Delinquent Taxes Now Due

Austin, Texas, Aug. 9.—Enactment by the Thirty-fourth Legislature of what is generally known as the delinquent tax law, which is now in effect, means the ultimate collection by the state of Texas of upward of \$5,000,000, according to estimate of tax collectors who have given study to the proposition. Since this law has been in effect, June 19, 1915, the comptroller's department has had a force of men and women clerks at work on the delinquent tax rolls gathering information as to the amount of delinquent taxes in each of the 250 counties in Texas. There are now upward of twenty clerks thus engaged.

As fast as a county is checked up, the information is sent direct to the county tax collector, and under the law it is made mandatory upon him to proceed in the collection of these taxes. The comptroller has already sent out lists to a number of counties; but it will be some time yet before the task has been completed.

As soon as the collector gets the names of the delinquent, and the amount of back taxes due he sends a notice advising such delinquents and unless

it need not be expected that those greasers can be kept quiet in the interior of Mexico.

the tax is paid within a certain time, the collector is empowered to institute suit. This must be done, however, through the county attorney. It has come to light that there are certain large estates in the state that are over ten years in arrears in their taxes. They must now settle, or their property will be sold to satisfy the demands of the state.

Under the old line of procedure, special tax collectors were appointed or selected by each county and such appointment was approved by the collector.

By this plan, considerable back taxes were paid, but certain large taxpayers in many instances managed to evade payment.

There was no inducement for the collector to take a hand at collecting such taxes, but the new laws allow that official a commission of 5 per cent on all taxes so collected. Collectors throughout the state favored the passage of this law.

Within a short time, the comptroller will also announce the appointment of three auditors, whose duty it shall be to travel over the various counties and inspect the records of county officials. The last Legislature made an appropriation for this purpose which becomes effective on September 1. These auditors will be vested with authority to inspect records of various county officials who have dealings with the state, and whose accounts have to be audited and approved by the state.

To Repair State Capitol

Austin, Tex., Aug. 6.—Capt. Joe Owens, state superintendent of public buildings and grounds is getting his plans in shape for the general renovation of the statehouse. It will be recalled the last Legislature made an appropriation of \$125,000 for this work. Plans are to be submitted by several architects from over the state. Captain Owens, who is by profession a contractor and builder, will have general personal supervision of the work. The improvements will include a new plumbing system and material repairs to the present power plant. This appropriation will become available on September 1.

The Rain.

It is probable, from all reports, that there was a good rain Tuesday afternoon in nearly every part of the county. Some sections may have been left out.

In the town of Nacogdoches the rain was light. The clouds looked very much like a big rain was gathering here from all directions, but in the end it all thinned out to a light shower.

GILLES HALTOM, Manager.

Aug 4th Anniversary

Twenty-eight years ago Aug. 4, 1887, some events occurred that may be recalled.

One event was the state wide prohibition election. Wm. S. Herndon and Tom H. Bonner of Tyler had both made big pro speeches here. The county voted wet and so did the state.

The eventful "Battle of Pottowottomie," a local race conflict, occurred here that night. Two negroes were killed and Giles Haltom was badly wounded in the leg. Guns and pistols were used, and probably 100 shots were exchanged between an armed bunch of negro men of various ages and another such bunch of white boys, all youthful. The negroes were vanquished and all fled for their lives. Josh Henson and Giles Haltom always remember the anniversary, and have a memorial greeting and a reminiscent rehearsal.

The occasion of the event was that a patent medicine company using the name of Pottowottomie was giving nightly open air entertainments, which drew big crowds to their show, located about where S. W. Blounts residence now stands. "The boys" would slip around behind "the coons" and suddenly push their knees from the back, causing the victim of the joke to tumble backwards, and thus provoke a laugh from the observers. Anger arose, and "the coons" organized for armed resistance and, on this particular night, charged upon "the boys" in regular military style, led by a daring buck named Levi Amason who had the reputation of a dare devil, and repeatedly proved it. "The boys" were fixed, and on the alert. When they saw the advancing negroes they met them at short range. There was "something doing" right now. The crack of fire arms was like a hot battle.

"The boys" won. Levi Amason was missing. Peace followed. Amason had subsequent shooting scrapes and in one of them he was killed, up about Texarkana.

As to Cushing P. M.

When Wilson was elected president Taft was defeated but he congratulated and now backs up his successor.

When the governor of Texas was elected, the loser bowed gracefully.

When Lufkin licked Nacogdoches, we said bully boys, (base ball).

When the new postmaster at Cushing got the plum we expected the losers to act that way too. A good loser is greater than a grouch. So, we joined in the chorus.

But Cushing has some folks that are not quiet. They write us. Hence, this item is to say, let us drop it and look ahead.

Burglaries in Houston are becoming monotonous, even tiresome, and the police is greatly stirred, while the people cry out.

For Peace in Mexico.

Washington, Aug. 2.—The United States has decided to ask the co-operation of South and Central America in the next step to restore peace in Mexico. The ambassadors from Argentina, Brazil and Chile and the ministers from Bolivia, Uruguay and Guatemala, have been asked to confer with Secretary Lansing here Thursday.

While the state department characterized the coming conference as informal, the sentiment has been growing that the next step in the Mexican situation should be one which would meet the approval of the world and should be taken in concert with the nations of Central and South America.

The three ambassadors were mediators in the Niagara conference in 1914. The three ministers are, in point of seniority, at the head of Latin American legation corps. Action in concert with the Central and South Americans would be in line with President Wilson's plan for a closer relationship between the United States and those countries and is planned to show that the United States considers the Mexican question the common cause of the Pan-American group.

State Industrial College

A meeting of leading business men was held at the city hall at 4 p. m. Thursday in response to a solicitation by Mr. H. R. Herndon, representative of the Texas Industrial Congress.

The meeting was called to order by D. K. Cason, who nominated W. T. Wilson for Chairman, and Mr. Wilson was unanimously elected. Dr. J. E. Mayfield was formally elected secretary.

On request Mr. Herndon explained the object of the meeting and incidentally, the purposes of the Congress. This movement he explained, was started by the late lamented, Henry Exall of Dallas, who spent his money and gave his life to the cause, which is to educate, elevate and advance the agricultural interests of the state. The officers draw no salary. Voluntary contributions support the work. The leading feature is to inspire and promote prize contests in agricultural products. There are 34,000 contestants on the list, and to carry out the work there is money needed. One cent to mail a circular to each of the contestants would cost \$340. There are many such expenses, and Nacogdoches is requested to chip in for about \$200.

On motion, Charles Perkins, E. H. Blount and Charles Hoya were appointed to canvass the town today, Friday, to raise \$200.

Better farming is now the rage, and this will lead to general prosperity.

Reflections on East Texas.

Dr. J. E. Mayfield, Editor Sentinel:

A few days ago I met, in Houston, a drummer who had recently made a trip over a considerable section of Nacogdoches county, and he had a great deal to say in regard to the many miles of good roads up there, and made many suggestions, worth while, in regard to the building of other good roads in the county. He went on to say that good roads, telephone and automobile had converted the whole country into a place in which it was a delight to live and where prosperity came to those who would get out and rustle for it. There is no doubt in my mind that there are more good lands in Nacogdoches county than in any other county in east Texas, with the possible exception of Rusk. I say this because I want to keep on the good side of Robert T. Milner and because also of the fact that many of the best citizens of Nacogdoches county came from the good old county of Rusk. And lest John B. Long and our mutual friends Imboden and George B. Terrell might get offended we had as well add Cherokee county to the list.

