Oscar Watkins Dead.

Our town was shocked Tuesday evening at the news by telephone from Jacksonville, that Oscar Watkins had been accidentally killed at a lake 11 miles out of that town, by a falling tree. Others were with him and were hurt. No further particulars are known. The inference is that there was a party of campers in a tent, and they were on a fishing jaunt and had taken refuge in their tent from the rain.

Oscar Watkins was born and reared in this county, a son of John H. Watkins, a descendant of a prominent pioneer family in this county. His father and other relatives, including brother and sisters, live in this county.

Oscar Watkins was a most prominent and popular lawyer. He was at first a partner of Judge Priest Wilson, and married his daughter, Fay. Mrs. Watkins was recently in San Antonio for her health. Judge Wilson is on the bench of a Texas high court. The law firm became Watkins & Box, at Jacksonville.

He who, when among Romans, does as the Romans do, would probably, when among hogs, do as the hogs do.

Leo Frank Fated.

Milledgeville, Ga., Aug. 16.—Leo M. Frank, Georgia's noted life-term convict, was removed from the Georgia prison farm here tonight by twenty-five armed men who overpowered Warden Smith.

Will Reid returned from Houston, Monday night.

Mysterious Air Craft

San Anielo, Aug. 17.—The unexplained maneuvering of two aeroplanes in this country have caused no little stir among the residents north of San Angelo. The two machines were seen last night flying toward this city for the second time within a week. San Angelo is 150 miles from the nearest border point.

The Storm Warnings

The efficiency of the weather bureau in giving warnings of the approach of the storm is gratifying. These warnings were far ahead of the storm and were accurate or effectual to the end that the entire Gulf coast was on the alert. Many visitors to points or the coast left quickly, and residents and transients all alike got up and left for safer inland points. The little towns were left empty, and a general stampede and exodus was promptly and properly executed.

The news first reached here, as to the dangerous extent of the storm about 6 o'clock Monday evening by private telegrams, and at first was not credited. But by 9 p. m. it had been confirmed. Early Tuesday a. m. it was realized that no news, was available from Galveston, that place being completely cut off, from all intercourse. What the damages may be is a matter of surmise, and the general anxiety is intense.

Mexico.

Washington, Aug. 16.—Word that both Generals Carranza and Villa have received copies of the Pan American appeal reached the state department today. From several sources it has been learned that Villa's suggestion of a truce has been favorably received by some subordinate officers and soldiers of the Carranza armies. There has been practically no fighting in Mexico for several days.

The Storm Here

Rain began here in a drizzle Monday about 6 p. m. and the fall was slow and light until about 5 o'clock Tuesday morning. It then began to increase and the wind came then, but nothing very excessive occurred.

About 8 o'clock a. m. the wind got quite brisk, and one of the cupolas of the High School building was blown off. The metal roof of a box car at the depot was also blown off. The rain has continued all day, but the wind has slowed down.

Late Dispatch From Mexico

Carranza threatens war in event of "political" or armed intervention.

General Gonzales declares any interference in Mexican affairs by United States or Latin-American Countries will mean determined fight by all Mexican Factions. Tells newspaper men occupation of Mexico City by his troops is permanent—Villa willing to abide by peace Conference decision.

When we get Brazos navigation we are going to return Houston's invitation to come and help celebrate the occasion and we'll send down a special houseboat for Colonel Rienzi Johnson, Marcellus Foster, Harry Warner, Jeff McLemore, C. B. Gillespie, G. J. Palmer and the rest of the press gang, and let them see for themselves the pleasures which Wacoans will enjoy.—Waco News.

DESTROYS SLEEP

Left Galveston on Last Train

Misses Ada and Era Pettey and Miss Hattie Owens have returned from Galveston. They left there Monday at 12:30 and danger from the storm was evident. Every body was alarmed. Many had left. The train that brought these ladies out was understood to be the last one that got out, and it was crowded to a finish.

About Los Angeles

On June 1 Los Angeles laid claim to 538,000 population, making it at least 100,000 larger than San Francisco.

Forks for the accompanying fruits are served with the delectable orangeade which every body drinks.

The town's smartest hotel keeps its bedroom supplied with buttons, thread, pins and needles.

One-sixth of California's taxes are paid by the city of Los Angeles.

Orange groves run right down to the streets and it is a \$25 fine to go caught picking just one orange.

There are 21,000 automobiles in Los Angeles city and 48,000 in the county.

"The moving picture capital of the world" is the beautiful city's newest boast. Seventy-five per cent of all American films are made in Los Angeles county and 88 per cent within 100 miles thereof.

Epicures take away with them at least one bottle of Sierra Madre cocktails, the secret of which is closely kept at Sierra Madre club.

El Camino Real—the King's highway—runs from Los Angeles to Frisco and is oiled and primed all the 470 miles.

"The Mission Play" is the city's star spectacle given daily at San Gabriel. It has been running for more than a year.

Every front yard has its lemon tree, which bears fruit year round and from which the native plucks the foundation for his daily lemonade.

A sandwich man, with a la Schlatter and bearing a sign aloft which reads, "Get Right With God," is one of the sights of the main streets.

Unlike San Francisco, Los Angeles is dry on Sundays—really so.

Some of the most important business street have rows of palms along the curbs.

Flowers are grown on the curbs in the residence districts and no lawless hand ever plucks them.

Aged Priest Turns Down Huge Estate.

Pittsburg, Aug. 9.—Believing his advanced age and an occasional attack of rheumatism would preclude judicious handling of great wealth the Rev. William Graham pastor of St. Patrick's Roman Catholic church, has declined to accept a fortune of from \$12,000,000 to \$15,000,000 left him recently through the death of relatives in Sidney, Australia, and Bolivia, South America.

"Why should a rheumatic old man like me choose to spend the rest of his days on earth under the weight of so much money?" said Father Graham today.

The priest had before him today communications from authorities in both places asking for directions as to the management of the estate. He directed them to get into communication with the heirs next in line.

The Corrective Bore.

"Pardon me if I correct you," says the cultured critic-gink, "but I oftentimes detect you putting grammar on the blink. Lindley Murray's rules abusing, is, methinks, of crimes the worst, for our language grows confusing when presented hind end first." Often when I tell a story which I think should make a hit, some pale purist, grim and hoary, comes along and throws a fit. "You should certainly be swatted," says he, and his voice is chill, "for in manner most besotted, you're confusing 'shall' and 'will.'" Then the yarn that I was telling seems no longer good to me, and I sneak off to my dwelling, there to hide my misery. There are bores who're always seeking for a chance to set you right, and they butt in when you're speaking with a criminal delight, and they do a lot of yelling when you write, with patient toil, showing that your style of spelling doesn't follow rules of Hoyle. And these bores are always hated with a hatred deep and wide, and the people are elated when the news comes that they've died.—Walt Mason.

Dr. Aked Has Resigned

San Francisco, Cal., Aug. 5.—Acceptance of the resignation of the Rev. Charles F. Aked, D. D., by a committee of one hundred organized by the Federal Council of the Churches of Christ in America to promote evangelistic meetings here during the Panama-Pacific exposition, is announced today.

Dr. Aked is pastor of the First Congregational Church here, and formerly was pastor of the Fifth Avenue Baptist Church of New York, sometimes called the Rockefeller church. He was vice-president of the committee of one hundred, but withdrew from membership, his letter of resignation said, because William A. (Billy) Sunday was to preach, and "there is no such God as he pretends, no such Christ, no such heaven and no such hell."

Sunday concluded his series of addresses last night. The resignation was offered when they began and Dr. Aked was asked to reconsider.

Don't Lose Sight.

While the whole world is on a pinnacle of excitement over pending denouements such as the big war and the United States position, the line up includes the world's delicate colored champion Jack Johnson. He challenged Jess Willard for another fight and was turned down because of his race. Then he said he gave the victory to Willard. Then Willard's manager got up and said, Willard would fight him again and prove title. So, now the world is again in a hoo-raw, over Jack and Jess.

What do you think of Mexico now? Looks like Carranza does not want peace—wants to dictate, wants to rule. He ran Huerta out. Now somebody must run him out. Like the man that hung the jury, he says the others were all fools.

As to Mexico

Happily the ABC and BUG Republics are agreed with the United States upon a policy as to Mexico, and it seems that definite steps soon will be taken for the pacification of that country. Also, it now seems probable that armed intervention may not be necessary, for Gen. Hugh L. Scott has secured Villa's promise to confer with the other leaders.

It is fortunate that these agreements have been brought about, for conditions now imperatively demand positive action. Southwestern Texas is being terrorized by marauding Mexicans from both sides of the Rio Grande, who apparently have been stirred into action by revival of the old claim that the Neuces is the true boundary of this State. Grave trouble threatens in Vera Cruz, and the distress in the capital and other interior points grows.

