Winter's Chills **Breed Kidney Ills**

Chilly, damp, changing weather is hard on the kidneys. Even more irritating are colds, grip, pneumonia, tonsilitis, quinsy and other infections. The kidneys get congested and inflamed, and this causes backache and disordered kidney action. Though serious in its later stages, kidney disease is not hard to conquor if a good kidney remedy is used when the first signs of kidney trouble are noticed.

The best recommended kidney remedy in the world is Doan's Kidney Pills. You hear it everywhere.

Tells a Story" Spring is Breaking; Backs are Aching

Backache is often the first sign of some form of kidney disease that has been coming on for months. Look for the other signs: lame backs, sharp pains when stooping or lifting, dizzy spells, nervousness or despondency, with irregular, painful or distressing action of the kidneys; if these signs exist, decide that the kidneys need attention, ere the trouble turns to gravel, dropsy or Bright's disease.

Read this home testimony and then give Doan's Kidney Pills a trial.

FOR HUMAN OR ANIMAL FLESH

that is equally efficacious in healing the wounds, sores, sprains

BALLARD'S

A healing remedy to effectively meet the needs of animal flesh need not be a harsh, strong mixture, too drastic for the human body; Ballard's Snow Liniment is proof of this. It ranks with the best of the flesh healing remedies designed for man; and it is equally as prompt in curing the wounds and flesh diseases common among animals. Owners of blooded horses prefer it to any other liniment because it leaves no disfiguring scars in any of the minor accidents or airments. It heals by a mild power to which the flesh of horses responds readily.

It is of great value in healing harness galls, barbed wire cuts wounds, festering sores and many other airments to which horses are subject. In the relief of human suffering, it has done a world of good, particularly in easing the pains of rheumatism, neuralgia, sclatica and lumbago. When gently rubbed in where the pain exists, it gives a most gratifying relief to the afflicted. As a household remedy for cuts, burns, bruises, sprains, contracted muscles, stiff neck, frost bites, swellings, chill-blains, ivy poisoning, there is nothing better on earth.

Concerning The Hog Law Election

All the farmers have begun To the voters of Nacogdoches

We notice the commissioners court has ordered an election to be held on April 11, 1914. to determine whether hogs, sheep and goats snal. run at large in the entire county. We ask the voters of Nacogdoches county to look well to principle of the Democratic party which has to do with local self government.

The hog law where the country is thickly settled and timber is scarce and but little or no outside territory is the correct thing and if we lived in such locality we would favor it, but situated as we are we oppose it both from principle and self interest.

There are sections of Nacogdoches county where the people as a business proposition are almost solid for hog law. These people needed it and voted it upon themselves. They have but little timber and are torced to fence with wire. Besides they have but little or no outside range for hogs. These people have this under local self government and are getting all the law intended for them.

The law makers never intended for these localities to thrust it upon other localities. These people because of dense population enjoy many social advantages and are willing to confine their hogs rather than live in a more remote district and let them run at larger.

Now view us who live in the torks of the river and other similar districts First we have a great deal of out-Mr. Stone is thoroughly side territory on which we can raise a few hogs for our meat and at times have some to spare. This can be done bers of years when we have enough mast to fatten our meat and put our stock hogs in good shape. This helps wonderfully. It this mast should not be eaten by hogs it would be a total loss and would be hurtful to cattle.

Third, in nearly every instance we make our fences from timber of the forest and it is an easy matter to make a hog proof tence.

You will call to mind the fact that we contend with many disadvantages in order that we may have the advantage of a range and now why should we be disposed of it by the outsider and at the same time it will be of no benefit to Sheriff Rich and County him. You have it if you Attorney S. M. Adams came want it.