When the drummer spoke so eloquently of good roads memory carried me back a few years when there was no railroad at Nacogdoches, when Henderson was the nearest railroad town and when Josh Millard did practically all the hauling for the merchants of Nacogdoches. Hense Burrows and a few others were also in the game, but Josh was in it every day in the year, it I remember correctly and he knew every man woman and child between Henderson and Nacogdoches and could call them by their first name. Josh Millard drove a team of four fine mules and what this team could pull was a sight. Sometimes when roads were bad he would work six mules. On the lead mules he had a frame of some kind arranged on the hames and on this frame were six brass bells of different sizes. As he drove along the road the tinkling of these bells in musical chime could be heard at least half a mile, and every child as far as it could hear the bells knew who was coming and sat on the gates and fences until he and his team passed on out of hearing. Josh would often walk miles and miles by the side of his team, with his long whip in his hand, and he could pop that whip in such way that it would almost play a tune. When the roads were at their best it took two days to go from Nacogdoches to Henderson, the camp at the end of the first day being made at Furlough creek three miles south of Mt. Enterprise and the next night in one of the wagon yards in Henderson.

In those days there were several Nacogdoches county boys working in the stores of Henderson and in other business. Bill Mims and Elliott Mims were there, so was John Cox and John Hardeman, George Partin was buying cotton for some big firm, and

so was Buck Parks, who lived at the foot of the hill two miles from Henderson. If I am not mistaken Buck Parks married a sister of Hon. H. V. Fall of Chireno. He was a good man, and never forgot a friend. Jim Curl also was there from Chireno and always had a good word for the Nacogdoches county folks. The first time I ever saw Link Sturdevant, he was weighing cotton in Henderson for Crow & Baldwin, and the first time I ever saw Ben Wettermark, was also in Henderson.

The first shotgun I ever owned was bought from B. Brachfield, father of ex-senator Brachfield who is now my personal friend. It was a muzzle-loading affair and had the biggest hammer of any gun I ever saw. Nobody showed me how to use the gun. When I got home, down there in the sticks three miles north of Melrose, I loaded the gun and struck out to get some squirrels. Pretty soon a squirrel appeared and when in about ten feet of where I stood I cut down on it and missed it clear light. This happened a dozen times. Finally I told my father about it and asked that he take the gun back to Henderson and get my money back. He requested me to show him how I fired the gun when I saw a squirrel. I placed the gun with the stock against my right shoulder and shut my right eye, instead of the left. He showed me where the trouble lay and after that the squirrels had to climb the tallest trees to get out of range of that old single barrel shot gun.

These were great old days. Elwood Seale of Melrose, Jim Stallings, Jim Whitehead, dead these twenty years, Kit Patton, John Dickinson, Frank Dickinson, Sam Hall and many others will call them to mind if they see this article. I heard Elwood Seale say on a certain trip to Henderson that he unloaded his wagon and actually rolled two bales of cotton three hundred yards in order to get around a bad place in the road. The mud was two feet deep and smelled like a hog pen. If Elwood Seale sees this he will remember the time and the occasion.

Another old time wagoner between Nacogdoches and Henderson was Billy Lewis or Billy Huey as we knew him, and a better colored man never lived. I knew him well and many is the time he and my father camped together when I was a boy, seven or eight years old.

Like a vision from long ago, these things occur to me and I write them. But the road from Nacogdoches to Henderson was long and dreary, especially when the weather was bad. The night or rather the morning on which Dud March was killed, a distance out of Mt. Enterprise, we were camped just north of the town at a spring, and heard the guns.

What romance and tragedy lurks along this old time road from Nacogdoches to Henderson. I wish I could go over it again. I should enjoy a taste of the waters of Beech

Prayers For Peace

The British Empire, so extensive that the sun never sets on it, and so populous, united in populous, united in prayers for victory. The German Empire, so heroic and patriotic, are praying along the same lines, and the Kaiser says God is with them.

The infallible Pope of Rome, whose followers are innumerable, has prayed for peace, en masse.

America too has prayed from a neutral point of view, or from humanity.

Well, all that is all right. But then why not say let us quit, while we say let us pray.

In Years to Come

Money comes in easy, when a man is young, and in manner breezy to the birds it's flung. "He's a tightwad fossil who would save," he cries, and in rout and wassail, fast the money flies. Thrown into the gutters, thrown at drakes and ducks! "There is more," he mutters, "where I got these bucks." Youth, alas, is fleeting, as a pair of steers, and there's no repeat of the sunny years. You don't duly prize it, boys so blithe and gay! You don't realize it, till you're growing gray! Youth is swiftly speeding, years that won't return, and you'll soon be needing all this coin you burn. There is nothing sadder in this vale of tears than a worn-out gadder, crippled by the years, toiling, poor and lonely, up and down the street, sighing, "If I only had some grub to eat!" There is nothing tougher than to see a gent starve and weep and suffer, when with age he's bent. All the battered relics who for handouts crave, once were giddiealecks who refused to save. Don't be too disgusted, when you see their rags; some day you'll be busted, herding with the vags! Walt Mason.

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crumbles into it, breaking it up. This is when you feel that awful nausea and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick. I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

Scout and Sentinel

Both safeguard Texaco Quality.

The "Scout," equally at home in boots and oil skins inspecting the cables in a dripping coal mine, in overalls in an engine room testing a cylinder oil, or in a steel mill, watches TEXACO LUBRICANTS at work and keeps in touch with mechanical developments in all kinds of industries.

The "Sentinel," on guard at our various laboratories, keeps an alert eye on the outgoing goods. He is there to cry halt to any shipment which is not up to the Texaco Watchword—"Quality First."

The co-operation of "Scout" and "Sentinel"—the investigating and the manufacturing ends of our business—is reflected in the way in which Texaco Lubricants meet all working conditions.

Between them they have helped to solve lubricating problems for thousands of engineers and manufacturers. They are ready to help you when you say so.

Married At Garrison.

One of the prettiest home weddings that has occurred in Nacogdoches county for some time was that of Mr. Norman H. Jarrett to Miss Mamey Patterson, at the home of the brides parents, Mr. and Mrs. Patterson, one mile south of Garrison, on Saturday, August 7th, 1915, at 10:15 o'clock a. m. The ceremony was performed by Rev. J. N. Cunningham, pastor of the First Presbyterian church of Nacogdoches, who used the old Scotch ceremony, one of the most impressive ceremonies that is in existence.

There were about thirty invited guests present to witness the ceremony and partake of the wedding dinner that was served.

Mr. and Mrs. Jarrett left for Galveston for a visit of two weeks, after which they will return to Nacogdoches, and reside at the Banita Hotel.

The bride is well known here, as she has been the guest of Miss Alma Cavin. Mr. Jarrett is a well known traveling man.

Fire Alarm.

The fire alarms last night, Sunday, were practically needless. In one instance at the residence of Mr. Estes, in the southern part of town, a lamp exploded, but the fire did no special harm.

Another alarm was occasioned by the burning of an old outshed belonging to Mrs. D. Lee, and located in the vicinity of Johnson's store on the west side of the H. E. & W. T. rail road, supposed to have caught from a spark from a passing train.

That sample bunch of Sudan grass seen at the door of the Nacogdoches Land Co. grass by Wyley Carnes 5 miles west of town is about 9 feet high,

Gone to Detroit

B. C. Castleberry, one of the carriers on our rural mail routes has returned from Bryan, where he attended the State Convention of rural mail carriers, as a delegate from this county. He had a most delightful experience, ending with a banquet given by the citizens of Bryan last Friday night.

But what pleased him most is that he was chosen a delegate to the National Convention to be held at Detroit on the 10 to 15th of this month. His election was a special honor, because he is the first new member that has had this honor, and he received the highest vote of any candidate. Hence he is proud of his fortune. He left Saturday night. His expenses are paid besides two dollars a day.

Boat Thomason is over here from Center where he now resides. He can't stay away from his home of other days. If you will ask him where he was born, he will not tell you. He says he was not born on the land or on the sea, in no state, no county, nor—well, he was really born on a steamboat coming to Texas.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constructional remedial. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists. Price 75c per bottle. Take it! Family Pills for constipation.

