Uncle Tom Crenshaw Dead.

Mr. T. J. Crenshaw, better known as Uncle Tom, died at his home near Trawick Saturday night and was buried at Pinehill cemetery Sunday afternoon.

Uncle Tom was 65 years old, having lived in Nacogdoches since his boyhood. He was born in Alabama and came to Texas when he was a mere boy. He was one of our most highly respected citizens and was beloved by all. He was a member of the Baptist church for 40 years and for the past 20 years he has been sorely afflicted but has always taken his afflictions with patience and fortitude.

Supt. A. E. Day of Garrison, Supt. G. E. Adams of Chireno, Supt. J. A. Hunt of Cushing, Supt. L. B. Tindal of Appleby, Supt. S. U. Parrette of Nat, and Earl Huffer of Nacogdoches had a meeting of the executive committee of the Nacogdoches county Athletic Association in the County Superintendants office for the purpose of arranging a program and setting a time for the county meet. Full particulars will be given later.

There are all kinds of CULTIVATORS -- good, bad and indifferent. We offer you the good kind. The kind that have been

tried and found NOT WANTING. Good farmers know now that they can't AFFORD to be WITHOUT a Cultivator. We have what you want: AVERYS "RED KING" "LUCKY JIM" and "SOUTHERN QUEEN" and Oliver Improved Walking Cultivators. We can't tell you all the good things about these Cultivators in an advertisement, but we can SHOW them to you.

We repeat that WE HAVE THE CULTIVATOR that you want. Have a full stock of all kinds of Implements, the kind you want, that is, if you want the BEST. Come in and see them.

President Wilson suggestion to congress Wednesday in his "trust" address "fell on attentive ears and struck a responsive cord." The only trusts that deserve to live are the trust that the people have in the President and his party and his party have in the people and the only trust Roosevelt tried to destroy, "In God we trust" on the other side of a dollar.

The clamor on every side is for more ships and bigger armies, but the clamor does not come from the men who dig the wealth of the world out of ground at the rate of about a dollar and a half a day.

New Weather is Forecasted.
Washington, D.C. Jan. 20.—Many people have an idea that there is something mysterious and occult about the work of the Weather Bureau in forecasting the coming of storms, frosts and floods. Not a few think that the observers must necessarily get their data by reading the planets, the stars and the moon. As a matter of fact the forecaster of the Bureau foretells the coming of disturbances in a business like way, very similar to that in which a man who has ordered a shipment of goods would estimate the date of its arrival.

Suppose a business man had ordered a carload of pineapples from the Hawaiian Islands. He would know the average time it would take the steamer to make the trip to the Pacific port, the average time for unloading and loading into refrigerator cars, and the average number of days to be allowed these cars for their trip across the continent to New York. His estimate, however, would be subject to error because the steamship might be delayed by fog, or the cars might meet with an accident.

Storms, like pineapples, as a rule do not originate in the United States. They come to us, some from the Philippines, Japan, Siberia, Alaska, Canada or the Gulf of Mexico. The Weather gets cable, telegraphic or wireless notice of a foreign storm. Station after station, or vessel after vessel reports the storm's arrival in its neighborhood, so that the general direction and rate of progress can be determined very nearly. In fact, the arrival of some storms can be foretold ten days in advance.

The forecasters watch for the region of low barometer which is the storm center around which the winds blow. This whirl or eddy moves bodily forward with the general eastward drift of about 650 miles a day in our latitudes. As the lines of equal pressure (isobars) around the low center crowd closer together, the wind attending the storm increases in force. The forecaster determines the direction of movement of the storm and its velocity.

When weather disturbances are reported, the forecasters know from experience about how long it takes them to reach our Pacific Coast, and then how long after they will reach the Atlantic Coast. For example, if a storm coming from Siberia drifts eastward around the North Pole and reappears in Alaska, it should appear in Washington and Oregon in about two days; should get to the Great Lakes in six days and to the Atlantic Coast in seven or eight days.

Unexpected conditions may delay storms or divert them from the straight track just as a refrigerator car may be thrown off its schedule or be shipped by accident on a wrong road. Some of these storms deplete themselves by running into regions of high barometer which are of greater magnitude and extent than

the storm itself. Some of them, however, travel completely around the world.

To keep tab on cold waves that come into the United States from Canada and Alaska, the Weather Bureau studies the Canadian Weather reports. England sends reports from Iceland, and British Islands and Continental Europe, and daily reports come from St. Petersburg on the conditions in Russia and Siberia.

The same businesslike system used in tracing the track of a storm is applied in determining the arrival of frosts.

Floods forecasts are made in much the same way. Information as to the amount of rainfall at the head waters of streams that cause floods are covered by telegraphic reports sent by local observers. As this rain reaches the main channel, the height of the water in the channel is determined by successive gaging stations. Past records establish how much a height, say of 20 feet at Dubuque, Iowa, will produce at Davenport, another station 80 miles down the Mississippi. This plan is followed all the way down the river, and at each point full allowance is made for the effects of water from tributaries, and from additional and local rainfall. As a result of these observations in the recent flood, the people of Cairo had warning a week or ten days in advance. The Pittsburg district can be given only 12 to 24 hours' notice, because a flood is upon them within 24 hours after a heavy rain storm.—Weather Bureau.

The San Augustine Tribune says: "There is at least one man in this district who can release Martin Dies from his duties in congress. Whether he will run or not is yet to be determined." Who is he? If you mean that Strong man of Nacogdoches we quite agree with you.—East Texas Register.

Our guess would be that the Tribune means that strong man Strong of Nacogdoches.

An Ultimatum.
The poodle is a fluffy thing,
And is said to be wise;
He loves to wag his little tail,
And he has weepy eyes;
And many lovely women hug
A poodle to their breast,
But I am so old-fashioned that
I love a baby best.

