Committee Meets

A portion of the citizen's committee, having the matter of the Farmer's short course in hand, met this morning for the purpose of planning for the entertainment of our visitors next week. Seven lecturers are expected and they with others who may be so interested, are to be looked after as is becoming the fame of Nacogdoches county. Sunday a committee will meet them at the station and escort them to their hotel. Monday, after the lectures, they will be taken in hand by Bob Lindsey, Bob Jordan, Hollis Mast and Eugene Blount—nut sed. Tuesday every one who will go will be taken to the Experiment Station where Mack will cut the water melons. And Wednesday, after school is over there is still more frolic. Other committees were named to look after stock to be used in judging, financing the project, and such other small details as may come up needing attention. The outlook for a large attendance is good and the results will be of benefit to all; so it is hoped that the shoulders will be at the wheel and everyone yelling at the same time. This school of

A big pumpkin and "some punkins" were shown to the Sentinel Tuesday by T. J. Hudson, who lives three miles east of town. He had a wagon load of them. But the biggest one measured six feet in circumference, and weighed nearly 100 lbs. For some cause unknown, it was decayed, probably from hot sunshine. These pumpkins

were orange shaped. Mr. Hudson said he could raise a second crop of them. They are useful for feed stuff and for table use.

M. D. Stoker of Mt. Morian community is another of the Sentinel's friends who do not believe in merely a look. He presented us with the finest melon of the season Tuesday, and it was a good one.

How's Your Pasture?

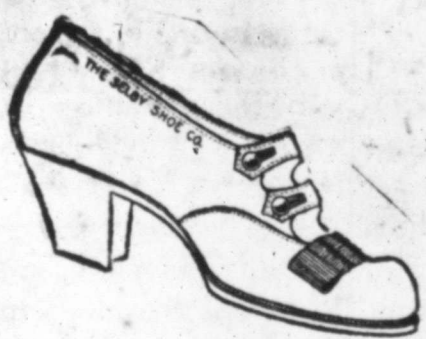

Is your pasture large enough? At the high cost of FEED you can't afford to be without a good live pasture. Turn your stock on the grass and it will save you Big Dollars. Will it pay to enlarge your pasture?

We have a big stock of wire fencing many styles and heights---and can furnish just the kind you need at a price you can easily pay.

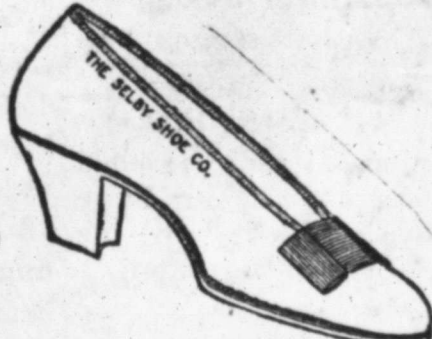

Wire fencing is permanent improvement and it will pay you to get our prices before you buy any other kind. We hope that you will call on us. We will serve you in a satisfactory way.

Quannah Girl Shoots Young Man

Quannah, Tex., July 9.—Garland Radford, 23, oldest son of Dr. G. W. Radford, one of the wealthiest men in this section, was shot and killed last night by Miss Winnie Morris, daughter of Robert Morris, foreman in the local railroad shops. Both the girl and her father were arrested. Miss Morris worked in young Radford's abstract office last year and after some trouble, Radford, who is married with one child, left here. He returned recently and last night drove through the Morris place with a load of wheat. The girl met him at the gate, and Radford jumped off the wagon and ran around it. She fired first with a shotgun, it was said, and then with a small calibre pistol.

Twenty-four buckshot and seven pistol bullets were found in Radford's body.

It is reported in El Paso that General Villa intends to resign in favor of his leader General Robles, hoping that this may lead to peace. Bueno.

Mrs. Beeman Strong entertained, informally, with two tables of forty-two, Tuesday evening, in honor of Mrs. Geo. King.

How About it?

Governor Ferguson was the guest of the good people of Center Wednesday and made a speech at the big east Texas log rolling, in the course of which he is reported as having referred to the present industrial condition of Texas and said that one could understand why Texas was not advancing more rapidly when he went into our homes. He found our plates made in England, our knives and forks made in New York, our beds and chairs made in Michigan, our breakfast food, made in Battle Creek our lard made in Kansas City, our plow stock made by the John Deere company, our mules raised in Missouri, and the only home product found on our farms was the "damned old dog," which kept us awake all night by his long-eared howling.—Lutkin News.

Bail was granted in the sum of \$2500 by Justice F. D. Huston.

Stray Pony Mare.

Small bay mare left home about four weeks ago. Has small lump on shoulder, she is 4 years old. Notify E. Hogs n Jr., Mahl, Texas, and get pay for trouble.

From Douglas.

There was a committee of about twenty men from the Douglass vicinity, in town this morning, Tuesday, who appeared before the county commissioners court, now in session at the court house, to ask for work on the big road from Nacogdoches to Linnwood on the Angelina river.

Among them was B. K. King, Turner King, W. H. Campbell, Charley Campbell, C. B. Watkins and others.

Will McMillan Superintendent of county roadwork was also along. They stated to the court that the road working force is now about to end work near Douglass, and that it is the wish of the people interested that, while this force is there, it should be ordered to take up the road referred to. They emphasized this road as to its being one of the most important in the county, being the only east and west road through the county and traversing the most important territory. It is the original noted "Old San Antonio road" or King's Highway, and it has not lost prestige. Certain rough points were designated where repairs are badly needed, notably the Angelina hill, the Douglass hill, the two Loco hills, and some others.

The court seemed favorably impressed with their application.

Don't fail to attend the Farmer's Short Course, whether you are a farmer or not, male or female, old or young. It will please you.

Ancestry

Man's father was an ape, of rude, ungainly shape, according to the chaps who study human maps, and fossil teeth and toes, and ribs and things like those. Through woodlands dark and green, in ages pliocene, our fathers used to roam, and made the trees their home. When I feel gay and proud, above the common crowd, and walk with haughty tread, with badly swollen head, of facts like this I think, and then you see me shrink. I seem to catch a glimpse of longtailed woodland imps, and from a phantom ape I hear these words escape: "Don't get too chesty, bo; your origin was low; your grandsire, ages back, acquired the useful knack of going on two legs; but don't," the phantom begs. "that claim to fame abuse—for so kangaroos." I had an ancient sire who twanged a famous lyre; another one, they say was knighted on a day; and on the Mayflower ship another made a trip. But when I fain would boast of a distinguished host upon my pedigree, a vision comes to me; my sires in ancient vales, a-swinging by their tails, or, prone in grass-made huts, devouring coconuts.—Walt Mason.

