Late War News

Brief Summary of Events that Happened in the Mexican Situation Today.

Special to the Sentinel

Washington, May 6.—Villa in letter to Maas refuses absolutely to ally himself with Federals and declares Huerta provoked foreign intervention for his own ends.

Constitutional representatives here were advised today of the arrival of their artillery at Tampico. This has been awaited before beginning the attack on the Federal garrison there.

Washington, May 6.—South American envoys who have undertaken by diplomacy to settle Mexico's civil strife, as well as her international difficulties, announced tonight that the first general conference with representatives of different parties interested in mediation, would be held at Niagra Falls, Ontario, on May 18th, as yet there has been no general basis for the mission, neither President Wilson or Huerta having set forth their demands. It was learned today from a high administration official that in

Burglary at Linn Flat
News was received Tuesday morning that the smoke house of Mrs. M. E. Acrey Linn Flat, had been burglarized and four sides of bacon and one ham stolen.

County Attorney S. M. Adams was notified and he went at once to the scene of action. After an investigation a white man by the

name of Vance Fenton and a negro by the name of Roy Morris were placed under arrest charged with the offense. They both gave bond and were released pending their examining trial which will be held at Linn Flat next Friday.

H. M. Carter and wife were in the city Friday on a shopping expedition.

all likelihood the United States would not confine itself to the mere settlement of the incident at Tampico which provoked the present crisis, but would aim to bring about a solution of the whole Mexican problem, so that it could recognize a constitutionally established government which would be able to restore tranquility in the Southern republic.

The disposition of General Carranza to eliminate himself from the mediation proceedings if it should include a settlement of Mexico's internal problems, has not met with favor of administration officials, but they do think this decision is final. It is virtually certain that the withdrawal of American forces at Vera Cruz will not be ordered until some definite settlement of the whole Mexican situation is apparent.

Chihuahua, May 6.—General Obregon, Commanding division of the northwest of the Rebel Army, General Pablo Gonzales, Commanding northeast division, General Panfilo Natero, commanding central division, General Caballero, commanding besieging forces at Tampico and others have refused proposals that they unite with the Federals to repel an America invasion.

Vera Cruz, May 5.—A proclamation dated May 1st, and signed by Zapata, was published today in the local Mexican papers announcing that the southern rebels soon may attack Mexico City. It

also condemns General Huerta and General Blanquet to death, in case of their capture.

Washington, May 5.—General Carranza and the Constitutionalists today are practically eliminated from the proceedings of the three South American envoys who have undertaken to solve the Mexican problem by diplomacy.

In a telegram to General Carranza the mediators announced that in view of his refusal to agree to an armistice with General Huerta they withdrew their invitation to him to send a personal representative in the mediations. This new turn in events, in the view of many officials, has ended the chance of solving the entire Mexican problem immediately.

Mexico City, May 5.—Mr. Ryan, condemned to death at Zacateca, arrived here today and will be taken care of by Brazilian minister who will place him on refugee train for coast.

Washington, May 5.—Reports of desperate condition of Huerta comes from authentic sources. At the same time the military aspect of the situation resumes prominence. Funston reports renewed demand by the Federals for surrender of water works. No shots were fired and Mexicans tell back, but military men are inquiring what steps the United States will pursue in view of threatening situation. The Fourth

or Sixth Brigade at Texas City is ready to move on moments notice.

Vera Cruz, May 5.—Silliman, acting American Consul at San Potosi, is prisoner in hands of General Mass and for eleven days has been constantly threatened with execution.

W. O. W. Contest

Last night marked the close of the Woodman attendance contest that has been on for several weeks at Liberty Elm Camp No. 210, W. O. W.

When the final roll call had been made it was found that A. A. Seale's side had won by 48 majority.

The members of W. C. Chadwick's side proved themselves to be game losers and immediately assessed themselves one dollar each as wherewith to procure necessities for entertainment of the entire membership and ladies on the college campus next Tuesday night.

This contest has been brought with a spirit of good natured rivalry throughout and a splendid attendance at every meeting has the result. There were present and answering roll call last night 158 members besides a number of visitors.

Huerta refuses to be eliminated and wants to stay in until the regular primaries.

The president of Mexico may not know Huerta go but to stay and fight would be Villany.

Dave Dinks says the public mae have noticed that some girls have as mynnie ways to spell their names as to wear their hats.

If there are other candida'tes in the race besides Ferguson and Ball the people and the newspapers have for gotten who they are.

Dave Dinks says he saw in a paper that most trouble in the world is caused by one half of the people being men and the other half women.

The advocates of local self government can forgive Senator Sheppard for being a national prohibitionist because he is such ardent proponent of worldwide peace.

If you want to know all about wasps, right off the bat see Capt. H. H. Cooper of the Marigold Creamery, who will tell you scientific facts if he is not too busy to talk.

We have 568 miles of railroad to each 100 square miles of territory. Texas has 37 miles of railway track to every 10,000 inhabitants.

The people of America have greater confidence in the efficiency of the navy since the order went forth that intoxicating liquor be eliminated entirely.

As the flies were not properly swatted early in the spring of the year the only remedy left is to swat their breeding places.

It is reported on what is claimed to be good authority that Huerta is preparing to leave for the speechless mountains. There is therefore no one to object.

An exchange concludes from remarks fired at each other from various places in the state that Tom thinks Jim isn't much and Jim thinks Tom isn't much.

Every man in Texas who loves to see a good game wants all other anti candidates to get out of the way and let Ferguson handle the Ball by himself.

Ninety-three students in the University of Texas are applying for the degree of Bachelor of Laws. Besides these young men, there are four others who expect to take the advanced degree in law this June.

