The first Presbyterian church has recently been made attractive with some fresh paint and new paper. This work is the result of the diligent body of women known as the Ladies Aid Society of that church. The

inside is finished in tones of soft brown and mahogany, giving the interior a cool, comfortable inviting atmosphere. The outside is in colonial straw, almost white. These ladies deserve much praise for this improvement.

### MASS MEETING AT COURTHOUSE.

Business Men and Farmers are Called to Meet Saturday, August 22nd, 1914, at 2 o'clock.

Pursuant to a call issued by the former members of the executive committee of the Texas Cotton Association a few days ago the following named firms, business men and farmers request that a meeting be held at the courthouse on next Saturday, August 22nd, 1914, at 2 o'clock, to take action on said call.

The meeting will be held for the purpose of selecting delegates from Nacogdoches county to the Cotton Convention to be held at Dallas, Monday, August 24th, 1914, at 10 a. m., to which farmers, merchants, bankers, ginners, oil mill men and spinners are invited to come and take part and seek some way to give immediate relief from the present conditions.

The business men and farmers throughout the state have no way at hand for financing the cotton crop of 1914 in the

### To The People of Nacogdoches County And Adjoining Counties

I am receiving today the largest and best car of seed oats ever brought to this town, as the people know I have always made it a point to try for good seed oats. This year I have had a hard pull as they were most all stained from wet weather during harvesting time. These are absolutely bright Texas Red Rust Proof Oats. Come in and see for your self when in town.

Yours to please,  
G. H. King.

From President Wilson

The effect of the war upon the United States will depend upon what American citizens say and do. Every man who really loves America will act and speak in the true spirit of neutrality, which is the spirit of impartiality and fairness and friendliness to all concerned. The spirit of the Nation in this critical matter will be determined largely by what individuals and society and those gathered in public meeting do and say, upon what newspapers and magazines contain; upon what ministers utter in their pulpits, and men proclaim as their opinions on the street.

There is to be a socialist encampment beginning today at the Loco bridge on the Durst Lake road to last all the week. There is to be a lot of speech making and a general good time. Everybody is invited. The place is ten and a half miles westward from town.

### Special Session of Legislature Called.

Following is the chief portion of the call for a special session of the Texas legislature, issued by Gov. O. B. Colquitt, Aug. 15, 1914.

"Now, therefore, being desirous in every way possible to aid and assist the producer of agricultural products, and provide facilities for storing and holding the products of the farm; the extraordinary conditions above referred to justify the governor to convene the legislature in extra session, and I do hereby call the same to convene at the capitol in the city of Austin, beginning at 10 o'clock a.m. Monday, Aug. 24, 1914, for the following purposes, to-wit:

"1. The enactment of an adequate law providing for a system of public warehouses and for the enactment of an adequate law providing for a system of bonded warehouses, in which the agricultural products of this state may be stored and safely kept under public guarantee, or under bond.

"2. To consider and act upon such other matters as may be presented by the governor, pursuant of section 40, article 3, of the constitution of Texas.

Dr. W. S. Fall passed through our city this morning on a trip to Chireno, the place where he was born and raised and lived most of his life. He has been living in the northern part of Rusk county for a number of years past, practicing medicine.

GILLES M. HALTOM, Manager.

Letter From C. D. Mims

Merkel, Texas, August 13, 1914.

Editor Sentinel:

Nacogdoches, Texas.

Dear Sir: I learn through private correspondence from your county that the crop conditions there are not good, and that the corn crop is practically a failure, for all of which I am sorry. With us in Northwest Texas crop conditions are much better than for more than seven years. Already our farmers have matured (and much of it gathered and housed) enough milo maize, federita and sorghum to run them from two to three years, and the second crop is now coming on in many instances. Maize and federita averaged about 30,000 pounds to the acre. Federita is a new crop with us out here. It is akin to maize, the difference being that the grain is white, heads longer, and that it matures in less time than maize and requires less rainfall to make and mature it. Our cotton crop could not be in better condition, it seems, and unless the constant rains that have been falling here for the past six days, and is still falling, should bring the boll-worm, will average at least half a bale to the acre, and there will be marketed at Merkel this fall and winter not less than 20,000 bales. Unless we can get help from other parts of the state a large part of the cotton cannot be gathered.

Altogether Northwest Texas is a great county, especially for joint farming and stock raising, and but for the fact that we are separated by great distance from our kindred and old friends contentment would dwell with us.

Yours truly,  
C. D. Mims

Two nine year old news-boys of San Antonio were arrested by detectives for robbing business houses. They entered through rear windows and transoms. Boys are so unthoughted. Their parents should try to guide them. For instance here at home. Who can it be that goes into our post office boxes? Detectives may land them and surprise their family.

B. F. McBee, a well known and well to do farmer of the Trinity church vicinity, and an eternal friend of Sentinel and the editor, came into the office this morning and paralyzed the gang with two of the finest watermelons in the land. Long life and good luck to Dock McBee.—Nacogdoches Sentinel.

For the sake of the future generations, will you kindly inform us wheter you cut those melons the long way or the shortway?—Temple Telegram.

After all hands had made a careful estimate we cut those melons so as to get the most out of them.

The Sentinel is in receipt of the first issue of The Fatherland, a weekly, price 5cts. devoted to fair play for Germany and Austria published by the International Monthly Inc. 715 Broadway N. Y. It is quite an attractive little magazine, and worthy of a liberal patronage.

In the preamble it says, "It is the purpose of this publication: First to place the German side of the unhappy quarrel fairly and squarely before the American people. Second, to review week by week the actual events of the war. Third, to review week by week the attitude of the American Press, and to combat the prejudices etc. and all without pay or profit.

Nacogdoches, Texas, Aug. 13, 1914.

To The Commissioners and Road-over-seers:

There are many complaints coming to my office from all parts of the county regarding the conditions generally of the roads of the county. It strikes me that now is the time to work the roads, as most every one can now spare a day or two from his farm or business, and later on every body will be head-over-heels with work, and why not think of this as it really exists.

There are many roads in this county that have not had a shovel of dirt or a furrow ploughed on them this year, and when you think of this it looks very much like some one needs a jacking-up, doesn't it to you? When you think of this, it is certain that the Commissioner or road-over-seer, is not looking after the roads of their respective road precincts, as is contemplated by the law.

We have built in this county in the last few years miles and miles of good roads at a great cost and it is a shame that these roads should be neglected and go down as they are now doing and have been doing for the last year, for the want of only a little attention by some one in authority. For instance, you take the graded roads leading from this place and after they are graded and left in good shape, a small boy could keep them up, if started to work on them when work is first needed, and why stand idly by and see these roads that have cost this county up into the thousands of dollars go to waste for only a little attention.