Colorado Springs, Colo., July 6.—Editors from all parts of the country visited Colorado Springs on their way to the annual convention of the National Editorial Association, stopping over in the Pikes Peak Region for a few hours sightseeing on Friday, June 25. The four hundred members of the party enjoyed the unique experience of a breakfast in the mountains, being taken immediately upon arrival, by special street cars, to Stratton Park at the entrance to North and South Cheyenne Canons, where an appetizing breakfast was served. After spending a short time in the park and the canons, the party again boarded street cars and made the trip through the city to the Union Printers Home, located on the eastern border of Colorado Springs overlooking in the city and commanding a splendid panoramic view of Pikes Peak and the mountain range. Here they were the guests of the management for an inspection of the grounds and buildings, and they were given some idea as to the way in which the International Typographical Union cares for its aged and invalid members at this remarkable institution. While in Colorado Springs they were guests of the Chamber of Commerce. Then the party continued its journey on to Denver, under the escort of its national President, Geo. E. Hosmer, of Denver, who came to Colorado Springs to join the party.

Governor Ferguson declined to handle the matter of the Mexican General Huerta. It is Uncle Sam's job, and General Huerta was never a pet with Uncle Sam.

Dr. Campbell Responds.

Editor Sentinel:

I notice an Editorial in the Sentinel of the 6th inst. about the Picnic at old Larissa July 3d, and your request that I write about my trip.

I went to Jacksonville on the T. & N. O. Friday evening and was met at the depot by my nephew, W. Y. Forrest in his car. He went up into town and there I met quite a number of my old friends. The first one was N. C. Gragard, age 75 who came to old Larissa in 1844. I also met W. O. Wade, age 75, Rutas Alexander, W. A. Brown, J. L. Brown, Walter Newton and quite a number of other old citizens of Larissa.

Saturday morning a number of cars were in readiness to take us to the old town of Larissa. I went in the car with J. L. Brown, Miss Willie Harris, the stenographer, and Mr. C. W. Nickols, the photographer. As we went along we passed the peach orchard of Wesley Love containing over 400 acres, all out in bearing trees. We went by the Tom Mchee old farm, settled perhaps in 1848, the G. A. Newton old homestead, both of which looked natural to me.

When we arrive at old Larissa we stopped up where the Masonic Hall, Methodist church, and the Cumberland church once stood. They were at one time good buildings, but now there is no sign that any building had ever stood there. We went on down to the square, and there was but one old store house standing, it being built by Billig & Westeimer and used as a store. Sid Westeimer moved to Houston and went into the undertaking business.

After looking around for a short time we then ran up to Capt. J. W. Bardwell's. He owns and lives at the Dr. R. D. Bone old home place.

We were met here by quite a large crowd of the old settlers, many of whom I had not met in 35 years. Capt. Bardwell, who gave the barbecue and dinner all at his own expense, is one of those old time men that loves his neighbors and old time friends better than he does gold or silver. He welcomed us all with an open heart and with feeling.

Rev. F. H. Ford of Jacksonville, then made a short address. Your humble servant was then called on for a speech. It appears that my reputation as a talker as well as eater is known far and wide. I did my best at both and you know my reputation as an eater. We had a fine dinner and after dinner we had the times of our lives, talking of the older times about Larissa and our old school days.

I met quite a number of my old school mates and a lot of old friends. Among the number was Dr. W. H. Pearson age 75 who came to Texas in 1845 and lives near Alto now. He now has his diploma of the old college. I will also mention Mrs. J. W. Wade of Mt. Selman who is 70, and came to Texas in 1846. She is well educated and one of God's noble women. She delivered the flag to my

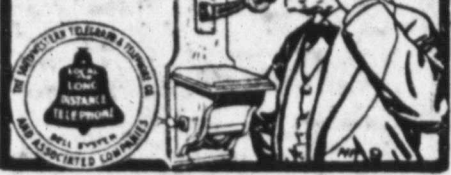

Farm Telephone Saved Child's Life

fathers, Capt. W. B. Campbell's, company, when they left for the civil war, making a speech that was remembered by a great many that were present, some of whom were in the company. W. O. Wade, R. "London and perhaps others. She is loved by everybody. I will also mention W. B. Kelough who is very old and feeble. His father was killed by the Indians near the old town, and was buried one mile west at the Kelough grave yard.

I spent Saturday night at Mt. Selman with my old friend Joe Brock and met quite a number of my old friends there.

While at old Larissa I felt like taking off my shoes and tying up my toes so that all my old friends might recognize me. I am confident that the old rocks are there that I used to stomp my toes on while running and playing with Congressman Charles H. Yoakum, B. F. Yoakum of the Frisco R. R., J. R. Curl Secretary of State and a host of others of less note.

Where the old college stood is now in cultivation, and the old town is all gone and but very little left to show where once stood the best town in East Texas.

I was glad I went and if they have another and I am alive I'll be there.

At some future time I may write you more of old Larissa and Larissa College that is now Trinity University and located at Waxahachie.

Your Friend,
W. H. Campbell.

Crack in Capital

Washington, July 5.—Despite the close guard that is being kept about the capital, an old man who said his name was William Daniels, was found hiding in the crypt under the dome of the building yesterday. He had slipped by the guards and was only found when a thorough search of the building was made.

The old man delivered a rambling speech about owning the building and that he was there to stop "murder in Europe." He is at the asylum hospital for observation.

Industry

How doth the busy little bee improve each shining hour It honey takes from every tree, and keeps it till it's sour. Ah, nothing hinders, nothing queers its labors here below; it does not always cock its ears, to hear the whistle blow. Wherever honey is on tap, you see the bumbler climb; for shorter hours it doesn't scrap, nor charge for overtime. It's on the wing the livelong day, from rise to set of sun, and when at eve it hits the hay, no chore is left undone. And when the bumblebees are possessed of honey by the pound bad boys come up and swat their nest, and knock it to the ground. The store they gathered day by day has vanished in a breath, and so the bees exclaim, "Foul play!" and sting themselves to death. There is no sense in making work a gospel and a creed, in thinking every hour will spoil that knows no useful deed. No use [competing with the sun, and making life a strain; for bees—and boys—must have some fun if they'd be safe and sane. Walt Mason.

Anthrax Prevalent in Southern Texas.

Dr. W. A. Davis, secretary of the State Board of Health, who returned Tuesday from an investigation of the prevalence of charbon or anthrax in South Texas, reported that he found this disease to be quite prevalent among cattle in that section of the State. He visited Matagorda, Jackson, Fort Bend, Wharton and Brazoria Counties. He said that steps are being taken by the local authorities to check the spread of this disease.

