Raid on Some Burglars

Sheriff Spradley was called to Maytown Monday to investigate a reported burglary, and returned last night with five negroes charged with the crimes. They were all grown buck negroes and workmen on the mill grounds. A full confession was made and a place shown Spradley where they had congregated and had a feast of scrambled eggs, cooked meats and such eatables as they had found in the house of another negro. Petty burglaries have been go-

Lynching At Sulphur Springs.
Sulphur Springs, Texas, Aug. 30—Sulphur Springs is quiet today following yesterday's excitement, which culminated in the burning of two negroes, Joe and King Richmond. The negroes, early Sunday morning shot and instantly killed Deputy Sheriff Nathan A. Flippen

and seriously wounded Sheriff J. B. Butler when the officer attempted to arrest King Richmond on a minor charge. Joe Richmond later was killed and King Richmond, seriously wounded in a fight with posses. The former's dead body was burned with his brother in Buford Park here. None of the members of the posse was hurt.

Back from Berlin.

Houston, Texas, Aug. 25.—Germany is so sure of victory that Nov. 1 is set for the date of the wars end, said George Schnabel of Burnet, Texas who is en route home from a sixteen months' stay in Germany. Mr. Schnabel married while in Berlin.

"Twenty-four hours after war was declared, 4,000,000 men were under the colors" he said. "Germany is absolutely normal. One would not know there is a war. Food prices are at the same level and the government regulates everything."

Cremation Urged For Battle Field.

Buffalo, N. Y., Aug. 27.—The Cremation Association of America, at its convention here today adopted resolutions asking for the abrogation of the decrees of May and December, 1886, prohibiting Roman Catholics to be cremated and also calling upon President Wilson to appoint Dr. Hugh Erichsen, president of the association, to a place on the inactive list of the United States medical reserve corps, so that he may submit to the surgeon general of the army a report comprising an investigation of a report on cremation on battlefields.

Engineer Murdered

Palestine, Texas, Aug. 30.—Saturday night about 11 o'clock the body of Leo DeLaney was found near the railway tracks in the west International and Great Northern yards in this city with his skull crushed in by blows from a 30-inch piece of iron pipe laying nearby. The body was discovered by a switch engine crew. The switchmen immediately notified the officers. Mr. DeLaney had not been dead more than an hour at most, as he was seen in town earlier in the night. Motive for the murder is not known as he had his watch and several dollars in money in his pockets. Officers who, early reached the scene, put bloodhounds on the trail but they would lose it after following it out about 200 yards. The spot where the body was found is near the long International and Great Northern coach sheds in the west end yards, and at night is a very dark and lonely place.

Mr. DeLaney was a bout 60 years of age and for many was an engineer on the International and Great Northern running between here and Houston and Taylor, and was well know among railroad men. He leaves a wife and several children.

Officers are at work on the case today but have no clues to the murderer.

South Carolina is entitled to the sympathy of the world. Cole Blease is trying to come back.

KILLING AT HOUSTON.

Dr. Speer Surrenders After James E Christian Is Shot

Houston, Texas, Aug. 27.—James E. Christian, 55 years old, insurance man of Madisonville, was killed today. Dr. Glover Speer, who moved here from Madisonville in January, following trouble he says he had with Christian, surrendered Dr. Speer was on the porch of his home and Christian on the sidewalk when the shooting occurred. Mrs. Speer was a witness to the tragedy and was hysterical.

Several weeks ago Dr. Speer told the police that Christian was in a vacant house near the Speer home, waiting with a double-barrel shot gun for Dr. Speer. Christian was found in the vacant house, armed and charged with trespassing. The case later was dismissed. Speer has one son, seven years old, while Christian leaves a widow and six children.

Lutkin Wants Good Roads

A rousing meeting was held in Lutkin to consider bonds for good roads in Precinct No. 1. This resulted in an order for \$220,000 bonds. Lutkin also paying more blocks, and putting in a new modern city pump.

Governor Ferguson and President Battle.

The San Antonio Light takes the Governor's side in the controversy against President Battle of the State University, in a leading lengthy editorial. It states that there is a frictional feeling between the A. & M. College and the University, which has much to do with the trouble.

Following are extracts from the editorial in the Light:

The controversy between Governor Ferguson and Dr. Battle over the legislative appropriation for the University of Texas has brought the educational affairs of Texas to a sudden crisis. Whether the crisis shall be successfully passed, or the state's educational system shall be left in a worse condition than before depends upon what use the regents of the university may make of the power which the people have placed in their hands.

The crisis thus reached confirms the opinion recently expressed by The Light—that the university needs as president a man who not only understands thoroughly the educational needs of Texas, but is in accord with Governor Ferguson's constructive policy.

State Railroad to Prosper

Austin, Texas, Aug. 24.—The State Railroad, which operates from Rusk to Palestine, a distance of 88 miles which has been a losing proposition since it was acquired under the Campbell administration, is now practically on a self-sustaining basis, declared C. H. Huddleston, general manager of the road, who was here conferring with the governor and the penitentiary investigation committee.

During the last regular session of the legislature, while the question of appropriations for this road was up for consideration, Mr. Huddleston made the statement that within this fiscal year he would have the road on a paying basis, and he has about accomplished this feat. He stated that the receipts for the month of July this year were \$800 in excess of the same month the year before; that a year ago the road was losing money at the rate of \$1000 a month, while the loss last month, under adverse conditions, was only about \$100, despite the fact that there has been an increase in salaries of employes to conform to that paid by the other Texas lines. He stated that he is getting more tonnage than ever before, being principally inbound business.

No Fight Wanted

When the two bluff bullies made out like they were trying to fight, there were only 3 men present to hold them apart, and two of these three took hold of one pretended fighter. He whispered to the biggest one to go help hold the other fighter, saying, "one man can hold me." That's the situation between the Kaiser and Uncle Sam. They are both easy to pacify.

The Governors Conference.

A conference of governors was held at Boston, yesterday 26th, at which the question of how to handle prisoners were discussed, and there were some novel views given, in set speeches by these great thinkers. Two of them ably opposed capital punishment. But the most sensation address was made by Governor Cole L. Blease, of South Carolina, who heretofore has distinguished himself along the line of queer doctrines. He did not exactly justify or defend lynch law, but he came near it, claiming that lynching was excusable in many respects and beneficial also being protection in its spirit, and in short he made a strong and plausible defense of lynching.

Then Governor Blease went after "the third degree" practice, as used in the north by a populace who rank at lynching in the South. He described the cruel (third degree) treatment that was used in the torture of the unfortunate maniac Prof. Martin who tried to assassinate J. P. Morgan. And what he said of its inhumanity was not a little and none too much. Then he contrasted the practice as done in the north for money with the practice of lynching as done in the South in cases too horrible to think of much less to discuss, which lynchings are due to criminal outrageous violations of liberty, mortality, and humanity perpetrated by degenerate demons in human shape.