Then another thing that is very conspicuous by their presence is the bridges of the county. You can start out of this town and count every bridge, and it is safe to say that 7 out of every 10 have holes in them, ranging from the size of a horse's hoof to a barrel. And now lets consider this in the light that it really is, say that some man's horse falls in these holes and injures the horse so that it must be killed; then the commissioner or road over-seer has by their negligence committed an act that ought to be recoverable in law, but there is no remedy, and this being so should they not exercise more diligence than they would do ordinarily in these cases. The road-over-seers have the right to get the materials and patch these bridges and it is their imperative duty to do so, and let's wake up and do it.

The other thing that is being overlooked by the men in charge of the roads is the leaving of dead trees within reach of the road. You can start out of Nacogdoches and go 10 miles and you can count from one to 9 dead trees in killing distance of the road were a person to come along the road in time of a wind. Then another thing that is certainly true is for a tree to fall in the road, and it is a sure thing that it will not be moved until it rots enough to break, being I guess too much work for someone to

cut or saw it. There should never be left in a public road any tree for a longer time than the over-seer has had an opportunity to know that it is in the road and then he should summoned some one to remove the same or else go himself and do it. There are many other things that I could call your attention to, but I deem it unnecessary, as I am sure that your neglect in these instances is an act of omission and not one of willful negligence, and the above is only called to your attention that you may avail yourselves of the benefit of the reports that I am constantly getting, but I believe a hint to the wise is sufficient, and let's wake up and do our duty or else come in and say to the Commissioners Court, "I want to quit."

There are heavy penalties set out in the statutes for violations of the road laws, and I am going to ask every citizen that is knowing to some act to notify me, and I shall take the same up with the proper parties and see that the same is corrected at once.

I called attention to this last fall and the over-seers immediately got busy and worked the roads and let's do it again. Assuring you that this is written in a kindly spirit, with the good of this county, generally, in view, I am, yours truly,

Moss Adams,  
County Attorney.

### Stitches in Time

Had Father Noah been quite wise he would have killed the pair of flies that roosted in the ark; he let that pregnant duty slide while he and Shem and Japhet tried to navigate their bark. Two flies were all there were all told! And Noah might have knocked them cold, with one good husky swat; he had the chance—he let it slip while he was mooning round his ship—the knowledge makes me hot! And ever since the sons of men have toiled and wrought and toiled again, to kill the measly flies; the more we kill the more we find, the more we knock the blamed things blind the more their legions rise. We're all, like Noah, more or less responsible for the distress that makes all hope seem vague; we see some ugly things alive and let them live and grow and thrive until they are a plague. We calmly view the noxious weeds and habits bad and evil deeds, which breed so beastly fast! We let them grow and multiply as Father Noah did the fly and kick ourselves at last. "A stitch in time," the poet said (he had a long and shapely head), "will save you nine, by gum." And nothing truer will you find in all the years that lie behind, or all the years to come.—Walt Mason.

Go to road improvements with the full realization that it is for your own personal benefit and profit, not merely a public duty.

How To Give Quinine To Children.  
FERRILINE is the trade-mark name given to an improved Quinine. It is a Tasteless Syrup, pleasant to take, and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not nauseate nor cause nervousness nor ringing in the head. Try it the next time you need Quinine for any purpose. Ask for Ferriline original package. The name FERRILINE is blown in bottle. 25 cents.

### Call To Help King Cotton

Business men and farmers have no clear means at hand for financing the cotton crop of 1914 in the face of this situation. There has been no concert of action in the cotton growing countries of Texas and cotton is seeking a market at any price. In many cases no offers are made for cotton seed. In the face of these conditions county mass meetings are hereby called to be held next week to take positive action in saving Texas from enormous damage. In 1914 we faced bankrupt prices for our cotton, and the entire South rose up, Texas leading, and with the support and co-operation of all classes left the price from six cents to ten cents and better in the face of strong opposition. Credit was extended where needed and deserved and that entire cotton crop was saved. If Texas will move now whole South will follow the lead of her four million bales.

Congress has provided for an addition of \$60,000,000 in currency to be used in Texas for just such emergencies, but we need to know how to use it and desire to secure this help before the market for lent and seed breaks down. Under natural trade conditions 75 per cent of the Texas crop is exported.

Knowing how the fight for better cotton prices was won in 1904-5 and realizing the urgent need for action we, as former members of the executive committee of the Texas Cotton Association, we call a Cotton Convention to be held at Dallas Monday, August 24, at ten a. m., to which farmers, merchants, bankers, ginners, oil mill men and spinners are invited, to consider ways and means for relief. County mass meetings should be held at every court house on Saturday, August 22, at one p. m. and co-operation with other counties considered, and select at least 12 delegates to the Dallas convention. At New Orleans on August 27 and 28 there will be a meeting of delegates from every cotton state. The time for action is short, the necessity is upon us, and we must not hesitate. All papers friendly to cotton are requested to publish this call.

J. C. Hickey, Anderson.  
Jas. Garrity, Corsicana.  
J. H. Connell, Dallas.

### The Nacogdoches Fair

The fair program and premium list of the Nacogdoches fair is out. This fair opens on October the 14th and runs until the 17th. Lufkin has promised to attend this event, and surely our citizens will not forget the promise. A day has been set aside for the Lufkin delegation, and the following is taken from the Nacogdoches Sentinel of yesterday concerning the coming event. Read it and be prepared to go:

"The second day has been styled; 'Lufkin and Angelina County Day.' Those in charge of the fair are making every effort to make this the biggest day of the fair. Luf-

kin and Angelina county have signified their intention of participating in sufficient numbers to overshadow the attendance at any other day. It is a well known fact that our sister city never enters into a proposition in a spirit of half-heartedness and the fact that Angelina county will not have a fair this year makes it sure that they will come near making good the claim that the second day will be the banner day in attendance.

### Educational

Austin, Texas, Aug. 12.—The Hogg Organization recently employed W. A. Trenckman, editor of Das Wochenblatt, as Corresponding Secretary, to make a study of higher institutions of learning in Iowa, Kansas, Nebraska, Minnesota, Michigan, Wisconsin, Illinois, Ohio and Missouri. The results of Mr. Trenckman's studies will be furnished the Texas press for publication, and promise a series of articles of much interest to Texas readers. Especial emphasis will be laid in these articles on conditions in the states visited which bear most directly on the educational situation in Texas.

Mr. Trenckman is a graduate of the A. & M. College of Texas served that institution as chairman of its board of regents for years; was a member of the Texas legislature for several terms, and has been a life-long student of institutions of higher education in Texas.

The first of Mr. Trenckman's series of articles will appear during latter part of August. He is now in Kansas pursuing investigations.

### Fire Prevention.

By S. W. English

Fire insurance is but a demonstration of the truth that every man is his brother's keeper.

Fire insurance rates are not haphazard guesses. They do not grow by chance. They are not increased through design. They are not lowered without justification.

Every fire is a tax upon every dollars worth of property. It is a mistake to think fire insurance companies pay the losses, just like it is a mistake to think the state treasurer pays state warrants. Fire insurance companies are but disbursing agencies, just like the state treasurer is the disbursing officer of Texas.