Cotton Crop in Danger.

Allan Seale says he has heard considerable complaint of cotton shedding its young fruit, and so he made an exploring tour yesterday, Sunday and found every reason for fear as to the outcome or outlook.

He says that right now is a most critical stage of the crop when budding, forming squares, blooming and young bolls are not to be harmed and uninterrupted. He thinks some recent dry winds have been very damaging and the outlook is not near so good as a week ago.

Keep your vital organs in good condition if you would have health through the malarial season. Prickly Ash Bitters cleanses and strengthens the stomach, liver and bowels and helps the system to resist disease germs. Stripling, Haselwood & Co. Special Agents.

Family Reunion

Mr. and Mrs. R. H. Foxworth are having a family reunion at their home on Fredonia Hill. The guests are, Mrs. Mary Weaver and son R. D. Weaver of Georgetown, John Bruce son-in-law, Jesse Foxworth of Maytown, and Mr. and Mrs. Jim Burrows and three children of Kountze.

All of the family were present, with the exception of the oldest son, William Foxworth. This family reunion is the second time in twelve years.

Hot weather saps the vital energy and makes the hardest workers feel lazy. To maintain strength and energy, use Prickly Ash Bitters. It is the friend of industry. Stripling Haselwood & Co., Special Agents.

War and Peace

The more I watch that foolish war, and wonder what they're fighting for, the more I read of crimson rain, and endless windrows of the slain, the more I hope that war may cease; the more I boost the dove of peace. They say that fellow isn't nice who whoops for peace at any price; he lacks all patriotic pride, he has a tinhorn soul inside; they quote that wheeze Sir Walter said, "Breathes there a man with soul so dead," and say the chap will cut no ice who talks of peace at any price. But ere I'd see my brothers killed, my uncles with cheap bullets filled, my cousins sent across the Styx, my martyred aunts piled up in ricks, I'd let some bully twist my nose, and lean his weight upon my toes I'd gladly wade around in shame, and think I played the wiser game. The price of peace can't seem too high to one who sees those legions die, where Europe's crimson rivers flow through blasted lands that shriek of woe, Oh, Peace, long may you hover here, e'en though the cost is pretty dear! One glance at Europe should suffice to show you're cheap at any price!

Going 100 Miles an Hour.

Des Moines, Iowa, Aug. 7.—Two killed and two injured one probably fatally, marked the 300-mile derby on the new mile speedway here this afternoon in which De Palma was declared winner, Ralph Mulford second, Eddie O'Donnell third.

Joe Cooper was killed during the thirty-eighth lap when his car literally sailed over the outer railing as he was nearing the grand stand, and landed outside with Cooper and his mechanic Louis Peio, pinned underneath.

The second accident came near the close of the race, when in the twenty-eighth lap Billy Chandler's car crashed against the inside rail. Morris S. Keeler, Chandler's mechanic, was crushed and died tonight in a local hospital. Chandler has less than an even chance for recovery, according to physicians.

Cooper's skull was crushed in the first accident and his death was practically instantaneous. In both accidents tire blowouts were ascribed as the cause.

Chandler's wife was in the grand stand when her husband went through the inside track fence. She rushed to his side.

Apples in East Texas.

Another of our good friends brought The News four very fine home-grown apples Saturday, raised on his farm near Clawson, which is still further evidence that apples do well in old Angelina. They were of good size and color and splendid flavor.—Lutkin News

But why didn't you say, provided they are planted. Apples don't grow on pine trees, not that kind.

More About Bicycles

It has again become necessary to call the attention of the proper officers to the practice of riding bicycles on the sidewalks of the various streets of the city. Last Saturday night about 8:30 o'clock the writer was kept busy getting off the sidewalk of South Fredonia street to let them pass. There were five or six, one right behind the other, without lights, whistles, bells, etc., or any other device to denote their close proximity to any pedestrian who happened to think he had a right to use the sidewalk.

We had an article last week on the reckless driving of some auto drivers, setting forth various reasons why they should be careful in the driving of a car, and it is just as important that the person who does not own a car and has to use the sidewalks to get to the places they want to go, to be protected. The city council, as the writer understands it, suspended the law in regard to the use of bicycles on sidewalks and virtually turned the sidewalks over to the bicyclists. They should hold another meeting and give the citizen some right to walk on the sidewalks. Some one is going to get hurt and get hurt bad by the reckless riding of some of them as they practice it now.

After writing the above article it was reported to the writer by an employee of the city that on Sunday afternoon a negro boy on a bicycle claimed the entire sidewalk and compelled two ladies coming to town to either get off the sidewalk or get as close to the fence as possible to avoid being run over. The bicycle riders was about 20 years of age and was not crippled and could have got off his wheel and let the ladies pass, altho he had no business on the sidewalk in the beginning. Subscriber.

Vehicle Ordinances.

The little city of Merkel has an ordinance regulating the speed and operation of motor vehicles and horse drawn vehicles, etc.

1. Speed limit 12 miles on business streets. 15 miles elsewhere.

2. Mufflers kept closed standing or moving, any street.

3. Head lights and rear red lights required 30 minutes after sunset, 60 minutes before sunrise.

4. All vehicles on all streets shall keep to the right, except at street intersections, there keep to the middle in crossing. In stops the front shall be over curb of side walk, and turns shall only be at intersections.

5. Violations incur penalty, of one to one hundred dollars. The foregoing is a rough condensation. The full ordinance was formulated by Judge C. D. Mims, who sent the Sentinel a copy.

One million dollars in gold is arriving at New York on one ship from England. This is larger than a gold calf. It looks like an elephant of mammon, in our minds eye,

Mexico Peace

Washington, Aug. 8.—The Pan-American conference, initiated here last week to devise a plan for restoring government in Mexico, probably will be resumed in New York city next Wednesday. Secretary Lansing made this announcement tonight upon his return from New York, where he conferred with Secretary McAdoo early in the day.

Administration officials, who were inclined yesterday to believe that a peace parley between Mexican factions might soon result independent of the appeal to the military leaders, which will go forward from Pan-American nations, were not so sanguine.

Another Runaway

Yesterday afternoon there was an exciting smashing runaway of a horse and wagon on Fredonia hill. The driver, Eugene Johnson, the 14 year old son of W. H. Johnson, was driving a horse and wagon carrying a steel couch up to Mr. Bruce's, and as he was unloading, the horse got scared at it and made a dash to get away. The boy was run over and badly bruised up. The wagon hit a stump and was badly smashed. The horse tore loose but soon stopped and looked back.

The Beaumont Enterprise says: Even if the present program should fail of success, we shall have put the world on notice that we have no dreams of an empire on this continent; that we are willing to let the various countries govern themselves so long as they do it without interfering with the rights of other nations, and that we covet neither the land nor the other possessions of other peoples.

If Mexico is brought out of her difficulties, with the ambitions of her people set toward higher things; with a constitutional government replacing a government of might, and without armed intervention on the part of the United States, President Wilson's policy will achieve abundant vindication, but if the present plans fail and we should be forced at last to intervene, we can go into it with clean hands, a clear conscience and a knowledge that we kept our hands off as long as there was the slightest hope for a peaceful settlement.

East Texas Odd Fellows Association

The annual meeting of the East Texas Odd Fellows Association will convene in Lutkin Thursday, Aug. 12th. All Odd Fellows that can possibly do so should attend. A rate of 80c for the round trip will be made if as many as 14 go from Nacogdoches. All who expect to go should gather at the passenger depot early enough to make up the party before train time.

Tempting Fruits.

The fruits that may be seen at John M. Green's stand are a tempting display. There are beautiful crates of tomatoes, peaches, apples, and other truck. There are always peaches about Cushing; when no where else, and some nice ones from there are now at Green's.