During his investigation, Dr. Davis said he discovered quite a number of cases of pellagra prevalent among the negroes in that section, and the death rate excessively high. He declared that this disease has already reached such a stage that the State will have to take up the matter.—Austin Statesman.

Cotton Conditions are Still Favorable.

Washington July 8.—Cotton conditions continued favorable during the week just ended, the national weather and crop bulletin today announced.

"In the northern portions of the cotton belt the weather was too cool for rapid growth," said the bulletin "and wet weather delayed proper cultivation, especially in Oklahoma, Mississippi and portions of some other states. The drouth in Texas was largely relieved, and cotton made satisfactory growth in that, as well as in most other states of the belt. Boll weevils continued to increase in Texas and are reported from several other sections."

The students Loan Fund Amendment to be voted upon, is being urged by representative Charles B. Metcalf, of San Angelo, who introduced it. It is a local option proposition, it elected, to be managed in any one county by the county commissioners, on vote, to tax the county 20 cents on the hundred dollars, to establish a fund to loan to students for education.

"FRAMES OF THE CONSTITUTION OF THE U.S.A." NO. 2

James Madison—"Father of the Constitution"

THE FOURTH PRESIDENT of the United States considered it a greater honor to be declared the Father of the Constitution than to have been elected twice to the highest office in the gift of his countrymen. No more ardent, intelligent, far-sighted and constant student of governmental problems ever lived than Madison. They were his life-long passion. He it was who labored with all his gigantic ability and indomitable will to have deeply imbedded in our National law those vital principles which forever guarantee to all Americans Religious, Commercial and Personal Liberty. In private life he was genial and social—yet temperate. Many a foaming glass of good barley-malt beer he drank with his bosom friend Thomas Jefferson—"Father of the Declaration of Independence." Madison died at 85 and Jefferson at 83; both were unalterably opposed to tyrannous Prohibition Laws, and advocated legislation which encouraged the brewing industry. Upon the tenets of the Constitution of the U. S. A., to which Madison devoted the best of his genius, Anheuser-Busch 58 years ago founded their great institution. Today 7500 people are daily required to produce and market their honest brews. Their chief brand, the famous BUDWEISER, is sold throughout the civilized world—the drink of your forefathers—the drink of the noblest men who ever lived—the drink of the great triumphant nations. BUDWEISER sales exceed any other beer by millions of bottles.

Ex-Senator J W Bailey Favors Separation of A & M College And the University.

In a letter to the Manager of the Executive Committee for the Promotion of Higher Education in Texas, Senator Bailey says:

"It is doubtless true that the University of Texas and the A. & M. College can be successfully conducted under the same control; but I feel certain that each can be more successfully conducted under a separate control. While I desire to see the A. & M. College separated from the University, I deprecate every act and all discussion which might create an antagonism between the two institutions. I am one of those who earnestly desire to see our splendid system of common schools still further broadened and perfected; I am also one of those who earnestly desire to see the University of our State made all that the sincere friends of higher education could ask; I am also one of those who believe that as the greatest agricultural state in the Union, Texas should have the greatest Agricultural and Mechanical College in the world, and I hope that those now in authority, and those hereafter called to exercise authority in our State, will resolutely set themselves to the accomplishment of that end.—Henderson Times.

Book Farming

Carl Means is a book farmer His melons may be seen at John Green's stand. He can show the very finest products of the land. He raises them according to the books, and he leads. He will do to follow. Say, Carl, write the Sentinel about it. Tell one thing in one letter and another thing in another letter. Let your light so shine that others seeing your good work will be constrained to do likewise.

Oscar Murphey reports that in 82 days from planting his Sudan grass he mowed it twice, and he confidently expects to mow it four times in all. He only has one third of an acre. The first mowing gave him about 1000 pounds, and the second mowing, which was 27 days from the first one, he got about 1200 pounds. If the third and fourth mowings increase he will get about 5000 pounds of hay from a third of an acre. He wants to bale it and then weigh it.

A small town is one in which those who have evening clothes refer to them as "dress suits."

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

To Help Fight Pellagra

New Orleans, La July 6. — Word was received by the state board of health today from Dr. Oscar Dowling who is in Shreveport conferring with Dr. Joseph Goldberg, federal expert, that the parish of Sabine had contributed \$500 to the erection of a hospital in the state to treat and study pellagra cases.

The town of Snyder, in Scurry county, had a two story negro hotel. It was blown up by dynamite. All the negroes have left there. How does that look? And that is out on the Plains where they can't get cotton pickers enough.

The timid old lady asked the baggage master if her parcel would reach "Frisco intact."

Said that official, "Let's see."

Thereupon, he threw it on the floor. Once, "That's for Chicago." Twice, "That's for Kansas City." Third, "That's for Denver." The fourth time, he dashed it on the floor with extra violence. The box broke. The contents were scattered about.

"You see, mum, it wouldn't reach."

Fortunately, you are not in that position. You do not have to RISK the trial of the various things you need in your home or business. You can pick out a well-known article, one that has been tried and tested for years under actual working conditions in other places. Among such articles the trade mark "Texaco" has secured for Texaco Products the recognition to which their careful preparation and their suitability for the purpose entitles them.

Attention Citizens.

The South and East Texas Development League will hold a special convention under the auspices of the Nacogdoches Commercial Club on Friday, July 16th. You can all help this meeting to be a success, if you will personally attend the convention and participate in its proceedings. The South and East Texas Development League embraces 56 counties with a Vice President at large from each county. Then there is an executive committee at large, and Mr. Lindsey was selected to be a member of the executive committee, the other cities on this committee are Beaumont, Palestine, Eagle Lake, Victoria, Brenham, and Bryan, and we expect from this committee, with John T. Scott, President of the First National Bank of Houston and also President of the South and East Texas Development League, as chairman, to definitely determine upon the larger plans that are to be carried out by this League towards the development of this great section of Texas, of which Nacogdoches is one of the most important centers. Please make it your personal duty to be present at this Convention and don't forget the time and date, 10:30 a. m. at the court house July 16th 1915.

Respectfully,
South and East Texas Development League,
By John Schmidt
Vice President for Nacogdoches County.

"In Memory Of Mozelle."

"Death rides on every passing breeze and lurks in every flower" and truly he plucked one of the fairest flowers when he stole quietly into the home of Mr. and Mrs. Childress, and carried their daughter, Mozelle, to a brighter, more beautiful clime than this.

Mozelle was a beautiful girl, only thirteen years old, just blooming into young womanhood and had endeared herself to all those who knew her. Her little friends were heart broken when the sad news of her death reached them, one of them expressed herself as well as the sentiment of others when she said, "Mozelle was the true blue." Mozelle was sick only a few days, and the doctors, nurses, loving friends and father and mother did every thing in their power to keep her with us, but our savior wanted her for a better world, than this, and has transplanted her where trouble will never enter.