Hard To Please.

When all his fields are hard and dry, the farmer views the cloudless sky, and heaves a deep, heart-rending sigh. "The weather bureau should reform," he tells his neighbors, growing warm; we need a good old-fashioned storm. When I was young we always got the weather that would hit the spot; 'twas not too cool nor yet too hot. The rains would come along on time, the crops we reaped then were sublime; the present system is a crime." And when the skies are wringing wet, you still will see the farmer fret. "These rains will ruin me, I'll bet! My fields are shoulder-deep in mud, and still the endless, senseless flood is falling with a sickening thud! When I was young they didn't send such blame fool torrents, without end; the weather was the farmer's friend!" "When I was young!" The magic phrase, that brings back through a pleasant haze the golden, perfect, bygone days! "When I was young" the weather-man was not a bleeding also ran; he followed up a flawless plan!

Henry Challenges Colquitt To Debate

Dallas, Texas, Aug. 28.—Congressman R. L. Henry, candidate for the Senate, according to Waco dispatches, has challenged former Governor Colquitt to meet him in joint debate at the Hill County Fair Sept. 29.

Governor Colquitt tonight stated "that for the present he would neither accept nor reject the challenge."

Secretary of War Garrison Objects to Roosevelt

Washington, Aug. 27.—Secretary Garrison today telegraphed Major General Wood expressing his deprecation that opportunity was given at the citizen soldiery camp at Plattsburg N. Y., for Colonel Roosevelt's sensational speech of yesterday and directing nothing similar should be permitted at any of the other camps.

Secretary Garrison referred to Colonel Roosevelt's remarks on the unpreparedness of the country and the attitude of administration.

His telegram to General Wood was as follows: "I have just seen the report in the newspapers of a speech made by ex-President Roosevelt at the Plattsburg camp. It is difficult to conceive of anything which could have a more detrimental effect on the real value of this experiment than such an incident."

"This camp, held under government auspices was successfully demonstrating many things of great moment. Its virtue consisted in the fact that it conveyed its own impressive lessons in its practical and successful operation."

"No opportunity should have been furnished to anyone to present to the men any matter excepting that was essential to the necessary training they were there to receive. Anything else could only have the effect of distracting attention from the real nature of the experiment diverting consideration to issues which excite controversy antagonism and ill feeling, and thereby impairing, if not destroying, what otherwise would have been effective."

"There must not be and opportunity given at Plattsburg or any other similar camp for any such unfortunate consequences."

Secretary said he had no further actions now under contemplation, that he had not discussed the matter with President Wilson and had no knowledge of the president's views.

Texas City Camps To Be Abandoned.

Washington, Aug. 25.—That the war department has practically concluded to abandon the army camp at Texas City was learned today by Congressman Garner, who conferred with Washington officials concerning the Mexican situation. Final decision of the camp question rests largely with Generals Bell and Funston. If the independent unit at Texas City is abandoned and the regiments sent back to their posts two or three thousand additional troops will be sent to stations along the Texas border.

The Gopher Is A Rich Food

Truly this is an age of conservation; conservation both through economy and utilization of heretofore wasted or only partially used products.

The University of Texas has issued a bulletin enumerating the multiple uses which may be made of the Texas peanut: "No longer may this popular circle adjunct be arbitrarily confined to peanut stands and to red soda water counters."

The peanut, through scientific investigations, has been raised to the standard of the pea and the bean in its relation to modern diet. Many appetizing dishes may easily be made from the peanut, all of which are contained in this little bulletin.

In addition to its prolific yield in Texas, and its consequently cheap price, the peanut is one of the most nutritious foods known to man. Peanut butter, which may be made by any housewife, is said to have three times the food value of a soggy egg sandwich for the school child. Receipts are included in the bulletin for the making of soups, breads, dressings and deserts.

Housewives interested in the use of the peanut as an article of family diet may obtain a copy of this valuable bulletin by addressing the Extension Department of the University of Texas at Austin.

S. M. U. Buildings At Dallas.

Six vans of furniture were unloaded at the girls' dormitory of the Southern Methodist University this morning, which will soon be ready for use, and work is progressing rapidly on other buildings. All will be ready for occupancy in advance of the opening date, according to Frank Reedy, secretary of the University.

The erection of the big water tank and observation tower on the campus was started this morning.

The laboratories in the science halls are being equipped with all the necessary apparatus and materials this week, and they, too, will be ready for the students to step into and start their work, as soon as the classes are organized.

"The number of students making their appearance each day is rapidly increasing," said Mr. Reedy. "Many are already here making arrangements for rooms and board and looking into the course of study which the University has to offer."—Dallas Journal.

Alabama Defeats Women Suffrage.

Montgomery Ala. Aug. 26.—By a vote of 52 to 42 the lower house of the Alabama legislature today declined to permit the people of the state to vote at the next general election on an amendment providing equal suffrage. The bill required a three-fifths majority for its passage.

The weather bureau has been too extremely accurate as to the forecast in east Texas. Rains were predicted and the predictions proved good, but the rains were not wanted proved bad.

Not a Drop in the Bucket

Austin, Tex.—In the opinion of F. C. Weinert, state warehouse commissioner, the \$80,000,000 to be deposited in the federal reserve banks at Atlanta, Dallas and Richmond, as announced by his Secretary of the Treasury McAdoo, to enable national and state banks to re-discount loans on cotton secured by warehouse receipts, is "not a drop in the bucket." Senator Weinert said that it would take double the amount here-in mentioned to properly finance the Texas cotton crop alone, to say nothing about the entire crop alone, to say nothing about the entire crop of the South.

State Senator W. J. Townsend, Jr. of Lufkin, has moved to Jacksonville to make his home there. He will succeed R. O. Watkins, deceased, in the law business. His wife is a sister of Mrs. Watkins. Judge Townsend is a very prominent man at Lufkin, in every sense of the word, and he will no doubt make good in Jacksonville.

CALOMEL IS MERCURY! IT SICKENS! ACTS ON LIVER LIKE DYNAMITE

"Dodson's Liver Tonic" Starts Your Liver Better Than Calomel and Doesn't Salivate or Make You Sick.

Listen to me! Take no more sickening, salivating calomel when bilious or constipated. Don't lose a day's work! Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just take a spoonful of harmless Dodson's Liver Tonic on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tonic. Take a spoonful tonight and if it doesn't straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tonic is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick. I guarantee that one spoonful of Dodson's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

Pen Hearing Postponed

Austin, Texas, Aug. 24.—The penitentiary commissioners have advised members of the investigation committee of the senate that they will be unable to be present on Thursday when a meeting was to have been held for further consideration of the embodiment in the committee report of a recommendation to rehabilitate the Rusk furnace and foundry. An effort is now being made to set a date.