It is fortunate that General Scott has been sent to Mexico. He is as great a diplomat as he is a soldier. He has been conspicuously successful in dealing with Latins and Indians. These latter call him "Good White Father" and "White-Man-Who-Does Not Lie." As the San Francisco Bulletin well says: "Just now the United States is much more in need of Hugh Scotts than of Winfield Scotts."—Dallas Journal.

The Barber

When to the barber's shop I wander, I always feel a total loss, with whiskers sticking here and yonder, till they'd disgrace a Chinese joss. And as he shaves the barber whistles, or hums some cheerful, lifting air, the while he amputates the bristles, and spreads some tonic on my hair. He does not talk to me or bore me, this most discreet of workmen; he sprinkles talcum powder o'er me, and hopes that I will call again. When from his shop, all shaved, I sally, my self-respect again is high; I don't go sneaking down the alley, or shun the keen-eyed passerby.

I'm conscious of a transformation, no more I feel like twenty cents, I ornament my sex and station, I will compare with other gents. If barbers ceased their helpful labors and failed us in the hour of need, then you and I and all our neighbors would lose our grip and go to seed. We would descend to low condition, and in the sinks of sloth abide, for whiskers kill all sane ambition, they're fatal to an honest pride.

Dante's Famous Castle of Exile Shot To Pieces

Rome, Aug. 5.—Austrian artillerymen have "wantonly destroyed" the historic Castle of Lizzana, near Rovereto where the poet Dante spent his exile, according to the Idea Nazionale.

The Castle of Dante is located on the left bank of the Adige Valley, between Mori and Rovereto, where the Austrian and Italian forces are now in clash, and was a spot of great interest to tourists.

Dante went there to live about 1302, when he was banished from Florence.

Epworth-By-Sea At Corpus Sold.

Corpus Christi, Tex., Aug. 9.—Epworth-by-the-Sea, the encampment grounds of the Texas Epworth League, which is utilized every year for two weeks by about 1200 members of the Methodist Church, has succumbed to the march of real estate values and after the present encampment will be no more. The heavy indebtedness on the property, and the fact that it is used but for so short a time during the year, made it impracticable for the league to keep it up under the heavy expense.

Epworth-by-the-Sea, a place dear to the hearts of thousands of leaguers, who have been coming to Corpus Christi for the last twelve years, is to be sold. The deal was closed Saturday night, during a business session, following the usual night service at this year's encampment. The price paid for the grounds is announced to be \$35,000. The purchaser of this 13-acre tract of beach is J. E. McDaniel, a banker of Hubbard City, who will immediately cut the property into choice beach-front residence lots. Only a fence separates these grounds from North Beach, which, although just outside the city limits of Corpus Christi, is one of the most thickly settled portions of the city.

Portland, across Nueces bay from Corpus Christi, with access through the new Nueces county causeway, is considered the most feasible for the location of new grounds.

Capt. T. S. Garrison Underwent Operation.

B. J. Hawthorn is in receipt of a telegram from John T. Garrison at Galveston, stating that his father, Capt. T. S. Garrison, underwent an operation this morning and the doctors had pronounced it a success. Capt. Garrison left here several days ago for the hospital at Galveston, in the hope that an operation would relieve him of a trouble that has been causing him much worry. His many Timpson friends are delighted to learn that the operation was a success and are hoping that he will be able to return home in the very near future.—Timpson Times.

New Yorkers Drill

At Plattsbury, N. Y. there is an encampment of big business men who propose to learn military life, numbering over one thousand. That's all right while there is no danger of being shot. But when it comes to real war the fun will not be so great, nor the number of volunteers so large. To play war is one thing, and to fight is another.

Mrs. Carriker Not Guilty.

Rusk, Texas, Aug. 11.—The jury returned a verdict of not guilty in the district court here in the case of the State of Texas vs. Mrs. J. C. Carriker. She was charged with the killing of her husband, J. C. Carriker, at Reese in this county, on March 1, 1915. The killing was admitted, but she claimed that her husband was assaulting her with a stick at the time she shot him with a pistol.

Benjamin Franklin—"Father of American Diplomacy"

AMERICA has never produced a greater statesman than Franklin, who was revered by the people second only to Washington. He was a signer of both the Declaration of Independence and the Constitution of the United States, and his wisdom made the latter a possibility. The great Lord Chatham pronounced him not only an honor to the Anglo-Saxon people, but to human nature. In every capitol of Europe he was a welcome guest, and he it was who induced France to lend us ships, men and money during the darkest days of the Revolution. Upon his death Congress ordered a general mourning of a month. In France it was decreed that all members of the national assembly should wear mourning for three days. So long as Americans treasure the Republic and Personal Liberty as the noblest of all human blessings, the fame of Franklin can never perish. Personally he was possessed of robust health; he was a well-shaped man, of a wise but merry nature; he had the head of a Greek philosopher, while his grace, his noble bearing and winning personality made him a conspicuous figure in any assemblage of great men. He was a moderate user all his lifetime of Old Madeira and barley-malt brews. It is safe to say that he toasted the New Republic with every great man of Europe and America. Franklin considered his work in building the Constitution his greatest service to posterity. Upon the self-evident declaration of the Constitution of the United States Anheuser-Busch 58 years ago launched their gigantic institution. To-day, wherever Americans go for health, or business, or pleasure, their famed brand BUDWEISER is there. Its popularity, due to its quality, purity, mildness and exquisite flavor, has daily grown in public favor until 7500 people are constantly employed to keep pace with the ever-increasing demand.

Body of Mrs. John D. Rockefeller is Buried

Cleveland, Ohio, Aug. 11.—The body of Mrs. John D. Rockefeller today was buried here in Lakeview cemetery. The utmost secrecy surrounded the interment and armed guards were stationed at the grave. The body arrived here yesterday from Sleepy Hollow, near Tarrytown, N.Y. where it had been in the John D. Archbold vault since Mrs. Rockefeller's death March 12.

The Bureau of Information

Agricultural department, sends out loads of literature, that may be useful, on different subjects. One such is now at hand about remedies for fleas. It says that there are 400 known species of fleas. One flea on a human being might as well be counted as 400, for he gets up that kind of a disturbance. The publication referred to on the subject would cover a whole page of the Sentinel. So you must excuse us and see after your fleas just as you please.

Getting in Line.

UGH! CALOMEL MAKES YOU SICK. DON'T STAY BILIOUS, CONSTIPATED

"Dodson's Liver Tone" Will Clean Your Sluggish Liver Better Than Calomel and Can Not Salivate.

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver. If you are bilious; feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tone instead of using sickening, salivating calomel. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your head-aches and dizziness gone, your stomach will be sweet and bowels regular. You will feel like working. You'll be cheerful; full of energy, vigor and ambition.

Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you get your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't gripe or cramp or make them sick.

I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable, liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist about me.

A Favorite of the Speed Kings

Auto racers, prize-winning motor boat owners, aviators, choose Texaco Motor Oil. Where every ounce of energy is required to produce results and where even the slightest of defects in a product makes a great difference, Texaco Motor Oil is used because its quality and reliability are advantages that cannot be overlooked.

It is a worthy representative of Texaco quality.

The same quality is evident in every product bearing the Red Star and Green "T."

When you buy oils for lubricating any kind of machine or engine, it will pay you to remember this.

There is a Texaco agent in your vicinity. He is a good man to know.

Barnes Fears N. Y. Socialistic Trend

Albany, N. Y., Aug. 12.—William Barnes Jr. today warned the constitutional convention, now in session here, that if a stop was not put to what he termed "socialistic" or class legislation, there would be established in this country an autocratic state similar to that of Germany, denying utterly the American right of equality.

Incidentally the Republican leader compared Theodore Roosevelt to Bismarck and asserted that the Progressive party had inaugurated the identical policy which had caused the Socialist party in Germany to become the largest group in the Reichstag.

Mr. Barnes' warning and attack upon the Progressives was contained in a speech urging the convention to adopt his amendment, prohibiting the Legislature from passing minimum wage, old age pensions and similar laws.

Printers Will Meet in Baltimore Next

Los Angeles, Cal., Aug.—Baltimore was formally selected today as the convention city of the International Typographical union in 1916.

C. Grow, of the International Association of Machinists and a member of the Schmidt-Caplan defense committee, made a brief plea for the financial and moral support of the delegates in the coming trials. He referred to the two men who are awaiting trial on the charge of the Los Angeles Times building, "as prisoners of war," and declared that they were being "persecuted, not prosecuted."

