E. F. Webb Refused Bail.

The examining trial of E. F. Webb, who is charged with the killing of J. C. Marshall at Sacul several days ago, was held before Justice of the Peace J. F. Cash at Cushing Monday.

The entire day was spent in taking testimony by the state and defense and in reviewing the evidence and arguing law points by counsel for both. Bail was refused. The case will be carried before Judge Guinn on a writ of habeas corpus.

The defendant is represented by Geo. S. King of Houston and S. M. King, A. A. Seale and Beeman Strong of this city.

The state is represented by W. B. OQuinn, district attorney and S. M. Adams and W. A. Wade.

Cuberson in Washington.
Washington, May, 12.—Senator Cuberson of Texas, who has been absent from Washington several months, suffering from nervous prostration, today returned to the city. He did not appear at his office, however, and was not present when the senate reconvened.

Regardless of weather conditions the W. O. W. entertainment that was billed to be pulled off on the college campus Tuesday night was held at the W. O. W. hall. There were about 175 persons present and 40 or 50 ladies. Every one present reports an enjoyable time and all are loud in their praise of the committee who had arrangements in charge.

Mme. Lillian Nordica Dies.
Batavia, Java, May 10.—Mme. Lillian Nordica, the singer, died here tonight. Mme. Nordica had been ill since the steamer Tasman, on which she was a passenger, went ashore in the Gulf of Papua December 28 last. Nervous prostration was followed by pneumonia.

Ends Gambling in Vera Cruz.
Vera Cruz, May 11.—Gambling in Vera Cruz is to cease. Brigadier General Funston has issued an order for houses running games of chance to close, and stating that any person found guilty of maintaining any game would be subject to a fine of \$1000 and one year's imprisonment at hard labor. The order was issued at the behest of a committee of local business men who had protested to General Funston against the city being run wide open.

Labor Leaders Freed.
Washington, May 11.—Conviction of President Gompers, former Vice President Mitchell and Secretary Morrison of the American Federation of Labor, of contempt of court in the celebrated Buck's Stove and Range case was set aside today by the Supreme Court.

The highest tribunal said that the statute of limitations barred prosecution.

A jail sentence of thirty days imposed upon Gompers and fines of \$500 given the others were set aside.

Check for \$365,580.
Austin, May 12.—The largest individual check ever deposited by a state department with the state treasurer was deposited today by the secretary of state's department. The check was for \$365,580 and represented the April receipts of the department. This money goes to the general revenue fund.

Dutch Shows Big Powers How says Oil Field.
Forty miles up the Panuco River's devious windings, twenty miles from Tampico as the crow flies, there is a large oil property owned by Dutch capitalists. When American citizens were being "Tampicoed" into Tampico and from there out to sea in droves, the Dutch superintendent of this Dutch property sent down to the Dutch cruiser in port and asked him what should be done.

The Dutch commander didn't waste time in contemplation of possible international complications. If anybody back at The Hague was thinking about such things he didn't know it and didn't care. Without any delay further than that devolved in giving the necessary orders, loaded two of his boats with marines and started them for that Dutch property with instructions to stay there until they hear from him. They are still there—and that Dutch oil company is safe.—New York Herald.

Tampico Results Still Doubtful.
Vera Cruz, Mexico, May 12.—Wireless reports received here indicate that the battle of Tampico is still in doubt. The rebels are attacking fiercely, but the Huertistas are strongly entrenched and the assailants have been unable to dislodge them. There is much smoke ashore, rendering glasses useless, but it is not believed that the oil tanks and wells have been fired.

App's Production to be Large.
San Angelo, Tex. May 11.—Present indications point to an enormous yield of the apple crop in this section during the coming season. A number of fruit growers are of the opinion that the apple production this year will be the largest ever harvested here and are formulating plans for the handling of this crop, so better financial returns can be had. Other fruit crops are also in a flourishing condition.

The fish-like stare of every bookworm victim in the county is a mute appeal for help.

Before it became a law, the parcel post was socialism; since it became a law it is progressive democracy.

The men who cry most loudly for war are those who know they would not likely be called upon to do the fighting.

There is no profanity among even the most wicked Mexicans. Their most abusive term is "cabron," which means goat.

It is very probable that the citizens of the city and county of Nacogdoches who believe in local self government will at once organize a Ferguson club.

The San Antonio Express expresses the opinion that Mr. Roosevelt's tale about finding a new river in South America puts him in the Ananias Club.

Johnston and Ousley say that Johnston did not say what Ferguson said he said. It is not necessary for Ferguson to try to untwist the professional twisters.

If there were no law prohibiting excessive charge for the use of money and one were proposed, the world is full of unclean men who would call it socialism.

The first case to reach the supreme court involving the validity of the income tax comes from New York, the appellant assigning twenty reasons for holding the law unconstitutional.

The General Conference of the Methodist Episcopal Church South met in Oklahoma City Wednesday to continue one month. This is the legislative body of the church which meets every four years.

According to The Journal of the American Medical Association there were during 1918 in the entire enrollment of over 90,000 men in the United States Army only three cases of typhoid fever.

If a man can write a better book, preach a better sermon or make a better mousetrap than his neighbor, though he builds his house in the woods, the world will make a beaten path to his door.—Emerson.

Since it appears that Roosevelt has not found a new river in South America a thousand miles long the people will begin to doubt that he killed the biggest lion in Africa one quiet day when no one was near to aid him.

Lester B. Colby in the Houston Chronicle says, "If there is anything in the attitude of leaders of this state, it looks like Ball will have an old fashioned democratic landslide this year." But the difficulty dear Horatio, is that the people know the leaders are trying to lead them.

Will H. Mayes has just drawn his first month's salary as dean of journalism in the University of Texas and the inquisitive Galveston News still wants to know "how much do a dean get."

It is charged that Mr. Ferguson's land rental proposal interferes with the right of contract. The law against charging more than ten per cent per annum for the use of money interferes with the right of contract, yet no one objects but the loan shark and not even he calls it socialism.