Like The Ship Channel

Houston, Texas, Aug 24.—An inspection of the turning basin and municipal wharf was made by Capt. W. J. Atkinson, of the steamship Belgian of the Leyland line, which is now in port at Galveston.

Captain Atkinson expressed himself as being well pleased with the turning basin and seemed surprised when shown that the water was twenty seven feet at the new wharf.

San Augustine has had two rains within a few days of each other, either one of which was unusually excessive, and the overflow of streams and damages to crops and lands were enormous.

WITH YOUR HANDS TIED by some chronic "female complaint" or weakness, what can you expect? There's nothing you can accomplish—nothing you can enjoy. And no good reason for it. Doctor Pierce's Favorite Prescription will cure you, safely and certainly, if you'll give it faithful use. For every one of these womanly troubles, this is the only remedy: In periodical pains, bearing-down sensations, organic displacements, and every kindred ailment, and in all the nervous disorders caused by functional derangements.

Mrs. FANNIE HARRISON, 202 South Hill Avenue, Dallas, Texas, says:

"This is to certify that I have used Dr. Pierce's Favorite Prescription and I know it is good for it sure did straighten me out. I was where I could not do my work. I lay around all of the time. It was recommended to me by a friend. Will say to those who are suffering in any way from female trouble to take the 'Prescription' and it will straighten them out."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

Thirty Governors

Boston, Aug 27.—Military preparedness and national defense and conservation of natural resources were subjects under consideration today at the concluding meetings of the governors' conference.

The meeting was given over to the consideration of conservation, with former Governor John A. Dix of New York and Governors George Carlson of Colorado and Ernest Lister of Washington as speakers.

A message from President Wilson in reply to the telegram sent to him Tuesday was read when the governors' conference reassembled today. Addressing Governor Walsh, the president said:

"I deeply appreciate and am greatly heartened by the generous resolution of confidence and support passed by the governors in conference, and beg that you will convey to them my heartfelt thanks and my cordial best wishes for a successful and profitable conference. I wish that I could bring the greeting in person."

The speech yesterday of Cole L. Blease, in which the former governor of South Carolina expressed approval of "lynch law," provoked further dissent during the morning discussions. Governor Walsh said he objected to the statement of Blease that "when mobs are no longer possible, liberty will be dead."

"In my judgment," said the Massachusetts executive "there can be no liberty without obedience to law."

Governor Stuart of Virginia said that his was a conservative state and that his people stood first, last and all the time for rigid enforcement of the law.

The German army invading Poland is gradually overpowering the Russians, who were holding it as their own possession. Truck Growers Meet

James D. Greer was delighted at the way his plans worked Friday. He was pleased to see a good attendance of truck growers, fruit growers, and others in the agricultural farmers. They were favored with the presence of Prof. J. A. Evans who had previously been here at the Farmers Short Course, who gave a most enjoyable talk on Pecan culture, and especially as to budding and grafting, which he satisfactorily explained in detail, answering all questions asked. However, there was one question asked by Hense Burrows that puzzled him. It was this; Why do his pecan trees that are about 20 years old fail to bear while they continue to grow? Prof. Evans said he would have to investigate that problem.

Prof. H. M. Elliott, who was here Thursday to assist in the organization of Breeders Association was also present today.

The meeting was impressive, and beneficial, in one other way. Eugene H. Blount appeared and made an appreciated talk on swine raising and cotton loans, in which he proposed to aid farmers from a bankers stand point. His propositions were explained in full detail.

The army Camp at Texas City may be moved to some other unsuitable point. Every crawfish town in Texas is singing its frog song, come here, come here. Since San Antonio already has an elaborately equipped camp, with all kinds of elegant buildings, quarters, grounds etc. this would seem to be the winning point.

Water to Drink in Galveston.

Galveston is supplied with good water, to satiety. The big pipe that brought their water from Alta Loma, miles away, was broken by the storm where the pipe or main passed beneath the water in the bay, and 600 feet could not even be found. This gap has been refilled, and the missing main repaired. So the city can use the water as before.

Mr. and Mrs. Scott Chadwick, entertained Friday evening with a birthday supper, in honor of A. H. Chadwick, father of Mr. Chadwick. He was 75 years old. His children, grand-children and a few intimate friends enjoyed the evening with him, all wishing him many more happy birthdays.

Citation.

The State of Texas.

To the Sheriff or any Constable of Nacogdoches County Greeting:

You are hereby commanded to summon Albert Wheeler, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Nacogdoches county, to be holden at the Court House thereof, in Nacogdoches, on the 1st Monday in September 1915, the same being the 6th day of September, 1915, then and there to answer a petition filed in said court on the 10th day of August 1915 in a suit, numbered on the docket of said Court No. 368, wherein Amanda Wheeler, is Plaintiff, and Albert Wheeler, is Defendant, and said petition alleging that on or about June 1911 Plaintiff and Defendant were lawfully married to each other and thereafter lived together as husband and wife until on or about the 12th day of July 1912 when Defendant, without cause or provocation on the part of this Plaintiff, abandoned her, since which time they have not lived together as husband and wife.

That during the time they so lived together Plaintiff made Defendant a kind and dutiful wife, but not withstanding his marital vows, Defendant abandoned Plaintiff as aforesaid, and has not returned to her, which said abandonment has been for a period of more than three years.

That as a result of said marriage there was born unto her a girl now about two and one half years old, name Fannie. Plaintiff alleges that Defendant is not a suitable person to rear and educate said child, but that she is able and willing to care for and support said girl.

Wherefore plaintiff prays that Defendant be cited in terms of law to appear and answer this petition, that upon a final hearing hereof she have judgement dissolving said bonds of matrimony, for custody of said child, for cost of suit and such other relief that she may be entitled to.

Herein fail not, but have before said Court, on the said first day at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, Claud C. Watson, Clerk of the District Court of Nacogdoches County.

Given under my hand and the Seal of said Court, at office in Nacogdoches this the 12 day of August 1915.

Claude C. Watson, Clerk, District Court, Nacogdoches, County.

Police Shake-Up At Houston

Houston, Texas, Aug. 24.—Six policemen, including one former captain of police, chief's secretary and the Bertillon expert were today discharged by Chief Ben Davison on charges of insubordination.

Nacogdoches County Jersey Breeders Association

The above is the name of an organization that was effected at the court house Thursday afternoon, at a well attended meeting of interested dairy men and fine cattle raisers. There were over 50 men present and they are of the intelligent progressive type.

The meeting took a regular parliamentary shape having a chairman, secretary, and committee on constitution and by laws, which committee made a formal report as to organization that was adopted in due form.