Only a minor proportion of Germans are members of a church, or attend services of any character (because of the tax, it has been claimed) but they are nevertheless not immune unless they can prove beyond a shadow of a doubt that they hold no religion whatsoever or have no religious connections—such as a wife who attends church, or such as having been married by a minister. The great bulk of the soldiers at the front thus are affected by the ruling—Austin Statesman.

Announcement Picnic

The party motored to Reid's Pond, where a lunch consisting of all kinds of tempting edibles were enjoyed.

Little Miss Jennie Carter Matthews announced in a charming way that she was going to serve the desert, which wase cream and angel food cake, mounted on each square of cake was a tiny red box, in which, was a cupid pierced heart with a neutral message. Miss Elizabeth Floyd and Mr. J. W. Johnson, Sept. 23rd., 1915. The remainder of the evening was spent in congratulations, and happy wishes to the young couple.

J. R. Shirley of Shady Grove, is a business visitor in the city today (Friday).

Governor Makes Speech at Rockport.

Rockport, Texas, Aug. 12.—Governor Ferguson, here with his family on a two weeks' vacation made a speech at a picnic given in his honor today, which is considered by many the opening gun in the coming campaign.

He defended at length present increase in state taxes and charged the deficit to former administrations, which, he said, did not have the moral courage to ask the people for the money necessary to defray the expenses of government. He staked his political reputation, he declared, to stand or fall in the interest of the blind and insane of Texas. His talk in this connection was full of vim and vigor and showed the spirit of Ferguson in campaign days.

No one who heard him doubts that he will be in the coming campaign with all the vigor and determination of 1914, and that a year and a half hence he will bring before the people of this state political issues that will overshadow everything that has gone before.

On a platform of raw lumber in a grove of liveoaks in the outskirts of Rockport Governor Ferguson addressed about 2000 people of this county. On the platform with him were a number of prominent citizens of the state. Lieutenant Governor Davidson, Judge Robertson, Mayor Roy Miller of Corpus Christi, Judge Roy Jackson of this county, B. M. Sheldon, Judge W. H. Baldwin, County Judge Henry Timon of Nueces county and Evangelist Ray Waters of St. John, Kan., Mayor Bell of Rockport and others.

German Jews

Below is a clip showing how the German Jews look upon our selling war materials to the enemies of the Germans, Jew and gentile alike talk peace and godliness. But, strange to say, they all go on shedding the blood of their brothers. A faithful rain of gold is falling on a land enjoying golden peace:

"We cry out to America: 'Thousands of thy most loyal and industrious citizens come from towns being destroyed by the shells which thou art sending, instead of gifts of money once sent back to childhood homes from Libau to Lemberg. Thou sendest iron shells to supply the army of czar. Thou givest iron for gold, death for life. Thy children are murdering their parents. America, thou hast peace. Thou art not fighting for existence. We implore thee to listen to this appeal.'"

Center in Shelby

The Optimist has been reminded that there are not sufficient watering places for stock in the city, thus putting people from the country to no little inconvenience to water their stock when in town trading. A business man advances the idea that a water trough be placed at every corner of the public square and it is a timely suggestion that will no doubt be given immediate consideration and attention.

Good Roads

The benefits to the general public that are produced by good roads, are not properly appreciated, and are never overestimated. The papers are advocating good roads, and all progressive people are favoring the spirit.

In many sections of this county the roads are fine, but of the various public roads leading into town more than a dozen in all, extending out five to ten miles, there is only one that is respectable, the Appleby road. All are bad except this one, and all need repair badly, not only because the roads are rough and tough, but because the people who live out side must travel these roads to get here, which is a frequent necessity, dread to undertake the task. These roads are their roads, and serve their wants just as much as they serve residents closer in. The distant resident needs them worse than the short way resident.

Now, it is the plain duty of the Commissioners court to attend to this great need. It is due the entire county to give the citizens who live afar, a better road into town. It is also due to all, both far and near, all alike.

This center is at town, and runs out every way to the requisite distances on each road. It is not to be regarded as a town need, or as a need of this vicinity alone. It is a county need—a farmers need, a farmer who lives away off.

Work the roads near town,

England's Gold

It is to be hoped that the largest shipment of English gold to America for the purpose of aiding the exchange situation and improving English credit will be followed by others. It is likewise to be hoped that some arrangements may be worked out whereby the transfer of gold may reduce foreign exchange rates.

Peace in October Declare Germans

London, Aug. 12.—A significant order of the day predicting a resumption by the Germans of a vigorous offensive in the west has been issued to the Teutonic army in Flanders, according to the Amsterdam Telegraaf. An extract from this order, telegraphed by the Amsterdam correspondent of the Exchange Telegraph company follows:

"Our work now is practically finished in the east and we are about to begin in the west. Peace is certain in October."

Saloon Opened up Across the Neches River.

It is reported a Palestine man has opened a saloon near Long Lake, just across the river in Leon county. There is a small strip of land down there which is not in prohibition territory, and on this the saloon has been opened. It is also reported that this same man had trouble with the natives down there a few days ago, when he attempted to open up, and that he was persuaded to abandon the resort he had selected.—Palestine Herald.

Mrs. MATTIE HALLMAN (daughter of Mr. J. C. Parks), 618 E. Richard St., Sherman, Tex., says: "I write this in the hope that it will assist some poor sufferer. I took 'Favorite Prescription' when I was just entering womanhood. Can say it relieved me of suffering and built up my system in general."

Mrs. FRANK FAYEN, of 803 West 13th Avenue, Corsicana, Texas says: "I certainly can praise Dr. Pierce's Favorite Prescription for the good it did me when I was a girl just drifting into maturity. I certainly will recommend 'Favorite Prescription'."

Read and Heed

There are many good and tenable reasons why everyone who has anything to dispose of, who wishes to purchase anything to impart to the public, should use the columns of his local paper. In the first place, anyone who has a real bargain to dispose of always tells about it in the newspaper; the people have learned this, and are always scanning the columns of the paper in search of these bargains. The tightwad in advertising, is the tightwad in other business dealings, and the man who is afraid to call attention to his business, is the man who is preparing to "skin you."

Take it the world over, and the liberal advertiser is the man who deals liberally and fairly with his patrons. His advertising brings him a volume of business that enables him to sell on a small profit, while the non advertiser, selling less, must needs make more on such articles as he does sell. The first comes boldly out in the light of day tells you what he has to sell, and what he asks for it; while the other lurks in the dusky shadows of his untraveled store, waiting like the spider for fly; for some unwary buyer to "drop in" and get his "cuticle removed". It always pays to trade with the liberal advertiser, and not "push in" where you are not invited.—Tyler Courier Times.

Mexico Addressed.

Washington, Aug. 14.—The PanAmerican appeal to Mexico, now being delivered to the chiefs of factions and governors of states, was made public tonight by the state department.

Without even an intimation of armed intervention, it called to the leaders to meet somewhere in Mexico, on neutral ground, in a conference to adopt the first step necessary to the constitutional reconstruction of the country and to issue a call for immediate elections. The services of the United States or of any other PanAmerican conferees are offered as intermediaries to arrange the meeting.

Senator Sheppard Coming.

Arthur Seale received a letter from Senator Morris Sheppard Saturday, stating that he would visit Nacogdoches some time soon (the date to be arranged later) and deliver the address at the unveiling of five Woodmen Monuments at the Cemetery. The address at the Cemetery will be on Sunday afternoon and at night he will deliver his address on "Christian Citizenship" at one of the Churches of the city.

The exact date will be announced later.

A better understanding by the farmer of the complex marketing machinery would enable him to intelligently choose between the many channels through which his fruits and vegetables might be marketed. The new bulletin aims to make clear to the layman the rather intricate machinery of the market and deals with methods receiving, inspection, refection, terminal distribution and sales methods, the broker, auction sales, carlot wholesalers, commission merchants, jobbing sales, public markets, etc. This bulletin may be had free by those interested upon application to the United States Department of Agriculture, Washington, D. Agricultural.

Attention of every body interested is invited to the contributions in the Sentinel written by George T. McNess superintendent of the State Experiment Station at Nacogdoches. Also to the importance of his work as a test of the farming products, and the use of visiting the station to see these things tried out. It is book farming on the ground, that is planting and cultivating in the land as well as on paper. Whether from Missouri or from nowhere, go see.

Give Soldiers Booze to Make Them Brave

Chataqua, N. Y. Aug. 16—Miss Jane Addams of Chicago speaking today on "peace" before the Chataqua assembly, reaffirmed her statement that Europe's soldiers in some cases have been stimulated by alcoholics and drugs for the bayonet charges.