Some newspapers persist in calling Mr. Ferguson's land rental proposal socialism despite the fact that the Sentinel more than once has thundered loud enough for all to hear it that the most unclean men in public life are those who cry socialism when a measure in favor of the under dog or of all the people is suggested.

The famous British explorer Sir Clements Markham points out that the new river in south America which Mr. Roosevelt claims to have discovered would have to cross at least a dozen other rivers before it could flow as described. The task of crossing a dozen or so rivers is a small one to a resourceful man like our "Hero of San Juan Hill."

In answer to the question of the Texas State Board of Health, "What do you think the work was worth to your county," the county judge of Angelina county replied, "Many times the cost to the county," and one commissioned, "A thousand times more than the cost." The hookworm remains an undisturbed lord on the north side of the river.

John D. Rockefeller, Jr., is sending out his religious crooks ostensibly to evangelize the world, but in reality to divert attention from his soulless methods of robbing the toiling, struggling masses' says State Topics, John D. and his co-workers in iniquity would be delighted to see all the people read the Bible and pray without ceasing which they will proceed not to do.

The supreme council of the Ancient Accepted Scottish Rite of Free Masonry, southern jurisdiction of the United States, at its last regular meeting, unanimously concurred in the recommendation made by Grand Commander Richardson in behalf of the peace plan which is now being adopted by the nations, providing for investigation in all cases.—Bryan Commoner.

The humble miners of Colorado are fighting the battle of the common people against the powerful corporation associated with John D. Rockefeller, Jr., who some time ago set aside \$10,000,000 to pay the salary and expenses of professional "religious crooks" to travel over the country to create an agitation that public attention might be diverted from his method of adding to his ill-gotten millions.

There are 284,179 persons in Texas whose mother tongue is Spanish and practically all of them came here direct from Mexico, according to a census report just issued.

The word anti as used in the present campaign means anti statewide. Some of the most ardent advocates of prohibition are anti-statewide, who believe in local self government guaranteed by local option laws as the only solution of the liquor question.

The antis who are opposed to Ferguson profess to be satisfied with Colonel Ball's position on the prohibition question. Of course the pros were and are satisfied or they would not have selected him as their candidate.—East Texas Register.

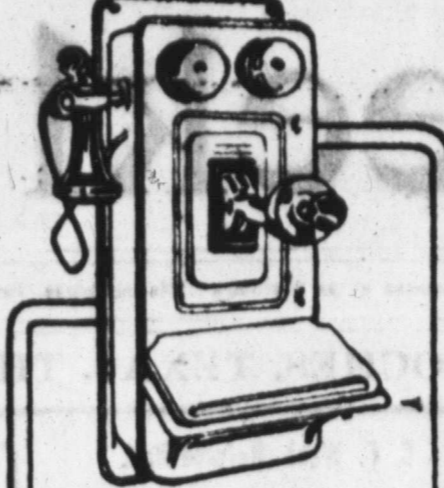

And vice versa, dear Horatio. The pros who are opposed to Ball profess to be satisfied with Ferguson's position on the prohibition question. Of course the antis were and are satisfied or they would not have spontaneously selected him as their candidate.

If you want to get general information with reference to the various members of the animal kingdom see Dr. Hornaday of the Smithsonian Institute at Washington. If you want to learn of the animals of Africa or South America, see Teddy Roosevelt, but if you want to learn of that vociferous and amphibious member of the animal kingdom entitled the "Ball frog" see Tom Baker at the Commercial Bank. The dimensions of one he saw lately, not including its tail, is a tale that seems unreasonable, yet he declares it is a fact and we have no room to disbelieve it.

Colonel Ball opposes national prohibition because the states can manage the problem better. Colonel Ferguson opposes statewide prohibition because the counties can manage the problem better. Whose platform comes nearer the democratic principle of local self-government.—Nacogdoches Sentinel.

There'll never be a platform made that will suit everybody. Men's ideas and tastes differ. Some believe in high tariff and others in low tariff. Some want war and some want peace. Some take theirs straight, while others want sugar in their'n and so it goes.—Bryan Eagle.

The financial magnates find it difficult to learn a lesson no matter how often it is repeated. The poverty stories of the railroads and their discharge of men just prior to the submission to the interstate commerce commission of the demand for an increase in rates is but a repetition of the old methods employed by big business to influence government. Net earnings are less than they were a year ago, but more than they were two years ago, yet two years ago when the railroads had no case pending before the commission, no large number of men were laid off.—Bryan's Commoner.

Torreón, May 7.—A plea for the lifting of the embargo on arms as the swiftest and most humanitarian method of bringing peace to Mexico, was made by General Francisco Villa, general in chief of the Constitutionalist army. "The embargo is protracting this struggle uselessly," he said. "I hope the American government understands that the placing of the embargo is interfering seriously with plans of the Constitutionalist. Gomez, Palacio, Torreón, San Pedro Dellas Colinas and even Monterey were Constitutionalist successes due to the brief lifting of the embargo. Mexico should be pacified. We can not gain this end quickly while we suffer from lack of ammunition. "I wish" he said "to make it clear to the people of the United States that I am anxious for all Americans connected with industries in Mexico to return and take up their pursuits. I wish to add that all foreigners in Mexico and those who wish to return shall have nothing to fear if it ever should come to war between Mexico and the United States. I would give my word that every thing possible would be done by me to protect them. Should they desire to leave the country, in such event, I would place enough rolling stock at their disposal to take them and all their movable property out of Mexico.

How They Forecast The Weather

By telegraph. The weather forecaster does not look out of the window and guess. He is not weatherwise like the old salt who scents the approach of a storm without knowing how. To the signs by which the ordinary citizen decides whether to take his umbrella with him or leave it at home, he pays no attention. Give him his telegraph wires and he can make his predictions as accurately in a windowless cellar as on the top of New York's highest skyscraper.

The private individual sees the clouds settle on a near-by mountain or the rain sweep over a field a mile from his house and knows that the storm will be on him in a few minutes. With the aid of the telegraph the weather man sees the same storm when it is a thousand mile away, and not only this storm but every other one in the country. He knows in what direction and at what speed each is moving, and can thus calculate with reasonable accuracy the approximate time when it will reach any place in its route.