After the adoption of a constitution and bylaws, the organization was completed by the election of officers as follows:

- T. E. Burgess, President.
- W. S. Beeson, Secretary.
- L. W. Liles, Treasurer.
- T. J. Lloyd and R. S. Jordan, Auxiliary committeemen.

There were 16 members enrolled. Membership fee, \$1.00. Quarterly dues 25c.

Annual meetings first Tuesday in August. Other meetings to be set as occasion may require.

Our Colored School

Prof. E. L. Blackshear, who has had charge of the Prairie View Normal, near Hempstead, Texas, for nineteen years, and operated the school somewhat on the style of the A. & M. College at Bryan, has contracted to head the colored school at Nacogdoches. He proposes to develop this school into something far beyond the ordinary. The benefits of such a school is far beyond the colored people. The community in general is benefited thereby.

Plant Pecan Trees.

In his address at the court house to the farmers Friday, Prof. Evans said he was in favor of planting pecan trees along the roads on both sides. He estimated that the yield it used in the market, would pay off the interest and the principal of 40 year road bonds, which would perfect the good roads, at one dollar a foot. And the trees would ornament the roads in a high degree. It would be truly grand.

Death Of M. C. Tynan.

M. C. Tynan, an old respected citizens of San Augustine, died at his home Sunday night at 11 o'clock. He had been in ill health for several years. For many years he had been in business here until his health gave way necessitating his retirement to quiet life. He was about 81 years of age, and is survived by his widow and one daughter, Mrs. Mollie Davis. The funeral was conducted from the home Monday evening by Father Casserly, of Lutkin.—San Augustine Tribune.

Mr. Tynan was once a frequent visitor at Nacogdoches, and quite well known here. He was a jolly Irish Catholic, and he never had an enemy. In fact he has quite a number of warm friends in Nacogdoches.

Hines Wade, an old time resident of the western part of this county, died Friday in the vicinity of Sacul.

Carranza

The Houston Chronicle has a display editorial headed, "Recognize Carranza or Intervene." It is spaciouly spaced, and laboriously elaborated.

But after all is said, the answer can be adequately stated thus. Remember Maximilian.

Intervention placed Maximilian in Mexico. He was well fitted for a humane ruler, a redeemer for Mexico. He was to be the magnimous idol of Mexico. But alas for poor Maximilian. Mexico did not place him in the royal seat, but Mexico displaced him in ignominious defeat. Maximilian became a memory. The Mexicans did not want him nor welcome him. They buried him and made history of him.

And Uncle Sam may profit by this example. And another—Russia intervened and took care of Poland. But the Poles never did consent. What now? They welcome the German conquest. Moral: The Chinese are said to do best, when they mind their own business, and so may we.

Taking The Whole Road

As the number of the automobiles on the highways is multiplied by the price reductions of the past year or two, the complaints become more than ever numerous of the people who "hog" the whole road.

The owner of his own car, in the great majority of cases, is reasonably careful. It costs him good money, and he has no liking for repair bills.

With hired chauffeurs the case is frequently different. They are young fellows who have often acquired little prudence of their own. They would not have to pay for a new car if their machine was smashed.

Also they acquire a great deal of skill, so that they can turn out the least possible distance, and make the turn at the least possible moment before collision. They come tearing down the middle of the street. Other cars go away out on the side. The speeder keeps rejoicing along in the center of the road, thus abandoned to his sole use, and congratulates himself that his daring operation saved him from losing two seconds by making a curve.

Owners of a car that is operated in such a fashion should take the matter in hand.—Beaumont Journal.

To Eradicate Cattle Disease

Austin, Texas, Aug. 30.—Co-operative work between the state health authorities, the federal bureau of animal industry of the federal department of agriculture and the A. & M. College, the state health department and the livestock sanitary commission, was the subject of a conference held here today with State Health Officer, W. B. Collins. As a result of this conference steps are to be taken in a co-operative way to stamp out all diseases of

cattle, special attention being given to anthrax and Texas tick fever. Drs. J. A. Kierman of Birmingham, and L. J. Allen of Fort Worth, represented the bureau of animal industry, and Chief Clerk Walsh of the livestock sanitary commission. Another meeting will be held on October.

Better Mail Service at Same Expense

Washington, Aug. 29.—Postmaster General Burleson announced tonight that he would ask the next congress for an appropriation of \$49,000,000 to provide rural delivery service during the fiscal year beginning July 1, 1916. The last appropriation for this purpose was \$53,000,000 and the department plans to save the \$4,000,000 without reducing efficiency.

Of the amount to be asked \$48,000,000 will be used to maintain the service as it now is organized and the remaining million will be expended on new routes and improvements.

Mr. Burleson said plans already were under way to provide a more modern and larger service during the fiscal year 1917 without increasing the 1916 appropriation.

Middle West Under First Frosts

Washington, Aug. 30.—Abnormally low temperatures prevailed today over the upper Mississippi and lower Missouri River valleys and the upper lake regions. In some places the weather bureau reported today the thermometer showed temperatures which made records for the month of August. Frosts were reported in many places. In some instances they were heavy and caused considerable damage to crops. Over almost all of the sections mentioned the temperatures were from 10 to 23 degrees below the seasonal average. The cold came down from the Canadian Northwest and will spread tonight eastward, reaching the Atlantic States tomorrow. Frost was predicted as probable tonight in Michigan and Northern and Central Indiana and Ohio.

Remington-UMC
—the Deliberate Choice of the Great Body of American Sportsmen

Nowhere else in the whole field of sport do you find the like of the strong public opinion in favor of Remington-UMC.

This Remington-UMC public opinion has been growing for ninety-nine years. Partly it is due to the achievements of Remington-UMC in the design or construction of Arms and Ammunition. But back of these achievements stands the fact that your American is the most practical-minded sportsman in the world

\$100 Pension A Long Ways Off

Austin, Texas, Aug. 30.—In the opinion of Colonel George W. Kyser, former tax commissioner of pensions, the dream of the average pensioner for a pension of \$100 a year will not be realized for several years, or until the death rate among the old soldiers will be considerably accelerated on account of advanced age. As is generally known, the constitution was amended so as to provide for the levying of a special tax of 5 cents on the \$100 property valuation for Confederate pensions, and at the time this act became effective there were only about 12,000 pensioners, but now this number has increased to 18,000, consequently the veterans are now only receiving \$57 a year for this fiscal year, against \$67.50 for the previous year.

Powder Mills Blown Up

Acton, Mass., Aug. 30.—With a shock that was felt with a radius of 40 miles, the glazing mill of the American Powder Company, which since the outbreak of the European war has been working to its capacity, blew up yesterday. So far as known nobody was killed.

