enlightened hygiene.

People who are feeble and run down are more subject to colds than persons in normal health. Such persons need outdoor life and PERUNA to help build up a strong constitution. If you have a poor appetite that is often a warning that you probably need a tonic like Peruna for Peruna aids the digestive organs. When your appetite is fair and work and exercise do not quickly tire you, your susceptibility to colds diminishes very much.

Persons who object to liquid medicines can now obtain PERUNA TABLETS.