A poodle is a snow white thing
And may be nice to hug.
And is thought quite an ornament
When snuggled on a rug:
Its bark is just the cutest thing
And fill souls with delight
But I prefer the "Lay me down"

Of little ones at night.
The poodle person lugs her dog
With her where'er she goes;
She cuddles him with baby talk,
And smacks his clammy nose;

She grieves for him when he is sick,
And totes him in her muff;
But as for me, a little bit
Of baby's good enough.

I'd never keep a poodle dog
To take out doors each morn,
While there were homeless little ones
Out in the world forlorn;
I hate the poodle's weepy eyes
And I abhor its whine;

The lips which kiss a poodle's snout,
Need never reach for mine.
—Judd Mortimer Lewis.

Father.
Poems galore have been written about mother,
Of how she adores us, one thing and another;
But poor father's good deeds,
Like the news that he read,
Fades into space,
Time will ever erase.

Who is it that pays the bill,
Bedecks wife with frocks and frills,
Gives advice to sister and brother,
And comfort (when all run down) to mother,
Never tiring in his efforts altho he would rather
Be with the crowd—'tis father.

Often in the "wee small hours" of morn
Just before the break of dawn,
He is pouring o'er his work
A duty he will never shirk,
Pondering how to make ends meet

Or perhaps an investment in Wall street,
Father's life is always hard
Then lets try to be his "pard",
Here is to father, papa or dad
Give him comfort or you'll wish you had.
Smooth the wrinkles from his brow
Love him, let him know it now
Soon his head will be bending low,
To a foreign clime he will have to go. L.

WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt. — "We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would blot. My stomach bothered me, I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me."—Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine
It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Mr. Lloyd George is still contending for a more equal distribution of wealth, but the 1914 almanac show that the King's salary is still \$2,850,000, not counting \$350,000 a year to the Queen \$30,000 a year to Princess Christain, \$80,000 Princess Louise, \$125,000 for the Duke of Connaugh, \$30,000 for the the Duchess of Edinburgh, \$30,000 for Princess Beatrice, \$30,000 for the Duchess of Albany, \$15,000 for Duchess of Mecklenburg-Strelitz and \$90,000 a year for King Edward VII's daughters. The King also receives the revenues of the Duchy of Lancaster, amounting to \$800,000 per annum, and the Prince of Wales gets from the Duchy of Cornwall \$400,000 a year. In addition to these salaries, of course Parliament always provides dowries for them—the last dowry being \$15,000 to Princess Beatrice.—Dallas News.

WEAK KIDNEYS OFTEN THE RESULT OF OVERWORK

On several occasions I have been unable to work and suffered severe pain in the back, due to my kidneys. I called on a doctor of Ripon, Wis. but received no relief.

I tried Dr. Kilmer's Swamp-Root which gave me instant relief. I was then able to resume work. Swamp-Root is the only relief I can get from kidney disease which I am subject to in the spring of the year. I am writing this testimonial through my own free will that sufferers of kidney and bladder diseases will know of the wonderful merits of Swamp-Root. I recommend Dr. Kilmer's Swamp-Root whenever I can and always have a bottle of Swamp-Root in my home. I purchased Swamp-Root of Mr. C. J. Barnside, Druggist, of 202 Main Street, Ripon, Wis.

Very truly yours,

Truck Growers Association.
Editor Sentinel:
 I doubt if half the people of this county know that we have organized right here among them, a Truck Growers Association of Nacogdoches county. I was asked to act as a kind of advance agent for the association and write something to let people know what was being done, and to urge everybody to come out and take a part in this effort to better conditions among the farmers. Everything for the farmers benefit will be discussed here, and the subjects of trucking, diversifying and marketing has already been considered, at the three meetings already held, and the present membership have pledged themselves to plant about sixty acres of vegetable produce, tomatoes, potatoes and the like. The arrangements are all made for marketing produce in conjunction with Appleby, through the Truckers Association at Jacksonville. The fact that the Jacksonville people were so firmly organized enabled them to secure fancy prices for their products last year, and they offer to extend to our people their co-operation and marketing facilities. We have another meeting of the association here at Nacogdoches, on Saturday Jan. 31 at one o'clock and we urgently ask you to come out and co-operate with us in our effort to cut away from farming as much as possible. We want to encourage diversity in crop production which means to raise more kinds of produce. We will advocate intensified farming which means to grow more stuff on less land and to try to raise what the market demands. We will try to raise all the things that home consumption can take up, without having to buy it, and try to raise a better grade of stuff and get better prices for what we sell. We will plant tomatoes, corn, potatoes, peanuts or anything we agree upon, and along by the side of all this we will plant a big patch of spring pigs. That is the slogan. We will plant a big patch of what people want to eat. What they want to eat is what they want to buy, and it you have the patch of pigs and happen to raise more stuff than the market demands, see if the pigs don't demand it. If you can't get a fair price for what you have to sell, give it to the pigs. You may choke the market on produce, but you can't choke the pig nor you can't choke the market on pigs.

If it is not only pigs, for you can feed cattle that way; feed sheep and feed your soil and feed the world. Let the people come out and meet together and take council with each other, and their unity will produce the strength to remove the awful strain that keeps the farmers finances so hopelessly ruptured. It will beat all the of the politician or all the evolutions of socialism. We want the court house full of people on the 31. If you are a small farmer or a large planter you are needed. If you have been successful your advice needed. If you have failed you need advice.

Consumption Takes 350 People Every Day

in the United States and the surprising truth is that most cases are preventable with timely, intelligent treatment.

These appalling facts should warn us that after sickness, colds, overwork or any other drains upon strength, Scott's Emulsion should be promptly and regularly used because tubercular germs thrive only in a weakened system.