Roosevelt followers believe that his bick stick would have frightened Huerta to salute and to abdicate and abscond, although nothing of any great magnitude saluted, abdicated or absconded during the seven years of his incumbency.

When an anti candidate for governor sees there is no chance to become the designee he uses all his little strength to make Col. Ball the nominee.

The ninety-seven Congressmen who voted a few days ago to reduce their salaries from \$7500 to \$6,000 would probably have not done so if there had been any danger of the reduction.

Behind the Army and Navy the President; behind the Congress: behind the Congress the People, and behind the people, the history of a nation that will follow wherever a loyal President leads.

Mrs. Clara Driscoll Sevier announces that she will come to the aid of Daughters of the Republic and so long as they remain in charge of the Alamo it will be open to the public without charge.

It took Huerta and his newspapers a great deal longer to learn that Villa had taken supper in Torreon than to learn that Uncle Sam was taking three square meals in Vera Cruz.

Among the many things in Nacogdoches county to be proud of are two things to be ashamed of—the ugly skips in street pavement and the uncombated hookworms in the viscera of ten per cent of the people.

A family of nine consisting of father, mother and seven children were all heavily infected with hookworms and were cured by the hookworm commission. Their recovery is worth more than \$300 to them and worth more than \$300 to the state.

Dr. Frank Crane says: "I know what the poor needs most is not alms, but a change in social conditions which will make almsgiving unnecessary. It is to help in bringing about such a change that I give whatever I can spare to the abrogation of monopoly of special privilege."

More than 300 students will receive degrees from the University of Texas in June. Graduates from the academic department constitute the largest number, though the classes in pharmacy, medicine, engineering, law, business training are of normal size.

County Health Officer Dr. Karl Chambers of Jasper concerning the hookworm commission in that county: "Over and above the 11,33 treatments dispensed here the campaign was worth thousands of dollars in an education way, for the people now realize that improving insanitary environment is imperative."

President Huerta is said to be of pure Indian stock.

Instead of firing 21 guns, Mexico might satisfy our ag-grieved honor by firing Huerta.—Chicago News.

The high official of Mexico who embraced O'Shaughnessy didn't want to say howdy do and try to pronounce his name.

The Ball men were glad to hear of Col. R. M. Johnston's support because it adds one vote to their strength in South Texas.

Another thing about Col. Johnson's support of Ball, it will count as much as the vote of the most intelligent man in Texas.

As the strength the United States standing army is 85,569, and Huerta's strength consists of somewhat less than 10,000 disheartened troops, there is no probability that volunteers will be needed in the events of war with that unhappy dictator.

Col. Ball opposes national prohibition because the states can manage the problem better. Col. Ferguson opposes statewide prohibition because the counties can manage the problem better. Whose platform comes nearer the democratic principle of local self government? — Nacogdoches Sentinel.

Well, you see it's this way. The time is right for statewide prohibition—the people are demanding it, and as for national prohibition Col. Ball will be for it as soon as the people are ready for it.—Timpson Times.

In his opening speech at Blum, Mr. Ferguson, who owns a large farm, said: "I pay \$7.50 per month more than the average price paid for farm labor in Texas." The laboring people know that Mr. Ferguson as governor will see that the interests of the producers of wealth are safeguarded.

Corn and peanuts in alternate rows on thirty acres of land is the project this year of Rev. Alton Smith of Fairview community. He expects to make about as much corn as if every row were corn and enough peanuts to fatten hogs and hogs. He has been selling a hundred dollars worth of meat a year, but his sales will be much more next year. Hog and hominey and a fat bank account are three things hard to beat.

It is singular, to say the least, that so much store should be set by the right of contract whenever the question at issue is one of doing something for the "under dog." Attorneys for the "loan sharks" thundered mightily in defense of the right of contract when it was first proposed to give their clients what was coming to them. And a long wail of similar intonation was heard in the land when the fight for an eight-hour work day was begun.

Special privilege has always tried to hide behind the right of contract when seeking to perpetuate injustice but it has never been able to hold out indefinitely against the right to a square deal.

All Jim Ferguson asks for the farm tenant is a square deal and Colonel Ball will look about as he did when Jim Hogg got through with him at Waco, when the farmers in whose behalf Ferguson has raised his voice get through with the colonel in the July primaries.—Houston Telegram.

Letter to Mrs. V. E. Simpson,
Dear Mamma:
I suppose you've noticed in the papers that the Fifth Brigade has gone to Mexico, which takes practically all the troops from Galveston.

They left yesterday on the four army transports "Meade," "Sumner," Kilpatrick, and "McClellan, with all the horses, automobiles, trucks, artillery and other equipments.

I went down yesterday to see them off, cut out my afternoon classes—but then all my instructors, in fact, the whole faculty were there too. It was certainly an inspiring sight to see how systematic and quickly the four boats were loaded and put out to sea. Another interesting thing was the airs that the bands on board each boat played as they cast off. They were, in order as each boat steamed out the channel, "Auld Lang Syne."

"The Girl I left Behind me" "Dixie," and the last and most appropriate, the college song, "Hail, Hail! the Gang's all Here. What the'll Do We Care?"

There were lots of leave-takings, etc, so many of the officers and soldiers have their families here, and they all come down to see them leave. Everybody in Galveston, and the towns near here, was down at the wharf.

There were four torpedo boat-destroyers, devilish looking little boats, that went with the transports. Most of the privates were gloriously drunk for the occasion.

I've seen this week Rex Beach, Richard Harding Davis, and Mr. and Mrs. Jack London. All but Rex Beach went away on the transports.