Every time you hear a fire whistle blow, or the fire bell ring, or see the fire wagon rushing by, it means that you will have to meet another levy to pay your part of the tax the fire lays upon you.

The fact this tax is an indirect one may not cause you to feel keenly its payment. But you pay it just the same. And it is this anaesthetic application of indirection that permits about 90 per cent of the fires today to take place.

Eternal vigilance will reduce this enormous tax paid yearly by the people of Texas.

## HEALTH PAST FIFTY

Careful diet is of utmost importance to men and women past fifty years of age; it keeps up their strength, and the oil-food in Scott's Emulsion is a nourishing food, a curative medicine and a sustaining tonic to regulate the functions.

It contains the medicinal fats of pure cod liver oil and science proves that they furnish twice as much energy as other foods—then too, it creates pure blood, sharpens the appetite, relieves rheumatism, strengthens the body and alleviates the ailments due to declining years.

Scott's is free from wines, alcohol or harmful drugs. Beware of substitutes.

Dr. O. H. Judkins, who is officially in charge of the work of treating hook worm patients, says that at this point it is proving a great success as to public patronage. Last Saturday was opening day and he had 250 applicants and made over thirty examinations and found sixteen infections. He is due in Garrison today and back here again next Saturday, at the court house.

### Keep your Liver Active During the Summer Months—Foley Cathartic Tablets for Sluggish Liver and Constipation

It does beat all how quickly Foley Cathartic Tablets live your liver and overcome constipation. Ney Oldham, Wimberley, Texas, says: "Foley Cathartic Tablets are the best laxative I ever used. They take the place of calomel." Wholesome, soothing and cleansing. For griping. A comfort to stout persons. Swift Bro's & Smith. eod

A vote is being taken today by the telegraphers and agents of the S. P. railroad as to whether or not they favor a strike. If the strike should carry it will cause trouble and tribulation inconceivable.

W. T. Greene, Hopkinton, N. H., writes the following letter, which will interest every one who has kidney trouble. "For over a year Mrs. Greene had been afflicted with a very stubborn kidney trouble. Foley Kidney Pills done more to complete her recovery than any medicine she has taken and I feel it my duty to recommend them." Swift Bro's & Smith. eod

Mr. L. R. Eddings and Miss Stella Walker were married yesterday Aug. 16, 1914 at 4 p. m. at the home of the brides parents in the Harmony neighborhood about seven miles southwest of town. J. F. Perritte officiated. No other particulars learned.

### "Stay-at-Home" Sufferers of Hay Fever and Asthma—Get a Bottle of Foley's Honey and Tar Compound:

Restful sleep, relief and comfort from choking, gasping asthma and tormenting hay fever for those who take Foley's Honey and Tar. It spreads a healing soothing coating as it glides down a raw tickling throat, and stops irritating coughs and summer colds. Swift Bro's & Smith.

Tell your neighbors to spread the word that next Saturday at the court house the hookworm disease will be treated and talked free of charge—there is a reason.

### CITROLAX! CITROLAX! CITROLAX!

It's a laxative, of course—and the nicest hot weather drink you ever tasted. Flushes thoroughly, and pleasantly, too. F. C. Crysler, Syracuse, N. Y., says: "Have used laxative for 15 years but this Citrolax has got everything else beat a mile." Try it. Swift Bro's & Smith. eod

### Democratic Executive Committee Meeting

The democratic executive committee met Saturday at 2:30 p. m. for the purpose of canvassing the returns of the second primary election.

The meeting was presided over by Chairman Eugene H. Blount and the following committee men were present: W. U. Perkins, John N. Gilbert, Fulton Fuller, J. Y. Baugh, H. M. Carter and R. B. Walthall.

The official returns follow:

The chairman then read to the committee a petition signed by twenty one citizens of Garrison setting forth their belief that trawd had been practiced in some of the precincts in the sheriff's race and risking that the committee open the ballot boxes and recount the votes.

The chairman held that the committee had no authority to open the boxes except in case of procedure as set forth in the election laws of the State and this view being un-animously concurred in by the committee, the matter was passed. No further business appearing the meeting adjourned.

W. M. Halfacre, Dexter, Mo., bought Foley's Kidney Pills for Mrs. Halfacre, who was down on her back with kidneys so sore he had to help her move. He says: "She would cry with pain across her kidneys, but after she took the second bottle of Foley Kidney Pills, she was well and strong as ever." Swift Bro's & Smith. eod

Father never knows enough to take a screwdriver and fix anything around the house but he always knows how to take a table knife and entice change out of the kid's bank.

Don't endure the needless pain and torment of rheumatism, aggravated as it is by the hot weather. W. T. Hutehens, Nicholson, Ga., says: "I suffered the aches and pains of rheumatism, swollen feet, irregular painful bladder action, but, Foley Kidney Pills fixed me up quickly." Foley's are the best. Swift Bro's & Smith. eod

### Mrs. Emily Amanda Baker Dead.

Once more the community is saddened over the death of a most lovable lady, Mrs. Emily Amanda Baker, wife of Wm. R. Baker of this city. She died Saturday Aug. 15, 1914, at 9 p. m. at the residence of Henry Millard, whose wife is her daughter. Mrs. Baker was born Aug. 25, 1849, in Mississippi and resided in this county nearly all of her life.

Surviving her are her husband and three daughters, viz: Mrs. Greer Orton, Mrs. Henry Millard, both residing here, and Mrs. Robertson of Paris Texas. Also one son, William I. Baker, who lives here, and many other relatives. Her parents were prominent pioneers of Texas, Irvin Wade and wife, who lived and died near Douglass.

Mrs. Baker's funeral was conducted from the home of Henry Millard in this city by Rev. H. B. Pender of Jacksonville, Texas. She was buried here Sunday afternoon in Oak Grove cemetery in the presence of a large assembly of sorrowing relatives and friends, who in spite of a falling rain followed her to her grave.

### Summer Constipation Dangerous

Constipation in Summer-time is more dangerous than in the fall, winter or spring. The food you eat is often contaminated and is more likely to ferment in your stomach. Then you are apt to drink much cold water during the hot weather, thus injuring your stomach. Colic, Fever, Ptomaine Poisoning and other ills are natural results. Po-Do-Lax will keep you well, as it increases the Bile, the natural laxative, which rids the bowels of the congested poisonous waste. Po-Do-Lax will make you feel better Pleasant and effective. Take a dose to-night. 50c. at your Druggist. dw

Mr. D. White of Jacksonville and Miss Verna D. Collier of this city were united in marriage at 2 p. m. Sunday in the home of the bride's sister Mrs. Ellis Astouria by Rev. S. S. McKenney. They left immediately for their home in Jacksonville.

### Infection and Insect Bites Dangerous

Mosquitoes, flies and other insects, which breed quickly in garbage pails, ponds of stagnant water, barns, musty places, etc., are carriers of disease. Every time they bite you, they inject poison into your system from which some dread disease may result. Get a bottle of Sloan's Liment. It is antiseptic and a few drops will neutralize the infection caused by insect bites or rusty nails. Sloan's Liment disinfects Cuts, Bruises and Sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25c. at your Druggist. dw

A man notices it, but it never occurs to woman that there are no such animals as the dames in the pictures in the up-to-date magazines.