"I do not question the soldiers' courage," she said, "but when a prominent official in Paris office tells me his men are given adsinthe before a bayonet charge, I believe him. When a German lieutenant tells me his men were given a drug formula containing sulphuric ether among other things to stimulate their bloody bayonet work, I believe him. And when a big Oxoid university professor in England tells me his son and nephew were given rum to stimulate them in battle I believe him."

Another Squabble

Austria-Hungary objects to the United States selling war materials to belligerents. The United States claims the right to sell any thing to any body, any time, any where, or something of the kind. That is the only fair solution. Treat all alike. It would be hard to draw the line so as to decide what should be prohibited if any thing, and there be questions and disputes all along.

Success of warehouses depends on co-operation of banker, merchant, capitalist professional man and the farmer. Must work together says Judge Ed. R. Kone—cotton will then find profitable market.

Care of Cowpeas

One of the most serious problems that confronts the East Texas farmer is how to take care of his grain crops after they are harvested. This is especially true of the cowpea which is subject to the ravages of the weevil. This season there will be a large acreage of cowpeas harvested in the county, and in order for the grower to obtain a fair price, the product must not all be placed upon the market at the same time, some must be held over upon the farm and sold only whenever the market price warrants a sale.

It is a very simple matter to treat cowpeas so that the weevil will not injure them, but it must be done as soon as the cowpeas are harvested, for the reason that the adult insect pierces the cowpea hull, and lays the egg on the inside. The process is as follows:

Take a kerosene or sugar barrel which contains about 7 cubic feet of space, and if a sugar barrel is used, line it with paper, so as to make it as near air proof as possible, fill the barrel up with the shelled cowpeas to within six inches of the top of the barrel, then place in an open vessel one fluid ounce of Carbon Bisulphide, commonly known as High Life, and place this on top of the peas, cover with paper or sacks, and leave from twelve to twenty-four hours then take off the cover and air the peas. This treatment will kill all the weevils, but in order to destroy any eggs that may be on the peas, it is necessary to repeat this treatment ten days later. If the peas are then kept in covered barrels, so that no more weevil eggs can be laid upon them, the peas will keep until next season without any damage.

In using Carbon Bisulphide the person using it must be careful not to go near it with any light as it is highly explosive, even at a distance of fifty feet. Therefore it is advisable to treat peas during the day.

Carbon Bisulphide is heavier than the air, and for this reason it is placed above the peas instead of at the bottom, Carbon Bisulphide can be purchased at any drug store and cost little, so there is no excuse for our people to have damaged peas, or to overstock the market because they claim cowpeas cannot be kept from one season to another. We have kept them on the Experiment Station by this process, and if the book farmer can do it surely some of our practical farmers who have been farming for the past thirty years and have no use for an Experiment Station can do the same thing. But they never have done it, and the sooner they get it into their heads that the Station is here to help them along, such matters as keeping the weevils out of their peas and corn the better off they will be, and the Station Staff will feel that their work has not been in vain.

Religious Doctrines

The Sentinel has a rule to decline publishing articles on religious doctrines, especially home made articles, because if it would publish one it must publish all, answers to each, and there would be no end to it, and no space left, and besides it would cause much temper and dispute. There is a smart saying that any one can prove any thing desired by the Bible.

The following letter is one among many such received.

August 12, 1915.

Editor Sentinel:

Please allow me space in your paper for a few words that I believe to be of great interest to the people. I wish to present to the public the coming of Christ and what will take place before he comes and after. If you will publish this and a few short letters after I will prove plainly by the scriptures every statement I make. Our Savior is coming to earth and set up his Kingdom at Jerusalem and all nations of the earth will have an opportunity to worship him there. He will build his temple there and there will be great spiritual and temporal joy there among his people for many generations he will cleanse the promise land and place all Israel on their possessions.

Yours respectfully,
G. A. Jones.

Charley Shindler loaded up his props, planks, prizes, pulleys and jack screws, to say nothing of other removings Monday and went out to the school house called Blake, to turn the building right end foremost. Luck Friday 13

Yesterday was "Friday, the 13th," and we received a new hat as a present from one friend and seven ears of corn from another. Not such an unlucky day after all. And believe us, when that seven ears of corn is converted into delicious hoe cakes, and served to us, we can don that lovely hat and pull off a street parade. Come to Texas.—Optimist.

W. O. W. Ball Team

The Woodmen Base Ball Team returned from Center Saturday night, they having played at San Augustine and Center during the past week. They lost two games at San Augustine, and won two at Center. The game at Center Saturday went 13 innings, and the Nacogdoches boys won by a score of 4 to 2. The team left this morning for Mt. Enterprise where they play Monday, Tuesday, and Wednesday, and from there to Henderson for three games the last of the week. They have a very strong team, and expect to take all the games this week.

Ball Game Wednesday

The ball game yesterday between Lufkin and Nacogdoches was one of the best seen on the local diamond this season, resulting in a score of 3 to 1 in favor of the visitors. Both teams had on their playing clothes and the crowd was well pleased with the game, altho Nacogdoches went down in defeat. The pitching of both Bowen and Horton was good, neither one allowing but a few scattered hits.

Nacogdoches left last night for a series of three games with Palestine and three with Crockett, when they will return home on the 19th and play three games with Lufkin.

The local fans are figuring on team coming back still at the head of the percentage column and if playing a one good ball will keep them there they are there to stay until the end of the season.

The following will show how it happened.

Summary—3 base hit, Presswood. 2 base hits, Allison, Cherry. Hits off Bowen 5, off Horton 6. Base on balls off Bowen 1, off Horton 1. Double plays Young to Utzman, Allison to Kizzar.

Batteries—Nacog. Horton and F. White. Lufkin, Bowen and Vance.

Umpire—Hooper.

Four Years to Graduate in Dentistry

At a meeting of the Board of Directors of the State Dental College held Aug. 7th, 1915, it was decided to extend the Dental Course to four years in 1917. This is to conform with the action taken at the last meeting of the National Association of Dental Faculties which met in Ann Arbor, Mich. in January, 1915.

Students matriculating for the session of 1915-16 will not be affected by this new ruling.

From Judge A. G. Brooke

The Sentinel is in receipt of a line from Judge A. G. Brooke, associate justice of the Beaumont court of civil appeals, whose home is at Carthage, Texas, written from Mineral Wells. He says he has nothing to do but drink water and write to his friends. That sounds restful and enviable.

No News from Galveston

What has happened to Galveston in the recent storm can not be learned. No wires, no wireless or any kind of word from Galveston has been received since Monday night, the first part of the night. Then it was reported vaguely that the water was six feet deep or more in the streets, and the Gulf was running over the sea wall. This may have meant the causeway, not the sea wall. Thousands of people had fled from the city but no more could leave. The wind was fierce and the outlook was alarming. The damage by the wind at Houston justifies the opinion that the wind and waves together at Galveston caused greater destruction in Galveston. But not a word or even a reliable surmise has come to the outside.

As far as known there is only one Nacogdoches resident there, and that is Raymond Rochefort, the ten year old boy who makes his home with Mr. and Mrs. K. P. Branch. Others had left in time.

Border Bandits

Strange that those idiotic bandits on the Rio Grande can't see that they are spoiling their own chances. They don't seem to know that they can't possibly win any good and that they will be wiped out in short order. Was it General Baylor who said "a good Indian is a dead Indian." General Funston may now define what a good Mexican is.

Accident At Marshall

Miss Roe got up last night about 10 o'clock to leave the house and go out into the yard. Her father, who was awakened by her opening the door, thought that some one was trying to enter the house and fired. The bullet entered her left side from the back, passing through her abdomen. She is in a serious condition.

Very Encouraging, and Ten Reasons

From present indications, our fall attendance will be the heaviest in the history of the institution. We are now getting from sixty to seventy-five requests each day for catalogues from those interested in attending. There are several reasons why those desiring to thoroughly prepare themselves for a successful business career should select our institution. First, we meet the demands of the business office or we would not be enrolling two thousand students annually from over half the states in the union. Second, we have our own specially prepared and copyrighted text books and methods of teaching the most important subjects. This enables us to give a better training in less time and at less expense. Third, our work is practically all arranged on the individual plan of instruction thereby enabling each student to advance as rapidly as his ability will permit. The dull student is not overcrowded by the fast one, or the fast student held back on account of the dull one and both discouraged. Each works to his full capacity and increases interest in his work. This method also enables a student to enter at any day in the year and take up his work to the very best advantage. Fifth, our free Employment Department is of great value to many of our graduates in securing positions. Sixth, our Service Department is of exceptional value to the graduate in after life. It is free to all and is very thorough. Seventh, we have one of the most competent corps of teachers to be found anywhere. They know how to make a student's stay pleasant as well as profitable. Eighth, we give thorough courses in Bookkeeping, Shorthand, Telegraphy, Cotton Classing, and Business Administration and Finance. This gives you a wide range of subjects from which to select, something to fit you for the line of work you most prefer. Ninth, we have shown the superiority of our training by placing our students in the very best positions to be had in commercial, state and national affairs. Also by repeatedly winning first honors on our exhibit of students' work at three different state fairs. Tenth, Tyler is a beautiful, moral, healthful city of fifteen thousand high class citizens, the metropolis, and educational center of East Texas. Write today for catalogue and begin making your arrangements to enter America's largest business training school at the very earliest possible date. Fill in your name Address Course interested in and mail to the Tyler Commercial College, Tyler, Texas.