1200 Farmers Meet in Houston

The largest gathering of farmers in the history of the conventions of the Texas Farmers' Union was that which overflowed the banquet hall of the City Auditorium Thursday morning, making it necessary to adjourn the convention to the main hall of the building. More than 1200 farmers, representing all parts of the state, took part in the opening of the convention, which is to devise a plan for financing the handling and sale of the 1914 crops.—Houston Chronicle.

North Texas State Normal.

On April, 24 our large student body assembled in chapel for the purpose of hearing Col. Ball speak. Then the candidate accompanied by a large crowd of the citizens of Denton began to ascend the stairway the band began to play, after which the students gave one yell after another in behalf of Col. Ball. He spoke for a short while about the normal schools of the state.

One of the chief events of the year is the inter-collegiate debates between this normal and the other normals of the state. This year two debaters from here went to San Marcos and debated the affirmative side of the question and two debaters from Huntsville came here and debated against two of our boys who had the negative side of the same question. The result at San Marcos was 3 to 0 in favor of Denton and the result here was 2 to 1 in favor of Denton. This is the second double victory that this school has won in the debating contest.

The Summer School will begin June 2. In addition to the regular faculty there will be Mr. Luney from Ft. Worth, Mr. Peeler from Dallas, and Mr. J. W. Smith from Caldwell.

The contractors are still at work constructing the Manual Arts Building and in addition to this improvement there are several new boarding houses being built for the accommodation of the students.

Lumber is now on the ground for the creation of the grandstand, which will be ready to be dedicated by commencement week.

The enrollment this year has reached 1080 of which about 600 are seniors. This is the largest graduating class in the history of the state and is supposed to be the largest in the South.

AFTER SUFFERING TWO LONG YEARS

Mrs. Aselin Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Minneapolis, Minn.—"After my little one was born I was sick with pains in my sides which the doctors said were caused by inflammation. I suffered a great deal every month and grew very thin. I was under the doctor's care for two long years without any benefit. Finally after repeated suggestions to try it we got Lydia E. Pinkham's Vegetable Compound. After taking the third bottle of the Compound I was able to do my housework and today I am strong and healthy again. I will answer letters if anyone wishes to know about my case."—Mrs. JOSEPH ASELIN, 625 Monroe St., N.E., Minneapolis, Minn.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy we know for woman's ills. If you need such a medicine why don't you try it?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

An editor died and slowly wended his way to where he supposed a warm reception awaited him. The devil met him and said: "For many years thou hast borne the blame for the many errors the printers made in the paper. The paper has gone alas for \$1.50 and \$1.50 has often failed to come in. The printers have deviled thee on Saturday nights for wages when thou hadst not a cent to thy name. Men have taken the paper without paying for it and you have been cursed for not getting out a better one. Thou canst not come in here." And he fired him. "Heaven is his home, and besides if we let him come in here he will continually dun delinquent subscribers for our habitation is full of them, and thus create disorder in my kingdom."—Ex.

"THE GREATEST KIDNEY REMEDY ON EARTH" SAYS A GRATEFUL WOMAN.

I want to tell you how much good your Swamp-Root did me. About four years ago, I suffered from what the doctors called fistula and for two years of that time, I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root. After giving it a thorough trial, I received relief, so kept on using it and today I am a strong and well woman. If I ever feel badly or out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all trouble you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.

Respectfully yours,
MRS. JOHN BAILY,

Texas Bulls Win First Prize At Havana Show.

Hillsboro, Tex. May 9.—Texas bred livestock continues to show its superiority over stock of other countries, and a number of Shorthorn bulls owned by Frank Scofield of this city, who has just returned from Havana, Cuba, were awarded first prizes at the International Exposition in that city recently. These animals were entered in competition with the prize bull of the Paris Exposition and some of the finest blooded stock in North and South America and were declared by the judges to be the finest lot ever shown in that country. A total of eight prizes were captured by this herd and a diploma was given Mr. Scofield, signed by the President and Senate of Cuba in recognition of these prize animals. This is declared to be the greatest victory ever won by an American exhibitor in that Republic. Mr. Scofield disposed of the bulls before returning home.

Denies Frank's Latest Motion.

Atlanta, Ga., May 6.—Judge Ben H. Hill of the Fulton County superior court today denied the extraordinary motion for a new trial for Leo M. Frank, the young factory superintendent under sentence of death here for the murder in April of last year of Mary Phagan, a factory girl.

In denying the motion, Judge Hill announced that he would sign a bill of exceptions, thus allowing the ruling to be appealed to the state supreme court.

200 Albanians Crucified By Greeks.

Durrizza, Albania, May 6.—The crucifixion of 200 Mohammedan Albanians by Greek Epirote invaders was reported in a dispatch to the Albanian Government.

The report declared that the Greeks captured the Mohammedans in the village of Skodra, crucified them in the Orthodox Church there and then set the church on fire.

Albanian soldiers found the charred remains of the victims two days later.

Huerta Soon Must Crumble.

Vera Cruz, May 9.—The impression among most military men and nearly all residents of the capital is that the world will not have long to for the final chapter in the struggle between Huerta and his enemies.

Several of the diplomatic corps, headed by the Spanish minister, are reported to have called on President Huerta a few days ago, and urged him not to subject the city to a bombardment, but to lead his troops outside and there make his stand. Huerta, according to this report, protested, but the Spanish minister is said to have insisted that unless consented the minister would demand his passports. Huerta finally agreed, but reserved the right to retreat into the capital.

Chamberlain's Liniment

This preparation is intended especially for rheumatism, lame back, sprains and like ailments. It is a favorite with people who are well acquainted with its splendid qualities. Mrs. Charles Tanner, Wabash, Ind., says of it, "I have found Chamberlain's Liniment the best thing for lame back and sprains I have ever used. It works like a charm and relieves pain and soreness. It has been used by others of my family as well as myself for upwards of twenty years." 25 and 50 cents bottles. For sale by all Dealers.