### Hookworm Campaign Looks Like A Success

Dr. O. H. Judkins, in charge of the State and County Hookworm Campaign in Nacogdoches County reports that the response on the part of the public is every thing that could be desired.

At Woden last Wednesday 150 applicants for examination called at the dispensary, at Nacogdoches last Saturday there was a constant stream of people passing through the office most all the day, and more than 250 applicants for examination were accommodated.

The percentage of infection is running high and those in charge feel that the campaign is sure to be a complete success from every standpoint.

The physicians of Nacogdoches are lending every encouragement possible and it is largely due to their efforts that so many people are visiting the dispensary at the court house.

### Summer Coughs Are Dangerous.

Summer colds are dangerous. They indicate low vitality and often lead to serious Throat and Lung Troubles, including Consumption. Dr. King's New Discovery will relieve the cough or cold promptly and prevent complications. It is soothing and antiseptic and makes you feel better at once. To delay is dangerous—get a bottle of Dr. King's New Discovery at once. Money back if not satisfied. 50c. and \$1.00 bottles at your Druggist. dw

The hookworm work is not as well understood by the average people as it should be. It is free to all. The state and the county pay the expenses to demonstrate the importance of the matter. The \$800 that the county is to pay was ordered by the Commissioners to be paid in instalments and is not all available—County physician Dr. T. J. Blackwell advanced \$200 to meet the emergency out of his own pocket. Pass the word around among the common people.

### Good Reason for His Enthusiasm.

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by all dealers. dw

The Mexican Constitutionalist army entered the city of Mexico peacefully last Saturday. The federals had all vacated.

### Costly Treatment

"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Whitlow Ark. "I went to a St. Louis hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by all dealers. dw

### Texas Farmers Should Demand Texas Made Plows.

The most convincing argument for patronizing home industries and keeping Texas money in Texas that has appeared in public prints recently is a press dispatch from Indiana. Texas papers last week carried the announcement that the leading agricultural implement factories of that State had doubled their working force and were employing night and day shifts filling orders placed by Texas farmers.

The farmers of Texas spend more money for agricultural implements than those of any other state and only a small per cent goes to Texas factories. A total of \$10,000,000 was spent by Texas farmers last year for plows, and less than a half million dollars went to Texas manufacturers.

There are four farm implement factories in this state and the price and quality of their product compares favorably with those manufactured anywhere in the nation. Why not a "Back To The Soil With Home Industry Patronage" movement? Let every Texas farmer demand Texas-made plows and we will increase the number of smoke stacks in Texas instead of filling dinner pails in some far away state.

### Constipation Causes Sickness.

Don't permit yourself to become constipated, as your system immediately begins to absorb poison from the back-edup waste matter. Use Dr. King's New Life Pills and keep well. There is no better safeguard against illness. Just take one dose to-night. 25c. at your Druggist. dw

Will Parker who will be remembered by old timers here, is now away over in Roumania, prospecting for oil. That is in Europe where something else is going on.

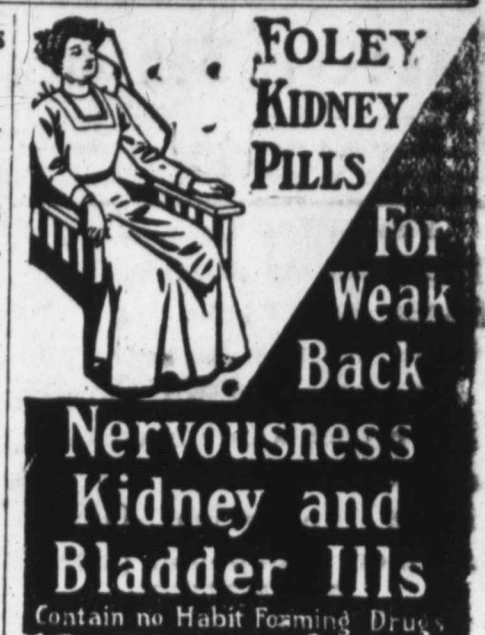

### How The Trouble Starts.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Tablets, keep your bowels regular and you will avoid these diseases. For sale by all dealers. dw

Senator John Sharp Williams expressed the sentiment of many thousands when he said: "I think if there were a law that whenever war is declared every member of the legislative assembly declaring it must go to the front in the first rank, there would be less war than we have now, and besides that, we would get a lot of fools killed, which would be a great advantage to the civilized world."—Waco News.

### Remarkable Cure for Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by all dealers. dw

### War At A Glance

England—The war office reviewing the war situation in France and Belgium, says that a line of frontier battle extends for 250 miles and that allies are holding their positions against all German attacks. Naval battles are believed certain very soon in the Adriatic and the North Sea. War declared on Austria.

France—Absolute censorship enforced, preventing details of fighting or location being learned, although it is admitted that the German center and left flank operating in Belgium and Luxembourg number 400,000 men, all branches, and are steadily pressing forward.

Germany—Communion interrupted. Delayed messages received merely reiterate that the German situation is satisfactory and that the campaign is proceeding exactly as originally planned.

Austria—No details of fighting announced by War Office, but it is denied that St. Petersburg claims of sweeping victories resulting in the annihilation of Austrian fleet remains in the Adriatic, cleared for action. England's for declaration of war, blaming Austria for forcing hostilities by sending her army to aid the Kaiser, has been received.

Belgium—The Belgium army has assumed the offensive against the Germans at several points, and claims to have defeated the Kaiser's cavalry attack directed toward Waterloo and Brussels. Formal charges of atrocities by Germans in violation of international agreement presented to neutral Powers.

Russia—Announced that German infantry and artillery, trying to reoccupy Eydtkuhnen, have been repulsed with heavy losses. Decisive battle impending between Russians and Austrians in Galicia.

### Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by all dealers. dw

HALTON & HALTON, Proprietors.  
GILBERT M. HALTON, Manager.

You would be amazed to know how the prices of medicines have gone up. So much foreign physics and chemicals, English, German and French were imports that are now cut out by the war is the explanation. Opiates are more than double price.

The Sentinel desire to give all of the news in every town and corner in the county, and as much more as practicable. It has a number of friendly reporters or correspondents at suitable points. But it needs and solicits more of them. It cannot use long winded matter in many instances. It takes in all such as is of general interest, but it draws the line on wind jammers. It wants facts not fancies.

Newspapers like the Sentinel are expected by many people to lambast evil doers, and to preach doctrines political, moral and religious. In a general way such a course would do more harm than good, by stirring up wrangles, controversies and rows. The hit dog howls, and the kicked dog bites. Then other dogs jump in and draw others and then troubles are on in great shape.