Wheat Crop is Greatest in history of World.

Washington, Aug. 9.—American farmers are harvesting the greatest wheat crop ever grown in any one country. It may reach a billion bushels. Department of agriculture experts today estimated the crop at 966,000,000 bushels, basing their calculations on the condition of the crop August 1. Bumper harvests of other cereals and food crops are indicated.

When Will The War End?

As to how long the war will last there is quite a diversity of opinion, even among the leading lights of the warring nations and others.

One says three years. Another that it will be a fight to a finish. Another prediction is that peace will come by a conference. And another opinion is that neither side will be vanquished or whipped, but the end must be a draw, based upon the conclusion that no good can result from further fighting.

Increases Ranger Force.

Corpus Christi, Aug. 7.—Governor Ferguson, who is spending his vacation in this section, today announced that the ranger force would be increased to twenty, and the entire force would be sent to the lower Rio Grande valley to combat Mexican outlaws.

"The Democratic party is pledged to provide an adequate merchant marine for the United States," said Mr. McAdoo, "and in my opinion no time should be lost in taking action. The need for more ships under American registry is being shown more and more every day."

Only a Printing Office.

A blind man, lead by a small boy selling lead pencils, was passing the Sentinel office, and hearing the press running, the blind man said "Let's go in there," The small boy replied, "Oh that's just a printing office." Inferences are evident.

Naughty Nacogdoches took another game from Lovely Lutkin last Sunday. Our Lutkin boys don't mind playing ball on Sunday, but they do hate mighty bad to take a game from visitors on that day, especially when it does the visitors so much good to win. Just wait until we get a chance at them on some other day, and then we will tell a different tale.—Lutkin News.

There doesn't seem to be any particular virtue in "dying game." Nearly everyone dies that way. And Becker, the man of schooling and considerable intelligence, did not die with more "game-ness" than did those degenerates of the New York slums who died before he did in the same electric chair for the same crime.—Ex.

Texas rangers are watching and guarding the Rio Grande border. The United States also has soldiers there, and civil authorities are busy too. Yet the devilry goes on. And so it would be in Mexico in spite of intervention. It would be far worse.

Blind Asylum Site.

The last legislature made an appropriation and passed an act to locate and rebuild the State Blind Asylum. It may or may not be removed from Austin. Several other towns are bidding for it. The committee to decide is expected to act soon.

Trouble makers of all sort are abundant along the Rio Grande border. Many of them are pretending to be Mexicans who have crossed over from Mexico, when in truth they live on this side, or change base to suit the occasion.

General Hugh Scott is holding a session with Villa and seeking to point out the path of least resistance to the Mexican. General Scott has a way of inducing others to see things as he does, and it is a pretty safe bet that Villa will be tractable enough when Scott gets through with him.

There is under consideration the organization of an auto garage corporation to be located in Nacogdoches. In fact it is stated that the charter is being prepared for the proposed corporation.

No marriage licenses were issued the past week. Quite unusual, but the business will revive soon, because the Sentinel has an eye for business.

Tomorrow we may expect news as to what the peace conference proposes for Mexico. General Villa is polite to Uncle Sam. And General Carranza is also inclined that way. They are growing wiser.

Don't knock. Help yourself along by becoming popular, and push your friends with you. Be a good fellow and soon you'll have a procession of followers. —Timpson Times.

Miss Della Bell entertained Tuesday evening in honor of Miss Boren of Dallas. Rook and dancing were enjoyed until a late hour. Refreshments of iced watermelons, cream and cake were served at the last.

Little Boy Died.

The five year old son of Reese Crisp died Tuesday, at the home of John J. Haltom, 3 miles east of town. The child was John Haltom's grandson, and had been sick several weeks.

Excursion rates to Galveston next Saturday and Sunday, round trip \$3.90. Limit Aug. 16. Big crowd going.

That promised wedding has not yet arrived. Don't be impatient. Just wait and see.

Odd Fellows To Meet.

The East Texas Odd Fellows Association will hold their annual meeting at Lutkin next Thursday, 12th.

Capt. John S. Doughtie is president, and he is booked for a speech. He is out now in search of a substitute speaker.

Ball Game Tuesday

Nacogdoches defeated Lutkin here yesterday by the score of 5 to 0 in a five and a half inning game, called on account of rain. All the fans were glad to see Bob Cone on the mound for the home club. He just got back from Philadelphia where he has been for the past thirty days with the Philadelphia club of the American League.

Summary—Three base hits, Bob Cone.

Hits, off Cone 4 in six innings, off Hightower 5 in 5 innings.

Batteries—Nacog. Cone and White. Lutkin—Hightower and Fuller.

Umpire—Jenkins.

Ball Game Monday at Lutkin

Nacogdoches and Lutkin tied up Monday 4 to 4 in a 11 inning game called on account of darkness. The features of the game was the home run by Allison in the eighth and a perfect throw from right field to home plate cutting off a run in the eleventh inning, by Allison.

Batteries—Nacogdoches, Moore and White, Lutkin, Collins, Lemon and Fuller.

Hits off Moore 4 in eleven innings off Collins 9.

The forfeited game between Rusk and Nacogdoches has been thrown out. All other clubs voted to make same a tie game to be played off at some future date to be decided upon by Nacogdoches and Rusk.

Ball Game Sunday

Nacogdoches defeated Lutkin Sunday in a fast game by the score of 5 to 2. The features of the game was the hitting of the home club, the pitching of Myer and the running catch by McHenry in center field. They play in Lutkin today and then come home for two days with the Lutkin club.

Batteries—Nacogdoches, Myers and F. White. Lutkin Bowen and Lemon. Hits off Myers 5, off Bowen 18.

Ball Game At Alto Friday

Nacogdoches defeated Alto yesterday at Alto in the second game of the series by the score of 9 to 8, making it two straight for Nacogdoches.

The feature of the game was the air tight pitching of Moore for Nacogdoches, allowing only five scattered hits.

Batteries Nacogdoches—Moore and F. White. Alto—Henderson and Blount.

Umpire Hoover.

J. J. Lietz, traveling auditor for Wells, Fargo & Co., Express arrived in the city Sunday afternoon and is today busily engaged in checking out Taylor Nichols as local agent here. Mr. Nichols will take a much needed vacation for a couple of weeks. W. C. Allen relief agent of Lutkin was checked in as agent during Mr. Nichols absence.

A personal letter from San Francisco says "Don't like it here—too cold—windy—rainy—like Los Angeles better." And this, too on the 7th day of blazing August. Surely sounds fishy here where the thermometer runs up to the top.

W. D. Lewis

On Mission of the Farmers' Union

W. D. Lewis, president of the Texas Farmers' Union, whose tenure of office expires by limitation in August, has issued the following farewell statement to the Texas farmers:

"The Farmers' Union stands before the public of Texas today proud as a King; glorying in its achievements and boasting of its possibilities of rendering a service to the men who follow the plow. The Union sounds the bugle call of organization, summoning every yeoman to rally around its colors. In business it stands for education and co-operation; in the home it stands for Sally and the babies; in government it stands for constructive statesmanship. At the moment it directs the attention of the farmers to warehousing and financing the present cotton crop. Fellow farmers arise and salute King Cotton, a sovereign in whose reign the prosperity of this State is involved and a ruler whose scepter turns the fleecy fibre into gold. A King at whose loom nature weaves, and an Imperial potentate at whose shrine millions kneel and sing his praise. Strike for your home, your family and your country by joining the Union and becoming a part of the great economic force that is uplifting this state and nation. The Farmers' Union is the plowman's hope. Without organization he can neither help himself nor be helped by others, and through organization he is all powerful.