So to her dear ones we would say,
She has paid the debt we all must pay,
And time with the precious Savior's help will heal,
Your broken hearts and to you reveal
The path of righteousness he would have us tread,
Which leads us to our precious God.
And when your work on this earth shall end,
He will take you from this world of sin,
To dwell with our loved ones forever more,
On that bright and beautiful shore.
One Who Loved Her.

Luncheon.

Mrs. C. W. Butt entertained with a lovely appointed luncheon Friday, the honored guests being Mrs. Geo S King and Miss Genevieve Johnson, both of Houston.

The lovely home was beautifully decorated with cut flowers, and potted plants. In the dining room a beautiful basket of Shasta daisies was artistically arranged in the center of the table. The national sentiment was the mode in which the hostess delighted her guests. Place cards for fourteen guests were found by each guest drawing a picture of the president, before entering the dining room, and finding the picture of the wife of the president she had drawn at her place. On the reverse side of the place card each guest read some incident in the history of the Liberty Bell. At the close of a six course luncheon, Miss Johnson read an interesting poem on The Flag.

During the afternoon, music and conversation made the time pass too quickly.

There was a lecture or address delivered at the court house last Saturday by Mr. Reedy on the cotton ware house bill. Quite a number of people were present. It is a subject of great importance to producers and buyers.

Note the important meeting to be held here next Friday, July 16, at 10 o'clock a. m. in the court house. It is every body's meeting. Come to it yourself, and bring others. Help develop East Texas, by your presence and by all your ability.

Concerning the Transfer of Pupils

Under the law all applications for transferring pupils from one district to another shall be filed in the County Superintendent's office prior to the first day of August. As I construe the law, any one may apply to have his children transferred for any cause or reason whatever, and in this application his reason should be explicitly stated so that the Superintendent may pass upon the matter intelligently. Under the law the Superintendent shall take in to consideration the cause or reason for transfer and if he thinks it is best for the child and best for the school he shall do so. If in his judgment it will not be best, he should refuse to make such transfer.

These transfers are entered on the book during the first part of August, and by the 15th of August each district should know how many pupils it will have for the following year and the amount of money to the credit of that district.

I have had forms made on which to make application for transfer and any one who desires one of them may get them by writing or sending to the office.

In making application for transfer, please see that the child's name is properly entered together with the sex and age and color and the said application is properly signed by the parent or guardian. If for this information is not furnished, it will be impossible this department to make transfer intelligently and according to law.

The transfer provision of the law is a very excellent thing but my observation in school matters has been that this privilege is very frequently abused.

I suggest to school people throughout the entire county that you examine yourselves carefully when you make application to transfer and see that you are not doing this because of prejudice or spite or special favor. Look well to the child's interest and your home schools interest and always bear in mind that it is your home's interest and County's interest that you build a school in your own district and stay with it.

It is too often the case that people because of some prejudice of some neighbor or some teacher, or because of some favor or possibly some relation to the teacher in the adjoining district that patrons see the "Creek bottom too swampy and too wide or the road too long and dangerous for their children."

I hope that every citizen in Nacogdoches County, will have that pride in his local school to want to see it the best and if this desire be sincere, he will certainly have manhood enough to get busy and contribute his efforts towards making his district the in the county.

Please do not delay this

transfer request until it is too late or the time is up and come to me as special political or friendly pull, and ask me to violate the law by transferring "Just this little bunch and no one will ever know it." Every citizen in the county should assist every officer in the county in enforcing the law, and if he is to enforce the law he should certainly not be asked to violate it.

Yours for better schools,
John B. Stripling,
County Superintendent.

Carranza To Enter Capital

Vera Cruz, July 13.—At 5 o'clock yesterday afternoon First Chief Carranza announced that after several days of fighting Mexico City now is in possession of Constitutional forces under Gen. Pablo González, and that they have immediately addressed themselves to the task of restoring order and feeding the populace.

Large quantities of provisions are now on hand and being forwarded. Civil government is being installed in the city. Representatives of the various departments of the national government have arrived there and others are on the way. In the near future when the government machinery is in running order, the first chief will remove the seat of government from this city to the national palace.

A large shipment of beans and corn, destined for the employes of several mining companies at Pachuca, Hidalgo, arrived last Saturday on the steamer Monterey and is being hurried to its destination. It came under Red Cross auspices, although not the property of that organization, and was expedited without formality or delay.

Mr. Bryan said: "I would never move one inch to speak for any body of women that opposed the Democratic party. The Democratic party, at the expense of labor and tribulation of spirit, has taken up and solved two paramount issues before the country—tariffs and currency reform—and any body of women opposed to a party which makes such a record, has not my support."—Ex.

Palacios.

What's matter at Palacios? Where is it and what is it? So many are gone or going thereto that a job printing office may get up a big lot of show cards to stick up on the front doors of vacated residences, with these words in big black letters: "Gone to Palacios." A letter to the Sentinel from there has been promised by one of the tourists, to tell us what is doing and the wherefores and whereabouts.

In an open letter to the people of Shelby county in the Optimist, of 13th, John McLendon responds to inquiries about the amendment, closing his letter in these words: "Therefore, I am advising my friends to scratch every one of the amendments that they do not thoroughly and absolutely understand." He failed to say which amendments he himself understands.

Paradise

There is a better world they say, a shining place across the way, where people weep no more; and all my days I have been told of jasper gates and walls of gold, and streets of virgin ore. I'm sure there is a better land, where we'll rejoice to beat the band, and lay our burdens down; but no one there thinks gold a prize, and none will pause to analyze the metal in his crown. The pictures of that joyous place with which they bring me face to face, are sordid, gross and mean; for one, I don't believe in such—a heaven for the idle rich, with gold and gasolene. The truth about that land is sealed; its glories have not been revealed men would not understand; and all the stories that we hold, of pearly gates and streets of gold, were writ by mortal hand. They do not measure values there as would a fourth rate millionaire; there's no such thing as cost; it gold is valued more than zinc, up where the angels nectar drink, then heaven is a frost. Ah, no, my friends that sunny shore, where we shall meet when life is o'er, has ne'er a use for coin; it has no gold along its pike; it does not measure values like Chicago or Des Moines.—Walt Mason.

Gone to Greece.

Harris Hrisikopoulos, brother of our fellow townsman, Willie Hrisikopoulos, who has been here for the past several years, left Sunday afternoon for East Moline, Illinois. Harris will visit friends and relatives there for about a week, and will then proceed to New York where he will take a steamer for Kallamata, Greece, to visit his brothers and sisters for a while Harris is taking quite a trip in view of the unsettled condition of affairs in Europe at the present time. Greece is not in the war at present, but may be drawn in at any time and Harris thinks he would be better for him, to be at home with his kin-people. We wish Harris a safe voyage and hope he will again return to make his residence with us. His brother Willie accompanied him as far as Jacksonville, returning Monday afternoon.