The tested and proven value of Scott's Emulsion is recognized by the greatest specialists because its medical nourishment assimilates quickly to build healthy tissue; aids in the development of active, life-sustaining blood corpuscles; strengthens the lungs and builds physical force without reaction. Scott's Emulsion is used in tuberculosis camps because of its rare body-building, blood-making properties and because it contains no alcohol or habit-forming drug. Be sure to insist on Scott's.

Scott & Bowne, Bloomfield, N. J. 1376

A farmer's trust could be organized in this country as supreme and as indestructible as the meat trust or steel trust. Expediency alone justifies such a course. I can name five men in the United States, who could buy and pay for every pound of cotton or every bushel of wheat produced in this country in any year. The fragile efforts to control these trusts by law have proved to be an outrageous farce. The farmer as a class, are notorious for not "sticking together." They stick to anybody better than to each other. We want to see the faces of every one in ten miles of Nacogdoches id the court house next Saturday Jan. 31. There will be more mortgages recorded in this county this year than at any time in the last fifteen years. The people alone can change these things.

Jefferson Baker.

His Stomach Troubles Over.

Mr. Dyspeptic, would you not like to feel that your stomach troubles were over, that you could eat any kind of food you desired without injury? That may seem so unlikely to you that you do not even hope for an ending of your trouble, but permit us to assure you that it is not altogether impossible. If others can be cured permanently, and thousands have been, why not you? John R. Barker, of Battle Creek, Mich., is one of them. He says, "I was troubled with heart burn, indigestion, and liver complaint until I used Chamberlain's Tablets, then my trouble was over." Sold by All Dealers. dw

Breed Good Hogs.

Washington, D. C. 24.—

The Department of Agriculture, is endeavoring to interest the younger generation on Southern farms in the breeding of good hogs. It is the object of the Department to encourage the young men to raise at least enough pork for home consumption, and if possible, a surplus for the market. Pork can be marketed in many forms—fresh pork, hams, bacon and sausage—and can be produced so as to sell much cheaper than beef. A short age of beef means an increased demand for pork and it seems reasonable that there should be a ready demand for all the available supply. This means money in the pocket of the boy hog raiser.

Some of the points which the Department advises the youthful hog grower to bear in mind are the following:

1. The feeding and care are as important as the breeding in producing a good hog. Plenty of feed and good care may make a good hog out of a runt, but lack of it will always make a runt out of a good pig.
2. To make pork cheaply a permanent pasture and storage crops must be used.
3. Young pigs must have a dry bed and plenty of sunshine.
4. Begin feeding the pig as soon as he will eat, and keep him growing until he is mature.
5. Always keep plenty of clean, fresh water the hogs may drink at any time.
6. Quarantine all newly purchased animals for three weeks.
7. Never keep a female for a brood sow, no matter how well bred she may be, if she will not produce more than four strong pigs at a litter.
8. The more milk a sow will give the faster her pigs will grow.
9. Lice prevent a hog from doing well.
10. Always keep a mixture of charcoal, wood ashes, lime, sulphur, salt and copperas before the hogs.

Best Cough Medicine for Children

"I am very glad to say a few words in praise of Chamberlain's Cough Remedy" writes Mrs. Lida Dewey, Milwaukee, Wis. "I have used it for years both for my children and myself and it never fails to relieve and cure a cough or cold. A. Y. Matthews For Sheriff.

To the voters of Nacogdoches County.

In coming before you the second time as a candidate for the office of sheriff of your county I deem it proper to say something in regard to my past history.

I was born and reared on a farm in Shelby county, Texas, and worked there regularly until I was 85 years of age. Just after this time I was elected sheriff of San Augustine county and served in that capacity four years from 89 to 92, and the next two years was marshal of the town. Since coming to Nacogdoches sixteen years ago, I have been engaged in various occupations. Part of the time I was deputy sheriff under Uncle Bill Campbell, and was marshal of the city of Nacogdoches four years.

I have spent my life in Shelby, San Augustine and Nacogdoches counties, and expect to remain in Nacogdoches county the rest of my life. I have always been a poor man, but never asked for charity, having always worked for a living and tried to treat my fellow-man as I wished him to treat me.

In conclusion I wish to thank my friends for the liberal support given me in last campaign, at the same time soliciting the support of each and every one in the present campaign. I promise if elected sheriff of your county to give you a clean honest and upright administration of the affairs of the office.

Respectfully
 A. Y. Matthews.

The safety of the nation lies in the preservation of the home, and home building should be the paramount issue.

I ask for the producer the same thoughtful consideration to his requirements that has been given other lines of business.

Our homes are the cornerstones of government, and legislation that contains building material should be provided for the tenant farmer.

Our system of education from rural school to university should receive the careful consideration of the Legislature, and efficiency and economy instituted wherever possible.

Prohibition Conference

Fort Worth, Tex., Jan. 24.—Results of today's prohibition-democratic state conference were:

Hon. Will H. Mayes advised the conference in writing that he would submit his claims as a candidate for governor to any representative body of prohibition democrats.

Hon. W. P. Lane told the convention that his attitude was unchanged; that is, that he would continue in the race.

Hon. Cullen F. Thomas, "unannounced candidate," reiterated his former statement, that he placed his ambitions at the feet of the prohibition democrats of Texas.

Another conference is called for Fort Worth on Feb. 21, to be composed of delegates chosen by county mass conventions on Feb. 14.

One of our exchanges says of a candidate for commissioner announcing in its columns that he is fully competent to perform the duties of the office to which he "expires"—the quotation marks are ours. Typographical errors are as annoying to an editor as any other kind, and as amusing to a reader.

J. M. Spradley for Sheriff.

To the Voters of Nacogdoches County:

Having carefully considered the situation I make this my announcement as candidate for sheriff subject to the July Primaries.