The war in Europe interrupts mercantile intercourse with the United States and thus diverts our mind to other sources. The Panama Canal is compensatory, that is to say it supplies much of this shortage in facilities of commerce, moreover it creates new opportunities. For instance, Bolivia in South America produces most of the metal called tin, and it has heretofore been shipped to Europe, and there manufactured and sold to us. But now we can go to it direct, leaving Europe out of the transaction that is, we can go get the metal and manufacture the goods at home, and sell to Europe.

The Sentinel has been requested to publish various defenses of the German Kaiser as to his being unjustly assailed by American press as an autocrat and a "war lory." Mr. John Schmidt, a highly respected and leading citizen of our city has sent the Sentinel a lengthy clipping from the Staats Zeitung of N. Y. stating the better side of it. Tee Kaiser is govern by law in closer limit than is President Wilson. In time of war he is officially the head of the army. His official title is the German Kaiser, but as he is King of Prussia one of the confederation of German Kingdoms, all being equal and the Kaisers being their lawful leader or president. He cannot declare war except in certain emergencies. A short time ago he was lauded as the "Prince of peace". He is yet the same but he is misrepresented and misunderstood by the Americans and misrepresented by many especially as to his causing the war and losing to the French, as well as to what is going on generally. There are always two sides, and often many sides a question.

## Toot Toot

Nacogdoches Sentinel: A strenuous move is on foot to organize a brass band for Nacogdoches. We are in a position to know that we can get a good leader. A good brass band is an attractive feature of any town. It is a drawing card in many ways. It makes life and adds pleasure. It seems like something doing and not a dead town.

Go to it—go toot. A brass band Nacogdoches ought to have, and the band ought to give concerts on the public square not less frequently than twice a week. A good band is always a center of attraction, and attractions are desirable. Let the city lend its financial assistance to the band. Let the people lend their moral encouragement to the band. There is refinement, education, solace, pride, comfort and good cheer in music, and a brass band—a good brass band—is a musical organization. Possibly there are some brass bands whose output is not exactly enrapturing, but that is not the sort we are urging on Nacogdoches. A musical people are a happy and a civilized people. As a people we in America are probably spending too much money, proportionately on head learning and to little proportionately, on heart learning. Music appeals to the heart, and where the heart is cultured the man is safe.—Galveston News.

## Galveston Shows Decrease in Number of Doctors.

Galveston, Texas, Aug. 18.—This city is the only one of the leading municipalities of Texas in which the number of physicians and surgeons has decreased during the past decade. This announcement has just been made by the Federal Census Bureau and is based on figures recently compiled. There are now 72 Doctors in this city, while ten years ago there were 111.

In the entire state the number of doctors has increased only 456 during the past ten years. There are 6,385 physicians and surgeons in Texas and a decade ago there were 5,929 in the state. Texas has nine practicing physicians and surgeons that are under 20 years of age. There are 2,650 in Texas that are over 45. The number of foreign born doctors in Texas is 245 and there are 310 in the state that were born in the United States but have parents that are of foreign birth. More than 77 per cent of the Texas doctors are married; 17 per cent are single; six per cent are widowed and only one doctor in every 160 in Texas is divorced. There are 168 negro doctors in the State.

Most women have an idea that men couldn't get along without them. And they are right.

## Bad Company

If you have a boy that you see is going to the bad make it your object in life to set him right. What if you have to sacrifice business; what if you have to move some where where the associations will be better; what if you have to give up making a gentleman of him and be content to make him simply a man; what if you have to sacrifice yourself and give the best there is in you to save him? No matter what the cost it will be a good investment in comparison with letting him go on in the wrong road. Keep with him, and have him keep with you; work with him and get him interested; take him for a trip; give him an entire change of surroundings. Tomato plants do better after being transplanted. Few boys are born vicious; and though nearly all parents mean well we cannot dodge the fact that in most cases bad boys are made so their fathers and mothers—through indulgence, or false notions, or self-absorption, or thoughtlessness oftener than through simple ignorance. Good advice, coaxing entreaties, threats have about as much effect on a wayward boy as water has on a duck's back, more radical methods of rescue must be adopted. If your boy goes in bad company root him out of it and keep him out of it, even if you have to shut up shop and give your whole time to the work. If every parent felt his responsibility and looked after his own boys there would be no "bad company." Take time to keep your boy in the right road; you owe it to him, and to the world, and it will save you from the commonest cause of misery there is in this world. General advice is not worth a picayune; no two cases are alike; but there are few boys so bad that they cannot be rescued if you will set your mind on it and act. Oh how many crimes do we commit on the plea of lack of time; but where a soul is involved we must break our fetters and speed to the rescue.—Texas City Times.

Swat the fly has become a bye-word, as has also the expression of "Safety first" but so many people haven't yet caught on the idea to "brighten up." They don't seem to realize that there are many ways in which we can easily "brighten up." Not only can we brighten up the exterior of our houses by applying paint, but the interior can also be brighten in a like manner, but we can also brighten the interior with our feelings and merriment. We can inject the same ingredients into our business and our everyday life, which will have a tendency to brighten up the feelings of others. We can not afford to go about with a long face and a sour disposition when there is so much good in this world that we can have a part in doing. Let's forget the gloomy part of life and try to make everything bright and our cares lighter than they seem.—Jacksonville Progress.

## Electricity on the Farm.

"This is the age of electrification on the farm just the same as in the city." Those are the words of F. C. Bolton, professor of electrical engineering at the Texas A. & M. College. "The farmer is realizing the advantage of using electricity for lighting his home," says Prof. Bolton. "This method is so much safer, more satisfactory and cleaner than other types of illuminant, and vastly more convenient. Many farms already have gasolene engines and since with the ordinary amount of use that the lights receive on the farm, the batteries have to be charged only occasionally. The engine may be used for running a pump, sawing wood, and most any other service and at the same time not interfere with its use in charging the batteries. There is the small motor too which can be used from the batteries. The sewing machine motor, especially, has been found valuable and convenient. The use of dry cells to furnish the power instead of a small dynamo and storage cells is too expensive to be practical." Machinery houses in Texas have complete home lighting systems which can be installed for \$350. These plants may be used to furnish lights, run machines, and for other purposes.

The Editor of the Sentinel, who has always lined up with the regular medical fraternity, was taken to the Tucker Memorial Hospital last night, by his life long friend Dr. A. A. Nelson, in his fine automobile. Mrs. Nelson was also along. We found there Dr. F. R. Tucker and his wife, who took pains in showing us through this praise worthy institution. This Hospital is sometimes confused with the other one here the Nacogdoches surgical Hospital. Both are a credit to our city, being equipped in modern style with every up-to-date convenience.

The Tucker Memorial Hospital was so named in honor of Dr. and Mrs. F. H. Tucker of San Augustine, the parents of Dr. F. R. Tucker the founder and present manager of this hospital. It is devoted to the use and benefit of the entire medical profession and the general public.

It has just installed a fine new operating table with many adjuncts and accompanying paraphernalia and many modern improvements. The institution is fully equipped with instruments and up to date facilities, all as bright as a new dollar.

