downfall. "How many times have I told you," he said and we thought we saw tongue in cheek, "that if you want something to go over, you need to get on the other side in that paper?"

Even we're not vain enough to really believe that, but if we did, and thought it would help, we might change sides now and then.

"This area appears to be more prosperous than some we've seen in America," the Russian news media men who visited in Bovina Sunday night and Monday morning agreed. They said they were touring

America to learn more about the country and its people. Our visit with them proved to be highly interesting.

Numerous questions were asked about this area and the people by the well-studied gentlemen. On the other hand, they had opportunities to answer questions about their country, too.

We have a better understanding, we feel, of Russia because of our communicating with them.

Among other things, they were interested in Western hats which are worn by many men here. One of the foreign visitors purchased a new cowboy hat here to take with him as a souvenir of Texas. Thus, they backed up some of their interest with money (American) instead of with talk only.

RUSSIAN NEWSMEN -- A group of newspaper and radio men from Russia visited in The Blade Monday morning after spending Sunday night here on their 12th day of journeying across America by automobile from New York to the West Coast to learn of the country and its people.

At Home In Parmer County

Is December your downfall? December seems to be the month for overemotional spending and overeating. Why should it be? Well, in the first place, high pressure advertising, deferred payments schemes ("No payment until February"), beautiful displays of luxurious Christmas gifts and toys, the general bustle and excitement of the holiday season all cause us to temporarily lose touch with the reality of the family budget.

All of those extra rich foods served at holiday meals and parties tempt us to lose control of appetites and our figures (both money-wise and weight-wise).

"Oh, Christmas comes but once a year," is our excuse. As long as we can afford it money-wise or weight-wise -- why not?

The big, big problem is, too many of us can't afford it. We then end up paying for our foolish folly for months to come.

How would you like to get through this holiday without overeating and overspending? Now is the time to decide and make your plans.

With a holiday spending plan -- made in advance and based on real needs of your family and what you can afford -- you are much more likely to withstand the pressure during the holiday to buy expensive gifts, household appliances and

other luxury items you can't afford and don't really need.

That eating plan too -- you can enjoy moderate amounts of holiday "extras" without weight gain.

How can you plan for holiday spending?

*Have family conference. *Decide how much money you can afford or what to spend on Christmas.

*It might be a decision to spend a certain amount of your savings or just simply name a "top" figure for all Christmas spending.

*How much is to be allocated among expenses -- as cards, postage, gifts, tree, food and entertainment.

If children are involved in the conference they are more likely to make reasonable requests for gifts and less likely to be disappointed.

*Have room in plan for change and flexibility -- the closer you stick to it when you spend, the easier it will be to pay your Christmas bills, and avoid the after Christmas "blues."

Next week we will talk about holiday eating plan.

"You can no more give what you don't have, than to come back from where you have not been."

Farmers Marking Cotton Ballots

Cotton farmers across the nation, including those in Parmer County, are marking the mail ballots this week and returning them to their local ASCS offices on the \$1 a bale referendum and the marketing quota referendum.

Producers have until Friday to return their ballots for tabulation in the proposed program. If the \$1 a bale for research and promotion meets with the approval of cotton producers, a cotton board will be selected with Texas having about four regular members among the approximately 20 named by the Secretary of Agriculture from a list submitted by approved cotton producer organizations. This board would regulate the research and promotion program.

Those farmers not desiring to enter the program may make

application for the return of their \$1 per bale.

Know The Truth By Lavern Stewart

We ought continually to take stock of ourselves, II Cor. 13:5, "Examine yourselves, whether ye be in the faith; prove your own selves. Know ye not your own selves, how that Jesus Christ is in you, except ye be reprobates?" Only those who examine themselves, and correct what they find wrong will be ready to meet the Lord in judgment. Jesus said some would be surprised at the judgment because they had thought all along that they were saved, yet they were lost, Matt. 7:21-25, "Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my Father which is in heaven. Many will say to me in that day, Lord, Lord, have we not prophesied in thy name? And in thy name done many wonderful works? And then will I profess unto them, I never knew you: depart from me, ye that work iniquity."

He stated that the shortage of teachers is worse this year in Texas than it has been in 15 years. Of the 10,000 stu-

ENTER TAIL FEATHER CONTEST -- J. C. Pewitt, left, and J. A. Rushing entered the Pheasant contest Monday morning by bringing in their long tail feathers to Parmer County Farm Supply where Bud Crump is in charge of the event.

In Parmer County --

Pheasant Season Termed Success

Pheasant hunters from over the Panhandle and South Plains have been stalking their quarry in Parmer County the past week and 11 long tail feathers had been entered in Bovina Monday morning, according to Bud Crump, who is in charge of the event in Bovina.

Entries in contests are also being accepted in Farwell and Friona.

There was no estimate available on how many pheasants had been bagged during the one-week season, but several are reported to have their limit of four in possession.