The City Council has been petitioned by the automobile owners of Timpson, to pass an ordinance prohibiting loafing in automobiles that have been left standing upon or near the public square, and this will give notice to the offenders in this case, that unless it is immediately stopped the council will take steps in the matter.

Russian Comment On German Reply
Petrograd, July 13, via London.—The Novoe Vremya in editorial comment on Germany's reply to the American note on submarine warfare, says:

"Every line of the German answer tramples on neutral rights and the honor of the United States. Every word breathes the solid conviction that America will not dare to insist upon her rights, and that America's cry about right, justice and humanity will remain empty sounds. Rejecting America's demands, German diplomacy transforms Germany from accused to accuser, who puts before the United States her own demands."

Germany vs U. S.

The Dallas News of 13th has a lengthy editorial on the why of our Germany controversy. It states that out of more than 100 U. S. newspapers tested there are not over a dozen favoring the German side of the argument, and these are nearly all biased by national prejudices. Therefore president Wilson, as the people's representative should stand firm in saying that Germany should not murder innocent Americans without giving them a chance, just because they are riding on the enemies ships. Germany wants every body to hide out, but Wilson claims right of way.

In the proposed amendments, there is, as usual, a nigger in the wood pile—and he may be either for or against. Somebody has an axe to grind. So, in the vote away from home, the saloon men are out after votes against it. They say it is designed by the state widens to gain votes, and will amount to most out on the Mexican border. "Quien sabe."

Nothing is said about organizing a brass band here. A good band is always a good thing, and helps to make up a good town. This is a fine opening, a long felt need. Somebody should dig up a teacher who will organize the band and put it into effect. It only needs a leader. It has been tried here before and proven good.

Station In Texas For Pellagra Study.

Austin, Texas, July 8.—The state health department was visited today by Dr. Joseph Goldberger of the United States public health service, who is devoting his entire time under that service to the study of pellagra. The investigation of pellagra was started in 1907, and last year Dr. Goldberger was made chief of this department, and since then several stations for treating the disease have been established in Georgia, the Carolinas and at Jackson, Miss., which are conducted under the supervision of Dr. Goldberger.

According to Dr. W. A. Davis, secretary of the state board of health, efforts will be made to have a pellagra station established in Texas. The board will attempt to gather statistics from the state so as to interest the public health service to such an extent that an expert may be detailed for the purpose of making a special study of the disease in this state.

San Diego, July 13.—Beginning as little formality as possible, Col. Theodore Roosevelt has just written President G. A. Davison of the San Diego Exposition that he will be a visitor to the Exposition during the latter part of this month, Colonel Roosevelt has engaged hotel accommodations in San Diego, the reservation to begin July 27.

In the letter, written from Oyster Bay, Colonel Roosevelt says in part: "It is a great pleasure to hear from you. I am happy to say that I shall be in San Diego to visit the Exposition but I would like as little formality as possible; for I hear so much of the beauty of the Exposition that I want to go around and see it."

Sixteen Patients In Three Days

Sixteen patients arrived at the Pasteur Institute in three days, Monday, Tuesday and Wednesday. All were victims of supposedly rabid dogs, and nearly half of the sixteen—seven persons—belonged to one family, that of Otto Huth of Karnes City.

None of the patients are in danger, according to Dr. J. W. Wilhite, head of the institute.

No patient was received at the institute Thursday.

FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine as this is sold under guarantee of money back if it fails to remove freckles.

Books.

Oh, writer, write a story that's full of vim and fire, of men who wade to glory through perils dark and dire. Write up the chap heroic who faces fearful odds, with calmness of the Stoic, and courage of the gods. For we are tired of fiction which doesn't hit the spot, which gives us polished diction in place of battling plot. Oh, when a man is weary, from toiling in the mart, he wants a volume cheery, that stirs his jaded heart. Below the mark of zero is Artful Workmanship; he wants to meet a hero who makes things hum and zip. Oh, writer fair, determine your method in advance. If you must write a sermon, don't label it Romance. We hear about a novel that is a gem indeed; we take it to our novel, and there sit down to read, expecting something classy, and find it is a frost; the publishers were brassy who stuck us for the cost. Don't fool the weary Croesus, don't touch him for his kale; don't hand him out a thesis, and say it is a tale. We're tired of preachments mellow that masquerade as yarns; oh, give us something yellow, like Gunter's Mr. Barnes.—Walt Mason.

The Young Ladies Bridge Tour.

Miss Fannie Bert Nelson was hostess to the Saturdays Bridge Club on Friday evening.

Tables were placed for sixteen players in the house where beautiful cut flowers were artistically arranged, and on the cool vine covered veranda.

Through the evening punch was served by Miss Martha Nelson.

At the close of the games Miss Annie Lou Summers had high score and was presented with the handkerchief. Mr. Ellis Ivey received a beautiful tie for his reward of merit.

Lovely refreshments of ice cream and cake were served.

Misses Fannie Benefield of Jefferson and Donna Buford were out of town guests.

Ball Game Friday.

Rusk defeated Nacogdoches yesterday in the second game of the series by the score of 8 to 0. The feature of the game was the pitching of Mc Larty for the visitors. He held the home boys helpless striking out ten men and only allowed three scattered hits. The last game of the series will be played this afternoon. Then our boys are out of town for seven games. playing Sunday in Lutkin and Monday, Tuesday and Wednesday at Rusk. Thursday, Friday and Saturday at Crockett and on July 19, 20 and 21 we play Alto at Nacogdoches.

LIV-VER-LAX.

All the Effectiveness, Not the Effect of Calomel.

LIV-VER-LAX is one of the most important medical discoveries of recent years. For a long time medical experts, realizing the harmful effects of calomel, have been striving to find a liver cleanser that would be just as effective as calomel, and yet be absolutely harmless in its action. Recently this remedy was actually put forth by L. K. Grigsby, in his LIV-VER-LAX.

LIV-VER-LAX is a harmless vegetable compound, designed solely for the treatment of liver complaints. The immediate favor it has met with in thousands of homes is proof positive of its real value.

If you feel worn out, tongue coated, and skin sallow, don't delay until it becomes dangerous, nip the trouble in the bud with LIV-VER-LAX. Insist on the genuine, bearing the signature and likeness of L. K. Grigsby, which is guaranteed to give satisfaction or money refunded. For sale by Stripling, Haselwood & Co.

The difference between men and boys is that men are willing to wait until next year, while boys want it now.