The actual money loss to the company was not heavy, but it was stated that work on large orders probably would be held several weeks. Property owners in the surrounding towns, particularly in Maynard, were heavy losers because of shattered windows.

There Was a Storm

We have heard that on the last day of August, 1836, which was just 59 years ago today, there was a great storm in Alabama that swept over a big part of the state. It was wide, it was strong and it was long. It tore up the land and the fullness thereof. Entirely was in its track and received proper recognition by it. Crops and plantations were likewise spread abroad on the ground. Picking cotton, thereafter, meant picking it up off of the ground. An ordinary bale picked up in this way would in some instances, weigh up to about 1000 pounds. It was sandy. But this story is not "sandy." There is a witness, and much more could be told.

State Militia

Austin, Texas, Aug. 30.—While another conference was held today between Governor Ferguson and Adjutant General Hutchings, there was no announcement made as to the probable calling out of the Texas National Guard for duty in the border counties. General Hutchings, however, announced that General Cecil A. Lyon, brigadier general of the guard, would be at Austin on Wednesday, to confer with him and the governor relative to the coming encampment. It is expected at that time the place of holding the encampment will be determined.

The Sentinel today (Tuesday) is publishing dispatches about the remarkable cold wave, in various localities. At our State Experiment Station, Geo. T. McNess, superintendent, reports lowest temperature, Monday night 59, and on Monday morning was slowly rising.

Galveston Trains Wednesday

Galveston, Texas, Aug. 29.—Galveston has been cut off from its municipal water service for two weeks, and it probably will be five days before the main are re-established. Efforts to repair the submerged main having so far proved futile, work was started today on the main across the causeway, which was wrecked when portions of that structure collapsed in the Texas coast storm of August 16-17.

At present a supply of water is being furnished by a temporary eightinch pipe strung along the remains of the causeway, but this service is inadequate to meet the full demand. There is plenty, however, for drinking purposes.

A. W. Gregg of Palestine, representative of the Seventh congressional district, arrived here today to survey storm damage. He stated that he purposes asking a federal appropriation to help rebuild the causeway, as well as to strengthen other storm fortifications. He will be here several days gathering data. Street car and other public service corporations now are in operation and general business is being conducted as usual. Trains will start running in and out of the city Wednesday.

A Texas Tragedy, 1865

The Confederate States war ended about the middle of April, 1865, a little over a half century ago.

A fatal difficulty occurred in Houston on the 6th day of April, 1865, that was quite important and noteworthy, but was somewhat eclipsed by the closing events of the great war.

A difficulty, or more accurately speaking a personal fight occurred then and there, between Col. George W. Baylor, who yet lives in San Antonio, Texas, and Gen. John A. Wharton, who was shot dead on the spot. Both of these officers were from distinguished families. Both were military men of note, both were ambitious, patriotic, brave and heroic, and both held high army rank. Wharton was a major general, and Baylor was about to be promoted to brigadier general.

The question of this promotion was the cause of the difficulty. Col. Baylor had met Gen. Wharton in Shreveport, and presented a recommendation for this promotion, signed by Gen. J. B. Magruder, John G. Walker and Gen. E. Kirby Smith, all of them superior in rank. But Wharton wanted promotion of Col. W. Terrell and Col. David S. Terry. He was partial to them for family reasons at least. Baylor was their senior, but Wharton wanted to pass over him. So, he evaded action, and when afterward the two men met in Houston, to which point both had gone

perhaps on this very mission, Wharton was discourteous in his manner towards Baylor, so much so as to provoke abuse from Baylor. Wharton retorted abusively and but for the quick action of Gen. Harrison who drove off with Gen. Wharton in a buggy in which the two were riding, a shooting on the spot might have occurred.

Col. Baylor proposed after this that they postpone their fight till after the war, saying that they had plenty of other fishing on hand now, and that then they could settle their matter in five minutes, and Gen. Wharton agreed to do so.

Wharton had given as his reason for not promoting Baylor that he anticipated a strong invasion of Texas by the Federal army under Gen. Hancock, and that he wanted Baylor to continue in command of Baylor's regiment because he could thereby be of greater use in defending Texas. In reply Baylor agreed to this postponement upon Wharton's promise to not require Baylor to report to Terrell and Terry, with whom Baylor had quarreled. Baylor already had command of Baylor's brigade, formerly Lane's brigade. Baylor's regiment was then dismounted and sent to Navasota, where Capt. Bell, who was Gen. Wharton's staff officer, came and ordered Baylor to report to Gen. Terry which Baylor emphatically refused to do. Baylor and Bell then boarded a train for Houston. Bell stopped off

at Hempstead to see Wharton, who was there among his home friends at an entertainment in his honor.

Next morning in Houston, Col. Baylor went to Gen. Magruder's office and placed the matter before him. Magruder fully endorsed him and excused himself and stepped out, asking Baylor to wait. He sat down on the side of a bed, and was soon surprised by the hasty entrance of Gen. Wharton and Gen. Harrison who were also surprised. Wharton was still angry at Baylor's abusive talk and he at once began a fuss. This was in the old Fannin house, where Gen. Magruder roomed. Wharton began about Baylor's insult talking angrily and going up to Baylor, who told him he had broken his promise and Wharton called him a liar and struck him where he sat, knocking him over backwards. He drew up his feet and kicked Wharton down backwards. Wharton jumped up and rushed at him again but Gen. Harrison got between them and Baylor quickly drew his revolver and fired, while Harrison was trying to disarm him. The bullet passed through Wharton's heart.

Gen. Harrison said that Wharton was not armed. Baylor did not know this, but supposed he had come prepared and prepared to have it out now. This was the last fight of the war, as to these two military men, for Lee's surrender occurred a few days after this. Gen. Wharton was buried

at Hempstead. Our venerable townsman David Lee was present, and he says that Wharton was buried with his feet to the west, by an oversight. Veteran.

A San Antonio lady says she can tell to whom a certain boy belongs by gazing at the stars. Wonder if she can tell what office Joe Bailey is fixing to run for by reading of that banquet recently given in his honor at Dallas.—Timpson Times.

The Sentinel will say that the Bailey banquet was brightened by a galaxy of great stars, and Bailey was the biggest. The seven wise men may be excused for gazing at such luminaries.

And now again comes Carl Meaus, the "book farmer" of Appleby, with a liberal lot of new crop sweet potatoes to feed the hungry Sentinel family. They are pumpkin yams of the bunch variety, of good size and shape. They were started late, but they grew rapidly, and their superiority is not only in flavor but in yield and other qualities. And we are grateful for this kindly remembrance.

The San Augustine Tribune of 26th ult. published a lengthy history of the old King's Highway, which went from Natchitoches, La. on Red river, to Laredo, Tex. on the Rio Grande. This noted road was first a mere trail through the unexplored vastness, and now it is to be marked by monuments.

