### Three Buildings Burn at Timpson.

Timpson, Texas, Feb. 9.—Our city was visited by a disastrous fire last night in which three of our brick business buildings were burned, only the brick walls were left standing.

The buildings burned were owned by B. J. Hawthorn, Mrs. Keeling, and T. C. Johnson. The occupants of the buildings were D. L. Todd's grocery store, Wells Fargo Express Co., W. M. Brittain's barber shop, Mrs. Keeling's Millinery store, S. H. Molloy's tailor shop and R. H. Hairgrove's meat market. The buildings were all covered by insurance, but following occupants had no insurance on their stock. S. H. Molloy, Mrs. Keeling, W. M. Brittain and R. H. Hairgrove.

The rapidly increasing population gives rise to a larger demand for food, both in the form of bread and meat, and the farmer must meet this demand not only by increasing production but by marketing facilities.

### Frank Usry Accidentally Shot

This morning about seven o'clock Frank Usry, the 15 year old son of Mr. and Mrs. S. L. Usry was accidentally and probably fatally shot at his home near the electric plant.

Mr. Usry had unloaded his pistol and put it away but in the mean time Frank had gotten hold of it and reloaded it.

This morning when Mr. Usry had gotten his pistol and was handling it, not thinking that it was loaded it was accidentally discharged the ball striking Frank in the right side between the sixth and seventh ribs, going through his body and coming out near the spinal column.

Physicians who were called at once report him in a very serious condition. Mr. Usry and family are almost distracted over this sad accident.

### Ship 20,000 Pounds of Butter.

Sulphur Springs, Jan. 7.—A carload of 20,000 pounds of creamery butter was shipped from this place recently. Even with numerous reports of foreign butter being imported to this country since the new tariff law went into effect, Texas butter still invades Northern territory.

### Card of Thanks.

We wish to thank the people of Appleby and vicinity for the kindness shown us through the illness of our mother, Mrs. A. D. King. May the richest blessings of God abide with them. Edward E. King and Mrs. J. W. Strode.

### Truck Growers Meeting Next Monday.

Editor Sentinel:

Please say that the truck growers association of Nacogdoches county will meet Monday Feb. 16, at the court house. The meeting was fixed for one o'clock in the evening, the purpose being to get through with the business in time to hear the lecture to be delivered here at that time by President W. D. Lewis of the State Farmers Union. We trust that every one, farmer or whatnot, will come out at 3 o'clock and hear President Lewis.

While we are not apprised of his subject yet we understand that it will be along the lines of marketing diversifying and kindred subjects of vital interest to the whole country. Mr. Lewis has himself been a success in handling the matters of which he speaks and it the people turn out to hear any body it ought to be some one who has accomplished something and can speak from what he knows. Don't forget the date of Lewis, lecture and come and hear it.

J. B.

M. F. Bates a substantial merchant and all around business man from Nat is in the city today. Mr. Bates reports that farmers in his community are making extensive preparation toward another crop and everything is looking good. He also reports that they have just completed a new \$1,500 school house and that everything is working in harmony.

HALTOM & HALTOM, Proprietors.  
GILES M. HALTOM, Manager.

The discords of the finite make the harmony of the infinite.—Brann

Weather men say that a warm February follows a warm January, as a rule.

The Democrat is a new weekly at Tyler, with Hon. D. M. Reedy editor and publisher.

I neither affirm nor deny. I stand here to consider how it is. I will try to keep the balance true.—Emerson.

Dave Dinks says he saw in a paper that Lane is as anxious to eliminate Thomas and Mayes as they are to eliminate him.

If the Pros eliminate, the Antis will eliminate, and Texas will have the prettiest race our eyes have ever beheld.

A Georgia paper tells us a new way to cook eggs. If it will tell us how to get eggs, it will have our unending esteem and gratitude.

General Coxe is planning a spring march on Washington with a half million men. He does not say what he intends to take back with him.

Dave Dinks says thicker this morning than ever before was on the ice water that fillet the skips on which the property of some people abutteth.

When the Galveston News said that wisdom is found in the philosophy of serene silence, it must have had in mind the greatest of all Texans who lives in Dallas.

W. V. Jones of Bosque county has withdrawn from the race for governor, and J. Martin Jones of Panola county is sawing lumber at Longbranch and saying nothing.

The commission form of government in many cities has proved economical and efficient. Why should not the state adopt it and abolish its bifurcated legislative machinery?

When the people of a nation are worshippers at the shrine of Mammon, the individual is measured by the size of his bank account instead of the size of his cerebrum.

One's none, two's some, three's a heap and four's a pile, but nine is a cataclysm—nine candidates for sheriff and not one of them knows the meaning of cataclysm—we didn't either until we looked it up in the dictionary.

Statistics of births and deaths are of vital importance. They are called vital statistics and the law provides that physicians reports these matters to the county clerk. It was our purpose to published these statistics at the end of each month, but upon inquiring at the clerks office this morning we were informed that the record is too meagre to be of any value.

The governments of the world encouraged by capitalists whose wares are used will continue the preparation of gigantic engines of war as long as the common people pay the expenses and keep their mouths shut.

How would you like to order your goods from New York, shipped via Mallory line to Sabine wharf at Longview?—Longview Times—Clarion.

We haven't given the matter much thought, but our impression is we wouldn't like it.

If the chain of bank projected by Chicagoans be successful, laboring people in cities will be able to borrow small amounts at low rates of interest, whereas now they are literally robbed by loan sharks—twenty per cent a month equals the principal in five months.

A Nacogdoches gentleman recently paid fifty cents to an express company as charges on a suit of clothes shipped from Chicago. Just before the parcel post law went into effect the same gentleman paid to the same company one dollar and a half for bringing a suit of clothes from the same city.