On Waste in Cotton Marketing

Henry N. Pope, lecturer Texas Farmers' Union, when asked to estimate the annual loss due to improper methods of marketing the Texas cotton crop said in part:

"The waste in cotton marketing begins at the gin and it follows the product through every step from the gin to the mill and it aggregates an enormous waste which could be prevented, amounting to not less than five dollars per bale. Samples taken from the bale by the cotton buyer amount in the United States annually to 100,000 bales, which is known to commerce as the 'city crop'. At normal prices, that cotton is worth \$60 per bale making a total of \$6,000,000 per year. Experts calculate that storage for cotton can be provided at a cost of \$1.50 to \$2.00 per bale for the permanent structure. This loss, amounting to \$6,000,000 occurs annually and the saving of this item alone within two or three years would provide all the cotton warehouses that the South can possibly use at the time of its greatest need for storage and with the largest crop that it can possibly produce, for cotton will move continually from September to March and at no time, nor under any circumstances, would there ever be more than one-third or one-fourth of the total crop under shelter.

As a consequence of the cutting of the bale for the sample, the cotton must be repacked at the compress. The ragged condition caused by much sampling and exposure in the gin yards, or in the back yard, or in the cotton yards, or on the railroad platform, or elsewhere, from the gin to shipside, results in an accumulation of dirt and trash in 'pluckings' on compress platforms and in cotton yards in increased insurance, in damage from exposure, in increased fire hazards and the deduction for the tare which always exceeds the actual weight of the bagging and ties by ten pounds at least—I say that these several items of waste and graft amount in the aggregate to a sum not less than five dollars per bale, every cent of which is calculated in advance by the purchaser, and is deducted from the price which the spinner pays the farmer. None of this appears in the bill of lading but is all in the transaction and it all accrues to the loss of the producer.

The next process is official grading of the cotton sample. In my judgment the farmers are losing from fifty cents to one dollar per bale by the grading of the cotton buyer, who naturally will give himself the benefit of the doubt in order to protect his own business with the mill. A cotton buyer, uncertain as to whether a bale of cotton is strict, middling or middling fair, will buy it at the lower grade rather than the higher. We must allow that there are many dishonest men in the cotton trade, as in other vocations, and that a large number of them will take advantage of the farmers' ignorance and possibly grade the cotton much lower than its actual grade."

On Railway Investments

President Wilson recently referring to our railroad problems said in part: "They are indispensable to our whole economic life and railway securities are at the very heart of most investments, large and small, public and private, by individuals and by institutions. There is no other interest so central to the business welfare of the country, as this. No doubt, in the light of the new day, with its new understandings, the problem of the railroads will also be met and dealt with in a spirit of candor and justice."

When the first citizen of the land stresses the importance of understanding and dealing justly with the railroads, certainly the American plowmen can venture upon a careful study of the problem. C. E. Schaff, president of the M. K. & T. railway company, when asked to outline the relation of the public to railroad investments, said in part:

"It may be said that the railroad world is encumbered with a lot of phantoms which exist only in the popular fancy. For instance, because there have been a few so-called 'railroad magnates' whose names have figured prominently in finance, many people have come to believe that the railroads of the country are largely owned by a few rich men. As a matter of fact nothing could be further from the truth. Out of the colossal sum of twenty billion dollars of American railroad securities, less than five per cent is now, or ever has been, in the hands of these men who have figured prominently in the newspaper headlines—while the other 95 per cent is in the hands of over two million investors, large and small, who in many instances have put the modest savings of a life time into these securities in order that they might lay away a competency for old age. When, therefore, the value of these securities is depressed or perchance destroyed, the hardship is a hundred-fold greater upon thousands of every-day citizens, than upon the handful of millionaires, good or bad, who have figured prominently in railroad circles.

Hundreds of millions of dollars of the assets of our great life and fire insurance companies, savings banks, trust companies, educational and fiduciary institutions are invested in railroad bonds—and the moment, therefore, that the soundness of these bonds is called into question the financial solidity of these myriad institutions—directly affecting the welfare of millions of policyholders and bank depositors—is gravely menaced. During the last several years, many millions of dollars representing depreciated values, have been charged off the books of concerns like those enumerated above. American railroads have become a vital part of the very wool and fabric of the nation. Their continued efficiency is absolutely essential to the smallest community in the land.

In blindly striking at the railroads our blows fall not merely upon thousands who have committed no wrong, but, in the last analysis, upon ourselves. We should remember how interdependent we have come to be in this mighty republic of ours—that each is in truth becoming more and more his brother's keeper, and that we need to act and think circumspectly, lest in our mistaken zeal we destroy those who, like ourselves, need whatever of this world's goods the toil and sweat of years has bequeathed to them."

On the Law of Supply and Demand

I am amazed that so long the cotton industry should have suffered the grave disadvantage of an entirely one-sided representation concerning supply and demand. We need not deceive ourselves with the notion that by any act of legislation or any concert of action we can suspend the trade law of supply and demand, but we cannot ascertain economic value without knowing demand as well as supply. When you plant your cotton in the spring the Federal Government counts your acres and publishes to the consuming world the precise figures of cotton acreage in the United States which furnishes two-thirds of the production and thereby constitutes two-thirds of the productive influence upon the cotton market. The government reports the condition of the crop and continues month by month to report its condition until the crop is picked and then it begins in September to count and report the bales that are ginned and continues to count and report the bales every month until the ginning is concluded. So that from the time the crop is planted until the last bale is ginned the buying world knows by accurate official representation the acreage, the condition and output from month to month, and yet at no time does the producing world know the condition of the consumption of the product.

Those of us who have been laboring in this field have made repeated efforts by formal communication and by personal interview with congressional and administrative officials at Washington but have been utterly unable to obtain the desired results.

I am compelled to state this blunt fact, not in any captious spirit but for the purpose of demonstrating to you that relief in this important particular must come through the cotton states themselves.

We Democrats have talked so long about State sovereignty as a negative quality in resistance to the encroachments of the Federal Government and as a bulwark against the usurpation and the tyranny, actual or potential, which follow from the concentration of political power in the hands of the Federal government, that we have forgotten the positive qualities of State sovereignty. We have lost sight of the fact that the State possesses all powers except in so far as it has conferred certain powers upon the Federal Government and in so far as the sovereign people have reserved certain powers to themselves. Sovereignty in the political sense means state omnipotence within the limits of human endeavor. Except as to the limitations to which I have already referred, the sovereignty of the State is as complete and as boundless as the sovereignty of the monarch who assumes the divine right of kings. In an emergency of this kind, the State is warranted, and, indeed, under the very obligation of legislation, this body is commanded to conserve the public welfare by any device of legislation that does not palpably offend the Constitution.

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists. 50c. large box, or by mail, The Paxton Toilet Co., Boston, Mass.

Instead of Liquid Antiseptics or Peroxide

many people are now using Paxtine Toilet Antiseptic
The new toilet germicide powder to be dissolved in water as needed. For all toilet and hygienic uses it is better and more economical.

To cleanse and whiten the teeth, remove tartar and prevent decay.
To disinfect the mouth, destroy disease germs, and purify the breath.
To keep artificial teeth and bridgework clean, odorless
To remove nicotine from the teeth and purify the breath after smoking.
To eradicate perspiration and body odors by sponge bathing.
The best antiseptic wash known. Relieves and strengthens tired, weak, inflamed eyes. Heals sore throats, wounds and cuts. 25 and 50 cts. a box, druggists or by mail postpaid. Sample Free. THE PAXTON TOILET CO., Boston, Mass.

Very Serious

It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—

THE FORD'S BLACK-DRAGHT Liver Medicine

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not irritate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.
SOLD IN TOWN #2

HAVE YOU TRIED PAXTINE

The Great Toilet Germicide?
You don't have to pay 50c or \$1.00 a pint for listerian antiseptics or peroxide. You can make 16 pints of a more cleansing, germicidal, healing and deodorizing antiseptic solution with one box of Paxtine—a soluble antiseptic powder, obtainable at any drug store.