Once upon a time a small boy about 3 years old was taken to the church to be baptized. As soon as he caught sight of the bowl of water in the minister's hand he remembered his antipathy for the bathtub, and straightened himself up for the attack.

When the minister approached him, reverently dipping his hand in the water, the little fellow said:

"If you put soap in my eyes I'll bus' you open."—National Monthly.

Sick Headache.

Mrs. A. L. Luckie, East Rochester, N. Y., was a victim of sick headache and drowsiness, caused by a badly weakened and debilitated condition of her stomach, when she began taking Chamberlain's Tablets. She says, "I found them pleasant to take also mild and effective. In a few weeks' time I was restored to my former good health." For sale by all Dealers.

The county judge and the four commissioners of Jasper county say in their endorsement of the hookworm commission recently conducted in that county: "We feel that this small amount of money (\$800) has been returned to our citizens a thousandfold in the teaching we have received, in addition to the vast amount of human suffering that has been relieved."

Whooping Cough.

"About a year ago my three boys had whooping cough and I found Chamberlain's Cough Remedy the only one that would relieve their coughing and whooping spells. I continued this treatment and was surprised to find that it cured the disease in a very short time," writes Mrs. Archie Dalrymple, Crooksville, Ohio. For sale by all Dealers.

All Americans Out

Washington, May 10.—At 1:45 this morning Acting Secretary of the Navy Roosevelt instructed Rear Admiral Mayo to remove all Americans from Tampico and vicinity because of the danger from the impending attack on the city by constitutionalists. The admiral was ordered to advise the American consular force at Tampico to cooperate with him.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by all dealers.

How long are the people of this state going to waltz up to the polls on election day and cast their votes according to the dictates of a few professional politicians who fatten and grow rich on political discord and dissension? How long, oh how long? Answer: They've already quit and are merely waiting for July 25th to roll around to punch the bottom out of machine rule in Texas.—Rockport Enterprise.

For a Torpid Liver.

"I have used Chamberlain's Tablets off and on for the past six years whenever my liver shows signs of being in a disordered condition. They have always acted quickly and given me the desired relief," writes Mrs. F. H. Trubus, Springville, N. Y. For sale by all Dealers.

O, don't you remember sweet Alice, Ben Bolt. Sweet Alice who lived in the glen? She then was as slim and as spy as a colt. She now weighs two hundred and ten. —Nebraska State Journal.

I have come to the conclusion that the best thing that can be done for Texas is to put the State under a commission form of government. Do away with both branches of the legislature and elect 10 or 12 business men for commissioners, pay them each 10 or 12 thousand dollars a year. I would vote an amendment to the constitution to do this and I believe it would carry if submitted to the people.—Capt. Kellie in San Augustine Tribune.

Battle Rages at Tampico.

Juaréz, May 10.—The most desperately fought battle of the present Mexican revolution is being fought to-night at Tampico, according to reports reaching Constitutionalists officials here. It is reported some of the oil wells and tanks are burning and that a portion of the town is on fire.

All Americans, it is said here, have been taken aboard United States war-ships but other foreigners are scattered throughout the oil well district. By the light of blazing oil tanks, fired by stray shots, the rebel artillery men hurled shot after shot from twenty heavy field pieces into the strongly entrenched position held by General Ygancio Morelos Zaragoza, the Federal commander, in the center of the town and swept the breastworks with a half of shrapnel in an effort to open the way for a dash by Gen. Pablo Gonzales' infantry.

Major George W. Littlefield has made the University of Texas the beneficiary of a fund of \$25,000 for the collection of books and material on the history of the South. As now invested it yields \$1500 a year, which is probably somewhat more than it will bring when reinvestment becomes necessary, but, at the lowest, we may expect always to derive from it between \$1000 and \$1200 a year. The principal is to remain untouched for twenty-five years, after which, if the committee that directs the expenditure of the fund so determines, it may be spent for the same purpose as the income.—Daily Texan.

President Goes To Circus

Washington, May 6.—Last night the President of the United States ate popcorn, fed peanuts to elephants, laughed at clowns and marvelled at a "bearded lady."

For he went to the circus. Not only did he do this, but having enjoyed himself so greatly, he purchased tickets for "the grand concert" which always winds up such entertainments, and remained through that also.

President Wilson was accompanied by Miss Margaret Wilson, Miss Helen Bones, Dr. Cary Grayson, Senator Hughes of New Jersey, Private Secretary Joseph Tumulty, Thomas Pence and Ott Carmichael.

Henry Will Run for Senate

Washington, May 9.—Representative Henry of Texas declared in the House this afternoon that he would be a candidate for the United States Senate in 1916.

"When the proper time comes I shall canvass Texas from border to border," he said.

Mr. Henry is chairman of the House Rules Committee and will seek re-election to the House in the primaries this fall.

J. W. Van Sickle and Walter Mitchel from near Lion Flat were in the city Wednesday on business.

WHEN YOU ARE NERVOUS

you have the first symptom of a run-down system, and nervous people too often conceal their aches and pains and suffer in silence, while, if neglected, this condition often becomes more serious trouble. If those so afflicted would stop taking medicine containing alcohol or drugs which menace the foundations of health, and just take the pure, strengthening nourishment in Scott's Emulsion, it would create new blood to pulsate through the organs, refresh their bodies and build up the whole nervous system. It is rich, sustaining nourishment, free from wine, alcohols or drugs. Shun substitutes.

Four Are Burned to Death.

Newark, N. J. May 9.—Four persons were burned to death in a fire which swept through a large brick and stone apartment house. Three of the victims were servants, all women; the fourth was Dr. A. H. Young, a retired Presbyterian clergyman.

A number of persons sustained injuries.

Abandoned Well Flows Oil

Brownwood, Texas, May 7.—A well drilled on the Hall Bros. farm two miles from Brownwood 15 years ago is now flowing a fine grade of crude oil.

Yes, want a good industrious office boy—but how many grandmothers have you lying at the point of death this season? Gimme th' exact Census.

"A woman can't do two things at the same time," snapped Mrs. Gabb.