"Absolute Rot" Says Tumulty

Washington, Aug. 31.—"Absolute rot" is Secretary Joe Tumulty's brief dismissal of rumors that President Wilson and his confidential adviser, Colonel E. M. House of Texas, have broken off friendly relations over the Mexican situation. A Washington report of yesterday had it that Oswald Garrison Villard, editor of the New York Evening Post, had supplanted Colonel House in the president's private counsels.

"I personally know," said "Peaceful Joe," "that the relationship between the president and Colonel House is most intimate. The reports of a break are absolute rot." Secretary of War Garrison chimed in, too, when he heard that his his action in friendly reprimand to General Leonard Wood in connection with the Roosevelt incident at Plattsburg camp had been inspired by Mr. Villard.

"It's a pity," declared the secretary, "that some people persist in the belief that officials never act on their own responsibility. When it comes to a point where I do not feel capable of acting on my own initiative I will give up my job."

Mr. Villard, by the way is in Washington as a reporter for the Post, of which he is editor.

Arrested in San Antonio

San Antonio, Texas Aug 31.—With the arrest of 26 Mexicans, 23 of whom were detained yesterday, Chief of Police Lancaster and federal authorities believe a plan to incite the Mexican population of San Antonio to deeds of violence has been nipped.

The prisoners, according to Chief Lancaster, are all followers of the plan of San Diego, an extravagant manifesto which proclaims the Republic of Texas for Mexicans. The uprisings in the lower Rio Grande Valley caused the program to go amiss and at the same time federal officials were put on their guard.

First General in Upper Lake Region

Washington, Aug. 28.—Weather bureau experts said today that the cold wave which covered the east Thursday will last only until Sunday or Monday and would vanish into the Atlantic. It extended today to the borders of the south and east from the Missouri river. The coldest place in the United States this morning was Sault Ste Marie, with a temperature of 34, out White River, Canada, record 32. The low temperatures, however, lasted until the sun rose. Frosts have occurred generally in the upper lake region.

To Discuss Rusk Iron Plant

Austin, Tex., Aug. 28.—Members of the Legislature have been invited by the Senate penitentiary investigation committee to be present next Monday at Austin to participate in the conference to be held with the committee by those interested in the rehabilitation of the Rusk iron furnace. Delegations from Rusk and Palestine, the governor, members of the prison commission and others are to participate in the conference. After the conference the committee will decide upon its recommendation on the disposition of the furnace and the iron industry.

State Senator King.

Austin, Texas, Aug. 28.—Senator Steve King of Nacogdoches is another member of the state senate who believes that it was the intent of the senate at least in passing the educational appropriation bill that the appropriations were made on an itemized basis. Senator King is of the opinion that disregarding the strict construction of the portion of the bill whereon claim is made for the privilege of bunching the appropriation, it was the intent of the legislature to appropriate money for items specifically named.

"The intent of the legislature in passing this or any measure, as well as the intent and understanding of the governor in approving the measure must be given consideration," said Senator King. "I am of the opinion that the senate, and I have spoken to several members, contemplated an itemized measure," said Senator King. His remarks bore out the contention of Senator Hudspeth several days ago.

From the view of members of the senate who are in Austin and those who have written the comptroller in answer to an interrogatory by him asking their opinion, shows the majority to have been under the impression that the appropriation measure was an itemized bill and so they voted upon it.

Because of the fact that the measure appropriating the money for the state educational institutions was forced into free conference committee and the clause which by its strict legal construction is now causing some contention was added there many of the members of the legislature knew nothing about it, until the present controversy over the matter has been aroused. It is not at all unlikely that a different method of procedure may be outlined, it possible, to apprise members of the legislature of the important phase of bills coming out of free conference conference committee shortly before adjournment in order that their votes can be cast with a full knowledge that no "joker" has been added to an erstwhile legitimate measure in conference committee report.

A God Send

The Rev. J. W. Behnken of Houston: "So the storm of last Monday night, which wrought considerable damage to thousands of homes, and also claimed a toll of scores of human lives, was without doubt a visitation of God, a punishment of sin." Yes; without doubt. God located Vesuvius on the outskirts of Naples to tickle its sinful inhabitants with red-hot lava; the Chinese, He scourges with typhoons at frequent intervals the East Indians, He afflicts with the man-eating tiger, the hamadryad, cobra, rock scorpions; the mothers and little innocent children of Europe, He lashes with the bloody throng of war—being merciful! How beneficent God is according to the Rev. Behnken! How thoroughly interested in a world to be redeemed by the gentleness of Jesus Christ!—Corpus Christi Caller.

Bailey Honor Guest at Dallas Banquet; Six Hundred on Hand

Dallas, Texas, Aug. 28.—Any Texas senatorial aspirant who attended the banquet given here last night in honor of ex-Senator Joseph W. Bailey, was very quiet about it. Such political significance as attaches to the event does not appear on the surface. The banquet was staged at the Oriental Hotel as a sort of spontaneous emanation. It was a general invitation, with no cards, and the diners filled the dinner tables, as well as themselves. Somebody who counted, found 600 on the inside and a good many on the outside, there being no standing room only accommodations.

The occasion gave the honor guest an opportunity to be heard on cotton contraband and university socialism, both of which met with condemnation. Colonel Theodore Roosevelt also came in for a full share of ex-senatorial displeasure.

On the cotton embargo Mr Bailey said:

"If I were president I would summon congress in extraordinary session in the morning and advise them that cotton had been made contraband by England and her allies. I would recommend that not an ounce of ammunition or pound of steel be shipped from the country until that contraband had been lifted. My prayer is that the United States be kept out of war and when I read in the morning papers that talk of Theodore Roosevelt, I thank God that the American people had shown the common sense to dispose of him. If Wilson laid an embargo on ammunition the allies would lift the embargo on cotton in 30 days.

During the dinner there was much talk of "inducing Bailey to enter the senatorial race." In his speech the former senator expressed the view that he could be of greater service in private life than as a public officeholder.

Bryan Expresses

Chicago, Aug. 28.—William Jennings Bryan was hardly pacific toward Theodore Roosevelt this afternoon in speaking of the Garrison-Roosevelt-General Wood incident. The ex-secretary of state stopped off here just long enough to administer a verbal wallop to the ex-president, before continuing to Indiana.

"It is said to have been an custom," said the ex-cabinet member, "for parents to teach their children the evils of intemperance by taking before them persons in an intoxicated condition. It is possible that Mr. Roosevelt is serving a useful purpose in warning the public of the effect the doctrine of preparedness may have on a man when he gives himself up to it as a regular business.

"I am very glad to see from the papers that the situation is improved," said the Commoner commenting on the German-American crisis. "I am very glad that there is a prospect of the matter reaching a peaceful adjustment."