Paxtine destroys germs that cause disease, decay and odors,—that is why it is the best mouth wash and gargle, and why it purifies the breath, cleanses and preserves the teeth better than ordinary dentifrices, and in sponge bathing it completely eradicates perspiration and other disagreeable body odors. Every dainty woman appreciates this and its many other toilet and hygienic uses.
Paxtine is splendid for sore throat, inflamed eyes and to purify mouth and breath after smoking. You can get Paxtine Toilet Antiseptic at any drug store, 25c, 50c and \$1.00, or by mail postpaid from The Paxton Toilet Co., Boston, Mass., who will send you a free sample if you would like to try it before buying.

Visited the Boy Scouts at Camp Lucas.

Representatives of the Sentinel were among the numerous visitors of the Boy Scouts, Sunday, at their camp on the Angelina River a mile north of Sacul, which about twenty six miles northwest of Nacogdoches. Sacul is on the T. & N. O. Railroad.

The camp, which is at the foot of the hill or highland, in the margin of the river bottom, is right around a bold spring of clear cold water, which has a flavor of sulphur, generally known as Lucas Spring.

The camp is properly called Camp Lucas, and at its entrance there is a U. S. Flag suspended over the road, beneath which are the words, Camp Lucas, in large rustic square letters.

And oh, the beautiful natural shade trees, and the flowing clear water, right near the bank of the river, which makes a horseshoe bend containing about two acres of ground, in the very middle of which semi-circle the spring bursts out of the earth. It is beautifully curbed and arranged for use this being done by big hearted John T. Lucas who with his hospitable wife and other members of his family were on the ground to make the Scouts and their visitors welcome and jolly.

There was a bountiful barbecue dinner served and enjoyed by everybody, in true camp style—Oh, it was jolly.

There were about thirty of the scouts in camp, some of them being of the type usually called small boys, and among them was Ben T. Wilson, supposed to be a swimming master or an instructor of swimming. And the swimming hole is simply a deep place in the running river. A boy could easily swim from Nacogdoches county away over to Cherokee county, about 100 feet. And then too he could fish in both counties and in Rusk county and not walk half a mile.

And no mosquitos there. Sleeping tents and plank seats for all purposes. They have all kinds of times, for instance Sunday School, and religious devotions, drills, lectures, athletics, and good grub.

Rev. M. C. Johnson is boss, and the boys, so regard him, but he is a chum and not a hard master. He is one of the boys, the biggest boy.

And Frank Robbins was there to welcome the boys to where he used to live. Other neighbors and friends were there, some of them from Alto.

Among the visitors who went up from Nacogdoches were Mr. and Mrs. J. Thos.

Hall and their son, Martell from Houston, Mr. and Mrs. G. B. Layton, Judge S. W. Blount, Percy Blount, Prof. Earl Huffor, W. F. Price, Mr. and Mrs. Giles M. Haltom and daughter, Miss Elaine, and Dr. and Mrs. J. E. Mayfield.

The roads are good for automobiles from here there, and it is not too late for others to go from here.

The Scouts propose to strike camp Wednesday and return home via the regular T. & N. O. train.

To Extend School Buildings.

The school bond election has resulted in favor of the bonds and the tax, and has for its object an addition to the high school, an enlargement of the West End School, an addition to the colored school building, and a brick school building at North Church.

All of these additional facilities are greatly needed. The trustees who are to direct the work, are busy now on the plans. There will be no delay, for the need is pressing.

This is indeed a work and a move of the greatest importance to this school district, and its benefits will extend far beyond these limits, as do the school interests of this district.

And it means employment for workmen and money turned loose. It will make things brighten up generally, and advance the public welfare.

Burglary.

Sheriff Spradley has gone down to Etoile, 25 miles south east of town, in response to a reported burglary. The report is to the effect that Uan Martin has a stove camp on the river, and, Tuesday night his pants were stolen from his tent, with his watch and \$25 in money in the pockets, a \$5 gold coin being a part of the money.

Lay not up for yourselves treasures where thieves break through and steal. Deposit cash in the bank.

Farmer's Congress of 1915

It is a pity that so few of the farmers take advantage of the low railroad rates that are in force during the session of the Texas Farmers Congress held at College Station every year. This congress is a joint meeting of all the agricultural associations of Texas who meet together to discuss the problems that confront the Texas farmer whether he be a stock man or a corn and cotton grower.

One meets at the College the most progressive farmers of our State, besides having the opportunity to hear lectures upon agricultural subjects given by such men as Wheeler of Illinois, rural finance and bonded warehouse, by Adams of Dallas and Senator Morris Sheppard, both of these gentlemen making master talks upon these vital subjects to the Texas farmer.

The display and demonstrations of agricultural implements, inspection of the dairy cattle, beef cattle, draft horses, and hogs of various breeds, the demonstrations in applying serum to hogs for cholera, and the lectures on Texas fever would have paid any farmer from Nacogdoches County to have attended the Congress.

I did not see a single man from our County at the Congress which to my mind speaks bad for the progressive spirit which we are all proud to boast about and until our people as a whole wake up to the opportunities that the Government, the Agricultural College and the Experiment Stations are giving them not only to improve their soil, increase their yields, breed better stock, but to make better homes, educate their children instead of making slaves of them in the cotton field, and unless advantage is taken of these opportunities how can we expect any real progress in our midst.

What is being done in our county by the farmers in establishing a bonded warehouse? As far as I can learn nothing, and why? Because they do not understand it, yet the State Government had a man here a few weeks ago to explain the bonded warehouse law to them, and there were not over a dozen farmers present, yet the streets of Nacogdoches were crowded with farmers, a large majority of whom were talking hard times and cursing the weather, when it they had a little ambition about them they would have been at the Court House to hear something that would ensure them a fair value for their cotton crop.

It is gratifying to know that we have some progressive farmers in our county, men who study agricultural problems as they pertain to their farms, men who are erecting silos, breeding better stock and increasing the fertility of their soils, but it is sad to say that these pioneers of scientific farming are few in our county, but it is to be hoped that their example will be followed by others. The greatest drawback to the progress not only of this county, but of all East Texas is the one year renter, this plant

should and must be changed, everyone agrees that the system is unsatisfactory, that our soils are being ruined and that the children of this class of farmers are being deprived of their right to an education, and that the whole system is demoralizing. No land should be rented for less than five years, and it is time our land owners co-operate together to improve these conditions.

When these conditions change and not before, we will see our people take advantage of such institutions as the Texas Farmers Congress and allied societies.

Is Sickness A Sin?

If not, it's wicked to neglect illness and means of relief. It's wicked to endure Liver Ills, Headache, Indigestion, Constipation, when one dose of Po-Do-Lax gives relief. Po-Do-Lax is Podophyllin (May Apple), without the gripe. It arouses the Liver, increases the flow of bile—Nature's antiseptic, in the Bowels. Your Constipation and other ills disappear overnight because Po-Do-Lax has helped Nature to remove the cause. Get a bottle from your Druggist today. Get rid of your Constipation overnight.

School Election.

The election held last Saturday in the Nacogdoches independent school district for \$45,000 bonds and for the school tax of 50c, on the hundred dollars, resulted as follows:

For the Bonds 138 votes.
Against the Bonds 35 votes.
For the tax 137 votes.
Against the tax 34 votes.

Citation.

The State of Texas.
To the Sheriff or any Constable of Nacogdoches County Greeting:

You are hereby commanded to summon Albert Wheeler, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Nacogdoches county, to be holden at the Court House thereof, in Nacogdoches, on the 1st Monday in September 1915, the same being the 6th day of September, 1915, then and there to answer a petition filed in said court on the 10th day of August 1915 in a suit, numbered on the docket of said Court No. 363, wherein Amanda Wheeler, is Plaintiff, and Albert Wheeler, is Defendant, and said petition alleging that on or about June 1911 Plaintiff and Defendant were lawfully married to each other and thereafter lived together as husband and wife until on or about the 12th day of July 1912 when Defendant, without cause or provocation on the part of this Plaintiff, abandoned her, since which time they have not lived together as husband and wife.

That during the time they so lived together Plaintiff made Defendant a kind and dutiful wife, but not withstanding his marital vows, Defendant abandoned Plaintiff as aforesaid, and has not returned to her, which said abandonment has been for a period of more than three years.

That as a result of said marriage there was born unto her a girl now about two and one half years old, name Fannie. Plaintiff alleges that Defendant is not a suitable person to rear and educate said child, but that she is able and willing to care for and support said girl.