The wharves were covered with moving-picture machines and actors taking advantage of the occasion to get some good scenes for plots. Lots of the Lubin, Pathe and Vitagraph stars were there.

If you want to know what Jack London looks exactly like, look up a "Cactus" and find Cavin Muse's picture. He's in the Phi Gama group. They are certainly doubles. Jack London is war correspondent for Collier's Weekly and his wife for the Ladies Home Journal.

I took several pictures I will send you as soon as they are developed.

I think several of the seniors will get commissions as officers in the medical if they can, and go down pretty soon. There's some probability of it anyway. I'm glad my time's up as a bugler in the National Guards at Georgetown. I wouldn't mind going in the medical service so bad, but I'd hate to get called out as a private.

Yours,
Keith Simpson.

FEELS LIKE A NEW WOMAN

As Lydia E. Pinkham's Vegetable Compound Dispelles Backache, Headaches and Dizziness.

Piqua, Ohio.—"I would be very ungrateful if I failed to give Lydia E. Pinkham's Vegetable Compound the praise it deserves, for I have taken it at different times and it always relieved me when other medicines failed, and when I hear a woman complain I always recommend it. Last winter I was attacked with a severe case of organic weakness. I had backache, pains in my hips and over my kidneys, headache, dizziness, lassitude, had no energy, limbs ached and I was always tired. I was hardly able to do my housework. I had taken Lydia E. Pinkham's Vegetable Compound on one other occasion, and it had helped me so I took it again and it has built me up, until now I feel like a new woman. You have my hearty consent to use my name and testimonial in any way and I hope it will benefit suffering women."—Mrs. ORPHEA TURNER, 431 S. Wayne St., Piqua, Ohio.

Women who are suffering from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Mosquito Easy To Handle.

Washington, April 29.—Members of the house rivers and harbor committee today were discussing the testimony of Sir William Willcocks, the English engineer who built the Assuan dam on the Nile, in which he told the malarial mosquito along the Suez Canal had been solved. He testified before the committee that at Khartoum, where the boat brought down the worst mosquitoes in the world, "the drainage is so perfect there that now we fine a man 12 shillings for every mosquito seen on his place." Sir William contended there was no excuse for the prevalence of mosquitoes anywhere.

Candidate Ball is against the liquor traffic because of its evil effect: because it makes paupers out of those who tamper with it. Candidate Ferguson is oppose to the prevailing tenant system because it makes the poor poorer who are forced to rent or starve. Both are after the same scalps, so what's the use of abusing one and praising the oter. Both are able men. Take your choice.—Birtlett Tribune.

A MISTAKEN IDEA

There are some people who still resort to drugged pills or alcoholic syrups to overcome colds, nervousness or general debility, and who know that the pure, unadulterated nourishment in Scott's Emulsion is eminently better, but refrain from taking it because they fear it may lead to excessive fat or obesity.

This is a mistaken idea, because Scott's Emulsion first strengthens the body before making flesh. Its blood-forming properties aid nature to throw off sickness by building health from its very source, and flesh is formed only by its continued use. Avoid alcoholic substitutes for SCOTT'S.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been had I not tried Chamberlain's Tablets. Will not Land at Galveston

Washington, May 2.—An order was made by the state department directing that refugees from Mexico be hereafter landed at New Orleans in place of Galveston. This was done to avoid a possible conflict between the state and federal quarantine regulations, which differ as to the length of time persons must have left an infected point.

Governor Colquitt telegraphed the secretary of state that he would insist upon application of the Texas regulations as well as those of the federal government imposed. At New Orleans the refugee regulations are wholly federal hence the travel has been diverted to that point.

Secretary Bryan said no criticism could be directed against the Texas authorities for insisting upon quarantine requirements.

Sick Headache.

Mrs. A. L. Luckie, East Rochester, N. Y., was a victim of sick headache and dizziness, caused by a badly weakened and debilitated condition of her stomach, when she began taking Chamberlain's Tablets. She says, "I found them pleasant to take also mild and effective. In a few weeks' time I was restored to my former good health." For sale by all Dealers. dw

Refuse to Lay Down Arms.

Trinidad, Colo., May 1.—Flat refusal of the mine workers in the Trinidad coal district to surrender their arms to the United States troops met Major W. S. Holbrook, just before noon today. William Diamond and John Brown, representatives of the strikers, met the army officers in conference at the postoffice here. Before meeting Holbrook, the labor leaders declare that unless "Rockefeller's mine guards" are forced to disarm, they, as officers of the union, would refuse to advise the men to give up their guns, but would leave it to them to act individually in any way they wished.

Dr. S. P. Brooks Addresses.

Dr. S. P. Brooks, president of Baylor University at Waco, delivered an address at the Baptist church Sunday morning at 11 o'clock on the subject:

"The Growth of Man." He stated that as he was not a preacher he was not expected to choose a text, but as the 9th and 10th verses of the 28th chapter of Isaiah was so appropriate he used them as the basis of his remarks.

He said in part that of all the helpless beings that he had ever seen the new born babes was the most helpless and from this helpless creature by growth physically, mentally and spiritually, man attained whatever sphere in life he occupied according to certain well known laws.

He compared the growth and development of the child to the growth and culture of a plant and showed that if the plant is left alone it would run along on the ground and cling to the wires and briars and its fruit would be faulty. Yet at the same time if it were torn away from these supports after it had gotten its growth, it would be so bruised and broken perhaps it would wither away and die. So with the child, if left alone without the application of the proper laws of development it is probable he will reach the meridian of life to only realize the fact that he is still an infant. The child like the plant should not be trained too early nor should it be neglected too long for the usefulness of the man is determined by the culture of the child.