A Mexican paper declares that lifting the embargo on arms is the first step of the Yankees toward our frontier. Afterward will come intervention. The phantom grows more distinct beyond the Rio Grande. Uncle Sam will soon see Huerta growing less distinct beyond the Rio Grande.

We can't help thinking about that 15 months old hog near Lufkin that weighed 350 pounds. At 8 cents a pound it was worth nearly \$30. Lufkin is a little village on the E. & W. twenty miles south of the city of Nacogdoches and situated in the center of that God-forsaken country across the river.

The Antis express dissatisfaction with all their candidate and a motion is in order to make it unanimous. The prospecting to their candidates with such tenacity elimination will result in state wide wailing and gnashing of teeth. Texas needs a great man, but business duties preclude the possibility of our entering the race.

Of the \$6000 stolen last week by bandits from the First State Bank of Logansport all has been recovered except \$2, and all the guilty parties caught.—Nacogdoches Sentinel.

Whenever any man concludes that he is destined to a life of ease and comfort derived from money stolen from a bank or the government, he had as well arrange for a reservation in the penitentiary and purchase a lot in the local cemetery, as the chances are about a hundred to one that he will get splendid action on one or both before the ensuing full moon. The reason is, that these institutions have money to pay for what they get, which insures the capture of any man they want.—Houston Post.

A bunch of keys, seven in number, was brought to the Sentinel office this morning. We will give them to the owner if he will pay for them or give us an office clock.—Nacogdoches Sentinel.

Better not get the clock. There may be some people there who insist on fixing it for you from time to time. Make it a year's subscription to the greatest religious daily in Texas.—Houston Post

W. A. Hanger of Ft. Worth preferring not to hang on further, withdraws his name from the gubernatorial race and leaves only thirteen to struggle on the best they can without him.—Nacogdoches Sentinel.

We haven't counted them in sometime, but we think with J. J. Blount and J. Martin Jones the list now numbers fifteen. Who next?—Polk County Enterprise

If your calculation possesses rigid accuracy the next one will be the sixteenth.

Remember, if there is any man in Panola county who wants to be governor, let him now speak or forever hereafter hold his peace, for we are going to make up our mind very soon as to whom we are going to support, and we prefer by all means to first support a Panola county man.—Panola Watchman.

If the Watchman were watching, it would know that Panola county already has a candidate for governor and the only Jones in the race—Hon. J. Martin Jones, formerly of Nacogdoches county.

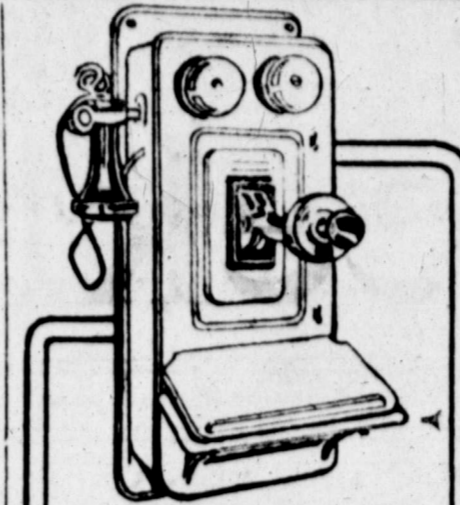

Still the visitors are continually complimenting Lufkin on her improvements. Pink Gresham was here a few days ago from Temple, and said, "I see you folks keep on spreading out." That is what we are doing. We will take in Nacogdoches yet; mark the prediction.—Lufkin News.

Our new editor has promised not to sweep Lufkin off the map only because he wotteth well that in the course of time that the little village will be a suburb of the great city of Nacogdoches.—Nacogdoches Sentinel.

The new Sentinel editor is possessed of a wonderful degree of imagination, something every newspaper man ought to have. To fully appreciate the very height of his fancy he should pay Lufkin a visit—then he will be brought face to face with the dismal point to which he hath allowed himself to soar. Lufkin a suburb of Nacogdoches, perish the thought! Other ills may befall us, but about the time that such an awful state of affairs as that showed any likelihood of coming about, surely the good Lord above would step in and prevent it.—Lufkin News

A clerk showed forty patterns of gingham to a man whose wife had sent him to buy some for her, and to every pattern the man said: "My wife said she didn't want anything like that."

The clerk put the last piece back on the shelf. "Sir," he said, "you don't want gingham—What you want is a divorce."

### Rural Credit Legislation

Washington, Feb. 6.—Under a definite agreement between President Wilson and democratic house and senate leaders, rural credits legislation will be hurried this session of congress. This was determined today after conferences between the President, Senator Owen and Representatives Underwood and Bulkey. The house subcommittee has abandoned a purposed investigation about the country in order to expedite action.

House and senate committees may hold joint hearings in Washington.

### Will Sell Confederate Sword

Mineola, Tex., Feb. 5.—I have a very fine Confederate sword, English make, beautifully engraved on blade, with Confederate States coat of arms, beautiful metal scabbard, dust and air proof. I am in need of funds. Am 71 years old and served through the war from 1861 to 1865.

If you know of any one wanting a sword as a relic please let me know through your paper.

### Fire Destroys Lodge Hall.

Georgetown, Texas, Feb. 5.—At an early hour this morning fire destroyed the Odd Fellows and W. O. W. Hall, the blacksmith and woodshop of Dickens Bros. and a store building with a stock of goods belonging to R. D. Shofner in the town of Florence, eighteen miles north of here. The cause is not known.

Loss about \$7,500; insurance \$3,000.