Wherefore plaintiff prays that Defendant be cited in terms of law to appear and answer this petition, that upon a final hearing hereof she have judgement dissolving said bonds of matrimony, for custody of said child, for cost of suit and such other relief that she may be entitled to.

Herein fail not, but have before said Court, on the said first day at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, Claud C. Watson, Clerk of the District Court of Nacogdoches County.

Given under my hand and the Seal of said Court, at office in Nacogdoches this 12 day of August 1915.

Claude C. Watson, Clerk,
District Court, Nacogdoches, County.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

Cow Hides Wanted.

Hides are in good demand and are bringing good prices, and it is worth while to handle them right. In skinning try not to cut or score the hide. Spread it out, flesh side up, and give it a heavy shower of salt. This is absolutely necessary at this time of the year. Fold it up and put it in a sack. Write your full name and address on two tags. Put one inside of the sack, and one outside. Ship by express to A. Golenternek & Co., Tyler, Texas.

Until further notice we will pay 13 cents per pound for hides handled according to the above instructions. We remit the same day that we receive the shipment and we also furnish shipping tags. Horse hides bring from \$1.50 to \$3.00 each, according to the size. We also handle wool.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists. Federal Building Deal Closed.

The letter below published means that the title to the site for the federal building, or post office, in our public square, has been paid for by the proper authorities, and the ground transferred by our city to the United States.

It follows that the long desired building will now be erected, in formal order, without delay. Of course the details must be worked out by civil engineers, architects and contractors.

Paris, Texas, Aug. 11.
The Postmaster,
Nacogdoches, Texas.

Dear Sir:—

I beg to herewith inclose Treasury Warrant No. 281, payable to the City of Nacogdoches, in the sum of \$4,500.00. I am, also, inclosing you a copy of a letter to C. S. Hodges, together, with receipts for the Treasury Warrant.

As soon as the bond has been executed by the City, conditioned for the removal of obstructions, and the necessary Revenue stamps have been placed upon the deeds and the deeds have been delivered to the County Clerk to be recorded, please turn over the warrant to the Mayor, having him sign the inclosed receipts in triplicate.

I have requested Mr. Hodges to turn over all papers to you, which you can send me, except the deeds, together with the receipts as soon as you have delivered the Treasury Warrant. When the deeds have been duly recorded they will be turned over to you, and I will be glad if you will forward them to me.

I know that together with all other citizens of the City of Nacogdoches you are anxious that this matter shall be closed, and I trust that I am not trespassing upon your good nature too much in this matter.

Very truly yours,
J. B. Dailey,
Asst. U. S. Attorney.

P. S. Please write me to effect that the sureties on the removal bond are good for amount named as I will have to certify to that effect.
J. B. D.

Wars and Wars.

The Sentinel readers are probably expecting to find news of the wars in its columns. This is no easy problem, because there are wars raging, to a bewildering and appalling extent, and because the reports are so contradictory that the real truth is not apparent.

From all the conditions extant, it would seem like old Satan has broken out of his chains and taken control of affairs generally.

The European conflicts grow worse. The Germans have driven the Russians out of Warsaw, and may drive them out of Poland. In fact it seems like the German allies are gaining on the English allies. Rumors of peace

are started now and then, but no dove of peace is visible. The awful war may go on for years. Texas now has troubles of her own, and they are not trivial. Murders, robbery and arson on the Texas side of the Rio Grande is on the rampage.

The warlike relations between Mexico and the United States are alarming. Those bandits and lawless people or senseless Mexican mongrels are still playing havoc. Texas and the United States have rushed their military and civil forces to the scenes, but the offenders are dodging like coyotes. Of course, they will soon be run out, but still the good people are greatly worried.

Farmers' Warehouse at Center.

Mr. T. S. Short informs the Optimist that subscriptions to the stock of the Farmers Warehouse and Marketing Company are slowly but gradually growing, with every indication that the warehouse can and will be built. In the mean time, those who have promised their support are urged to come forward and sign up their subscriptions in order that the matter may be closed up at an early date, and orders placed for the lumber.—Shelby Optimist.

State Suits vs Breweries

The big suits now on trial at Austin by the states attorney against the big breweries are based upon a violation of the anti-trust laws. The charges are that there is a trust of different breweries as to prices. The evidence shows that A. A. Busch, the great brewer of St. Louis, is a controlling power. It is alleged that his company owns or controls large interests in the Texas breweries, and all contribute moneys in election contests.

Russia's Gold Reserve.

The largest hoard of gold in the world is that held in the vaults of the Russian State Bank, amounting now to about \$850,000,000. Yet a visitor may travel from one end of the Russian empire to the other and not see enough gold coin to buy a pair of shoes. Paper currency is used universally.—Austin Statesman.

Mexican Mixtures.

The situation as to the relations between Mexico and the United States is now most interesting.

The American governments that participated in the recent peace conference are all opposed to intervention. They say hands off, and Carranza says hands off.

The entanglements of the United States and Mexico are numerous, varied and formidable.

Disturbances in Vera Cruz are serious. Many such disturbances are brewing, among ignorant classes who are prejudiced against "Gringos," or Americans, who speak English. Bandits brigands and other disloyal types of Mexicans are ready at the slightest occasion, to get their guns and go after any thing they please. This is the condition also on both sides of the Rio Grande. The "greaser" is always trying to "start something" and any kind of a fuss suits him.

Conditions on the Texas border along the Rio Grande are serious. Those wild and wicked starters are doing all deviltry. They dodge and hide and run for the pure fun of it. Law and order, not for them.

The whole United States army can't catch them nor tame them. But all the powers available will be used to suppress and hold down these disturbers. And it may create broader troubles.

General Villa seems willing to quit but Carranza is doubtful and reluctant. His true designs are not apparent. If he causes war with the United States it will be a most deplorable calamity.

The European War

The conflict of nations in bloody battles in Europe does not slacken. The German armies are aggressive and irresistible. They are viciously contesting and assaulting the enemy in all directions. The German army proper is more successful in its attacks than are the other German allies. They are fighting the Russians, while the others are fighting Italian, French and British with less success. The British are still bombarding the Turkish forts on the Dardanelles.

Contraband.

Germany complains of the United States for selling war materials, or contraband goods to the allies. The allies might just as well make the same objection as to the reverse, or selling to their enemies.

These objections imply that the United States is not neutral when she does such acts, is partial if not more.

Now, it seems to disinterested parties that any nation, in war or out of war, is expected to procure supplies from any available sources, and that nations having such supplies to sell have the right to sell to any and all alike, and no right to refuse.

L. O. O. F. Annual Meeting at Lufkin.

Nacogdoches, Texas, Aug. 13th 1915.

The East Texas Oddfellows Association met at Lufkin yesterday in its fourth regular annual session. J. S. Doughtie, president, presiding. Grand Master E. R. Misener of Hamilton, Dr. R. H. Hubbard, Past Grand Master of Kaufman and Mrs. Amelia Blank of San Antonio, president of the State Rebekah Association, were present. During the preliminaries Wm. P. Humason, of Lufkin, was master of ceremonies.

The welcome address was delivered by W. M. Glenn of Lufkin, response by J. S. Doughtie for the subordinate lodges, and Mrs. Amelia Blank on the part of the Rebekahs.

Dr. R. B. Hubbard delivered a splendid address in the opera house on the Friendship of Jonathan and David, followed by Grand Master Misener in a beautiful speech on Oddfellowship.

At the noon recess E. R. Misener, Grand Master, Dr. R. B. Hubbard, Past Grand Master, W. M. Glenn, C. B. Collins, G. T. Cross, Dr. R. B. Bledsoe and J. S. Doughtie were invited to take dinner with Wm. P. Humason, a prominent citizen and a very enthusiastic Oddfellow. The good things prepared by Mr. Humason's good wife liked to have put the whole gang out of commission for the balance of the day. Among the many things on the table was a nice juicy baked squab at each plate. Dr. Hubbard, who lives out where squabs do not grow had his plate helped the second time for a squab. He was so thoroughly enthused over squabs he had to make a speech on Humason's dinner, and explained that a squab was a young pigeon, a fact not known by a great many.

The Rebekah team of Tyler was on hand and exemplified the work last night by initiating four candidates into the Rebekah lodge at Lufkin. This team is among the best in the State, having taken several prizes in competitive drills at the Grand Lodge. Sixteen ladies compose the team, and their exemplification of the work was worth many times the trip to Lufkin.

About twelve o'clock last night the doors of the lodge room were thrown open and the citizenship of Lufkin were invited to participate in a repast good enough for crowned heads. The East Texas Association unanimously voted Lufkin a vote of thanks for their splendid entertainment and hospitality. One matter which was overlooked in the beginning of this communication and which would have been a slight to the young man who was substituted to fill Grand Warden Charles Brachfield's place, who was absent, was the speech of C. B. Collins. Mr. Collins is a young man of fine ability, and made one among the best speeches delivered at the meeting.