"That's the reason there is no sewing done at a sewing club," returned Mr. Gabb.

What Inventors Are Doing

Spellman & Murray, Patent Attorneys of Dallas, Texas, announce the issuance by the United States Patent Office at Washington, D. C. the following patents to residents of Texas, for the week ending May 2, 1914:

Henry H. Armstrong, Fort Spunky, wire stretcher.

Henry E. Gurin & W. D. Dean, Aermleigh, weeder.

Robert E. Hinson, Hillsboro, Thermostat.

Jules H. Hirt, El Paso, gas producer.

James H. Latimer, Weinert, silo-chute.

Sam Macklin, Laredo, refrigerating apparatus.

Joseph J. Marek, baling press.

David Olson, El Campo, beet puller and topper.

Albin C. Wrede, Smithville, copy-holder.

Adolph C. Dullnig, San Antonio, tub-holder.

Albert K. Hurst, Dallas, garment-waist adjuster.

Howard R. Hughes, Houston, well drilling apparatus.

Downman Head of Lumbermen.

Chicago, May 7.—R. M. Downman of New Orleans was elected president of the National Lumber Manufacturers' Association last night at the closing session of the 1914 convention held here in connection with the forest products exhibition at the Coliseum. San Francisco was selected as the 1915 meeting place.

The Shreveport Times wants to know what the Colonel was doing in South America if he wasn't discovering a river.

An artesian well in the city would furnish a more palatable and healthful drink than the pond water most of the people are using.

Dave Dinks says he heard an old man who knows everything say that the nicer the things one woman says about another the less she means them.

It is a little surprising to hear that Colonel Roosevelt jumped into the river to save two men from the rapids, instead of simply shooting the rapids.—Kansas City Journal

A large refrigerator was shipped to Lufkin and no door was found large enough for it to pass through. It was brought to Nacogdoches and safely housed in one of our metropolitan buildings.

Mr. Ferguson of Temple, who is a candidate for Democratic nomination for governor, is making his appeals more to the farmers than any other class of voters.—Marble Falls Messenger.

James Fitzgerald says that politicians can always be relied upon to get together against any candidate for high public place who undertakes to represent the forgotten class in politics—the wealth producers of state and nation.

A chicken thief was caught raiding a farmer's hen coop in a nearby county one night recently. He gave his name as Hamm. The farmer, alarmed by his dog's bark, took his shotgun and got both Hamm and eggs.—Bonham Favorite.

A. B. Conners, assistant director of the Agricultural Experiment Station and Geo. T. McNess, director of the substation located two miles north of this city, called at the Sentinel office Monday and outlined in a general way the splendid work the state is doing for the farmer.

In thirty East Texas counties 25,000 school children were examined for hookworm disease and 28 per cent were found to be sufferers and were treated. The State Board of Health urgently asks all other counties in East Texas to lend financial aid to this health campaign.

All of the progressive or third party members of the house but two voted against the request of President Wilson for a repeal of the free tolls provision in the Panama canal act. Various reasons were assigned, but the real one was that the progressives thought they saw a chance to help discredit the administration. A third party politician plays the same sort of a stupid political game as other kinds of party politicians.—Bryan's Commoner.

If a thing is worth a thousand times as much as it costs, it does not take an expert to see that it is a good investment.

It may take a good while for the people to understand it, but it is true that the single tax is the solution of the land problem.—Carthage Register.

Dave Dinks says he wants to know how in the Sam Brown a feller can reduce the high cost of living when hog bristles are worth two hundred and eighty dollars a ton.

The elimination of Huerta and other evils across the Rio Grande would not be of as much benefit to the people of Nacogdoches county as the elimination of the hookworm from the viscera of more than ten per cent of her people.

Senator Morris Sheppard was the only man to vote against the tree garden seed graft in the U. S. Senate a few days ago. Sheppard is right. The free seed sent out from Washington never did anybody any good, besides costing the government hundreds of thousands of dollars.—Tyler Courier Times.

On receipt of 10 cents in coin or postage stamps to cover the cost of packing and mailing, the College of Industrial Arts, Denton, Texas, will forward to any address in Texas one-half dozen potted flowers, assorted from asters, snap, dragons, phlox and petunias. Each package contains a detailed description of how to grow and care for the flowers.

Last Sunday night the place in town where the cigar editor of the News buys his cigars was closed, so he purchased one at another place, and after getting under his own lampshade to light it, he noticed from the band around it that it was made in Nacogdoches. It is a pretty good smoke, much better than many of the brands with which we have a passing acquaintance. If you can't patronize home industry every time, get as close to it as you can.—Lufkin News.

Dr. Frank Crane says: "The Mexicans, you will find when you brush aside all deceptive appearances and go to the root of the matter, are fighting for the same thing for which THE PEOPLE everywhere are fighting, in Germany, in Italy, in Portugal, in England, in China, in the United States; namely, for the right to a piece of land to work on, for the right to work at a living wage, for the right to GOVERN THEMSELVES in their own way, and for the right to shake their masters off their backs."

The name Dixie originated through the currency issued in small denominations by Dix's Bank in New Orleans. This currency became known colloquially as Dixie's, and later the term was applied to the country in which they circulated, and was afterwards used to designate the entire South.—The Hustler.

Was Oppose Dies
J. Martin Jones of Longbranch, and an ex-candidate for governor of Texas, was in the city yesterday on his way home from a trip to Nacogdoches. Mr. Jones said he was contemplating entering the race for Congressman in opposition to Hon. Martin Dies.—Timpson Times.

There is no time to be lost; some close friend of Martin Dies should hasten to inform him of what Mr. Jones is contemplating, so that he may hurry home and rally his forces for the on-coming fray.

It Mr. Jones should tully decide to get into the race the very ground would tremble under his mighty tread. Really, we fear the worst.—Lufkin News.

Mr. Jones who is a practical business man has a host of friends in Nacogdoches county who would support him in the race. We need more men like him in Congress.