He explained that man's powers are measured by his wants, that the unity of man is shown by his wants, and that his wants are progressive.

Man's wants, from the savage in the forest to a member of the British Parliament are, encompassed in the following: Health, wealth, society, knowledge, beauty and religion.

PURITY CANDY CO. P.O. Box 91 Middletown O

General Sam Houston.

From a part of an old newspaper in possession of R. H. Irion of this city we glean the following interesting facts concerning General Sam Houston and his Secretary of State Robert A. Irion in the days of the Republic.

In the possession of James R. Irion of Dallas, son of Robert A. Irion, Secretary of State for the Republic of Texas, during Sam Houston's administration, are many interesting letters from the general who won for Texas her independence. Along with them, yellowed by age, are official documents and newspapers of the time when Texas history was in the making. Most of the letters are addressed to Miss Anna Raguet of Nacogdoches, who became the wife of State Secretary Irion. The letters throw light on the character of the victor at San Jacinto, that the pages of history do not reveal.

Like the greatness of the man himself who has stood and will stand the test of time, the handwriting is projected, firm and plain from the letter on which it is written. "Nothing could render me more happy," says the president writing in the first year of his administration, "than to see my friends in Eastern Texas (Nacogdoches) and be tranquil at home. Ambition has no claims on the affections of my heart. Others may pursue the phantom."

Again he says, "I write as a man whose only glory is to wear the mantle of unsoiled honor and untarnished truth." Little playful touches throw their soft gleams on the stern warrior's character, as when he speaks of "Whale Bone," the horse he presented Miss Raguet, and calls by familiar nick names mutual friends of the two.

The Hon. Robert A. Irion was born in Paris, Tennessee, and came to Texas in 1832. Irion county is named for him. Miss Anna Raguet, who lived in the charming little town of Nacogdoches, which sent forth so many men prominent in early Texas affairs, buckled the sword on Sam Houston just before the battle of San Jacinto, and received a letter from him as he lay wounded after his victory there.

Brit T. Burk, who received a serious injury several weeks ago by being thrown by a runaway horse and who was improving very rapidly, is reported to have been stricken Friday night and it was thought he would not live but a short time, but he has partially recovered, yet he is still in a precarious condition.

Silos Are Coming

It isn't too late for one this year. J. W. Millard and H. F. Gillette have placed orders for 150 ton tile silos each. See Ed Rice or R. W. Sullivan and get prices and terms on the Kalamazoo, tile or wood.

J. J. Lee of Trawick was in the city today and reports everything getting along nicely in that community.

The Methodist Church.

In spite of the bad weather conditions, last Sunday was a great day for the Methodist Church of this city. The Sunday School observed "Mother's Day" with a special program excellently rendered by the "Willing Worker's Class" of young women. Early in the session when this attendance was marked there were 260 present and many came in during the program.

Presiding Elder J. W. Mills preached at 11 o'clock to a fine audience, and the pastor received into membership a class of 18 persons 12 of whom came in on profession of faith. The Sacrament of the Lord's Supper was administered to a large number of communicants.

The pastor has received 69 members this year, 44 on profession of faith; during his pastorate 417 have been received, 185 profession.

Dr. S. P. Brooks delivered a most forceful yet simple, an impressive address to the Central school this morning. He impressed the students with the fact that it was not how they look or the kind of clothes they wear, but that it is the kind of material they were made of, the kind of work they do, and the results that follow that counted. He told them the world was clamoring for men, real men of true worth.

Real Scout Work.

Our Boy Scouts had a very enjoyable hike and camp on Friday and Saturday, during which much hard scouting as well as sporting was accomplished. In the tentfoot work the following boys stood the test, tried the knots, explained scouts laws and took the obligation: Edwin Perkins, Eugene Thomas, and Claxton Monk.

In examination for second Class Scout, the following boys cooked a meal, without vessels of any kind, consisting of biscuit, meat and potatoes: Charlie Whitman, Collis Davis and Oscar Mims.

The Scout camp, over which the American flag was flying, was surrounded by a supposed army under General Huerta, and the Boy Scouts were to come through his lines to the help of the camp and its threatened Texans and were given an hour to do so. Of thirty Scouts the following five boys got through the enemy's lines: Richard McKenney, 27 minutes; Francis Tucker, 35 minutes; Claxton Monk 35½ minutes; Robert Monk, 38 minutes. The rest would have been killed, wounded or captured. This is a hard sort of training for boys, but very essential in scout craft. Next time the test will cover several miles and many hours.

Taking No Chances

Of course General Huerta may explain that he didn't fire that salute for fear of not hearing something Mr. Lind might possibly say.—New York Telegram.

Huerta Expected to Quit.

City of Mexico, May 2.—General Victoriano Huerta is expected to resign as provisional president within three days. That a crisis is at hand is believed implicitly is government circles. Rumors of plots fill the air. General Blanquet is named so is Portillo y Rojas.

What is far more important, the iron and steel nerves of General Huerta have been shattered. The man whose hand was never before known to tremble is now almost a nervous wreck. The strain under which he has lived for ten days has transformed him into a mere wreck of his former self.

For a week General Huerta has not slept in his bed. All night he rides through the streets of the City of Mexico in his automobile, frequently drinking heavily of strongest brandy to steady himself. And when from complete exhaustion he dozes the tried chauffeur stops the automobile and it remains motionless until Huerta awakens with a start and orders the chauffeur to move on.

J. L. Burrows, candidate for re-election to the office of constable, remembered the Sentinel force last week in a very substantial manner, for which he has our thanks.