As there are many new comers in the county, and young men lately voters, I wish to say I would be no stranger in the sheriff's office. I was for several years chief deputy sheriff, and did the work for the entire county. I was sheriff two years and ask those not familiar to investigate my official record, and private conduct as a citizen.

I was city marshal, assessor and collector for ten years. Investigate my record in these official positions. I believe that the sheriff ought to comply with the law, and keep a record of his office, and not charge or collect one cent from the county, state or individual that he is not entitled to under the law. The sheriff should comply with the rules and regulations in handling prisoners in jail which would prevent the numerous escapes of prisoners and the destructions of our costly jails, I am aware of the fact that the country is infested with criminal that are depredating on the lives and property of the people under the cover of night. Nacogdoches county is not slighted.

If I am elected your sheriff, I will spare no efforts to protect you against this lawless class. None but sober and self respecting deputies can serve under me. I ask a careful consideration of my candidacy, then it you think I am worthy and qualified to serve you as sheriff, I will appreciate your support for that office.

Respectfully submitted
 J. M. Spradley.

Luther M. Hall For Tax Assessor.

We are authorized to announce Luther M. Hall as a candidate for tax assessor of Nacogdoches county subject to the action of democratic primaries July 25. Mr. Hall was born in Nacogdoches county and has lived at Chireno practically all his life. He was educated in the Chireno High School, and is now principal of the Attoyac school which will close April the 24, when he will begin the canvass of the county. He says he is the youngest man in the race and asks the people to consider his claims before committing themselves to any other. Mr. Hall has a good record and is thoroughly capable of performing the duties of the office. He is the son of I. J. (Tobe) Hall, who is widely and favorably known to the people of the county, and is active in body and mind and well equipped for both outdoor and indoor work. He promises to elect to discharge his duties faithfully and efficiently.

I. C. Skillern for Sheriff.

We are authorized to announce I. C. (Ike) Skillern as a candidate for sheriff of Nacogdoches county subject to the action of the democratic primaries July 25, 1914. Mr. Skillern was born and raised in the county and is well known to all the people. He is the son of W.A. Skillern and has acted as deputy sheriff for many years, making himself thoroughly acquainted with the duties of the office. He is a progressive farmer living eight miles south of town, and promises if he is elected to be a painstaking officer and discharge his duties without fear or favor.

Oscar Murphy for County Treasurer.

To the voters of Nacogdoches county:— I have decided to again ask you for the office of county treasurer. I served you one term in this capacity and with the experience I gained then I feel that I can make you a better officer than at that time. My record as your treasurer is open and before you and I invite you to investigate it and my reports to the Commissioner's court are also open for your investigation.

Having served you in an official capacity I feel that most of the voters of the county already know me but it is my intention nevertheless to make a canvass of the county and hope to see as many of you as possible between now and the 25th of July.

I am a native son of the county, being raised a Looneyville, near the present town of Cushing, and am a son of A. J. Murphey a resident of the county since 1842.

I appreciate the support given me in the past and pledge you, if elected, faithful attention to the duties of the office, and assure you that any favors shown me at this time will be doubly appreciated.

Yours respectfully,
Oscar Murphy.

To All Who Wouldn't or Couldn't.

Now that the paving on our main thoroughfare is practically completed and the unsightly gaps (for even those who are responsible for them cannot gainsay that they are unsightly) seem likely to be there for some time to come, why not do something, and that quickly to render them less offensive to our own sense of decency, at the same time obviating the criticism, the ridicule we are bound to be subjected to by the "stranger within our gates?"

Therefore, to save our civic pride, to change criticism into compliments, ridicule into praise, I suggest that the property owner, if he will, the tenant if he (the property owner) won't, or the city fathers if they must, plant in these unpaved spaces grass, flowers, shrubbery, and so transform into a thing of beauty what certainly cannot soon fail to be an eyesore and an offense to every sense, if left in its present condition.

Let the county officials take the initiative and make the unpaved portion of the streets surrounding our really imposing court house as lovely and attractive as they have the grounds within the walks. They have shown that they can.

How much better would well-cut grass look, for instance, in front of one of our leading hardware stores than plows! How much more pleasing a bed of bright-hued hardy flowers than the debris that is bound to accumulate in the depression before one of our important banks! And so, with all the unfinished places. It will not be hard to do, and will certainly repay a hundred fold the very little expenditure of time and money.

Every one of you business men have homes in the grounds of which you take such pride. Why not extend a modicum of that pride to your places of business where you necessarily spend so many of your waking hours?

Then, when the stranger leaves our enterprising little city, instead of advertising our blots and blemishes, he will speak with enthusiasm of our splendidly paved streets, ornamental lighting that makes of our main street a "great white way," of the esthetic taste of its business men which does not stop at their homes, but makes itself felt in the very heart of the city, and Nacogdoches will be a synonym for all that is beautiful as well as progressive.

And our sister cities will not laugh either openly or in their sleeves at our would-it-I-could city airs, but will gnash their teeth in envy, and wish they had mud-holes to fill up with lush grass, fragrant flowers and luxuriant shrubbery.

Davidson-Harrington

Mr. Geo. H. Davidson and Miss Alice Harrington were united in the Holy bonds of matrimony yesterday January twenty seventh, nineteen fourteen, at the home of the bride's parents, Mr. and Mrs. W. G. Harrington.

'Twas a quiet home wedding but one very dear to the hearts of Nacogdoches for the groom Mr. Geo. H. Davidson, is the son of Mrs. Geo. H. Davidson, one of our oldest and best families and has proved himself a young man of noble and sterling qualities. Miss Alice, while not having lived here so long, has always been a special favorite and very much loved by her associates and all who have known her.

The house was made dainty and pretty by loving hands with the southern smilax and pretty white flowers that are in full bloom now.