Explosion on Ship Kill 7.
Norfolk, Va., May 12.—Seven persons were killed in an explosion in the engine room of the Old Dominion ship Jefferson, near Cape Henry last night. Several were injured. The ship returned to Norfolk and left the dead and injured, and then resumed her trip to New York.

Mutilation of the bodies of the seven victims, due to the terrific force of the explosion, makes identification slow. Of the injured, who were taken to local hospitals, it was said several were in a serious condition.

Hunt for Negro Slayer of Five
Paris, Texas, May 11.—Officers today were searching for Pitt McGrew, a negro, who last night shot and killed his wife and step-daughter.

Seventeen years ago, McGrew killed three negroes and was sent to the penitentiary. He was pardoned five years ago.

The negro was said to be fully armed and to have declared he would not be taken alive.

Goes to University of Texas.
Raleigh, N. C., May 11.—The present head of the department of English in the University of North Carolina, Dr. James F. Royster, who for several years has been one of the most prominent of the Southern instructors, has accepted a professorship in the University of Texas. He will head the English department.

Dr. Royster, in addition to having degrees from Lake Forest and Chicago Universities, has studied abroad.

Lander Replies to Roosevelt.
Paris, May 11.—Henry Savage Lander, the eminent explorer, whom Roosevelt challenged on his statements regarding explorations in Brazil, has issued a spirited reply to the former President of the United States.

Lander points out that he covered the same tracks in exactly the same time; that Roosevelt followed Lander's description of the country word for word and caught the same illness. He hints at plagiarism.

Congress to Have Busy Week
Washington, May 11.—With the tolls exemption debate running strong in the Senate and the House facing a record vote on the proposed constitutional amendment for Nation-wide prohibition, Congress promises to be busy this week.

House Democrats will caucus Tuesday night to determine a legislative program with adjournment early in July in view.

The tolls exemption debate probably will not be concluded this week. While there is a desire not to delay a vote, every Senator who desires has had his say.

The Senate probably will pass the agricultural appropriation bill before Saturday.

The Appropriations Committee probably will report the legislative and judicial appropriation bill and the Indian Affairs Committee the Indian appropriation bill. The Senate did not meet today, adjournment having been taken Saturday until Tuesday as a mark of respect to the American sailors and marines killed at Vera Cruz.

In answer to the question of the Texas State Board of Health, "What do you think the work was worth to your county," the county judge of Angelina county replied, "Many times the cost to the county," and one commissioner, "a thousand times more than the cost." The hookworm remains an undisturbed lord on the north side of the river.—Nacogdoches Sentinel.

It remains undisturbed for the reason that there are a great many people who do not attach any importance to the hookworm theory. In this they are wrong; we are progressing as a people along most every line, and if some of our most learned medical authorities have discovered the hookworm and the danger attached to it, why should the ordinary layman scorn the idea? The sin of unbelief is one of, if not the greatest of all.—Lufkin News.

Mail Carrier Has Narrow Escape
Garrison, Texas, May 6.—While attempting to cross a swollen stream near here Monday, W. C. Young, mail carrier, lost money order packages amounting to about \$1,100 and narrowly escaped with his life. Money orders to amount of \$85 were later recovered.

A MODEL SCHOOL CAMPUS.

An East Texas County's Contribution to Educational Progress.
Away down in the piny woods of East Texas, there is perhaps the most picturesque school campus in all the big State of Texas. This campus, located in the heart of the old and progressive little city of Nacogdoches, is both beautiful and interesting.

In 1845, the last year of the Republic of Texas, this property, now a model public school ground, was ceded by the City of Nacogdoches to the University of Nacogdoches, an institution chartered by an act of the Ninth Texas Congress. Although it was not to be a State school, Congress gave encouragement to this pioneer educational enterprise by donating four leagues of land, which gift was supplemented by land donations from such men as Thomas J. Rusk, Sam Houston and Hayden Edwards. But the patriotic dream of establishing a permanent university was not realized; and the brick building erected for the university was used from the close of the Civil War as the temporary home of the public school. This house, still in a perfect state of preservation, now stands just behind the new and magnificent public school building.

Another historic landmark is the old Stone Fort, built according to the best information in 1770, which was moved several years ago from the business section of Nacogdoches and rebuilt on the northwest corner of the campus, where it is used as a public library.

About nine years ago this fifteen-acre campus was deeded to the public schools, and in the center of the block a forty thousand dollar high school building was erected near a magnificent cluster of pine and sweetgum trees. The yards were leveled, cement walks were built, and provision was made for tennis, basketball, baseball, and similar games. And now as an ideal playground, as an example of civic pride, the large and beautiful school campus of the Nacogdoches Public School is the most unique model to be found anywhere in Texas.

The superintendent was examining the school.

"Who wrote 'Hamlet?'" he asked.

A very frightened little boy rose and said: "Please, sir I didn't."

The superintendent was afterward relating the incident to the members of the School Board.

"Haw, haw!" guffawed one. "I bet the little rascal did all the time."—Delineator.

Texas Grand Lodge K. of P.

Temple, Texas, May 11.—The forty-first annual convention of the Texas Grand Lodge, Knights of Pythias, is being held here today and will continue until Thursday.

The first business session will be held Tuesday. Grand Chancellor Tom Connally and Keeper of Records and Seals Henry Miller, with other grand officers, are attending.

Several supreme officers, including Supreme Chancellor Thomas J. Carling of Macon, Ga., and Frederick E. Wheaton, keeper of records and seals, of Minneapolis, Minn., arrived today.

Some of the towns of Texas are putting on a sudden spirit of patriotism. Even up at Nacogdoches, they raise the flag over the city hall every day, now that Texas has state troops at the border.—Port Arthur News.

The government's census estimate gives the population of four Texas cities as follows: San Antonio, 115,063; Dallas, 111,986; Fort Worth, 94,494; Houston, 98,022.

Gov. of Alabama
Birmingham, Ala., May 12.—Charles Henderson of Troy, president of the state railroad commission nominated for governor of Alabama over former Governor B. B. Comer of Birmingham, in yesterday's democratic primaries by a majority that promises to go over 11,000, when the full returns are in. There was a decrease of nearly 40,000 votes in the run-off of yesterday, as compared to the vote cast on April 6, when Comer ran in the lead of four candidates for the gubernatorial nomination, a run off being necessary because a majority was not given.