"Just discovered that radium will cure deafness."

"Don't doubt it. The money which a lump of it costs should speak loud enough to make anybody hear it."

Vera Cruz, May 4.—Strict orders are given from American headquarters for soldiers and marines not to advance or invite encounter with Mexicans. While no attack is feared considerable inconvenience is created by Mexicans intercepting food supplies from entering the city.

There are persistent reports here that Huerta intends to retire from the presidency on condition that he is escorted to an American war ship.

A. V. Simpson, who has headquarters at Dolon in Liberty county but whose home is now at Nacogdoches, came up Sunday to spend a day or two with home folks and friends.

"Gentlemen," said the orator huskily, "I've been taking quinine for a cold, and all the sound I can produce is a Peruvian bark."

Uncle Bill Skillern pioneer citizen of Decoy, is visiting in the hub city today.

WALTER M. HALL, Proprietor
GILBERT M. HALL, Manager

Col. Simpson, one time republican candidate for governor of Texas, knows how to find the losing side. He is supporting Ball.

The Ball men are working principally for statewide prohibition; the Ferguson men are working principally for statewide prosperity.

The historic, optimistic and prophetic Dal-Gal News remarks at this juncture: "Some of our record breaking crops were late crops."

With Villa in the north and Zapata in the south and Uncle Sam in the east, the president of Mexico ought to know exactly Huerta go.

It will be well to keep in mind the statement of President Wilson that under no circumstances will we wage war against the Mexican people.

Dave Dinks says the only reason he refuses to tell the people who the next governor of Texas will be is because some of the Ball men might get mad.

When the administration gets after monopolistic enterprises the captains of industry will sigh for the good old days when the republicans were in power.

Word comes from New Orleans that Charley Byrd, one of the followers of elusive Chief Sam, is in New Orleans and needs money to come home on.

Leopold Morris has one vote already. J. Sheb Williams says he intends to vote for him. The one he may get in Nacogdoches makes two.

The path of a moving body is the resultant of the various forces acting upon it. How can it be different with man, or with man's will if you will have it so?

If Colonel Ball should happen to be the next governor of Texas, nearly every prominent politician in Texas will claim credit for the victory and expect part of the spoils.

The differences between telegraphers and the Cotton Belt railroad are adjusted, but the differences between paragraphs in Texas bid fair to continue until the waning days of July.

Just at the time the Hon. J. Sheb said he would not vote for Ferguson and Ex-United States Senator Johnston said he would vote for Ball, the state went wetter than it had seldom been before—and the weather is still unsettled.

There may not be much danger that the rent problem will bring about the downfall of the nation. The rent problem, the usury problem, and kindred problems where the producers of wealth "get the worst of it" have already brought about the downfall of the most important part of the people—the people upon whose back rests the burden of the world

If the opinion of Col. R. M. Johnston is worth anything, his statement that Ferguson's platform is one of the greatest since the days of Jim Hogg, is a concession of some value.

There are now 779,176 homes in Texas, while ten years ago there were only 575,734 and Texas now ranks fifth with the other states in this respect, having wrested that place from Missouri within the past decade.

If Colonel Ferguson is elected governor of Texas, he will have no strings tied to him and give the people an administration as free from outside influences as the administration of Woodrow Wilson.

According to the way the Houston Chronicle expresses it, the second son of Theodore Roosevelt will Kermit matrimony in Madrid June 11; Miss Belle Willard, daughter of Ambassador Willard, is the victim.

Other places of business would do well to follow the example of Mayer & Schmidt Inc., with which customers are in full sympathy, to close doors during the summer months at 6:30 p. m. to allow employees "to get a breath of fresh air" before darkness envelops the land.

A year has not yet passed since the peace plan was proposed and fourteen treaties have already been signed. Six more will be signed within a short time and then more than one-half of the population of the world will be bound to the United States by treaties which will prevent war between our own and any of these nations until after investigation of the cause.—Bryans's Commoner.

J. S. Bonner, who publishes "K. Lamity's Harpoon," in Austin, is avowedly out for Ferguson. He says that Sam Sparks, Jim Ferguson and his illustrious self grew up together in Bell County and any three of them would have made an ideal governor for their native state. As he didn't want and Sam couldn't get it he thinks its up to James to carry the white man's burden.—Houston Chronicle.

Ninety-three students in the University of Texas are applying for the degree of Bachelor of laws. Besides these young men, are four others who expect to take the advanced degree in law this June.—Nacogdoches Sentinel.

Every one of whom is a consumer and not a producer in the entire bunch. Farmers get busy and try to raise more corn and pork, also get your poll tax receipt ready and keep it good and ready.—Brenham Banner Press.

Tyler, Nacogdoches, Longview, Timpson and other East Texas towns are already planning and advertising their fairs for the coming fall. Of course Henderson is going to have a fair, too but, as heretofore, nothing will be done or said about it until just a few days beforehand, when a half dozen or so men will get busy, and after the thing is over with everybody will be bragging about what a fine fair "we" had and how it eclipsed all the other fairs.—Rusk County News.

Saves Child From Snake. Austin, Tex., May 2.—At the risk of death Frank L. Willis of Temple today desperately battled with a gigantic rattlesnake and rescued a 6-year-old negro girl from the reptile's horrifying embrace. Mr. Willis was bitten on the arm by the reptile, but prompt medical attention apparently intercepted any ill effects of the poisonous fangs. Mr. Willis returned to Temple this afternoon.