When the Texas Farmers' Union holds its annual convention in Houston, August 3rd, every farmer in Texas should pause and bow his head in honor of the men gathered there to render a patriotic and unselfish service to agriculture. This organization, born in the cotton fields of Texas, has grown until, geographically, it covers almost the whole of the United States, and economically, it deals with every question in which the welfare of the man who bare his back to the summer sun are involved. It has battled for a better marketing system, rural credits, cheap money, diversification, scientific production, agricultural legislation and has carried on its work of education and co-operation in season and out.

The Farmers' Educational and Co-operative Union of Texas brings the question of organization squarely before every farmer in this state. The farmers of the nation contribute more and get less from government than any other class of business. They have better securities and pay a higher rate of interest than any other line of industry. They market more products and have less to say in fixing the price than any other business, and they have had more political buncombe, and less constructive legislation, than any other class of people. The farmers can only acquire such influence in business, in government and economics as will enable them to share equitably the fruits of their labor through organization, and every farmer on Texas soil who desires to help himself and his fellow plowmen, should rally around the Union."

OUR PUBLIC FORUM

Col. Jno. N. Simpson

On Five Per Cent Money for Farmers

There is no man in Texas more capable of analyzing problems of finance and agriculture, and none whose views are more highly respected, than that veteran banker and farmer, Col. Jno. N. Simpson. He knows the farmer, the banker and a bale of cotton, which are the three important factors at issue in cotton financing, and he is a friend of the Farmers' Union.

Col. Simpson very aptly points out the failure of last year's cotton pool, which should carry with it a lesson for all. There was too much psychology, red tape and hurried trips across the continent with sensational newspaper interviews for results. To apply to that pool for a loan was like playing "pussy wants a corner", and all the King's horses and all the King's men couldn't have pulled a dollar out of the banks when the money was most needed. The farmer wants a dollar he can get when he needs it and he doesn't want to have to work a Chinese puzzle to get it. Col. Simpson, when asked for his view on cotton financing, said in part:

"The rate of interest to the farmer should not be more than 5 per cent and the cotton crop should be financed through the season.

Money is plentiful and cheap and Texas banks will experience no difficulty in getting the necessary funds with which to finance the Texas cotton crop. The farmer who borrows money for eight months on cotton should have the privilege of paying the obligation on or before the date of maturity, as he may elect. It is urgent that cotton should be financed through the season; it is easy to see the result if cotton is financed for thirty, sixty, or ninety days. The buyer will wait until the notes expire and then purchase cotton which is crowded on the market.

Arrangements to finance the crop should be made at once, as cotton picking will start the first of August and the market should be opened from the start. The time in which to arrange for sufficient finances, to be of any benefit whatever, is extremely short. Arrangements for furnishing the producer with money should be devoid entirely of red tape, or unusual rules and regulations. It is now generally known what hindered the success of last year's cotton pool, the cause being an excessive amount of red tape, the money having been available too late. The modus operandi for making loans on cotton to the farmer should be as simple as ordinary transactions between the farmer and his banker.

The amount of money advanced on cotton should not be limited by arbitrary rules, but should be gauged according to the market value of cotton when advances are made. I consider that 75 to 80 per cent of the market value is a fair percentage.

The coming crop should be properly warehoused and insured, and no time should be lost in completing the warehouses which have already been begun."

Clarence Ousley

On Warehousing and Marketing

The past decade in Texas may be properly termed by the historian as a period of agricultural poets. Story tellers have prospered by relating their hair-breadth escapes from wealth while on the farm, and the city people have held many conventions urging each other to go back to the soil.

In reading the volumes of agricultural romance, written during this period, the farmer was almost forced to the conclusion that horse sense and book sense seldom occupy the same mind at the same time. Literary jewels adorned the abstruse and fool's gold was heralded as a new and marvelous discovery, but a brilliant exception to this rule is the writings and discussions of Col. Clarence Ousley. His presentation of the cotton marketing problem to the Texas Legislature is a masterful treatment of the subject. The address was ordered published by the Legislature for free distribution and should be in the hands of every farmer.

Col. Ousley understands and is in harmony with the principles of the Farmers' Union, and the A. & M. College is fortunate in having the association of so skilled and practical an economist, who is capable of seeing to the bottom of our agricultural problems, and if that institution wants to render more efficient service to agriculture it should have on its faculty more men like Clarence Ousley. We quote the following paragraphs from his address:

"Our whole purpose is to contribute what we can to the establishment of a system of warehousing and marketing which will relieve the cotton crop especially, and all other agricultural products from the waste and graft which now scandalize our methods of doing business and deprive the farmer of a large share of the rewards of his toil.

It is my deliberate opinion that you are assembled for the most important legislative purpose that has ever arisen in the history of the State from an economic standpoint. It is easily demonstrable that the cotton crop of the South, under the present methods of marketing, suffers an annual loss of from \$10 to \$25 a bale. It is a maxim of statesmanship that the State should prevent the loss of property by fire and flood. If at this moment a fire alarm should sound and we should discover that some man's barn near the Capitol was on fire, we would empty this building in our haste to extinguish the fire and save the property, and yet, by our inaction, we are permitting a waste to our cotton crop, which annually represents in the State of Texas alone, more than the taxable values of all of Travis county. If the State should waste and is warranted in legislation to prevent loss and flood, it is all the more warranted in measures of legislation to prevent loss and waste of substance to the producers of the wealth of Texas and to those who furnish us with all our eggs and milk."

First Bale Raised Here.

The first bale of cotton of 1915 crop in the county was from Chireno Aug. 9. The first bale in Nacogdoches town vicinity, was grown and brought in by C. A. Corley, Aug. 11, ginned by W. J. Clevenger, weighed by Windham Bros. & Mullins, 580 lbs, bought by Thomas & Richardson, at 10 1/4 c. auctioned by Associate Justice V. E. Middlebrook, assisted by Chief Justice J. M. Corley of the court of civil appeals, and State Senator S. M. King. A premium amounting to \$33 75 was subscribed by business men of the town, as below shown.

Ambitious Sons and Daughters

Let those who know advise you as to the kind of an education you should have. Men at the head of the affairs of our state and nation.

Following are extracts from letters from from some of America's greatest men on the value of a business education. Hon. Champ Clark, Speaker of the House of Representatives, Washington, D. C. says: "Since I have been elected Speaker I have had it more thoroughly impressed on me than ever before that a thorough business college training is of exceeding importance." O. M. Dickinson, former Secretary of War, Washington, D. C. "Co-temporaneously with taking my general education, I took a course in a business college and found it of great value to me, not only generally, but in a practice of law." R. B. Glenn, ex-Governor of North Carolina: "I cheerfully recommend to every one a practical business education for their children." Oswald West, ex-Governor of Oregon:

"The modern business school plays a part in fitting young men and women for their entrance into the business world." T. C. Pickett, Representative from Iowa: "The value-eve necessity of a practical education to young people today is so obvious that no argument should be required in support of it." E. F. Noel, ex-Governor of Mississippi: "I take pleasure in testifying to the importance of a practical business education, and to the efficiency of a properly conducted business school in imparting such knowledge."

C. N. Haskell, ex-Governor of Oklahoma: "I consider practical business education of the greatest importance." John W. Kern, United States Senator: "Everybody ought by this time to understand that business men and business women need business education on the same principle that a doctor must have a medical education," Joseph M. Carey, Governor of Wyoming: "Too much cannot be said in behalf of a good commercial education." "I do not believe that such an education can be too highly commended."

Shouldn't the above evidence settle the question with you as to what kind of an education is needed? Write for catalogue of America's largest commercial school, the one giving the most extensive course of study, the one placing its graduates in positions, the one that has more than 2000 enrollments annually from over half the states of the union, the school with a National reputation, the Tyler Commercial College, Tyler, Texas. "Camp Lucas B. S. A.