To Mexican Capital

Washington, Aug. 28.—Advices from Vera Cruz to the state department today said that furniture and documents belonging to the Carranza government were being sent to Mexico City. No mention of General Carranza's inquiry as to whether the pan-American diplomats, in appealing to him for a peace conference, were acting personally or with the sanction of their respective governments will be answered today. Officials stated that Carranza would be informed that Secretary Lansing and the Latin-American conferees attached their full titles with their signatures to the appeal. This, it was said was of itself an assurance that they were acting with authority of their respective governments.

General Carranza today called his agents here saying: "It is untrue that any deaths from starvation are taking place in Mexico City. The food situation continues to improve and has grown steadily better from the date of General Gonzales' occupation to the present time. The constitutionalist government continues the shipment of food supplies in regularly increasing quantities and the distribution is being systematically and thoroughly attended to."

The Cattle Tick

Whereas, The presence of the cattle tick is recognized as a great menace to the cattle industry of the State of Texas, the loss caused by reason of same being reliably estimated at ten million dollars; and,

Whereas, The fact that thirty thousand square miles of Texas soil has been freed of this infection, which proves that the work of eradication is practical; therefore be it

Resolved, That the State Farmers' Institute endorses the work of tick eradication and recommends that the work be extended as rapidly as possible so as to bring aid to all of the farmers of this State; and

Resolved, Second, that the State Farmers' Institute favors the enactment of a law which will permit the County Commissioners to actively cooperate with the federal and state forces in exterminating the tick; and

Resolved, That the Secretary of the State Farmers' Institute by directed to forward a copy of this resolution to the Honorable Secretary of Agriculture, Washington, D. C. under whose supervision the work of tick eradication is conducted.

The Rio Grande greasers, are still polluting the rich soil of that section. They try to raise sand and they succeed in making dust, or else light a shuck. In plain language, those bandits are yet banding and briganding, and as a result they soon hide out, but they come again.

The German army is still going on from victory to victory. Germany is now in a position to propose a peace conference, or a truce.

HAVE YOU BEEN SICK?

Then you realize the utter weakness that robs ambition, destroys appetite, and makes work a burden.

To restore that strength and stamina that is so essential, nothing has ever equalled or compared with Scott's Emulsion, because its strength-sustaining nourishment invigorates the blood to distribute energy throughout the body while its tonic value sharpens the appetite and restores health in a natural, permanent way.

If you are run down, tired, nervous, overworked or lack strength, get Scott's Emulsion to-day. It is free from alcohol.

Vain Fears

Why should I fear the hour of going? I'll venture forth, like some good sport, upon the silent tide that's flowing to an unknown, uncharted port. The world joggled before my coming, as it will jog when I am dead, the spheres will on their course go humming, the stars will glitter overhead. Man fears his passing, but he'd ortn't; the vine that to yon trellis clings is just as valued and important, in old Dame Nature's scheme of things. Am I more craven than the creeper that shades the doorway of my coop? Shall I be coward doubter, weeper, when these old vines don't care a whoop? The roses do not fear the weather that puts the finis to their bloom; they scent the summer air together, and unprotesting meet their doom. Have I less courage than the roses, shall I forsake my cheerful grin, when some old sawbones grim discloses the solemn fact that I'm all in? The lovely roses and the lillies the boys and damsels all must go; it's natural; why have the willies? It's no excuse for fear or woe.

Cow Hides Wanted.

Hides are in good demand and are bringing good prices, and it is worth while to handle them right. In skinning try not to cut or score the hide. Spread it out, flesh side up, and give it a heavy shower of salt. This is absolutely necessary at this time of the year. Fold it up and put it in a sack. Write your full name and address on two tags. Put one inside of the sack, and one outside. Ship by express to A. Golenternek & Co., Tyler, Texas.

Until further notice we will pay 13 cents per pound for hides handled according to the above instructions. We remit the same day that we receive the shipment and we also furnish shipping tags. Horse hides bring from \$1.50 to \$3.00 each, according to the size. We also handle wool.

A. Golenternek & Co., Tyler, Texas.

Swan Creek, Mich.—“I cannot speak highly of your medicine. When through neglect or overwork I get run down and my appetite is poor and I have that weak, languid, always tired feeling, I get a bottle of Lydia E. Pinkham's Vegetable Compound, and it builds me up, gives me strength, and restores me to perfect health again. It is truly a great blessing to women, and I cannot speak too highly of it. I take pleasure in recommending it to others.”—Mrs. ANNIE AMERON, R.F.D., No. 1, Swan Creek, Michigan.

Alto Man Lost.
Orlean W Lanier, a conductor on the South End line of the Houston Electric Company, is believed to have been a victim of the hurricane at Virginia Point and friends have been searching for his body for several days.

Mr. Lanier was off duty on Monday, August 16, and is said to have started for Galveston on the 2 o'clock Interurban car that was stopped at Virginia Point. He is said to have been a member of the party that took refuge in hotel collapsed. His parents reside at Alto, Texas. He roomed at 70 Milby Street, but has not put in an appearance there since the storm, and has been given up as lost.

Dr. J. M. Crawford of Alto a friend of the Lanier family has been at Virginia Point and Texas City in search of information concerning the young man, but thus far his inquiries have proved fruitless. He was in Houston Tuesday and consulted with officials of the electric company, and also visited the house where Mr. Lanier roomed. An examination of his effects shows him to have been a man of frugal habits. His savings were invested with the company and a pass book found by Dr. Crawford shows entries of substantial dividends. Dr. Crawford will make another trip to Virginia Point and also go to Galveston to see if the finding of young Lanier's body has been officially reported.—Houston Chronicle.

Accident to Edison
West Orange, N. J., August 25.—Thomas A. Edison, while at work in one of his laboratories at Silver Lake, near Newark, today, was painfully though not seriously burned about the eyes by the accidental splash of a potash solution. Mr. Edison was leaning over a filter when his assistant opened the wrong stop cock and the solution was thrown into his face. He quickly bathed his eyes.

While his eyes were still smarting when he went home Mr. Edison returned to work after dinner and it was stated at his home that he had suffered no ill effects.

On a Lecture Tour
R. Louis Routt, the lecturer and preacher of Texas fame, is here for a few days enroute to Western Oklahoma and the Panhandle. He goes from here to Frankston to fill lecture dates in his itinerary.

Mr. Routt lectures upon the European war and is classed with some of the very best authorities in this country. He has spent years in historical research, having had access to some of the best libraries in the United States. His lectures upon “The Passing of the Turks,” “The Forces that gather for Armageddon” and “Will there be World's Peace,” are replete with Biblical and historical information.

Jim Hogg County Needs Protecting.