Mr. Willis while on the river front a few blocks from the business center of this city heard the scream of a child. A short distance away he saw a little negro girl around whose body was entwined a rattler, almost in the act of striking the child in the face with its fangs.

Willis sprang to the rescue of the child, grabbed the snake just below the head with one hand and with the other hand drew from his pocket a knife, with which he decapitated the reptile, but not before it had imbedded its fangs in his forearm.

The snake measured 6 feet 1 inch in length and had sixteen rattles. Mr. Willis took the dead snake home with him to Temple.

Some oppositionists, envenomed with hate and surging with disappointment, are not above doing harm to their country in order that they may thereby discredit their country's chief executive if so hap their enmity lies against that official. There are a few, and only a few, who would gladly see this country embroiled in a bloody war if the result promised disaster to the political prospects of Woodrow Wilson. These few desperate and unhappy men dislike Mr. Wilson because they realize that he symbolizes a political idea which they can not rise to, and that he embodies an intellectual loftiness which they can not scale. If this country is to subscribe permanently to the Wilson ethics then there is no place in politics for their ethics. This conviction has borne so heavily upon them that they are oppressed by it, and under that oppression they have conceived a willingness to embarrass him even if they have to simultaneously embarrass the country. They have had but slight success so far, and the indications are that they will have steadily less and less.—Galveston News.

From Commissioner Muckleroy. Editor Sentinel: I have just returned from the country north of town on the Moral creek. The farmers are badly damaged. Their fences and crops were washed away. Nearly all small bridges are damaged and two main bridges gone. I will get the bridges fixed up at once. The farmers have not the time to work the roads now, as they will have to rebuild fences and replant their crops. M. S. Muckleroy.

We cannot imagine why when timber is so scarce the manufacturers of strawberry boxes insist on throwing away half the space.—Waxahachie Light.

Washington Arkansas. I often think of Washington, Ark., a little old place with a court house, two saloons and a few dry goods stores. It was the home of Rufe and Gus Garland. Rufe was a brilliant man and a great orator, but he espoused the cause of the Greenback party when old James B. Weaver ran for president of the U. S., and it set his doom. He died in seclusion. Gus Garland went to congress, then to the senate and closed his great career as attorney general in Cleveland's first cabinet. He was one of the greatest lawyers of his day. The same old town was the home of James K. Jones. He was a congressman, then a senator and was honored with the chairmanship of the national democratic executive committee and handled Bryan's first campaign. Jones was a great man. He had the biggest head and feet of any man you ever saw. He could get neither hat nor shoes from an ordinary store. U. M. Rose was another great lawyer from there. He would never accept office. He was president of the American bar association for years, and refused the place of attorney general in Cleveland's second cabinet when Olney of Boston, Mass., was appointed.

There was the home of a branch of the brilliant Breckenridge family of Kentucky. Cliff Breckenridge was the best stump speaker I ever heard in my life. He was a drummer for a Boston shoe house when he ran for congress and was elected. His public life was consummated as ambassador to Russia under Cleveland.

So you see Arkansas is not so snide after all. G. W. Tillery here was my old school teacher, and a good one too. I never will forget a licking he gave me once—it is none of your business what it was for. The polished Brother Mahan used to preach for our church at Prescott, Ark. B. F. Amonette and I practiced at the same bar. The venerable judge Tom C. Davis of Center married up there and came away. He became judge after I came down here and he and Judge Polly examined my license and admitted or rather permitted me to practice. So you see that Arkansas has given to the nation some of its noblest characters. And it furnished to Nacogdoches county Bro. Mahan, Uncle Wash Tillery, B. F. Amonette and myself. Oh, I forgot to say also J. Martin Jones, who was born in three miles of the old log school house where Mr. Tillery gave me that "lickin." Hurrah for Arkansas. Jefferson Baker.

The Rent Problem

Jim Ferguson touched up on a big question when he tackled the land rent proposition. What the landlords will do to him will be a plenty.—Marlin Democrat.

What the rent problem will do to the landlords is the thing that will bring disaster in its wake if something is not done to place it upon a more equitable basis. As Mr. Ferguson claims in his public addresses, rent problems have brought about the downfall of nations in the history of the past, just as they are bringing about the downfall of the Mexican nation today and may bring about the downfall of this nation later on. It is no idle dream that Mr. Ferguson has undertaken to deal with, but a condition that is fraught with grave consequences. If the landlords choose to oppose a man who is seeking a solution of a problem in which they are vitally interested, it only goes to show that the people who are not landlords had better take an interest in the matter. Mr. Ferguson proposes to show the landlord where it is to his interest to have this matter adjusted before it has become too serious to approach with calm consideration. And the landlord may well give heed to the plan suggested by Mr. Ferguson, before some radical agitator takes it up and makes trouble. Mr. Ferguson is not a radical but he is attempting to do something to solve a problem that would not otherwise have received attention from the people who are proposing to run the government.—Temple Telegram

"THE GREATEST KIDNEY REMEDY ON EARTH" SAYS A GRATEFUL WOMAN.

I want to tell you how much good your Swamp-Root did me. About four years ago, I suffered from what the doctors called fistula and for two years of that time, I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root. After giving it a thorough trial, I received relief, so kept on using it and today I am a strong and well woman. If I ever feel badly or get out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all trouble you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.
Respectfully yours,
MRS. JOHN BAILY,

City Council Meeting.

A regular session of the city council was held at the city hall Tuesday evening with Mayor Matthews presiding. Aldermen McKinney, Drewry, Hoya and Marshall were present and acting.

The oath of office was administered to J. M. Tucker and he assumed his duties as alderman for the ensuing two years.

The report of W.E. Weaver for fines, road tax, etc. was read and referred to finance committee.