### The Waste of War

Statistics recently published in relation to the Balkan war told of the diminution of the population in various districts. Less than half of the male population is left in a large part of the devastated territory and less than one-third in some places. It furnishes a terrible commentary on the sacrifice involved in the struggle between the Balkan States and Turkey in the first instance and in the brief war between the allies in second.—Austin Statesman.

### Government Owned Railroads

The one expected thing in connection with the passage by the United States Senate of the Alaska railroad bill is the small vote in opposition. The bill was bound to pass, if for no other reason than that this great project of a Government railroad for the development of Alaska is to be the Administration's reply to possible attacks by conservationists in the next Congressional campaign. But there was no assurance that the opposition would fade away so notably on the roll call. The House can not now muster the votes necessary to defeat this legislation. A Democratic Congress and a Democratic President will inaugurate a system of Government-owned railroads on a scale hitherto unheard of in the United States or its continental possessions.—Springfield Republican.

### Reunion Changed to May.

Jacksonville, Fla., Feb. 5.—Acting upon the request of Gen. Bennet H. Young of Louisville, Ky., commander in chief of the United Confederate Veterans, the dates for the twenty-fourth annual Confederate reunion here were postponed from April 29 and 30 and May 1, to May 7 and 8 at a meeting here today of representatives of the veterans' associations, railroad men and members of the local entertainment committee. Members of Gen. Young's staff and business organizations throughout the country joined in the request that the reunion dates be postponed.

To the Voters of Nacogdoches County:

In presenting my name to you as candidate for the office of sheriff of your county subject to the action of the democratic primary to be held on July 25, I beg to say that I have held the offices of deputy sheriff, constable and marshal and feel that I am fully competent to discharge the duties of the office. I am married man and have a family. was born and raised in Nacogdoches county and have contributed my best efforts to the material development of the county, and it honored with the office I will use my best efforts to give you a clean and competent administration, one that reflect credits upon myself and the office.

Yours to serve,  
J. F. Parrott.

### Villa is Elated.

When he heard that the embargo on arms had been lifted Gen. Villa at first was incredulous, but when details were imparted to him he embraced his informant and waving his cap in the air, cried: "The war will soon be over. The war will soon be over."

"While the lifting of the embargo applies equally to us and to the Huerta army, it really is a victory for us, because Huerta has been able to obtain arms in spite of the United States and we had not," Gen. Villa said later, "I think President Wilson is the most just man in the world. All Mexicans will

## THIS WOMAN'S SICKNESS

Quickly Yielded To Lydia E. Pinkham's Vegetable Compound.

Baltimore, Md.—"I am more than glad to tell what Lydia E. Pinkham's Vegetable Compound did for me. I suffered dreadful pains and was very irregular. I became alarmed and sent for Lydia E. Pinkham's Vegetable Compound. I took it regularly until I was without a cramp or pain and felt like another person, and it has now been six months since I took any medicine at all. I hope my little note will assist you in helping other women. I now feel perfectly well and in the best of health."—Mrs. AUGUST W. KONDNER, 1632 Hollins Street, Baltimore, Md.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

love him now, and we will look upon the United States as our greatest friend, because it has done justice."

### Body of Mathew Booth Found

Timpson, Texas, Feb. 5.—The body of a man found several days ago in San Antonio has been identified as that of Mathew Booth, of Timpson. Mr. Booth was traveling in Central Texas and it had been several weeks since his wife, who resides here, had heard from him. On this account the family had become alarmed and had been searching for him but could find no clue to his whereabouts.

It is said that Mr. Booth tried to destroy every trace of identity before committing his rash act and left a few words on a slip of paper, saying: "I am so tired, tired," and requested that nothing should be done to preserve his body or any attempt made to identify it.

A man was on his way to be hanged. The crowds rushed on ahead to see the execution. "Friends," said the condemned man, "what's your hurry? They can't do anything till I get there."—Exchange.

## PECULIAR AFTER EFFECTS OF GRIP THIS YEAR.

Leaves Kidneys in Weakened Condition.

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are often very distressing and leave the system in a run down condition, particularly the kidneys which seem to suffer most, as almost every victim complains of lame back and urinary troubles which should not be neglected as these danger signals often lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmer's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver and bladder remedy, and, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample size bottle of Swamp-Root, on receipt of ten cents to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular size bottle 50c and \$1.00. For sale at all druggists. Be sure to mention this paper.

### Negro Girl Becomes Rich.

Oklahoma City, Ok., Feb. 7.—Sarah Rector, 11-year-old negro girl, who has just moved from a hut into a \$1,000 house in Muskogee County, received \$42,677.43 in royalties from the oil on her allotment from Oct. 1 to Dec. 31, 1913.

This is shown by the gross production tax return filed with the state auditor by B. B. Jones, who operates leases here and on other properties in the Muskogee, Tulsa and Cushing fields. The money went to Sarah's guardian, T. L. Porter of Crekole, Muskogee County.

He says that "a million children, their young lives mortgaged to misfortune and ignorance and their little backs bowed under a tremendous load of debt as they labor from sun to sun, is a sight far more heart rending than a few delinquents who choose to travel the pathway of sin."

### Suffocated in Burning Tunnel.

El Paso, Texas, Feb. 7.—That nine Americans and forty or fifty Mexicans suffocated amid the flaming ruins of a train in the Cumbre tunnel after being allowed by the bandit Maximo Castillo to go unwarned to their fate is the belief of officials of the Mexico Northwestern railroad tonight. The body of one man has been located but no trace of the Americans or Mexicans on board the ill-fated train has been found.