Laredo, Texas, Aug. 25.—Sheriff Oscar Thompson of Hebronville, Jim Hogg county, Texas, has requested Captain Ransom, commanding United States troops at Hartlingen, to send soldiers into Jim Hogg county for protection against roving bands of Mexicans, who, according to the sheriff, are stealing horses and threatening citizens in the eastern end of the county. There are two bands of Mexicans, the sheriff says, one composed of four and the other of sixteen members, with which the small force of deputy sheriffs can not cope.

It was not known early today what action Captain Ransom had taken.

Send Melons on to New York
How to dispose of 3000 watermelons, bought for the celebration that was planned in honor of the arrival of the Satilla, is a problem that has confronted the committee in charge of the abandoned jubilee.

Judge Kittrell has offered a solution that has met with some favor, and it may be carried out. Judge Kittrell's plan is to have the melons iced and shipped to New York on the Satilla for distribution among the merchants of the metropolis with whom the merchants of Houston do business as a compliment from the City of Houston.—Houston Chronicle.

Obituary
On the evening of August 22, 1915, just as the sun was sinking over the western hills, the Angel of death visited the home of Mr. and Mrs. John Rogers, and spread its dark mantle over their precious little son, Fred.

His remains were laid to rest in the old Stone Cemetery. For 3 years and 10 months his little life was spared on this earth to gladden the hearts of his father and mother and three affectionate brothers and one sister.

Weep not dear parents, while yet it seems so hard to part with one we loved well.

We should endeavor to submit to the will of our all powerful God, that doeth all things well, who saw it fit to call little Fred home. Father and mother, whose hearts are aching with grief, and whose home is left sad and lonely. Try to take comfort in the thought that the separation is not far long, but he has just gone on to rest with Jesus, and beckon to you to join him and that your loss is Heaven's gain. He was just a rose, budded on earth to bloom in Heaven. Remember what the poet says in this little song.

Bloom bright sweet roses bloom brightly above,
The mound that closes the form we love.
Diffuse o'er his bosom the sweet perfume,
From each growing blossom that smiles o'er his tomb,
I'll tell to the weepers in whispers low,
Tis well with the sleeper who is resting below.
Oh tell us the spirit of him that we love
Has gone to enlist in the Kingdom above,
Then blossom sweet roses, your fragrance bestow,
On him who reposes in silence below.

Thy language unspoken is more to my heart,
Than any love token that friends could impart.
Written by his cousin,
R. Q. Baugh.

The Beaumont Enterprise published a letter from S. B. Cooper, former congressman, favoring a general, energetic move at once, to make Beaumont a harbor and a water port. Every reason exists in favor of it. It will be done sooner or later. The exigencies of the present day demand it. The sooner the better.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: “I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me.”

Theford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

United Missionary Meeting.

On Monday afternoon August 30, the Missionary Societies of the town met in joint session in the Sunday School rooms of the Baptist church. The ladies were met at the entrance by Misses Irene Clevenger and May Cavin, who ushered them into the well lighted and tastefully decorated rooms comprising the basement of the building.

The devotional exercises were well conducted by Mrs. Ed Smith and consisted of a scripture reading, a song and a prayer.

Mrs. Chas. Perkins presided and the program she had arranged was beautifully and effectively rendered by those who took part. On invitation the next meeting will be held with the ladies of the Methodist church.

A tree will offering was made, after which the following numbers were given.

Welcome, Mrs. T. D. Hill. Response, Mrs. A. H. Smith.

Married

At the court house at 5 p. m. Tuesday, Aug. 31, 1915, Mr. L. S. Wilkinson and Miss Dora Brown were married by County Judge, John F. Perrette in the presence of only a few friends.

It was a "run-away" at first. The couple had been to Louisiana and failed to get license, and on their way back to Lutkin near which town they live, they stopped off here, and got County Clerk Orton to phone to the girl's mother. Mrs. Brown gave in and that settled it. They will at once return to Lutkin.

Fair Directors Meet

The meeting called for the Fair Directors last night at the county court room was not well attended. There is not much active interest taken in the affairs of the fair, though there seems to be a kind of general wish it may revive. The signs are that the organization will quit out. No official action taken, but there was an agreement to call another meeting for next Monday, to see what shall be done. Watch the Sentinel for a call.

Mr. and Mrs. Henry Mast have returned from their big trip out via Dallas to Mineral Wells in an automobile. They did not walk back but they had to leave their machine and come home on the train because the big storm spoiled all the roads and all the fun. They had some real tough experience to relate.

Leak Leaves State

D. A. Leak who has been preaching and teaching in Shelby county for many years will leave with his family on Tuesday of next week for West Point, Miss., where he has accepted a position as the head of a Christian co-educational institution, announcement of which was made sometime ago.

For a number of years Bro. Leak has been a successful teacher and we feel no hesitancy in saying that his service will prove to be of great value to the school he goes to join.

Many people of Tenaha and East Texas regret the removal of this good family, but live in hope that some day they may return and abide with us.—Tenaha Messenger.

Editor Sentinel:

As I have never written to the Sentinel before, thought I would drop in a few lines.

Health of our community is very good at present.

Mrs. Jane Smith has been sick, but we are glad to say she is able to be up.

We have been having lots of rain and the farmers say it has damaged their crops very much.

Joe Harris carried a load of watermelons to Chireno last week. We all wish him much success in selling them.

Joe Burleson, of San Augustine, has been visiting his friend Porter Stokes.

Mr. and Mrs. Dee Pace gave the young folks a singing last Saturday night. Had a large crowd, and every one reported a nice time.

Miss Stella Harris attended the meeting at Melrose Sunday.

Miss Mae Goldsberry is visiting her sister, Mrs. A. H. Wilson of Chireno.

Miss Lillian Fowler has been visiting friends and relatives of the New Hope community.

Miss Genie Thomas and Mrs. Johnnie Matthews, of Melrose, were the guests of Miss Stella Harris last Thursday afternoon.

Miss Inez Walker, of Switt, has just returned home from where she has been visiting her sister, Mrs. Pearl Kendrick.

A crowd of young folks attended the meeting at Melrose Wednesday night. All had a jolly time and enjoyed the meeting very much.

If this is printed I will come again.

Stayed Yearling

A pale red or fawn colored heifer yearling left my place Aug. 16th. Will pay reward for return or information leading to return. J. H. Partin, Mahl, Texas. w2t

Judge and Mrs. F. A. Lockhart, of Pittsburg, Texas, who have been guests of Mr. and Mrs. C. W. Butt, returned to their home Sunday night. Judge Lockhart is proprietor of the Pittsburg Gazette. This Editor had the pleasure of meeting these charming people, and hearing the Judge read some of his humorous poems, which proclaim him a versifier of a high order.

Mrs. H. R. Doolittle and family, who have made Diboll their home, are moving back to Nacogdoches.