The report of the superintendent of water and light department was read and referred to the water and light committee.

The report of Mayor of fines and collection was read and referred to finance committee.

Treasurers report was read and referred to finance committee.

Capt. I. L. Sturdevant presented a petition from the Boy Scouts asking that May 16th be set apart as white-wash day and making a proposition that they would white wash all electric light poles in the city, furnishing all supplies for 2 1/2 cents each and all fire plugs for 1 cent each. The proposition was accepted except as to fire plugs.

Aldermen Marshall and Drewry were appointed as a committee to co-operate with the Scout Commissioners, Scout Masters and Boy Scouts relative to the above mentioned work. Chief I. L. Sturdevant, for the fire company appeared before the council and stated that the city was practically without a fire alarm system and asked that they immediately take steps to procure an adequate fire alarm system as the hazard was too great under existing circumstances.

Arthur Marshall, Chas. Hoya and I. L. Sturdevant were appointed by Mayor to make investigations with reference to the various up-to-date fire alarm system and report May 15th.

The following accounts were read allowed.

Saves Life By Losing Nerve.

Akron, Ohio, May 4.—A young woman of this city, whose name was not made public, is alive today because she lost her nerve at the last minute and declined to ascend with H. P. Harris, aviator, at Silver Lake, near here.

While thousands watched, Harris fell 600 feet and was almost instantly killed.

E. A. Calvin of Houston, former president of the Farmers' Union of Texas, is a candidate for commissioner of agriculture and the indications are that he is an excellent man for the place.

Farmer Killed by Lightning.

San Benito, May 1.—Considerable damage was wrought in this section by last night's rain and thunder storm. J. Y. Harvey, a farmer residing near here, was struck and instantly killed by a bolt of lightning and less serious injury was sustained by others.

All Previous Records

Browsville, Texas, May 1.—Up to the present time all previous records in truck shipments from the lower Rio Grande valley have been shattered. During this season producers of truck in that section have shipped to the various markets 2,002 cars of vegetables, while during the same period of last year only 880 cars were dispatched. The shipments were divided as follow: Cabbage 1,888 carloads; onions 89 carloads; lettuce 52 carloads; potatoes 8 carloads and mixed products 70 carloads.

Olney Named for Governor.

Washington, May 4.—President Wilson has selected Richard Olney, former secretary of state in the Cleveland administration, to be governor of the federal reserve board and Paul Warburg of New York to be a member of the board.

Although the president has offered the governorship to Mr. Olney, word of his acceptance was being awaited today. Friends here, however, were inclined to believe he would not decline. Mr. Olney was offered the ambassadorship to Great Britain by President Wilson early last year, but expressed an unwillingness to leave the country on account of his business interests.

Measures Chosen For Action.

Washington, May 4.—After a conference with President Wilson today Majority Leader Underwood announced that an agreement had been reached to put through the Clayton omnibus anti-trust bill, the Covington interstate trade commission bill and to regulate the issuance of stock securities, as well as a rural credits measure, before congress adjourns.

50 Burn To Death.

Valparaiso, Chile, May 4.—Fire sweeping an old section of the business district here, resulted in the loss of upward of fifty lives.

Many bodies had been recovered today and the ruins were still being searched for several missing.

J. J. Lilly Passes Away.

J. J. Lilly formerly of this county, where he has a host of relatives and friends died at the family residence at Tyler May 2nd, at 5 o'clock, and will be buried at that city.

He was married twice, the first time to Miss Lucindy Powers, and of this marriage the following children are Mrs. Josh Grimes, Mrs. Walter McLain, Pink Lilly, Holloway Lilly, John Lilly, Jr., Jim Lilly, Elbert Lilly.

The second marriage was with Miss Patina Sitton, and of this marriage there are the following children: Mrs. Bob McLain, Mrs. L. C. Joplin, Mrs. Tom Dickison, Mrs. R. C. Bryarly, Mrs. Duke Moore, H. S. Connor, Mrs. Geo. Ivey, Mrs. Miss Mattie Lilly, W. P. Lilly, Roy Lilly.

Ferguson Men Organize
Dallas, Texas, April 29.—The Dallas County James E. Ferguson Club, organized last night, will begin a campaign to enlist members through all the precincts of the county. This will mean that other organizations will be formed in each of the precincts.

The meeting last night elected Cecil L. Simpson, president, and John S. Paterson, secretary, of the county club. The committee appointed to attend to precinct organizations is composed of R. V. Davidson, R. L. Winfrey, J. Dawson Matthews, Mike Murphy, Judge Phil Barry Miller, Leslie Williams and Ben Chilton.

His long acquaintance with Mr. Ferguson and his understanding of the man's life and qualities, were (spoken of by Mr. Davidson in his address Secretary Paterson said: "Neither Mr. Ferguson nor Ball, nor any other Governor would have anything to do with submission of prohibition amendment. I have always voted for local option and statewide prohibition, and expect to do so again, but I am an enthusiastic Ferguson man in this race, for I believe he is a better prohibition candidate than Tom Ball."

High School Honors.
At a recent meeting of the High School Faculty computing averages for the students in the senior class for the first eight months of the current school term, it was found that Miss Mabel Bright had made the highest average and will therefore be the Valedictorian for class in the graduating exercises. Miss Jessie Burgess made the next highest average for the same period and will be by virtue of this fact the salutatorian for the class. The race was very close between these two young ladies. These two positions on the graduation program are determined by the first eight months' work, while the scholarships awarded by various colleges to our high school will be determined by the whole term's work.