### Reward Is Asked For Negro Man.

Lufkin, Tex., Feb. 7.—The county officials of this, Angelina County and Houston County have wired Governor Colquitt to offer a reward of \$500 for the arrest and conviction of the negro who is alleged to have killed Luther Glass, a white man, at Diboll camp, near here, on Feb. 2.

Mr. Glass was prominently connected in this county, and a great deal of interest is being manifested by the people in an effort to effect the capture of the accused negro.

### Reason Enthroned.

Because meats are so tasty they are consumed in great excess. This leads to stomach troubles, biliousness and constipation. Revise your diet, let reason and not a pampered appetite control, then take a few doses of Chamberlain's Tablets and you will soon be well again. Try it. For sale by all dealers.

Ask a successful lawyer what is the law on a certain subject, and the chances are that he will be unable to answer you at once. His first response will be, "I must look up the statutes and opinions on the subject." He does not pretend to remember all the acts of the legislature or all the decision of the courts on doubtful questions. If he tried to carry such things in his head, he would have no head left for anything else. The thing which he knows and other men do not know is where to go to get his information as to the statutes and decisions, and how to read what he finds so that he will know exactly what it means. That is the essential thing that distinguishes a good lawyer from a bad lawyer; and it is the same capacity which in a wider field distinguishes an educated man from an uneducated one. The educated man has been trained to look up references in books to read exactly and attentively what the books say and to understand the meaning of what they contain. It is not the things that he has read that counts; it is the ability to find out other things by reading, whenever he needs them.—President Hadley of Yale, in The Youth's Companion.

### Don't You Believe It.

Some say that chronic constipation cannot be cured. Don't you believe it. Chamberlain's Tablets have cured others—why not you? Give them a trial. They cost only a quarter. For sale by all dealers.

### For that Terrible Itching.

### To Harpoon the Loan Sharks.

Chicago, Feb. 4.—Referring to a recent news announcement of the establishing of the first of a series of banks for loaning small sums to working people, the Chicago Record-Herald points out that when business methods and business experience reinforce earnest good will in attacking the loan shark evil the end is in sight. This suggestion was made following the announcement by Julius Rosenwald and his associates that they expect to establish banks in various large cities with an aggregate capital of \$5,000,000 to assist the working man who otherwise has to patronize the loan shark.

### Payment of Canal Tolls

Washington, Feb. 5.—President Wilson announced today that he would use every legitimate influence at his disposal to have repealed the provision of the Panama Canal act exempting American coastwise vessels from the payment of tolls.

### Killed By Train.

Mexia, Texas, Feb. 5.—Capt. Thomas J. Gibson, a prominent citizen, lawyer and Confederate veteran, was run over and instantly killed by the Mexia-Dallas Houston and Texas Central train in this city Wednesday night at 7:30 o'clock. Capt. Gibson was 71 years old and had lived in Mexia about 40 years.

Mrs. M. D. Lacy the mother, of Mrs. W. H. Wood and Mrs. T. J. Roquemore of this city died last night in San Antonio age 90. She leaves a large number of children and grand children. Her home was in this city several years but the last few years she has lived in San Antonio. Mrs. Roquemore, W. H. Wood and wife and son leaves for Henderson today were all that was mortal of Mrs. Lacy will be buried tomorrow.

The Dallas Times Herald thinks this would be an opportune time for county judges and commissioners to consider the charges recently made by the state tax board that there is a "flagrant violation of the full rendition law." The county judge and commissioners of Nacogdoches have considered it and taken such actions as the law provides. The officials every county in Texas should do likewise.

### Twofold Symbol.

The boy wore a tag about his neck, showing it cost 18c to send him through the mails.

He was transported twenty-five miles by rural route before reaching the railroad. He rode with the mail clerks shared his lunch with them and arrived here in good condition.

### Funny Ground Hog.

How the ground hog can wake up without an alarm clock, why it should be afraid of its shadow at that particular time and not during the sunshiny weather in summer, and what a clear sky on the 2d of February can have to do with meteorological conditions during the next six weeks, are probably matters that the ground hog itself could not satisfactorily explain.—Galveston News.

E. M. Weeks of Chireno, one of the nine candidate for heriff who until recently knew not the meaning of cataclysm, blew in with the other last night. He says he is confident of election but would feel a little safer if six or eight of his opponents were to withdraw.

## BACK TO THE SOIL WITH LEGISLATION

### TEXAS FARMERS' UNION OPPOSES PROHIBITION PRIMARY.

#### BUSINESS MEN FOR THE LEGISLATURE.

Fort Worth, Tex.—The cry of back to the soil has been reverberating from city to city for the past decade and we now have an opportunity of hastening this splendid movement by getting back to the soil with both men and issues in this campaign and electing a Governor and members of the Legislature who are farmers, or who are in genuine sympathy with their needs and understand their problems. Government is the most powerful agency in civilization, but the farmer has received less benefit from it; has had less to do with its management, and contributed more towards its support than any other class of citizenship.

#### Agricultural Legislation Needed.

We want to submit for the consideration of those who aspire to represent our commonwealth in the administrative and legislative branches of government, a policy of peace and constructive legislation which makes for the prosperity of the farmer and the general welfare of the country. Can any class of people have a greater claim upon our commonwealth than those who toil in the field? Then the farmer cannot help himself without helping all others and no other occupation enjoys this distinction. But to accomplish results requires something more than a declaration of principles. It takes men. We must have a progressive Governor and a legislature that will address itself to the solution of agricultural problems and we must have practical farmers and successful business men in the legislature in order to meet situations now confronting us. No politician need apply.