Sacul, Texas, Aug. 11.—

The Boy Scouts of Nacogdoches, 32 strong, arrived at Sacul on time Tuesday afternoon. They were met at the station by a number of the hospitable citizens with three big wagons to transport the equipment to the camp site, about a mile from the town on the banks of the Angelina river, and where we have the finest spring of water to be found in East Texas.

Mr. J. T. Lucas, upon whose land the camp is located, has won the unstinted gratitude of all the boys by his preparations for our pleasure. He secured wagons for the Scouts, had the grounds cleaned up, and sent plenty of lumber for tables and benches going in person with the boys to the place of encampment.

During the march a hard rain overtook the caravan, but the boys secured shelter in cabins until the storm was over, and while we got the big tents up in mist and mud, all were comfortable for the night—except those who were "seeing things at night" from an overdose of supper. So far we have had no "skeeters", and feel sure no place on the river has as few of these pests. In fact all things considered, this is by far the best camping place the boys ever had.

Here is the order of the day.

Bugle for rising and swim 5 o'clock.

Devotion and Exercises 5:30

Breakfast 6:00.

Scout Work 7 to 9.

Sports 9 to 12,

Dinner and rest 12 to 2.

Scout Work 2 to 4.

Sports 4 to 6.

Supper 6 to 8.

Lights out 9:30.

We have had no accident except the loss of a few toe nails and some soaps.

Some of the boys did not sleep well the first night, but after sunrise today, declared that it was not the owls and varmints that kept them awake—"Who's afraid any how?"

To all our friends we extend a cordial invitation to visit "Camp Lucas," provided they bring lunches with them, as we only had two wagon loads at the start and it is

going fast. A good automobile road leads right up to camp.

On Sunday the boys will attend Sunday School at Sacul, and will have divine services at Camp Lucas at 3 p. m. We hope many Nacogdoches friends will come out Sunday and spend the day.

Mail for the boys addressed to Sacul, Texas, in care of "Camp Lucas, B. S. A." will reach them all right.

M. C. Johnson, Scout Commissioner.

From Sacul.

Dear Sentinel:

In my absence last week a friend gave you the news from our town, which was appreciated.

The Methodist meeting after 12 day's laborious work closed Aug. 10th Great interest was manifested during the meeting. Only 8, accessions.

We had a heavy rain yesterday followed by a cool pleasant night. So many are planting turnip seed today.

The sick of this town, especially pellagra patients, are improving.

The Richardson Bros., are moving to Wells, on the Cotton Belt R. R. This town regrets very much their going as they have been citizens for several years, but hope our loss will be their gain.

Great many are going from here on the excursion to Galveston.

The Boy Scouts arrived yesterday evening from Nacogdoches and were gladly welcomed. Conveyances were present and hurried them out to the Sulphur spring as their was an awful cloud approaching.

Mr. Charley Beard was carried to the Tucker Hospital Monday where he was successfully operated on for appendicitis.

Rain.

It rained at Melrose and some other points east of town, Sunday. Also at Appleby, and possibly elsewhere north and west of town. But at town we had none.

The forecast gives some hope rain in the next 24 hours. It will be welcomed.

Gulf Pipe Line Loses in Big Fire.

Tulsa, Okla., Aug. 7.—Lightning, during the severe electrical storm which passed over this section tonight, caused conflagrations which did approximately \$200,000 damage.

The plant of the Tulsa Bailer Manufacturing company, in west Tulsa, was struck shortly after 8 o'clock, entailing a loss which has been estimated at \$75,000. At Cleveland, an oil town fifty miles northwest of this city, two 55,000-barrel tanks and two batteries of 16,000 barrel tanks, belonging to the Gulf Pipe Line company, were burned with a loss estimated from \$130,000 to \$150,000.

Just For Fun

Some time since, when the Lutkin base ball team wall-oped Nacogdoches, the Sentinel playfully referred to the victors as a "dirty bunch," and was stupid enough to not know that some of the exchanges interested would take it seriously, when it was really intended in a complimentary spirit.

War's Greatest Movement.

The fall of Warsaw marks the culmination of the greatest sustained engagement of the European war. Thrice before Teutonic armies have been halted at its gates. Apparently impregnable in the face of direct attack, it was compelled to capitulate before the sweet of a vast movement which threatened to encircle the capital, and with it the Russian armies engaged in the campaign of which it was the storm center.

From the north, northwest, west, south and southwest the Austro-German forces have been pressing upon the Polish capital in their combined drive to force the Russians out of Poland and, if possible, to break their offensive power for an indefinite period, by the decisive defeat along the line. The movement may be said to have had its conception in May, when the great Teutonic march through Galicia began. To get at the Russian armies in Poland from the southeast, it first was necessary to clear Galicia, or the greater part of it, of the czar's troops.

Crew Found Starving

Galveston, Texas, Aug. 7.—It was a lucky thing for the crew of the fishing smack Jose E. Eppe of Pensacola that when they were becalmed their craft lay in the path of the Greek steamer Tilemachos. When Captain Dracoulis sighted their distress signals on August 5, 265 miles south of Pensacola, Fla., the members of the crew had been without food for three days and were gnawing at the leather in their shoes to sustain life, he reported on arrival here today.

They had been becalmed for thirty days, the members of the crew told Captain Dracoulis. Provisions for the crew for thirty days were taken from the store room of the Tilemachos and transferred to the schooner.

Truett to Preach in California.

Dr. George W. Truett, pastor of the First Baptist Church has accepted an invitation to conduct a two weeks series of services at Long Beach, Cal., beginning next Sunday. He conducted a very successful revival at Long Beach last year and the church has in upon his return this summer. He will be accompanied by Robert H. Cojeman, who will lead the music for the meeting.

Dr. Truett has also promised to preach three sermons in the big Temple Baptist Church at Los Angeles following the close of the Long Beach meeting.

The above item from the Dallas Evening Journal will interest many people here and all over Texas where Dr. Truett is so well known and appreciated.

He is accompanied by a large party of friends and by his own family, and they are to take in the grand points of tourists.

Uncle Billie Lewis

The San Augustine Tribune, by request, publishes an obituary of a most worthy old colored man who was well known and highly esteemed here, written by one of his colored friends:

Wm. Lewis or Uncle Billie, as he is familiarly known, passed away at his home in San Augustine Monday morning, at 6:30.

Uncle Billy, the oldest of three boys, was born of slave parents in 1848, back in Tennessee, where he lived in Nacogdoches town and county until 32 years ago when he moved to the town of San Augustine and here he lived with his beloved family until his death.

Uncle Billie was of a good family, an upright and respectable citizen. He was thrifty and industrious, though he could not read and write, he had accumulated a great deal of property. He owned several lots and houses and a farm in San Augustine, also several lots in Oklahoma, Houston and Nacogdoches. He was engaged for a number of years running a stage line and carrying the mail between Nacogdoches and San Augustine. Uncle Billie worked hard to care for and comfort his invalid wife and children.

Jews Will Fast and Pray On Monday.

New York, Aug. 5.—A conference of thirty New York rabbis resulted today in the issuance of a call to the Jews of America to fast and pray next Monday as a means of expressing sorrow for conditions in Europe and protesting against "this unnecessary war which is costing the lives of so many men." Congregations also will pray that "the war may soon end and that our country may not be entangled in the wild and crazy conflict."

Special services, conducted only on the Day of Atonement, will be held and the bugle, used only on holy days, will be sounded. The announcement concludes as follows:

"A nation will fast; a nation will mourn; a nation will pray. May the prayers reach the Almighty."

Nacogdoches Moves

Adlai Mast, Buick Agent for Nacogdoches and San Augustine counties, will deliver within a few days, a big Buick, six cylinder, 5 passenger automobile each to J. B. Bell, Garrison, Texas, N. H. Scoggin, Cushing, Texas, Boston Hardeman, Nacogdoches. Also Hollis and Blum Mast each have one coming. Everyone that can afford a car should have one, as this seems to be one of the greatest sources of pleasure. More automobiles—better roads—better times.