The post office at Decoy, six miles south of here on the H. E. & W. T. Ry., was burglarized Wednesday night. What damages were done has not been learned by the Sentinel. Post Master Donagan of Nacogdoches informed the U. S. authorities at Houston, and was instructed to turn the matter over to the local officials. City Marshal Woodland went down to Decoy to investigate.

From North Church

Farmers are wearing a glad smile since the recent fine rains, and very few discordant notes have been sounded.

The health of our community is fine.

Mrs. Ethel Sheldon of Galveston is here to spend the summer with her mother, Mrs. Sparks.

Mrs. Ella Alders and husband of Houston have been visiting friends and relatives in our neighborhood.

Jessie Millard our hustling ginner, and farmer made a business trip to Alto last week.

The grave yard working at North Church last Wednesday was well attended. The people had a mind to work, and several were heard to say: "that more work was done than had been at any previous working. Beneath the sod at Old North Church sleeps many of the pioneers of Texas whose toils and efforts have made our day possible. There lies aunt Maria Millard of blessed memory and a host of others. Shall we forget them? Never! All who are interested are invited to come back on Wednesday, the 28th inst and finish the work, so nobly started.

In the list of Fourth Class Texas Postmasters newly appointed appears the name of William R. McCrary, at Cushing, Nacogdoches county. This will be pleasing to the numerous friends of Mr. McCrary and will be satisfactory to all interested. The Sentinel congratulates him and his patrons.

They Write Every Day

Every day Foley & Co. receive letters from grateful men and women telling how Foley Kidney Pills cured them of backache, sore muscles, stiff joints and other kidney and bladder troubles. Is very quick and to relieve lumbago and rheumatism due to kidney trouble. No other remedy has a longer record of cures. Swift Bros. & Smith eod

H. T. Crain has ordered the Sentinel to his new address, which is 2409, 33rd street, Galveston, Tex. and he has also instructed Joe Wolsiefer to ship his household goods to him there.

Summer Aches and Pains.

A backache that cannot be explained by having "sat in a drait" is more than likely the result of disordered kidneys. Foley Kidney Pills promptly relieved backache, sore or stiff muscles and joints, rheumatism, and sleep disturbing bladder ailments. They put the kidneys in sound, healthy condition. Death of Mozelle Childress.

From Saturday's Daily:
Mozelle, age 13, the oldest daughter of Mr. and Mrs. Gill Childress, died this morning about nine o'clock.

Her illness was only four days duration, and her death is a sad realization to her many friends.

Funeral Of Mozelle Childress.

From Monday's Daily:
The funeral services of Mozelle, Childress, the daughter of Mr. and Mrs. Gill Childress, was held at the Oak Grove Cemetery, Sunday afternoon, at five o'clock, Rev. S. S. McKinney of Jacksonville, former pastor of the child, conducted the services.

About twenty or thirty young friends of Mozelle's showed their tribute of love and sympathy in carrying beautiful bouquets of white flowers, as they marched in procession following the hearse.

The floral offerings were many and beautiful in their character of purity and fragrance.

The funeral was one of the largest attended in this city.

Are You Feeling Fit?

Do you envy the man or woman of untiring energy, strong body and happy disposition? All these depend on good health, and good health is impossible when the kidneys are diseased. Foley Kidney Pills help the kidneys cast out poisons that cause backache, rheumatism, and other symptoms of dangerous kidney and bladder troubles. Swift Bros. & Smith. eod

A phone message to Sheriff Spradley came from Libby settlement, Saturday, that the house of Bud Lockett a colored man had been burglarized, and a lot of money stolen. Holman made a complete confession to Spradley and told where he had spent the money, buying clothes and provisions. Holman had not been seen in the community, and the only clue to work on was that Holman had been seen with a key that fitted the trunk that the money was in. Holman wants to plead guilty to petty theft and work out the fine on the road but he will have to answer to the charge of burglary. All parties are negroes. Holman has been living out in the vicinity of Rusk school house, about four or five miles north east of town, and he had a big bunch of keys of various kinds.

Notice of Final Account

The State of Texas,
To the Sheriff or any Constable of Nacogdoches County, Greeting:

J. D. Moore, Guardian of the estate of Gracey Green, Ruth Green, Evie Green, Lucile Green and Mamie Green, minors, having filed in our County Court his Final Account of the condition of the Estate of said Gracey Green et al minors, numbered 1330 on the Probate Docket of Nacogdoches County, together with an application to be discharged from said Guardianship.

You are hereby commanded, that by publication of this Writ for twenty days in the Nacogdoches Sentinel, a Newspaper printed in the County of Nacogdoches you give due notice to all persons interested in the Account for Settlement of said Estate, to appear and contest the same if they see proper so to do, on or before the November Term, 1915, of said County Court, commencing and to be holden at the Court House of said County, in the city of Nacogdoches on the third Monday in November A. D. 1915, when said Account and Application will be acted upon by said Court. Given under my hand and seal of said Court, at my office in the city of Nacogdoches this 1st day of July A. D. 1915.

LIV-VER-LAX.

All the Effectiveness. Not the Effect of Calomel.

LIV-VER-LAX is one of the most important medical discoveries of recent years. For a long time medical experts, realizing the harmful effects of calomel, have been striving to find a liver cathartic that would be just as effective as calomel, and yet be absolutely harmless in its action. Recently this remedy was actually put forth by L. K. Grigsby, in his LIV-VER-LAX.

LIV-VER-LAX is a harmless vegetable compound designed solely for the treatment of liver complaints. The immediate favor it has met with in thousands of homes is proof positive of its real value.

If you feel worn out, tongue coated, and skin sallow, don't delay until it becomes dangerous, nip the trouble in the bud with LIV-VER-LAX. Insist on the genuine, bearing the signature and likeness of L. K. Grigsby, which is guaranteed to give satisfaction or money refunded. For sale by Stripling, Haselwood & Co.

Cow Hides Wanted.

Hides are in good demand and are bringing good prices and it is worth while to handle them right. In skinning try not to cut or score the hide. Spread it out, flesh side up, and give it a heavy shower of salt. This is absolutely necessary at this time of the year. Fold it up and put it in a sack. Write your full name and address on two tags and one outside. Ship by express to A. Golenternek & Co., Tyler, Texas.

Until further notice we will pay 18 cents per pound for hides handled according to the above instructions. We remit the same day that we receive the shipment and we also furnish shipping tags. Horse hides bring from \$1.50 to \$3.00 each, according to the size. We also handle wool.

Baker So Weak—Could Not Do Her Work—Found Relief in Novel Way.

Adrian, Mich.—"I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and it told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong."—Mrs. ALONZO E. AKERS, 9 Tecumseh St., Adrian, Mich.