The priest stood in front of a beautiful arch where the bridal couple were to stand and the little ribbon bearers came by twos down the stairway. Little Eula Gene Harrington, sister of the bride and Mary Marshall, Katherine Marshall and Bettie Lewis Harris, Virginia Harris and Margaret Smith, dressed in pink made a sweet picture as they paved the way for the bridal couple, while little Betty Marshall carried the ring on a flower and came and stood close to the bride and groom.

Miss Eula Mae Monk sang in her clear beautiful voice "Oh Promise Me" and Mrs. Lindsey played as they marched to the altar.

Rev. Father Casserty performed the beautiful ceremony that made them man and wife for life.

The bride was dressed in an appropriate traveling suit and carried a bouquet of bride roses with a shower of lilies of the valley, the groom looked handsome in conventional black, and thus was made one a couple loved by all, and the Sentinel wishes to join the many friends in wishing for them a long and prosperous life may their joys be many, their sorrows few. During the congratulatory of their many friends punch was served and the handsome array of bridal presents was simply gorgeous. happy couple left on the T. & N. If you can't boost the booster don't try to bust'er.
If you boost the booster you show your prudence,

AN INCESSANT COUGH.

Continued Dropping of Mucus into my Throat.

A severe cough is always a grave symptom. It may not indicate organic disease of the lungs. Even though the cough is a functional disturbance of sufficient gravity to demand prompt attention. The dropping of mucus from the back part of the nose into the throat indicates nasal catarrh. Sometimes this goes on a long time before the patient pays any attention to it. It is stated on good authority that mucus dropping into the throat in this way is apt to excite catarrh of the stomach. At any rate, the condition ought to be corrected as soon as possible.

Mrs. Bourland, of Frankston, Texas, found after using Peruna that not only did the incessant cough disappear, but the dropping of mucus into the throat had also ceased. Read what she says:

"For twenty-three years I was a constant sufferer from chronic catarrh. I had a severe misery and burning in the top of my head. There was almost a continual dropping of mucus into my throat, which caused frequent expectation. My entire system gradually became involved, and my condition grew worse. I had an incessant cough and frequent attacks of bilious colic, from which it seemed I could not recover. My bowels also became affected, causing alarming attacks of hemorrhages. I tried many remedies, which gave only temporary relief, or no relief at all. I at last tried Peruna, and in three days I was relieved of the bowel derangement. After using five bottles I was entirely cured.

"I most cheerfully recommend the use of Peruna to any one similarly afflicted."

People who object to liquid medicines can now obtain Peruna Tablets.

Government Ownership

The power of centralized money will have to be decreased. Its greatest single weapon today is the control of insurance reserves. Ultimately insurance will be conducted by the government, not only to decrease this illegitimate power of the bankers but because the government having the ability to prolong life should logically be the insurer. — It will own the railroad and more definitely for reasons of economy will take charge of telegraph and express business. — Civilization owes to the workers a large share in the control as well as in the profits of industry. — Collier Weekly.

How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named?" asks a housekeeper.

Here is one way: take the can of a low-priced powder in your hand and read the ingredient clause upon the back label. The law requires that if the powder contains alum that fact must be there stated. If you find one of the ingredients named alum, or sulphate of aluminum, you have found an alum baking powder.

There is another and a better way. You don't have to know the names of the alum powders. Use Royal Baking Powder only; that assures you a cream of tartar powder, and the purest and most healthful baking powder beyond question.

Oklahoma City, Jan. 20.—Emphatically declaring that under the new currency law there could never be another financial panic in the United States Senator Owen aroused tremendous enthusiasm in an address at the booster banquet of the Chamber of Commerce tonight.

"It is the beginning of a new era," said the senator, "for the men who would like to engage in business need have no fear in the future of having the ground cut from under their feet by either panic or injurious destruction of credit."

Continuing Senator Owen explained other currency reforms his committee was now drafting, among them being a system of banking on the Raffeisen plan which will secure cheap money for farmers for short periods and for temporary productive purposes.

"These latter systems in conjunction with the federal reserve banks will give America the greatest financial system and market in the world."

Southern Mexico Now Seething.

Mexico City, Jan. 25.—Added to Mexico's troubles in the north, the southern situation now has become such as to cause serious concern with the administration.

In the mountains of Pueblo state the aged general, Juan Francisco Lucas, an Indian patriarch, veteran of many battles, and who has fought beside Porfiro Diaz, is said to be in the field against Huerta. The government admits that there is fighting in the Sierras and that many federal troops have been rushed thither, but does not state whether Lucas is in the field.

Private reports, however, say the situation is serious; that Lucas has revolted, and has issued a revolutionary proclamation; that he can gather thousands of Indians who obey him implicitly.

Old Soldiers Pension is \$15.

Austin, Texas, Jan. 26.—The comptroller's department has just received from the printer 17,000 Confederate pension warrants, which will be mailed out on the last day of next February to nearly that number of pensioners.

For this quarter the old soldiers will receive \$15, which is quite an increase from what has been given to the old soldiers heretofore. For several years past the amount apportioned quarterly has been \$10.50. This increase is the result of the recent adoption of the constitutional amendment, which provides for the levying and collecting of special tax of 5 cents on the \$100 property valuation for the payment of Confederate pensions. The funds for the payment of the pensions for this next quarter will come entirely from this special tax. This will relieve the general revenue fund of \$500,000 a year which had heretofore been appropriated for that purpose.

Due to a recent amendment to the Confederate pension law, the number of pensioners has increased from 12,000 to approximately 17,000. Under the old law veterans who came to Texas up to 1880 were entitled to pensions; now, under the amendment, those who came twenty years after that date come in for pensions.

Mosby Ranger Is Dead

Washington, Jan. 26.—Word was received here today of the death of Captain E. F. Thomson, 76 years old, a member of the famous Mosby rangers during the civil war, at Clarendon, Va. He is survived by a widow and nine children. Burial will be in Washington.