#### Some Agricultural Problems.

We have agricultural problems that are becoming acute and which must receive immediate and intelligent relief. We will mention a few of them. We have 220,000 tenant farmers roaming from farm to farm and 2400 families per annum recruit the wandering horde of homeless producers. This seething torrent of unrest must be reckoned with in the coming campaign. There are local cases of extortion and oppression that should be prevented by penal statutes, but the remedy in the main lies in constructive legislation that will broaden opportunity and bring relief to the home owner and farm laborer, as well as the tenant farmer. This can be accomplished by an improved market system, cheap money, rural credits, organization, co-operation and proper facilities for preparing, storing and transporting products to the market. These are tremendous problems and cannot be solved by spinning theories or by vote-catching schemes of politicians. Their solution must come out of the hearts of able, conscientious and patriotic legislators and must be dictated by diligent study, experience and ability.

#### Too Much Dissension.

We have had so much strife and dissension in politics and the public has become so accustomed to suggestions of restraint and destruction from those who offer to direct the country's destiny that the policy of co-operation adopted by the Farmers' Union may seem a strange doctrine and perhaps offensive to those who thrive on dissension. It will eliminate from public life men who quarrel with industry, fuss with human nature and scoff at progress and call forth from the farm, the furnace and the counter a new order of statesmanship that can lift the burden of twentieth century civilization, direct public thought into channels of co-operation and write statutes that will build homes and promote prosperity.

The general scope of the work is comprehended in the views given to the press by Peter Radford, and adopted as the platform of the Farmers' Union in convention assembled at Fort Worth January 14-15. The farmer is usually told what to do, but we prefer to be consulted, and all candidates are solicited to subscribe to the platform.

It is not within the power of the legislature to completely remedy all evils. We must also look to the administrative branches of government for assistance. There are many departments of government that are inefficient; due perhaps primarily to a lack of support and shortage of equipment, but more often to an absence of business judgment, fidelity and loyalty to the work. The policies in some instances show a feeble grasp of the possibilities and public opportunity is made subservient to political ambition. No man who is a good politician is good for anything else.

#### Cities Hot Beds of Strife.

The city has been the fountain-head of campaign issues and its problems have received preference over agricultural matters. The city is the hot-bed of strife and dissension and avarice and greed have run riot in our legislative halls. The thirst for power has made the city proud and unmindful of its dependence upon the farm. The city has dominated the affairs of state and its high nervous tension has made government hysterical. Let us turn from the feverish excitement of the city and get back to the soil with legislation where the silent and neglected forces of civilization await the magic touch of governmental intelligence to bring about a springtime of prosperity and where the primary needs of society can be served.

#### Prohibition Primary Opposed.

No discussion of legislative matters could, under the present state of public mind, be considered complete without giving consideration to the liquor question. This is one of the many vexatious problems handed down to us by the city. The Farmers' Union, without reference to the merits of the controversy, declared for a cessation of hostilities along this line during the next administration in order to give our state government an opportunity to consider agricultural legislation. It is, we think, as important a function of government to make it easy for the toiling masses to eat as it is to make it difficult for the toppers to drink. A hundred thousand mothers with suckling babes tugging at their breasts forced by poverty to toil in the fields is a cry far more distressing to us than the plight of a few drunken bums that voluntarily infest the dives in cities; a million children their young lives mortgaged to misfortune and ignorance and their little backs bowed under a tremendous load of debt as they labor from sun to sun is a sight far more heart-rending to us than a few city delinquents who choose to travel the pathways of sin; and 220,000 tenant farmers pinned under the timbers of fallen homes appeal to us for assistance far more than a few gilded palaces in cities where people elect to revel in iniquity. The cities are always magnifying their troubles and crying for help. Let us turn temporarily to the farms and relieve helpless women and children and give a helping hand to men who are struggling to help themselves rather than to give exclusive attention to city incompetents. We appeal to the farmers of Texas to take no part in the so-called County Democratic Prohibition Primary to take place in this state on February 14 or the State Democratic prohibition convention which is to be held in Fort Worth on February 24th, but to remain free to insist upon all candidates making agricultural legislation the paramount issue in this campaign.

#### The Politician to the Dungeon.

The Farmers' Union is non-partisan. It stands for principles. It will endorse no candidate for office as an organization, but solicits for its platform the consideration of all candidates and pledges co-operation to those who endorse its principles. The State of Texas needs agricultural leadership. So long as politicians dominate our affairs and plague us with their ambitions, dissension will reign supreme. The farmer has been timid and the city business man has lacked courage and the politicians have frightened and subdued us and thereby gained power. Let us unite in an effort to get "back to the soil" with legislation and force those who feast upon strife to the political dungeon, as well as give the breezes from the farm an opportunity to blow through the capitol.

(Signed)  
W. D. LEWIS, President.  
PETER RADFORD, Ex-President.

## PLAIN TALK

### From Two Prosperous Housewives, About Peruna.

Mrs. E. T. Gaddis

Mrs. E. T. Gaddis, of Marion, North Carolina, writes to the Peruna Co., Columbus, Ohio: "Before I commenced to take Peruna I could not do any hard work without suffering great pain. I took Peruna and Mananin, and can say with pleasure they have done more for me than any other medicine I have ever taken. Now I am as well as ever. I do all my own work and it never hurts me at all. I think Peruna is a great medicine for woman-kind."

Mrs. Sarah Frye, No. 105 Sylvan Ave., Asbury Park, N. J., writes: "I have no words to express my gratitude for the wonderful cure that Peruna has done for me. It is a godsend to all suffering women. Peruna has done wonderful work for me. I was sick over half of my life with systemic catarrh. I want this letter published far and wide, as I was a great sufferer, but to-day I feel as well as anybody can feel. Nearly all my life I have spent nearly all I could rake and scrape for doctors, but none of them did me any good. But since I started on your Peruna one year ago I have at last found relief in your wonderful Peruna. I had begun to think that I was not going to get well, but thank God I am well to-day. I hope and pray you may live long to help others as you have helped me. Instead of being a walking drug store I am growing fat and doing well. I will never be without Peruna."