Not Well Enough to Work.
In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family, on meagre wages. Whether in house, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

Big Pic Nic At Chireno.
Mrs. R. R. Wilson autored to Chireno and back yesterday, Friday, and there she participated in a big picnic and witnessed a baby show, which was under the management of the Mother's Club, and was extremely enjoyable to her and to all who attended. She met many of her old friends, relatives and schoolmates of her younger days, 56 years ago. Events of this kind bring up feelings that are not easily described.

James D. Greer called by the Sentinel office today, Friday, on his way out to Nat where he was phoned to come and vaccinate cattle for black leg. One farmer lost \$100 worth of cattle, and others are in line. Vaccination prevents black leg, and costs only ten cents a shot. Greer charges nothing for his services. There are other diseases among live stock that are preventable. Come to the Farmers' Short Course and learn it.

Allan Seal brought up a stalk of cotton and a hill of, not a hill of beans, but a hill of ground peas, or Spanish pea nuts, from his Dolen ranch. Nothing phenomenal about it, but he said that he did not carefully select these samples, and yet they showed up well. There were 72 forms on the cotton stalk. And the peanuts were rank and well advanced. He says he has one hundred acres in each, cotton, pea nuts and corn besides other crops all very promising. He says that section missed one of our last rains, and got set back.

Watermelons, cantaloupes and vegetables are superabundant on our streets and in the stores. Peaches, too, are not scarce, at two baskets for a quarter—And tomatoes also.

More About Cream Business

After reading what M. S. Muckleroy and Robt Lindsey have to say regarding the foreign purchase of cream by our people I can't forego adding my endorsement to these articles. It there was any excuse whatever for this manner of doing business I should not have a word to say—but I would like for anyone to show me any thing saved in out of town purchases of cream. I wish to say in the out set that I am in no way connected with either of the cream factories here, neither have I a cow but it does seem ridiculous that with such Jersey herds as M. S. Muckleroy, W. S. Beason and others have kept at an enormous expense in consequence of high priced feed and then can't dispose of the milk, just because our people persist in going to Dallas and elsewhere for cream. I believed the cream made here is just as good as cream made in Dallas, but for the sake of a argument will say it is not as fancy as the Dallas and Shreveport cream, would it not put all dispensers on an equal footing if they handled the same product and I am sure they would sell just as much. I am told that not less than \$500 per month goes out of this town for cream. If this money was spent buying milk from the dairymen every dollar would be spent in this town for groceries, dry goods, hardware, etc. Some of our people have almost their entire capital invested in Jersey milk cows, relying upon this almost entirely for a living and now they wake up to the fact that there is practically no market for their milk. Why? Because we are using the product of the cows over at Shreveport and Dallas. All this monkey doings has grown out of the practice that each fellow is attempting to make the people believe he has a superior article when in fact the cream made here is as good as the brought in cream. So please stop your foolishness.

School for Masonic Orphans.

The suicide and mysterious career of the intellectual and accomplished educational maniac, Fred Holt, of Texas, and many other lands, has been quite a puzzle to the public. Who he really was and what he really did and said, from start to finish, is bewildering, and even more than that. The case would make fine material to weave into a novel.

The Sentinel regrets to announce that Mrs. Rosine Tomek died in Houston on Thursday afternoon, July 8, 1915. She was the mother of Frank P. Tomek, who resided in the southern suburbs of Nacogdoches a number of years and who returned to Houston last fall. The Tomeks had a number of friends here, who will be interested in this sad event.

Few Rats Remain in Crescent City
New Orleans, La., July 9.—After a year's work, United States government officials today announced that they had killed 369,151 rats, with a saving of \$800,000 to property owners. The work goes on eliminating rats.

Don't Grouch.
Some people are funny on the news in the Sentinel. They grouch if we don't publish about the other feller, because they want to read about it. They also grouch if we publish it on themselves, because they don't want the other feller to read it. And again, they never give us any thing to publish, and then grouch and say, "nothing in the Sentinel," without even reading it to see.

Morgan Contracts Were Enormous

New York, July 5.—In explanation of the part the firm of J. P. Morgan & Co. has taken in the furnishing of war munitions and supplies for the European nations at war, it was stated authoritatively here the firm had handled contracts amounting to more than \$500,000,000 for the account of foreign governments since the war began.

Of this amount about \$400,000,000 worth has been purchased for the British government since the Morgan firm was appointed as agents for that government in this country and \$50,000,000 worth for the French government contracted for within the last month. The Morgan firm having been appointed by the French government to act in the same capacity as it does for the British government.

Mexicans Elude American Posses.
Brownsville, Tex., July 7.—Despite the efforts of a posse of a thirty-five North Cameron county citizens, six state rangers and a half dozen county officers to corner a gang of twenty-five alleged Mexican raiders near the coast, 40 miles north of Brownsville, the raiders have made good their escape and are now believed headed for the Rio Grande, according to a report received by the sheriff's department last night.

No shooting has occurred from the raid as far as known. Heavily armed, the party of Mexicans swept through ranches in the north end of the county, taking livestock and saddles and other articles in the full sight of the owners, who, outnumbered and out-armed, could not resist. In one case a Mexican traveling along a road with a rifle was stopped and relieved of his gun.

The raid by this band is the first instance of the kind in this section since the early seventies.

Big Defeat of Villa.
Galveston, Texas, July 7.—A cablegram from Vera Cruz announced the overwhelming defeat of the Villistas under General Rafael Buelna, in an attack on Tepic City. It said several hundred Villistas were killed in the fight. It is also reported Villa has sentenced General Juan Medina to death for failure to capture Guadaluajara.

Dallas Probably will be Indorsed
At the meeting of the directors of Chamber of Commerce Tuesday night, Dallas will probably be indorsed for the next National Democratic convention. Dallas is making a strenuous fight to induce the National committee to come South with the National assemblage of Democrats and Austin will show her good will for Dallas in the matter.—Austin Statesman.

In the City of Mexico times are terrible, first because of danger to life, liberty and personal interests. Law and order do not exist prevail. There is a military shape to every thing, but confusion reigns. The United States authorities at Washington view these matters seriously [and with little hope of improvement.

Keeping Your Word.
"I'll come around Monday," the carpenter said, "the day after Sunday, and build you your shed." He seemed to be talking with scrupulous care, not joshing or mocking or handing hot air. He seemed to be feeling the force of his words, not recklessly spilling like cheap mocking-birds. I said to my auntie, "The man will be here, to build the cow's shanty, so dry up your tear," he booming up out of the murk, no toiler was looming in sight for the work. I watchfully waited, all burdened with care; no workman came, weighted with hammer and square. My cow and bell wether stood out in the rain, and perished together in sorrow and pain. He came with excuses a fortnight too late; his blood and his juice is splashed over the gate. Though skillful and handy, your aims are absurd, unless you're a dandy at keeping your word. The pledge that is spoken by loose, careless tongue, the promise that's broken while yet it is young, will hurt like the dickens when you need a boost; like curses and chickens they come home to roost.—Walt Mason.