Fasts For Ten Days

Orange, Texas, May 11.—Frank J. Storey, a teacher of the city public school, completed a ten days' fasting period Saturday. The fasting was done with the view of relieving a malignant stomach trouble. During the fasting period, Mr. Storey attended to his duties as usual, but lost 11 pounds. He declared that he felt much better than usual during the time he drank only artesian water.

Youth Kills Three Who Slander Mother.

Occila, Ga., May 10.—Preston Williams, 16 years old, was placed in the county prison here tonight, charged with having shot and killed three other youths who were alleged to have made remarks derogatory to Williams' mother. The three victims were Jesse Sumner and Elbert and Robert Gay, brothers. They were killed as they were leaving the Williams home, near Occila yesterday.

Huerta May Adopt Pueblo as Stronghold

Vera Cruz, Mex., May 12.—It is told here that Huerta is preparing to make Pueblo his great stronghold, where he will make his last stand if driven out of Mexico City.

San Diego, May 7.—Lying half-submerged on beach near Mazatlan is the Federal gun boat, Morelos, disabled first by bomb dropped by a rebel aviator, believed to be Didier Masson, and then swept by a severe fire from insurgents field pieces, according to passengers who arrived here today, on the Mexican steamer Benito Juarez.

FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine as this is sold under guarantee of money back if it fails to remove freckles.

HERBINE

For the Bowels

A Cure for Chronic Constipation, Torpid Liver and Irregular Bowel Movements.

Constipation is the most common disorder of the bowels. It affects both sexes and all ages but is more prevalent among women because their duties in the household require less physical exercise than the occupations of men; therefore women suffer most from its baneful effect.

A constipated person is an easy victim when exposed to any serious disease—Pneumonia, Typhoid Fever, Malaria, Rheumatism, Small Pox, Yellow Fever and Bright's Disease gather their annual harvest of death among those who are habitually constipated. Even though they escape these diseases, such persons are always ailing more or less. They have headaches, bad digestion, dizziness, vertigo (blind staggers), sallow complexion, flatulence, loss of strength, and no energy at all. Herbine has a most admirable effect in the bowels; it is cooling, purifying and regulating. It puts a prompt check on biliousness, wind in the bowels, nervousness, heartburn, bad breath, low spirits, drowsiness in the daytime and nervous wakefulness at night.

A Stubborn Cough is Wearing and Risky.

Letting a stubborn cough "hang on" in the spring is risky. Foly's Honey & Tar Compound heals raw inflamed surfaces in the throat and bronchial tubes—makes sore, weak spots sound and whole—stops stubborn, tearing coughs. Refuse substitutes. Swift Bros. & Smith.

It is reported that the Angelina River is higher than it has been for many years and great damage is being done to crops and farms in the adjacent lands.

Most Children's Diseases Start with a Cold

Restlessness feverishness an inflamed throat and spasmodic cough maybe whooping cough is starting in. Give Foley's Honey and Tar promptly. It helps the children so very much, and Mrs. Shipp, Raymondville, Mo., says: "I got fine results from it and it is a great medicine for whooping cough." Swift Bros. Smith.

Child Has Narrow Escape From Lightning

Thursday afternoon the little children of Sam Sitton were playing in a swing attached to a large gum tree in the yard and when the thunder began to roll and the lightning began to flash they ran to the house but just a the little two year old boy who was in the rear was going up the step a bolt of lightning struck the tree where they had been playing. The little boy was knocked unconscious and rolled off on the ground. He was carried at once to Dr. Tucker's Sanitarium across the street where he received immediate attention and soon recovered consciousness. His injuries do not appear to be serious though his eyes were considerably burned. The other children escaped injury.

FIRM FOUNDATION

Nothing Can Undermine It in Nacogdoches.

People are sometimes slow to recognize true merit, and they cannot be blamed for so many have been humbugged in the past. The experience of hundreds of Nacogdoches residents, expressed publicly through newspapers and other sources, places Doan's Kidney Pills on a firm foundation here.

Mrs. E. Astoura, 242 Taylor Ave., Nacogdoches, Texas, says: "Doan's Kidney Pills have been used in my home, being procured at Mast Bros. & Smith's Drug Store, (now Swift Bros. & Smith's Drug Store), for a dull pain in the small of the back, lameness across the loins and irregular action of the kidneys. They have given great satisfaction. I have seen what Doan's Kidney Pills will do and recommend them to anyone suffering from kidney trouble."

Rebels Kill American

Vera Cruz, May 10.—Refugees arriving here from Tampico stated that a man named Burwell, an American, was killed by rebels near Tampico. Mr. Burwell was said to have been a nephew of Secretary of Navy Daniels.

C. M. SHANNON.

Publisher Richmond "Coaster" Waco, Texas, tries that Grigby's LIV-VER-LAX cured him. Read his Statement.

Most people of sedentary occupation such as Editors, Bookkeepers, office employees, stenographers and others who spend their lives indoors are more subject to the ravages of malaria than those who take a large amount of exercise out of doors.

Mr. Shannon devotes much of his time to writing and was a great sufferer from Bilious headaches until he took LIV-VER-LAX.

On his own statement, this renowned remedy cured him, just as surely as it will cure you of Constipation or other malarial symptoms. These symptoms are the signals ahead of serious complications if not eliminated.

There is no compromise with malaria. You must get it or it will get you. The ounce of prevention in the form of LIV-VER-LAX may save even your life from malaria, from which nearly every one in this climate suffers in a greater or less degree, develops rapidly when it once gets a hold on your system.

LIV-VER-LAX is sold by all druggists.

Closing Of Chireno School

The Chireno school closed last Friday after a most successful year's work under the direction of Superintendent Geo. Adams who was most ably assisted by Miss Allie Burns and Mrs. Mamie Park.

A splendid program was rendered by the primary pupils on Friday night.

The grammar grade students rendered a most interesting program on Saturday night.