COMFORTING WORDS

Many a Nacogdoches Household Will Find Them So.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Nacogdoches readers.

J. D. Roberts, farmer, 120 Bailey Ave., Nacogdoches, says: "Kidney trouble had annoyed me for six years. The kidney secretions were too frequent in passage, causing me to get up so often at night that my rest was broken. They were also highly colored and contained sediment. My back pained when I stooped or lifted and when I got up mornings, I was stiff and lame across my kidneys and found it different to move quickly. I took five boxes of Doan's Kidney Pills and my back was rid of the pain and my kidneys became normal."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Roberts had. Foster-Milburn Co., Props., Buffalo, N. Y.

Painful Accident

A crowd of the young people went out to Chumley Springs Thursday night to enjoy a picnic outing, but soon after arriving at the springs Miss Grace Hall stepped off a stump and fell into a hole, breaking her left limb just above the ankle. She is resting as well this morning as could be expected. While not serious it was painful, and very unfortunate. Of course the misfortune marred any further pleasure of the picnickers who turned their efforts to giving relief to Miss Hall. All will wish her a speedy recovery.—San Augustine Tribune.

Auction Bridge

Miss Anna Henderson complimented her guest Miss Eunice McGalliard with Auction Bridge, Thursday evening.

Five tables were placed on the cool veranda. At the close of the interesting games, Miss Fannie Bert Nelson received the club handkerchief for high score. Mr. Rogers, for highest score of the gentlemen, received a beautiful silver cigarette case. Miss Helena Matthews for guest prize, received a dainty handkerchief. Miss McGalliard, for lowest score received a small silk purse, and Mr. Roy Buchanan, for lowest gentlemen's score was consoled with a package of gum.

Delicious refreshments of pressed chicken, sandwiches, pickles and pine-apple ice, were served.

The out of town guests were, Misses Marcelette Hall and Donna Buford.

S. Mintz left this afternoon for the northern markets to purchase his fall stock of dry goods. His two daughters, Sarah and Bessie accompanied him as far as Dallas where they will spend about two weeks with relatives and friends.

King's Highway

Mr. V. N. Zivley, of Houston has been appointed by Governor Ferguson to search out locate, measure and mark the famous original old road leading west from Natchitoches, La. to San Antonio, Tex. arrived Friday, coming in a buggy over the present road, which conforms very nearly to the understood line of the original, or first road through the state.

Mr. Zivley is making this as a preliminary or exploring trip. He started from Pennington, the old Gaines' Ferry on the Sabine river. He will begin the surveying, measuring and marking at San Antonio, probably at the Alamo starting out on Nacogdoches street first placing at every 5 miles a marked wooden post showing distances to prominent points or towns. He expects to finish the work in three months.

Nacogdoches Colored School.

Prof. E. L. Blackshear, who has, for nineteen years, been in charge of the Prairie View Normal at Hempstead, with which he is not now connected has been induced to come here for the purpose of conferring with the trustees of the public colored schools with a view to taking the management of the same.

Prof. Blackshear has conditionally accepted a proposition made him by the trustees, and the colored people are in hopes of great results.

He is a man of wonderful ability and universally known as a most worthy and able teacher. It might be that Nacogdoches can follow the line of success that was laid out for Prairie View by Prof. Blackshear.

Texas Agriculturist Congress.

Mr. H. R. Herndon, the traveling representative of the Texas Agricultural Congress, whose head quarters are in Dallas, left today for Lufkin. He is delighted with the success of his mission here, which was to exploit the purposes of the Congress, and to raise funds for the operating expenses. The officials have no salaries, but printing and other expenses are heavy. There is a large number of prize contestants, in the work. Mr. Herndon is loud in his approval of the interest taken by the business men for the benefit of the agricultural people—the farmers in general, and the mutual good feeling and confidence shown and also the prevalence of the spirit of progress and better farming.

Who Should Have Poland.

A government of the people, for the people, by the people, or, in other words, government only by the will of the governor, might be applied to Poland, now, as should have been done in all the past. Down trodden and oppressed, Poland may rejoice to be freed from Russia. But is Germany a rescuer of Poland or a successor of Russia? And how about poor Belgium's situation? Is she to be demoralized and consumed?

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are excited; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.

It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. No alcohol. Scott & Bowne, Bloomfield, N. J.

Cow Hides Wanted.

Hides are in good demand and are bringing good prices, and it is worth while to handle them right. In skinning try not to cut or score the hide. Spread it out, flesh side up, and give it a heavy shower of salt. This is absolutely necessary at this time of the year. Fold it up and put it in a sack. Write your full name and address on two tags. Put one inside of the sack, and one outside. Ship by express to A. Golenternek & Co., Tyler, Texas.

Until further notice we will pay 13 cents per pound for hides handled according to the above instructions. We remit the same day that we receive the shipment and we also furnish shipping tags. Horse hides bring from \$1.50 to \$3.00 each, according to the size. We also handle wool.

Made seven hundred gallons of ribbon cane syrup, twenty five bales of cotton and six hundred bushels of corn last year. Bottom does not overflow. Who wants it? See J. J. Halton or call at the Sentinel office. 7-d3-wtt

Fires Thursday Night

There were two fires in town last night, Thursday.

The first was about 9 p. m. a small tenant house in the John P. Davidson pasture owned by him on the east side of the H. E. & W. T. Ry. No one was at home if occupied. The loss was not great. No insurance.

The second fire was between 12 and 1 o'clock. It was the residence of Dr. T. P. Holt, veterinarian. The origin of the fire is not known. The family barely escaped from the house. Little of the contents were saved, and the house was completely destroyed. There was \$600 insurance on the house, and \$450 on the contents.

The fire company was on time at both fires, but no water was accessible. Both houses were beyond the water limits. Dr. Holt's house was on Starr avenue. City Fire Marshal Murphy reported the facts.

AFTER SUFFERING TWO LONG YEARS

Mrs. Aselin Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Minneapolis, Minn.—"After my little one was born I was sick with pains in my sides which the doctors said were caused by inflammation. I suffered a great deal every month and grew very thin. I was under the doctor's care for two long years without any benefit. Finally after repeated suggestions to try it we got Lydia E. Pinkham's Vegetable Compound. After taking the third bottle of the Compound I was able to do my housework and today I am strong and healthy again. I will answer letters if anyone wishes to know about my case."—Mrs. JOSEPH ASELIN, 606 Fourth Avenue, Minneapolis, Minn.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy we know for woman's ills. If you need such a medicine why don't you try it?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Baseball Game Wednesday

Rusk defeated Nacogdoches yesterday in the third and last game of the series by the score of 13 to 8. This was a slow game from start to finish. The features of the game were the home runs by Lawson, for Nacogdoches, and Huber for Rusk, getting two each. Nacogdoches goes to Alto for three games and will play Sunday and Monday in Lutkin.

Batteries for Nacogdoches—Smith, Myers and F. White. Rusk—McLarty, Swenson, Trammell and Harris.

For program and other information write the Secretary, Tait Butler, Box 985, Memphis, Tenn.

Warehouse Cotton Insurance

The correct designing of a cotton warehouse is of much importance because upon the construction of the warehouse depends the rate of insurance charged for the cotton inside it. The average insurance rate, it is said in the buildings now in use is as high as \$2 a year on \$100. In standard warehouses, properly protected by automatic sprinkler equipment, this rate could be reduced to 25 cents on \$100. It is a curious fact, that many of the warehouses now in use cost more to build than if they had been made to conform with the standard.