The boll weevil and the army worm are watched for now in the cotton crops. Some of the farmers are finding these bugs, but not in alarming numbers. Cotton crops are reported to be very fine.

Major V. N. Zivley To Survey Old Road

Austin, Texas, July 8.—Governor Ferguson today appointed Maj. V. N. Zivley of Houston to survey the old Kings' highway from Nacogdoches to San Antonio. The special session of the Thirty-fourth legislature made an appropriation of \$5000 for this work, the money to be expended under the supervision of the governor.

Major Zivley was in Austin today and conferred with the governor. The work of surveying the old road is to begin soon.

Mrs. Lipscomb Norvell of Beaumont, who first suggested that the legislature make an appropriation for surveying the King's highway from Nacogdoches to San Antonio, will be in Austin Monday for a conference with the governor and Major V. N. Zivley of Houston, who has been appointed by the governor to make the survey.

Mrs. Norvell has in her possession a number of old field notes which are to be used in locating the road.

Referring to the above items, it is a fact that there are at least three well known men in this town who were born here more than 70 years ago and know exactly how the old road ran, and was said to run all the way from Nacogdoches, Tex., to Natchitoches, La. They are Felix Roberts, Cal Fall and Jim Curl. There may be others along the line even older. There are others not so old who know by tradition or data of one kind or another.

If the little joker and church despoiler who took the light globes from the South Side Baptist church will ease them back at once, we will accept the funny fun, otherwise we will work the clue we have, which may prove serious. — Timpson Times. The Members,

Rev. Cunningham Coming To Center.

The following communication is self-explanatory: Editor Optimist:—

Timpson, Texas, July 9.—My father, J. N. Cunningham, and myself are holding a tent meeting here. We will close this meeting July 12th or 13th, and will begin a meeting in Center July 28th. I will preach in Center on the 3rd Sunday in July, the 19th.

Rev. H. N. Cunningham.

Relative to the meeting which will be started here under a tent July 28th, Rev. J. N. Cunningham, pastor of the Presbyterian church in Nacogdoches, will be assisted by his son, Rev. H. N. Cunningham, pastor of the Presbyterian church in Tenaha. The meeting will be run for several days, at the close of which this congregation will be organized here.—Center Optimist.

Order for Bond Election and Notice.

Notice is hereby given that an election will be held at the City Hall in the town of Nacogdoches within the Nacogdoches Independent School District, on the 14 day of August, A. D. 1915 to determine whether the bonds of said district shall be issued to the amount of Forty Five Thousand Dollars, payable forty years from their date, and bearing interest at the rate of five per cent per annum, for the purpose of constructing and equipping public free school buildings of brick or concrete material, and purchasing sites therefore, and for the purpose of constructing permanent repairs of brick and constructing additions of brick material to the Nacogdoches brick public free school buildings, and whether there shall be annually levied, assessed and collected on all the taxable property in said district, for the current year and annually thereafter while said bonds, or any of them, are outstanding, a tax sufficient to pay the current interest on said bonds and provide a sinking fund sufficient to pay the principal at maturity.

Beeman Strong has been appointed manager of said election, which shall be held as nearly as may be possible in conformity with the general election laws of the state.

No person shall vote at said election unless he be a qualified voter under the Constitution and laws of this state, and a tax payer in said Nacogdoches Independent School District.

Those in favor of the issuance of the bonds and the levying of the tax shall write or print on their ballots "For the bonds and the tax"; and those against the issuance of the bonds and the levying of the tax shall write or print on their ballots "Against the bonds and the tax".

Said election was ordered by the board of trustees of said Nacogdoches Independent School District by order passed on the 13 day of July, A. D., 1915, and this notice is issued pursuant to said order.

Dated this 13th day of July, 1915.

F. H. Tucker, President.

Attest: C. A. Hodges, Secretary.

Notice.

Whereas, a petition has been presented to the board of trustees, signed by the requisite number of the qualified property tax paying voters of the district, praying that an election be ordered within said district for the purposes hereinafter stated therefor.

Be it ordered by the board of trustees of Nacogdoches Independent School District that an election be held at the City Hall, in the town of Nacogdoches in said Nacogdoches Independent School District, on the 14th day of August, A. D. 1915, to determine whether the board of trustees of said district shall have power to annually levy and collect a tax upon all taxable property in said district, for the support and maintenance of public free schools in said Nacogdoches Independent

School District, of and at the rate of not exceeding 50 cents on the \$100.00 valuation of taxable property in the district inclusive of the taxes necessary to provide interest and sinking fund for school building bonds of said district; such tax, if voted, to be levied and collected for the year 1915 and annually thereafter, unless it be discontinued as provided by law.

Beeman Strong is hereby appointed manager of said election, and he shall assist two judges and two clerks to assist him in holding the same.

None but property tax payers who are qualified voters in said Nacogdoches Independent School District shall vote at said election.

A copy of this order signed by the president and attested by the secretary of this board shall serve as proper notice of said election, and the president shall cause notice of said election to be given in accordance with law.

This 13th day of July, A. D. 1915.

F. H. Tucker, President.

Attest.

C. A. Hodges, Secretary.

Phil Draiss and family, of Shreveport, passed through Nacogdoches yesterday on their way to Galveston. Mr. Draiss is making a log of the road from Shreveport to Galveston and made his report from here to Mr. A. Currie, Jr., who is a member of a movement to secure a good road from Shreveport to the coast through East Texas. Mr. Draiss says the road from Shreveport to Nacogdoches is a fine country road and as good as he ever traveled over. This log will show quite an influence in getting a fine dirt road across East Texas from north to south.

George H. Muckleroy, showed the Sentinel some exceedingly fine specimens of ponderosa tomatoes grown in his garden this year. Some of them weighed a pound and a quarter each. He was generous enough to open the basket and say help yourself, and he also took this editor into his garden and turned him loose to feast himself. Oh, it looked fine, and proof was made.

Ice Cream Treat.

Capt. H. H. Cooper, proprietor and manager of the Marigold Ice Cream Factory, gave the Sentinel office a treat Monday afternoon that was greatly enjoyed by the entire Sentinel force. There are nine of us all told and we all had a fill of ice cream, Marigold Creamery Ice Cream home made, pure article, as fine and as palatable as can be made in any factory, and from our own home cows, and no chemicals. Thanks very much.—It was delicious.