The baccalaureate sermon was preached Sunday at 11 o'clock by Dr. Thompson of Timpson.

Monday was demonstration day and much interest was manifested by visitors and patrons in the various examples of the student's work during the school year.

The graduating exercises were rendered Monday night. Diplomas were presented by Supt. W. B. Hargis to Misses Thelma Seale and Bernice Menzies.

The literary address was delivered by Supt. R. F. Davis of Nacogdoches, after which, on behalf of teachers and students, W. B. Hargis presented Supt. Geo. Adams with a gold watch as a mark of their respect and appreciation for his good services.

The people of Chireno are exceedingly fortunate in having the services of such a gentleman as Prof. Adams at the head of their schools and are equally fortunate in having Miss Burns and Mrs. Park as assistants. Mr. Adams and Mrs. Park have been teaching in this school for the past three years and better teachers cannot be found any where in the country for their respective places. All the faculty has been re-elected for the ensuing year, while Mr. Adams has been elected as superintendent for the next two years.

Elwood N. Seale, a staunch Democrat of Melrose who uses no prefix to his Democratic name, stopped at the Sentinel office Wednesday long enough to show his appreciation of his home paper and to say incidentally that Melrose is still overwhelmingly Democratic and bids fair to roll up a tremendous majority for Ferguson in the July primaries—Nacogdoches Sentinel.

Old Melrose has been Democratic since the morning stars came together. The editor of this paper was born in the red hills just north of this dear little old town. Some of the best people God ever made live there now and have lived there many, many long years. There are many old-time localities throughout east Texas that have always been Democratic, will always be Democratic.—Brenham Banner-Press.

Rev. Jno. N. Wilson of Melrose dropped in Monday for a short time and left with us an excellent article on "Temperance," which contains the best argument for prohibition that has ever come to our notice. The local optionist and the statewider seek to remedy the evil of intemperance, but each pursues a slightly different route.

Patent Fire Escape Fatal

Dallas, Texas, May 7.—"I have a new patent fire escape and I would like to demonstrate here," said W. D. Tudor of Pueblo, Colo., today to Fire Chief M. Gee. The chief gave permission.

Tudor attached the device to the fire station flagpole, 75 feet above the ground, and leaped toward earth, a wire attached to his belt. The spring in the "safty" device holding the wire broke and Tudor dived head first on the pavement, dying instantly. He was not the inventor, but was a salesman, and had never tried the device before it is said.

Beautiful Hair—A Clean, Cool Scalp

Use Parisian Sage. It Makes the Hair Fully and Abundant.
It is needless for you to have hair that is anything short of perfect. If it is falling out, losing color, splitting, or if the scalp burns and itches, immediately get from Stripling Haselwood & Co. or any drug counter a 50-cent bottle of Parisian Sage—use it frequently—the first application removes dandruff, invigorates the scalp, and beautifies the hair until it is gloriously radiant.

Parisian Sage supplies hair needs—is perfectly harmless. It contains the exact elements required to make the hair soft, wavy, glossy and to make it grow thick and beautiful.

You will surely like Parisian Sage. It is one of the best and most delightful hair tonics known.

S. M. King Returns From California

S. M. King returned Thursday morning after a two weeks trip over several of the Western States.

He went from here to Phoenix, Arizona, where he was looking after the interest of Dr. Wiggins of Shelby county who is charged with the killing of young Booth several weeks ago. He went from there to the Imperial Valley in California where he was looking over some land matters for T. J. Lloyd of this city.

Leaving there he traveled a distance of 188 miles over the Sierra Madra mountains in an auto to San Diego and from there in a steamer to Los Angeles.

Steve says this is the most interesting trip he has ever taken and is loud in his praise of Southern California with its delightful climate and unsurpassed richness of soil.

Reports from Cushing are to the effect that nearly every bridge in that commissioner's precinct was washed away by the recent rains. In many instances entire farms are practically ruined.

Moves Out State Office

Austin, Tex., May 6.—Lieut. Gov. Will H. Mayes has received and cashed his first warrant as dean of the school of journalism at the University of Texas. This is regarded as having automatically relieved him as Lieutenant Governor, because the State Constitution prohibits one person holding two State positions of emolument.

With the acceptance of the university salary and the ipso facto forfeiture of the office of Lieutenant Governor by Will H. Mayes it is regarded that President Pro Tem, Vincent A. Collins, Senator from Beaumont, becomes presiding officer of the Senate, and he will preside in the event a special session is called after the July primaries.

E. E. Thomas from Mexico

E. E. Thomas, who lived for many years in Nacogdoches county but for the past several years has traveled extensively in all parts of the United States and Mexico, was an appreciated and interesting caller at the Sentinel office this morning. For the past nine months Mr. Thomas has been located at Tampico Mexico where he has been associated with the National Oil Company. He was one of the 1965 employees of the various oil companies of Tampico who were sent out of Mexico last week on account of the complicated condition there.

Mr. Thomas is quite a fluent talker and an interesting writer.

He will return to Galveston next week where he will embark for Tampico and promises to write a series of articles for the Sentinel describing conditions as they actually are in Mexico.

Business Gossip.

Burion Greer who died at his home near Appleby Sunday was buried with Masonic honors at North Church cemetery Monday afternoon.

Burion was a member of one of the oldest and most respected families in the county. He was known far and wide as a young man of exemplary habits and a matchless character. His friends were many and enemies were few. He had those characteristics that are only found in men of true worth.

His death which came in the flower of his manhood, is not only a loss to his immediate family but is a loss to the entire community.

Little Girl

Little girl you look so small, Don't you wear no clothes at all?

Don't you wear no shimmy-shirt,

Don't you wear no petty-skirt—

Just your corset and your hose,

Are those all of your under-clothes?

Little girl, when on the street You appear to be all feet.

With your dress so very tight You surely are an awful sight,

Nothing on to keep you warm, Crazy just to show your form.

Little girl, you won't live long,

Just because you dress all wrong.

Can't you wear more under-clothes

Than your corset and your hose?

After while I do believe You will dress like Mother Eve.