Although more pheasant had been estimated in the county than ever before, some hunters say the game seems to be more difficult to find this year.

The tail feather contest was set up this year by the Parmer County Game Management Association of which Jack Patterson is president. Each feather entered was tagged and will be

measured after the deadline for entering on Thursday.

First prize for the longest feather is \$15 in merchandise, 200 pounds of Hartzog's Texas 660 milo seed; second is \$10 in merchandise at Parmer County Farm Supply; and third, \$5 in subscriptions to The Bovina Blade.

Crump said several hunters have tail feathers that had not been entered on Monday morning.

Bovina Girl Injured By Pitchfork

Brenda Kay Stone, daughter of Mr. and Mrs. Lewis Stone, received injuries on the leg Monday afternoon at her home when she tripped on a piece of concrete and fell on a pitchfork.

A prong of the pitchfork completely pierced her leg and Brenda was taken to Parmer County Community Hospital for treatment and was released.

Brenda will be out of school for about two weeks. She is in the third grade.

Graham Film Shown Here This Week

Evangelist Billy Graham's feature-length dramatic film, "Shadow Of The Boomerang," will have its Bovina showing Thursday at 7 p.m. at First Baptist Church.

Everyone in Bovina and the area is invited to attend, Rev. Ralph Aday, pastor, said.

Starring vivacious Georgia Lee and television's Buffalo Bill, Jr., Dick Jones, "Shadow Of The Boomerang" is an outdoor action picture with all of the excitement and breath-taking scope of the land, "Down Under." Setting for the screen drama is Australia's "Outback," the continent's vast interior region where some of the world's largest cattle stations are located.

The two young Americans head an All-Australian supporting cast, playing brother and sister roles in a turbulent story of homestead life. Their arrival in Australia to manage newly acquired family holdings, plunges the couple into strange surroundings and situations with which they find it difficult to cope.

Filmed against the backdrop of the Billy Graham Australian Crusades, the film seeks to underline the Godly reaction to human crises and conflicts.

Milo Producers Push Program, Membership

The most aggressive program and the largest budget in the ten year history of the organization was proposed for the Grain Sorghum Producers Association in a special meeting of the farmer-elected Board of Directors in Amarillo, Friday, December 2. Eighty two directors and farm leaders from the Tri-State grain sorghum area of Texas, New Mexico and Oklahoma appraised the area situation for grain sorghum producers expected farm income, market potential, changing government and industry relations as production is expanded in the coming years. Throughout the day, discussion was "active" and even "spiced" at times as a possible "profitless prosperity" was described unless concerted organized efforts on the part of producers are made to keep grain sorghum accepted and moving in the market at home and abroad, and to affect administrative decisions in the various phases of government policy related to the production, use and marketing of feed grains.

Abernathy farmer and GSPA President Elbert Harp pointed out that "it is ironic that this great and obvious need for Association expanded activities and leadership has come at a time when it is least able to do so because of apparent farmer complacency and non-payment or renewal of membership dues through its normal collection procedure of 2 lbs. per thousand from farm deliveries at elevators this fall." He summed up by saying, "That even though we have proposed the strongest and most costly program ever -- a minimum \$30,000,000 increase over last year's \$55,000,000 budget -- it still is just a proposal and no expanded activity will get under way until a membership and budget expansion effort is successfully initiated and completed. In fact, without additional farmer and agri-business support, much of the existing association programs will be curtailed or completely discounted."

Directors present enthusiastically accepted the role of leadership for membership expansion efforts in their individual county organizations to be initiated immediately and completed by January 15. At the regular quarterly meeting of the GSPA in February, an official program of work will be adopted and action on exact activities to be expanded or curtailed will be taken in keeping with demonstrated interest of grain sorghum farmers by their response to the membership expansion efforts.

In other business, GSPA Executive V. President Bill Nelson reported on Association efforts to have barley re-instated in the 1967 feed grain program after it was removed by USDA, or at least allow grain sorghum to be grown on former barley acres and concluded that no change is likely to be made by USDA on grounds of "lack of legal authority".

On a more positive note Nelson reported that the three million tons of grain sorghum which went to India from CCC stocks this past year would likely be expanded to four million tons during the coming year and would be purchased from farmer-and grain trade owned stocks strengthening local demand and pouring some \$50 million into the grain sorghum economy.

The rapid expansion of grain sorghum shipments to India continue only as long as it is accepted and used in food by the people in India. There have been some real problems with substituting sorghum for local millets, wheat and other cereals because it is a new and different grain. Arrangements are being completed with the U. S. Feed Grains Council and the

Foreign Agricultural Service to employ on a two year contract, an expert Food Nutritionist to assist with grain sorghum food use development in India.

Another very positive advance in both grain and feed-cattle income is expected due to the recent USDA announcement that "in the future only choice grain-fed beef will be purchased for the national school lunch programs". GSPA has continuously objected to past policies of grass-fed, imported, or cow beef accounting for most school lunch purchases. "The demand for grain sorghum area feed-lot cattle and in turn demand for grain sorghum by feeders will obviously be strengthened," Nelson said.