Norris Second Case in April.

Fort Worth, Texas, Jan. 26.—Rev. J. Frank Norris, accompanied by his attorneys appeared in the Seventeenth district court room early Monday morning and demanded his second arson trial be called at once. He was acquitted of the charge of burning the First Baptist Church last Saturday morning. There is yet an indictment against him in connection with the burning of the parsonage.

After nearly an hour was consumed in arguing the proposition. Judge Swayne overruled Norris and his attorneys, explaining the John Lamb murder case was set for next Monday and he would not postpone it. The state refused to ask for a continuance of the arson trial although neither County Attorney Baskin or W. P. McLean, Jr., special prosecutor, urged that it be called.

Judge Swayne said he would pass the case over to the April term of his court.

Change in Business

A deal was consummated yesterday wherein there was a change made in the popular drug firm of Swift Bros. & Smith.

Luther and Fritz Swift have sold a part of their stock to Joe Langston and A. H. Smith and they will not be actively connected with the business after the first of next month. Luther and Fritz have been actively connected with this firm a little more than a year, during which time, they have made many friends by their courteous treatment and honest dealing with their customers. Under their management, this has become one of the most popular as well as one of the best established drug firms in East Texas.

While they are retiring from active association with the business yet they are retaining a part of the stock and will take a deep interest in the welfare of the business under the new management. They will have their office in the store and will always be ready to extend the same courtesies and favors in the future as they have in the past.

Joe Langston is one of the young and successful business men that was born and reared in Nacogdoches county and one of whom we are all proud and have the utmost confidence in his success in his new career.

"Dock" Smith has proven himself one the best drug men in the state and we bespeak for these gentlemen the success merited only by such capable men as they.

The new business will continue under the same firm name and they ask for a continuation of the kind favors at the hands of the public in the future as in the past.

Reduction in Army and Navy.

I venture to recommend that the war and navy officials and other representatives of all the nations be invited to hold a conference to discuss whether they cannot agree upon a plan for lessening the cost of preparation for war. It is recognized that the desired end of competitive building, carried on under whip and spur, could not be effective without agreement between great nations. It ought not to be difficult to secure an agreement by which navies will be adequate without imposing overheavy taxation upon the industry of a nation.

I trust the tentative suggestion for a naval holiday by the strongest of the powers will be debated and the matter seriously considered by an international conference looking to reduction of the ambitious and costly plans for navy increase.

I trust that this country will take the initiative and that steps will be taken by a conference of all the powers to discuss reduction of the heavy cost of the army and navy.—Secretary of the Navy Josephus Daniels.

Why Don't You?

A farmer who was carrying an express package from a city mail order house, was accosted by a local merchant: "Why didn't you buy that bill of goods from me? I could have saved you the express and besides you would have been patronizing a home store, which helps pay the taxes and build up this locality." With characteristic frankness, the farmer asked: "Why don't you patronize your home paper and advertise? I read it and didn't know you had the goods I have here, nor do I ever see your name in the paper inviting one to come to your store."—The Pomotropic.

Palatine, Texas, Jan. 21.—J. J. Blount of Anderson County, well known as the "alarm clock" statesman, announces he will be a candidate for governor and will be in the race to stay.

Rheumatic Pains.

Every last one of them leaves. The hurting is gone almost the instant Hunt's Lightning Oil is used. The aching stops so quickly it is surprising. Hunt's Lightning Oil is especially compounded to relieve pain. For neuralgia and headaches it is a boon to humanity. For cuts, burns and bruises it acts as a healing oil, soothing the hurting parts and preventing soreness. Nothing better for chilblains. All druggists in 25c and 50c bottles.

At the court house next Saturday Jan. 31 at 1 p. m. there will be a meeting of the Truck Growers Association of Nacogdoches county. All farmers and truck growers within a radius of ten miles are requested to be present.

Acute Sore Throat.

There is nothing better for sore throat than Hunt's Lightning Oil. Put it on at night, and the next morning the soreness is usually gone. Rubbed on chest is fine for sore lungs, often preventing pneumonia. Hunt's Lightning Oil is sold by all reputable druggists in 25c and 50c bottles.

Nature hastens the decay of the dying oak and plants a thousand acorns in the ground shaded by its branches.

For Skin Diseases.

Hunt's Cure is sold under a positive guarantee that your money will be refunded without question if it fails to cure Itch, Eczema, Ringworm, etc. You therefore run no risk whatever in purchasing a 50c box from your druggist.

The wife of J. W. (Dick) Johnson, who lives west of town died yesterday afternoon at 5 o'clock and was buried to-day in the Stone graveyard.

For Cold on Lungs.

Rub the chest well with Hunt's Lightning Oil. You will be really surprised how soon the soreness leaves. Cold on lungs is dangerous, often developing pneumonia. The use of Hunt's Lightning Oil in time is important. Sold by all reputable druggists everywhere in 25c and 50c bottles.

For Constable Beat No. 8.

We are authorized to announce G. L. McGuire as a candidate for constable for precinct No. 8.

Mr. McGuire has had a great deal of experience in this office and has always made good. If elected he will make an efficient officer.

Colds to Be Taken Seriously.

Intelligent people realize that common colds should be treated promptly. If there is sneezing and chilliness with hoarseness, tickling throat and coughing, begin promptly the use of Foley's Honey and Tar Compound. It is effective, pleasant to take, checks a cold, and stops the cough which causes loss of sleep and lowers the vital resistance. Swift Bros. & Smith.

Public Ownership.

Is it right to commercialize a public necessity like water? The public ought to have water at what it costs to get it and city ownership means nothing more.—Beaumont Enterprise.

Is it right to commercialize any public necessity like electric lights, the telephone, the telegraph, the street railroad and so on, and ought not the public have all them at what they cost?