Fornoon Speeches at Sherman
Sherman, Tex., April 30.—Hon. James E. Ferguson of Teuple, candidate for Governor, spoke here this afternoon. He was introduced by Hon. Cal T. Freeman. He addressed a large audience, most of whom were farmers from different parts of the county. Mr. Ferguson is a brother of Prof. A. M. Ferguson a noted seed breeder and author of several textbooks on agricultural subjects. He was given quite a reception at the Blinkley Hotel before the speaking.

Capt. Boles Killed at Dreka
Center, Texas, April 30.—B. F. Lout, it is charged, shot and killed Captain Boles yesterday about sunset in this county, at Dreka. Lout's young brother, Joe, it is said, had eloped with Boles' daughter, and they are reported today to be still absent. Boles was seeking his daughter and was killed by two shots from a shotgun.

Kills 2 Women And Himself
Waco, Texas, April 30.—West, 18 miles north of here is recovering from the excitement occasioned last night by the killing of Mrs. Calvin Crum, Miss Mattie Williford and the suicide of their slayer, George Crum, brother-in-law of Mrs. Calvin Crum. Arthur Crum, younger brother of George Crum, shot by the latter, will survive. Calvin Crum and his wife were separated and advices from West state that he left for Fort Worth yesterday.

The shooting occurred at the home of Calvin Crum, a brother of the man who did the shooting. The family were sitting at the supper table when George Crum walked in and opened fire. Mrs. Calvin Crum, aged 24, was shot through the body dying instantly. Miss Mattie Williford, aged 20, step daughter of Calvin Crum, was shot twice through the back dying a few minutes later. Arthur Crum was shot in the left side.

The only person spared by the infuriated man was his little 3-year old nephew who sat at the table in his high chair. After the shooting had ceased, the little youngster ran screaming into the street crying for help.

Killed By Boa Constrictor.
Muskogee, Ok., April 30.—Mrs. C. B. Vivian of Muskogee today received word that her son, Homer Vivian, who was located on a ranch 1,500 miles inland in South America had been killed by a boa constrictor. Vivian was riding through the jungle with a friend when the monster snakes attacked the young man and the mule he was riding, killing them both. The other man finally killed the snake which, according to the cable weighed nearly 1,000 pounds.

Making It Right.
"Of course you have made some promises you didn't keep."
"Yes," replied Senator Sorghum. "But I never yet broke a promise to a man without giving him a better one in its stead."—Washington Star.

A Few Chords From Chopin.
Tramp—Yes, mum, I was once quite a musician, an' I guess I ain't forgot all about it yet.
Mrs. Housekeep—Indeed! Well, you can take the ax and chop a few cords out of that woodpile.—Boston Transcript.

George Manley who has charge of the mercantile business of John Cox at Sacul was in the city today on business. Men are hard to satisfy, yet what is more unsatisfactory than a satisfied man?

Washington Called A Traitor.
Editor Sentinel:

I had told you I would write a page or two and I was afraid to tackle you with a Tom-Ball letter. I believe that you boys would publish it for me but I don't want to commit rapacious violence on your political conscience. Anyway, we will have some Ball speaking here before long and I want you all to come out when it happens. We shall try to pummel it in to your Fergusonian "knots" that Tom Ball is the biggest, broadest man in Texas.

But I am sorter reminiscent this evening and my massive mind has meandered back to my old home in Arkansas—"now laugh dang you." It is of the old town of Washington, Ark. I am thinking. I have been reading of Washington, Texas, around which cluster nearly all the scenes of Texas struggle for national independence. Then I thought of Washington D. C., the city on the banks of the beautiful Potomac named for another Washington and that put me to thinking of that other Washington, —George by name.

Well sir, I am on the dividing line, crossing the crest that lays between the first and last half of this mortal life. I have read every thing and everybody, republican, democrat, progressive, socialist, syndicalist, anarchist, communist and all, but never in my life till last Saturday did I hear anything or anybody human, semihuman or quadruped, with the necessary intelligence to speak in any tongue, stand before an audience on the streets and denounce George Washington as "a traitor."

This fellow was speaking from a wagon and was pretending to make a socialist speech. I don't want to believe that the socialists of this county indorse that utterance. He was speaking of our system, of our constitution and "the traitors" that helped in its making and personated George Washington as one of the bunch. Such speaking as that is what poisons the human mind. Right there was an abrasive brained idiot plunged into a fit of insane fantasmia attempting at one thrust to shatter the human ideal of over three hundred million people. It is an outrage. The civilized world honors the name of Washington. Even in far away Atrica from Cape Colony to Tunis, the name is known and revered. Who but this nameless nomad would have thus besmirched it? Debs would repudiate such an utterance. Haywood would disown such sentiment. Emma Goldman, the anarchist, would turn away from it.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try **Theford's Black-Draught**, and quit taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking **Black-Draught** for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what **Black-Draught** has done for me." **Theford's Black-Draught** has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. The Hon. James A. Ferguson, of Temple, and candidate for Governor, has displayed good generalship in forcing his rival to recognize his chosen ground as a part of the battle plan and to meet him also on the issues of land-holding and farm-tenantry, rather than exclusively on the question of liquor prohibition.—Dallas Democrat.

The Panama Canal.
The Panama Canal will become the greatest development agency in the history of the world.

The magic touch of its influence will quicken the farm, mine and factory life of Texas and the inland empire that lies beyond our borders by bringing the Pacific markets within our trade zone. It will arouse the Orient from its slumber; awaken the Southern Hemisphere to industrial achievement and will flash rays of light over the dark continent, and Texas is strategically located to receive first benefits of the large opportunities which the canal produces.