## The Umpire

We mobbed the umpire the other day, and chased him from the park; he called the game at close of day, because 'twas growing dark. Our boys had just begun to sweat the ball, to take the bun, and then they had to leave the lot, defeated by one run. Then we arose, as though one man, and chased the umpire thence; ah, merrily the villian ran and climbed a ten-foot fence. O'er meadow land, through growing crop, we chased his frightened nibs and bottles, emptied of their pop, collided with his ribs. And bric-a-brac, and lifelets, cats and chunks of brick and coal, we threw to reach the victim's slats, and we had good control. Oh you may say it was a crime, to hound an umpire thus, but we enjoyed a splendid time and following the fuss we all were in a cheerful mood, forgotten were our woes, the heat in which we long had stewed the sweat that soaked our clothes. We felt refreshed and far behind our griefs were blown away and we were in a frame of mind to face another day. If you a stranger are to smiles, if life seems sad and blue, just chase an umpire seven miles and you'll be good as new.

## Ferguson Convention Speech.

After Colonel Walters retired, Mr. Ferguson advanced to the front of the rostrum and was given an ovation by the convention. He said that he was proud of this opportunity to defend the democrats of Texas as well as his platform "against the greatest enemy of democracy that lives."

"I am sorry, not for my own political destiny, because I do not fear Mr. Bailey, and I tell him now, if hereafter he wants conflict I welcome him to conflict, but I am sorry for my state that at this eleventh hour he has intruded himself upon the democracy of Texas, when at the fireside and in the business houses there is an earnest prayer for the cessation of conflict.

"Bailey says national prohibition is undemocratic," Mr. Ferguson continued. "That might be his personal view, but up to this time that is not the democratic record in Texas. He supported Ball, and yet Ball wrote the democratic platform in San Antonio in 1908 declaring that a man's views upon prohibition should never be made the test of democracy.

"Mr. Bailey," cried the speaker as he faced the former senator, "are you opposed to the San Antonio platform, or are you in favor of it?"

"If Mr. Bailey wanted to raise an issue instead of a row why didn't he come to Texas during the campaign of this summer. I did not know that the time would ever come when a Washington lawyer would come here and attempt to dictate. He may be a citizen of Texas, but when he lives in a private home in Washington, when he puts out a lawyer's shingle there, he ought to go away back and sit down when he comes to Texas."

## The Prodigal Son

"At last I am wise, I will arise, and seek my father's shack;" thus muttered low ancient boy, and then he hit the track. From dwellings rude he'd oft been shooed, been chased by farmers dogs; this poor old coat, all down and out, had heeded with the hogs. His heart was groggy; it took him long to recognize the truth, that there's a glad and smiling dad for each repentant youth. "I will arise, doggone my eyes," the prodigal observed "and try to strike the old straight bike from which I lately swerved." The father saw, while baling straw the truant sore and lamed; he whooped with joy; "my sway backed boy, you're welcome!" he exclaimed. Midst glee and mirth two dollars worth of fireworks then were burned; "we'll kill a cow," cried father, "now that Reuben has returned!" His sisters sang, the fanhouse rang with the ratters split, his mother sighed with hope and pride, his granny had a fit. And it's today the same old way, the lamp doth nightly burn, to guide you home, O, boys who roam, if you will but return.

## Great Canal Is Opened To World Traffic

Panama, Aug. 15.—The Panama canal zone celebrated today the opening of the Panama Canal. Festivities however, were but local and suggested little of the international significance of the event. With the official Panama celebration set for next spring, even the United States was not officially represented except by the men who long have been in the canal zone.

The steamship Ancon, owned by the United States war department and leased to the Panama Railroad for service in the New York-Colon trade was chosen as the first big boat to be put through, signaling the opening of the canal to ships up to 10,000 tons register.

The program called for putting her through the locks at 9 o'clock, her passage of the Culebra Cut at about noon and arrival at the end of the deep water channel in the Pacific at 6 o'clock this evening.

All the 74 regular officers and men aboard the Ancon appeared in spotlessly white uniforms and the ship itself glistened with new paint, over which fluttered the signal flags and the ensigns of all nations. At the forepeak was the ensign of the Panama republic, while at main masthead fluttered the house pennant of the Panama steamship fleet. On the jack-staff was the flag of the United States.

The world is growing better. Nowadays a man can make a reputation as a good doctor without growing a set of whiskers.

The trouble with this country is that a man expects a telephone-girl to have as much patience as his wife.

### The Last Great War.

Ex-President Tatt, in speaking of the present war, expresses the opinion that it will be the last great war, and thinks that the remedy will be worth what it costs if the present conflict in Europe appals the world into peace. He says:

"As I write, Germany is reported to have declared war against Russia and France, and the participation of England on the one side and Italy on the other seems imminent.

"Nothing like it has occurred since the great Napoleonic wars, and with modern armaments and larger populations nothing has occurred like it since the world began.

"It is a cataclysm. It is a retrograde step in Christian civilization. It will be difficult to keep the various countries of the Balkans out of the war, and Greece and Turkey may take part in it. All Europe is to be a battleground.

"One thing I think we can reasonably count on is that with the prostration of industry, with the blows to prosperity, with the state of flux that is likely to follow this titanic struggle, there will be every opportunity for common sense to resume its sway; after the horrible expenditure of the blood of the best and the savings of the rich and poor, the opportunity and the motive for a reduction of armament and the taking away of temptation to further war will be greatly enhanced.

"It is an awful remedy, but in the end it may be worth what it costs, if it makes this the last great war."

Europe bought nearly one-half our entire sales of automobiles to foreign countries last year, although some shipments thither are for reshipment to other parts of the world. To the United Kingdom the exports amounted to 7,222 cars, valued at \$5,358,127; to Germany, 1,435, valued at \$1,059,249; to France, 1,429, valued at \$224,180; and to other countries of Europe, 3,271, valued at \$2,580,428. Canada and Australia are also important markets, the former having taken 4,624 cars valued at \$5,919,776; and the latter, including other British Oceania, 4,244, valued at \$3,665,595. ### Watchful Waiting

The Huerta reign is done and watchful waiting won. The crazy tyrant hung to office long, and clung, with equal strength and zeal, to gin and lemon peel. The symbol of his cause a pocket corkscrew was; a bottle in his hand, he ruled his bleeding land. What sort of men are they who'd tolerate the sway of such a drunken freak?

Are they insane or weak? But watchful waiting won and toward the rising sun the junjam despot sailed, and Justice must have waited. All loaded down with wealth he'd swiped by force and stealth, he sailed across the sea to riot in Pared, or booze in London slums with kindred thirsty bums. The man whose hands were red with blood of countless dead, the man of concrete heart, was suffered to depart from that poor land he jobbed, and harried, rent and robbed.

Was there no dungeon deep where slimy reptiles creep? Was there no gallows tree or ax for such as he? Ah, well the tyrant's gone and there perhaps will dawn a brighter better day—let's hope so, anyway. Peace has an innow—let's hope so, anyhow. But should the dove depart and should the fireworks start, with bloodshed, as before we'll watch and wait some more.—Walt Mason.