Sneffels, Col. A. J. Walsh was badly done up with rheumatism and sent for Foley Kidney Pills which was the only thing that would cure him. Geo. Potter of Pontiac, Mo. was down on his back with kidney and bladder trouble and Foley Kidney Pills made him well and able to work. It is a splendid medicine and always helps. Just try it. Swift Bros. & Smith.

Transfer Tax Total \$2,584,000.

Albany, N. Y., Jan. 22.—A check for \$2,584,000 in payment of the transfer tax on the estate of the late Anthony N. Brady of New York was received yesterday by the state controller. The tax was figured on an estimated valuation of \$70,000,000.

A Difference in Working Hours.

A man's working day is 8 hours. His body organs must work perfectly 24 hours to keep him fit for 8 hours work. Weak, sore, inactive kidneys can not do it. They must be sound and healthy active all the time. Foley Kidney Pills will make them so. You cannot take them into your system without good results following. Swift Bros. & Smith.

Wade Walters requests us to say that it was eight years ago he made the race for constable and lost by only 7 votes and that he intends to announce soon and show the people how fast a good man can run when he really tries.

Do you begin to cough at night, just when you hope to sleep? Do you have a tickling throat that keeps you awake? Just take Foley's Honey and Tar Compound. It will check the cough and stop the tickling sensation at once. Does not upset the stomach, is best for children and grown persons. Swift Bros. & Smith.

ACT QUICKLY

Delay Has Been Dangerous in Nacogdoches.

Do the right thing at the time. Act quickly in time of danger.

In time of kidney danger Doan's Kidney Pills are most effective.

Plenty of evidence of their worth.

A Hatchel, Nacogdoches, Texas, says: "One of the family suffered a great deal from bearing-down pains across the hips and limbs, I had heard so much about Doan's Kidney Pills, that I finally procured a box at Mast Bros. & Smith's Drug Store, (now Swift Bros. & Smith's Drug Store). Within twenty-four hours they brought relief, and after half a box had been used, the pains had left. There has never been a sign of the trouble since. I also used Doan's Kidney Pills myself and had just as satisfactory results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Triplets Near Garrison.

Triplets, two girls and a boy, were born to Mr. and Mrs. W. E. Scogin near Garrison January 15. The father is a farmer, whose farm is located six miles from Garrison.

The "Mischief Quartette" and it's Work.

Each year the month of January numbers its list of victims from influenza, lagrippe, bronchitis and pneumonia. The prompt use of Foley's Honey and Tar Compound will check the onset of a cold and stop a cough, preventing the development to more serious conditions. Keep it on hand. Swift Bros. & Smith.

Milas Dishman, a good old colored man, died at his home Wednesday four miles out on the Tyler road. He was in the employ of Grandpa Summers over twenty years, and all who knew him spoke well of him. It is not known how old he was, but his age was somewhere between 75 and 80.

Women and Wet Feet.

Cold and wet feet are a dangerous combination especially to women, and congested kidneys often result. Back ache, urinary irregularities and rheumatic fevers are not unusual results. Foley Kidney Pills restore the regular and normal action of kidneys and bladder and remove the cause of the trouble. Contain no habit forming drugs. Swift Bros. & Smith.

Mrs. Henry Bowden Dead.

Sadness and gloom was cast over the home of Henry W. Bowden of the Red Oak community yesterday morning when the sad messenger of death took from him his beloved wife after an illness of about a week.

Mrs. Bowden was a daughter of Mr. and Mrs. A. L. Tindell. She was a sister of Mrs. R. E. Minns, Mrs. Alex. Reed and Mrs. John Maroney.

She was 32 years old and was a member of the Baptist church. She leaves a husband and four children to mourn her loss.

The funeral services were held this afternoon at 2 o'clock at North church. Bro. Girard of Rusk, her beloved pastor for many years, conducted the services.

For Frost Bites and Chapped Skin.

For frost bitten ears, fingers and toes; chapped hands and lips, chilblains, cold sores, red and rough skins, there is nothing to equal Bucklen's Arnica Salve. H. E. Bucklen & Co. Philadelphia or St. Louis.

Strange Corn and Egg

R. D. Smith, who lives five miles east of town, brought a freak ear of corn to the Sentinel Saturday afternoon. Rather it is a combination of ears which Mr. Smith says grew in one shuck. One perfect ear is surrounded by eleven small ears or nubbins, each nubbin having its own cob and perfect grain.

His wife sent two freak eggs—very uncommon eggs laid by a common hen. The small end comes to a point like a torpedo and the large end is smaller than in the average egg. Ten of these have been laid and prospects are good for many more of the same kind.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging
Conditions, Mrs. Bullock Gave
Up in Despair. Husband
Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Through Panama Canal.

A channel one hundred feet wide and twenty-five feet deep, sufficient to permit the passage of any vessel in our navy except the dreadnoughts, now exists through the Cucaracha slide. If it were necessary we could send ships through the canal tomorrow.

Excavation is advancing at a rate of fifteen thousand cubic yards a day, and there is every reason to believe that the entire slide will be removed before July.

Except for the work at the terminals the construction of the canal is finished. In the year 1914 I expect to see the canal thrown open to navigation and the ships of many nations using it.

This will mark the beginning of a new era in our foreign trade, the development of a commercial empire, the expansion of our international interests and incidentally the drawing closer of our nation with all others.—George W. Goethals, Builder of Panama Canal.

City of Mexico, Jan. 24.—One hundred women and children and 150 federal soldiers were massacred by rebels recently near Vanegas, north of San Luis Potosi, according to reports received here today.

The soldiers with the women surrendered to the rebels and were taken to a ranch Matehuala, where the alleged butchery occurred.

Major Rebollo and Captain Ramirez and a handful of men were the only ones to escape. They arrived here today, bringing news of the affair, which occurred several days ago.