Tyler was chosen as the next meeting place of the as-

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

The State of Texas.
To the Sheriff or any Constable of Nacogdoches County, Greeting:
You are Hereby Comanded to summon John Mitchell, by making publication of this Citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Nacogdoches county, to be holden at the Court House thereof, in Nacogdoches, on the 1st Monday in September 1915 the same being the 6th day of September 1915, then and there to answer a petition filed in said Court on the 26th day of July 1915 in a suit, numbered on the docket of said Court No. 357, wherein Josie Mitchell, is plaintiff, and John Mitchell, is Defendant, and said petition alleging that on the 12th day of May 1899 Plaintiff and Defendant were duly married to each other, and lived together as man and wife until on or about the 25th day of July 1912 when the defendant abandoned this Plaintiff with the full intention of permanently abandoning her, and they have not so lived together as husband and wife since the date of their separation.
Plaintiff alleges that she at all times made Defendant a true, kind and affectionate wife; that three years have elapsed since said abandonment, therefore Plaintiff pleads the Statute of three years abandonment.
Plaintiff further alleges that during their marriage relations that there were born to them five children to-wit: Ruth a girl age 12 years, Nora a girl age 10 years, Nina a girl age 8 years, Carl a boy age 6 years, Vera a girl age three years, and that Plaintiff asks for the care, custody, raising, maintaining and educating of said children; that she is able and willing to support said children and she prays that the Court grant her the further custody of raising and maintaining said children.
Premises considered Plaintiff prays that the Defendant be cited in terms of law to answer this petition upon final hearing that she have judgement dissolving said marriage contract, for the care and custody of said children for all cost and for such other and further relief as she in law and equity may be entitled.

Herein fail not, but have before said Court, on the said first day at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.
Witness, C. C. Watson, Clerk of the District Court of Nacogdoches County.
Given under my hand and the Seal of said court, at office in Nacogdoches this 26th day of July, 1915.
Claude C. Watson, Clerk.
District Court, Nacogdoches County.

Congressman Slayden

The two leading papers of San Antonio were hotly opposed to congressman Slayden in his last election. He had a close race, and, as the negro said when the ghost spoke, it is not over yet.

The Light says:

If anything has happened during the last year to make appropriate stuffing for a comic almanac it is the claim of our "Present" congressman James L. Slayden, that he is directing the policy of the United States in regard to Mexican affairs.

San Augustine Home Burns

San Augustine, Texas, Aug 12.—Fire destroyed the residence owned by Dr. Spears and occupied by Will Mills, at an early hour this morning. Practically all household goods were burned. The house was insured for \$2000.

Wireless Station Down.

San Antonio, Aug. 16.—At 10 o'clock tonight Fort Sam Houston wireless picked up scraps of conversations between a ship in Galveston harbor and one at sea, name of neither ship being learned. The harbor ship reported a ten foot tide and still rising in the bay.

The local operator failed in all efforts to talk to Galveston ships. The city wireless at Galveston gets power from Galveston Electric company, whose plant was out of commission. The Texas City wireless went down this afternoon about 3 o'clock. Brownsville wireless operator reported telephonic conversation with Galveston in which it was said that large numbers of ships had been wrecked in the bay but those in deep water were safe. No loss of life has been reported but water is all over the city.

Intercollegiate Debates

University Station, August 13.—According to an announcement of E. D. Shurter, Professor of Oratory in the University of Texas, the subject for next year's intercollegiate debates will be, "Resolved, that a material increase in the armament of the United States over that obtaining or provided on August 1, 1915 is justifiable. (By armament is meant equipment for national defense, naval and military.)" This question will be debated by the the University of Texas team with the debating teams of Colorado, Oklahoma and Missouri, respectively. It will be used also in the try-outs to determine who shall constitute the University team of debaters in the first week in December.

Prof. Shurter states that this is perhaps the liveliest issue that could be chosen at the present time. It is full of matter, pro and con, daily, and sharp diplomatic exchanges of recent months between the United States and other countries have served to stimulate the public interest in the matter of national defense to a high pitch.

This would be a pretty fine sort of world if we were all as good as we expect others to be.—New York Times.

Rusk Academy

(From Sentinel Aug. 14.)
Rev. J. E. Stack, of Waco, is here in the work of raising funds to rebuild the Rusk Academy, a Baptist school, which was recently burned.

At Rusk he raised \$18,000. Jacksonville subscribed liberally, and other towns and localities are coming in. The school was already popular and was rapidly growing.

Rusk, Texas, Aug. 16, 1915.
Daily Sentinel,

Nacogdoches, Texas.

Dear Sir: My attention was called to the enclosed clipping which appeared in your paper last week. Will you please correct the error in regard to the Rusk Academy burning? Rusk Academy did not burn, neither did Mr. Stack raise any money in Rusk for the Academy. Rusk did subscribe liberally to build a new Dormitory for the Academy, but that was done some months ago, and the building is almost complete. Mr. Stack was considering the work of raising money for the school, but did not take it up, and has returned to Waco. Please make correction through your paper.

Yours very truly,

J. M. Cook.

The Rosary.

The Crown and Ideal Theatres will offer the seven-reel Selig Red Seal Play, "The Rosary," on Friday Aug. 20 1915, as one of the big features of the year. A more artistic and dramatic photoplay could hardly be imagined than this production by the Selig Polyscope Company. It is based upon the famous drama by Edward E. Rose and tells the story of many trying events which fill the life the Father Kelly. From childhood he was told that his calling was the church and his heart directed him that way, but in early manhood when a young girl came into his life he wavered for a short time from his determination. He won the battle which raged in his heart, however, and devoted himself to the church. Later in life a boy—the son of the woman he loved—came to him and Father Kelly cared for the boy as though he were his own. The boy grew to manhood and married. His wife's sister was ruined by a worthless fellow and in protecting the girl's name the wife aroused the husband's suspicion. A separation followed and Father Kelly, heart-broken over the tragedy, did all he could to bring them together. In the end he was successful and happiness came into their lives again.

A Sweet Sentiment.

The following clipped from a letter from Mrs. Pennybacker in her "Spring Address to Club Women" will be an inspiration to many:

"Whenever a bit of literature is helpful to me I never fully enjoy it until it is shared with someone else. The following is from the pen of Mrs. Isaac S. Dallam, Houston, Texas, who has been more than once my inspiration:

"I have arrived at that stage where I want to banish the calendar for awhile, stop the clock while I sit and dream, and philosophize a little over this wonderful world, the ever interesting people I have known, the increasing loveliness of nature. I like to think of life, not as a race, but a walk, with time to enjoy a sunrise or a sunset; to miss no flower by the roadside. I have lost (if I ever had it) all desire to lead a procession. I should like to be in a middle place, not too far to wave a salute to my friends in the front and to wait awhile or lend a hand to those behind who have not strength for the journey, to be in touch with it all; no envy, only admiration for those who have out-distanced me, love for those who walk close beside me, and pity for those who must always be in the rear."

Cordially Yours,
Anna J. M. Pennybacker.

Solemn Thoughts

The summer is slipping, the season so warm, and soon will come yipping the boreal storm; the frost and the blizzard, all species of gale, from A down to Izzard, from Antlers to tail. Instead, then of tuming around and repeat, and blasting the blooming old summertime heat, instead of denouncing the sun and its glare, and ranting and bouncing ten feet in the air, you ought to be grateful that August's on deck, for soon the storms hateful will land on your neck. I'd rather be frying than wading in sleet, with chilbains a-trying to ruin my feet. I'd rather be cooking than facing the snows, with icicles hooking their roots in my nose. I'd rather be baking right here in my den, than freezing and aching and thawing again. The summer is fading, alas, that it's so! And soon we'll be wading neck-deep in the snow; and then we'll be sighing and saying, "How sweet it were to be frying in mid-summer heat!"—Walt Mason.

People Leaving Port Aransas

Corpus Christi, Aug. 16.—A large part of population of Port Aransas, an island town 23 miles from here, have left the island on boats for the mainland, fearing the tropical storm would cause the island to be flooded tonight. The wind was blowing at the rate of 50 miles an hour at Port Aransas tonight but according to reports here, the only damage inflicted had been the destruction of a few bath houses on the beach. Some anxiety is felt for the yacht Augusta, which left Port Aransas Sunday for Houston, and which has not been reported.

Keep the body healthy at this season by using Prickly Ash Bitters. It is a necessary condition to successfully resist malarial germs. Stripling, Haselwood & Co., Special Agents.