Old Time Saleen Laws

University Station, August 30.—Saloon regulation is of long standing in Texas, according to Eugene C. Barker, Professor of History in the University of Texas. Dr. Barker has recently secured for the University historical archives a document which proves this assertion conclusively. It is nothing less than Decree No. 100, approved by the Legislature of Texas and Coahuilla, prescribing a city character for San Felipe de Austin, the capital of Austin's colony. It was framed by the town council or ayuntamiento, but had to be approved by the legislature.

Under its provisions, liquor could not be sold in "tippling shops" in less than gallon quantities, and the purchaser was forbidden to drink any of it "in the room, at the door or on the porch." This was the fathers' idea of putting the lid on.

Letter From Judge Mims

Dear Sentinel: I noticed in the Daily Sentinel, a few days since, an article from Bob Monk about his coming very near getting run into by an auto, on North street. In May the City Council here had me prepare the enclosed ordinance for our little city, and as it is working nicely here, thought I would, in view of Monk's letter, send this copy to you, so that if you think well of its provisions you might agitate the passage of a similar one in Nacogdoches, (unless you already have one.) Of course, Merkel is a good deal smaller place than Nacogdoches, and if it be good for a town the size of Merkel it would be better for a larger one. After the passage of this ordinance here the officers suspended its force for a week or ten days so that the people might "get on to" its rules.

Had good rains all over this country last week, and good crops are now assured except as to the cotton worm, they may come later on. Those who planted wheat and oats made splendid crops and got good prices. Big crops of maize and other feed stuff have been made from early planting, while the later planting of feed is doing fine. All well. Your friend, C. D. Mims.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

Ballgame Thursday

Nacogdoches played Alto yesterday at Alto and won by a score of 14 to 4. Quite a crowd went from here in autos and returned last night. Don't forget that we play Lutkin Sunday at Lutkin, and go to see a good game.

The European war is one year old, and is large for its age. When it reaches the age of maturity it will probably be full grown, and too big for its trousers. It may explode from pure greed and excessive consumption.

Citation

The State of Texas. To the Sheriff or any Constable of Nacogdoches County, Greeting: You are hereby Committed to summon John Mitchell, by making publication of this Citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Nacogdoches county, to be held at the Court House thereof, in Nacogdoches, on the 1st Monday in September 1915 the same being the 6th day of September 1915, then and there to answer a petition filed in said Court on the 26th day of July 1915 in a suit, numbered on the docket of said Court No. 357, wherein Josie Mitchell, is plaintiff, and John Mitchell, is Defendant, and said petition alleging that on the 12th day of May 1899 Plaintiff and Defendant were duly married to each other, and lived together as man and wife until on or about the 25th day of July 1912 when the defendant abandoned this Plaintiff with the full intention of permanently abandoning her, and they have not so lived together as husband and wife since the date of their separation.

Plaintiff alleges that she at all times made Defendant a true, kind and affectionate wife; that three years have elapsed since said abandonment, therefore Plaintiff pleads the Statute of three years abandonment. Plaintiff further alleges that during their marriage relations that there were born to them five children to-wit: Ruth a girl age 12 years, Nora a girl age 10 years, Nina a girl age 8 years, Carl a boy age 6 years, Vera a girl age three years, and that Plaintiff asks for the care, custody, raising, maintaining and educating of said children; that she is able and willing to support said children and she prays that the Court grant her the further custody of raising and maintaining said children.

Premises considered Plaintiff prays that the Defendant be cited in terms of law to answer this petition upon final hearing that she have judgement dissolving said marriage contract, for the care and custody of said children for all cost and for such other and further relief as she in law and equity may be entitled.

Herein fail not, but have before said Court, on the said first day at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, C. C. Watson, Clerk of the District Court of Nacogdoches County. Given under my hand and the Seal of said court, at office in Nacogdoches this 26th day of July, 1915.

Claude C. Watson, Clerk. District Court, Nacogdoches County.

IMPORTANT BUSINESS CHANGE

Nacogdoches Leading Garage Changes Hands

It became known today that Nacogdoches leading automobile and garage business, one of the largest businesses of its kind in East Texas, has changed hands.

The entire business of the Schmidt Auto Sales Company and Garage has been purchased by Messrs. Thos. E. Baker, Greer Orton, and Ben T. Wilson.

These gentlemen are all well known in East Texas business circles. Mr. Baker being vice president of the Commercial Guaranty State Bank, Mr. Orton a member of the firm of Tucker, Hayter & Co., and Mr. Wilson a member of the W. T. Wilson Grain Co.

Mr. Orton will be the general manager of the new organization, although Mr. Wilson will give a good deal of his time to the business, especially the automobile sales end of it.

It is the purpose of the new firm to confine themselves entirely to the automobile sales and garage business, and intend to withdraw from some kindred lines of business handled by the old firm as soon as the present stock in these lines is disposed of.

The new firm will occupy the same quarters occupied by the old firm, on North St. near Main. They have faith in the future of the automobile business in East Texas, and hope to make Nacogdoches the Mecca sought by all East Texas car owners and tourists when in need of automobile service, supplies or accessories.

It is doubtful if any garage between Houston and Shreveport, Beaumont and Dallas is as well and completely equipped in every detail as this one and it will be the constant and untiring effort of the new firm to give the very best service obtainable anywhere in the state, at their plant.

They beg the indulgence of their patrons for the first month or two until they get thoroughly organized and systematized. After that they promise the public the very best to be had in this line.

Rev. M. Lindsey Dead

A telephone message was received this morning by Rev. H. C. Willis announcing the sudden death of Rev. M. L. Lindsey, for four years pastor of the Methodist Church at Timpson, since December last pastor at Center.

Rev. Lindsey was one of the most prominent Methodist preachers of East Texas. He had been a pastor for twenty years, entering the ministry before he was of age. He was of powerful build and enjoyed the best of health, but was stricken suddenly with acute indigestion, and passed away this morning at his home in Center.

Funeral arrangements have not yet been made.

Our Nacogdoches farmers have found out about the great value of Sudan grass as a feed crop. But they have not learned half the truth. It is far better.

From Libert

Health in this community is not very good, at present.

Miss Jessie Wallace and Mrs. Dennis Parker are on the sick list this week.

Miss Lola Corley of the Redland community was the guest of Miss Ida Corley the past week.

Mr. and Mrs. Tobias spent Saturday and Sunday at Nat visiting hometoks.

Mr. and Mrs. J. L. Corley and children made a visiting trip to Sacul Sunday.

Rev. Clifton, assisted by Rev. Frank Carnes, has been holding a meeting here for the past week which closed Wednesday night with a large crowd. Quite a crowd of boys and girls from here attended the meeting at Sulphur Springs Sunday. All report a nice time.

Mrs. Eula Cornelius and sister, Miss Minnie of Myrtle Springs, were the guests of Miss Ida Corley Friday.

Tillman Walters and Dee Loy, of Nat, spent last Sunday afternoon at the residence of Bud Wallace.

Lilbert will soon be the proud owner of a new school building which is being erected now.

Miss Ida Nelson and brother Edward returned from Nacogdoches last Wednesday where they have been visiting friends.

Misses Lola, Ida and Corene Corley visited the fortune teller Thursday.

There is a mystery in Lilbert which is yet to be solved. J. L. Corley made a business trip to Caro Saturday.

Nip and Tuck.

Two Old People.

T. J. Meroney was in town Tuesday. He says his father, B. C. Meroney is quite feeble, and his mother is but little better. They were so helpless that he had to take them to his home, which is near theirs, to take care of them.

They are now about seventy years old, and they have lived at the same old place ever since they were married, nearly fifty years.

Uncle Ben's mother was a sister of Gen. Thos. J. Rusk. He has only two living children John and Tom. His wife was a sister of Sam W. Hunt.

Rev. M. C. Johnson, who has been holding a meeting at the Tennessee church near Timpson, closed Sunday with 150 conversions, 90 of which were taken into the Tennessee church. The others joined other churches.