Those who object to liquid medicines can now procure Peruna Tablets.

### Martin Dies.

In the piney woods, where perfumes from tall gum trees permeate the circumambient atmosphere, a good fight is in the making. It is in "old second." Martin Dies dies hard they say. It is a historical fact that for four years the foes of S. Bronson Cooper searched and hunted through these self same piney woods to find a man to defeat him.

They then found Dies. He had worked for a dollar a day. He had lumbered, newspapered, lawed. His ambitions were big. He lashed, smashed and gashed, also lambasted Mr. Cooper. And on the days when he felt especially stout he took after a certain Joseph Weldon Bailey person. And Martin Dies was shouted and hurrahed into congress.

Then a strange transformation came over him. He forgave all and everyone. He said he was mistaken about Joseph. And for four years those who hunted to break him. They have two men they are getting ready—one of them Beeman Strong of Nacogdoches, young ambitious, a lawyer; the other Captain James W. Truitt of Tenaha, a veteran of more than one war. And besides, to figure is Senator Collins of Beaumont the man who put Neches on the legislative map.—Houston Chronicle.

### Public Utilities.

That the telephone and telegraph people are thoroughly alarmed lest they lose the rich fields of exploitation to the government is no longer a matter of doubt. Every newspaper that will permit its columns to be so used is being crowded with interviews by the moguls of "Big Business," telling the people of the disasters which must follow government ownership.

Just now, England's losses in maintaining the postal telegraph system are being quoted to prove the claim that government ownership is impractic-

able. But the figures used prove nothing. For years our own postal system showed heavy deficits, yet who would think of turning out to corporations the privilege of transacting our postal business?—Austin Tribune.

### Bank Board Hearings

Austin, Texas, Feb. 10.—Having concluded the hearing of the establishment of one of the proposed regional reserve banks in the state, Secretaries McAdoo and Houston of the president's cabinet are today speeding to New Orleans, where the next hearing is to be held. These two officials compose the organization committee of the regional reserve system. They left this morning at 10:30 o'clock for Houston.

At the afternoon session of the committee only one other Texas city presented any claims for one of the regional banks, being Houston. This city's claims were heard at length during the afternoon session. The other two Texas cities are Dallas and Fort Worth, their claims having been presented during the morning session.

### Lee's Manhood.

In the hour of severe trial, the management of the Louisiana State Lottery came to General Lee and said: "General, we want you to be president of this institution and we will pay you a salary of \$10,000 a year." Said Robert E. Lee: "Gentlemen, I don't understand the business." They said, "Well, General, we understand the business. We will conduct the business; all we want is your name and its influence and for that we will pay you a salary of \$10,000 a year." Robert E. Lee arose, a prematurely old man, his property at Arlington confiscated by the government, poverty and want staring him in the face. He buttoned that faded gray coat across his shriveled form. He looked from beneath those shaggy eyebrows, folded his arms and said, "Gentlemen, my good name and my reputation are all I have left me from the wreck and they are not for sale, you can't buy Robert E. Lee. I bid you good day," and he bowed himself out of their presence.

"Mamma," said little Beatrice, pointing to a picture in the book she was looking at, "isn't this a picture of Mr. Darn?"

"No, dear," replied her mother. "That is a picture of Dickens."

"Oh, yes," said Beatrice. "I knew it was some kind of a swear word."

### Part of Good Letter.

From Houston Chronicle.

Finally I don't believe that the pro-side of this issue has developed more exasperating failure in the politics of the state, than was born of anti parentage and pushed into the executive office of this state in the person of the present governor. Let's quit that kind of argument and advocate the bringing together "the landless man and the manless land." Let push the initiative and referendum, the bonded warehouse plan, a better tax system and such other reforms as will resuscitate the corpse of private and public credit that it may stand upon its feet. I hope the pros can find a man that has got enough brains and energy to carry all these things.

If they do he is the man I am hunting, and feel sure that such man will us have to help him eliminate the rest of the bunch. It takes that kind of a man to be called a progressive democrat. Progressivism is merely the advocacy of such new policies as are coincident with and demanded by the present times. Douglas Thomlinson's article in your paper, in which he saw in prophetic vision, "from the edge of sunrise," a glimpse of "an industrial democracy" must inevitably come true. It does not require any great political foresight to determine that things cannot stand as they are today.

Every year shows that we are drawing nearer the verge of a political crisis. Our government was designated as a democracy of equals. It is no longer that. Lords of finance, lords of industry and lords of trade, these are they whose grasping avarice unchecked, will cause a repetition in the history of nations producing a revolution by the side of which all those of the past will sink into insignificance. Tomlinson is wrong when he says that "the democrats favor regulated competition." I deny it. Democracy was founded on free competition. The necessity for regulation sprang from conditions with which they had nothing to do. The trusts are here and it is their only method to handle them as long as they exist. Until Wilson's election they were bigger and stronger than the government. We look forward to the day when this administration will get them regulated, for their regulation will mean their destruction. Jefferson Baker. Nacogdoches, Texas.

### The Lions in the Way.

Many young people who lack "gumption," get-up-and-go, or whatever you may term it, often reason thusly; If it had not been for so and so and such and such a thing, I could have made a great success. The lions in the way of these young people and such a successful career is barred by the ifs and the ands that enter into their daily life and rob them of their vim and courage. They are the breastworks thrown up by the weak and vacillating which beguile and deceive, and which are offered as excuses for many failures. The lions are in the way and nothing more.