### The Mexican Question.

Mexico City, Aug. 17.—The banks of the capital, which closed last Thursday, probably will be open tomorrow. The question of a circulating medium is causing some uneasiness in business circles. At present four distinct issues of bank notes are being passed in ordinary business transactions.

The public evinces a disposition not to accept the bank notes of the issue of July 25, which are guaranteed by 6 per cent ten year gold bonds, or the notes issued by the Huerta regime through state banks then located in territory controlled by the constitutional army.

The paper of the constitutional army is being freely circulated and accepted.

A commission composed of representatives of the clearing house banks has asked General Carranza, constitutional chief, to define the attitude of his new government as to the present legal tender. It is believed a provisional ruling will be made tomorrow, thus permitting a resumption of banking operations.

Wednesday has been declared a national holiday in honor of the entry of the main body of the constitutional army and General Carranza. Elaborate preparations have been made for the inauguration of the new regime.

Already re-constitution plans are under way it is expected that through freight and passenger traffic will be resumed over the National railway lines by way of Laredo and El Paso within a fortnight.

Memorial services were held today over the graves of former President Madero and former Vice President Suarez, who were killed February 23, 1913, in the revolt which placed Huerta in the presidency. The services were conducted by constitutionalist General Obregon, members of his staff and representatives of the constitutional army. After an eulogy was pronounced, the graves were decorated with wreaths and the troops fired a salute of twenty-one guns.

#### Health Hints For Hot Days

Don't eat anything.  
Chew it thoroughly.  
Don't drink ice water.  
Boil it.  
Let your wife have her

Give your thermometer to your enemy.  
Avoid excursion, vacations, chautauquas.  
Avoid strange dogs and your wife's relatives.

Don't discuss the following: Heat records, immigration, tariff reduction, socialism, minimum wage, gas bills, franchises, graft, tire trouble, new thought, cubist poetry, creditors and debtors—Kansas Industrialist.

#### Some of Our Famous Criminals.

Following are a few excerpts from petty-court dockets in various parts of Alabama:  
George Washington—Vagrancy, sixty days.  
Andrew Jackson—Drunk, five and costs.  
U. S. Grant—Stealing cow, bound over.  
Hans Wagner—Violating meat ordinance.  
Jim Jeffries—Carrying concealed weapons.  
Theodore Roosevelt Jones—Disorderly conduct.  
Abraham Lincoln—Larceny, ten and costs.  
William Tatt—Speeding.

A farm ten miles from town on a hard road is nearer than a farm five miles from town on a soft road.

Any married man with a family can tell you that the only time he ever gets any attention at home is when he is too sick to appreciate it.

The children were a whole lot more obedient in the old days when Father kept a paddle in the wood shed and Mother wasn't afraid to use her slipper.

Some day, when we get things running right, there will be a law against carrying concealed hammers.

If a man has a red nose, he has to wear it and let it go at that. But if a woman has a crimson beak she can always wear a beauty veil.

### Who Can Doubt Sworn Testimony of Honest Citizens?

Sometime ago I began the use of your Swamp-Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. The doctors who treated me made me believe that my great sufferings were due to female trouble. I was so bad at times I would faint away and had sinking spells. Finally a new doctor was called in and he said I had kidney trouble and he gave me medicine, of which I took several bottles. I obtained some relief from this, but I was getting weaker all the time; I could not sleep and suffered so much pain that my husband and children had to lift me in and out of bed. After this time two friends sent me word to try Swamp-Root, which I did, and I am glad to state that the first dose gave me great relief. After taking the third dose I was helped into bed and slept half of the night. I took several bottles of Swamp-Root and I feel that I owe my life to this wonderful remedy. The two family doctors said that I could not live three months. I would have to be helped in and out of bed ten to twenty times every night. After taking Dr. Kilmer's Swamp-Root for two days I was entirely free from getting up and could sleep soundly.

**Federal Prosecution of Price Boosters Probable.**

Washington, August 14.—President Wilson's campaign against the "rapid and unwarranted increase in prices of foodstuffs upon the pretext of conditions in Europe" bore early fruit today.

Preliminary reports from United States district attorneys and department of justice special agents declaring many price increases, speculative, unjustifiable and some bearing elements of illegitimate conspiracy to anti-trust law prosecution began to pour in by telegraph upon the attorney general.

Within a week or ten days McReynolds expects to be able to submit the report, requested in the president's letter yesterday whether immediate resort to the courts shall be taken or a further investigation be made jointly by the departments of justice, commerce and agriculture.

Supplemental instructions regarding the price inquiry were issued today. It was reported that scrutiny was ordered particularly on activities of combined wholesalers and commission men, such as live stock and grain exchanges, produce and poultry exchanges, butter and egg markets, fruit exchanges, vegetable "unions" and cold storage houses.

Reports that meat, cheese and poultry dealers were deliberately creating an artificial "famine" by storing in cold storage warehouses were received.

**Spur Farm Lands.**

Many farmers are making a hard or doubtful living on high priced lands in localities cursed with insect pests, or floods, or drought, or weed plagues, or other enemies to successful farming. The end of each year finds time and energy practically wasted no progress made. Spur Farm Lands offer relief from these conditions.

The tenant on the high priced lands further east can make a payment and be master of his own acres here. Any good farmer can pay for them from the products thereof. The Spur Farm Lands offer productive, virgin lands easily cultivated, at low prices and on easy terms. Splendid crops are raised without irrigation. No boll weevil ever know here. Altitude 2000 to 2600 feet.

Considering the reliable production of these lands—prices are lowest in Texas; new country, settling fast; splendid climate, no malaria, chills or fever; good churches and schools. We offer the homeseeker a wide range for selection and are selling direct—no commission to anyone; the purchaser receives full value in his lands in dealing direct with the owner as opposed to paying a middleman several dollars per acre.

**STOCK FARMS AND SMALL RANCH TRACTS.**

We also offer fine grazing tracts, perfectly adapted to this purpose—one section to fifty, at prices from \$5.00 per acre up. Free illustrated booklet, giving all particulars on application to—

**Resolution of Respect**

Nacogdoches Volunteer Fire Co.

We your committee appointed to draft resolutions upon the death of our beloved brother, W. C. Chadwick beg leave to submit the following:

Whereas in his infinite wisdom the Great Chief of our universe has seen fit to call our brother from life to join the celestial throng of the great beyond.

Be it resolved that we, the members of the Nacogdoches Volunteer Fire Department bow in humble submission to the will of Him who doeth all things for the best. Yet at the same time we feel that our company has sustained a great loss and one that will cause pain and sorrow in the breast of all our membership.

Be it further resolved that we extend to his family our sincere sympathy and to assure them that we to have sustained a great loss and one we shall ever feel. Faithful as a father, a citizen and loyal and true as a Fireman, we shall all miss him.

Resolved that a copy of these resolutions be spread upon the minutes of the Fire Company and a copy be sent to the bereaved family.