At Canyon --

PEP Meeting Staged Today

Parmer County leaders are meeting in Canyon today (Wednesday) at West Texas State University's Student Union to discuss the Panhandle Economic Program in an attempt to improve the income of the agricultural area of 26-county Panhandle area.

About 50 Parmer County citizens were invited to attend and others interested have been urged to also attend.

A study of the Panhandle's economic influences have been conducted for 18 months by the Texas Extension Service with Jim Murphy, Area Farm Management Specialist and Coordinator of PEP. The study was instigated after a group of Panhandle citizens requested study of the water situation.

Findings from the study, published in book form to be presented to those attending the meet, show that improved re-

source use could double the economic activity of the Panhandle.

After attending the Canyon meeting, leaders will return to their respective counties and attempt to put the plan into action.

Authorities are Texas A&M say that the average farm in Texas is worth \$250,000. This means that the days of the one-horse farm are past. Operating a farm nowadays is a big business. Running a big business requires good tax records. The farmer who fails to keep good tax records may find himself plowing his profits into a Farm 1040.
Keeping good records is always good business.

Cover Features Bovina

Bovina received area-wide publicity as the November issue of "Irrigation Age", magazine published by Irrigation Age Inc., Hereford, was distributed recently.

A Bovina color scene is featured on the cover of the magazine, a grain sorghum field with Sherley Grain Co. in the background. The photo was taken by George Williams of Tulsa.

The field of heavily loaded grain sorghum is that on the Ronald Berggren place, farmed by Norvell Strawn.

The picture was taken looking east toward Sherley elevator. Description of the cover of the magazine on page three is captioned "Covering the Irrigation Age." It continues, "Grain Sorghum is BIG BUSINESS. And big, too, are the elevators for storage of it. We have covered the Irrigation Age with one of 6,000,000 bushel capacity. It's the Sherley Grain Company elevator at Bovina, Texas, Built in 1947 by W. M. Sherley, G.D. Anderson Jr. and J.A. Pittman, it was expanded to its present capacity in 1960."

New Hope

Rejoice in the Lord always. *Philippians 4:4*
Alexander McClaren was a famous preacher in England. When his beloved wife was taken from his side, it was a cruel blow. He said, "Life will go on, but it will never be the same again. I shall continue to work, but it will be infinitely harder and lonelier from now on." And yet it was afterwards that he did some of his best work and published some of his finest books. Where did he find the strength to go on living, working, and bearing his cross?

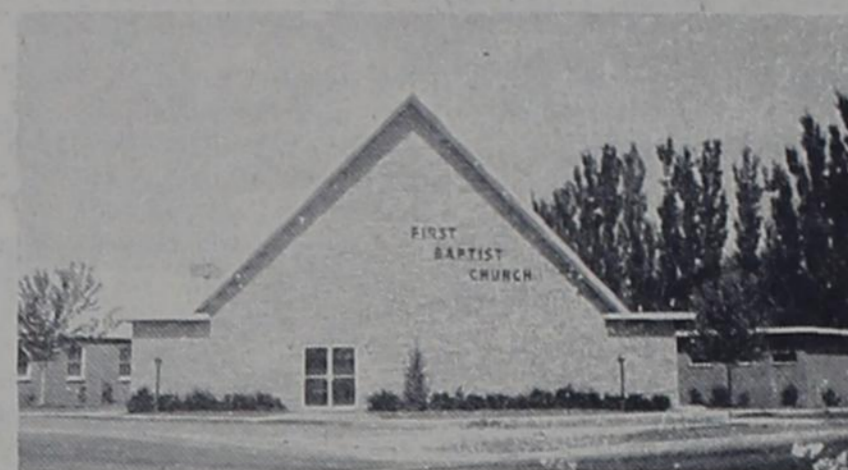

We would like to know the answer, would we not? After all, life seems dull and hard to us now and then too. We have had cruel blows, bitter disappointments, and grievous bereavements. Where shall we look for help, for refreshment, for strength?

Does God really hear our prayers? Can He be bothered with my problems, can He possibly be interested in my insignificant life? There are so many people calling on Him. Maybe He will not listen to me, a sinner. Then we remember His precious promises: "Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you." Yes, God does hear our prayers.

Our barren lives can blossom like the rose. God can give new hope even when all seems lost. Because of our Lord's death on the cross our lives may have new courage and strength, new peace and gladness.

Lord, help us to remember that all things work together for good to them that love God. Amen.

Bovina Fillies brought home the consolation trophy from the Friona Basketball Tournament last weekend, defeating Cotton Center, 40-39, in the consolation finals.

Playing for the trophy, the girls trailed Cotton Center until the final quarter, Cotton Center took a comfortable 18-5 first quarter lead and held a 25-20 halftime margin.