Young people who lack these qualities need our help; our life work is to train young people to determine, to get up and do the things the commercial world wants done, develop their latent talents, quicken their perception, teach them Bookkeeping, Business Training, Shorthand, Typewriting, Telegraphy, Station Work, Business Arithmetic, Spelling, Business English, Business Law, Business Writing, Rapid Calculation, and the use of the most modern office appliances. With such training the lion is put out of the way. We have trained thousands who are now on the road to success, and we can do the same for you. Write for catalogue, and make your arrangements to enter as early as possible. To remain where you are and what you are means that you are where you will always be. "A precious one from us is gone  
A voice we've loved is still,  
A place is vacant in our home  
Which never can be filled"  
is fully realized by Brother R. W. West and his dear children in the death of Sister West, wife and mother. While the shock was great and the bereavement heavy, we realize the fact that He doeth all things well and humbly submit to his will. During her long sickness she patiently bore the great suffering, ever assuring her family that all was well with her.

Sister West was born December 17, 1875, in Union, Parish, La., and married to R. W. West the 26th day July, 1891, died February 1, 1914, aged thirty eight years, one month and fourteen days. She joined the Methodist church when she was thirteen years old, afterwards joining the Baptist church at Bethel in 1910.

Sister West has been confined to her bed for nearly three years. When able to go, she was always ready and willing to help the sick and afflicted. She leaves a husband, five children, on sister and a host of sorrowing friends to mourn her death.

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

### Lake Alazan

Editor Sentinel:

To begin with I will tell you where Lake Alazan is so that you will be sure not to confuse us with a similar name.

It is in the southeast corner of Harmony School District, Nacogdoches county, Texas, United States of America, Western Hemisphere, Earth. Not many years ago this was a howling wilderness but now it is a thriving community of busy people. As I stand in the yard and look to the south I see a magnificent farm of several hundred acres of very rich land and then I look to the northwest and see another field of several hundred acres of land of like quality, all belonging to G. A. Blount. Then I look eastward across the creek and see another farm of several hundred acres be-

longing to Henry Spradley. To the north I see a magnificent lake of more than a mile in extent held by a dam of clay and concrete, owned by E. A. Blount. To the south is a small valley surrounded on three sides by the gentle sloping hills, on the other side the Alazan creek, and in the valley is a busy sawmill converting pine trees from the adjacent forest into merchantable lumber.

G. A. Blount is rebuilding his barn that was burned a few days ago. E. A. Blount is having material put on the ground to build a bungalow at Walnut Nob on the lakeside. There is a storehouse under construction just south of the big dam and various other improvements going on hereabouts.

Yes, Mr. Editor, we are getting pretty well organized for business and progress down here. There is Will Hall, farm superintendent, with his 25 or 30 ebony hued farm workers and twenty odd mules to look after. Then there is J. J. Bowden who looks after the manufacturing department with his dozen or so mill workers, descendants of the aboriginal and Castilian races. Jim Thrash, general construction boss, well sir, you wouldn't believe, it but Jim is actually busy. He's got the kinks out of his back and his eyes are beginning to snap, and great Scott, how he does eat. He has quit the Brown Mule chewing tobacco and bought eight plugs of Drummonds natural leaf.

Mrs. J. D. Thrash who runs the hotel here is too busy to be lonesome, and G. A. Blount general manager of the whale shooting match, has many corners to watch and watches them well. We are getting well organized for progress and when we are thoroughly straightened out, the gentleman in the town office will pay us, a visit and with a twinkle in his eye say "yes, yes, I approve it all and we will all be happy, for we have a high regard for his business judgment.

Now just a word for candidates. We may be too busy to go to the primary, but when you come around we will lend a listening ear provided you are progressive and believe in doing things. Jacob Wedd.

### Hans Schmidt Guilty

New York, Feb. 5.—For killing Anna Aumuller, a young woman he had married through a self-performed ceremony while acting as a priest at St. Joseph's Church, Hans Schmidt today was found guilty of murder in the first degree. The penalty is death in the electric chair at Sing Sing prison. He will be sentenced Wednesday.

Schmidt, whose defense was insanity, laughed bitterly when the verdict was pronounced. He steadfastly had declared himself guilty and had pleaded that he be punished by death. Later he protested against the insanity defense advanced by his counsel and tonight, said he would not assist them in any way if they prepared an appeal.

"I would rather die tonight than tomorrow," he said. "It is as it should be and as I wish it."

## All Blood Disorders Quickly Driven Away

Astonishing Results With the Greatest Blood Purifier Ever Discovered.

Strength, Power, Accomplishment are all Typified in S. S. S.

Some blood disorders become deeply rooted in the glands and tissues, and the mistake is made of resorting to drastic drugs. These only aggravate by causing ether and worse troubles. A host of people know this to be true. They know from painful experience. To get right down into where the blood is vitiated requires S. S. S., the greatest blood purifier ever discovered. This remarkable remedy contains one ingredient the active purpose of which is to stimulate the tissues to the healthy selection of its own essential nutriment and the medicinal elements of this matchless blood purifier are just as essential to well balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food. Not only this, but if from the presence of some disturbing poison there is a local or general interference of nutrition to cause boils, carbuncles, abscesses and kindred troubles, S. S. S. so directs the local cells that this poison is rejected and eliminated from their presence. Then, too, S. S. S. has such specific stimulation on these local cells as to preserve their mutual welfare and a proper relative assistance to each other. In a very brief time S. S. S. has the reconstructive process so under control that remarkable changes are observed. All eruptive places heal, mysterious pains and aches have disappeared, and from head to foot there is a conscious sensation of renewed health. From the fact that S. S. S. is purely a botanical preparation, it is accepted by the weakest stomach and has great tonic influence. Not one drop of drugs or minerals is used in its preparation. Ask for S. S. S., and insist upon having it. And if you desire skillful advice upon any matter concerning the blood and skin write to The Swift Specific Co., 235 Swift Bldg., Atlanta, Ga. Do not allow some zealous clerk to larrup the atmosphere in eloquence over something "Just as good" as S. S. S. Beware of all counterfeits.