Edgar Williamson of Sacul is in the city on business today.

RUB-MY-TISM
Will cure your Rheumatism, Neuralgia, Headaches, Cramps, Colic, Sprains, Bruises, Cuts and Burns, Old Sores, Stings of Insects Etc. Antiseptic Anodyne, used internally and externally. Price 25c.

By Andrew Carnegie.

Our republic bears a charmed life. No temporary lull can affect her. The man who decides otherwise will have cause for regret. She is fast becoming the Gulliver among nations, the others being small Lilliputians dancing around the giant they can not control.

In manufacturing already our country stands supreme. In agriculture she must imitate Denmark, Belgium, Holland, Britain and others by improving her soil, thus growing heavier crops per acre than ever before.

This accomplished, we have nothing to fear. We need neither a great army nor navy, combined. No nation or nations could successfully invade us. None wishes to try. Andrew Carnegie.

Cures Old Sores, Other Remedies Won't Cure. The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00

If there should be a crisis with Japan anent the California alien land legislation, the United States would do well to quote to her England's advice, "Go slow," which can be put in rhyme something like this:
Japan, Japan, go slow, go slow,
You know I know the pace to go.
I tried it once
And like a dunce
I tried it twice
And paid the price
About a hundred years ago;
Japan, go slow, you know I know.

Boy Averages Father's Death.

Richmond, Texas, Jan. 21.—Avengeing the recent death of his father, Irving Priest, aged 22 years, shot and killed R. A. Brentley, negro, while the latter was in the custody of a deputy sheriff here this morning.

Brentley has been in jail here on a charge of killing M. D. Priest, who conducted a saloon at Simonton and who was waylaid and killed for purposes of highway robbery two or three weeks ago.

This morning a deputy sheriff took Brentley from the jail to justice court, where an examination trial was begun. The hearing was not concluded at noon and the deputy was returning to the jail with his prisoner. Suddenly Irving Priest appeared, shotgun in hand. He shouted to the deputy to lookout, almost at the same instant firing a load of buckshot into Brentley's head. The prisoner died instantaneously, while his slayer was at once placed under arrest and conducted to jail. Brentley was an ex-convict.

Weaver Tried to Save Negro.

Luther B. Weaver of Dallas, whose heroism brought an award from the Carnegie Hero Fund, of \$40 per month to his widow and \$5 per month for each of two children lost his life on July 15, 1912 while trying to save a negro employee from burning.

Mr. Weaver was one of the proprietors of the Leeb Dye Works, at Harwood and Bryan street. On the morning of July 15, 1912, one of the gas receptacles exploded and wrecked the building, setting fire to it. Mr. Weaver reached the outside safely, without any injury to himself, but discovered that one of his employees, a negro, known as George was still in the building. He rushed in and pulled him out. Both were so badly burned that they lived but a few hours.

Mrs. Weaver lives at 3045 South Harwood street. Both of the children are boys, one 9 years old and the other 7.—Dallas News.

To Scatter Ashes in Gulf.

Waco, Texas, Jan. 21.—The remains of Judge G. B. Gerald, who died here early this morning, will be taken to St. Louis tomorrow afternoon and there cremated. At a later date his grandson, W. G. Weaver, at the request of Judge Gerald, will take the urn containing the ashes, board a boat at some point on the Texas coast and they will be scattered on the bosom of the Gulf of Mexico. Judge Gerald had been a resident of Waco for forty-five years.

Wilson's Remedies For Monopoly

The chief points which the President singled out as a basis for legislation were:

1. Effectual prohibition of the interlocking of directors of great corporations—banks, railroads, industrial, commercial and public bodies.

2. A law to confer upon the interstate Commerce Commission the power to superintend regulate the financial operations through which railroads henceforth are to be supplied with many needs for proper development and improved transportation facilities. The President made it clear that "the prosperity of the railroads and the prosperity of the country are inseparably connected" in this regard.

3. Definition of the "many hurtful restraints of trade" by explicit legislation supplementary to the Sherman law.

4. The creation of a commission to aid courts and to act as clearing house of information in helping business to conform with the law.

5. Provision of penalties and punishments to fall upon individuals responsible for unlawful business practices.

6. Prohibition of holding companies and a suggestion that the voting of individuals holding shares in numerous corporations might be restricted.

7. Giving to private individuals the right to found suits (redress on facts and judgments proven in government suits and providing that the statute of limitation should run only from the date of the conclusion of the government's action.

Galveston, Texas, Jan. 21.—All previous records were broken by the enormous receipts of cotton at this port during 1913, according to a report just issued by the United States Census Bureau. The bulletin shows that 4,035,000 bales of cotton were received at this port for export during that year. With this record, Galveston maintains her standing as the leading cotton exporting port of the world. Practically all the cotton shipped from Galveston goes to European mills and a large portion is sold back to Texas consumers in a manufactured form. New Orleans ranks second with 1,487,000 bales last year.

Messrs P. C. and Joe Burk from Millers Mill community are in town today.

Gets Right Twist On Rheumatism

Makes Short Work of Cleaning Out Your Entire System—Aches and Pains Go Fast.

In S. S. S. You Get a Twist on Rheumatism That Settles It.

Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S. and been handed something claimed to be "Just as good." Truly, to ask for bread and be given a stone is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and note its wonderful influence.

S. S. S. has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflaming atom of poison; it dislodges by irrigation all accumulations in the joints, causes acid accretions to dissolve, renders

them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all this remarkable remedy is welcome to the weakest stomach. If you have drugged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

Get a bottle of S. S. S. today, and ask for S. S. S. You may depend upon it that the store that sells you what you ask for is a good place to trade. Write to the Swift Specific Co., 204 Swift Bldg., Atlanta, Ga., for their Book on Rheumatism.