Respectfully submitted,

platform and passed resolutions endorsing the work of the state and national chairman and pledging faith and loyalty in the original party, declaring too, that an active campaign will be made in Texas.

John Philip of Dallas was nominated as candidate for governor and John Hall of Lampasas for lieutenant governor. The platform contains thirteen planks, among them being one to limit all state officers to two teams.

Another provides for free school books, while number thirteen favors holding elections for proposed amendments to the state constitution on years in which regular state elections are not held. Special reference in this connection was made to the prohibition question.

Between 200 and 250 delegates were in attendance, it was claimed, from practically fifteen districts. Phil Baer of Paris, state chairman, presided.

**This Good World.**

This good old world is wonderful, it gives us every chance; and it our lives are blunderful, and it we don't advance, the fault is ours, that's evident; we do not play the game; we ought to make a heavy dent in History or Fame. The world is kind and generous to every useful man; 'twill help (I'll bet a tenner!) us, in every worthy plan. If we are prompt and dutiful, and labor day by day, the world will act just beautiful, and help us on our way. It makes me feel jim-jamerous, from scalplock down to shoes, when kickers, loud and clamorous, this good old world abuse. It's so beastly burdensome, with grief and woe so rife, their staying here's absurd an' some of them should quit this life. But when they get to Paradise they'll still stand round and kick, and want to shake the narrow dice to see who throws a brick. All worlds are stern and rigorous to that besotted mind which only can be vigorous when it has fault to find. This fine old world were broiling in, where sunshine's always free, this world we're blithely toiling in, is good enough for me.

Walt Mason.

**Glory and Goodness.**

We can't all rise to shining heights of glory, we can't all climb Fame Mountain's snowy hood, but we can make our lives all hunkydory, and worth the while, if we will but be good. The lust for wealth bespeaks the spirit's blindness; when I am dead I'd rather have the folks say, "His heart possessed the milk of human kindness," than have them speak of scads I put away. A little fame too often makes us haughty, makes us forget that we're common mud, and we swell up, until, becoming dotty, we take a fall, and make a sickening thud. When we've success in sordid worldly matters, we feel contempt for all the ones who fail; we view with scorn the poor man's rags and tatters, and heedless hear the hungry orphan's wail. We waste our lives in tawdry triumphs winning, for useless gawds we strive and toil and grind; and even now, as at the world's beginning, the kind heart beats the proud and rigorous to that besotted mind which only can be vigorous when it has fault to find. This fine old world were broiling in, where sunshine's always free, this world we're blithely toiling in, is good enough for me.

Walt Mason.

**It Always Helps**

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

a trial. I still use Cardui when I feel a little bad, and it always does me good."

Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Cardui, the woman's tonic. You cannot make a mistake in trying Cardui for your trouble. It has been helping weak, ailing women for more than fifty years.

Mexico City, Aug. 13.—General Carranza will soon occupy Mexico City. Provisional President Carbajal is enroute to Vera Cruz today and a general movement of Federal troops from the city is in progress.

Returning here from Teoyucan, where they met General Carranza, a committee of foreign diplomats, headed by the Brazilian minister, indicated that the general plans for the occupation of the capital by the Constitutionalists had been arranged. Details are yet to be completed but it was practically agreed that the Federals should evacuate the city and the Constitutionalists enter and assume control in a pacific manner.

### You Take No Chances

It's impossible to tell whether this young lady is about to score a "strike" or nothing at all. The result depends upon the skill she applies and the chances of the game.

There can be no hit-or-miss guesswork in our business and there never have been any "chances of the game." We wouldn't be worthy of being your jeweler if we didn't conduct our affairs on exact, scientific standards impossible in the general unspecialized store. You can always depend upon us for better workmanship, highest quality, and most complete service.

#### Announces for Governor

Angelina county may be depended upon at all times to occupy a prominent position in the limelight. Last week the old county mentioned came boldly to the front with a candidate for governor of Texas, in the person of the editor of the Huntington Herald, and his name is C. A. Ricks. In his paper he announces his platform, and also published his picture. He announces as an independent candidate, and will expect you to scratch all other names on the ticket for this office and write his name instead. One thing we are reminded of in this instance is that this is a free country, and anybody can run for office who chooses to do so. Who knows but that our fellow citizen would make a good governor, but it might be possible that he has chosen an inopportune time to run, inasmuch as forty-five thousand democrats have selected a man by the name of Ferguson for this important position. The News man, in all of his lofty ambitions is for ever for his side of the street against the other side, he is for his town, against all other towns would back up the very last ditch, and would fight for Old Glory until all hope had fled, but not withstanding all this we shall choose to support Jim Ferguson in his race for governor even though we have to turn down a home man to do it. What Mr. Ricks ought have done would have been to have let us know about this coup of his long before now so that we could have been prepared for it. As it is, there are multiplied thousands of died in the wool democrats just like ourselves who will be forced to votes for the nominee of the party.—Lulkin News.

Dan Hodges, who resided here many years, but now lives near Orange, Texas is on our streets. He is a brother of C. A. Hodges.

C. A. Hodges has moved his law office to the Farmers & Merchants State Bank lower floor rear rooms. d2w1

#### Condensed War News.

England.—Admitted that English expeditionary force has landed on Continent, but number and whereabouts carefully concealed, although it is generally accepted that 150,000 men were sent across the channel.

France.— French army moving against strong German fortress of Strassburg. Severe fighting reported in progress in Upper Alsace with very heavy losses on both sides. Germans dropping back before French advance apparently in pursuance of concerted plan not to attempt a general engagement, until the fortified positions are reached.

Germany.— Delayed advices report general staff confidently expects the capture of Brussels will soon be reported. Unconfirmed reports current in The Hague say Crown Prince Frederick Loefler, is also in the Government service. The Albion is a vessel of 1,346 tons.

Dan Robin Castle, famous residence of the Duke of Sutherland, has been turned into a hospital. The castle is to be used as a central surgical base for the North Sea fleet. The Duke has also placed his yacht at the disposal of the Admiralty for the transfer of wounded from the ships to the castle.

The Red Cross Society has been given possession of the ground floor of Devonshire House, Piccadilly, by the Duke of Devonshire.

W. F. Butler of Woden, who has been visiting his uncle and brother in Manchester, Coffee county, Tennessee, for the past several weeks arrived in the city last Friday on his way home to Woden. This is the first visit he has taken to his home in the last 40 years and he says he enjoyed the visit to the fullest extent, although he was glad to return to old Nacogdoches county.

Keep the body healthy at this season by using Prickly Ash Bitters. It is a necessary condition to successfully resist malarial germs. Stripling, Haselwood & Co., Special Agents.

Jesse Brantly of Houston has been up several days visiting his brother, J. H. Brantly. Jesse has been sick and came up for a change. He is better and will return home tomorrow.

Fortify the body to resist malarial germs by putting the system in perfect order. Prickly Ash Bitters is a wonderful system regulator. Stripling, Haselwood & Co., Special Agents.