W. V. Fountain For Sheriff  
Fellow citizens of Nacogdo-  
ches county:

When I placed my an-  
nouncement in the papers as  
a candidate for sheriff of this  
county I thought that I would  
stand on that and write noth-  
ing. But I am so fixed that  
I may not be able to see every  
voter, I beg to make this stat-  
ment. While I am forty-six  
years old I have never had  
time to seek public favor. I  
have had to work and as mas-  
ter mechanic of the Nacogdo-  
chen & Southeastern railway  
I have had four days rest in  
four years. My record for  
honesty and general ability  
can be learned from any old  
citizens of Lutkin where I  
worked for ten years and from  
any officer connected with the  
N. & S. E. railway here or the  
Frost Johnson Lumber Co. I  
have been with them for four  
years and was raised in Tyler  
and Hardin county. I am not  
running because as is often  
said "great numbers have so-  
licited me." I am running  
because I want the office. I  
have made no trades nor dick-  
ers nor promised anybody  
anything to help me get it. I  
weigh 200 pounds "in my sock  
feet" and if you elect me I  
will do my duty right to the  
notch. I will thank you for  
your vote. W. V. Fountain.

the practice of law about 40  
years, the last 27 years at the  
Nacogdoches bar, and has had  
more than ordinary success in

He is therefore, well qualified  
for the duties of any judicial  
office. He is painstaking,  
careful, attentive to business,  
and conscientious, and prom-  
ises if elected to dispense jus-  
tice to all concerned without  
fear or favor.

none were raised until a

#### Texas Negroes On Wild Goose Chase.

New York, Feb. 10—A  
shipload of negroes, mostly  
farmers and their wives from  
Oklahoma, waited here today  
for Alfred C. Sam to lead  
them to a new negro Utopia,  
on the gold coast of Africa.  
The negro farmers were in-  
duced to come here, they  
said, by Sam, who had been  
collecting colonizers from  
Oklahoma, Texas, and Missis-  
sippi. More negroes were ex-  
pected from Galveston and  
the West, while it was said  
that 86 were coming from  
Boston.

Sam, according to the  
colonists represented himself  
to be an African chief.  
Reports of his activity have  
come from time to time from  
the South and Southwest and  
New York negroes were  
greatly stirred up today by  
conflicting reports regarding  
his project. Sam could not  
be found here today.

Galveston, Texas, Feb. 10.—  
Within the last few days  
approximately 150 negroes  
from Oklahoma and Texas  
points have arrived in Galves-  
ton prepared to embark for  
Africa. They are scattered  
over the city and none of  
them had been located this  
afternoon. A negro giving  
the name of Parker has been  
here for some time and re-  
cently tried to secure camp-  
ing space for 4000 negroes,  
who were to go to Africa.  
He also conducted negotia-  
tions with railway officials  
regarding transportation for  
the colonists to Galveston. It  
is understood that Parker is  
still in Galveston, but up to 1  
o'clock this afternoon had not  
been located. Parker is said  
to be a member of the com-  
pany formed by Chief Sam.

The feeding of farm ani-  
mals not only enables the  
farmer to return from 85 to  
90 per cent of the fertilizing  
value of the crops to the soil  
but in growing such crops  
as peas, alfalfa, clovers and  
other legumes, there is more  
nitrogen stored in the soil  
than is sold in the form of  
animal products.

#### Big Lumber Deal Closed

Port Arthur, Jan. 7.—The  
Texas Company recently  
closed a contract to purchase  
75,000 feet of lumber. This  
lumber will be used in mak-  
ing boxes for case oil ship-  
ments, and it is estimated that  
this supply will last three  
years. From 80,000 to 40,000  
feet is used daily for this pur-  
pose.

#### Democrats Win In Iowa

Davenport, Iowa, Feb. 10.  
—Henry Vollmer, Demo-  
cratic candidate for Congress  
to succeed the late I. S. Peper,  
was elected today by 1,500  
plurality. Harry E. Hall,  
Republican candidate, ran  
second, and Charles P. Han-  
ley, Progressive, third.

Jay Green—I had a ride in  
my cousin's automobile while  
I was up t' the city.  
Aaron Allred—Ye did?  
How'd it seem?

Jay Green—Waal, it felt a  
good deal like fallin' into a  
mighty deep well, only ye  
dropped straight ahead instid  
o' downwards.

## DON'T GROW BALD

Use Parisian Sage

If your hair is getting thin,  
losing its natural color, or has  
that matted, lifeless and scrag-  
gy appearance, the reason is  
evident—dandruff and failure  
to keep the hair roots properly  
nourished.

Parisian Sage applied daily  
for a week and then occasio-  
nally is all that is needed. It  
removes dandruff with one  
application; almost immedi-  
ately stops falling hair and  
itching head; invigorates the  
scalp and makes dull, stringy  
hair soft, abundant and radi-  
ant with life. Equally good  
for men, women or children—  
every one needs it.

A large bottle of this de-  
lightful hair tonic can be had  
from Stripling, Haselwood &  
Co., or any drug count-  
er for 50 cents. You will  
surely like Parisian Sage.  
There is no other "Just-as-  
good"—Try it now.
